Census Figures For Many Plains Towns

Preliminary census figures on town population of the 48 towns in the 19th congressional district show 27 of them made gains during the decade from April 1, 1930 to April 1, 1940; 16 show a loss, three showed population where none was recorded and two more towns are yet to be reported. These 48 towns made a net gain in population of 22,936 persons.

Lubbock Is Largest

Lubbock is the largest town, with a population of 31,588, a net increase of 11,068. Big Spring ranks second with 12,604, but this is 1,131 under that of ten years ago. Plainview ranks third with 8,257, a loss of 577 from previous figures; Lamesa ranks fourth with 6,019, an increase of 2,491; Colorado City places fifth with 5,187, an increase of 566 persons.

Sixth place goes to Brownfield with 4,016, an increase of 2,109 over the 1,907 found there ten years ago. This is the greatest percentage of increase among the larger towns. Snyder follows closely with 3,807, a 799 gain; Littlefield is just below with 3,791, an increase of 573; Slaton ranks ninth with 3,583, a loss of 293; Seagraves, oil field town, is tenth with 3,290, an increase of 2,785 in population. Haskell is 11th with 3,050, a 428 gain and Levelland is 12th with 2,945, a gain of 1,384.

DISTRICT IS DIVIDED

The District was divided into sections with Robert H. Bean of Lubbock, supervisor in the north half, and A. G. Bearden of Lamesa, supervisor in the south half. No figures have been announced for Denver City, Yoakum County oil field town that was a pasture just a little over a year and a half ago. Ropesville also has not had its figures announced.

For that section of Texas west of Fort Worth, Lubbock ranks third, Big Spring sixth; Plainview, ninth; Lamesa, eleventh; and Colorado City, 12th. Swetwater has not been announced. Editor's Note: Some one has surely forgotten El Paso. It is still in West Texas.

Other rankings are, Amarillo, first; Wichita Falls, second; Abilene, 4th; San Angelo, 5th; Pampa, 7th; Borger eighth; Childress, 10th. Midland and Odessa, as well as Denver City are yet to be reported.

The district is comprised of 25 counties, Andrews, Bailey, Borden, Cochran, Crosby, Dawson, Dickens, Floyd, Gaines, Garza, Hale Haskell, Hockley, Howard, Kent, King, Lamb, Lubbock, Lynn, Martin, Mitchell, Seary, Stonewall, Terry, and Yoakum. Ten years ago these counties reported 254,367 population.

In the northern district 15 towns showed population gains, 11 showed losses and one town was new; in the south district, 12 towns showed an increase, five towns showed losses and two were new towns.

Towns showing gains totaled 27,483 population; losses were 3,302; new towns without comparative figures, 1,507, making the total 4,547. Leaving a net increase of 22,936.

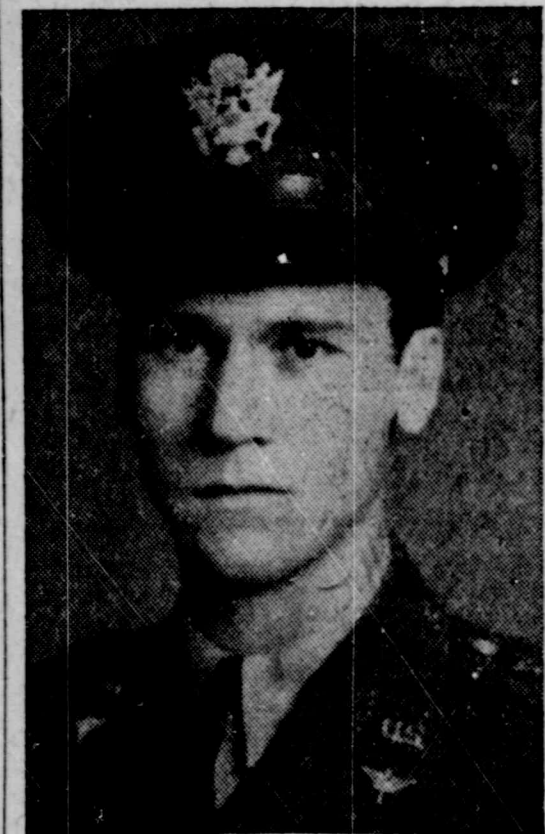

What proportion of the county populations went from the farms to the towns can only be speculated upon.

Lubbock county showed an increase from 39,104 to 51,490; Terry an increase from 8,872 to 11,025; Crosby decreased from 11,023 to 10,050 and Floyd from 12,409 to 10,655.

Population figures for other counties have not been announced but are expected in a short time. Likewise supervisors state they hope to show the number of farms

Red Cross Work To Get Under Way

A Terry County chapter of the American Red Cross for the purpose of making Red Cross supplies, was perfected at a called meeting, Monday afternoon in the office of Justice of Peace J. W. Oliver instead as advertised in the district court room, as justice court was in session.

Lee Fulton, Chairman of the Red Cross in Terry County, presided. Mrs. Ruth Moore was elected Chairman of this phase of the work and will have charge of all supplies, which will be kept at the Retail Merchant's office, located in the Justice of Peace room in the basement of the court house. Mrs. Moore will be found at this place each week day and you can see her for supplies.

The first quota seems small, but after the work gets started and working good there will be more things to be made and more workers to help make them.

Quota to Ship by September 1 1940
5 Men's Sweaters, Women's Sweaters (Cardigans preferred) and-or Black Shawls, 10 Children's Sweaters, 5 Women's Dresses, 5 Girl's Dresses, 2 Layettes.

Permissible Items

Hospital Bed Shirts, Convalescent Robes, Operating Gowns, Children's Stockings, Men's Socks, Knitted Suits or Dresses for Children under six.

Chairmen were selected for each community and they in turn are to select their helpers to help oversee the work, and anyone wanting to help will please get in touch with one of the committees.

Chairmen and the communities are, Brownfield, Knitting, Mrs. J. L. Cruce; Sewing, Mrs. Irene Black; Surgical Dressings, Mrs. E. C. Davis, Mrs. M. E. Jacobson and Mrs. T. L. Treadaway; Layette, Mrs. Charlie Moore, Mrs. R. B. Parish, Mrs. Ed Stewart.

Forrester, Miss Gladys Seales; Wellman, Mrs. L. P. Adair; Union, Mrs. Walter Luker; Gomez, Mrs. Kenneth Furr; Johnson, Mrs. Grady Patton; Meadow, Mrs. Floyd Copeland; Tokio, Mrs. Joe Shelton; Pleasant Valley, Mrs. E. C. Willis; Harmony, Mrs. C. A. White; Challis, Mrs. Money Price; Pool, Mrs. J. J. Gunter; Lahey, Mrs. Jim Webb; Scudday, Mrs. Vick Herring; Needmore, Mrs. Willie McDonald; Plains, Mrs. Marion McGinty.

The next meeting will be Tuesday, July 2nd at the Presbyterian church at 3:30. All meetings will be the first Tuesday in each month.

