## THE LEADER.

Published Weekly by J. W. Graves.

Subscription \$1.00 a Year.

### LITTLE LOCAL LEADERS.

Advertise in THE LEADER.

We issue our paper one day ahead of time this week in order to give the devil a chance to attend the reunion. They couldn't have a reunion without the devil.

### Wheat! Wheat!

Subscribers in arrears to THE LEADER can now pay their subscription in wheat, at the market price.

Are you going to the reunion? Well, yes.

THE LEADER is under obligations to J. W. Caudill of Spring Creek, for a thirty pound watermelon.

Dan Jackson of Tennessee, is visiting his brothers, Evans and James Jackson here this week.

### LOST.

A small gold-filled case, Elgin movement watch, with name, J. M. Robinson, engraved in back of case. Finder will return to Chas. B. Gant, at THE LEADER office, and receive reward.

E. T. Higgins, C. E. Robinson and T. A. Higgins returned last week from an extended trip to the Indian Territory.

One dozen Cabinet Photos of yourself and a nice Crayon Portrait from any old picture for \$4.00, at CHISM'S GALLERY.

I am headquarters for Paints and Oils. Mineral paints for fences, barns and roofs. Standard brands of paints for all kinds of outside and decorative purposes. You will serve your own interests by calling on me before buying. C. G. KINO.

Rev. W. H. Wyough has tendered his resignation as pastor of the Presbyterian church, and with his family will shortly leave for Collierville, Tenn., where they will make their future home. The people of Graham will much regret to lose Mr. Wyough and family, who during their two years' residence here have attached themselves to all. Mr. Wyough, as a pastor, is vigorous and scholarly, and will add strength and interest to any church to which he may be called.

Dr. J. D. and Albert Wilson, of Farmer, visited Graham Monday.

W. R. Bigham, an old time citizen of Graham, but now living at Merkel, was in the city Monday.

Andy Broyles came down from Memphis as a district court witness.

Hall's Great Discovery. One small bottle of Hall's Great Discovery cures all kinds of kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder, in both men and women, regulates bladder trouble in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months treatment, and we will cure any case mentioned. E. W. HALL, Druggist, P. O. Box 218, Waco, Texas.

READ THIS. Understood, April 8, 1896. My undersigned have used Hall's Great Discovery for kidney and bladder trouble and cheerfully recommend it.

M. M. Woodward, N. B. Johnson, W. C. McFall, H. W. Walters, J. C. McGowan.

## District Court

Convened last Monday, Judge Miller presiding. The following named gentlemen compose the Grand Jury:

S. R. Crawford, foreman, P. P. Cady, J. H. McCan, P. L. Gibson, G. W. Clifton, C. E. Turner, J. T. Hunt, M. F. Brown, W. I. Tidwell, D. C. Brooks, W. L. Airheart, Ab. Campbell.

### PEITZ JURY.

D. J. Bryant, R. J. Johnson, S. Dozier, W. G. Goldston, R. S. DeLong, J. M. Briscoe, W. L. Grubbs, B. F. Harmon, W. H. Logan, W. L. Cornett, W. H. Greenwade, W. I. Gilmore, T. C. Baily, J. W. Carson, F. P. Brazelton, N. F. McCain, J. W. Cornelius, D. F. Hale, Z. A. Hudson, J. W. Cloud, H. C. Fields, W. A. Ribble, G. W. McComas, S. R. Ragland, S. A. Farmer, J. A. Blakeney, J. T. Brookman, J. H. B. Jones.

The criminal docket was taken up Monday and Frank Kutch, Jr., charged with assault with intent to murder was taken up; verdict guilty of aggravated assault, fine \$100 and 90 days in jail.

Tuesday the Ward cases were taken up. Judge Miller being disqualified, J. E. Simpson was selected to try the cases. On motion of the district attorney both cases against Ward were dismissed. Sublet, in jail charged with forgery, plea guilty and was given two years in the pen.

This wound up the business of Court, and Tuesday at noon the docket was clear, but the grand jury is still holding the Judge down. It is thought they will adjourn to-day (Wednesday.)

The grand jury has returned one felony and several misdemeanor bills. The felony case will be tried Saturday.

White onions 3 cts per pound. A. R. McDONALD & Co.

Will take cattle on first payment. L. H. TARR, Markley, Texas.

A camp meeting will begin at the Putnam school house on Saturday, Aug. 14th, conducted by Elder Geo. T. Thomas. Every-body invited.

