ASKEW WELL THIRD PRODUCER IN BUNGER

GRAHAM SCHOOLS OPEN WITH LARGE NUMBER PRESENT

Vacation days for this season are over. Last Monday large numbers of boys and girls and some parents found their way to the school building. Most children look forward with interest to the opening of school in the fall. The bright, cheerful faces are an inspiration to every one who believes in youth.

Superintendent Cogdell had prepared a good program which was carried out with the exception of a few who were unable to attend the exercises. The following program was rendered:

Music—Miss Akard and Orchestra.
Devotional Exercises—Rev. T. E. man.

Song.
Talk—M. K. Graham, president of School Board.

Talk—J. T. Rickman.
Vocal Solo—W. D. McFarlane.

Talk—Boyd Street.

Talk—Edgar McLendon.

Music—Miss Akard and Orchestra.

Superintendent Cogdell closed the program with a talk outlining the plan of the work for the coming season.

A representative number of parents were present at the opening exercises. Graham has always been interested in her schools and the parents have cooperated with the school authorities in maintaining a good school. Few communities can boast of as good schools as Graham has. For a number of years a first class school has been maintained here and people have moved here from various places for the benefit of the excellent school.

The school now has twenty-three units affiliation with the leading colleges and universities. Students graduating from the Graham high school enter all leading institutions without examination. It is a great advantage to the boys and girls to be able to enter the school of their choice without the formality of an examination. Only in rare instances have graduates of the Graham high school failed to make good in college.

The school board and Superintendent have under consideration an enlargement program. The school now has full affiliation for all subjects taught in the schools and it is well known that no institution can thrive without growth. Household economies and other subjects should be added and will as soon as conditions will permit. Nothing will be left undone to keep Graham at the top of the list in school lines.

GRAHAM OIL SYNDICATE PAYS MONTHLY DIVIDEND

The Graham Oil Syndicate pays its regular monthly dividend today. Ten per cent was paid at this time which makes 152 per cent since January 1. The officers of the company are pleased with the company and the stockholders have not been heard to complain. As long as these handsome dividends come in each month each stockholder is happy. Joe Johnson is president and D. D. Cusenberry is secretary.

Strenuous Term District Court

The District Court has been working on the heavy docket a little more than one week and has disposed of several divorce cases and a large number of civil cases. The criminal docket has not yet been reached. The heaviest docket ever known here before the Court at this term. The grand jury has been busy. It has been in session only eight days and has returned more than twenty felony cases. Judge Weldon is holding night sessions of his court here to dispose of as many cases as possible during this term.

LIFE AND PROPERTY DAMAGES HEAVY IN RECENT STORM AREA

Large areas in central and southern Texas are suffering from one of the worst floods ever known in Texas. Austin reports more than 18 inches of rain within twenty-four hours and other places report unusually heavy rains. About twenty towns in South Texas suffered heavy damage in the storm that Friday night and Saturday morning caused a loss of 100 to 150 lives and \$15,000,000 to \$25,000,000 damage to property there. The total loss in this section can only be roughly estimated but there is little doubt that it will reach \$25,000,000. However, the loss of life as reported is small except in San Antonio. Among those towns which reported the heaviest damage are Hutto, Cameron, Taylor, Creedmore, Belton, Temple, Sparks, Georgetown, South Austin and a few other smaller places. Of these towns Cameron sustained the biggest loss, which totaled \$1,000,000. All railroad lines leading into Cameron were swept away following a rain which reached more than eleven inches. Rockdale's loss is \$500,000, the lower part of the town having been under twenty feet of water when the flood was at its worst. Three thousand acres of cotton are under water near there. The roads also were washed away. Bridges and culverts were swept away in the Temple vicinity and crops were destroyed. Little River at Sparks is five miles wide. Railroad tracks and bridges were washed away at Georgetown and all traffic is held up there. Although there was much suffering and the financial loss heavy, the people are working heroically to restore normal conditions.

YOUNG AND JACK COUNTIES TO HOLD JOINT INSTITUTE

Superintendent A. A. Avants went to Jacksboro Friday to make arrangements for the County Institute which will be held here December 19 to 23 inclusive. Jack and Young counties have united in a joint Institute to be held here on the date given above.

The superintendents of both counties are working hard to have one of the best institutes in the State. Invitations have been extended several prominent educators but at this date it is not known who will be on the program. A good program will be given and Young county will have the best institute it has ever had. It is the custom for two or more counties to join in Institute work and our teachers are glad to have the Jack county teachers with them this year.

LARMOUR-COPELAND

M. W. Larmour and Miss Norma Copeland were married at the Christian parsonage, Sunday morning at 8 o'clock by Reverend J. E. Evans. They left immediately in their car for a visit to San Antonio and other places.

The bride is the accomplished daughter of Mr. and Mrs. Sam Copeland and was reared to young womanhood here. She is pleasant and agreeable and has a host of friends who are congratulating her. She graduated at the Graham high school and later attended college.

The groom has been the popular manager of the National Theatre for two years and has made many friends since he came here. He is a promising young business man and has a bright future before him.

The happy couple will be at home in Graham after a ten days' visit to Texas cities. The Leader joins their friends in best wishes for their success and happiness.

Joe Timmons, of South Bend is in Graham today.

AMERICAN LEGION HAS CHARGE OF LYCEUM COURSE

The American Legion will have charge of the Lyceum Course this season and will need the cooperation of every loyal citizen of the community to make it the success the Legion deserves.

Five good numbers are on the program. The first number will be rendered October 15 and before that date enough season tickets ought to be sold to guarantee the course. The community will not treat the Legion right if it is allowed to sustain a loss while trying to furnish wholesome entertainment for our people. All the numbers are good and should be liberally patronized.

The following numbers have been secured:

October 15—Frank E. Logan.
November 25—Harp Singers.
January 14—Chicago Ladies Sextette.

March 9—Bell Ringing Quartette.
February 21—James A. Burns.

ENROLLMENT GRAHAM SCHOOLS PASS 1000 MARK FIRST WEEK

Superintendent Cogdell stated to the reporter yesterday that the enrollment in the schools had reached the 1,000 mark the first week. About 800 have enrolled in the grades and more than 200 in the high school. This is by far the largest opening the school has ever had.

The rooms were crowded last year but from present indications additional room will have to be provided soon. When a town reaches the size that Graham has, a separate high school building is a necessity to accomplish the best results. When a new building is erected it should be an exclusive high school building and the present building used for a grade school.

THE LADIES' SHOP OPENS ON EAST SIDE SQUARE.

Mrs. E. N. Jerry is opening an exclusive Ladies' Shop in the Lynch Building on the east side of the square. She is planning for a formal opening Saturday, September 17.

Mrs. Jerry has been here several months but only recently decided to open The Ladies' Shop. She will carry a full line of Ladies Ready-to-Wear goods, novelties, and a full line of millinery goods. Her shop will be something different from anything that has ever been in Graham.

She stated today that her stock was late in arriving, but she hopes to have her opening Saturday. She is experienced in this line of work and will be glad to have the ladies call to see her new shop.

LARGE CROWD IN GRAHAM BIG MONDAY.

Last Monday was what has been known for many years as "Big Monday" in Graham, and it was really a big day. While there is not as much trading on this day as in former years, yet larger crowds come than ever before. Automobiles are a great convenience and if we could get good roads in this county great throngs would gather here each second Monday to mix and mingle with friends.

The appearance resembled old days. There were a large number of horses and mules on the square and some trading. Last month The Leader urged that the business men of Graham unite in making this a day on which friends and relatives will meet here. Several of our business houses have arranged comfortable rest rooms for the ladies. Everything possible should be done to encourage people to come here to do their trading. Graham is the best town in this section of the country and the people are fast finding it out.

Joe Wright was a business visitor in Graham yesterday.

