I don't think the weather has a thing on earth to do with illnesses, with the exception perhaps of arthritis. We have had a week of freezing temperatures before sun-up and downright hot weather in the afternoons, and the flu and illness epidemic seems to be on the wane. Such drastic temperature changes would surely have the entire population stricken if weather influenced illness. Right?  
kk

It is just my personal observation that the government's Phase II (fight inflation) plan is hardly worth the effort. If they plan to allow food prices to soar, it seems to me we are going to be worse off than before the price freeze. We can do without most of the things prices are fixed on, but who can do without food? According to recent reports meat prices are going to travel well over the top in the next few months. Since the freeze, I have noticed food in general has cost more. The government hopes a levelling-off period will set in within the next few months, but most grocery shoppers think the chances are pretty dim, so do retailers for that matter. They are forced to fall in line with the wholesaler's price increase, and still the food producer complains of a small return on his product. Vicious cycle, isn't it.

The average person has very little time to consider the President's visit to China and its historical aspects, when he is forced to worry about stretching his pay check far enough to feed his family.  
kk

By the way, just a little reminder, we don't print letters to the editor unless they are signed. Just a signature will do, it is not necessary to have it notarized, or even sent through the mail for that matter.

One such letter was received this week and we thought perhaps the second page was missing. The final paragraph didn't seem to be complete and no sign-off at all.  
kk

Well, I'll be darned, I just read where the leaders of the bloody riots in Chicago during the Democratic convention four years ago are going to be on hand this year at San Diego to harass the Republicans. I remember the trial of the "Chicago 7" well and the three were tried and convicted. To my knowledge they have never served their time nor have they been rehabilitated.

After several months of trail in a circus atmosphere, and harrasing the judge, they were all convicted on one charge or another, and I do believe they were sentenced. How is it that they have been turned loose on society for an instant replay?  
kk

Tonight's the big night for the Chamber of Commerce with the annual banquet scheduled for 6:30 at the civic center. Everybody's invited and if you didn't get a ticket from any of the hot-shot salesmen, you may purchase same at the door. Ticket sales were pretty poor at the end of last week. This just might mean a double serving for all who attend. That should be some incentive, at least to the men folk.  
kk

Girls if you have snapped your husband's head off recently for no good reason, don't feel badly about it. Just remember all the times he has needed a good tongue lashing in the past and you didn't do it for one reason or another

1972 LION CAGERS-- The above team should be a real threat to its district opponents next season. All will return to the court next year save two members of the senior class. The boys are from left to right, Gary Whitley, Randy Crawford, Monty Pelt, senior captain; Rick Webster, Mike Jenkins, senior captain; David Sewell, Gerald Huff, junior captain, and Ruben Tambunga. The team had a disappointing season in district play this year against senior ball clubs, but ended the season with an overall 12-15 record.

## Board Reviews Year's Hospital Operations

With its three new members for 1972 present, the Crockett County Hospital Board met Thursday night and organized for the year. Joe Couch, a hold-over member and president of the board, was re-elected to that post and Sam Perner was re-elected vice president. He, also, is a holdover member. Dick Webster, a newly appointed member, was named secretary.

## Observe National Future Farmers Week Feb. 19-26

Members of the Ozona FFA Chapter join with over 430,000 Future Farmers of America in celebrating National Future Farmers of America Week which starts February 19.

Throughout next week the state's chapters are planning activities to support the FFA Week theme, "Youth with a Purpose."

According to president Chuck Womack, the Ozona Chapter will furnish printed church bulletin inserts and bumper stickers for FFA members.

National FFA Week always includes George Washington's birthday in observance of his leadership in promoting scientific farming practices. Washington is considered the patron saint of the FFA and has come to symbolize the FFA Treasurer.

Organized in 1928, the FFA promotes leadership, cooperation and citizenship among high school vocational agriculture students. The FFA Foundation awards program provides chapter, state and national recognition for supervised programs of agricultural production, marketing, processing and service.

BULLETIN BOARD WISDOM-- This bit of timely observation on the Ozona United Methodist Church memorial bulletin board is this week's contribution by Pastor John B. Berkley. And there's not likely to be any change with Phase II.