One and One-Half Inch Rainfall Here

The shower Tuesday afternoon, that was quite local to the Brownfield vicinity measured .35 inch. The rain Wednesday up to 3:00 P. M., amounted to 1.27, making at total up to that time of 1.62 inches. Was still heavy, cloudy and raining at that time.

It is believed that the Wednesday rain was much more general than the Tuesday rain. In fact, apparently it was covering the area pretty generally. Looks like a crop is almost assured here, with an occasional shower from now on, as there is a deep season over most of the territory.

To The Voters of Precinct 2, Terry County:

Dear Friends:
In making this formal announcement for your county commissioner I do so knowing the responsibilities of this office, believing that I am qualified to execute the duties thereof.

If you confer this honor upon me I will strive to give you the service you have the right to expect from your county commissioner.

I sincerely thank you for the friendship and interest shown me thus far in this race.
Yours respectfully

TO ADDRESS PERMIAN BASIN CONVENTION AT ODESSA

ELLIOT ROOSEVELT

Elliott Roosevelt's address to the Permian Basin Convention in Odessa at 2:30 P. M., Friday, June 21, will be before a gigantic basin wide patriotic rally rather than for the general convention assembly as first announced, President J. L. Greene said today.

Sensing the new emergency and believing that every civic organization should streamline its facilities to fit existing conditions, association officers have made this change so that all people of the Permian Basin as well as the world at large may readily know that this area organization is available for any service which may be needed. A call is made to all citizens to join in this rally as an indication of their appreciation of the national emergency and as a

means of showing the vigilance of West Texas people.

In a telephone conversation Tuesday Roosevelt quickly agreed to alter his address to fit the new arrangement.

Scene of the rally will be Ector County's new Civic Auditorium which is being air conditioned for the occasion.

The Odessa High School band, G. Ward Moody, Director, will play a 15 minute patriotic concert preceding Mr. Roosevelt's address. The Tucker twins, famed singers of Winters, Texas will sing "God Bless America". Copies of this song will be furnished all in attendance to permit their joining in the mass singing which will close the meeting.

Contract to be Let For City Plant Building

Advertisement for bids are being run this week for the erection of a new brick and tile building at the city utilities plant, one block off Main on north Seventh. This building is to house the new 1200 horsepower engine to be installed as soon as possible in order to for the ever increasing load of the city power and light plant, and which will be even more loaded when the gins start this fall.

The building is to be 56x68 feet, and sufficiently large, stated Mayor Clyde C. Coleman to not only house the new engine, but three others of the same size or larger. The smaller building now housing the fire trucks will be torn out, and the new building joined to the walls of the old plant. Temporarily, the fire trucks will have to be stored elsewhere, we presume.

The \$90,000.00 issue of revenue bearing bonds were sold at a private sale at par and accrued interest. They will bear 3 per cent interest, and will be paid out in six years from the revenue of the plant, \$15,000 and interest annually, without raising the tax of the property owners.

Work on both the building and foundation for the new engine will be rushed just as fast as workmen can put the material together. The building will cost around \$9,000.00.

RENT HOME FOR NURSES OF HOSPITAL

The Treadaway-Daniell Hospital has rented the residence belonging to Cicero Smith Lumber Company on West Broadway for a home for their nurses.

Dr. Daniel stated the nurses had been crowded out of the west wing to make room for patients, and that the basement was too hot in summer on account of the heating plant being down there.

Connally-Smith Bill Aimed Against Aliens

WASHINGTON, D. C.—The Connally-Smith anti-alien bill rapidly sped toward passage by the Senate and House, is meeting with acclaim throughout the United States as a measure expected to aid materially in the control of "fifth column" activities in America.

Offered by Senator Tom Connally of Texas in behalf of the Senate Judiciary Committee, the measure requires deportation of aliens seeking to enter the United States.

"In addition," states Senator Connally, "the bill forbids tampering with military or naval forces of the country, or advocating overthrowing the government by force or violence."

"Aliens subject to deportation include those aiding any other alien to enter the United States in violation of law, any carrying a gun designed to shoot more than one shot without reloading, and those violating the Alien Registration Act," Senator Connally explained.

"No visas are allowed any alien entering the United States who has not been registered and all those without visa, re-entry permit or registration card shall be excluded," Senator Connally continued, adding:

"Every alien in the United States over 14 years of age must be fingerprinted and registered. Application for registration are to be made at designated postoffices, and aliens are required to give notification of change of residence within five days."

To Farmers Served By Feels Honored Serving As Red Cross Chairman

Dear Friends:
We have just received a letter from Mr. C. O. Falkenwald, Director of the Examining Division of the Rural Electrical Administration at Washington, which reads as follows:

"Dear Sir:
With your help and the support of the Congress, tremendous strides have been made in rural electrification during the past few years. The program has been so successfully carried out through cooperative efforts that Congress has just recently provided 100,000,000 for rural electrification for the fiscal year 1940-41.

Now is the time to act to round out our existing systems and to complete our area rural electrification program.

Very truly yours,

C. O. Falkenwald,

Director Examining Division

Section A of this project consists of 330 miles of electric lines which are now in operation. Section B, which is now under construction, consists of 350 miles of line. Beginning this week, as portions of the line are completed they will be energized, and the entire section will be energized by the 1st of July. We are beginning an intensive campaign for new members on our present lines and we are also beginning work on new extensions for Section C of our project. We are required to have 3 members per mile or a revenue of \$3.75 per mile. If you are interested in working up an extension in your community, get in touch with one of the following Directors: Frank Harris, Route No. 1, Ackerly, Texas, James F. Daniels, Meadow, Texas, Bert Eads, Levelland, Texas, A. R. Hensley, Route No. 2, Tahoka, Texas, the writer, or someone at the Cooperative office at Tahoka.

It is the desire of this Cooperative, as well as the Rural Electrification Administration, Washington, to serve every farmer that it is possible for us to serve, and when we can be of any service to you please feel free to call on us.

Your very truly
Jno. Heck, President
Lyntegar Electric Cooperative, Inc.

Instructions for making the different garments will be given the chairman of that phase of the work, namely, knitting to Mrs. J. L. Cruce; Sewing to Mrs. Irene Black, and Layettes to Mrs. R. B. Parish, Mrs. Ed Stewart and Mrs. C. D. Moore.

At present we have not been called upon to make surgical dressings, but when and if we are; that work will be in charge of Mrs. Drs. Davis, Treadaway and Jacobson.

Only material to make our quota of garments has been ordered, but as the need arises, material for those items on the permissible list will be ordered.

I shall keep all correspondence pertaining to our work to be read to you at our regular monthly meetings. Don't forget the date, and I hope we will have all those who were in attendance at the meeting this week, and many others at our next meeting.

Mrs. Ruth Moore

Street Paving To Start Again Monday

Mayor Clyde C. Coleman is our authority for the fact that the street paving plan is to get under way again Monday. He did not state just where work would be started this time, but we are sure that it will be where the citizens have taken sufficient interest to sign up to pay their proportionate part of the paving.

