NUMBER 31

Dist. Garden Club Meet Here

District VIII Flower Show Judges Forum was held last Thursday at the Ozona Civic Center. Activities got under way with a coffee at 10 a. m. Local hostesses were Mrs. J. W. Howell and Mrs. Bailey Post.

Area were the Menard, Del Rio and Ozona Garden Clubs.

The program, "The Madonna Story," was a book review with arrangements featuring madonnas, given by Mrs. Robert Flutsch of Menard.

A quick tour of Ozona was taken by members from McCamey, Big Lake, San Angelo, Del Rio, Menard and the local club.

A Dutch treat luncheon was held at 1:30 at the El Sombrero Cafe.

Firemen To Present Program Today At School

Volunteer firemen from the Ozona Fire Department will present a program on fire prevention this afternoon at Ozona Primary School, in commemoration of "Fire Prevention Week," which is now in progress.

Open house will be held Saturday at the fire house. Activities will get under way at 9 a. m., and Ozonans are invited to come by. Especially the children.

Church of Christ To Hold Week of Gospel Meetings

The Ozona Church of Christ will hold a series of Gospel meetings Sunday through Friday of next week.

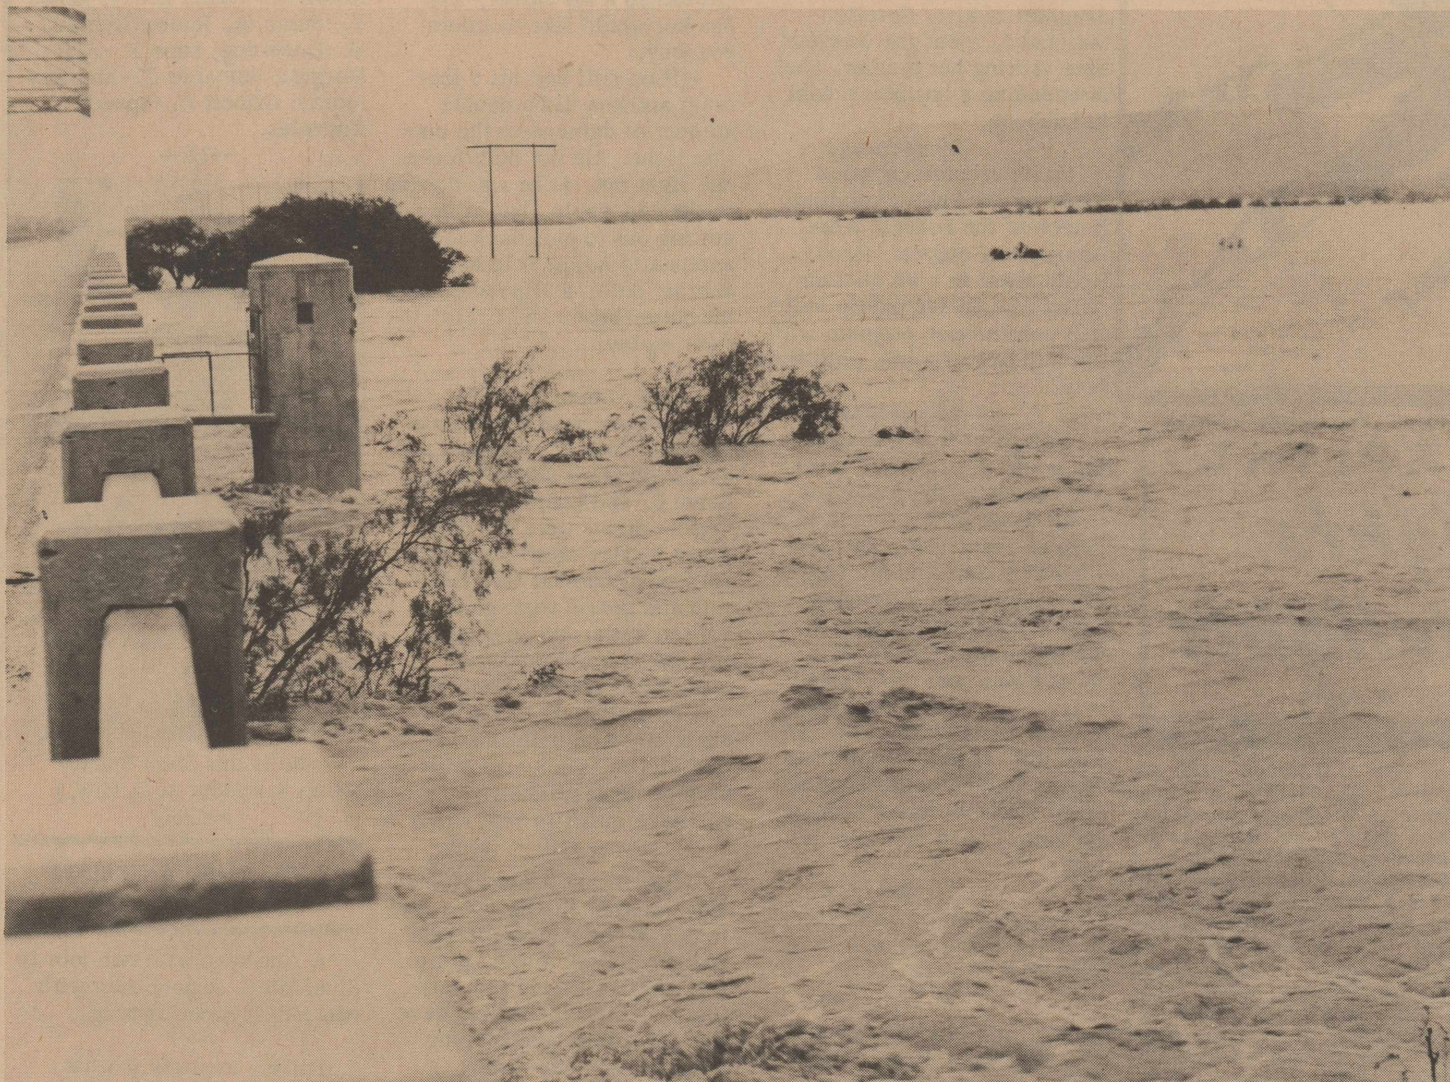

Visiting evangelist is Pat Abbananto of Snyder, and all are invited to the meetings.

Services will be held Sunday at 10:45 a. m., and 6 p. m., and weekday each night at 7:30.

Lion Boosters Meet Tuesdays

All Lion fans are invited to attend the weekly Booster Club meetings held every Tuesday night at 7:45 at the high school auditorium.

Films of the previous week's game are shown, scouting reports given on the upcoming opponent, and coffee and donuts are served.

PECOS RIVER ON RAMPAGE -- This was the scene at the Pecos River Bridge on Highway 290 which separates Crockett from Terrell County, during the recent flooding in the area. The photo was snapped just after the road was closed to traffic, for

fear the bridge would be washed out. Hills in background became islands as the waters rose and covered all the low-lying areas. Ranch families in the area are still busy clearing debris and assessing flood damage. (Photo by Dan Clark)

Three Outposts To Be Drilled In County Field

BTA Oil Producers, Midland, will drill three outposts to the eight-well Howard Draw (Grayburg conglomerate gas) field of Crockett County, 14 miles west of Ozona.

