

ADD SALT TO DRINKING WATER

Austin, Texas July 14—If your work is such that it causes excessive perspiration, add a pinch of ordinary table salt to each drink of water you take to help prevent heat cramps. This is advised by Dr. Geo. W. Cox, State Health Officer, to prevent a possible increase in the number of heat victims as the Texas thermometer hits 95 degrees and above.

Laborers, mechanics, farmers and white collar workers whose work causes them to sweat profusely, are in danger of having their body salt content become deficient with resulting heat cramps or heat fog. Salt is a prominent constituent of sweat; the body may lose as high as 40 to 50 grams of salt during hot days.

In industry, a method of preventing heat cramps is to take a tablet of pure salt of mixture of salt and dextrose with each drink of water. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

Salt deficiency may be prevented by taking salt in various ways. Where prepared tablets are not available, table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating. Alcoholic drinks should be avoided.

Heat cramp is characterized by pains (cramps) in the abdominal region, head ache, and in severe cases, by nausea and vomiting. The body temperature remains about normal. Likewise the pulse rate; body salt losses occur without the knowledge of the individual until there is a deficiency; then the abdominal muscles begin to cramp.

Mr. and Mrs. H. G. Mills and son Dickie, and Mr. and Mrs. A. C. Tucker and daughter Dixie are spending the week end in Duncan Oklahoma.

Mr. and Mrs. W. B. Brown have returned to Brownfield after a months stay in Odessa.

EVEN WHEELER'S STATE IS NOT ISOLATIONIST

Billings, Mont. July 21 (Special) Even in this state, the ballwicked of Senator Burton K. Wheeler, leader of the America First Committee, the well financed isolationist movement is making no headway.

In a letter received recently from John B. Tansil, United States Attorney here, and addressed to the Fight for Freedom Committee at New York, that official said that "if the talk I hear in this locality and also over the entire state of Montana is indicative of sentiment, I don't think (the America First Committee) are going to get very far. I do not believe they echo the sentiments of more than 15 per cent, at most, of the people of Montana. I am in hearty accord with your efforts."

Senator Wheeler recently threatened to sue the Fight for Freedom Committee for "viscious libel" after the Committee charged that anti-Semitic, pro-Nazi and pro-German organizations had sent out mail under his Congressional franking privilege. The reply of the Committee was a telegram to the Montana Senator, saying "we note your threat to take action and invite you to do so immediately without hiding under the cloak of Congressional immunity. We are prepared to back up our charges with documentary evidence. Are you ready for a showdown?"

BOOST FOR NO LENGTH LIMIT

Texans who have long been advocating the lifting of the length limit on all species of fish can find encouragement in the recent report of the Virginia Commission of Game and Inland Fisheries. After a three seasons trial, the Commission has found its ruling abolishing a length limit on trout and providing a daily bag limit regardless of the length of the fish has met with the universal approval of anglers in that state.

When a length limit was in vogue, it was a common occurrence to observe dead undersized trout floating down the streams, these having been killed when caught and returned to the streams. It is believed by the commission that a saving of at least 50 per cent has been accomplished.

The Commission met considerable opposition when it inaugurated the rule. However, it was given a fair trial and today no opposition is registered and many anglers are urging the Commission to let a non-length limit apply to all species of fish. They believe, as do biologists of the Texas Game Department, that there is greater waste of fish than is generally thought in returning under-sized fish to the water.

Several states have recently adopted the no length rule.

Mrs. Harvey Gage was notified Tuesday night that her mother in Whitharral was seriously ill. She and Mr Gage left immediately to be with her.

Texans Give Oil To Great Britain

JOHN F. CAMP, San Antonio oil operator, heads the "Oil for Britain" movement by, Texas producers to lift the shutdown to permit an extra day's allowable from their wells to be given to the President of the United States with the request that it be released to the people of Great Britain. The plan sponsored by Camp, when perfected and given final approval by the Texas Railroad Commission, should make available to Great Britain a million barrels or more of Texas crude. The Texas gift is to be made direct to the President who, in turn, will pass it on under the terms of the Lend-Lease Act.

