

GRAHAM SCHOOLS OPEN MONDAY

The 1919-20 term of the Graham schools will open at 9 o'clock next Monday morning, September 8th. This term promises to be the best in the enviable history of our schools and all parents should strive to cooperate with the teachers and see that their children attend every day possible and are always on time. The success of the school depends largely upon the parents and this thought should be constantly borne in mind. Every teacher in the faculty this year is experienced in the work and has made good. If a child fails to make good grades the blame rests upon the parents or the child and not upon the teacher. If we as patrons do our part this year the ensuing term will be even better than any of the former. The faculty is the very best that can be secured and, realizing this, it is a duty we owe our children to see they take every advantage of the greatest opportunity they have ever had for learning.

On Monday morning at 9 o'clock a special program will be rendered for the entertainment of patrons and the public. A good attendance should be present at this time, as the interest manifested by patrons now gives encouragement to teachers and pupils. For the first time the State of Texas will furnish textbooks free to all public school pupils. These books will be distributed at the high school Monday and Tuesday. All second-hand books can be sold to the State at half the exchange price as marked on each book. Arrangement will be made to pay for all books offered for sale.

The following are the teachers selected for this year:
HIGH SCHOOL
Earl L. Howell, Superintendent.
Allen M. Freeman, Principal and Mathematics.
Hubert H. Moss, Science.
Miss Arrie Barrett, History.
Miss Lillie B. Pate, Latin and Spanish.
Miss Johnnie Agnew, English.
INTERMEDIATE DEPARTMENT
Miss Euretha Bottom, Reading and Physiology.
Miss Ora-Lee Allen, Arithmetic and Civics.
Miss Winnie Davis, Grammar.
Miss Margaret Short, History and Geography.
Miss Sue Williams, Writing, Drawing and Spelling.
PRIMARY DEPARTMENT
Miss Ned Bond, Third Grade.
Mrs. Myrtle Voules, Second Grade.
Mrs. Lucy K. Isaacs, High First Grade.
Miss Bertie Davis, Low First Grade.

REMODELING OPERA HOUSE

J. T. Vaughan is repairing, remodeling and enlarging the floor space in the opera house and will in the near future install opera chairs. The stage has been moved back and the interior of the building has been arranged so that it is much more convenient than it was formerly.

The work has not been completed yet but Mr. Vaughan will open next Saturday night with a good program of pictures and continue to show as heretofore.

Art Ernest, a former Graham citizen, is here today from Dallas.

Nice Furnished Room for Rent. Apply at Leader office.

Mr. and Mrs. B. W. King have returned from a pleasure trip to Colorado Springs and Manitou, Colorado.

Miss Hattie Martin, of Proffitt, is spending this week in the city the guest of Mrs. Robert Justice.

Gaston Hallam underwent an operation for adenoids Monday and is doing well.

Misses Kathleen, Leah and Grace Stewart and Miss Fannie Stoffer spent last week in Mineral Wells.

Frank Coover, who spent last year working on the Graham well, has returned to the local oil fields after an absence of several months.

SWIMMING PARTY

On Monday evening, Mesdames Will Miller and Henry Criswell were joint hostesses at a swimming party in honor of their guest Bess Beulah Bell. Cars carried the host of young people to the Brazos river where they enjoyed a swim in the old swimming hole. A large bonfire furnished ample light later on in the evening when the famous Miller barbecue with sweet pickles was served cafeteria style. Heaping vanilla cream cones were passed before the return trip to town.

The personnel of the party included: Misses Beulah Bell, of Fort Worth; Nelle Graham, Beulah Allen, Madalene Long, Ethel Birdwell, Helen Lawrence, Lottie Bell Wallace, Sadie Scott; Edith Birdwell, Monnie Ridling, Catherine Graig, Eloise Morrison; Messrs. Henry Porter, Jack Stewart, John Morrison, Norman Stoval, John Lynch, Herntan (Buchanan, J. B. Norris, Bryan Hall, Bennett, Joneyay, Ernest Babb, Bishop; Messrs. and Mmes. Scarborough Mabry, Claude Bloodworth, R. G. Graham, Jr., Charles Hinson, R. L. Morrison, Henry Criswell and W. M. Willer.

Attention, Confederate Veterans All members of Young County Camp U. C. V. are requested to be present at the Camp's next meeting, which will be on next Monday, September 8th. National Reunion affairs will be discussed at this meeting.

F. HERRON, Adjt.

Mrs. R. F. Fowler and children, of Cisco, are visiting relatives here.

Nice Furnished Room for Rent. Apply at Leader office.

J. F. Orrell has purchased lots in southwest Graham and will at once start the erection of a home on them.

Mrs. J. T. Rickman returned Saturday night from Dallas where she has been in the Baptist sanitarium receiving treatment.

Will you be there? Chautauqua, September 17, 18 and 19.

A Black Leather Suitcase was lost on the Graham-South Bend road last Monday evening. Finner please return to Leader office. 2p.

S. H. Hill, one of the pioneer settlers of Stephens county, was here Tuesday looking over city property with a view to locating in Graham.

J. A. Duckworth, one of Loving's leading merchants, was in the city on business yesterday and called at our office and left a nice order for job work.

FOR SALE

Good team, wagon and harness. LOUIS BOWER.

Joe Johnson, one of the county's leading farmers, was here from his home near Jean yesterday. He expects to become a citizen of Graham in the near future.

AUTO TIRE LOST

A Goodyear Auto Tire with rim, was lost on the Graham and Mineral Wells road August 30th. Finder return to Leader office. 2

Jim Smith and family have returned from Stephens county to make Graham their home through the school term. Jim has been holding a good job in the oil field during the past few months.

R. L. Reed spent several days of last week at Graford and out at the Holt well, which he says is spraying oil over everything near it and producing more than five million cubic feet of gas.

W. F. Campbell, who recently purchased the Wizard Well and bottling works, writes us this week to forward The Leader to him there, and states that business is exceptionally good.

Graham has been a very busy place all this week and quite a number of new families have come in to make their home during the coming ten months, and all of them seem to be preparing for the opening of school next year.

SUITCASE LOST—On Murray and Graham road yesterday morning. Finder return to Leader office. 2c.

REASONS WHY YOU SHOULD ATTEND THE CHAUTAUQUA

1. You will get your money's worth. In this day of profiteering, money doesn't go far. Who can estimate in money the value received by three days of inspirational lectures, genuine amusement and music? 2. Its aim is Education. Never before has such a demand been made for education. A hue and cry has gone up for higher salaries for teachers that our children may have the best. Many charts have been compiled to prove that the educated person outdistances the uneducated in the race for the good things of life. The central theme of this year's program is Education.

3. Our President approves it. President Wilson has said that he knows no better plan whereby knowledge and inspiration may be generally disseminated than from the Chautauqua platform. Great ideas, modern ways and means, general information is brought to our door.

4. You will be stimulated. Many a successful one can remember the book, the article, the person, the sermon, that turned the tide of their lives toward success. The hot summer months have made us long to throw off the harness and just graze. But autumn is here and work to do. Perhaps that very zest for work which you need will be found in the Chautauqua lecture, "Pushing Back the Horizon," on the last night.

5. It is good for the children. All "shows" are not good for children. But the Chautauqua needs no censor. Here you may find entertainment which is a delight to give the youngsters and in itself affords parents a great privilege.

6. Be public spirited. A good Chautauqua is generally conceded to be good for a town. For two seasons we have made a great success by pulling together. A precedent was established which a public spirited citizen will wish to maintain. "You can't beat the law that underlies team work."

7. Chautauqua tickets have not advanced in price. This is distinctive, considering the advanced prices along every other line. The adult season ticket is \$2.00, children's \$1.00, entitling the holder to a seat at every performance. Many inferior attractions are more.

8. The object of the Chautauqua is not only to uplift but to entertain. Music on various instruments, witty impersonations, rollicking fun feature every performance.

9. There is help for the home maker. Every woman should be interested in learning to make her home a more beautiful, sanitary, livable place.

10. Finally, every dollar above the guarantee will remain here in Graham. All proceeds above expenses will go toward erecting a library for the town. The local Literary Club, under whose auspices the Chautauqua comes, have now some \$1300.00 in cash and bonds and lots secured, plans under consideration, for erecting a library which will not only add to the civic improvement of Graham but will be a source of pleasure and profit in years to come. Less than a dozen ladies have accumulated this amount in the last three years by their own efforts. The Chautauqua is their annual source of revenue. Make it go that a handsome library may be built here for our progressive town and for the improvement of our boys and girls.

BIG RALLY DAY NEXT SUNDAY
Graham is growing—so is the Baptist Sunday School. The attendance last Sunday was nearly 50 more than the Sunday before. Next Sunday we aim at 300 present and want every Baptist family in Graham to come in full force. We want 50 new pupils. We want 50 visitors present. Every one will be tagged at the door. See if you can not be No. 1. Sunday School opens promptly at 10 o'clock. Every one has a special invitation to be present.

R. G. Stoker was here from Crystal Falls yesterday looking after his business interests in the city. He is contemplating moving to Graham in the near future.

ORDINANCE NO. 76.

