## Work on Cotton Oil Mill Under Way

What is described as one of the largest as well as the most modern cotton oil mills in Texas, was started this week about three-fourths of a mile north of the city limits, on the Lubbock highway. It is located near the County Marker. Thirty-three acres of land which was farmed last year, is included in the site. Santa Fe surveyors have already located the spur, and work will be rushed on it so that building material can be unloaded at the site.

The West Texas Cotton Oil Company, generally known to be a part of the Anderson-Clayton Company, is able to put up the kind of plant that the section will be proud of. They buy their own sites, erect their plants and pay for them. Towns are not called on for any bonus whatever. Mr. G. T. Harris will be the construction foreman, while Mr. Horace Ballew will be in charge of operation. Those high up in company affairs here Monday, were: Mr. Roy Grisham, General Manager, Abilene; Mr. Horace Hawkins, manager of the Plainview mill, and Mr. Watkins, Littlefield manager.

The company plant at Winters is being dismantled, and will be moved here, but we understand that thousands of dollars worth of new and modern machinery has been purchased and will be added, making this the most modern plant perhaps in the entire state. Streets and roadways are being laid out at the site, and a tool and material building erected. Stakes are also set for the different buildings and a water well put down.

There was much talk here a year ago that when the company got ready to build, they would include a mixed feed mill as well as modern as any in Texas. The fact that Brownfield is just on the edge of the ranch section, as well as in the best part of the corn and feed area, would make a mixed feed plant a great asset to the cotton oil mill department. The plant will employ around 45 men.

## Demonstration Agent Coming June 15

Miss Lida Cooper, District Home Demonstration Supervisor of this district, with headquarters in Lubbock, informed County Judge R. A. Simms this week that the new home demonstration agent, the first for Terry county, will be here Saturday, the 15th.

The lady selected for Terry county is Miss Mauretta Holloway, who is graduating this year at Tech college, and will get her first experience in the work here. While she is new in the work, so are we, and we have no advantage over her, except that she has had training.

The ladies of a number of communities have already organized their clubs and are ready for work. The Herald feels sure that a good crowd of Terry county ladies will be on hand Saturday week to welcome Miss Holloway to Terry.

## Good Rain Around Town Tuesday Night

According to T. L. Patterson, Chamber of Commerce Secretary, the government gauge registered 81-100 inch. There was a great amount of electrical display around midnight, as the rain came, not to mention a pretty hard wind.

Mr. Patterson stated that seemingly the rain area was small, being confined to the immediate Brownfield vicinity.

## Warning Against Activities of Religious Sect

County and State Officials and Members of the American Legion Speak to 1500 People on Subject of Patriotism.

Starting about one hour after the regular Tradesday drawing here Monday afternoon, Burton G. Hackney set up his public address system and spoke briefly to about 1500 people of this county in the interest of his candidacy for District Attorney. After a brief speech in the interest of his campaign, Hackney plunged into the matter of the "Fifth Column" or "Trojan Horse" that struck in Brownfield Sunday morning.

Mr. Hackney stated that there was no man on the face of the earth that loved his country more than he; that he owed his country more than he would ever be able to pay; that as an average poor boy this country had given him opportunities to educate himself and to say what he pleased and to do what he pleased so long as it did not interfere with the rights of others; that he had breathed his free air, and took of its substance; that he enjoyed his freedom yet, and was willing to fight to keep it.

Mr. Hackney stated that there had been a lot of things said, and a lot of things done in the past two days that should not have been said or done. He stated that he respected the right of people to believe and worship as they saw fit, but that he had no use for any man or woman who used that belief to tear down and destroy a free government. He called upon the people to keep their feet squarely upon the ground in these perilous times, and not to commit some offense that they would have cause to regret in later years. He stated that the County and State officials were the ones to handle all violations and that they would not tolerate mob violence of any kind and that those who engaged in violence would be prosecuted. He called upon all citizens to refuse to let Jehovah's Witnesses enter their homes and leave their literature, and if they had already done so, to destroy it or bring it to the officers.

Hackney then introduced C. T. Edwards, Commander of the local Post of the American Legion, who spoke briefly to the crowd on the stand of the American Legion regarding un-patriotic moves. He told the people that the Legion was squarely behind the officers of the County and State and called upon the citizenship of this county to cooperate with the officers.

J. D. Miller, secretary of the American Legion, Manny Gault, Texas Ranger Captain of the Lubbock Division, C. D. Gore, Terry County Sheriff and H. R. Winston were introduced and each one of them called upon he citizenship for their aid in solving the serious problems that were confronting us. Homer Winston spoke at length regarding our duty to the flag and what it stood for and read several sketches from the literature of Jehovah's Witnesses.

Jim Graves furnished a large flag which was mounted on the platform for the program, and after the speeches Burton Hackney called upon the crowd to stand at attention, salute the flag and give the pledge to the flag. Every person present saluted the flag and gave the pledge.

## Bathing Pool to Open Saturday

Mr. and Mrs. Lynn Harris, and daughter, Miss Muriel, who moved here recently from Minnesota, will have active charge of the Brownfield Swimming Pool this year, belonging to the father of Mr. Harris.

We understand that the Harris family are swimmers, and capable of looking after learners or others who might get in trouble in deep water.

There will be no season tickets, but they will have family tickets for sale at greatly reduced prices.

Mr. and Mrs. Dennis Lilly spent the week end in Stanton.

## OLD GLORY'S BIRTHDAY

Our Flag has been waving in the breeze since June 14, 1777, when it was adopted by the Continental Congress. U. S. Marines display the Stars and Stripes along with their regimental standard. At right: Grand Union, rattlesnake and pine tree flags, prominent among early colonial banners.

