### LEAVING IT TO CHANCE

Wheels of chance have been placed on the tables of an ice cream and soda water establishment in New York City for the benefit of those who are afflicted with indecision. The names of the drinks and confections served appear on the wheel. If you do not know precisely what you want and have trouble in choosing from among the various favors and specialties you give the wheel a spin and let chance decide for you.

The proprietor says he was led to install the wheels by the fact that so many customers were unable to make up their minds promptly as to what they would order. They vacillated between this and that; one thing would no sooner catch their fancy than they would be attracted by something else.

It is a common fallacy, and a deplorable one. How comfortable it would be for all such if they never had to make up their minds, but could leave every decision to the caprice of chance with the assurance that its choice would be as satisfactory as that made by the soda wheel.

The persons who make their mark in the world are those who are able to decide for themselves. The ability to reach a decision promptly after all the facts are at hand is one of the conspicuous characteristics of those who achieve greatness.

FARMERS NATIVE BORN The return of foreign-born residents to the places of their nativity in the last decade appears to have extended to farmers also, since the census returns show that the number of foreign-born farmers decreased by 88,262 or 13.2 per cent.

FATHER AND SON Be more than his dad; Be a chum to the lad; Be a part of his life; Every hour of the day; Find time to talk with him.

You can inspire him With courage, and fire him; Hot with ambition; For deeds that are good; He'll not betray you; Nor ill repay you; If you have taught him; The things that you should.

Calendar reformers who want to have 13 months of 28 days each are suspected of being paid by the month.

### UNCLE SAM'S GIANT WIRELESS

At Greenbury Point, near Annapolis, Maryland, is located the great high-power radio station, owned and operated by Uncle Sam.

The energy by which the station is operated is obtained from a nearby power plant—a suitable operating building, power-transformer house, quarters for the maintaining and operating forces, store house for repair materials and other necessary equipment having been erected at an advantageous and adjacent location.

The far-reaching importance of this miracle-like station which performs the seemingly impossible comes home to one when he understands that it successfully handles radio traffic direct with France, Italy, Germany, Norway, other radio stations in this country and its outlying possessions and all U. S. Navy and all properly equipped merchant and other vessels, no matter in what far away part of the world they may be located.

President Harding and his cabinet are welcome to the task of directing the affairs of this nation. The strenuous incident to publishing the Leader, together with the work of printing other publications and keeping a job department going while the mercury is ascending to dizzy heights, is enough to satisfy the publishers of this paper.

### THE PYRAMIDS

A group of mounds, about seventy in number, located in southwestern Illinois, not a great distance from St. Louis, comprise what is said to be the largest remaining work of the aborigines north of Old Mexico.

Whence came these Mound Builders, how long they remained and whether they went, history seems not to record. Scientists have failed to establish the definite period of time which their construction represents. That these monuments of prehistoric man directly connects us with a vanished people of whose history we know little or nothing there is, of course, no question.

It is thought by some that the so-called missions of California, many of which are falling into decay, are as infants compared with these ancient piles of earth which stand in mute evidence of the fact that, years before modern civilization, this section was the seat of an empire of a most primitive race.

The greatest of these mounds is known, locally, as Monk's mound (legend has it that a colony of Trappist monks once lived upon it.) It is more than 100 feet high, covers sixteen acres and, it is believed, must have required 3,000 men two years to build.

FATHER AND SON Be more than his dad; Be a chum to the lad; Be a part of his life; Every hour of the day; Find time to talk with him. Take time to walk with him, Take time to walk with him, Share in his studies And share in his play. Take him to places, To ball games and races, Teach him the things That you want him to know; Don't live apart from him, "Don't keep your heart from him, Be his best comrade, He's needing you so!

You can inspire him With courage, and fire him; Hot with ambition; For deeds that are good; He'll not betray you; Nor ill repay you; If you have taught him; The things that you should. Father and son, Should in all things be one; Partners in trouble And comrades in joy, More than a Dad Was the best pal you had, Be such a chum As you should to your boy.

### PET SNAKE PROTECT

HOME, SAYS EDITOR M'dletown, N. Y.—Have you a little snake in your home? They make fine watchdogs and pets for the children, according to Editor William Hones, who runs a country newspaper and is known as Theodore's Roosevelt's double.

He says the snake is one of man's best friends and should be in every home. Snakes destroy rats, mice and other pests, he declares, purge the house walls of infections and protect the sleeping household. Theda Bara now is reported as being a bride. After vamping all over the screen and twitting shadow men around her finger, she is the wife of her manager, rumor says.

With John D. Rockefeller playing golf on his eight-second birthday, the term "ancient game" assumes a double meaning.

President Harding has been initiated into the Improved Order of Red Men. Customary photographs will appear in a few days.

On the other hand, will there ever be peace in these prohibition times while there stands a line fence with grapes growing on it?

### STATE'S SURPLUS DROPS 5 MILLION DOLLARS IN YEAR

Austin, July 20.—There will be a surplus in the State Treasury to the credit of general revenue of \$549,000 on Sept 1 next, as against \$5,336,000 on September 1 of last year. This condition was developed today at a conference between State Treasurer John W. Baker, Comptroller Lon A. A. Smith and members of the State Board of Control. It will be communicated to the Senate Finance and House Appropriations Committees tomorrow for their guidance in building the general appropriation bills for consideration at the coming special session of the Legislature. Likewise, it will be accepted by the State Automatic Tax Board as one of the units of calculation in making the State tax rates his year.