An Ordinance regulating the traffic of motor and other vehicles upon the public streets and alleys of the City of Graham, prescribing speed limits, and regulating the parking of motor and other vehicles upon the public streets and alleys of the said City and fixing a penalty for the violation of any of the provisions of said Ordinance. Be it ordained by the City Council of the City of Graham:

Sec. 1. Hereafter no person shall drive or propel a motor or other vehicle upon any of the public streets or alleys of the city of Graham at a greater rate of speed than fifteen miles per hour, provided further that no person shall drive or propel a motor or other vehicle upon the portion of the streets as hereafter set out and described at a greater rate of speed than twelve miles per hour, to-wit:

Fourth Street between Grove Street and Cherry Street. Second Street between Grove Street and Cherry Street. First Street between Grove Street and Cherry Street. Fifth Street between Grove Street and Cherry Street. Grove Street between Fifth Street and First Street. Elm Street between Fifth Street and First Street. Cherry Street, between Fifth Street and First Street.

Sec. 2. Hereafter no person shall park a motor or other vehicle upon the portion of the streets of Graham hereinafter described for a longer period of time than ten minutes, to-wit:

The north side of Fourth Street between Oak and Elm; the west side of Oak Street between Second and Fourth.

Provided further than any person who shall park a motor or other vehicle on that portion of the streets described in this Section for a lesser period of time than ten minutes shall park same in such a manner as that the long side of such vehicle shall be parallel to the line of the curbing on said street further from the square.

Sec. 3. Hereafter no person shall park a motor or other vehicle in front of the United States Post Office as it is now situated on Oak Street, for a longer period of time than ten minutes, and when parking in front of such post office for a shorter period of time than ten minutes the vehicle shall be so parked as that the long side of the vehicle shall be parallel to the curb along the west side of said street; provided further, however, that it shall not be unlawful to park a motor or other vehicle on the east side of said Oak Street when said vehicle is not parked in violation of Section 4 of this Ordinance.

Sec. 4. Hereafter no person shall park a motor or other vehicle within ten feet of any fire plug in the City of Graham.

Sec. 5. Any person who shall park a motor or other vehicle upon Fourth Street between Oak Street and Elm Street shall park same in such manner as that the long side of said vehicle shall be at right angles with the north line of said vehicle nearest the north line of said street, shall be on a line parallel with the north line of said street and twenty feet south of the curb.

And any person who shall park a motor or other vehicle upon Oak Street between Fourth Street and Second Street shall park same in such a manner that the long side of the vehicle shall be at right angles with the west line of said street and in such manner as that the wheels of said vehicle nearest the west line of said street shall be on a line parallel with the north line of said street and twenty feet east of the curb.

Provided, however, that it shall not be a violation of this Section for any person to park a vehicle as provided in Section 2 hereof.

Sec. 6. Any person driving or propelling a motor or other vehicle on any of the public streets immediately surrounding the public square on which the court house is situated shall drive or propel such vehicle at right angles with the outside line of the street on which such vehicle is traveling and on the right hand side of said street except when in the act of parking said vehicle as provided by this

DISTRICT COURT

District court convened Tuesday afternoon for the September term and up to noon today the following cases had been disposed of:

Nora Clark vs. J. J. Dickson; trespass to try title; judgment for plaintiff.

J. Marshall Morgan vs. Mayes; agreed judgment.

R. L. McInnis vs. S. D. Rutherford; dismissed at plaintiff's cost.

First National Bank of Olney vs. American National Bank of Fort Worth; dismissed.

Mrs. Della Colley vs. F. M. Rushing et al; dismissed.

F. M. Kramer et al vs. W. H. Batchler; cancellation of oil and gas lease; dismissed.

J. W. Otts vs. James Bradley et al; judgment for plaintiff.

C. C. Bloodworth vs. F. M. Davis et al; judgment for plaintiff.

J. F. Orrell vs. C. P. Hart et al; judgment for plaintiff.

J. C. Owen vs. A. Black; judgment for plaintiff.

Beckham National Bank vs. J. Y. Dendy; judgment for plaintiff in the sum of \$1,938.00.

Chas. Gay et al vs. J. F. Fouch; dismissed.

F. Z. Crawford vs. Wm. Ord et al; judgment for plaintiff.

J. F. Norris vs. J. E. Dowdle; cancellation of oil and gas lease; dismissed.

Annie E. Emanuel et al vs. W. H. Slack; judgment for plaintiff.

J. R. Starnes vs. J. H. Caudle et al; judgment for plaintiff.

C. A. Brown vs. F. B. Robinson et al; removed to Federal Court.

Nat Price vs. J. D. Short et al; judgment for plaintiff.

J. J. Fawks vs. Henry Hodges et al; judgment for plaintiff.

W. F. Choate et al vs. W. H. Roeser et al; dismissed.

T. L. Collier vs. Southwestern Petroleum Co.; agreed judgment.

ETHEL HARRIET ROBERTSON

Ethel Harriet, the five-year-old daughter of Mr. and Mrs. R. J. Robertson, died of meningitis at the family home in the Rocky Mound community last Sunday, August 31st, and was laid to rest in Oak Grove cemetery in this city Monday evening, September 1st, at 4:30 o'clock, the funeral services being conducted by Rev. A. W. Franklin.

Ethel Harriet Robertson was born January 13th, 1914, and was at the time of her death five years, seven months and eighteen days old.

NOTICE, FARMERS

There is being published by the Texas Agricultural Department a monthly periodical entitled Monthly News Bulletin that is sent free to any address in the State. It is my opinion that the farmers' interests are being more sincerely promoted than ever before in all the history of the State. The tax money of the people is having this paper published, and I know that it is vitally important that the farmers should read this publication. All that is necessary is for you to send your name and address to Hon. R. R. Claridge, The Texas Agricultural Department, Austin, Texas, and tell him to send you the Monthly News Bulletin, and I would suggest that you ask for the August number.

Yours truly,
W. F. STINSON,
County Judge, Young County.

P. K. Beats and family spent Sunday with relatives in Albany and returning spent Monday in the Breckonridge oil fields.

Ordinance and when desiring to turn said vehicle and proceed in the opposite direction shall turn said vehicle only at the intersection of some street or alley.

Sec. 7. Hereafter it shall be unlawful to stop or drive or propel a motor vehicle in such manner as to block or obstruct the traffic on any street of the City of Graham.

Sec. 8. Any person who shall be found guilty of violating any of the provisions of this Ordinance or any section thereof upon conviction shall be fined in any sum not less than Five Dollars nor more than Twenty-five Dollars.

YOUNG COUNTY OIL DEVELOPMENT

Interest in the oil fields is yet centered in the northern part of Stephens county and in the northwestern part of Palo Pinto county where considerable development is in progress.

In northern Stephens county, just over the Young county line, two wells have made most excellent showings this week, the Vick well and the Corbett well. The former is at a depth of 3250 feet and making about one and one-half million feet of gas and splendid showing for oil, while the latter has 2000 feet of oil in the hole at a depth of 3925 feet and is being prepared for a shot at the 3700 foot sand.

In Palo Pinto county, about 17 miles east from Graham, the Holt well promises to make one of the leaders in the field at the top of the 4000-foot sand, and is making about five million feet of gas and spraying thirty barrels of oil a day. The heavy flow of gas makes work at the well very slow and disagreeable.

The Whittenburg well in the edge of Stephens county is shut down to lay pipe for water. The Hill well will be drilled in tomorrow if present plans are carried out. Piping has been laid and storage arranged to care for 1000 barrels of oil there.

The Timmons well, seven miles from Graham, has encountered a light flow of gas at the top of the 3000 foot sand. According to reports from parties who have been out there this week, the Graham well is increasing in flow and bids fair to make from 500 to 1000 barrels when brought in. The same report comes from the Arnold well which is near the Graham and fits the same formation.

The Texas Company No. 1 Wiley Blair, underreaming, 2540 feet. The Texas Company No. 1 Norris, underreaming around 1500 feet.

Staley, Langford & Chanaut No. 1 Donnell, rig completed, waiting on fuel to commence operations.

Southwestern Miami Oil and Development Co. No. 1 McKeen, timbers. The Roxana Petroleum Co. No. 1 Donnell, shut down around 780 feet.

The Sun Company No. 1 Donnell, spudded in. The Arkansas Oil & Gas Company No. 1 Jeffery, rig up.

The National American Refining Company No. 1 Donnell, rig up. Snowden Bros. No. 1 Graham Estate, shut down around 690 feet.

Merrill Oil & Gas Co. No. 1 Hunt, shut down for repairs to rig around 440 feet.

The Manhattan Oil & Gas Co. No. 1 Johnson, drilling around 1995 feet. Mattie Gervis Oil Company No. 1 Steen, drilling around 1495 feet.

Humble Oil & Refining Co. No. 1 Marshall, set 15 inch at 720 feet, now drilling around 760 feet. Moore et al. No. 1 Keen, shut down around 780 feet.

NOTICE

Victory Bonds are here. Those who are behind on their installment payments on both Liberty and Victory Bonds will please give same prompt attention.

BECKHAM NATIONAL BANK.

W. M. Goode was here from his home at South Bend last Tuesday.

For all kinds of Cow Feed call at Bower's Feed Store. J. T. Vaughan made a business trip to Archer county the first of the week.

Remember the Rally Day at the Baptist church. A. C. Bentley, one of Newcastle's leading merchants, was in the city on business yesterday.

Mr. and Mrs. M. K. Graham and family have returned from their summer cottage in Winslow, Arkansas.

For all kinds of Cow Feed call at Bower's Feed Store. Miss Winnie Gilmore has entered a business college in Dallas and in order to keep up with Graham and Young county while away she has ordered The Leader sent to her there.