## Spot Crockett Wildcat Test

W. S. H. Producers, Midland, will drill the No. 1 Hayes Heirs, a 2,850-foot wildcat in Crockett County, 27 miles northwest of Ozona and 7/8 mile northeast of the Shannon (San Andres) field, but separated by failures.

Location, on a 640-acre lease is 467 feet from the south and 2,173 feet from the east lines of 3-Q-D&SE. Elevation is 2,761.3 feet. It is also approximately 1/2 mile west of Moore Exploration 1 Ryburn, a 8,150-foot Ellenburger failure, abandoned in Dec. 1951.

## Lee Schweitzer Shows Champions

Lee Schweitzer, son of Mr. and Mrs. David Schweitzer of Midland and grandson of Mr. and Mrs. Walter Augustine of Ozona, had the Finewool Champion of the Show and the Crosbred Champion of the Show lambs at the Midland Livestock Show held recently. The finewool champion was bred by Mr. Augustine on the Augustine ranch near here.

## Routine Matters Occupy Court In Monthly Session

The Crockett County Commissioners Court met for its regular monthly session Monday. The court received the monthly reports from the various county operations.

Larry Curtis of Shell Oil Company was on hand for the meeting and was host to the court at lunch. He expressed concern over the recent court decision concerning ad valorem taxes for financing public schools.

Judge Troy Williams gave a report on a recent meeting of area county judges held in San Angelo. Purpose of the meeting, Judge Williams said, was to organize the Adult Probation Officers by Judicial Districts. He said the group anticipated that there will be a four county adult probation officer to take care of Upton, Reagan, Crockett and Sutton counties with Crockett County retaining its juvenile probation officer.

A recently-passed statute authorizes collecting up to \$10 per person on probation each month to pay the cost of handling his reports. This is expected to almost fund the cost of adult probation, according to the judge. However, it is anticipated that the county will receive a grant to fund the cost for the first two years to get it off the ground.

## New License Plates On Sale February 1

The new plates have green letters on a white background. Motorists may register vehicles by taking the three-

## Lions Drop Season Finale To Stanton

This year's Ozona Lion Cagers wound up the year last Friday night with a 1-9 District record and a 12-15 record for the year. The majority of the varsity came from the junior ranks, and will return as a stronger team next year.

Monty Pelt and Mike Jenkins will be lost to graduation. Jenkins was injured early in the season and was only able to play the last few games of the year.

The Lions lost their second district game with the Big Lake Owls Tuesday night 57-47. Jenkins led the scoring for the Lions with 20 points. Friday night the Lions bowed out to Stanton 60-54. Again Jenkins was high point man with 16, while Ruben Tambunga hit for 11.

part form to the county tax office. The renewal form, which was mailed to all vehicle owners earlier this year, should not be separated but taken to the tax office intact. It takes the clerk only a fraction of the time it used to take to process the form, collect the fee and issue new plates.

With the form it is not necessary to bring last year's license receipt and the title to the vehicle. However, those who do not have the three-part form must have license receipt and title in order to register vehicles and purchase plates.

Texas motorists can get their 1972 license plates by mail if they send in the form, the registration fee and one dollar to their county tax office before March 1.

This allows for the 30 days that are necessary for the application to be processed and the license plates delivered before the April 1 deadline.

During the month of March, owners must apply in person to obtain their plates.

Mrs. Aaron Bledsoe of San Angelo, formerly of Ozona, is state president of Epsilon Sigma Alpha sorority, and presided last week at the Texas State Council executive board meeting in Odessa. Mrs. Bledsoe is the daughter of Mrs. Monta Mock of Ozona.

## Bill Seahorn Announces Bid For Commissioner

W. P. (Rosy) Seahorn, Jr., tossed his hat in the ring this week for the Precinct 1 Commissioners race and announced for a place on the ballot for the Democratic Primary May 6.

Seahorn is a native of Ozona and Crockett County. He was born here and has lived here all his life with the exception of his hitch in the U. S. Air Force during World War II.