All of the projects are contracted to 1,200 feet.

The No. 27403 JV-D Howard is 1-3/8 miles southwest of production and 1/2 mile south of the firm's No. 1 7403 JV-D Howard, which has assured production as a one-mile southwest extension.

Location is 1,980 feet from the south and 660 feet from the east lines of 35-30-University. Ground elevation is 2,285 feet.

The No. 1 7403 JV-D Howard, same section, also 3/4 miles southwest of the three-well Susita (Grayburg gas) field, is shut in. Production was assured with the flowing of gas at the rate of 400,000 cubic feet daily from open hole at 1,040-85 feet, which had been acidized with 500 gallons.

The No. 3 7403 JV-D Howard, 3/4 mile southwest of the No. 1 7403 JV-D Howard, is 1,980 feet from the south and west lines of 2-31-University.

The No. 4 7403 JV-D Howard, 3/4 mile southwest of production, is 660 feet from the north and west lines of 26-30-University.

Road Improvements Slated For County

Highway improvements in Crockett County are included in a \$50.2 million safety and improvement program for 1975 approved recently by the Texas Highway Commission.

District Engineer D. R. Watson of San Angelo, said the work includes such projects as widening, providing additional surfacing, resurfacing, sodding, improvement of shoulders and

2 Ozona Men Cited By Hwy. Department

Two Ozona residents have been recognized for their service with the Texas Highway Department. William F. Dixon, Supervising Resident Engineer, received an award for 25 years of service and Winston A. Koerth, Engineering Technician V, has worked for the Department for 20 years.

"It is the dedication of men like these that make the Texas Highway Department a good place to work. I extend my personal appreciation to each of them," said D. R. Watson, District Engineer of San Angelo.

other types of work. The 1975 State Highway Safety and Betterment and Farm to Market Road Improvement Program statewide include 709 projects in 201 counties of the State, involving 4,328.2 miles of roads.

Fifty-two percent of the work is on U. S. - and State-numbered routes, 47 percent is on Farm to Market Roads and one percent is reserved for later assignments.

Projects in Crockett County on U. S. 290 include:

1. Seal Coat from Pecos River east, a distance of 4.0 miles at an estimated cost of \$12,700.
2. Seal Coat from 4.0 miles east of the Pecos River to Bachelor Hill, a distance of 13.0 miles at an estimated cost of \$42,500.
3. Reconstruct railing at Live Oak Creek, 4.0 miles east of the Pecos River at an estimated cost of \$20,000.

Local Boy Makes UT Honor Roll

More than 1,200 students at the University of Texas at Austin were named to the spring semester honor roll in the College of Business Administration.

To qualify for the business honor roll, a student must have carried 12 or more semester hours of course work and have compiled at least three hours of "A" work above a "B" average, passing all courses.

The list, announced by Dean George Kozmetsky, includes Joseph Thomas Davidson, son of Mr. and Mrs. Joe Tom Davidson of Ozona.

Lion J-V Shuts Sonora J-V

Ozona's Junior Varsity Lions continued their winning streak with a 7-0 shutout against Sonora on the Colts' home field. This win brings the JV team's standing to 4-0 with the defense holding their opponents scoreless all season.

Gary Warren scored the Lions only touchdown on a 40-yard run. Clyde Bailey tackled on the extra point.

Outstanding on defense were Bailey, David Torres and David Munoz.

GS Carnival To Be Held In Park Saturday Eve

Much fun is planned for youngsters and oldsters alike Saturday when the Ozona Girl Scout troops hold a pre-Halloween carnival in the city park.

Everything from dinner to dessert will be available and all sorts of activities, including buggy rides and a fish pond have been planned by the girls.

The event is scheduled to begin at 5 p. m., and continue until 9 p. m.

Troop 189, the group who originated the idea, will have a full schedule. This includes serving Mexican supper from 5 until 7 o'clock, with charges of \$1 for children and \$1.75 for adults. The troop will also have the bingo game, hold a cake walk at 7 o'clock and open the "haunted house" in the old bank building at 8:30. This troop will also offer buggy rides.

Troop 60 will have a toy store booth, while Troop 147 will feature a fortune-telling booth. Troop 80 will have the ring toss and ball throwing booths, and Troop 51 will have apple bobbing.

The first-year Brownie Troop will be in charge of the fish pond. Troop 224 will have a dessert booth, the bottle game booth, the pop corn concession and the freak show.

It's Saturday, Oct. 12. There is fun for all and it will give the community as a whole an opportunity to assist its very active Girl Scouts.

County Leads W.T. In Cases Of Screwworm

Crockett County led the West Texas area in screwworm cases reported Friday with nine cases confirmed.

West Texas continues to supply increasing numbers of new screwworm cases to a steadily climbing total for Texas this year, according to Dr. James Novy, in charge of field operations for the Screwworm eradication program in Mission.

A total of 321 cases were reported last week, with a total of 3,803 cases for the year in Texas.

Wounds from shearing, which is in full swing in Crockett and surrounding counties have accounted for most recent cases.

Lions Ready For Brady Bulldogs After 21-12 Win Over Iraan

Coach Rip Sewell's Ozona Lions will be in Brady to take on the Bulldogs tomorrow, Friday, night, in their final non-district game of the season. The Lions chalked up another win Friday night in Iraan, beating the Braves 21-12.

Romaldo Cervantez continued to be the big gun for the

Lions, passing for one touchdown, running 18 yards for another, passing for a 2-point conversion and scoring the final touchdown from two yards out.

Offensively, it was a one-man show with Cervantez carrying the ball 32 times for a total of 112 yards, an average of 3.5 yards a carry and coming out the leading ground gainer for the night.

Ozona dominated the playing field and the only highlight for the hapless Braves came on an 80-yard pass for a touchdown in the second quarter and a 3-yard run in the same quarter for another touchdown.

Bicentennial Planning Meet October 14

Again all interested Crockett County citizens are being invited by the Bicentennial Steering Committee to a Bicentennial Planning Meeting on Monday evening, October 14, at 7:00 o'clock at the courthouse.

The three vice-chairmen for Fiesta, Heritage and Horizons will be recognized and ideas for each phase of the observance should begin to come from individuals and organizations in our community. Definite planning should get under way soon.

This celebration of the nation's 200th birthday will culminate on July 4, 1976, but many activities can be of lasting benefit and will take all of the time between now and that date for implementation. "Let's do our usual good job in Ozona by making our ideas and thoughts known as we meet and plan together," urged Mrs. R. A. Harrell, committee chairman.

Deer Tags To Be Issued Here Nov. 5

Landowners in the Edwards Plateau and Possum Kingdom Game Management Districts will soon have an opportunity to pick up their antlerless deer tags and permits for the coming whitetail season. Crockett County landowners may pick up tags at the courthouse November 5.

Special antlerless deer tags are issued in lieu of permits in some counties. The difference is that permits are issued in limited quantities based on overpopulation of deer, carrying capacity of land and in ratio to the proportion of land having surplus deer. No antlerless permits may be issued later than 10 days before the opening date of the hunting season.