It is this difference of nearly \$5,000,000 which has been worrying the Governor and causing him to confer with business men and others in an effort to find some sources of revenue to make up the deficiency ahead. It also compels the Governor to cast about for new sources of taxation to be imposed by the special session to meet the situation and maintain the State on a cash basis.

With the appropriation committees meeting here tomorrow, it is generally accepted that pruning will be the order of things and that many appropriations will be trimmed and quite a few eliminated.

### Bride Held For Enticing Minor

Texarkana, July 18.—Twenty-year-old Bertha Raines married Defee Hightower, 14, and is spending her honeymoon alone and facing a charge of "enticing a minor."

The couple went across to Arkansas and upon the affidavit of Defee that each was 21, obtained a marriage license and were married.

The bridegroom was received with open arms by members of his family upon his return to Texas and forced to stay at his home. Young Hightower shut himself in the bath room and turned on the gas, but a tragic end was frustrated when his parents interfered. He was not injured.

Later the bride was arrested on a warrant sworn out by the bridegroom's mother charging her with "enticing a minor." She gave bond for her appearance next Thursday.

Parents of the boy declared he became acquainted with Bertha three months ago and immediately quit school where he was in the sixth grade.

County Attorney Henry declared the marriage is null and void because of the age of the bridegroom.

### Galveston Leads In Wheat Exports

Galveston, July 19.—Galveston led all ports of the United States in wheat exports during the fiscal year just closed, according to figures announced by the Galveston Cotton Exchange and Board of Trade here today.

Including the support of Texas City, this port shipped more wheat than any two ports on the Atlantic coast, a total of 86,645,551 bushels being lifted by ocean going vessels.

Exportation of wheat from leading Atlantic coast ports, it was announced, are as follows:

New York, 51,517,000 bushels; Baltimore, 32,897,396 bushels; Philadelphia, 22,475,264 bushels, and Boston, 3,592,571 bushels.

### CIGARETTE SMOKING WITH ITS EFFECTS ON IMMATURE YOUTH

An effort has been made to ascertain from those who have given the subject much thought the effect cigarette smoking has upon the youth of our land. A questionnaire was sent to juvenile court judges in as many states as follows:

"Dear Sir:—There have been a good many unsupported statements made as to the effect of cigarette-smoking on juvenile crime, truancy, etc. Have you any definite information that you could give us in this connection? If not, we would be very glad to have a statement of opinion. The truth one way or the other ought to be known."

To this questionnaire we received 140 replies. Of this number 44 seem to have a positive opinion that the use of cigarettes by minors is a direct cause of juvenile crime. Some of these replies are slightly infinite but must be classified with those speaking in a very positive way. Of the remaining, 4 do not believe that the use of tobacco has any effect whatever upon the prevalence of juvenile crime, while the remainder seem to occupy a middle ground. They point out indirect results of tobacco use by minors, such as the effect on health, with a reflex on the general moral character. Some believe it to be an effect not a cause, some an evidence of lack of parental control which results in juvenile crime; some speak of the effect on school work with the indirect result of truancy and appearance in juvenile courts. With all of this there is a great deal of unasked but exceedingly valuable information as to juvenile delinquency and its causes in general. Practically every one expresses an emphatic opinion as to the deleterious effect of tobacco on the health of youths, whatever the opinion as to the bad moral effect may be.

Some of the men and women who have to deal with the misdoings of children and youths not only believe that tobacco is a direct cause of crime among them but express themselves with great warmth upon the subject. Several opinions follow: "Every male juvenile delinquent brought before me for the last seven years has been addicted to cigarette smoking," says Judge Allen, of Lisbon, North Dakota.

The Superintendent of Public Welfare, Mr. Odie B. Hinnant, of Wilmington, North Carolina, finds that 98 per cent of the boys in the State Reformatory have been cigarette smokers and that scarcely ever does a boy appear before the Juvenile Court who is not a smoker.

"At least 70 per cent of the minors who are tried in my court for crime are cigarette smokers. The cigarette smoker and the dope fiend go hand in hand," writes Judge R. W. Wells, of Asheville, North Carolina.

Judge John B. Kates, of Camden, New Jersey, believes that while cigarette smoking is involved in the delinquency of juveniles it is only an incidental factor. He calls attention especially to the influences of parentage, lack of training and education, poor food, poor surroundings and vicious forms of amusement with which he finds cigarette smoking associated.

"There have been a number of cases of 'breaking and entering' in this court which involve the taking of cigarettes and tobacco," writes Probation Officer Roger F. Keleher, who says that the morals of cigarette-smoking youths are much lower than of the non-smokers requiring his attention.

### TEXAS CARES FOR 10,922 INMATES IN 15 INSTITUTIONS

Austin, July 19.—Texas has in all sixteen eleemosynary institutions. They are as follows: The Confederate Home, Confederate's Woman's Home, School for Deaf, Dumb and Blind Negroes, Colony for the Feeble-minded, State Lunatic Asylum, School for the Blind and the Texas School for the Deaf and Dumb, all located at Austin; the East Texas Hospital for the Insane at Rusk; Girls' Training School at Gainesville, Home for Crippled and Deformed Children at Galveston, Juvenile Training School at Gatesville, North Texas Hospital for the Insane at Terrell, Southwestern Insane Asylum at San Antonio, State Epileptic Colony at Abilene, State Orphans' Home at Corsicana, Tuberculosis Sanatorium at Carlsbad.