Romance has trailed Old Glory since it became our national flag 163 years ago. Since that time it has symbolized the hopes, aspirations and spirit of a nation devoted to the cause of liberty.

Prominent among early American flags, forerunners of the Stars and Stripes, were pine trees, rattlesnakes and other designs. The Grand Union flag, with a British jack appearing where forty-eight stars are now shown in a blue field, was the immediate ancestor of our national flag.

Pine tree flags were displayed by the cruisers of Washington's fleet which operated in New England waters, and such flags bore the words, "An appeal to Heaven."

Rattlesnake designs were frequently used by the southern colonies, and a flag of this type was

carried by the U. S. Marines and blujackets form the Continental Navy, who made a landing in the Bahamas in March, 1776. The rattlesnake symbol, with its motto, "Don't tread on me," also appeared on the drums of American Marines at that time.

The Grand Union flag was popular with naval men and it was sometimes called the "First Navy Ensign." There were scores of other colonial banners, each of which found special favor in the colony where it originated.

Even today there is a certain mystery about Old Glory. Historians fail to agree as to who designed it, although tradition points to Betsy Ross, a Quaker City seamstress, as the maker of the first Stars and Stripes adopted by the Continental Congress on June 14, 1777.

With a deep appreciation of the benefits we enjoy as citizens, each of us should display the Star-Spangled Banner on Flag Day, and by so doing honor the birth of our flag. No flag in the world is more beautiful. No flag spreads its folds over a more highly favored land than ours.

## Lockhart Tractor Co. Sponsoring NFYF

Will Ed Watson, manager of the Lockhart Tractor Co., that handles the Ferguson-Sherman tractor, which was jointly sponsored by Messrs. Ferguson and Henry and Edsel Ford, is taking a great interest in getting the National Farm Youth Foundation started in Terry and adjoining counties. This week, they are starting a series of ads that explain that matter.

The farm youth that really wants to go places on his or his father's farm, whether rented, owned or leased, may have a chance to take a correspondence course in farm engineering and management, prepared by La Salle University of Chicago, said to be the best engineering school in the U. S.

The youthful farmer, between the ages of 18 and 25, not only has a chance to get this valuable education in engineering and farm management, but may also win some prizes, including a tractor. If interested, call at the Lockhart Tractor Co., and get the book, "A New Career."

## Purtell & Black Have Butane Agency

With offices across the street west of the post office, two local boys, R. J. Purtell and Ross Black, have recently acquired the agency for the Plains Liquefied Gas Co., distributors of Phillips 66 Butane-Propane gas.

According to Mr. Purtell, their product absolutely has no offensive odor, and it is the aim of the firm to keep constant check on the consumer's fuel supply, thereby guarding against any fuel shortage on account of neglect to the consumer.

Purtell is manager of the agency, and Black the secretary.

## County-City Officers And Employees Take Pledge

Mayor Clyde C. Coleman, City Councilmen Marion Craig, Tom Cobb and C. J. Smith, Utility Supt. Eunice Jones and City Secretary, Roy Herod, all the police force, including the three night officers, and all plant and street employees, making 27 people including the writer, who was invited, met at the city hall, Wednesday afternoon at five o'clock.

This meeting was called by order of Mayor Clyde C. Coleman, and at the stroke of five by the clock, the Mayor explained the object of the meeting. He explained that he was going to request all present to take the pledge to the flag and the constitution, and if any one objected to doing so, to speak up then.

As no one objected, the Mayor raised his right hand and read the pledge. At the end of the reading, there was an unanimous I DO among those present and the meeting was dismissed.

Tuesday afternoon, all the county officials, including the deputies, took the pledge of allegiance at the courthouse.

## Preliminary Census Gives Brownfield 4016

Alva G. Bearden, Lamesa, supervisor of census, wrote the Herald this week that the preliminary count of noses in Brownfield gave the city a population of 4,016.

This, he stated, was subject to correction. This compares with 1,907 in 1930, a gain of 2,109 in ten years or about 110 per cent.

## Much Trouble Here With 'Fifth Column'

Sunday morning, seemingly with mutual understanding among them, a new religious sect, who call themselves Jehovah's Witnesses began making the resident part of the city, with literature and phonographs and records, distributing their literature and playing the records on galleries if not allowed to come in.

Many people objected, and called the officers who soon had the bunch rounded up. Those who have made a study of the literature of these people, find that they advocate no tribute to the powers—that-be, or the flag that protects them. Personally, we believe that the great majority of them get into the sect through ignorance of whom is their head and advisors. In other words, many of them perhaps think only of the Sect Front as a religious organization, never questioning who might be the higher ups.

If there was not some concerted action from high up authority, who might represent the Bund or Communism, why did all this literature distributing and phonograph playing break out all over the land in the last few weeks? Most of the disturbances have occurred since the United States suddenly realized that they possibly faced a condition worse than death—domination and practical slavery. This concerted action shows that orders are coming from some source that is a secret to most people, and in the guise of religion, as most all foreignisms realize that Americans, and especially in the south, can most easily be approached through some religious organization.

But, the American Legion is not in the dark. They have been warned of what was coming, but all seemed to be serene here until the sudden outbreak. One can hardly blame the veterans who went across from being a bit more impatient than we who remained at home. They fought in blood, mud, filth, vermin, cold and heat to protect people of Europe as well as at home from domination of war lords such as are now infesting Europe. Knowing so well what the Stars and Stripes stand for, they have little patience with people inclined to be disloyal to their flag and country. But they are a level-headed bunch of men, and will do nothing outside the law that would not be a credit to a good citizenship. They know we have laws to handle the unlawful, and will use them unhesitatingly.

As our county attorney warned, let those who expect the protection of the law be law abiding themselves, as when people become badly aroused, they might take the law into their own hands which would be bad for the community, and worse for their victims and their families.

