CHAMBER OF COMMERCE HOLDS ENTHUSIASTIC ROAD MEETING

An enthusiastic meeting of the Chamber of Commerce was held in the court house Tuesday night. There were about one hundred representative men present and a fine spirit shown. President Boyd Street called the meeting to order and explained the purpose of the meeting. He then introduced the new secretary, Judge D. Walker.

Secretary Walker has been in the office only a few weeks but has rendered faithful service. His report showed that the trade trip to Breckenridge was a success. The raising of \$8,000.00 to meet a school deficit and more than \$1,000.00 a month for three months to be expended on our oil field roads are among the accomplishments of the Chamber of Commerce since he became secretary.

It seemed that everyone had come to the meeting with one purpose—to launch a campaign to issue bonds for good roads in this precinct. Judge Penix gave some interesting figures on road building. Space forbids giving all this data at this time but we hope to have more to say elsewhere in this issue and in subsequent issues on this important question. He showed that a \$500,000 bond issue could be floated in this precinct at a cost of about \$8.00 a year taxes on each \$1,000.00.

Commissioner Anderson made an interest talk on the roads in this precinct. The finances of the county will not warrant the expenditure of much money on the part of the county but Mr. Anderson is in favor of the bond issue and he assured the members of the Chamber of Commerce that he would do everything possible to help keep the roads passable until a bond issue could be carried.

Mayor E. S. Graham expressed himself in favor of the issue of bonds and also that the roads should be kept in good repair for present needs.

Fred T. Arnold's address on the necessity of keeping up the roads to our oil fields was well received. Mr. Arnold is a forceful speaker and always brings a good message. He gave several illustrations showing the importance of good roads.

Judge McFarlane made a good talk on the importance of seeing that substantial work be done on the roads.

C. W. DeFreest, who has had considerable experience in oil fields, spoke on the support of the Chamber of Commerce. He is a genuine booster and believes that our Chamber of Commerce can do anything it wants to, and feels that we ought to get behind the boys and do great things. He is one of the live directors and believes that we owe the community a service.

A. W. Kay was called and sanctioned all that had been said on good roads and addressed the meeting on the need of a county fair for Young county. He gave facts and figures showing that these fairs were profitable to the many counties holding them.

President Street then threw the meeting open to general discussion on any topic the speaker desired to speak on. J. E. Morrison, G. V. Wilson, Supt. Cogdell, Reverend T. E. Bowman, A. D. Stewart and others spoke on various subjects but the minds of all seemed to center on a bond issue for this precinct. President Street took a vote of the members present and the vote was practically unanimous for the bond issue.

President Street stated that he would be glad for the business men to organize a trade association. Graham is a great trading center and our people should be apprised of this through an association.

So many good things were brought out that we can not tell of all of them in this issue, but the good work of the Chamber of Commerce will be told from week to week.

STEVENS VS. BROWN

2 P. M. NOVEMBER 11

The greatest wrestling match ever staged in Graham will be "pulled off" at 2 o'clock p. m. November 11. George Stevens has become a favorite with sport lovers in this section and on this date he will meet Pet Brown, of Cisco. Pet Brown came here some time ago to meet Stevens but on account of illness had to postpone the match. Stevens holds the middleweight championship belt. Brown is the Texas champion. The American Legion offers this as a part of the day's program. Prepare to see the match and tell your friends about it.

GRAHAM HIGH FOOTBALL TEAM MEETS DEFEAT SATURDAY

The Graham Football Team had hard luck at Henrietta last Saturday. The boys expected to win and feel that they really won the game. Through some technicality a touchdown made by the Graham team was not counted. The score as announced was 6 to 0 in favor of Henrietta High School.

The Wichita Times gives the following account of the game:

"In one of the prettiest, most stubbornly contested games ever staged in northwest Texas, Henrietta triumphed over Graham here this afternoon. The Henrietta team has lately gone through a working over that made a new machine out of it, and its performance today aroused great hopes among its admirers.

The teams battled scorelessly for the first half, but Dawson carried the ball over for Henrietta in the third quarter. Henrietta was forced back to her own two-third line by the visitors, but held for eight successive downs while the Graham players battered away at the defenses without success.

Special Term of District Court

The Special October term of the District Court will convene at Graham on next Monday, the 24th. The crowded condition of the docket makes the special term necessary.

At the regular September term Judge Weldon sat twenty-two days and tried, settled and disposed of one hundred and twenty cases, making an average of more than five cases per day for every day that court was in session, and still there are many cases that could not be reached at the regular term.

R. O. ANDREWS CAR FOUND AT CADDO

The R. O. Andrews car reported stolen in last week's issue of The Leader has been recovered at Caddo and the man found with the car was landed in jail at Breckenridge.

The Leader was unable to get the name of the man arrested. Mr. Andrews felt that he knew who had taken his car and got in communication with the sheriff's department with the result that his car was found and the man put in jail.

Barnes and Lusk are putting on a big auction sale of choice lots in Blue Blaze Addition to the town of Bunger. This sale takes place Saturday, October 22, at the Blue Blaze hotel. The new wells coming in, every week make this the most attractive field in the country and these lots ought to bring good prices.

BIG HALLOWEEN CELEBRATION AT SCHOOL BUILDING

On Friday evening, October 28th, at the high school building a Halloween celebration will be held which will greatly surpass anything of the kind which has ever been held in Graham. Those sponsoring the celebration are the faculty and students of the high school and they are already busy with plans and preparations for the big event.

The first part of the evening's entertainment will be a variety vaudeville program and will include numbers by a splendid male quartette, the high school violin club, a mixed vocal quartette, a children's chorus, a playette by the best dramatic talent of the town, a negro comedian, a negro plantation group, a negro string quartette, and an extravagant style show which is being planned by the merchants of the city.

After the variety program the carnival proper will begin and those present will visit the various candy, ice cream, cold drink and hot drink and novelty booths, and numerous side shows and midway attractions. There will be a bountiful supply of confetti, streamers, tin horns and other carnival articles and a hilarious time is assured all who attend. The proceeds of the celebration will be used by the high school football team and library.

G. F. COLLINS FINE CHICKENS WIN 3RD SUCCESSIVE YEAR

G. F. Collins has been notified that his light barred Plymouth Rock chickens have been declared winners at the State Fair. This is the third successive year that his chickens have won premiums at the State Fair.

Mr. Collins had an inquiry from the Panhandle for four pullets and one cockerel. He wrote the man the five would cost him \$50 and received a reply by return mail to ship them on a specified date.

He does not raise many chickens but raises the best. He is not able to supply the demand for his chickens at \$100.00 a dozen. If our farmers would give more attention to pure bred chickens a much better profit would be derived than from the kinds kept by most farmers.

ROBERT TAGGART FALLS FROM TRAIN

Robert Taggart, who was painfully hurt last Saturday when he jumped from the Wichita Southern, is getting along fine and will soon be able to leave the sanitarium.

Robert works at the Rock Island depot and as the Wichita Falls & Southern passes by his home he rides to his lunch every day as the train goes south. On Saturday the train was a little late and was going faster than usual when it passed his home. Just how the accident happened is not known but some who saw him jump off believe that he was thrown to the ground and that the steps hit his head as the only bruises are on his head and face.

It was a close call for him and his friends rejoice to learn that he is recovering and will soon be able to be out again.