Seahorn is a rancher and a land-owner in the county. He has been a member of the school board the past six years. He is past chairman of the ASC Board of which he has been a member for years.

In announcing his candidacy for the post of Commissioner, Precinct 1, Seahorn said he felt his ranching experience and civic work over the years qualified him to serve ably in the office he is seeking.

"I would like to work toward securing a nursing home for our county's senior citizens without raising county taxes," Seahorn said, "and I would be able to devote my full time to the job. Everybody's problems will be given personal consideration," he added.

Mr. and Mrs. Seahorn have a daughter, Rebecca who is a junior in Ozona High School, and a son, Pon, an employee of the Sonora National Bank.

PLANNING THE EARLY SPRING OPENING OF "THE BIG O' THEATER" are Mr. and Mrs. Tom Mitchell, center, and Mr. and Mrs. Ed Collett, Construction got under way the first of this year for the new drive-in movie theater which will be located about two miles north of Ozona on State Highway 163. The new facility will be one of the finest in this area of Texas and will feature family movies only. The foundation has been poured for the large building which will house the concession stand and an

auditorium with seating capacity of about 100. Patrons will view the large outdoor screen from a completely paved parking area. The modern new concession stand will feature a variety of goodies and will be equipped with the finest equipment available. Barring delay of equipment arrival or building construction, the theater will be open to the public early in the spring of this year. Mrs. Collett will manage the facility. (Photo by David Wallace)

**SENSING the NEWS**

By Anthony Harrigan

EXECUTIVE VICE PRESIDENT

Southern States Industrial Council

TRUTH-TELLING AVOIDED

The State of the Union message has become a political ritual in which the President gives a lengthy pitch for his programs. No longer is the traditional message a strict accounting of the country's condition. This year's message was no exception to the new rule.

Behind the political rhetoric, however, is the grim reality of America's worsening fiscal plight. The truth is that the United States is getting deeper and deeper into debt. And the administration and the Congress seem determined to ignore the end effects of massive deficits. The truth is that the federal government is spending much more than it obtains in the form of taxes. Moreover, both the WhiteHouse and the Congress want to step-up spending. The American people are told that deficits aren't hurtful. They are advised that the proposed budget is expansionary but not inflationary, a sample of word trickery that may cost our people dearly in the years ahead.

It is time to cite the late Sen. Harry F. Byrd of Virginia, who declared: "If increasing taxes or deficits to meet continuously higher expenditures is to be our course, it is obvious that neither our system nor our form of government can endure."

Sen. Byrd was a voice crying in the wilderness when he spoke those words in 1949. Twenty-three years later our nation's plight is infinitely worse, despite the surface prosperity. Today, the national debt is almost twice what it was when Sen. Byrd voiced his warning. The federal budget has soared in the period from \$45 billion to \$229 billion. Even more serious than the statistics is the apparent willingness of the American people and their representatives to accept sophisticated explanations of their plight. Sophistry was defined by the ancient Greeks as making the worse appear the better cause.

For example, a high administration spokesman recently said that the new federal budget would be a responsible budget for the fiscal year 1973.

