Sheriff Mills To Be Released From Hospital

Crockett County Sheriff Billy Mills expects to be released from Methodist Hospital in Houston tomorrow, Friday. He will return to Ozona next week to continue recuperation from heart surgery performed two weeks ago.

During his absence Chief Deputy Jim Goss has been attending to his law enforcement duties. Three new deputies have been hired and one has resigned during the past three weeks.

Deputy Bill Wilkins, who has been with the department for several months, resigned last week.

New personnel include Jerry Goss, brother of Chief Deputy Goss; Jerry Capers, formerly a law officer in Fort Stockton, and T. J. Hill from Perryton. Hill has eleven years experience in law enforcement. Both Capers and Hill are certified officers.

BLOCKING TRAFFIC FOR SEVERAL HOURS Monday afternoon in the 1100 block of Eleventh Street was this heavy equipment-trailer rig. An employee of Burley Lumber Co., San Angelo was pulling it up the hill with a pickup, when the vehicle stalled under the strain and began rolling backward. The driver discovered he had no brakes about the time the rig jack-knived, smashing the side of the pickup and overturning. The brand new

piece of heavy equipment was chained to the trailer, and some of the chains held it on in this awkward position. It was hours before the street was cleared. Damage was heavy to the rig and there was property damage in front of the Pete North home. A little later in the game as Ozona halfback Gary Warren dashed 55 yards to paydirt. John Galvan's kick went wide. A little later in the first period halfback Blake Moody made a 22 yard run to score again for the Lions, again the PAT failed. In the final moments of the first quarter, Moody again charged for the third Lion score, this time on an 18-yard run. Galvan hit the mark this time, and the Lions led 19-0 going into the second period.

Lions Trounce Eldorado 61-8; Will Host Ballinger Friday

Ozona's Lions mangled the Eldorado Eagles there Friday night to the tune of 61-8, extending their winning streak to 2-0 for the young season. The Lions will take on the Ballinger Bearcats in the first home game Friday night, Oct. 19, to try for their third win of the season. The Lions will be heavy favorites, with the advantage of their home field and by virtue of leading the district in scoring, yards rushing and defense.

The Bearcats downed Reagan County 14-0 in a defensive battle in Big Lake last Friday night, and according to one poll are ranked fifth in the state for Class AA, so the Lions could have their work cut out for them.

Scoring got underway in Eldorado last Friday night with only a minute and a half gone in the game as Ozona halfback Gary Warren dashed 55 yards to paydirt. John Galvan's kick went wide. A little later in the first period halfback Blake Moody made a 22 yard run to score again for the Lions, again the PAT failed. In the final moments of the first quarter, Moody again charged for the third Lion score, this time on an 18-yard run. Galvan hit the mark this time, and the Lions led 19-0 going into the second period.

Second period scoring got under way with Javier Reyes diving over from the one to end a 32 yard drive. Again the PAT failed.

After a 47-yard drive fullback Raul DeLaRosa went five yards for another Lion score. The PAT failed. The Lions scored for the sixth time in the half when quarter-

back Vaden Aldridge tossed the ball to end Clifford Crawford, who in turn passed to Warren, who then carried it 22 yards for the score. Galvan hit the uprights for the point after.

As the half ended, Eldorado got on the scoreboard with a fifteen yard run, and ran for the two points, which gave them their score of 8 points.

Gary Warren got the only score in the third quarter. The score came on a 16-yard run culminating a 47-yard drive. Galvan kicked the extra point.

Two more touchdowns and a safety highlighted the fourth period for the Lions. Quarterback Greg Thompson pushed the ball across from the one-yard-line to score

and Galvan hit for the extra point. Later in the period Eldorado punted the ball out of the end zone for an Ozona safety.

The final score in the game came when halfback Frankie

Garza dashed seven yards to complete a 45-yard play and Galvan's kick was on target.

In individual statistics for the Lions, Gary Warren and Blake Moody led the offense. Gary had 150 yards on seven carries and three touchdowns. Blake had 105 yards on 13 carries and two touchdowns.

Vaden Aldridge in the punting department, was a big factor in keeping the Eagles in the hole all night. He punted four times for an average of 50.5 yards.

The first-team defense turned in an outstanding performance, according to Coach Sewell. Henry Fay led the team with ten tackles and two fumble recoveries. Frankie Garza had 11 tackles. Javier Reyes added 8 tackles. Raul DeLaRosa had 8 tackles and a fumble recovery.

Other Lions covering Eagle fumbles were Ricky DeJoyos, Mike Fay and Ronald Shaw.

MONTA MOCK RESIGNED HER position at Ozona National Bank Friday after over 21 years with the bank. She will reside in Torrance, California, where she will take care of her mother who is ill. Monta has been a familiar figure at the drive-in window since the bank moved to its new quarters. Monta began work in the bookkeeping department of the bank June 15, 1954. She resigns as drive-in window teller.

