## BARNES PRODUCING 7,000,000 FEET OF GAS

### BIG BANQUET FOR EX-SERVICE MEN AND THEIR LADIES

C. C. Bloodworth at the First National Bank is anxious for every ex-service man in Young county to be present at the banquet given the men by the Daughters of the Confederacy in Graham November 11. This banquet is free to every ex-service man and every one in the county should be present. Cards were sent out to every man whose address could be learned. If you did not get a card send your name to C. C. Bloodworth at once.

The committee is anxious to know by November 5 how many will be present so that the Daughters will know how to provide. Do not let anything keep you away from Graham November 11th. The Daughters will be disappointed if every ex-service man in the county is not here for that occasion. A good program has been prepared for the day and not only the boys are expected to be in Graham but every friend of the boys is expected to be on hand. The banquet is for ex-service men and their wives or sweethearts. Boys bring your wife along and if you have no wife, bring your sweetheart. Remember the banquet is free to you and your lady.

A mammoth parade is planned for the day. Every man is expected to be in this parade. This will be the biggest day Graham has ever seen. You can make it easy for the committee by letting the chairman know that you will be here. Remember he wants to know by November 5th.

### GRAHAM MERCHANTS HAVE DOLLAR BARGAIN SALE

This week's issue of The Graham Leader carries advertisements of several of our merchants who are putting on special dollar day bargains. S. B. Street, president of the Chamber of Commerce, has been interested in putting on these special day bargains for this trade territory for some time. Several merchants have joined him this week and it is the plan of our merchants to offer these days each month.

Look up the advertisements in this issue and see how much a dollar will buy. The following firms are advertising special dollar bargains this week:

- S. B. Street & Co., Dry Goods.
- John E. Morrison Co., Dry Goods.
- P. B. M. Company, Dry Goods.
- Birdsongs', Dry Goods.
- Norris-Johnson, Hardware.
- C. C. Johnson, Gasoline and Oils.
- Snoddy & Son, Notions.
- McJimsey's Salvage Store.
- Harmon Brothers, Jewelry.
- F. Wesley Gray, Jewelry.
- Ramsey Drug Co., Drugs and Paints.
- Davis Drug Company.
- Miller's Studio, Photographer.
- McCloud's Cash Grocery.
- Graham Grocery Company.
- General Auto Supply Co.,

### F. WESLEY GRAY MOVES TO GRAHAM

F. Wesley Gray has sold his interests at Eastland and will move here with his family soon. He has had a store here several months and Graham welcomes him as a permanent citizen. He will give all his time and attention to his business on the north side of the square. From the local manager, Mr. Seacrist, we learn that Mr. Gray has about perfected arrangements with the Western Union for their time service which will be a great convenience to Graham. Mr. Gray is a progressive business man and he will be a great help to Graham and her interests.

More than a dollar's worth of goods for one dollar in Graham November 4, 5 and 7. See the DOLLAR BARGAINS in ads this week.

### F. F. F. HIGHWAY PUBLICITY MAN HERE TUESDAY

John Boswell, secretary of the Plainview Chamber of Commerce, was in Graham Tuesday enroute from Dallas to Plainview over the F. F. F. Highway. Mr. Boswell is publicity man for the highway which has been surveyed from Fort Worth through Graham to New Mexico. He was not pleased with the section through Young county.

Our people will soon have an opportunity to vote on a bond issue in this precinct. If this carries we will then be able to put that part of the highway through this precinct in passable condition. If the road continues as it is traffic will be diverted from Young county to some other route.

The F. F. F. Highway will mean a great deal to Graham and Young county. It is the most direct route from Fort Worth to New Mexico and to California and if it is put in good condition it will mean that a large part of the overland trips to the west will be through Young county.

We have a growing city and it behooves us to keep pace with other progressive cities in the way of road building. Great sections of roads are being built all over the country. Young county will fall in line and before many months the good work will be in progress here.

### MR. AND MRS. M. C. SNODDY ENTERTAIN WITH HALLOWEEN

One of the most successful parties of the season was given by Mr. and Mrs. Milton Snoddy in honor of the faculty of the Graham high school and their friends.

The decoration of the home was skilfully carried out in color schemes suggestive of fall and Halloween.

The young ladies who had previously come in a body, masked and in costumes that showed no small amount of effort and originality, formed a receiving line on the arrival of the young men, who were concealed behind hideous masks and costumes indicative of clowns, Ku Klux, old maids and imps. After half an hour's peeping, guessing and speculation as to who every one was, the guests were asked to unmask and join in the several games and stunts that had been planned by the hostess, among which was a visit to the witch's cave where two mysterious persons read the palms of each visitor and told them what life had in store for them. Some of the guests believe that the witches had an insight on their future as well as their past.

At eleven o'clock a delicious course of refreshments was served by the hostess, assisted by Misses Thelma Burns and Dorothy Vaughan, after which one of the most enjoyable events of the evening was engaged in, that being a sing song which was greatly enjoyed by all as there were several trained voices present among the guests.

At the hour of twelve the guests made their departure but did not until after they had expressed to Mr. and Mrs. Snoddy their appreciation of the pleasant evening and assured them that as host and hostess they had the admiration of all present.

C. L. S. C. WEDNESDAY, NOV. 3  
Hostess, Mrs. Cogdell.  
Roll Call. Modern Italian Poets and their work.

Brief quiz on "The Poetry of the Common People" and "Realistic Romance Among the Romans"—Mrs. Penix.

Review of Chapter V. "High Cost of Living"—Mrs. Cogdell.

A paper on "Ku Klux Klan"—Mrs. Gary Smith.

### REVIVAL SERVICES AT BAPTIST CHURCH DRAW LARGE CROWDS

The revival services at the Baptist church continue this week with increasing interest. There have been about fifty additions to the church up to the time we go to press. The good singing and excellent preaching are pleasing the large crowds that are attending from day to day.

E. J. Thomas, of the Southwestern Theological Seminary of Fort Worth, is conducting the singing which is one fine feature of the meeting. Miss Akard and members of her violin club have rendered valuable assistance in the song service. F. H. Bowron, T. O. Calvin, Ernest Babb and others have assisted with their instruments which add materially to the music.

Rev. A. J. Copass, evangelist from the Seminary in Fort Worth, has been doing the preaching to the delight of all. He is an earnest and forceful speaker and has brought powerful messages from day to day. Many have been saved during the meeting and the soul stirring messages have touched the hearts of others who, he doubts, will surrender before the meeting closes.

The meeting will continue a few days longer and a cordial invitation is extended everybody to come and enjoy the singing and preaching.

### DOLLAR DAY SALE IN GRAHAM, NOV. 4TH, 5TH AND 7TH

Several of our merchants in an effort to help the people of this trade territory are advertising bargains this week in The Leader. It is called a DOLLAR SALE and lasts three days—Friday, Saturday and Monday, November 4, 5 and 7.

Our merchants, especially the dry goods merchants, bought their goods at much less than they could be bought today, but on account of the hard times the prices have not been raised with the advancing market. Look up the advertisements of these merchants in this issue of The Leader and note the real DOLLAR BARGAINS. It has been a long time since a dollar would buy as much as it will buy in Graham during this sale.

Remember this sale begins Friday, November 4, and closes Monday, November 7. Read the advertisements in this issue and tell your neighbors about them. Some of the goods on this sale were bought when cotton was selling at 10 cents a pound. Cotton has doubled in price and before long these prices will be increased. Now is the time to buy cheap goods.

### Graham May Ask For Next Year's M. E. Conference

Graham will be a strong contender for the honor of entertaining the Central Texas Conference of the Methodist church in 1922, it is understood. This year's conference meets Nov. 9 in Cleco.

Graham is peculiarly fitted for the job next year. Its new First Methodist church, which ranks as one of the finest in the entire conference, will be completed about the first of the year.

Since the completion of the Wichita Falls and Southern railroad, Graham is accessible to all sections of the Conference. It would be difficult to find a town in the conference with better hotel facilities. Graham will be glad to entertain the conference next year.

More than a dollar's worth of goods for one dollar in Graham November 4, 5 and 7. See the DOLLAR BARGAINS in ads this week.

### JOIN THE PARADE ON ARMISTICE DAY HONOR OUR BOYS

Plans are now being made for the greatest parade ever seen in Graham and one that should mean more to our people than any that has ever formed on our streets. The American Legion is preparing to celebrate November 11 in a manner becoming the day. Every citizen of Young county is asked to lend every assistance possible to make it the day it should be.

A. D. Stewart is working out the plans for the parade. He has been working for several days and is receiving the cooperation of the business men. If he has not yet seen you do not wait for him to find you but hunt him up and let him know what assistance you will render. He wants every man, woman, boy and girl in the parade.

The Mayor and council has been asked to head the parade. The county officials will come next. The peace officers both county and city will be mounted. The plans for the remainder of the parade is, fire boys with trucks, officers of Legion mounted, Legion boys, school children, Confederate soldiers, Sons and Daughters of the Confederacy, business men's floats and private cars.

Practically all the business houses have agreed to have decorated floats and many private individuals will decorate their cars. Let us not forget that we are honoring our boys on this day and some of the enthusiasm shown when they were in uniform should be in evidence on this day.

The Ligon-Daniel Post of the American Legion has a great program for the day and this parade is a part of the program. In the morning at 10 o'clock a memorial service will be held at the Baptist church with Judge M. D. Brown as the speaker; the parade at 1 o'clock; wrestling match at 2:30; football game at 4:15 and a banquet to the Legion boys and their ladies at 6 o'clock. The day is full of good things for everybody. Every one should do everything possible to make it the greatest day Graham has ever had. Look for other announcements in this issue of The Leader.

### Graham Needs New Passenger Station

The Graham Chamber of Commerce has been working for some time trying to interest the Rock Island and Wichita Falls and Southern railroads in providing better accommodations for passengers in Graham. The waiting room is inadequate for the number of passengers the roads have here. There are only eleven seats in the waiting room and the other accommodations are far from satisfactory.

The facts have been presented to both railroads but nothing has been done towards relieving the situation as far as our information goes. This week the matter was presented to our business men in the form of a petition asking the Railroad Commission to give attention to the situation as it exists in Graham. Nearly 100 signed the petition which will be presented to the Commission at an early date. This petition states the facts as they exist here.

The need of better facilities for Graham is known to everyone who has occasion to enter or leave Graham on the train. The citizens of Graham feel that they are entitled to better accommodations and will cooperate with the Chamber of Commerce in every way possible to better the conditions at the union station.

Since the above was written the Chamber of Commerce has received a telegram from Hon. Frank Keil, who says that he hopes to join the Rock Island in building a passenger station here.

Armistice Day, November 11th.

### TWO NEW PRODUCERS IN BUNGER; SEVERAL ON SAND

On Wednesday night the Barnes Production Company well located on the Parsons land, survey 44, near Bunger found the pay sand at 2190 feet. The well is being drilled by Joe Frantz and had increased on Thursday morning to 7,000,000 feet of gas after drilling in three feet.

