Graham, Texas

R. F. SHORT & CO.

Will, beginning Monday, September 1st, give Special Attention in Showing and Fitting their beautiful line of **LADIES' SUITS AND COATS**

Special care and individuality was our motto in buying these beautiful suits and coats, and we want you to get just the Style and Color best suited for you to wear while the stock is complete.

Our Millinery Department is now prepared to show you just the **Hat to Match** your suit in the best style.

We want your trade, and if Style and Quality of Goods—at the very lowest prices—will merit your trade, we have no fear of the results. You are Cordially Invited to make our Ready to Wear Department a visit.

R. F. SHORT & CO.

United States Tires are **Good Tires**

Most Economical

Wear—life—service—mileage—safety—comfort. These are the things that *count* in a tire.

These are exactly what you get in United States Tires,—general all-round tire satisfaction.

This greater total of tire

values means greater economy—less cost of maintenance—less repairs and depreciation.

Car owners who do their own thinking prefer United States Tires. Their merit is recognized *everywhere*.

We have them—a type and size for every car.

We know United States Tires are Good tires. That's why we sell 'em

E. C. Masey Auto Co., Graham, Texas; Nance-Perkins Motor Co., Jacksboro, Texas; City Garage, Jermyn, Texas.

E. B. Owens and family have returned from a visit in the Plains country. Mr. Owens proved himself a marksman on the trip by shooting and killing a wolf with a '22-target rifle.

AUTOMOBILE STOLEN
J. C. Owen had his Hudson speedster stolen from him in Wichita Falls last Monday and has so far failed to get even a trace that might lead to the recovery of the machine. He was in Wichita Falls on oil business and had left his car in the street. When he returned the car was gone. He reported the theft at once and every effort is being made to locate the car.

FIRST BALE OF COTTON
W. W. George, living on N. B. Carter's place on Connor Creek, brought in the premium bale of cotton yesterday which will be ginned at the Anderson gin next Tuesday. Mr. George thinks he will make some twenty-five bales or more.

The Leader and Dallas News \$2.25

BANKS WILL CLOSE

The Beckham National and the Graham National Bank will both be closed on Monday, September 1, Labor Day.

Mrs. C. E. Jarchow, of Chicago, and Mrs. M. L. Runyon, of Fort Worth, were guests of Mrs. R. D. Bartholomew a few days the past week.

Cleland Souter and family left this morning for their home in Houston, after a few days visit with relatives in this city and in Ellisville.

Lucian Smith, one of our boys who did his part in the Great World War overseas, returned home last week.

A. B. Long and family, of Clarendon, arrived in the city last night to spend a few days visiting relatives and old friends.

NEW FALL GINGHAMS

At the same prices as last year. We bought them before the big advance and will sell at old prices.

STREET & CO. The Leader and Dallas News \$2.25.

ARMY RECRUITING

The following significant telegram has just been received from the War Department

"Recruiting of white applicants for American Expeditionary Force in Europe will be resumed immediately for Infantry and Signal Corps only. Under provisions of Circular 224, War Department, 1919, and with further provision that such men may be enlisted for one or three years, enlistments for one year being restricted to applicants with prior service under Circular 113.

"Men so recruited will not be retained on duty at present stations, but will be sent immediately upon enlistment or upon expiration of re-enlistment furloughs to overseas replacement Depot, Camp Meade."

"Telephone operators and repair men, expert radio operators, and telephone linemen are especially desired for Signal Corps."

The Leader and Dallas News \$2.25.

Got a Hand Grenade; It's Rarest Souvenir of Great World War

Hammering the Hun line until it bent and broke, bearing the Kaiser and his clans down to inglorious defeat, the American soldiers used one weapon in greater numbers than any other. It was a weapon they had never used before, one that had been obsolete for centuries—the hand-grenade—but when the brawny lads from the U. S. A. sent the old "eggs," as they were called, spinning into dugout and pill-box, the only Boches remaining on the ground were those ready to be buried. Grenades were known to have been used five centuries ago. In 1427, at the siege of the Fortress of Casmagiore on the River Po in Italy, the defenders used a primitive grenade, made of a glass bottle filled with powder. For a time, grenades were made out of heavy paper, then out of glass and then out of metal. With the close of the eighteenth century, the grenade began to be discarded and little use had been made of it until the Russo-Japanese war in 1904. It remained for the Great World War to see the grenade developed into its present efficiency. The grenades used by the American doughboys were as carefully manufactured as their rifles. But the end of hostilities found a limited supply on hand and these were turned over to the Savings Division of the Treasury Department, the explosives extracted and they have been made over into savings banks.