We hope those who are connected with the incident that caused the trouble here Sunday will take the advice of the law enforcement authorities of Terry County by destroying all their propaganda and phonograph records, and once more become loyal Americans.

## North Carolina Firm Still Makes Wagons

Dennis Q. Lilly, local supervisor of Farm Security Administration, had a card recently from a firm at Hickory, N. C., which is still making good farm wagons, using locust for the hubs. The prices quoted range from \$41.22 for wagon with bed, one horse size, to \$67.80 for the two horse wagon and bed, and up.

It would be a sight for sore eyes to see a nicely painted farm wagon. We used to love to smell the peculiar odor of the new painted wagon. And the owners were just as inclined to high that the fellow with the old run-down wagon, as the present new car owner is the neighbor with the rattling flivver.

Mr. and Mrs. Lorn Walters and Mr. and Mrs. Jim Nelson left Wednesday for Christoval and Buchanan lake for a ten-day vacation.

## Boy Meets Girl Formula on Way Out, Says Star

"While it is true that boy still meets girl in Hollywood movies, the formula of making that meet-

Spencer Tracy and Rita Johnson in "Edison, the Man"

ing important is rapidly failing," says Spencer Tracy, whose latest picture, "Edison, the Man," opens Saturday night at the Rialto Theatre.

Tracy is one who believes that non-formula pictures are proving of vast popularity because they are "different."

"Although in 'Edison, the Man,' I am married for one of the few times in my career and have children for the first time since I've been on the screen, the picture is basically the story of a young man's triumph," explains the star. "Edison does meet and fall in love with a girl, played by Rita Johnson. But the romance is simple and, after marriage, Edison and his wife are just two happily-married normal persons like the majority of our audience. Nothing zany or dramatic in a deep-dyed way comes in. In other words, we don't make a problem of our marriage."

The picture, therefore, can be classed as non-formula since boy meeting girl takes a back seat to a battle against obstacles and the struggle for achievement.

"Of course, non-formula pictures aren't new," the star says. "I prefer them because they are more fun to make—and a little harder to do. In 'Captains Courageous' and 'Boys Town' we didn't have any love interest at all, and there was only a slight romance in 'Stanley and Livingstone' and 'Northwest Passage.' But all those pictures were successes."

## Lamesa Rodeo Caravan Here Next Tues.

LAMESA, June 4.—Plans for the annual Lamesa Rodeo were nearing completion this week as officials announced that arrangements had been made with Curley Daugherty, Olton rodeo stock man, for 195 head of bucking horses, roping calves, and Brahma steers. The performances daily, afternoon and night, will be given on the days of June 19-20.

Bill Boyd, rodeo association president, said here this week that contestants in the riding and roping events are pouring in their applications, and that cowgirls from many West Texas towns have registered their intention to enter the cowgirl contest, open to every cowgirl in the Southwest, except those that have already won two first places in other shows. This event will be different from the usual sponsor contest in that cities may be represented by any number of participants.

The caravan will arrive in this city about 2:15 Tuesday, June 11.

## Johnson to Stage Rabbit Drive, Monday

Wood E. Johnson was in last week and requested the Herald to announce that the Johnson community was staging an all day rabbit drive next Monday the 10th in that community, to which all sports with shotguns are invited.

## Hackney Opens His Campaign in Terry

Burton G. Hackney was scheduled to make his opening blast to the citizens of Terry County here Monday afternoon in the interest of his candidacy for the office of

District Attorney, but due to the unsettled minds of the citizens over the un-patriotic movements in the county Sunday and Monday, he spoke only briefly.

Burton pointed out that when he ran for the office of County Attorney in 1936, that at the end of two terms that he would either "go up" or "get out," and that he was now attempting to "go up." He stated that he had worked with every Grand Jury since going into office, and that he had assisted in the prosecution of every criminal case in Terry County, and that he had gained valuable experience thereby. He stated that he had worked hard in preparing himself for the office of District Attorney, and he believed himself capable of handling the job.

Mr. Hackney expressed his appreciation to the citizenship of Terry County for their past support and for the cooperation he had received as their County Attorney. He stated that he had a large territory to cover in his campaign and called upon his friends to assist him by seeing or writing their friends and relatives in other counties in his behalf. He stated that as he had so much territory to cover that he would not spend very much of his time in this county, but would be in other counties where he was not known so well.

## Seminole Boosters Here Tuesday Noon

Headed by their high school band in a large school bus, and followed by some 40 or more cars of boosters, the Seminole bunch were here in all their glory Tuesday, all dressed in cowboy and cowgirl regalia. A short band concert was given and short talks made over loud speaker, inviting Brownfield and Terry county people to their 35th birthday celebration.

The bunch then scattered for the eating places as it was noon. Tahoka, O'Donnell, and Lamesa were to be made after the party left here. Gaines county was organized in June, 1905, one year after Terry was organized.

## Brownfield Now The Fourth Largest City

Brownfield with 4,016 inhabitants, becomes the fourth city on the South Plains, with Lubbock first, Plainview second and Lamesa third. During the past ten years it has passed several good towns in growth, among which were Littlefield and Floydada on the Plains, and Snyder, Arison, Haskell and many others off the Plains.

It made the most rapid growth of any county seat town on the Plains that was incorporated ten years ago.

Meadow had a population of 408, compared to 324 in 1930, a gain of 84.

Mr. and Mrs. John L. Bishop and son are here visiting her parents, Mr. and Mrs. Jesse Cox.

The hunters will meet at the H. D. Leach farm, and the noon lunch will be spread at the school house.

People who have studied the matter state that the picture show is a mighty good place to relax and forget the horrors of war for an hour or two. But, if we operated a show, we believe that we would refrain as much as possible from buying pictures that had any suggestion of war scenes and or bloodshed. Sunday School and church might also be suggested as a couple hours rest from war news providing you have a sensible pastor, who gives spiritual lessons from the Bible, and does not show his great knowledge and comprehension of modern statesmanship.