This increases the scope of the Bunger field considerably as the Barnes well is one and one-half miles northeast of the Owen discovery well and gives a big impetus to all the acreage in that direction. The well will be given a chance to blow itself in or perhaps drill a little deeper in the sand as the Driver No. 1 began by making the big flow of dry gas which afterwards became wet and later drilled itself into an oil well. This strike is the most important thing that has happened in the Bunger section since the discovery of the Owen well and makes this section of the county show great possibilities for the future.

The Simms well on the Owen tract is making about 150 barrels of oil from the sand encountered at 1863 feet after being drilled 12 1-2 feet in the sand. This well showed lots of gas in the beginning but settled down to a good producer and extends the field to the west. Their No. 2 well is now 1700 feet deep and expects to get a production soon, being located due west of the Rosell Owen 1B.

The Sun Company well located in the southwestern part of the Driver land found the sand at 1895 feet and is now making 210 barrels a day. This is an extension of the field to the northeast.

The Rosell-Askew No. 1 has been drilled through the sand encountered at 1959 feet. This sand was hard and made about 15 barrels a day. It is the intention of the company to go on down and test the 2100-foot sand. If the pay is not found the company is in position to come back and shoot the first sand which will probably produce 100 barrels a day. Since this well is located high on the structure it is believed that the sand has been somewhat cemented but good production should be obtained in wells drilled lower on the structure. The Rosell Company is ready to spud on their 2B well, located on the Owen land which is some distance west of the Owen No. 1. The company spudded in on the 29th at the Lynn No. 1 located on the Orrell survey and this test will be watched with much interest.

J. B. Hedrick has sold the 80-acre Driver lease for \$300,000.00 to the Western Exploration Company of Denver. The Driver No. 1 has been drilled three feet deeper in the sand and is now making 360 barrels a day by actual gauge. The Driver No. 2 is now 1800 feet deep and expected to reach the sand this week.

Madden & Madden, of Fort Worth, have closed a deal for part of the working interest belonging to Dudley Miller in the northwest 40 acres of the Dowdle survey No. 39, located just east of the Hedrick property. The consideration has not been made public but this is thought to be one of the best 40-acre tracts in the field.

### TO HONOR OUR DEAD

The act of President Harding which calls upon us on Armistice Day to cease our activities for a moment while we remember those who gave their all for their country and for humanity will make its appeal to every American heart. Well may we bow our heads for those two brief minutes, grateful for the sacrifice made in our behalf, and breathe, at the same time, a prayer for those whose sons went forth so gallantly, but came not back.

Union Oil Company Askew No. 1 is now pumping about 50 barrels a day on a 12-hour run and is good for more than this when pumped continually. Operations in the field will no doubt be greatly increased after the gas well found on the Parsons land as this gives the north part of the Bunger district a bright future and will result in many wells being drilled throughout that locality.

Spoont-Varble, Inc., have spudded in on the Parham survey and this will give a good test for the territory northeast from the Askew well.

Cheney & Miller-Grimshaw No. 1 has reached the top of the pay of the 1900-foot sand and expect to bring in a well this week. Their No. 2 well is now 350 feet deep and the rig is now going up at their No. 3 location.

Applegate & Harlan-Whittenburg No. 1, drilling at 2000 feet.

Browning & Hodges-Durham No. 1 set 8-inch casing and are drilling at about 1980 feet.

Burton & Florrie, drilling at 1200 feet.

Edgett & Reed-Grimshaw No. 1 had a showing of oil at 1186-1190 and are now drilling at 1250 feet.

Godley Oil Company-Owen No. 1 drilling at 1600 feet.

Gulf Production Company-Grimshaw No. 1 set 10-inch casing at 1850 and is expected to bring in a well this week.

Jackson & Cathcart-Lisle No. 1, drilling at 3100 feet.

Mann et al-Whittenburg No. 1, No. 1, drilling at 200 feet.

Paragon Oil Syndicate-Vick No. 1, shut down at 2230. No. 2 ready to spud.

Rosell Petroleum Corporation-Askew No. 2, location. Grimshaw No. 1 making 600 barrels. Grimshaw No. E-1 located on the north side of survey 34 underreaming at 1525. Owen No. 2 ready to spud.

Simms Oil Company-Owen No. 1, drilling at 1700 feet. No. 3, location made between Nos. 1 and 2 on the east line of the 40 acres.

Union Oil Company-Bynum State No. 1, cleaning the hole at 2745 feet.

Galbraith & White-Grimshaw No. 1, rigging up.

Penn Cities-Herron No. 1, rig up.

The Caudle well located in Palo Pinto county, about five miles southeast of the Askew well, caused considerable enthusiasm this week for that section of the country as it is now getting some oil in the black line at 3436 feet which should make a producing well when deepened and shot. Operations at this well have been going on for a long time and there has been considerable water to shut off which has made the progress slow.

Capt. Colgrove, associated with the Ranger Gas Company, is to drill two test wells in the Gooseneck district, north of Bunger, the first of which will be commenced on the south part of the Fore survey and the second will be drilled in the southern part of the Jowell survey. This is on Cosden acreage with whom the Captain has made a deal. Another test for this section will be a well on the Parsons land just north of spud 40 while J. S. Cosden will drill the southeast corner of the James survey.

### J. E. PARSONS BREAKS LEG

J. E. Parsons had the misfortune to get his leg broken last week while rounding up some stock. He was riding around the stock when a young mule kicked him breaking both bones in his leg below the knee.

He rode to the house and was assisted from his horse. The injury is painful but he is getting along as well as could be expected. On account of his age it will take some time for him to recover from the accident.

**NOTICE**—Any erroneous reflection upon the character, standing or reputation of any person, firm, or corporation which may appear in the columns of The Leader will be gladly corrected upon its being brought to the attention of the publishers.

**KNOW—DON'T GUESS!**

Anyone can guess, but it's a wise man who KNOWS; not merely cocksureness, but confident assurance, based on facts in hand.

Before the United Cigar Company opens a new store, a man is stationed at the proposed location to make an accurate count of the number of people passing daily. On the basis of that count, they can accurately forecast how many people can be attracted into their store.

They know that if it is a corner location, with the entrance set back so that people can "cut the corner," approximately one out of every 125 people who pass will enter and make a purchase. They also know to what extent changes in the weather will affect that proportion.

When Sears & Roebuck undertook to sell the Encyclopedia Britannica, their advertising experts prepared ten sales letters of different types. Each of these was sent to a different list of prospects, and the number who purchased was carefully checked. A composite letter was then prepared from the most successful letters, and made the basis of a campaign that exhausted the edition.

Great businesses are built on two things, broadly speaking, Facts and Ideas. You may run short on ideas occasionally, but there is no excuse for not getting the facts. And if

you get facts enough, you will usually have more ideas than you can make use of.

In gathering facts, get down to fundamentals. A half truth is often worse than an untruth, and a hasty conclusion can sometimes be drawn from partial evidence that will be altogether wrong. So get all the facts, sift them out, be sure you're right—then the line hard.

**TRADE AT HOME**

The mail order house never has a bargain—not for you, anyway. If there are bargains occasionally, the thousands of employees of the mail order concerns get them, they or their friends. Trade at home.

Your own home town merchant frequently has bargains and tells you about them through the paper you read.

The mail order house that receives your order doesn't know you from Adam and doesn't care.

The home town merchant knows you as a neighbor and he cares. He cares enough for you and your trade that he goes to the trouble and expense of telling you about his goods and his bargains. He cares enough to carefully show you his goods. He gives you a choice among many; if you don't like one article, he shows you another until you are pleased.

Trade at home and get service, choice quality, and as good prices. Trade at home and your money helps your town—which is only another word for saying that you help better your own job.

**SIGNS THAT FORTELL BETTER TIMES ARE COMING**

Signs of coming better times are piling up steadily from week to week. During the past eighteen months industrial deflation has certainly touched bottom, and that steady improvement from now on may be safely expected is indicated by the recent statement, made public by the heads of the Federal Reserve Banks, that business conditions have now definitely "turned the corner."

Another evidence of improvement is the railroad returns for August, when 187 Class I railroads in the

United States showed net earnings in August of \$88,368,000, which is indeed a pleasing showing when compared with the August deficit of \$155,817,000 piled up in 1920.

A few days ago the Baltimore & Ohio railroad ordered 2,000 freight cars, and this is believed to be an example of the crying need on the part of transportation systems throughout the United States for equipment. Within the past ten days, Pennsylvania and Mid-Continent grades of crude oil have been advanced in price from 5c to 35c the barrel, and in view of the decreased production these advances are deemed by many well-posted observers to be part of a general movement towards much higher price levels for crude oil.

As an index of industrial improvement we note that car-loadings last week increased 19,543 cars and the manner in which the volume of business has increased within the past 90 days is shown by the fact that on July 9, last, car-loadings totaled 639,698 cars, which compares with the greatly increased car-loadings on September 24, last, of 873,305 cars.

The basically sound condition of the stock market was shown by strength of quotations in spite of the announcement by American Sumatra directors that the dividend on the common had been passed, says Sugarman's Indicator.

**SHEEP KEEP DOWN WEEDS**

Sheep eat more weeds than any other class of livestock, except goats. Sheep will eat ninety per cent of all troublesome weeds. They will destroy weeds in pastures, in grain fields, and corn fields after harvest, and clear the fence rows. However, sheep are not such scavengers that they can thrive on refuse and weeds alone. In order to get sheep to eat leaves on shrubs, the tenderer grasses must be scarce. Goats are better adapted to clearing brush land than are sheep. Some farmers consider sheep necessary just as a means of controlling weeds.

**A VISIT TO YOUR HOME TOWN**

Have you made one lately? Do you intend to go back some day?

In the meantime, you can live in your adopted home, where your business interests are and still keep in touch with the folks "back home." Miles of land and sea can separate you from the highways and byways of your home town; your eyes can not see "Main Street" and the old church and school house, but memories of these things persistently cling to you.

Your Home Town Paper will give you the live news about your old friends "at home;" it will give you both the gossip and the serious news concerning men and events; it will bring to you the true atmosphere of your native soil. Subscribe today.

Subscribe for The Leader.

**CITATION BY PUBLICATION**

THE STATE OF TEXAS  
To the Sheriff or any Constable of Young County—Greeting:  
**YOU ARE HEREBY COMMANDED** to summon H. L. Tucker, A. Dewees and Jeff & Everett, a co-partnership composed of Jeff and Everett, all of whose residences are to the plaintiff, unknown by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Young County, to be holden at the Court House thereof, in Graham, on the First Monday in March, A. D. 1922, the same being the 6th day of March, A. D. 1922, then and there to answer a petition filed in said Court on the 8th day of September, A. D. 1921, in a suit, numbered on the docket of said Court No. 6625, wherein C. S. Ringle is Plaintiff, and H. L. Tucker, A. L. Dewees, Jeff & Everett, a co-partnership composed of Jeff and Everett are Defendants, and said petition alleging For cause of action, plaintiff would show to the Court, that heretofore, to-wit: Beginning about the 25th day of February, A. D. 1921, he worked for the defendants and performed labor in operating and drilling an oil well on certain leasehold estate hereinafter described, for the sum of Fifteen and 00-100 (\$15.00) Dollars per day, as described in the annexed account attached hereto and made a part hereof; that such labor was performed at the special instance and request of the defendants and

each of them and included the services of George Miller, for four days at Fifteen (\$15.00) Dollars per day and Jack Washburn for five days at \$15.00 per day, which accounts have been sold, transferred and assigned to the plaintiff who is now the legal owner thereof, and that the total amount due to the plaintiff is Six Hundred Fifteen and 00-100 (\$615.00) Dollars, which is just and true and is due and unpaid, and that all lawful offsets, credits and payments have been allowed, but that the defendants have hitherto failed and refused to pay said sum or any part thereof.

