COUNTY JAIL CONDEMNED BY GRAND JURY

THREE MEN ARRESTED AT NEWCASTLE TUESDAY

Because they threatened to dynamite the Wichita Falls & Southern's camps at Newcastle, George C. Watson, J. L. Goree and W. A. Shipley were placed under arrest yesterday by Deputy Sheriff Burgett and landed in jail at Jacksboro for safekeeping. A felony charge has been filed against the men.

The action of the men in threatening to blow up the camp and thereby halt work on the new railroad grew out of labor difficulties which for the past week have tied up all work on the line, it was said today by Chief Engineer McFarland. He added that an effort was being made by "agitators" to prevail upon the workmen to quit their jobs for higher wages.

State rangers and Federal officers have gone to Newcastle to take charge of the situation and it is thought there will be no more trouble.

As a result of the labor difficulties work on the road has been halted for a whole week and it will probably be April 15 before trains are running into Graham.

The first actual work of laying steel for the main line out of Newcastle will start tomorrow, Mr. McFarland said, adding that the work would be pushed rapidly forward. An outfit has been moved south of Eliasville and grading work to Jimkurn is expected to be completed by June 1.

Materials for pile and trestle bridges are moving in rapidly, but work of building the Brazos River bridge awaits the arrival of steel sheet piling. The bridge at Whiskey Creek is now being built.

30 RIGS HAULED TO SOUTH BEND DURING THE PAST FEW DAYS

With the announcement that certain refineries have offered a 50 per cent bonus on oil, operators believe the price of crude runs will take a substantial jump in the immediate future. And this in mind there is much optimism just now over prospects for development work in Young county this spring and summer.

That conditions are shaping themselves for an active drilling campaign is indicated by the fact that some thirty rigs were hauled to the South Bend vicinity last week. "Looks good to me," exclaimed one man.

The Prairie Pipe Line Company at the present time is taking about 7,000 barrels of oil per day from wells in the South Bend field, according to reliable information, the company still being unable to care for the full production.

Financiers profess to see in the present financial stringency more of a psychological condition than anything else, and they believe money matters will soon loosen up to a normal basis.

The Shamrock No. 1 McCluskey, drilled in Monday on the 2,100-foot sand, was reported today to be doing 1,000 barrels, thereby showing up as one of the best wells in the field.

The well is located about 600 feet west of Ed McCluskey's house, and is an offset to the Clear Fork Oil & Gas Company's 50-acre lease.

The Danciger & Emerich No. 1 Graham, which came in last week making about 7,000,000 cubic feet of gas, is expected to blow itself in as a good oil well.

The Roxana has completed rigs on the B. F. Scott and L. M. Pratt, while the Godley's Nos. 3 and 4 are rigging up.

The McCluskey No. 2 Panhandle, the wonder well of Young county, is still reported holding up to its 2,200 barrels daily.

The O. P. & G's. No. 1 Graham, an offset to the Braddock, is said to have doubled its production after being shot last week.

BUILDING OF WAREHOUSE IS PUSHED WITH SPEED

Work on the Waples-Platter Company's warehouse on Cherry street is progressing rapidly, the frame being almost completed. Work on the building was started several days ago and it is expected to be completed within the next week or so.

BRIDGE ACROSS THE CLEAR FORK WILL BE UP IN TWENTY DAYS

The Graham Bridge Company expect to complete their bridge across the Clear Fork, near the old Singleton crossing, some time within the next twenty days, Judge W. P. Stinson said this morning. He added that the toll house and the approaches have been completed and that other work is progressing satisfactorily.

One car of material is now on the ground, while steel tubing is expected to arrive this week and be put in immediately, it was said.

Some delay has been experienced in receiving materials due to heavy traffic into Graham.

The bridge is expected to supply a long-felt want, as traffic between Eliasville and Graham is forced to detour when the river is up. There will be a graduated scale in toll charges, the regular price for automobiles and other vehicles being 25 cents. Mail carriers will be allowed to cross free.

The Graham Bridge Company is a local stock concern, it being stated that a major portion of the stock already has been sold.

ENJOYABLE TIME IS HAD BY SHRINERS AT MEETING THURSDAY

The Graham Shrine Club met in a iness and social session at the Masonic Hall on last Thursday evening. A good time was enjoyed by all those present. Some good jokes were pulled and some very instructive talks were made on the history of Masonry by Noble Ed Sauters from Eliasville and others.

The second section took place in the Saint Louis Cafe where a modern-day Dutch lunch was served, while at the table a round table series of joke telling was engaged in.

The members of the club voted unanimously to give another banquet, similar to the one given on January 13th, on the 14th day of April.

Nobles as you read this about the banquet be preparing to come out to this banquet and let's make it a success like the first one was. Bring your lady friend, Jim Smith and County Surveyor John Meyers will have charge of the ticket sale for this banquet.

WICHITA FALLS MEN INTERESTED IN THE BUNGER TERRITORY

Word has been received from Wichita Falls that operators at that place are watching closely for developments in the Bunger district and that those who own acreage there are refusing to sell.

E. L. Thomas et al., expect to have two rigs in the Bunger territory within the next thirty days, it was announced today.

The Barnes Production Company has a rig up on Survey 44 and expects to spud in by April 5. On the day the drilling starts there will be a big barbecue, speeches and music, with a large crowd present from Graham and other sections of Young county.

The Young County Oil & Gas Company, after a fishing job, has succeeded in landing the 6-inch casing and are preparing to set the 5-inch now. Officials of the company feel sure of a good well at 2,500 feet.

The Roxana No. 1 Goode, the log well of the South Bend field, is to be completed, it is said. The well is now at a depth of 4,000 feet. The casing has been pulled and it will be an easy matter to recover the tools lost in the well.

LEGION WILL GIVE AWAY AUTOMOBILE ON CLOSING NIGHT

A great deal of interest and good natured rivalry is being created as to who will be the winner of the valuable automobile which will be given away by the local post of the American Legion at the conclusion of their big Spring Festival which is now being held here in connection with the Frisco Exposition Shows. While the weather has not been everything that could be desired, the many who attended last night's opening give proof of what what might be expected in the way of a crowd if old Sol would only do his part and expose his shining face.

Through the kindness of the local Daughters of the Confederacy and Prof. Julius Martinez and his concert band many tickets for the auto were disposed of yesterday and last night. The car which is to be given away, commanded by six members of the Graham Post No. 34 of the Legion, including a bugler, was the cause of disposing of many tickets. Announcement of the date as to the time the machine will be disposed of will be given by the Legion through these columns.

48 ARRESTS MADE BY RANGERS IN YOUNG CO. DURING THREE WEEKS

Sixty-eight arrests have been made in Young county during the last three weeks by the state ranger force stationed here and at South Bend, Ranger Joe Orberg said this morning. Ranger Orberg is in charge of the ranger force in Young county, which consists of three men stationed at South Bend. Mr. Orberg makes his headquarters in Graham and is co-operating with the local officials in the enforcement of the law.

Satisfaction at conditions in the Young county field was expressed yesterday by Captains Hickman and Nichols of Ranger and Austin, who made a tour of inspection here. They were accompanied by Sergeant E. B. McMord. Referring to the murder of P. Brustmeyer, which occurred recently in the Lone Star Lunch near the Brazos River bridge, Mr. Orberg declared the Rangers were determined to stop such affairs in the oil fields.