SOUTH BEND TO VOTE ON INCORPORATION

Our sister city, South Bend, is to vote on incorporation at an early date. The progressive citizens of South Bend realize that in order to have the conveniences that a growing city needs it is necessary to incorporate.

South Bend desires to make many improvements that can not be very well made until the town is incorporated. The schools, streets, fire protection and other city affairs can be handled much more satisfactorily after the town has its own government.

Editor Travers, of the South Bend Derrick, is a candidate for mayor.

YOUNG COUNTY RURAL SCHOOLS MAKE PROGRESS

The slogan for public education in Young county now is "Make Texas Schools the Best in the World, and Young County's the Best in Texas." The first part originated with the Better Schools campaign last year, and the latter part was coined by County Superintendent H. H. Avants; and so strongly does he adhere to no less a purpose, and so fervently does he hope for the ultimate realization of making our rural schools second to none, that the above slogan is the basis for his talks to the schools this year, and it will be written in a conspicuous place in every school room under his supervision. All high school superintendents in the county will also be requested to do the same. Mr. Avants was born and reared on a farm; has attended the so-called people's university, the one-teacher rural school; has taught in rural schools from the smallest to the modern up-to-date consolidated school and has thereby gained valuable experience that makes it possible for him to be widely awake to the weaknesses and the needs of our present rural schools.

Mr. Avants began his work as County Superintendent of Schools September 1, 1920, and since that date he has been tirelessly at work for better educational conditions among our rural and small town schools. Some good results of the work are shown by the facts that under his direction and leadership two consolidations, thirteen tax raises and two bond issues have been put over. The increase in local taxation alone amount to more than \$12,000 for the year, and the two bond issues total \$12,000.00. At present the County Superintendent's office is laying plans for more consolidations, tax increases, and bond issues for the present school year. New buildings have been erected at Lone Star and Colston that would be a credit to any community in the State, and a \$9,000.00 brick building will be started at Jean just as soon as the bonds are sold. The County Superintendent says he will never be content to see anything less than an up-to-date school in every district in the county. There are only a few districts in the county that levy less than a fifty-cent local tax, and enough others levy more until the average for the whole county is a fraction more than fifty-two cents. Practically forty per cent of that amount has been raised during the past year. An earnest effort will be made to induce the people in every district to raise the local tax rate to at least fifty cents in order that adequate support may be given the schools. Of the forty-seven districts that maintain schools under the supervision of the County Superintendent's office, six have local tax rates of one dollar, one has a rate of seventy-five cents, thirty-three have fifty-cent rates, and seven less than fifty cents.

Further evidences of progress are longer school terms and better qualified teachers. While accurate data are not available at this time, we are assured that the average school term for the county will be in excess of seven months. So far as we know, this is the longest average school term the county has ever had. Also the general qualifications possessed by the teachers are at least fifty per cent in excess of the same for the past year, and without a doubt the highest the rural schools have ever enjoyed. There are a number of college graduates teaching in the rural and small town schools; and nearly all of the teachers hold first grade or permanent certificates. There are very few second grade certificates, held by the teachers, and County Superintendent Avants plans to have every school room under his supervision presided over next year by a teacher that holds at least a first grade certificate. These and many

HUMBLE COMPANY COMPLETES PIPE LINE TO BUNGER FIELD

The Owen 1B is the fourth producer in the Bunger field. This well came in yesterday and is making 300 barrels. It is owned jointly by Ross & Tyrrell and Cheney and DeFreest. This is the second well on the Owen lease and the fourth in the Bunger field in the 1900-foot sand. The Rosell-Askew No. 1 is on top of the sand and will be drilled in before this paper reaches our readers. The Stephens County Water Company is running a second four-inch water line to the field and Whitmore and Moore are entering the field to supply water from a fresh water tank four miles northwest of the Bunger field.

The Humble Company is this week completing a pipe line to the Bunger oil field. The discovery well, the Rosell-Owen No. 1, came in about the middle of August and the third pipe line to this field will be completed this week. The Texas Company and the Prairie Company completed lines soon after the first well came in. It is rumored that the Sinclair people will build a pipe line to this field.

The building of these lines to the Bunger field means that the field will be developed rapidly. The Stephens County Water Company is prepared to furnish water for the entire field which also is a great help to the quick development of this district. The fact that the water company, the pipe line companies and other companies are spending such large sums in this field is enough to convince the most skeptical that the Bunger pool is attractive to oil people. The field is being developed properly and these true oil sands will be producing many years hence.

Every field in the country has had its father, its sturdy pioneer who had unbounded faith and who has gone through untold hardships and guided others into the field. C. E. Colcord of Oklahoma City has often been referred to as the father of the South Bend field, also in Young county, for it was he who pioneered the development there.

The one pioneer of the Bunger field is C. W. DeFreest. He has had associated with him M. G. Cheney, a geologist, who has done all the preliminary work in the Bunger field, and to these men, more than to any others, goes the credit for the discovery of the Bunger field.

About three years ago DeFreest came to Graham from the California fields, where he had been operating for some years. After going over the North Central Texas fields he decided that Bunger was his "grub stake." He blocked up about 10,000 acres of leases in the Bunger vicinity and began an effort to get drills started in that territory.

About that time the Empire Gas and Fuel Company started operations on the Lisle farm, east of what is now known as the Bunger pool. De-

Freest had some interests in the vicinity of the Lisle, but his big acreage was to the west, right near the little town of Bunger, and he directed most of his efforts to this territory.

It was last year before he succeeded in getting the first well started. This was started by the Union Oil Company, with whom DeFreest had previously had considerable dealings in the California fields. The company started its first well last December on the Askew farm, under contract for a 4,000-foot hole unless a commercial output of oil or gas were found above that depth. This well is now a producer in the 1900-foot sand. On account of trouble the Owen and the Driver came in before the Askew.

Few fields have been as carefully planned as this one. Messrs. DeFreest and Cheney have given it their personal supervision and with Mr. McNamara, the oil and gas commissioner, on the field everything looks promising.

more things indicate a bright and ever increasing advancement and usefulness for public education in Young county where it has been long neglected. However, a County Superintendent cannot build a good county school system single-handed. He must have public and professional cooperation in his efforts to "Make Texas Schools the Best in the World, and Young County's the Best in Texas."

Just as we go to press the news reaches us that the sheriff and deputies captured a large still in Homer Willis' pasture east of Graham. The sheriff learned a few days ago that a still was in that section and today the raid was made. The still confiscated and four men arrested.

R. H. GRAY LOSES FORD
R. H. Gray lost a Ford at 931 Carolina street Saturday night. He had owned the car only a few days. Members of the family used the car Saturday night and noticed another car that seemed to be watching them but the actions of the people in the other car were not enough to arouse much suspicion at the time but after the car was stolen the movements of the other car were recalled and Mr. Gray is sure that they were planning to get his car.

The officers were notified and Mr. Gray thinks that he has a sufficient clue to assist the officers in locating his car. Our officers have been doing some efficient work in recovering cars and it is to be hoped that they will soon have Mr. Gray's car.

CHEERFULNESS

Fortunate is the man who understands the gospel of cheerfulness, the philosophy of content and who is a devotee of the religion of laughter. Ella Wheeler Wilcox said: "Laugh and the world laughs with you, weep and you weep alone." A forgotten rhymster wrote: "It is easy enough to be pleasant when the world goes by with a song, but the man worth while is the man who smiles when everything is going dead wrong."