The plaintiff would show further that within thirty days after said account had accrued, to-wit on April 11, 1921, he made and presented to the defendants and each of them a duplicate account of such services, and that he filed his lien in the office of the County Clerk of Young County, Texas, covering the interest of the defendants in an oil and gas leasehold estate covering the West 40 acres of the North 124 acres of the J. J. Scott and F. C. Clarke Lease out of the William Johnson survey Abstract 159 in Young County, Texas, together with all tools, improvements and attachments situated upon or in anywise con-

## Armistice Day

Marking the memory of that joyous day that heralded the dawn of Peace, let hearts thrill and drums beat throughout the land—

This year we dedicate the day to pay our nation's homage to the unknown heroes of that great conflict—to those whose deeds of gallantry will never be inscribed upon the imperishable records of the war, but who, unheralded and unknown, gave up their noble lives for Freedom's cause, and now lie quietly sleeping in unmarked graves across the sea.

To you who sit at that white throne where heroes are, our thoughts in gratitude ascend. Look down upon your land today and know that in each loyal heart there is a monument of love for that rare gift you gave.

With thrilled souls and bowed heads, we pause to render tribute to the sacred memory of our unknown dead.

We close November 11th—Armistice Day.

### NOVEMBER 14TH IS BIG MONDAY, COME TO GRAHAM

The next Big Monday is November 14. Formerly this was a great trades day in Graham. Before the day of automobiles people would come in Sunday in wagons, buggies and on horseback in order to be here for the Big Monday.

With our automobiles we can come in Monday morning and spend the day in Graham. Our merchants will have on special sales in all lines of merchandise on that day. If there are any who can not come in to take advantage of the big dollar day bargains November the 4, 5 and 7, other bargains will be offered November 14.

Friends and relatives should make plans to meet here on each second, or Big Monday. The merchants have comfortable rest rooms for the ladies. Bring the children along and spend the day here.

#### RODEO AND THE CHURCHES

We note that one Mr. G. A. Bryant has announced a Rodeo for Graham under the auspices of the "School, Libraries, Religious, Fraternal Orders and Charitable Organizations of Graham and Young County." For the other organizations we do not speak, while we are sure they feel as we do about it, but for the churches we do most emphatically deny that the churches have anything to do with it. We are putting nothing into it, we expect nothing good to come out of it. Furthermore, we do not appreciate the effort of Mr. Bryant to line up the churches of this city with this or any other movement without consent from some body who has authority to act. We not only do not favor the Rodeo, but we are against it.

We would like for all papers of the county to give this notice publication.

- T. E. BOWMAN, Pastor First Methodist Church.
- C. R. TAYLOR, Pastor Baptist Church.
- GARY SMITH, Pastor Presbyterian Church.
- J. E. EVANS, Pastor Christian Church.

Have you read the DOLLAR DAY BARGAIN advertisements in this issue of The Leader?

#### LORAIN OVEN HEAT REGULATOR DEMONSTRATION

The John E. Morrison Company closed a three day's demonstration of the Lorain oven heat regulator yesterday. Their gas ranges which they are selling may be bought with this regulator attached, which their demonstrator, Mr. Edward Klein, of St. Louis, says is a great advantage in cooking.

The demonstration has attracted considerable attention this week as about 500 people have witnessed the operation of the Lorain oven heat regulator. Several articles were placed in the oven each morning at 10 o'clock and taken out at 2 o'clock p. m. ready to serve. The purpose of this demonstration was to show the advantages of the regulated oven heat in cooking.

Coffee, doughnuts, etc., were served each day to large numbers visiting the store to see the demonstration. Mr. Russell of the John E. Morrison Company assisted Mr. Klein of St. Louis in giving the demonstration.

I. T. Gilmer, manager of the hardware department, has been advertising their lines of stoves from week to week in The Leader and is desirous of everyone interested in buying gas stoves to call at the John E. Morrison Company's store on the north side of the square and inspect their lines of stoves.

Mizpah Benediction.

#### FORMER DEAN OF WOMEN OF TEXAS UNIVERSITY DEAD

Austin, Oct. 29.—Helen Marr Kirby, former dean of women of the University of Texas, died this morning after an illness of several days. She was dean of women for 35 years, retiring two years ago with the title of dean emerita.

Mrs. Kirby, who was at the time of her death 84 years of age, had been connected for 355 years with the University of Texas in various capacities and was until 1919, dean of women. Old age forced her resignation two years ago, the title of dean emerita of women being conferred upon her at that time. Her maiden name was Helen Marr Swearingen and her place of birth, Mobile, Ala., where she was born on January 17, 1837, her parents moving to Chappell Hill, Texas, in 1839. On April 18, 1858, she was married to Jared E. Kirby, Waller county planter, who died in 1865, leaving his wife and two sons. In 1875 she moved to Austin and opened a private school which she conducted until 1884 when she entered the service of the University of Texas.

Of the two sons born to Mrs. Kirby, the elder, Richard Swearingen Kirby, died in early manhood. The younger son, R. Harper Kirby, is widely known in Texas as a prohibition and temperance worker.

We carry a complete line of School Supplies.—HOWARD'S CONFEC-

#### POSTMASTER RECEIVES TWELVE LETTER BOXES

N. S. Farmer has received the mail boxes that he has been looking for so long that will be placed in Graham for the convenience of the patrons of the postoffice. John Craig has the map of the locations for these boxes—twelve in number—which will be placed this week.

These boxes will be a great convenience in mailing letters as they may be deposited in any of these boxes and the carriers will collect them.

The Ladies of the Christian Church will give a bazaar Saturday, December 17. 10-16c

Come in and see our line of Imported Dolls and Toys.—HOWARD'S CONFECTIONERY.

#### FRICTION

Why should the word "Friction" be taboo with so many of us? A little friction now and then doesn't hurt—it helps. Friction is not always mere wear and tear. It is often the "healthy rub that makes things brighter"—the resisting force that makes things go.

Soothing oils make life run smoothly and pleasantly, after all, is the important agent of efficiency in this work-a-day world. The man that sets out to slide smoothly through life on a well-oiled track is ever in danger of losing his footing and slipping on his own oil into the limbo of oblivion.

Life needs plenty of oil—but it also calls for a full measure of grit, and grit means friction.

The locomotive engineer oils the internal parts of his engine, but he would get nowhere if it were not for the friction of his engine wheels on the track. And when his wheels slip and slide, he runs sand on the track to make more friction. He knows that he can only climb uphill by friction; and that the only means by which to check and control his

engine on a down-grade is friction.

The engineer of a locomotive knows that—and so does every other kind of engineer, and every man of achievement in every line of endeavor.

When an organization of any kind gets to be an assembly of easy acquiescent individuals who give "yes, yes," to each other, like nodding china mandarins on a mantel, that organization is headed for the downhill grade—and it cannot be saved by oil. It is only when someone comes out with a firm "No," in a well timed opposition, that things begin to move.

There is nothing more pregnant with results than an honest and earnest difference of opinion; there is nothing that clears the air better than an intelligent forceful clash of mind on mind.

Not that friction is all there is in the making of things. Too much friction may mean the unmaking of things. One may spill sand not only on the track but all through the works. The essential fact, however, is that in all human affairs, there is a place for sand as well as oil.

The old Romans hit it right centuries ago and crystallized it in phrase: "Suaviter in modo, fortiter in re," "suave in manner, firm in fact," or "temperate in method, resolute in action"—in brief, "oil the works, sand on the track."—D. Moffatt in The Mentor.

#### HAS YOUR SUBSCRIPTION TO LEADER EXPIRED

This is the time of year when many of our subscribers renew their subscriptions. We are always in the receptive mood and are now ready to accept a large number.

Please look at the label on your paper and see if you are in arrears. If your label reads 1920 you are several months behind. If it reads November, 1921, your subscription expires this month.

Conditions have been hard for several months and a small amount from our subscribers who are in arrears will help us at this time. Your label shows that a mistake has been made please come in and we will be glad to correct it.

Conceit in weakest bodies strengthens works.—Shakespeare.

## LORAIN OVEN HEAT REGULATOR

### Let "LORAIN" Cook Your Thanksgiving Dinner

Cooked the "Lorain" way your Thanksgiving turkey will be tender, juicy, fragrant and browned to perfection. While the turkey is cooking, "Lorain" will cook all the rest of the holiday dinner, potatoes, vegetables, entree and even the dessert. You put the whole meal in the oven, set the indicator for 4 or 5 hour cooking and then you don't even have to look at it until it is time to serve the meal. You can have the whole day free to enjoy with your family.

QUICK MEAL GAS RANGES are equipped with this latest scientific cooking appliance which is revolutionizing cookery. Come in and let us show you these beautiful Ranges with their many improvements, including the "Lorain" Oven Heat Regulator.

# BIG WRESTLING MATCH HERE ARMISTICE DAY, NOVEMBER 11

The greatest wrestling match ever seen in this section of the State and one of the best ever seen anywhere will be staged in Graham November 11. On that date George Stevens, who holds the middleweight championship belt, will meet Pet Brown, of Cisco, who holds the Texas championship.

These two champions were advertised to meet here some time ago but on account of the illness of Mr. Brown the match was postponed until Armistice Day, November 11. This is one feature of the big day planned by the American Legion and the boys are anxious for a record breaking crowd.

Both Mr. Stevens and Mr. Brown have put up forfeits that the match will be staged this time. Both of them are great wrestlers and all lovers of this sport will have the opportunity of their lives. George Stevens is a Graham favorite. He has wrestled and has had no trouble in putting down every comer. Pet Brown has never wrestled here but he is known to be a great wrestler and will find all he wants in Stevens.

We have heard the question asked that if an irresistible force comes in contact with an immovable object what will happen. In Graham on November 11 a champion meets a champion. What will be the result? The way to find out is to be present at the match in Graham November 11.

The classified advertisement when published in the newspaper not infrequently shows a "pulling power" astonishing even to those who are familiar with what can be accomplished through this agency. Though occupying little space and inconspicuous both as to position and size of the type used, every wanted in the newspaper is read by hundreds of persons. And in that number there will almost certainly be some who are interested in the advertiser's announcement, no matter what it may be.

It is not surprising, therefore, to find the classified columns being put to strange uses. One of the most novel is revealed in the report that an eminent psychologist, desirous of making a sociological study of women occupying high school and financial position, used want ads in American and British newspapers as a means of getting in touch with such persons.