The State has worked out a scheme of admission to these various institutions that is very efficient.

In all the State of Texas will spend about \$2,633,114 this year for the care of defectives.

Practically all of these State institutions have their dairies, gardens and truck farms, which are tended by the inmates. All the products from these adjuncts are used by the institutions, hereby saving the State a considerable sum of money. The Blind Institute students make brooms which are supplied to the State.

### BOY SCOUTS FIND STRANGE CABIN IN COLORADO HILLS

Colorado Springs, July 11.—The finding of an old prospector's cabin, far up in the hills from Colorado Springs, is the subject of much speculation among mining men here. The cabin, apparently deserted for several years, was elaborately furnished. Heavy oak furniture, with bison and bear skins were scattered about the big living room. Deer heads and the heads of mountain sheep decorated the walls, and in one of the adjoining rooms was found a decaying canvas sack half filled with gold dust.

The cabin was six miles from railroad or wagon road and the ownership is a matter of conjecture. No trace was found of human beings in the vicinity of the cabin and local men are unable to determine how the furniture and fittings of the cabin were ever brought to the spot where the cabin was located.

Local furniture men declare that the fittings of the cabin are worth at least \$6,000.

The cabin was discovered by two Boy Scouts who were on a hiking expedition over July 4.

D. A. Padgett of Childress returned last week to his home after a brief visit to his mother who has been sick several weeks.

## Drink Question Solved

The TEST of this popular drink is that the people like it—furthermore it is wholesome and nourishing.

NOT A "NEAR BEER"

The distinction is not generally understood; a "near beer" is a product of arrested fermentation—it is only half-made and lacks the invigorating punch and the delightful and snappy flavor of—

# MINNEHAHA PALE

MINNEHAHA is a SCIENTIFIC product based upon knowledge developed since the World War cut off the old-fashioned beer.

The DRINK QUESTION was solved by the stupendous equipment shown herewith—

## a 5 story machine

Let us explain: MINNEHAHA is a finished product—thoroughly fermented—a real Lagered drink—brewed twice as rich as old style brew.

What this equipment does: With our continuous operation vacuum process we only reduce the alcohol; so the heavy character, aroma, flavor and nutritious qualities are not disturbed.

This patent process in finishing our MINNEHAHA has solved the Drink Question for millions of people. It will do the same for you.

### SUPREME FLOUR—The People's Choice

Don't be fooled—people are no longer spending money on chances. To use a flour that you have never used before during this season of the year not knowing whether it is ground from old or new wheat may cause you days of worry, and nights full of fear, but if you want to be safe and without troubles as all those who use Supreme at this particular season of the year and know our method of using nothing but old wheat until the new is well seasoned, then buy SUPREME FLOUR and eliminate all chances. People who are tired of taking chances are using SUPREME FLOUR because of its unflinching uniformity.

### BATES-SNODDY

One of the most interesting weddings of the season was that of Miss Clara Bates, daughter of Mrs. William Bates, to Mr. Milton S. Snoddy of Graham, Texas, which took place on last Thursday evening, June 30, at 9 o'clock at the beautiful new home of the bride's mother. The ring ceremony was performed by Rev. Russell C. White, pastor of the First Baptist church of this city.

Prior to the ceremony, Miss Mary Beth Bugg sweetly sang "I Love You Truly," accompanied on the piano by Mrs. W. W. Brown, who was assisted by Miss Kathryn Ruth Brown on the violin. Mrs. Brown and Miss Brown played Mendelssohn's wedding march as the bridal party entered the drawing room. The ceremony was performed before an altar of ferns and baskets of Shasta daisies tied with maline bows. Roses and ferns were used in decorating the reception rooms, and a garland entwined the stairway with baskets of daisies on each newel post.

The bridesmaids were: Misses Kathryn Bates, who wore a peach blow organdy frock with an arm bouquet of white hydrangea and pink rosebuds and Miss Nona Mae Bates wore a lavender frock and carried an arm bouquet of lavender hydrangea and white rosebuds. Miss Ruby Bates was maid of honor. She wore a Nile green organdy frock and carried pink carnations. The maids are sisters of the bride. Little Misses Dorothy Gilpin and Mary Lois Anglin, cousins of the bride, were the flower girls and wore pink and blue organdy frocks. Mr. Jacob Welch, also a cousin of the bride, was groomsmen. The bride's dress was of white chantilly lace over white satin and embroidered in pearls and roses. Her flowers were bride's roses and lilies of the valley.

An informal reception followed the ceremony; Mrs. William Bates was assisted by Miss Sallie Welch and Miss Minnie Morris. Mrs. W. F. Batchelor had charge of the bride's book and Mrs. Will Welch presided at the punch bowl.

Mr. and Mrs. Snoddy left immediately after the reception for their wedding trip to Galveston and other interesting points. They will be at home in Graham, Texas, after July 10th.