Both of these bits of pastoral philosophy are absolutely true to human nature. We are so constituted that we will stumble through a dark forest to follow laughter, while we run from a groan. We dread our friend's complaint about his sour stomach or his wail of bad luck, as much as we dread the plaintive cry of a fretful baby.

It is natural to love the sunshine of life and to dread its shadows and storms. This trait of character affects us in our social and business life more than many appreciate. Indeed, it has so much to do with both, that the only fellow who can carry a sad countenance is the one who has made his fortune or who does not want fellowship.

Could a solicitor sell you anything when he comes into your office with "tears in his voice" and tells you what a miserable place the world is or how very terrible he has been used? Could a man get you to become interested in an investment if he opened the subject with a vision of gloom? Would you be interested in joining his lodge if he started his "talk" with strains of pessimism? Could you get the best out of your employes if you came down every morning with a "snap-off" for everybody? Would you have friends if you continually harped on things that are not right?

You know very well that such conduct throws a wet blanket over the whole works. If you do your own work in a half-hearted way you get only half-hearted support from your associates.

The successful man is the hopeful fellow—he it is that has friends by the legion. Turn your face toward the East and keep going in that direction. Keep hoping that the sun will shine, keep on singing though the whole world sighs and always look for the bright, bright skies.

Raymond Poincaré, former French President, says General Foch will visit the United States in the near future. He says of General Foch: "I have always appreciated the universality of his intelligence, and the humanity of his character."

John H. Kirby, Houston, member of the conference at Washington on the unemployed, gives four principles for settlement. The right of the citizen to enjoy all he can honestly earn, and to be protected in his ownership of property; the regulation of employments and labor conditions belongs to the state and not to the Federal Government; the right of the citizen to work regardless of membership or non-membership in organizations; orderly and dependable transportation.

Many people thought prohibition would kill the California grape crop. Raisins are made from grapes and raisin production has greatly increased. In 1916 production in the United States was 246,000,000 pounds; in 1920 380,000,000. This year a short crop will amount to only 220,000,000 pounds.

FEW BEGGARS WILL STAND QUESTIONING

Only a small percentage of the beggars and solicitors who visit Clarksville will submit to investigation for the purpose of determining the merits of their cases, declares Secretary Kerbow of the Chamber of Commerce, who is in charge of the recently formed Charity Bureau. Mr. Kerbow recites numerous cases where beggars and solicitors have been sent to the Chamber of Commerce headquarters and after finding that no funds would be granted without a thorough investigation as to the worthiness of their pleas, have left the office and failed to return.

Recently an individual called upon local business houses in an effort to raise money for a certain charitable institution, and was finally referred to Secretary Kerbow. Telephone calls soon brought the information that no such institution existed. This verdict would have probably resulted in a saving of several dollars, had each business man referred the party to Secretary Kerbow in the beginning.

Mr. Kerbow asks that solicitors of funds for all purposes and beggars of all types be refused money. Instead of contributing small individual amounts these people should be referred to the Chamber of Commerce, where assistance will be given according to their needs in a lump sum, provided investigation shows the cause to be a worthy one. This plan, Mr. Kerbow suggests, will not only be cheaper for the party approached, but it will be easier for the party receiving attention. All local beggars, as well as strangers should be referred to the Secretary.

The value of this system was clearly shown in Clarksville several years ago, when a bureau of Charities was organized and maintained for a short time. Several worthy unfortunates were given assistance and the town was rid of the unworthy element. This experience showed that something like 70 percent of the applicants for charity were not worthy of support and the number of beggars and solicitors was decreased several hundred per cent in a short time.—Clarksville Times.

ENGLISH AS IT SOUNDS

Here is a singular incident showing how easy it is to mistranslate an overheard remark:

Said Mrs. A. one of the overhearers: "They must have been to the zoo, because I heard her mention 'a trained deer.'"

Said Mrs. B. "No, no. They were talking about going away and she said to him, 'Find out about the 'a trained deer.'"

Said Mrs. C. "I think you are both wrong. It seemed to me they were discussing music, for she said, 'A trained ear' very distinctly."

A few minutes later the lady herself appeared and they told her of their disagreement. "Well," she laughed, "that's certainly funny. You are poor guessers, all of you. The fact is, I'd been out to the country overnight and I was asking my husband if it rained here last evening."—Boston Transcript.

HEALTHGRAMS

By Dr. M. M. CARRICK
State Health Officer

A State's vitality comes first. Is it not as important to know if you are in good health as to be assured of a profit in business?

Protect the baby from indiscriminate kissing. Infantile paralysis is catching. It may occur at any age of life.

Eternal vigilance is the price we pay for freedom from disease. The community that is indifferent to its health problems pays the toll in both a high sickness and mortality rate. We now have many grave problems pressing upon us; but none is of more importance than that of safeguarding the public health.

It is important to take good care of the teeth. If they are allowed to decay, the food cannot be masticated, indigestion results, and the body is not properly nourished.

A house may be rid of fleas, or at least their number may be greatly diminished, by sprinkling flaked naphthalene on the floors and leaving the rooms closed for a few hours. Water will destroy the larvae, but has little effect upon the adult fleas. Kerosene will kill them.

Bad air in the home poisons the system and makes a bad temper for those who are compelled to breathe it.

Dust, dirt, dampness and darkness are the friends of tuberculosis; sunshine, fresh air, soap and water are its enemies. Improper living, bad habits and loss of sleep make you a favorable subject for infection.

Headache is a symptom of disease of some portion of the body.

It is an axiom of the great that "The State is all of us;" and from that we take the corollary, "The greatest good to the greatest number." The function of the State, is, therefore, the welfare of the people, not alone material, striving to regulate by the machinery of the law their commerce; not alone spiritual, directing the thoughts of the men to the things not of this earth; but equally important are the things pertaining to the public health and the physical well-being—teaching men to lead healthful, wholesome lives and thereby transmit to their children and their children's children the strength and virility of sturdy manhood and womanhood.—John Seldon.

Good Effects of Prohibition

Dallas, Oct. 10.—The Rev. Sam Small, the well known and long-time temperance and prohibition advocate, won the prize recently offered by the Washington Times for the best answer to the question, "What Has Prohibition Done?" He said:

"It has divorced our Government from quasi-partnership with the liquor trade and emancipated politics almost wholly from its domination. Relieved countless homes from drink evils. Made sober and useful men of thousands who were becoming dissolute. Given new hopes of happiness and security to millions of mothers, wives and children, and guaranteed growing generations of healthier and more effective Americans. Abolished public drinking almost entirely, cleared the highways of offensive drunkards. Enlarged trade in useful merchandise. Improved labor efficiency. Increased savings accounts. Augmented school attendance and college matriculations by thousands previously prevented by drink in their homes. Disbanded many vicious clubs and associations for dissipation and substituted patronage of newspapers, magazines, books, music and movies. And made paramount a necessary national decision that the Constitution shall be the supreme and adequately enforced and obeyed."

It is well to ponder these gripping sentences in view of the unusually vigorous and widespread efforts the liquor interests are now staging to nullify the Volstead act and repeal the eighteen amendment.

