TRAIN SERVICE, WICHITA AND GRAHAM TO BRECKENRIDGE

Graham is now connected with Wichita Falls and Breckenridge by rail. Few roads have been planned and built in shorter time than this one. Only a few months ago Mr. Keel of Wichita Falls made a proposition to the Chamber of Commerce which was promptly accepted. Work began at once and in record time the road was completed by the Chamber, connecting at that point with the Hamon road.

The first train from Wichita Falls to Breckenridge through Graham ran Saturday. The following schedule prevails:

Passenger train leaves Wichita Falls for Graham 10:55 a. m., arrives Breckenridge 1:07 p. m. Returning from Breckenridge 1:40 p. m., arrives Wichita Falls 3:20 p. m.

Mixed train leaves Wichita Falls for Graham 7:30 p. m., arrives Graham 8 a. m., arrives Wichita Falls 11 a. m. Another mixed train would leave Graham at 12:30 p. m., reach Breckenridge at 4:30, return to Graham at 5:30 and reach Wichita Falls at 9:00 p. m.

This is known as the "oil road." Soon after the late Jake Hamon became interested in the oil game he began to build the road. He built the road from Ranger to Jinkum. The road is due the credit for the extension of the Wichita Falls and Southern from Newcastle to Jinkum.

Through train service to Ranger will probably be arranged soon. Many think that before many months there will be through service from Wichita Falls to Waco over this line.

The building of this road means much to the oil, coal, cattle and lumber interests of this section. The latter day is found any where along the right-of-way of this new road and it is hoped that brick and pottery plants will be opened here.

Breckenridge is preparing at an early date to celebrate the coming of this road which makes the third that has been built into that magic city within the recent months. Graham was the first point reached and the first to celebrate the coming of the new road into this section. South Bend and Elvasville also observed the completion of the road with proper ceremonies.

TWO GRAHAM CITIZENS RECOVER STOLEN CARS

Several days ago a man in Goldsboro was trying to sell a car. The prospective buyer became suspicious of the actions of the man offering to sell the car. In examining the car he found a card with Mr. Bradfield's name and address. He communicated with Mr. Bradfield and they developed that the car belonged to him.

The car is being returned to Graham. W. G. Ford that was stolen some time ago was found in Archer county and has been returned to Mr. Bell. The Leader did not learn of the details leading up to the recovery of the car.

Mr. Bell lost two cars and understood that the last recovered is the last one that was stolen.

KANRED WHEAT MAY BE BOUGHT AT \$1.75

Edgar Kemp, County Agent, stated in an article last week that the Kanred wheat for sowing would be \$2.50 a bushel. Since writing that article he has been able to get a better price and asks The Leader to state that wheat growers should apply at once for a contract to buy it delivered to the county for \$1.75 a bushel. He is anxious to get in touch with every one interested in this wheat immediately.

GRAHAM TO BRECKENRIDGE

IMPERIAL POTENTATE TO VISIT WICHITA FALLS IN SEPTEMBER

Ernest A. Cutts, Imperial Potentate, Ancient Arabic Order Nobles of the Mystic Shrine, of Savannah, Georgia, will make a tour of Texas about the middle of September, visiting all of the ten Texas Temples, and constituting Maskat Temple at Wichita Falls.

Mr. Cutts was elected Imperial Potentate during the Imperial Council Session held at Des Moines, Iowa, in the month of June.

The Temple at Wichita Falls was instituted by Past Imperial Potentate Ellis Lewis Garretson, of Tacoma, Washington, on August 21, 1920, under the most favorable circumstances. The attendance at the ceremonial held at that time was equal to a circus crowd. Another big day is anticipated when the Charter is delivered by Mr. Cutts. The new Temple now has more than twelve hundred members, and is growing rapidly. The indications are favorable for a large class during the month of September.

Mike H. Thomas, well known Mason and Shriner of Dallas, is arranging the Texas itinerary for the Imperial Potentate.

Walter D. Cline, Potentate of Maskat Temple, is at present visiting Louisiana but will return home for the September meeting.

F. H. Muncie Has Plane In Graham

Believing in the future of Graham as an oil city, F. H. Muncie an experienced oil man as well as aviator, has made Graham his headquarters and is here with his airplane. He has been doing good business for several days taking people for a ride.

Mr. Muncie has been helping for several months to develop the South Bend oil field but for a while will operate his plane out of Graham. He is familiar with airplanes and can pull all the "stunts" that any of the aviators can. He is a safe pilot and only indulges in the aerial stunts for the pleasure of his spectators and those passengers who insist in experiencing the thrills of the stunts.

CLARA HAMON MARRIES DIRECTOR OF HER MOVIE

Los Angeles, Aug. 23.—Clara Smith Hamon was married into the movie colony today.

The girl, who was acquitted of the charge of murdering Jake L. Hamon, Republican national committeeman and Oklahoma millionaire, is now Mrs. John W. Gorman.

Gorman directed the film story of Clara's life.

Clara today was on her honeymoon with her husband her murder trial indirectly won her.

"She is a wonderful woman—wonderful woman," John W. Gorman, who last night became her husband at a simple wedding ceremony, exclaimed to reporters. Gorman was directing Clara's production of a film based on her trial for alleged murder.

"I met her, of course, purely in a business way during the early part of the filming of her picture," he said. "But it was not until she played the court room scene—the murder trial climax—that I fully realized her wonderful power and her depth of character."

Clara after the ceremony had little to say. "I am very happy," was her chief comment.

Clara gave her age as 29 and Gorman as 39 in securing the marriage license.

TWO STORY BRICK BEING ERECTED ON CORNER OF SQUARE

Mrs. McCain has resumed work on her two story brick on the northeast corner of the square. The foundation was laid some time ago but there was a delay of a few weeks in erecting the building. A heavier foundation has been put in and the brick work began Monday.

The lower floor will be used for business houses and the second story will be arranged for office rooms. This is one of the best locations in the city and Mrs. McCain is already receiving applications from business people who would be glad to secure a lease on the building when completed.

WOMAN MAY DRESS WELL ON ONLY FIVE THOUSAND PER YEAR

New York, Aug. 21.—Mrs. William P. Burden, who is called "the best dressed woman in Newport," said today \$5,000 yearly is all a woman needs to be well dressed.

Mrs. Burden laughingly denied stories that she never wears a dress twice. She said:

"I deny the soft impeachment. I believe in wearing dresses as long as possible, especially in these times."

She was asked about the figures set years ago for a member of society who would keep up with the fashions. It was said that to "dress perfectly" \$75,000 a year was necessary. To "keep well to the front of society," \$25,000 a year was a maximum and \$10,000 was needed to "dress well."

"These figures are all too high. I believe \$5,000 is sufficient for any woman of means to dress well on."

SHERIFF CONTINUES TO RAID "CHOC" DENS

The Sheriff's department has been busy cleaning up the "choce" joints in the county this week. Monday Deputy Blake raided a house about one mile west of town and destroyed fifty gallons of "choce" and confiscated the still. On his way back to town he stopped near the Salt Creek bridge and emptied out nearly fifty gallons more of the same kind of beer.

Monday night a man was arrested at the Wellington hotel with some corn whisky in his possession. Sheriff Saye took him to Fort Worth Tuesday and landed him in jail.

Yesterday a negro woman claimed that her husband had stolen her rings and was preparing to leave town. When both were brought before the sheriff she did not want to file a complaint against him. The scene was annoying to the sheriff but amusing to the large number of spectators who gathered around the sheriff's office.

WHEN ITS HOT ITS VERY HOT IN GRAHAM

Whenever it rains, turns cold, or gets hot people are inclined to say that it is worse than ever before. For several weeks it has been remarked that this is the hottest weather we have ever had. If a vote of all the old settlers could be taken we believe that all would agree that this has been the longest drawn out "hot" spell we have had in many years. Many times it has been as hot for a few days but this has continued for several weeks and the end is not yet in sight.

Very little cotton or fall feed will be raised on account of the dry weather. Grass is doing no good and unless it rains soon the pastures will have very little grass for the winter. In some sections disastrous fires have destroyed hundreds of acres of grass. Some one said recently that all dry spells had been broken up by a rain and here is hoping that this one will be broken soon.

BRIDGE ACROSS CLEAR FORK MAY BE REBUILT SOON

G. G. Summers of Wichita Falls and L. A. Massey of Granfield, Oklahoma are in the city looking after the interests of the Graham Bridge Company. Soon after the bridge was constructed last spring a heavy rise in the Clear Fork lifted the bridge from the piers rendering it impassable. This bridge was built across the Clear Fork between South Bend and Elvasville. It is badly needed and those who use this road are glad that the bridge is to be rebuilt.

The gentlemen mentioned above are working on a plan to rebuild the bridge out of steel so that it will be strong enough to withstand any flood that may come.

A meeting of the stockholders will be called soon and it is hoped that plans will mature for the immediate construction of the bridge.

L. D. WILSON OF RED TOP BRINGS FIRST BALE COTTON

Just as The Leader went to press last Thursday, August 18, L. D. Wilson of the Red Top community brought in the first bale of cotton of the season. Mr. Wilson raised this cotton on the Zearl Steen farm. The Graham gins were not in readiness to gin cotton on the day it was brought in but the Anderson Gin Company ginned it Friday.

The John E. Morrison Company bought the bale paying 12 cents for it. Secretary McConnell of the Chamber of Commerce raised a premium of about \$20.00 for Mr. Wilson.

Cotton is opening fast, due to the continued dry weather and the picking season will soon be on in earnest. Cotton prospects are poor at present and it is the general opinion that Young county's cotton crop will be light this year.

Live S. S. Class Christian Church

Mrs. Geo. W. Miller is the efficient teacher of one of the liveliest classes in the First Christian church. She has a class of fourteen girls in the first year of the intermediate department.

They have a class meeting on each Thursday morning at which all business is transacted and during this hour a story is told or read from one of our best writers. The class enjoys one social each week such as breakfast on the mountain, swimming parties, etc. One of the most enjoyable meetings of the class was when it met recently with their teacher and sewed for charity. This seemed to give more genuine pleasure than any other form of work or play.

Last Friday afternoon the class motored to Mrs. Treue's east of Graham and had a delightful time. After arriving at Mrs. Treue's supper was served. Several large watermelons added to the pleasure of the evening. Mrs. Treue served three gallons of ice cream.

The girls slept out doors and enjoyed the novelty. Saturday morning the girls prepared a campfire breakfast. Many pictures were taken with kodaks.

The following girls compose this live class:

Eugenia Carlton, Kathrine Morris, Ruth Wood, Esther Ruth Russell, Nona Mae Pratt, Mary Elder, Louise Bell, Roberta Reed, Ruth Cashburn, Dixie Harmon, Vivian Dickenson, Johnnie Wright of Odessa was with the class on their picnic last Friday.

R. E. Lynch and son, Robert, and Gaston Hallam went to Albany last Friday to join a fishing party. They returned Sunday.

SEVERAL NEW RIGS THIS WEEK IN BUNGER SECTION

PREMIUM PAID ON CRUDE BY SOME BUYERS

Further improvement in the crude market was announced Saturday when one of the largest independent takers of oil announced an increase of ten cents in their premium, making it 20 cents a barrel. It is reported that some buyers are paying 25-cent premiums. There will probably be no rapid advances in the price of crude but it is the belief that the bottom has been reached.

100 MEN AT WORK INSTALLING GAS SYSTEM IN GRAHAM

The Ranger Gas Company now have about 100 men at work installing the gas system in Graham. Mr. Owen, the manager, hopes to have the plant in operation before many weeks.

Applications are being received already for gas and the company is filing these in numerical order. When the lines are in, connection will be made in the order in which the applications are received. The first applications will receive first consideration.

The company will strive to render the best service and will need the co-operation of the citizenship. One means of co-operating is to have the houses piped and ready for connection when the lines are finished. Practically all the new houses being built are being piped as built so that there will be no delay in making connection.

E. C. REED AND FAMILY WILL LIVE IN GRAHAM

Mr. E. C. Reed, who has recently returned from a trip to San Diego, California, informs The Leader that he has decided to make Graham his home and expects his wife and daughter to join him here very soon.

Mr. Reed spent several years with the Prairie Oil and Gas Company in the Oklahoma fields and has no hesitancy in predicting that Young county will develop into a field that will be the center of attraction for the eyes of the oil world.

He feels that production in this county is in its infancy, and that the oil possibilities are unlimited. Mr. Reed was impressed with the substantial way in which Graham was built up, the cleanliness of the town and the good schools were factors which caused him to decide to cast his lot among us.

MRS. RIGGS HONORS MISS WELLS, LAREDO

Mrs. Willie Riggs entertained last Wednesday night in honor of her cousin, Miss Juanita Wells of Laredo, Texas, with a slumber party. After a merry evening the guests were invited into the dining room where a delicious ice course was served. At a late hour they were treated to a watermelon feast on the lawn.

After a chicken breakfast next morning the girls voted Mrs. Riggs as a most entertaining hostess. Those enjoying her hospitality were: Martha Mae Morris, Kate Robertson, Frances Bell, Sadie Eddleman, Mary Wallace, Marguerite Eledge and the honoree, Juanita Wells.

J. O. McCloud is spending the week in Bryson.

The true status of the Ross and Tyrrell well on the Owen land on survey 38 became known Wednesday morning when the pipe line reached the well and began taking the oil stored on the lease since the well came in on the 11th. This 4-inch line will serve the Bunger field some time and shows the confidence the Texas Company has in the future oil possibilities of this section. The well has been making 220 barrels with gauge with the gas pressure holding up and the well flowing by heads under a strong rock pressure.

From all indications the Bunger field will soon be getting a fine play as several deals have been made this week and several more are pending.

A rig is being erected on the land owned by R. B. Whittenburg, J. M. Taylor survey, by Applegate and Harlan, who are to drill a well on the south part of the survey.

Ross and Tyrrell have a rig on the offset 40 acres to the Owen well belonging to Cheney and DeFrest and will soon be at work on the Owen No. 2. They also have a rig going up a quarter of a mile southeast of the Askew on the acreage formerly owned by the Condon people. Another rig is being erected on the Orrell survey on acreage owned by C. W. DeFrest. An extensive drilling campaign in the Bunger section has been planned by Ross and Tyrrell who came into this field and opened a pool of oil on their first venture. We admire their courage and wish them success in their big plans.

The Askew has had considerable trouble and an effort is being made to drill the iron out of the hole before seating the ten-inch casing. A test of the 1900-foot sand in this well will be made soon.

The Lisle well has reached a depth of 1650 feet and is reported to have a fishing job.

The Driver well north of the Owen has set a new string of casing as 1245 feet.

The Paragon on the Holt survey is running six-inch casing to get through the collapsed ten-inch casing swedged out.

The Barnes Production Company are still trying to seat the ten-inch casing below the cave at 1850 feet before drilling deeper.

The Greer-Mercier, Jeffery No. 1, four miles north of Graham, is drilling around 2200 feet. This well will have a good showing before going much deeper.

The Graham Townsite Oil Company will finish the rig for well No. 1 today. This rig is just west of the city limits.

Farmer Well

The 500 Oil Syndicate that took over the Farmer well some time ago have cleaned out the old hole which was about 1050 feet and are now drilling. The Syndicate plans to rush the well to completion. This well is located northeast of Graham and it is the general belief that before many months that the city will be surrounded with producing wells. The 500 Syndicate is in new territory but everything looks promising. The officials of the Syndicate are very optimistic over the proposition and are putting their money into it.

Fay Marshall and family returned Tuesday from an extended trip to Colorado. Mr. Marshall combined study and pleasure while away. He did some special work in law in one of the noted law schools. The trip was made in his Dodge and he experienced only minor car troubles. It was an enjoyable trip to every member of the family.

Sam Copeland is enlarging and improving his residence on Cherry street. The appearance of his home will be greatly changed and he will have a modern home when completed.

We knew something was the matter with some folks we knew, but didn't know just what. A San Francisco doctor, at a national convention of medical men, said that "too many baths, too much personal cleanliness, is breaking down the health of the American public." He declared the rapid increase in skin lesions was due directly to the cause of bathing too much. Many of us know now why we never have skin trouble.

The Leader received this week the August number of the Rock Island Magazine. It is a beautiful 64-page magazine full of good reading matter. An article of special importance to this section is found on page 4 written by A. Jackson, Agricultural Agent on Johnson's Poultry Farm. Many of our readers are familiar with Johnson's 125-acre poultry farm at Bowie, Texas.

WHEN WEEDS NEED CUTTING A citizen of Paris received notice last week from the sanitary officer to cut weeds on certain property owned by him. The officers said several ladies had complained that the weeds were so high that their skirts caught on them. The property owner conceded that when weeds got high enough to interfere with ladies' skirts they were certainly high enough to be cut down.—Paris News.