The bride's going away costume was champagne tricotone suit, champagne picture hat with a touch of blue, brown gloves, slippers and accessories.—Contributed.

### WHEN A MAN HAS A JOB AND WORKS AT IT

No one need be afraid of a man who has a job and works at it. He is a good, safe and sane citizen. It is because of the truth of this statement that the Southwest need not cause any other section of the country to worry about it. The leading industries of the Southwest are agriculture and livestock and farmers make up a goodly portion of our population. These citizens all have jobs and they are not neglecting them. That is the reason that the Southwest will be the first to recover from deflation ills and be riding the waves of prosperity by early fall. As a matter of fact, the income from the many resources of revenue of thousands of dollars of debts and will continue to pay debts and buy necessities until the major crops are marketed.

The crops of the Southwest are being produced at less cost per acre than for many years. Farmers are no longer spending their time bossing high priced labor and hauling them back and forth from town. Farmers are working and doing better work than any hired hand they ever paid good money to. As a result the fields are cleaner and there will be raised more per acre of better quality than the average. Steady, intelligent work has pulled the Southwest out of the trough of despondency, and the same kind of work is going to make it possible for our producers to register another profitable year.

### PUBLIC DANCE HALLS CAUSE GIRLS TO ERR, JUDGE SAYS

Fort Worth, July 19.—A vigorous attack on unregulated dance halls was made at the regular meeting of the Civitan Club today at noon by County Judge Hugh L. Small. Judge Small declared that practically all erring girls who have come under his supervision during the last few months have been products of public dance halls.

He declared that unless dance halls are operated with regard to the law and are properly supervised they are a menace to public morals and the lives of young girls.

Judge Small deplored the existence in Tarrant county of a Ku Klux Klan and urged faithful law enforcement and "a clean standard lived up to."

Mrs. May McKinney of Dallas visited relatives in Graham last week.

### WEATHERFORD MAN HAS PRIZE TOMATO

Weatherford, July 14.—Dr. W. A. Heartsill, of this city, is claiming the championship on tomato growing, having on display in his office a

tomato weighing 23 3-4 ounces, approximately one and three-fourths pounds. The tomato was grown in his garden and is perfect in every respect. The same stalk contained ten other tomatoes weighing between one and one-half pounds.

### POLA NEGRI NOT "VAMP" BUT RE-CREATOR OF WOMEN

The art of "vamping," practiced throughout the ages, and still in vogue, has probably been developed to a higher degree than any other art.

So far as records indicate, Eve takes the apple as the first "vamp," and since her time vamping has spread to all corners of the globe.

Vamping has been more generally advertised in the last few years, but it has never been more artistically done than in past centuries. Cleopatra of the Nile had a pagan appeal. Catharine of Russia stepped across social boundaries, and history records no man able to resist her wiles. The winning way of Marie Antoinette set other standards with royalty as her victims.

In a degree, the influence of a Spanish dragoon, a nobleman and a famous bullfighter is said to be no more graphically described than by Pola Negri in "Gypsy Blood," the First National special production, adapted from Prosper Merimee's original French story, "Carmen," which will be shown at the National Theatre on Saturday, July 23.

Mlle. Negri, according to advance reports, has been given a most elaborately and artistically produced vehicle, rivalling, if not outdoing, "Passion," the screen sensation in which she made her debut on the American screen. More interesting, perhaps, than the impression gained from the magnificence of production is the unique appeal which Pola Negri, as La Carmencita, has to women. The becoming grace with which she imbues the alluring gypsy is rivaled only by the display of her beauty, her vivacious spirit, and the natural gaiety of a young and tantalizing girl. Her portrayal in "Gypsy Blood," as well as in "Passion," put a different and truer light upon women whose beauty and whose exploits live through history.

### MARRIAGE LICENSES

E. S. Crouch and Miss Edith Caudill.  
M. D. Smith and Miss Hettie R'ke.  
S. L. Baldwin and Miss Mattie Orr.

Lark B. McClary and Miss Etta Luella Morgan.  
Sam Walker and Mrs. Mable Clark.

W. P. Scraper and Miss Anna Keener.

I. T. Lawrence and Miss Lucile Cook.

### ANTI-NEPOTISM LAW AFFECTS TEACHERS

From our exchanges we have noticed a number of articles in reference to the anti-nepotism law, and how it affects school teachers or others. This is a State law and has been in effect for a number of years, but because of its complexity as to how relationship exists, we reproduce the following simple explanation, taken from the McKinney Examiner, the same being an excerpt from a public letter sent out by the County Superintendent of Collin county:

"The Anti-Nepotism Law. This law provides that no person may be employed in the schools, who is related to any member of the school board, within the second degree by affinity and within the third degree by consanguinity. Within the second degree by affinity (marriage) and within the third degree by consanguinity, (blood).

"A man's wife is related in the same degrees by affinity that the man himself is related by consanguinity, and vice versa.  
"A man is related in the first degree to his father, in the second degree to his grandfather, and third degree to his great-grandfather, and so on ascending. He is related within the first degree to his son, second degree to his grandson, and so on descending, this is what is meant by lineal consanguinity or kinship.