Possibly there will never be another time in the history of our city when real good, permanent type of paving with curbs and gutters, as well as concrete dip crossings into one's property can be had as cheaply as right now at \$1.10 per front foot. If we fail and refuse to co-operate now, the time will come when bonds will be voted and a much higher rate for the paving, when WPA funds and labor are no more.

So, if you are holding up paving of your street, you are possibly antagonizing your next door neighbors. Not only that, but you are going counter to making your part of the city more beautiful, more sanitary, not to say enhancement of the value of your property.

You don't have to pay for it all in one year, as we understand it, but make a down payment something like a fifth, and the rest is carried with annual payments for five years. But it will be some cheaper if you can pay all in a lump sum.

Guano, one of the richest of fertilizers, is being tested by the Texas Game Department's chief aquatic biologist, as a fertilizer for hatchery ponds.

Mr. and Mrs. Jess Smith spent last week end visiting his sister Mrs. Frank Heath and Mr. Heath at Headley.

Feels Honored Serving As Red Cross Chairman

I feel honored that the ladies who met for the organization for special services in Red Cross work saw fit to elect me as their chairman. I hope I may be able to fill this worthy position as you would wish me to do. The need for this special work has been impressed upon me often during the last few weeks through letters sent to me from general headquarters. Since our membership drive last fall, we have been urged to make garments to be sent to war victims, and though we are late getting started, I feel that we will not be behind with our quota when we are ready to make our final report this fall.

Quarterly reports are due the last of September, December, March and June. We will begin our work by making our first report this month. In addition to the number of completed garments, we are asked to report the number of volunteers participating in this phase of the work. Volunteers will be all we will have to report this quarter, as we will not have time to get any garments made, so I wish each chairman in each community to keep a record of the persons in their community who volunteer their services.

The material to work with has been ordered, and as soon as it arrives will be available for your use. It will be issued to the chairman of each community according to their needs; therefore it will be necessary for them to know how many people they will have to work, and the kind of work they can do, before they will know what to ask for.

Instructions for making the different garments will be given the chairman of that phase of the work, namely, knitting to Mrs. J. L. Cruce; Sewing to Mrs. Irene Black, and Layettes to Mrs. R. B. Parish, Mrs. Ed Stewart and Mrs. C. D. Moore.

At present we have not been called upon to make surgical dressings, but when and if we are; that work will be in charge of Mrs. Drs. Davis, Treadaway and Jacobson.

Only material to make our quota of garments has been ordered, but as the need arises, material for those items on the permissible list will be ordered.

I shall keep all correspondence pertaining to our work to be read to you at our regular monthly meetings. Don't forget the date, and I hope we will have all those who were in attendance at the meeting this week, and many others at our next meeting.

Wonder who the reporter is for the Avalanche-Journal in Brownfield? "No rain" was the report for Tuesday in Wednesday's paper. Their reporter must have been hiding in a cellar from Hitler.

Chas. A. Lindbergh has forever separated himself from the admiration of true blue Americans. Most writers and speakers now even refrain from referring to him as colonel. If he is a colonel, he is Hitler's, most people think.

Preparedness and fifth columnists was under discussion at the Lions Club, Wednesday. Some one asked how far they should go in dealing with "fifth columnists", and another Lion remarked that we might go to the grave with them.

"You could have knocked me down with a feather," or words to that effect, was the rejoinder of Mayor Clyde C. Coleman, when asked his reaction of the request of the Jaycees in naming the new park, Coleman Park. "Never dreamed of such a thing," says he "but I can tell you I feel highly honored and appreciate it more than I can express."

The Abilene Times tells us that one of the candidates for the legislature in that district is telling voters he is for a new law or the abolishing of the present one on the sale of liquor in "dry" towns and counties. The candidate is quoted as saying that one drug store in the city of Abilene filled 136,000 liquor prescriptions during the first three months of 1940, and that there are 14 other drug

stores that dispense liquor. And we had always thought that Abilene was the driest of the dry cities, with its three large denominational schools. Maybe it was Anson, Baird or Merkel people doing all the buying. Sweetwater is winked out as it has been!

All 27 of city and county officials at Brownfield, as well as all city and county employees, met at the City Hall in Brownfield last Wednesday afternoon, and took a pledge of allegiance to the flag and the Constitution. — County-Wide News, Littlefield.

Editor John Price got the above a bit mixed, as the meeting he reported was for city employees only. The county employees held their meeting the day before. Of course a small city like Littlefield does not have 27 employees, and so naturally John thought it took all hands and the cook over here to make up the 27.

In the meeting of the business men, the chambers of commerce, the service clubs and the American Legion at the Venetian Auditorium last night to formulate plans to meet any emergency within or without from any foreignism, the people were not jittery, but preparing for any eventuality that might arise. In other words, the people of this section are taking Hitler's word for nothing, because he and we know every assurance he has ever given was a brazen lie when uttered. The memory of Denmark and Norway, then Belgium and Holland are all still fresh in our memory. No dictator's word is worth the space it takes to print it on.

The Slaton Slatonite: Traitor or Fool—The traitor or fool who affronted the people of Slaton this week with a Swastika and "Heil Hitler" on the walls of the United States Post Office has either misjudged the temper of our patriotism or is mired in the depths of superlative idiocy. If the defacement was done by a person who sought to express his admiration for the murdering madman of Europe, then he should not be surprised if the majority of the people of the United States demand and get legislation that will require the oath of allegiance to all who enjoy the liberties of this land or require registration and fingerprinting and strict police supervision of those who will not express their loyalty to the land that protects their liberties. If the perpetrator is a simple fool who thought to have some sport, he should know when our country is unavoidably facing conditions that may imperil our safety, such demonstration of idiocy may lead to disaster. Whoever has done the thing has not stopped at a violation of liberty and an infringement on the rights of this people, he has violated written statutes and be assured punishment when apprehended and convicted. Traitor or fool, he has done himself no good.

Wood Says Ignorance, Not Education, Costs

AUSTIN, June 19.—It's high time Texans started considering the high cost of ignorance, and not the high cost of education, State Superintendent L. A. Woods believes.

Woods quoted the federal crime survey showing that the cost of crime in this state is more than \$500,000,000 annually.

"Less than one per cent of the inmates of the state penitentiary

ever went to college," Woods said. "Most of these criminals never went to college because they got no incentive for education in their formative years."

Woods said records in the State Department of Education show that out of 1,552,000 Texas children of school age, 100,000—or one out of every 15—are not in school. "A person is what he is because

of his teaching," Woods declared. "Many of these 100,000 children who are not in school are roaming the streets, and naturally form themselves into small bands of petty pilferers. From here on the development into real criminals is just a matter of time."

"If we can get these boys and girls back in school, the chances of their becoming criminals and wards of the state will be halved." Woods urged that civic clubs and churches make this project part of their work.

THAT'S TALKING, HENRY!

Henry Ford ran a shoestring business into the greatest manufacturing plant on the face of the globe.

His plant once turned out ten thousand automobiles in a single day.