SAFETY FIRST

There is perhaps, no movement of modern times which is of greater importance than that which has popularly been known as the "Safety First" campaign. From a relatively small beginning it has grown to a nation-wide effort to arouse everybody to the exercise of caution and precaution. There is nothing so regrettable, nothing so much to be guarded against as the unnecessary loss of human life and limb, the impairment of physical strength and the hardships and suffering which so often result.

It would not take 150 Edisonian questions to get the truth about Harding's "association of nations." The whole bunch could be answered with: "There ain't such a thing."

President Harding has asked Secretary of State Hughes to head the American negotiating commission at the forthcoming armament conference. Upon Secretary Hughes' shoulders will fall the responsibility for making all arrangements for the conclave.

The Dallas county grand jury has asked the judge for half time sessions, inasmuch as there is not enough crime to keep it busy for regular full time sessions. "There is too much time for the jurors to take naps," reports the foreman in his request for shorter sessions. This grand jury is wanting to employ methods similar to those employed by the courts.

Edgar Kemp, County Agent for Young county, is rendering a distinct service to all live stock and agricultural interests of the county. At this particular time he is trying to interest all the wheat growers in selecting the best seed for sowing this fall. Last week's issue of The Leader carried an important article on the production of wheat written by Mr. Kemp. If you did not read the article in The Leader see Mr. Kemp for a copy of it. He had a large number of the article run off in circular form and is anxious for every wheat grower in the county to get a copy. Mr. Kemp is one of the best informed agents in the State and is anxious to render the best service possible to the county. He will be glad to help, aid and assist any farmer and stock raiser in the county. He is at your service and wants you to call on him when you think he can render you any assistance.

TURK STILL UNCURED

Hope that an effective curb had been placed upon the Turk is dispelled by reports of new massacres by the Ottomans in Armenia and other parts of the Near East. Greeks have been slain, but the Armenians, as usual, are the chief victims. It appears as though old jealousies and fears are to be permitted to give the Turks unrestrained license to kill and burn in the Far East, as he has for centuries.

The sinister aspect of the situation in Armenia is that the Russian bolsheviks are giving encouragement to the Turks, who are thus prompted to maintain an attitude of defiance to the allied nations. The Turkish nationalists are the outlaws of western Asia. That they are permitted to continue their depredations unrestrained is not an encouraging omen for the future peace of Europe.

SUPREME FLOUR—The People's Choice

Time shows development from small things to great. Not but one quarter of a century ago "SUPREME" was only a community flour; today it is used in thousands of homes in Texas as well as in foreign lands. Then—the question—why its growth? Because of its unflinching uniformity. This Company has worked conscientiously, carefully, and painstakingly to excel in quality. You are due to yourself to take advantage of an extraordinary quality flour when offered. "SUPREME" is no longer a chance, but a sure hit.

THE GRAHAM MILL & ELEVATOR COMPANY

"Hi-jackers" and "Stick-up men" will quit their business promptly when it fails to pay. That day will come when we abandon the stupid but deep rooted habit of carrying money in our pockets. As it is, the average highwayman is making a fortune out of it. We talk of hard times but there is, no doubt, as much or more money carried in pockets now than during the flush months of the recent past. By carrying money in our pockets, we endanger our lives as well as the likelihood of losing our money. An acquaintance of the writer was killed recently by two young men who knew that the man carried a few hundred dollars in his pockets all the time. The man who was killed thought it was safer to carry his money in his pocket rather than deposit it in the banks. It is always unsafe to carry money in the pocket.

Graham has three good strong banks and if everyone, who has his money in his pockets or stored away in his home, would deposit it in these banks he would have better protection and his money would be put in circulation. The more money there is in circulation the better times are. It is not our intention to say that our people are hoarding large sums of money but there are, no doubt, many small sums of money in pockets that ought to be deposited so that it could be put into circulation. It is stated that one dollar in circulation will turn sixty-four dollars worth of trade in a year. When money is deposited in the bank it is put to work at once and every one knows that the more money in circulation the better the times.

Deposit your money in the bank for the protection of your property, your life and the welfare of the community.

STRUCK A SNAG

Henry Ford recently bought and is operating a railroad that runs from Detroit, Michigan, to Ironton, Ohio. The first thing Henry did was to raise the wages of the employees of the road, cut out unnecessary expenses and gather up a world of material that the former managers were allowing to go to waste. From this waste alone Mr. Ford says he will realize a good profit on his investment. He also greatly shortened the time required to haul a train over his road, beside carrying more cars at less expense. The result of his experiment convinced Mr. Ford that the rates over his road were too high, and he announced that he would make a reduction. A very material reduction in the rate on coal was announced.

But Mr. Ford has struck a snag very unexpectedly, and his rate cut will not be put into effect. The Interstate Commerce Commission has interposed its objection, and has told Mr. Ford that the old rates will be continued until January first anyway. However much the public may sympathize with Mr. Ford's effort to give them lower freight rates, the coal men, especially, and the railroad managers will applaud the action of the Commission. As they see it, just because Mr. Ford is able to run a railroad in a business way as a business proposition and do it at less expense than they have been running other roads is no reason why he should be permitted to give the public the benefit of the saving he has made. For if Henry Ford is permitted to haul freight cheaper than they are hauling it his road is going to get the business or else they will have to meet his rates. Therefore they applaud the action of the Commission in compelling Mr. Ford to charge more for hauling freight than he thinks ought to be charged for hauling it. He says that he can make money on a cheaper rate but that is nothing to the Railroad Commission. But still it does seem that if the Commission is going to force Mr. Ford to charge a higher rate than he says is necessary to make a legitimate profit on his railroad, the Commission ought to inquire why other railroads can not operate as efficiently as Mr. Ford is operating his railroad. And again, it seems hardly fair to compel Mr. Ford to maintain too high a rate just to enable other roads to charge a high rate even if they actually require one. The public will wonder why Mr. Ford is not permitted to give it the benefit of whatever saving he is able to make in the operation of his road. But Mr. Ford's cheap rate is hung up on a snag, and there you are.

The chairman of the shipping board says President Harding wants administration to be known as the one which re-established the American merchant marine. The said, marine, however, was given a pretty good impetus in that direction several years ago.

'DE DUCKS' AND FARM PROFITS

An Iowa farmer recently sold his corn crop, and the very same day applied to his local banker for a loan therewith to use himself over a lean period.

"Put," the banker said "I do not understand why you should want to borrow money when you have just shipped your corn. What did you do with the money?"

"De ducks got it" replied the farmer.

"What do you mean by 'de ducks?'" "Well" the farmer explained "I shipped the car to market and sold it for 52 cents a bushel. They de duck freight, that left 31 cents; de duck 1 per cent commission, that left 30 cents; de duck elevator charges, that left 27 cents; de duck husking, that left 15 cents; de duck hauling, that left 5 cents; de duck the hired man's wages from that and you're a darn sight better farmer than I am if you can find anything left."

A SCHOOL BOY'S

IDEA OF COURTESY Treating a teacher like a rich uncle so that you may get part of his coin is not courtesy—that's foolishness.

Helping a pretty girl up the stairway, holding her coat, and carrying her books is not courtesy. The first two are pleasure; the last is ordinary politeness.

Listening to the dry, long, drawn-out speech of a half asleep speaker in assembly without throwing a book at him is not courtesy—that's the height of forbearance.

Offering a seat to a visitor when he comes in is not courtesy—that's mere duty.

Courtesy is an act while his prompted by nothing in the world but human kindness, which comes from the heart of good will, and is full of love of being kind.

THE NUMBER SEVEN

IN THE SCRIPTURES

It seems that the number seven has always had some peculiar significance. On the seventh day of the seventh month of the seventh year a holy observance was ordained to the children of Israel, who fasted seven days, and remained seven days in the tents. The seventh day was supposed to be a Sabbath, or rest for all, and at the end of seven times seven there was to be a jubilee. Jacob served seven years to win Rachel for his wife. Noah had seven days warning of the flood. Nebuchadnezzar lived seven years as a beast. The Savior spoke seven times from the cross on which he hung for seven hours. In the Scriptures there are seven resurrections mentioned. In the Lord's Prayer there are seven petitions. There were seven mysteries of apocalypse revealed in seven churches in Asia. In Revelation there is described seven lambs before seven spirits of God, seven golden candlesticks, a book with seven seals, seven angels, seven vials of wrath, seven thunders and a dragon with seven heads—Columbus Dispatch.

CANDLE TO BURN 5,000

YEARS FOR CARUSO An eighteen foot candle that can be burned on every all-soul's day for five thousand years, is being made in New York as a memorial to Enrico Caruso from the inmates of an orphanage to which the Metropolitan opera start contributed \$10,000 a year for many years. It will be placed in the church of Madonna of Pompeii at Naples, Italy.

Antonio Ajella, maker of the candle, has erected a derrick in his shop by means of which the candle is dipped thrice daily into boiling tallow. It will be completed in ten weeks, and will weight one thousand pounds. Mr. Ajella has figured that the candle would burn continuously for thirteen years and seven months.

To Kipling, it is said, an American once wrote: "Hearing that you are retailing literature at \$1 a word, I enclose \$1 for a sample."

Mr. Kipling complied with "Thanks" and kept the dollar. Two weeks later the American wrote: "Sold the 'Thanks' anecdote for \$2. Enclose please find 46 cents in stamps, being half the profits on the transaction less the postage."

Doctor (complacently): "You cough more easily this morning."

Patient (querulously): "I ought to; I practiced nearly all night."

"Who was the first man, Bobby?" asked the teacher.

"George Washington."

"Why, Bobby, you ought to know better than that. It was Adam."

"Aw, I wasn't countin' fore gnerns."

France is reported as moving to make marriage compulsory. The best way to make matrimony attractive is to make it possible for a man to be assured of being able to care for his family.

TRAVELING SALESMAN FEEDS MANY HUNGRY PEOPLE ON TRAIN

Monday night the Rock Island train which leaves Fort Worth at 6:00 p. m. was delayed three hours by a stalled freight train which blocked traffic.

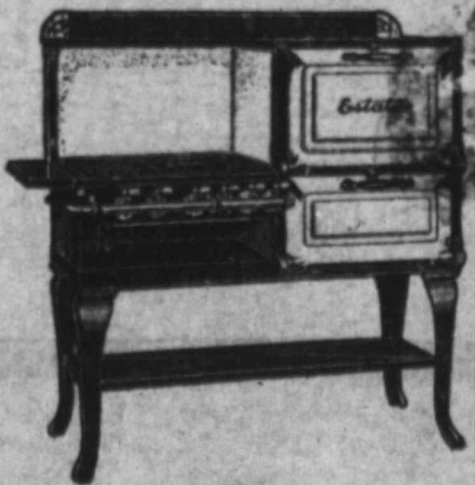

Most of the passengers were en route from Fort Worth and when midnight came practically all of the forty-five passengers on the delayed train were suffering pangs of hunger. Luckily Mr. F. C. Pearce, a salesman for the H. J. Heinz Co., manufacturers of the famed "57" varieties, was on the train and had in his sample case sufficient baked beans and salad dressing, sauer kraut, etc., which, with crackers purchased from the "butch" on the train, made a very enjoyable and highly appetizing meal, which was highly enjoyed and appreciated by the hungry passengers.

Mr. Pearce acted as chef and Tommy Costello from the Capitol Hotel played the part of waiter.

The passengers were unanimous in declaring that they would be perfectly willing to have the train stalled every night providing such conditions prevailed.

ELDER COWAN IN MEETING AT BUNGER

Elder J. N. Cowan of Robstown, Texas, closed a meeting for the Church of Christ at Bunger this week. Some of the members of the Church of Christ in Graham attended the meeting and say that Elder Cowan is a great preacher. He knows the Bible, and, according to those who attended the meeting, he is always able to recall the particular Scripture needed to explain the subject under discussion.

THE STATE OF TEXAS

To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon Max Pomerantz by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 50th Judicial District, but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 50th Judicial District to appear at the next regular term of the County Court to holden at the Court House in Graham, on the First day of October, A. D. 1921, the Third day of October, then and there to answer filed in said Court on the August, A. D. 1921, in a case on the docket of No. 895, wherein Guar Bank of Graham, Texas, (Plaintiff) is Plaintiff and Max Pomerantz is Defendant, said petition alleging that Max Pomerantz is Defendant, to-wit: on the 18th day of August, A. D. 1921 the defendant executed and delivered to this plaintiff his certain promissory note for the sum of One Hundred (\$100.00) Dollars, bearing date on the day aforesaid, payable to the order of plaintiff at Graham, Texas, and due on the 16th day of July, A. D. 1921, bearing interest at the rate of ten per cent per annum from maturity until paid, and providing for ten per cent additional on the amount of principal and interest then due an attorney's fees if placed in the hands of an attorney for collection or suit is brought on same, whereby defendant became liable and bound plaintiff and promised plaintiff to pay him the sum of money in said note specified, together with all interest and attorney's fees due thereon according to the tenor and effect thereof.

That plaintiff has placed said note in the hands of Hinson and Rice, attorneys, for collection and has contracted to pay them the ten per cent stipulated in said note, the same being reasonable and the usual and customary fee.

That said note is now past due and unpaid, and defendant, though often requested, has hitherto failed to pay the same, and still refuses to pay the same, or any part thereof, to plaintiff's damage in the sum of One Hundred (\$100.00) Dollars.

That plaintiff further alleges that defendant made and executed to plaintiff a chattel mortgage, dated January 18, 1921, on one one-half (1-2) Ford Truck, Engine No. 34048, a copy of which is attached hereto, and marked Exhibit "A" for the purpose of securing said note.

Wherefore plaintiff prays that court that defendant be cited to appear and answer this petition, and he have judgment for his debt of One Hundred (\$100.00) Dollars, interest and attorney's fees, for all costs of suit, and for the foreclosure of his lien as specified in the chattel mortgage hereto attached, and for such other and further relief, special and general, in law and equity, that it may be justly entitled to, and in duty bound will ever pray.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, W. H. Kennedy, Clerk of the County Court of Young County. Given under my hand and the seal of said Court, at the Court House of said County, at Graham, Texas, this 23rd day of August, A. D. 1921.

W. H. KENNEDY, Clerk of the County Court, Young County, Texas. By WILLARD MATTHEW, Attorney at Law. A true copy, I certify: JOHN W. SAYE

WILBUR WEAVER IS BURIED WITH MILITARY HONORS

One of the largest attended funerals ever conducted in Wise county in many years, was that in which the body of Rosser Wilbur Weaver was consigned to its final resting place in the city cemetery last Thursday afternoon at 2 o'clock with military honors. The business houses closed from two to four and most of Decatur's people paid its respects to this brave soldier. The remains were disinterred in Rheims, France, and shipped to Decatur for burial. They arrived Tuesday evening and were met at the station by a large crowd of friends. They were removed from the station by undertakers Man and Christian and escorted to the Methodist church where they laid in state, guarded by soldiers, ladies of the Red Cross and friends of the family until Thursday, awaiting the military funeral, which was a most beautiful and impressive one. After the large congregation had been seated the ex-soldiers and sailors of the World war filed in in full military garb, members of the Decatur and Fort Worth American Legions carrying flags, under the command of Capt. Steve A. Lillard, assisted by Capt. Archie Cates, with Lieut. R. D. Morrow in charge of the firing squad; all were seated at the front of the auditorium, which had been reserved for them; the family came in after the soldiers. It was a time for memory and tears, for patriotic and sacred emotions when Rev. S. C. Riddle, a former pastor and intimate friend of the young soldier delivered a most fitting and touching address over the remains of the young life, he so well remembered and knew before he entered the World war—in answer to his country's call. He was assisted by Rev. R. C. Hicks and Rev. G. F. Boyd.

As the body was being taken from the chancel to the hearse, the soldiers formed in divided line from the church to the hearse and the band played a funeral dirge.

The interior of the church was draped in the national colors and the floral offerings were beautiful. The pall bearers were: Gordon Roberts, Ernest Heathington, Roy Robertson, Carl Carpenter, Allen Rowan and Ray Christian. The burial was conducted with the impressive Legion ritual services. As the body was being lowered into its final resting place, the band softly and sweetly played "Nearer My God to Thee;" three final salutes were fired and taps then blown as a last long farewell to the brave life to whom we, as a people, owe so much.

The following out of town relatives and friends were present:

E. L. Weaver, Oklahoma City, P. G. Weaver, and son, Granville from Dallas, Misses Lula and Hugh Weaver, and Mrs. R. W. Lowe from Dallas, Mrs. A. J. Owen, of Waco, Miss Belle McCluskey, Graham, Mr. and Mrs. L. E. Couch, Mrs. L. C. Barton, Miss Annie Laurie Long, Dallas, Mrs. Mamie Wall, Grapevine, Mrs. R. W. Reynolds, Arlington, Rev. S. C. Riddle, Lancaster, S. R. Crawford, Graham, Dr. Johnson and Mr. W. H. John Bridgeport.—Wise County Messenger.