We have secured the services of W. T. Phillips, the evangelist of Titus county, who has just closed a successful meeting at the reunion grounds.

F. M. KNIGHT, D. P. THOMAS, Elders.

Want to Trade. A good gentle young mare for a light two-horse wagon. Apply at this office.

The vote on the Constitutional amendments in Young county stood as follows:

For irrigation, amendment, 46  
Against " " " " " 570  
For railroad bonds, " " " 26  
Against " " " " " 577  
For validating school bond " " " 528  
Against " " " " " 528

For Sale or Trade. A good heavy, two-horse, top buggy. Apply to W. C. BURNS.

Get Married and The Leader. In order that we may demonstrate the interest in the upbuilding and development of Young county we have decided to make the following very liberal proposition: To every couple who marry in Young county and reside in the county we will send THE LEADER for six months free of charge. Tell all your young marriageable friends and as soon as married have them send their name and date of marriage and we will send the paper to their address. This is a liberal offer and now is the time to accept. Boys, now get up courage and secure your prizes, the girl and THE LEADER.

Awarded Highest Honor—World's Fair. DR. PARICE'S CREAM TANNING.

## Rehashed Locals.

From the Graham Leader, Oct. 1877.

Messrs. Wilder and Glasgow have just returned from a trip to Griffin. They report times lively and everything flourishing. Jack says Griffin has three or four stores, a hotel and twenty-three saloons.

Judge A. T. Watts, the future governor of Texas, was in attendance upon our district court this week.

A gentleman living fifteen miles south of this place informs us that since the first of January he has killed seventy-five wild cats, raccoons and foxes, eight deer, two bears and one panther.

Our citizens were highly elated on hearing that the federal court had been established at this place.

One of our granger friends sat up over an hour with a shot gun primed a few nights since in order to destroy an owl that had been depreeding on his chicken roost. When he thought the proper time for firing had arrived he took deadly aim—so deadly that five guinea fowls were brought down, while the owl made his escape.

Sportsmen are enjoying themselves, as game of all kinds is plentiful. Turkeys are the victims most sought for.

Merchants are having a difficult time in getting their goods hauled from Fort Worth. The roads have been almost impassable for the past three weeks.

Graham is looming up—everybody is confident of the early extension of the Texas and Pacific, which with other advantages and attractions, will make ours the largest and best town in northwest Texas.

We learn that a panther was seen on the near Twin mountain on Thursday evening.

If the number of worthless curs that make night hideous with their abominable howls, were reduced to one half that number, our town would be better off.

Several of our merchants are buying buffalo hides. We are glad to see this branch of business being opened here, as it will increase trade and make money more plentiful.

From Uvalde.

DEAR OLD LEADER: I am now living about ten miles northeast of Utopia. Utopia is in Uvalde county, but I live in Bandera county. I am up among the mountains, the best place for a poor man, as there is an abundance of state and school lands and some vacant land. Good spring water, timber and grass constitute some of its attractions.

The best farming country I have seen is in the Sabinal valley, and we find there good society and good schools. Utopia is twenty-two miles distant from the railroad. The town of Sabinal, on the Southern Pacific railway is its shipping point.

The health of the country is excellent. The grain crops are good, but the cotton is needing rain. If any of my old friends wish to come to this country prospecting, let them leave the train at Sabinal, and write before they depart and I will meet them at the depot and bring them up to Utopia. If they wish to come by private conveyance, they should come by way of Bandera, and if they wish to stop at my place, I live two miles above the Bandera and Utopia road.

Yours truly, D. W. RUSSEL.

### In Memoriam.

Joe Lacy was the only son of a large family. His life was spent upon the farm, and as a result received the purest lessons from nature's garden, and such religious training from his parents as should fit him for a useful life.

Yet while in the very morning of youth he was called away from his earthly home to answer to the roll call of children over on the shores of the "sweet bye and bye," there to dwell in eternal peace and happiness and to await the coming of father, mother, sisters and loved ones.

We may think it strange that one so young and whose life promised much, and one who was the only son should be taken. Yet remembering the fact that the God of heaven and earth knoweth best for us all, we can only bow our heads in obedience and say, "Thy will be done."

Being the only son, he was the pride of his father and the idol of his mother and sisters, who looked forward to the time when he would go out in life and occupy with dignity his position among men.

Joe was bright, energetic, and ever ready to carry out his part in his boyish undertakings. He attended Sunday school at Goose Neck Bend. He took his place regularly in his class and ever seemed ready to learn the truths presented. His place in the Sunday school cannot be taken. His class mates will join with the bereaved parents in mourning for their little friend.