Water Board Asked To Okay Ozona Sewer Plant Expansion

As the first step in unwinding the usual maze of governmental red tape incident to environmental impact questions in contemplated improvements, the Crockett County Water Control and Improvement District has made application to the Texas Water Quality Board for an amendment to its sewer plant permit looking to future expansions and improvements.

A public hearing will be held before a Hearing Commission of the Water Quality Board in San Angelo at 10 o'clock a. m. on October 16 on the District's application to amend its permit to provide for a discharge not to exceed an average flow of 400,000 gallons per day of domestic sewage effluent from the District's treatment plant located 3/4 mile south of the intersection of Highway 290 and 163 in Ozona.

The hearing is to receive evidence on the condition, if any, under which the amended permit may be issued, and to determine whether state certification may be issued under federal pollution control acts.

"Preliminary information available to the staff of Texas Water Quality Board indicates that a waste discharge conforming to the conditions in the proposed permit would not unreasonably impair the quality of waters in the state," the hearing notice states.

The application to expand the plant flow of treated sewage is part of the process necessary to keep on top of possible community needs and looks forward to availability of federal funds needed to carry out the District's plan ultimately to move the present treatment plant farther downstream, lift the treated water lagoon out of immediate flood flow and to expand the plant to take care of foreseeable needs of the community

for many years in the future. This information comes from W. D. (Bill) Cooper, long time District manager and architect of the efficient sewage system that now serves Ozona. The plant presently takes care of an average flow of 250,000 to 275,000 gallons per day of sewage effluent and the plant is designed to take care of a community of approximately 5,000 population. The plant is now on a priority list for federal grants which will make possible the further expansion and contemplated move of the treatment plant downstream and out of the expanding Ozona town residential areas.

The plant has been expanded twice in recent years, always in advance of contemplated community growth and the result has been that Ozona has enjoyed efficient sewer disposal service in every area of the town, where residences are located on hilltops and in the valley--and at a nominal charge to users. The system has eliminated the health hazards of a few years back by completely eliminating all open pit toilets, and most septic tanks and cesspools that were formerly a necessity to community living.

EVANGELIST EULALO FLORES of Roswell, N. M. will be in Ozona to conduct services Fri. and Sat., Sept. 19-20. Services will be held at Templo Siloe Assembly of God Church each night at 7 p. m. The public is cordially invited.

Baker's Car Stolen Sunday Nite

Officers here have no clues in the car theft which occurred at the Hubert Baker residence late Sunday night or early Monday morning.

Mr. Baker's 1964 Chevrolet Biscayne was missing from its parking place Monday morning when Mrs. Baker left the house around 8:30. The creme-colored, 4-door sedan bore the license plate number of EWY-309.

Tickets To Go On Sale

Tickets for the Lakeview-Lion football game which will be held in Lakeview Sept. 26, will be on sale here at the Superintendent's office beginning at noon, Tuesday, Sept. 23.

Several good reserved seats for Lion home games are still available at the office and may be purchased any time during school hours.

Parachutist Badge To Taliaferro

CADET TALIAFERRO

Cadet William C. Taliaferro, son of Mr. and Mrs. E. Warren Taliaferro, Ozona, Tex., received a Parachutist Badge marking his successful completion of the airborne course at the Army Infantry School in Ft. Benning, Ga.

He underwent a rigorous physical training program, then tested his ability by jumping from 34-foot towers. The final week he was required to make five actual jumps.

He is a student at the U. S. Air Force Academy, Colorado Springs, Colo.

Wildcat Slated North Of Ozona

Amoy Minerals Corp., San Antonio, will drill a 2,000-foot San Andres wildcat in Crockett County, 13 miles north of Ozona, 1 1/2 miles southwest of the opener of the depleted Midway Lane, Northeast (San Andres) field and 3 1/2 miles east of shallow production in the Midway Lane field. It is the No. 1 University.

Location is 853 feet from the south and 2,173 feet from the west lines of 29-45-University.

The discovery, Tenneco Oil Co. No. 1-18 University, was finalized Jan. 3, 1968, to pump 10 barrels of 32 gravity oil through perforations at 1,522-39 feet.

It became depleted in Dec. 1971.

W & W Production, Inc., Midland, No. 2-A Todd, Queen gas discovery in the Howard Draw, Northeast (1165 San Andres gas) field of Crockett County, 20 miles northwest of Ozona, was finalized for a calculated, absolute open flow of 540,000 cubic feet of dry gas per day.

Production was through perforations at 870-880 feet, which had been acidized with 500 gallons.

First Norther Brings Rain

Just over a half inch of rain fell over the weekend in Ozona as a fall cold front moved through the area and brought summer temperatures down to a low of 55 degrees early Saturday.

However, by mid-week the hot weather had returned and skies were mostly sunny. A deluge Tuesday afternoon left .20 of an inch of rainfall in the space of 30 minutes.