Special tags are used where either-sex hunts are approved. There are no limitations on the number of tags a landowner may obtain since the hunts are designed to allow full landowner control of deer harvest.

OHS Honor Roll Told For First Period

High School Principal Foy Moody announced the Honor Roll for the first six weeks today. The sophomores led the list in numbers with 16, followed by 15 freshmen, 6 seniors and 5 juniors.

Seniors on the honor roll are: Sally Bailey, Sylvia Flores, Virginia Henderson, Tommy Hoover, Fawn Pennington and Suzanne Williams.

Juniors on the list include: Monica Delgado, Alex Guerra, Robbie McDaniels, Basil Ramirez and Renee Yeager.

Sophomores making the roll are: Vaden Aldridge, Clyde Bailey, Lisa Clayton, Orlando DeHoyos, Carmen Delgado, Shannon Dockery, Mike Fay, Brian Gries, Eugene Hood, Ronnie Schneider, Kathy Sewell, Tracey Talley, Gary Warren, Nancy Womack, Karen Kirby and Bobby Knox.

Freshman honor students include: Randy Allen, Kathleen Appel, Teresa Brown, Rico DeHoyos, Bill Dudley, Regina Everett, Jesse Garza, Trzell Hayes, Michelle Jones, Cristella Longoria, Manuel Longoria, Gigi McKinney, Jeannine Perry, Kathy Sanchez and Rhonda Yeager.

Shell Station Has New Owner

Howard James has purchased Glynn's Shell Service from Mrs. George Glynn and took over operation of the service station Monday.

The station will now be James Shell Service. George Glynn operated the station for many years until his death last month.

Mr. and Mrs. James and their three children moved to Ozona from Kermit in 1970. He operated a windmill service before purchasing the station.

Other than that, it was Cervantez and the Lions all night long.

Ricky Perry caught Cervantez's pass for 15 yards and the first touchdown, but the PAT attempt was no good. In the second quarter Greg Thompson passed to Perry for the extra two points after the touchdown, and following the final Cervantez score, Darryl Karr kicked the extra point.

Henry Fay was the second leading ground-gainer for the Lions with 42 yards on 8 carries for an average of a little over five yards a carry. Fay was also the outstanding defensive player, with 12 tackles. He blocked a field goal attempt and a point after kick.

Gene Castro looked good on defense with 10 tackles to his credit, and recovery of a Brave fumble. Other outstanding defensive players were Orlando DeHoyos, who intercepted a Brave pass and recovered a fumble, and Frankie Garza, who intercepted a pass for the Lions.

The Lions also outdid the Braves in statistics. They had 16 first downs to Iraan's 7; 215 yards rushing to 66 for Iraan, and 19 yards passing to the Braves' 90. Ozona had total yardage of 234 and Iraan had 156. The Lions attempted 9 passes and completed four, one for a touchdown. The Braves were 2 for 8 in the passing department. The Lions suffered no interceptions while intercepting two Brave passes, they fumbled 3 times and the Braves fumbled twice.

Lonnny Martinez, big senior tackle, is lost for the season with a knee injury. David Bean was out with illness Friday night and is doubtful, and several players were unable to attend school this week due to illness. So the Lions have their work cut out for them tomorrow night at Brady.

Bill Baggett Re-Elected

SCS Director

Bill Baggett was re-elected Soil and Water Conservation District Director for zone 1. This was accomplished by qualified voters of this subdivision of the Crockett Soil and Water Conservation District on Thursday, Oct. 3.

Subdivision #1 consists of all land in Crockett County north of U. S. Highway 290 and west of State Highway 163.

A Soil Conservation District is divided into five zones. A Director is elected from each zone to serve for a five year period. One Director is elected each year.

GETTING READY FOR THE DYNAMITE CREW -- This giant drill, operated by an air compressor, was at work Monday preparing for the blasts which will make the cut for IS 10 through the south part of Ozona. Blasts usually go off at noon and again at 6 p. m. Two Zachry Co. men are operating the drill.

IS THIS THE GIANT TOAD STOOL? In our continuing search for the biggest toadstool after the recent rains, we came upon this one growing in the flower bed at the Hubert Baker rent house next door to the residence on 12th Street. It was a flat type which measured 16 inches across. The unusual growths literally sprang up all over Ozona following the rain.

A TALE OF TWO SENATORS

The Constitution designates the President of the United States as the chief architect of U.S. foreign policy. This is for a very logical reason: only the President is privy to all of the relevant information in determining how to act toward other countries.

Most Americans understand this rudimentary lesson in American government by the time, say, they are out of Junior High School. Two who apparently failed to learn it, or have forgotten it, are Jacob K. Javits of New York and Claiborne Pell of Rhode Island. And, since both of them are U.S. Senators, their failure is particularly disgraceful.

On September 30, the two Senators returned to Washington after spending three days in Cuba, a country that has been controlled by a Communist dictator for 13 years and which is an absolute puppet and tool of the Soviet Union. Following a visit with Premier Fidel Castro, Sen. Javits reported that the dictator is interested in a "normalization" of relations with this country. Sen. Pell added that their talks were "frank, warm and friendly."

What did Castro do during their trip — which, incidentally, was frowned upon by the State Department — to earn such high marks? What he did was use the occasion to deliver one of the most violently anti-American speeches he has uttered in years.

While his two senatorial guests watched on a nearby television, Castro, in a 45-minute harangue devoted entirely to attacking the United States, flatly blamed the U.S. alone for the world economic crisis. Mentioning the "hundreds of billions of dollars" the United States has spent on its "war budget," the dictator said, "In these deplorable imperialistic policies are the roots of inflation, which emerged long before the oil price increases."

Castro also described the Organization of American States as a "prostitute, shameless and ridiculous" and urged Latin American states to form an organization excluding the U.S.

Even after this harangue, the two Senators issued a statement in Havana saying, "We believe that Premier Castro is interested in working toward better relations with the United States... a normalization of relations, that is our impression."

Nikita Khrushchev, Castro's late Communist comrade-in-arms, hit it on the head when he once noted how peculiar Americans are: "Spit on them and they'll thank you for the rain water."

Washington News Letter

by Congressman O. C. Fisher

Taking whacks at Presidents, an old American privilege, is nothing new. President Ford has already found that out. So did Mr. Nixon, and so did LBJ, Harry Truman, and others.

In his book, "The President and the Presidency," Louis Brownlow recalled: "Every President has been denounced as a despot, a dictator, as one who was using power of government to achieve his personal ambitions. The only President who was not so denounced was Wm. Henry Harrison, who lived only one month after he was inaugurated."

In regard to Mr. Nixon, who has been under the gun for two years, even the anti-Nixon Washington Post in a front page article conceded a vast amount of damage was done to Mr. Nixon based upon unwarranted allegations for which he was tried and convicted in the news media.

The Post cited in particular ITT, Cambodia, San Clemente, taxes, and milk money, with this statement: "Month after month, these various charges made big black headlines and added an atmosphere of gravity to the case against the President. Now, suddenly, poof, they are gone, like burst balloons."

What the Post was referring to was the fact that following year-long publicity concerning each of those charges, the committee on Judiciary dropped each of them as impeachable, and in effect concluded Mr. Nixon had been falsely accused. The only impeachable article reported was a rather general-type allegation of "obstruction of justice."