We have had occasion to watch the children of Goose Neck Bend in their childish games. We have seen Joe with his eyes sparkling with glee as he romped hither and thither. He was always ready to join in a laugh, be happy and be glad.

The morning before his death no one dreamed that before the sun should go down the western slope that Joe Lacy would be a corpse. Yet it was so. While he and his friends, Frank LeGrand and Horace Kutch were in bathing, he stepped beyond his depth and not knowing how to swim, he began to sink. His companions did everything in their power to save him, yet in spite of their efforts he was carried down beneath the cruel waves. A few hours later he was taken from his watery bed and laid to rest in the Goose Neck cemetery.

Though Joe has passed over the dark river of death, his deeds of kindness to his friends will hang in the picture gallery of memory for evermore.

PUBLISHED WEEKLY BY J. W. GRAVES, GRAHAM, TEXAS.

Volume 22, No. 2.

There is no sign of let up in the big strike.

It is said Spain is willing to turn Cuba loose if only Uncle Sam will make her do so.

It is rumored that express companies will join the new rates by the railroad commission.

Spain has a population of 17,500,000, of which number 11,000,000 are unable to read or write.

The great decline in the price of silver has seriously disturbed all business interests in Mexico.

Hon. Buck Watton says the populist consultation at Nashville "was but the demon of confusion and ignorant ambition."

Hot winds have cut down the Kansas corn crop 50 per cent. If Kansas needs corn-let her apply to grand old Texas. Terms cash.

Judge Hendry has sold the Mineral Wells Graphic to Ed. C. Baker, who has assumed control of the paper.

In the defeat of the irrigation and railroad amendment, Texas has put herself on record as opposing any additional schemes for taxation.

An exchange aptly remarks that frogs are worthy of all due respect. They have the necessary greenbacks, and their notes are often given and accepted upon the banks.

The report published last week that Quamsh Parker had been killed in Greer county, was a false report. He is very much alive and attended the Cow Boys' reunion at Seymour with his wives.

Chicago cloakmakers are striking for living wages, and the new tariff law has been in force nearly three weeks. Why is it that so many strikes invariably follow the enactment of a protective tariff law?

The Standard Oil Trust, and the Sugar Trust are going to swallow all the smaller trusts. So much the better. When the guillotine drops they will all die at the same time.

When the populists in national convention assembled call each other "red-headed sap-sucker" and "mullet-headed buzzard" it don't look like harmony hangs in the air from the ridge pole of the populist camp.

An exchange congratulates the country that highwaymen are disappearing. The cause for rejoicing is not so apparent, however, when it is remembered that the disappearance of highway robbers is fully compensated for by the increase of low way robbers.

The people of Mineral Wells are taking steps to get rid of the colored population of that town. The citizens have formed an association, 117 strong, called the "Regulators," and have notified every negro in the town, except Henry Pollard and family, to leave the place inside of three months. The negroes are pretty well scared.

In an interview in the Dallas News of the 4th, Judge John H. Roagan, "the noblest Roman of them all," announces himself as a candidate for the United States Senate. This news will put no sunshine in the souls of the gentlemen who want to colloquy with Mr. Chilton in the American house of lords.

The Globe-Democrat asks: "Wasn't it Phil Sheridan who held that the man who could survive a Texas summer needn't worry about the temperature of the hereafter?" Yes, it was Phil and he could now probably give us expert testimony on that subject.

A 200 pound piece and a silver found in a robin's nest a few days ago. In a few days ago for a bird.

Dr. J. B. Brooks, late physician in charge of the Keeley Hospital at Hot Springs, Ark., and the Trask-Hoffman Hospital at Hot Springs, Tex., has opened a private institute at Hot Springs, for the treatment of the

Secretary Sherman Talks.

New York, Aug. 7.—The World publishes an interview, said to have been obtained with John Sherman, secretary of state, just previous to his return to Washington from Amagansett, L. I. In this interview Mr. Sherman is represented as saying: "Spain will lose Cuba. That seems to me to be certain. She can not continue the struggle. Already the conflict has cost her more than \$200,000,000. Her money is gone and she can get no more. She has reached the limit of her borrowing capacity. She can not pay back what she has already borrowed. The only thing left for her to do is a repudiate her debts. We had to do that after the revolution. Having repudiated those, she can begin anew, but she will have to begin without Cuba. That country is devastated. The insurgents have been fighting with only the hope of ultimate success as their reward. The Spanish soldiers have been battling for pay. The pay will stop and then the conflict will stop.