He lost as much as \$68,000,000 in one depression year and so far as we know he never missed it. When a man like that says he

can turn out a thousand military airplanes a day at his plant, he can't be laughed off—even though that means 313,000 airplanes in a year of six-day weeks.

Another genius of mass production, William S. Knudson of General Motors was asked if he believed Mr. Ford could do it. He replied: "Naturally, if he says so."

Now the fact is that our army and navy wouldn't know what to do with 313,000 planes a year, or anything like that many, as of today.

It takes time to train pilots. Each plane in service requires a minimum of ten men on the ground to service and maintain it. It takes time to lay out new airports, and build hangars, and so on.

We couldn't use Mr. Ford's full claimed capacity today, or even tomorrow. But—we are glad to hear that there is at least one man in this country, and a man who speaks with the authority of experience and accomplishment, who is unwilling to concede that this democracy cannot equal and surpass the mass-production of Hit-

ler's goose-step economy.

We hope that Mr. Knudson and Mr. Stettinius, and their colleagues on the President's new advisory committee, run into production bottlenecks that seem insuperable by ordinary standards, they will invite Henry Ford to do his stuff.

THEY SHALL RETURN

And the Lord shall smite Egypt; he shall smite and heal it; and they shall return even to the Lord, and he shall be entreated of them, and shall heal them.—Isaiah 19:22.

Col. H. D. Leach was in from the Farm Tuesday, palavering, arguing and disputing. Got so he carries a big stick around, not that he needs it to walk, but as a threat to those who disagree with him.

Mr. and Mrs. B. M. Wade were in Monday. Noted that B. M. purchased two cotton hoes, but doubt seriously that he aims to use them, himself.

Think

Five school children were walking down the edge of a highway in Connecticut on their way home. They were obeying all the rules of safety, in that they were walking on the shoulder of the road, away from the line of traffic.

They approached a curve in the road and behind them came a drunk speed demon whose car was unable to make the curve. It skidded into the children and all were instantly killed.

The drunken driver got his car back on the road. He didn't stop to investigate the damage he had done. A few miles later he found his car difficult to steer. He stopped to ascertain the reason. The body of one tot was clinging to the steering mechanism.

Of course the driver suffered remorse of conscience when he came from under the influence of the liquor, but no agony of mind that he might endure could bring back the life of a single one of these little children.

How dreadful through all the remainder of his life must be the life of that man. He must live with his conscience and the dark hours of night we can easily imagine that the fatal scene is re-enacted in his mind's eye.

Much better would it have been if this man had observed the rules of common sense and refused to get behind a steering wheel under the influence of liquor.

It seems that such accidents as this would convince any person that alcohol and gasoline will not mix, but too often we read in our own State of a drunken driver who has taken an innocent life or caused serious property loss.

What about it? "Strictly enforce the law against drunken driving, and make those guilty so unpopular in their own communities that others will hesitate to follow their example," stated (Pierce Brooks).

Wednesday sure was a bad day for Juneteenth. Part of the colored population went to Lubbock. Hot sun is rather to be chosen for the colored holiday than rain.

Mr. and Mrs. Joe Shelton of Tokio have gone to Bisbee, Ariz., and also to the Grand Canyon.

ADVERTISEMENT FOR BIDS (Legal) NOTICE TO BIDDERS

Sealed proposals, addressed to Clyde C. Coleman, Mayor, of Brownfield, Texas, for the construction of Power Plant Building and Fire Station, for the City of Brownfield, Texas; hereinafter called "Owner", in accordance with plans, specifications, and contract documents, prepared by and which may be obtained from French & Pruitt Company, Engineers, will be received at the office of the City Secretary of the City of Brownfield, Texas, until 2:00 P. M., July 5th, 1940, and then publicly opened and read aloud. Any bid received after closing time will be returned unopened. A Cashier's Check, certified check or acceptable bidder's bond payable to the Owner, in an amount not less than five per cent (5%) of the largest possible total for the bid submitted must accompany each bid.

Attention is called to the fact that there must be paid on this project not less than the general prevailing rate of wages.

In case of ambiguity or lack of clearness in stating prices in the proposal, the Owner reserves the right to adopt the prices written in words, or reject the proposal.

The Owner reserves the right to reject any and all bids and to waive any or all formalities.

Plans and specifications may be examined without charge in the office of the Engineer, and may be procured from The City Secretary, Brownfield, Texas, upon a deposit of \$5.00 as a guarantee of the safe return of the plans and specifications, the full amount of which will be refunded to each actual bidder, upon the return of the plans and specifications within ten (10) days after receipt of bids. Additional sets of plans and specifications may be procured from the above upon a deposit of \$5.00 each, as a guarantee of their safe return within thirty (30) days from date of opening of bids, in which event \$5.00 (amount of deposit less actual cost of reduction) of the deposit will be returned.

No bid may be withdrawn after the scheduled closing time for receipt of bids, for at least thirty (30) days.

'N' NOT 'FOR'

Am I to thank God for everything? Am I to thank Him for bereavement, for pain, for poverty, for toil? . . . Be still my soul; thou hast misread the message. It is not to give thanks for everything, but to give thanks in everything.—Dr. G. Matheson.

J. O. Gillham and daughters, Eleanor and Delores and Laverne Collier went to Pampa last week end to bring Miss Helen Gillham home after she had visited relatives and friends there for the past two weeks. Mrs. Gillham accompanied them as far as Happy and visited Mr. Gillham's mother.

WELLMAN

Mrs. B. F. Little received a telegram Sunday from her son, Jack Little three weeks ago that he was not expected to live. Claud Little and Mr. Lee Smith, Brownfield, left Monday for El Centro, California, where he is in the hospital.

The County Health Nurse began a study course Wednesday in Wellman. Several ladies were present. The lessons given are very educational and on how to care for the sick in the home. We meet each Wednesday in the Home Ec building.

Mr. John Matthew's mother of San Angelo is visiting in their home for a few days.

Mrs. Schroeder is putting in a helpy self laundry this week.

Mr. and Mrs. W. L. Burnett have moved into the house owned by Mr. Gorman.

A card was received Monday from Hazel Green's mother of Greenwood, Arkansas announcing the marriage of her daughter, Miss Hazel Green and Mr. Woodrow Davis. They will make their home in Greenwood. Mr. Davis is employed by the Boyd Mining Co. there. Here's wishing them lots of happy and prosperous years.

THE TEXAS "E" OF OUR ALPHABET

If you're one of those who takes pride in his spelling ability, here's an item from a recent issue of the Washington Newspaper which may interest you:

The most useful of the 26 soldiers of the alphabet is the "E"—useful because it does more work than any other.

The letter "E" is an unfortunate letter, however, since it is always out of cash, forever in debt never out of danger and in hell all the time.

But those who traduce the letter "E" should not forget that it is never in war, always in peace, is the beginning of existence, and the end of trouble. Without it there would be no meat, no life, no heaven; no wine or women, both so necessary to make song enjoyable.

It is the center of honesty, makes love perfect, is the beginning of eternity, the end of time and space, the beginning of every end and the end of every place. Without it there could be no editors, writers, or even wives or children.—Oregon Publisher.

