> The facts are, though, that the canal, heretofore showing an annual deficit, has finally begun to pay. For the fiscal year ending June 30 last it showed a surplus of earnings over expenses of \$2,150,000, with total income of more than \$8,000,000 on the handling of 2478 vessels of commerce, besides numerous naval units which passed from the Atlantic to the Pacific.

> These figures constitute new records for the great waterway, The number of vessels utilizing the canal was the largest since its opening, the inome was larger in its gross tota, and the net earnings was a totally new thing. The accumulated deficit in operative costs will require several years to wipe out, being now about \$4,000,000, but with increases in revenue on the basis of th last fiscal year, it will not be long until the Panama canal will begin to pay interest on its original cost. It has already more than paid for itself in the opportunity acorded for the development of American world commerce, and that, combined with the provision of naval mobility, was, after all, the reason for its creation.

THE NEW FREIGHT RATES

Railroad officials, in issuing statements showing just what the increase in freight rates will amount to on various articles of consumption, are rendering the public a service.

They are giving the people information which should put them on their guard against profiteers who may try to hold them up for much higher prices than warranted on the plea that the higher freight rates have made the advance necessary.

In reality, the increase in freight rates affects the single commodity extra freight charge in a pair of shoes should not in any case be over 1 2-3 cents. The advance in freight charges should not be over 3 cents on a suit of clothes.

MAKE it easier to get around and I you make healthier and happier communities. No one any longer questions the worth of the automobile - or begrudges any legitimate expense connected with it.

But millions of car owners are rebelling at the idea that running an automobile has got to mean waste.

Every now and then you hear a neighbor complain that "he doesn't seem to have much luck with tires."

Send him to us.

The minute a man begins to question the service his tires are giving him, he's ready to listen to reason.

Our business is built on the principle that tne only way to get better tire service is to get better tires to start with.

That's why we have taken the representation for U.S. Tires.

U. S. Tires have a reputation for quality.

Built up through years of creating better tires. Such as the straight side automobile tire, the pneumatic truck tire.

It is not by chance that U.S. Tires are made by the oldest and largest rubber concern in the world.

We are proud to represent U. S. Tires in this community.

have made location for their first well on the 120 acre Stephen Dennison Lease. The Derrick will follow immediately and drilling commence just as soon as possible.

The capitalization of \$200,000.00 is large enough to permit the For Repres Company to drill the three wells, guaranteed to stockholders and leave them money enough to pay dividends from each and every well that produces oil. At least 25 per cent of all oil produced will be paid in dividends. We guarantee to drill three wells. We have three leases---giving the stockholders three chances to win.

It Takes Money to Drill Oil Wells. The Young County Oil & Gas Company is getting the money.

OUR STOCK IS SELLING NOW, TODAY. IT IS SELLING AT PAR.

The price per share is \$10. Every man and woman in Young County should be a stockholder of this Young County Company. You should be a stockholder, even though you can afford to buy but one share. The par value was made low in order that every one can have at least one share. It is expected that local people will support local enterprises. You that did not buy Graham Oil Syndicate stock and are today paying \$165 to \$200 per share, had the opportunity to buy at par.

Drop in at the office, see Mr. Sam Goldwater, Mr. C. E. Turner, Mr. McFarland, of the Graham Oil Exchange; Mr. Charley Cook, Mr. O. A. Ereeze, of Jean; or Mr. E. F. Smith, of Bryson; or any of the officers. They will be glad to explain and take you subscription.

The Young County Oil and Gas Company offers you stock at Par. This appears to be as good if not better than Syndicate was. In fact there is no question but that it is better than Syndicate was when the organization was started. The field is now proven and we have four times the acreage the Syndicate started with. Don't wait. Send in your check attached to application blank for the number of shares you want. Yes, we will accept subscription for one share, but it takes money to drill oil wells, and the more you put in the more you make.

It takes money to drill oil wells. We want to start immediately. Let your check book be your guide.

Austin, Sept. 14.-Most children of today do not get enough variety of food, do not take enough time to eat their meals, and do not get enough sleep. This is the statement made by Miss Pearl N. Hyer, R. N., public health nurse of the Texas Public Health Association.

In her physical examinations in the public schools Miss Hyer has discovered that these three things are responsible for fifty per cent of Texas children being under weight. To help remedy this defect among the children the Texas Public Health Association recently sent an article by the public health nurse to a number of Texas mothers.

\$251 414.36 "Children should eat a variety of 4,800.00 food," said Miss Hyer, "not so much at one meal, but it must be seen to 29,751.27 anced. Three things, and not over 56,144.22 four, at a meal are all that are neces-113,719.64 sary

"The following foods give the elements of nourishment necessary for almost any age, work or climate. I 1,221.40 advise that all mothers should see that their children eat daily: (1) Cereal, whole grain well cooked; (2) 85.00 eggs, once a day when no meat is used; (3, milk, one pint to one quart; 1,250.00 (4) potatoes and leafy vegetables 32,150:05 such as spinach, onions and lettuce; (5) fruit; (6) meat, not more than once a day, avoid fried meat; and (7) bread and butter with every meal, whole wheat is best."

"Diet for children should be upbuilding," declared the nurse, "and should give reserve strength and energy. Any kind of food which will not do this is not worth eating, re-24,600.00 gardless of whether it tastes good or not. Beware of too much candy. It is hard on the teeth and not good for 3-6c the system. Children crave sweets when they are not eating rightthere is a lack of some element of nourishment. If they must have sweets, they are best eaten at the end of a meal, no between meals. Sweet fruits like raisins, figs, and dates are good; honey is an excellent sweet."

> Miss Hyer declares that a child needs food that will suply building materials such as milk, eggs and cereals; and those which give energy, such as cereals, fats, green vegetables, and fruits. The nurse tells the mothers of Texas that these rules, if followed, lessen the cases of underweight among Texas children, and build up bodies strong enough to throw off disease.

Fordson

Farm Tractor

The Fordson cuts the cost of preparing land almost to half of what it cost with horses. But even more important is the fact that the Fordson saves from thirty to fifty percent of the farmer's time. And time saved-getting fields in shape to plant in the proper season; getting things done when they should be done-means money to the farmer. Besides it solves the labor problem

As ever, the machine-way is proving more efficient, faster, easier than the old hand way. In the factory, the machine increases production, saves labor - produces more at less cost. And that is what the Fordson does on the farm. The Fordson way is the machine way of farming. Besides it solves the labor problem.

The Fordson's first cost is the lowest in the market; and the after

or operating cost is lowest. It is a compact easily handled tractor, backed by the greatest tractor service organization in the United States. We are Fordson dealers. Not only do we sell Fordson tractors, but we carry a stock of Fordson parts and employ Fordson me-

chanics to help the farmers get the best results from the Fordson Made by Henry Ford & Son and sold by