Reports of up to three inches of rainfall came from the Pandale area and the South part of the county, over the weekend. Also, ranches in the southwest part of the county reported up to an inch and a half of moisture from the front.

NEW MEXICO MAN INJURED in pickup-camper-trailer house wreck 22 miles west of Ozona on Hwy 290 at 3 p. m. Tuesday. John Knight, suffering chest injuries was rushed to Crockett County Hospital by ambulance. Mrs. Knight was driving the rig when she lost control. The Knights, from Jal, N. M. were on their way to Houston where Mr. Knight was to be hospitalized. Highway Patrolman Manuel Hartnett investigated.

FOREIGN EXCHANGE STUDENT and his Ozona family. Tom McGraw, center, is here from Canada, sponsored by the Ozona Rotary Club. He is a junior in Ozona High School. He is presently living with the Clayton Robinsons. Posing with Tom are Jeanette, Danette and Clayton Robinson.

DRIVE IN DOOR -- Nope, just a case of brake failure. An Odessa woman was driving this car north into the intersection of 290 on 163 Friday when her brakes failed. Rather than run into the stream of traffic on 290, she made a complete U-turn at the traffic light, missed several autos and wound up going through the door at Dave's Electric Cars..

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

Our continued hot dry weather calls for regular watering of all plants, shrubs, trees and lawns to have a colorful well grown landscape this fall.

Dahlias should be at their best now, but chrysanthemums in most cases, will not reach their peak until next month. They do need plenty of water though to keep them growing in their bud to maturity and full bloom.

Look for liatris this month-it is a hardy perennial native to Texas that is well worth using in a wild flower garden or border. The colorful purple wand-like spikes present one of Texas' most spectacular wild flowers. It will grow in poorer soil than most garden plants but thrives best in a good, rich soil mixture. Troup in masses for best results. These plants multiply by offsets from their crown-like base or may be grown from seed sown in late autumn. Try some.

It is time to dig and store gladiolus bulbs to be sure of not freezing. The corms should be dug up, cured, fumigated and stored for use next year. If protected they may stand over winter. Leave the freshly dug corms in bright sunlight for a day to get rid of extra moisture. Then remove any excess soil and place corms in boxes or wooden flats. Keep in a well-ventilated, warm location for 3 weeks to allow new corms and cormels to form in 85 degree temperature. After this, break off and discard old corms. Clean the new corms with a cloth or brush and dust with Arasan or Spergon. Store for a few days at about 80 degrees. Then put corms in perforated paper or cloth bags and store for winter in 35 to 40 degrees.

Crown large, healthy spring flowering bulbs into pots containing equal parts of soil, peat, and sand. Firm soil mixture around each bulb, leaving only the tips showing. Store planted pots in a cool, dark place for 6 to 10 weeks and keep uniformly moist. When top growth begins, move pots gradually to a warm, sunny window. Plants should be in flower for the Christmas season.

BOY TO TALIAFERROS
Mr. and Mrs. Steve Taliaferro of Vernon are the parents of a son born Sunday, Sept. 13, in a Vernon hospital. The little boy weighed over eight pounds.

Grandparents are Mr. and Mrs. Warren Taliaferro of Ozona and Mr. and Mrs. Salty Price of Vernon.

CALLING ALL HOMEMAKERS

Brought to you By Lillian Brown

What can you do if your budget is limited, and yet you would still like to make your home more attractive and more comfortable?

In previous columns we've discussed, and in future columns we will continue to discuss, the ideas you can use to brighten your home. And today, we present a way in which you can start on a program of beautifying your home without spending a great deal of money all at once.

You can begin your program by buying one thing at a time whenever you can, and thereby regularly and continually add new dimensions to your home without a big strain on your budget.

You might want to start your decorating program with one bright chair to offset drabness of a living room. Perhaps an attractive table lamp would make a great difference.

Maybe you could use a handsome, framed mirror to hang over your sofa, credenza or dresser.

You may have been thinking about replacing your old cocktail table with a pair of the new smaller tables.

Or, how about an elegant headboard to replace the ordinary looking bedstead you're now using? The important thing is to think about a regular program of making your home ever more attractive, and starting when you can. When you are ready to shop, we are here to help you.

Exciting things are happening in the Make It Yourself With Wool Contest--Expense paid trips to London and Paris by Pan American Airlines for 2 National Winners. A Viking 6440 Sewing Machine for the National Adult Winner, 2 Singer Sewing Machines, scholarships, fabric lengths, yarn, etc.

The purpose of Make It Yourself With Wool is to focus attention on the beauty and versatility of wool; to encourage use of this incomparable fabric or yarn in sewing, knitting or crocheting fashionable garments and to offer experts the opportunity to compete for valuable prizes and win recognition for their sewing, knitting or crocheting skills.