None of the direful prophecies of the liquor advocates have materialized. Business has not been destroyed, grass has not grown on our streets, our choice business corners are not vacant, personal liberty has not been crucified nor have the foundations of our fine Jeffersonian Government been destroyed. In other words, there never has been, since the world began, a law so salutary as the prohibition law, nor such an aggregation of false prophets as those who opposed its adoption and who now seek to compass its repeal.—J. B. Cranfill.

FOR SALE TO THE HIGHEST BIDDER

A Pair of the Best One-Piece Bifocal Lenses and Mountings, Regular Price \$15 to \$25

Would you like to have a pair of these Glasses at your own price? If so send in a bid for what you are willing to pay for them. It may be that you do not need Glasses but have a friend or relative who does, and you would like to either make them a present of a nice pair of Glasses or at least call their attention to this notice.

I am using this method for the purpose of introducing a NEW ONE-PIECE BIFOCAL LENSE which is just being put on the market.

This lense is made up and specially ground different from other similar one-piece bifocals in that it has its optical centers properly located in both the reading and distant portion, thus giving a more natural vision for both near and distant objects.

I would be glad to have you call in and allow me to thoroughly explain the merits of this new bifocal lense.

Remember you are bidding on a pair of the very best one-piece double vision Glasses with spectacle frames or eye glass mountings complete in any kind, style, shape or size you may desire, in 12K G. F. stock, so don't be afraid you will bid too much. The Glasses named above are the actual price I charge for these Glasses varying according to the kind of frame or mounting and the condition of the eyes to which the Glasses are to be fitted.

Send in your bids not later than Oct. 31, 1921, with name and address. If you are bidding on the Glasses for some one other than yourself give the name and address of party. Put your bids in a sealed envelope and mark the word bid and the date on same.

All bids will be canvassed Nov. 4, 1921, and the highest bidder will be notified and the party who is to receive the Glasses may call and select the frame or mounting desired and have their eyes tested. After which on payment of the bid the Glasses will be made up complete and delivered.

Please don't get the idea that I can not furnish good Glasses at much lower prices than these. I can furnish a single vision pair of Glasses mounted complete, best optical lenses for much less than half this price. In fact I can furnish any kind of Glasses to be had at prices that are right and guarantee you satisfaction.

INCREASE RATHER THAN DECREASE WHEAT ACREAGE

"There seems to be a disposition on the part of some wheat farmers to reduce their wheat acreage this fall, and we cannot help but feel that farmers who reduce their acreage will make a mistake which a little later on they cannot correct, and which will cause them deep regret at next harvest," says J. S. Criswell, vice-president and general manager of the Graham Mill & Elevator Company.

"There is no reason in the world but that the demand and supply for wheat is on a very close balance, and it is our opinion that before a new crop of wheat is harvested, this crop can be sold at a very satisfactory price. Seed for the planting of wheat this fall is not high in price, farm labor is cheap, and the wheat crop can be put in at a minimum cost this year, and I feel quite sure that good prices will prevail on the next crop.

"This country is as well adapted to the raising of wheat as any other crop. There is always a good market for it, and a good big acreage should be put in this fall. The ground should be well prepared, and as much wheat as possible raised next year. It would be good for the country as wheat is a cash crop, and puts a lot of money in circulation early in the season.

"Russia has always been one of the largest competitors of the United States in the supplying of wheat, and as long as Russia is out of the wheat business, as she seems to be at the present time, the American wheat crop will command a good price; even at the low prices which we have had

REV. G. W. BLACK RECEIVES LETTER FROM DR. TRUETT

The Leader has prevailed upon Brother Black to let it have for publication a letter received from Dr. G. W. Truett. The letter is written in Dr. Truett's own handwriting and is prized highly by Brother Black. This letter is written by a very busy man, but not too busy to express his appreciation of things worth while.

"Dallas, Texas, Oct. 12-1921.
"Rev. G. W. Black,
"Graham, Texas.

"My Dear Brother Black:
"This is just to tell you frankly that I came away from Newcastle yesterday, with a renewed song of gratitude in my heart, just because of you and your glorious service in our Great Master's cause.

"It is now being given you to see us to few men, how the Lord blesses faithful sowing in pioneer conditions, and brings out of such sowing an abundant and glorious harvest. This thought was with me yesterday, all through the hours of that significant gathering of your fellow-Baptists in Young county, I was able to understand fully your profound and inexpressibly grateful emotions as your memory traversed the long and eventful years, and I rejoice and do rejoice with you, with an exceeding great joy.

"You will let me assure you, from my deepest heart, that I thank God for you upon every remembrance of you, and that I, in company with an uncounted host of your brethren, count it a sacred privilege and high honor to give you a large place in our hearts. For your own sake and

on wheat this year, which has been due largely to the very heavy movement since harvest, wheat has still been relatively higher than other farm products."

TOO MUCH MONEY SPENT ON FUNERALS

San Antonio, Oct. 14.—Americans are extravagant in funerals, and it is not the undertaker who should be blamed for the high cost, according to a report adopted by the National Funeral Directors' Association in convention here.

The convention adopted a report which asserted that the press, pulp and magazines are continually directing unfair criticism toward undertakers.

GUNS STOLEN

J. H. Norman reports that his saddle shop was broken into last Saturday night, and that four revolvers were taken. The guns were in a locked showcase and the robbers kicked out an end of it. The officers think they have a clue to the robbery.

As the door was standing partially open the next morning it is thought that the person or persons doing the robbing were locked in the building Saturday night as it would have been impossible for the Yale lock to have been opened from the outside. The building is equipped with a deck, and this would have afforded a splendid hiding place had one been desired.—Estacuch Post.

LONE OAK NEWS

Our school is progressing nicely with Miss Pearl Isam as principal and Miss Ruth Bloodworth as assistant.

Charlie McBea made a business trip to Graham Friday.

Cecil Thomas and wife visited Eliasville Friday to see the destruction the fire did there Thursday.

Ethan Johnson from near Farmer, who visits this place quite often of late, is still limping from a wound received about two weeks ago when a team ran away with him.

Mrs. Una Stephens, Mrs. Alma Culbreth of Fort Worth, and their sister, Mrs. Faye Culbreth of Oklahoma, are visiting their parents, Mr. and Mrs. J. A. Horton. We are glad to have our old friends with us again.

Miss Lillie Senkel of Lone Oak, and Mr. Felix Kunkel, of Olney, were united in marriage at the bride's home Sunday afternoon at 3 o'clock. The bride was dressed in a beautiful white crepe de chene dress covered with beads and fringe with bridal veil and slippers to match. The groom was dressed in blue serge. After the ceremony ice cream and cake was served. The bride and groom have many friends in this community who wish them a long and happy life. They will make their home in Olney.

Paul Moreland happened to a very painful accident on Oct. 4 while working at a molasses mill. His hand was caught in the mill and the index finger on his right hand was so badly torn up that it had to be removed.

We were very sorry to hear of the death of Mrs. Brigham of Red Top and we extend sympathy to the bereft ones in their sad hour.

Our hearts were made sad again Oct. 7 when the body of Joe Ligon arrived at Loving. Joe had many friends in this community.

Brother Franklin of Loving, delivered a very helpful sermon Sunday afternoon which was enjoyed by a large audience. We are very sorry to say this is his last sermon here this year but hope he will be sent to us again.