Have you done your share toward the second drive for twenty million dollars for the Red Cross? There are millions of refugees from the wrath of the Madman of Europe that must be fed, clothed and provided with medical attention. A ship has just sailed to France from New York carrying a million dollars worth of needed things. All kinds of civic and patriotic clubs; all church organizations, including Protestants, Jewish and Catholic are behind the movement. It is much easier to send food and clothing than to send men to fight.

The announcement from Washington that Marvin Jones had been asked by President Roosevelt to seek re-election on account of his knowledge of many things essential to the nation in these trying times, must have come as a thunder clap from a clear sky to a score of ambitious men of the Panhandle district who were seeking his place, since Jones was earlier in the year appointed to a Federal Judgeship, and had been

confirmed by the U. S. Senate. However, Mr. Jones had never taken the oath of office. We understand that most of the candidates have withdrawn, including the very popular newspaperman, Deskin Wells of Wellington. But Mr. Zimmerman of Tulsa decided to stay in the race. If we mistake not, Mr. Zimmerman was woefully defeated once before by Marvin Jones, and will likely get it in the neck again.

Just why any religious sect would get the idea from reading the Bible that they owe no allegiance to their country, we are unable to comprehend. But perhaps they don't get their doctrine from the Bible, but propoganda dictated by higher ups. Our New Testament, quoting ad lib from Paul, says that we must be subject to the powers that be, contributing to their support, and even to pray for our rulers. Christ when hypocritical Pharisees tried to trap him on coins with Caesar's image thereon, answered by saying, "Render unto Caesar that which is Caesar's, (material things) and unto God that which is His (spiritual things.)" Therefore, according to Paul, one cannot even be a Christian without being a true, loyal subject to the powers that be. Paul himself, on at least one occasion took advantage of his Roman citizenship to escape a mob. People who expect protection of the law should respect the law or get out of the country.

June is National Milk Month, and considerable advertising is being put forth in making this month a real milk drinking month as well as that of bi-products such as butter, cheese, ice cream, etc. Milk is a health drink, and few are the people who do not like milk in some form, or who are so constituted that it disagrees with them. We noted one of our exchanges, who is an ardent dry, making an editorial effort against beer recently, stating as a fact that milk and bi-product consumption had decreased with the advent of beer. We don't have any idea where that editor got his information, if any, but the National Dairy Foundation doesn't agree with his statistics by any means. In fact, dairy products show a year by year increase since 1933, the year legal beer came back. Not only that, but soft drink manufacturers report a yearly increase in their products, despite the fact that there has been a great increase in the consumption of beer. But milk is still the favorite drink of millions. It is both food and drink.

**Think**

By Capt. Chas F. Lindsay  
Texas Safety Council

The open season for hitch hikers is upon us. Boys returning from school, boys out of school going to visit relatives, recent graduates going elsewhere in search of a job.

Without knowing it, these will be in deadly peril every moment they are on the highway unless they observe certain fundamental rules of Safety.

Instead of walking with the traffic on the highway, they ought to walk against the traffic, or else stand still, well off the concrete, while they are attempting to hail a ride.

If they walk with the traffic a fast-moving automobile may easily slip up behind them and a tragedy is the result. If they are walking against the oncoming traffic, they see the oncoming cars and can get out of the way.

There also is a timely warning for autoists driving through much of Texas at night: There are many counties which do not have a stock law, and that means cattle or hogs are likely to be roaming the highways in this warm weather. Keep a close lookout for these, even in counties where you know there is a stock law. Few drivers are so expert as to avoid a wreck if they strike a cow or hog going at normal speed.

Dale Rentfro went home with his grandmother Goza, Sunday, and spend a few days in Oklahoma.

## Be Careful in Getting A Suntan

AUSTIN, June 4.—"Use caution in getting your suntan this season" is the advice of Dr. Geo. W. Cox, State Health Officer.

"Under a misconception as to the amount of sun they can take without ill effects, many persons thoughtlessly submit their unprotected faces, backs, and legs to over-exposure to sun and suffer painfully, sometimes seriously, as a result", Dr. Cox pointed out.

Restraint in acquiring a suntan is advised. Exposure of ten minutes the first day should be ample, and the amount of time spent in the sun can be increased on a day-to-day basis as the skin becomes accustomed to sunlight.

Advising sun-bathers to "learn their limits" Dr. Cox further pointed out that individual differences may determine the length of time that a person can stay in the sun without being burned.

Before becoming too ardent over prolonged sunbathing, one would do well to remember that many a vacation or week end has been ruined because of the blistering and illness-producing power of the sun's rays on tender skin was insufficiently appreciated.

Some persons are susceptible to sunburn but don't tan; other individuals tan over a longer or shorter period, but the same general rule applies to all—"don't overdo."

## Tongue Is Only Muscle You Move

(By Bernice Weldon D.C., Ph.C.)

Your tongue is the only muscle you can move without pain if you become a victim of inflammatory rheumatism. Only the victim of this disease can appreciate the unspeakable torture it inflicts.

The cause of this disease is failure of the kidneys and bowels to properly eliminate the wastes of the body. Because of the kidney weakness an acid condition of the blood develops. The victim suffers at the beginning from 102 to 104 degrees of fever. There is sore throat, vomiting, general uneasiness and the aching pain in the muscles and joints making any movement impossible. Under chiropractic spinal adjustments a normal flow of life impulses over spinal nerve lines is restored and the body returns to normal.

Mrs. Homer Parker, of O'Donnell is visiting her parents, Mr. and Mrs. John Burnett, this week.