CHAMBER COMMERCE TO ENTERTAIN CLUB BOYS SEPTEMBER 24

Every boy of the rural schools of this county who joined one of the Boys Agricultural clubs are to report at Mr. Kemp's office at the court house at Graham at ten o'clock sharp on the morning of Saturday, September 24th. After being welcomed they will be taken to see a special program which has been arranged for them at the National Theatre. The boys will then be the guests of the Graham Chamber of Commerce for dinner where some of Young county's prominent men will talk to them on subjects of interest.

After dinner all of the boys will be taken to the high school building where they will be given a short written examination on agricultural and livestock subjects which will be prepared by Mr. Kemp and Mr. Avants, County Superintendent. This will consist of questions every farm boy should know and is for the purpose of determining the winners who will be given the trips to the Boys Encampment at the Dallas Fair next month.

In addition to the splendid entertainment provided by the Chamber of Commerce they have also offered to pay all of the expenses to and from Dallas, of the boy making the highest grade in the county. A number of boys making the next highest grades in order will be allowed to attend this encampment as guests of the Fair Association.

It is Mr. Kemp's wish that the Young county boys who win these trips make an exhibit of their products in the Boys Club section where they will compete for prizes offered by the Fair Association. Mr. Kemp will give the boys instruction on the selection and preparation of these at the meeting.

Every club boy is urged to be on time and to be sure and bring his record book with him. This is very necessary as these books will count for a grade of a possible sixty per cent while the examination will count for a possible forty per cent. Every boy will realize from this the necessity of having his record as complete in every respect as possible, and not to fail to bring it.

MISS LOIS WARE SUCCESSFUL TEACHER

The Leader is in receipt of a long article from the Electra News giving an account of the successful staging of Tom Thumb Wedding by Miss Lois Ware, who formerly lived here. The following is taken from the News:

"Miss Lois Ware, the expression teacher, put on a Tom Thumb Wedding at the Grand Theatre last Thursday night for the benefit of the kindergarten departments of the Methodist church.

"Much credit is due Miss Lois Ware, who trained the little folks and many other good things are promised this winter from the expression class."

D. W. Burk Loses Ford Saturday

D. W. Burke was the victim of auto thieves last Saturday night. Charles Baker, who lives across the street from Mr. Burk, saw the car rolled out and driven away, but not suspecting anything, paid no attention to it. The car was taken about 11 o'clock.

Mr. Burk and family had planned a trip for Sunday and were up early. His mules were out and he was looking for them when the children missed the car.

Rarely a week passes that a Ford is not stolen from Graham. Only a small per cent of the cars are recovered, and it is seldom that the thief is apprehended. Only recently Mr. Hudson saw his car driven away and it has not been heard from.

Mrs. A. M. Graham and daughter, Miss Rosa Lee, and Mr. and Mrs. Grady Millican, all of Lovving, are in Battle Creek, Michigan.

"FATTY" ARBUCKLE IS CHARGED WITH MURDER OF STAR

Roscoe (Fatty) Arbuckle has been charged with the murder of a film star in San Francisco last week. From the daily press it appears that he gave a party in his suite of rooms in the luxurious St. Francis Hotel September 5. These parties were given frequently by the high salaried "movie" star and were accompanied by much drinking and carousing. This one was no exception and, according to reports resulted in the death of a beautiful woman. Arbuckle is in jail charged with first degree murder.

From reports a brutal murder has been committed. We give below a statement from Henry Lehrman, who trained Arbuckle one year, which sets forth the character of the star:

New York, Sept. 12.—"I could not face Arbuckle, I would kill him. If he wants to live he had better be punished."

That was the statement made here last night by Henry Lehrman, motion picture director, and "first and last sacred love" of pretty Virginia Rapp, film star, whose death in San Francisco, following an orgy in Roscoe "Fatty" Arbuckle's rooms, has resulted in the comedian's arrest on a charge of murder.

Lehrman is directing Owen Moore, former husband of Mary Pickford, in Selznick productions. During the interview he nervously fingered a pair of platinum cuffbuttons given him by the actress who, in her dying breath, accused Arbuckle of her injuries. Inscribed on these buttons were the words:

"To Henry, my first and last sacred love, Virginia."

Lehrman raised his hollow-set weary eyes to a large photograph of the dead girl. It showed her girlish face silhouetted against a big picture hat dangling from two velvet cords about her neck.

"My prayer is that justice be done," he said in a voice vibrating with sorrow. "I don't want to go to the coast now. I would kill him." "Virginia said she blamed Arbuckle for her injuries. That is just like her. She would rise from the dead to defend her dignity. Arbuckle is a beast. I directed him for a year and a half. I finally had to tell him that if he didn't keep out of the women's dressing rooms, I would see he was through."

"He boasted to me that he had torn the clothing from an unwilling girl and outraged her. That's what comes from taking vulgarities from the gutter, giving them enormous salaries and making idols of them. Arbuckle came into the pictures nine years ago. He was a barroom boy in a San Francisco saloon. Not a bartender, but a barboy, who washed glasses and cleaned spittoons."

"Such persons don't know how to get a kick out of life except in a beastly way. They are the ones who resort to cocaine and the opium needle; who participate in orgies that surpass the orgies of degenerate Rome. They should be swept out of the motion picture business."

"I'm no saint, but I never have been on one of these parties. Virginia wouldn't associate with anyone she knew was vile like that. Her friends were persons like Charles Chaplin and other decent men and women."

C. W. DeFrest returned last night from a week's trip to Fort Worth and Dallas where he made some important oil deals which will mean a great deal for the immediate development of the Bunger field which is attracting so much attention at the present time. The third producer has been brought in in that field. We have been able to report one each week since the Owen gusher came in.

Mrs. M. H. Milligan and daughter, Miss Rosa Lee, and Mr. and Mrs. Grady Millican, all of Lovving, are in the city today.

NEW WELL AND NEW PIPE LINE BUNGER FIELD

The Bunger field is fast taking its place among the big oil fields of the country. Only a short time ago we carried a streamer announcing the Owen, the discovery well. Soon thereafter came the Driver well. This week we announce a third well two miles east of the Owen and Driver, which proves beyond question that this new field will soon rival the great South Bend district.

With the completion of the Union Oil Company's No. 1 Askew, the new Bunger pool had its third producing well. The Union well is reported good for 100 barrels daily from the sand at 1,960 feet.

This well is two and a half miles southeast of the Ross & Tyrell discovery well, and was also the first test in the Bunger neighborhood to get the oil sand. A protracted fishing job, however, held up completion so long that the Ross & Tyrell took the honors of being the first well in the pool, and the second well was in before the Union was successful in shutting off the water.

Another important development of the work for the new pool was the completion of a line to the field by the Prairie Pipe Line Company.

This new line is an extension from the pool on the Graham and McCluskey tracts, west of South Bend. With the two lines, the Texas Company having been running oil from the Ross & Tyrell for about two weeks, the new pool is assured ample pipe line facilities for future development for some time.

Our space is limited this week and we shall not give a full drilling report. From every indication there will be seventy-five producing wells and drilling wells by the first of the year.

RANGER GAS COMPANY COMPLETES MAIN LINE.

The Ranger Gas Company completed the gas main line from South Bend to Graham last Saturday. The system is nearly completed in Graham and before many days Graham people will be burning gas.

Our merchants are advertising their gas stoves and our readers should read the advertisements each week. The good qualities of the various makes of stoves are given from week to week. Take The Leader and study the ads before you go to look at the stoves.

J. B. Owen, vice-president and general manager of the Ranger Gas Company, returned to the city Saturday after an absence of several days. He states that his company will soon have gas in Graham. The company is now receiving applications from those wanting gas and Mr. Owen will be glad for everyone wanting information about gas to call at his office in the Lynch Building.

BELL TELEPHONE CO. STRINGING NEW LINES

The construction department of the Southwestern Bell Telephone Company is stringing two new lines to Graham to take care of their increasing business.

It is currently reported but not officially that substantial improvements will be made in Graham. The local exchange will soon be moved to the Couger building and two additional switch boards installed and other improvements will be made in the service.

Mr. Shelton, the local manager, is awake to the needs of his company here and has striven at all times to render efficient and satisfactory service.