GRAHAM REFINERY WILL BE FINISHED WITHIN A FEW DAYS

The Graham Refinery Company at South Bend will be making gasoline within the next fifteen or twenty days, J. G. Kilgore, president, said this morning. A large force of men is now busy building stills, condensers, boiler house and tankage, Mr. Kilgore said, adding that another force of men would shortly be placed on the job. Three workmen houses have been finished and piped with gas and water.

Mr. Kilgore, who is from Wichita Falls, is a veteran refinery man, and he expects not only to construct a plant at South Bend, but intends to build one at Graham just as soon as conditions justify it.

Eastland Man Buys The Doty Drug Store

U. R. Neil of Eastland has purchased the B. S. Doty drug store on the west side of the square. Mr. Neil, who was connected with the Palace Drug Store at Eastland two years, expects to make Graham his future home. He is a firm believer in the future of the city. He will bring his family here in about two weeks.

BUILDING BRANDED UNFIT TO HOUSE HUMAN BEINGS

The county jail is insanitary and not a proper place in which to confine human beings, according to an opinion expressed by the grand jury in its report to District Judge Weldon. The report adds that the jail building, being largely constructed of wood, endangers the life of the prisoners through fire.

"The arrangement of the jail," the report continues, "is such that it makes it very dangerous for officers in the discharge of their duties to go among the prisoners, and by reason of conditions, if continued, is likely to result in the death of an officer or cause an officer to kill a prisoner." The report follows in full.

PLANS CONSIDERED FOR TRAIN SERVICE ON W. F. & S. ROAD

Wichita Falls, March 21.—With the Southern's extension steadily reaching its steel fingers toward Graham, plans for new train schedules are being considered at the local offices.

A tentative schedule prepared last week provides for two trains daily each way. The train now leaving here at 2:30 p. m., usually a mixed train, will continue to depart at that hour, reaching Graham about 8 p. m. It will leave Graham at 7 a. m. and arrive here at 1 p. m., allowing an hour and a half for transaction of business here.

The straight passenger train will leave Wichita Falls at 8 a. m., reaching Graham at 11:30 and the return train will leave Graham at 4 p. m., reaching here at 8 p. m.

Tentative plans for the schedule into Breckenridge when the line is completed there provide for day and night trains, the latter with through sleepers. No effort will be made to perfect details of these schedules, however, until the road is completed into Breckenridge.

Very satisfactory progress was made last week at the several places where construction work is in progress, and no serious delays were experienced. Officials were unwilling Saturday to make a guess as to the exact date of completion into Graham.

WATER PLANT TO BE BUILT BY TEXAS CO. ON THE CLEAR FORK

Eliasville, March 19.—The Texas Company has begun the construction of a water plant on the Clear Fork four miles up the river from Eliasville that will supply all the water needed by this company in their development work in this field. The company is having an eighteen foot steel and concrete dam across the river with wings on each side that will impound a great volume of water and create a lake of some importance for this section. Adjacent to the dam is a finely timbered land and this will be leveled and made into a park for the pleasure of employees whose homes will be built among the trees. The site will be the headquarters camp of The Texas Company for all this section and when complete will cost approximately half a million dollars, including the expense of the pumping plant, buildings, etc.

Barnes Production Co. Has New Office Space

Officers of the Graham Oil Syndicate, Young County Oil & Gas Co., and the Barnes Production Company have been removed to the new Lynch building on the east side of the square. A. L. Barnes, president of the company, has had offices fitted up nicely in anticipation of a rushing business when the Bunger district is opened up.

GRAND JURY REPORT

To the Honorable H. F. Weldon, Judge of said court:

We your grand jury, have been in session six days. We have examined eighty witnesses and have returned into court nine felony indictments.

First in the order of things we have examined the jail and we find it in an entirely bad condition. It is very insanitary and is not a fit place to confine human beings. Its condition is such that it is a fertile ground to breed contagious diseases. We desire especially to call the attention of the Commissioners' Court and the people of Young county to the necessity of making adequate provisions for the confinement of persons charged with the commission of crime. In this county there is no place at this time and they should realize that since the discovery of oil in this county and the influx of a new population to the oil fields that the laws of the state are going to be violated and there is not at this time a fit place to confine offenders.

The present jail is constructed of a great deal of wood and in case of fire there is no place to permit the prisoners to escape and in such a case the prisoners would be burned to death which would be very regrettable.

Quite recently, due to the defective condition of the jail, several prisoners have escaped. This matter should receive the immediate attention of the Commissioners' Court and the citizenship of Young county.

The arrangement of the jail is such that it makes it very dangerous for officers in discharge of their duty to go among the prisoners and by reason of the condition, if continued, is likely to result in the death of an officer or cause an officer to kill a prisoner.

Under the law the sheriff is charged with care of the prisoners and held responsible for their safe keeping, but under the present conditions of the jail the sheriff cannot perform the duty imposed upon him by law and unless the sheriff receives the support of the citizenship of the county lawlessness may get beyond his control and this matter should receive the serious consideration of the citizenship.

At the beginning of our present session we found the jail was in a very crowded condition and it was ascertained by us that the jail was not connected with Graham sewerage system, but the sewerage was run in a cesspool, we found that the cesspool had become full and overflowing and running out on the ground near it. This cause the sewerage to back up and flood the jail thereby endangering the health of the prisoners as well as being a menace to the health of the entire community. This condition demands immediate attention. This condition is not due to any negligence of any officer but due to the construction of the building.

We find that the jail is inadequate for present needs and recommend that immediate steps be taken to meet the conditions.

No testimony has been presented to us of any violations of the law with reference to rebates by railroads.

We have not had brought to us sufficient evidence of the existence of bawdy houses in this county.

We find that there is some gambling in the county, but these matters are being efficiently handled by the County Attorney. No evidence has

(Continued on page 8)

Now is the Time--

—for clear heads, stout hearts, busy hands—

This period of readjustment, through which we are now passing is not new or strange. This nation has gone through the same thing before. We have met and solved even greater problems than those now confronting us and we see no cause for alarm now.

Thru careful planning and earnest co-operation we will emerge, even greater for the set-back the present situation has caused.

NOTICE OF HEARING TO APPROPRIATE PUBLIC WATERS OF THE STATE OF TEXAS No. 554

Notice is hereby given, to whom concerned that William J. Collier, the postoffice address of whom is Fort Worth, Texas, did on the 21st day of February, A. D. 1921, file his application in the office of the Board of Water Engineers for the State of Texas, in which he applies for a permit to appropriate the unappropriated waters of the State of Texas, from the Clear Fork of the Brazos River in Young Co., Texas, sufficient water for public water works for the town of South Bend, Texas, and for oil well drilling purposes in the vicinity of South Bend, to be impounded in a reservoir created by the construction of a dam, and diverted by means of a pumping plant, said dam to be located at a point which bears S. 57 3-4 degrees W. 705 feet from the S. W. corner of T. E. & L. Co. survey, number 1015, on the South bank of the Clear Fork of the Brazos in a southerly direction from Graham, ten miles.