This suggests that more extensive touch with such persons. Use might be made if the classified advertisement as an adjunct to science. If information is desired and there are people who can furnish it, it is practically certain that a want ad will reach them. It may be desired to buy something or sell something, to obtain a position or to obtain help, to recover something lost or discover the owner of something found; whatever it is, the classified advertisement is likely to bring it within reach if anything can do it.

**OBVIOUSLY FEMINE**  
"Oh, Bob, you've let in a lot of flies."  
"I'll get after them, dear."  
"You'll never kill them all."  
"Well, I'll kill these three, anyway—they're females."  
"How do you know?"  
"They made a dash for the mirror the first thing."—American Legion Weekly.

## ILLITERACY DECREASES

Washington, Oct. 20.—The Department of Commerce, through the Bureau of the Census, announces that according to the census of 1920 there are 295,844 illiterate persons 10 years of age and over in the State of Texas, "illiterate" meaning unable to write. Of this number 50,424 are native whites of native parentage, 30,219 are of foreign or mixed parentage, and 112,417 are of foreign birth. The number of illiterate negroes is 102,053. In the total population 10 years of age and over the percentage of illiteracy is 8.3, which shows a light diminution since 1910, when it was 9.9. In the case of the negroes the percentage declined from 24.6 to 17.8, and in the case of the native white of native parentage from 3.3 to 2.2. For the foreign-born write the percentage was 30 in 1910 and 33.8 in 1920.

By counties the percentage of illiteracy ranges all the way from 44.6 in Willacy county to one-tenth of 1 in Hansford county.

## GIVE CREDIT AND YOU'LL EARN IT

Don't hesitate to express your appreciation of the other fellow's merit. It will please him, and it will raise you in the estimation of others.

Try it. If you have men working under you, speak up and give them credit. Don't wait till they make mistakes and jump on them. It makes bad blood and causes little good.

Try it just for one week. Stop finding fault. Be on the lookout for merit in your men. The chances are you will find something to praise. And just keep on giving credit for a whole week to the men you have been finding fault with hitherto.

You will have all the men on your side. They will do better work and more of it. Incidentally, you will become popular, and eventually your men will give you credit for handing it to them, says Sugarman's Indicator.

Sleep is to a man's whole nature what winding up is to a clock.—Schopenhauer.

## UNCLE SAM CHECKS UP \$500,000,000 GOLD IMPORTS

Our gold imports have now passed the \$500,000,000 mark since January 1, 1921. The official figures for the eight months' period ending August 31st show the enormous total of \$496,451,732 in American vaults from overseas.

Never before has there been such a flood tide of gold bullion rolling in upon us, and never before has the United States occupied its present dominant position as the credit nation of all the world. On this foundation of solid gold our next era of prosperity will rest, and already now easier credit facilities and easier money rates are paving the way for a gradually advancing state of general business activity.

During the last eleven days of the golden tide before September 1st the shipments of bullion and specie rose to \$31,607,857 of which European nations supplied more than three-fourths. Among the European contributors to our half billion gold imports Great Britain leads with \$143,108,454, followed by France with \$136,320,603 for the eight months' period, writes Sugarman's Indicator.

E. L. Douglas, of Jacksboro, was in the city this week and called at The Leader office and moved his figures up to 1923. It is the first paper he ever read. He says he has been reading it all his life.

Mrs. W. C. Hackley and daughter left last week for Kingsville, Texas, where they will join Mr. Hackley, who has accepted employment with the mill and ice company at that place.

Mrs. John A. Timmons and children will leave Monday for Meadow, Texas, to join her husband and sons who left last week for the West where they will make their home in the future. Friends predict that they will soon get homesick and return to Young county.

Every day is bargain day in the Meat line at **WILL SHORT'S**. 10c

A. A. Tatum, of Clinton, Oklahoma, who has been in California, arrived in Graham last Friday for a brief visit with R. E. Lynch and family. Mrs. Tatum has been here some time visiting her sister, Mrs. R. E. Lynch. They left for their home in Clinton last Sunday.

George L. Lamar, who built the home of Major J. W. Graves, founder of the Graham Leader, in 1876, has returned to Graham to look after his interests in the oil fields. He has secured some good building contracts at Ellasville and will spend a greater part of the winter at that town rebuilding the section recently destroyed by fire.

R. B. McCrum has returned from an extended visit to Canada, where he went in July in response to a message that his father was critically ill. His father died before he reached his bedside. After his father's death he was detained in Canada some time. Mr. McCrum states that he believes in Graham and is now back ready for business.

R. G. Taylor brought to The Leader office last week a large bundle of turnips raised in his garden here in Graham. The editor was out when he brought them into the office and did not find out if Mr. Taylor had anything to do with raising them. Last year his little girl brought some in that she had raised. Whether he raised them or other members of his family they were fine and we appreciated them.

To get the best Meat for the least money try **WILL SHORT**. 10c

B. S. Doty has received some interesting letters from his son, Jack, Doty, who is a Rhodes Scholar in Oxford University. He won his scholarship in a competitive examination. His summers are spent in various lines of work. This summer he did some line of student work in Germany and while in that country made trips into Austria and other countries. The letters to his father are interesting and show that he appreciates his opportunities and is taking advantage of them.

"If we ever have a woman President do you suppose she would be justified in appointing her husband to a place in the Cabinet?"

"It isn't likely. If we ever elect a woman President, she'll probably have the kind of husband who wouldn't be competent to hold down a third-class postmastership."—Birmingham Age-Herald.

A man must either imitate the vicious or hate them.—Montaigne.

**HALLOWEEN PARTIES DESTROY PROPERTY**

The usual Halloween parties were held in Graham this year. Some who have little regard for the rights and property of others were at work again this year. Several buildings were overturned and many culverts were destroyed. A large flag pole at the school building was placed across the street and reports have reached our office that a man ran into it and damaged his car. Other forms of vandalism were engaged in which the officers say are violations of the laws of our country.

No one objects to innocent fun and amusement by the children and grown people but then the line should be drawn when property is destroyed and the rights of the citizens interfered with.

**INTERESTING FACTS ABOUT TEXAS PEOPLE**

Washington, Oct. 31.—The Department of Commerce, through the Bureau of the Census, reports that according to the census of 1920, 35.4 per cent, or over one-third, of the people in the State of Texas are either infants or children under 15 years of age; 10.5 per cent are young people 15 to 19 years old; 37.7 per cent, or slightly less than two-fifths, are men and women in the prime of life, being from 20 to 44 years old; while 16.4 per cent, being 45 years of age and over, are well along in middle life if they have not reached old age.

The urban population as compared with the rural shows some rather striking differences in age, the percentage 20 to 44 years of age being 44.7 for the urban population as compared with 34.3 for the rural, while the percentage under 15 years of age is 28 for the urban population as against 39.1 in the rural. These differences may indicate larger families of children in the country than in urban communities, but more probably indicate the influx of adult foreign immigrants in cities and the fact that the native country children, as they grow up, have likewise a tendency to flock to the city, thereby adding to the active adult city population at the expense of the rural districts. To sum up, in the country as compared with the city, there are relatively more children and relatively fewer old people than people in the prime of life. "Urban" may be explained, as the term is used in the census, includes all incorporated cities and villages of over 2,500 population.

Hardly more than one-half of the population, 52.1 per cent, are old enough to vote, being 21 or over; and in this class the men outnumber the women in the ratio of 112 to 100. The males of military age, 18 to 44, constitute 41.3 per cent of the male population and 21.4 per cent of the total population.

**WHAT ADVERTISING DID**

You probably read the statement published some months ago to the effect that 84 per cent of all business failures in 1920 were of nonadvertising firms.

Maybe you didn't believe it. Maybe you thought it was just a coincidence. But you probably didn't bother to investigate.

The head of a firm that builds standard and special buildings made up his mind to look into the matter further. He decided that if there was such a direct relation between advertising and successful business it was worth knowing about. He set out to investigate the relation of advertising to the firms with which his firm did business—firms that had installed new buildings or enlarged old ones.

Here is what he found: Of all the factory buildings which years, 83.3 per cent were erected for firms which advertised.

Measuring it in floor space, he found that 92.6 per cent of the new floor space his firm had provided was for increased production of advertised commodities.

Here are his conclusions: The advertising manufacturer is five times as likely to stay in business as his nonadvertising competitor; he is five times as likely to need more floor space, which he will probably in two and one-half times the quantity required by the non-advertiser who buys any at all.

It is needless to say that this firm has increased its own advertising, and it is telling the world about what it discovered with respect to the relation of advertising to business success.

Over six miles of cable was recently laid in Sweden from an airplane between two stations separated by woods and rough country. Telegraphic communications was established in eight minutes, six of which were used in laying the cable.

**OIL CITY RAISES FUNDS FOR SCHOOL**

County Superintendent H. H. Avants met with the business men and others interested in a school at Oil City last Saturday night. Enthusiasm was the watchword and the progressive citizenship of the fast growing oil city subscribed funds for building, equipment and teacher. It is not known just how many teachers will be needed but the number required will be supplied.

Oil City is just south of Bunker and the children have been attending the Bunker school but on account of the crowded condition the people at Oil City decided to have relieve the situation at Bunker and a school of their own. This will also give the children at Oil City an opportunity to attend school nearer their homes.

When America was actively at war more people were killed in street accidents in the United States than were soldiers killed in battle.

**WIRES ELIMINATE TIME AND SPACE**

More than any other enterprise, the telephone industry in a comparatively short period of existence has outdone all other endeavors to conquer time and distance. Through an extensive and intricate network of wires, reaching in all directions throughout the country and connecting more than 13,450,000 telephones in the United States, the telephone industry provides a means of direct intercommunication that is unequalled in speed by the telegraph, mails, railroads, aeroplanes or any other existing means of intercommunication.

The largest postage stamp collection in the world—\$2,000,000—is now being sold for auction in France. A Hawaiian missionary stamp of 1851 brought \$14,150, a record price for a single stamp.

**LOCAL STUDEBAKER DEALER SPEAKS**

"Car owners are realizing more every day that quality in cars comes out only through the quality in the service rendered to the owner by the local dealer," says A. F. Wurtz, of the Shamrock Motor Co.

"The fine quality put into any car at the factory is largely a potential value when the car is turned over to its new owners. It is the function of the modern dealer to see that these factory-built qualities perform satisfactorily in actual every-day use of the car.

"The sincerity with which the local dealer sets about his duty of making the car realize the claims of the manufacturer and the expectations of the owner has much to do with the success of one and the satisfaction of the other. It is our pride that every Studebaker car in this community lives up to its factory reputation."

**WAGE BOARD CLAIMS  
SUPREME AUTHORITY**

Chicago, Oct. 29.—The United States railroad labor board made it clear today that both the brotherhoods and carriers must recognize the power of the board to regulate wages and labor disputes.

The position of the board was defined in a lengthy decision growing out of the hearing here last Wednesday, when officials of the brotherhoods and railway executives were brought before the board in an effort to settle the strike scheduled for Oct. 30. The board held in its opinion today that the strike would have been illegal and that orders of the board were violated in the calling of the strike.

Because the brotherhoods recalled the strike order, no action will be taken against them, it was explained. Here are four important findings of the board:

That a former decree of the board had been violated by the strike order.

