

Court To Be In Continuous Session

Judge Louis B. Reed, district judge, together with the assistance and agreement of Rolin McCord, district attorney and the several lawyers of the six county district, have worked out a schedule, with which it is believed and hoped that the docket of the several counties may be kept clean as possible, and at the same time not to be disadvantageous to litigants and others concerned. Time in counties with light dockets will be given away to those with heavy dockets.

The new way keeps the grand jury in session from one term to another, or to Saturday before the next term begins on the following Monday. Of course they will not be in active session, but always subject to call. This will, we believe tend to lessen long periods of prisoners in the six jails. But for fear that we do not understand the subject matter as we should, Judge Reed has promised to have a statement next week for all papers of the district, as it will be news not only for litigants, but jurors and the public alike. Watch for this article.

Criminal Cases Being Tried
Last week was given over to misdemeanors, five being tried for cases such as forgery, passing checks, etc. Four pled guilty, and were given suspended sentences. One was given 4 years in the pen for swindling.

Cecil Peck and Perry Sullins were tried this week for alleged theft of cattle. Sullins got 2 years in the pen, and Peck a 5 year suspended sentence. The jury was out on the case of the State vs Troy Funnell, who is charged with the murder of his wife in the negro section last February. Funnell, colored, got a 5 year suspended sentence.

County Tax Rate Remains Same As Last Year

Judge C. L. (Abe) Lincoln informed us this week that despite the fact that Terry county had voted bonds in the sum of \$290,000, the county tax rate would remain the same, as some of the funds had enough excess last year and this to take care of the bond issue. The excess in the highway fund last year was \$4,700.00. Current excess (1941) is expected to be \$13,200.00. Current valuations are \$6,300,000.00 compared to \$5,807,775.00 in 1940.

Budget Set For Current Year
The budget for the coming year was set at \$18,467.00, a slight increase over the previous year, but the income in county taxes, while but \$4,700.00 last year, is expected to be \$90,200.00 this year. The county tax rate will remain at 80c on the \$100.00 valuation, while the state rate has been lowered to 54c, making a total of \$1.36.

Judge Lincoln stated that the work on the Lamesa highway was progressing very satisfactory, despite the many hindrances the contractor has had to contend with from weather conditions. Grading and drainage is about completed, and caliche base is expected to be started in the next few days.

No Trip Articles This Week

Owing to the fact that our trip article was crowded out last week with better material, we are omitting the article for this week, and printing the one that should have run last week.

We don't know whether anyone here is reading them or not, but several are back in Tennessee, or say they are, and they are good space fillers, when there is nothing better.

Once in a great while, someone mentions something here that appeared in one of the articles, so we suppose a few here are at least glancing over them, and they'll continue for awhile.

Juanda Ruth Turner has been confined to her home due to illness.

Cubs Open Season Tonight With Kermit

With eight lettermen back the Brownfield Cubs open their 1941 season tonight at the Cub field with a non-conference game with the Kermit Yellow Jackets.

The Yellow Jackets are playing their second game of the season having beat Stanton last week with a score of 19-0. The Cubs, however, are still an unknown quantity. This is the fourth year Kermit and Brownfield have played, the records showing a win for the Cubs in 1938, a win for the Yellow Jackets in 1939 and a win for the Cubs in 1940.

Lettermen who played on the District 5-A championship team last year are Monroe Rowden, Harold Dalton, Billy Redford, Travis Pharr, Floyd Perry, Deverle Lewis, Jiggs Tankersley, and Spencer Murphy. Fifty-two men are out for football this year, making the largest in the history of the school.

Probable starting line-up for the Cubs is: LS, Stevenson; LT, Perry; LG, Dalton; C, Neill Burnett; RG, Pharr; RT, Redford; RE, Rowden; QB, Lewis; HB, Murphy; FB, Tankersley; HB, Greenfield.

The probable starting line-up for Kermit will be as follows: E, Price; T, Johnson; T, Mays; G, Willis; G, Crispin; E, McKee; B, Neely; B, Myers; B, Dodson; C, Allen; B, McIver.

Admission for the game will be 50 cents for adults and 25c for children.

Guardsmen From West Texas Gather At Odessa

Strangers passing through the town of Odessa last Sunday would more than likely have received the impression that there was an Army camp located nearby when some fifteen hundred officers and men of the Texas Defense Guard converged upon that place to pass in review before and be inspected by J. Watt Page, Adjutant General of the State of Texas.

The Brownfield Company was designated as Color Guard for the parade, an honor usually bestowed upon crack military Companies. This is something of which the entire community should be proud. Companies as distant as three hundred miles from Odessa were represented at this gathering. All the officers and most of the non-commissioned officers and men of Company D, 34th Battalion, local Guard unit were present.

Opening event on the program was a parade through the downtown streets of Odessa. The Guardsmen were then picked up and transported in buses to the exposition grounds of the Little International Oil Show where they were served a barbecue supper. After a short rest, the men reassembled and marched to the Odessa Football Stadium where they were inspected, reviewed, and listened to a speech by the Adjutant General.

Must Have The Herald At Normandy

Hallie Harred recently wrote in that they have moved from Tokio and that they just couldn't think of doing without the good old Terry County Herald in their new home.

Well, here she comes down there to you each week, and we trust that it will give you all a thrill with its weekly trips.

Red Cross Executive Committee Meets

The executive committee of the local Red Cross met Saturday morning to discuss the annual Roll Call. Those present included Montag, superintendent for the district, R. N. McClain, Dr. W. S. Brummage, chairman, Miss Jessie Rinehart, Leona Settle, Lee Fulton, Miss Dorothy Faye Blanton, and Mrs. T. L. Treadaway.

Record Rainfall Here Up To Date

Two records have been established this year so far, one being the amount of rain that had fallen up to this date in one year, and another was made in May for one month rainfall, more than 12 inches, which is more than we have received in some years. In fact, fairly good crops have been made on a rainfall of 12 inches when well distributed during the growing season.

During the year 1914, which was the first year that any record was kept of the rainfall, some over eight inches fell during August that year, and the annual was around 28 inches for 1914. However, the station was not established until the first of March that year, but little rainfall was evidenced in January and February that year, according to our memory. We feel sure that less than 30 inches precipitation would have been measured that year.

According to the record obtained this week from Terry County Board of Development, the following amounts have been received to date, as of Tuesday morning:

January	6.55
February	4.45
March	4.12
April	2.80
May	12.11
June	2.05
July	3.45
August	1.35
September 3,	40
September 7	2.25
September 8	2.61
Total	30.24

County Agent Says Ground Silos Important

In years of plenty farmers and stockmen should think about storing feed for the lean years to come. One of the best ways of storing feed for the future according to R. N. McClain, County Agent, is the trench silo. Trench silos have proven successful in all parts of Texas and on all types of soil.

Most of the damage in silage is caused by air getting to the silage. Where the feed has been packed in the silo, sufficiently watered and properly covered with dirt so that the trench is sealed against air entering there should be very little spoilage. Merely storing feed in a silo will not make good ensilage out of bad feed. You get out exactly the same quality of feed that is put in. Therefore if you expect to get good ensilage put good feed in the silo.

In planning the silo consider the number of cattle to be fed. A four to six inch silage should be taken off every day. The trench can be as long as you want it. Be sure to dig the silo with the sides sloping at least one foot for every four feet deep. This will make a better packing job and keep the silage from pulling away from the sides as it settles. Where good packing is done pile the silage about one foot above the ground for every four feet in depth. Cover over with dirt and wet down. Feed in a silo is safe from fire, sandstorms, rodents and insects.

George Lane Home On Furlough

George Lane, who has been in training at Chanute Field, Illinois, has finished his course as airplane mechanic, and is at home visiting his parents, Mr. and Mrs. S. F. Lane, before being assigned to a regular position in Puerto Rico.

George was for several years an employee of the postal department here, later being assigned to meat inspection in New Jersey. He will be here some 30 days.

Pat Patterson, former Secretary of the Chamber of Commerce in Brownfield, visited Mr. and Mrs. R. N. McClain during the week-end. Patterson is connected with the Underwood Company, concern in Littlefield.

Soliciting U S O Funds Looked Like War Times

About four ladies of the town, Mesdames Jim Miller, Looie Miller, Ches Gore and A. J. Stricklin took up their position around a table in front of the State Bank last Saturday to solicit funds for the USO. This money is to be used at army camps, as well as air training bases to provide whole some recreation for our boys that are in training whether draftee or volunteer.

In conversation with the ladies late in the afternoon, while they admitted they had obtained help from rural folks and others in town that had not been reached, they would not state the amount, or whether or not they believed Terry county would or would not reach its quota of something more than \$700.00.

In soliciting the town, the ladies report that in most places employers and employees alike expressed themselves a glad to help in a limited way, and believed that the USO was a good thing for the morale of the army. Others stated that they were not interested in the boys, or that they believed that as the United States had called the boys into service at \$21 per month the nation should also provide fitting recreation for them.

As a help toward the solicitation, Cye Tankersley loaned the ladies his 1902 model car to put out in front, and it proved to be quite an attraction. A flag was displayed at the curb, and it too, helped to halt people. Every little bit will help, and whatever our opinion might be as to who should do this work, and how, this is no time to quibble.

Mrs. Earl Jones donated half the proceeds of the show at the Rialto Tuesday and Wednesday nights toward our quota.

West Point Section Damaged By Hail

For the second time this year, the county line area around the West Point community on the line of Terry and Lynn county, has suffered a destructive hail. Back in June, this section was practically wiped out, and replanted mostly to feed stuff, as it was rather late for cotton.

Mr. Thomas Palmer, social security man for this area that makes Tahoka on Mondays and Brownfield on Tuesdays, is our authority for the destruction this week. The storm struck him about the twin mills five miles this side of Tahoka. He informed us that he had a powerful spot light that in cases of emergency, he turns on right in front. He cut his speed to a creep, and then had difficulty in following the black mark in front of the car, the rain and hail was coming down so hard.

He finally came to a lake over the highway where one car already drowned out. By that time it had slacked some, and he tried to get back to Tahoka, but found another lake over the road that way, and put up at a farm house for the night.

He stated that old timers of that section were of the opinion that they had never had such a rain and hail in that section before. Mr. Palmer stated the hail was small, but so much of it that it beat the grain all off the heads, and left something that resembled a shaving brush standing. By passing around one lake through a field, he was able to get to Brownfield. Asked if the ground was mirry, he laughed and stated that the rain and hail was so hard that it packed the ground like the sand on a sea beach.