Consumer Compelled to Pay Higher Price for That Portion Which Finally Reaches Him. In marketing poultry and eggs there is an enormous preventable loss in quality and value between the producer and the consumer.

ECONOMICAL FEED FOR SHEEP

Alternating Pasturage Advised to Keep Plants Growing and Prevent Stomach Worms.

Prepared by the United States Department of Agriculture.

Because of the importance of economical feeding in profitable sheep raising, the United States department of agriculture directs special attention to opportunities for growing forage crops as a feed for lambs and ewes.

Early spring pasturages of wheat or rye may be used at the start. These provide succulent green feed appetizing to the ewes and lambs.

Rape, another good forage crop, may be sown at the rate of six to eight pounds an acre and will provide later pasturage, following the oats and Canadian field peas.

If pastured by alternating the grazing in different parts and not allowing any particular section to be too closely eaten, a field of soy beans may be used for a considerable time.

It is good practice to sow rape at the last cultivation of corn. The lambs can then be turned in the corn field in the fall and will feed upon the lower leaves of the corn and rape and make excellent gains.

Lambs not only make a rapid and cheap gain on forages of this kind, but a forage-crop system prevents, to a large extent, injury from stomach worms.

Sheep on Pasture.

controlled. Since this condition exists, it is better to have the pastures of a convenient size, so that the lambs and ewes will consume all the forage in a period of about two weeks and again be turned on a new pasture.

Where lambs are to go to market an effort should be made to get them off early. Lambs make the best and cheapest gains during the first four months of their lives.

Lambs weighing 60 to 75 pounds make the most desirable market offering. The reason is that lambs of this size dress out a desirable market carcass, which can be more readily handled by the butcher.

Good Shelter for Pigs. Pigs need a place of shelter to appropriate when the weather is bad, and shade when the sun is too hot for their endurance.

FOR SUMMER COLDS

Nothing gives quicker relief than Vacher-Balm.

It is harmless, and also relieves Nervous Headache quickly, and any superficial inflammation in a short time.

Try it for Mumps, Hay Fever, or any pain.

If you cannot buy it locally, send for a Free Sample, and Agent's terms, or send 50c stamps for 2 25c tubes.

CURRENT WIT and HUMOR

A SCHOLAR'S PROTEST.

"Ah! A Romeo and his Juliet," remarked Mr. Duhaute, as a loving pair strolled past. "My dear sir," said Professor Diggs, "I have a great admiration for Romeo and Juliet as portrayed by the immortal Shakespeare. Apply the names of those graceful and romantic figures to a bow-legged young man in a 'waist-line' coat and a caltmind young woman wearing a hobble skirt does great violence to my feelings."

Going the Rounds.

"That new nursemaid of Mrs. Styles seems a very obliging girl," said the lady in the satin jumper. "What make you say so?" asked her friend in the purple gingham. "Well, yesterday morning I saw her out with Mrs. Styles' baby, in the afternoon with Mrs. Styles' dog, and in the evening with Mrs. Styles' husband."—London Answers.

IN NO DANGER.

Wife—The fact there are germs on honey doesn't worry me!
Hub—No, my dear. I would take a pretty active germ to hop from the money to you during the brief time you have it.

Boost Him.

I'm very fond
Of William Black.
He never talks
Behind my back.

Easy Pickings.

"Why does this convicted stock swindler shed tears over the prospect of spending five years in the penitentiary. That isn't a long term."
"It seems long to him. He's afraid by the time he gets out all the boobies will be separated from their liberty bonds."

It Got Him.

"Young man," said the educated stranger, stepping into the bookshop, "I would like to purchase a good thesaurus."
"Well, why don't you take a look at the manager," answered the fresh but green clerk, "this is a book store."

HER QUESTION.

"For the past decade," declared the grouch, "women have been neglecting the home more or less."
"Well," said the woman, "if we keep that up about 6,000 years, we'll be about square with the men, won't we?" After considering a while he did not attempt to refute her statement.

Merits of the Professor.

"I've just been introduced to Professor Smart. Such a charming man to talk to; he doesn't make one feel like a fool in spite of his cleverness."
"Ah, my dear, that's because of his cleverness."

The Sugar and the Fly.

Westryman (at meeting)—We must now take up the problem of getting our boys to church.
New Minister—That problem will solve itself if we can get our pretty daughters to go.

HOME TOWN HELPS

PAYS TO MAKE USE OF PAINT

Apart From Adding to Appearance of Structure It Also Tends to Retard Deterioration.

The foundation reason for painting is protection of the thing painted. The owner of property should never forget that. No one can look upon painting as an expense if he is convinced that it prevents a greater expense.

There is, however, another great reason for painting and that is the appeal of pride in appearance. This is quite human. It is seen in the matter of clothes. Primarily clothes are to keep us warm, but a suit is discarded while it is still warm because it is shiny, out of shape, or slightly faded. In other words, one feels that it would compromise their standing were they to wear it.

So it is with the painting of houses. In progressive, proud communities, houses are painted every three or four years through pride-in-appearance. Progressive citizens are not satisfied with the looks of their houses after three or four years' exposure to weather.

As good citizens we should not only see that every person knows that structures will deteriorate if unpainted, but we should also try to make people as proud of the appearance of their homes as their more progressive neighbors. We should deliberately set out to make them ashamed of their dingy homes which are a reflection upon the whole community.

This work is peculiarly one for local example and community co-operation. Everyone knows that a newly-painted house is likely to start the whole neighborhood to slinking up. It becomes contagious.

Every person who wants to see his community prosper will join in such a movement.

HOME CITIES ALSO NEEDED

Well to Remember That There Are Other Things in Life Besides "Business."

If a writer on present-day industrial economics is right, the next few decades will be marked, in the United States, by an amazing amount of self-study by individual cities, towns, and even villages. He foresees "intensive" study undertaken by every municipality to determine what can be manufactured in that place. Within limits he is probably right, but there will be many who will honestly hope that the limits will not be too widely extended, and who will believe in all seriousness that an occasional municipality without manufactures has its place in the scheme of things for a well-balanced nation. "Business first" may be a good slogan, but "business everywhere" might weaken enthusiasm for desirable industry by overemphasizing it. One is reminded that since somebody gave current meaning to the term "business efficiency" about 2,000 books on the subject have been written and printed in English.—Christian Science Monitor.

Boosters and Roosters.

The difference between the effective booster and the rooster is that the latter has no responsibility and the former must make good. There was a time when the boosters from a town would go on a visit asserting that they lived in the biggest city, had the tallest buildings, the largest stores, the wealthiest people, and so on, using words without stint simply because they wished to say something favorable about "home." They would be placed in the rooster class now unless they could show by facts and figures that their assertions were true.

Landscape Gardening.

The great mistake made by most amateurs is that they study gardens too much and nature too little. Now gardens in general are stiff and graceless, except just so far as nature, ever free and flowing, reasserts her rights. In spite of man's want of taste, or helps him when he has endeavored to work in her own spirit. But the fields and woods are full of instruction, and in such features of our richest and most smiling and diversified country must the best hints for the embellishment of rural homes always be derived.—Andrew Jackson Downing.

Painted Advice.

"Oh, doctor," cried a wild-eyed man, "I am dreadfully afflicted! The ghosts of my departed relatives come and perch on the tops of the fence posts all around my yard when dusk is falling. I can look out into the gloaming any evening and see a couple of dozen spooks solemnly sitting on top of that many posts, waiting, waiting, waiting. Oh, doctor, what shall I do?"
"Sharpen the tops of the posts," briskly replied the physician. "Five dollars, please."—Judge.

Should Work Both Ways.

I believe a man should be proud of the city in which he lives; and that he should so live that his city will be proud he lives in it.—Abraham Lincoln.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.
A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!—Adv.

Cheering Note in City Hub.

It was a scorching hot day. Three of the characters that grow familiar to the frequenters of the thoroughfare from Broadway to Park Row took part in a little bit of drama that was watched from a nearby bench. The lame old man who sells shoestrings sat wearily on the stairs leading to the closed canteen opposite the postoffice. His eyes drooped with sleep, but opened suddenly at a word from the woman who sits near by with a basket of pretzels, the piece de resistance of many a midday meal in that vicinity.

She held out a tall glass of orange-ade supplied, doubtless, by the proprietor of the flourishing stand hard by, where one may buy postcard souvenirs of New York, or sweets and cool drinks to eke out the pretzel lunch. He drank it gratefully while the kindly if dragged Hebe chattered about the weather. It was a cheering note in the rush of the city's crowded, careless thoroughfare.—New York Times.

As Ordered.

A rookie who was detailed in the mess hall for a week, got along fairly well until one day the head cook said: "Put some water on the fire." He went out into the storage room to open a can of peas, and when he came back the fire was out.

Toad in a Coal Seam.

A toad has been found buried in Netherhall colliery, near Burton-on-Trent, England. A collier was mining 600 feet below the surface and a mile from the pit shaft when his pick struck into a pocket of clay, and out rolled a toad three inches long. It is being kept in the manager's office, and is recovering sight and moving about.

Cuticura Soap for the Complexion.

Nothing better than Cuticura Soap daily and Ointment now and then as needed to make the complexion clear, scalp clean and hands soft and white. Add to this the fascinating, fragrant Cuticura Talcum and you have the Cuticura Toilet Trio.—Adv.

Why They Failed.