NEWSPAPERMAN WOUNDED SATURDAY, DIED SUNDAY

Wichita Falls, Aug. 21.—Thomas Southard, local newspaper man and veteran of the world war, who was wounded in the head by the discharge of an automatic pistol Saturday, died at the Wichita General Hospital here today. Southard was gored and wounded in battle and had been troubled with his throat and lungs. Mrs. Southard, his wife, declared the shooting was accidental. Edwin Southard, brother of Thomas, is en route from New York to take the body there.

SEVENTEEN RANGERS TO BE DISCHARGED

FATHER KILLS HIS DAUGHTER AND SELF

Floydada, Aug. 19.—G. M. Todd, 60 years old, shot and killed his daughter, Ethel, 31, and then killed himself at their home, about twenty-five miles northeast of here, this morning, according to advices reaching here. Mrs. Irvin Todd, wife of the elder Todd's only son, who was an eye witness of the double tragedy, rushed to the field where her husband was working, and when they reached the house, Todd's body was found with a 44-calibre rifle at his side.

Justice J. G. Gaither, who held an inquest, rendered a verdict that the daughter met death at the hands of her father, and that Todd died of self-inflicted wounds.

The Todd family has resided in county several years, the elder

VEGETABLE VENDER IS KILLED BY PATROLMAN

Wichita Falls, Aug. 21.—W. W. Webb, 35 years old, a vegetable vender, was shot and killed at his home by Patrolmen C. M. Waggoner, following an argument said to have been precipitated when Webb attempted to shoot a cat which he said was catching his chickens. Waggoner was arrested and after a preliminary hearing was released under \$10,000.

Several shots were fired at the cat by Webb, witnesses stated, and the patrolmen placed Webb under arrest for shooting within the city limits. Waggoner alleges that Webb opened fire on him about the time he fired on Webb.

Tod formerly being in the furniture business at Tulla. The bodies will be buried here Sunday, according to present plans.

AMENDMENTS TO POSTAL LAWS AND REGULATIONS

are printing below extracts from a bulletin received by the local postmaster from the postoffice department at Washington relative to mail delivery. The postmaster has many requests that he cannot comply with. Many interesting as well as vexing problems claim the attention of the postoffice force. The department at Washington formulates decisions that the local postmaster cannot deviate from:

Office of the Postmaster General
Washington, July 28, 1921.
Order No. 6224.
Section 603 of the Postal Laws and Regulations is hereby amended as follows:
Sec. 603. Mail bearing as a part its address the indorsement, "transient," "to be called for," "general delivery," or other words indicating that it is intended for a transient person, shall be placed in a general delivery case to be delivered upon application and proper identification, except as hereinafter provided. (See Sec. 594).

At city and village delivery of persons supposed to be residents who call at the general delivery for mail will be requested to furnish in writing their names and address (Form 1527) together with their reasons for desiring to use the general delivery instead of carrier service. Minors will be required to furnish the same information, as well as the names of their parents or guardians, whose written consent must accompany the application (see Sec. 599). The general delivery privilege will not be extended to patrons whose mail can be delivered regularly by city or village carrier, except in cases where the reasons assigned are wholly satisfactory to the postmaster.

Postmasters at offices not having city or village delivery service may notify the parents of minors in all instances where it appears that such minors are using the general delivery or postoffice boxes for bringing mail under objectionable circumstances.

Mail without sender's return address that is not addressed as indicated in paragraph 1, nor to a postoffice box, street or rural route number, shall be placed in the general delivery case when the address can not be supplied in the directory section (see Sec. 607), unless it is addressed in care of a person whose name is known to the distributing or carriers at an office not furnished with a directory.

MINERAL WELLS BONDS CARRY

Million Dollar Tax Levy For Palo Pinto County Roads
Win

Mineral Wells, Aug. 20.—The vote for the million-dollar bond issue, which will assure Palo Pinto county of ninety-three miles of paved roads, including its portion of the Bankhead highway, carried today. It was a landslide in favor of the bond issue. The city of Mineral Wells broke all records of its history, polling a total of 1,233 votes of which 1,155 favored the issues and seventy-seven opposed it.

The majority in favor of the issue was an unprecedented majority throughout the district. Eliminating two small and isolated boxes which have not been heard from, the total of which 1,546 favored the issue and 204 opposed it.

Boxes at Strawn, Palo Pinto and Lyra carried the issue four to one. The women polled the heaviest vote they have ever polled in the county. The campaign waged to carry the issue has been the most strenuous in the history of the county.

CARD OF THANKS

We desire to thank the kind hearted friends, who by kind words and deeds and the beautiful floral offerings, have tended to soften the otherwise unbearable blow sustained in the tragic death of our mother, Mrs. Rachel Garvin.

We will miss the dear mother who toiled so untiringly for us while we were growing up. What a joy it was to try to make life easier for her as she was growing old.

ESTABLISHES BUREAU FOR TRUCK OWNERS

Truck users are coming to realize that tires have a very important part in successful truck operation, and that the tires are a separate problem from the truck itself.

As much money is wasted today on wrong tires as on poor ones. Some truck owners wonder why their tire bills are so high while others' are moderate. The answer is to be found in many cases in the fact that the wrong type or the wrong size of tires has been selected.

In the interest of greater economy, the United States Tire Company has established a Technical Service Department, made up of tire engineers, which will give impartial, disinterested advice to everybody engaged in truck operation. A full statement of any tire problem from any truck operator in the world will bring a detailed reply from the Department giving the latest scientific information on the points involved. Making a complete line of tires, the company need favor no type above another. As the largest rubber company in the world it has a large staff of chemical and engineering experts which is available to the truck operator through the Technical Service Department.

NICOLETT-ELLIOTT

P. M. Nicolett, city engineer, went to the County Clerk's office last week and secured a marriage license. On Friday he made a trip to Abilene in his car, his friends not being apprised of the nature of his mission. He returned Sunday with his bride and they left Monday for Oklahoma where they will visit a few days before returning to Graham where they will make their future home.

The bride's name was Miss Mamie E. Elliott before her marriage to Mr. Nicolett. She is a charming young lady and will be welcomed to Graham. Mr. Nicolett has lived here some time and has many friends who congratulate him.

The Leader extends best wishes and congratulations.

SMALLEST AIRPLANE STARTER

Of several existing types of portable starters for airplane engines, probably the smallest, according to Popular Mechanics, is a simple French apparatus. Operating on the compressed-air principle, it spins a propeller shaft as a small boy spins a top. The operating mechanism is borne at the end of a ten-foot timber, and may thus be raised to the level of most propeller hubs. At the top of the timber is a wheel which engages, like an engine crank with the boss of the propeller. Around the grooved circumference of the wheel runs a cord. To pull the cord, and so spin the wheel and propeller, a cylinder and piston, and a small tank of compressed carbonic acid are provided at the side of the timber. As gas is released from the tank it enters the cylinder pushes up the piston, and so pulls the cord. The whole apparatus is easily folded and carried about the flying-field by one man.

**NATION'S GAS TANK
808,552,000 GALLONS**

Our gasoline stocks are still on the increase. We had about 808,552,000 gallons on hand June 1st at the refineries, which is approximately 61,321,000 gallons over the May 1st figures, also a record holding. It is evident that Standard Oil Company of New Jersey is now operating 75 per cent capacity, and thus reducing its output of refined oil products to meet the competition of increased gasoline supply.

CHINESE GIRL TO ATTEND TEXAS SCHOOL

Austin, Aug. 24.—There will be a Chinese girl enrolled among the students of the University of Texas during the next session, according to information received from Miss Nancy Swann, secretary of the Young Women's Christian Association in the Shantung field. Mosling Ma is the prospective student who has already sailed from China with the intention of entering this institution. She is a graduate of the Shantung Normal School and also of the Young Women's Christian Association Physical Training Normal School in Shanghai. She is making a specialty of physical training work. Miss Ma will be accompanied as far as San Francisco by Mrs. W. D. Boone, a missionary from Shantung, who is returning to the United States on a furlough. From San Antonio the Chinese girl will make the rest of the trip to Austin alone. She will dress in her native costume.

HANDLES 'EM WITH HIS HANDS

Last week a fishing party were down on the river seining and "treed" a whale of a cat under a rock and couldn't dislodge him. Finally Bill Wimberly said, "I'll take him, fellows," and went after him bare handed. Then man vs. fish staged an exciting contest and they went round and round in a desperate struggle. At last Wimberly got a strange hold around the fish's "neck"

choked him into submission and hauled him out of the net. This cat weight thirty-six pounds and big enough to swallow a full grown jack-rabbit without removing the ears. Wimberly brought the fish home and saved the head. He can show the signs of the combat still on his hands and tell you all about it.—Newcastle Register.

THE UNIVERSAL CAR

FORD DURABILITY began back in 1903 when Henry Ford started experimenting with Vanadium steel and heat-treating processes. He knew that a more exact temper of steel for motor car building must be worked out. Vanadium, it was learned, when added to molten steel, gives to that metal a greater toughness and adhesiveness. And now other alloys have been found which are superior to Vanadium. With the Ford Motor Company constant progress is the daily companion. The Ford products—Car, Truck, Tractor—grow in quality daily. Heat-treating tempers each part so that it will best withstand the wear or tear to which it is subjected. Ford chemists and analysts have created formulas and standard specifications for every individual part of the Ford car—not only for the steel but for everything from pneumatic tires to top.

Ford durability isn't a matter of accident, it is a matter of painstaking thoroughness in laboratory and factory. The Ford is a car of precision—of standardized values. Order your Ford car now. No matter how fast they may be made the demand multiplies faster. Order today for we can make prompt deliveries—Runabout, Touring, Sedan, Truck and Fordson

Sheriff Saye returned Tuesday night from Fort Worth where he had gone to put a prisoner in jail. The sheriff will be glad when the Young county jail is completed as it is a great deal of trouble to take prisoners to Fort Worth.

Many complaints are heard of thefts committed at the swimming place on the Brazos. The belief is that a band of boys go out from Graham and steal money, watches and clothing while the people are in the river.

Work was delayed on the jail building for a few days while waiting for the arrival of some of the cells. It was the plan to use some of the cells in the old jail but when they were torn out it was found that they were not safe to use. New ones were ordered which were slow in arriving.

The guessing contest on the weight of pumpkins in the window of the Sanitary Grocery closed Saturday. The closest guess was made by W. M. Harris at forty-eight pounds and five ounces. Considerable interest was manifested more than 200 guessing. Some guessed as low as fifteen pounds, others as high as 100 pounds.

Pat Wood returned Sunday from a three months' trip to Colorado. Pat and his family were in Pueblo at the time of the disastrous flood the last of May. He says the newspapers d'd not tell of half of the destruction and suffering at Pueblo. Pat spent several days in relief work after the flood. After the debris had been cleared away he remained to help rebuild the city and was at work there when he received a message to come home to assist in the new building movement that has begun since the Bunker field has been proved. He arrived home Sunday and began work on the McCa'n building on the northeast corner of the square Monday morning. His family stopped off at Paducah for a visit with relatives before returning home.

FINE OPOSSUM COUNTRY

The crop of "possums" seems to be fine in Young county this season. They are so numerous that they come into Shawnee park and mingle with the children. Recently Ralph Bowron found an old mother "possum" and several little "possums" in the park. He took them home but failed to provide a satisfactory house for them and they disappeared one night. He was so disappointed that he went out and found him another one which he kept for a few days but decided to release it so that it could be caught.

If persimmons are fine the "possum" hunters will have fine sport this fall when sweet potatoes are ripe.

11 ACTS OF LEGISLATURE TO BECOME LAW

Austin, Aug. 22.—Eleven bills were filed by Governor Neff with the Secretary of State today. Six of the bills bore the executive's signature while the other five were allowed to become laws without the Governor's signature.

The bills signed were:

Making an appropriation of \$165,600 for the first year and \$185,000 for the second year for vocational education.

Appropriation of \$10,000 to pay contingent expenses of the first called session.

Authorizing navigation districts containing a city of more than 100,000 population to acquire and develop wharves, docks and other facilities necessary to develop a port.

Validating certain bond elections and defining how bond issues shall be submitted.

Appropriating \$7,000 for printing of bulletins, forms and blanks in the department of education.

Authorizing the commissioners court of any county having an excess of 200,000 persons and containing a city of 160,000 inhabitants to establish a law library in such county.

Bills filed without the governor's signature were:

Making the librarian of the University of Texas custodian of printed reports of decisions of the courts of civil appeals, criminal appeals and the supreme court.

Providing for public weighers for counties where there are two or more cities or shipping points receiving commodities in large quantities.

Authorizing cities to permit obstruction of a street not part of a designated state highway by passenger trains not longer period than the law allows.

Authorizing the commissioner of the general land office to lease Green Island, three island groups north of Bird Island and South Bird Island and adjacent reefs in Laguna lake on the Texas coast for a term not exceeding fifty years to the National Association of Audubon Societies, to propagate, protect and conserve birds and bird life.

TO ALL SICK FOLKS WHOM THIS WILL HELP:

I am 53 years young. I have suffered with stomach trouble and constipation for the past twenty years, and could not eat a heavy meal without smothering.

I tried many kinds of medicines, doctors and one specialist but received only temporary relief.

On the last day of March, 1921, I began going to Dr. J. R. O'Connell, Chiropractor, and in three weeks I commenced to mend, and ate most anything I wanted. I am sure enjoying my eating now.

I gained 15 pounds in three months; everything I eat now digests easily without smothering or dizzy spells and my wife says I can do more work now than I could twenty years ago.

In all I have taken 60 Chiropractic adjustments at a cost of \$70, and I would not take \$1,000 for the good that Dr. O'Connell has done me.

G. H. NORED,
R. F. D., Box 58, Graham, Texas.

CONTRACT
13 IRONCLAD PACT

Dallas, Aug. 15.—The cotton contract is binding on all signers who did not send in a written cancellation for to August 1," said C. O. Moser, secretary of the Texas Farm Bureau association in discussing the cotton marketing plans of this organization. Very strict penalties are provided in the law for violations according to the contract.

Forty thousand farmers are said to have signed the contract. Only 1125 canceled their contracts prior to August 1. This means that more than 97 per cent of those who joined organization will remain in the pact which is the largest growers marketing association in the country.

New contracts are coming in today and these more than make up for the few that have been canceled. There are more growers in the country after the first of August than there were at the conclusion of the marketing drive. The success of financial arrangements nearly fifteen million dollars in advances to cotton growers is attracting new signers to the pact. The Texas Farm Bureau Association plans to handle cotton August 15.

CURRENCY DEPARTMENT

The Comptroller of the Currency, Washington, June 28, 1921, by satisfactory evidence to the undersigned, it has appeared that "The Graham National Bank" in the City of Graham in the County of Young and State of Texas, has complied with all the provisions of the Act of Congress "to enable National Banking Associations to extend their corporate existence, and for other purposes," approved July 12, 1882;

Now, therefore, I, D. R. Crissinger, Comptroller of the Currency, do hereby certify that "The Graham National Bank" in the City of Graham in the County of Young and State of Texas is authorized to have a license for the period specified in the articles of association, until close of business on June 30, 1921.

In Testimony Whereof witness my hand and Seal of office this (L.S.) Twenty-Eighth day of June 1921.

D. R. CRISSINGER, Comptroller of the Currency, Charter No. 5897, Extension No. 4022

CITATION BY PUBLICATION

THE STATE OF TEXAS To the Sheriff or any Constable of County—Greeting:

YOU ARE HEREBY COMMANDED to summon Harry Calvin Neal to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Young County, to be held at the Court House thereof, on the first Monday in A. D. 1921, the same being the 3rd day of September A. D. 1921, and there to answer a petition filed in said Court on the 15th day of May, A. D. 1921, in a suit numbered on the docket of said Court, wherein Harry Calvin Neal is Plaintiff and said defendant is Defendant and said petition alleges that Plaintiff and Defendant were lawfully married on or about the 1st day of March, 1919, and lived together as husband and wife until the 3rd day of January, 1921, when by reason of the conduct of Defendant toward Plaintiff she was forced and compelled to permanently abandon him, since which time they have not lived together as husband and wife.

Plaintiff alleges that during the time he and Defendant lived together as aforesaid, he was kind and affectionate to her and always provided for her support, but Defendant unkindly and cruelly treated him, and she repeatedly refused and would not cook his meals for him; and that her jealous temperament was of such a nature together with her cruel and tyrannical treatment, that Plaintiff was forced and compelled to abandon Defendant; that Defendant often struck and abused Plaintiff and called him the vilest kind of names; that said marriage relations between Plaintiff and Defendant still exist.

Wherefore Plaintiff prays the court that Defendant be cited to appear and answer herein and for judgment dissolving said marriage relations, for costs of suit and for such other and further relief, special and general, in law and in equity, that he may be justly entitled to.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, Willie Riggs, Clerk of the District Court of Young County. Given under my hand and the Seal of said Court, at office in (L.S.) Graham, Texas, this 3rd day of August A. D. 1921.