QUICK MEAL Gas Ranges

are equipped with the "Lorain" Oven Heat Regulator. Here are the most modern, up-to-date and efficient cooking stoves you can buy. Built right. If you are in the market for a gas range don't fail to see the "Lorain" - equipped QUICK MEAL Gas Range.

Cook By Temperature to avoid failures

The "Lorain" Oven Heat Regulator is an attachment which governs and controls oven temperatures in a gas range. You set the wheel of the "Lorain" for any one of the 44 temperatures given and the oven will be heated to the exact heat required, for any length of time.

Most cooking authorities are now giving exact cooking temperature in degrees for all oven cookery, instead of the uncertain and unreliable old fashioned cooking instructions. This has been made possible by the "Lorain."

There will be no more "unlucky" days if you have a "Lorain"-equipped gas range. It will save its cost in economies of food, of gas and of labor many times over.

Come in and let us show you our "Lorain"-equipped ranges and tell you how they have revolutionized cookery. Let us tell how they cook a whole meal UNWATCHED. Get the booklet "An Easier Day's Work;" it is free.

CASEY-MERCIER NO. 1 WITHIN 300 FEET OF PRODUCING LIME

The Mercier-Casey, Jeffery No. 1, four miles north of Graham, has attracted the attention of oil people everywhere and especially Graham people since the well spudded to same time ago. Messrs. Mercier and Casey are both experienced oil men and know an opportunity when they see it. They have had the utmost confidence in this territory north of Graham and were willing to give their time and money to drill the well.

They contracted to drill the well 3500 feet. That contract has not yet been reached. Every geologist who has examined this location north of Graham believe that a good well is sure to come when the lime is reached. This is what is known to geologists as a closed structure. Mr. Mercier has been in this section some time and says that, in no case, has a good well failed to come in when this closed structure is penetrated. He is of the opinion that a better field will be found north of Graham than the Mexia field. It has cost nearly \$12,000.00 to drill this well 3500 feet but approximately \$4,500.00 is needed to drill to the black lime which is sure to give a well. Several of our citizens have contributed to this well but more is needed to complete it.

Graham cannot afford to allow this well to stop at 3500 feet when the best geologists in the country are strong in the belief that 300 feet more will bring in a well. Mr. Casey has drilled all over this territory and feels that this territory north of Graham is destined to be the best in this section. Seven contracts for wells north of the city are waiting the completion of this well. Mr. Mercier is anxious to talk with any one interested in the quick development of this field.

The South Bend pool southwest of Graham and the Bunker pool south are accepted as excellent fields in the sand. There are several well defined sands at South Bend. Only one sand has been tested in Bunker as the field is new. The oil north of Graham will be found in the lime around 3800 feet. Mr. Casey has

AMERICAN LEGION NOTES

The first number of the Lyceum Course, under the auspices of the American Legion, was rendered at the high school auditorium last Saturday. It was a good performance. Mr. Logan, the cartoonist, is an ex-service man. His drawings were good and after the close of the program there were many requests for the pictures, especially the "Ole Swimmin' Hole."

At a call meeting Monday night, October 17, plans were completed and committees appointed for the big day, November 11. Among the events of the day will be a memorial service at one of the churches in the forenoon, a parade and football game in the afternoon and a big banquet and talks in the evening. Every ex-service man is expected to be present and bring his wife, mother or sweetheart.

Cooperation is the keyword for November 11. Every member of the Ligon-Daniel Post and every ex-service man is urged to do every thing possible to make it a great day. The Chamber of Commerce in Graham is assisting to make it a big day. Remember the day November 11. The day has been declared a holiday and all the business houses of Graham will likely be closed in order that it may be made a real holiday.

J. H. Buchanan will represent Ligon-Daniel Post at the Kansas City Convention which meets the last of this month. He is also the representative of the 13th congressional district, composed of Throckmorton, Jack, Wise, Depton, Cooke, Monague, Clay, Baylor, Archer, Wilbarger, Wichita and Young counties. Mr. Buchanan is one of the twenty-four representatives from Texas.

Dr. and Mrs. W. T. Rouse, of Vernon, are visiting Mr. and Mrs. S. R. Jeffery at the Ingleside ranch this week. Dr. Rouse was a former pastor of the Baptist church here and the congregation was delighted to have him preach Wednesday night.

Mrs. N. S. Farmer and son, Howard, were State Fair visitors last Friday and Saturday.

drilled a number of wells at Breckenridge and is of the opinion that this field will rival the Breckenridge field. Graham is coming but you can hasten the development by seeing Mr. Mercier immediately.

CARL WILLIS LOSES END OF MIDDLE FINGER.

Carl Willis, son of Virgil Willis, sustained a painful injury last week when his finger was cut off in a sausage mill.

He was employed at a local market when the accident happened. We were unable to learn just how the accident happened but understand that while the injury is painful it is not very serious. The middle finger was cut off at the first joint.

CITATION BY PUBLICATION THE STATE OF TEXAS

To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon J. S. Coe by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Young County, to be held at the Court House thereof, in Graham, on the First Monday in March, A. D. 1921, the same being the 6th day of March, A. D. 1921, then and there to answer a petition filed in said Court on the 19th day of February, A. D. 1921, in a suit, numbered on the docket of said Court No. 6324, wherein Fred Marshall is Plaintiff, and J. S. Coe and Sam A. Joseph are Defendants, and said petition alleging that on or about the 16th day of March, 1917, plaintiff executed and delivered to J. S. Coe, a certain oil and gas mining lease covering the West one-half of T. E. & L. Co. Sur. No. 633, Abst. 791, containing 160 acres, situated in Young County, Texas. Said lease was to run for a period of 5 years from date; if within said time, oil, gas and minerals were found to run for a period of twenty-five years longer. Lessee agreed to pay one-eighth of all the minerals produced and to pay the sum of fifty cents per acre per annum rental during the third, fourth and fifth years of said lease.

That a rental due March 16, 1920, was not paid or tendered on or before said date as in said lease provided; that same was tendered by registered mail on or about March 30th, 1920, long after the time contracted and agreed upon in said lease; that on or about March 16th, 1920, defendant had not entered upon said land and begun operations for the drilling of a well of development of said lease.

Wherefore, plaintiff prays the Court that defendant be cited to appear and answer this petition and upon final hearing that he have judgment for the title and possession of his land; that said cloud cast upon his title by the defendants be removed and that the said lease be cancelled, forfeited and held for naught and for such other and further relief in law and in equity and for all costs of suit and for writ of restitution and for such other relief, as he may be entitled to, in the premises.

Herein Fail Not, but have before said Court, at its aforesaid next regular term this writ, with your return thereon, showing how you have executed the same. Witness, Willie Riggs, Clerk of the District Court of Young County. Given under my hand and the Seal of said Court, at office in (L.S.) Graham this 17th day of October A. D. 1921.