This is going to go very hard with those people. No time left to grow anything, and the expense of at least two plantings. We understand that there was considerable hail out at the John Black place three miles southwest of town.

Friend J. E. Young down in the Scuddy community, is also some watermelon raiser. Late one afternoon lately, he slipped two fine ones in our car, and has our thanks.

New Nash To Be Seen About Sept. 20

J. R. Kee, head of Kee Auto Exchange, Nash dealers, is leaving today for Chicago, where he will view the new 1942 Nash cars and attend a national convention of Nash dealers, distributors and factory officials.

Kee said that advance information indicated that the new cars represent an important advance over 1941 models. He saw no departure from the industry's normal procedure of improving its car year after year, and said that the 1942 cars would be better from a wide variety of appearance and technical standpoints.

"I expect to see enough advancements in the new Nash '600' to make it the most completely new development in the automotive world," Kee declared. "The company entered the lowest-price field with this car last fall after four years of development and the expenditure of \$7,500,000 and the car was a complete sell-out only a few months after it was placed in full production."

He said that the car was all-welded, and built on the monocoque construction principle that is giving greater strength and greater range to big bombers. Its gasoline economy of 25 to 30 miles per gallon gives the car especial significance today, he said.

He said that after the convention, which will be held September 12, he would go to Kenosha, Wisconsin, where Nash cars have been built for 25 years, to participate in a mass driveway of several thousand new Nash cars.

The cars will be introduced here about September 20, he said. Kee is leaving for Chicago this week after his first one.

West Texas Druggists To Meet In Lubbock

LUBBOCK, Sept. 11.—This city expects to be host September 16, 17 and 18 to several hundred druggists from West Texas, New Mexico and southern Oklahoma at the West Texas Pharmaceutical convention, when various problems confronting druggists of today will be among the serious business discussed.

A well-rounded three-day program including entertainment as well as business features, will bring addresses by men in the industry who have made special studies of subjects they will discuss. Speakers include John McPherrin of Chicago, Jim Depree of the Holland, Michigan chemical company, Malcolm Smithsons of Clayton, N. M., E. C. Massengill of Dallas, Roy Crane of Chicago, and others. Bert Pinson of Lubbock, president of the association, will preside at the convention.

The annual ball of the association will be held the evening of the second day in the Lubbock Hotel ballroom.

Dove Bag Limit 12 Instead Of 15

Because of an unavoidable error, the bag and possession limits on mourning and white-winged doves is given as 15 in the printed matter on the reverse of State hunting licenses, but the actual limits is 12 per day and 12 in possession, the Executive Secretary of the Game, Fish and Oyster Commission cautioned today.

The error was made, the Executive Secretary explained, because the State hunting licenses already were being printed earlier in the year before the present State dove laws had been passed, and at that time the State dove bag and possession limit was 15 instead of the present 12.

The Executive Secretary urged all sportsmen to "pass the word around" that the limits announced on the licenses had been countermanded by later law and he urged that this especially be done in the northern counties of Texas, where mourning dove hunting is already under way.

Mr. and Mrs. J. S. Sims of the Loop community, were in Tuesday. Stated he had a big rain but no hail.

Estimates Terry Will Gin 61,000 Bales

BY J. SAM LEWIS
Avalanche-Journal Staff Writer

Based on crop conditions as they were on Sept. 2, the more than 20,000 cotton farmers on the South Plains, should produce at least 777,000 bales of cotton from the 1941 crop, provided unforeseen weather conditions arise to change the picture, in the opinion of Volney T. Jennings, who has been a Lubbock cotton man since 1928 and who has made crop estimates during all these years.

Jennings based his estimate on reports from farmers, ginners, and cotton men all over the area. He checked and rechecked his figures on previous years, acreage allotments and yields, before arriving at an estimate.

300 Pounds An Acre
"If present conditions prevail at harvest time, the yield should be only about five pounds per acre under the big crop of 1937", he explained. "That year the Plains averaged 305 pounds of lint cotton per acre, of about .63 per cent of a bale. There are many estimates of a bale per acre or better."

"Of course, it is up to the farmer to continue his work in keeping conditions up as they are."

"There is a difference in the acreage allotment between 1937 and 1941. That year the acreage was about 1,800,000 and this year it is over 1,400,000 acres."

In production for the 1940 crop, counties ranked, Lamb, Hockley, Lubbock, Lynn, Terry, Dawson, Bailey, Crosby.

The cotton loan base for the 1941-42 crop has been set by the Agricultural Adjustment administration at 14.55 cents for middling 15-16 inch staple. Dickens and several other counties will have a slightly higher rate.

Comparisons Shown
Jennings shows comparative figures on the prospective crop, compared with 1940 yields, as follows:

County	1941	1940
Bailey	26,000	25,644
Briscoe	11,000	5,183
Castro	6,000	2,551
Cochran	21,000	18,343
Crosby	46,000	23,489
Dawson	82,000	35,484
Dickens	31,000	13,031
Floyd	19,000	15,544
Gaines	9,000	3,948
Garza	21,000	5,140
Hale	38,000	23,264
Hockley	45,000	55,095
Lamb	73,000	58,083
Lubbock	114,000	48,690
Lynn	102,000	39,862
Motley	20,000	11,885
Parmer	20,000	5,610
Scurry	35,000	23,024
Swisher	6,000	No report
Terry	61,000	35,668
Total	777,000	449,438

Terry County Fair Sept. 25-26-27

Rules covering exhibits are being mailed to all Communities and individual exhibitors today. All Communities planning on exhibits are requested to leave word at the County or Home Demonstration Agent's office.

The Fair Officials wish to state to the people of Terry county that this is your fair and deserves your support and help. It will take the effort of all of us to make it a success. You are being depended upon to do your part. We welcome suggestions which may be used in making it one of the best fairs Terry County has ever had.

The fair proper will be held Sept. 25-26-27. However, the carnival will be here all that week.

COULDN'T MISS THE CHANCE

"Yes," said the young lady, "I've decided to marry Oswald Potts, father."

"What," he ejaculated. "You're going to marry that insignificant little fellow? Why, you've always said that you'd never marry anyone under six feet."

She shrugged her shoulders. "I know, dad," she replied, "but I've given the matter serious thought, and I've decided to knock off twenty per cent for cash."

A Good Suggestion For Hailed Out Areas

A man recently made a suggestion to us that we are hereby passing along. In the meantime, we have talked with several farmers and others about the matter, and all seem to think the idea has great merit. There are two badly damaged hail areas, one on the plains, and the other near the line of Mitchell and Scurry counties. The former has been hailed out twice this year and the other was hailed out so late that the farmers of that area cannot expect anything better from their very late feed crops other than bundle stuff, with no grain.

Here is the idea: on the edges of each area, literally thousands of tons of headed grain stands ready for the binder or combine. A small part of it has already been cut. Say 25 farmers were wiped out, and they have 200 or 300 farms on either side of them that escaped. If each of these 200 or 300 would give these men who have no crop through no fault of their own, say a load of grain, and they won't miss it, it would help these men wonderfully. On top of that, favor these unfortunate people with their cotton picking, and they'll get by pretty well.

A. Y. Edwards of Tokio section, who formerly lived in Tahoka, was through Tuesday afternoon, and had sample stalks of corn, maize and cotton from the hail area, that were simply riddled.

Mr. Edwards was in full agreement with the above, and stated that one man who had some 200 acres of good sudan offered to donate it to the stricken community if they or someone else would cut it. He told of one man who had a fine field of sudan Monday until the hail came, and stated that the man's cows were bawling for feed Tuesday morning.

Ticket Sales Reported Heavy For Defense Guard Show

Those in charge of ticket sales for the show and dance next Saturday report they are progressing satisfactorily. The show is sponsored by the American Legion and the local unit of the Texas Defense Guard. The affair will be staged by the Reception Center Entertainers of Fort Bliss, Texas. Gene Hurt, local attorney and well-known for his novelty songs, now enlisted in the Army, is a member of the Entertainers.

The tickets, which are selling for \$1.00 per couple, are good for either or both affairs. Either the show or dance is well worth the price of admission. Those who do not care for dancing may be assured that they will receive their money's worth at the show which lasts a full hour. Many of the members of the orchestra were with big name orchestras in civilian life. The auditorium of the Legion Hall seats a large number of people, and comfortable chairs will be arranged to take care of the crowd. Dance starts immediately after the show.

Tickets may be purchased from any Guardsman or at the box office of the Legion Hall.

Church Compliments Brownfield Airport

J. D. Church, District Airport Engineer, of Fort Worth, was flying over Brownfield last week and located or saw our airport. Looked so good to him that he stopped for a visit. He stated that he had a most excellent port. The layout was good, proximity to town was desirable, or, in other words, we were complimented very highly.

Interest is growing daily. One club of 10 men has already been formed. They have purchased a plane and members are getting in flying time and instructions daily. Other clubs are being discussed. Mr. Church stated that the Brownfield Airport gives Texas one more field than California which places Texas first in the United States in the number of airports.

Well, sir, when the Herald built down here, it was nearly out in the country, but we are getting new neighbors occasionally, with nice new buildings, such as the hospital on one side and Chisholm Hardware and Piggly Wiggly on the other. Cicero Smith Lumber Co., across the street has been a neighbor a long time. There is still room for a few others. Come on in, the water is fine.

Everyone seems to be ready to get the Terry County Fair under way again, after some 13 years of laying off. We hope this time that we can make it permanent, so that everyone will look forward from year to year, and make their preparations to have something to put on display. While oil is beginning to play quite a bit in our daily life, Terry county's main stake is yet agriculture and ranching. And this well likely be a great agriculture and livestock section long after all the oil is gone. We welcome the oil part just at this time but we must not neglect our farming and livestock industry for a moment.

Old Spindletop near Beaumont, which roared and spewed forty years ago, started the oil industry of Texas in high, and the speed of development of the oil business in Texas has been in high ever since, and does not seem to have reached its peak. Since old Spindletop's day some 200,000 wells have been drilled for oil in Texas, and there are over 500 separate fields. From a handful of Texans forty years ago, employed, nearly half a million people in Texas are now dependent, directly or indirectly upon oil for support. Oil has also paid millions of dollars in taxes. Today, all Texas salutes Spindletop.