KNOX COUNTIANS TO MEET

Old settlers and pioneers of Knox county will meet in the MacKenzie State Park in Lubbock on Sunday, August 11th to celebrate their first annual reunion. A basket picnic dinner will be spread at noon. Special music and speaking will be heard in the afternoon in honor of the old settlers who came west in covered wagons to make this beautiful country their home.—Reporter.

THE TEXAS OIL INDUSTRY

More than a million people in Texas, or about one out of every six, is dependent either directly or indirectly, upon the oil industry if this state. With steady employment, good working conditions, reasonable working hours and the highest wages paid in any industry, the oil developing and marketing phase has attracted the best trained and most competent people of all classes.

The oil industry of Texas pays more than 97 millions of dollars in taxes every year, and still is growing.

Sections where oil development is being made, the most lucrative field for the laborer and businessman is found.—Clarendon Leader.

GETTING READY FOR COWBOY REUNION AT STAMFORD

Veteran cowhands of Texas will gather in Stamford July 2, 3 and 4 for the eleventh annual Texas Cowboy Reunion. Membership of the Association, now numbering 1,800, includes the following from Brownfield, Texas:

J. W. Fitzgerald, L. P. Price, M. B. Sawyer and Geo. E. Tierman; P. M. Williams of Tokio, C. T. Bedford and Marion McGinty of Plains.

Membership is limited to men who were actively employed as cowboys on ranches at least 35 years ago. Members who have paid their annual dues of \$1 will be issued badges which entitle them to dinner at the oldtime cowboys' chuck wagon at noon each day and free admission to the rodeo and grandstand.

The Association will elect new officers at the annual business meeting, which will be held in the Will Rogers Bunkhouse, the headquarters building of the oldtime cowboys. Since both of the vice-presidents of the organization have expressed unwillingness to serve as president, J. Ellison Carroll of Big Lake is being boomed for president of the association. Carroll is now a member of the board of directors and men prominent in the Reunion association believe his election is practically assured.

The Fergusons And National Defense

Very few people are discussing politics. Everyone is talking war. This is as it should be for the first qualification of good citizenship is patriotic love for the Nation and the red-blooded desire to defend it. Governors may come and governors may go but the first instinct of every true American will always be to preserve National Safety at any cost.

However, we must soon face the duty of electing a governor and a legislature to serve during the two stormy years just ahead. When a hurricane strikes, only an experienced pilot can guide a vessel safely to shore. In the dark days before us, only seasoned leaders should be placed at the helm. This is a vital and necessary part of National defense.

Serving as a war governor is not a new experience for the Fergusons; it will only be a repetition of similar service rendered during the first world war, if we are forced into another contest.

With the help of President Roosevelt they ministered to the needs and suffering of the unemployed in time of peace; by his side they will meet the problems and the dangers that arise in time of war.

The Fergusons have been weighed in the balance and not found wanting. They have stood the test; they have kept the faith.

ALL BUSINESS MEN SHOULD TEACH RESPECT FOR OUR FLAG

Asserting that one of the most effective ways to combat subversive fifth column activities in this country is for business leaders to encourage respect and reverence for the American flag within their own organizations, F. N. Gelgrano, Jr., president of the Pacific National Fire Insurance Company, arranged a Flag Day ceremony in all of his Company's 18 offices, Coast-to-Coast.

As past national commander of the American Legion, and long active in that organization's patriotic projects, the insurance executive reminded his hundreds of co-workers that, "Our flag is the symbol of our form of government. It stands for all that we are and hope to be. In these troublesome times, I believe it should be displayed as a constant reminder that we respect and revere the ideals for which it stands—loyalty, justice, freedom and democracy."

His address, presented by means of electrical transcription simultaneously in all offices, and accompanied by patriotic music, reminded his co-workers of the danger of "lending attentive ears to propogandists who would destroy this very government of ours."

"It is time for American citizens to speak," he declared, "and demand that these alien intruders return to the shores from which they came. We must be proud of our country—of our American institutions—and of our form of government. We must tell our side of the story."

The ceremony was concluded with the presentation, to each office, of a beautiful silk American flag. "Its material value is small," Belgrano concluded, "but its real value is beyond price. It stands for a nation of free men. I hope that whenever your eyes fall upon this national emblem, you will feel that surge of pride, that wave of gratitude, which will daily inspire

"The amazingly fast German thrust in western Europe has put the Republican party on the spot. Despite wide differences of attitudes among Republican presidential candidates as to our foreign policy—with Wilkie's stand as far from Dewey's as Roosevelt's is from isolationist Vandenberg's—the G. O. P. has managed to get itself tagged as the party which failed to foresee that German aggression involved a real threat to our national security, while Roosevelt saw it clearly and insistently warned the country about it. In short, most Republican politicians misjudged the world situation. The immediate result has been a sharp reaction in their political fortunes and a corresponding gain for Roosevelt and the Democratic Party." —The Magazine of Wall Street.

Several Local People Hear Foran Speak

Quite a representative crowd from Brownfield, numbering some 14 or 15 went to Lubbock Monday to hear the address of Stanley W. Foran on Americanism. The address was made at the First Baptist Church. Foran is reported to be an Irish-American with a gift of gab, and local people who heard him say his oratory rolled from his mouth like a stream of water.

Judging by a brief summary of his address in the Lubbock Morning Avalanche of Tuesday, he certainly put out a lot of wholesome advice. Foran was an aviator in the first World War, but at present is an advertising agency head. He advocates meeting the "ism" teaching with plenty of good old Americanism teaching.

ABOUT BEER AND ALE

AN OPEN FORUM OF QUESTIONS AND ANSWERS

QUESTION: WHY IS BEER CALLED THE BEVERAGE OF MODERATION?
ANSWER: Because beer's alcoholic content is low. Temperate, moderate nations of the world...and their people...prefer beer.

QUESTION: DO BEER AND ALE REALLY AID THE FARMERS?
ANSWER: Since re-legalization the brewing industry has bought 25,000,000 pounds of farm products. That has helped farmers... particularly during the depression years.

QUESTION: JUST WHAT ARE BEER AND ALE MADE OF?
ANSWER: Beer is made by a natural fermentation process... from malted barley and other grains, hops, yeast, water. Nature makes beer. The brewer makes it good beer (and ale).

QUESTION: HOW MUCH DO BEER TAXES CONTRIBUTE TO THE COST OF GOVERNMENT?
ANSWER: Beer contributes \$1,000,000 a day... \$400,000,000 a year... to help pay the costs of government... local, state and federal. Everybody benefits from this contribution.

QUESTION: DO BEER AND ALE MAKE JOBS FOR WORKERS?
ANSWER: Beer and ale have already made a million jobs. This employment is wide-spread... all over the country. More than 100 other industries benefit from beer and ale.

QUESTION: HOW IS THE BREWING INDUSTRY COOPERATING WITH LAW ENFORCEMENT OFFICERS?
ANSWER: The Brewing Industry is actively on the side of law and order. A "self-regulation" plan to eliminate retail abuses has already been put into effect in a number of states in cooperation with law enforcement authorities. This plan is being extended. We would like to tell you about it. Write for an interesting free booklet. Address: United Brewers Industrial Foundation, 19 East 40th Street, New York, N.Y.