Thus a weapon of war has been transformed into a "weapon of peace." Instead of being used to battle the Hun, it is now being used in the fight against the High Cost of Living and the arch-enemy, Thriftlessness. Any boy or girl can secure a grenade by purchasing a \$5 War Savings Stamp; any adult by investing in three or more War Savings Stamps, but these must have been bought after July 15, 1919. These hand grenades will be distributed through local banks and by a few merchants.

If you want a grenade, get busy. Make arrangements with your banker immediately. Only a limited number of these rare and unique souvenirs of the World War could be secured and when they are gone there will be no chance of obtaining one. You don't have to wait until the grenade is received to begin saving. Do that now. Then when the grenade arrives you will have that much of a start toward owning it. Ask your banker about it today.

Buy War Savings Stamps regularly. After you get your grenade, keep on buying. Don't let your "weapon of peace" remain idle.

\$75,000,000 TO BE RAISED IN SOUTH

BAPTISTS ANNOUNCE PURPOSES TO WHICH VAST SUM THEY SEEK WILL BE GIVEN

STRENGTHEN CHURCH WORK

Special Effort of Denomination Along General Lines Will Be Enlarged And Made Stronger As Result Of This Campaign.

Every general interest fostered by Southern Baptists will be strengthened and enlarged through the success of the Baptist 75 Million Campaign which is now well under way, and which will reach its climax in the final drive to secure this sum in cash and subscriptions during the eight days of November 30 to December 7. A period of five years will be provided for the final payment of these subscriptions but for the campaign to succeed, the sum of \$75,000,000 must be subscribed within the eight days. Many have expressed the belief that the subscriptions will run to \$100,000,000.

At a meeting of the Executive Committee of the Southern Baptist Convention the \$75,000,000 to be raised was apportioned among the general inter-

J. M. Anderson, Wealthy Knoxville Merchant, Who is Chairman of the Campaign in the Baptist 75 Million Campaign.

ests fostered by the Convention, as follows: Foreign missions, \$20,000,000; home missions, \$12,000,000; Christian education, \$20,000,000; state missions, \$11,000,000; ministerial relief, \$2,500,000; orphanages, \$4,700,000; and hospitals, \$4,125,000.

The apportionment of this sum among the several states within the territory of the Convention has been announced as follows: Alabama, \$4,000,000; Arkansas, \$3,200,000; District of Columbia, \$200,000; Florida, \$1,000,000; Georgia, \$7,500,000; Southern Illinois, \$1,200,000; Kentucky, \$6,500,000; Louisiana, \$3,325,000; Maryland, \$750,000; Mississippi, \$2,350,000; Missouri, \$2,925,000; New Mexico, \$250,000; North Carolina, \$6,000,000; Oklahoma, \$2,250,000; South Carolina, \$5,500,000; Tennessee, \$4,650,000; Texas, \$16,000,000; and Virginia, \$7,000,000.

Here is what this big sum of money will help Southern Baptists do for the Master, as set forth by the Campaign Commission:

"It will equip more adequately and multiply manifold the 1,000 missionary workers of the Foreign Mission Board, and the more than 2,000 Home and State Board Missionaries.

"It will enlarge and raise to a better efficiency the 158 Baptist schools in the South.

"It will go far towards meeting the expanding needs of the Southern Baptist Theological Seminary and the Women's Missionary Training School in Louisville, Ky., the Southwestern Baptist Theological Seminary and Women's Training School in Fort Worth, the Baptist Bible School in New Orleans, La., a Theological Seminary for the Negroes, and will provide a first-class college for boys and girls of the mountain region.

"It will increase greatly our hospital service to the sick, open wider our arms to the orphan, and provide a strong support for our aged ministers of the gospel.

"It will put Southern Baptists in position to assume a considerable share in the reconstruction of war-torn Europe, and embrace many of the marvelous opportunities for service which thrust themselves upon us from all parts of the world, at home and abroad."

While \$20,000,000 of this sum will go to foreign missions and thus be expended in carrying the gospel and its blessings to other lands, the remaining \$55,000,000 will be expended at home in building up home missionary, educational and benevolent institutions and projects, of which there are a number in every state within the territory of the convention.