Public Notice

NOTICE TO ALL CREDITORS
NOTICE TO ALL PERSONS HAVING CLAIMS AGAINST THE ESTATE OF WALTER DUDLEY

STATE CAPITAL Highlights AND Sidelights by Lyndell Williams TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Candidates are moving into the last laps of the 1974 campaigns but voters seem little concerned. The general election ballot offers nine contested statewide races and 16 congressional district challenges, in addition to hundreds of local races.

At the top of the ballot, Democratic Gov. Dolph Briscoe, 51, is opposed by Republican Jim Gramberry, 42, of Lubbock; Raza Union's Ramsey Muniz, 31; Sam McDonnell, 51, of the American Party, and the Socialist Workers' Sherry Smith, 28.

Another hot race features Democrat Bob Bullock, 44, and Republican Nick Rowe, 32, fighting it out for the state comptroller's office which is being vacated by Robert S. Calvert, who held office a quarter century. Sas Scoggins, 37, Austin, is also seeking the comptroller's job as a Socialist Workers Party candidate.

Democratic Lt. Gov. Bill Hobby, 42, has opposition for a second term from Republican Gaylord Marshall, 39, of Dallas, and Dan Fein of Houston, the Socialist Workers Party nominee.

Atty. Gen. John Hill, 51, Democrat, also seeking a second term, is opposed by Tom Cole, 42, of Houston and SWP's Pedro Vasquez, 25, Houston.

State Treasurer Jesse James, senior state official, 69, has a Republican opponent in Robert G. Holt, 41, Amarillo.

Land Commissioner Bob Armstrong, 41, a Democrat, faces Republican Mary Lou Grier, 48, Boerne, and SWP William Rayson of Houston, 22.

Republican Zack Fisher of Memphis, 32, opposes Agriculture Commissioner John White, 49.

Railroad Commissioner Jim Langdon is opposed by Republican Joe P. Cain, 55, and Fred R. Garza, Houston, Raza Union. Railroad Commissioner Mack Wallace, faces GOP Dale W. Steffes, 40, Houston and SWP Rick Congress, 30, Houston.

HEALTH CARE NEEDED — Nearly 37 per cent of children surveyed by the Department of Public Welfare were shown to need immediate health care.

Welfare Commissioner Raymond Vowell told a Governor's Task Force on Youth Care and Rehabilitation 3,885 children out of 10,010 screened in a free medical survey were referred to a physician for immediate treatment.

From September, 1973, through last July, Vowell said, 91,000 children were screened and 33,176 referred for treatment.

The checkups are part of a federal-state program called "Early and Periodic Screening, Diagnosis and Treatment—EPSDT."

Ailments include visual, hearing, skin, teeth, throat, heart, anemia, lead poisoning and blood abnormality problems. About 389,000 children under 21 are eligible for EPSDT medical screening.

When a man says in public what he says in private, he is all that he says he is.
Open, honest communication is at the foundation of good government. And credibility.
Doug Harlan, a lawyer and former government teacher, is saying in this campaign the things he believes.
Privately and publicly he's speaking out for a lower cost of living and a balanced Federal budget. For a Man's Right to Work. And for dealing with our water problem before it becomes a crisis.
If you're for continued conservative and enlightened representation in Washington then you're for Doug Harlan.
He's all that he says he is.
Harlan for Congress.

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

Enjoy October's color. After such wonderful rains over our area your lawns and gardens should quickly put on a show. The grass has put on a new, deeper green, and the fall flowers are beginning their fall bloom.

Especially notice the many trees that are beginning to show color and will progress throughout this month. Why do leaves flame in the Autumn? This and next month a colorful foliage pageant unfolds. Why are the leaves yellow and sometimes red? Longtime residents often insist that the frost kills the leaves, turning them brown and leaving some more brightly colored. However, experts in the U. S. Forest Service find that frost has nothing to do with producing colors in leaves. They say that change in coloring is the result of chemical processes which take place in the tree during preparation for winter.

In the fall when cool weather causes a slowing down of the vital process, the work of the leaves comes to an end. The machinery of the leaf factory is dismantled, so to speak. The green chlorophyll is broken up into the various substances of which it is composed, and whatever food there is on hand is sent to the body of the tree to be stored for use in the spring. All that remains in the cell cavities of the leaf is a watery substance in which a few oil globules and crystals and a small number of yellow, strongly refractive bodies can be seen. These give the leaves the yellow coloring so familiar in the autumnal foliage. It often happens that there is more sugar in the leaf than can be transferred back to the tree. When this is the case, the chemical combination with other substances produces many color shades, varying from the brilliant red of the dogwood to more austere red-brown of the oaks. Here in Ozona, the maples are beginning to turn and we may soon watch for the red oaks, tallow, chinaberry, pecans, Spanish oaks, sumac and maybe others.

If you have caladiums and want to carry them over the winter, it isn't too much of a problem. Dig bulbs as soon as most of the leaves die back or immediately after a light frost. Dry bulbs by spreading them in a sunny spot each day until clinging soil and leaves can be easily removed. Wrap them in newspaper or pack in dry peat moss, sawdust, or sand. Store in a frost-free spot until time for spring planting.

BAPTIST RUTH CLASS MEETS
The Ruth Sunday School Class met on Tuesday evening in the home of Mrs. E. F. Sharp for its regular business and social meeting.

Co-hostesses were Mrs. Bob Falkner, Mrs. Ted Lewis and Mrs. Phillip Smith. There was further discussion on preparation for the prayer room and a Love Offering was collected for this project.

Devotional was brought by Mrs. Letha Loudamy. Prayer Pals were revealed and new ones chosen. New year books were issued.

Refreshments were served to Mrs. Grace Williams, Mrs. Nell Davee, Mrs. Louetta Beall, Mrs. Scottie Houston, Mrs. S. E. Carnes, Mrs. Garland Allen, Mrs. A. B. Morris, Mrs. R. L. Brown, Mrs. Oscar Moreland, Mrs. Jack Bentley, Mrs. Jack Ballow, Mrs. Perry Hubbard, Mrs. George Hester, Mrs. Otis Pridemore, Mrs. Steve Kenley, Mrs. Bruce Mayfield, Mrs. Huey Ingram, Mrs. Bobby Halydier, Mrs. Nelson Lanham, Mrs. Weldon Maness, Mrs. Gary Pfister, and a guest, Mrs. Mary Hufsteler.

BRIDES AND BRIDES TO BE: Register now at BROWN FURNITURE CO. for your shower and wedding gifts. They have pots, pans, mugs, sheets, pillow cases, accessory items for your home and many, many other items that will help you start your new home. 26-tfc

Debra Says
by Debra Price HD Agent

The clothing we wear affects how we feel about ourselves. It's important that children--even preschoolers--develop a positive attitude toward themselves, and their clothing contributes to this.

Carefully selected clothes for the preschooler and elementary school age child help develop independence, responsibility and self respect. But criticizing a child about his clothes--makes him feel they are inadequate and leads him to feel self conscious.

A child's feelings can make him reluctant to cooperate with others. Sometimes a child will not participate in a group. Consider the following points in choosing back-to-school clothes:

- the child's comfort and safety;
- easy-care fabrics;
- clothes suitable and functional for the child's activities;
- opportunities for the child to choose what he likes;
- the child's individual and changing growth rate--it is often wiser to buy clothes as needed rather than for the entire year.