That all disputes between carriers and employes must be referred to the board before any action is taken.

That any interruption of traffic will be a blow aimed at the peace, prosperity and safety of the country.

That unions going on strike will not hereafter be recognized by the board in any hearings and will be given no consideration or protection by the board in any findings.

The Pennsylvania railroad, it was reported today, will test the power of the railway board by pressing for a fresh reduction in wages. It was intimated the case would be carried into the courts.

**PECAN TREE BEARS  
501 POUNDS OF NUTS**

San Saba, Oct. 22.—J. W. Harkey, farmer, living on the San Saba river, ten miles west of here, has gathered from one pecan tree 501 pounds of the nuts, which he sold at 30 cents per pound. The one tree brought him \$150.30.

This pecan is of the paper shell variety and the tree a native that has never been budded and has had no cultivation since it began bearing.

**OLNEY TO HAVE  
A NEW OIL TEST**

By pooling a considerable block of acreage farmers west of town have secured a drilling contract, from Mr. Elliott and others of Wichita Falls, and actual drilling should begin within the next few days.

Next week we will try to give a more detailed story of the promised activity, but we wish to say that this will be the most interesting test to Olney people that has yet been started in this section, as it will be much closer to town than any of the other tests have been, and like all other men who drill oil wells, these gentlemen feel positively that they are on the structure, and will get a good well.—Olney Enterprise.

A Vermont judge fines his daughter when brought before him for violating a city ordinance, and then writes a check to pay the fine.

Few men can afford to be angry. It is a run upon their intellectual resources they can not meet.—Augustine Birrell.

**NEAR EAST RELIEF**

Solicitation of funds and gifts of clothing will be made in all public schools of the State for the 120,000 Armenian orphans following the permission granted by Miss Annie Webb Blanton, State School Superintendent, Dr. N. L. Linebaugh, State Director of the Near East Relief, said following the receipt of a permit from Miss Blanton.

The order permitting the Near East to ask for contributions from school children was contained in a monthly letter sent out to the principals and superintendents over the State in which Miss Blanton endorsed the movement.

The statement of Miss Blanton reads: "I hesitate to ask the schools to assist in the many charitable enterprises but this is one which I can earnestly endorse. State organizations called on to redouble their energies to save lives of helpless children in the Bible lands. A recent cablegram received from Armenia gives some of the conditions: 'Children, some barely old enough to stand alone, so shriveled by starvation that they have lost all semblance to anything human, covered from head to foot with sores from which they have not the strength to brush off flies, moaning and whining like little animals for food for which hunger has robbed them of the power of speech to ask are daily seen. There is scarcely enough food for those inside of the orphanages. The dead wagons are hauling loads of dead children away every day.'"

With this permission to canvass the schools and the endorsement of Miss Blanton the efforts of the Near East Relief in this field will be doubled, Dr. Linebaugh said.

**SUPREME FLOUR--The People's Choice**

Wherever Flour is used throughout Texas the superiority of "SUPREME" is known and appreciated. Not by chance has the reputation of "SUPREME Flour been built, but only by the constant striving and the unceasing care that is always necessary in the manufacturing of a superior product. From the selection of the wheat on through every stage of its milling, "SUPREME" Flour always meets the most exacting tests and standards. The final Flour is always of a quality that is needed in maintaining the prestige of the name "SUPREME."

GRAHAM MILL & ELEV. CO., Graham, Texas.

**The New Public Service--**

With so many people driving automobiles, the position of the automobile dealer becomes more than that of a mere merchant with a commodity to sell.

Wherever he is, he is obligated to see that automobile transportation shall be comfortable, safe and satisfactory for all who own larger conception of the motor car dealer's cars.

We not only sell the Studebaker, but we try conscientiously to measure up to this responsibility as well.

**OPPORTUNITIES ARE NUMEROUS IN MEXICO**

POSSIBILITIES FOR COMMERCIAL AND INDUSTRIAL DEVELOPMENT INCREASING DAILY.

**DEPARTMENTS WILL HELP**

Department of Commerce, Industry and Labor Urges Inquiries on All Questions.

Consular reports compiled show that more than thirty thousand people recently crossed the Rio Grande into Mexico from the United States upon the occasion of the celebration of the Centennial Exposition of that country. Those who have been following closely the commercial and industrial situation in Mexico believe that this is the indication of a development along these lines unprecedented in Mexico's history. Business conditions in Mexico have more or less reflected similar conditions in the United States but during the past few months Mexico has been visited by some of the most important financiers in the world with the result that possibilities for an early recognition of that country have been growing brighter each month.

Adjustment of matters pertaining to oil holdings, the extension of long lines of credit by some of the most powerful commercial organizations in the world, the possibility of an early payment of interest on national debt have all contributed to the advance of Mexican interests.

The United States has been offered an opportunity of developing a strong commercial field in Mexico and many manufacturers and exporters have been taking advantage of the opportunity. During the year 1920 the trade between the two countries amounted to \$368,048,372, of which Mexico bought from the United States \$207,854,197 and sold to the United States \$160,194,175. This has been increased during 1921 so that the total business between the two countries for the twelve months ending June 30, 1921, was \$433,309,530, of which Mexico bought \$267,540,566 and sold \$165,768,964.

Mexico bought during these twelve months \$7,581,128 worth of automobiles and parts; \$4,474,973 worth of locomotives; \$243,415 worth of sewing machines; \$5,097,785 worth of lumber for building; \$3,614,376 worth of flour; \$5,410,944 worth of corn and \$487,425 pounds of barbed wire. The sale of lumber and barbed wire indicates the fact that ranching is coming back strong.

Exports to Mexico jumped from less than \$80,000,000 prior to 1917 to \$280,000,000 in 1921. The fact that thousands of Americans are daily going into Mexico that the trains are running through Pullmans and that a liner service has been inaugurated indicates the belief of many Americans in the future of Mexico.

**President Oregon Very Popular.**

Mexico recently celebrated its Centennial. One hundred years ago the country became an independent nation and although it has been torn many times by internal strife there is every indication that the period of revolutions has passed and that Mexico is settled upon an era of commercial and industrial growth. That Mexico has safely passed the crisis in this possibility is most plainly shown in the open manner in which President Oregon participated in the Centennial celebration and the fact that no uprising of any kind was even rumored.

September 27th when 16,000 soldiers passed in review before the president and his staff would have been an admirable opportunity for some person to have made the effort. Nothing occurred however, and following the ceremony, without escort of any kind President Oregon with his children rode through the streets to Chapultepec. He was greeted on every side in a manner most cordial.

There is a good market in Mexico for dairy cattle and many haciendas are stocking their ranches again with cattle to replace those destroyed during the revolutions.

A decree has been issued providing for a fifty per cent decrease in the present import and export duties of cattle effective September 1st. While the decree is especially aimed at increasing the import of stock for meat and breeding purposes it also aids American livestock owners by enabling them to pasture in Mexico.

**Department Furnishes Information.**

The Department of Commerce, Industry and Labor of the Mexican government welcomes any questions as to conditions in Mexico with reference to any commercial or industrial pursuit. Letters should be addressed to the Secretary of the department and they will then be referred to the proper departments. There has been much information advanced with reference to Mexico that has not been authentic and the department is desirous of giving first hand information to any person interested.

**The army of the disabled keeps growing**

Hospitals under Government care

The Red Cross is spending **Ten Million Dollars a Year** to help the ex-service man and his family.

Annual Roll Call Nov. 11-24, 1921

To bring before the country in visual form the vast problem it is helping to solve, the American Red Cross has prepared for its Annual Roll Call, Nov. 11 to 24, a poster showing how rather than diminishing the total of World War veterans entitled to Federal aid continues to grow. Red Cross Service to these men is costing \$10,000,000 a year.

**Red Cross Trains 147 Blind Vets In Useful Work**

Training designed to fit them for the battle of life was taken by 147 blind ex-service men at the Red Cross Institute for the Blind, near Baltimore, Md., during the fiscal year 1920-1921, according to the report of the Institute for that period.

Of this number, 19 have gone on to other institutions, in almost every case to institutions where those having sight are receiving advanced education. The blind ex-service men who have entered such institutions are provided with special text-books in Braille, reading which they were taught at the Red Cross Institute.

**Red Cross Plans \$6,000,000 Effort To Save Children**

Medical care and clothing for thousands of children in Central and Eastern Europe are outlined as the activities of the American Red Cross in Europe for the current year, says a statement on the eve of the Annual Roll Call of the organization. These activities, supplemental to the feeding operations of the European Relief Council of which Herbert Hoover is chairman, are designed to provide the most adequate and balanced relief within the resources of private philanthropy.

**Red Cross Gives \$310,000 to Aid 'Clean-Up' Drive**

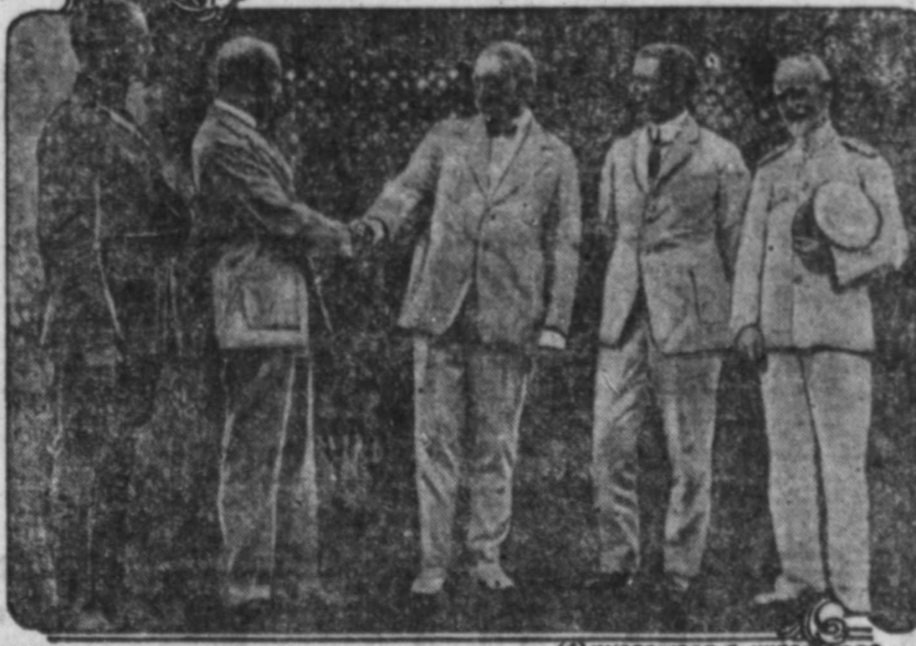

An appropriation of \$310,000 for the Red Cross work in connection with the "clean-up" campaign instituted by the Government to bring the claims of all disabled service men who are entitled to Federal aid before the proper government bureau for action, has been made by the American Red Cross.

The remainder of the appropriation was authorized for appointment among the several Divisions of the Red Cross for carrying on that part of the "clean-up" work that falls directly upon the Red Cross organization.