Quite a coincidence has arisen of late among the newspaper fraternity since their receipt from a Dallas bank of a reserved ticket as Sidewalk Superintendents to watch the excavations for the new 30 story building. Reserved seats over the sidewalks, with a canopy top to shade the gazers, has been provided by the bank officials. Now here's the joker. A number of Panhandle editors got ticket No. 1, and they felt so

elated at the honor of being S. S. No. 1, that they printed the fact in their papers. Lo! and behold the next week, several of the boys up that way found they were holders of ticket No. 1. Then the row started. The Herald had a ticket, but as we could not use it, it disappeared, and we don't remember the number or even if it had one. Anyway, the Dallas bank got a lot of free publicity out of Panhandle editors.

Now for the frost: As wet as the ground is in this country is we've got to have a late frost or we're sunk, so to speak. The Hesperian has cooked up a bunch of signs proving by Nature's own handiwork that we're going to have a frost on the seventh of November. We might accept November fifth, but not a day earlier. We are running into some opposition—not exactly that but scoffers you might term them, folks who have got out some October frost signs, away early in October. We have little patience with this subversive, early-frost skulduggery. How could we use a mid-October frost, we ask you. The only answer is we can't use it at all. Therefore, we urge your support, your cooperation, for a late frost. We wouldn't do for representative, senator of anything of that kind, but when you get down to such earthly matters as frost we go hand in hand with the common people, the one-galused, horny, handed sons of toil. We stand squarely for a frost not a day earlier than November 7th. We definitely oppose an October frost. — Floydada Hesperian.

THANKS THE PUBLIC

The ladies of the American Legion Auxiliary wish to thank Mrs. Ethel Jones and her staff, Mr. Horn and the High School band, Mr. Cye Tankersly with his Ford, the members of the Maids and Matrons club, the Junior Chamber of Commerce and the many others who assisted us in the U. S. O. drive for funds in Terry county.

Surry Shaffer left Wednesday for his home in Dallas after a visit in the home of Dr. and Mrs. W. S. Brummage. Shaffer and Mrs. Brummage are brother and sister.

Still Seeing The Sights In New Orleans

Before we are off on another sight seeing excursion in the oldest city in the middle south, let us state that the "fine haired" cafe where we ate lunch, the La Louisianne, is owned by Helen Alciatore Cheer, whose line of ancestors reach back to the early days of the French colony in Louisiana, and that the cafe has been in the family since 1881, or for sixty years.

We might state just at this time that the city of New Orleans lays in two parishes (counties), Orleans and Jefferson. Where the dividing line comes, one has to do some guessing, that is, the new comer. But you'll soon learn. In New Orleans proper, there is a sales tax, none in the city of Jefferson, and of the two, Jefferson is much the widest open by far. In fact, in the main city, gambling has to be done rather on the sly, while in Jefferson everything goes. We are going to tell you of our experience in one of the three biggest gambling houses in Jefferson, the first the writer was ever in. First, we had a fine dinner (supper) out in a drive-in place in Jefferson, where the food was just as good, and the service fine, with plates around 50c each, and no cover charges. It was a nice place, large and air-conditioned, and run by a friend of Mr. and Mrs. Hughes. This suited us kentry folks much better.

However, late in the afternoon, before lunch time, a trip was made

BETTER CALL OFF YOUR DOGS, MR. STALIN

Some thoughtful citizen has suggested that if the United States is to furnish war materials with which Soviet Russia is to fight the Germans, it is high time that Communist undercover agitation and sabotage in this country be stopped.

Thus far, this modest proposal has met with no overt opposition indeed the question should be, Why hasn't Mr. Stalin had the graciousness, or the tact, or the plain old political horse-sense to stop it before now?

Several observers have noted that Communist instigation of defense strikes suddenly ceased when Hitler moved into Russia on June 22, and when President Roosevelt joined Mr. Churchill in designating the Soviet as a victim of, and co-defender against dictator aggression.

But still the Communist agents-provocateur ply their trade in this country. If this fact doesn't point out certain stupidity in the part of the Moscow government under the present circumstances then it does point to a weak spot in our own policy toward the Soviet.

Maybe, Mr. Roosevelt could say to Mr. Stalin: "If you want us to help you with the wolves over there Joe, you'd better call off your dogs over here".—Lamesa Reporter.

SCORCHED EARTH IN RUSSIA

How those Russians are fighting! We didn't know they had it in them. In a few weeks the world has revised its estimation of them and rises up, ashamed to do them honor.