The San Antonio man has already donated 5,000 barrels of regular production from his wells. In acknowledging the gift, President Roosevelt said: "This gift demonstrates that democracy in action is not a bare and meaningless phrase; it symbolizes the spirit of patriotism and unselfishness which exists throughout the country today."

HE WASN'T FOOLING

The following sign, copied from one posted by an irate farmer, has for years hung in the Austin office of the Game Department. It occasions so much comment and produces so many requests for copies of it that it is reproduced here:

NOTIS!
Tresspassers will B percecuted to the full extent of 2 muggel dogs which never was over, sochible to strangers & 1 double brl shot gun which aint loaded with sga pills. Dam if I aint gitten tired of this hell raisin on my place.

HIS CHANCES

One Negro was worrying about the chance of his being drafted for the army. The other consoled him. There's two things that can happen boy. You is either drafted or you aint drafted. If you aint you can forget it; if you is you still got two chances. You may be sent to the front and you may not. If you go to the front, you still got two chances, you may get shot and you may not. If you get shot, you still got two chances, you may die and you may not! And even if you die, you still got two chances. — Clipped.

Clyde Bennett was here this week from Pecos, visiting his mother, Mrs. H. M. Bennett, who is very ill in the local hospital.

LYNTEGAR BUYS \$15,000 IN BONDS

Tahoka. —The largest purchase of defense bonds by any one group or individual in Lynn county was made by the Lyntegar Electric Co-op recently, when they bought \$15,000 worth of defense bonds, thereby, setting an example for others.

The purchase was divided between Tahoka and Wilson. At Tahoka, the corporation bought \$10,000 worth of bonds and procured \$5,000 worth at Wilson.

REA organizations all over this part of the state have been setting the example in the purchase of these bonds by buying them in large quantities.

CARELESS SMOKERS JEOPARDIZE LIVES

Smoking in bed or while relaxing on couches or in easy chairs has been the cause of much fire destruction and many human fatalities.

A sufficient number of glass or metal ash trays throughout the house and making sure that every butt is "out" when placed there-in, will not only reduce the chances of fire from careless, wakeful smokers, but likewise, help to prevent destructive marfing of furniture, radiator tops, window sills, etc.

THE RIGHT TO WORK

A correspondent recently wrote the Portland Oregonian a letter in which he said: "Would you please give us a scorching editorial on what you would say or think about Hitler if you received word that he had commanded the German army to go out with bayonets and guns and force working men, against their legal organized superiors, to make airplanes and guns for a foreign nation?"

Here is what the Oregonian said in reply: "Comment of that nature would be very belated. On May 2, 1933 all offices of all unions in Germany were seized by storm troopers, their leaders and officers were arrested, maltreated or sent to concentration camps; their property was confiscated. The autonomous organizations of German labor were destroyed in one day.

In 1935 a German act established a work card system which requires every German laborer to carry with him a complete record of his previous employment, enables the government to shift workers in accordance with government plans. A black mark in the work book amounts to a death sentence."

No man was "forced" to work when the government used troops to open the airplane factory in California. What the troops did go was to protect American citizens (union or non-union) in their right to go to work if they wished. An overwhelming majority of the workers voluntarily returned to their jobs at once.

No thinking American likes to see troops used in labor disputes. But there is no alternative so long as a handful of left-wing labor leaders succeed in tying up factories which are vital to American defense and security, and in intimidating men who want to work. It is up to the rank and file of labor now. It can keep on working, and except arbitration of its grievances by a government mediation board-or it can follow the radicals within its ranks to certain ruin.

CHAIN LETTER PLAN VIOLATES LAW SAYS P. O. OFFICIAL

Dispatching chain letters for any reason whatsoever is a violation of the postal laws and regulations that will be ferreted out and punished, Postmaster J. Howard Payne of Dallas warned, following a complaint that an attempt had been made to start a chain from New York.

Instead of cash, the chain letter in question called for the buying and affixing to the chain defense stamps. No matter how worthy the cause may be, the postmaster asserted, this evil will not be tolerated.

BARLEY IN ANTON AREA MAKING GOOD YIELD

Most all the barley grown in this section has been thrashed and put on the market. There was quite an acreage this year and none of it yielded less than 50 bushels per acre. Now that the grain has been harvested in most cases the land has been broken and some kind of grain sorghum planted on the stubble.—Anton News.

