

### WTCC Defense And Preservation Contest

Final entry list in the West Texas chamber of commerce Defense and Preservation contest stayed just over the century mark, announces the regional chamber.

As the deadline comes—set for December 1 by the WTCC's house of delegates at the recent Midland convention—the contest book showed a total of 101 West Texas towns, from the largest to the smallest, entered in the year-long inter-community competition. Announced objective of the contest in the stimulation of greater, more unified participation in national defense and in West Texas territorial activities—this through the regions chambers of commerce and Public Affairs committees. To date, 145 of these committees, with total membership of 1,113, have not been created.

The contest will close late in 1942. The announcement of the four winning towns, with award of \$500 in prizes, will be made at the WTCC's fall convention at Waco. The response from our towns has been remarkable, said J. Thomas Davis, WTCC president. The Defense and Preservation contest, he said is a unique method for securing widespread co-operation of business men and chambers of commerce in the West Texas territorial program, as well as for national defense. Also, he said it should solidify business interests and leadership through the chambers of commerce, for more and better business leadership is one of the needs of the hour, he asserted.

Brownfield has entered the contest.

Mr. and Mrs. A. D. Repp and Sonny Repp of Lubbock and Mr. and Mrs. Lee O. Allen enjoyed dinner Saturday night with Mr. and Mrs. W. R. McDuffie and family. Sonny Repp remained for the week end with Sonny McDuffie.

Mr. and Mrs. Marlin Hayhurst of Seminole spent the week end with Mr. and Mrs. Jim Graves. Mrs. Graves is very ill in the hospital.

### 21 OF 48 STATES REPRESENTED AT TECH

Lubbock, Dec. 9—Of the 48 states, 21 and three foreign countries are represented in the fall enrollment at Tech.

Besides Texas the number of students from the other 20 states are: Arizona 1, Arkansas 1, California 1, Colorado 9, Connecticut 1, Idaho 1, Illinois 2, Iowa 3, Kansas 5, Louisiana 2, Michigan 1, Mississippi 1, Missouri 6, New Mexico 56, New Jersey 1, Ohio 2, Oklahoma 25, Tennessee 1, Washington 1, and Wyoming 1.

Graham Botherson, junior engineer, registered from the Canal Zone. Abdul Mehta listed his home as India, he is a senior geologist.

Sophomore, Anthony Hauss, gave his home as Mexico.

King Vidor, Metro-Goldwyn Mayer movie producer and director, has presented the University of Texas scripts, model sets, costume designs and other production materials used in a recently filmed movie, "H. M. Pulham, Esq." The materials will form the basis upon which will be built a storehouse of information concerning movie production techniques, to be used by the University in its study of this industry. Vidor is a native Texan.

Mrs. L. M. Wingerd and Mrs. Lee O. Allen were Lubbock visitors Monday.

### FARM MACHINERY REPAIR

While the John Deere tractors and implements are handled by this firm, our expert workmen are prepared and equipped to make full and complete repairs on any tractor or farm equipment and at prices that will please you.

On account of government priority of iron and steel, there is no better time than right now to go over your farm equipment and find what parts are needed, or those that need repairing. If you get your implements in good shape now, there will be no delays this spring when you begin breaking, planting or cultivating.

Our workmen are ready to give you quick and accurate service. Come in and talk your needs with them, or better still bring your tractor or implement that needs overhauling.

Can't tell yet, but new machinery may be hard to get next year. Be prepared.

### Closer Coordination Of Colleges Urged

Closed coordination of the Army Navy and Civil Aeronautics Administration with American Colleges training young fliers to provide military air services with pilot material during the national emergency was urged by aviation representatives of 115 Eastern Universities.

Complaint by the Army and Navy that the CAA fails to deliver 100 per cent of its 45,000 college educated fliers a year to the air services was discussed by fifty college coordinators of the program who spoke for the 115 participating colleges from Maine to West Virginia. They met at the Hotel New Yorker.

Rumors that the army may "take over" pilot training in the colleges also were discussed, but members of the group said they knew of no official action in this direction.

Next year the Army will seek 400,000 pilot applicants against 45,000 this year, said Frederic S. Klein, president of the group and coordinator at Franklin and Marshall College, Lancaster, Pa.

The group initiated a move to have Army, Navy CAA and Civilian Pilot Training program heads meet in Washington for increasing the program's defense contribution. It also voted to take an occupational census immediately at all CPTP graduates in its area, Region 1 of the program.

Mr. Klein said he would propose that the census be made national when he attends a meeting of the country's seven regional group residents Dec. 1 in Kansas City, Mo.

Frank Andrews, regional director of the CPTP, urged the group to cooperate in every way with the defense effort.

Mrs. C. C. Aker and daughters of Hereford spent the week end with Mr. and Mrs. G. S. Webber.