Nobel Timmons was meeting friend in Graham today.

Miss Mary Reeves, of Sherman, is in the city visiting Miss Faye Jordan.

"AS SHE IS SPOKE"

The king's English can be put to strange and varied uses. On suitable occasions it may be used to induce meditation to the point of drowsiness on the part of persons whose avowed purpose in attending this devotional exercise is really not that of going to sleep. From the lips of a firebrand orator it may fan into flames primitive passions that have long lain dormant.

Quite the most unique use of the king's English, however, is to be found in the annals of sport. The average citizen secure in the belief that he understands his mother tongue since he has written and spoken it all his life will find many a paragraph from the sport page to the understanding of which neither dictionary nor grammar textbook will help him. For instance:

"Wallie Pipp greeted the newcomer with a slap against the barrier of the right field stand for two bases, and Peck crossed the platter, while Ruth stopped at third. Lee caged Meusel's lift. Thereupon Frank Baker whanged the globule to deep right center for a triple, which conveyed Ruth and Pipp over the disk. After Ward had fanned, Baker tallied off Schang's one base jolt to the left. Jack Quinn whiffed for the curtain fall."

Here, as everyone will admit, is English composition which addresses itself to a large reading public. Excepting the proper nouns, every word of it is in good standing in the dictionary, and still to one not versed in the jargon of baseball the paragraph is altogether unintelligible. But what is still more baffling than its unintelligibility is the fact that to those skilled in the vernacular of baseball the very strangeness of the language is intended to add a charm to the message conveyed. Verily, the king's English may be put to a variety of uses.

COVERED UP

One day a school inspector was visiting a district school and gave a talk to the boys and girls. He chose the subject of Patriotism. As he proceeded, he pointed to the national flag that was draped on the wall and asked impressively: "What is that flag hanging there for?"

A boy raised his hand, and as he swung it in the air it quivered and shook with his eagerness to give the information.

Upon being asked, the boy replied readily, "Please sir, it is to hide the dirt."

So there are those who wear the badge of Christian profession, pinning on the banner of the cross to cover up the filth of their lives, some blemish, weakness or fault.

COPY OF SANITARY LAW IS RECEIVED

A copy of the sanitary laws adopted by the legislature recently and which became effective Sept. 1, governing the operation of barber shops and beauty parlors, can be obtained by communicating with Dr. M. M. Carrick, head of the State Health Department at Austin.

Each barber shop and beauty parlor in a city must have a copy of the law posted conspicuously in the shop, a provision of the health law provides. The sanitary regulation provides that all articles used in shaving, cutting a man's hair, manicuring or otherwise administering a scalp or facial treatment, must be sterilized in hot boiling water at least once after they have been used.

No employee or employer must be afflicted with a communicable disease, the law states. The law also provides that no one shall sleep in a barber shop or in a beauty parlor. Failure to heed any of the requirements of the provisions of the law provides that such failure will constitute a misdemeanor and a fine of not less than \$10 nor more than \$50, or a sentence of not less than thirty days nor more than ninety days be imposed. Both, however, may be imposed, if necessary, the law states.

Managers of the barber or beauty shops must notify the health department that they are operating such shops five days after the law became effective or five days after any shop has changed ownership.

A lot of fellows are now reminding us that they predicted a month ago that cotton was going to advance, and sure enough it has. We can retaliate by reminding them that they made the same prediction in August, 1920, and sure enough it didn't. We have noticed that the man who safely tells that cotton will go either up or down waits until the advance or decline has come.

The superintendent of the Dallas city farm has demonstrated that "choc" beer is intoxicating. He recently took a hundred gallons of confiscated "choc" to the farm and poured it into the troughs where 200 hogs fed. The hogs drank the stuff and got so drunk and wild that all the farm hands had to be called out to keep them from tearing down the fences around the inclosure where they were kept. The superintendent says that men may want to drink the stuff but his hogs are not going to get any more. It's not fit for hogs to drink, in his judgment.

STATE FAIR OF TEXAS
and International Exposition
DALLAS
October 8 to 23

A Splendid Showing of LIVESTOCK
Will Feature the 1921 Season

The interests of all Texas are closely related to the livestock industry. That's why the State Fair of Texas exhibits are record breaking from season to season—it's the reason why this year will show the biggest gathering of fine purebred Texas ever saw at the State Fair, and one that every farmer and stock-raiser in the State should visit and study.

Plan Now For Your Trip to the State Fair

There's so much to see you can't afford to let it pass into history without going at least once. Mexico's magnificent National Exhibit, the best the State can offer in the way of agricultural products, implements, machinery and auto shows, a spectacular amusement program, football, championship auto races, bands of international repute—make sure of your trip by planning NOW.

Drink Question Solved

The TEST of this popular drink is that the people like it—furthermore it is wholesome and nourishing.

NOT A "NEAR BEER"

The distinction is not generally understood; a "near beer" is a product of arrested fermentation—it is only half-made and lacks the invigorating punch and the delightful and snappy flavor of—

MINNEHAHA PALE

MINNEHAHA is a SCIENTIFIC product based upon knowledge developed since the World War cut off the old-fashioned beer.

The DRINK QUESTION was solved by the stupendous equipment shown herewith—

a 5 story machine

Let us explain: MINNEHAHA is a finished product—thoroughly fermented—a real Lagered drink—brewed twice as rich as old style brew.

What this equipment does:

With our continuous operation vacuum process we only reduce the alcohol; so the beery character, aroma, flavor and nutritious qualities are not disturbed.

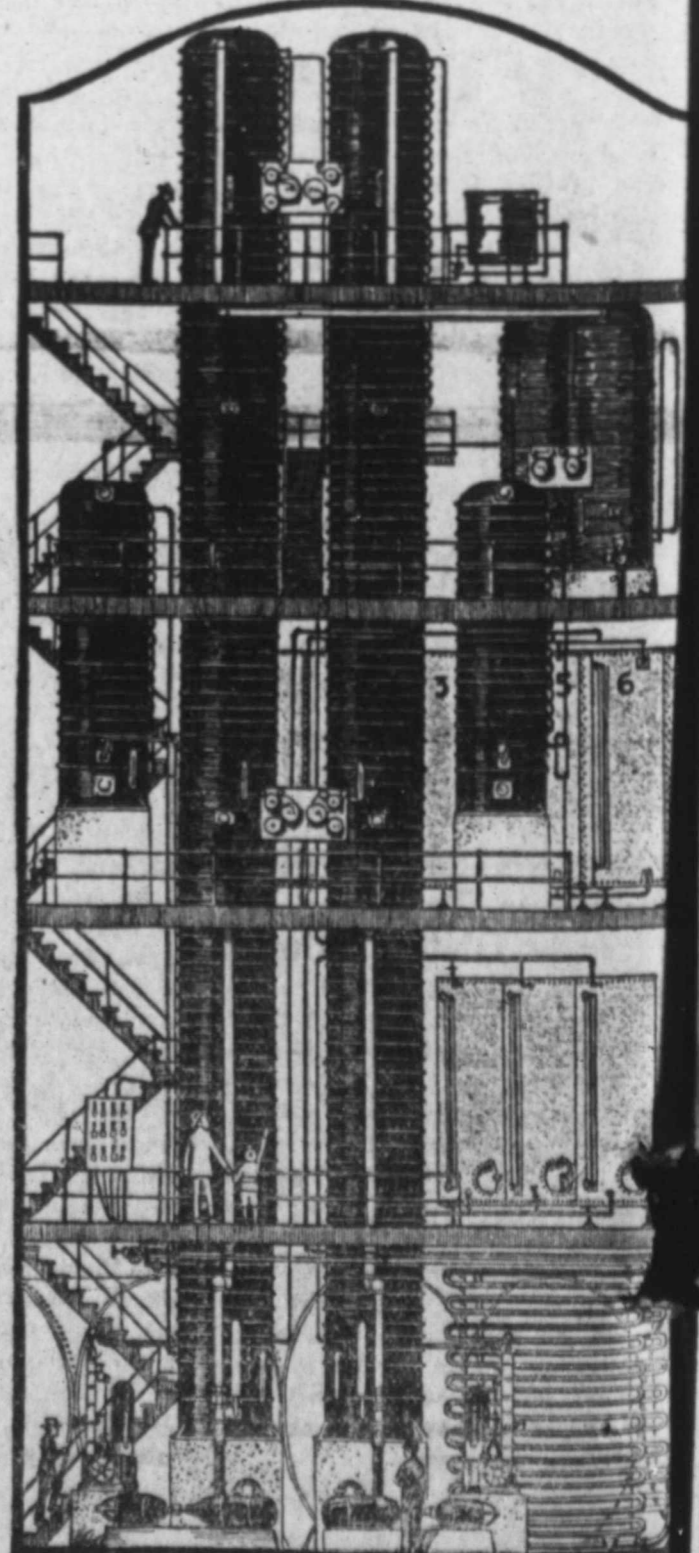

This patent process in finishing our MINNEHAHA has solved the Drink Question for millions of people. It will do the same for you.