BAPTISTS LAUNCH WORLD PROGRAM

PLAN TO RAISE \$75,000,000 FOR GENERAL PURPOSES WITHIN IN NEXT FIVE YEARS.

WHOLE SOUTH TO CO-OPERATE

Each State is Given Definite Task To Perform In Raising Huge Sum For Denomination's New Budget—Drive Is On.

Recognizing the need of the world for more religion and Christian service among general lines, the Baptists of the South have resolved to contribute \$75,000,000 to a program of reconstruction following the war, and have laid plans to subscribe this sum during the week of November 30-December 7, a period of five years to be given in which to complete the payment of these subscriptions.

The decision to inaugurate this world program was reached at the meeting of the Southern Baptist Convention in Atlanta last May, when the more than 4,000 delegates present voted unanimously to undertake the

Dr. L. R. Scarborough of Fort Worth, Tex., General Director of Campaign.

task. The campaign has now been organized with the general headquarters in Nashville, Tenn., where Dr. L. R. Scarborough, president of the Southwestern Baptist Theological Seminary at Fort Worth, is in charge as general director for the South. He is assisted by a number of men in charge of special divisions of the work, while each of the eighteen states in the territory of the Southern Baptist Convention has in turn perfected a state organization, including a State Director, a State Organizer and State Publicity Director. Each association, or district, within each of the states has likewise gotten busy by naming its associational or district directors, and the work of organization has been carried into the local churches to the extent that practically all of the more than 25,000 local Baptist congregations in the South have their workers named to help put over the biggest church drive that has ever been attempted in this section of the country. There are 3,000,000 white Baptists holding church membership in the South, and it is hoped to reach every man, woman and child among them with the message of this campaign and give each of them a part in the plan of saving the world by giving to the extent of their ability to this vast conservation fund.

Christian education, home and foreign missions, state missions, ministerial relief, orphanages and hospitals, are among the various general interests of the denomination that will be cared for in this campaign, the matter of local church expenses, and local church equipment not being included.

Between now and November 30th every effort will be put forth in organizing and mobilizing the Baptist forces in the South, preparatory to the launching of the big drive for the subscriptions and cash payments. July was known as preparation month, August was designated as information month, during which time every effort has been put forth in informing the people on every phase of the campaign, while September has been designated as intercession month, October as enlistment month, November as stewardship month, and the period from November 30 to December 7 as victory week.

"We have undertaken a big task," Dr. Scarborough, the General Director, says, "but we have undertaken it in God's name and for His glory, and by trusting in God and doing our whole duty, we will succeed. There is work here for all, and glory enough for all if we win, but we cannot succeed except we labor diligently and pray earnestly."

AGED TEXAS WOMAN MAKES GIFT
From Matagorda, Texas, comes the story of the devotion of Mrs. M. J. Bruce, an aged saint of that vicinity, to the Baptist 75 Million Campaign. She gave her pastor \$5 to apply on the campaign and was informed that subscriptions would not be taken until the week of November 30. "But I am getting old," she replied, "and may not live till the end of September, and I do not want to pass away without having had a part in this great campaign."

Leon Slaughter returned Tuesday night from a business trip to Fort Worth and went to his home at Newcastle that night.

The little son of Mr. and Mrs. W. E. Crick, who has been seriously ill of appendicitis for the past two weeks, is improving.

FOR RENT

Rooms, any way you want 'em; modern, conveniently located. See 1c. R. H. HOLLAND.

Mr. and Mrs. Will Barron and Mrs. J. A. Allen spent last week visiting Mr. and Mrs. Robert Upham at Fox Hollow. They report a splendid visit.

Ernest Stovall and family, who have been living in Dallas for the past two years, returned to Graham Saturday and will make Graham their home.

Rev. C. R. Taylor closed a successful revival at Murray last Saturday in which there were four conversions and a number of additions to the church.

Bud Farmer, a former resident of this county, who now resides at Goree, Knox county, spent the first of the week with relatives and old friends here.

Mr. and Mrs. L. L. Spivey and Mr. and Mrs. J. D. Spivey spent several days of last week visiting J. H. Spivey and family in Clay county. They report crops very good in Clay county.

LADIES' PURSE LOST—On north or west side of square Saturday, contains 4-rings, 3 of them set rings, and some small change. Return to this office and get reward. 1p.

Mr. and Mrs. Roi Cornish, of Commerce, Texas, spent the first of the week here visiting relatives and old friends and acquaintances of the groom who was reared here.