WILLIE RIGGS, Clerk District Court Young County, Texas.

THE STATE OF TEXAS To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon Blanche Nelle Bloom Givens by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Young County, to be held at the Court House thereof, in Graham, on the 1st Monday in September A. D. 1921, the same being the 5th day of September, A. D. 1921, and there to answer a petition filed in said Court, on the 3rd day of August A. D. 1921, in a suit numbered on the docket of said Court No. 6526, wherein A. W. Givens is Plaintiff and Blanche Nelle Bloom Givens is Defendant and said petition alleges that Plaintiff and Defendant were married on or about the 24th day of September A. D. 1919, and continued to live together until, on or about the 16th day of October A. D. 1919, when by reason of the cruel and harsh treatment and improper conduct of Defendant toward Plaintiff, he was forced and compelled to permanently abandon her, since which time they have not lived together as husband and wife.

Plaintiff alleges that during the time he and Defendant lived together as aforesaid, he was kind and affectionate to her and always provided for her support, but Defendant unkindly and cruelly treated him, and she repeatedly refused and would not cook his meals for him; and that her jealous temperament was of such a nature together with her cruel and tyrannical treatment, that Plaintiff was forced and compelled to abandon Defendant; that Defendant often struck and abused Plaintiff and called him the vilest kind of names; that said marriage relations between Plaintiff and Defendant still exist.

Wherefore Plaintiff prays the court that Defendant be cited to appear and answer herein and for judgment dissolving said marriage relations, for costs of suit and for such other and further relief, special and general, in law and in equity, that he may be justly entitled to.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

D. 1921, the same being the 5th day of September A. D. 1921, and there to answer a petition filed in said Court on the 25th day of March A. D. 1921, in a suit numbered on

the docket of said Court No. 6353, wherein Prentiss Seale is Plaintiff, and W. R. Shankle, is Defendant and said petition alleging that Defendant is indebted to Plaintiff in the sum of \$1500.00 by virtue of the sale and delivery to Defendant by L. C. McFall, at the special instance and request of the Defendant of two 500 barrel, Butler Bolted steel storage tanks of the value of \$1500.00, which were to be paid for by the Defendant within 30 days from the date of sale, to-wit: December 16th, 1920. That said tanks are now being used by said Defendant on an oil lease owned by said Defendant on a certain tract of land known as the "Dooley Lease" about four or five miles west of South Bend, Texas; That on the 16th day of January, 1921, payment of said sum was duly demanded but Defendant has failed and refused to pay the same or any part thereof. That prior to the filing of this petition, Plaintiff purchased said debt and claim against Defendant from L. C. McFall, doing business under the name of The Standard Tank and Steel Works, therefore Plaintiff shows his right to bring this suit. That Defendant be cited to appear and answer herein, and that Plaintiff have judgment for his debt of \$1500.00, interest, attorney's fees and all costs of suit, etc., etc.

YOU ARE HEREBY COMMANDED to summon B. H. Mason and J. E. McGee by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Young County, to be held at the Court House thereof, in Graham, Texas, on the First Monday in September A. D. 1921, the same being the 5th day of September A. D. 1921, and there to answer a petition filed in said Court on the 3rd day of August A. D. 1921, in a suit numbered on the docket of said Court No. 6528, wherein Morrison-Smith Lumber Company, a corporation duly organized and existing under and by virtue of the laws of Texas. W. C. Bell, R. E. Lynch, L. L. Kinnebrew, G. B. Johnson, Ed Matthews, and T. T. Garrett are Plaintiffs, and B. H. Mason and J. E. McGee are Defendants, and said petition alleging that Plaintiff Morrison-Smith Lumber Company, in February, 1921, sold and delivered to Defendants certain lumber, nails, and

other building material to be used and actually used in the construction of a two-story building upon East fifty (50) feet of Lots 1, 2, and 3 of Block 48 of the City of Graham in Young County, Texas; said building being commonly known as the "Dance Hall," and also furnished labor and drayage for transportation of said material; labor and drayage being of the aggregate value of Four Thousand Three Hundred Thirteen and 55/100 (\$4,313.55) Dollars, which amount Defendants agreed to pay said Plaintiff therefor; and to secure payment of said indebtedness said Plaintiff duly and seasonably fixed and now claims and holds a Constitutional and Statutory Materialman's Lien upon said building, as shown by Volume 2, at pages 137 and 138 of the Mechanics Lien Records of Young County, Texas.

That prior to April 1, 1921, H. M. Hatter and various other persons performed labor upon said building in the construction thereof, but were not paid therefor, and that to secure payments of the amounts owing to them, respectively, therefor, each of said laborers within the time and in the manner required by law, fixed a statutory lien upon said building to secure payment of the indebtedness so owing to him, such items of indebtedness aggregating Three Thousand Four Hundred Thirty One and 90/100 (\$3,431.90) Dollars; that for valuable consideration then paid to them, respectively, by plaintiffs other than said corporation, said laborers, respectively, sold and assigned to said plaintiffs said items of indebtedness and securities, respectively, as follows, viz: to W. C. Bell, \$1091.10; to R. E. Lynch, \$332.75; to L. L. Kinnebrew, \$302.95; to G. B. Johnson, \$118.25; to Ed Matthews, \$95.50; to T. T. Garrett, \$59.45; and also severally sold, assigned, transferred and conveyed to said plaintiffs the aforesaid liens securing same. That said liens are valid and subsisting liens upon said building securing payment of said indebtedness as hereinabove shown.

Wherefore plaintiffs sue and pray for judgment upon final trial for their debt as aforesaid and for foreclosure of their respective materialman's and laborer's liens as aforesaid; and for full relief, general and special, legal and equitable.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Cook is Defendant and said petition alleging that Plaintiff is a bona fide inhabitant of the State of Texas and has been for more than one year next preceding the filing of this suit, and has resided in Young County, Texas for more than six months next preceding the filing of this suit. That Plaintiff and Defendant were legally married to each other in the State of Georgia on or about the 6th day of November, 1896, and lived together as husband and wife until on or about the 9th day of April, 1921, when they separated. That as an issue of their said marriage they have two minor children to-wit: Lawson Cook, a boy age 8 years old, and James Cook, a boy 5 years old. That Plaintiff was at all times kind to her said husband and did all she could to make him a kind and loving wife, but that the defendant disregarding the solemnity of his marriage vows within the period of about three prior to their said separation began a course of cruel and harsh treatment toward this Plaintiff which lasted with slight intermissions until their final separation. That on divers occasions while Plaintiff lived defendant he was guilty of excessive cruel treatment toward this Plaintiff and showed a total disregard for this Plaintiff's health and life by refusing to maintain support for her as well as her minor children. That such conduct on part of defendant renders their further living together as husband and wife insupportable. Wherefore she prays judgment of the court dissolving the bonds of matrimony existing between Plaintiff and defendant and for the care and custody of her said minor children and for costs, etc.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, Willie Riggs, Clerk of the District Court of Young County. Given under my hand and the Seal of said Court, at office in (L.S.) Graham, this the 10th day of August A. D. 1921.

KILLING WAS NOT AT ALL NECESSARY

Austin, Aug. 23.—The penitentiary investigating committee authorized to investigate the killing of two convicts by penitentiary guards on the Eastham prison farm last July submitted its report late today. The committee recommends that the two guards, John Wells and Charles Whitley, be permanently dismissed from the system. They found that the killing was unjustifiable and that the guards could have overtaken the escaping men if they had tried.

The committee recommends that the case be called to the attention of a grand jury by the prison commission and that the guards be prosecuted if indictments are found.

The committee further recommends that guards be instructed not to shoot convicts unless by other means or recapturing them have been exhausted. The committee also recommends that a sufficient number of bloodhounds be kept for the purpose of overtaking escaped convicts.

Hard times and soft jobs don't go together.

STEPHENS-ELLIOTT

At the home of Rev. R. E. Boyle, on last Tuesday evening, at 8 o'clock, Mr. Elmer Stephens and Miss Vera Elliott were united in holy matrimony, Rev. Boyle officiating.

The groom is the son of Mr. and Mrs. H. H. Stephens, of Loving. He is an ideal young man of sterling worth; he is a man of excellent habits, and possesses those intelligent, sober and pious qualities that go to the making of a christian gentleman, and a model citizen. He was born and reared in Young county.

The bride is the charming daughter of Mr. and Mrs. J. G. Elliott of Indian Mound. She is a highly refined and accomplished young lady, who justly merits the high esteem which she has among her many friends. She has a lovable disposition and an ideal christian character. She, too, was reared in Young county, in Shinola and Indian Mound communities. Her parents having moved here from Cleburne, Texas, when she was quite small.

This young couple have a host of friends who wish them a successful and happy life.

They will make their home in the Indian Mound community.

BELIEVED POTATO BREAD CAUSED FOUR DEATHS

Laredo, Aug. 24.—Mrs. Fidela Garcia and three children are dead here today as a result of eating bread which police officials said was made with potato flour. Another child, a boy of 7, is reported to be dying.

Other members of the family who ate the bread are recovering, but a piece given by one of the children to a dog resulted in the death of the dog. Investigation by police revealed that the baker who made the bread used a sample of potato flour given him by an agent for a test. Samples of the fatal bread, together with a quantity of the flour, has been sent to San Antonio for chemical analysis.

WHY GO TO COLLEGE?

Where shall I go to college is the question that young people throughout the country are settling daily. There is another question connected with going to college that young people do not give enough consideration. The parents give it thought and young people should think more about it. The question is "Why go to college?" The Leader gives the following answers as given by J. M. Dawson of Waco, Texas:

Because it will lift you above the great company of mere hewers of wood and drawers of water, and liberate you from the bondage of ignorance, and the serfdom of inefficiency.

Because it will lift you to the hills of vision, where all life's horizons are expanded and you can see your neighborhood in the panorama of the world, and your life in the perspective of eternity.

Because it will deliver to you, the heir of the ages, the rich heritage of ideas and facts accumulated by the great minds of the past and make these treasures your very possessions.

Because it will help you to find yourself, the most valuable discovery you will ever make, and settle you in the divine course for which you were created and endowed.

Because it is a good investment in money, in that the paltry few hundred dollars expended will be capitalized for life in a way to yield large dividends, increasing your earning capacity many fold and enlarging your capacities for any opportunity among the world's opening doors.

Because it is an immense saving in time and energy for the advancement which you thus secure would cost you a thousand times as much to get in undirected effort outside of college walls.

Because you are living life in just as real while you are in college as you will ever live it—it is not merely getting ready to live, but while enlarging your life you are all the while carrying forward all the activities and relationships of life itself. The college is a world within itself—master it and there will be other worlds to conquer.

Because you will come into fellowship with some of the most inspiring forces of human life in the personality of teachers, and that touch will be a sublime power resting on you forever.

Because you will form friendships that will endure through the years and enrich the meaning of life.

Because you will be linked with that great and honorable host of thinkers, searchers, inventors and creators who through the centuries have delved and built and wrought in the fields of human knowledge, bringing to light more and more the wisdom and plan and purpose of God in the life and destiny of man and his world.

Any young man or young woman who wants a college education and is willing to work for it, can get it.

CAR JUMPS BRIDGE

THREE TEACHERS KILLED
Custer City, Okla., Aug. 20.—Three school teachers were killed instantly when an automobile in which they were traveling yesterday to Taloga from Weatherford, ran off a bridge, five miles northwest of Custer City, into Horst Creek. The victims, Floyd Butler, 21, and Ruby Bell, 19, of Taloga, and Lloyd Miles, 20 of Weatherford, were to teach at Taloga this fall. They had just completed a summer course at Southwestern Normal School, Weatherford.

A fourth teacher, Walter Duckett, 20, of Taloga, had both arms broken and suffered internal injuries. At the hospital here where he was taken it was said he was expected to live. Passersby, who viewed the accident, said the automobile failed to take a turn leading to the bridge.

"I want to be procrastinated at the next corner," said Mr. Erastus Pinkley to the street car conductor. "You want to be what?" "Maybe you all don't know what that means. 'Procrastinate' means to 'put off.'"

LAW FIRM IN NEW OFFICES

The law firm of Hinson & Ricker is now located in their new offices in the Graham Land Office building. The firm has four rooms in the building, being Nos. 201, 202, 203, 204. The members of this partnership are surely to be congratulated on their splendid showing. Mr. Ricker resigned as assistant county attorney on the 4th of August and will devote his entire time to the handling of civil business for the firm, while Mr. Hinson will continue as county attorney, and he has appointed Hon. John R. Moore to fill the vacancy as assistant county attorney. These the local bar as well as with the young gentlemen are popular with citizens of this section of Texas.

FORMER SOLDIER FOUND DEAD NEAR WEATHERFORD

Waxahachie, Aug. 24.—Clay Moore, 26 years old, was found dead at his home, twelve miles north of here, Friday, death being due to a pistol wound. Moore had been despondent several days his friends say. He served with the Thirty-Sixth Division in France, being shell-shocked and gassed.

J. MARION AND MISS MARY ELLEN BURKETT GIVE CIRCUS PARTY

The most unique and original party that has ever been given in Graham was held on the Burkett lawn last Thursday evening.

It was easy to see that this was to be a party different from all others when the invitations were received. They were the work of Burkett's pen and reflected credit on the artist. Each guest was requested to come representing and act the part of some well known character or type of people connected with a circus.

The front lawn was the show grounds for the main circus and was well lighted and seated, with the well known circus ring roped off in true circus style. Through the hedge in the back lawn was the carnival grounds with all the attractions and side shows, among which were Riodo and Diado the educated fleas, some Young county lobsters, and the much looked at one legged calf and a chicken from Bunker. To make it complete the big garage was converted into a dance hall over the door of which hung the time honored sign "The Days of 49 Dance Hall."

At eight-thirty the entire crowd was taken in cars to the corner of the square, where a parade was formed and marched round the square, through the National Picture show, and the skating rink. The yelping of the cowboys and girls, the Indians and Mexicans jabbering, the unknown tongue, mysterious actions of the Gypsy girls and Hindoo men, together with the gabbling and laughter of the chorus girls and actresses brought out one of the biggest crowds that has been seen on the streets of Graham in some time.

Once back again to the main show grounds the circus began. Burkett, dressed in evening suit with red top boots and silk hat to match officiated as ring master introducing each and every act with much eloquence and oratory.

The guests put the party over by acting their part better than even they themselves expected to.

The acts followed each other in dazzling succession to the merry strains of the Victrola brass band. There was Theodore's dive of death down the slender wire, the dances of the gypsies, chorus girls, and Indians, Buffalo Bill's sharpshooting, negro songs, Hindoo magic, the ever present Si and Sal Perkins and the village police. Then there were downs galore, tattooed men, Mexicans and the Queen of Sheba, jugglers, motordome riders, snake charmers and Oriental dancers.

Various refreshment booths dotted the lawn where soda pop, pop corn, hamburgers and the like were to be had for the asking while the merry go round and the roulette table added to the carnival spirit.

The guests lingered late and were unanimous in the decision that this was one of the most unique and successful entertainments ever attempted in the city.—By W. E. Simpson.

To the Creditors of Graham Drug Company:

You are hereby notified that I, F. Roebuck, as owner and proprietor of the Graham Drug Company, of the County of Young, on the 28th day of July, A. D. 1921, executed a deed of assignment, conveying to the undersigned all of his property for the benefit of such of his creditors as will consent to accept their proportional share of his estate and discharge him from their respective claims, and that the undersigned accepted said trust, and has duly qualified as required by law.

All creditors consenting to said assignment must within four months after the publication of this notice, make known to the assignee their consent in writing, and within six months from the date of this notice file their claim as prescribed by law, with the undersigned, who resides at Graham, Texas, which is also his postoffice address.

Witness my hand this the 10th day of August A. D. 1921.

NOTICE IN BANKRUPTCY In the District Court of the United States for the Northern District of Texas

In the matter of John William Moore, Bankrupt, No. m83, In Bankruptcy.

First Meeting of Creditors Office of Referee, Wichita Falls, Texas, August 23, 1921.

To the creditors of John William Moore, of South Bend, Texas, and district aforesaid a Bankrupt:

Notice is hereby given, that on the 23rd day of August A. D. 1921, said John William Moore was adjudicated bankrupt and that the first meeting of the creditors of the bankrupt will be held at my office, in the city of Wichita Falls, Texas, on the 5th day of September, A. D. 1921, at nine o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt, and transact such other business as may properly come before said meeting. 52c.
THELBERG MARTIN, Referee in Bankruptcy.

ANOTHER SESSION OF THE LEGISLATURE CALLED

At the adjournment of the Legislature Tuesday night Governor Neff called another session to convene at once for the purpose of making provision for the State Educational institutions and to transact such other business that may be submitted to them. It is hard for the public to know as yet, but the impression prevails that very little was accomplished at the session just closed.