OIL SITUATION IMPROVES; RISE IN CRUDE EXPECTED

That an advance in crude oil may be expected any day is evidenced by reports of the past week which show a marked improvement in all stock and bond markets but an actual rise in the price of several refined oil products here in Texas. For instance, kerosene, heretofore without a market, is being bought in large quantities by the leading sales companies, and fuel oil, which has been selling for 45 cents is now bringing 60 and 70 cents on the Texas market. In Oklahoma fuel contracts are being filled at \$1.00 and \$1.10 per barrel.

Oil stocks in New York have shown improvement. This is due largely to a settlement of the Mexican export tangle, but the resumption of operation of many big industries had some bearing on it.

APPOINTMENT OF ASYLUM SUPERINTENDENT IS MADE

Austin, Sept. 10.—The Board of Control today announced appointment of F. S. White of Terrell as superintendent of the Northwest Texas State Insane Asylum at Wichita Falls, which will open shortly.

For instance, reports show that the textile industry in New England, with thousands of factories, has recovered from the readjustment period, and is operating at full time now. A Cleburne report says that the Santa Fe shops there, the largest in the state, have orders to resume operation with full forces at once.

Mrs. Omer Beckham visited at Elbert last week.

F. H. Bowron and Jim Vaughan went to Olney last Friday evening.

"UNCLE JOE" ANGRY OVER REPORT HE'LL LEAVE CONGRESS

Washington, Sept. 10.—"Uncle Joe" Cannon, dean of Congress, chewed his cigar viciously and, full of indignation, stamped into his office at the capitol today.

Newspaper reports quoting Representative Rodenberg of Illinois as announcing that "Uncle Joe" will retire from Congress at the end of his present term were the cause of the aged legislator's indignation.

It was declared that "Uncle Joe" is not yet ready to retire and no announcement to this effect is authorized. The veteran legislator later will issue a statement, it is said.

"Uncle Joe" has been in Congress, with the exception of two terms, since his first election in 1872. He was defeated on the issue of the McKinley tariff in 1890 and was swamped in the Republican catastrophe of 1912.

"Involuntary vacations" is the way the former Speaker usually refers to his two defeats. He has frequently said to his friends that he hoped "to have a funeral at the Government's expense," meaning that he wished to die in the harness and on the job, as did his old partisan foe and personal friend, Champ Clark.

"Uncle Joe" is the dean of Congress. He is serving his twenty-third term, which is longer service than that of any other man, Senator or Representative, in all Congressional history. The day that marked the breaking of the record of longevity service, that theretofore had been held by Justin L. Morrill of Vermont, was the occasion of a notable celebration in the House.

RANGERS KILL SMUGGLER IN BORDER FIGHT

Laredo, Sept. 13.—Rangers, customs inspectors and deputy sheriffs of LaSalle county, in a fierce battle in the extreme southwestern part of LaSalle county, killed the leader of a gang of heavily armed Mexican liquor smugglers, captured nine of the smugglers with their arms and ammunition, recovered fifteen head of stolen horses and seized 550 quart bottles of mesca and tequila.

The smugglers were surprised by the officers, who Friday raided their rendezvous on an isolated ranch, and put up a hard battle, but none of the officers was wounded. Yesterday the captured men and stolen and smuggled goods were brought into Cotulla. It is believed the smugglers were also members of a gang of horse, cattle and hog thieves who have been operating in LaSalle county for some months. This is the biggest capture of smugglers and thieves made in this section in some time.

NOTICE IN PROBATE—WRIT THE STATE OF TEXAS

To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Young, State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

NOTICE

The State of Texas, To all Persons interested in the Estate of Joe C. Woodall, Pearl Ella Woodall and Bernice Woodall, Jno. C. Bower has filed in the County Court of Young County, an application to be appointed Guardian of the persons and Estate of above minors which be heard at the next term of this court, October 3, 1921, at the court house thereof, in the City of Graham at which time all persons interested in said Estate may appear and contest said application, if they see proper.

Here Fail Not, under penalty of the law, and of this Writ make due return.

Given under my hand and seal of office, in the City of Graham (L. S.) this 6th day of September, A. D. 1921.

3-5c W. H. KENNEDY, Clerk County Court, Young County.

The editor of the Nation sent an invitation to G. Bernard Shaw to come to the United States. Mr. Shaw's reply, written from England, had in it the following: "I have no intention either of going to prison with Debs or taking my wife to Texas, where the Ku Klux Klan snatches white women out of hotel verandas and tars and feathers them. If I were dependent upon martyrdom for a reputation, I could go to Ireland."

Time to 'Suit Up'

A familiar saying among baseball and football players--

It might be well applied to every man. When the first touch of fall arrives naturally men begin to think about "Suiting Up" or getting into a new suit.

These days men take pride in selecting their suits. We take pride in selling them--

They are here men in all the new fabrics, reasonably priced at--

Substantial Revival of Business on Way Says Government

Washington, Sept. 13.—Rapid recovery of leading staple commodity lines, together with increases in the values of many products, was taken today by responsible Government officials as a clear indication of a trend toward a substantial business revival.

Among the salient features in this expected revival as pointed out by government officials were:

1.—The rise in the price of cotton, the real start away from depression, is to be sustained by the fact that this year's crop is short and the additional seasonal deterioration from boll weevil and drouth last month

may reduce the Government's last estimate.

2.—A pronounced jump in the demand for American exports, bringing the export figures upon a par with those of last Spring. This means a much larger volume of shipments than was reported then because since Spring prices have steadily declined.

2.—Europe is shipping heavier supplies of her exportable surplus to American markets. It means a further cutting down of Europe's unfunded, indebtedness to America, as payments can only be made in goods.

4.—The Government, in advance of action by Congress, has decided to relieve the credit strain of the railroads and rush their rehabilitation and prepare them for the heavy traffic demands of the coming Winter and Spring. The President has di-

rected the sale of the \$380,000,000 in equipment trust certificates held by the Government, or as much as the market will absorb at par, so the proceeds can be used in paying some of the undisputed claims of the carriers.

5.—The War Finance Corporation is getting ready to advance growers of farm products of millions of dollars, to aid in advancing domestic farming operations, sales and marketing.

Mr. and Mrs. A. W. Wight, of Odessa, Texas, left Monday for their home after a pleasant visit with their daughter, Mrs. J. E. Evans. Miss John Henry, who has been visiting with her sister several weeks, returned with her father and mother.

BACKWARD STUDENTS

Parents, do you know that seventy per cent of the backward students in school are so on account of defective vision. You should make sure that your child is not handicapped in this way.

We make a specialty of fitting glasses to children and being equipped with the best methods, together with efficiency and our long experience enables us to render the proper service in this matter of so grave importance.

We will make the test without cost to you and if glasses are needed the price will be reasonable and you are assured not only good vision, but you are also assured of getting the proper mounting regarding style, comfort, durability and appearance. Let us help you to find the trouble whatever it may be.