Mississippians Invited Back to New Albany

NEW ALBANY, Miss., June 17.—Near the turn of the century, literally thousands of native Mississippians went out from their home state to settle in the Great Southwest and particularly Texas.

Many of these same settlers of the Lone Star State came from Union County, Mississippi, of which New Albany, the county seat, is this year celebrating its 100th Birthday with a four-day Centennial and Homecoming Celebration, beginning on Thursday, July 18, and continuing through Sunday, July 21.

To those former citizens who left for and established new homes away from here and who have from year to year neglected or postponed to pay "the old home town" the visit planned, is directed a personal invitation to return this Summer during the Centennial and Homecoming Celebration, together with members of their families, to renew acquaintances with kin and friend and to enjoy the unusually complete program that has been arranged for the event, midst true "Southern hospitality."

ROOSEVELT ADMINISTRATION GIVES PRACTICAL BENEFITS (From Anderson (Ind.) Bulletin)

A small bank at Mackey, in Gibson County in southwestern Indiana, was forced to close its doors less than two weeks ago. The 500 depositors who had entrusted \$50,000 to its care are not worrying, however, about their funds as they would have done in the days prior to the Roosevelt administration's banking reforms. They know that their money is protected by the Federal Deposit Insurance Corporation which guarantees all deposits up to \$5,000. In fact, in this particular instance, notices from the F. D. I. C. have already been received by depositors advising them that they would be paid in full within the next few weeks.

The case at Mackey is the thirteenth in which a bank with funds guaranteed by the federal agency has failed during the past six years. In every instance, depositors have been, or will be, paid in full with small delay. In such cases, it will be rather difficult for partisan critics of the conduct of governmental affairs under Mr. Roosevelt to convince the depositors that there is nothing good in the New Deal.

Health Means Warm Feet and Hands
(By Bernice Weldon, D.C., Ph.C.)

When heavy clothing is essential to comfort, sufferers from chronic cold feet and hands begin to know the full misery of their ailment.

Equal circulation of the blood in all parts of the body is seldom attained, except in sleep, for the brain of the average person, requires more blood than any other portion of the body. But when the extremities are unnaturally cold, the cause lies in interference with the free distribution of nerve impulses. Persons who suffer from any form of paralysis which is complete shutting off of spinal nerve power, know that the paralyzed parts are always cold. When by chiropractic spinal adjusting, the nervous balance is restored, the temperature of extremities becomes equalized with other parts of the body, and the chronic state of colds and chills becomes a thing of the past. Comfortable warmth in hands and feet becomes a natural condition.

Cold Hands and Headaches Disappear

"When a girl I suffered from malarial fever and for six years seemed unable to regain or rebuild my strength. I had nervous headaches and my hands and feet were nearly always cold, but after I started chiropractic adjusting, the first thing I noticed was the warmth in my hands and feet. I have had no nervous headaches since." Mrs. Frank Ingram.

Sponges, believe it or not, are classed as animals.

TEXAS MUST HAVE ADEQUATE ROADS FOR ARMY

AUSTIN, June 19.—Texans are thinking too much about guns and planes for defense and not enough about adequate and durable highways, Lynn Shaw, manager of the Texas Motor Transportation Association declared today.

With the state of Texas situated as it is beside the only foreign neighbor which could conceivably be a base for hostile operations against this country, roads for defense are absolutely necessary, he said, pointing out that the war department recently designated 5,700 miles of Texas highways as important military roads.

With the truckers rapidly becoming the backbone of army supply, roads, which have always been determining factors in military victory, are becoming increasingly important.

From Texas, if not actually the center of the conflict, must come much of the supplies for the war machine of the United States, and in peace or war, roads are necessary for preparedness and united effort, whether it be directed toward economic improvement or a common enemy.

Brides Must Know How To Cook Meats

Good food, so 'tis said is the way to a man's heart. Be that as it may, many a June bride is impressed with the old saying and is wondering what she ought to do about it. Here is some help from Inez S. Willson, home economist, on one of the knottiest culinary problems for the inexperienced cook—buying and preparing meat.

The important principle in meat cookery is to choose the right cooking method for each cut. Those cuts which are less tender or which require long, slow cooking for best results are cooked by moist heat—that is they are braised or cooked in water. Other cuts are cooked by roasting, broiling or panbroiling.

Here is an outline of these standard methods of meat cookery and the cuts of meat most successfully prepared by each.

Roasting

Suitable cuts: Ribs of beef; loin, shoulder and leg (ham) of pork; leg and shoulder of lamb; leg, loin, ribs and shoulder of veal.

Method:

1. Season meat.
2. Insert meat thermometer.
3. Place fat side up in an open oven.
4. Put in slow oven (300-350 degrees F.) and roast until done.

Broiling

Suitable cuts: Tender steaks of rib and loin chops of lamb and lamb patties; smoked ham slice and bacon.

Method:

1. Set oven regulator at broil.
2. Place meat on rack and allow 3 inches between top of meat and source of heat.
3. Brown well, season and turn.
4. Brown second side.

Panbroiling

Cuts cooked by broiling are also suitable for panbroiling.

Method:

1. Brown meat on both sides.
2. Reduce heat.
3. Turn frequently.
4. Pour off fat as it collects in pan.

Braising

All cuts of beef not adapted to the above dry heat method may be braised. Other suitable cuts are pork chops, steaks, tenderloin and sundries; lamb neck slices, breast, shank, shoulder cuts and sundries; veal steak, chops, breast, shoulder cuts, leg cuts and sundries.

Method:

1. Season meat.
2. Brown well in hot lard.
3. Add a little hot water; cover.
4. Cook slowly on stove or in oven, until tender.

Cooking in Water

Stewing and simmering come under this classification. A stew involves cutting meat in small cubes, adding water to cover and simmering until the meat is tender. Larger pieces of meat suitable for simmering are also just covered with water and allowed to simmer until tender. The water should not boil. In both cases any vegetables which are added are put in to cook just long enough before serving for them to become tender.

Suitable cuts for stewing: Fore shank, brisket, neck, plate, short ribs, chuck, flank, and heel of round of beef; neck, breast, shoulder, flank and kidney of lamb and veal.

Suitable cuts for simmering: Neck, shank, hell of round, plate, brisket, short ribs of fresh beef; rump, plate brisket or tongue of corned beef; ham, shoulder, spare-ribs of smoked pork; heart and spareribs of fresh pork; neck, shank, heart and tongue of veal.

Stuffed Pork Chops

Inez S. Willson, home economist, suggests we try pork chops with corn stuffing to vary an old favorite.

Have pork chops cut double thickness, and a pocket cut into each chop from the side next to the bone. Be sure to have pocket cut from this side as the membrane here holds the edges together. Fill pockets with corn stuffing. Brown chops on both sides, then cover, and finish cooking in a moderate oven. This will require about one hour.