Judge Barry Miller of Dallas in the closing hours read the following poem, but space was refused it in the House Journal:

Here lies a called session gone into the past,
In the cold dead hands, withered flowers enclasp'd,
Constituents neglected, a great state disgraced,
Thirty days wasted, a record defaced.

It robbed a few teachers, deprived them of hope,
And led the dear people "Amendments by Pope,"

While Curtiss of Tarrant and Bonham of Bee
Ran the steam roller and chortled in glee.

The warehouse department—Nacogdoches too
Were victims of Veatch's economy crew,

It saved a plugged penny, and squandered a pound,
It lapsed much in brains, but it made up in sound.

It strove hard to hinder all higher education,
And loved the poor farmer to verge of prostration,

Till one night in August, it passed out, alas!
It died, as it lived, in a great puff of gas.

SCHOOLS WILL GET \$13 PER CAPITA

Austin, Aug. 23.—At a meeting of the State Board of Education today the State apportionment was fixed at \$13 per capita. The total number of scholastics in the State was reported by the State Superintendent as 1,298,292. The estimate of expenses for the purchase of free textbooks for the scholastic year of 1920-21 was given as \$1,681,608. The balance in the textbook fund on Sept. 1 was estimated to be \$300,000. The board set aside \$1,381,608 as a textbook fund, the board being required to include each year the balance in the textbook fund to meet the expenses of the ensuing year.

The products of the 15c tax for textbooks was estimated at \$3,044,563. Deducting from this the amount set aside as the textbook fund it was found that from this 15c tax there would remain in the available school fund for the session of 1920-21 \$2,662,959.

4-INCH PIPE LINE REACHES OWENS WELL

TRAIN SERVICE, WICHITA AND

Graham is now connected with Wichita Falls and Breckenridge by rail. Few roads have been planned and built in shorter time than this one. Only a few months ago Mr. Kell of Wichita Falls made a proposition to the Graham Chamber of Commerce which was promptly accepted. Work began at once and in record time the road was completed to Jinkurn, connecting at that point with the Hamon road.

The first train from Wichita Falls to Breckenridge through Graham ran Saturday. The following schedule prevails at present:

Passenger train leaves Wichita Falls 7 a. m., Graham 10:55 a. m., arrive Breckenridge 1:07 p. m. Returning, leave Breckenridge 1:40 p. m., Graham 4 p. m., arrive Wichita Falls 7:20 p. m.

Mixed train—leave Wichita Falls 1:30 p. m., arrive Graham 7:30 p. m. Leave Graham 6 a. m., arrive Wichita Falls 1 p. m. Another mixed train would leave Graham at 12:30 p. m., reach Breckenridge at 4:30, returning, leave Breckenridge at 5:30 and reach Graham 9:30 p. m.

This is known as the "oil road." Soon after the late Jake Hamon became interested in the oil game he had dreams of this road. He built the road from Ranger to Jinkurn. To Frank Kell is due the credit for the extension of the Wichita Falls Southern from Newcastle to Jinkurn.

Through train service to Ranger will probably be arranged soon. Many think that before many months there will be through service from Wichita Falls to Waco over this line.

The building of this road means much to the oil, coal, cattle and farming interests of this section. No better clay is found any where than along the right-of-way of this new road and it is hoped that brick and pottery plants will be opened here.

Breckenridge is preparing at an early date to celebrate the coming of this road which makes the third that has been built into that magic city within the recent months. Graham was the first point reached and the first to celebrate the coming of the new road into this section. South Bend and Eliasville also observed the completion of the road with proper ceremonies.

TWO GRAHAM CITIZENS RECOVER STOLEN CARS

Several days ago a man in Goldthwaite was trying to sell a car. The prospective buyer became suspicious of the actions of the man offering to sell the car. In examining the car he found a card with Mr. Bradfield's name and address. He communicated with Mr. Bradfield and it soon developed that the car belonged to him.

The car is being returned to Graham.

W. C. Bell's Ford that was stolen some time ago was found in Archer county and has been returned to Mr. Bell. The Leader did not learn of the details leading up to the recovery of the car.

Mr. Bell lost two cars and understand the car recovered is the last one that was stolen.

KANRED WHEAT MAY BE BOUGHT AT \$1.75

Eggar Kemp, County Agent, stated in an article last week that the price of Kanred wheat for sowing would be \$2.40 a bushel. Since writing the article he has been able to get a better price and asks The Leader to state that wheat growers who make application at once for this wheat will get it delivered to Young county for \$1.75 a bushel. Mr. Kemp is anxious to get in touch with every one interested in this wheat immediately.

GRAHAM TO BRECKENRIDGE

IMPERIAL POTENTATE TO VISIT WICHITA FALLS IN SEPTEMBER

Ernest A. Cutts, Imperial Potentate, Ancient Arabic Order Nobles of the Mystic Shrine, of Savannah, Georgia, will make a tour of Texas about the middle of September, visiting all of the ten Texas Temples, and constituting Maskat Temple at Wichita Falls.

Mr. Cutts was elected Imperial Potentate during the Imperial Council Session held at Des Moines, Iowa, in the month of June.

The Temple at Wichita Falls was instituted by Past Imperial Potentate Ellis Lewis Garretson, of Tacoma, Washington, on August 21, 1920, under the most favorable circumstances. The attendance at the ceremonial held at that time was equal to a circus crowd. Another big day is anticipated when the Charter is delivered by Mr. Cutts. The new Temple now has more than twelve hundred members, and is growing rapidly. The indications are favorable for a large class during the month of September.

Mike H. Thomas, well known Mason and Shriner of Dallas, is arranging the Texas Itinerary for the Imperial Potentate.

Walter D. Cline, Potentate of Maskat Temple, is at present visiting Louisiana, but will return home for the September meeting.

F. H. Muncie Has Plane In Graham

Believing in the future of Graham as an oil city, F. H. Muncie an experienced oil man as well as aviator, has made Graham his headquarters and is here with his airplane. He has been doing good business for several days taking people for a ride.

Mr. Muncie has been helping for several months to develop the South Bend oil field but for a while will operate his plane out of Graham. He is familiar with airplanes and can pull all the "stunts" that any of the aviators can. He is a safe pilot and only indulges in the aerial stunts for the pleasure of his spectators and those passengers who insist in experiencing the thrills of the stunts.

CLARA HAMON MARRIES DIRECTOR OF HER MOVIE

Los Angeles, Aug. 23.—Clara Smith Hamon was married into the movie colony today.

The girl, who was acquitted of the charge of murdering Jake L. Hamon, Republican national committeeman and Oklahoma millionaire, is now Mrs. John W. Gorman.

Gorman directed the film story of Clara's life.

Clara today was on her honeymoon with her husband her murder trial indirectly won her.

"She is a wonderful woman—wonderful woman," John W. Gorman, who last night became her husband at a simple wedding ceremony, exclaimed to reporters. Gorman was directing Clara's production of a film based on her trial for alleged murder.

"I met her, of course, purely in a business way during the early part of the filming of her picture," he said. "But it was not until she played the court room scene—the murder trial climax—that I fully realized her wonderful power and her depth of character."

Clara after the ceremony had little to say. "I am very happy," was her chief comment.

Clara gave her age as 29 and Gorman as 39 in securing the marriage license.

TWO STORY BRICK BEING ERECTED ON CORNER OF SQUARE

Mrs. McCain has resumed work on her two story brick on the northeast corner of the square. The foundation was laid some time ago but there was a delay of a few weeks in erecting the building. A heavier foundation has been put in and the brick work began Monday.

The lower floor will be used for business houses and the second story will be arranged for office rooms. This is one of the best locations in the city and Mrs. McCain is already receiving applications from business people who would be glad to secure a lease on the building when completed.

WOMAN MAY DRESS WELL ON ONLY FIVE THOUSAND PER YEAR

New York, Aug. 21.—Mrs. William P. Burden, who is called "the best dressed woman in Newport," said today \$5,000 yearly is all a woman needs to be well dressed.

Mrs. Burden laughingly denied stories that she never wears a dress twice. She said:

"I deny the soft impeachment. I believe in wearing dresses as long as possible, especially in these times." She was asked about the figures set years ago for a member of society who would keep up with the fashions. It was said that to "dress perfectly" \$75,000 a year was necessary. To "keep well to the forefront of society," \$25,000 a year was a maximum and \$10,000 was needed to "dress well."

"These figures are all too high. I believe \$5,000 is sufficient for any woman of means to dress well on."

SHERIFF CONTINUES TO RAID "CHOC" DENS

The Sheriff's department has been busy cleaning up the "booze" joints in the county this week. Monday Deputy Black raided a house about one mile west of town and destroyed fifty gallons of "choc" and confiscated the still. On his way back to town he stopped near the Salt Creek bridge and emptied out nearly fifty gallons more of the same kind of beer.

Monday night a man was arrested at the Wellington hotel with some corn whisky in his possession. Sheriff Saye took him to Fort-Worth Tuesday and landed him in jail.

Yesterday a negro woman claimed that her husband had stolen her rings and was preparing to leave town. When both were brought before the sheriff she did not want to file a complaint against him. The scene was annoying to the sheriff but amusing to the large number of spectators who gathered around the sheriff's office.

WHEN ITS HOT ITS VERY HOT IN GRAHAM

Whenever it rains, turns cold, or gets hot people are inclined to say that it is worse than ever before. For several weeks it has been remarked that this is the hottest weather we have ever had. If a vote of all the old settlers could be taken we believe that all would agree that this has been the longest drawn out "hot" spell we have had in many years. Many times it has been as hot for a few days but this has continued for several weeks and the end is not yet in sight.

Very little cotton or fall feed will be raised on account of the dry weather. Grass is doing no good and unless it rains soon the pastures will have very little grass for the winter. In some sections disastrous fires have destroyed hundreds of acres of grass. Some one said recently that all dry spells had been broken up by a rain and here is hoping that this one will be broken soon.

BRIDGE ACROSS CLEAR FORK MAY BE REBUILT SOON

G. G. Summers of Wichita Falls and L. A. Massey of Granfield, Oklahoma are in the city looking after interests of the Graham Bridge Company. Soon after the bridge was constructed last spring a heavy rise in the Clear Fork lifted the bridge from the piers rendering it impassable. This bridge was built across the Clear Fork between South Bend and Eliasville. It is badly needed and those who use this road are glad that the bridge is to be rebuilt.

The gentlemen mentioned above are working on a plan to rebuild the bridge out of steel so that it will be strong enough to withstand any flood that may come.

A meeting of the stockholders will be called soon and it is hoped that plans will mature for the immediate construction of the bridge.

L. D. WILSON OF RED TOP BRINGS FIRST BALE COTTON

Just as The Leader went to press last Thursday, August 18, L. D. Wilson of the Red Top community brought in the first bale of cotton of the season. Mr. Wilson raised this cotton on the Zeal Steen farm. The Graham gins were not in readiness to gin cotton on the day it was brought in but the Anderson Gin Company ginned it Friday.

The John E. Morrison Company bought the bale paying 12 cents for it. Secretary McConnell of the Chamber of Commerce raised a premium of about \$20.00 for Mr. Wilson.

Cotton is opening fast, due to the continued dry weather and the picking season will soon be on in earnest. Cotton prospects are poor at present and it is the general opinion that Young county's cotton crop will be light this year.

Live S. S. Class Christian Church

Mrs. Geo. W. Miller is the efficient teacher of one of the liveliest classes in the First Christian church. She has a class of fourteen girls in the first year of the intermediate department.

They have a class meeting on each Thursday morning at which all business is transacted and during this hour a story is told or read from one of our best writers. The class enjoys one social each week such as breakfast on the mountain, swimming parties, etc. One of the most enjoyable meetings of the class was when it met recently with their teacher and sewed for charity. This seemed to give more genuine pleasure than any other form of work or play.

Last Friday afternoon the class motored to Mrs. Treue's east of Graham and had a delightful time. After arriving at Mrs. Treue's supper was served. Several large watermelons added to the pleasure of the evening. Mrs. Treue served three gallons of ice cream.

The girls slept out doors and enjoyed the novelty. Saturday morning the girls prepared a campfire breakfast. Many pictures were taken with kodaks.

The following girls compose this live class:

Eugenia Carlton, Kathrine Morris, Ruth Wood, Esther Ruth Russell, Nona Mae Pratt, Mary Elder, Louise Bell, Roberts Reed, Ruth Casburn, D'xie Harmon, Vivian Dickenson, Johnnie Wright of Odessa was with the class on their picnic last Friday.

R. E. Lynch and son, Robert, and Gaston Hallam went to Albany last Friday to join a fishing party. They returned Sunday.

SEVERAL NEW RIGS THIS WEEK IN BUNGER SECTION

PREMIUM PAID ON CRUDE BY SOME BUYERS

Further improvement in the crude market was announced Saturday when one of the largest independent takers of oil announced an increase of ten cents in their premium, making it 20 cents a barrel. It is reported that some buyers are paying 25-cent premiums. There will probably be no rapid advances in the price of crude but it is the belief that the bottom has been reached.

100 MEN AT WORK INSTALLING GAS SYSTEM IN GRAHAM

The Ranger Gas Company now have about 100 men at work installing the gas system in Graham. Mr. Owen, the manager, hopes to have the plant in operation before many weeks.

Applications are being received already for gas and the company is filing these in numerical order. When the lines are in, connection will be made in the order in which the applications are received. The first applications will receive first consideration.

The company will strive to render the best service and will need the co-operation of the citizenship. One means of co-operating is to have the houses piped and ready for connection when the lines are finished. Practically all the new houses being built are being piped as built so that there will be no delay in making connection.

E. C. REED AND FAMILY WILL LIVE IN GRAHAM

Mr. E. C. Reed, who has recently returned from a trip to San Diego, California, informs The Leader that he has decided to make Graham his home and expects his wife and daughter to join him here very soon.

Mr. Reed spent several years with the Prairie Oil and Gas Company in the Oklahoma fields and has no hesitancy in predicting that Young county will develop into a field that will be the center of attraction for the eyes of the oil world.

He feels that production in this county is in its infancy, and that the oil possibilities are unlimited. Mr. Reed was impressed with the substantial way in which Graham was built up, the cleanliness of the town and the good schools were factors which caused him to decide to cast his lot among us.

MRS. RIGGS HONORS MISS WELLS, LAREDO

Mrs. Willie Riggs entertained last Wednesday night in honor of her cousin, Miss Juanima Wells of Laredo, Texas, with a slumber party. After a merry evening the guests were invited into the dining room where a delicious ice course was served. At a late hour they were treated to a watermelon feast on the lawn.

After a chicken breakfast next morning the girls voted Mrs. Riggs as a most entertaining hostess. Those enjoying her hospitality were: Martha Mae Morris, Kate Robertson, Frances Bell, Sadie Eddleman, Mary Wallace, Marguerite Elledge and the honoree, Juanima Wells.

J. O. McCloud is spending the week in Bryson.

The true status of the Ross and Tyrrell well on the Owen land on survey 38 became known Wednesday morning when the pipe line reached the well and began taking the oil stored on the lease since the well came in on the 11th. This 4-inch line will serve the Bunger field some time and shows the confidence the Texas Company has in the future oil possibilities of this section. The well has been making 220 barrels by gauge with the gas pressure holding up and the well flowing by heads under a strong rock pressure.

From all indications the Bunger field will soon be getting a fine play as several deals have been made this week and several more are pending.

A rig is being erected on the land owned by R. B. Whittenburg, J. M. Taylor survey, by Applegate and Harlan, who are to drill a well on the south part of the survey.

Ross and Tyrrell have a rig on the offset 40 acres to the Owen well belonging to Cheney and DeFreest and will soon be at work on the Owen No. 2. They also have a rig going up a quarter of a mile southeast of the Askew on the acreage formerly owned by the Corden people.

Another rig is being erected on the Orrell survey on acreage owned by C. W. DeFreest. An extensive drilling campaign in the Bunger section has been planned by Ross and Tyrrell who came into this field and opened a pool of oil on their first venture. We admire their courage and wish them success in their big plans.

The Askew has had considerable trouble and an effort is being made to drill the iron out of the hole before seating the ten-inch casing. A test of the 1900-foot sand in this well will be made soon.

The Lisle well has reached a depth of 1650 feet and is reported to have a fishing job.

The Driver well north of the Owen has set a new string of casing as 1245 feet.

The Paragon on the Holt survey is running six-inch casing to get through the collapsed ten-inch casing swedged out.

The Barnes Production Company are still trying to seat the ten-inch casing below the cave at 1850 feet before drilling deeper.

The Casey-Mercier, Jeffery No. 1, four miles north of Graham, is drilling around 2200 feet. This well ought to have a good showing before going much deeper.

The Graham Townsite Oil Company will finish the rig for well No. 1 today. This rig is just west of the city limits.

Farmer Well

The 500 Oil Syndicate that took over the Farmer well some time ago have cleaned out the old hole which was about 1050 feet and are now drilling. The Syndicate plans to rush the well to completion. This well is located northeast of Graham and it is the general belief that before many months that the city will be surrounded with producing wells. The 500 Syndicate is in new territory but everything looks promising. The officials of the Syndicate are very optimistic over the proposition and are putting their money into it.