We also do watch repairing, spe-

HOLMES-PICKARD

Mr. Owen B. Holmes and Miss Pauline Pickard were united in marriage last Wednesday evening at 7:30 at the home of the bride's parents, Mr. and Mrs. C. L. Pickard, by Dr. C. R. Taylor.

Mr. Holmes was reared in Waterloo, Iowa, but came to Graham about a year ago and has since made Graham his home and while here has made many friends.

The bride is one of Graham's most beautiful and talented young ladies and she has many friends here who congratulate her and wish her much happiness.

Mr. and Mrs. Holmes will make Graham their home for the present.

Specializing on the high grade variety.

SHERIFF'S SALE

THE STATE OF TEXAS,
 County of Young.

By virtue of an Order of Sale issued out of the Honorable County of Young County, on the 23rd day of August, 1921, by the Clerk thereof, in the case of The Pierce Oil Corporation vs. J. B. Wood No. 836, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales, on the fourth Tuesday in September, A. D. 1921, it being the 26th day of said month, before the Court House door of said Young County, in the City of Graham, the following described property, to-wit:

One Reo No. 4, Seven passenger Touring Car, Model 1919, Engine. Levied on as the property of J. B. Wood to satisfy a judgment amounting to \$281.87 in favor of The Pierce Oil Corporation and costs of suit.

Given under my hand, this 15th day of September, 1921.

JOHN W. SAYE,
 Sheriff in and for Young County, Texas.

By GEO. BLACK, Deputy.

Mrs. Nat Price called at our office yesterday and renewed for three copies of The Leader to be sent to her sisters, Mesdames J. H. Bryan, Clifton, Arizona; Clem McCarver, Cisco, Texas; F. M. Perry, Pond Creek, Oklahoma. Mrs. Price has kept her sisters posted on Graham's progress for many years by sending them the old home paper.

TREASURY DEPARTMENT Office of the Comptroller of the Currency

Whereas, by satisfactory evidence presented to the undersigned, it has been made to appear that "The Graham National Bank" in the City of Graham in the County of Young and State of Texas, has complied with all the provisions of the Act of Congress "to enable National Banking Associations to extend their corporate existence, and for other purposes," approved July 12, 1882;

Now, therefore, I, D. R. Crissinger, Comptroller of the Currency, do hereby certify that "The Graham National Bank" in the City of Graham in the County of Young and State of Texas is authorized to have succession for the period specified in its amended articles of association: namely, until close of business June 28, 1941.

In Testimony Whereof witness my hand and Seal of office this (L.S.) Twenty-Eighth day of June, 1921.

J. B. Skinner, of Eastland, is in the city to spend a while with his daughter, Mrs. W. H. Kennedy.

Large supply of WARRANTY DEEDS, Oil and Gas Leases and other legal blanks at the Leader office.

NEWS NOTES FROM SHERIFF'S DEPARTMENT

Captain J. H. Long, A. A. Graves and Ed Sparr, deputy sheriffs of Young county, arrested J. W. Moore at Ellasville last Thursday with an automobile load of auto supplies valued at \$400.00 which, it is alleged, he had taken from a supply house at South Bend. The stock had formerly belonged to Mr. Moore but was in charge of the sheriff at the time it is claimed the goods were taken.

George Vaughn was arrested last week in East Graham with two saddles and a set of harness in his possession that had been taken from Breckenridge. He also had a quantity of "choc" beer. He has been turned over to the Stephens county officers.

Deputy Sheriff Ed Sparr arrested a white man and a negro porter at a local rooming house last Thursday night. The negro not knowing the officer told him that he could get him some whisky. The officer gave him four dollars and he soon returned with a pint of liquor, with the result that the negro and a white man were arrested.

The Sheriff's department raided the Wellington Monday and secured a small amount of intoxicating liquor. Three men were arrested. Sheriff Saye took three prisoners to Fort Worth Saturday and one Sunday. The Sheriff will be glad when the new jail is finished.

HENRY CHAPEL

Yes, Cedarite, we've given up all hopes of getting rich long ago. If you could see the poor pitiful cotton patches after Mr. Boll Weevil gave them up, you would say so, too. Everybody busy gathering what has been made.

Robert Moren has been sick the last few days.

Dick Graves of Fort Worth, spent last Saturday and Sunday with Mr. and Mrs. H. P. Young and family.

Mrs. Fred Moren and babies of Dalhart, Texas, are visiting Mr. and Mrs. Chestnut and family of Finis, and Mr. and Mrs. Moren of this place.

Mr. and Mrs. Vernon Crow are the happy parents of pretty baby girl. Miss Katie Richardson of Whitney, Texas, and sister, Mrs. Dr. Cripp, of Breckenridge, and three little boys spent from Saturday until Monday with Mrs. Jarnagin and family.

Mrs. Callie Shannon, after her ten weeks school term in Greeley, Col., came by to see home folks for a few days. She said the educational work was not any better than our Texas school system.

Mrs. Posie Bowers has been in Graham the past week under treatment. She is better.

Had singing at the school house last night.

Have had some ice cream suppers. Messrs. Vaughn and Green of Graham, were in the community the past week buying cattle.

O. G. Gholston has been quite sick for several days.

Delbert Wade's many friends will be glad to hear he has gotten well from his burns he received several days ago.

Lloyd Dillender came home from Throckmorton county this week where he has been working for several months.

Our school will begin Monday, the 12th. Water is getting scarce in this part of the county.

TO WHOM THIS MAY CONCERN:
Graham, Texas, Sept. 12th, 1921.

That I, H. M. Lee, the father of Ernestine Lee, do hereby acknowledge that the foregoing instrument is correct and true.

Ernestine Lee was born on May 22nd, 1909. At five months of age she was stricken with Infantile Paralysis while living in Waurika, Okla. Our family physician and surgeon, Dr. Cantrell, was immediately called and after several months he informed us that he had exhausted every skillful effort and that the poor little infant was incurable, but that her present condition was not to be seriously feared:—she might live for years.

As little Ernestine grew her deficiencies became more noticeable in hips and legs, feet, neck and right shoulder.

In June, 1921, I became acquainted with Dr. J. R. O'Connell, Chiropractor in Graham, and after laying her case before him I decided, AS A LAST RESORT, to let Dr. O'Connell give her Chiropractic adjustments.

I have been living in Graham the past three years and the great majority of local folks know Ernestine and knew her deformed condition up until June, 1921, and I now invite everybody in Graham to notice the remarkable improvements of little Ernestine who is well on her way to absolute recovery.

(Signed) **H. M. LEE,**

**TOO LONG IN WATER
CAUSE OF EAR AND
THROAT TROUBLE**

Physicians report an epidemic of throat and ear trouble in Dallas at this time and one declared that thirty per cent of the cases are caused by swimming.

This specialist, who is himself fond of water sports, declares that the blame cannot be placed entirely upon the pools or streams that are being visited by such large numbers of people this summer, but that many of cases of illness are caused by improper swimming and diving.

Breathing correctly while in the water, and especially just before and after diving, is vitally important to the health, it is declared. The palate should be raised and closed as tightly as possible before going under water and care should be exercised in expelling water from the nostrils or throat in case of strangulation, no matter how slight. Most of the head troubles are caused by those who strangle expelling the water too violently, thus straining the delicate nasal passages and causing to circulate therein any accumulated formation and often resulting in congestions.

And another cause of a lot of the trouble is the fact that many bathers stay in the pools and streams too long. Just a few minutes of diving, swimming and splashing around for exercise should be enough for anyone, the doctors say. Over-exertion weakens the constitution, they say, and makes one more susceptible to the troubles now being experienced.

It is the general consensus of opinion that the swimming pools and stream resorts are all right as a rule, but that the main danger of infection is caused by the fact that so many people get into the water at one time and stay too long.

It has been pointed out that if the sizes of the crowds change every few minutes with the running of the water through the pools, there would probably be less occasion to visit a specialist a day or two after taking a plunge.—Dallas News.