AMERICAN THEME AT NORTH SIDE BAPTIST

Evangelist Jno. R. Denning returned to his pulpit last Sunday following a two weeks absence in Indiana, Illinois, and great blessings were experienced at all services. There were three additions to the church, two candidates received for baptism and one adult conversion.

Next Sunday night at 8:45 the pastor, who is a World War veteran, will bring a special message on "Christianity and the Stars and Stripes," together with an expose of the doctrines of certain religious cults that are Anti-Christian and Anti-American in their practice and teachings. All citizens and legionnaires especially are invited to attend.

At the morning preaching service Rev. Denning will preach from the text: "They Have Taken Away My Lord."

At ten o'clock all classes will study "The Burial and Resurrection of Christ." Classes for all ages. Come and bring your Bibles.

Mrs. Joe Chisholm spent Tuesday with her sister-in-law, Mrs. Luke Harrell in Seminole.

Mr. and Mrs. J. M. Welborn have returned from a trip to Del Rio, Eagle Pass and Quemado. They also visited her sister, Mrs. R. J. Rone in Austin while away.

FOUR SQUARE CHURCH

Revival continues.

Rev. Carl Wilson continues the revivals with good crowds and much interest. Bro. Wilson is a very talented musician, playing some thirty different instruments. He is also a fireproof preacher, having a God given burden for souls. Services nightly at 8:15 through all next week. You can't afford to miss these services.

Sun. 10 A. M. Sunday School. Classes for all ages. Come and visit with us.

Sun. 11:00 A. M. Morning Worship.

Sun. 7:30 P. M. Young People's Service. 8:15 Another great evangelist service, Bro. Wilson speaking and Sister Lee taking part. Everyone invited to come and be with us.—Pastor Irene Lee.

Visitors in the home of Mr. and Mrs. L. C. Green are Mrs. Green's mother, Mrs. G. W. Alexander of Levelland and her aunts, Mmes. Francis Harris, Gary, Indiana, O. D. Baker, Orange, Texas and Mrs. Olive Wolf, Lampasas, Texas.

A PREACHER'S APPEAL TO HIS LAYMEN

"Be regular in church attendance. Possibly a minister ought to rise superior to his environment and speak with as much unction to quartered oak as to living hearts, but a minister after all is only human and in the course of time empty pews wear on him. Laymen, as a rule, do not realize the importance of church attendance. If they did they would not so often let a cloud, or a shower, or a wind, snow, caller, newspaper, headache, or a fit of laziness to keep them at home.

"A minister deserted by his representative men dies. He dies by inches. No man can preach with sustained fire and hope whose leading people show by their desultory attendance that public worship is to them one of the incidents or electives of life. Nothing will so surely take the spring and snap out of a man as speaking on great themes to empty pews. It make a man prematurely old.

"The church is expected by the world to render worship on the Lord's day to God. The rendering of this worship is on of the sacrifices to be offered perpetually by the followers of Jesus. The world's redemption is delayed by Christians who mar the sacrifice by selfish neglect to take part in it. Be in your place on time. Your presence gives life to the preacher. Your face helps him more than you ever know. Your faithfulness strengthens the grip of Christ upon your community, and hastens the coming of the golden age."—Dr. Charles E. Jefferson.

Miss Katherine Underwood spent last week end with her parents in Afton.

BAPTIST CHURCH

The usual services here last Sunday with baptising in the evening, and the next baptismal service will be the first Sunday of next month which is the regular time for this service.

The pastor and family left for a short vacation, but before leaving arranged for a substitute in the pulpit next Sunday and all services will come at the usual hours and it is hoped with increased attendance and interest.

The attendance goal for Sunday School remain at 400 present until it has been attained, and why should it not be reached next Sunday morning?

The W. M. U. will meet next Monday 2 p. m. in circles for their regular monthly Industrial Day, when garments are made for the orphanage and for local charity and all of the women of the church should have a part in this very needed work.

The Southern Baptist Convention has just closed their yearly session in Baltimore, Md. and a great convention is reported, a better account of which will appear in the Baptist Standard, but several important resolutions were adopted among which was one protesting appointment by the President without ratification by the Senate of a representative to the Pope of Rome and demanding his recall by the President, maintaining that this country should adhere to complete separation of church and state, and not surrender this doctrine on which baptists have stood through all time. Visitors are welcome in all of the services of this church.

THERE'S DANGER IN HANDLING GASOLINE

AUSTIN, June 10.—Home fires could be reduced to a minimum if Texas housewives would refrain from the use of gasoline, especially for cleaning purposes, Marvin Hall, state fire insurance commissioner, warned today.

The commissioner reported that the explosive power of gasoline has been ascertained at 83 times that of dynamite, and that the flash point of gasoline may be as low as zero.

"Static and friction should be avoided in handling gasoline," he said, "and people whose jobs involve its use should be thoroughly conversant with its dangers. Of course, its use is a commonplace as well as a necessity, but there's no need to ignore its power."

MANY TROJAN HORSES

Federal, State and local officials have found disloyal groups, organizations and agents of foreign governments in localities that were believed to be as free from suspicion as Caesar's wife, on her own front porch. When Congressman Dies first began to tell the country about spies and enemies, cries of remonstrance arose against him, but he has convinced everyone that there are Nazis, Fascists and Communists moving around, where they might least be expected to be found. So it behooves every locality to conduct its own careful survey to discover the differences between honest persons with sound opinions about war conditions and of other persons who may be disloyal to the Government of the United States.

This sale not only includes their cheap tires but there is a big reduction on all sizes, and kinds, that they have in stock. Right now they have a big demand for used tires, and are, in this sale, paying a premium for them.

All large tire and automobile concerns are predicting a heavy rise in tire prices, effective immediately, if the European conflict continues, and these boys at the Star Tire Store are offering the public a chance to buy their tires now at even less than before.

They cannot guarantee these prices for any certain period of time but have a large stock on hand and another big shipment on the road that will go at these amazingly low prices.

They say if you are figuring on buying tires at any time during the summer months, it will pay you in dollars and miles to get their prices while these amazingly low prices are in effect.

WATCH FIRE HAZARDS THESE TRYING TIMES

Fire departments in Texas, as well as every section of the North American continent, will do well to take stock of their resources as a step toward coping with fires which may come to wartime industry, Marvin Hall, state fire insurance commissioner, warned today.

"The crucial factor in this war will be the ability of one set of belligerents to keep supplies of machines and foods away from the other," he said, and such a war may be decided by actions a long way from the battle front."

Pointing out that the danger is principally in heavily industrialized areas, the Commissioner said that the South would not be in fear of such activities as would other sections of the country.

However fire departments were urged to make frequent inspections of important properties, particularly large warehouses, and to keep in mind the fundamentals of fire prevention: (1) as little burnable material as possible subjected to destruction in a single fire, (2) limitations of areas and heights of building, (3) use of fire walls, stairway enclosures, fire doors and shutters to retard the spread of fires, (4) automatic sprinklers backed by substantial water supplies.