## Mahon On National Defense Committee

WASHINGTON—Chairman Edward T. Taylor of the House Committee on Appropriations has called upon Congressman George Mahon to serve on the important subcommittee on War Department appropriations, and Mahon has accepted that post in addition to his other duties on the Appropriations Committee. The Chairman asked him to serve on this sub-committee because of the heavy program of

work and vital importance of the sub-committee in handling appropriations in the national defense program.

Mahon stated that while his principal interest in Congress had not been in military matters, he was honored by the request and was willing to serve because of critical world conditions. "I join all Americans," he said, "in my anxiety that we have an adequate national defense program and I shall seek to serve in every possible way in this new assignment. I believe that we must be fully prepared to meet emergencies

## Census Hits North Plains Area Hard

That part of the Plains section including the 18th Congressional district, seems to have hit a snag the last ten years, as most of the

which may confront our Nation from without and within."

Mahon also pointed out that it was his deep conviction that our program of national defense should be coupled with a foreign policy designed to keep our nation out of war. "We must," he stated, "proceed calmly and efficiently to prepare for the defense of our own Nation, making our foreign policy one of non-involvement in the European conflict.

Mahon is the only member of the Appropriation Committee from Texas and is the only member of this sub-committee from the Southwest.

towns and counties showed a decided drop from the 1930 census. Only the cities of Amarillo, Borger and Pampa, with Potter, Gray and Hutchinson counties showed an increased population.

So far, few of the South Plains counties that have reported show a loss. However, Crosby, one of the best agricultural counties on the South Plains; seems to have lost, not so much in the towns as Ralls and Crosbyton both showed a gain, but in rural population.

The greatest part of Terry county's gain of 25 per cent was made by Brownfield with a gain of 110 per cent. In fact, the town accounted for all but 27 people in the population gain.

## FERGUSONS WON'T DENY MILK TO INSANE PATIENTS

Bread and milk have always been regarded as the basic food that sustains human life. With a loaf of bread and a bottle of milk, no one needs to starve to death.

Our present governor apparently agrees that bread is the staff of life, because he never overlooks a chance to advertise flour. He seems to regard milk, however, as a minor and unnecessary commodity.

When the last legislature appropriated \$12,000 to build and equip barns and purchase dairy cattle for the San Antonio State Hospital in order that insane patients might have nourishing milk to drink, the governor promptly vetoed the item. When the legislature appropriated \$16,000 for the same purpose to be used at the Terrell State Hospital for the insane, his veto axe fell again.

This is the same governor who is broadcasting over the radio and through his private newspaper that the legislature prevented him from keeping his promise to the poor unfortunates of the State.

The Fergusons promise not to veto any appropriation which the legislature, in its wisdom, may see fit to pass for the alleviation of suffering among our insane.

Miss Nita Bess Briscoe, one of the most popular young ladies of this section, daughter of Mr. and Mrs. W. T. Briscoe, died last Thursday of pneumonia and complications at the local hospital. Miss Nita Bess had been a faithful employee of the St. Clair Variety Store since 1936, and was highly respected by the employees and customers alike.

Funeral services were conducted at the Presbyterian church last Friday afternoon, by the pastor of the Levelland Presbyterian church. The house would nothing like hold the crowd of friends and acquaintances who attended the funeral. The floral offerings were profuse. Brownfield funeral home was in charge of arrangements. The body was laid to rest in the Brownfield cemetery.

She is survived by her parents, and one sister, Mrs. Jack Tiernan, and three brothers, Harold, Melton and Burlon.

**BIG CROWD EXPECTED AT SHORT COURSE**

College Station, June 3.—Although the annual Farmers' Short Course on the campus of A. and M. College is still a month distant, indications are that previous records will be broken this summer. Dates for the 4-H Club Short Course are July 8 and 9, while the adult Short Course is scheduled for July 11 and 12.

Expected to be especially outstanding this year is the attendance of an unusually large number of men. This was assured when B. F. Vance, assistant administrative officer in charge of the state AAA office, announced that approximately 750 AAA secretaries and county agricultural conservation committees would be present for the Short Course as well as to attend group meetings of their own.

In addition, county land use planning committees are being asked to send two men and one woman from their number, according to Director H. H. Williamson of the A. and M. Extension Service.

Apparently there is no question about the presence of women, for in recent years heavy attendance of home demonstration club women has necessitated assignments of quotas for counties and districts. Attendance figures this year have been placed at 1,002 girls, 187 sponsors and 1,478 women.

Hon. Geo. Mahon, congressman of the 19th district of Texas, this week expressed in a letter to W. A. Griffith, Jr., attorney for the Gaines-Terry Electric Cooperative, his endorsement of the plan for a Cooperative in Gaines, Terry, and Yoakum Counties, declaring that the Rural Electrification Administration program is one of the finest undertakings of this administration.

Mr. Mahon assures members of the Cooperative and Mr. Griffith that he would give them his full cooperation in the project and declared that he had been as active as he possibly could, both in sponsoring legislation and appropriations for the REA program and in working with the various communities of the District in securing approval of project application.

He stated that the money for the next fiscal year would be available in loans to the REA for new projects during the next fiscal year, Mr. Mahon said.

Mr. and Mrs. Fred Lowe went to Jal, Sunday, and were accompanied home by Mr. and Mrs. Otis Pharr. Mr. Pharr is Mrs. Lowe's brother. He has been making his home in Jal for the past two years but is returning to Brownfield to live.

**WORKING TO GET ALL WIRES OFF STREETS**

One can never make a really pretty town with all kinds of wires and crooked, unpainted poles up and down the streets. Beauty and such things just don't go together. Therefore, the city council is having the alleys opened and all light and power wires will be moved to alleys. Of course the light poles on streets will have to remain, but they are located just as inconspicuously as possible.