"We trace the parties involved, to a common ancestor, and then begin with such common ancestor, and hunt downwards until the degree of the second persons as the most remote of them is found. For instance two brothers are related to each other in the first degree, because they are each within one degree of the father. The nephew is related to an uncle within the second degree because the nephew is two degrees removed from the common ancestor. First cousins are related to each other in the second degree, because each is two degrees removed from the common ancestor. Parties related as second cousins are within the third degree, because the most remote is removed from the common ancestor. It is therefore considered a violation of the law to employ a person within these relations."

The four boys from South Bend, who were charged with ransacking the Upper Tonk school house recently, were tried in the County Court last Thursday but the jury failed to agree.

For office furniture at the lowest possible price, see Barrow Furniture Co. before close of Sale July 30. 47c

Raymond Leslie of Eliasville was a business visitor in Graham last Saturday. He says Eliasville people are planning big times when the new railroad reaches the city.

Mrs. J. A. Mayes and son, R. J. of Dallas are in Graham this week visiting her father J. L. Flint.

Mrs. C. P. Hart and little daughter, Mavis Thayne, of West Lafayette, Ohio, are here visiting relatives and friends. Mrs. Hart was formerly Neweta Flint.

**SILK DRESSES HALF PRICE**  
Beautiful Silk Dresses in Canton Crepe, Taffeta and Crepe de Chene on sale at final clearance prices—half price.  
STREET & CO.

Willie Riggs and family accompanied by his father made an automobile trip to Big Springs, Post and Aspermont. They camped out every night while on the road. Up around the Post country Will'e said one blanket would get light before morning.

Mrs. A. E. Outman, who has been visiting in East Texas, returned Friday night. Mr. Outman met her here and they returned to their home near Loving the following day. They called at the Leader office while in Graham.

M. A. Wallace and family, T. E. Wallace, Mr. and Mrs. Bill Johnson, and Mr. and Mrs. Archie Corbett returned Monday from a visit to Oklahoma. The party visited Medicine Park on their trip and saw the Graham party that went to the Park two weeks ago.

The negro church building near Oak Grove cemetery was blown from its foundation recently. The building had not been completed. The pastor is somewhat discouraged but hopes to place the structure back on the foundation and complete it as soon as funds can be raised.

Miss Nona G. Akard, who taught music in Graham last session is attending the New England Conservatory of Music at Boston this summer. She is specializing in piano, violin and pipe organ. She will return to resume her work in Graham in September.

Price Beach was appointed custodian of the courthouse and grounds by the Commissioners' Court last week. Mr. Beach is a faithful worker and the Court thinks that the building and grounds will be properly kept under his direction. Graham boasts of a beautiful courtyard and is anxious to see it kept in order.

Mrs. J. A. Allen is able to be out again after having been confined to her room for two weeks on account of illness. Mr. Allen is tired of the job of cooking and says he is glad for her to resume the housekeeping job.

Good to best all Cotton Mattress \$4.50 to \$25.00 at Barrow's Clearance Sale. 47c

Miss Minnie Rubenkoenig left last week for a visit to her brother in Indiana. She will visit many cities while away.

If you want Floor Coverings of any kind go to Barrow's Clearance Sale and buy at the right price. 47c

Remember Barrow's Mid-Summer Clearance Sale closes July 30. Be sure to visit their store and buy your Furniture needs before that date. 47c

Mike McNamara returned Tuesday from a trip to Austin, San Antonio and Waco. His friends thought he was on a vacation but Mr. McNamara says that there is not much vacation for an oil and gas inspector.

See the most up-to-date line of Bed Room and Living Room Furniture in Young county at BARROW FURNITURE CO. at extremely low prices during their Clearance Sale. 47c

**TEACHERS' QUESTIONS BOUGHT, IS CHARGE**

San Antonio, July 16.—Sub poenas calling numerous negroes to a hearing have been issued out of the office of Justice of the Peace R. Neill Campbell for a probe of recent teachers' examinations held in San Antonio.

One negro said she paid \$25 for a set of questions and answers. Others paid \$50 and said "they were worth the price," it is alleged.

Evidence is in possession of authorities that San Antonio is a clearing house for the sale of questions and answers.

It is reported no white applicants for teachers' certificates were involved here, but that white applicants were involved elsewhere.

**Coal Miners and Workers Disagree**

Fort Worth, July 18.—Coal miners of Texas today rejected the proposed wage reduction of the operators and the conference of miners and operators adjourned with the resumption of coal mining in the state an improbability.

The operators who were the Texas and Pacific Coal and Oil Company, the Strawn Coal Company, Bridgeport Coal Company and Belknap Coal Company, proposed a reduction of wages from \$2.65 a ton to \$2 a ton for miners and from \$7.50 to \$5 a day for day labor. The rejection of the terms, the operators said, would keep the mines closed as the cost of operation was prohibitive.

**FITTS ELECTED POLICE CHIEF AT WICHITA FALLS**

Wichita Falls, July 16.—J. B. Fitts was elected Police Commissioner in a special election today, polling a total of 964 votes to the 803 of W. G. Braley.

Bralley, the incumbent, was re-elected in the regular city elections in May, but his opponent, George Hoggins, contested the election on the grounds that most of the ballots were not signed by the election judges. His contention was upheld by the District Judge and the election was declared null. In the runoff Hoggins withdrew and Fitts became a candidate.