CITATION BY PUBLICATION THE STATE OF TEXAS

To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon H. L. Tucker, A. Dewees and Jeff & Everett, a co-partnership composed of Jeff and Everett, all of whose residences are to the plaintiff unknown by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Young County, to be held at the Court House thereof, in Graham, on the First Monday in March, A. D. 1921, the same being the 6th day of March, A. D. 1921, then and there to answer a petition filed in said Court on the 8th day of September, A. D. 1921, in a suit, numbered on the docket of said Court No. 6625, wherein C. S. Ringle is Plaintiff, and H. L. Tucker, A. L. Dewees, Jeff & Everett, a co-partnership composed of Jeff and Everett are Defendants, and said petition alleging for cause of action, plaintiff would show to the Court, that heretofore, to-wit: Beginning about the 25th day of February, A. D. 1921, he worked for the defendants and performed labor in operating and drilling an oil well on certain leasehold estate hereinafter described, for the sum of Fifteen and 00-100 (\$15.00) Dollars per day, as described in the annexed account attached hereto and made a part hereof; that such labor was performed at the special instance and request of the defendants and each of them and included the services of George Miller, for four days at Fifteen (\$15.00) Dollars per day and Jack Washburn for five days at \$15.00 per day, which accounts have been sold, transferred and assigned to the plaintiff who is now the legal owner thereof, and that the total amount due to the plaintiff is Six Hundred Fifteen and 00-100 (\$615.00) Dollars, which is just and true and is due and unpaid, and that all lawful offsets, credits and payments have been allowed, but that the defendants have hitherto failed and refused to pay said sum or any part thereof.

The plaintiff would show further that within thirty days after said account had accrued, to-wit on April 11, 1921, he made and presented to the defendants and each of them a duplicate account of such services, and that he filed his lien in the office of the County Clerk of Young County, Texas, covering the interest of the defendants in an oil and gas leasehold estate covering the West 40 acres of the North 124 acres of the J. J. Scott and F. C. Clarke Lease out of the William Johnson survey Abstract 159 in Young County, Texas, together with all tools, improvements and attachments situated upon or in anywise connected with said lease, and that said lien is a valid unsatisfied, subsisting claim securing the plaintiff for the value of his labor, the sum of \$615.00.

Wherefore, the plaintiff prays that defendant be cited herein to answer this petition, that he have judgment for his debt, interest, and cost of suit, and for a decree foreclosing his lien, and for such other relief in law and in equity that he may be justly entitled to.

Herein Fail Not, but have before said Court, at its aforesaid next regular term this writ, with your return thereon, showing how you have executed the same. Witness, Willie Riggs, Clerk of the District Court of Young County. Given under my hand and the Seal of said Court, at office in (L.S.) Graham this 17th day of October A. D. 1921.

STREET & CO.

P. C. Walker has returned from a 14-days' trip to the Bill Posters Convention at Detroit. Mr. Walker enjoyed the trip and went over into Canada while there.

Floyd McComas and family who moved to Scurry county a few weeks ago, have returned to Young county. Floyd is opening a meat market in the Bunger oil field and is satisfied to remain in Young county.

J. H. Thomas and family of Fort Worth visited C. C. Johnson here last week. Mr. Thomas was manager of the Southwestern Bell Telephone Company here some time and has many friends who are glad to see him.

Mrs. Boase and daughter, Mrs. Mary George of Cleburne, arrived in Graham Monday night to visit Robt. Taggart, who was painfully hurt when jumping off a moving train last Saturday. Mrs. Boase is Robert's grandmother.

Jeffery and Sons shipped three cars of calves Tuesday. Many of our cattlemen are shipping out now. The continued dry weather has hit the stockraisers hard. The grass is short and the pastures will not carry large herds over the winter.

P. O. Cole and family are now residents of Graham. Mr. Cole has been the popular Wichita Falls & Southern agent here since the completion of the road but his family moved here last week. They have lived at Newcastle several years. Graham welcomes this estimable family.

L. N. Saye and family of Ector, Texas, are in the city visiting his brother, Sheriff Saye. The sheriff had not seen his brother since before the war. He had started to Mexico on business pertaining to his office but returned to spend a day or two with his brother, whom he had not seen in some time.

Mrs. S. C. Clover and Miss Anna Bierkamp, of Fort Worth, visited relatives and friends in Graham last week and report an enjoyable visit. They visited here last year during the water gun season and hoped to get out here on this visit in time for watermelons but were too late.

Henry Jundge, Jr., of Lincoln, Nebraska, who recently took his doctor's degree from the University of Chicago Law School with the honors of Cum-Laude, has joined the law firm of McBrayer, Guice & Young and will be located with this firm permanently at Graham.

Dr. and Mrs. H. E. Griffin have returned from an extended trip North and East. Dr. Griffin spent considerable time in the best hospitals in the country studying the methods used. He has a well equipped hospital in Graham and is anxious for the sick and suffering here to have the best care and attention that it is possible for a hospital to give.

SPECIAL NOTICE
Rev. C. A. Bickley, the Presiding Elder of the Weatherford District, will preach at the school building next Sunday morning and night, the occasion being the fourth quarterly conference for this year. It is hoped that a large crowd will hear him at both services. Sunday night the service will be devoted especially to the young people. All are cordially invited, of course, but the young people of the town have a special invitation.

The Quarterly Conference will be held Friday evening at the Presbyterian church. You are all invited to this conference. It is a very important conference. We want every member of the official board to be present.

NEW TELEPHONE EXCHANGE FOR BUNGER OIL FIELD

The Graham Independent Telephone Company is installing a telephone system at Bunger to cover the entire Bunger field. The editor of The Leader was in Bunger Monday and found Robert Bower and a crew of men busy putting in the new exchange. Mr. Bower stated that he hoped to have the exchange ready to put in operation by the close of this week.

A commodious office building is being erected on Main street and the fine 100 line new switchboard is already in the building. The system will include the entire oil field. A 25-cent toll will be charged to talk to Graham.

Mrs. E. S. Graham and son, Robert, went to Dallas this morning.

KLAN BEING ORGANIZED IN YOUNG COUNTY

Rumor Says That 200 or 300 Members Have Already Been Secured at Graham

A Young county camp of the Ku Klux Klan is in process of organizing, according to reliable advice at Graham. One rumor is that two or three hundred members have already been obtained.

The Klan organizers have been working quietly, but it has been known for three weeks that they were in the field. Their progress and plans are shielded in silence thus far.

The ramifications of the plans being worked out at Graham are not known but it is presumed that the organization will attempt to cover the whole county.

Thus far there has been no outward conclave, parade or demonstration.

The organizers worked carefully on a candidate for a long time before he was asked to join, it says. He is "felt out" carefully on many points, and his opinion and expressions are weighed carefully before he is adjudged "fit" or favorable to the idea.

It is not known whether any Eliasville people have been approached on the subject of membership.—Eliasville Journal.

No Trespassers Allowed

One of the wings of the plane had broken and it pilot, after crashing through a mass of planking and plaster, found himself resting on a concrete surface in utter darkness.

"Where am I?" he asked feebly.

"You're in my cellar," came an ominous voice out of the blackness.

"But I'm watching you."

EUREKA WILL DRILL ON THE SCOTT TRACT

Several wells in the field west of South Bend are on the sand and will be brought in immediately. They include the Conner four, Roxana four and Eureka Production Company No. 2.

Petrol No. 6 McCluskey was a completion recently at 2145 and is making 90 barrels.

Panhandle Refining No. 16 McCluskey is drilling at 1530.

Eureka Production Co. McCluskey No. 5 is down 700 feet and drilling. This company is erecting a rig on the J. J. Scott farm at the head of Main street and will rig up at once. This is an offset to the Hale No. 1, a good producer at 2222 feet. The Eureka is also erecting two derricks on the Shanrock-Graham, lease.

