Kitty's Korner

By Kitty Montgomery

It was a dull week around here until Tuesday and then the roof fell in. We thought we would do well to fill up four pages this week, got ready for six, and ended up with enough news for eight. That means, of course, a trip to the chopping block for some of our longer stories. But, that's life and the Tuesday deadline.

This is the only business I know of that when you get the job done, you immediately tear it up and start all over again. That old saying "You don't have to be crazy to work here, but it sure does help" doesn't even apply here, because if you aren't crazy when you start out, you soon will be.

Next week is Girl Scout Week, and I am sure you would have to look far and wide to find a more active bunch of Girl Scouts than we have here in Ozona. So our congratulations to our Girl Scouts and their leaders, and the scouting program which has played such an important role in the lives of American girls during the past 60 years.

Girl Scouting was organized March 12, 1912 in Savannah, Georgia. The founder, Juliette Gordon Low, began the organization with a troop of 18 girls. Today nearly four million girls, men and women are active in the program which is dedicated to "the purpose of inspiring girls with the highest ideals of character, conduct, patriotism, and service that they may become happy and resourceful citizens."

Ozonans turned out in great number Sunday afternoon late when a helicopter ambulance made a couple of passes over the town and sat down behind the hospital to pick up a soldier who had been injured in an automobile accident early Sunday. And, if that wasn't enough excitement, just after it took off for its base in San Antonio, another one flew in. This time the big bird sat down at the D. P. S. building. However, it hovered over the town long enough to draw a crowd before it landed.

As it turned out, both the choppers were on the same mission. The second one was from an Army base at El Paso and the copter from San Antonio arrived first and picked up the patient. Some sort of mix-up no doubt, but a pretty typical government operation I would say.

If you remember our story about the Air Force family who lost their Siamese cat somewhere between Junction and Lancaster Hill a couple of weeks ago, you will be glad to know that we think the cat has been found.

We had a telephone call from a junction man Saturday who said a cat of that description turned up at his home six miles west of that city about the time the family discovered their cat missing from a travel trailer they were pulling to California.

We were in touch with the family and they were overjoyed. The last word we had, they were calling Junction from their home in California. We are most curious to know if the cat and her family have been reunited, and will relay the news when we get it, also how they manage to get the cat to California.

They have a new line of health food at the Village Drug and it features everything from soup to nuts. I'm not kidding, there are some cans clearly labeled "Health Nuts" along with a dispenser full of them. Can you imagine? All these years I thought a health nut was someone with a health food hang-up.

LION TRACKSTERS FIGHT IT OUT FOR FIRST PLACE in the 120-yard high hurdles event in the annual track meet here Saturday. David Sewell, left, won the event with Mike Wellman, left, coming in a close second. Wellman was high point man

for the meet, racking up 42 points for the Lions. He won a first in the 330-Intermediate Hurdles and four second places in other events. Both boys are expected to pile up points for the Lions in the annual Iraan track meet Saturday. (Don Ingram Photo)

Chopper Whisks Hurt Soldier To Hospital

Howard Manning, 24, with the U. S. Army and stationed at Fort Hood, was transferred by helicopter ambulance to Brooke Army Hospital late Sunday from Crockett County Hospital after suffering serious injuries in a one-vehicle accident 7.3 miles west of Ozona late Saturday night or early Sunday morning.

Manning was found unconscious near Hwy 290 about 7 o'clock Sunday morning with his MG convertible several yards away in a pasture.

Skid marks indicated that the car was traveling toward Ozona when Manning either

The additional party room is being added at a cost of \$27,280. Bill Taylor of Ozona is the contractor.

Lions Club To Sponsor Birthday Calendar Sales

This will be the first time in ten years that the citizens of Ozona have had an opportunity to take part in a birthday calendar. High school band boosters sponsored the last community birthday calendar in 1962.

Sandra Sands Mr. Cox Wed In Midland Rites

Miss Sandra Jolayne Sands became the bride of Calvin Dee Cox in a double-ring ceremony Feb. 25, at 7:30 p. m. in the Corinth Baptist Church in Midland.

Parents of the couple are Mr. and Mrs. L. B. Sands of Midland, formerly of Ozona, and Mr. and Mrs. O. D. Cox of Midland.

Rev. Curtis Hollis officiated and nuptial music was furnished by Miss LuAnn Orrell at the organ.