Of every hundred men called faithful ninety-seven have been lukewarm in their work.

Red Cross-Blue should be used in every home.

It makes clothes white as snow and never injures the fabric. All good grocers, 5c.

Wisconsin Early in Field.

The practice of law by women was legalized by the Wisconsin legislature in 1877.

Trust Me! Try Dodson's Liver Tone!

Calomel Harms Liver and Bowels

Read my guarantee! Liven your liver and bowels and get straightened up without taking sickening calomel. Don't lose a day's work!

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not seltivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is

mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work.

Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach.

Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.—Adv.

Riviera Motoring.

Descending at Nice from their open car, General Pershing and a party of officers were received by a French government official who, noting the white coating of dust under which their uniforms almost disappeared, said:

"You are very brave, mon general, to undertake to motor on our Riviera roads in their present state. Poor France! Her roads, once the best in the world, are now the worst. With their holes and dust they are really impossible. Yes, indeed, I repeat that you are brave."
General Pershing politely disclaimed that it was a matter for bravery, but a staff officer, shaking from his cap a big dust cloud, remarked:

"Well, if it is not a question of bravery it is at least one of grit."

After-War Bulletin From the Rhine.

The "Sally Anns" visited D company Monday and put over a doughnut and ice cream barrage, which was met with great resistance. Having inflicted a heavy loss (doughnuts and ice cream) in the taking of the first objective, they went in for seconds, and got 'em, too! It is thought that the "Sally Anns" are preparing a counter-attack—let 'em come; we won't budge an inch, as the last assault raised our morale wonderfully.—Bridgehead Sentinel.

Didn't Want It by Heart.

Five-year-old Dorothy was watching her aunt drink a glass of milk. Upon being offered some she said: "Oh, no, I never drink milk by heart; I truly like it with tea or coffee."

Wheat in Mexico.

Argentina is offering to Mexico at low prices 3,000,000 kilos of wheat, 1,000,000 kilos of oats, and 50,000 barrels of corn.

KIDNEYS WEAKENING? BETTER LOOK OUT!

Kidney and bladder troubles don't disappear of themselves. They grow upon you, slowly but steadily, undermining your health with deadly certainty, until you fall a victim to incurable disease.

Stop your troubles while there is time. Don't wait until little pains become big aches. Don't trifle with disease. To avoid future suffering begin treatment with GOLD MEDAL Haarlem Oil Capsules now. Take three or four every day until you feel that you are entirely free from pain.

This well-known preparation has been one of the national remedies of Holland for centuries. In 1086 the govern-

ment of the Netherlands granted a special charter authorizing its sale.

The good housewife of Holland would almost as soon be without food as without her "Real Dutch Drops," as she quaintly calls GOLD MEDAL Haarlem Oil Capsules. Their use restores strength and is responsible in a great measure for the sturdy, robust health of the Hollanders.

Do not delay. Go to your druggist and insist on his supplying you with a box of GOLD MEDAL Haarlem Oil Capsules. Take them as directed, and if you are not satisfied with results your druggist will gladly refund your money. Look for the name GOLD MEDAL on the box and accept no other. In sealed boxes, three sizes.

Proof that Some Women do Avoid Operations

Mrs. Etta Dorion, of Ogdensburg, Wis., says:

"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

How Mrs. Boyd Avoided an Operation.

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARRIE BOYD, 1221 6th St., N. E., Canton, Ohio.

Every Sick Woman Should Try LYDIA E. PINKHAM'S VEGETABLE COMPOUND Before Submitting To An Operation

LYDIA E. PINKHAM MEDICINE CO. LYNN, MASS.

POLITICS APLENTY

The political forecast for next year presents a lurid prospect. There will be stormy times and excitement aplenty. The game will start early and there will be something doing early and late until another election is over.

The Republicans in the Senate are holding up the Peace Treaty, and the President has appealed the case to the people. He begins a speaking tour of the country this week in presenting his side of the case.

The Democrats are raising a five million dollar campaign fund to back up their party and their President—a fund twice as large as the largest ever raised hitherto. As per usual the Republicans will come across with a fund ample for every demand—for as a rule a Republican don't mind putting his money in politics if he has any sort of showing.

They are putting on a good roads campaign over in Jack county and an election has been ordered for September 20th. The State Highway Commission has offered to put up \$200,000.00 if Jack county will vote an additional \$400,000.00 in bonds for building and maintaining good roads.

SALE ON STAPLE COTTON GOODS

During the next ten days at **STREET & CO.**

Just received a new line of Granite, Enamel, Aluminum and Glassware, also an assortment of other goods at Snoddy's 5 and 10c Store. 51tc

The Throckmorton County News, after seventeen more or less stormy issues, has ceased publication. Jas. H. Knight, the editor, goes to Cranfills Gap, Texas; and heads his farewell address "We've Dominoed."

AFRAID TO DRIVE TEAM TO TOWN

Farmer's Nerves Were Shattered—Had Lost Forty Pounds—Tanlac Restores Health

"I never expected to be the strong, well man I am today and my neighbors think my recovery is the most astonishing thing that has ever happened in this part of the country," said Hiram Robinson, a well known farmer, R. F. D. 3, Randolph, Illinois, in relating his remarkable experience with Tanlac recently.

"I used to think no medicine could help me," he continued, "but I've got to hand it to Tanlac, as it has not only relieved me entirely of all my suffering, but has added nearly forty pounds to my weight besides. For eleven years I was hardly able to be up, much less work, and when I ventured to eat anything except broth and the very lightest of food I would put in a day of the worst misery imaginable. If I ate a piece of pie or cake or a little fruit gas would form on my stomach and bring on such awful cramping pains that I could hardly stand it. This gas would press on my heart, nearly cutting off my breath, and cause such a dizzy, whirling sensation in my head that I thought I would go distracted. I dropped down all of forty pounds in weight and got so weak that I could hardly walk. At the time I got Tanlac I had not been able to do my work for a year. I was not only an absolute wreck physically, but my nerves were in such a shape that I couldn't lie still at night and during the day like a fish out of water. I was habitually constipated and had such a hurting in my head just back of my eyes that I couldn't read at all. I was so nervous, weak and dizzy that I was actually afraid to drive a team to town and had taken so many different medicines without getting any better that I had given up in utter despair.

"But one day I was persuaded by my wife to get a bottle of Tanlac and right there is where my recovery started. If I should sit down here and talk or write for a solid week I couldn't tell how thankful I am for getting out of my misery to where I can enjoy living again. I now eat all kinds of meats, vegetables, pies and cake. In fact I eat like a wolf and enjoy every mouthful, and never have the least trouble with my stomach. I sleep as good as I did when a boy and can do as much work as I ever could in my life. I used to lag behind the boys in the field, when I was able to work at all, but now they have to step some to keep up with me. I am not one bit constipated and haven't had one cramp in my stomach since Tanlac commenced to bring me out of the kinks. What I say is more than verified by my looks, but my neighbors will tell you the same thing. I will never get through praising Tanlac."

Tanlac is sold by leading druggists everywhere.

The State Highway Commission is putting out over \$70,000,000 in helping various Texas counties in the work of building and maintaining good roads. This help is extended on the basis of helping those who help themselves.

COTTON PICKERS WANTED—\$2.00 per hundred.—JOE JOHNSON, 2 1-2 miles southwest of Jean. 21tc.

GRAHAM, TEXAS

Local Notes

There is a contagion of bad colds in the city and surrounding country. School opens next Monday!

Mrs. R. G. Hallam and children have returned from an extended visit with relatives at Italy, Texas.

Attorney John H. Wood, of Seymour, spent the first of the week here attending the district court.

Are you a stranger in Graham? If so, come to the Rally Day Sunday School at the Baptist church.

J. D. Spivey and wife left this morning for their home in San Antonio, after spending two weeks here visiting his parents, Mr. and Mrs. J. L. Spivey.

There is nothing like team work in putting things over. Help to make the Chautauqua a great success. September 17, 18, and 19.

J. B. Barnes, of Caddo, has purchased city property here and will move to town next week to give his children the advantage of our excellent schools.

Help us have 300 in Sunday School at the Baptist church for Rally Day. Come early. Come every one that has not been attending Sunday School to the Rally Day Sunday School at the Baptist church.

S. M. Lamons, of The Leader, visited the shallow oil fields in the southern part of Archer county last Sunday evening and he found that section undergoing great development. Several new rigs are up and many new locations have been made there recently.

J. W. Elledge, who has been very sick for the past three weeks at his home at Eliasville, is reported to be improving. His daughter, Mrs. O. M. Wood, of Hunt county, and his two sisters, Mrs. McAdams, of Oklahoma, and Mrs. Dick Wells, of Hunt county, are at his bedside.

All you need for Chautauqua week is a public spirit and two dollars.

Ralph Shuffler, the genial, rustling and versatile editor of the Olney Enterprise, spent Saturday evening in the city on business.

Dr. M. H. Chism has returned from Huntville, where he spent several weeks visiting his daughters, Mrs. Sallie Clark and Miss Aytchie Chism. Miss Aytchie has sent in her resignation as teacher of music in the school at Wichita Falls and will attend the Sam Houston Normal another year.

Had you thought how much good a library would accomplish? A quiet reading room and excellent reference works for teachers, preachers, law-yeers, students, home makers, public speakers, and others. Chautauqua tickets are cheap. Only \$2.00 entitles you to three days of great entertainment.