Byron Rickman went to Fort Worth Sunday to visit his mother who has been in the Baptist sanitarium for the past three weeks. Mrs. Rickman is improving but is yet in a very serious condition.

Harry Kindley was in town last Friday. He said the good rains that fell last week would be of benefit to the growing crops and help the grass where the weeds have matured. His wheat made a yield of 28 bushels to the acre.

Mr. and Mrs. R. E. Lynch and two sons, John and Robert, Miss Bladen Garrett, Miss Helen Lawrence and J. H. Buchanan were week end guests of Mr. and Mrs. M. B. Costello at their ranch twenty-five miles south of Graham.

Edward Everett arrived last Thursday from Portland, Oregon, with his family consisting of a wife and five children. They made the trip in five weeks and one day in a 1913 model Ford. Mr. Everett will work in the oil field.

Chas. N. Keen, of Farmer, has purchased residence lots near the high school, upon which he will next week start the erection of a handsome modern brick veneer dwelling. That section of town is becoming the most popular and many magnificent homes will soon be erected there.

Judge W. W. Price and family, of Brownfield, spent the first of the week visiting relatives here and at Ellaville. Judge Brown was favorably impressed with Graham and the wonderful progress the town is making. He believes Graham has the brightest future of any town in the State at present.

S. H. Jones, manager of the Jones gin at Loving, was in to see us last Saturday and purchased a gin scale book. He said cotton was beginning to open and ginning would likely start this week. The recent rains, he believes will help the crop and bring up the yield to a little better than an average.

J. D. Spivey's little son, three months old, died at San Antonio August 11 and was brought back here and buried in the Finis cemetery the 13th. They had been living in San Antonio about four months. Mr. and Mrs. L. L. Spivey, parents of J. D. Spivey, were notified of the child's serious illness and went down there, arriving just before it died.

MEN'S STETSON HATS

The largest stock in Young county is at this store. We shall not be able to get any more Stetson Hats until next year so buy while this stock lasts.

EARTH TO REEL FROM MIGHTY SHOCK

Owing to a strange grouping of six mighty planets, such as has not been seen in a score of centuries, the United States next December will be swept by the most terrific cataclysm experienced since human history began, according to Prof. Alvera F. Waria, who has the following to say: It will be caused by the hugest sunspot on record—

A sunspot that will be visible to the naked eye.

Since men first began to make records of events no sunspot has been large enough to be seen without the aid of instruments. This one will be.

The sunspot that will appear Dec. 17, 1919, will be a vast wound in the side of the sun.

It will be a gigantic explosion of flaming gases, leaping hundreds of thousands of miles out into space. It will have a crater large enough to engulf the earth as Vesuvius might engulf a football.

Such a sunspot will be rich enough in electro-magnetic energy to fling the atmosphere of our planet into a disturbance without precedent or parallel.

There will also be gigantic lava eruptions, great earthquakes, to say nothing of floods and fearful cold.

I make this startling prophecy with no desire to be merely sensational or alarming. It is merely because my study of the planets has revealed certain results with mathematical certainty, that I now say to you:

"Be warned in advance. Tremendous things are going to happen from Dec. 17 to Dec. 20, 1919, and afterwards."

Here are the simple, yet astounding facts, that enable me to make this prophecy:

The planets in their orbits swing in great ellipses about the sun. They are linked to the sun, and to each other, by chains of electro-magnetic energy whose compelling forces counteract each other and hold each planet in its regular path.

Whenever two planets wheel into such positions that they pull together on the sun—either in "conjunction" on the same side of the sun, or in "opposition" with the sun between them—their united pull causes the sun's gases to "explode"—to leap out into space, in the whirling volcano we call a sunspot.

These sunspots in turn cause storms in the atmosphere of our earth—storms on other planets, as well.

Two planets, united, are enough to cause a small sunspot and a small storm. Three cause a larger one—four make a very great storm indeed.

But—on Dec. 17, 1919, no less than seven planets will pull jointly on the sun. These will include all the mightiest planets, those with the most powerful pull.

Six of them—Mercury, Mars, Venus, Jupiter, Saturn and Neptune—will be in conjunction; crowded together in the greatest "league of planets" ever known in the annals of astronomy.

They will be massed in the narrow limit of but 25 degrees, on the same side of the sun.