The contest is open to all American citizens regardless of sex, race, color or creed, who meet the age and other requirements and abide by the general rules of competition. The category is determined by the contestants age before Jan. 1, 1976. This year the winner of the Texas Adult Division (22 years old and up) will be competing in the National Competition. Other Divisions are Senior (17 to 21 years) Juniors (14 to 16 years) and Pre-Teens (10 to 13 years). Pre-Teens still only go through District Competition.

All those entering the Competition must select and construct the garment themselves. They may receive advice and instruction but must select, cut, press, sew, knit or crochet the garment. Please check entry forms for rules pertaining to your individual category.

All entries must be made from loomed, knitted or felted fabric or yarn of 100% wool or of a minimum of 70% wool and no more than 30% synthetic fiber or blend. However, the fabrics or yarns do not have to be spun or loomed in America.

Entry blanks for Districts 5 and 6 may be gotten by contacting your County Extension Agent or by writing your District Director, Mrs. V. C. Whitworth, Doole, Texas 76836. The District Competition will be held at 2:30 p.m. on Nov. 1, 1975. State finals-Kerrville, December 6, 1975 - 2 p.m. Entry blanks are available at your County Extension Office. (2-2721) Box 969.

Joan Nicholas has 4 tickets for the benefit performances of Sam and Bella Spewack's "My Three Angels" October 9-11 at the La Quina Restaurant in San Angelo. The tickets are \$10 per person and will include dinner and the show. Proceeds will go to the American Cancer Society. Call 392-3265 for further details.

COUNTRY CLUB BRIDGE
Mrs. Joe Couch was hostess for bridge at the Country Club Thursday.
Winning high was Mrs. Kirby Moore, second high went to Mrs. Evert White, low to Mrs. Sid Millsbaugh, and bingo to Mrs. Bob Bailey.
Others playing were Mrs. Clay Adams, Mrs. Joe Bean, Mrs. John Childress, Mrs. Dave Matney, Mrs. Hugh Childress, Mrs. Beecher Montgomery, Mrs. Gene Perry, Mrs. P. C. Perner, Mrs. Hillery Phillips, Mrs. Sherman Taylor, Mrs. Byron Williams, Mrs. Gene Williams, Mrs. Jim Williams and Mrs. Tommy Wilson.

Mrs. J. M. Baggett has rented an apartment at Holiday Terrace and plans to visit here several weeks. Her daughter, Mrs. Hiram Brown of Austin was her houseguest the past week. Another daughter, Mrs. Jerry Pace, also of Austin, is here this week for a visit. Mrs. Baggett, a long-time resident of Ozona, moved to Austin to make her home several years ago.

RUTH CLASS MEETS
The Ruth Sunday School Class of The First Baptist Church held its first meeting of the season in the fellowship hall at the First Baptist Church last week with the traditional salad supper.
A report was read from Mrs. Bruce Mayfield on the progress made during the summer on the Prayer Room. The other committee members, Mrs. Grace Williams and Mrs. Ted Lewis, agreed to meet for further discussion on other things that remain to be done in the Prayer Room.

The following officers were elected for the coming year: Mrs. Bobby Halydier-President; Mrs. R. L. Brown-Vice President; Mrs. Audrey Glenn-Treasurer; Mrs. Nell Davee-Secretary-Reporter; Mrs. E. F. Sharp and Mrs. Perry Hubbard-Out-Reach Leaders.

Mrs. Weldon Maness agreed to have the October meeting in her home, with Mrs. R. L. Brown and Mrs. Bob Falkner serving as co-hostesses.

Others present signed to be hostesses and co-hostesses for the remaining months. Prayer Partners were chosen and a love offering for the Prayer Room and Miss Lola Mae Daniel was taken. Other members present were Mrs. Garland Allen, Mrs. Scottie Houston, Mrs. Nelson Lanham, Mrs. Phillip Smith and Mrs. Huey Ingram.

Mrs. Gene Graham is here from San Antonio visiting her mother, Mrs. S. M. Harvick.

League Meets With Mrs. Allen

The Ozona Woman's League met Tuesday in the home of Mrs. Tony Allen. Mrs. Jim Leech served as co-hostess. The guests were served and enjoyed a social hour before the meeting.

Mrs. Allen called the meeting to order and Mrs. Ronnie Pennington called the roll with each member answering with the highlights of her summer.

Mrs. Allen then welcomed members to a new year. She presented each of the officers with a corn husk doll corsage and asked each to explain her year's plans; Mrs. Johnny Jones passed out the yearbooks and went over them with the members. Mrs. H. O. Hoover went over the League's projects for the year.

These projects are funded through the annual Bazaar which will be held this year from 3-6 on November 25 at the Ozona Civic Center.

The money is divided in three categories: education, federation and civic project. Under education the League provides a one-year tuition

scholarship in memory of Mildred North for a senior in the class of '75. This year's recipient is Fawn Pennington. The League also provides a loan fund for college-bound seniors. Anyone interested may apply to Mrs. Pleas Childress III.