You are hereby further notified that the said William J. Collier is to construct a dam of stone and concrete, 6 feet in height, 163 feet in length having a top width of 30 inches and a bottom width of 5 feet, thus creating a reservoir of an average width of 180 feet, length of impounded water three miles, average depth of stored water 4 feet, having a storage capacity of 266 acre-feet, and to divert therefrom not to exceed 3000 acre-feet of water per annum for the purposes herein stated.

A hearing on the application of the said William J. Collier will be held by the Board of Water Engineers for the State of Texas, in the office of the Board at Austin, Texas, on Monday, April 4th, A. D. 1921, beginning at ten o'clock a. m. at which time and place all parties interested may appear and be heard. Such hearing will be continued from time to time, and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

Given under and by virtue of an order of the Board of Water Engineers for the State of Texas, at the office of the said Board, in Austin, Texas, this the 24th day of February, A. D. 1921.

W. T. POTTER,
C. S. CLARK,
JNO. A. NORRIS,
Board of Water Engineers.
Attest: A. W. McDonald, Secretary.

Notice is hereby given that E. M. Fenner will not be responsible for any obligations of the Benson-Fenner Syndicate.

NOTICE OF HEARING TO APPROPRIATE PUBLIC WATERS OF THE STATE OF TEXAS No. 557

Notice is hereby given, to whom concerned, that W. A. Peterson, the postoffice address of whom is Breckenridge, Texas, did on the 25th day of February, A. D. 1921, file his application in the office of the Board of Water Engineers for the State of Texas, in which he applies for a permit to appropriate the unappropriated waters of the State of Texas, from the Clear Fork of the Brazos River, in Young County, Texas, for mining purposes, to be impounded in a reservoir created by the construction of a dam, and diverted by means of a pumping plant, said dam to be located at a point which bears 1190 feet South 5 degrees E. from the N. E. corner of Original Survey No. 1111 on the South bank of the Clear Fork of the Brazos River, distant in a Southwesterly direction from Graham, Texas, thirteen.

You are here further notified that the said W. A. Peterson is to construct a dam of reinforced concrete, 9 feet in height, 130 feet in length, having a top width of 8 feet, and a bottom width of 26 feet, thus creating a reservoir of an average width of 115 feet, length of impounded water 44,000 feet, and an average depth of stored water 5 1-2 feet, having a storage capacity of 638 acre-feet, and to divert therefrom not to exceed 638 acre-feet of water per annum, for the purposes herein stated.

A hearing on the application of the said W. A. Peterson will be held by the Board of Water Engineers for the State of Texas, in the office of the Board at Austin, Texas, on Monday, April 4, A. D. 1921, beginning at ten o'clock a. m. at which time and place all parties interested may appear and be heard. Such hearing will be continued from time to time, and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

Given under and by virtue of an order of the Board of Water Engineers for the State of Texas, at the office of the said Board, in (L. S.) Austin, Texas, this the 25th day of February A. D. 1921.

W. T. POTTER,
C. S. CLARK,
JNO. A. NORRIS,
Board of Water Engineers.
Attest—A. W. McDonald

COLLECT BIG AMOUNT IN INCOME TAXES IN STATE OF TEXAS

Dallas, Mar. 17.—Scott Reed, collector of Internal Revenue, estimated Wednesday that approximately \$8,000,000 will have been received by his office in income tax payments for the first quarter in Northern Texas district, comprising 157 counties, or about half of the state. He said that \$3,000,000 have been received so far, and that about \$5,000,000 are in the hands of deputy collectors.

The majority of people subject to income tax payments make such payments quarterly, which will bring the year's total for Northern Texas to approximately \$30,000,000, Reed said. It was his opinion that the total for 1920 would be 25 per cent less than that of 1919, owing to the revised arrangement for community property.

Reed's office requires sixty-five clerks to tabulate the returns, which aggregate about 160,000. Sixty-five per cent of them are on incomes of less than \$5,000, he said.

IVAN NEWS

The mildness of the weather through the winter and up to this time is an unprecedented in the memory of the oldest settlers in this locality however it is none too late for us to have some very severe weather. So far the prospect seems good for an abundant fruit crop.

The oil prospects in the vicinity of Ivan seems to be getting better all the time. A good well came in recently on Lee Robinson's place, two miles west of Ivan. The well is said to be making 1,400 barrels per day. It is also said that a good gas well has been obtained on Mrs. Allen's place, two miles north of Ivan.

W. J. and E. L. Cretsinger and Mrs. I. W. Steele are visiting their sister Miss Len Cretsinger at Terrell, Texas.

Small grain in this locality is looking well, but needing rain.

Mr. Lynn of Breckenridge, recently took a fine monument to the Veals Creek cemetery in the Cedar Creek community, to erect over the grave of Mr. and Mrs. A. Rickles.

AMENDMENT RAISING SCHOOL TAX LIMIT TO \$1 IN EFFECT

The constitutional amendment raising the limit of taxes for school purposes from 50c to \$1 on the \$100 valuation is now in effect, the enabling act, passed by the session of the Legislature, which has just closed by more than the necessary two-thirds majority, making the measure immediately effective. The amendment was adopted at the polls last November and need only the passage of a law by the Legislature to put it into effect. This has now been accomplished.

A copy of the law has been received by County Superintendent Avants. It provides that the \$1 limit shall apply to both common and independent districts and that twenty or more taxpayers of any district may petition for an election on the increased tax.

The new law is expected to provide relief for many Texas school districts. Because the limit of 50c has been reached in many districts the needed additional funds could be raised only by increasing tax values for school purposes. In many other instances the schools have been compelled to operate on less funds than needed.

One important feature of the law is that school bonds may bear 6 per cent interest; heretofore 5 per cent has been the limit, and it is expected that the higher rates permitted will make the bonds easier to sell.

Pennsylvania Oil Co. Leases Herron Land

The Pennsylvania Cities Oil Company of Franklin, Pa., has leased the Herron land in the lower Gooseneck Bend, east of Banger, and will at once begin the erection of a rig preparatory to drilling a well. Drilling operations are expected to commence within the next week.

C. W. Whitehead, president of the company, and S. R. Smith, an operator of twenty years' experience, have leased office space in the D. & F. building on the east side of the square. The company has some valuable holdings in the South Bend field which will be developed at an early date.

BUNGER IS TAKING ON BUILDING BOOM; PROSPECTS BRIGHT

Faith in Bunger as an oil producing center is being manifested by an active building campaign which is now being carried on at that place. The new cafe has been completed and is in operation by parties from South Bend. A new building for a drug store, always the forerunner of an active boom, has been finished, and the Blue Blaze Tavern, a two-story hotel, is expected to be completed this week.

C. W. Pratt of Graham is building a stone garage, while a lumber yard is being furnished by the Employees Lumber Company, also of this city. It is understood that two more lumber companies are planning to establish yards at Bunger in the near future.

The Barnes Production Company last week sold \$1,600 worth of town-site lots to one party. This company is now busy erecting a rig and will spud in about April 5 to the tune of a jazz band which will be secured for the occasion, it is said. A barbecue also will be held on that date and speeches by prominent men will mark the fete.