Only people who have wheels in their heads think the country is nearing a revolution.

CITATION BY PUBLICATION

THE STATE OF TEXAS
To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to Summon Gorman Brothers, a partnership firm by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not then in any newspaper published in the 30th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 30th Judicial District, to appear at the next regular term of the Justice Court of Young County, to be holden at the Court House thereof, in Graham, on the last Monday in September, A. D. 1921, the same being the 26th day of September, A. D. 1921, then and there to answer a petition filed in said Court on the 3rd day of September, A. D. 1921, in a suit numbered on the docket of said Court as No. 2320, wherein Otis Tittle is Plaintiff, and Gorman Brothers, a partnership firm, are Defendants, and said petition alleging Defendants are indebted to Plaintiff in the sum of \$50.00 for storage on one automobile the same being an Elcar, 1920 model, motor N. 33440. Said indebtedness is due and unpaid and Plaintiff prays for judgment for \$50.00 and all costs of suit.

Herein Fail Not, but have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness C. D. Brewton, Justice of the Peace, Precinct No. 1, Young County, Texas.

Given under my hand and the seal of said Court, at office in Graham, this, the 3 day of Sept. A. D. 1921.

C. D. BREWTON, J. P.
Justice Pre. No. 1, Young County.
A true copy, I certify.

J. D. DAWSON,
Constable Pre. No. 1, Young County.

Mathias Erzberger, prominent German ex-secretary of state and member of the Reichstag, was murdered in the Black Forest, near Berlin. His death is believed to have been caused by monarchist assassins. Erzberger's career in German politics had been a stormy one. He was a member of the German armistice delegation that discussed peace terms with Marshal Foch.

**CITATION BY PUBLICATION
THE STATE OF TEXAS**

To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon E. P. Harris by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 30th Judicial District; but if there be no newspaper published in the nearest District to said 30th Judicial District, then in a newspaper published in the nearest District to said 30th Judicial District to appear at the next regular term of the County Court of Young County, to be holden at the Court House thereof, in Graham, on the last Monday in September, A. D. 1921, the same being the 26th day of September, A. D. 1921, then and there to answer a petition filed in said Court on the 11th day of August, A. D. 1921, in a suit, numbered on the docket of said Court No. 897, wherein the Ranger Gas Company, a corporation, is Plaintiff, and E. P. Harris is Defendant, and said petition alleging That on June 1st, to July 1st, inclusive, at the special instance and request of defendant, the plaintiff furnished him with gas to operate defendant's oil well located on the G. G. Woods farm, Young County, Texas, and that the amount of gas so consumed by defendant for said month amounted to the sum of \$273.00, and that the same was due and payable on the 1st day of July, 1921, and payment demand, and defendant refused to pay the same or any part thereof, to this plaintiff's injury and damage in the sum of \$273.00 as above stated.

Wherefore, premises considered, plaintiff prays the court that the defendant be cited to appear and answer herein, and that upon hearing hereof, it have and recover of and from defendant its judgment in the sum of \$273.00, cost of suit and general and special relief in law or in equity, and it will ever pray.

**STATE MARSHALL
URGES SCHOOL
FIRE PREVENTION**

Austin, Sept. 6.—Safeguards against fires should be taken by Texas school authorities in preparation for the opening of schools this month, G. W. Tilley, State Fire Marshal, advised in a bulletin to school officials in which he said in part:

"Those who are charged with responsibility of the care of school children should be sure that everything has been removed, that the heating plant in each building is properly installed and in correct repair, that approved fire extinguishers of the electrical wiring installation of the electrical wiring has been thoroughly inspected and that it is in good condition, and that exits and fire escapes are in proper condition.

"Ten per cent of all accidental deaths in this country result from fire. Each year a great many school houses in Texas burn.

"Fire drills are extremely important and should be held at least twice a month, but perfection of drilling is of little value if fire exits are omitted or improperly designed, or if doors are locked or do not open outward.

"The janitor is an important factor in the prevention of fires and should be made thoroughly acquainted with the vital need for careful house-keeping."

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, W. H. Kennedy, Clerk of the County Court of Young County. Given under my hand and the seal of said Court, at office in (L. S.) Graham, this the 9th day of September, A. D. 1921.

W. H. KENNEDY,
Clerk, County Court, Young County.
By WILLARD MATTHEWS, Deputy.

BEWARE OF T. B.

In Edgar county (Illinois), a herd of cows was tested for tuberculosis. One cow treated. She was properly tagged and was supposed to have been kept under quarantine and slaughtered, but she was a good looking cow apparently healthy. Her owner removed the ear tag and gave her to one of his tenants to settle an account. The tenant, probably ignorant of the details in connection with her past history, used her for his family milk supply. It later developed that five of the seven children had contracted tuberculosis. The only two who are free from the disease are two who were not using cow's milk. The cow was recently slaughtered and was found to have a generalized case of tuberculosis.

The investigators, who made a thorough investigation, found that a pig which had been fed on the milk from this cow reacted to the tuberculin test; the family cat was killed and proved to be affected, and a cow, recently purchased, reacted to the test.

If you want to be sure that your hogs are free from tuberculosis give the cows the tuberculin test, weed out those which are affected and have a general housecleaning at the source. You owe it to yourself, your family and your customers.—Southland Farmer.

**SHOPS AT CLEBURNE
TO RUN FULL FORCE**

As a result of a personal inspection and a survey of business conditions, F. G. Pettibone, vice president and general manager, announced Tuesday that the company's shops at Cleburne will run at full capacity and the track maintenance force be brought up to full strength.

Mr. Pettibone said he found business conditions most promising on the entire system and it is to care for the expected heavy fall and winter traffic that the order has been issued. His inspection of the line was made on a motor car.

LEAD & ZINC PAINT

If you find better paint—we'll give you this paint free!

Here's the offer: PAINT half your house with Devoe; paint the other half with any other paint you choose. If Devoe doesn't take fewer gallons and cost less money, we will make no charge for Devoe. If Devoe doesn't wear a year or two or three years longer—longer and better—we will give you enough Devoe to do the job over. Can you afford to pass this offer without investigation? DEVOE PRODUCTS are time-tested and proven—backed by 106 years' experience of the oldest paint manufacturing concern in the U.S. Founded 1754. Sold by the Devoe Agent in your community.

EMPLOYES LUMBER COMPANY
Graham, Elvasville, South Bend

NOTICE!!

For husbands who hesitate to trust the family motor car to the mercies of friend wife—

For the masculine division of the general automobilizing public—
For all those who look askance when milady's at the wheel—
Here's a bit of information which upsets all the dope and throws a new light on an interesting situation.

A large manufacturer making one of the important parts of an automobile, through inquiry among its hundreds of service stations scattered over the country, develops the significant fact that the number of women driving motor cars as compared with men is increasing, and that women are good drivers in the broader sense of the word.

This has reference not alone to what she does when at the wheel but also to her knowledge of the car itself and the condition in which she keeps it.

The company which thus comes to the defense of the chauffeur fair, The Willard Storage Battery Co., of Cleveland, was able to picture the situation by observing through the many eyes of its service men what kind of treatment women give the storage batteries in the cars they drive.

Contrary to popular opinion, it was the testimony of these consulted that women do not neglect the storage battery any more than do the men. In fact, many service men are of the opinion that they are more careful in seeing to it that the battery gets the necessary occasional hydrometer test and drink of distilled water. Some of the best results in battery service are obtained on cars driven almost entirely by women.

Many women even look after their cars themselves, doing their own testing and filling, and likewise making themselves handy with screw driver and monkey-wrench.

To help increase the number of fair ones who can be trusted with the family gas chariot, the Willard service stations in this city and throughout the country are now making special efforts to teach the women the rudiments of battery care.

Education pamphlets are being distributed, patrons of service stations are getting verbal instruction and even the motion picture screen is being used. The company has produced a short film in which the principal character is a young woman and the story of which centers around a motor car.

GRAHAM STORAGE BATTERY CO.