**EPWORTH LEAGUE PROGRAM**

For July 24, 1921.  
Leader, Grace Stewart.  
Subject, "The Perils of Worldliness."

Benediction.

**MUNICIPAL WATER ANALYSIS**

Mr. J. P. Tackett, Supt. City Water Works, Graham, Texas.  
Dear Sir:  
We are pleased to report result of specimens submitted July 8th, 1921, gave the following results:  
Creek Water (our L.630a) gave positive proof for B. Coll.  
Filtered (our L. 631a) gave negative proof for B. Coll.

Very truly yours,  
MNTON M. CARRICK,  
State Health Officer.

The good features of all machines are combined in the new Woodstock at The Leader office. nc

**A. AND M. COLLEGE SENDS OUT MANY USEFUL BULLETINS**

The Agricultural and Mechanical College sends out many valuable bulletins. The Leader is in receipt of two that ought to prove of value to farmers. The college will be glad to send these and other bulletins to anyone sufficiently interested to write for them. The bulletins just received are: "Management of Chickens on the Farm" and "Dusting Cotton for the Control of the Boll Weevil."

Every farmer has chickens on the farm but very few give them much attention. To be successful in the chicken industry on the farm, the farmer must give his chickens some attention. The bulletin mentioned above gives much useful information on the care, feeding and housing of chickens.

The second bulletin treats of a subject which is vital to the farmer at this time as there is much complaint about the ravages of the boll weevil.

A card addressed to B. Youngblood, College Station, Texas giving the names of the bulletins wanted will bring them to any one interested.

**Many View Mirage From Store Window**

Some time ago it was stated in the Leader that W. A. Stewart by looking through the show window at the John E. Morrison Company store where he is employed, could see strange buildings, etc., on the mountain west of town. W. J. A. Cooper, C. C. Johnson and others verified statements. Early one morning last week while the reporter was passing the store Mr. Stewart called his attention to the mirage. The reporter now adds his name to the long list who substantiate Mr. Stewart's statement several weeks ago.

No one has been able to solve the mystery as to the buildings and smokestacks. Some of the buildings in Graham are reflected but the reporter could not settle in his mind the particular group reflected.

I wish to announce to our many friends and customers that on the 16th day of this month, I sold my interest in the partnership heretofore existing by and between E. E. Earp and C. A. Glass, doing business under the name of Earp-Glass Music Co. of Graham, Texas, to E. E. Earp. Mr. Earp taking over all accounts due the firm and assuming all obligations of said firm. Mr. Earp will continue the business under the name of Earp Music Co. 47c (Signed) C. A. GLASS.

**YOUNG PEOPLE ENJOY PICNIC ON DRY CREEK**

The B. Y. P. U. enjoyed a picnic last Thursday evening. Thirty or more young people gathered at the Baptist church about seven o'clock and went in cars to Dry creek bridge about two miles south of the city.

Soon after arriving at the creek the happy crowd enjoyed the dinner the young ladies had prepared. Various games were played and all present had a general good time. These outings are enjoyed by the young people as a necessary part of the social life.

## HALF BILLION DUE RAILROADS SAYS MELLON

Washington, July 18.—The United States will have to pay approximately \$500,000,000 to the American railroads in addition to the moneys already paid as a result of Government control during the war, Secretary of the Treasury Mellon said today.

The secretary stated he might find it necessary to ask Congress for an additional appropriation of \$300,000,000 to meet the claims of the railroads.

The money which is yet to be paid to the railroads is chiefly for claims of various sorts and is in addition to the guaranty money and reimbursements which have already been appropriated for.

## \$17,000 Heart Balm For 22 Year Wait

Lincoln, Neb., July 18.—Miss Jennie Fellers, 40 years of age, of Humboldt, Neb., today was awarded \$17,000 damages in her suit for breach of promise against Henry Howe, 45, also of Humboldt, by the state supreme court. Mrs Fellers claimed she had waited twenty-two years on Howe on his promise to marry her.

The ability to look the other fellow squarely in the eye is as necessary to success as a rudder to a ship. A hollow laugh is superficial—without basis for real joy.

While thousands see Opportunity busy in their neighborhood, they fail to hear him when he agitates the communicator on their own door. A jinx is after the slow pokes; the fates pursue him surely.

## NEGLECTED FEET

If you are troubled with tired, aching feet—don't delay a visit to our Foot Specialist. Let him demonstrate to you

**Dr. Scholl's**  
Foot Comfort Appliances

and show you how in most instances he can at very small cost banish all foot discomfort—broken down aching arches, foot pains, corns, bunions and callouses.

Dr. Scholl's Foot Easer eases the feet and gives immediate relief. Supports the arch springily. Light and comfortable. May be worn in your regular shoes.

**Young County  
Hdw. & Furn. Co**

THE WINCHESTER STORE

## News Notes From Sheriff's Office

Tex Glenn and Will Bishop were brought here last week by Deputy Sheriff J. D. West, of Olney and lodged in the Young county jail charged with breaking into the J. P. Alexander and Company's store at Olney several weeks ago. The boys were wearing some of the clothes taken from the store. They claim they bought the clothes from a man before leaving Olney immediately after the store was burglarized.

Deputy Sheriff A. A. Graves took the boys to Fort Worth and placed them in the Tarrant county jail.