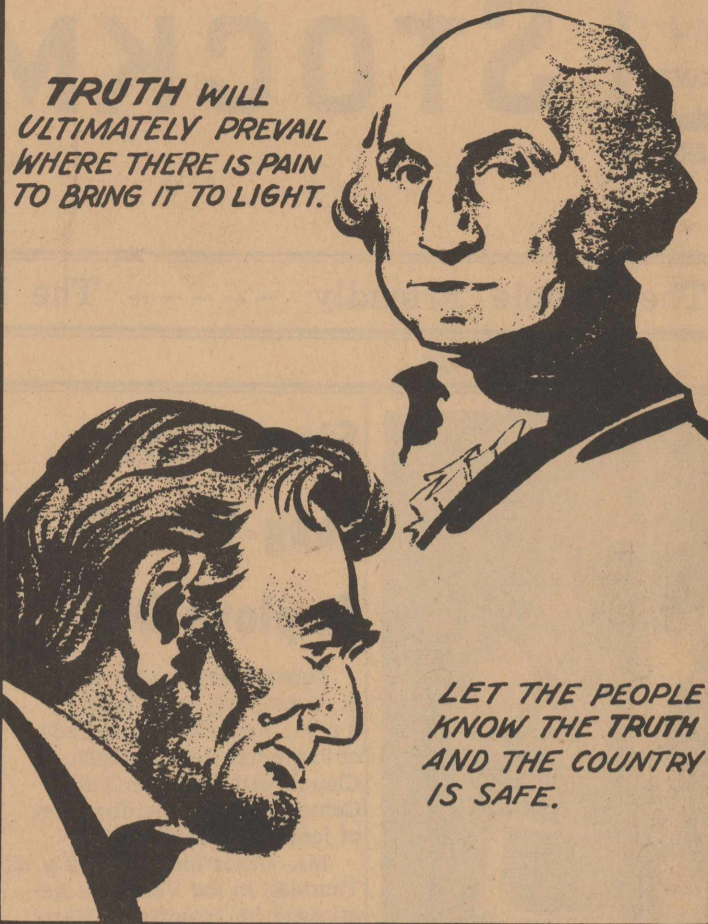

a budget that would come into balance if the country were at full employment. President Nixon made the same pitch in the State of the Union speech. But everyone knows that full employment is defined by economists as no more than four per cent unemployment. Today, however, we have six per cent unemployment -- and there's no reason to believe that it will decline to four per cent during the next fiscal year. Therefore, the federal budget will be out of balance in fiscal year. Therefore, the federal budget will be out of balance in fiscal '73 -- and administration officials and members of the Congress know this. The deficit for fiscal '72 may reach the astronomical figure of \$40 billion!

In other words, the executive and legislative branches of the federal government are indulging in mumbo jumbo. An effort is being made to fool the people, to make them feel comfortable when, in fact, they should be deeply concerned. The Nixon administration makes a serious mistake in trumpeting good times when it is proposing to spend more than it expects to take in. It should be recognized, however, that the administration's spending proposals are small bore as compared to the colossal outlays proposed by the liberal opposition in Congress. The liberal plan for federal spending is a design for economic disaster. The McGoverns, Muskies and Kennedys are authors of programs that would cause the already swollen federal budget to reach the explosion point.

Nevertheless, the Nixon administration is in charge of the budgetary machinery and must be called to account. Given the financial realities, there is no excuse whatsoever -- except politics -- for continuing to promote the welfare expansion bill known as the Family Assistance Program.