### City Folk Ogle Stock Show Exhibits

That great livestock show that opened at Chicago the other day with a record attendance and more than 100,000 people presented a handsome array of cattle, horses, swine and sheep. But that was not all. The Chicago Daily News described another interesting feature in these words—

"Curious, wide-eyed city folk admired and handled the cattle waiting to enter the arena while apple-cheeked young showmen from the farms of America good-naturedly smiled back".

Wide-eyed country folk are supposed to come to the city and be entranced by big buildings, swiftly moving traffic, bright lights, and all the rest. That's what they used to do, on rare occasions. But today good roads and automobiles enable farmers to get to town easily for business or pleasure, and the movies nearer home have introduced them to the wonders of the city so frequently that they now take them quite calmly, and prefer the country.

No mere movie, however, can do justice to purebred livestock, groomed to a high state of beauty and paraded before the judges. The country people are producing such stock more and more these days, and it is left for city people who never raise any animals but pet cats and dogs, to attend the shows and awe with admiration. —Amarillo Times.

### Navy Seeks 100 Mechanics For Aviation

A special quota of one hundred mechanics for Naval aviation has been assigned this Recruiting district by Eighth Naval District Headquarters at New Orleans, La. J. E. Galloway, Chief Quartermaster and recruiting officer at Lubbock, announced today.

Men with mechanical aptitude, as indicated by graduation from an aviation, vocational, aviation trade school, previous employment or those who have had any mechanical experience are sought, Calloway said, adding that, the quota must be filled immediately. The openings are for men between the ages of 17 and 36 and enlistments are for the duration of the Emergency. Each accepted applicant will, upon completion of six weeks of military training, be sent to a Navy trade school for aviation for a period of from four to six months and then attached to an aviation unit of the navy.

Selective Service men who have not received their Army physical examination, or who have not been called by their draft boards for induction, are eligible, Calloway added.

Navy recruiting stations in this

### Tech Grown Castor Beans Tested

Lubbock Dec. 9—Samples of castor beans grown on the Tech farm were taken to College Station Tuesday by M. L. Lohman, who is with the Department of Agriculture. The samples will be tested for oil content and quality, the oil being used in various kinds of paints and varnishes.

Four varieties of castor beans were planted on four acres this year, according to Dr. A. W. Young, head of the plant industry department. Two acres have been harvested but not threshed, and the other two acres will be gathered as soon as possible.

Two University of Texas ex-students, Tyson M. Searcy of San Antonio and John J. Randall of Austin, are now pilots for Eastern Airlines, stationed at Atlanta, Ga.

Evelyn Jones was home from Tech for the week end.

### HOME! America's First Line Of Defense

An increasing number of American families has awakened to the fact that the greatest security that can be enjoyed is through home ownership. Newly-marrieds as well as old timers are planning to move into homes of their own—for which, in many instances they will pay no more, and perhaps less, than the equivalent of the present monthly rental. Where to buy? Through whom to buy? Where to find a dependable building contractor? Who to rely on for supplies?—Don't let these questions worry you, we take the entire load off your mind.

"Leading Dealers Everywhere"

Remarkable remarks:—  
P. T. Barnum—The American people like to be humbugged.  
Mark Twain—Everybody talks about the weather but nobody does anything about it.  
Bob Fitzsimmons, the smallest man who was ever world's heavy-weight champion prizefighter—The bigger they are, the harder they fall.

Vice-President Tom Marshall—What this country needs is a good 5-cent cigar.  
Herbert Hoover—A chicken in every pot and two cars in every garage.

The Governor of North Carolina to the Governor of South Carolina—It's a h--- of a long time between drinks.

If you aren't wearied by personal reminiscences (which any seasoned news-gatherer can match or surpass from his store of experiences), here's one more. The postmaster came into the Ranger Times office one day years ago when I was editor, and remarked,

office. One of the clerks had reported, "We've got an infernal machine". Sure enough, you could hear the ticking, like clock work. The postmaster soaked the parcel in water (as he had read was the police procedure) and then removed the cord and paper, revealing a tin bucket with a lid of the kind that takes a knife-blade to pry off. The ticking was plainer now.

The other numbers of the force stood back—after all, he was postmaster and was drawing the most money; besides, his life was not as valuable as a good Democrat's anyhow—(this was in the Herbert Hoover days.)

He pried the lid off—and the mystery was solved: the pail was almost full of Mexican jumping beans, which were bouncing against the sides and top of the bucket.

That story went all over the country—and the postmaster got a bunch of orders from the East for jumping beans.

About people you know: Governor Coke Stevenson, recently "vetoing" the suggestion he make a long trip by plane, said he'd rather drive so he could stop along the way and visit at the filling stations.

R. T. Craig, veteran editor of the Athens Review, has retired, temporarily, it is hoped—in order to obtain a needed rest. Judge Ralph Yarborough of Austin earned his first dollar by turning a big press by hand for Craig.