For the Federation of Women, the League promotes local awareness of federated club sponsored activities. Members attend Federation Workshops and Conventions. The club also contributes to Latin American, Penney Arts, and the Musical Penny Scholarships.

Toward Civic work the club, who organized the local youth center, contributes to the purchasing of additional recreational equipment for the center. The League assumes the responsibility for the county March of Dimes Drive. The group donates to Girl Scouts Educational Funds, they supply workers for the Cancer Rummage Sale and this year they completely furnished a semi-private room at the Crockett County Care Center. This year the League plans a Bi-Centennial Style Show in co-operation with the Bi-Centennial Celebration.

Other members present were Mmes. Bill Black, Billy Carson, Bob Childress, Dwight Childress, Bruce Hill, John R. Hunnicutt, Steve Kenley, Van

THINK SAFETY... ...Think Sunday

We can't miss them — these signs along the intersections of our streets. They protect our school children from physical harm. We see the sign . . . and slow down.

Boys and girls approaching maturity deserve the spiritual protection which Christian education provides.

Whenever you approach a school crossing, slow down! But, just don't think safety — think SUNDAY!

Most of us are deeply concerned about the safety of our youngsters . . . and these signs can be a reminder of a further obligation our society has to its youth. There are dangers in life for which only religious training and faith can prepare us.

FURNITURE

Whatever you want in a luxury car,
Cadillac has it.

International size. Seville... built in America to be at home anywhere in the world. Timeless in styling, Cadillac in craftsmanship. A car of performance and luxury. Maneuverable. Responsive—a 5.7 Litre, Electronic-Fuel-Injected Engine is standard. And efficient. In EPA tests—Seville got 21 miles per gallon highway and 15 mpg city. But remember, the mileage you get will be strongly influenced by how and where you drive. For California figures, see your Cadillac Dealer. **Seville**

Family size. In cars engineered to take it. Coupe DeVille (shown). Sedan DeVille. Fleetwood Brougham. The Calais. Cadillac Limousines. Plus Special Editions available with new "contoured pillow" seating. New colors and fabrics. Plus unseen advancements like the Freedom Battery that never needs water. And you may order Cadillac's Electronic-Fuel-Injected Engine. The choice of '76 is at your Cadillac Dealer's now. **Cadillac '76**

Personal size. Coupe, Custom Cabriolet or Convertible... Eldorado '76 is one of the world's most exciting cars. With that rare blend of sportiness and luxury that is Eldorado. Plus the maneuverability and added front seat roominess of front-wheel drive. Together with Variable Ratio Power Steering, Automatic Level Control and refinements for 1976, it adds up to remarkable roadability. **Eldorado '76**

The choice of '76 is at your Cadillac Dealer's now.

Industry Shows Energy Efforts Are Paying Off

The petroleum and chemical industries are halfway to their goals of improving energy efficiency by 15 per cent before 1980, the Federal Energy Administration and the Department of Commerce report.

Among six energy-intensive industries which are conducting major energy conservation campaigns, industry-wide figures compiled by the American Petroleum Institute showed a 7.8 per cent energy efficiency improvement over 1972, and the Manufacturing Chemists Association reported a 7.5 per cent improvement.

The petroleum industry figures are measured by reduction of energy per unit of input, and the chemical figures by reduction per unit of output.

Four other associations reported the following achievements (measured by reduction of energy per unit of output against a 1980 goal of up to 10 per cent energy efficiency improvement from the 1972 baseline period): Aluminum Association, 3.4 per cent (through 1973); American Iron & Steel Institute, 2.7 per cent; American Paper Institute, 2.5 per cent (through 1973); and Portland Cement Association, 1.6 per cent.

These associations and others are working with government to establish industry-wide energy conservation programs and goals as well as to monitor their own energy consumption and efficiency. Their reports cover between 60 and 90 per cent of the sales or capacity of their respective industries.

SEVENTH GRADE CUBS - This team will see action in Mertzon this afternoon. Team members are bottom row, 1. to r., Scott Hensley, Rudy Martinez, Simon Hernandez, Jessie Morano, Les Hale, Felix Flores, Aldo Delgado, Rudy Enriquez and Johnny Rodriguez. Second row, John Paul Dunlap, Will M. Black, Louis Bunger, Jack Thompson, Mundo Vargas, Joe Vasquez, Manuel Lumberras, Richard Wallace, Danny Crawford, William James, and Mark Wilson. Back row, David Lott, Frank Galvan, Bert Gutierrez, Alfred Enriquez, Robert Tambunga, Ismael Castro, Randy Ramos, Lynn Jones, Tommy Holland and Delbert Brown. Coaches Jerry Ayers and Richard Rodriguez.

Poor Market Prices Result Of Excessive Number Of Cattle

Cattlemen across the nation are suffering from poor market prices brought on mainly by excessive numbers of calves. And they can remedy the situation only by culling their cow herds and reducing the number of replacement heifers, contends Billy Reager, county agent for the Texas Agricultural Extension Service.