CLARENCE OUSLEY CANDIDATE FOR U. S. SENATOR

Fort Worth, Sept. 13.—"I am unwilling to believe, for example, that statesmanship is incapable of devising a less burdensome and less meddlesome system of taxation and a wiser system of credit or a wiser administration of credit that we now endure." Such is one of the tenets of the faith which is in Clarence Ousley, publicist, politician and farm expert, who has announced himself as candidate for the Democratic nomination for United States senator.

"Having finished my temporary engagement with the Agricultural and Mechanical College," Mr. Ousley says in his opening announcement, "I am free to say . . . that I have no intention of precipitating a contest thus far in advance of the primary, for I am sure the people are unwilling to plunge into next year's politics."

"Still it seems to me well for the people to be informed as early as practicable who the candidates are likely to be. The senatorship is an office of large responsibility and the term is for six years. Hence ample time ought to be given for voters to make inquiries and to confer among themselves as occasion permits in order to reach just conclusions in their own interest. They should realize that they are the owners of the greatest national estate upon the earth and that it is to be administered by the trustees whom they elect to office, but it is to be administered for the present benefit of every man, woman and child in the republic. Therefore, we should make the public business our personal concern."

REDISTRICTING BILL FILED BY GOVERNOR WITHOUT SIGNING

Austin Sept. 13.—The senatorial redistricting bill and the representative redistricting bill were filed by Governor Neff this morning to become laws without his signature. The Governor also filed without his signature the bill providing for removal of the entire penitentiary system to a point seventy-five miles of Austin.

The Governor signed the bills providing for a supervisory board to visit the penitentiaries quarterly and report to the chief executive as to the living conditions and welfare of the convicts. He appointed Dr. J. T. Harrington of Waco, Mrs. J. E. King of Hunt, Kerr county, and W. Dorsey Brown of Kaufman as members of the board.

The representative redistricting bill takes effect Nov. 23, 90 days after adjournment of the second called session. The senatorial bill does not take effect until April 1, 1924, a clause to that effect being contained in the bill.

The prison removal bill provides for a commission composed of the Governor, Attorney General and Land Commissioner to provide for sale of all of the vacant lands of the system and centralize the system in a manufacturing plant within 75 miles of Austin. However, definite sale and purchasing of the lands, cannot be made until approved by the legislature.

The Governor also signed the bill authorizing the board of control to lease the Kerrville American Legion hospital to the Federal government.

The educational appropriation bill and the bill abolishing the use of chains and limiting the use of the bat in punishing convicts are still before the Governor.

Notice of Sale Under Execution State of Texas, County of Young

By virtue of an execution issued out of the Honorable County Court of Young County, Texas, on the 19 day of Aug., 1921, in the case of A. G. Love vs. Lola Fernandez et al, No. 818 and to me as such Constable directed and delivered, I will proceed to sell within the hours prescribed by law all of the following personal property, to-wit:

Six bales of cotton described as follows: Bonded Gin Nos. (4066), Bale Nos. 1115, 1116, 1122, 1123, 1125, 1124. Bonded Gin No. (3556): Bale Nos. 675, 676, 678.

Levied on as the property of Lola Fernandez et al to satisfy a judgment amounting to Three Hundred Eighteen (\$318.00) Dollars with interest at the rate of 6 per cent per annum from the 15th day of October, 1920, and costs of suit, in favor of A. G. Love.

Time of sale, October 10th, 1921, at 2 o'clock p. m.

Terms of sale, cash.
F. A. BURNETT,
Constable of Young County, Texas.
By T. R. ROSS, Special Deputy.

An old locomotive and train of cars has been on display in St. Louis that belongs to the era of 1831. The three cars had a passenger capacity of forty-five. The conductor sat on the tender of the engine, facing the passengers, sitting in the open-air cars. One of his chief duties, it is explained, was to keep passenger's clothing from being ignited from the sparks of the sparks of the wood-burning locomotive. When such an accident did occur he would splash the unlucky passenger with water. One of the visitors to the exhibit told of a letter she had preserved from a friend who described a trip she had taken on this old train. The writer of the letter prophesied that the use of railroads would soon be abandoned and said that the train made fifteen miles an hour, which was, according to the writer, "flying in the face of Providence."

It is said that the President of the United States is to have an assistant, not to be known as an assistant president, but an assistant to the president. State Press of the Dallas News, is commenting on the item, says he has never been a candidate for any office, but that he would lay aside his modesty sufficiently to admit that he would be glad to accept the position if tendered, but that as Mr. Harding is a Republican and he is a democrat, it is not probable that the offer will be submitted. "However," remarks State Press, "it is true that Mr. Harding's membership in a Baptist church and his need of a No. 10 shoe are points of similarity that might bring us two into a contiguity of confidence justifying our close association in the presidency."

Don't be an eavesdropper, suggests a Pennsylvania paper; brace up and butt in like a man.

One Dead In Raid On Louisiana Bank

Shreveport, La., Sept. 13.—Jack Schools of Bossier City is dead and Ollie Sumlin of Shreveport is in jail at Mansfield as a result of an unsuccessful attempt today to rob the Bank of Grand Cane.

Furnished with information that a bank robbery was planned, officials of Grand Cane sought the assistance of police of Shreveport, and four officers were stationed in and about the bank. When the three bandits drove up in an automobile, one jumped out, entered the bank, and ordered the cashier, W. H. Smith, to hold up his hands.

Smith complied, but the trio was immediately surrounded. A general fight took place in which Schools was killed by Sheriff Williams of Desoto. The other men were captured.

Unmasked Men Lace Two Austin Blacks

Austin, Sept. 13.—Two negroes, both about 35 years old, were taken to a lonely spot in the country last night and whipped. Both are bell-boys in two of the smaller hotels of Austin. After being whipped they were dumped out of an automobile on Congress Avenue and ordered to go to the Austin American office and tell a reporter the story of the flogging.

The negroes said that they were overpowered in front of the hotels, which are next to each other, by unmasked men and taken into the country and lashed with straps.

Estimates of the number who participated in the attack varied from twenty-five to fifty. The attackers were not masked, but are said to have worn goggles and were attired in overalls.

Arrest of Man in Breckenridge Clears Fort Worth Murder

Breckenridge officers Monday contributed the third arrest in the person of an 18-year-old boy in connection with the brutal murder two weeks ago of James McNeal, a Fort Worth service car driver. Cecil R. Jensen is the boy's name, and in a statement to Deputy Sheriff Edmondson and District Attorney Claude McCaleb, of Breckenridge, he is alleged to have admitted his share of the murder.

Jensen was loitering in front of a drug store Monday when Edmondson who had his picture and a description, arrested him. His alleged statement says he helped in the actual murder of McNeal.

Two others, already under arrest, are known to Eliasville people who were former residents of Weatherford. They are Dawson, 14, and Todd, 18. R. D. Jordan lived on a farm adjoining to Todd in Parker county, but Todd was a small boy then.

Jensen in alleged to have told how Todd, Dawson and himself loitered on the Fort Worth-Weatherford road and planned to waylay the first automobilist that came along, murder him, take his car and go to Colorado. They begged a ride of McNeal when he came along. Dawson and Jensen carried big iron pins. When McNeal slowed up for a rough place, the statement says, Dawson reached from the back seat and struck him. Todd, sitting beside the driver, put on the brakes. Then Jensen pounced on the stricken driver with his iron and finished him, according to the statement. They dragged the body of the murdered driver off the road a distance of several hundred feet and hid it in a ravine. Then they went on into Fort Worth with the car, but as they could not get the blood stains off they decided to abandon it. The trio split. Dawson went to his Weatherford home. Todd went to Central Texas, and Jensen said he took a train for Ranger, Eastland, Cisco and Breckenridge.

A Fort Worth mob visited the Deaturie jail recently determined to lynch him. Todd, however, was then safe in a Dallas jail.

Breckenridge Builds Good Road to Caddo

The latest good roads project of Breckenridge concerns the Caddo trade. The Breckenridge Chamber of Commerce is responsible for the network of good roads which is now rapidly expanding.