And modest, capable Garland

**Happy Landing!** Donald Morse (Robert Preston) learns to his sorrow what happens when he does something that he shouldn't do in his parachute training in a scene

A. Smith, Caldwell editor and just incidentally, that there had been a bomb scare at the post-president of the South Texas Press Association has been appointed chief clerk of the Texas treasury. "Beneath this stone, a lump of clay Lies Uncle Peter Daniels, Who too early in the month of May Took off his winter flannels".

Different epochs in world history have been known as the stone age, the bronze age, and the steel age, and so on. This era may be known as the canned juice age. Just a few years tomato juice was about the only kind that was canned. Now you can get pineapple juice, orange juice, grapefruit juice, kraut juice and carrot juice (heavens!)

By what process of reasoning does a small man become an authority on world affairs and rate a nation-wide radio hook-up just because, years ago, he flew across the Atlantic?

Or, for that matter, does the fact that a man has made a lot of automobiles and a lot of money make his views of any special importance on any subject except automobiles and money?

And though you can write me down as one—who, like Abou Ben Adam—loves his fellow man, I have difficulty in stretching that affection to include men who have never served a day in their lives on a newspaper yet blossom forth as nationally-syndicated columnists.

There was an old lady of Wooster Who was often annoyed by a rooster

She cut off his head Until he was dead And now he doesn't crow like

he user. I've always liked the paradox. "All generalizations are false—including this one".

And there was the fellow who exclaimed, "I'm a perfect fool" but a friend said, "Oh, no—no body is perfect".

**THE TRUTH**—takes in the aspect of swift-paced comedy at the hands of Bob Hope, in "Nothing But The Truth", new Paramount laugh provoker due Sunday at the Rialto Theatre.

Terry Lou Moorhead who attends Wayland College in Plainview was home for the week end.

Betty Shelton who formerly worked at the Jones' Theatres is now employed at Alexander's Drug.

Tom May and Grady Terry were in Fort Worth Monday and Tuesday on business.

By ABNER GORDON

THE washability of paint is an all-important consideration when restricted budgets make frequent re-decoration impossible. This is particularly true of kitchens, pantries, workrooms and the like where frequent washing of painted areas is essential for cleanliness and sanitation.

Paints which stain permanently or contain soluble compounds are obviously unsuited to the task. The former defy cleaning while the latter inevitably wash away or smear after a comparatively few applications of brush, soap and water.

Since white lead in linseed oil forms an insoluble film which is impervious alike to the action of dirt and grease, white lead paint is the economical coating for floors, fixtures and walls subject to soiling. With the use of white lead paint, any stains which may result are readily removable by simple washing.

Q: Suggest an economical way for laying a driveway and small parking circle. We have some gravel on hand. Can this serve for topping and foundation as well?

A: Although cinders are generally recommended as the foundation material, your gravel should prove most effective as a top dressing.

Before laying the cinders, level the ground, graduating grades as much as possible.

As the initial step, roll firmly in place an even layer of rough cinders about four inches thick. To complete the base, follow with a two-inch layer of fine cinders which in turn should be rolled thoroughly to assure a firm, homogeneous foundation.

A top dressing of either crushed stone or gravel will then suffice to produce a pleasing and serviceable driveway.

Roadbeds so constructed should drain well and provide indefinite service under normal usage, remaining unaffected by frost or weather.

**To Raise Balance Of Debt On A C C**

Abilene, Texas—John Ray and Hollis Manly, Abilene business men, have been selected chairman and vice-chairman, respectively, of a campaign to begin Dec. 9 to raise \$25,000 among the residents of this city to retire approximately half of the total indebtedness of Abilene Christian College.

Since mid-October the college administration has been engaged in a drive among friends of the school outside Abilene to raise funds to remove the other part of the indebtedness. Business leaders of Abilene have agreed to help raise half the debt provided patrons outside the city raised half.

Total indebtedness on September 1 was \$48,536 compared to total assets of \$758,067.53 as shown by the audit of May 31, 1941. This debt is the balance owed on the plant which was built in 1929 at a cost of about \$450,000 when the college moved from its downtown location.

President Don H. Morris, in charge of the campaign, stated that the purpose of debt removal is to prepare the way for future growth and expansion. Strong encouragement has been received everywhere, and with cooperation of friends and ex-students over the country success of the drive will be assured, President Morris said.

**INSULIN RUSHED FRENCH TO MEET CRITICAL SHORTAGE**

MARSEILLES—A mercy shipment of 880,000 units of insulin for the treatment of diabetics has been received here by Edward G. Sparrow, director of American Red Cross relief operations in unoccupied France.

Shipped by clipper plane from the United States by the Red Cross, the insulin consignment was in answer to a cabled request that insulin reserves were exhausted, creating a serious problem among the persons suffering diabetes.

Honey which has crystallized can be liquefied by placing the jar in moderate hot water at about 140 degrees F. It should not be heated to a higher temperature for that will injure the flavor and color.