The J. B. Knight family are home from their vacation. J. B. says that he did not enjoy his vacation any too well, as he felt bad most of the time he was away.

When It's Pickling Time In Terry County

When it's pickling time, think of relishes made from unfermented vegetables. Recipes popular with home demonstration club women include:

- Dixie Relish
 1 pint chopped sweet green peppers
 1 pint chopped sweet red peppers
 2 tbsp. mustard seed
 2 tbsp. celery seed
 3-4 cup sugar
 3 tbsps. salt
 1 Qt. cider vinegar
 1 Qt chopped cabbage
 1 pint chopped white onions
 Quarter peppers and remove seeds and coarse white sections and soak overnight in a brine made of one cup salt to one gallon water. Freshen in clear, cold water for one or two hours. Chop separately and measure the chopped cabbage, pepper and onions before mixing. Add spices, sugar and vinegar. Let stand in a crock or enameled vessel. Pack into sterilized jars and process 15 min. at 180 degrees F., simmering temperature, and seal.

- Bread and Butter Pickles
 25 large cucumbers
 12 onions white medium
 1-2 Cup salt
 1 pt. vinegar
 2 cups sugar
 2 tbsps mustard seed (white)
 2 tbsps ginger
 2 tbsps tumeric powder
 Let unpeeled cucumbers stand in water overnight. Then slice cucumbers and onions and place in pan with the salt, not water. Let stand one hour, then rinse off salt, add vinegar, sugar, mustard seed, ginger, and tumeric powder. Boil all ingredients until peel turns yellow (about forty minutes). Pack pickles solid in sterilized jars. Seal and allow to stand 10 days before using.

- Beet Relish
 1 qt. chopped cabbage
 1 qt. cooked, chopped beets
 1 cup grated horseradish (if desired)
 2 cups sugar
 1 tbsps. black pepper
 3 tbsps. salt
 Mix ingredients, and cover with vinegar, heat mixture to the boiling point. Pack in hot sterilized jars and seal.

Rural Carriers Sell Defense Bonds

Thirty-two thousand rural mail carriers are now acting as agents in the sale of Defense Savings Stamps, postal officials have informed the Treasury Department. Demand for the stamps in sparsely settled districts caused the Post Office department to authorize the carriers to act as salesmen. The stamps range in value from ten cents to five dollars. Purchasers are given albums in which they can be mounted. When filled, the albums may be exchanged for Defense Savings Bonds. Post Office officials recalled that rural mail carriers acted in similar capacities in 1917 and 1918 selling War Savings Stamps.

Jim Travis visited his parents, Mr. and Mrs. J. H. Travis and family last week end. He had a three day furlough from Ft Bliss at El Paso.

Mrs. K. W. Howell and Margaret and Mr. and Mrs. L. Mobley of San Benito, California, visited in Stephenville last week. This group also visited relatives in Clarendon and Amarillo.

Mrs. G. W. Webber and two nieces have returned from a vacation in Ruidoso, N. M.

Roger Curry left Thursday for a visit with relatives in Rule. Curry has been employed at the Terry County Herald for several months.

Mrs. Harvey Gage spent several days this week with her mother in Whitharral. Her mother was in a serious condition.

Mr. and Mrs. Charles Roberts of Lubbock spent Sunday with friends and relatives in Brownfield.

Clois Dale Walsler, underwent an appendectomy Friday in the local hospital.

Silas Duffy of Meadow underwent an appendectomy in the local hospital on July 15.

Mrs. J. C. Bond and Miss Shirley Bond are spending this week in the New Mexico mountains with Mr. and Mrs. Walter Bond of El Paso.

Eunice Jones, city superintendent and Johnny Winston are attending the fireman's training school at A and M this week.

Mr. and Mrs. T. D. Bishop and Bob Scott returned Sunday from a vacation in the New Mexico mountains.

Jim Shelton returned to Brownfield Friday after a period of six weeks in a training at Camp Bullis near San Antonio. Shelton is a senior at Texas Agricultural and Mechanical college.