The Roxana-North American Corbett on the Ruthy Campbell, is a standard rig in place of the star, which has been hauled back to South Bend.

STEPHENS COUNTY BONDS READY TO BE APPROVED

Breckenridge, Oct. 18.—Road bonds to the amount of \$1,400,000 arrived here last night for the signatures of the Stephens county officers. The bonds will be sent to the Attorney General at Austin tomorrow for approval. Three equal shipments of the bonds will then be made to purchasers in New York, Chicago and Cincinnati.

Actual road work will commence within the month, it is understood.

The McCain building on the East side of the square is nearing completion. It will be a modern business house with offices above. The Leader has been unable to learn who will occupy the building. Mrs. McCain has received several applications but if she has closed a contract we have not learned it.

FARMERS AND MECHANICS BANK WILL BE OPENED IN SOUTH BEND THIS WEEK

South Bend will have a brand new bank this week to be known as the Farmers and Merchants bank. While it will not be a Guaranty Fund bank, it will be just as good, for the backer of the enterprise who is the wealthy H. Westerfeld of Cisco, will put up a surety company bond of several figures as a guarantee of the safety of deposits.

It is understood that J. P. Scott who was president of the J. T. Coleman Company, will be associated with Mr. Westerfeld in the new bank and that arrangements are being made to pay the depositors of the Coleman Company.

Lowe Brothers

A Floor Varnish That Stands Rough and Scuff

Lowe's Durable is one of the few floor varnishes made especially for floors—one of the few that fully fulfills its purpose.

It is heavy in body, covers thoroughly and gives complete protection to the floor. Dries hard, but will not crack even though the wood is dented. And it is easy to apply—does not drag on the brush.

Durable Floor Varnish does not have that cheap "shiny" look, but gives a deep, rich gloss effect. It is tough and elastic enough to stand wear and tear. It does not mar white.

Water—boiling hot or freezing cold—does not affect it. It is a varnish we recommend for your floors. It is made just for that purpose.

BIG AUCTION SALE!

200 LOTS IN BUNGER TO BE SOLD TO HIGHEST BIDDER REGARDLESS OF PRICE. RAIN OR SHINE.

SATURDAY, OCT. 22 AT 10:30 A. M.
Sale Continuing all Day or Until Every Lot is Sold. Sale Place Blue Blaze Hotel in Bunger.

WARRANTY DEED DIRECT FROM OWNER

BARNES & LUSK forced to sell these lots, fine business and residence sites, to the highest bidder regardless of value, even if they do not bring as much as other people are getting for ground rent per month. Why lease a lot when you can get a WARRANTY DEED cheaper? Lots among these left have sold for as high as \$400.00 each will go in this sale for a fraction of that price.

ALL THE ROYALTY GOES WITH EACH LOT

A well drilled anywhere on the one hundred acres out of which these lots were cut, will pay every owner more oil money than he pays for the lot. Prairie Oil & Gas Company holds the lease. Drilling contract let on adjoining forty acres. Well on Parsons Tract adjoining due to come in a GUSHER within the next fifteen days. Deal now pending to drill a well on this lease. YOU GET A WARRANTY DEED TO LAND IN THE HEART OF AN OIL FIELD, you get the royalty cheaper than you can lease a lot by the month. LOTS WILL BE SOLD 1/2 CASH, BALANCE TERMS, and you buy them at your own price.

TWO CHOICE LOTS TO BE GIVEN AWAY ABSOLUTELY—FREE!

On this land is at present an Oil Well Supply House, a Tank Company, a Fishing Tool Company, a Two-Story Hotel, a Restaurant building and a store building, as well as several residences. Graham Mill & Elevator Company recently purchased building site. Lumber company just made a deal for lumber yard.

Come prepared to buy four or five of these lots. You make the price. We make the deed.

REV. GEO. W. BLACK WAS HERE TUESDAY

Probably the most interesting and interested visitor at the big rally Tuesday was the Rev. Geo. W. Black, a pioneer Baptist minister with forty-five years service in Young county. His voice and strength are feeble, but his faith abides with the unfailing vigor of youth. He was accorded the pleasure of introducing Dr. Truett, prefacing the introduction with a short sketch of his 45 years ministry in the county, in which the Baptist cause has grown from two small churches with forty-five members to twenty churches and nearly two thousand members.

The above article appeared in the Newcastle Register last week. Brother Black is human and does not object to his friends saying kind things about him but he was up in arms about the Register saying that his strength is feeble. While he was talking to The Leader editor about the article he threw his shoulders back and jumped up and hit his heels together twice to prove that he is vigorous in body.

Claude Greene has returned from a four days visit to Austin, Texas, where she attended the Texas Chiropractors convention at the Driskoll Hotel, October 15 and 16. She reports a great convention with much enthusiasm on the part of the large number of Chiropractors. The convention meets in Fort Worth next year.

THINK IT OVER

Despite the knocks, protests and what-nots the newspapers of the country are the recipients of, they continue to appear. Their patrons, in some instances, do not seem to realize that it is their help and co-operation that is needed by the newspapers in order to advance and take the initiative in all matters for the public good. As a general rule the newspaper is to the public what the heart is to the body, and to function properly the public's whole souled help and assistance is essential to a newspaper's very life—Victoria Advocate.

"A SHINE IN EVERY DROP"

Black Silk Stove Polish is different. It does not dry out, can be used to the last drop, liquid and paste are quality cleaned. You want no dust or dirt. It gets your money's worth.

Black Silk Stove Polish

is not only most economical, but it gives a brilliant, shiny finish that cannot be obtained with any other polish. Black Silk Stove Polish does not rub off—it lasts four times as long as ordinary polish—so it saves you time, work and money.

Don't forget—when you use Black Silk, be sure to get the Black Silk. If it isn't the best stove polish, you ever used—your dealer will refund your money.

Black Silk Stove Polish Works, Sterling, Illinois.

Use Black Silk Air Drying Iron Cream on gratings, registers, stove pipes, and tinware. Try it.

Use Black Silk Metal Polish for brass, nickel, tinware or brass. It works quickly, easily and leaves a brilliant surface. It has no equal for use on automobiles.

BUNGER NEWS

Bunger is coming to the front. Several new business houses are in course of construction. J. L. Woods, the old time jeweler of Graham, will soon hang out his sign. The Independent Telephone Company will soon have an exchange covering the entire field. The electric light plant is running in fine order. The Bunger school is full to the limit, however, the board will be able to provide ample room for more pupils and an extra teacher if conditions require it.

Bunger has two churches, two up-to-date grocery stores, a first class drug store, two barber shops, three first class eating houses, several good boarding houses, two filling stations, Henry Driver's up-to-date general merchandise store, Grantham & Goldwater's up-to-the-minute grocery store and filling station, a good rooming house, a first class garage, a good sign shop, a butcher shop.

Lusk and Barnes addition to Bunger is thriving, it is called the Blue Blaze Trail, and has a good hotel and eating house, supply house, and several more new enterprises to start soon.

Our sister city, Oil City, is a progressive little town with opportunities for the investor. Midway between Bunger and Oil City we have a good picture show where the latest attractions of the screen can be seen. Parson City, a suburb of Bunger, is humming with activities. In fact after you cross the Brazos bridge and through Bunger, Parsons City, Oil City one will see evidence of the newest and best coming oil fields of Young county, with opportunities for the large or small investor. Bunger has a few choice lots left for either business or residence. So come out and look them over. See Sam Goldwater at Grantham & Goldwater's store for all the news.