### We Get To See Camp Bowie At Brownwood

The Old He and wife, carried our daughter Mrs. Herman Trigg, to her home in Brownwood Saturday, returning home Sunday afternoon. Most all cotton after you get under the cap is all out, and in the vicinity of Abilene and from there south, most of the fields have already been broken, and some sown in winter wheat and other grains. Cold weather had already hit there the same as here, and all leaves well killed, as well as grass with the exception of wild rye which generally stays green all winter in that section.

Brownwood was reached around 4:30 P. M., and the streets were crowded. Every two men were soldiers, the 3rd being in civilian clothes. To illustrate, Brownwood has around 18,000 people; there are some 30,000 soldiers at Camp Bowie just southwest of the city. However, we were informed that Brownwood is not really a Saturday town. Thursday is the day the soldiers get paid, and that's when the round of spending takes place. The payroll is around a million a month—some dough!

Of course we spent the night at the home of Mr. and Mrs. R. E. Graves. Mrs. Graves is Herman's mother. That afternoon she had gone to the lake and returned with a channel cat and a bass, both being alive when she reached home. Now you talk about a

fine supper (dinner to you, perhaps) but at that table is where we really shined. That was the best fish we have eaten in a long time. About 10:30, Mr. Graves came in from his Sweetwater run. He is a Santa Fe conductor. But at ten the next day he had to carry a troop train to Temple, or Houston, the designation as usual being a secret.

After carrying him to the depot, we went to Camp Bowie, got upon the high prominence overlooking the camp and city, where the headquarters unit is located, and could see the camp stretched before us for miles and miles. We understand the government is buying more land and will eventually double the capacity of the camp, to accommodate 60,000 troops. Coming down off the mountain, we drove through the grounds, streets by streets. If we did not miscount, they have 11 churches, eight theatres and numerous other places for recreation. We didn't know there were as many trucks in the world, enough perhaps to move all men, horses food and feed, guns and ammunition at one time.

Left Brownwood about one for home, and the first we heard of the Japanese attack was from a conversation between two soldiers at Sweetwater. They were hustling back to Camp Barkley. At Snyder we heard some more, still more at Post, and more at home when we arrived about dark.

While this trip there and back is around 500 miles, and time

limited, we really enjoyed it. But folks that weather they have down there pinches us just a bit more than Terry county weather. It seems to get right into your hide when the wind blows.

### Health Unit News

Activities of the Health Unit during the past week are:

The second well baby conference was held on Wednesday, Dec. 9 from two until four o'clock in the basement of the courthouse with Dr. Wayne C. Hill presiding and we are urging the presence of all mothers and babies until they are school age.

Assistance was given the Brownfield P T A with applying of the Patch Tests, for tuberculosis in the Brownfield schools. These were applied to all students from the fifth grade through senior high school inclusive. An approximate estimate was that nine hundred were given.

Home nursing classes were held in Brownfield for the WPA women and the regular school class in the Meadow high school.

Miss Jessie Rinehart, R. N. addressed the Gomez PTA concerning the Tuberculin Patch Tests. This office will be very glad to help them with these tests, should they vote in favor of this project.

The results of the Tuberculin Patch tests were read and the results of each child was informed as to the reaction of the test.

The usual treatment of the Venereal Disease patients received treatment from the clinic on Friday.

We are happy to state there has been only one more case of Scarlet Fever and this was a pre-school child. The contacts from the school were immediately sent home not to return until the beginning of the following week. In this way we have managed to control any further outbreak.

As the personnel of the health office was voted Chapter Chairman and chairman of different committees of the Red Cross Chapter last summer, activity in this line has taken place during this week.

W. S. Brumage, M. D., director, Five County Health Unit

### METHODIST CHURCH

Our Sunday School has a place for you and all the members of the family. The greatest need of the world today is the Word of God taught by men and women whose hearts the Holy Spirit has touched. We have such a corps of teachers. You will find them with well prepared lessons and well prepared hearts. We invite you to Sunday School at 9:45.

The pastor will preach at both hours Sunday. Timely and helpful messages await you.

Subject for the morning service at 11 o'clock: "Christ Jesus, the Heart of Christianity." The choir, under the direction of Ernest Smith, will give special Christmas music at the worship hour.

Young people will meet at 6:30. Subject for the evening service at 7:15: "Facing Realities of Life."

The Christmas holiday season is on and the annual offering for our Orphans Home at Waco is approaching. Those who have not had a part in this most worthy phase are urged to make a contribution Sun., Dec. 21. If you are planning to be away, get your offering in before you leave.

We invite strangers and visitors to worship with us.

You will find a warm welcome and a worshipful atmosphere.