The Empire well on the Lisle is cleaning out at a depth of 300 feet while drilling on the Union's well on the Askew is going ahead at 1,200 feet. Myres and Worley are rigging up preparatory to drilling. Whitehead, et al., has made a location on the Harron, while McClure, et al., have made a location on the Driver.

Activity in the Bunger district points to a real boom in the near future and there is a mild scramble to get in on the ground floor. Development work in that section is being closely watched by the big companies and the prominent independent operators.

GRAHAM WINS FROM JACKSBORO IN GAME HERE LAST SATURDAY

The Graham High School baseball team added another game to its unbroken chain of victories Saturday when it defeated the fast team of the Jacksboro High School by a score of 6 to 1. The game was played on the local diamond before a large crowd of enthusiastic supporters of the Graham boys.

The local high scored first in the third inning when they bunched several hits and ran in three scores. One more was made in the seventh when Price hit to center, stole second and third, and came in on an error. A batting rally in the eighth added two more counters to the score of the local team.

Jacksboro scored once in the eighth on a hit and two errors. With the bases full the visitors threatened to score at length but were unable to find McAfee's balls, two fanning with the bases full.

The outstanding feature of the game was the pitting of McAfee, the visitors securing only a few scattering hits. In the pinches the big Graham boy tightened up and kept his opponents completely baffled. McAfee, Price, W., and Calvin for Graham and Risley for the visitors secured two hits each. The fielding of both teams was loose at times.

The line-up follows: Graham High School: Dickensta, 1st; C. Mathews, 2nd; McAfee, p; Calvin, 3rd. W. Price, ss; Williams, cf; Kidd, lf; Reed, rf. Jacksboro High School: Huckleby, cf; Risley, p; P. Frank, 3rd; L. Frank, ss; Young, 2nd; Hackley, c; Henderson, lf; Jones, rf; Spears, 1st.

Box score:

	R.	H.	E.
Graham	6	10	3
Jacksboro	1	5	9

BOND ELECTION WON BY 239 TO 41 FINAL COUNT OF VOTE SHOWS

The city bond election yesterday carried by the overwhelming majority of 239 to 41 and thereby empowered the City Council to issue bonds in the amount of \$210,000 for improvement in the waterworks system of Graham, according to a final count of the votes.

When seen this morning Mayor Graham voiced his satisfaction at the outcome of the election, and said it would probably take thirty days to prepare the bonds for sale. No trouble is anticipated in placing the bonds, as the bond market at the present time is particularly strong.

The City Council will start first on enlarging and extending the water mains and in building additional reservoir facilities, the mayor said.

NOTICE—Any erroneous reflection upon the character, standing or reputation of any person, firm, or corporation which may appear in the columns of the Leader will be gladly corrected upon its being brought to the attention of the publishers.

Volume one, number one of the Graham Daily Leader has reached the desk of the Gazette. The first issue which was published Thursday, March 10, is well edited, contains twenty pages consisting of the local news, a synopsis of the history of Young county from the time of the early settlers until the present time, and a liberal patronage from the advertisers of the city and is a paper that would be a credit to a city much larger than Graham. The Gazette extends congratulations to Editors Bowron and McLendon and wishes them success in their latest journalistic enterprise.—Jacksboro Gazette.

The Graham Daily Leader made its appearance last week. The first number was a 20-page paper and it was filled with live, interesting news and historical matter relating to Young county; besides showing evidences of liberal advertising patronage. "Here's hoping," old Leader!—Bridgeport Index.

FORWARD NOW TOGETHER

(Huston Chronicle.)

The time has come for all of us in America to move forward unitedly and with determination into an era of sound prosperity.

We are due to come into our own—now is none too soon.

We must make up our minds to go ahead—flash that signal all along the line.

The way is open if our will is strong.

The wheels of industry will turn in response to our command, expressed in terms of action.

It is up to you, to all of us to stabilize business. Stability waits on activity plus faith that all is well—faith in ourselves, in one another, in business.

Faith is the foundation of prosperity. Make it the cornerstone of your thinking and of your action.

Today let us start putting our shoulders to the wheel all together, let us work a little more; think a little harder, buy without forebodings and sell with a conscience. We must keep a clear eye out for the other fellow as well as our own.

The one rule that assures a full measure of prosperity is the Golden Rule. It is simple, sure, safe. Work this rule and let it rule your work.

Some say there has been a breaking down of faith by the recent scramble to "get while the getting is good." Even if that is so, we must dismiss from our minds that phase of reaction from war endeavors and declare for new high standards.

Nothing tangible is holding us back. The fundamental factors making for prosperity are all favorable.

At core American business is solid; at heart American men and women are courageous.

We must show the world, each other, ourselves what American spirit really means.

Forward now—together, confidently!

OIL RATE HEARING IS SET FOR APRIL 12.

Austin, Texas, March 24.—At the instance of the Beaumont Chamber of Commerce the Railroad Commission today set Tuesday, April 12, to consider the application for a readjustment of rates on crude and fuel petroleum in car loads. It is proposed to use the rates of June 24, 1918, plus 25 per cent, plus 35 per cent. The rates, if adopted, would materially reduce the charges for short distance and slightly lower them for the long hauls, where the maximum would be reached at 425 miles for 25 1-2c, against 26 1-2c under the present tariff.

TWO GIRLS DROWN IN POOL AT HUNTSVILLE

Houston, March 21.—Two girls of a swimming party were drowned at Huntsville, Texas, this afternoon. They are Elizabeth and Ada Leesa Streeter, 12 and 15 years old, daughters of Mr. and Mrs. William Streeter of Huntsville. They, with three other girls, went in swimming in an old mill pond. A third girl was rescued.

"WILSON, THE MAN, WILL DIE"

It is with hesitation that I comply with your request for an expression of my views on Woodrow Wilson, because my intimate relationship may incline cynical or prejudiced minds to say that I am not an impartial observer. His retirement from the presidency marks, however, an epoch of such profound significance to the world that I cannot resist the temptation to say a few words about one phase of his career.

I do not agree with those who hastily and inconsistently adjudge the President's work at the peace conference a failure. Whatever may be the imperfections of the treaty from a political or economic standpoint, Woodrow Wilson did not fail. The outstanding thing, for which he fought, the thing that transcends political and economic considerations, is the permanent peace of the world. Unless this is secured all else is failure; without this the sublimest hope of humanity is sunk in the black abyss; without this all political and economic adjustments are unstable and sooner or later will disappear.

Woodrow Wilson laid the foundation of world peace and a new order in the Versailles treaty. This is the supreme need of civilization; this is his greatest work. The fact that the crowning structure has not yet reached completion, that it has been halted by the selfishness of designing politicians and the greed of materialistic national interests, has neither impaired nor destroyed those foundations. The tides of reaction will nominously exhaust themselves and the work of Woodrow Wilson will emerge unscratched and stand like the eternal rocks as the support of a new and better order of which peace and justice will be the keystone.

This is Woodrow Wilson's matchless contribution to his time. Great and noble as have been his other unparalleled achievements in the fields of politics, economics and letters; this is his enduring monument. He has put a new star in the American flag—like the Star of Bethlehem, with its eternal message of peace, with good will and hope. No one can that star from the flag. With it America will lead the vanguard of humanity and civilization to a new day of human brotherhood and world order. This will not come immediately, but it will come inevitably in the slow and sure process of time.