**Young America Sends Vast Relief To Needy Abroad**

Various relief projects of the Junior American Red Cross in European countries resulted in helping 237,000 destitute children during the last fiscal year, according to the annual report of the American Red Cross for that period. The growth of the activities of the Juniors abroad is manifested by a comparison which shows this figure is 200,000 larger than that of the previous fiscal year.

**President Harding Now Heads Red Cross**

Succeeding former President Wilson, President Harding was recently elected president of the American Red Cross. He is here seen accepting the office. From left to right: Maj. Gen. Merritte W. Ireland, Surgeon General, U. S. A.; Dr. Livingston Farrand, chairman Central Committee of the Red Cross; the President; Asst. Secretary of the Treasury Elliot Wadsworth; Rear Admiral Edward R. Stitt, Surgeon General, U. S. N.

**RAILROAD PLAN TO GET RATES DOWN**

**Propose to Reduce Wages and Return All the Saving By Reduction in Charges**

**FULL TEXT OF THE PROPOSAL**

Statement by Thomas DeWitt Cuyler, Chairman of the Association of Railway Executives on the Situation.

Following a meeting in Chicago October 14, 1921, of the presidents of nearly all the leading railroads in the country, Mr. Thomas DeWitt Cuyler, Chairman of the Association of Railway Executives, made the following statement:

"At a meeting of the Association of Railway Executives today, it was determined by railroads of the United States to seek to bring about a reduction in rates, and as a means to that end to seek a reduction in present railroad wages which have compelled maintenance of the present rates.

"An application will be made immediately to the United States Railroad Labor Board for a reduction in wages of train service employees sufficient to remove the remainder of the increases made by the Labor Board's decision of July 20, 1920 (which would involve a further reduction of approximately ten per cent.) and for a reduction in the wages of all other classes of railroad labor to the going rate for such labor in several territories where the carriers operate."

**To Reduce Rates As Wages Go Down.**

"The foregoing action is upon the understanding that concurrently with such reduction in wages the benefit of the reduction thus obtained shall, with the concurrence of the Interstate Commerce Commission, be passed on to the public in the reduction of existing railroad rates, except insofar as this reduction shall have been made in the meantime.

"The management have decided upon this course in view of their realization of the fact that the wheels of industrial activity have been closed down to a point which brings depression and distress to the entire public, and that something must be done to start them again in operation.

"The situation which confronts the railroads is extremely critical. The railroads in 1920 realized a net railway operating income of about \$52,000,000, upon a property investment of over \$19,000,000,000, and even this amount of \$52,000,000 included back pay for prior years received from the Government of approximately \$4,000,000, thus showing that the operations of that year alone are considered an actual deficit before making any allowance for either interest or dividends.

"The year ended in serious depression in all branches of industry, and in marked reduction of the market demand for, and the prices of basic commodities, resulting in a very serious falling off in the volume of traffic."

**Roads Forced To Defer Maintenance.**

"In this situation, a policy of the most rigid economy and of postponing and cutting to the bone the upkeep of the properties was adopted by the railroads. This was at the price of neglecting and for the time, deferring work which must hereafter and in the near future be done and paid for. This is illustrated by the fact that, as of September 15, 1921, over 16 per cent or 374,431 in number, of the freight cars of the carriers were in bad order and needing repairs, as against a normal of bad order cars of not more than 160,000, as is further illustrated by the deferred and inadequate maintenance of other equipment and of roadway and structures.

**TO YOUNG COUNTY**

W. L. Grubbs has returned from Spur, Texas, and will spend the winter in Young county. Mr. Grubbs came to the county thirty years ago and is one of the few pioneers still living. He is eighty-five years old and is hale and hearty.

Mr. Grubbs called at The Leader office yesterday and renewed for The Leader to be sent to his son at Spur, Texas. While in the office the editor obtained the following information from him:

Twelve children were born to W. L. Grubbs and wife, Permela Jane Grubbs, five sons and seven daughters. There are seven sons-in-law, four daughters-in-law, forty-nine grandchildren, eighty great grandchildren, eighteen great grand sons-in-law, seven great grand daughters, two great great grandsons. This is a total of 178 descendants from this one couple.

Mr. Grubbs served four years in the Civil war and was at the surrender of Appomattox, Virginia, April 20, 1865. He had to walk 600 miles to his home and had to forage, as he put it, all the way. He reached home June the first, 1865.

Mr. Grubbs had three brothers, all younger than himself. One was killed at the second battle of Manassas; another was killed at Chattanooga; the third had his arm shot off at his shoulder. He is still living. Mr. Grubbs was shot through the thigh but no bones were broken. He would be glad to hear from any of his comrades in the war. He was First Lieutenant, Co. D, Second South Carolina Rifles and was in Longstreet's command throughout the war. Letters addressed to W. L. Grubbs, Graham, Texas, will reach him.

**"EMPTY GRAVE" CASE COMES TO LIFE; TWO CONVICTED**

Abilene, Oct. 20.—A new episode in the noted "empty grave mystery," in which Byrd J. Cochran is alleged to have simulated death and went through with a fake burial, resulting in the collection of \$10,000 insurance money, was staged yesterday at Aspermet, Stoneham county. C. O. Horgett pleaded guilty to false swearing and was given two years in the penitentiary.

Wayne Ussery pleaded guilty to false swearing and was given two years in the penitentiary, which was suspended. All other cases against the two men were dismissed by the court. Horgett and Ussery were charged with falsely swearing that they knew Cochran to be dead. Cochran, the central figure in the case, drew two years in the penitentiary at his trial at Aspermet.

**BISHOP JUSTICE FINES HIMSELF FOR SCRAPPING**

Bishop, Oct. 20.—Bishop claims the distinction of having the only justice of the peace in this part of Texas who ever has arraigned himself in court, found himself guilty of fighting and imposed a fine on himself.

This procedure was gone through with recently by Justice F. E. Gravis, following an altercation with another local resident, which led to blows.

Justice Graves explained that he could sit in judgment over others with much better conscience when he had penalized himself for an offense he might be called upon to fine others for.

**RATE OF RETURN EARNED BY RAILROADS OF THE UNITED STATES ON THEIR PROPERTY INVESTMENT:**

YEAR	PER CENT
1912	4.84
1913	5.15
1914	4.17
1915	4.20
1916 (Fiscal Year)	6.90
1916 (Cal. Year)	6.16
1917	5.28
1918	5.51
1919	2.46
1920	0.32

"It will thus be noted that during the years when other industries were making very large profits when the prices of farm products and the wages of labor were soaring to unheard of heights, the earnings upon railroad investment in the United States were had within very narrow limits and that they have during the past four years progressively declined."

**Roads Handicapped More Than Other Industries.**

"The railroads are responsible to the public for providing adequate transportation. Their charges are limited by public authority, and they are in very large respects (notably for labor) compelled to spend money on a basis fixed by public authority. The margin within which they are permitted to earn a return upon their investment or to offer inducements to attract new capital for extensions and betterments is extremely limited. However much the railroads might desire, therefore, to reduce their charges in times of depression, it will be perceived that the limitations surrounding their action do not permit them to give effect to broad and elastic policies which might very properly govern other lines of business not thus restricted.

"It has been urged upon the railroads that a reduction in rates will stimulate traffic and that increased traffic will protect the carriers from the loss incident to reduction in rates. The railroad managements cannot disguise from themselves that this suggestion is merely conjectural and that an adverse result of the experiment would be disastrous not only to the railroads, but to the public, whose supreme need is adequate transportation.

"Consequently the railroad managements cannot feel justified in placing these instrumentalities, so essential to the public welfare, at the hazard of such an experiment based solely upon such a conjecture."

**Farmers Especially Need Lower Rates.**

"It is evident, however, that existing transportation charges bear in many cases a disproportionate relationship to the prices at which commodities can be held in the market and that existing labor and other costs of transportation thus imposed upon industry and agriculture generally a burden greater than they should bear. This is especially true of agriculture. The railroad managements are (and should be) sympathetic with the distressing situation and desire to do everything to assist in relieving it that is compatible with their duty to furnish the transportation which the public must have.

"At the moment railroads in many cases are paying 40 cents an hour for unskilled labor when similar labor is working alongside the railroads and can easily be obtained by them at 20 cents an hour. The railroads of the country paid in 1920 a total of considerably over \$1,500,000 to unskilled labor alone. However desirable it may be to pay this or that schedule of wages, it is obvious that it cannot be paid out of rail road earnings unless the industries which use the railroads are capable of meeting such charges.

"The railroads, aid through them the people generally, are also hampered in their efforts to economize by a schedule of working rules and conditions now in force as a heritage from the period of Federal control and upheld by the Railroad Labor Board. These conditions are expensive, uneconomical and unnecessary from the point of view of railroad operation and extremely burdensome upon the public which pays the bill. This schedule of wages and of working conditions prevents the railroads from dealing equitably with their labor costs in accordance with rapidly changing conditions and the great variety of local considerations which ought to control wages in different parts of the country. The railroads are seeking to have these rules and working conditions abrogated. The railroads will seek a reduction in wages now proposed by first requesting the sanction of the Railroad Labor Board. The railroads will proceed with all possible dispatch, as soon as the Railroad Labor Board shall have given its assent to the reduction of wages the general reduction in rates will be put into effect."

**STAND BY THE LAW**

There are too many laws, of course. Many of them are unnecessary, some are vexatious and some are even vicious. But it is the duty of every good citizen to obey the law so long as it is on the statute books. There is no other safe course. It is perfectly proper to insist that a law is wrong, and to work for its repeal, but it is never safe to violate any law. When we begin to violate one law, we create disrespect for all other laws, and when our laws fall into disrepute our civilization ends. Ours is a government of law. We cannot have government without laws and obedience to the laws. Without this, life and property are not safe. It is therefore the duty of every citizen to obey the law himself and to insist upon obedience to the law by all others. A good citizen will not only obey the law himself but he will assist in the enforcement of the law upon and for others. Obey the laws or repeal them!

The first step toward greatness is to be honest, says the proverb, but the proverb fails to state the case strong enough. Honesty is not only the first step toward greatness—it is greatness itself.—Boove.

The wisdom of the wise and the experience of the ages may be preserved by quotations.—Benjamin Disraeli.

**BUSINESS HOUSES TO CLOSE NOVEMBER 11**

We, the undersigned merchants of Graham, hereby agree to keep our places of business closed all day, Friday, November 11, Armistice Day.

We also agree to join in and assist in the parade, and help in any way possible in entertaining the Ex-Service Men:

- The John E. Morrison Company.
- Eddleman Bros. Saddlery Co.
- Young County Hdw. & Fur. Co.
- Birdsong's.
- First National Bank.
- Street & Co.
- Graham National Bank.
- Wright Hardware Co.
- Graham Tailoring Co.
- B. A. Snoddy & Son.
- E. F. Riley Fur. Co.
- E. J. McCloud.
- Miller's Market.
- People's Store.
- P. B. M. Co.
- McLaughlin's
- Guaranty State Bank.
- Barrow Furniture Co.
- C. C. White Electric Co.
- E. M. Carpenter.
- Graham Grocery Co.
- Paris Tailors.
- Norris-Johnson Hdw. Co.