### WEST WARD P. T. A.

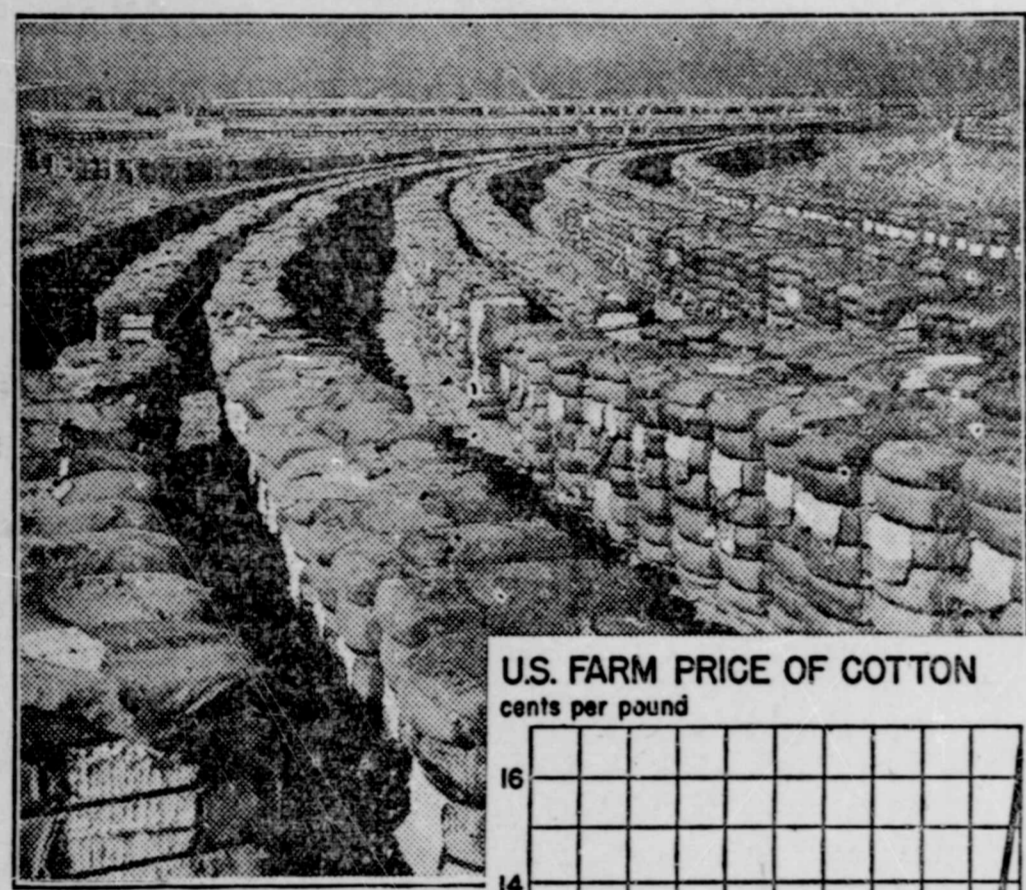

The West Ward P. T. A. met December 4th for one of the most interesting programs of the year. "Education at the Cross Roads" was the theme of the program with Mrs. W. L. Lee as leader. Invocation was lead by W. S. Boyett and the singing of carols was directed by Mrs. A. L. Bruce.

A playlet, "Three Dollars," was given by the high school students, and was directed by Miss Reba Newsom. Learning by Radio was given by Mrs. Tom Cobb. A business session followed and then the fourth grade room mothers were hostesses to the social hour. The next meeting will be held Thursday, January 1st, 1942 in the new primary school building. The theme of the program will be "Not By Bread Alone."

### MARRIAGE LICENSE

Marriage licenses were issued the past week to: George E. Hartley and Ruth C. Huffman; Vivian Benavides and Lidia Martiner; Daniel Costillo and Andrea Casteneda.

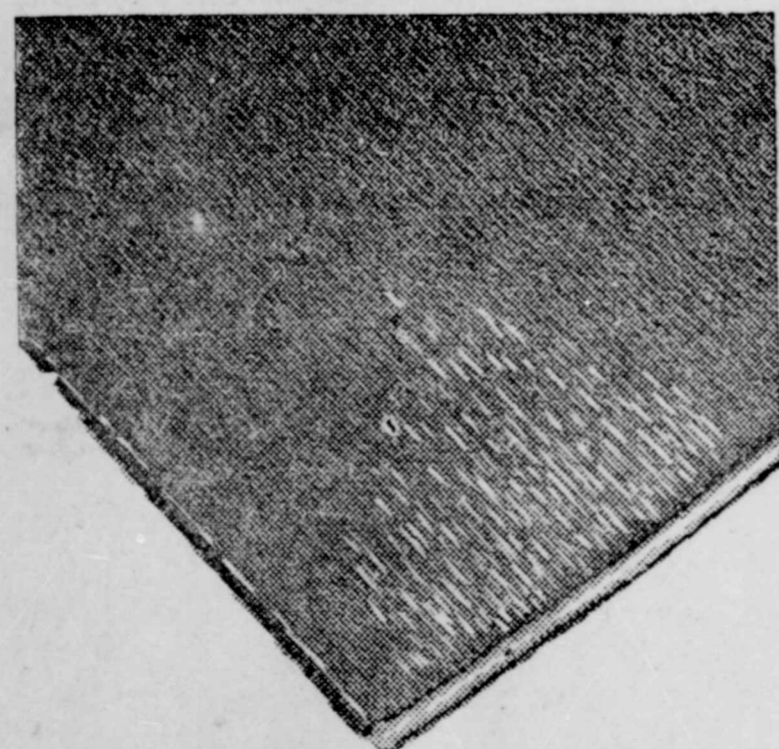

### Quotas Safeguard Cotton Prices

American cotton prices this year are the highest since 1929, as shown in the chart. Prices are near parity despite a drop in exports due to the war. Farmers are being protected through the AAA program, with its marketing quotas and price-supporting loans. Without a price-supporting program in 1936-37, surpluses piled up and prices dropped sharply. When marketing quotas were adopted in 1938, prices began to rise again.