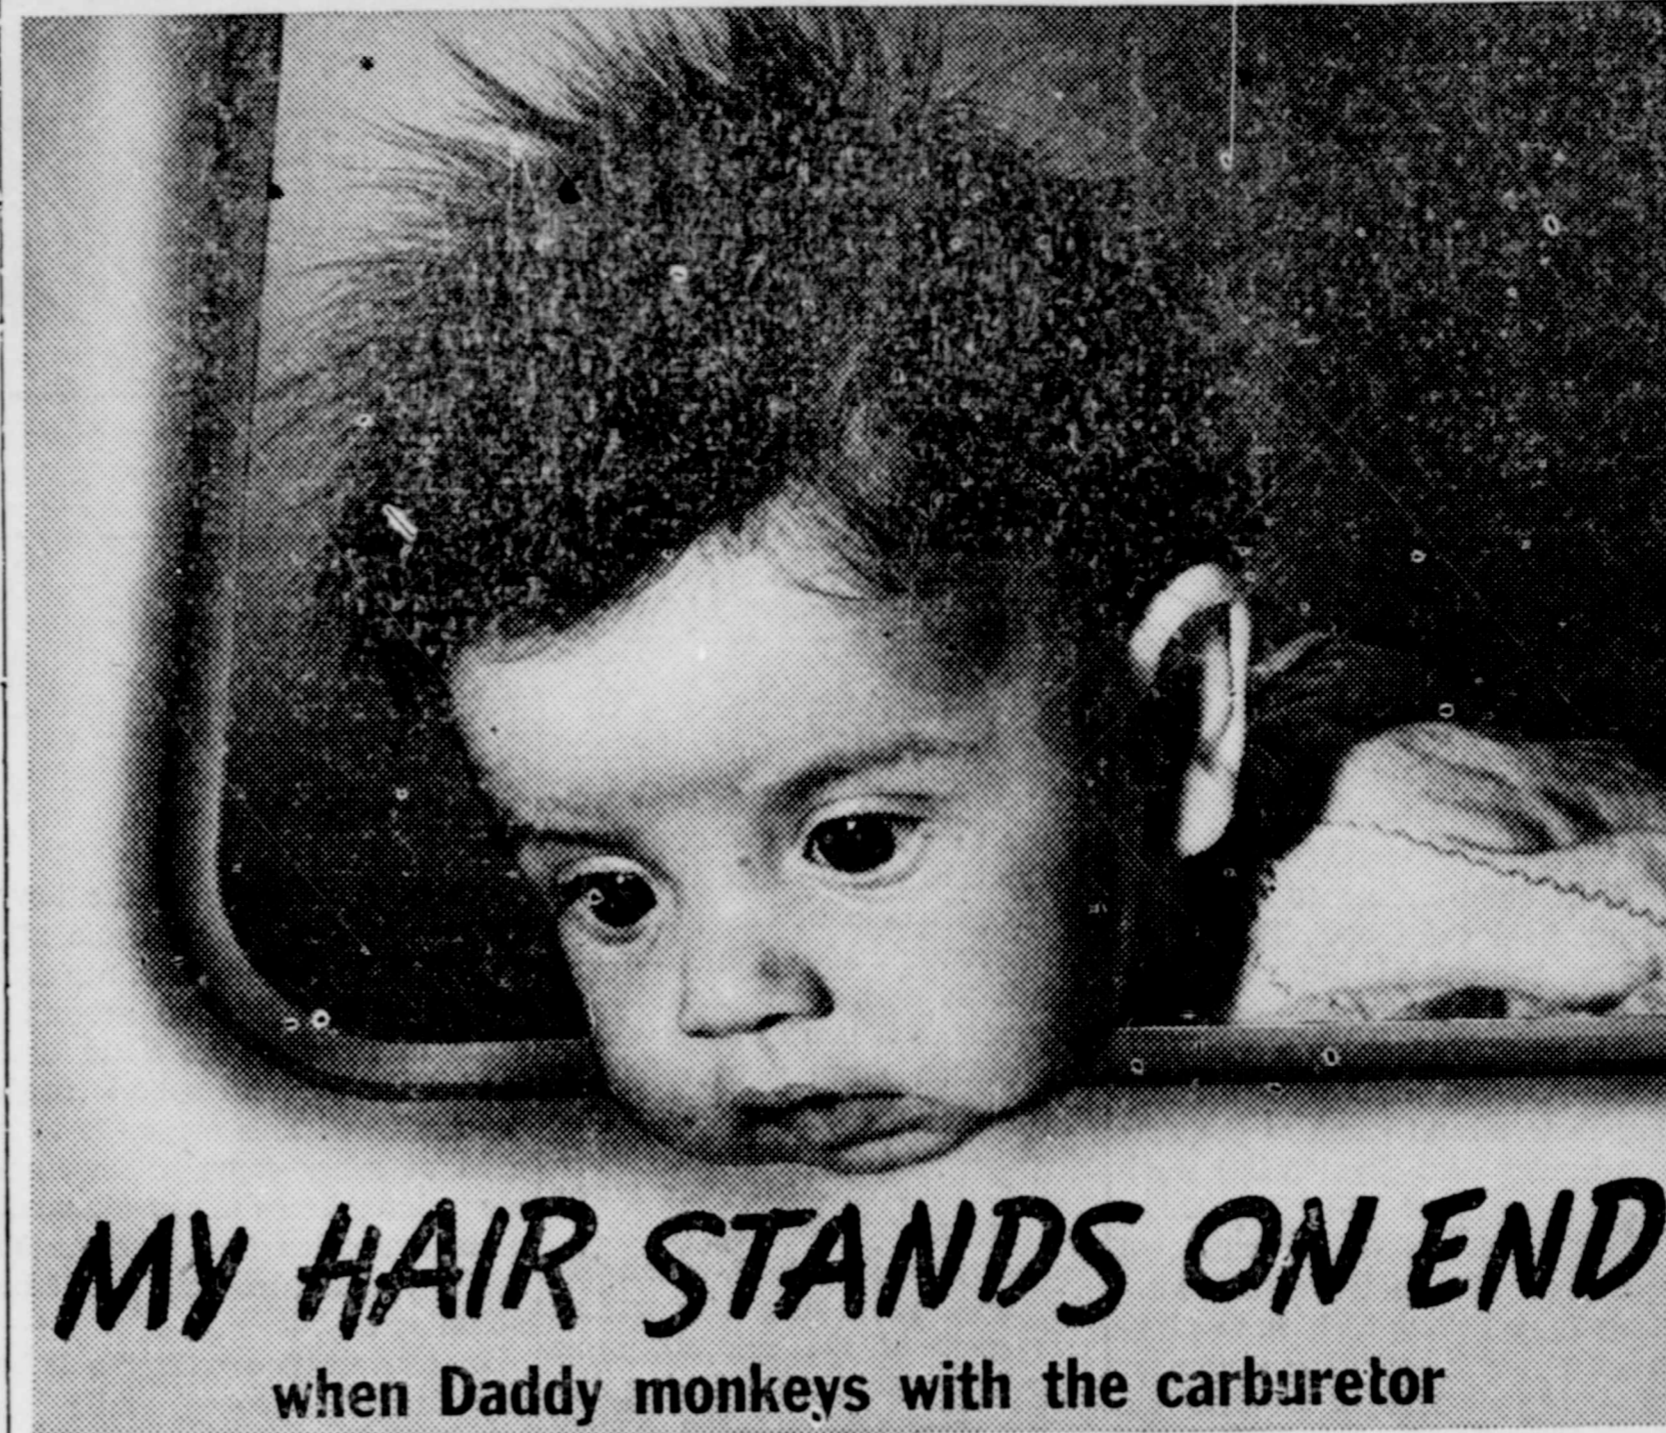

A vast race of people sprawling across Europe and Asia whom we have regarded as dumb, inert peasants, tied to their factories and little farms, caring for nothing else, defy the greatest military power that has ever appeared on this world. They stand together like a stone wall. They have no fear of death. And contrary to what we have always been told it isn't just for their soil that they are fighting.

They go "all out". They burn their homes and crops, and factories and destroy precious dams and raze their cities as if these were all so much rubbish, lest the enemy get and use them. They make their land a waste. They function not as a country, but as a people determined to carry on regardless of all the cherished little things for which they have toiled. They die like flies, that their nation, or what is left of it, may live. Their courage, with Britain's and China's goes far to redeem a rather rotten world.

It is impossible to believe that they do all this for Stalin. Perhaps they do it in spite of him and his often cruel government. They are greater than he is.

Such a people deserve to survive. The world needs them. May they save their country and find happier times, and opportunities for the greatness which is in them.

Amarillo Times

When Daddy finally comes up for air, with his hands all black and his face all red, he shouts words that Mummy says aren't for a child's ears. "Whattheblankety blank is the matter with this motor", he says. She answers, "Don't you dare swear in front of our little angel!" (that's me) ... and then the hair-raising battle begins. It's all so foolish and useless, when Daddy ... and you, too ... can get custom-tailored Phillips 66 gasoline, without paying a penny extra. Yes sir, it needs no carburetor tinkering. It is re-matched every month to the climate in your locality. Today's Phillips 66 isn't merely a late summer gas. It is actually a September gasoline. And there is hardly a day in 365 when its high test and high anti-knock ratings are not unsurpassed in its price class. See if you don't feel that difference with your very first trial tankful ... at any Orange and Black 66 Shell.

Phill-up with Phillips for Greater Mileage

out to the municipal airport, one of the finest in the country. Something like an hour was spent there viewing the buildings and well kept grounds. We also arrived just in time to see one of the big liners come in from Chicago, well loaded. A hurried visit with no stops was made by Tulane University and other schools, mostly Catholic and Jewish, together with orphan homes, beautiful parks and what have you. But we were merely getting our locations so that we might visit them by ourselves the next day when we'd have no guide. Around nine o'clock our gang and the Hugheses headed for one of the three largest gambling places in Jefferson. We were informed that here is the only place in the United States that allows open gambling. True, they have gambling boats off the California coast, but they are beyond the twelve mile limit. Three men, two white men and a negro met our car. We decided at first that they were watchers, but soon learned that they were greeters. They told their names; so did we and where we were from, and they said that they were very glad to have us, and hoped we would have a nice evening. The negro parked our car.

The building is all a ground floor and fire proof, so far as we could tell at night, was lit up like a Pollox church, and was furnished in the best furniture and fixtures money could buy. The building apparently covered a half block, and something like 150x300 feet, with highly polished floors. At each end was bars at which the visitor, should he wish, wet his whistle with any beverage made. There were also tables, and your order could be filled with any edible on the market. The main portion of the large hall was of course given over to large tables with every gambling device that we ever heard of and many that we had never heard of. In fact, that was this country lad's first visit to a gambling house. We have never been sporty in the least. All the sport blood must have oozed from our veins when quite young. So, we just strolled around the different tables and gawked. We thought we had seen piles of money before, but decided that what we had seen was "chicken and egg money." Golly, they must have had all the money there was in New Orleans, except the 65c we had, and the four-bits held between Texie and Rosetta. There were stacks of 5's, 10's,

Mr. and Mrs. J. J. Whitley of Gomez have recently returned from Los Angeles, California where they visited relatives. Sun came out as clear as a whistle Tuesday afternoon following the big rain Monday.

Baptist Revival Closed Sunday

The meeting closed Sunday night and Evangelist W. Y. Pond hurried to Waco where he is now conducting another meeting.

Much interest was manifested here in the meeting and the people appreciate his message to the church here will remember he and his son Billy who led the singing in the services and will follow their work with their prayers and interest.

Billy Pond has surrendered to preach and will enter Baylor University at once to complete his education and study especially the Bible in preparation for his work, and being an accomplished singer with a fine voice we bespeak for him a life of much usefulness.

Many Baptist people living here are yet out of the local church and can greatly set forward the work by their cooperation and many will remain here to make our city their permanent home and should join with us to make the church what it should be in the community.

The regular monthly meeting of the Brotherhood is Mon. evening at 8:15 and we appeal to you as a man of the church to attend this meeting when the men will bring the monthly program. The men have not been accustomed to this work and unlike the ladies of the church they show a want of interest in it.

The Brownfield Association will convene next week with the Tahoka church beginning Tuesday morning and the more than thirty churches of this association will have their messengers present at that meeting with a full account of their work for the last year which has been a very successful year for most of the churches. The churches that have had great blessings have been those who are missionary in fact as well as profession and the association is a great unit of cooperation among such churches. We extend a cordial welcome to all the new members coming into our church and hope they will find places of usefulness in our membership and be able to serve among us as becometh Christians.

Miss Maxine Johns has returned from a trip to Beaver, Okla., where she visited her brother, Vivian Johns. Miss Johns is now employed at the Cinderella Beauty Shop.

HEALTH UNIT HOLDS PERSONNEL MEET

Dr. W. S. Brummage discussed the maternal and child health conference held in Austin, last month at a personnel meeting of the Five County Health unit last week.

Those attending were Miss Edna Shaffer, nurse of Hockley county; Miss Mary McGowan, clerk of Hockley county; Miss Eula Tweedle, nurse of Gaines and Yoakum counties; Mrs. Ross Bowers, clerk of Gaines and Yoakum counties; Miss Marie Long, nurse of Dawson; Miss Jessie Rinehart, nurse of Terry county; and Miss Leona Settle, clerk of Terry county.

HIGH SCHOOL P T A TO HOLD FIRST MEETING

The High School P T A will hold its first regular meeting of the year on Thursday, September 18, at 4 P. M. in the H S auditorium. Mrs. Jewel Akers is in charge of the program which will be unusually interesting. We are looking forward to having a large group present to start the new year.

The parents in the outlying communities are urged to come so that we may know you better.

SENIORS OF UNION HIGH SCHOOL ORGANIZE

The seniors of the U. H. S. met September 10, to organize their class and to elect their sponsor for the year of 1941-42.

The officers elected were: President, Clifford Chambers; Vice-President, Sammie Crossland; Sec. Treas., Katherine Speed; Sponsor Mr. H. C. Foote.

They plan on receiving their class rings this week end.

HOSPITAL NOTES

Charlotte Bennett underwent an appendectomy last week in the hospital.

J. J. Little was released Tuesday.

Mrs. Elmer Edwards underwent minor surgery last week.

Glendon Stockton is being treated for a broken leg in the hospital. It was injured when he fell from a truck.

J. H. Dodge is showing rapid improvement.

Mrs. W. E. Brantly underwent an appendectomy Sept 8.

Oneida Proctor underwent a tonsilectomy Sunday.

CHRISTIAN LADIES AID MEETS MONDAY

Mrs. J. A. Dennis was hostess to the Ladies Aid of the Christian church in her home at Meadow Monday afternoon.

Mrs. Lena Dennis of Meadow led the Bible study which was taken from Math; 25-28.

Members present were Mmes. W. R. McDuffie, Crawford Burrough, F. E. Walters, A. A. Sawyer, H. B. Plummer, Jack Hamilton, Bob Hamm, M. E. Brown, C. S. Shaffer, R. N. McClain and the hostess.

Next meeting will be with Mrs. Hamilton and will consist of a review of the Book of Matthew.

JOHNSON H D CLUB MEETS

The Johnson Home Demonstration club met Tuesday September 2, with Mrs. R. D. Jones with the president Mrs. Groves presiding.

We elected Mrs. Mosier as vice president.

We decided to invite the Meadow club to meet with us Thursday September 18.

We voted for each member to pay 10 cents per month dues.

Miss Blanton met with us and gave an interesting demonstration of dressing tables.

Mrs. Jones served delicious refreshments of ice cream and cake and peaches and punch to 15 members. The next meeting will be with Mrs. Wheatley September 16. All ladies of the community are invited to be with us on that date.

RECENT BRIDE HONORED

Mrs. J. N. Hogue was hostess last Thursday to the Home Demonstration Club in the Harmony Community and a shower honoring Mrs. Byron Black who was before her recent marriage, Barbara Garrett. The honoree received many lovely and useful gifts.

Refreshments were served to 35 guests.

MRS. LONGBRAKE LEADS METHODISTS

The ladies of the Methodist church met in Fellowship Hall Monday September 8th. Mrs. Longbrake led the lesson assisted by Mrs. House. Other members present were Mmes. Hanks, Arnett, Johnson, Webber, B. L. Thompson and Downing.

Next Monday Mrs. Johnson will lead a Spiritual Life Program

Spindle Top STARTED IT!

Forty years ago an oil gusher roared in on a low hill south of Beaumont to open a new industrial era for Texas.

That discovery at Spindletop started our modern Texas petroleum industry and made Texas the nation's leading oil state.