Woodrow Wilson, the man, will die; but Woodrow Wilson, the apostle of peace, will live forever. Out of his sacrifice and suffering—borne with admirable dignity and sublime courage—the good he has sought to do for mankind will come to a noble fruition and receive a splendid, although perhaps belated recognition. In his martyrdom there is not defeat—there is triumph! History will do him justice. He can wait his verdict with serenity.—Wm. G. McAdeu.

The People's Co-operative Grocery Store has moved from its former location on North Elm street to the new Glaberna building on West Fourth street, just below the Dolman Hotel. The store has more spacious quarters since moving to the new location.

NOTICE OF SALE

The Chicago, Rock Island & Gulf Railway Company hereby gives notice that car L. V. 14330, containing 50500 pounds of second hand shafting shipped by Jos. Greenspon's Sons Iron & Steel Co. from Saint Louis, Mo. to Gorman, Texas, and thence to Graham, Texas, under M. K. & T. St. Louis, Mo., to Gorman, Texas, waybill KT-77 dated November 2nd, 1920, and Gorman, Texas, to Graham, Texas, waybill KTT-8 dated December 2nd, 1920, consigned to shipper's order notify Giant Machine & Tool Co., Graham, Texas, having arrived at Graham, Texas, and remaining unclaimed, and the charges thereon not having been paid, under the laws regulating such matter it will, on the 25th day of April, A. D. 1921, at its freight depot in Graham, Texas, sell said second hand shafting at public auction to the highest bidder for cash; that the charges for the collection of which said sale will be made, are the sums of \$1,013.22, freight charges; war tax thereon, \$30.40; demurrage to and including this date, \$363.00, and further demurrage charges that will accrue of \$5.00 per day from this date to the date of sale, not including holidays and Sundays, together with war tax on said demurrage charges at the rate of 3 per cent of the gross amount of same; and the expenses and costs of said sale.

This March 23, A. D. 1921.
 H. BENNETT,
 Agent for the C. R. I. & G. Railway Company.

AS SHE IS SPOKEN

Toronto Set Square: "Let me have sleeping accommodation on the train to Ottawa," I said to the man at the window, who didn't seem at all concerned whether I took the trip or stayed at home.

"For a single passenger," he finally said.

"No," I replied, "I'm married, but I'm not taking anybody with me. A single shelf will answer."

"Upper or lower?"

"What's the difference?" I inquired.

"A difference of 50 cents," came the answer. Our prices to Ottawa are \$1.50 and \$2.00.

"You understand, of course," explained the agent, "the lower is higher than the upper. The price for the lower berth. If you want it lower you'll have to go higher. We sell the upper lower than the lower. It didn't use to be so, but we found everybody wanted the lower. In other words, the higher the fewer."

"Why do they all prefer the lower?" I broke in.

"On account of its convenience," he replied. "Most persons don't like the upper, although it's lower, on account of its being higher, and because when you occupy the upper you have to get up to go to bed, and then get down when you get up. I would advise you to take the lower, although it's higher than the upper, for the reason I have stated that the upper is lower than the lower because it is higher. You can have the lower if you pay higher, but if you are willing to go higher it will be lower."

NACOGDOCHES COUNTY TO HAVE COTTON CLASSER
 Nacogdoches, Mar. 21.—The farmers of Nacogdoches county are signing up for a county classer from the A. & M. College this week for the cotton selling season. Waller Mangon and A. D. Jackson, two cotton men from A. & M. at Bryan, are here under the auspices of the American Farm Bureau visiting all the rural centers explaining the A. & M. College way of grading cotton. N. L. McKnight, secretary of the Nacogdoches Chamber of Commerce, is assisting in the work.

"DREAM HUSBAND" HELD FOR GRAND JURY ON TWO CHARGES

Aurora, Ill., March 21.—The Rev. Maurice Bodine, 52 years old, Chicago, the so-called "dream husband" of Mrs. Ida Glasshagen Bodine, 49 years old, an Aurora dressmaker, was held to the grand jury today in bonds of \$3,000 on charge of theft and marrying in Illinois in less than a year after he had been divorced. Mrs. Bodine did not appear against the clergyman and he waived examination.

BARNES PRODUCTION COMPANY

CAPITAL \$150,000.00
Par Value \$100.00

203.6 ACRES IN BUNGER DISTRICT

The mother pool of Southern Young County oil field is believed to be in the Bunger district. We have 203.6 acres located in the best part of this field. Geologists say this is the best structure in Young County.

Our first well must be and will be drilling by April 15th. Location has been made in Survey No. 44 and rig is being moved out. We expect to spud in April 5th. By June 15th we expect to have oil flowing in the tanks.

Mr. A. L. Barnes, President of the Barnes Production Company, last year organized the Graham Oil Syndicate, which is now paying big dividends and the stock in this Syndicate is worth many times par value. We feel sure that Barnes Production Company stock will be worth many times PAR in 60 days.

Mr. Joe Frantz, Vice-President and Drilling contractor for the Barnes Production Company has, for the past year, been contracting for the Roxana, and has had many years experience in the Texas and Oklahoma fields. This assures us that our well will be drilled in record time.

Many other locations have been made in the Bunger district and this territory is getting a wonderful play. It looks like, in 60 days time, this will be another South Bend, or BETTER.

Send in your subscription today. Just think—one of the best chances in the world at BIG PRODUCTION and 203.6 acres. We can get enough production off 203.6 acres to make us all RICH.

What do you say? Are you going to let this opportunity slip by without taking at least ONE SHARE. What does \$100 mean to anybody on a chance like this. BIG ACREAGE—BEST STRUCTURE IN Young County and a GUARANTEED SQUARE DEAL.

SEND THIS IN TODAY

Units in the BARNES PRODUCTION COMPANY at \$100 each, par value. Send me the certificates at once.

GRAHAM LAKE MADE READY FOR BATHING; BOATS ARE FINISHED

Lake City, March 23.—Several drilling contracts have been let on the M. K. Graham farm, just north of Lake City. Contracts are being signed here today for a \$3,000 bathing pavilion at the Graham Lake, north of here. This pavilion will be thrown open to the public by April 15. Boats are already in operation and several more will be put on the lake in the near future.

Mr. Pennington, owner of the Lake City Refinery, reports that they are making good progress with the work of erecting the refinery.

An effort is being made to have the head of each family, as well as others, to subscribe to the Graham Daily Leader. There are about forty subscribers here now.

The Graham farm is noted for its beautiful pecan groves, its 75-acre lake and the Clear Fork of the Brazos, where plenty of fish abound.

The young fellows of Lake City are planning one of the best baseball teams in the country. A cordial invitation is extended to all to witness games which will be played this summer. The people here will be glad to assist anyone in finding a good camping ground free of charge.

PICTURE PEOPLE OBJECT TO CLARA AS FILM PLAYER

Los Angeles, Cal., March 18.—That any exploitation of the Clara Smith Hamon case on the screen would be considered damaging to the motion picture industry and will be met with organized opposition from picture people is indicated by action announced today by the Photo Playwrights League of America, a national association of screen writers.