Carnegie is dead. But his soul is marching on. He built thousands of libraries throughout the country. We wish to build one for Graham. Patronize the Chautauqua next week. Your money will go toward building a library of our own.

A prominent man of Graham once said of a lecture here at the Chautauqua: "If I could have heard that lecture a few years ago it would have transformed my life." Be sure to hear the lecture, "The Greatest Thing a Man May Know," September 17.

We would not dispense with the circus if we could. There's a place in every normal heart for the clown and the animals and the big white horses. But there is also a need for the uplift a Chautauqua brings. Be there.

J. Franklin has just completed three hundred and fifty feet of new concrete sidewalk in the southwest part of town and has a great deal more work contracted for in that section.

BECKHAM NATIONAL BANK
GRAHAM, TEXAS

STRONG SAFE CONSERVATIVE COURTEOUS

PRESIDENT'S TOUR BEGINS WEDNESDAY

THREE SPEECHES TO BE MADE IN CALIFORNIA, HOME STATE OF SENATOR JOHNSON.

TRIP WILL LAST 25 DAYS

President Will Not Penetrate Far Into South or Southwest in Campaign for Treaty.

Washington—President Wilson will leave Washington next Wednesday on a speaking tour to give an account to the people of the negotiations of the treaty of Versailles.

In California, the home state of Senator Johnson one of the leading republican opponents of the peace treaty, the president will make three speeches, at Los Angeles, San Francisco and San Diego.

His only address in Oregon will be at Portland while he also will speak at Spokane, Wash., and possibly at Seattle.

The trip will occupy 25 days and speeches appealing for the immediate ratification of the peace treaty without change will be made in the principal cities of the west.

The opening address will be at Columbus, Ohio.

Some of the stops en route to the Pacific coast have become known, and according to the best information available, the second speech will be made at Indianapolis, followed by speeches at St. Louis, Kansas City and Topeka, in the order named.

From the latter city the presidential party will go to Omaha, thence to Sioux Falls, S. D., St. Paul or Minneapolis and Bismarck, N. D.

Then will follow speeches at Billings and Helena, Mont.; Coeur d'Alene, Idaho; Spokane; possibly Seattle; Portland, Ore.; San Francisco, Los Angeles and San Diego.

Returning from the Pacific coast the belief is that stops will be made at Reno, Nev.; Salt Lake City, Denver and Oklahoma City; thence south and eastward, probably to Louisville, Ky. It is not believed the president will go very far into the southwest and southern states, however.

DISABLED MEN WILL ENTER SCHOOL IN SEPTEMBER

Nearly 20 Per Cent of Applications to Vocational Board Rejected.

Dallas.—Nearly 20 per cent of the applications for vocational instruction with the Dallas district office of the federal board for vocational education have been rejected.

W. F. Doughty, vocational officer has reported, fifteen hundred disabled soldiers will enter school in September for vocational training. These are soldiers suffering with major handicaps. The office is working under instructions to put men suffering with major handicaps in training first.

AMERICAN MINISTER TO CHINA HAS RESIGNED

Dr. Paul Reinsch Quits Post on Account of Ill Health, It is Announced.

Honolulu.—Paul Reinsch, American minister to China, has resigned that post, according to a Tokio cablegram received by the Nippu Jiji, a Japanese newspaper here.

Washington.—Resignation of Dr. Paul S. Reinsch as American minister to China is announced at the White House. Officials said he had asked to be relieved because of ill health and a desire to return to private work.

Dr. Reinsch was appointed minister to China in 1913, when William Jennings Bryan was secretary of state.

Entire Town Offered for Sale.

Washington.—The town of Nitro, W. Va., a complete modern industrial city built at a cost of approximately \$70,000,000, will be offered for sale by the United States to the highest bidder. Only bids for the entire property will be considered.

Martial Law in Hungary.

Paris.—Martial law, which was proclaimed in Budapest a few days ago, has been extended to the whole of Hungary, according to a dispatch from Budapest.

Right to Sell Food Upheld.

Columbus, Ohio.—The right of the state of Ohio to seize and sell at public auction food which has been held in cold storage longer than specified by the Smith cold storage law is upheld by the state supreme court.

FUNDS FOR PEACE MISSION IS ASKED

DELEGATES AT PARIS SPENT MORE THAN MILLION—\$825,000 MORE IS REQUESTED.

Washington—President Wilson has asked congress for an additional appropriation of \$825,000 for the expense of the American peace commission in Paris from last July 1, to the end of this calendar year.

The president said that up to July 1, the total cost of the commission had been \$1,250,629 and he estimated that by the end of the year the total would reach \$1,596,766.

A part of this has been appropriated heretofore. Among the largest items up to July 1 were included \$144,914 for subsistence, \$103,060 for salaries, \$105,000 for expenses of the commissions sent into other countries and \$53,000 for rent and damages at the Hotel Crillon in Paris, where most of the American delegation were housed.

In transmitting a detailed account of the expenses, the president said that in view of the 200 per cent increase in prices in Paris as the result of the war he considered the expense of the American commission "very modest."

When it began its work in Paris the American delegation, the president said, consisted of 1300 persons, but on July 1 this number had been reduced to 400, of whom only 88 were civilians.

LOST AVIATORS FOUND IN LOWER CALIFORNIA

Mexican Cavalry is Reported Escorting Airmen to American Border.

El Centro, Cal.—Mexican cavalry under the command of Captain Trujillo are reported to be escorting to the international boundary Lieutenants Frederick Waterhouse and C. B. Connelly, American aviators, who have been missing from Rockwell field since last Wednesday.

Captain Trujillo reported by courier to Colonel Hipolito Baranca, chief of the military forces of Lower California, who has directed a search for the men for the last five days, that he had found them alive in Lower California, about 200 miles southeast of San Diego, Cal. No further word has been received. The country where the men were found is mountainous and inaccessible. It is expected the men will be brought to Ensenada, the capital of Lower California, or to Mexico, whence they will be taken to the United States.

Colonel Baranca dispatched a courier with a request for skills to the cavalry band that found the officers.

RETAIL STORES WILL BE OPENED BY GOVERNMENT

Surplus Stocks to be Sold by Mail and Over Counter in Fourteen Cities.

Washington.—Retail stores for the sale of household commodities included in the surplus stocks of the war department will be established Sept. 25, it is announced. The stores will be located in depot centers and other large cities and they will accept and fill mail orders.

Continued purchase by the department of certain necessities so that these stores may be continued indefinitely as a part of the government campaign against the high cost of living is understood to be under consideration.

Prices on all commodities offered for sale will be so fixed as to prevent discrimination between the purchasers who buy over the counter and those who purchase through the mail.

SHILLADY INCIDENT IS PASSED TO CONGRESS

Negro Uplift Society Charges Hobby Approves Assault and Asks Investigation.

New York.—On the ground that Gov. William P. Hobby of Texas "approves and condones" the assault made by public officials and others in Austin, Texas, recently, on John R. Shillady, secretary of the National Association for the Advancement of Colored People, the association adopted resolutions calling upon congress to investigate the case and urging President Wilson to appoint a committee to report on the "outrageous" attack.

Sold Only Useless Supplies.

Paris.—In a statement which it is said is issued because of many inaccurate reports concerning large sales of Red Cross merchandise, the American Red Cross explains that the only materials which have been sold are certain perishable stuffs, secondhand equipment, surplus stocks and articles which are no longer of any use in direct relief work in either France or eastern Europe.

Texas Man Wins Swimming Contest.

New Orleans, La.—J. M. Jarvis of Dallas won the individual honors of the southern swimming championships at Audobon Park Saturday afternoon, coping the 55, 140 and 220 yards.

Farmers Organize to Kill Wolves.

Paris, Texas.—Farmers around Saner and Globe have recently been organizing hunting parties to chase wolves, which have been causing considerable annoyance by foraging on poultry roosts.

SKOPMEN'S STRIKE DEFERRED 90 DAYS

GOVERNMENT IS GIVEN THIS TIME TO BRING DOWN HIGH COST OF LIVING.

Washington.—Industrial peace in the United States, according to the legislative council of the railroad shop crafts, depends on the results the government can show in next 90 days in its campaign to reduce the cost of living.

That time limit as tacitly set by the council in suggesting to union locals throughout the country that President Wilson's compromise offer in response to their demand for higher wages should be accepted pending the outcome of the effort to restore a normal price level.

If the cost of living does not come down the 500,000 members of the shop crafts, would reserve the right to strike for more money, and with them probably would be associated the remainder of the 2,500,000 railroad employees.

Washington.—Railroad shoopmen throughout the United States will be voting immediately on whether they will accept the wage proposals made by President Wilson and Director Hines or go out on strike to enforce their demand for a general advance in pay.

On the outcome of the balloting hinges industrial peace of the government controlled railroads. If the 500,000 shoopmen decide to accede to President Wilson's decision that there shall be no general wage advance until the government shows what can be done to control the rising cost of living sufficient time to effect some change in the price levels probably will elapse before other unions press their demands for more money.

GARY HAS REFUSED UNION REPRESENTATIVES A HEARING

Head of United States Steel Says His Corporation Will Not Deal With Unions.

New York.—Elbert H. Gary, chairman of the board of the United States Steel corporation made public a communication sent by him to a committee of the American Federation of Labor which is organizing workers in the iron and steel industry, asserting that his corporation would decline to discuss business relations with trade unions.