In the forty years since Spindletop blew in, nearly 200,000 wells have been drilled throughout Texas. Over 500 separate fields are now producing in all parts of the State. Today Texas supplies over one-third of the Nation's oil and has over half of its petroleum reserves.

Our industry, by refining almost all of this oil in Texas, has created our largest manufacturing enterprise. By furnishing cheap fuel it has laid the foundation for many other Texas industries.

From a handful of Texans forty years ago, this industry has grown until now, directly or indirectly, it supports almost one million of our people. Its expenditures reach into every section of the State and benefit every Texan.

The discovery of America's first gusher oil field at Spindletop has turned out to be one of the most important events in the history of our state.

Today all of Texas salutes Spindletop!

On October 9, 10 and 11, during its annual convention at Beaumont, the Texas-Mid-Continent Oil & Gas Association will dedicate a monument to Spindletop.

Inscribed in ageless Texas granite will be the story of oil.

This is more than a monument to petroleum. It is a tribute to Texas enterprise and initiative which in forty years have built a great industry in our State—an industry in which you and every other Texan share.

TEXAS MID-CONTINENT OIL & GAS ASSOCIATION

MRS. SPENCER KENDRICK ENTERTAINS CLUB

The Las Amigas Club was entertained in the home of Mrs. Spencer Kendrick this week. Refreshments which consisted of a series of bridge, delightful tuna and pimiento cheese sandwiches, potato chips, pickles, deviled eggs, angel food pie and iced tea, were served the guests. Those present were Mesdames Lee O. Allen, Jack Bailey, Everett Latham, Dick McDuffie, Wilson Collins, W. S. Brummage, Grady Terry, Jack Stricklin Jr., Clovis Kendrick, Pete Tiernan, Troy Noel and Orb Stitice. High and second high scorers were Mrs. Latham and Mrs. Brummage. Each received a sugar and cream set, one pink and one blue in the lovely Duncan Hobnail glassware.

THE METHODIST CHURCH

Our services were fine last Sunday. They were well attended and we had three new additions to the church.

Since moving into our new building we have added new members each Sunday that Brother Hanks has preached and we are expecting more next Sunday.

At that time Brother Hanks' morning sermon will be "He That Is Faithful In That Which Is Little Is Faithful Also In Much" His evening topic will be on the character of David "A Man After God's Own Heart".

Our hours will be the same as usual: Sunday School 9:45, church 11, Young People 7:30 and church at 8.

With the prospects of a successful harvest and increasing business the church has the promise of better things. Let all Methodists be in their places Sunday. This is time to make a new start in church attendance.

We rejoice with the Baptists folks in the success of their meeting.

GET ACQUAINTED NIGHT AT CHRISTIAN CHURCH NET SUNDAY

Next Sunday evening at 7:30 the First Christian church will hold another "Get Acquainted" service. Church and Sunday school reports will be read at a short business session and nominations made for church board. Following the worship service, refreshments will be served to all present. All members and friends are urged to attend. Come and get acquainted with your neighbor.

CARD OF THANKS

Words cannot express our heart felt appreciation and gratitude for the many deeds of kindness, beautiful floral offerings and untiring help and faithfulness of our many friends, neighbors and beloved ones during the last illness of our husband, father and brother. We feel that your help upheld us and gave us courage in this time of need. We trust and pray that God's richest blessings will be with you all.

DRAFTED

To Mrs. Willard Dubose, and all other Mothers, I dedicate these verses:

"They will be done, as in heaven, so in earth," Luke 11:2

Yes, my son has been drafted To go in training for war, And my heart is nigh broken— Oh! what is it all for?

Why do men kill each other? Why such tragedy and horror? Why this breaking mother's hearts, And all this crushing sorrow?

My son has gone with the rest, All the boys from this fair land, And the mothers stay at home Praying for God's guiding hand.

I've cleaned and pressed his clothes And put them all away. Perhaps he will return And wear them again some day.

I do not know God's own will It should be done, not mine. It has always been hard to say, "Not my will, Lord, but Thine."

So I pray each day for strength, As I go about my daily tasks, Trusting his will to be done; It is better, that is all I ask.

I've turned it all over to Him, For there's nothing I can do. He'll be with us every moment, If to him we will be true.

And the peace that God will give At the return of His dear Son, Will be an everlasting peace, For God's will shall then be done

Mrs. Onie Cook, Mena, Ark.

OUTLAW RECKLESS SPENDING

At the present time, government is in the banking and financing business on a tremendous scale. The government must get out of that business if this country is to avoid financial disaster.

If all the money so far appropriated for defense—to say nothing of additional appropriations that will be made—is spent on schedule, the deficit for the calendar year alone will be \$30,000,000,000, which must be placed on top of our already staggering debt. It is estimated that by September, 1942, spending for defense purposes only will be \$3,500,000,000 monthly. The proposed new taxes are the highest in our history, yet they will cover but a small fraction of the cost of defense.

This defense spending cannot be avoided. But economists agree that very heavy cuts can be made in non-defense spending without sacrificing any really essential government activity. On top of that, private credit, supplied by banks and other sources, is ready to do a great deal of the financing that is now being done by the government. The banks are full of unused money, and the bankers are eager to put it to productive work. There's no room now in the government for any activity that can be eliminated or deferred. That reckless spirit of "let the government do everything, pay for everything and finance everything," must be outlawed.

Construction Starts On Air Training Field

LUBBOCK, Sept. 11.—The official work order by which contractors will formally and intensively begin construction on the \$4,000,000 Army Air Corps training school near here, has been received along with assignment of priority number that will allow contractors to secure materials under the national de-

fense emergency act.

Actual contract for completed project as approved is \$3,973,336. The work order includes all construction except runways, and contractors were informed this should be in their hands soon. Runways are to be of 3-inch asphalt on a 9-inch caliche base instead of concrete as originally planned. Priority number assigned the project is A-1-E.

Formal notice was given the contractors that they must complete the project in 120 days from August 26, subject to a penalty of \$1,000 per day beyond the 120 days.

Actual construction, preliminary to the formal order has been under way for some time, with approximately 850 men now at work. Number of men will be stepped up, depending on receipt of materials, to a peak of 2,500, to 3,000 men, contractors said. Carpenters began this week working on a 9-hour, 6-day week basis, with time and a half beyond eight hours daily.

Cotton Hose Women Will Be Proud To Wear

Cotton stockings aren't what they used to be, judging by the samples being looked over here by David H. Young, hosiery designer for the U. S. Department of Agriculture's Bureau of Home Economics. These stockings represent but a few of the 150 designs for better looking, better-fitting, better wearing cotton hose

released by the Bureau of Home Economics to manufacturers in Barnes, Extension Service clothing specialist for the Texas A and M College Extension service, says beautiful cotton hose, the kind women will be proud to wear, will be one result of the present shortage of silk hosiery.

Defense Bond Quiz

Q. I would like to provide a regular income for myself when I retire. Can this be done by buying Defense Savings Bonds?

A. Yes. If you purchase a Bond for \$7.50 each month, each Bond will mature in exactly ten years. Thus at the end of 10 years you will have \$50 payable each month as each of your bonds reaches maturity.

Q. But I will need more than \$50 a month.

A. Then you should invest a larger amount each month. Every \$75 you put into Defense Bonds will pay you \$100 ten years from now. Meanwhile, your money serves your Government during this period of national emergency.

Note.—To buy Defense Bonds and Stamps, go to the nearest post office, bank, or savings and loan association; or write to the Treasurer of the United States, Washington, D. C.

Borrow trouble and pay off in worry.

My Week by Eleanor Roosevelt

BUSY DAY

Here's what happened one busy day in Washington. A press conference at 11, to which Dr. Louise Stanley of the bureau of home economics, in the department of agriculture, brought the various samples they have developed in cotton stockings.

She then showed us some very charming models of work clothes developed for housewives and women workers on the farm and in the factory. The designs were not only practical but very attractive. Since the department offers its designs to the trade, I hope some of these garments will be on the market shortly at attractive prices.

At noon, Mrs. Lana Backus brought Mr. William A. Dillon of Ithaca, N. Y., winner of the first prize in the national competition for a "song of the hour" sponsored by the Women's Division of the Committee to Defend America by Aiding the Allies. He wrote a song many years ago which you will remember entitled: "I Want a Girl." That song has been sung from coast to coast in many gatherings in this country.

Mr. Dillon entered this competition because he and Mrs. Dillon apparently make it a hobby to bring up young people. They have brought up eight youngsters besides their own, so the young girl who is at present growing up in their home, begged him to win this competition so she might put aside \$300 toward her college fund.

Mrs. Hobbe, from Texas, Mr. and Mrs. John Herrick and one or two other friends lunched with me yesterday. The afternoon was taken up with appointments. At about 7:00 the duke of Kent, and his aide, Sir Louis Greig, returned from their day's trip. Our dinner and the evening were pleasant and I said good-bye with regret to our guests.

NYA WORKSHOPS

I went one morning to Astoria, L. I., to go through the National Youth administration workshops. It was over a year since I had seen them. They have expanded greatly, and the equipment is far better than it was a year ago. Now they are on a really excellent production basis. At the present time, when the shortage of skilled labor is what we are trying to meet, it is most important to give every young person who is learning a trade the number of hours of work required by employers on the particular machine he intends to use. The worker may, of course, acquire a number of hours on a number of machines, but whatever the employer's requirements are, they should be met in training these boys and girls.

Of course, they must also have some related training, given by the departments of education to supplement their skills. In many cases this related training has to be condensed, and the number of hours required by the departments of education should be lowered in order to make it possible to meet the requirements for actual work. This is not purely an educational job. It is designed to give us skilled workers.

I think we should realize also that there are comparatively few trades and technical schools throughout the nation with modern enough equipment to do the job required by employers. This is something which of course, should be remedied in the future, but it is impossible to do so at present because the emergency makes it impossible to buy this equipment now.

PENSACOLA IMPRESSIONS

I have been able to say so little in my column lately about what I have actually seen, that I want to add a bit to my impressions of Pensacola, Fla. While there, we lunched at the San Carlos hotel with the mayor. I think one gets the feeling in that attractive hotel of the change and growth of the whole city.

Life is really humming in Pensacola. Captain Read drove me around in the morning to see as much as possible of the naval training station. I saw the various air squadrons, where the boys learn the different phases of flying which are necessary in the navy. I saw their auditorium, where movies are given, free for their entertainment, and where many classes are held.