Spain is in no condition to wage war anywhere. The burdens placed upon her people to sustain the struggle for retaining Cuba have been very heavy. Widespread discontent will come sooner or later within the Spanish kingdom. By stopping the struggle, by withdrawing her troops from Cuba and by repudiating her debts is the only way to recover. Sooner or later she must do this. So far, we have done nothing to arouse the anger of the Spanish people. We have gone on minding our own business, blind to the distress of Cuba and deaf to the pleadings of our own people who wanted the government to interfere."

It is reported that Professor R. E. B. Andrews, who resigned from Brown University because he would not permit his right of free speech to be encroached upon, has accepted the presidency of a new college which, it is claimed, will be one of the greatest educational institutions in the world. J. Brisben Walker, formerly of Denver, but now publisher of the Cosmopolitan Magazine, of New York, is to found the institution.

Senator Henry M. Teller remarks: "As time rolls on Bryan will be more and more the legitimate and logical candidate. I believe he will be the nominee of the silver forces in the next National campaign and there will be no difficulty in combining on him."

McKinley is displaying the same spirit that ruled Cleveland. That is, a project once determined upon must be carried out, regardless of all opposition. The senate failed to ratify the Hawaiian treaty, yet McKinley is said to be preparing to establish a protectorate over the island, which is annexation insofar as the question affects foreign countries. The action may be technically legal, but it is contrary to the theory of a Republican form of government.

A new field is now open to Johnson, the mind reader. He will only occupy and discover the number of people of the city of Wichita Falls who voted twice on the irrigation amendment. He will furnish material for the same purpose for five years to come. Then if he will investigate further and discover how many voted three times for the same amendment, he will furnish a ted years mill of justice. The Falls is reported as having cast 967 votes for and seven votes against the amendment.—Hewitt's Independent.

A darkey came into one of the justice courts this morning and wanted his wife arrested. When asked by the Judge what was the offense, he said she ate so much that he could not stand it and he must get rid of her; that she weighed over 200 pounds and in seven years had borne him eleven children, all with appetites like her own. A neighbor was with him and he said he saw the woman unassisted at one meal dispose of three pounds of round steak, a peck of Boston baked beans, five pounds of corn dodger, half peck of raw onions and one big growler of beer. When the judge asked him how was no law regulated, he went away and returned with a large bottle of morphine.

The Crime of '97.

It is a good idea occasionally to recall certain facts persistently ignored at Washington but quite as persistently remembered by the people. First—The last time the tariff issue was submitted to the people McKinleyism was rejected by an electoral plurality of 182 and a popular plurality of 380,810. It carried outright only five of the seventeen States east of the Mississippi and north of the Potomac and the Ohio.

Second—The Republican National platform last year discovered McKinleyism in the words "we are not pledged to any particular schedules," in order to remove the fears and win votes from the Democrats.

Third—Such old-time Republican protection States as Kansas, Nebraska, South Dakota, Wyoming, Colorado, Montana, Idaho, Nevada and Washington deserted the Republican party last fall, and McKinley was elected on the sound money issue alone by Democratic votes in the Democratic States Connecticut, New York, New Jersey, Delaware, Maryland, West Virginia, Kentucky and Indiana, and the doubtful States Illinois, Wisconsin and Ohio.

It is not high time to stop talking about the exploded and rejected myth—"the crime of '73"—and take up the living, winning issue—the crime of '97?—N. Y. World.

Attorney General Cram, Lieutenant Governor Jester and Chairman Blake are all three squarely in the race for governor. It looks like the former was a lap in the lead at present, but the home stretch is still far in the future.

Not a town or county on the Fort Worth and Denver road or in the Panhandle so far as heard from, except alone Wichita county, voted in favor of the irrigation amendment. This shows which way the wind blows.

Feeding Hogs in Texas. The short corn crop in some sections of the state, notably in the black land belt, will unfortunately curtail hog fattening operations to some extent. It is to be hoped however, that the farmers are expecting to rely solely on corn to bring their hogs through in shape for the market. It has been so well demonstrated that Texas can produce an abundance and great variety of foods which are an admirable substitute for corn that failure of a corn crop should not mean stoppage of hog raising or fattening.