The bride, given in marriage by her father, wore a traditional wedding gown of white Chantilly lace. The molded figurine bodice was designed with a jeweled scalloped sabrina neckline and long tapered sleeves. The bouffant overskirt cascaded over three tiers of lace. A full chapel train of jeweled Chantilly lace cascaded from the shoulders. Her veil of silk illusion was held by a cap of jewelled satin.

Her jewelry was a double strand of cultured pearls brought from Italy and belonging to her paternal grandmother, Mrs. Sam Guercio of Yazoo City, Miss. She carried a bouquet of white carnations accented with touches of blue carnations and gypsophila.

Maid of honor was Miss Marsha Diveley, and junior bridesmaid was Miss Gloria Sands, sister of the bride.

Dow Prather served as best man, Robert L. Sands, brother of the bride, and Darrell Bolton, brother-in-law of the bridegroom, served as ushers and candlelighters.

The church was decorated with baskets of white flowers and seven-branched candelabra entwined with English Ivy flanked the altar.

A reception followed the wedding in the home of the bride's parents.

The couple is at home at 3913 Avondale Drive in Midland, where both are senior students at Lee High School.

INSTALL GAS AIR CONDITIONING NOW?

Install GAS air conditioning now and beat the rush that always comes with the first hot days. While everyone else is waiting on installation, central GAS air conditioning will be quietly and efficiently cooling your whole house. And another benefit of installing now is you have the time to consider the advantages that GAS air conditioning has over the other kinds.

A GAS air conditioning system is ruggedly built and operates on a simple principle. Heat from the steady blue flame circulates a refrigerant through the system to cool the air. There are fewer major moving parts and no compressor to break down or wear out. It's this simplicity that gives GAS air conditioning its low operating costs, its long life with no loss of cooling capacity, and its easy maintenance with few repair bills.

GAS air conditioning also filters the air to reduce dust and pollen.

If you have a forced air heating system, you may be able to use the same ductwork for GAS air conditioning. So, be foxy. Call Pioneer Natural Gas Company for a free air conditioning survey of your home or business.

Ask about special Winter Terms

You should be so foxy.

Tips For Gardeners

From the Ozona Garden Club By Mrs. Bailey Post

March did roar in like a lion with unwelcome winds and dust which discourage gardening. After a few beautiful calm days, the unpleasant days will be forgotten. Do drive around our city to see the rebuds at their peak of bloom as well as many fruit trees.

As flowers begin to fade on spring bulbs, remove the flower stalk, but not the foliage, for it produces food for the development of new buds. If un-ightly, tuck foliage beneath shrubbery or perennials. When it will slip off the bulb with ease.

Feed pansies liquid fertilizer again if you have not done so recently. Watch for early insects.

After dust storms, if you will wash shrub foliage with a strong spray of water, you may prevent the appearance of red spider and other insects. Avoid insect spray as long as possible.

If you plant by the moon, perhaps you have planted vegetables that produce food above the ground. Wait until dark of the moon to plant your potatoes, radishes, beets, etc. Finish thinning and pruning evergreens, and soon the cuts will be concealed by new foliage.

Continue to water shrubs, trees, and grass if the dry weather continues, especially if a freeze is forecast.

If your Cydonia Japonica needs pruning, this should be done as soon as it has finished blooming--cut out old center branches if congested. This will help produce a fuller and more bountiful bloom next season.

March is the last month recommended for planting and transplanting trees unless balled and burlapped.

Remember to get roses pruned by the 15th of March.

CARD OF THANKS May we take this opportunity to thank our many friends for their many acts of sympathy on the death of our beloved son and brother, Raul. We deeply appreciate each and every act of kindness.

Which Way Does The ...

WIND BLOW?

WIND BLOW? WIND BLOW? WIND BLOW?

The weathervane on the barn gleams in the sun this morning and points due south.

Earlier, before the wind steadied it in its southerly direction, the eagle twirled, turning first one way, then the other.

It reminded me of the way I sometimes feel. Caught in the persistent cry of changing values, confused by the onrush of progressive ideas, I twist and turn, trying to select the good and reject the bad.

I'm glad for the steadying influence of my church. The principles it teaches never change. Honesty, integrity and a love of God are important whatever the mores of society. Knowing this keeps me happy in a world of change and upheaval.

Your church can do the same for you.