"Right now when everybody is talking about making pictures clean, is a poor time to permit the exploitation of a woman like Clara Smith Hamon," said Mycliff A. Hill, president of the league and well-known scenario writer and an independent producer.

In resolutions adopted by the Photo Playwrights' league, this declaration is made with reference to Clara Smith Hamon:

"She is not in the opinion of this organization, a fit character to be exploited on the screen, particularly at this time, when the motion picture is combating efforts to subject it to unfair censorship."

INTERSCHOLASTIC LEAGUE ANNUAL FIELD DAY

Following is the program for Young county's annual field day meet to be held at Graham High School, March 26:

- Morning Literary Events

GOLD MEDAL IS OFFERED PUPILS OF HIGH SCHOOL

The pupils and teachers of the Graham High School are now deeply interested in the High School Oratorical Contest which will be held Thursday evening March 24, in the school auditorium. This is one of the annual events which always attracts much attention from the students and patrons of the school. Six High School girls will compete for a handsome gold medal which is presented annually by the Guaranty State Bank to the winner of the girls' contest. The Graham National Bank gives a similar gold medal to the winner of the boys' declamation contest. These medals will be on display in one of the local stores several days before the contest and there will be strong friendly rivalry among the students on the night of the contest.

All patrons and friends of the school are invited and the music and flowers, added to the interest in declamation, will make the contest an enjoyable occasion. The winners of the medals will represent the High School in the County Declamation meet at Graham on March 26.

Her Missing Husband Woman Wants Trace of

An appeal to the postmaster here to help locate her husband who has been missing since September 25, 1920, is made in a letter written by Mrs. Wm. Martin of Decatur, Ind. Her letter follows:

"My husband has been missing since September 25, 1920, and was last heard of at Brighton, Colo., but left there and talked of going to Oklahoma or Texas to work in the oil fields. We fear that he is sick or else that something has happened to him. He worked last spring at Graham, later on for a Mr. Probasco at Floydada, then went to Colorado to work in the harvest fields. On September 25 he left Brighton and we have never heard of him since. His name is William B. Martin; he is a little above average height; weighed about 185 pounds and had large gray eyes and brown hair; the little finger on the right hand is off at the first joint, making it stubby."

200 feet Iron Fence for sale. See Z. A. HUDSON. 30c

A new one-story frame and stucco building has been completed on North Elm street for Eddleman Brothers who will move their harness shop this week from their present location on the square to the new building. The structure covers a space 28x84.

GRAHAM, TEXAS

LOCAL GEOLOGIST ATTENDS MEETING OF NATIONAL BODY

Problems affecting all phases of petroleum geology were discussed at the annual convention at Tulsa of the American Association of Petroleum Geologists held last week, according to M. G. Cheney, local geologist, who returned from the meeting Sunday.

Dr. David White of the United States Geological Survey read an important paper on the original source of oil, which is now generally conceded to be organic matter, buried and preserved in such a manner that oil is formed and finally migrates to adjacent and more porous reservoir strata. This only occurs, however, under certain conditions, according to Dr. White.

The association, Mr. Cheney said, will assist the United States Geological Survey in compiling an estimate of the petroleum reserves in this country. The point was brought out at the meeting that these reserves are being more rapidly depleted each year.

The retiring president of the association is Wallace E. Pratt, who spent several months in Young county during the year 1917. The new president is George C. Matson, former member of the U. S. G. S.

Important papers were read on new developments in the deep producing sands of Oklahoma; on the salt domes of the Gulf coast, and in Mexico, Montana, and Colorado.

There was also a wide discussion, Mr. Cheney said, on the practical economic uses to which geology is being put. Of course there is no way in which a geologist can tell for sure whether there is oil at a given place, but by taking advantage of certain surface and subsurface conditions and other well-proven factors at least a saving of 20 per cent can be brought about.

School Enrollment Numbers About 1,100

Enrollments at the high school continue to pour in, Superintendent Cogdell said today in announcing that 23 new students had been received since Monday. Fifteen of these came in Monday and six on Tuesday. Mr. Cogdell believes it will be necessary to start a downtown school soon.

The examination period for the third nine week's term closes today and pupils have done very good work. The present enrollment of the school is around 1,100.

CIVIC LEAGUE NOTES

The Civic League met in the directors' room of the First National Bank, Wednesday, March 16, Mrs. J. T. Rickman presiding. The meeting proved to be an interesting one, as more members were present than usually attend. Mr. McConnel, secretary of the Chamber of Commerce was present and urged the ladies to keep on in the work they had begun. He suggested that a special campaign be launched to gain new members, saying that he was sure many of the people moving into town would be glad to help in the League work.

The club decided to direct all its energies at present toward improving the park. Several committees were appointed to look after various phases of this work. Mrs. E. S. Graham was elected president for the year beginning April 1, 1921.

The next meeting will be held the first Wednesday in April, at the bank, at which time a new place of meeting will be decided upon.

Shawnee Park.

Have you visited the park? If you have not, go out there some afternoon and see how many people are enjoying it. Gradually improvements are being made which will make it more enjoyable. Last week a call was made for trash receptacles, and already two have been donated by Hughes and Kizer. Others are needed, however, so if you have a large tin can or oil tank to spare, let it be known. The paint to be used on these cans and the park benches has been donated by the Glidden Paint Company. We thank these, for their interest and cooperation, and hope others will follow their example.

MAGIC AND PICTURES

This program is to be given by S. S. Henry, the great magician and his assistant, who will present mystery after mystery, novelty after novelty, surprise after surprise. Mr. Henry will also make rapid sketches in color and in sand. Magic and pictures—two entertainments in one.

Just one week later, April 11, the Musical Arts Quartet will conclude the lyceum course. Both of the numbers are splendid entertainments and should be well attended.

The school will sell tickets for both programs.

Interest in Election At Eliasville Grows

Eliasville, Mar. 21.—Interest in the local city election to be held next Saturday is warming up with two tickets in the field. A. A. Wisdom heads one ticket as a candidate for mayor while A. E. Hofues is reported as the aspirant for the mayor's job at the head of the other ticket. Interest in the election has reached every qualified voter in the recently incorporated city and it is said that there will be a full vote cast early on election day.

The campaign is a most friendly one and all candidates are enjoying the race.

Brunswick

PHONOGRAPHS AND RECORDS

What music lovers discovered in the Brunswick Method of Reproduction

WHEN all is said and done, when every comparison is made, final judgment of any phonograph rests in the tone. All else is secondary.

And it is in this important particular that the Brunswick Phonograph won its fame.

Its cabinet work was taken for granted as of the finest, for the House of Brunswick has been noted for its craftsmanship in wood-working for 76 years.

A surprise for all

What a revelation, however, came when music lovers became acquainted with The Brunswick! Old harshness is gone.

Much of the improvement is due to the Brunswick Tone Amplifier, built entirely of selected, seasoned wood.

Another great advancement, and exclusively Brunswick today, is the Ultona, an all-record reproducer.

These and other advancements have been combined and related in an instrument made entirely by the House of Brunswick.

Proof of the superiority of Brunswick Phonographs is coming in, hearing them and making comparisons.