The Extension Service is cooperating with the American National Cattlemen's Association in urging producers to reduce the size of the cow herd and thus bring about a more favorable beef supply-demand situation for all concerned.

"Due to the overload of beef cows, late summer and fall culling will be doubly important this year. First of all, culling will take the pressure off fall pastures and reduce herd maintenance costs during the coming winter months. Secondly, supplies of other meats, parti-

cularly pork and poultry, are down at this time, so there is a ready outlet for the increased beef supply that would result from heavy cow culling."

Cow slaughter is currently heavy and was 47 per cent more during the first half of 1975 than the same period a year ago. If this pace continues through the remainder of this year, the nation's cow herd on Jan. 1, 1976 may be down by almost one million head from Jan. 1, 1975. Heifer retentions for cow herd replacements are also down about 7 per cent from a year earlier.

The economists believe that if cow slaughter continues at a heavy rate for the rest of the year and into 1976 and if heifer holding is not excessive, the total cow herd may get back in line with population and income growth by 1977.

"The adjustment in cattle numbers must come about if prices to cattlemen are to

improve. This adjustment can be orderly if cattlemen make the decision to act now. On the other hand, the current disastrous situation can be extended over a prolonged period if cattlemen take a 'wait and see' attitude."

In addition to a more stable beef supply and price situation, reducing beef cow herds will also help producers improve herd quality by eliminating poor producers, reduce feed and other costs by eliminating "boarder" cows, and increase the flexibility of their operations.

The agent suggests that cowmen reduce cow numbers to maintain a cash flow. A cow-calf operator could cull more cows and retain some calves. Then, during the next year, he would have the flexibility of putting the heifers back into his breeding herd if conditions warrant. Some consideration also might be given to backgrounding the yearlings for an additional period if costs are not excessive.

The American National Cattlemen's Association advises cattlemen to give close consideration to culling their cow herds. Beef cattle and livestock marketing specialists with the Extension Service can provide additional information on possible changes in herd management to help remedy the current crises cattlemen are facing.

PUBLIC NOTICE
SUMMARY OF PROPOSED
CONSTITUTIONAL AMENDMENTS
(S.J.R. NO. 11)
SPECIAL ELECTION NOVEMBER 4, 1975

**PROPOSITION NO. 1
ON THE BALLOT**

Revising the separation of powers, legislative and executive provisions of the Texas Constitution. Article II, Separation of Powers, is amended to:

Provide that the powers of government of the State of Texas are divided among three distinct branches: legislative, executive, and judicial. Except as otherwise authorized by the constitution, members of one branch may not exercise any power properly attached to either of the others.

Article III, The Legislature, is amended to:

Continue the present structure of the legislature consisting of a senate with 31 members and a house of representatives with 150 members. The present organization and procedure of the legislature are continued except that the provision allowing closed executive sessions of the senate is omitted. Provisions on the conflict of interest of members of the legislature are continued, as is the governor's power to veto bills or line items in appropriation bills. The article provides for single-member senatorial, representative, and congressional districts. A compensation commission is created to recommend the compensation and allowances to be received by members of the legislature. The legislative compensation, set by law, may not exceed this recommendation and does not take effect until after an intervening general election. The article provides for annual sessions of 140 days in odd-numbered years and 90 days in even-numbered years, and a veto session of 15 days upon request of three-fifths of the membership of each house. The legislature may meet in organizational sessions prior to the convening of the legislature in regular sessions.

Article IV, The Executive, is amended to:

Continue the present status of the governor and all other statewide officers, and include the commissioner of agriculture as an executive department officer. The governor is limited to two consecutive terms. The governor is authorized to designate chairmen of state boards, and to remove gubernatorial appointees to state agencies for cause unless the removal is vetoed by the senate. The article mandates the legislature to provide a new governor-elect an appropriation so the governor-elect may organize an office prior to inauguration, and permits the legislature to grant powers of fiscal control to the governor. All governmental agencies, with several exceptions, have a life of not more than ten years unless extended by the legislature, and, at the regular session held in odd-numbered years, the governor shall submit to the legislature a report on the organization and

efficiency of the executive branch.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the SEPARATION OF POWERS, LEGISLATIVE, AND EXECUTIVE PROVISIONS OF the Texas Constitution."

If adopted by the voters, will become effective January 1, 1976, except Article III, Section 5, which becomes effective January 1, 1981.