Directly opposite, coming into opposition with this gigantic league, will be the huge planet Uranus. The magnetic currents between Uranus and the six planets will pierce the sun like a mighty spear.

Our earth is outside the league at an angle of nearly 90 degrees—in perfect position to receive almost the full force of the monster electrical disturbance as it leaps into activity so what, to us, will be the eastern horizon of the sun's disk.

This means we shall get the full strength of the storm when the sunspot is at its worst, before the exploding gases have had time to die down.

Such a close grouping of planets has never been recorded before. The whole solar system will be strangely out of balance.

What will be the outcome? My knowledge does not permit me to state, beyond the fact that the storms, eruptions and earthquakes will be tremendous in their strength and scope.

Remember the date—Dec. 17 to 20 and after.

RECLAIMING WORN-OUT AND ERODING SOILS

Edgar H. Kemp, County Agent. Two of the greatest problems of agriculture; probably of equal importance, are, the maintenance of soil fertility and water control. In all production of crops these problems go together as main factors. A certain degree of soil fertility and an adequate and properly controlled water supply. In most of the states that are commonly known as the cotton-growing states the fertility of a large per cent of the cultivated lands have been allowed to decline to a state where they are termed, worn-out.

This rapid deterioration of these soils is from a number of causes; a few of which are Cheap lands, naturally rolling and hilly country, loose loamy character of the soils, frequently with almost impervious subsoils, long open winters with frequent torrential rains, combined with the lack of humus or vegetation in the soils and the absence of winter cover crops, shallow breaking and consequent lack of depth in the soil, the growing of clean-cultivated crops which very rapidly exhaust the humus in the soils and the lack of any system of water control.

In the hilly and rolling lands of Young county terracing or hill-side ditching is of considerable importance as a method of water control. The lack of this has caused many acres to be abandoned entirely. By the right method these washed and gullied lands may be quickly and successfully restored to productivity.

Any farmer having such land should call upon his County Agent who will be glad to assist him in solving his problems. From this until spring is the proper time for terracing, as the terraces have time to settle and become firmly established before planting as well as to store up a supply of moisture in the subsoil from the winter rains. Lands terraced this past spring have shown a considerable gain in yields over un-terraced lands nearby.

If terracing is needed a letter to County Agent at Graham or a phone call to the County Judge's office in the court house will receive attention. Those who will be in need of this should notify me as soon as possible as to when their lands will be clear of crops so that this work may be done. There are no charges for the services of the County Agent.

COULD HARDLY STAND ALONE

Terrible Suffering From Headache, Stiffache, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.

Gonmies, Tex.—Mrs. Minnie Philpot, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days. I suffered this way for three years, and go to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere and had to let my house work go. I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help me. One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Cardui, and am so thankful that I did, for I began to improve when on the second bottle. I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui. Try Cardui today. B 78

School Days Are Fast Approaching

The High School and Colleges of the United States are now making their announcements for next session of school. Vacation days are almost over. We know you have had a good vacation however you may have spent it, and as school is fast approaching, you will be getting ready for the long nine months "grind." Some of you are glad that school is soon to open, and some would not mind if they put off school for three or four months yet; it just depends on how you like it—but whether you are going to high school or to a higher institution of learning, you will need a good many things. We are suggesting a few of the things that you will need—

—Some new suits for boys have just come in. Some have two pairs of pants. The young fellow will appreciate the extra pair.

—We announce an arrival of new gingham. They are of the latest shades and patterns.

—Daniel Green "Comfy" felt slippers have just come in. In the colors of light blue, taupe, brown, grey, lavender, old rose and dark blue; they are very pretty.

—If you go off to school, you will need a trunk, suit case or a hand bag. We have quite few in stock.

—Sweaters are now all the rage. You will want to knit one. We have Fleisher's Yarns in all colors of the rainbow—and more.

—After you have gone through a busy school day, you will find that a blanket robe or a kimono will put you in a frame of mind to prepare your lessons better for next day. We have them in all colors and patterns.

—Stationery is a very necessary article of school life. We have pen and ink tablets and also the higher grades of paper, either boxed or in tablet form.