LEMON CHEESE PIE
1 1/4 c. sugar
1/4 c. cornstarch
1 c. water

1 tsp. grated lemon peel
1/3 c. lemon juice
2 eggs separated
1/2 c. (half an 8 oz. pkg.) softened cream cheese
Baked Lemon Crust (recipe follows)

In a saucepan, combine 1 cup of the sugar with cornstarch. Stir in water, lemon peel and juice, and egg yolks, beaten. Cook, stirring, until thick. Remove; blend in softened cheese. Cool.

Beat egg whites to soft peaks; gradually beat in remaining 1/2 cup sugar. Fold into lemon mixture. Turn into pie shell. Chill. Makes 6 to 8 servings.

Lemon Crust:
Sift flour, measure 1 cup, and sift again with 1/2 tsp. salt into a bowl. Cut in 1/3 c. shortening until fine. Combine 1 slightly beaten egg with 1 tsp. grated lemon peel and 1 Tbsp. lemon juice; sprinkle over flour mixture. Mix with a fork until the dough holds together. Roll out to fit a deep 9-inch pie pan. Flute edge, prick, bake in a 400 degree oven for 12 to 15 minutes. Cool.

OZONA GARDEN CLUB
The Ozona Garden Club will meet Monday, October 14 at 1:30 p.m. in the home of Mrs. G. W. Snively and Mrs. Bonnie Warth at 1106 Ave. D.

Nobody Made a Nickel

Too many pressing responsibilities in the Lord's work. The congregation couldn't afford to have its church painted. But painted it was! That was a glorious Saturday--no picnic or ball games, just hours of hard work. And what with the paint supplied at cost by a local dealer, and the brushes loaned by the very painter who might have hoped for the contract--nobody made a nickel! But the remarkable thing is that nobody in town thought all this remarkable... You know Christianity has had a deep influence on the life of a community when we begin to take for granted the zeal and sacrifice of Christian neighbors. The next step is to add our strength and faith to theirs in the worship and work of the Church.

THREE NEW ROSES WIN ALL-AMERICA AWARDS FOR 1975

ARIZONA

ARIZONA (Pat. Pending) A striking desert sunset color and intense tea rose fragrance won a 1975 AARS award for this new grandiflora rose.

OREGOLD

OREGOLD (Plant Pat. No. 3415) The only hybrid tea to win a 1975 award, and the only deep yellow hybrid tea winner in the last 13 years. Rich chrome yellow blooms on a strong, shapely plant. Fragrant.

ROSE PARADE

ROSE PARADE (Plant Pat. No. 3065) This floribunda All-America award winner has clusters of large, light coral-pink flowers, delicately shaded peach, and a rich fragrance.

For 1975 we get one hybrid tea, one grandiflora and one floribunda rose. It isn't often that AARS awards are so evenly distributed.

The recipients of All-America honors are: ARIZONA, a highly fragrant, spectacularly colored bronze and copper grandiflora, OREGOLD, probably one of the finest golden-yellow hybrid tea roses ever introduced, and fragrant as well, and ROSE PARADE, a very useable, hardy, clear coral pink floribunda, also richly fragrant.

For those who consider Fall the proper planting season for roses, these 1975 award winners will be offered in most mail-order rose catalogs and larger garden centers this fall. Those who wait until Spring to set out their roses, will find these varieties bearing the green and white AARS award winners tags in practically all nurseries and nursery sales yards, as well as in the rose catalogs.

If you wish to see these roses in bloom before putting them in your garden, there still may be time to visit the nearest AARS accredited public rose garden where a bed each of ARIZONA, OREGOLD and ROSE PARADE were planted last Spring and should be in full bloom this fall. For a listing of the 115 AARS accredited public rose gardens scattered throughout the United States, write to All-America Rose Selections, P.O. Box 218, Shenandoah, Iowa 51601 and the information will be sent to you promptly.

ROSE PARADE (Plant Patent No. 3065)
ROSE PARADE is a rare example of a floribunda that not only is ideal for mass planting, but can serve with equal charm with other roses in the garden or border. The blooms of ROSE PARADE are an enchanting blend of light coral pink 2 1/4" flowers, delicately highlighted with shades of peach. The clusters of buds open slowly to perfectly formed, richly fragrant, fully double blooms.

The plant has a neat, compact growth, medium in height and typically floribunda in its many branches and flower clusters.

The foliage is deep, rich green, creating a fine background for the large quantities of coral-pink blooms.

The flowers are presented evenly over the plant throughout the growing season and last well, fading slowly, and drop cleanly when their blooming period has ended.

ROSE PARADE was hybridized by J. Benjamin Williams, an independent rose breeder and horticultural consultant of Silver Spring, Maryland, and is his first All-America award winner.

Mr. Williams has had an active interest in roses since childhood, and a long association with the American Rose Society, in which group he is still very active.

ROSE PARADE is a product of a cross between Queen Elizabeth and Sumatra and has proved to be very disease resistant. It numbers among its ancestors such illustrious names as: Fashion, Pinocchio, Crimson Glory, Charlotte Armstrong, Floradora, Soeur Therese and Baby Chateau.

With its continuous bloom throughout the growing season, excellent habit, fragrance and lovely blooms, ROSE PARADE should develop into a most useful and popular rose for a multiplicity of uses.

OREGOLD (Plant Patent No. 3415)
The only hybrid tea rose to win a 1975 AARS award and, with the exception of Apollo, a soft sunrise yellow winner in 1972, the only yellow hybrid tea to win All-America honors since King's Ransom in 1962, thirteen years ago.

OREGOLD is everything a yellow hybrid tea rose should be, but seldom is — large, full, shapely, bright buttercup yellow blooms on long stems on a vigorous, prolific plant, and, to add to its charm, it possesses a delicate tea fragrance.

The long, pointed bud opens slowly to a large, brilliant yellow blossom with 35 to 40 petals of heavy substance. The blooms have the rounded, opulent form of Peace, one of the ancestors of this rose, and are generally borne singly on foot long stems, thus making magnificent cut flowers and, without doubt, they will soon be earning blue ribbons at the rose shows.

All-America Rose Selections is primarily interested in an award winner as a satisfactory garden rose. With its unusually vigorous growth for a yellow tea rose and exceeding floriferousness, OREGOLD seems destined to become one of the most popular of garden roses. Averaging three to four feet in height, the plant is bushy and compact, though quite thorny. It produces ample, deep green, wide oval leaflets to clothe the plant well from top to ground and serve as a rich background for the showy blooms.

OREGOLD is the result of a cross between Piccadilly and Konigin der Rosen by Matthias Tantau of Uetersen, Germany, one of the world's great rose hybridizers. In its ancestry are to be found many outstanding roses, including the aforementioned Peace, plus Golden Scepter, Kordes Perfecta, Tropicana, Karl Herbst and McGredy's Yellow. Small wonder this offspring is so outstanding.