The sheriff's department received a telegram last week from J. C. Gunning, Chief of Detectives, Dallas, Texas stating that E. C. H. Oxford had been arrested there and transferred to the Tarrant county jail. Oxford was wanted in Graham on the charge of theft. He flew around Graham several weeks ago in an airplane. He first gave W. J. McKinney a bad check which he let pass as the amount was small. Later he was in the city without funds, according to reports, and McKinney took him to his room to spend the night. The next morning after McKinney had gone to his place of business Oxford returned to the room and took a suit of clothes, more than \$50.00 in money and some papers.

This was reported to the local officers with the result that Oxford was soon landed in jail. He was later brought to Graham and made bond.

## Bank Commissioner Talks Common Sense

Commissioner of Insurance and Banking, Edward Hall, turned a machine gun on the people of Ranger when he said, speaking of a recent run on a local bank, "every dollar of non-interest bearing and unsecured deposits of the Guaranty Bank will be paid depositors. If you people insist on destroying your banks by an unreasonable lack of confidence and by making demands that no bank can meet, you cannot expect the State Banking Department to grant a charter for another bank in Ranger. The State Banking Board has now \$2,500,000 to pay depositors and is collecting assessments from something more than 1,000 state banks in the State of Texas." This should be a lesson to depositors everywhere who are unreasonable. When they destroy their banks by their cowardice or their timidity, they destroy themselves, their business prosperity, their industry and their community. Now is the time for men to sit steady in the boat. Now is the time for men to guard their tongues, to throttle news-monger gossips and to discountenance at all times malicious or malicious manufacturers of stories which reflect on their fellows or the institutions of their cities and towns. Regardless of the pessimist, there is an upward trend and conditions are much more encouraging than they were ninety days ago.

## COW WITH RABIES BITES MAN ON HAND

Sherman, July 18.—A cow on the farm of P. J. Francis, well known Grayson county farmer of the Celtic community, developed a disease or condition pronounced by Dr. J. C. Wilson, County Veterinarian, as rabies, Thursday afternoon and after chasing various members of the family around a pasture and into a tree, died.

Dr. Wilson said that he was called to the farm to treat the cow and found it acting in a strange manner. When he went into the pasture in company with Mr. Francis the cow immediately lowered her head and and Mr. Francis succeeded in reaching a tree, which they climbed, but not before the cow had bitten Mr. Francis on one hand. The latter came to Sherman Thursday night and took the Pasteur treatment at a local sanitarium.

The cow had been a family milk cow and Mr. Francis was unaware that anything was the matter with the animal until milking time Thursday night when he first noticed queer actions on the part of the animal.

Clarksville, July 18 J. J. Kennedy, and family and Jim Jarrett, who live east of Clarksville, left for the Pasteur Institute at Austin today for treatment following the disclosure that they had used milk from a cow afflicted with hydrophobia.

D. M. Porterfield and family of Sherman passed through Graham this week. Mr. Porterfield worked for Eddleman Brothers two years ago.

## CITATION BY PUBLICATION THE STATE OF TEXAS

To the Sheriff or any Constable of Young County—Greeting:  
**YOU ARE HERBY COMMANDED** to summon B. F. Crenshaw, whose residence to plaintiff is unknown by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Young County, to be holden at the Court House thereof, in Graham, on the First Monday in September A. D. 1921, the same being the 5th day of September A. D. 1921, then and there to answer a petition filed in said Court on the 21st day of June A. D. 1921, in a suit numbered on the

docket of said Court No. 6461, wherein May Crenshaw is Plaintiff, and B. F. Crenshaw is Defendant, and said petition alleging that on the 15th day of August, 1909, plaintiff and defendant were lawfully married and lived together as husband and wife until the 27th day of October, 1912, when the defendant without cause or provocation or the knowledge or consent of plaintiff abandoned her with the intent to permanently desert her, since which time they have not lived together as husband and wife. That during the coverture of plaintiff and defendant one child was born to-wit: a girl Beulah L. Crenshaw, nine years of age. That during said time from October 27th, 1912, plaintiff has heard nothing from defendant, and defendant has willfully neglected to

provide for plaintiff and their minor child; that defendant be cited to plaintiff have the care, custody and appear and answer herein, that education of said child of said marriage; that she have judgment dissolving said marital relations between the defendant and plaintiff and for costs of suit and such other relief as she may be justly entitled to. Herein Fail Not, but have you before said Court, at its aforesaid

next regular term, this writ with your return thereon showing how you have executed the same.  
Witness, Willie Riggs, Clerk of the District Court of Young County. Given under my hand and the Seal of said Court, at office in (L. S.) Graham, Texas, this the 22d day of June A. D. 1921.  
44-47c WILLIE RIGGS,  
Clerk District Court, Young County Texas.

## The standard tire likes nothing better than to prove its service

PEOPLE used to be secretly envious of the young fellow who came tearing up the street and stopped his car with a jerk.

Now they are inclined to criticise such abuse of tires. A mark of the growing consciousness about tires—their service, their work, their value.

This same respect for a good tire is the reason why the four-square tire dealer has passed up odds and ends, "job lots", "seconds", "cut prices"—and come out squarely with the *standard quality service* of U. S. Tires.