**AS DISTINGUISHED FROM POLITICIANS**

**RESPONSIBILITY IN GOVERNMENT**

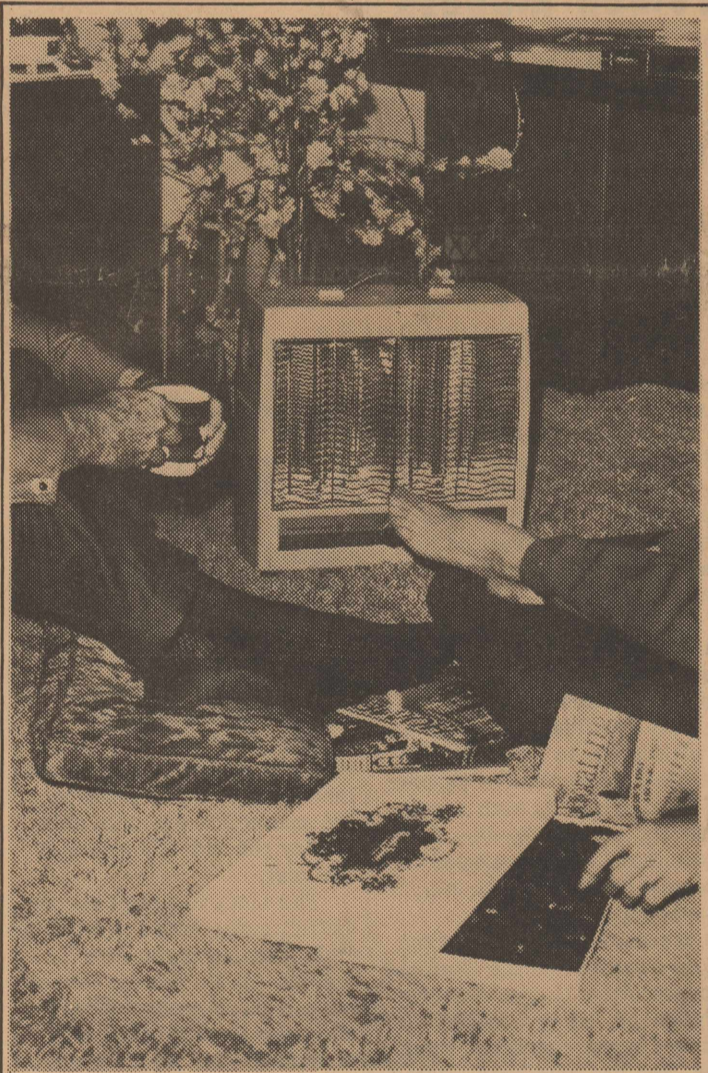

It has been said that the difference between a politician and a statesman is one hundred years. This becomes more evident as we begin to hear the rhetoric of a national election year. It takes real statesmanship to speak out for or against issues which might adversely affect a candidate's reception at the polls.

Two of our great Presidents, whose birthdays we celebrate this month, had the courage to speak their true convictions.

George Washington aptly expressed his feelings when he said, "Truth will ultimately prevail where there is pain to bring it to light."

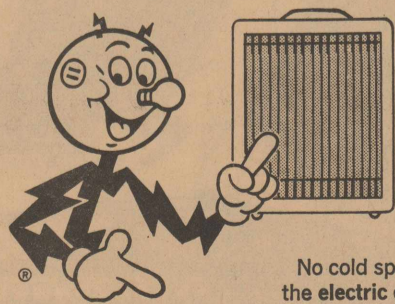

And Abraham Lincoln showed confidence in the fair judgment of the electorate when he said, "I have faith in the people...the danger is in their being misled. Let them know the truth and the country is safe."

These comments are especially appropriate in this election year.

## Tips For Gardeners

From the  
Ozona Garden Club  
By  
Mrs. Bailey Post

In our area pruning is an important task that requires attention during February. It may be best to watch the evergreens that were damaged by the severe freeze and begin pruning just before new growth begins. All wood that doesn't put out should be removed.

Dormant oil spraying of fruit and pecan trees for insect control should be this month. Select a day free of wind to do this successfully.

To remind you again, all bare root ornamentals and fruit trees should be planted this month or early March.

You may be surprised to find branches of spring-flowering trees and shrubs in bud, that can be brought in for forced blooming. Place the branches in water and keep in a cool room with subdued sunlight. Flowers should open in two or three weeks.

Your soil is very dry, so do not fail to water evergreens and newly planted trees, shrubs and plants.

This is a good time to start hanging baskets, if you want them well advanced for outdoor display in the spring. There are many attractive plants you may start yourself, or buy from nurseries.

If you plan to exhibit potted plants in the flower show in April, they should be in your possession. Keep them in your possession. Keep them turned regularly so they will not develop more on one side than the other. Plants that bloom need to have sunlight, but not too intense to burn the foliage. Dish gardens and planters should be started also, to be well established by show time. Use a variety of plants that require the same kind of soil, amount of water and sunlight.

New flower and garden seeds are available now, so if you intend to plant any, they should be purchased before your favorites are gone and no more to be found.

Garden spots are being prepared for early planting, and some have already lettuce, mustard, parsley and other hardy varieties. Onion slips are available too for planting.

When does a baby start to think?  
Nobody knows, but thoughts come by association. Baby eagerly responds to the sight of a bottle. Experience proves that the bottle offers both satisfaction and comfort.

Because baby does learn by association, it is important that parents expand their children's horizons. A very small child will respond to a simple prayer. And a child of three will enjoy attending Church School geared for youngsters of that age.