This year the program, plus marketing quotas, the 85-percent-of-parity loan and increased domestic demand, caused prices to double. In the referendum to be held Saturday, December 13, cotton producers will vote for or against quotas. The decision will also affect loans, because, according to law, there can be no loans when quotas are rejected.

### PLAINS EASTERN STAR

The Plains Eastern Star met December 1st and the Deputy Grand matron, Mrs. Mary Lawson of Post was present. The chapter initiated three candidates. Those present from Brownfield were Mrs. Ida Bruton, Ione Turner, Velma Peacock, Molly Goodpasture, Mattie Lou Graves, Cornelia Moore, and Mr. and Mrs. F. M. Anington.

Linda Beth Stokes of Littlefield spent the week end with Ida May May.

Mr. and Mrs. A. J. Stricklin and Mrs. Herman Trigg spent the week end in Brownwood. Mrs. Trigg remained and she and her husband will make their home there.

Mr. and Mrs. George Newton and Mrs. Bailey Sewell of Lubbock visited in the B. W. Blevins and R. B. Bevers home's Sunday afternoon. Mrs. Sewell's husband is in the Phillipine Islands with the army. Mrs. Goldie Bevers accompanied them back to Lubbock for a visit with her sister Mrs. Florence Newton, Mrs. T. M. Morris, and Mrs. M. Bevers.

The University of Texas is opening extension classes in clerical and automotive work at the Camp Barkley Replacement center near Abilene. Soldiers at the camp will get training in these lines from University selected and trained teachers.

Mrs. Lester Treadaway is on the sick list this week.

### FIRST CHRISTIAN CHURCH

The Ladies Aid of the First Christian church met with Mrs. Bob Hamm December 8th. The devotional was given by Mrs. C. A. Veasey. Mrs. F. E. Walters lead the study of John 1-5. Members present were Mesdames K. N. McBride, C. A. Veasey, F. E. Walters, W. R. McDuffie, C. F. Shaffer, M. E. Brown, A. A. Sawyer, R. N. McClain and Crawford Burrow. The next meeting will be with Mrs. M. E. Brown Monday December 15.

Grace Tarpley was home from Tech for the week end.

**The FASHION FROCK of the WEEK!**  
Designed American—for Americans

**THE MARINE INFLUENCE as worn in Hollywood by June Stacey**  
Glamorous Star of the Screen

This patriotic trend in fashions has been accepted by military and more and more one will see frocks and dress details displaying the influence of some branch of our fighting forces. This week's fashion is from the Navy. It is designed on the middy-and-skirt motif in two pieces. The sailor collar is nudged at the front by a crisp taffeta looped tie matched to taffeta kerchief peeking out of the pocket on the bodice. Tucks through the middle fit in to form a trim slim waistline and there's a cuffed bottom and cuffed sleeves to the youth-giving midy. Deep, step-out pleats are carefully tailored in the skirt front. The duocolors, too, help to make the patriotic effect. The midy top comes in a brilliant red. The skirt in a navy blue. The fabric is a rayon serge.

As worn by June Stacey

Christmas comes but once a year— may it be all brightness and cheer for you, is our sincere wish. Serving you day and night in humble tasks as well as in the more demanding of life's activities, we strive to lighten your burdens, and add to your comfort. Please accept these Christmas greetings in the spirit in which they are heartily offered!

**LETTERS TO SANTA CLAUS**

**Brownfield, Texas**  
Dear Santa:  
I am a little boy 7 years old. I want a football helmet. A superman gun, and anything you want to leave me. Don't forget little Brenda Jean.  
Billie Spear.

**Brownfield, Texas**  
Dear Santa:  
Please remember us again this Christmas. We, Joann and Glenda want real pretty dolls, one Doctor and Nurse set, and a heart necklace each, also a jumping rope for Glenda. I, Leon want a station wagon, army truck, a train and a football.  
Don't forget the candy, nuts and fruit. Please don't forget our little California cousins, and all other children.  
Joann, Glenda and Leon Blevins.