"Everything Musical" GRAHAM, TEXAS

O. W. Lindquist of New York

The following is an excerpt from a letter from Mr. O. W. Lindquist of New York:

"This morning I had the pleasure

of receiving the first issue of the Graham Daily Leader and I want to take this opportunity of congratulating you on its splendid appearance, contents and the size of the newspaper. There is no question but

what Graham in its rapid growth needs a daily paper and with your able staff you will undoubtedly make a success of it. Subscribe for The Daily Leader.

Edison reveals voice secrets

ONLY 22 singers, out of 3,800, sing pure notes.

Many popular opera and concert stars have serious defects in their voices.

"Stage-personality" enables many a singer of poor voice to gain success as an operatic star.

These amazing facts are told by Mr. Edison in a recent interview on "The Imperfections of the Human Voice." Ask for a copy.

The NEW EDISON

"The Phonograph with a Soul"

Vote!

Mr. Edison has listed his 25 favorite tunes. Ask for a copy of "What Edison Likes in Music."

What other great American's favorite songs would you like to know? Come in—vote!

Receive free, Mr. Edison's favorite portrait; a photo-etching by Franklin Beach, 12 x 19 inches.

He detected and analyzed these vocal defects through the New Edison.

If the New Edison can reveal the defects of mediocre voices to scientists,—it can bring the perfections of great voices to you.

You hear the world's greatest music at its greatest, when you hear the New Edison.

Ford

THE UNIVERSAL CAR

Sixteen Years Experience

For sixteen years, a corps of metallurgists have been studying and constantly perfecting the steel that goes into every part of the Ford car and the Ford One Ton Truck. Each separate part has been studied to learn the type of steel best fitted for it. Parts receiving constant surface-wear are made of hard, flint-like metal; parts subjected to great vibration or resilience are made of softer, springy steel. Every part is made according to its use—that is, every Genuine Ford part is.

But there are also counterfeit "Ford" parts. These imitations are made by concerns in no way connected with the Ford Motor Company and retailed as side-lines by mail-order houses, down-town stores, and many garages. The unsuspecting customer accepts them because they are called "Ford" parts. To make sure of getting the genuine Ford-made parts, buy them only from Authorized Ford Dealers. Likewise bring or take your Ford car to our garage for repairs, replacements, and general "tuning up."

We are Authorized Ford Dealers. We can supply you with all Ford parts for either passenger car or truck. And our shop is equipped to give real Ford service in all repair work.

CISCO & NORTHERN RAILROAD MAY COME TO GRAHAM SHORTLY

Breckenridge, Mar. 17.—The Cisco & Northern railroad will build from Breckenridge to South Bend and Graham.

Charter for the extension has been secured from the state. It was granted this week, when a personal visit to Austin by President Lee of the railroad was concluded. He is understood to have brought the charter back with him.

President Lee, General Manager Flynn and General Traffic Agent Dorsey of the railroad came here yesterday morning from Cisco headquarters, spending the day in the field. They did not discuss the matter of the extension to South Bend and Graham for publication, but they did give it to be understood that the extension is to be made and that plans are now being worked out. The beginning of execution of these is not far distant. A guess in a well informed quarter is that the road will be running into South Bend from Breckenridge before the middle of the summer. Machine graders and track-laying equipment are available for a rush job.

It is not known what route will be followed by the extension of the Cisco & Northeast, but it is believed that it will go by way of Ivan, tapping a highly active country which is in need of the direct connection with the central source of oil field supplies which Breckenridge is and which will not be directly served by the Hamon road to Jimkurn and the connecting Kell line. The area the C. & N. E. would serve by going by way of Ivan is a very important one and with the development now under way and planned affords abundant earning opportunities for railroad operation.

Should the C. & N. E. go by way of Crystal Falls, as has been considered as possible, it will doubtless take through the coal country to the north of that point, not tapped by the Hamon and Kell roads, and enter upon the extensive encouragement of development of the coal resources. This is considered probable in view of the affiliation extant between the T. & P. and the C. & N. E. and the fact that the Texas Company has large holdings of coal lands which might readily be diverted to Texas Pacific uses if provided with the railroad facilities necessary to opening and operating for coal values.

McFarlane Building Is Going Up With Speed

What is considered a fast piece of work has been accomplished during the last few days on the one-story brick and tile building which is being constructed on the corner of Oak and Second streets by Judge R. W. McFarlane. The foundation was poured in one day and the walls were erected during the next two days. W. C. Stanfield of Greenwood, Ark., is the contractor.

The building, which will have a modern plate glass front, will be the only business structure for rent in the entire city.

Eureka Ice Cream Co. Will Open April 1st

The Eureka Ice Cream Company, headed by J. W. Kessler, will open a plant on Fourth street, it was announced today by Mr. Kessler. The building has been secured and all the equipment with the exception of a few minor parts has arrived. It will be in operation by April 1.

The capacity of the plant will be about 100 gallons daily. Mr. Kessler is a northern man and expressed confidence in the future growth of Graham. He has other holdings in Young county.

MADSTONE APPLIED TO VICTIM OF VICIOUS DOG

Mr. and Mrs. J. E. Smith of Lavon came to Farmersville last week bringing their two-year-old child to the famous madstone owned by Mr. and Mrs. N. T. Hicks on South Main street. The child had been bitten on the hand by a dog, which developed rabies and was killed. Mr. and Mrs. Smith spent three days here, having the madstone applied during this time, with the baby under the care and in charge of Mrs. Hicks, who has owned the madstone about fifty years. She had a record of the stone dating back for one hundred years, having, it is said, never failed to perfect a cure when used in time. In the case of the little Smith child, Mrs. Hicks says it adhered with remarkable tenacity, having to be removed from the wound with consid-

erable force. The method of treatment with the madstone, is to apply to the bite or wound, and if there is poison it adheres and is removed at intervals and placed in a vessel of sweet milk, where the poison is extracted from the stone, and it is then ready for use again. It is said that the milk takes on a peculiar bluish color after the stone has been left therein for a short time.

The madstone has an interesting and peculiar history of being found in a kidney of a deer. The process of formation is doubtless one that deserves the attention of the scientists.

We go to the oyster to look for pearls, so it is not in the category of the unbelievable or unreasonable when we say we go to the kidney of the deer to find the madstone. This stone is a bluish gray stony substance, small and somewhat oval in shape.

Farmersville has been given considerable notice and distinction on account of this madstone. Many persons suffering from dog bite, have come to the Hicks' home for treatment of the madstone.

Mrs. Hicks, who is one of Farmersville's pioneer settlers, the daughter of the late Jim Harris, known over the entire state as the "Great Cattle King" can tell many interesting stories connected with the madstone.—Farmersville Times.

Two-Story Apartment House on Second St.

The erection of a two-story apartment house on Second street was begun last week by Jim Henley. The building will contain nine apartments, will cover a space of 50x75 feet and is expected to be completed by April 15, Mr. Henley said.

AGED MAN ARRESTED LAST FOR STEALING FORD CAR

An exciting chase by local officers last Thursday morning resulted in the capture at Rock Creek, fourteen miles from Graham, of John Hart, aged about 60, charged with the theft of a Ford automobile from Marion Wallace. The car was stolen from Mr. Wallace's garage about 2 o'clock Thursday morning. Occupants of the residence were aroused by the noise of the engine as the car was driven away, and the chase was immediately taken up.