**HALLOWEEN PARTY**

Last Monday evening the boys and girls of the Junior C. E. of the Presbyterian church, were given a party at the home of Mrs. C. B. Jones. The house was beautifully decorated with Halloween emblems and colors and the hostesses, Mesdames C. B. Jones, Nat Price, and Gary Smith had prepared so many interesting games that the ghosts and imps who attended proclaimed the party to be one of the "best ever."

After a most hilarious time spent in visiting a "room of mystery," in drawing animals upon the black board, in receiving fortunes, etc., refreshments were served to about forty guests. Favors of stick candy for the boys, and Halloween boxes for the girls, were distributed and the guests departed in high spirits hoping that every Halloween might bring us as enjoyable a time.

**ANNOUNCEMENT**

Sunday is the closing day of this conference year. I am anxious to make it count for the most possible. A brief review of the year's work will be made. We have had in some respects a remarkable year, especially when the difficulties under which we have labored are considered. I leave Tuesday for conference which convenes at Cisco Wednesday morning.

If you have not made your contributions for the benevolences of the church, you do so Sunday. Whether much or little it will be appreciated. Let's all do what we can.

T. E. BOWMAN.

**HONOR ROLLS**

During this school year at the close of each six weeks, the names of all pupils of the intermediate grades, who have made an average of A (90 to 100) in each of their subjects, will be on the High Honor Roll and all, who have made an average of B (80 to 90) in each of their subjects, will be placed on the Honor Roll.

Owing to the fact that this is the first time the honor system has been used in the intermediate grades, very few pupils were able to make the required average in every subject:

**Honor Roll**

LOW SEVENTH: Lucile Norman, Vivian Dickenson, Mattie Queen Price, Frank Duncan.

**TRIED AND ACQUITTED**

"Have you tried one of our chicken sandwiches," inquired the waiter. "I have," replied the diner with judicial gravity. "But the chicken proved a clear alibi."—American Legion Weekly.

Nothing but past acts are vouchers for future.—Newman.

For genuine Mexican Chili and Hot Tamales come to Wichita Cafe. Everything is cooked clean. 10-13p

**CONTINUED DRY WEATHER MAKES DUST NUISANCE**

We are always ready to say that this is the worst I ever saw. Many of us who have lived here many years are feeling that the dust this week is as bad as we ever saw and some, as usual, say it has never been worse.

There has been very little rain since June and the traffic this fall has been very heavy and the strong winds this week have made the dust almost unbearable. A good rain is needed badly to settle the dust and put people in better spirits.

**CLASSIFIED ADS**

**WANTED**

WANTED—A drilling contract on 6,000 acres in northeastern part of Anderson county. Inquire G. L. MAJOR, Leader office.

SEWING WANTED—MRS. H. A. CRAIG, 811 Grove St. 10p

## A SENIOR'S GAME

(By Wallace Price)

The position of a Senior or of a person in their senior year is very much like that of a baseball player who has, to use a technical term "got a single." This "single puts him safe on first base. So when a person graduates they too, are safe on first base.

For a baseball player to score however it is necessary for him to pass three more bases in safety. These bases are termed professionally as "first base," "second base," "third base" and "home base."

When the player has managed to reach first base in safety, his thought is not "I ought to have got a triple," but it is, "I am here and now my duty is to score."

Likewise, a Senior on his graduation day is on "first base" and his motto ought to be, "safe on first—now score."

But before a Senior can "score" he has three more bases to pass in safety. They may be designated as entrance to college, graduation from college and (home base) what he amounts in his later life.

Usually the ball player gets his "single" by much labor and time spent in learning how to judge the ball pitched to him. So a Senior reaches first base in his game with the world after much study and work in learning the things required of him.

The next duty of a baseball player is to get to second base in safety and he cannot do this without the cooperation of the team behind him.

After graduation the Senior's duty is to get to his "second base" in safety. The world needs these "singles" and "doubles" of the Seniors and he should put forth every effort to make entrance to college and the day he enters he may be said to have "stolen a base" on his opponent, Ignorance.

The opponents of the ball player on second always commence to get worried and anxious when he gets to second for then he has a better chance to score, and it is the duty of the ball player to his team-mates to take advantage of every opportunity to reach third base.

If the Senior has enough ambition and perseverance he can reach his "third base" in safety, "hit the pill for a triple" to use the baseball slang.

Now comes the greatest test of all

for the Senior is on "third base" and all eyes are watching him to see if he can "score." His opponents in the shape of vagrancy, lack of enthusiasm, etc., are urging him to take a false step just as the ball player's opponents wish him to make a false step but both must play "air tight baseball" and be cautious.

It is the duty of both players to "score" now and they are "quitters" if they fail to "score" at all.

If a ball player though fails to score on account of his team-mates' errors and through no fault of his then he is said to "die on base" and his "average" is not reduced.

Therefore if a Senior fails to "score" through unlooked for and unpreventable impossibilities he is not to be censured or his "average" reduced but he still has a chance to "score" just as completely in his new life.

"For when the Great Recorder comes to write against your name He writes not that you won or lost but how you played the game."

## SHERIFF'S SALE

THE STATE OF TEXAS

County of Young

By virtue of an Order of Sale issued out of the Honorable District Court of Young County, on the 28th day of September, 1921, by the Clerk thereof, in the case of Morrison-Smith Lumber Co. vs. B. H. Mason and J. E. McGee No. 6528, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales, on the first Tuesday in December, A. D., 1921, it being the 6th day of said month, before the Court House door of said Young County, in the City of Graham, the following described property, to-wit:

Being a wooden two-story building, commonly known as the dance hall, being erected on the east 50 ft. lots 1, 2 and 3 of block 43, of the City of Graham, Texas, in Young County, as shown by the map plate of the said City of record in the office of the County Clerk of Young County, Texas, levied on as the property of B. H. Mason and J. E. McGee to satisfy a judgment amounting to \$7,801.10 in favor of Morrison-Smith Lumber Co. and costs of suit.

Given under my hand, this 22nd day of October, 1921.

9-11c JOHN W. SAYE,  
Sheriff, in and for Young County, Texas.

## ELIASVILLE APPRECIATES ASSISTANCE FROM GRAHAM

The following letter was received by the Graham Chamber of Commerce immediately after the disastrous fire recently, which destroyed a large part of Eliasville:

"Eliasville, Oct. 14, 1921  
"Graham Chamber of Commerce,  
"Graham, Texas.  
"Gentlemen:

"Burned and scarred but not whipped. The same spirit that built Eliasville, still lives and we will build back stronger and better than ever is the word that passes the lips of every Eliasville citizen.

"Through the Chamber of Commerce all Eliasville extends thank of gratitude to the Graham Fire Department for their efforts and assistance given us during the fire of yesterday. We are,

"Yours truly,  
"A. A. WISDOM, Secretary."

## PRIVILEGED

"Excuse me, sir," suggested the taxi driver respectfully, "but your son always gives me twice as big a tip as this."

"Well, he can afford it," replied the old Milyuns. "He's got a rich father. I haven't."—American Legion Weekly

## SHERIFF'S SALE

THE STATE OF TEXAS

County of Young

By virtue of an Order of Sale issued out of the Honorable District Court of Young County, on the 5th day of October, 1921, by the Clerk thereof, in the case of The Service Truck Co. of Texas vs. S. V. Bradford, No. 6411, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales, on the first Tuesday in November, A. D., 1921, it being the 1st day of said month, before the Court House door of said Young County, in the City of Graham, the following described property, to-wit:

One Model No. 61 Serial No. 11565, Service Truck and one Model D, 20 Warner Trailer, Serial No. 1142, levied on as the property of S. V. Bradford to satisfy a judgment amounting to \$3132.72 in favor of The Service Truck Co. of Texas and costs of suit.

Given under my hand, this 18th day of October, 1921.

8-10c JOHN W. SAYE,  
Sheriff in and for Young County, Texas.

## BUT NOT RATTLED

Leslie: "Did you notice that Russell came to the ball grounds in his flivver today?"

Percy: "That accounts for his pitching such a rattling good game."—American Legion Weekly.

## SHERIFF'S SALE

THE STATE OF TEXAS

County of Young

By virtue of an Execution issued out of the Honorable Justice Precinct No. 1, Dallas Court of Dallas county, on the 25th day of July, 1921, by the Clerk thereof, in the case of Texas Drug Company vs. C. C. West No. 38560, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales, on the 5th day of November, A. D. 1921, it being the 5th day of said month, before the Court House door of said Young County, in the City of Graham, the following described property, to-wit:

36 bottles Cherry flavor, 126 bottles Java, 19 small bottles berry Juice, 8 pints Blackberry juice, 12 plugs peachie plug tobacco, 3 plugs Tinsley, 1-2 box brown mule tobacco, one case fine smoking tobacco, 14 sacks Duke tobacco, 11 pkgs. beach-nut, 7 pkgs. mail pouch, 7 boxes Zeno chewing gum, 1 box Horseshoe tobacco, 34 plugs Tinsley, 1 box candy, levied on as the property of C. C. West to satisfy a judgment amounting to \$119.85 in favor of Texas Drug Company and costs of suit.

Given under my hand, this 22nd day of October, 1921.

9-11c JOHN W. SAYE,  
Sheriff, in and for Young County, Texas.

## NOTICE

Whereas, on the 4th day of Oct. 1920, the Giant Machine & Tool Company, a corporation, made, executed and delivered to W. M. Odell a certain deed of trust and chattel mortgage upon the following described property then situated in Eastland county, Texas, and now located and situated at Eliasville, in Young county, Texas, to-wit:

All machinery, tools, implements, appliances, furniture and fixtures owned by Giant Machine & Tool Company on the 4th day of October, 1920, including all machinery, equipment, tools and appliances on said

date located in a certain lot, parcel or tract of land situated in Eastland county, Texas, out of the Davis Addition to the town of Desdemona, in said county and located about 3-4 of a mile from said town and being the property on said date used and occupied as a machine and tool shop by the said Giant Machine & Tool Company, and including the following described property, to-wit:

One Morgan Engineering Co. steam hammer, No. 818.

One 24 in. Lathe, R. K. LeBlond Machine Tool Co.

One 50 in. Noiseless Blower (Buffalo Forge Co.), with countershaft for same.

Four 25 ft. Steel Bridge Spans.

One 24 in. Drill Press (Machine Amos Mfg. Co. of Rockford, Ill.)

All of said property being now located in the plant and machine shop occupied and conducted by the said Giant Machine & Tool Company at or near the town of Eliasville, in Young county, Texas.