**PROPOSITION NO. 2
ON THE BALLOT**

Revising the judiciary provisions of the Texas Constitution. Article V, The Judiciary is amended to:

Establish a unified judicial system consisting of the supreme court, court of appeals, district courts, and circuit courts. Existing county courts and county judges are continued until otherwise provided by law. All judges (except municipal judges), district attorneys and district clerks must be elected by the people. The supreme court and the court of criminal appeals are merged into a single court of last resort, and this supreme court is authorized to provide for efficient administration of the judicial system and to balance case loads. Individual rights for a trial by jury and appeal by the accused are continued. The state is granted the right to appeal in criminal cases in limited circumstances, and the legislature is permitted to establish methods of appeal to the courts from decisions of state agencies.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the JUDICIARY PROVISIONS OF the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

**PROPOSITION NO. 3
ON THE BALLOT**

Revising the voting and election provisions of the Texas Constitution. Article VI, Voter Qualifications and Elections, is amended to:

Provide for registration and qualifications for voting including voter residency requirements to be established by law. A citizen of the United States who is at least 18 years of age and who meets the registration and residence requirements provided by law is a qualified voter unless the person has been convicted of a felony and for that felony is incarcerated, on parole, or on probation, or unless the person is mentally incompetent as determined by a court. Voting by the people in all elections must be by secret ballot, and the legislature shall provide by law for residence, registration and absentee voting

requirements, for the administration of elections, and for the protection of the electoral process. The general election for state and county officers is to be held in even-numbered years on a date prescribed by law.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the VOTING AND ELECTION PROVISIONS OF the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

**PROPOSITION NO. 4
ON THE BALLOT**

Revising the education provisions of the Texas Constitution. Article VII, Education, is amended to:

Provide that the Permanent and Available School Funds and the county public school funds are continued for the support of the free public schools. The State Board of Education is retained and the Permanent and Available University Funds are continued for the benefit of The University of Texas and Texas A&M Systems. A new Higher Education Fund for Texas is established for the benefit of colleges and universities outside The University of Texas and Texas A&M Systems. The state ad valorem tax of ten cents on \$100 valuation is continued as the source of revenue for the Fund. The ten cent higher education tax may be changed by law within the ten cent maximum. The legislature may allocate by law a portion of the Higher Education Fund to certain state vocational and technical institutes. The article provides that the public education system must furnish each individual an equal educational opportunity, but a school district may provide local enrichment of educational programs exceeding the level provided by the state consistent with general law. Authority to issue Permanent University Bonds is continued but the bonds may not exceed 30% of the Permanent University Fund.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the EDUCATION PROVISIONS OF the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976, except Article VII, Section 9, which becomes effective January 1, 1979.

**PROPOSITION NO. 5
ON THE BALLOT**

Revising the finance provisions of the Texas Constitution. Article VIII, Finance, is amended to:

Provide that state taxes may be levied and collected only by general law and to prohibit any state ad valorem tax on real property or tangible personal property except the ten cent tax provided for in Article VII and a

tax of two cents on the \$100 assessed valuation to provide funds for the State Building Fund. Provides that all real property and tangible personal property must be taxed equally and uniformly in proportion to market value. Existing exemptions from ad valorem taxation are continued. The present deduction of motor fuel taxes for highway purposes and the Available School Fund is retained. The "pay-as-you-go" principle for the operation of state government is retained. The legislature shall establish separate formulas for appraising land to promote the preservation of open-space land devoted to farm or ranch purposes and may establish separate formulas for appraising land to promote the preservation of forest land devoted to timber production. The \$3000 exemption from state ad valorem taxation for residential homesteads is continued and the legislature by law may increase this amount. A separate \$3000 exemption from ad valorem taxation is provided for the residential homestead of persons at least 65 years of age and the political subdivision may increase this amount. The legislature by law may exempt from ad valorem taxation certain property owned by veterans' organizations, non-profit water corporations, and persons in need because of age or disability, and economic circumstance. The legislature may also exempt property to preserve historical, cultural or natural history resources. Taxpayers are provided a new method of correcting inequitable tax assessments by paying ad valorem taxes under protest and suing for a refund in a district court. State debt may be authorized by law only if approved by a two-thirds vote of each house of the legislature and submitted to and approved by a majority of the qualified voters of the state voting on the question. Public funds and public credit may be used only for public purposes and no public funds or public credit may be used to influence the election of a public officer. The article prohibits a retail sales tax on agricultural machinery or parts, fertilizer, feeds or seeds, prescription drugs or medicine, or food, except food sold by restaurants for immediate consumption. An assessment voted by marine food or agricultural producers on their product sales is not a tax if provision is made for the individual producer to receive a refund of the assessment when the producer does not desire to be assessed.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the FINANCE PROVISIONS OF the Texas Constitution."

If adopted by the voters, will become effective on September 1, 1976, except Article VIII, Section 2, Subsections (b) and (c), which becomes effective January 1, 1978, and Article VIII, Section 6, Subsection(c), which becomes

**PROPOSITION NO. 6
ON THE BALLOT**

Revising the local government provisions of the Texas Constitution. Article IX, Local Government, is amended to:

Provide that the counties of the state are those that exist on the date of adoption of the local government article and that county boundaries may be changed if approved by a majority of the qualified voters in each affected county who vote on the question. Counties may be merged or county seats relocated if approved by two-thirds of the qualified voters in each affected county who vote on the question. The present elected constitutional county offices are retained and four year terms of office are provided. The voters of a county may create additional offices, eliminate the duties and functions of offices. The voters may also grant ordinance making power to the governing body of the county. Cities and towns having more than 1,500 inhabitants may become home-rule cities. Tax limitations are established for operating purposes for cities and counties, and the legislature is required to fix debt limits for cities, towns, counties, and school and community junior college districts.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the LOCAL GOVERNMENT PROVISIONS OF the Texas Constitution."