WINTER PROTECTION OF ROSES IS NOT DIFFICULT

Wherever temperatures go below 15 degrees, roses need winter protection. All-America Rose Selections, a group of professional growers, hybridizers, and introducers of fine roses, have devised the following fundamental routine of winter protection which is practiced in their extensive test and display gardens scattered throughout the United States. They recommend that you use the same simple procedures in protecting your own roses. They are as follows:

Evergreen boughs, leaves, hay or straw, thrown over the mounds will prevent washing during the winter, but such added protection should not be applied until after the ground freezes.

Carefully remove mounds in spring when new growth starts. As far as possible, plant your garden with All-America Rose Selections award winners. They have a great deal of inbred hardiness, but even so, winters are unpredictable and winter protection is good insurance against loss.

USE OF POLYSTYRENE CONES (from New England Rose Society Bulletin)

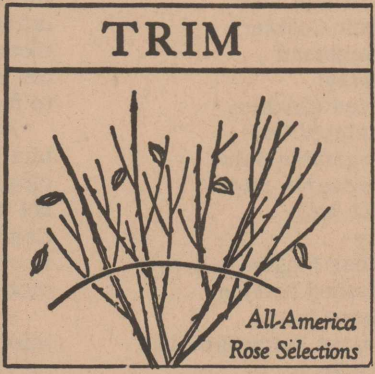

Prune back the bush to accommodate the cone. Then place the cone over the bush and tightly seal the bottom of the cone with soil. Weigh the base of the cone down with more soil, gravel, stone or some other weighty material.

The cones with detachable tops (for ventilation) are best; with these on warm days in late winter the rose bushes can and should be given some air. The cones get like a miniature greenhouse with the warmth of the early spring sun. Mold can be a very serious, severe problem then — if unchecked it can cause death of the canes.

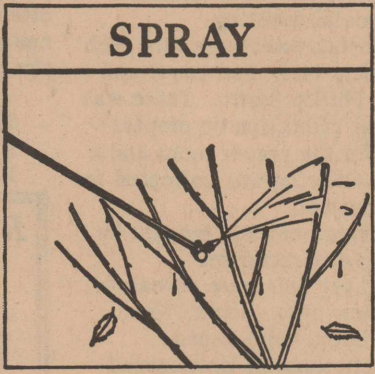

In the early spring, remove the cones when temperature gets above freezing. Keep them handy to put back as necessary, for the plants will be very tender and sensitive to sun and drying winds, in addition to cold.

PROTECTION — SPRAY-ON LIQUID PLASTIC COATING

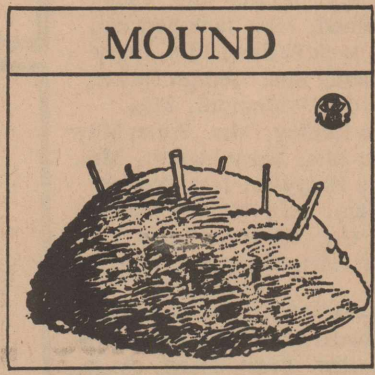

The newest form of rose protection is the double spraying of the bushes. According to the National Sprayer and Duster Association, the first application is a good dormant spray which provides protection from insects and diseases. A liquid plastic coating is then sprayed onto the rose bush, making sure that thorough coverage is obtained. The plastic coating protects the canes from drying out during the dormant period. For best results, the dormant spray should be allowed to dry before the liquid plastic coating is applied to the bush. Either a compressed air sprayer or a small power sprayer can be used for these applications. Both the dormant and liquid plastic sprays are available through garden centers. In extremely cold areas, many growers also cover the base of the plant to protect the roots.

1. TRIM — After a hard frost or two, but before the ground freezes, prune all canes of your hybrid tea, floribunda, and grandiflora roses back to 2". This makes it easier to work around them in providing winter protection and prevents them from becoming battered by the wind and ice of winter.

2. SPRAY — Remove all dead stems, leaves, and debris, raking carefully around each plant. Spray the entire plant and surrounding soil with a good fungicide and insecticide to prevent carrying over of diseases and insects on and about the plant.

3. MOUND — Mound a pile of loose earth up, over and around each plant to a height of about 12" and firm. Prune the canes of the roses so that only 4" to 6" of the tips remain exposed after mounding. The purpose of this mounding is to protect the plants from rapid changes of temperature and to guard the canes against winter wind and ice damage.

ARIZONA (Plant Patent Applied For)

A magnificent AARS 1975 award winning grandiflora that you can't tell from a hybrid tea. Probably golden copper would best describe the color of ARIZONA, and for rich fragrance it rivals that of the 1974 hybrid tea award winner, Perfume Delight. Both roses are the progeny of O. L. Weeks of Ontario, California who has brought intense fragrance back to new hybrid roses.

The shapely buds of this winner are a blend of bronze and copper tones and open to fully double, high centered blooms, some four to four and a half inches in diameter. The flower is of satiny texture with 26 to 32 good sized petals and usually five to seven smaller petaloids, adding substance and interest to the center of the bloom. As the blossoms open, occasionally rich red, suffuse the outer petal margins, giving an added depth of color to the bloom. In fact, the bloom color of ARIZONA, which actually seems to be a blend of yellow, copper, bronze and pink tones, varies greatly from flower to flower as well as with the seasons, and all the combinations are refreshingly different from any rose now in the garden.

Some of the blooms of ARIZONA are borne on candelabra-like clusters, but more are produced on single long stems, making excellent cut flowers of outstanding beauty and possessing that ultimate of desirability, a strong and most attractive tea fragrance.

This winner is quite a vigorous grower, and branches freely, thus providing new wood for flower production throughout the growing season. The stems, having a moderate quantity of rugged thorns, are well clothed with foliage, bright mahogany in the early stages, turning to a mahogany green, and maturing a healthy, dark, leathery green. The plant is quite free from mildew, and its blackspot resistance is well above average.

The unique blend of colors and the neat plant habit appearance of ARIZONA is distinctive and should be a welcome addition to any garden. Cut blooms last well and on the plant the color holds nicely and is always attractive throughout a series of color variations preceding the falling of the blooms.

To sum up the attributes of this rose as the All-America Rose Selections' judges saw it, it has a most attractive bud, a shapely flower of an outstandingly different coloration, a magnificent tea rose perfume, a well formed and continuously flowering plant that will contribute to any garden, a good score on disease resistance, and a perfection of bloom that will present fine cut flowers as well as winners on the rose show tables.

COCTAIL PARTY CHEESEBALLS
1 pound sharp yellow cheese, grated
1/2 pound Roquefort or Bleu cheese, crumbled
1/2 pound soft cream cheese
2 tsp. Worcestershire sauce
2 tsp. onion, grated
Cayenne pepper
1/2 c. pecans, chopped
1/2 c. parsley, chopped fine
Have cheeses at room temperature. Place in electric mixer and blend well. Add Worcestershire sauce, onion and pepper. Chill thoroughly in refrigerator. Form into balls. Mix pecans and parsley on waxed paper. Roll cheese balls in this mixture until completely covered. Place on attractive tray surrounded by assorted crackers. Serves 20 to 25.