Fay Marshall and family returned Tuesday from an extended trip to Colorado. Mr. Marshall combined study and pleasure while away. He did some special work in law in one of the noted law schools. The trip was made in his Dodge and he experienced only minor car troubles. It was an enjoyable trip to every member of the family.

Sam Copeland is enlarging and improving his residence on Cherry street. The appearance of his house will be greatly changed and he will have a modern home when completed.

We knew something was the matter with some folks we knew, but didn't know just what. A San Francisco doctor, at a national convention of medical men, said that "too many baths, too much personal cleanliness, is breaking down the health of the American public." He declared the rapid increase in skin lesions was due directly to the cause of bathing too much. Many of us know now why we never have skin trouble.

The Leader received this week the August number of the Rock Island Magazine. It is a beautiful 84-page magazine full of good reading matter. An article of special importance to this section is found on page 4 written by A. Jackson, Agricultural Agent on Johnson's Poultry Farm. Many of our readers are familiar with Johnson's 125-acre poultry farm at Bowie, Texas.

WHEN WEEDS NEED CUTTING

A citizen of Paris received notice last week from the sanitary officer to cut weeds on certain property owned by him. The officers said several ladies had complained that the weeds were so high that their skirts caught on them. The property owner conceded that when weeds got high enough to interfere with ladies' skirts they were certainly high enough to be cut down.—Paris News.

SAFETY FIRST

There is perhaps, no movement of modern times which is of greater importance than that which has popularly been known as the "Safety First" campaign.

From a relatively small beginning it has grown to a nation-wide effort to arouse everybody to the exercise of caution and precaution.

There is nothing so regrettable, nothing so much to be guarded against as the unnecessary loss of human life and limb, the impairment of physical strength and the hardships and suffering which so often result.

It would not take 150 Edisonian questions to get the truth about Harding's "association of nations." The whole bunch could be answered with: "There ain't such a thing."

President Harding has asked Secretary of State Hughes to head the American negotiating commission at the forthcoming armament conference. Upon Secretary Hughes' shoulders will fall the responsibility for making all arrangements for the conclave.

The Dallas county grand jury has asked the judge for half time sessions, inasmuch as there is not enough crime to keep it busy for regular full time sessions. "There is too much time for the jurors to take naps," reports the foreman in his request for shorter sessions. This grand jury is wanting to employ methods similar to those employed by the courts.

Edgar Kemp, County Agent for Young county, is rendering a distinct service to all live stock and agricultural interests of the county. At this particular time he is trying to interest all the wheat growers in selecting the best seed for sowing this fall. Last week's issue of The Leader carried an important article on the production of wheat written by Mr. Kemp. If you did not read the article in The Leader see Mr. Kemp for a copy of it. He had a large number of the article run off in circular form and is anxious for every wheat grower in the county to get a copy. Mr. Kemp is one of the best informed agents in the State and is anxious to render the best service possible to the county. He will be glad to help, aid and assist any farmer and stock raiser in the county. He is at your service and wants you to call on him when you think he can render you any assistance.

TURK STILL UNCURED

Hope that an effective curb had been placed upon the Turk is dispelled by reports of new massacres by the Ottomans in Armenia and other parts of the Near East. Greeks have been slain, but the Armenians, as usual, are the chief victims. It appears as though old jealousies and fears are to be permitted to give the Turks unrestrained license to kill and burn in the Far East, as he has for centuries.

The sinister aspect of the situation in Armenia is that the Russian bolsheviks are giving encouragement to the Turks, who are thus prompted to maintain an attitude of defiance to the allied nations. The Turkish nationalists are the outlaws of western Asia. That they are permitted to continue their depredations unrestrained is not an encouraging omen for the future peace of Europe.

"Hi-jackers" and "Stick-up men" will quit their business promptly when it fails to pay. That day will come when we abandon the stupid but deep rooted habit of carrying money in our pockets. As it is, the average highwayman is making a eeeee eeeee eeeee ttiCMFYW safe bet that he will be paid for his trouble if he commands any chance passer-by to "stick-em-up."

We talk of hard times but there is, no doubt, as much or more money carried in pockets now than during the flush months of the recent past. By carrying money in our pockets, we endanger our lives as well as the likelihood of losing our money. An acquaintance of the writer was killed recently by two young men who knew that the man carried a few hundred dollars in his pockets all the time. The man who was killed thought it was safer to carry his money in his pocket rather than deposit it in the banks. It is always unsafe to carry money in the pocket.

Graham has three good strong banks and if everyone, who has his money in his pockets or stored away in his home, would deposit it in these banks he would have better protection and his money would be put in circulation. The more money there is in circulation the better times are. It is not our intention to say that our people are hoarding large sums of money but there are, no doubt, many small sums of money in pockets that ought to be deposited so that it could be put into circulation. It is stated that one dollar in circulation will turn sixty-four dollars worth of trade in a year. When money is deposited in the bank it is put to work at once and every one knows that the more money in circulation the better the times.

Deposit your money in the bank for the protection of your property, your life and the welfare of the community.

STRUCK A SNAG

Henry Ford recently bought and is operating a railroad that runs from Detroit, Michigan, to Ironton, Ohio. The first thing Henry did was to raise the wages of the employees of the road, cut out unnecessary expenses and gather up a world of material that the former managers were allowing to go to waste. From this waste alone Mr. Ford says he will realize a good profit on his investment. He also greatly shortened the time required to haul a train over his road, beside carrying more cars at less expense.

The result of his experiment convinced Mr. Ford that the rates over his road were too high, and he announced that he would make a reduction. A very material reduction in the rate on coal was announced.

But Mr. Ford has struck a snag very unexpectedly, and his rate cut will not be put into effect. The Interstate Commerce Commission has interposed its objection, and has told Mr. Ford that the old rates will be continued until January first anyway.

However much the public may sympathize with Mr. Ford's effort to give them lower freight rates, the coal men, especially, and the railroad managers will applaud the action of the Commission. As they see it, just because Mr. Ford is able to run a railroad in a business way as a business proposition and do it at less expense than they have been running other roads is no reason why he should be permitted to give the public the benefit of the saving he has made. For if Henry Ford is permitted to haul freight cheaper than they are hauling it his road is going to get the business or else they will have to meet his rates. Therefore they applaud the action of the Commission in compelling Mr. Ford to charge more for hauling freight than he thinks ought to be charged for hauling it. He says that he can make money on a cheaper rate but that is nothing to the Railroad Commission. But still it does seem that if the Commission is going to force Mr. Ford to charge a higher rate than he says is necessary to make a legitimate profit on his railroad, the Commission ought to inquire why other railroads can not operate as efficiently as Mr. Ford is operating his railroad. And again, it seems hardly fair to compel Mr. Ford to maintain too high a rate just to enable other roads to charge a high rate even if they actually require one. The public will wonder why Mr. Ford is not permitted to give it the benefit of whatever saving he is able to make in the operation of his road. But Mr. Ford's cheap rate is hung up on a snag, and there you are.

The chairman of the shipping board says President Harding wants administration to be known as the one which re-established the American merchant marine. The said, marine, however, was given a pretty good impetus in that direction several years ago.

'DE DUCKS' AND FARM PROFITS

An Iowa farmer recently sold his corn crop, and the very same day applied to his local banker for a loan wherewith to tin himself over a lean period.

"But," the banker said "I do not understand why you should want to borrow money when you have just shipped your corn. What did you do with the money?"

"De ducks got it" replied the farmer.

"What do you mean by 'de ducks'?"

"Well" the farmer explained "I shipped the car to market and sold it for 52 cents a bushel. They de duck freight, that left 31 cents; de duck 1 per cent commission, that left 30 cents; de duck elevator charges, that left 27 cents; de duck husking, that left 15 cents; de duck hauling, that left 5 cents; de duck the hired man's wages from that and you're a darn sight better farmer than I am if you can find anything left."

A SCHOOL BOY'S IDEA OF COURTESY

Treating a teacher like a rich uncle so that you may get part of his coin is not courtesy—that's for-sight.

Helping a pretty girl up the stairway, holding her coat, and carrying her books is not courtesy. The first two are pleasure; the last is ordinary politeness.

Listening to the dry, long, drawn-out speech of a half asleep speaker in assembly without throwing a book at him is not courtesy—that's the height of forbearance.

Offering a seat to a visitor when he comes in is not courtesy—that's mere duty.

Courtesy is an act while his prompted by nothing in the world but human kindness, which comes from the heart of good will, and is full of love of being kind.

THE NUMBER SEVEN IN THE SCRIPTURES

It seems that the number seven has always had some peculiar significance. On the seventh day of the seventh month of the seventh year a holy observance was ordained to the children of Israel, who feasted seven days, and remained seven days in the tents. The seventh day was supposed to be a Sabbath, or rest for all, and at the end of seven times seven there was to be a jubilee. Jacob served seven years to win Rachel for his wife. Noah had seven days warning of the flood. Nebuchadnezzar lived seven years as a beast. The Saviour spoke seven times from the cross on which he hung for seven hours. In the Scriptures there are seven resurrections mentioned. In the Lord's Prayer there are seven petitions. There were seven mysteries of apocalypse revealed in seven churches in Asia. In Revelation there is described seven lambs before seven spirits of God, seven golden candlesticks, a book with seven seals, seven angels, seven vials of wrath, seven thunders and a dragon with seven heads—Columbus Dispatch.

CANDLE TO BURN 5,000 YEARS FOR CARUSO

An eighteen foot candle that can be burned on every all-soul's day for five thousand years, is being made in New York as a memorial to Enrico Caruso from the inmates of an orphanage to which the Metropolitan opera start contributed \$10,000 a year for many years. It will be placed in the church of Madonna of Pompeii at Naples, Italy.

Antonio Ajella, maker of the candle, has erected a derrick in his shop by means of which the candle is dipped thrice daily into boiling tallow. It will be completed in ten weeks, and will weigh one thousand pounds. Mr. Ajella has figured that the candle would burn continuously for thirteen years and seven months.

To Kipling, it is said, an American once wrote: "Hearing that you are retailing literature at \$1 a word, I enclose \$1 for a sample."

Mr. Kipling complied with 'Thanks' and kept the dollar. Two weeks later the American wrote: "Sold the 'Thanks' anecdotes for \$2. Enclose please find 46 cents in stamps, being half the profits on the transaction less the postage."

Doctor (complacently): "You cough more easily this morning."

Patient (querulously): "I ought to; I practiced nearly all night."

"Who was the first man, Bobby?"

asked the teacher.

"George Washington."

"Why, Bobby, you ought to know better than that. It was Adam."

"Aw, I wasn't countin' fore genes."

France is reported as moving to make marriage compulsory. The best way to make matrimony attractive is to make it possible for a man to be assured of being able to care for his family.

TRAVELING SALESMAN FEEDS MANY HUNGRY PEOPLE ON TRAIN

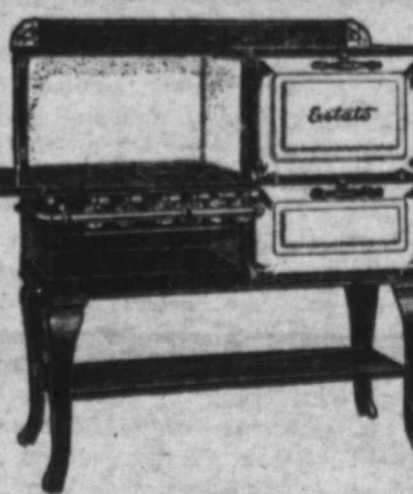

Monday night the Rock Island train which leaves Fort Worth at 6:00 p. m. was delayed three hours about three miles out of Bryson by a stalled freight train which blocked traffic.

Most of the passengers were en route from Fort Worth and when midnight came practically all of the forty-five passengers on the delayed train were suffering pangs of hunger. Luckily Mr. F. C. Pearce, a salesman for the H. J. Heinz Co., manufacturers of the famed "57" varieties, was on the train and had in his sample case sufficient baked beans and salad dressing, sauer kraut, etc., which, with crackers purchased from the "butch" on the train, made a very enjoyable and highly appetizing meal, which was highly enjoyed and appreciated by the hungry passengers.

Mr. Pearce acted as chef and Tommy Costello from the Capitol Hotel played the part of waiter. The passengers were unanimous in declaring that they would be perfectly willing to have the train stalled every night providing such conditions prevailed.

ELDER COWAN IN MEETING AT BUNGER

Elder J. N. Cowan of Robstown, Texas, closed a meeting for the Church of Christ at Bunger this week. Some of the members of the Church of Christ in Graham attended the meeting and say that Elder Cowan is a great preacher. He knows the Bible, and, according to those who attended the meeting, he is always able to recall the particular Scripture needed to explain the subject under discussion.

CITATION BY PUBLICATION

THE STATE OF TEXAS
To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon Max Pomerantz by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 20th Judicial District, but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 20th Judicial District to appear at the next regular term of the County Court, to be holden at the Court House thereof, in Graham, on the First Monday in October, A. D. 1921, the same being the Third day of October, A. D. 1921, then and there to answer a petition filed in said Court on the 9th day of August, A. D. 1921, in a suit numbered on the docket of said Court No. 895, wherein Guaranty State Bank of Graham, Texas, (J. C. Lovelace, President) is Plaintiff, and Max Pomerantz is Defendant and said petition alleging that heretofore, to-wit: on the 18th day of May A. D. 1921 the defendant made, executed and delivered to this plaintiff his certain promissory note for the sum of One Hundred (\$100.00) Dollars, bearing date on the day aforesaid, payable to the order of plaintiff at Graham, Texas, and due on the 16th day of July, A. D. 1921, bearing interest at the rate of ten per cent per annum from maturity until paid, and providing for ten per cent additional on the amount of principal and interest then due as attorney's fees if placed in the hands of an attorney for collection or if suit is brought on same, whereby defendant became liable and bound to plaintiff and promised plaintiff to pay him the sum of money in said note specified, together with all interest and attorneys fees due thereon according to the tenor and effect thereof.

That plaintiff has placed said note in the hands of Hinson and Ricker attorneys, for collection and has contracted to pay them the ten per cent stipulated in said note, the same being reasonable and the usual customary fee.

That said note is now past due and unpaid, and defendant, though often requested, has hitherto failed to pay the same, and still refuses to pay the same, or any part thereof, to plaintiff's damage in the sum of One Hundred (\$100.00) Dollars.

Plaintiff further alleges that defendant made and executed to a chattel mortgage, dated January 18, 1921, on one one-half (1-2) Ford Truck, Engine No. 34043, a copy of which is attached hereto, marked Exhibit "A" for the purpose of securing said note.

Wherefore plaintiff prays that court that defendant be cited to appear and answer this petition, and he have judgment for his debt One Hundred (\$100.00) Dollars, interest and attorneys fees, for costs of suit, and for the foreclosure of his lien as specified in the chattel mortgage hereto attached, and such other and further relief, speed and general, in law and equity, to which he may be justly entitled to, and duty bound will ever pray.

Herein Fail Not, but have been said Court, at its aforesaid regular term, this writ with return thereon, showing how you have executed the same.

Witness, W. H. Kennedy, Clerk of the County Court of Young County, Texas, this 25th day of August A. D. 1921.
Given under my hand and the seal of said Court, at office of said Court, at office of (L.S.) Graham, this, the 10th day of August A. D. 1921.

SUPREME FLOUR--The People's Choice
Time shows development from small things to great. Not but one quarter of a century ago "SUPREME" was only a community flour; today it is used in thousands of homes in Texas as well as in foreign lands. Then—the question—why its growth? Because of its unflinching uniformity. This Company has worked conscientiously, carefully, and painstakingly to excel in quality. You are due it to yourself to take advantage of an extraordinary quality flour when offered. "SUPREME" is no longer a chance, but a sure hit.

WILBUR WEAVER IS BURIED WITH MILITARY HONORS

One of the largest attended funerals ever conducted in Wise county in many years, was that in which the body of Rosser Wilbur Weaver was consigned to its final resting place in the city cemetery last Thursday afternoon at 2 o'clock with military honors. The business houses closed from two to four and most of Decatur's people paid its respects to this brave soldier. The remains were disinterred in Rheims, France, and shipped to Decatur for burial. They arrived Tuesday evening and were met at the station by a large crowd of friends. They were removed from the station by undertakers Man and Christian and escorted to the Methodist church where they laid in state, guarded by soldiers, ladies of the Red Cross and friends of the family until Thursday, awaiting the military funeral, which was a most beautiful and impressive one. After the large congregation had been seated the ex-soldiers and sailors of the World war filed in in full military garb, members of the Decatur and Fort Worth American Legions carrying flags, under the command of Capt. Steve A. Lillard, assisted by Capt. Archie Cates, with Lieut. R. D. Morrow in charge of the firing squad; all were seated at the front of the auditorium, which had been reserved for them; the family came in after the soldiers. It was a time for memory and tears, for patriotic and sacred emotions when Rev. S. C. Riddle, a former pastor and intimate friend of the young soldier delivered a most fitting and touching address over the remains of the young life, he so well remembered and knew before he entered the World war—in answer to his country's call. He was assisted by Rev. R. C. Hicks and Rev. G. F. Boyd.