The Ivan road was constructed first. Then the town hard-surfaced a pile to Crystal Falls, and now the Caddo road is under construction.

Banker Stillman, of New York, is another man who would suppress the newspapers if he could.

Those Chicago offices in which "baby doll" girls have been banned seem to have an eye for business.

Brag on a man, and he will tell other people what a fine judge of human nature you are.

Another trouble with the country is that too many people are trying to get something for nothing.

Why not make jokes about the prevailing styles? It doesn't do any good to get mad about them.

R. G. DUN & CO. SAY FAILURES ARE NOW DECREASING

R. G. Dun & Co. report that business failures are declining. They have fallen from 1,895 for the whole country in January to 1,200 in June. The prospects are bright for continued decrease. The note of improvement is beginning to drown out the chorus of alarm.

One of the financial experts says that many of the failures, although it may seem unkind to say so, are excellent signs of returning business solidity, for they have occurred where business had been built upon inflated standards and conducted along unsound, wasteful lines.

This sort of business is gradually disappearing, as it should. The firms

which weather the depression will be of the type entitled to endure because their methods are sound and represent real service to the public in returns for the profits reaped.

In the meantime deflation goes rapidly on. It is said, by those in a position to know, to have traveled as far in one year since the world war as it took several years to cover after the civil war.

It is a rather painful process, to be sure, but maybe it will mean that the return to normal business conditions will be all the more rapid. It will do no harm to hope for it, and to plan for it, at any rate.—Lubbock Avalanche.

If wishes were automobiles, probably there wouldn't be so many fluffers in the country.

The railroads describe their state of poverty as such that a fat man hardly has the heart to get upon a train.

LETTER TO WHEAT GROWERS ON VALUE OF NEW VARIETIES

Graham, September 12, 1921. To the Wheat Growers of Young County:

Practically all the wheat grown in this section of the country is very badly mixed. Not only different varieties, but smut, oats, and other foreign materials which make it less merchantable are found. We have informed ourselves as best we could on Kanred wheat, and it is our opinion that you will by sowing this wheat increase your yields materially. The following is an extract from a bulletin from the Department of Agriculture, Washington, D. C.:

"Washington, July 29, 1920.—The Department of Agriculture is watching with extreme interest the result of experiments with a new variety of wheat, which is said to yield from three to five bushels an acre more than the kinds now commonly grown. "The new variety, known as Kanred, as developed after 14 years of experimentation from a single head brought from Russia. The experiments were carried on at the Kansas experiment station, in Manhattan, Kansas. Kanred promises to replace completely the varieties of hard wheat now grown, according to its advocates, and specialists assert it will add materially to the grain production of the country.

"Last fall approximately half a million acres were seeded with Kanred, and if the pure seed from this harvest is replanted, as is being urged, the acreage will be six or seven millions. After that, it is predicted, the use of Kanred will become general. Six hundred Kansas farmers organized as the Kansas Crop Association, are endeavoring to see that all the pure seed is replanted.

"A fourth of the hard wheat acreage of Kansas, and large areas in Oklahoma, Texas, Nebraska, Wyoming, Colorado, and South Dakota will be sown to Kanred this fall, it is claimed.

"Kanred will produce more than either Turkey or Kharkof, the varieties of hard wheat now usually grown, the Department stated. It has been successfully used in every state in the hard wheat belt.

"The new wheat is said to resist

Carry Out Your Intentions!

AWAY OFF in your mind you have decided to own a home. Every individual realizes the folly, the dissatisfaction and inconvenience of paying rent. You intend to own a home some time. But good intentions amount to nothing if they are not carried out. Are you putting off until "tomorrow" the decision to own your own home? Time slips away and rent continues just the same. Obey that impulse now! It is easier today than it would be tomorrow.

This office is headquarters for building ideas. It costs you nothing to select your home or other building here from a collection of over five hundred modern designs.

AT THE BAPTIST CHURCH

Let all Baptists in Graham plan to come to church next Sunday. If you are a new Baptist in town by all means line up with the church at once. We need your presence and your prayers. If you are a careless Baptist, wake up and come to church. The outlook was never brighter for the Graham Baptist church than now. Let us all pull together. By a little enthusiastic work we can have 300 in Sunday School. You should come and help.

Sunday School 9:45 a. m.
Preaching 11 a. m., 8 p. m.
Everybody come and feel at home.
C. R. TAYLOR, Pastor.

Hairs on the Average Head.

It has been figured that the average head has about one thousand hairs to the square inch.

Teacher.—Now, Johnny, can you tell me the difference between one yard and two yards?
Small Johnny.—Yes, ma'am, a fence.

ANNOUNCEMENT.

Services of the Methodist Church are being held regularly in the school building each Sunday. The attendance has been good, and we appreciate it, but there are others who might come and who should come. May we look for you next Sunday? At the evening hour we will have a special service. Rev. J. E. Crawford, of Waco, special Secretary for the Centenary, will deliver an illustrated lecture on the work of the Church. His subject is: "Around the World in an Hour." Special attention will be given to Mexico, Brazil, Cuba, Japan, Korea and China. Information and inspiration are the objects of this service. Brother Crawford is one of our best equipped men in the field and will interest you from start to finish. I would like to see the auditorium full for this service.

T. E. BOWMAN.

First Soldier (looking at pictures of himself)—"Which do you think is the best, Mike?"

Second Soldier—"Well, personally, I think the one of you in the gas mask is best."

GAS!--GAS!

Graham is about to enjoy for the first time the LUXURY and at the same time the ECONOMY of NATURAL GAS. After months of investigation of all makes of GAS STOVES we have chosen the famous

QUICK MEAL LINE

to offer the people of Graham, confident that this line will strengthen our long established reputation for the best lines of merchandise the market affords.

With samples of the QUICK MEAL RANGES and the QUICK COMFORT HEATERS on our floor and a car load en route from the factory, we are able to take care of your demands at any price.

Our Cook Stoves are equipped, when desired, with the LORAIN OVEN HEAT REGULATOR, the greatest invention in recent years for ACCURACY in BAKING and SAVING of GAS.

The QUICK COMFORT HEATER has the Bunsen Burner with the Asbestos back and is the only Stove of this type which causes a circulation of air in the room.

Our Stoves will be set free of charge by one of the best Plumbing companies in the city.

LET US SHOW YOU OUR LINE

The John E. Morrison Co.

winter-killing, a thing that recommends it particularly for the northern part of the hard wheat belt, because winter wheat yields higher than spring wheat if it is able to resist the long cold winter. Kanred, it is claimed, also resists rust, one of the worst enemies of wheat and a thing that has caused the loss of millions of bushels of grain.

"Another advantage claimed for Kanred is that it matures earlier, which recommends it to the dry farming regions which compose considerable part of the hard wheat country. Its milling qualities are said to be equal to those of other wheats."

We have now enroute three cars of this pure certified Kanred seed wheat to be distributed at Graham, Newcastle, and Olney, and recommend you avail yourself of this opportunity to purchase some of this seed wheat. In the event that we do not have enough to supply the demand for Kanred then we have in stock at Graham some pure dark hard winter wheat that was grown and treated in the Panhandle of Texas, that we recommend.

Yours very truly,
GRAHAM MILL & ELEVATOR CO.
CHAS. E. HINSON, Asst. Mgr.

WHAT CONSTITUTES A GOOD MOTOR CAR?

"What is a 'good car' anyway," asks H. F. Wurtz, of the Shamrock Motor Co., local Studebaker dealer. "Isn't it a car that serves its owner faithfully and well rather than a car of any certain design or construction?"

"A good car on the blueprints doesn't always mean a good car on the highway. Things happen in daily driving that can be dealt with only as they appear. Then the owner looks to the dealer. So the daily serviceability of the car becomes dependent upon the dealer who sold it.

"The cars in stock represent the smallest end of the really modern automobile sales establishment. All the other departments are there to make good after the sale."