I saw the section which is given over to the training of British pilots and met their commanding officers, who spoke with appreciation of the training their boys are receiving. I do not think I have seen in any station, a more complete setup for physical exercise and recreation. Every available space is used for courts and playgrounds, so that the boys may have different kinds of exercise according to their tastes.

Great attention is paid to their physical development through participation in the athletic program. Mr. Gene Tunney and his superior must be very happy over their accomplishments along these lines.

There is, as yet, no U.S.O. building or program being carried on in the city, though the money raising campaign went over the top. It seems to me important that these buildings be erected as quickly as possible and the programs begin to function, for they are much needed in the towns near our various training stations and camps.

"Behind The Scenes In American Business"

by John Craddock

NEW YORK, Sept. 8.—It's now apparent that July marked a temporary peak in the national defense boom. Production and distribution activity of the nation has receded a bit in August and so far in September. One reason has been a slow-down in steel, auto and cotton mill activity, but a contributing cause has been material shortages which are now hampering output of many small manufacturers who produce strictly for civilian consumption. These are symptoms which indicate that the American economy is being changed over from a peace-time to a war-time basis at a more rapid rate. A glance at the bulging backlogs of national defense orders of individual companies, however, gives assurance that production soon will make another broad surge upward.

HOARDING—Despite the fact that banks are in a strong position today, a phenomenon of the times is a great increase of money in circulation. During the week following Labor Day, money in circulation topped \$10,000,000,000 for the first time in the nation's history.

WASHINGTON—The new tax bill which will bring additional millions of persons into the ranks of income tax payers next March is considered one of the most politically significant developments in years. At the next election, it is pointed out, income tax payers with members of their families included, will be numerous enough to elect a president.

TRUCKS FOR DEFENSE—Although the nation may soon feel the pinch of new car "shortages," caused by passenger-car cuts as vital materials are diverted to defense channels, the country's "second line of defense"—commercial trucks—will roll off assembly lines in even greater numbers this year than last, as they are exempt from OPM quotas.

TEXAS WARM SPRINGS TO OPEN SEPT. 14

Gonzales, Texas, September 8.—The first building of the Gonzales Warm Springs foundation for Crippled Children, now completely equipped and ready for operation, will be opened to the public for inspection at a silver tea and open house to be held there Sunday, September 14.

The open house will begin at 10 o'clock Sunday morning and will continue through 9 o'clock Sunday evening. The general public of all Texas and the nation is invited and urged to visit the foundation on that day, to see what has been done, and how the money which has been donated has been invested.

The first building, completed about January 1 at a cost of \$28,000, comprises two dormitories, nurses quarters, nurses and doctors' office, reception room, physiotherapy room housing two indoor pools, dining room and kitchen. It is a completely furnished with the most modern equipment.

Mr. and Mrs. Maddison Weaver spent the week end with his parents in Amarillo.

Fort Worth Doctor Turn Author To Tell Life's History

(Written by C. L. Douglas)

Dr. Charles H. McCollum, prominent Fort Worth surgeon and one of the best known men of medicine of the Southwest, has turned

DR. CHAS. H. MCCOLLUM author.

He has written a book titled "Pills and Proverbs" (announced by the Meador Publishing Co., of Boston) and it is filled with humor, tragic, and unusual anecdotes gleaned from half a century's rich experience as a farmer boy, drug store clerk, country practitioner, army medic, surgeon, professor and world traveler.

"Pills and Proverbs", as the title might imply, is not just a story of what the doctor sees, and hears, and does, it is also a story of self reliance and courage—the account of how a lad of few ordinary privileges, son of a poor farmer, overcame all handicaps to become a noted surgeon. One of Alger's own heroes couldn't have done a better job.

DRUNK DRIVING CONVICTIONS

Convictions for drunken driving in Texas have increased 340 per cent under the new law making this offense a misdemeanor, State Police Director Homer Garrison, jr., reported. Two hundred and thirty drivers licenses were suspended or revoked upon conviction for driving while intoxicated between June 19, when the law became effective and August 22. This compares with 50 suspensions in the same period last year.

Dove Shooting September 16

Shooting of doves in the north zone, which includes Terry county, was legal beginning September 1. The season closes October 12. These dates were set in accordance with federal regulations which govern the season on doves and all other migratory birds, and all who observe the dates will be safe from violation of both Texas and federal rules.

All counties south and west of Yoakum, Terry, Lynn, Garza and Jones are in the south zone. But these counties and all counties north are in the north zone.

Shooting hours in both zones will be from sunrise to sunset, seven days a week, for doves with a bag limit and possession limit both set at 12 birds.

Sue Bynum Exchanges Vows with Junius R. Bunts Mon.

Couple Will Live in Dallas; Bunts to Enter S. M. U.

In a candlelight single ring ceremony Monday evening at 6 o'clock Miss Sue Bynum, daughter of Mr. and Mrs. W. A. Bynum, became the bride of Junius R. Bunts, son of Mr. and Mrs. C. T. Bunts of El Paso. The ceremony was held in the First Methodist

Treadaway, grandmother of the bride, were worn on the dress. Mrs. Ince, sister of the bride, was her only attendant. She wore a gold crepe dress with black accessories. Best man was W. T. Ince, brother in law of the bride. John Powell was usher.

Mrs. Bunts graduated from Brownfield high school in 1938 and

MRS. JUNIUS R. BUNTS

church with the Rev. L. W. Hanks pastor, officiating.

The couple exchanged vows before an altar flanked with twin white candlebras. In the center pulpit stand was a huge basket of roses. Beside the candlebras was another basket of roses, and beyond these were large baskets of white mums and fern.

Emmitt Smith sang pre-nuptial music which consisted of "Ah, Sweet Mystery of Life" and "I Love You Truly". Miss Gertrude Rasco accompanied during the ceremony.

Maud Alice McCracken and Roscoe Treadaway, cousins of the bride, lighted the candles.

The bride, who was given in marriage by her father, wore a soldier blue crepe remaine dress with a pleated flounce. Her hat was a small off-the-face-felt with a pom-pom effect at the front. She wore a single orchid corsage. On her arm was a pearl bracelet belonging to her sister, Mrs. W. T. Ince of Lubbock. Five strands of pearls owned by Mrs. T. L.

was graduated from McMurry College at Abilene in June, 1941.

While in McMurry she belonged to the T. I. P., girl's social club, Volunteer Mission Band, The Chanters, Press Club, Wesley Players, and was secretary to the dormitory council.

Bunts is a graduate of El Paso high school where he was active in the order of the De Molay. He attended Woodbury college at Hollywood, Calif., where he studied dramatics for a year and a half. He was graduated from McMurry college in June where he majored in Bible. While in McMurry he belonged to the Chanters, the Indian Head association, an athletic organization, the Thespians, and the Volunteer Mission Band.

Following the reception held at the home of the bride's parents Mr. and Mrs. Bunts left for Dallas where he will enroll in the theological school of Southern Methodist University.

The bride wore a black crepe suit with beaded pockets and collar with a large black off-the-face hat as her going away costume.

The receiving line at the reception was composed of the bride and groom, Mr. and Mrs. Bynum, and Mr. and Mrs. Bunts of El Paso.

A three-tiered wedding cake with a bride and groom in frosting was cut by Mrs. T. L. Treadaway, Jr., and punch was poured by Mrs. J. W. Fitzgerald, both aunts of the bride.

Out-of-town guests were Mr. and Mrs. C. T. Bunts, parents of the bride-groom, of El Paso, Mrs. F. D. Stark and Miss Mary Louise Tinkler of Seminole and Bob Schmidt of Lubbock.

SENIOR CLASS NEWS
Juanita Cranford

The Senior class met in the auditorium Tuesday morning at 10:00 o'clock for the purpose of electing officers and sponsors.

The sponsors elected were Mr. Jack McBrayer and Miss Marietta Montgomery and officers elected were:

- President Junior Tankersly
- Vice-president Earlene Gueste
- Sec.-Treas. Gerry McCollum
- Reporter Juanita Cranford

We also appointed an invitation committee who were Carrol Collier, Deverelle Lewis, Patsy Lewis, Martha Dean Jackson and Helen Gillham.

There was no other business brought up so the meeting was adjourned.

Carolyn Jones is clerking in Collins Dry Goods Co., now.

CEN - TEX HARMONY CLUB MEETS WITH MRS. E. D. JONES

The first meeting of the Cen-Tex Harmony club was held in the home of the President, Mrs. E. D. Jones on September 9, at 4 P. M.

The initial opening included a business session and reports.

Greeting for the year was given by the President also dates for club events. New Committees were named and their work outlined.

Highlights from the National Convention of the Federated Music Clubs was given by Mrs. W. H. Dallas. Everyone enjoyed this report as it was so delightfully given, so much wit and humor.

Invitations were recognized from the Tri-County music club that will be entertained by the Fine Arts club of Plains Sept 18, at 5 P. M. The Lubbock Music club, the Levelland Music club and the Cen Tex Harmony club are to be entertained by the Allegro Music Club of Lubbock at the First Presbyterian Church Oct. 8.

Announcements and plans were made for the District Convention which is to be held at Hereford Oct. 16-17-18.

A salad course was served to the membership.

SENIOR MAIDS AND MATRONS START WITH LUNCHEON TUESDAY

The Senior Maids and Matrons are opening their 1941-1942 year with a bang Tuesday when they have an All-American luncheon at the Legion Hall.

Guest speaker for the luncheon will be Mrs. H. F. Godeke, district president, who will speak on "District Club Aims for the Year."

Hostesses for the luncheon are Mes. J. J. McGowan, T. L. Treadaway, W. M. Adams, I. M. Bailey and E. C. Davis.

Club program for the year is based on "A Design to Defend Democracy."

PRE-NUPTIAL COURTESIES EXTENDED SUE BYNUM

Pre-nuptial courtesies for Miss Sue Bynum this week included a breakfast Saturday morning given by Misses Evelyn Walls and Mildred Adams and a dinner Monday given by Mrs. T. L. Treadaway.

The breakfast was given at Hancock's cafe and was followed by bridge. It was a personal shower for Miss Bynum. Gifts were placed on a small table with a Madiera tablecloth and centered with Yellow zinnias in a Santa Rosa Indian pottery bowl.

Miss Irene Adams was high scorer for the morning and was given a linen handkerchief. She then gave the handkerchief to the honoree, Miss Bynum.