Pumpkins and cashews, melons of all kinds, including the pie melon, which can be saved through the entire winter, sorghum, peas, milo maize and Kaffir corn, wheat, oats and millet seed each and every one make fine hog feed, and all made good yields in Texas this year. As for millet seed we believe that its merit as hog feed is not as generally recognized as it should be. The only slight drawback of every thing is a pastureage.

Wheat crop a total failure. The wheaters learned to make bacon by feeding their hogs as above suggested and finishing them on milo maize and Kaffir corn. The results were most satisfactory, and besides raising enough for home consumption, several cars of Kaffir corn fed hogs were marketed at Fort Worth and Kansas City. That five year's wheat failure, by the way, was a calamity not unmixed with good. It taught the people lessons of economy. The credit system being entirely discontinued, people had to pay for what they get or do without. It also taught them to raise everything possible for home consumption, resulting in everyone raising hog-feed and making his own meat. What west Texas has done with her disadvantages of irregular rainfall and droughty seasons, other more favored sections in the state certainly also can accomplish.—Farm and Stock Journal.

Good Authority.

In the Forum of July, J. Lawrence Laughlin, a staunch republican, and professor of political economy in Chicago University, has this to say: "It may not be a pleasant thing to say, but never before, at least in this generation, has there been such wide spread loss of confidence in the honor and integrity of our public servants in congress."

One almost hesitates to put into words the frequent admission of thoughtful men that national legislation is today bargained for, if not actually bought and sold. So far has suspicion gone, that it is even bruited about as a matter of common report, that while the president may himself make election promises, his agents have engaged for him, in the form of a tariff bill, or scheme to allow numerous interests to recoup themselves from the country for advances made to secure the nomination and election of their candidate.

The audacity and unblushing grab displayed in Washington gives color to such reports, also why should strong legislation be given its strong prominence over monetary reform?—New Leader.

Seventy-five thousand pants makers in Greater New York will strike for living wages.

Public spirit is a good thing, and should be encouraged, but it should never be forgotten that he serves his country best who serves his family best.—Farm and Stock Journal.

"A stitch in time saves nine" is a true old adage. A fire guard discovered several your pastures will save a great loss and is easily done. Prairie fires will be numerous, no doubt, this fall.—Midland Gazette.

The Best Way to get back the health that is gradually slipping away, is to use Parker's Ginger-Tonic in time. Read what Mr. H. Bogert, Brooklyn, N. Y., writes: "For a long time I was troubled with pain in my chest, back and limbs, and with disturbed my stomach, would not eat and lost sleep. I tried Parker's Ginger-Tonic. It proved a great relief, and from that time I have found I could eat and enjoy my food. I continued to gain as I used it, and now, after taking only a few bottles, feel myself in the best of health."

Beautiful Hair with youthful color, is what Parker's Hair Balsam greatly excels in producing.

Jews in Palestine. New York, July 30.—A London dispatch to the World from London says: The representatives of the Baron Hirsch charities here seem to take very seriously to the scheme of Dr. Theodore Herzl of Vienna, for the formation of an independent Jewish state in Palestine. It is said the Hebrews are organizing in all parts of the world.

The doctor intends first to send an exploring expedition to thoroughly overhaul the land from end to end, and establish the telephones, telegraphs and other modern scientific conveniences before opening the territory to general settlement.

To obtain sovereignty over Palestine, he says, will be easy, as the Turks will be glad to let it go. He points to this declaration by the Turkish government as evidence that it thinks favorable of his scheme. If Turkey should refuse to give Palestine up he says the Ottoman empire will surely disintegrate and then a Jewish company can obtain Palestine when the powers divide up Turkish territory.

If it proves impossible to get Palestine he will turn to Argentina.

To confer on this point congress will be held at Dallas Aug. 29. The doctor says there is no doubt that this congress will be the redeemer of the Hebrews. There is no intention to follow socialist lines. He proposes a limited monarchy like that of Great Britain.

The capital of the Jewish company is to be \$250,000,000.

What Tommy Said. Uncle John—Well, what do you mean to be when you get to be a man? Little Tommy (promptly)—A doctor, like pa.

Uncle John (quizzically)—Indeed; and which do you intend to be, an allopath or a homoeopath? Little Tommy—I don't know which one is the awful big words moon.

Uncle John; but that don't make no difference, 'cause I ain't goin' to be either of 'em. I'm jist goin' to be a family doctor an' give all my patients Hood's Sarsaparilla, 'cause my pa says that if he is a doctor, he's 'bliged to own up that Hood's Sarsaparilla is the best medicine he ever saw in his life.