Before receiving the reply of Mr. Gary members of the committee intimated that they would make an appeal to President Wilson if they failed to get a hearing from officials of the steel corporation.

Mr. Fitzpatrick declared that no strike date had been set. Other members of the committee asserted that they would not discuss a strike until all efforts to adjust differences amicably had failed.

AMMUNITION VESSEL BLOWS UP AT SEA

Rescued Crew Says Ship, Owned at Orange, Texas, Ignited From Lamp.

Yarmouth, N. S.—Twelve members of the crew of the four masted auxiliary schooner Elmer Roberts have arrived here and report that their ship loaded with ammunition, caught fire and blew up at sea.

The schooner, a vessel of 695 tons net, was owned in Orange, Texas, and was returning from Bordeaux to New York on her maiden trip. A lamp exploded in the engine room and the flames spread so rapidly the crew had only time to escape in one of the boats, losing all their effects.

WILL URGE GUARDSMEN RECEIVE FEDERAL PAY

Ask That Requirement Concerning Supervision Be Waived.

Dallas.—Federal pay for the enlisted men of the national guard of Texas will be asked for by Brig. Gen. R. H. McDill, commanding general of the second brigade, cavalry, national guard of Texas. General McDill has just returned from a conference of national guard officers at Austin, where it was agreed that the different units would not have time to prepare payrolls. The money in the state treasury cannot be used after Sept. 1. General McDill said that federal pay can be established as soon as it is cleared up whether the enlisted men shall be paid for drills held while their officers were attending training camp at Camp Stanley, Leon Springs.

2,203,715 Head of Cattle Dipped.

Washington.—Cattle dipped in Texas during the month of July have reached a total of 2,203,715, according to reports to the bureau of animal industry, which is cooperating with state and local officials.

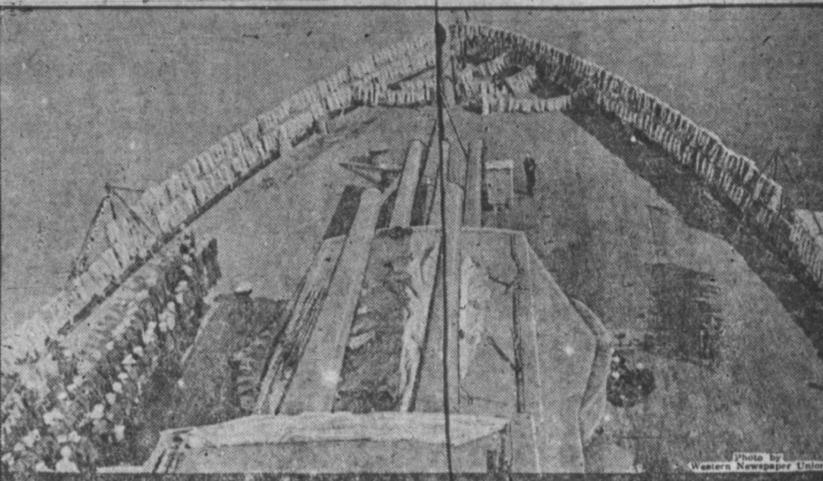

Roumania Refuses to Accept Decision.

Paris.—The Roumanian cabinet has refused to accept the decision of the peace conference relative to the division of Banat and Tremesvar between Roumania and Serbia.

Wheat Embargo Against Galveston.

Dallas.—The United States railroad administration has advised that permits to load wheat destined for Galveston will not be issued until further notice.

"AIRING DAY" ON THE U. S. S. OKLAHOMA

At first glance this might seem to represent a camouflage warship entering the "danger zone" during war times, but it is really a photograph, snapped from the fighting tip of the U. S. S. Oklahoma, showing the "gobs" lined up for "bedding drill," while adorning the full can be seen the bedding of the sailors exposed to the fresh air.

AROUND WORLD NEXT AIR FEAT

Some Aviator Expected to Emulate Magellan by Long Cruise.

STILL NEW TO MANY LANDS

National Geographic Society Says There Are Many Places Where Airplane, Automobile and Even Horse Would Be Curiosity.

Washington.—Now that the Atlantic has been crossed, and there are plans afoot to fly over the Pacific, the day may not be far distant when some aerial Magellan will make an airplane tour around the world.

"There are still many corners of the world where airplane, automobile and even the horse would be curiosities. And if a man set out to tour the globe and do as the Romans do in respect to adopting native conveyances he would have to:

"Resort to a donkey in Spanish America and in the Holy Land. "Climb aboard a camel to traverse African deserts.

"Cross some rivers of India on the inflated skins of bullocks, and others by a bridge of one rawhide rope. "Using Elephant as Taxi.

"Submit to the sea-going motion of an elephant when he continued his journey on land. "Get into a man-borne palanquin at Calcutta.

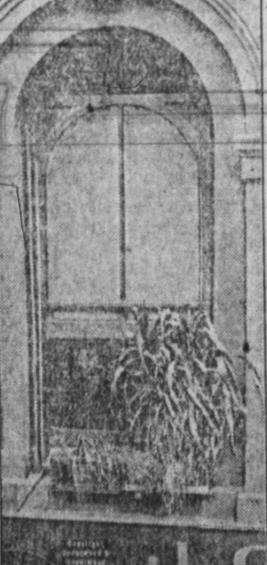

"Jolt over far Eastern roads in a non-shock absorbing cart drawn by oxen.

"And in China be prepared to climb into a jinrikisha, a sedan chair or a wheelbarrow."

A few of these curious means of travel are described in a communication to the society by O. P. Austin, as follows:

"In all parts of that great line of deserts, stretching from North Africa across Central Asia to Northwest China, the camel is everywhere in evidence; the total number in the

UNIQUE WAR GARDEN

This is the most unique war garden in existence. On a second-story window of a house on Sixth avenue, at the Bleeker street "L" station in New York is this miniature farm. The corn looks very well.

world being estimated at about three millions. "Not only is the camel a valuable freight carrier, but he serves as the traveling car of the Rockefellers, the Carnegies, the Morgans and the Harrimans of the desert. When he is chosen for more pretentious service a light framework is placed upon his back and covered with cloths to screen the occupants from the sun and the observation of the passers, and decorated with pompous of various colors. In this gorgeous compartment, which may be not inaptly termed the "palace car of the desert," the master of the camel train places his wife and children, his choicest merchandise, his cooking utensils and daily requirements, and travels in state, the observed of all observers, the envy of the wandering native of the desert.

Craft on the Euphrates.

"On the Euphrates and the Tigris, are still retained the curious water transports of centuries ago—the raft of skins and the circular boats. These rafts are sustained by inflated skins, prepared for this special purpose, and after the raft floats down the river to its destination the inflated skins are removed, the skins carefully folded and carried back to the upper waters, where they are again inflated and used as the support of another and still another raft.

"Even more curious to the eyes of the traveler from other parts of the world are the circular boats, made of wickerwork and covered with skins,

or made watertight with pitch, which are still in daily use on the Tigris and Euphrates rivers.

"The three principal methods of transportation of people in central and southern China are the sedan chair, the jinrikisha and the wheelbarrow.

"Probably more freight and more passengers are transported in China by the wheelbarrow than by any other land method. The wheelbarrow there used differs from that used by us in the fact that the wheel is set in the center and thus supports practically the entire load, while the handles are supported in part by a strap or rope over the shoulders of the man who operates it. As a result, the wheelbarrow cools in China will transport nearly a half ton on his vehicle."

Chinese Women Are Advancing

Woman Doctor Prefers Great Future in Her Politics.

EDUCATED HERE FOR MISSION

Dr. Yamel Kin as a Baby Was the Only Survivor of a Family of Plague Victims—Telling Great Strides.

Honolulu, Hawaii.—Behind the calm exterior of a life which she has built up to a point of success such that she is recognized as the foremost woman physician throughout the length and breadth of China, Dr. Yamel Kin, who passed through Honolulu recently on her way to the United States, has a life history that has few equals for romance and interest.

Many years ago a physician of wealth and leisure named Doctor McCarter was traveling in the far East, going from village to village in China studying the language and customs. His quest lasted nearly fifty years.

One afternoon he stopped for the night in a village devastated by the plague, and while walking about among the silent, death-marked huts he heard the wail of a tiny baby. He discovered an entire family lying dead in the hut, with the exception of a baby girl.

Adopted Little Orphan. Having no child, the doctor adopted the little orphan and sent her to America for an education. He gave her the best medical training that time afforded, hoping to make of her a great woman physician, and in time she was graduated from a medical college in New York city, an institution that ceased to exist when the Cornell and Columbia university medical colleges for women were opened. She is now Doctor Kin.

Never for a moment, however, did Doctor Kin forget the land of her birth, and as she grew to be considered a brilliant Chinese woman in America her efforts for the women of China were untiring. She has lectured and written in behalf of China, and has held a position under the Chinese government with a view to bringing the republic and the United States into better understanding.

Arizona Students Hairless After Big "Cutting" Bee

Flagstaff, Ariz.—About forty young men here, half of them students at the Northern Arizona Normal school, are minus their hair as a result of a students' prank.

Among them is Brodie Campbell, son of Governor Campbell. The students first captured Cornelius Buckley, a "town boy," and clipped part of his hair. Buckley's friends captured about twenty students and retaliated. A general chase, capture and hair cutting, which included all the young men of normal and town who could be found, followed.