P. S. The Opening of the Graham High School is Officially Announced for Sept. 8th

The Jno. E. Morrison Company

VICTORY BUTTONS, UNIFORMS AND EQUIPMENT FOR EX-SERVICE MEN

Soldiers, sailors and marines who served in the Great War, are entitled to a Victory Button, and if any of our readers who served in the army or navy desire to secure a button, they can do so by sending their serial number, the name and number of the organization they served in to Congressman Lucian W. Parrish, 171 House Office Building, Washington, D. C. He will see that the request is filed with the proper department and the button promptly forwarded. Men who have been wounded should state this fact, as they are entitled to a silver button. The buttons for the soldiers will be ready for distribution on or before the first of September, 1919, but the buttons for the sailors and marines will not be ready for distribution until about the first of November, 1919.

Congressman Parrish also states that any soldier, sailor or marine who turned in his uniform and equipment upon his discharge, is entitled to a new outfit and the proper application for securing the above will be sent to all who will send in their names and addresses to him.

Mr. Parrish also wishes to say that his office is in daily communication with the War and Navy Departments, the Bureau of War Risk Insurance, and all Government agencies dealing with the various problems arising through military or naval service, and will be glad to have the boys in the service and those discharged, or their friends and relatives communicate with him freely at any time when they desire information or assistance in any of these matters.

FLAT ROCK

Health in this community at present is fairly good.

The Methodist meeting is being held this week. Rev. Bailey is conducting the services.

On August 17th J. M. Taylor received a message from Garner, Texas, stating that his brother, R. H. Taylor had died from heart failure. Mr. Taylor had been in poor health for several years and his death was not unexpected. Mr. Taylor was a devoted member of the Church of Christ, having been a faithful follower of his Lord from early manhood. On Monday evening he was laid to rest in the old family churchyard at Anthon, Texas. His friend and former pastor, Rev. T. Tate, of Dawson, county, Texas, conducting the funeral services. Deceased leaves a large circle of friends who mourn his passing.

Mrs. H. T. Forrest and children spent last week in Jack county. Some of her relatives accompanied her home.

Mrs. W. E. Harnes and son, William Elbert, Jr., of Wichita Falls, are here visiting relatives and friends.

J. M. Taylor returned from Garner, last Wednesday. T. R. Taylor, of Garner, and Joe Moore and family, of Gracford, accompanied him home.

C. B. Parsons, of Ranger, came over last week on a flying visit to his parents and to take Miss Juanita home, the little Miss having been here with her grandparents, Mr. and Mrs. Parsons, for the past two months.

W. F. Taylor, of Ochiltree, Texas, I. M. Taylor, of Garner, Texas, Billie Lowe, of Ranger, G. W. Taylor and family, of Gray, Okla., spent the week end here with J. M. Taylor.

The news of the long expected Lindy Lou was gladly received here. Hope ere many months to report a well in this vicinity.

BROWNIE.

FURNISHED HOME FOR SALE

A neat East front 3-room house with two porches and hall, electric lights and city water, completely furnished; good barn, garage and garden spot for sale at a bargain if purchased at once. For particulars call at The Leader office.

OLNEY, TEXAS

"CALL FOR DENTIST

of Alaskan Island Need
Vices of Man Skilled with
Drills and Forceps.

any dentist hunting for a loan.
Here's one. It is on Afognak,
island lying east of the entrance of
Cook's inlet, on the Alaskan coast.

While the icebergs float around oc-
asionally and bump one another in
the sea like giant monsters in a game
of water polo, yet it is comparatively
warm up there now, as the summer is
coming on with its flowers and mos-
quitoes. But whether an Arctic win-
ter or a brief summer is on, people
will have the toothache up there near
the Arctic circle the same as do the
sweating residents these days along
the thirty-sixth parallel of latitude.

Miss Virginia Clark, an accom-
plished young woman who was born
and reared on the island of Afognak,
and is now teaching the youth of her
native land and village, sends out this
cry for a dentist. The information is
given in a bulletin of the Alaska Bu-
reau of Publicity:

"A dentist located here would have
a snap," is the only information given
by Miss Clark. She gives no clue
as to the financial standing of the
patients, but the lucky dentist could
no doubt fight off the H. C. L. night-
mare by doing a piece of dental work
for an Eskimo and taking his pay in
walrus meat. Miss Clark does say
that potatoes and garden truck thrive
there, the fishing is good, and there
are plenty of elms and wild ducks.
Copper also is found in paying quan-
tities, and placer gold mining is being
successfully carried on along the
beaches.

ALIENISTS CAN BE WRONG

Amply Proof That Even Most Able
of Psychologists Are by No
Means Infallible.