Mrs. Charles Hubby and Mrs. M. V. Brownfield of Lubbock will spend the week end with Mr. and Mrs. J. J. Youngblood. They will go from here to Merkel to visit.

Lubbock Man Killed Near Here Sunday

J. B. Jones, 45, of Lubbock, was killed about three miles southwest of the city about four o'clock Sunday morning, when a car driven by a companion, Jesse Parker, 25, also of that city, left the road, tore into the railroad right-of-way, and turned over several times. The victim of the accident died soon after reaching the local hospital.

The body was badly broken and bruised, both legs broken, and his neck possibly fractured. Parker was only slightly hurt, and is being held in jail here charged with drunken driving. Highway patrolmen, who investigated, may file another charge, it was stated at the office of Sheriff Ches Gore. The party was returning from Seagraves to Lubbock.

GOT THE WRONG SOW BY THE EAR

Last week we reported a theft of a few dollars in silver from the Reed Barber shop on the west side of the square, the theft laying between the porter and an itinerant barber who worked in the shop over the week end. At that time it was thought to be the barber.

But the manager, Mr. Blair made a correction this week. The porter was seen selling another man of color \$2.00 worth of nickels, and was hauled into court, where he acknowledged he was the partaker of the coin. He was given a jail sentence, and has been cutting grass on the court house lawn this week.

Farm Engineering Course Offered to Youths Here

National Foundation Announces Free Scholarships Are Now Available

At least ten free scholarships for the study of farm management and engineering will be awarded to farm youths in this vicinity, according to word received here today.

The scholarships, available to young men between the ages of 18 and 25 who are actually engaged in farm work, will consist of home study course, together with practical training and experience under local farm conditions. They are provided by the National Farm Youth Foundation, which has been created by the Ferguson-Sherman Manufacturing Corporation of Dearborn, Michigan, with the active co-operation of Henry Ford and Edsel Ford.

"Young men of the farm have not realized their opportunities on the home soil," said Henry Ford in announcing his participation in the Foundation. "As a result, many of them have left the farm."

"The family system of farming has suffered and we want to see it re-built. As a matter of fact, the Foundation seeks to help the young man of the farm to realize his aspirations for happiness and prosperity."

"I am told that eighty per cent of the graduates of agricultural colleges have been going to the towns and cities for their careers instead of returning to the farm. The remaining 20 per cent are not enough to give the farm the needed leadership in agricultural progress."

"Better farming methods today will mean better farms tomorrow and rural youth will be more inclined to stay close to the soil."

Young men enrolled under these scholarships also will compete for salaried jobs with the sponsoring company and its distributors. One student will be selected from this section to work at the factory for a year at a salary of \$150 a month. He will be given specialized training in the use, application and the maintenance of the tractor and its equipment. Second award in this general area is a job with the distributor at \$125 a month. Additional students will be placed in jobs as quickly as possible, with the eventual aim of giving them training and experience which they may bring to bear on future problems in their own community.

Success for local young men in the home field is the goal of the Foundation. Farm youths in the past have looked for opportunity elsewhere. Many could not finance a college education. Others found funds lacking to set up in farming for themselves. "Even those who have gone to college have not found in local fields the opportunity they sought," he added. "Most of these boys wind up in towns and cities. If this movement can be halted the community will benefit by the training and education its own young men are receiving and will receive in the future."

Announcement of the scholarships was accompanied by the explanation that the Foundation does not conflict nor compete with the splendid work being done by the 4-H Clubs and the Smith-Hughes vocational agriculture high schools. Through its higher age limit it affords opportunity for study and advancement to farm youths who have already passed the age at which the activities of the organizations mentioned are available. Young men, to be eligible for scholarships, must be between the ages already given, and must be American citizens, of good character, and actually work on a farm. Young men wishing to apply for enrollment or to secure more detailed information about the scholarships may do so by getting in touch with

BROWNFIELD FRIDAY-SATURDAY TEXAS

Jack County To Celebrate 80th Birthday

While here last week, Terrill Isbell and wife presented the Herald with a nicely printed book of 34 pages on regular book paper with good covers, attractively illustrated, that advertises the big celebration of that county for July 4th and 5th. Jack county had many Indian fights and massacres within its borders, all of which have been suitably marked.

Among the other interesting things to be carried out in the celebration is the mock trial of two Indians for murder, the first in any civil courts in Texas. The book is filled with interesting incidents of the early history of Jack and adjoining counties.

Perhaps very few people are aware that the first 4-H club in this country was organized at the home of Dr. and Mrs. C. E. Putnam in Jacksboro. No doubt many ex-Jacks countyans of this section will attend the celebration.

Mr. and Mrs. Lee Garner of O'Donnell visited their nephew Mr. Herman Chesshir and Mrs. Chesshir, Sunday.

Mrs. Percy Spencer of Lubbock visited her mother, Mrs. J. L. Randall last week end.

Rev. Avery Rogers and family are vacationing in Honey Grove, Deport and Temple for two weeks.

Mrs. Paul McDermott of Cobbs Department Store is taking her vacation this week. She plans to visit in Abilene.

Tommy Hicks, nephew of Mrs. L. R. Pounds left Tuesday for Abilene to visit his father, Alvin Hicks.

Mrs. Dalt Lewis, Mr. and Mrs. L. O. Lewis, and R. L. Lewis spent Sunday in Canyon visiting Mr. and Mrs. Morris Small.

Mr. and Mrs. Ted Hardy are spending their vacation with Mr. and Mrs. G. H. Neill in Graham.

Born to Mr. and Mrs. Edgar Richardson an 8 pound daughter, at 2 o'clock a. m. Wednesday, June 18 at the home.

Mr. and Mrs. Walter Lackey of Ropesville are the proud parents of a 7 pound girl, born Monday, June 10, at the home.

Mrs. Dave Finney and daughters, Wanda Joyce and Billie left Sunday for Ontario, California, where they will spend a month with Mrs. Finney's mother. They will also visit Wilbur Finney, son of Mr. and Mrs. Finney, who lives with his grandmother and attends a Junior College there.

Billie Knight of Tahoka is here this week to visit his aunt, Mrs. Bill Ed Watson and Mr. Watson.

Mrs. L. J. Dunn and daughter Virgella Nan spent Monday in Lubbock visiting.

Mr. George Warren and daughter, Miss Ima George left Wednesday for Nocona where they will visit their daughter and sister, Mrs. Bob McDonald and Mr. McDonald for a week. Mrs. Warren who has been visiting there will return home with them.

Mr. and Mrs. T. M. Gillham of Pampa are guests in the home of his brother J. O. Gillham and Mrs. Gillham this week.

Mr. and Mrs. W. B. Downing are visiting relatives in Wichita Falls and Norman, Okla. this week.

Mr. and Mrs. Pete Tiernan of the Jones Theatres are on their vacation. We learned they had gone on a fishing trip, but we did not learn where, as they did not announce their destination even to their closest friends.

E. T. Allen, Jr. and Grayson Crawford of Whitesboro visited the former's aunt, Mrs. Hayden Griffin last Thursday.