Barbers did a rushing business removing the odd-shaped patches of hair left by the amateur cutters. The students first captured Cornelius Buckley, a "town boy," and clipped part of his hair. Buckley's friends captured about twenty students and retaliated. A general chase, capture and hair cutting, which included all the young men of normal and town who could be found, followed.

Honolulu, Hawaii.—Behind the calm exterior of a life which she has built up to a point of success such that she is recognized as the foremost woman physician throughout the length and breadth of China, Dr. Yamel Kin, who passed through Honolulu recently on her way to the United States, has a life history that has few equals for romance and interest.

SPENDS NIGHT IN WELL

Missouri Hunter Meets With Strange Accident, But Finally Escapes.

Wheaton, Mo.—Plunging into a well 20 feet in depth, and remaining there for many hours, was the experience of John Switzer while hunting foxes near Powell, six miles south of this place.

Switzer and several others of Granby came over for an all-night fox chase. Switzer selected an abandoned field near an old hut to wait for the chase. About midnight he heard the dogs coming in the hut, and as he started to meet them he stepped into the old well.

Fortunately the well was dry, but Switzer was badly bruised and dazed. He spent the night in a vain attempt to climb the sides of his prison.

As morning dawned, Switzer determined to make his last effort to free himself. Catching with both hands on the sides of the well, he climbed a few inches at a time. He worked cautiously, as his strength rapidly became weaker. Finally Switzer reached the top and by grabbing a small bush he pulled himself from the hole of torture. He was found in a dazed condition by his companions.

WOLVES of the SEA by RANDALL PARRISH

CHAPTER XXX-Continued.

I heard her cry out, and, barely caught the lantern as it fell from her hand. At first I doubted the evidence of my own eyes, snatching the bit of flaring candle from its tin socket and holding it where the full glare of light fell across the grewsome object.

"She is alive! Surely she is alive!" The words were sobbed into my ear from Dorothy's lips. "Alive! No, that is impossible!" I touched the figure with my hand. "The flesh is like stone," I said, "thus hold like a stone to some mangle of the Indies."

CHAPTER XXXI.

The Boat Attack. He waited for us just without the companion, but my eyes caught nothing unusual as I emerged into the daylight. I could barely see amidships, and on either side hung the impene-

"What is it, Watkins? Where are the men?" "Forward, sir, a-naagin' over the starboard rail. That's somethin' cursedly strange a-happenin' in that fog. Ole was the first ter hear the clatter of our slipping in a rowlock. Then, sir, while we was a-listenin' we both caught sound of a Spanish oath, spoke as plain as if the buck was aboard."

man was a repulsive brute, his face stained with blood, dripping from a cut across his low forehead. He looked up sullenly at our approach, but made no effort to rise.

"Look yere, you black villain," roared Watkins, driving the lesson home with his foot, "don't be a piggin' possum yer. Stand up an' answer Mister Carlyle, or yer'll git a worse clip than I give yer afore. Whar is the bloody bark?"

"Pounding her heart out on the rocks yonder," said civilly, "unless she's slid off an' gone down. To the west, maybe a mile or so." "What about the crew?" "They got away in the boats, an' likely mostly are ashore. We were in the last boat launched, and headed out so far ter get round a ledge o' rocks we got lost in the fog. Then the mist sorter opened an' give us a glimpse o' yer topsails. We didn't expect no fight, once we got aboard."

"Expected to find something easy, of course? Perhaps it would have been if—what is it you see out there Simms?" "The seaman, who was standing with hollowed hands shading his eyes, staring forth into the swirling drapery of fog, turned at my call and pointed excitedly."

"There's a bark aground yonder, sir; and it looks like the Namur!" "Even as I crossed the deck to his side the wreaths of obscuring mist seemed to divide, as though swept apart by some mighty hand, and there in the full glow of the sun, a picture in a frame, lay the wrecked vessel. Others saw it as I did, and gave vent to recognition."

"Damned if it ain't the old hooker!" "She got what was coming to her all right mates."

"And she's lousy with treasure!" "Come here, Sam! That's the last of the Namur."

CHAPTER XXXII. The Last of the Namur. The vessel was plainly a total wreck, rapidly pounding to death on a sharp ledge of rock. Both masts were down, and, lifted as the bow was, it was easy to perceive the deck was in splinters where falling spars and topmasts had crushed their way through.

"What was it you said, Jack 'bout treasure on the old hooker? Why not get it afore it's too late?" "It's thar, all right, Ole, and I knew the speaker to be Haines. 'Ain't it, Mr. Carlyle?" "Yes, lads, there must be money on board, unless those fellows took it with them in the boats. I know of fifty thousand pounds stolen in Virginia, and no doubt there is more than that. The bark is liable to slide off that rock any minute and go down like a stone. What do you say, bullies? Here is a risky job, but a pocket full of gold pieces, if we can get aboard and safely off again. Who'll go across with me?"

There was a babel of voices, the men crowding about me, all else forgotten as greed gripped their imaginations. "Stand back, lads! I cannot use all of you. Four will be enough. You'll not lose anything of what we bring back; it'll be share and share alike, so fall to, hearties!"

I paused an instant to speak to Dorothy, seated on the flag locker, explaining to her swiftly my object in exploring the wreck and pledging myself not to be reckless in attempting to board. I read fear in her eyes, yet she said nothing to dissuade me.

I slipped down a rope and dropped into the boat, taking my place with a steering oar at the stern, and we shot away through the green water. The Namur proved to be a more complete wreck than our distant view had revealed, and lying in a more precarious position. It was no pleasant job getting aboard, but ordering Haines to accompany me, and the others to lie by, I made use of a dangling backstay, and thus vaulted myself up to a reasonably secure footing. The fellow joined me breathless, and together we perched on the rail to gain view of the deck.

DADDY'S EVENING FAIRY TALE by MARY GRAHAM BONNER

THE DINGO DOGS.

"Bow-wow, bow-wow, I'm a Dingo dog." "Bow-wow, bow-wow, I'm another Dingo dog." So barked the two Dingo dogs. "And I come from Australia," said the first Dingo dog. "So do I," said the second Dingo dog.

"Shall we be friends?" asked the first Dingo dog. "We might as well," said the second Dingo dog. So the two Dingo dogs wagged their tails and agreed that they would be friends. And the first Dingo dog sang this song, while the second Dingo dog sang the chorus. I'll tell you the chorus first, which isn't, of course, the way to do it, but then the Dingo dogs did it in this fashion.

"I'm not a dog, no, I'm not a dog. For I'm a Dingo dog, a Dingo dog! And my brother, my dear brother, is another, he's another."

Then the second Dingo dog sang. "Now, now, all together, bow-wow. Now, now, all together, bow-wow."

All Together, Bow Wow.

barked the chorus three times. That made it so fair, you see. This is the second verse sung by the first Dingo dog.

"We're friends in the zoo, As doubtless you're, too! For we seldom growl, And you never scowl."

For the Dingo dogs said they had seldom, seldom seen their visitors, the children, scolding. "Yes," said the second Dingo dog. "We both come from Australia."

"So we both do, you see," said the first Dingo dog. "Over in Australia they sometimes call us the wild dogs," said the second Dingo dog.

"What he says is perfectly true," said the first Dingo dog. "And we are wild dogs, too," said the second Dingo dog.

"We are; he speaks the truth," said the first Dingo dog. "We're plain yellow dogs with so shly ears or graces," said the second Dingo dog.

"It's enough that we're dogs, and Dingo dogs, and wild dogs of Australia and that we're yellow," said the first Dingo dog. "Quite enough," said the second Dingo dog.

So they both barked, made friends in their own peculiar way with the other animals in the zoo and then the first Dingo dog said:

"What's the news?" "What do you mean?" the other animal asked.

"Well," said the first Dingo dog, "what is there to tell us? What is going on? What is there going to be going on—you-know—the news."

"The news," repeated the second Dingo dog. "Well," said one of the animals, "we're fed by the keeper and we sleep and we eat—of course we eat when we're fed like sensible animals would do. And people come to look at us and hear of what we do and from where we come."

"Ah," said the first Dingo dog. "We're important, we are. We are the news!" They came to see us and to hear about us. Good, well, we'll tell them we're the Dingo dogs and they can see that we're yellow."

The Power of an Angel. The artist who sees the angel in the stone does not complain of rudeness as he clips away the marble which hides the vision of his dreams. The lover who sees a chance to serve the one he loves, disdain to notice what is hard and painful in the service. A high ideal takes the ruggedery out of life, it robs the 'nettle' of its sting, it makes hard stones soft to the feet.

Girl's Companion.

HAY STACKERS ARE INEXPENSIVE AND WILL SAVE MUCH FARM HANDPOWER

Unloading by Machines Releases Hand Power.

(Prepared by the United States Department of Agriculture.) Thousands of farmers who faced the harvesting of a large hay crop last year with fewer hands than usual to help do the work owe their success in handling and saving their crop to hay stackers. The hay stacker is to stacking what the horse fork is to putting hay in the barn, a saver of man and labor. It lifts the hay on the stack by horse power instead of man power. When hay is loaded on the wagon by hand and unloaded by a stacker one-half of the hand labor is eliminated. If push rakes or hay loaders are used in connection with the stacker the laborious task of pitching by hand is entirely avoided.

Useful in East and South. In the East and South, where much of the hay grown is stored under cover, a stacker could be used to advantage when it becomes necessary to stack, especially where labor is scarce. A boy who can drive a team can take the place of a man in the haying operation. Two men and a boy using a loader and stacker will handle about 75 per cent more hay for each man during a day than a three-man crew loading and unloading by hand.