When the telephone company re-arranged their system here a few years ago, they moved all of their poles and wires to the alleys.

Mrs. W. D. Watkins were in Roswell the past week end to attend the N.M.M.I. commencement exercises and the final ball.

**Save America Petition Popularity of the Locker Plant**

Every patriotic citizen in Terry County is urged to clip the following petition, paste or copy on a blank sheet of paper, obtain twenty five or more signatures thereto and mail immediately to Senators Morris Sheppard or Tom Connally in Washington for submission to other members of the Texas delegation in Congress:

We urge you to work and vote for immediate passage of the pending bills by Congressman Martin Dies and others to bar all alien Nazis, Fascists, and Communists from entrance into this country and to deport any now here along with aliens whom the police certify to be revolutionary agitators.

We further urge prompt enactment of other legislation providing instant apprehension and punishment for all native-born or naturalized citizens giving aid and comfort to foreign dictators by carrying on "fifth column" activities here.

We favor immediate passage of laws making it mandatory for all radicals to be catalogued, photographed, fingerprinted, segregated or imprisoned or kept under constant surveillance by federal and local authorities during the period of National defense preparation in time of peace as well as in event of war.

We implore you to legislate these traitorous trouble makers into the penitentiary or back to the country from which they came. This is no time to temporize with these radical groups.

We recommend adequate appropriations for the Dies Committee investigating un-American activities and propaganda and advocate its continuation until America has been made safe for Americans.

**JUDGE MARSHALL FORMBY ADDRESSES VOTERS**

Judge Marshall Formby of Dickens, candidate for State Senate of this, the 30th district, addressed a crowd of voters at the court house band stand, Monday afternoon. The Judge is a good speaker and was given close attention.

The Judge stated to a reporter that he would publish his platform in this paper soon.

Jack D. Webster, Lubbock, former member of our school faculty was down Wednesday. He is representing the Farmers and Bankers Life Insurance Co., of Wichita, Kansas, in eight South Plains counties.

AUSTIN, June 4.—Sunday beef roast will be picked up by Texans in "locker-storage plants" one of these days just as handily as they now get mail from a post office, a University of Texas engineer believes.

W. R. Woolrich, University engineering dean, has published in a recent issue of the University's engineering journal, a complete discussion of the profits and pitfalls of locker storage.

A typical 300-locker refrigeration plant costs about \$10,500 and rents between \$10 and \$15 a year per locker, which includes cost of operation.

Average locker users can store 400 or 500 pounds of food at an estimated saving on family food budget of one hundred dollars a year.

You may make economical purchases on large amounts of perishable foods and have in and out of season at a centrally located frozen food depot.

Storage plants may be operated in connection with food processing plants, ice plants, creameries, cold storage warehouses, grocery stores, skating rinks, or cheese factories. "There are probably two hundred locations in the Southern and Southwestern states where locker storage would be a good investment and render a fair income for an engineer with business ability," Dean Woolrich said, "and each plant should be a factor in improving the economy of the area it served."

**BORDEN COUNTY FARMER FINDS A FRIEND**

Should armadillos be destroyed? The Game Warden for the Lamasa district reports that a farmer near Gail, in Borden County, is thoroughly opposed to harming a single one of the clumsy creatures.

In fact, the farmer imported over a dozen armadillos from East Texas and released them on his South Plains farm, hoping that they would thrive and multiply and assist him in controlling insects that damaged his crops.

It is a matter of record that the diet of an armadillo is made up of 94 per cent insects, such as cut worms, beetles and ants. Ants especially are heavily devoured. Since ants are one of the greatest enemies to quail and turkeys, because they destroy the young birds at pipping time, the armadillo, in addition to being the farmer's friend, is also the friend of the sportsmen because of his service in destroying quail predators.

The armadillo is not native to the plains region of Texas. One of the armadillos the farmer imported to Borden County was killed by a sportsman near Gail and this gave rise to the erroneous impression that the animals belonged to the South Plains as well as to the more eastern portions of Texas.

Mr. and Mrs. G. W. Henson left Wednesday for Donna and other South Texas points to visit relatives.

OUR PLEDGE

We pledge allegiance to the Flag of the United States, and to the Republic for which it stands; One Nation, indivisible, with Liberty and Justice for all.

THE AMERICAN'S CREED

I believe in the United States of America as a Government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe it is my duty to my country to love it; to support its constitution; to obey its laws; to respect its flag; and to defend it against all enemies.—(Authorized Version.)

I shall exert every faculty I possess in aiding to prevent the Constitution from being nullified, destroyed, or impaired; and, even though I should see it fall, I will still, with a voice feeble, perhaps, but earnest as ever issued from human lips, and with fidelity and zeal which nothing shall extinguish, call on the PEOPLE to come to its rescue.—Daniell Webster.

At her wedding Tuesday evening, Mrs. Bruce Zorns wore in her left slipper a gold four-leaf clover given her by her father, Mr. Tom May with her wedding date, June 4th, 1940, inscribed on the top side and places for four generations on the reverse side.

She also carried out the "Some-odd, something new, something borrowed and something blue." Her something old was a lovely pearl necklace of her grandmother, Mrs. M. B. Sawyer; something borrowed was an Irish linen handkerchief loaned by her life long friend, Mrs. Ray Brownfield. Her name was embroidered in blue on the inner bodice of her wedding gown.

Cotton Goes Ahead in Style Conquests.

New York City—Illustrating the advance of cotton into all high style fields, Dean Hill, president of the Durene Association of America, announced today that a new line of mercerized cotton underwear, designed especially for women who ride, has been introduced at a large Philadelphia department store.

"Through the introduction of cotton into more and more high style lines," Mr. Hill said, "we can naturally expect to increase consumption, as it will be only a short time before these new high styles will filter through to the high volume market."