He is getting a bigger, and also better, tire business than he ever had before.

He is dealing now with his own kind

of people. The substantial citizen. The man who knows that you can't get something for nothing. The *steady customer*—not the bargain hunter.

To the man who has not yet learned the *standard tire service* he is entitled to we say—

Go to the dealer in U. S. Tires and make him show you.

Here is a man in close touch with one of the 92 U. S. Factory Branches—a constant supply of fresh, live U. S. Tires.

The U. S. Tire you buy is a tire built for *current demands*. No overproduction. No piling up of stock. No loss of mileage by hanging around on the dealer's racks.

Every way you look at it, a *par quality tire* at a net price.

"Here is a man in close touch with one of the 92 U. S. Factory Branches"

Phones: Ind. 89; S. W. 202. Temporary Office: Next door to Young Co. Hdw. Co., Graham, Texas.

### RIO GRANDE VALLEY IS CALLING YOU

Do you want to get away  
From the grind of every day—  
From the drudgery of things you  
have to do?  
Do you want to settle down  
Near a lively, busy town,  
Where the joy of living will appeal  
to you?  
Do you want to scent the breeze  
Coming through the citrus trees?  
Do you want to hear the birds call  
—loud and clear?  
Are you seeking perfect health  
That's combined with certain wealth  
And an income from a citrus grove  
each year?

Do you want a piece of land  
That will grow to beat the band  
All the different garden crops that  
you enjoy?  
Do you want to make a "Nest,"  
And a permanent bequest  
For the future welfare of each girl  
or boy?

Do you want a sunny clime  
Where there's fishing all the time?  
Where there's ducks and deer and  
quail and other game?  
Where the summer climate's cool  
And where, in the calm gulf surf  
And the beautiful Arroyo Colorado,  
You can swim in January, just the  
same?

If so, call W. J. MOYLAN, Ind. 89;  
S. W. 202.

### BOOK ON PRESERVING CAN NOW BE SECURED

Canning, preserving, and jelly-making are the subjects treated in a new bulletin, "Home Preservation of Foods," written by Miss Margaret Gleason, Director of the Household Arts Department of the College of Industrial Arts, Denton, Texas. The bulletin is a timely one, for at this season of the year the women of Texas are particularly concerned with these problems. The discussion is designed to give those interested a thorough understanding of the scientific principles involved in the various processes of food preservation and to insure success in this important work. Full directions for the canning and pickling of various fruits and vegetables are given. The bulletin includes practical and specific instructions for the successful making of peach, plum, strawberry and other fruits preserves; for the making of conserve, including many different jams and marmalades; and for the making of jellies of all kinds. The including of methods for the prevention of decomposition makes the treatise of greater practical value to the housewife. Anyone who desires a copy of this bulletin may secure it by writing to the Director of the Department of Extension, College of Industrial Arts, Denton, Texas.

### YOUNG GIRL IS DEAD RESULT OF POISONING

Weatherford, July 15.—Stella Bradley, 17, is dead and her sister, Ada, 15, in a critical condition as the result of poisoning yesterday, at their home twelve miles north of Weatherford. Authorities said the girls swallowed poison following a suicide pact after a family quarrel. There are eighteen children in the family.

Short nighties for women is a style edict from Paris. Nothing new, the only change being that they will be worn nights instead of days.

France is arranging to establish arial passenger travel from Paris to New York. While other countries are spouting air France takes to it.

### THE AMERICANISM OF AMERICAN LABOR

The American Federation of Labor underscored the American in its name, many editorial observers declare, when at Denver it rejected affiliation with the International Federation of Trade-Union on the ground that the latter's principles are concerned more with revolution than with labor; repudiated the "one big union" idea; condemning the Russian Soviet government as "an enemy of labor;" and elected Samuel

Gompers president for the fortieth time. Such demonstrations of sentiment "show union labor to be sound at the core and impervious to the borings from within of sinister influences," avers the Washington Post, which hails as proof of "a high order of Americanism" this evidence that "the leaders of union labor are not only averse to syndicalism, but are alert to the seditious tactics of the radicals within their ranks and are prepared to resist them in whatever guise they appear." Not only has the American Federation of Labor

or "formally severed connections with all European labor movements," notes the New York World, but the socialist party of the United States, in convention at Detroit has almost simultaneously "rejected affiliation with the Third Internationale of Moscow and taken definite stand against relations of any sort.—Literary Digest.

New York judge is quoted as saying American children are not properly reared. So there are some American children in New York, eh?

### NEFF GRANTS PARDONS TO NINE CONVICTS

Austin, July 16.—Governor Neff today granted pardons to nine convicts, five white and four negroes. The Governor said he had "personally interviewed each one of the convicts granted clemency as to their past, present and future." These are the first pardons since the pardon of W. S. Scrivner of Dallas.

COUNTER TABLE, twenty feet long, for sale at Leader office.

### OFFERED HIS LIQUID TO THE WRONG PEOPLE

Killeen, July 15.—Business was brisk for an enterprising but inexperienced bootlegger who invaded Killeen today but before the foundation of a comfortable fortune had been laid the adventurer accosted a thirsty looking trio and offered the last of his wares at bargain prices. The trio happened to be the mayor of the town, an alderman and a deputy sheriff. The bootlegger was jailed.