Hay stackers are classed in two general types, one having teeth on which the hay is gathered and brought to the stack on push racks; the other consisting of stackers that do not receive hay directly from push racks, but handle it by means of horse forks or slings. Both types are comparatively inexpensive and can usually be made at home with material that is available or which can be readily assembled on

the farm without using special tools. A stacker will last from 10 to 12 years under ordinary conditions, and the cost of repair is small. On 27 farms in central Kansas, which stack an average of 144 tons of hay a year, all charges against the stackers amounted to less than 7 cents a ton when the yield was one ton an acre.

Small Stacks Not Economical. In building a haystack with a stacker it is scarcely economical to make one containing less than 10 tons, according to experience. In locating stacks long or difficult hauls should be avoided whenever possible. It is very common on many farms to see stacks of hay at the end or corner of the field next to the farm buildings, the site being chosen in order to have the hay handy for feeding. The total distance traveled in bringing hay to one side of a square field is approximately 50 per cent greater than in hauling to the center. If the stack is located at one corner of the field the distance traveled is 100 per cent greater.

To minimize damage by moisture from the ground, care should be taken to keep the hay in the bottom of the stack from coming into contact with the soil. The aim of all good stack builders is to make a stack that will not "take water." This can be accomplished by tramping the middle well, or by using a three-man crew loading and unloading during the process of building.

Stacks further protection is not known. Farmers provide a canvas or locality sheets of corrugated galvanized iron, known as roofing which, when properly put on, practically eliminates loss from rain.

DIFFERENT STORAGE HOUSES NOW IN USE

Insulated Structure Best Adapted to Southern Climates.

Aroostook Type With Concrete or Masonry Basement Walls and Wooden Superstructure is Product of Maine.

(Prepared by the United States Department of Agriculture.) The insulated potato house is not used extensively, and as a rule is better adapted to southern than to northern climates. The construction feature of such a house is the thorough insulation of its walls, ceilings, doors, and windows. In northern locations such a house must be heated by a stove.

The Aroostook type of storage house, with concrete or masonry basement walls and wooden superstructure, is distinctive product of Maine and confined largely to that state. It is expensive and is always located on a side hill or knoll in order that advantage may be taken of a ground level entrance. The basements are usually from 8 to 12 feet deep, and most of them have a capacity of several thousand barrels. Generally the only provision for ventilation is by trapdoors in the floor through which the filling of the bins is completed. Occasionally a ventilator is found in the roof.

These houses, although practical in Maine, will never supersede the dugout pit or storage cellar now used in the middle and far western states. Each of these types of storage has distinctive features which peculiarly adapt it to its own environment, but do not necessarily preclude use in other localities.

The artificially refrigerated potato storage house is confined practically to the storage of northern-grown seed potatoes held in cold storage for second-crop planting in the South. There is little demand for such a house in northern sections, but it is thought that community cold-storage plants of this type could be profitably used by the southern truck growers, as they could purchase their supplies of seed in the fall and have them delivered before the arrival of cold weather. The seed potatoes could be stored throughout the winter in the house and be available in excellent condition when desired the following season.

Tuberculosis in Poultry. Tuberculosis in poultry is much more prevalent than poultry breeders realize. It is responsible for a large share of the unexplained losses among chicks and adult stock.

Moist Mash for Chicks. A moist mash will whet the appetites of the youngsters and hasten growth. They relish a feed once a day of the moist mash, but it should not be fed sloppy.

CHICKENS LIKE FISH HEADS

Satisfactory Protein-Containing Food for Poultry Flock is Simple and Inexpensive.

(Prepared by the United States Department of Agriculture.) A simple and inexpensive substitute for meat scraps, which often are hard to obtain at the average butcher shop is to utilize fish heads in the poultry ration. Arrangements usually can be made with local fish dealers to save these heads, particularly if the poultryman will furnish buckets in which the refuse may be kept until he calls for them. As they come from the dealer's shop, the fish heads are tough and covered with heavy scales and gristle. However, underneath is the tender meat which the hens relish heartily. The poultryman can soften the coarse outer shell by boiling the fish head in water for five to ten minutes and then pouring off the water and throwing the fish heads in among the chickens. In many instances the dealers are glad to get rid of the fish heads, and on the basis of actual food value the poultry keeper can afford to pay 4 or 5 cents for a quart of fish heads which provide a satisfactory protein-containing food for his flock.

The early threshed barley usually fares best in the market.

All of the vegetables raised in the garden should be utilized for food.

Soils that have no crop on them, or the harvest fields as soon as the grain is off, will be better for a good disk-

Vegetables in the late summer garden must be kept growing without check in order to obtain satisfactory results.

It takes care and attention to improve land so that the crops may be larger each year the seasons are favorable.

Shoveling silage out of a silo is play compared with prying corn shocks out of frozen ground and snow banks.

Do not forget to continue the fight on mites and lice. They must be fought all the time in all sections and in all seasons.

Plowing up the old pasture for hay has one drawback that must be considered—it may make the feed proof less harder to meet.

Careful packing means much. It pays to arrange vegetables in the most tasteful manner. Here is an opportunity to increase profits.

Do not forget to continue the fight on mites and lice. They must be fought all the time in all sections and in all seasons.

FISH CREEK

Well, this beautiful Sunday evening, August 31, I'll try and write a few lines for The Leader.

As I am guilty of not writing very often here lately, some of my letter may be a little out of date but I am giving it just the same.

Geo. Davis, from Howe, Grayson county, Texas, was here some time ago on business.

Rev. O. E. Dickson, of Loving, was called as pastor for Fish Creek church here two years ago and now the church has re-called him for another year. If he accepts the care of this church, and we hope he will, the church expects to pay him \$300 for the coming year. Rev. Dickson, assisted by Rev. Taylor, of Graham, closed a week's meeting here last Sunday. A few professions and four additions to the church and all of them were for baptism.

Last Friday when nearing Graham a little to our surprise we met the Hon. John A. Plow Boy and just such a smile as he was wearing. I tell you, Mr. Editor, it was as broad as a wagon sheet and not much shorter. And just a little later while in Graham I had the pleasure of meeting my old friend and correspondent Jack O' Diamond, who is an ex-soldier from France.

Sunday School today as usual with fifty present and four visitors from Proffitt.

J. H. McCan visited at O. G. Taylor's Sunday evening.

Geo. Carmack and family visited their daughter, Mrs. Georgia Robinson, Sunday.

Misses Mary and Maggie McCan, of San Antonio, visited their parents here a few days, returning home last week.

I guess the people who are spending the summer here will move to their homes in Graham this week so as to be ready for school next week.

R. G. Taylor is expecting to move his family to Graham this week so the children may enter school next week. Only about three years ago this school district had about 37 pupils. Later on it and Crib Station consolidated for one term, which gave

them a twoteacher school. Then it was disbanded. Some have sold and moved away, others have transferred to Graham. Our school last winter numbered about 18, and on account of some things connected with our school were not satisfactory as some would like for them to be so others are leaving for Graham this fall. This will leave, I think 7 children of school ages. I want to know what is to become of our country schools after a few more years if there is not something done for our relief on this line.

Best wishes to all.

KID.

HENRY CHAPEL

Everything is moving along nicely now. The thresher has been in this part for four weeks and did some good work the last few days since the showers quit coming. Threshed for W. H. Jarnagin, Rome Wade, Ruel Young Thursday and Friday. The thresher is at Mr. Moren's ready to start Monday morning.

Our meeting will begin the first Sunday in September. Some of the Chapel people attended the meeting at Salem and heard some fine sermons. Bro. Bickley is certainly a fine preacher.

Bill Williamson has been quite sick the past week but is better at this writing.

Mr. and Mrs. John Shahan visited at Graford Sunday.

John Vick, Mr. and Mrs. Morris Glidewell, of Finis, are visiting at Albany from Saturday until Monday.

Archie Ratcliff is improving. He went to Finis one day the past week.

Mrs. Moren and some of the children spent Sunday evening with Mr. Needham's family. Mrs. Needham is still poorly.

Mrs. Nellie Glidewell and little Mary and Hugh spent a few hours Saturday evening with her mother and sister.

Mrs. John Gilmore spent the first of the week with her daughter, Mrs. Will Martin, near Komo, and took care of the little new granddaughter.

Sam Crow is putting in good time with his row binder in this part as there are lots of feedstuff planted.

Professional.

LAWYER

Office over Beckham National Bank

GRAHAM TEXAS

Mrs. Will Jarnagin and children, and Mrs. Berne Parkinson came down Thursday and helped fix dinner for the thresher.

Had a good cotton shower Monday morning. Cotton was needing rain.

Vernon Crow's finger is getting along very well.

Little Jim Oakley Kimball is getting along just fine after having his tonsils removed. He is spending a few days with his grandparents, Mr. and Mrs. Oak Gholson.

News is scarce.

FARMER.

Doak Matthews and mother, of Ruleville, Mississippi, arrived in the city last night to spend a few days visiting relatives. Doak and his brother, Jim, were for several years engaged in business in Graham and during that time they made many friends here who will be glad to know they have been quite successful in business in Mississippi. Three years ago Doak was seriously injured in an automobile accident from which he has not yet fully recovered.

Come to the Chautauqua. You will be entertained and profited. September 17, 18, and 19.