Reasons For Increase In Price Of Sugar

"Why the big increase in sugar prices?" is a frequently asked question these days. Although there is no one answer, one consumer marketing information specialist suggests that the biggest reason for the jump in the cost of sugar is the same reason that has upped many other food prices—demand has increased.
"As people around the world are becoming more prosperous, they are buying and using more sugar, Mrs. Gwendolyn Clyatt with the Texas Agricultural Extension Service, The Texas A&M University System, pointed out this week.
Supplies are not keeping up with the demand. The sugar industry has not been an expanding business. Historically, sugar has always had a small profit margin, and investors are not anxious to put their money into sugar mills and refineries when other investments promise greater financial returns, she explained.
"This, along with tripled building costs, does not suggest any immediate increase in the building of sugar mills and refinery facilities.
"Another deterrent to building new facilities is the uncertainty of the supply of raw product. The largest part of our sugar comes from sugarcane with nearly one-third of our domestic supply produced in Hawaii, Louisiana, Florida, Puerto Rico, and the Virgin Islands," she said.
Sugarcane production has decreased about 10 per cent in the last decade. Expansion of sugarcane production is not a speedy process as it takes nearly two years for sugarcane to get into commercial production.
But what can consumers do? "Sugar can be decreased or omitted altogether in canning and freezing. Ripe fruits may be canned in water, fruit juice or a light syrup instead of a medium or heavy syrup," Mrs. Clyatt suggested.
Small fruits such as berries can be frozen whole on trays without sugar and then packed into freezer containers.
But the specialist noted that we can't eliminate sugar in jams and jellies because sugar is essential for a high quality product which keeps well.
"Also, with obesity a major nutritional problem in this country, many of us could well afford to cut out some of the sugar in our diets. Many times we add sugar out of habit to foods that really don't need any additional sweetening such as ripe berries and grapefruit.
Another way to reduce the use of sugar is to serve custard, pudding, fresh fruit and other less sweet desserts to replace

Mrs. Nicholas Meets With Cancer Groups

The Texas Division of the American Cancer Society Area II committee meetings were held in Waco Thursday, Oct. 3. Mrs. M. E. Nicholas assisted in the Public Information Committee meeting, with Charles Howell of Austin presiding.
Mrs. Nicholas presided at the District Four Executive Committee luncheon meeting. Following the meetings she proceeded to Ft. Worth to attend to business matters, and to visit with friends. She attended the State Fair on Saturday, and returned to Ozona on Monday.

pies, cakes and cookies, the specialist suggested.
COUNTRY CLUB BRIDGE
Mrs. Tom Mitchell was hostess for lunch and bridge Thursday at the country club.
Luncheon guests were Mrs. George Bunger and Mrs. Bob Bissett.
There were five tables for bridge.
Mrs. Hugh Childress, Jr. won the high score prize, second high went to Mrs. Byron Williams and low to Mrs. Buddy Phillips.

"...now days it seems that most politicians will say anything about their opponent to get elected. Bob Krueger is different."

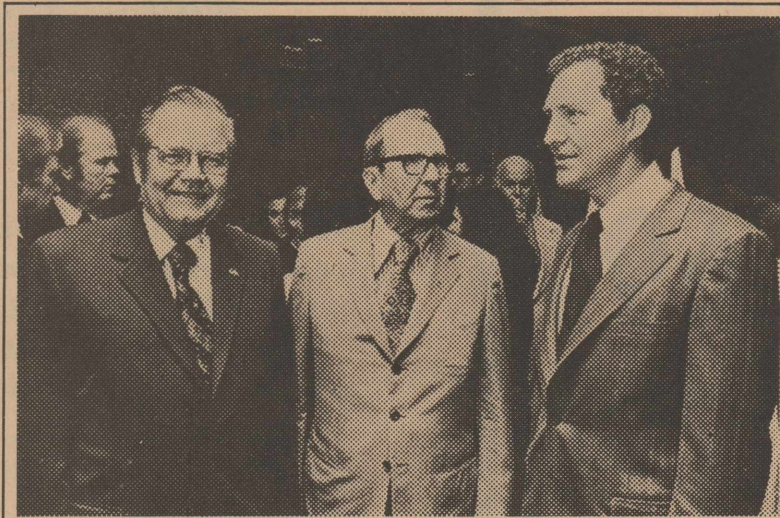

Alan Rompel, New Braunfels

Tired of negative politics? Disgusted with politicians tearing America down? Bob Krueger, the independent democrat for U.S. Congress believes it's time to build America up. He believes, like most citizens, that this nation has suffered long enough because of divisiveness and negative politics. Krueger has travelled this district and spoken out on the major issues facing all Americans.

- For the right to work
- For a strong national defense
- For the oil depletion allowance
- For restoring a government worthy of public trust
- Against a guaranteed annual income
- Against federal land use planning
- Against a national system of socialized medicine

Governor Dolph Briscoe said: "Krueger is the best able to represent the concerns of the broad 21st District. We need him in the U.S. Congress." Congressman O.C. Fisher said of Bob Krueger, "I feel that Bob Krueger has more maturity and business experience. He carried his home county of Comal by a majority of 2,573 to 452 in the primary, which shows what his own home folks think of him. I believe he is our best bet."

Bob Krueger needs your time and your dollars. Please send your contributions to Friends of Bob Krueger, P.O. Box 667, New Braunfels, Texas 78130.

Governor Dolph Briscoe, Congressman O.C. Fisher, Bob Krueger

Bob KRUEGER OF TEXAS Independent Democrat

EFFICIENCY
COMFORT
ECONOMY

you get it all with NATURAL ENERGY Gas Heating

Fresh, warm air gently circulating from floor to ceiling... so nice to take for granted. Comfort is clean gas heat.

And that dependable comfort is such a bargain here in West Texas. Though gas energy costs a little more than it used to, gas furnaces still cost less than one-third as much to operate as similar electric furnaces.

And at the same time you're saving money with gas heating, you can also have a warm feeling knowing that you're helping conserve energy. Gas heating uses only half as much energy as an electric system doing the same job.

Comfort, efficiency, and economy... you get it all with natural energy gas heating.

Forum Meets At Childress Home

Members of the Ozona Woman's Forum met October 1 in the home of Mrs. James Childress. Hostesses for the meeting were Mrs. Childress, Mrs. B. B. Ingham, Jr., and Mrs. Fred Hagelstein.

Mrs. Ele Hagelstein was leader for the program, entitled "The Arts—Our Appreciation Is Not Measured By Talent." Mrs. Beecher Montgomery discussed the background and techniques of Texas artists Salinas, Windberg, Hoffman and Thomason. Mrs. Steve Kenley played selections by the Norwegian composer Edward Grieg.

Members attending were Mrs. John Coates, Mrs. Bill Clegg, Mrs. L. D. Kirby, Mrs. W. H. Whitaker, Mrs. W. T. Stokes, Mrs. Charles Black, Mrs. P. C. Perner, Mrs. Vernon Jones, Mrs. Jake Young, Mrs. Ralph Jones, Mrs. George Bunker, Mrs. C. O. Walker, Mrs. Carl Appel, Mrs. T. J. Bailey, Mrs. Larry Arledge, Mrs. Jess Marley, Mrs. G. W. Snively, Mrs. Bonnie Warth, Mrs. Brock Jones, Mrs. Dempster Jones, Mrs. Arthur Phillips, and Mrs. Ben Bohmfalk, a new member. Mrs. W. F. Harvey and Mrs. Steve Kenley were guests.