If adopted by the voters, will become effective on September 1, 1976.

**PROPOSITION NO. 7
ON THE BALLOT**

Revising the general provisions of the Texas Constitution. Article X, General Provisions, is amended to:

Provide the basic requirements relating to public officeholders such as the official oath and residency requirements. The provision defining the separate and community property of spouses is retained, and the protection of a homestead from forced sale is continued. The legislature is required to protect certain personal property from forced sale. Current wages for personal service are not subject to garnishment. A private corporation may not be chartered except under general law, and no bank may engage in business at more than one place in this state. The legislature must provide for the regulation of bank holding companies. The present system of local-option elections for the prohibition or sale of alcoholic beverages is continued. The legislature is required to prohibit lotteries and gift enterprises but may permit certain bingo games and raffles. The presently existing provisions for retirement benefits of teachers and other public employees are modified to allow the state to con-

tribute more than 10%. A policy that the quality of the environment of the State of Texas is to be protected is established, and the legislature is required to implement and enforce this policy. No state funds may be used to remove surface water from the river basin of origin if the surface water is necessary to supply the reasonably foreseeable water requirements of the basin for the ensuing 50 years, unless the removal of water is sufficiently replaced to the point of removal from outside the state or is on a temporary, interim basis. The seaward beaches of the Gulf of Mexico and coastal submerged lands belonging to the state are held by the state in perpetual trust for the people, and subject to reasonable limitations prescribed by law, the public has the free and unrestricted right of use and benefit of the beaches. The provision is continued that, except as otherwise provided by law, a rate of interest in excess of ten percent a year is usurious, and that if a contract does not specify a rate of interest, the rate under the contract may not exceed six percent a year. Discrimination against handicapped persons is prohibited, and a goal of the state is established to provide every resident access to adequate, comprehensive health care.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the GENERAL PROVISIONS OF the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

**PROPOSITION NO. 8
ON THE BALLOT**

Revising the mode of amending provisions of the Texas Constitution. The proposed article will be the last article of the constitution. If only Proposition No. 8 is adopted, the article will replace Article XVII of the present constitution. If other propositions are adopted, the article will be appropriately renumbered to remain the last article of the constitution. If all propositions are adopted, the article will be Article XI. Article XVII, Mode of Amending the Constitution of the State, is amended to:

Establish a procedure for constitutional amendments requiring a two-thirds vote of each house of the legislature and majority approval by the voters. The calling of a limited or unlimited constitutional convention with voter approval is provided. The question of whether to call a constitutional convention must be submitted to the people every 30 years.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the MODE OF AMENDING PROVISIONS OF the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

Cystic Fibrosis Fund Drive Underway Here

Volunteers for the 1975 Breath of Life Campaign will call on their neighbors this week to ask their help in the fight for the millions of children across the nation who suffer from lung-damaging diseases.

The campaign's door-to-door drive will be conducted by the Lone Star Chapter of the Cystic Fibrosis Foundation as part of its annual effort to raise funds for programs benefiting children with cystic fibrosis and other lung-damaging diseases.

"Our cause is a very important one. Lung diseases kill more children in this nation than any other disease except cancer," said Bekke Diaz, chairman of the campaign. "Cystic fibrosis is the number one genetic killer of children."

Crockett County Hospital News

Births: Mr. & Mrs. Jerry Jones - baby girl

Blood Donors Being Sought

Ozonans are being asked to replace blood used in the recent heart surgery of Sheriff Billy Mills. A blood collection agency will be here tomorrow, Friday, from 10 a. m. until 3 p. m., and will set up in the small meeting room at the Civic Center.

A minimum of eighteen pints of blood is needed for the replacement. Ozonans are urged to cooperate in this endeavor.

Open House Sunday At Care Center

Open house will be held Sunday afternoon at the Crockett County Care Center from 2 until 4:30.

This will be the first opportunity most Ozonans have had to get a complete tour of the new facility.

The hospital auxiliary is in charge and members will give tours of the building and serve refreshments.

Males Dominate Technical Fields

In 1974, the large majority of the persons in most science and engineering fields were men, according to a special nationwide survey conducted for the National Science Foundation by the Bureau of the Census.

Of the eight fields covered by the survey, six were about 85 per cent male or more. Engineering and environmental science had the highest proportions of men—99 and 97 per cent respectively. Men also accounted for about 85 per cent or more computer specialists, mathematical specialists, life scientists, and physical scientists. The two fields with fewer men were psychology, about 72 per cent male, and social science, about 79 per cent male.