Religious instruction and guidance is not only for the mature -- it is needed regularly by everyone. The spiritual life of your child needs constant cultivation and the mind needs day by day development.

LAY-AWAY FOR GRADUATION

(Continued from page 1) ground.

Judge Williams and Commissioner Glenn Sutton reported on attending a two-day workshop for judges and county officials the past week at Texas A & M University.

Bids were opened for a new 1/2-ton pickup for use of the county road supervisor and Rutherford Motor Co. had the low bid.

Following the regular meeting of the Court and Judge William made a trip to Sterling City and met with Sterling County Judge Martin and hospital administrator Mildred Emory, and inspected that county's new hospital and nursing home.

The Sterling City facility is a small, but very well planned and equipped nursing home of 18 rooms. Inquiry brought out the fact that only 11 votes were cast against the bond issue and at least one of those was voted by mistake. The entire court was impressed with the home.

Washington News Letter

By Congressman O. C. Fisher

This being 1972, it's Election Year. It seems that when one campaign is finished another is already underway. But that's the name of the game.

Folks have been extremely generous in the past by always giving me the overwhelming victories, which is most gratifying.

1972 is due to be a very busy year up here. As chairman of a subcommittee which handles all legislation relating to the nation's military manpower (both active and reserve), the National Guard, ROTC, and related matters, it is my duty to conduct extensive hearings. This, along with heavy mail and other work, will explain why I cannot be in the district as much as I would like. My official duties must, of course, come first.

In regard to campaigning, whether opposed or unopposed or whether it be election year or not, I "run for office" the year 'round. I do this in the form of attention to problems of constituents and those arising in the 21st district; achieving a voting record consistent with the best interests of our nation and its future; and maintaining a close rapport with those I represent.

This year I have four opponents -- two Democrats and two Republicans. I am not personally acquainted with any of these candidates, but I am sure all of them mean well. The right to seek office is as sacred in a democracy as is the right to vote.

Of the two Democrats in the race, the press reports one is a student-artist and the other has been in the restaurant business. Of the two Republicans, one is listed as a teacher and the other (according to the Dallas Times-Herald) was formerly connected with OEO's Job Corps in San Marcos, and more recently has been project director of a state-wide desegregation function, operated out of Austin.

I don't know how it is down deep in the heart of Texas, but around here -- chiefly in the Senate, I like to think -- they say the air is full of politics, and vice versa.

Do you really want your brother-in-law to know how much you earned last year?

Of course not. It's nobody's business but your own.

However, annually millions of taxpayers bear this kind of personal information to people who really shouldn't know. For what? Just so they can save a few dollars doing their income tax.

That's some price to pay. You see, for only a few dollars more than it costs to do it with any amateur who might not know that work clothes in some instances are deductible, or that income averaging might save tax dollars, you can have your tax return done by a specially trained member of the H & R Block team with complete confidentiality. There are thousands of them in over 6,000 conveniently located offices. H & R Block's fees start at \$5 and the average cost was under \$12.50 for the 7 million families we served last year.

Furthermore, if your return is audited we will accompany you, at no extra cost, to the Internal Revenue Service and explain how your return was prepared, even though we will not act as your legal representative.

This means that H & R Block is ready to offer you year round tax service for just one low fee a year, with no extra charge for audits and estimates.

Yes, we cost a little bit more than your relatives or friends or neighbors but when you think of what we deliver, you can't afford anything less than H & R Block.

DON'T LET AN AMATEUR DO H&R BLOCK'S JOB.

H&R Block.

And, in truth, we've had our hands full keeping up with the zooming demand for increased phone service. But General Telephone and, in all fairness, the other phone companies haven't been sitting around counting dimes. For some time now, we've been paying a healthy "phone bill" ourselves trying to make our service do everything you expect of it. And a few things you don't expect. During the next five years we'll be spending millions of dollars in the areas we serve upgrading and expanding every phase of our phone operation. From laying underground cables (an important, if invisible area) to customer contact service (an equally important, but highly visible area). But no matter how much we spend on equipment and expansion, it's what we do for you in your home or business that counts.