As the body was being taken from the church to the hearse, the soldiers formed in divided line from the church to the hearse and the band played a funeral dirge.

The interior of the church was draped in the national colors and the floral offerings were beautiful. The pall bearers were: Gordon Roberts, Ernest Heathington, Roy Robertson, Carl Carpenter, Allen Rowan and Ray Christian. The burial was conducted with the impressive Legion ritual services. As the body was being lowered into its final resting place, the band softly and sweetly played "Nearer My God to Thee;" three final salutes were fired and taps then blown as a last long farewell to the brave life to whom we, as a people, owe so much.

The following out of town relatives and friends were present: E. L. Weaver, Oklahoma City, P. G. Weaver, and son, Granville from Dallas, Misses Lula and Hugh Weaver, and Mrs. R. W. Lowe from Dallas, Mrs. A. J. Owen, of Waco, Miss Belle McCluskey, Graham, Mr. and Mrs. L. E. Couch, Mrs. L. C. Barton, Miss Annie Laurie Long, Dallas, Mrs. Mamie Wall, Grapevine, Mrs. R. W. Reynolds, Arlington, Rev. S. C. Riddle, Lancaster, S. R. Crawford, Graham, Dr. Johnson and Mr. W. H. John Bridgeport.—Wise County Messenger.

NEWSPAPERMAN WOUNDED SATURDAY, DIED SUNDAY

Wichita Falls, Aug. 21.—Thomas Southard, local newspaper man and veteran of the world war, who was wounded in the head by the discharge of an automatic pistol Saturday, died at the Wichita General Hospital here today. Southard was gassed and wounded in battle and has been troubled with his throat and lungs. Mrs. Southard, his wife, declared the shooting was accidental. Edwin Southard, brother of Thomas, is en route from New York to take the body there.

SEVENTEEN RANGERS TO BE DISCHARGED

Austin, Aug. 20.—Seventeen Texas rangers will be discharged on September 1, Adjutant General Barton announced today. The rangers are being discharged in accordance with the legislative action reducing the force to 50 men and officers. There are at present 67 men and officers on the force.

Deputy Sheriff George Black arrested C. E. Good last Thursday afternoon charged with stealing a load of wheat from Jake Jones granary twelve miles south of Graham. At first he refused to talk but the evidence was too plain and he plead guilty and was fined \$50.00 and cost and one day in jail. The wheat was sold to the Graham Mill & Elevator Company.

AMENDMENTS TO POSTAL LAWS AND REGULATIONS

We are printing below extracts from a bulletin received by the local postmaster from the postoffice department at Washington relative to mail delivery. The postmaster has many requests that he cannot comply with. Many interesting as well as vexing problems claim the attention of the postoffice force. The department at Washington formulates rules that the local postmaster cannot deviate from:

Office of the Postmaster General
Washington, July 28, 1921.
Order No. 6224.

Section 603 of the Postal Laws and Regulations is hereby amended to read as follows:

Sec. 603. Mail bearing as a part of its address the indorsement, "Transient," "To be called for," "General delivery," or other words indicating that it is intended for a transient person, shall be placed in the general delivery case to be delivered upon application and proper identification, except as hereinafter provided. (See Sec. 594).

2. At city and village delivery offices, persons supposed to be residents who call at the general delivery for mail will be requested to furnish in writing their names and address (Form 1527) together with their reasons for desiring to use the general delivery instead of carrier service. Minors will be required to furnish the same information, as well as the names of their parents or guardians, whose written consent must accompany the application (see Sec. 609). The general delivery privilege will not be extended to patrons whose mail can be delivered regularly by city or village carrier, except in cases where the reasons assigned are wholly satisfactory to the postmaster.

3. Postmasters at offices not having city or village delivery service may notify the parents of minors in all instances where it appears that such minors are using the general delivery or postoffice boxes for receiving mail under objectionable circumstances.

4. Mail without sender's return request that is not addressed as indicated in paragraph 1, nor to a postoffice box, street or rural route number, shall be placed in the general delivery case when the address can not be supplied in the directory section (see Sec. 607), unless it is addressed in care of a person whose address is known to the distributing clerks or carriers at an office not equipped with a directory.

MINERAL WELLS BONDS CARRY Million Dollar Tax Levy For Palo Pinto County Roads Win

Mineral Wells, Aug. 20.—The vote for the million-dollar bond issue, which will assure Palo Pinto county of ninety-three miles of paved roads, including its portion of the Bankhead highway, carried today. It was a landslide in favor of the bond issue. The city of Mineral Wells broke all records of its history, polling a total of 1,233 votes of which 1,155 favored the issues and seventy-seven opposed it.

The majority in favor of the issue was an unprecedented majority throughout the district. Eliminating two small and isolated boxes which have not been heard from, the total of which 1,546 favored the issue and 204 opposed it.

Boxes at Strawn, Palo Pinto and Lyra carried the issue four to one. The women polled the heaviest vote they have ever polled in the county. The campaign waged to carry the issue has been the most strenuous in the history of the county.

CARD OF THANKS

We desire to thank the kind hearted friends, who by kind words and deeds and the beautiful floral offerings, have tended to soften the otherwise unbearable blow sustained in the tragic death of our mother, Mrs. Rachel Garvin.

ESTABLISHES BUREAU FOR TRUCK OWNERS

Truck users are coming to realize that tires have a very important part in successful truck operation, and that the tires are a separate problem from the truck itself.

As much money is wasted today on wrong tires as on poor ones. Some truck owners wonder why their tire b'alls are so high while others' are moderate. The answer is to be found in many cases in the fact that the wrong type or the wrong size of tires has been selected.

In the interest of greater economy, the United States Tire Company has established a Technical Service Department, made up of tire engineers, which will give impartial, disinterested advice to everybody engaged in truck operation. A full statement of any tire problem from any truck operator in the world will bring a detailed reply from the Department giving the latest scientific information on the points involved. Making a complete line of tires, the company need favor no type above another. As the largest rubber company in the world it has a large staff of chemical and engineering experts which is available to the truck operator through the Technical Service Department.

NICOLETT-ELLIOTT

P. M. Nicolett, city engineer, went to the County Clerk's office last week and secured a marriage license. On Friday he made a trip to Abilene in his car, his friends not being apprised of the nature of his mission. He returned Sunday with his bride and they left Monday for Oklahoma where they will visit a few days before returning to Graham where they will make their future home.

The bride's name was Miss Mamie E. Elliott before her marriage to Mr. Nicolett. She is a charming young lady and will be welcomed to Graham. Mr. Nicolett has lived here some time and has many friends who congratulate him.

The Leader extends best wishes and congratulations.

SMALLEST AIRPLANE STARTER

Of several existing types of portable starters for airplane engines, probably the smallest, according to Popular Mechanics, is a simple French apparatus. Operating on the compressed-air principle, it spins a propeller shaft as a small boy spins a top. The operating mechanism is borne at the end of a ten-foot timber, and may thus be raised to the level of most propeller hubs. At the top of the timber is a wheel which engages, like an engine crank with the boss of the propeller. Around the grooved circumference of the wheel runs a cord. To pull the cord, and so spin the wheel and propeller, a cylinder and piston, and a small tank of compressed carbonic acid are provided at the side of the timber. As gas is released from the tank it enters the cylinder pushes up the piston, and so pulls the cord. The whole apparatus is easily folded and carried about the flying-field by one man.

NATION'S GAS TANK 808,552,000 GALLONS

Our gasoline stocks are still on the increase. We had about 808,552,000 gallons on hand June 1st at the refineries, which is approximately 61,321,000 gallons over the May 1st figures, also a record holding. It is evident that Standard Oil Company of New Jersey is now operating 75 per cent capacity, and thus reducing its output of refined oil products to meet the competition of increased gasoline supply.

CHINESE GIRL TO ATTEND TEXAS SCHOOL

Austin, Aug. 24.—There will be a Chinese girl enrolled among the students of the University of Texas during the next session, according to information received from Miss Nancy Swann, secretary of the Young Women's Christian Association in the Shantung field. Mosling Ma is the prospective student who has already sailed from China with the intention of entering this institution. She is a graduate of the Shantung Normal School and also of the Young Women's Christian Association Physical Training Normal School in Shanghai. She is making a specialty of physical training work.

Miss Ma will be accompanied as far as San Francisco by Mrs. W. D. Boone, a missionary from Shantung, who is returning to the United States on a furlough. From San Antonio the Chinese girl will make the rest of the trip to Austin alone. She will dress in her native costume.

HANDLES 'EM WITH HIS HANDS

Last week a fishing party were down on the river seining and "treed" a whale of a cat under a rock and couldn't dislodge him. Finally Bill Wimberly said, "I'll take him, fellers," and went after him bare handed. Then man vs. fish staged an exciting contest and they went round and round in a desperate struggle. At last Wimberly got a strangle hold around the fish' "neck"

choked him into submission and hauled him out of the wet. This cat weight thirty-six pounds and big enough to swallow a full grown jack-rabbit without removing the ears. Wimberly brought the fish home and saved the head. He can show the signs of the combat still on h's hands and tell you all about it.—Newcastle Register.

THE UNIVERSAL CAR

FORD DURABILITY began back in 1903 when Henry Ford started experimenting with Vanadium steel and heat-treating processes. He knew that a more exact tempering of steel for motor car building must be worked out. Vanadium, it was learned, when added to molten steel, gives to that steel a greater toughness and adhesiveness. And now other alloys have been found which are superior to Vanadium. With the Ford Motor Company constant progress is the daily companion. The Ford products—Car, Truck, Tractor—grow in quality daily. Heat-treating tempers each part so that it will best withstand the wear or tear to which it is subjected. Ford chemists and analysts have created formulas and standard specifications for every individual part of the Ford car—not only for the steel but for everything from pneumatic tires to top.

Ford durability isn't a matter of accident, it is a matter of painstaking thoroughness in laboratory and factory. The Ford is a car of precision—of standardized values. Order your Ford car now. No matter how fast they may be made the demand multiplies faster. Order today for we can make fairly prompt deliveries—Runabout, Touring Car, Coupe, Sedan, Truck and Fordson Tractor.

Sheriff Saye returned Tuesday night from Fort Worth where he had gone to put a prisoner in jail. The sheriff will be glad when the Young county jail is completed as it is a great deal of trouble to take prisoners to Fort Worth.

Many complaints are heard of thefts committed at the swimming place on the Brazos. The belief is that a band of boys go out from Graham and steal money, watches and clothing while the people are in the river.

Work was delayed on the jail building for a few days while waiting for the arrival of some of the cells. It was the plan to use some of the cells in the old jail but when they were torn out it was found that they were not safe to use. New ones were ordered which were slow in arriving.

The guessing contest on the weight of pumpkins in the window of the Sanitary Grocery closed Saturday. The closest guess was made by W. M. Harris at forty-eight pounds and five ounces. Considerable interest was manifested more than 200 guessing. Some guessed as low as fifteen pounds, others as high as 100 pounds.

Pat Wood returned Sunday from a three months' trip to Colorado. Pat and his family were in Pueblo at the time of the disastrous flood of the last of May. He says the newspapers d'd not tell of half of the destruction and suffering at Pueblo. Pat spent several days in relief work after the flood. After the debris had been cleared away he remained to help rebuild the city and was at work there when he received a message to come home to assist in the new building movement that has begun since the Hunger field has been proved. He arrived home Sunday and began work on the McCa'n building on the northeast corner of the square Monday morning. His family stopped off at Paducah for a visit with relatives before returning home.

FINE OPOSSUM COUNTRY

The crop of "possums" seems to be fine in Young county this season. They are so numerous that they come into Shawnee park and mingle with the children. Recently Ralph Bowron found an old mother "possum" and several little "possums" in the park. He took them home but failed to provide a satisfactory house for them and they disappeared one night. He was so disappointed that he went out and found him another one which he kept for a few days but decided to release it so that it could be caught.

If persimmons are fine the "possum" hunters will have fine sport this fall when sweet potatoes are ripe.

ACTS OF LEGISLATURE TO BECOME LAW

Austin, Aug. 22.—Eleven bills were filed by Governor Neff with the Secretary of State today. Six of the bills bore the executive's signature while the other five were allowed to become laws without the Governor's signature.

The bills signed were: Making an appropriation of \$185,000 for the first year and \$185,000 for the second year for vocational education.

Appropriation of \$10,000 to pay contingent expenses of the first called session.

Authorizing navigation districts containing a city of more than 100,000 population to acquire and develop wharves, docks and other facilities necessary to develop a port.

Validating certain bond elections and defining how bond issues shall be submitted.

Appropriating \$7,000 for printing of bulletins, forms and blanks in the department of education.

Authorizing the commissioners court of any county having an excess of 200,000 persons and containing a city of 160,000 inhabitants to establish a law library in such county.

Bills filed without the governor's signature were:

Making the librarian of the University of Texas custodian of printed reports of decisions of the courts of civil appeals, criminal appeals and the supreme court.

Providing for public weighers for counties where there are two or more cities or shipping points receiving commodities in large quantities.

Authorizing cities to permit obstruction of a street not part of a designated state highway by passenger trains not longer period than the law allows.

Authorizing the commissioner of the general land office to lease Green island, three island groups north of Bird island and South Bird island and adjacent reefs in Laguna lake in the Texas coast for a term not exceeding fifty years to the National Association of Audubon Societies, to propagate, protect and conserve birds and bird life.

\$10,000 A DAY FOR ADVERTISING

Says William Wrigley of chewing gum fame.

"Don't spread your advertising out too thin!

"The newspapers are one of the most efficient methods of advertising for many obvious reasons. Practically everyone reads a newspaper.

"Once you are in business advertising is a necessary investment. It gets what you always need—more business. There's no quicker or more reliable way to grow than to advertise.

"My first advertising contract was for \$300. Last year I spent \$3,500,000 in advertising Wrigley's. Now I spend \$10,000 a day.

Figure out how many sticks of gum must be sold to meet this advertising.

JONZ-FOOT

J. P. Jonz and Miss Mamie Foot were united in marriage in the Clerk's office in the Young county court house last Monday by Judge W. H. Reeves.

The happy young couple are strangers to The Leader but both have strong personalities and seem endowed with those natural gifts which insure success. They are at home in Breckenridge.

DENT-CLOUD

W. D. Dent and Miss Marvia Cloud called at the Clerk's office last Thursday and procured a marriage license. Judge W. H. Reeves was then called and the two were happily united in marriage.

They left on the afternoon train but The Leader reporter was unable to learn where they went or where they will make their home.

TO ALL SICK FOLKS WHOM THIS WILL HELP:

I am 53 years young. I have suffered with stomach trouble and constipation for the past twenty years, and could not eat a heavy meal without smothering.

I tried many kinds of medicines, doctors and one specialist but received only temporary relief.

On the last day of March, 1921, I began going to Dr. J. R. O'Connell, Chiropractor, and in three weeks I commenced to mend, and ate most anything I wanted. I am sure enjoying my eating now.

I gained 15 pounds in three months; everything I eat now digests easily without smothering or dizzy spells and my wife says I can do more work now than I could twenty years ago.

In all I have taken 60 Chiropractic adjustments at a cost of \$70, and I would not take \$1,000 for the good that Dr. O'Connell has done me.

COTTON CONTRACT IS IRONCLAD PACT

Dallas, Aug. 15.—The cotton contract is binding on all signers who did not send in a written cancellation prior to August 1," said C. O. Moser, secretary of the Texas Farm Bureau Federation in discussing the cotton marketing plans of this organization. Very strict penalties are provided in the law for violations according to the contract.

Forty thousand farmers are said to have signed the contract. Only 1125 canceled their contracts prior to August 1. This means that more than 97 per cent of those who joined the organization will remain in the big pool which is the largest growers co-operative marketing association in the world. New contracts are coming every day and these more than balance the few that have been canceled. There are more growers in the pool after the first of August than there was at the conclusion of the membership drive. The successful completion of financial arrangements to secure nearly fifteen million dollars for advances to cotton growers is attracting new signers to the contract daily. The Texas Farm Bureau Cotton Association plans to begin handling cotton August 15.

To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon Blanche Nelle Bloom Givens by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Young County, to be held at the Court House thereof, in Graham, on the 1st Monday in September A. D. 1921, the same being the 5th day of September, A. D. 1921, then and there to answer a petition filed in said Court, on the 3rd day of August A. D. 1921, in a suit numbered on the docket of said Court No. 6526, wherein A. W. Givens is Plaintiff and Blanche Nelle Bloom Givens is Defendant and said petition alleging that Plaintiff and Defendant were married on or about the 24th day of September A. D. 1919, and continued to live together until on or about the 16th day of October A. D. 1919, when by reason of the cruel and harsh treatment and improper conduct of Defendant toward Plaintiff, he was forced and compelled to permanently abandon her, since which time they have not lived together as husband and wife.