You will not find the word "moron,"
as used by psychologists and alienists,
in many dictionaries for it is a word
coined only very recently to describe
a certain type of person who is men-
tally defective although not insane.
Col. T. Easty Smith of the selective
service bureau at Washington made a lit-
tle speech at the Atlantic City meet-
ing of the American Medical associa-
tion in which he rather "guyed" his
professional associates on the way
they judged a man to be a moron or
sub-normal in intelligence.

After relating how the board of
psychology had set a certain soldier
down as having the mind of a five-
year-old child, he drew a hearty laugh
at the expense of his colleagues by
admitting that this same board had
judged the intellect of a certain mem-
ber of President Wilson's cabinet and
had pronounced it to be on the level
of a twelve-year-old, and had in the
same way set down an eminent gen-
eral in command of one of our armies
abroad as a ten-year-old in intelli-
gence.

Bring Gifts to France.

A delegation from Abyssinia bearing
rich gifts of ivory and silks for the
announced purpose of congratulating
France on her recent victory, appeared
at the peace conference in Paris. This
is in strict accordance with the ancient
oriental procedure. The real purpose
of a visit is not disclosed until prelimi-
nary ceremonies are concluded. These
native Africans—claiming descent from
Solomon and the queen of Sheba—
wished to be in on the carving up of
the world, for they have interests
which are vital to them although little
known to the rest of the world. Seat-
ed at that natural bastion of Africa,
the Abyssinians, have lived in greater
or less security for unknown centuries.
They are, not negroes, but a mixture
of Hamitic and Semitic races, with a
culture of their own and professing the
Christian religion, being a branch of
the Coptic church of Egypt. Until re-
cently they have been unmolested save
by native tribes.

Keeps Off Potato Bugs.

And so comes a prophet, who
lives in Missouri, and has published in
a number of papers the following
recipe for the especial benefit of those
who object to chase the elusive potato
bug: "If a soup bean or two is
dropped into each hill of potatoes
when they are planted the potato bug
will not bother them, and besides, your
crop of potatoes you will get one of
beans as well. There is one farmer
who has tried this experiment for five
years and has never been bothered
with bugs while his neighbors lost
their crops. The bugs don't like the
smell of the beans for some reason."
—Kansas City Times.

But None Came.

Late the other night on a street car
a soldier was going home, for the first
time. He was happy and proud. And
his reason for being proud: there was a
wound stripe on his right arm.

One man said to him: "Where were
you wounded?" The soldier replied:
"I was hit in the back with a piece
of shell." The man gave a short laugh
and said: "A funny place to get hit;
which way were you going?"

"It is needless to say that the soldier
at the man and here is what the sol-
dier said: "If there are any more of
you fellows think that a Yank ever
can change your mind for you."
—Indianapolis News.

Pa in Petulant Mood.

"Pa, what is a bolshevik?"
"A bolshevik is a man who has the
same idea as your mother."
"What idea, pa?"
"That money can be picked off
bushes."

GOAT MEAT GOOD AS MUTTON

It is Said Only Experts Are Able
to Tell the Difference Be-
tween the Two.

There is a growing disposition to
give the goat his due. Heretofore this
rubbish-eating animal has been re-
garded pretty much as a joke, but he
has continued to eat tin cans and
thrive until now his race has ac-
quired census-listing proportions and
a market has been established in a
middle-western city where surplus
goats will be converted into "spring
lamb" for the benefit of our non-vege-
tarians. As an addition to the poor
man's meat perhaps the goat will be
welcome, especially if his advent tends
to lower the present high prices.

Goat meat tastes much the same as
mutton, it is claimed, and that the dif-
ference cannot be told save by an ex-
pert. Perhaps that is just as well.
Our imagination has much to do with
our taste. Many people are eating
horse meat in this country under the
impression that it is beef, for horses
are slaughtered, but almost nowhere
is their meat exposed for sale under
its true name. No doubt the easiest
way for us to get used to goat meat is
to camouflage it as mutton. It is an-
other case of ignorance being bliss.

But, as we are assured by the ex-
perts that it is wholesome, a name
will not make much difference in the
end. Mutton, the world over, has been
the poor man's meat. If goat meat
can add to the supply, so much the
better. The meat of goats was a
favorite in the days of the patriarchs.
It is still highly prized in the East.
There seems to be no reason why it
should not ultimately hold a respect-
able place on our menus.

SHE UTTERED NO CRITICISM

But Many Will See Deep Significance
in That Kiss Bestowed by
Minister's Wife.