**Brownfield, Texas**  
Dear Santa:  
I am writing early to tell you that I am going to spend Christmas in Florida with my Grandmother and Granddaddy and I want to be sure you know where I am.  
I would like a Betsy Wetsy doll with a suit case and clothes, if you have one, but if you don't I will be pleased with a baby doll

with a bottle. I would also like a pair of house shoes. I wish you would bring Dennis Knight a cowboy hat, because he told me yesterday he wants one.  
Love  
Charlotte Ann Smith.  
Brownfield, Texas

Dear Santa:  
I am a little girl 7 years old. I would like for you to bring me a graphoscope for drawing, and a doll wig for Shirley, my doll. A nine inch head size. I would like an electric iron. Remember by big brother, mother and daddy.  
With love,  
Mary Kate Daniel  
Brownfield, Texas

Dear Santa:  
I am a little boy 10 years old. For Christmas I want a wagon, tractor, fountain pen, and lots of fruit, nuts and candy. Please remember my friend, Jim Hazelwood.  
Owen Parrish  
Brownfield, Texas  
December 10, 1941

Dear Santa:  
I am a little boy six years old. I have been very good.  
Please bring me a little red wagon, train on a track, a pair of pajamas and lots of fruits, nuts and candy.  
With love,  
Billy Malcolm Thomason  
Brownfield, Texas  
December 10, 1941

Dear Santa:  
I am three years old and am a good little girl. I dry dishes for my mother and help keep the house.  
So please bring me a wagon, teddy bear and little broom. Don't

forget my mother and daddy.  
With love,  
Jo Anna Cook  
P. S. I live in town, so don't forget where I live.  
Brownfield, Texas  
December 10, 1941

Dear Santa:  
I am a little boy 8 years old. I have tried to be a good boy.  
Please bring me an air gun, knife and boxing gloves. Also some fruit, nut and candy.  
With love,  
Kenneth Wayne Thomason

**FISHER MAY HAVE GOTTEN AWAY**  
And the Groom News burst into ptery in feet and meters, whatever they are as follows:  
There once was a fisher named Fisher  
Who fished from the edge of a fissure  
But a fish with a grin  
Pulled the fisherman in,  
Now they're fishing the fissure for Fisher.

**Let This Be A Lesson To Others**

STEERS and heifers to trade for horses and mules. Lee Smith, city.

**Baltimore Receives Exact Duplicate Of Original "Star Spangled Banner"**

A huge flag which is the first exact duplicate of the original "Star Spangled Banner"—was presented to the city of Baltimore recently with impressive ceremonies and it is now preserved in the War Memorial Building there.  
The original flag was flying above Fort McHenry during the attack on the city in September, 1814, and it inspired Francis Scott Key to write his immortal poem.  
In the presence of representatives of historical and patriotic societies, and of the United States treasury, war and navy departments, and thousands of other persons, the duplicate was presented to the Hon. Howard W. Jackson, Mayor of Baltimore, in ceremonies at the War Memorial Plaza.  
The presentation was made by George B. Sippel of Cincinnati, president of the Master Brewers Association of America on the occasion of its 38th Annual Convention. The ceremonies included an address by Arthur P. Sewell, curator of the "Flag House" on the history of the "Star Spangled Banner," the unfurling of the duplicate and singing of the anthem by an audience of thousands. Colonel Edwin Butcher, chief of staff of the Third Corps Area, represented the United States Army. At the conclusion of the program, the flag was carried through the crowd to the War Memorial by 12 young women, representing the Daughters of the Defenders. They were dressed in costumes of 1814.  
The original flag was made by Mrs. Mary Young Pickersgill on the maling floor of a Baltimore brewery and, because of incorrect traditions regarding its size, no exact duplicate of it has been made until this year. The original specifications found in historical archives showed that the flag was 30 feet by 42 feet 2 inches and consisted of 15 stripes and 15 stars. The tattered remnants of the original flag are in the National Museum in Washington. It was riddled by shot and shell during the battle, and was preserved in the family of Major Armistead, the Fort's Commanding Officer until it was made a national relic.

**Popular Nurse Passed Away Saturday**

Miss Mattie Hancock, 35, who had been a night nurse at the Treadaway-Daniell hospital for the past three years, was reported to have passed away at 5 A. M., Saturday morning with a heart attack. This ministering angel to the sick let nothing hinder her from the performance to her duty to those ill under her care. She was generally regarded as one of the best nurses that the institution ever had.  
She was the daughter of Mr. and Mrs. W. J. Hancock of Wilson, where they and other relatives lived. The body was carried to that town overland by Brownfield Funeral Home, and the funeral was held there Sunday afternoon at three o'clock. It was attended by all the nurses of the hospital that could be spared from duty. Miss Mattie Hancock will be missed greatly by the hospital staff.  
Mr. and Mrs. Jimmy German have moved into their new home in the east section of town.  
Mr. and Mrs. John Scudday of Forsan visited Mr. and Mrs. R. M. Kendrick Wednesday.  
R. M. Kendrick went to Dallas Wednesday on business.  
Mamie Drennan visited her sister in Lubbock over the week end.  
**MARRIAGE LICENSE**  
Marriage licenses were issued the past week to: George E. Harlley and Ruth C. Huffman; Vivian Benavides and Lidia Martinez; Daniel Costillo and Andrea Casteneda.