Plaintiff alleges that during the time he and Defendant lived together as aforesaid, he was kind and affectionate to her and always provided for her support, but Defendant unmindful of the duties and obligations of her marital vows, immediately after they were married began to continuously "nag" at him, and accused him of improper relations with other women; that she repeatedly refused and would not cook his meals for him; and that her jealous temperament was of such a nature together with her cruel and tyrannical treatment, that Plaintiff was forced and compelled to abandon Defendant; that Defendant often struck and abused Plaintiff and called him the vilest kind of names; that said marriage relations between Plaintiff and Defendant still exist.

Wherefore Plaintiff prays the court that Defendant be cited to appear and answer herein and for judgment dissolving said marriage relations, for costs of suit and for such other and further relief, special and general, in law and in equity, that he may be justly entitled to.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

the docket of said Court No. 6553, wherein Prentiss Seale is Plaintiff, and W. R. Shankle, is Defendant and said petition alleging that Defendant is indebted to Plaintiff in the sum of \$1500.00 by virtue of the sale and delivery to Defendant by L. C. McFall, at the special instance and request of the Defendant of two 500 barrel, Butler Bolted steel storage tanks of the value of \$1500.00, which were to be paid for by the Defendant within 30 days from the date of sale, to-wit: December 16th, 1920. That said tanks are now being used by said Defendant on an oil lease owned by said Defendant on a certain tract of land known as the "Dooley Lease" about four or five miles west of South Bend, Texas; That on the 16th day of January, 1921, payment of said sum was duly demanded but Defendant has failed and refused to pay the same or any part thereof. That prior to the filing of this petition, Plaintiff purchased said debt and claim against Defendant from L. C. McFall, doing business under the name of The Standard Tank and Steel Works, therefore Plaintiff shows his right to bring this suit. That Defendant be cited to appear and answer herein, and that Plaintiff have judgment for his debt of \$1500.00, interest, attorney's fees and all costs of suit, etc., etc.

CITATION BY PUBLICATION THE STATE OF TEXAS
To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon B. H. Mason and J. E. McGee by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Young County, to be held at the Court House thereof, in Graham, Texas, on the First Monday in September A. D. 1921, the same being the 5th day of September A. D. 1921, then and there to answer a petition filed in said Court on the 3rd day of August A. D. 1921, in a suit numbered on the docket of said Court No. 6528, wherein Morrison-Smith Lumber Company, a corporation duly organized and existing under and by virtue of the laws of Texas, W. C. Bell, R. E. Lynch, L. L. Kinnebrew, G. B. Johnson, Ed Matthews, and T. T. Garrett are Plaintiffs, and B. H. Mason and J. E. McGee are Defendants, and said petition alleging that Plaintiff Morrison-Smith Lumber Company, in February, 1921, sold and delivered to Defendants certain lumber, nails, and

other building material to be used and actually used in the construction of a two-story building upon East fifty (50) feet of Lots 1, 2, and 3 of Block 43 of the City of Graham in Young County, Texas; said building being commonly known as the "Dance Hall," and also furnished labor and drayage for transportation of said material; labor and drayage being of the aggregate value of Four Thousand Three Hundred Thirteen and 55/100 (\$4,313.55) Dollars, which amount Defendants agreed to pay said Plaintiff therefor; and to secure payment of said indebtedness said Plaintiff duly and seasonably fixed and now claims and holds a Constitutional and Statutory Materialman's Lien upon said building, as shown by Volume 2, at pages 137 and 138 of the Mechanics Lien Records of Young county, Texas.

That prior to April 1, 1921, H. M. Hatter and various other persons performed labor upon said building in the construction thereof, but were not paid therefor, and that to secure payments of the amounts owing to them, respectively, therefor, each of said laborers within the time and in the manner required by law, fixed a statutory lien upon said building to secure payment of the indebtedness so owing to him, such items of indebtedness aggregating Three Thousand Four Hundred Thirty One and 90/100 (\$3,431.90) Dollars; that for valuable consideration then paid to them, respectively, by plaintiffs other than said corporation, said laborers, respectively, sold and assigned to said plaintiffs said items of indebtedness and securities, respectively, as follows, viz: to W. C. Bell, \$1091.10; to R. E. Lynch, \$332.75; to L. L. Kinnebrew, \$302.95; to G. B. Johnson, \$118.25; to Ed Matthews, \$95.50; to T. T. Garrett, \$59.45; and also severally sold, assigned, transferred and conveyed to said plaintiffs the aforesaid liens securing same. That said liens are valid and subsisting liens upon said building securing payment of said indebtedness as hereinabove shown.

Wherefore plaintiffs sue and pray for citation by publication and for judgment upon final trial for their debt as aforesaid and for foreclosure of their respective materialman's and laborer's liens as aforesaid; and for full relief, general and special, legal and equitable.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, Willie Riggs, Clerk of the District Court of Young County.

Given under my hand and the Seal of said Court, at office in (L.S.) Graham, Texas, this 3rd day of August A. D. 1921.

WILLIE RIGGS,
Clerk District Court Young County, Texas.

YOU ARE HEREBY COMMANDED to summon D. C. Cook by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 30th Judicial District, but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 30th Judicial District, to appear at the next regular term of the District Court of Young County, to be held at the Court House thereof, in Graham on the 1st Monday in September A. D. 1921, the same being the 5th day of Sep-

tember A. D. 1921, then and there to answer a petition filed in said Court on the 16 day of May A. D. 1921, in a suit number on the docket of said Court No. 6402, wherein Barbara Cook, is Plaintiff, and D. C. Cook is Defendant and said petition alleging that plaintiff is a bona fide inhabitant of the State of Texas and has been for more than one year next preceding the filing of this suit, and has resided in Young County, Texas for more than six months next preceding the filing of this suit. That plaintiff and defendant were legally married to each other in the State of Georgia on or about the 5th day of November, 1896, and lived together as husband and wife until on or about the 9th day of April, 1921, when they separated. That as an issue of their said marriage they have two minor children to-wit: Lawson Cook, a boy age 8 years old, and James Cook, a boy 5 years old. That plaintiff was at all times kind to her said husband and did all she could to make him a kind and loving wife, but that the defendant disregarding the solemnity of his marriage vows within the period of about three prior to their said separation began a course of cruel and harsh treatment toward this plaintiff which lasted with slight intermissions until their final separation. That on divers occasions while plaintiff lived defendant he was guilty of excessive cruel treatment toward this plaintiff and showed a total disregard for this plaintiff's health and life by refusing to maintain support for her as well as her minor children. That such conduct on part of defendant renders their further living together as husband and wife insupportable. Wherefore she prays judgment of the court dissolving the bonds of matrimony existing between plaintiff and defendant and for the care and custody of her said minor children and for costs, etc.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term this writ with your return thereon, showing how you have executed the same.

Witness, Willie Riggs, Clerk of the District Court of Young County.

KILLING WAS NOT AT ALL NECESSARY

Austin, Aug. 23.—The penitentiary investigating committee authorized to investigate the killing of two convicts by penitentiary guards on the Eastham prison farm last July submitted its report late today. The committee recommends that the two guards, John Wells and Charles Whitley, be permanently dismissed from the system. They found that the killing was unjustifiable and that the guards could have overtaken the escaping men if they had tried. The committee recommends that the case be called to the attention of a grand jury by the prison commission and that the guards be prosecuted if indictments are found. The committee further recommends that guards be instructed not to shoot convicts until all other means or recapturing them have been exhausted. The committee also recommends that a sufficient number of bloodhounds be kept for the purpose of overtaking escaped convicts.

STEPHENS-ELLIOTT

At the home of Rev. R. E. Boyle, on last Tuesday evening, at 6 o'clock, Mr. Elmer Stephens and Miss Vera Elliott were united in holy matrimony, Rev. Boyle officiating. The groom is the son of Mr. and Mrs. H. H. Stephens, of Loving. He is an ideal young man of sterling worth; he is a man of excellent habits, and possesses those intelligent, sober and pious qualities that go to the making of a christian gentleman, and a model citizen. He was born and reared in Young county. The bride is the charming daughter of Mr. and Mrs. J. G. Elliott of Indian Mound. She is a highly refined and accomplished young lady, who justly merits the high esteem which she has among her many friends. She has a lovable disposition and an ideal christian character. She, too, was reared in Young county, in Shinola and Indian Mound communities. Her parents having moved here from Cleburne, Texas, when she was quite small. This young couple have a host of friends who wish them a successful and happy life. They will make their home in the Indian-Mound community.

BELIEVED POTATO BREAD CAUSED FOUR DEATHS

Laredo, Aug. 24.—Mrs. Fidela Garcia and three children are dead here today as a result of eating bread which police officials said was made with potato flour. Another child, a boy of 7, is reported to be dying. Other members of the family who ate the bread are recovering, but a piece given by one of the children to a dog resulted in the death of the dog. Investigation by police revealed that the baker who made the bread used a sample of potato flour given him by an agent for a test. Samples of the fatal bread, together with a quantity of the flour, has been sent to San Antonio for chemical analysis.

WHY GO TO COLLEGE?

Where shall I go to college is the question that young people throughout the country are settling daily. There is another question connected with going to college that young people do not give enough consideration. The parents give it thought and young people should think more about it. The question is "Why go to college?" The Leader gives the following answers as given by J. M. Dawson of Waco, Texas:

Because it will lift you above the great company of mere hewers of wood and drawers of water, and liberate you from the bondage of ignorance, and the serfdom of inefficiency. Because it will lift you to the hills of vision, where all life's horizons are expanded and you can see your neighborhood in the panorama of the world, and your life in the perspective of eternity. Because it will deliver you to the heir of the ages, the rich heritage of ideas and facts accumulated by the great minds of the past and make these treasures your very possessions. Because it will help you to find yourself, the most valuable discovery you will ever make, and settle you in the divine course for which you were created and endowed. Because it is a good investment in money, in that the paltry few hundred dollars expended will be capitalized for life in a way to yield large dividends, increasing your earning capacity many fold and enlarging your capacities for any opportunity among the world's opening doors. Because it is an immense saving in time and energy for the advancement which you thus secure would cost you a thousand times as much to get in undirected effort outside of college walls.

Because you are living life in just as real while you are in college as you will ever live it—it is not merely getting ready to live, but while enlarging your life you are all the while carrying forward all the activities and relationships of life itself. The college is a world within itself—master it and there will be other worlds to conquer. Because you will come into fellowship with some of the most inspiring forces of human life in the personality of teachers, and that touch will be a sublime power resting on you forever. Because you will form friendships that will endure through the years and enrich the meaning of life. Because you will be linked with that great and honorable host of thinkers, searchers, inventors and creators who through the centuries have delved and built and wrought in the fields of human knowledge, bringing to light more and more the wisdom and plan and purpose of God in the life and destiny of man and his world. Any young man or young woman who wants a college education and is willing to work for it, can get it.

CAR JUMPS BRIDGE, THREE TEACHERS KILLED
Custer City, Okla., Aug. 20.—Three school teachers were killed instantly when an automobile in which they were traveling yesterday to Taloga from Weatherford, ran off a bridge, five miles northwest of Custer City, into Horst Creek. The victims, Floyd Butler, 21, and Ruby Bell, 19, of Taloga, and Lloyd Miles, 20 of Weatherford, were to teach at Taloga this fall. They had just completed a summer course at Southwestern Normal School, Weatherford. A fourth teacher, Walter Duckett, 20, of Taloga, had both arms broken and suffered internal injuries. At the hospital here where he was taken it was said he was expected to live. Passersby, who viewed the accident, said the automobile failed to take a turn leading to the bridge.

"I want to be procrastinated at the next corner," said Mr. Ernest Pinkly to the street car conductor. "You want to be what?" "Maybe you all don't know what that means. 'Procrastinate' means to 'put off.'"

LAW FIRM IN NEW OFFICES

The law firm of Hinson & Ricker is now located in their new offices in the Graham Land Office building, being Nos. 201, 202, 203, 204. The members of this partnership are surely to be congratulated on their splendid showing. Mr. Ricker resigned as assistant county attorney on the 4th of August and will devote his entire time to the handling of civil business for the firm, while Mr. Hinson will continue as county attorney, and he has appointed Hon. John R. Moore to fill the vacancy as assistant county attorney. These the local bar as well as with the young gentlemen are popular with citizens of this section of Texas.

FORMER SOLDIER FOUND DEAD NEAR WEATHERFORD

Waxahachie, Aug. 24.—Clay Moore, 26 years old, was found dead at his home, twelve miles north of here, Friday, death being due to a pistol wound. Moore had been despondent several days his friends say. He served with the Thirty-Sixth Division in France, being shell-shocked and gassed.

J. MARION AND MISS MARY ELLEN BURKETT GIVE CIRCUS PARTY

The most unique and original party that has ever been given in Graham was held on the Burkett lawn last Thursday evening.

It was easy to see that this was to be a party different from all others when the invitations were received. They were the work of Burkett's pen and reflected credit on the artist. Each guest was requested to come representing and act the part of some well known character or type of people connected with a circus.

The front lawn was the show grounds for the main circus and was well lighted and seated, with the well known circus ring roped off in true circus style. Through the hedge in the back lawn was the carnival grounds with all the attractions and side shows, among which were Riode and Diado the educated fleas, some Young county lobsters, and the much looked at one legged calf and a chicken from Bunger. To make it complete the big garage was converted into a dance hall over the door of which hung the time honored sign "The Days of 49 Dance Hall"

At eight-thirty the entire crowd was taken in cars to the corner of the square, where a parade was formed and marched round the square, through the National Picture show, and the skating rink. The yelping of the cowboys and girls, the Indians and Mexicans jabbering, the unknown tongue, mysterious actions of the Gypsy girls and Hindoo men, together with the gabbling and laughter of the chorus girls and actresses brought out one of the biggest crowds that has been seen on the streets of Graham in some time.

Once back again to the main show grounds the circus began. Burkett, dressed in evening suit with red top boots and silk hat to match officiated as ring master introducing each and every act with much eloquence and oratory.

The guests put the party over by acting their part better than even they themselves expected to.

The acts followed each other in dazzling succession to the merry strains of the Victrola brass band. There was Theodore's dive of death down the slender wire, the dances of the gypsies, chorus girls, and Indians, Buffalo Bill's sharpshooting, negro songs, Hindoo magic, the ever present Si and Sal Perkins and the village police. Then there were clowns galore, tattooed men, Mexicans and the Queen of Sheba, jugglers, motordome riders, snake charmers and Oriental dancers.

Various refreshment booths dotted the lawn where soda pop, pop corn, hamburgers and the like were to be had for the asking while the merry go round and the roulette table added to the carnival spirit.

The guests lingered late and were unanimous in the decision that this was one of the most unique and successful entertainments ever attempted in the city.—By W. E. Simpson.

ANOTHER SESSION OF THE LEGISLATURE CALLED

The adjournment of the Legislature Tuesday night Governor Neff called another session to convene at once for the purpose of making provision for the State Educational institutions and to transact such other business that may be submitted to them. It is hard for the public to know as yet, but the impression prevails that very little was accomplished at the session just closed.

Judge Barry Miller of Dallas in the closing hours read the following poem, but space was refused it in the House Journal:

Here lies a called session gone into the past,
In the cold dead hands, withered flowers enclasp'd.

Constituents neglected, a great state disgraced,
Thirty days wasted, a record defaced.

It robbed a few teachers, deprived them of hope,

And led the dear people "Amendments by Pope,"
While Curtiss of Tarrant and Bonham of Bee

Ran the steam roller and chortled in glee.

The warehouse department—Nacogdoches too
Were victims of Veatch's economy crew,

It saved a plugged penny, and squandered a pound,
It lacked much in brains, but it made up in sound.

It strove hard to hinder all higher education,

And loved the poor farmer to verge of prostration,
Till one night in August, it passed out, alas!

It died, as it lived, in a great puff of gas.

SCHOOLS WILL GET \$13 PER CAPITA

Austin, Aug. 23.—At a meeting of the State Board of Education today the State apportionment was fixed at \$13 per capita. The total number of scholastics in the State was reported by the State Superintendent as 1,298,292. The estimate of expenses for the purchase of free textbooks for the scholastic year of 1920-21 was given as \$1,681,603. The balance in the textbook fund on Sept. 1 was estimated to be \$300,000. The board set aside \$1,381,603 as a textbook fund, the board being required to include each year the balance in the textbook fund to meet the expenses of the ensuing year.

The products of the 15c tax for textbooks was estimated at \$3,044,563. Deducting from this the amount set aside as the textbook fund it was found that from this 15c tax there would remain in the available school fund for the session of 1920-21 \$2,662,959.