Now, everyone knows that the min-
ister's wife must not say harsh things
about anyone, no matter how she
thinks. Also that though she is forced
to listen to criticism she herself must
not give any. The other evening an
Indianapolis paragon woman was sit-
ting on her front porch, when one of
the young girls of her husband's con-
gregation came to call. Hardly had
she settled herself comfortably before
the young lady began to condemn vig-
orously a very parsimonious member
of the church.

"He wouldn't give a cent to repro-
priating the parsonage," stormed the
visitor, "yet he had plenty of money
to buy himself a new seven-passenger
touring car. I just hope that every
time he starts out in it he'll have a
puncture."
The minister's wife had only that
morning spent three or four hours mend-
ing the old carpet. She didn't say a
word of reproach—merely looked at
the young girl in silence and then went
across the veranda and kissed her
cheek.—Indianapolis News.

Ticklish Bit of Tunneling.

A very interesting bit of tunneling
was recently done on the Fourteenth
street tube under the East river, New
York. The heading was being run in
rock and at one point test holes
showed a thickness of only eight
inches of sound dry rock above the
line along which the top of the tunnel
was to run. As the tunnel was being
driven without the use of compressed
air it was decided to drop the upper
heading four feet until this thin cover
of rock was passed. The cast iron
lining was set in place at each side
of this section and then the rock was
removed very carefully by using a
great many holes each loaded with
about one-eighth of a stick of dynamite.
As each bit of rock was removed the
arch of the tunnel lining was set
in place. By this means the dangerous
section was tunneled without breaking
through the thin shell.—Scientific
American.

His Desire.

Last autumn Roland was much in
love with his new teacher, and tried to
prove his affection by doing many er-
rands for her. One of them was the
hauling of the fertilizer from his father's
barn to her flower garden.
This spring Roland became interest-
ed in a victory garden and started one.
One day he journeyed to the home of
his last term teacher, told her of his
garden and then ended the conversa-
tion with, "Do you remember that fer-
tilizer I gave you last fall? Well, I'd
like to have it back now for my own
garden."

Ingenious Automobile Thief.

An automobile owner at Hallowell,
leaving his car, hitched it to a tree by
winding a chain around one of the
wheels of the machine and fastening
the end of the chain around a tree.
An automobile thief jacked up the car,
loosened the wheel which was chained
to the tree, took it off, and then re-
moving the extra wheel from the rear
of the car put it in the place of the
wheel which had been dropped off and
drove away, leaving the single wheel
chained to the tree.

Big Game Hunters Protest.

A proposal that Canada increase its
meat supply by using airplanes to drive
the great herds of caribou from the
barrens of the northern provinces into
corral on the shore of Hudson bay for
slaughter has called forth loud protest
from the big game hunters of Africa.
They foresee an extension of the prac-
tice to the wholesale slaughter of ele-
phants, lions, zebras, giraffes, and vari-
ous kinds of deer which abound in the
no-longer dark continent.—Oregonian.

DALLAS, OCTOBER 6-19, 1919

NEW SILK AND WOOLEN GOODS
Are now on sale at
STREET & CO.

Mrs. L. E. Fitzgerald and two chil-
dren, of Dallas, spent the past few
days visiting her grandparents, Mr.
and Mrs. L. P. Brooks in the Mount
Pleasant community.

Mr. and Mrs. C. M. Evans, of
Granger, returned home Tuesday
morning after a week stay with their
son, Rev. J. E. Evans, pastor of First
Christian church.

Mr. Lee Ward, of Olney, and Miss
Maud George, of Graham, were mar-
ried Monday, August 25th, in Mar-
shall & King's office, Rev. J. E. Evans
pastor of the First Christian church,
officiating.

The Leader and Dallas News \$2.25.

Ex2 1-2 casing with rim and
inner tube lost on Graham and
Lang road last Friday night.
Born to CAL MASEY.

Mrs. M. L. Manning returned last
week from a visit in California. She
was accompanied home by her mother,
Mrs. Lynch, of Fort Worth.

G. Vick and family have arrived
in Fort Worth from California, where
they spent the summer, and will
always return to their home here.

Vara Gatlin is visiting Misses
Beth and Eula Stone in Galveston.
Miss Eula Stone will return to Gra-
ham with her.

Lillian Widmayer spent the
first of the week in Dallas on busi-
ness.