MRS. ANTHONY HOSTESS TO CARD CLUB

Mrs. Earl Anthony was hostess to the Buen Amigas Club, Wednesday of last week at the home of her sister, Mrs. Crede Gore. Mrs. C. J. Smith scored high for guests and Mrs. Wilson Collins for members. MAY-ZORNS NUPTIALS READ TUESDAY EVENING

Miss Virginia May, daughter of Mr. and Mrs. Tom May, became the bride of Bruce Zorns, son of Mr. and Mrs. H. C. Zorns, Tuesday at 8:00 p. m. at the First Baptist Church, with Dr. Jack M. Lewis of Lubbock officiating.

The bride, given in marriage by her father, wore a lovely off white satin, princess style gown with lace puff sleeves and yoke. She carried a white prayer book with a white orchid. She wore a floor length veil and her headdress was of white seed pearls. Her only jewelry was a pearl necklace of her grandmother's Mrs. M. B. Sawyer. Attending Mrs. Zorns as matron of honor was her sister, Mrs. Roy Ballard, and the bridesmaids were Misses Ona Faye Tittle, Mattie Jo Gracey, Queenelle Sawyer, Camille Carmichael, of Nocona, Mrs. Arthur Swan, sister of the bride groom, of Abilene, and Louise Adams of Philadelphia.

The bridal attendants were dressed in frocks of blue marquisette, whose flimsy skirts were topped by embroidered bodices. Small hats fashioned of blue flowers and delphinium bouquets completed their costumes.

T. L. Patterson attended Mrs. Zorns as best man and the ushers were Tommy Zorns, Buddy Gillham, Murphy May, Sawyer Graham, Arthur Swan, Abilene, Bill Allison of O'Donnell.

The back ground of the wedding scene was a graceful arrangement of palms and ferns and floor baskets held cala lillies, peonies and delphiniums, white cathedral candles burned in brass and ivory candelabra.

The traditional wedding music was furnished by Mrs. C. E. Hereford and Mrs. J. B. Cardwell, aunt of the bride, both of Lubbock. Following the service an informal reception was held at the May home when 150 guests attended.

As Mr. and Mrs. Zorns left on their wedding trip to Mexico City, the bride wore a smart navy traveling frock with white pique trim and a single orchid corsage. Her accessories were black and white.

After June 18 the couple will be at home here, where he is associated with the Brownfield State Bank.

CHURCH OF CHRIST LADIES

Fourteen members met at the church Monday afternoon, for a study of chapters 12 and 13 of Hebrews. Elder Black led the lesson. A Vacation Bible School is being held at 9:30 each morning. There were 50 in attendance Monday morning.

Family Reunion at Wichita Falls

Mr. and Mrs. J. L. Lyon, Mrs. Jewell Rentfro and Dale Rentfro attended the annual reunion of the offspring of the J. N. and M. A. Hollingsworth families which was held at the Wichita Falls at the Municipal Club House in Week's Park, Sunday, June 2. Seventy-five children, grand children, great grand children, and two great great grand children were present.

There are now 105 direct descendants living and 137 dead. Mr. and Mrs. J. N. Hollingsworth came as pioneers to Texas in 1854 and settled in White Mound Community of Grayson County where they reared a family of eleven children.

A family tree is being prepared to be give to each child, grand child and the great grand children. This will perpetrate the memory of the mothers and fathers of this family who bore the hardships of pioneer life to plant their ancestors on Texas soil.

Mrs. J. B. Goza, mother of Juanita and Jewell Rentfro is one of the now living children of J. N. Hollingsworth.

#### Ten-Man Committee On National Defense

LUBBOCK, June 4.—Governor W. Lee O'Daniel's newly appointed 10-man committee on national defense will offer an opportunity to those who obtain important information concerning fifth column activities in Texas to present their data direct to the governor, President Clifford B. Jones of Texas Technological college said today.

The committee, composed of the heads of state departments and educational institutions, urges cooperation of loyal, patriotic citizens in preventing subversive activities.

"Information will be held inviolate except in that it will be placed in the proper official hands," Dr. Jones, a member of the board, said. He added that "it is a matter of pride that Texas under Governor O'Daniel has taken the lead in the

present movement which is of far greater importance than is perhaps generally understood."

Jones was a member of the Texas State Council for Defense after the World war, was chairman of the Dickens county draft board in the early months of the war and was later a member of the district draft board for the northern judicial district of Texas at Ft. Worth.

The committee will support the act introduced by U. S. Senator Morris Sheppard of Texas to amend the National Defense Act by providing for a National Industrial Defense Corps. Purpose of this act would be "to provide for a defense of the home front in time of war and prior thereto, to prevent interference with the Government's program in preparing for defense, and to give adequate protection to all industries of every nature now or hereafter declared to be essential to national defense."

#### Having Wonderful Time at Folksy Fair

WEST TEXAS's typical American family are having fun at the folksy World's Fair in New York, and here they are returning the official greeting, "Hello Folks!" at the popular Ford Exposition. Left to right we have: Johnny, 19; Margaret-Jean, 16. Mrs. D. E. Leathers and (in driver's seat) Mr. Leathers. Looking over his shoulder is C. S. Carroll, their escort. They're trying out the new lightweight Ford tractor. This powerful, inexpensive machine will, in the opinion of Henry Ford, eliminate farm drudgery and bring young people back to the land.

The Leathers were chosen as the Typical American Family of West Texas. Thus they won their jaunt, with everything free. As you can see by this photo, they're having a mighty good time of it—as every body does at this year's big make-yourself-at-home Fair.

The high hats and high prices of last year are gone. Many of the best shows are free—among them "A Thousand Times Neigh," the hilarious horse-opera in the magnificent new Ford Playhouse. There's a motion picture, too, and the show takes place every hour. Dinner at the Fair costs as little as 30 cents. The Mayor of New York's committee gives out lists showing where to rent a previously-inspected room for \$1 a night.