Those attending the breakfast were Misses Twilla Graham, Earline and Evelyn Jones. Irene Adams Ethelda May, Dorothy Bynum, Helen Campbell of Kermit, Mes. J. J. Kendrick, Homer Parker, W. T. Ince, the honoree and the hostesses.

The dinner given Monday by Mrs. Treadaway was given in the honor of Miss Bynum. Mr. Bunts and his parents, Mr. and Mrs. C. T. Bunts of El Paso. It was given at the Wines hotel.

Those present were Mr. and Mrs. W. A. Bynum, Mr. and Mrs. W. T. Ince, Mr. and Mrs. J. W. Fitzgerald, Dr. and Mrs. T. L. Treadaway, Maud Alice McCracken and the honor guests.

FLOWER EXHIBIT TO BE HELD TUESDAY AT PARISH HOME

A flower show which is open to any person interested will be held this week under the auspices of the Brownfield Garden Club at the home of Mrs. R. B. Parish.

Mrs. Parish announced that the four entries from which flowers could be arranged are as follows:

- I. Bouquet entries: Roses, Dahlias, Marigolds, Zinnas (large or small), Cannas, Petunias, or any of the annual flowers.
- II. House plants, vines, foliage, flowering plants, and cactii.
- III. Miniature bouquets (not over 6 inches).
- IV. Wild flower exhibits.

The show will be held from 4 to 6 p. m. The judges will be from out-of-town. Mrs. Parish announced that anyone may come for the exhibit.

Especially did she urge that all entries must be in before 4 p. m.

Miss Maud Bailey of Lubbock spent the week-end with Mrs. J. D. Bailey.

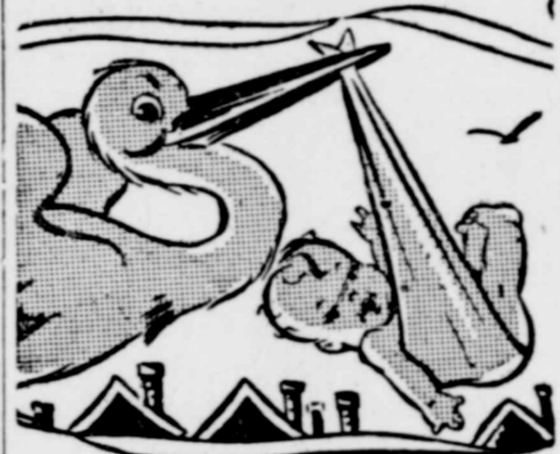

Terry County Sends Over Eighty Students Off to College

JUNIOR MAIDS AND MATRONS START THE 1941-1942 YEAR

The Junior Maids and Matrons started the 1941-1942 year with a dinner in Mrs. Taylor's dining room Tuesday evening. Mrs. Burton G. Hackney was program chairman.

The program consisted of "Accomplishments of the Federal and State Federation", by Mrs. Hackney; "Pioneer Women of the Texas Clubs" by Mrs. Emmitt Smith; "Projects and Activities of Other Clubs" by Mrs. Virgil Crawford; "Proposed Changes in Junior Clubs" by Mrs. V. L. Patterson; and the reading of the Constitution by Mrs. Jack Hamilton.

Miss Mildred Adams was voted into the club as a new member. Members present were Mes. Hackney, Smith, Crawford, Patterson, Hamilton, Mike Barrett, Lee Brownfield, P. R. Cates, Grady Goodpasture, Jake Gore, Virgil Keys, Arlie Lowrimore, Lynn Nelson and Homer Newman.

RECENT ARRIVALS...

A seven pound, eight ounce baby girl was born to Mr. and Mrs. Warner Hayhurst of Plains in the local hospital Sept. 7. The girl was named Vicki Ray.

Born to Mr. and Mrs. L. D. O'Neal of Denver City a nine pound, twelve ounce boy in the local hospital. The boy was named Harvey Leon.

A boy was born Sept. 5 to Mr. and Mrs. Alfred Pippin of Tokio in the Treadaway-Daniell hospital. He was named Ormal Alfred Pippin, Jr.

Mr. and Mrs. Lee Bartlett of Meadow have a boy who was born Sept. 6 in the local hospital. He was named James Donald.

A girl was born to Mr. and Mrs. Raymond Hinkle Sept. 4.

SHOWERS GIVEN FOR RAYMOND GREENS

Two Nuptial showers for Mr. and Mrs. Raymond Green who were married last week have been given this week.

Mrs. Green is the former Mary Martin, daughter of W. B. Martin.

Mr. and Mrs. J. A. Parks entertained Saturday night at their home near Tokio, and Mrs. Lee Walker and Mrs. Claude Garrett gave a miscellaneous shower Wednesday afternoon at the home of Mrs. Lee Walker in the Gomez community.

Texas Technological College Accounts for Half of Number

It's a big back to school year for Terry county with approximately eighty boys and girls leaving for colleges, universities, business schools and nurses schools.

Almost half of the group from Terry county will enter Texas Technological college in Lubbock. Schools with the smallest number attending are the Metropolitan Business school in Dallas, Nurses school, Iowa State College, Wyoming University, the University of Texas, and the University of New Mexico, each with only one student from Terry.

One of the most interesting features about this year's crop of scholars is that the wives of two brothers are taking off for college leaving their poor hubbies at home. Still, the husbands have just finished their work at Texas Technological college. The wives must have decided it was their time to become educated. They are Mrs. Durwood Moorhead and Mrs. Tommy Moorhead.

Schools and the number entering are as follows: Texas Tech, 39; Draughon's business school in Lubbock, 11; Texas State college for Women at Denton, 5; the College of Mines at El Paso, 3; McMurray college at Abilene, 3; Wayland college at Plainview, 3; Hardin-Simmons University in Abilene, 2; Texas Agricultural and Mechanical college at College Station, 2; Abilene Christian College in Abilene, 2; North Texas State Teachers college at Denton, 2; John Tarleton college in Stephenville, 2; Metropolitan Business college in Dallas, 1; West Texas Hospital Nurses School in Lubbock, 1; Iowa State College, 1; Wyoming University, 1; the University of Texas at Austin, 1; and the University of New Mexico in Albuquerque, 1.

The schools and those attending from this county are Metropolitan Business school, Joy Sawyer; West Texas Nurses School, Betty Bynum; Iowa State College, Rose Bechtel; Wyoming University, Lucy Bechtel; Draughon's Business School, Clea Hammock, Marjean Bell, Louise Mason, Wanda Hendricks, Tommy Hicks, Espie Rae Hulse, Inez Erwin, El Wanda Wilborn, Doris Faulkner, Auva Nell Caswell and Louise Hemme.

Hardin - Simmons University, Hudie Bagley and Homer Hughes; University of Texas, Bill McGowan; University of New Mexico, Mary Nell Adams; T. S. C. W., Doris Cain, LaRue Ross, Loretta Goin, Mary Jean Lees and Mrs. Tommy Moorhead; Texas A. and M., Jim Lane and Jim Shelton; A. C. C., Mary Alice Tidwell and Mary Lena Winston; College of Mines, James Mullins, M. J. Akers and H. M. Austin; McMurry, Mary Nell Eckhart, Ray Elliot and Richard Elliot; North Texas State, Robert Pharr and Guy Tankersly; Wayland, Jimmy Green, Teddie Lou Moorhead, and Wanita McLeroy; John Tarleton College, Doris Sherman and Earl Burnett.

Texas Tech, Louise Heath, Lois Chambliss, Sam Chisholm, Evelyn Jones, Jane Brownfield, Mary Louise Ballard, Bobby Lewis, Jo Pete May, Bobbie Virginia Bowers, Harold Simms, Tom Rowden, Vondée Lewis, Eleanor Gillham, Charles Hamilton, Beth Hamilton, Vagella Nan Dunn, Jackie Holt, Elizabeth Ann Smith, Grace Tarpley, J. E. Smith, Edwin Helms, Gene Hill, Fred Finley, Louise Leonard, Mrs. Durwood Moorhead, Billy Moore, Dewey Rogers, Aubrey Jones, Kathryn Marchbanks, Walter Dee Burnett, Bobbie Nell Newsom, Edna Lois Paschall, Rudell Parks, George McLeroy, Frank Bissett, Dolores Snodgrass, Jewell Mac Joyce, Hardin Joyce, Jr., Mrs. Terry Redford and Wade Hill.

HIGH SCHOOL P T A TO HOLD ANNUAL SOCIAL

The High School P T A will hold its annual social for the teachers on Tuesday, September 16, at eight o'clock at the American Legion Hall. All parents of students in High School or Jr. High School are invited to come and get acquainted with your child's teachers and also that they may know you.

A variety program has been arranged, one which you will really enjoy. We are expecting parents throughout the community as well as local parents. Arrangements are in charge of Mrs. R. L. Bowers.

GIRL SCOUTS HONOR MOTHERS, SPONSOR

Mrs. Bill McKinney, girl scout leader, and the mothers of the girls who went to Ruidoso and Mrs. L. M. Wingerd were honored at a meeting of the girl scouts in the home of Mrs. Leo Holmes.

The party came as a complete surprise to Mrs. McKinney and the mothers making the trip.

Patrol One was in charge of the program. It consisted of a "Story of Our Trip to Ruidoso" by Norma Jean Cary; "Thanks to Mrs. Wingerd" by Dorothy Henderson; Talk of appreciation of Mrs. McKinney, Marion Wingerd; with a gift presented by Dolores Gillham; Appreciation of the mothers accompanying the girls" by Judy Griffin, Naomi Lee Thompson, Frances Jane Wier and Betty Jean Holmes.

The mothers who went to Ruidoso were Mrs. Claud Henderson, Mrs. F. F. Wier, Mrs. Carl Schmidt, and Mrs. J. O. Gillham.

Guests were Mes. Earl Anthony, Tom Cobb, Jack Benton, Elmer Brownlee, E. C. Davis, Leo Holmes, Henderson, E. A. Kessinger, J. H. Griffin, Howard Swan, Gillham, W. M. Vernon, Wier, Thompson, Schmidt, and two children, Nancy Wier and Mary Edna Tankersly.

BOY BORN TO MR. AND MRS. WOODROW CHAMBLISS

A boy was born to Mr. and Mrs. Woodrow Chambliss in Topanga, Calif. The child was named Lorenzo Eric for his two grandfathers.

Naval Recruiting Officers To Be Here Sept. 16

Local men between the ages of 17 and 50 years, married or single, will have an opportunity Sept. 16 to take examinations at the Post Office here and if qualified, enlist in the Naval Service for the duration of the National Emergency. Postmaster J. H. Dallas announced today.