Aggie Morrison, chief of police, and Mr. Wallace preceded Sheriff John Saye, F. A. Burnett, T. M. Young and Joe Flint, who followed closely in the rear in another automobile to Rock Creek, where the old man was placed under arrest and returned to Graham. The license num-

ber of the car had been changed.

When seen in the sheriff's office Thursday, Hart for a long time refused to give his name. Finally, however, he consented to give it to County Attorney Hinson, but beyond this he maintained silence and refused to give any account of himself or where he is from.

Hart is an old man bent with age. His hair is white, and the tears trickled down his face as he sat handcuffed in the sheriff's office. Whether he is a hardened criminal with a past record, or whether circumstances forced him to commit the crime, is not known.

Hon. W. E. Wilson of Wichita Falls was in Graham yesterday on legal business.

Hon. Jos. H. Aynesworth of Wichita Falls, well known in Graham, was a business visitor here yesterday.

Answering Easter's Call For New Clothes

Tradition, custom, inclination—all unite to make Easter a time for re-toggling; a season for newness in clothes.

And we have made it a point to have our stocks as fine as you could want them for the occasion.

You'll find that our clothes bear a famous name:

Styleplus

---a name never associated with anything but guaranteed quality, authoritative style and exceptional value

And because things are different this season from last, you won't have to spend a fortune to get such clothes. We've some really rare values to show you at **\$25, \$30, \$35, \$40.**

HOW ABOUT GETTING FIXED UP EARLY THIS YEAR?

Among those who attended the church social at the Methodist church Wednesday evening from Newcastle were Mr. and Mrs. Harrell, Miss Mattie Carpenter, Mr. and Mrs. Remington, Mr. and Mrs. Gilliland, Mrs. Jess Wason, Misses Sarah and Leah Cochran and Rev. Bowman.

HINSON BUYS INTEREST IN ABSTRACT BUSINESS

C. W. (Lum) Hinson, for six years county clerk of Young county and one of our most widely known citizens, has resigned his position with the Graham National Bank to become associated with Marshall & King in the abstract business. Mr. Hinson was, prior to becoming county clerk, surveyor of Young county, and the experience he gained while in these official positions has qualified him well for the business he is now entering.

Mr. Hinson is a very popular young business man and will, no doubt, be as successful in his new work as he was as a county official and a bank employee.

Mrs. May McKinney and daughter, Louise, and Miss Frieda Flint of Dallas are in the city today visiting relatives and friends.

First class Cafe for sale, doing good business. Inquire of FELIX WRY, Graham Leader. 11-16

NOTICE OF HEARING TO APPROPRIATE PUBLIC WATERS OF THE STATE OF TEXAS No. 556

Notice is hereby given, to whom concerned, that William J. Collier, the postoffice address of whom is Fort Worth, Texas, did on the 21st day of February, A. D. 1921, file his application in the office of the Board of Water Engineers for the State of Texas, in which he applies for a permit to appropriate of the unappropriated waters of the State of Texas from the Clear Fork of the Brazos River, in Young county, Texas, sufficient water for public water works for the town of South Bend, Texas, and for oil well drilling purpose in the vicinity of South Bend, to be impounded in a reservoir created by the construction of a dam, and diverted by means of a pumping plant, said dam to be located at a point which bears S. 57-34 degrees W. 705 feet from the S. E. corner of T. E. & L. Co. Survey, number 1015, on the south bank of the Clear Fork of the Brazos in a southerly direction from Graham, ten miles.

You are hereby further notified that the said William J. Collier is to construct a dam of stone and concrete, 6 feet in height, 163 feet in length, having a top width of 30 inches and a bottom width of 180 feet, length of impounded water three miles, average depth of stored water 4 feet, having a storage capacity of 266 acre-feet, and to divert therefrom not to exceed 3000 acre-feet of water per annum for the purposes herein stated.

A hearing on the application of the said William J. Collier will be held by the Board of Water Engineers for the State of Texas, in the office of the Board at Austin, Texas, on Monday, April 4, A. D. 1921, beginning at ten o'clock a. m., at which time and place all parties interested may appear and be heard. Such hearing will be continued from time to time, and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

Given under and by virtue of an order of the Board of Water Engineers for the State of Texas, (L. S.) at the office of the said Board, in Austin, Texas, this 24 day of February A. D. 1921.

W. T. POTTER,
C. S. CLARK,
JNO. A. NORRIS,
Board of Water Engineers.
Attest—A. W. McDONALD, Secy.

UNITED STATES CIVIL SERVICE EXAMINATIONS

An open competitive examination under the rules of the U. S. Civil Service Commission for the position of Clerk, in the postoffice of Graham, Texas, will be held April 9, 1921, commencing at 9 o'clock a. m.

Applications for this examination must be made on the prescribed form, which with necessary instructions, may be obtained from the Commission's local representative, Postmaster, at the Graham, Texas, postoffice, or from the undersigned.

All persons wishing to take this examination should secure blanks and file their applications with the undersigned at once in order to allow time for any necessary corrections and to arrange for the examination.

This is the Stove Polish YOU Should Use

ITS different from others because more care is taken in the making and the materials used are of higher grade

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

All we ask is trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money in full or paste-one quality.

Made in liquid or paste—one quality.

Black Silk Stove Polish Works
Sterling, Illinois

Use Black Silk Air-Drying Iron Enamel on grates, registers, stove pipes—prevents rusting.

Use Black Silk Metal Polish for silver, nickel or brass. It has no equal for even automobile wheels.

A Shine in Every Drop

SHERIFF'S SALE

The State of Texas, County of Young

Notice is hereby given that by virtue of an certain Execution issued out of the Honorable Justice Court of Grayson County, of the 15th day of February, 1921, by H. D. Cumby, Justice of the Peace of said Grayson County, Texas, for the sum of Forty-One and 45-100 Dollars and costs of suit, under a judgment, in favor of A. B. Richards Medicine Co. in a certain cause in said Court, No. 477-R and styled A. B. Richards Medicine Co. vs. A. G. Love, placed in my hands for service, I, John W. Saye, as Sheriff of Young County, Texas, did on the 9th day of March, 1921, levy on certain Real Estate, situated in Young County, Texas, described as follows, to-wit: Lot No. 15 in Block No. 4 in Scott's Addition to the Town of South Bend, Texas, and levied upon as the property of A. G. Love and that on the first Tuesday in April, 1921, the same being the 5th day of said month at the court house door of Young County, in the Town of Graham, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Execution I will sell above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said A. G. Love.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in The Graham Leader, a newspaper published in Young County.

Witness my hand, this 12th day of March 1921.

JOHN W. SAYE,
Sheriff Young County, Texas.

BUILDING BRANDED UNFIT TO HOUSE HUMAN BEINGS

(Continued from first page.)

been brought to our attention of gambling houses being conducted in the county.

We find that the liquor law has been violated and we have returned into court indictments where we have had sufficient evidence upon which to base an indictment.

We wish to thank the Sheriff and the bailiffs and the County and District Attorneys for the services rendered us in our investigation.

Our labors being completed, we now ask to be adjourned.