As special guests of the Ford Exposition, the Leathers were entertained royally. They dined in a beautiful room in which such notables as Mary Pickford, William K. Vanderbilt, Kate Smith and Burton K. Wheeler enjoyed Ford hospitality. The typical Americans travel in a typical car, a deluxe Ford V-8. All their traveling and transportation expenses are paid for by the Ford Motor Company.

#### O'Daniel Proclaims June Dairy Month

AUSTIN, June 1.—Despite unsettled conditions throughout the nation caused by threat of war and efforts toward preparedness, America will pay tribute to one of its greatest industries, equally vital in time of war or in peace, by denoting June as National Dairy Month.

During the month breeders, distributors, dairy farmers, manufacturers, creameries, the press, radio and corps of well trained speakers from among the civic clubs of America will band together to spotlight dairy products. These will be augmented by more than three hundred thousand food, drug and variety stores, hotels and restaurants, all of whom will be united for a common purpose—that of making all America conscious of the nutritional value of fine flavored milk, butter, cheese and ice cream.

Texas' Governor has issued a proclamation to its people setting forth these advantages and urging that particular attention be given dairying during the month of June. Most certainly the people of Texas should fall in whole heartedly with the suggestion, for the State is just now in the midst of a revival of dairying which promises much to it in added revenues and better living conditions for its people. Not only Texas, but the entire nation should salute the industry during National Dairy Month.

#### Young Lovers

Maureen O'Hara and Patric Knowles portray the young lovers whose romance hits a tragic snag in "A Bill of Divorcement." Adolphe Menjou, Fay Bainter and Herbert Marshall are also starred in this RKO Radio adaption of Clemence Dane's powerful stage play. Starts at Rialto, Tues. thru Wed.

Dr. Castleberry writes in that he is still having trouble getting his Herald, and he says that he sure does want to get it. Well, we looked at his name on the mailing galley, and it was ok., as well as the post office address, so if he don't get it regularly from now on we'll whip P. M. James H. Dallas here, and authorize him to whip the postmaster at Ben Wheeler.

#### City-County Buys Legion Hall

The American Legion sold their building and lot on South Fifth Street this week to the City and County governments, each paying a cash sum of \$1,000. With the coming of the Demonstration agent the county had to provide more room, as the building is now partly occupied by the home making department of WPA.

The city-county was paying about \$400. per year rent on the building. Possession will be given right away. In the meantime the Legion will meet in the Odd Fellows hall by permission of that order, twice a month until further notice, instead of once a month till conditions are more settled.

It is the intention of the Legion to add a membership donation to the \$2,000 and build on some of the unused acreage of the city park, or near it, a building more adequate to take care of the needs of the order. A building committee is to be appointed at once.

#### Milk Industry to Stage Big Drive

Milk distributors are taking an active part in June Dairy Month drive to promote increased consumption of milk and dairy products.

On January 1st there were 25,334,000 milk cows and 5,443,000 heifers estimated on farms, according to the Milk Industry Foundation, 246,000 more cows and 308,000 more heifers than a year ago.

Farm milk production during April reached a new all-time peak for the month totaling 4,394,000,000 quarts—an increase of 1% over last April and 7% greater than the 1934-1938 average for the month. Per capita production was only slightly higher than in April 1939 but was 4% above the April 1934-1938 average.

Cooperating in the campaign with distributors are producers throughout the nation and store groups of all kinds. The June push is expected to enlist more distributing agencies than any previous all-industry effort in the dairy field.

#### How to Cut Gas Bills Told By Pontiac

Vacation time is mileage time and the Pontiac service department passes on the following gasoline saving tips:

Accelerate gently—don't tramp on the accelerator thus pumping more gas into the cylinders than can be used effectively. Don't hold your car in second until high speeds are reached; shift into high at about 25 miles per hour. Coast to gradual stops and keep the tires properly inflated. Keep the car well lubricated, spark plugs clean and the gaselector adjusted to as near the 'advance' end of the scale as possible without motor pinging.

Accidents are a curse to your purse.

#### Wonder If He'd Fight To Get Rid of It Now

BROWNFIELD, June 1.—An unwanted three sections of land that cost him a fist fight and a long, weary attempt to get rid of the land have at least proved of untold value to R. M. Kendrick, pioneer Terry County banker.

Back in 1921 a court decision gave him title to three sections in southern Yoakum County, just north of the Gaines County line. He didn't want the property then, but today—well, there are 57 producing wells in the oil sand discovered in southern Yoakum county, and jolly Marsh Kendrick isn't trying to get rid of it any more.

The story goes that Kendrick got the three sections on a bad debt, and was sort of "hoppin' mad" about the whole affair; that he is alleged to have exchanged a few blows with the former owners. After the land was on his hands he tried to sell it as late as a few years ago for \$5 an acre. There were no takers. He kept it kind.

and wondered why it couldn't at least be fit for grazing, if for nothing else.

Just a short three years ago came the news that oil had been discovered near the Kendrick property. Soon oil operations were taking place on those three unwanted sections. Is he sorry he he couldn't sell the land a few years ago? Marsh Kendrick's big, hearty smile dismisses the thought.

Kendrick organized the First National Bank in Brownfield in 1919. He still is active in the bank. He came to the South Plains in 1905, and first organized a bank at Gomez, small community near Brownfield. He also organized a bank at Plains, but liquidated it in 1924.—Star-Telegram.

When a housewife buys a 40 cent roast she gets 29 cents worth of meat and pays 11 cents in hidden taxes.

Twenty-five per cent of the yearly income of the average man is earmarked for taxes of some kind.