Navy recruiting officials at Lubbock, Texas have informed postmaster J. H. Dallas that 600 Naval recruits are needed this month from the north half of Texas and Oklahoma district. To give better service to those interested the 18 Navy recruiting stations in the district are this week opening approximately 100 one-day-week-stations in which Brownfield is included.

Men between the ages of 17 and 36 may enlist in the Naval reserve for training in aviation, radio, signals, clerical work, metalsmithing, machinists, electrical, carpentry and storekeeper work. The Navy is now operating 72 trade schools in which enlisted men receive the pay and allowance of their rating. Those who fail to qualify for or in the trade schools are retained in general service for duty where best qualified. Promotion is open

to them in other lines of work. Mechanics, clerical workers and others qualified through experience in trades or professions may enlist in the Naval Reserve with rating and monthly pay beginning at \$60.00, \$72.00, \$84.00, or \$99.00, depending upon the individual's qualifications. Age limits in this classification are from 17 to 50 years (nearest birthday).

Married men may be enlisted in the Naval Reserve if qualified for pay rating sufficient to support their dependents, or if such dependents have other means of support. Those enlisted at pay of \$72.00 per month, or more, receive \$1.15 per day extra as housing allowance for dependents.

The Secretary of the Navy has publicly pledged that all Naval Reservists will be released from active duty and returned home as soon after the National Emergency as their services can be spared.

Enlistment in the Regular Navy provides for a full-time employment career with retirement privilege with good income at an early age, recruiting officials declared.

All applicants for enlistment must furnish proof of place and date of birth.

Mrs. Roy Byrd and daughter, Bebe, of Dalhart visited Mr. and Mrs. Tom Neely this week. Miss Byrd is entering Texas Technological College this year as a freshman.

We Traipse Down Off The Caprock

Sunday morning the writer and wife and little grandson, Master Jack T. Stricklin III, shuffled off toward Snyder, accompanied by our daughter, Mrs. Herman Trigg, who had been visiting the Stricklin families here for the past two weeks, most of which time she was a medical patient, and it was more like being an inmate of a hospital than a visitor. But as she was some better, her physician declared she might go home.

Noted that there were some improvements in Snyder, Herman making one of them by erecting a shade for drive-ins to eat or drink in their cars. But most of this article will treat of crops on the way down there. We were pleased to note that the West Point Community on the Lynn-Terry county line, had a nice crop, though late, and mostly feed, coming in since their destructive hail in June. However, according to reports, they are back where they started in June as another bad hail and flood with its winds visited them Monday afternoon. That story, however, is treated elsewhere in this paper.

We have not seen better average crops for years than there is between here and Post. There will be a bumper crop of feed and a possibility of a bumper cotton crop

between here and there. The Scurry county crop will average with that of last year in the north end of the county, and we understand that the south end, especially around Hermeleigh is a humdinger. Late in the afternoon we decided to cut through via Colorado City, to Coahoma in Howard county, and visit the Roberts family over night, coming home via Big Spring, Lamesa and Tahoka, Monday morning.

There are fair crops from a few miles southwest of Snyder, to Colorado City, except a small strip that was hailed out late. Cotton in Mitchell and Howard counties is opening like nobodies business, and the latter is going to make one of the best crops they have had in many years. Dawson county also has a good crop, especially in the Ackerly section. That section, and Howard county saved their April cotton, not having the severe floods that most of the south plains had in May.

They were all doing well in Howard and expecting a big fall.

BROWN'S NOS-O-PEN

BROWN'S NOS-O-PEN is a scientific preparation as prescribed by many famous physicians. It is so designed to alleviate the discomforts of HAY-FEVER, ATHS-MA, and SINUS-HEAD-COLDS. Generous size package \$1.00 at Nelson Primm Drug Co.

Company D Bulletin Board

Captain Edwards reports that Company D received many compliments, both for its appearance and its marching ability at the Regional Review and Inspection at Odessa last Sunday.

Next drill period for Company D will be at Levelland Tuesday night. Capt. Edwards urges every member of the local Guard to make the trip as various citizens of that place are endeavoring to establish a Guard unit and a good showing on the part of the local Company may help arouse sufficient interest there to get a Company organized.

Company D is issuing a call for recruits. The Company is now at full strength but vacancies are likely to occur in the near future and it is hoped that replacements will be available the instant the vacancies occur. Those interested may report to First Sergeant Jim Miller preferably on Tuesday night drill periods at the Legion Hall. If a sufficient number report, a "rookie" squad will be organized and training started immediately.

Rearming Testimony From The Outside

The Journal of Commerce—hardly an administration admirer—tells us that we have doubled what we did in the way of rearmament in 1918—our last year effort. It adds that the crop of military aircraft, which was about 1,500 in July, would be 2,500 at the turn of the year and 3,000 monthly by the middle of 1942.

That factual Journal also recounts that one automobile manufacturer had in one year built and equipped the greatest tank arsenal in the world.

Then we have the survey made by President Walter D. Fuller, of the National Manufacturers Association—hardly an administration devotee. He says: "shortly we will be out - producing Germany in fighting tools, though Hitler has been arming since before 1935."

He also says: "America is turning out a military plane every two hours, around the clock". And finally, he advises that: "Our two ocean navy will be delivered to the public some two years ahead of schedule". And as for arms—semi-automatic Garands, automatic Brownings and sub-machine Thompsons—they are coming out at the rate of one every minute. Another alleged failure is the production of perhaps the most important of all—machine tools. Our production of these is four times the high we obtained during the first World War.

All of this does not sound like a lagging nation, preparing for anything that may come. However, we

A reader of this newspaper can get the answer to any question of facts about Texas by writing A. Garland Adair, Curator of Patriotic Exhibits, Texas Memorial Museum, Austin, Texas.

BACK TO SCHOOL—"Those early statesmen and patriots who assembled at the call of their adopted and distressed country 105 years ago at Washington-on-the-Brazos charged in the Texas Declaration of Independence as a just cause for revolution that the tyrant Santa Anna had founded no system of education for the people. So interested were the early Texas planners in the education of the people that they set aside nearly fifty million acres of land for public education, also specify building of a university of the first class. As the sound of bells is again soon to be heard in the land, we should be and are truly grateful that their message is music to our youth, to parents, to teachers, to school boards, and to friends of education throughout Texas. School bells are preferable to bombs and bullets. No state or nation can realize its fullest possibilities and greatest joys unless it builds upon the education of the whole people."—Governor Coke Stevenson.

Q. How many acres of public domain of Texas have been set

aside to finance free public education?

A. Bascom Giles, Commissioner of the General Land Office, said recently that 49,458,334 acres of the public domain have been set aside for the purpose of education. This figure is broken down as follows:

University of Texas and A. & M. College, 2,329,168 acres; Local county schools, 4,229,166 acres; Eleemosynary institutions, 400,000 acres; Public free school purposes, 42,500,000 acres.

Q. How many varieties of soil are there in Texas?

A. Department of Agriculture exhibits and records show there are more than 500 varieties of soil in Texas.

Official Trap Shoot shells	\$1.15
Mallard Shells	\$1.45
Super Range Shells	\$1.45

We're headquarters for huntsman's equipment at economy prices.

THE RECORD... Facts That Concern You

No. 30 of a Series

A BAD ONE DOES TURN UP ONCE IN A WHILE!

Good weather and a bumper crop! Even then one finds a poor stalk once in a while.

The retailing of beer is something like that. Most beer retailers operate respectable law-abiding establishments. Occasionally one finds an exception—a man who tries to beat the law or who permits anti-social conditions.

The beer industry wants this type of undesirable retailer stamped out. Your cooperation will help us in our clean-up efforts.

The beer industry brings important

benefits to the community. Here in Texas, beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.

Texas, too, has an important stake in the beer industry's purchases—for materials, equipment, and services—from over 100 other industries.

You can help us protect these benefits in two ways. First—patronize only the reputable places where beer is sold. Second—report to the proper authorities any law violation you may observe.

BEER...a beverage of moderation

Brownfield FRIDAY SATURDAY Texas

FIRST BALE RECEIVED LAST SATURDAY

The first bale of 1941 Terry county cotton was received here last Saturday, and was ginned by the Griffin Gin. It was sold to a Lubbock cotton buyer for 17c per pound, and weighed 460 lbs. The bale and seed brought around \$100. The first bale was received August 26th, last year, some ten days earlier.

J. A. Drennan was in this week to have his paper changed to Welch where he has moved. Mr. Drennan said he had gotten his mail on route 5 for the past fifteen years.

Mr. and Mrs. W. T. Ince of Lubbock spent the week end in Brownfield.

Roy Chambliss is teaching school in the Harlingen school system this year.

Mr. and Mrs. A. J. Burnett and Mr. and Mrs. Cecil Burnett of Monahans spent the week end in the home of Mr. and Mrs. John Burnett.

A marriage license has been issued to Liston Otis Moorhead and Ruby Lee Overman.

Edsel Miller left Thursday for Dallas where he will take a physical examination before the Marine corps.

Jeffrey Lynn, starred in Underground, coming Friday and Saturday at the Rialto.

1939 Plymouth 2-door sedan. In excellent condition. Priced to sell quick.

JORDAN MOTOR CO. Broadway at 5th Phone 345

Mrs. A. M. McBurnett, Mrs. Hardin Joyce and Jewel Mack Joyce were in this week to have Mrs. McBurnett's paper changed to Lubbock. She will keep house for Jewel Mack and Hardin Joyce, jr., while they attend Tech.

SURPLUS FOODS LISTED

Foods obtainable with blue stamps in Texas stamp plan areas during September are the same as those available during August, according to the Department of Agriculture's Surplus Marketing Administration. The complete list of surplus foods for the period September 1 through September 30 includes: Fresh pears, plums, prunes, apples, oranges, and peaches, fresh vegetables (including potatoes), corn meal, shell eggs, raisins, dried prunes, hominy (corn) grits, dry edible beans, wheat flour, enriched wheat flour, self rising flour, enriched self rising flour, and whole wheat (Graham) flour.

REVISION UNNECESSARY

People in our so-called creative art of advertising are notorious dabbles. Dibble is the diminutive of dabble. The difference between a dabbler and a dabbler can sometimes be very slight. Anyway, he sent his precious poem to the editor with this written notation: "Let me know by wire immediately if you can use this as I have other irons in the fire."

Back came a telegram reading, "Remove irons, insert poem.—Caps and lower case."