News from Washington informs us that the postoffice will soon be re-established in Bunger in Grantham & Goldwater's store. Read the Bunger items every week and subscribe for The Leader. We take subscriptions at the first store on the left coming out and the last on the right going in.

Making Good in Business

The greatest universities in America, says Mr. Roger W. Babson, are the woodbox, the dishpan or the cornfield. These institutions, he says, have graduated the men and the women who are making America today. He does not mean to say that men and women will reach the highest places who have not attended other institutions, but they must begin there, because the "woodbox, the dishpan and the cornfield have taught young men and women to be industrious." Besides industry, he names five other fundamentals of success: integrity, intelligence, initiative, intensity, inspiration.

He shows, furthermore, that the great majority of the captains of industry were the sons of parents whose incomes averaged less than \$1,200 a year. "If the captains of industry of the past quarter of a century came from the ranks of the masses, the captains of industry the next quarter of century are going to come from the same source. The bankers, manufacturers and merchants of the next generation will be the sons of the farmers, professional men and wage workers of today. America's greatest railroad builder was the son of a minister. America's greatest magazine editor was the son of a minister. America's greatest administrator was the son of a minister. The opportunities for the poor man's son are even greater than those of the rich."

However, success will not come because of childhood surroundings alone. One must have spiritual, physical and intellectual strength and training. While less than one per cent of America's men are college graduates, this one per cent of college graduates has furnished fifty-five per cent of our presidents, thirty-six per cent of our members of Congress, forty-seven per cent of our speakers of the House, fifty-four per cent of the vice presidents, sixty-two per cent of the secretaries of State, fifty per cent of the secretaries of the Treasury, sixty-seven per cent of attorneys general, sixty-nine per cent of the justices of the supreme court. Of the 5,000,000 uneducated people in the United States a few years ago when a study was made of the names listed in "Who's Who in America," only thirty-one were listed in that book. Four out of every 150,000 grammar students were in the book, ninety-three out of every 150,000 high school students, 800 out of 150,000 college graduates.

FLAG POLE FOR SCHOOL

M. K. Graham presented a fifty foot flag pole to the public school. The pole was erected this week in front of the school building. The state law requires that every school should have a flag, and Mr. Graham is to be commended for this generous act of erecting a substantial pole on which our flag can be placed.

In the District Court of the United States for the Northern District of Texas, Wichita Falls Division. In the matter of Vandervoort & Seale, a partnership, Alleged Bankrupt. No. 85 in Bankruptcy:

Whereas, a petition was on the 22nd day of August A. D. 1921, filed herein for an adjudication of bankruptcy against Vandervoort & Seale, a partnership composed of G. H. Vandervoort and C. C. Seale, of South Bend, in Young County, State of Texas, in said district, and it appears therefrom that the said C. C. Seale is not within this district, and that personal service of subpoena herein cannot be made on him, now, on motion of J. A. Moore, the attorney for the petitioners herein, It is ordered,

That service of such subpoena be made by publishing this order, together with the subpoena, in The Graham Leader, a newspaper published at Graham, in Young County, in said district, once a week for two consecutive weeks, the last of such publications to be on the 27th day of October, A. D. 1921, and by mailing a copy of this order and said petition and subpoena to the last known place of abode of the said C. C. Seale, in said district, on or before the day of the first publication. Witness the Honorable James C. Wilson, Judge of said Court, and the seal thereof, at the City of Wichita Falls, in said District, on the 17th day of October, A. D. 1921.

HOW HOT is a "Fast" Oven?

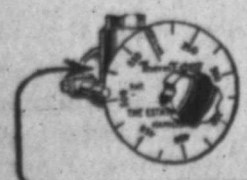

Nobody knows. And now nobody need attempt to guess.

Now, when you install an Estate Gas Range with The ThermEstate Oven Heat Control, you get a Copyrighted Cooking Chart which lists the various foods and tells how much heat (in degrees Fahrenheit) and how much time in the oven should be allowed for each. You simply put the foods in the oven and set The ThermEstate. That's all--for perfect cookery.

Estate GAS RANGES with The THERMESTATE Oven Heat Control

The Estate Gas Range has long been famous for its patented Fresh-Air Bake Oven and other exclusive features. Now The ThermEstate has been added--to save time, to put an end to "pot-watching," and to make perfect baking--every time--a certainty.

Estate Gas Ranges--the Ranges that Bake with Fresh Air--are made in a wide variety of styles and sizes, with and without The ThermEstate. Come in and see them; learn how cookery has been simplified.

C. L. S. C. RESUMES STUDY

The C. L. S. S. opened its year's program last Wednesday at the home of Mrs. Fred Arnold. The retiring president, Mrs. C. Fox Clark, gracefully commended the ladies on their hearty cooperation in last year's work. She briefly dwelt on the course of study for this year which is "The Common People of Ancient Rome."

Mrs. Cogdell charmingly sang "The Girl With the Delicate Hair."

Then Rome was brought nearer by a delightful and entertaining talk by Miss Catherine Craig, who has but recently returned from a summer's sojourn in Europe.

Mrs. Milton Snoddy and Mrs. Harris were elected to membership whereupon the meeting was adjourned.

Mrs. Arnold served as refreshments delicious chicken salad sandwiches, olives, potato chips with hot tea.

The invited guests were: Mrs. Montgomery, of Haskell, who is house guest of Mrs. E. H. Morrison; Miss Eloise Morrison, Miss Catherine Craig, and Mrs. Miller.

The club will meet on October 26 at 3:30 p. m. at the home of Mrs. W. Z. Allen.

C. L. S. C. TO MEET WITH MRS. W. Z. ALLEN

Music--Mrs. Allen.

Chap. II--Ancient Rome--Leader, Bettie Scott.

BRICK CHIMNEY REBUILT

Jim Wood rebuilt a chimney at South Bend this week for Ben Scott that was built by John H. Wood 45 years ago. The chimney was not built originally for Mr. Scott but he has owned the place several years.

Mr. Wood used the same brick in rebuilding the chimney. They were made in Graham by Newt White forty-five years ago. John H. Wood did practically all the brick work in this country years ago and they stand as a monument to his good workmanship.

Mrs. Claudia Howard and Ernest were in Dallas last week and visited the State Fair.

SOPHOMORE CLASS ENTERTAIN FRESHMEN

A social function of unusual interest took place last Friday night when the Sophomore class entertained the Freshmen class with a formal reception at the school building.

The guests were received by the officers of both classes. Pinned on every one was a square of white paper, tied with green ribbon, which had Sophomores, October 14, 1921, written on it.

The guests were then ushered to the serving room where delicious fruit punch was served, after which they went to the auditorium where a splendid program was rendered. The program follows:

Music--Akard Violin Club.

Reading--Alice Graham.

Vocal Solo--Mrs. H. B. Cogdell.

Music--Akard Violin Club.

Reading--Avis Calvin.

After the pleasing program the classes again visited the punch bowl. The evening was enjoyed and it was the opinion of those present that these class socials should come often as it cultivates the social spirit of the school.

Mr. and Mrs. S. R. Jeffery visited Mother Short and Mr. and Mrs. J. T. Rickman Wednesday and Thursday.