CROCKETT COUNTY HOSPITAL NEWS

Patients receiving treatment in Crockett County Hospital the past week:

Early Baggett, Dollye Coates, Lorraine Cade, Karl Lovelady, Tishie Cullins, Francisco Garza, Manuel Torres, Freda Hill, Frances Borrego, Lorelei McMullan, Pam Sanker and Carmen Gutierrez.

+ discharged after treatment.

Thank You:

for your patronage through the years and for the kind considerations you have shown while the business was in the process of changing hands.

As of Oct. 7, Howard James is the new dealer for the former Glynn's Shell Service Station. I encourage our customers to continue doing business with Mr. James, and feel sure they will receive the same good service.

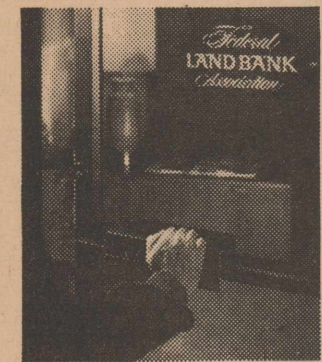

Any accounts owing me may be paid by mailing to Box 1014, or Mr. James will receive them for me at the station.

GS TROOP 80 ORGANIZES
Girl Scout Troop 80 met last Thursday and elected officers. We met at the Dub O'Bryant home. Our officers are Tanya Mahaffey, president; Nancy Bench, vice-president; Sandra Mahannah, secretary; Terrie Bentley, treasurer; Karen Keilers, reporter; Leigh Ann Field, songleader; Carla Koerth, recreations officer; Teresa Morris, secretary at arms; and Phyllis Light, social chairman.

The troop is going to have a booth at the carnival that will feature a "Lid Toss" and "Stick your Head Through The Hole." Also they will have Shetland pony rides.

Our first trip as a group was Saturday to the Ft. Concho Arts and Crafts Show. All concerned enjoyed it and look forward to the year.

Karen Keilers,
Reporter

Tops Club

Met Tuesday

The newly formed Tops Club met Tuesday at 9 a. m. at the Chamber of Commerce building.

A total of eight members lost 16-3/4 pounds. Kay Ledbetter was Queen for the Week with a loss of 10-3/4 pounds.

Dot Searcy made the contest presentation. The colors of purple and gold were chosen for the club banner.

CARD OF THANKS

To all my many friends and loved ones, I take this means in thanking each and every one of you for the many cards, flowers, calls and prayers during my recent illness and stay in the hospital. All these made the long stay easier and brightened each day. I am ever so grateful.

May God bless you.
Mildred Goodson

CROCKETT COUNTY HISTORICAL SURVEY COMMITTEE MEETING

The Crockett County Historical Survey Committee will meet in the courthouse library at 8:00 p. m. on Monday, Oct. 14. All members are urged to be present.

MELONIE FELTNER, bride elect of Sidney Reynolds, has made bridal selections at BROWN FURNITURE CO.

Grass Fed Beef Fad Will Pass

Although grass-fed beef supplies are up and continuing to increase, the long-range picture still points to the return of grain-fed beef, contends a livestock marketing specialist for the Texas Agricultural Extension Service.

"More grass-fed beef and veal is available today because of large numbers of feeder animals and calves and a slack in demand from feedlots," points out Dr. Ed Uvacek.

"Yet, this will only be a temporary condition that should change by the end of next year. From there on, cattle feeding and fed beef production should once again move upward."

Why the contention that cattle feeding will again come into prominence?

"The American public will still continue to demand high quality beef," points out the Texas A&M University System specialist. "The cattle feeding industry is based on the production of high quality beef and not simply to use up excess supplies of grain."

Uvacek believes the oversupply of cattle on pasture should be used up within the next 12 months or so. Low prices for calves, in turn, should ease the breeding herd expansion. This would bring supplies back in line with feedlot demands.

"By 1976 I expect feeding to be back at a high level and that grain will again be cheap," predicts Uvacek.

RUMMAGE SALE NETS \$492 FOR RESEARCH

Mrs. C. E. Davidson, III, Special Events Chairman, and Crockett County Crusade Chairmen, Mrs. Bill Black and Mrs. Tony Allen reported a total of \$492.00 raised Tuesday afternoon at the American Cancer Society Rummage Sale.

In future the Thrift Shop will be open the first Monday afternoon of each month from 2-5 o'clock commencing Nov. 4.

Special orders taken on decorated cakes or large amounts of bread. Call after 6:00 p. m. at least 24 hours before needed. Polly Eppler. 392-3129.

Fashion Trend For Fall Is Plush Velvet Look

A fashion trend for the fall is the "plush" look for dressy or sportswear attire. Pile fabrics such as velvet or velveteen create this popular look, one clothing specialist said this week.

"A few helpful sewing hints may help the homemaker create beautiful fashions at home with velvet," Beverly Rhoades, with the Texas Agricultural Extension Service, the Texas A&M University System, said.

Choose a pattern with a few design lines. The fabric itself will create interest. When purchasing a pile fabric, look for yardage requirements under "with nap" on the pattern envelope. If it's not listed, add 3/8 to 3/4 yard to amount given, she suggested.

"Be sure to cut all pattern pieces in the same direction to assure a uniform look. For a deeper, richer look, cut pattern pieces all going up. And for a frosted look, cut pattern pieces all going down."

"To determine pile direction, brush hand lightly over the surface. The surface feels smooth in the direction of the pile—the pile feels rough against the direction."

The specialist suggested when sewing on velvet or velveteen, use a size 11 needle

GI Home Loans Rate Increased

For the fifth time since the first of the year, the maximum interest rate on GI home loans and FHA loans has been changed—this time, increased from 9 to 9.5 percent, effective August 14.

The increase was a joint action of the Veterans Administration and the Department of Housing and Urban Development.

VA officials explained that the increase was the only means to put veterans and servicemen seeking home financing on a competitive basis in today's market.

Starting January 22, the interest rate on VA and FHA loans was lowered from 8.5 to 8.25 percent. Since then, it was increased to 8.5 percent on April 15, to 8.75 percent on May 13, and to 9 percent on July 8, followed by the latest boost.

and 8-12 stitches per inch. The heavier the fabric, the longer stitch will be needed. To prevent shifting of fabric, layers, reduce pressure on the presser foot and stitch in the direction of the pile. Loosen thread tension to produce a balanced stitch, she advised.

Baste seams together by hand to check fit. Make adjustments if needed, and machine stitch over the basting. This eliminates the need to remove machine basting stitches which may mar the pile surface, Miss Rhoades explained.

"Pressing must be done carefully. For best results, press pile side down on a velvet board (needle board) or on a thick turkish towel. Hold the iron over the fabric and let the steam do the work. Never place velvet directly on an ironing board."

"To press an entire garment, hang it in a steam filled bathroom for 30 minutes," she said.

Mr. and Mrs. Larry Hensley and their four children have moved to Ozona from Littlefield. Hensley will be senior plant operator for Pioneer Natural Gas Co. They are making their home at 204 Ave. K.

Time is here for fireplace equipment. See now at BROWN FURNITURE CO.