Whereas, said deed of trust and mortgage was executed for the purposes of securing the payment of eight certain promissory notes for the sum of \$583.24, each bearing interest at the rate of 8 per cent per annum from date, payable annually, and all payable to J. R. Nail, and all providing for the payment of ten per centum additional upon the principal and accrue interest in case the notes or any of them should be placed in the hands of an attorney for collection or suit; all of said note being dated October 31, 1919, and the first of same being due on or before 15 months, and the remaining notes maturing in quarterly installments of 18, 21, 24, 27, 30, 33, and 36 months, respectively; and

Whereas, it was provided by the terms of said deed of trust and mortgage above referred to that the

failure to pay any one of said notes at the maturity thereof should, if such nonpayment should continue for a period of thirty days, mature said entire series of notes at the option of the said J. R. Nail, or the lawful owner or holder of said notes, or either of them; and

Whereas, of said series of notes the first of same matured on January 31, 1921, the second matured on April 30, 1921, and the third of same matured on July 31, 1921, and default has been made in the payment of all of same, and said default has continued for more than thirty days and by reason thereof the said J. R. Nail has elected to exercise the option vested in him by the terms of said mortgage and deed of trust by declaring each and all of said notes due and payable and fully matured, and has placed same in the hands of an attorney for collection; and

Whereas, it is provided by the terms of said instrument that if default should be made in the payment of said notes or any of them, and such default should continue for a period of thirty days, then that said trustee should take possession of said property and sell same after due notice as therein provided;

Now, therefore, notice is hereby given that on Tuesday, Dec. 6th, 1921, between the hours of 10 o'clock a. m. and 4 p. m. I, as such trustee, and under the provisions of said deed of trust, will offer for sale to the highest bidder for cash at the foundry machine shop and place of business of the Giant Machine & Tool Company, at or near the town of Eliasville, in Young county, Texas, said property described for the purposes specified in said deed of trust.

Witness my hand this the 19th day of October A. D. 1921.

9-11c W. M. ODELL, Trustee.

WHETHER A FLY

### Specific Law in Statute Book On Pecan Gathering

A Jury in Wichita Falls, the other day tried a man for getting pecans off another's property without consent, and an old Texas law on the subject that was brought to light in the trial will be interesting to Young county people. It reads: "Any person who gathers pecans on enclosed lands without the consent of the owner of the lands or without the consent of the man in charge of the lands shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not more than \$300 nor less than \$5, or by imprisonment in the county jail for any term not exceeding three months or by both."

### \$600,000 VOTED FOR WILBARGER ROADS

Vernon, Tex., Oct. 30.—Wilbarger county's \$600,000 road bond election yesterday went over with a landslide in favor of the issue. The final count was 1,092 to 265. The precinct, that of Oklaunion, registered 104 votes in favor of the proposition and none against. From the beginning of the returns the outcome was never in doubt. Concentrated endeavor on the part of the good roads committee here is responsible for the success of the election. It mean that about \$300,000 will be spent on concrete roads running four directions from Vernon.

Two hundred thousand dollars will be devoted to the dirt roads of the county and the remainder will take up road bonds in one of the county precincts.

### DENIED THE CHARGE

Kind Lady: "You should brace up, my poor man. Remember what you owe society."  
Hob: "I don't owe society nothin' lady. What do yer 'ink I've been doin'—playin' bridge?" — Boston Transcript.

### SOLID BONE

"Sure it's a great compliment the foreman paid me today," boasted Cassidy.

"What did he say, Mike?"  
"He said I carried more osseus matter above me shoulder than any other man in the works." — Boston Transcript.

Honors come by diligence; riches spring from economy.—Chinese Maxim.

Riches amassed in haste will diminish, but those collected little by little will multiply.—Goethe.

A quiet mind tendeth to a level head.—Safied the Sage.

### Eliasville Team Wanted For Big Graham Bronc Show

A competitive team of broncho and steer riders and ropers will be sought in Eliasville for participation in the Graham Rodeo and Fair, which will be staged for four days from Nov. 22nd to Nov. 25th at Graham. Other teams will be organized at Olney, Newcastle, Bunger, Loving and elsewhere in the county. An elaborate program has been unfolded by G. A. Bryant, manager of the Graham Rodeo Company. Wild west stars from all over the country will compete, he says, including some of the participants in the annual affair at Pendleton. The Fair will include exhibits of livestock and agricultural products from throughout the country.

### SELECTING PULLETS

Not every poultryman can select a laying hen by her appearance. It is true students of poultry husbandry are generally able to do this, but few farmers and poultrymen are unless they have given the subject some attention.

The following suggestion should be of help to you in enumerating some of the points in the making of a good laying hen. But these points will need to be verified. That is, you must practice if you would become a good judge or at least learn how to select your own pullets for layers. And it will be necessary for you to know how to select if you are to improve your flock.

Judging poultry is said to be a finer art than the selection of other farm animals, but the man or woman who picks pullets with a fine head, alert eyes and comb, fact and wattle of fine texture, has taken the first step toward increased egg production. Good pullets should stand square on their feet, with legs wide apart, with the front end of the body end, and with a long back and tail carried rather high. The body should be wedge-shaped, yielding ample room for the reproductive and digestive organs.—Southland Farmer.

Those who are striking to reduce the cost of living instead of working to earn more to buy living will get no pleasure from the fact that unless farmers are able to get help there will be less living to strike for or earn.

### GETTING ALL IT'S WORTH

The Rancher: "Ain't you mor'n doubled the price of rope the last few days?"

The Storekeeper: "Reckin so. I've been hearin' some talk of the boys going to lynch the profiteers an' I'm resolved to sell my life dearly." — Houston Post.

**IT'S EASY TO CRY**  
It's easy to cry when you're beaten—and die,  
It's easy to crawl and crawl,  
But to fight and to fight when hope's out of sight,  
Why that's the best game of them all.  
It's the plugging away that will win you the day,  
So don't be a piker, old pard,  
Just draw on your grit—it's dead easy to quit.  
It's the keeping your chin up that's the hard.

**SCHOOL, DRIVE SLOWLY**  
When school opened we had an article in The Leader asking drivers of automobiles to drive slowly by the school building. Reports are reaching this office that some are driving too fast near the school building. It is hoped that this year will pass without any one getting killed or hurt.

The driver is not the only one who should exercise care. Too many children use the streets instead of the sidewalks in going to and from school. Parents should caution their children about using the streets. If parents, children and auto drivers will work together there will be no need of accidents this year. Let every one keep in mind the motto "safety First."

### BUNGER ITEMS

The good roads committee called on the Bunger people last week in the interest of good roads.

Mr. Buchanan, of the First National, was a business caller in Bunger Saturday.

Miss Gertrude Guinn, our popular primary teacher, spent the week end with her parents in Graham.

Jec Grantham and Chas. Grantham returned this week from a visit to Lampasas county.

Ira Grantham received a wire from Washington stating that Bunger would soon have a postoffice.

Ed Puckett, of Oil City, leased a lot on Main street and will erect a building for a hotel.

Rev. Cunningham preached at the Baptist church Sunday.

The Baptist Sunday School was re-organized Sunday with a good attendance.

The Bunger school is gaining in attendance every day.

Mr. and Mrs. Oscar Owen spent Wednesday in Graham.

Mrs. S. A. Gantham left Sunday for Meridian, Texas, to spend a short time with her daughters.

Services were held at the Church of Christ Sunday morning and night. At this writing the Barnes well is making a good showing. We expect several wells in this week.

Mr. Wright, of the Young County Hardware and Furniture Co., was in Bunger Saturday looking over the field with a view of opening a branch store for his company.

A representative of the Ranger Gas Co. was here this week looking over the situation with a view of putting in gas in Bunger.

Several new buildings are in course of construction for various purposes.

The sale of lots scheduled to take place at the Blue Blaze Addition to Bunger was postponed until Saturday, October 29.

Oil City, the biggest addition to Bunger, has opened several new business enterprises lately.

Grantham & Goldwater have installed delivery service to the entire oil field.

Harry Clark, our up to date sign painter, spent the week end with his family in Graham.

Bunger needs a bank, a doctor, lawyer, newspaper and with the coming in of the wells in this section we expect to be the second city in Young county. Come out and look, see and be convinced.

### CORRESPONDENT.

### JEAN

I. E. Gray has been transferred to Megargel as station agent. Mr. Gray has been agent here for several years. His family will leave soon to make their home in Megargel. Their many friends regret to see them leave Jean, but our best wishes go with them to their new home.

Mr. and Mrs. J. L. Jordan left Friday for Shamrock, Texas, in response to a telegram stating that their daughter, Mrs. Annie Sewell, had undergone an operation but was doing nicely.

Mr. and Mrs. Jas. G. Staples and Mrs. H. K. Weems attended the D. L. Coale revival at Newcastle Friday night.

Frank Cook, of Olney, has been employed as station agent at this place to succeed I. R. Gray.

R. F. Willis and G. M. Roden went to Dallas Sunday.

W. D. Allen attended the M. E. stewards' meeting at Lone Oak Saturday.

HAZEL EYES.

### ICE TO TAXPAYERS

I will be at the following places to collect taxes:  
Olney, Monday, November 7th.  
Jean, Tuesday, November 8th.  
Loving, November 12th.  
Eliasville, Wednesday, November 16th.  
South Bend, Thursday, November 17th.  
Newcastle, Monday, November 21st.  
Yours truly,  
D. D. CUSENBARY,  
Tax Collector.

### CITATION BY PUBLICATION

THE STATE OF TEXAS  
To the Sheriff or any Constable of Young County—Greeting:  
YOU ARE HEREBY COMMANDED to summon J. S. Coe by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Young County, to be holden at the Court House thereof, in Graham, on the First Monday in March, A. D. 1922, the same being the 6th day of March, A. D. 1922, then and there to answer a petition filed in said Court on the 19th day of February, A. D. 1921, in a suit, numbered on the docket of said Court No. 6324, wherein Fred Marshall is Plaintiff, and J. S. Coe and Sam A. Joseph are Defendants, and said petition alleging that on or about the 16th day of March, 1917, plaintiff executed and delivered to J. S. Coe, a certain oil and gas mining lease covering the West one-half of T. E. & L. Co. Sur. No. 633, Abst. 791, containing 160 acres, situated in Young county, Texas. Said lease was to run for a period of 5 years from date; if within said time, oil, gas and minerals were found to run for a period of twenty-five years longer. Lessee agreed to pay one-eighth of all the minerals produced and to pay the sum of fifty cents per acre per annum rental during the third, fourth and fifth years of said lease. That a rental due March 16, 1920, was not paid or tendered on or before said date as in said lease provided; that same was tendered by registered mail on or about March 30th, 1920, long after the time contracted and agreed upon in said lease; that on or about March 16th, 1920, defendant had not entered upon said land and begun operations for the drilling of a well of development of said lease. Wherefore, plaintiff prays the Court that defendant be cited to appear and answer this petition and upon final hearing that he have judgment for the title and possession of his land; that said cloud cast upon his title by the defendants be removed and that the said lease be cancelled, forfeited and held for naught and for such other and further relief in law and in equity and for all costs of suit and for writ of restitution and for such other relief, as he may be entitled to, in the premises. Herein Fail Not, but have before said Court, at its aforesaid next regular term this writ, with your return thereon, showing how you have executed the same. Witness, Willie Riggs, Clerk of the District Court of Young County. Given under my hand and the Seal of said Court, at office in (L.S.) Graham this the 18th day of October A. D. 1921.  
8-12c WILLIE RIGGS,  
Clerk District Court, Young County, Texas.  
By MRS. D. L. MAXWELL, Deputy.