**The Passing Of J. M. Story**

The passing of another grand old man and pioneer of this and Yoakum county, has to be recorded this week in the death Monday of J. M. Story, 72, who lived on the R. M. Kendrick ranch in Yoakum county for the past several years, near the Denver City oil fields. J. M. Story came to Terry county some 20 years ago, settled on a farm southwest of the city, and made friends fast. Mr. Story originated in Bell county and was a section boss in his early days, and we have heard that Ex-Governor Jim Ferguson worked in his crew. He moved to Yoakum county some 15 years ago.  
He leaves to mourn his departure his beloved wife, five sons and three daughters, O. F. of Lakeview; Bill and Jim of Plains; Bruce of Hobbs, N. M.; Grady of Ft. Knox, Ky; Mrs. J. T. Beams, Seagraves; Mrs. J. C. Duncan, Fort Worth. Seven grandchildren survive. Four brothers and two sisters survive him, Claude of Miles; Isham of Burnett; Raymond and Sherman of Miles. Mrs. Paralee McBride and Miss Ann Story, both of Belton, are sisters.  
Funeral from the Methodist church, Brownfield, Dec. 10th, at 3:30 P. M., Rev. C. E. Fike, assisted by Revs. O. P. Clark and

H. W. Hanks, officiating Interment in Terry County Memorial Cemetery under direction of Brownfield Funeral Home.  
Active pallbearers were Delbert Rodgers, Woody Reed, L. E. McClish, Howard Hill, Clovis Kendrick and Dick McDuffie. Honorary pallbearers were E. P. Stanford, J. H. Lynn, Clyde Lewis, Clarence L Lewis, R. M. Kendrick and John Scudday.  
Mrs. Garrett Dougherty and Mrs. W. S. Brumage were Lubbock visitors Friday.  
Mrs. George Warren is ill with the flu.  
Mr. and Mrs. W. C. Mathis of Lubbock spent Sunday with Mr. and Mrs. B. L. McPherson.  
Mrs. U. D. Sawyer of Cross roads, New Mexico is visiting Grandmother Lewis who is ill.

**BOYS' LIFE**  
There is a tremendous need for a clean, wholesome, yet entertaining boys' publication.  
That's why, for 30 years, the Boy Scouts of America has published BOYS' LIFE.  
It's the magazine you will be glad to give your son... or a friend's son.  
Only \$1.50 a year... \$2.50 for 2 years.  
Send your order to: New York  
Boys' Life, No. 2 Park Ave.  
Or to your newspaper office or local agent.

**FROM OUR HOUSE TO YOUR HOME . . . WE SEND THE SEASON'S GREETINGS—**

In our great America one has only the need to pass down a quiet little street in the evening and see the soft lights gleaming from each cottage window and there enters into his heart a deep feeling of peace and security—At Christmas Time we call it the Christmas Spirit, at other times it's just known as contentment. The home is the chief basis upon which Democracy is built. Guard it ever well.

believe that Texas' armies during the Revolution also traveled on oil? Muster rolls in the General Land office include several orders by the quartermaster's department for barrels of bear oil. Land Commissioner Giles explains that this oil was used by the soldiers to keep their saddles soft and pliant, and therefore, the soldiers "traveled on oil". Q. How many Texans died in World War I? A. According to files and records in the Texas Memorial Museum,

That's a far-away look hubby John Sutton has in his eye as Lynn Bari tries to get some attention. He'd better watch out for Dan Dailey, jr., the glamour-boy of "Moon-Over Her Shoulder".

RITZ

FRIDAY-SATURDAY

SUN.-MON.

TUESDAY-WEDNESDAY

THURSDAY

Austin, more than 5,000 Texans died in service during the war. Population of Texas: On April 1, 1940, date of the 17th decennial census, Texas had a population of 6,414,824. This figure was 10.1 per cent or 590,109 above the census figure taken in 1930.

Q. What and where is monument Hill?

A. Monument Hill is located on the outskirts of La Grange on a branch of the highway leading to Schulenberg. On the brow of this beauty spot overlooking the Colorado River has been erected a monument to the 15 Mier prisoners who drew black beans and were shot on the orders of Santa Anna.

Q. Who was the first governor to occupy the Governor's mansion?

A. Governor E. M. Pease. He moved in upon completion in 1855.

Factual:—Four Texas cities have a population of more than 100,000 inhabitants, according to the 1940 federal census. They are Houston, Dallas, San Antonio and Fort Worth.

Q. How many Texas cities have a population of more than 10,000?

A. Forty-four, according to the 1940 federal census.

One hundred and fifty University of Texas co-eds have begun knitting for some of the 1,600,000 soldiers in the U. S. Army and for refugees. Under supervision of the Red Cross, members of the Present Day Club at the University are knitting garments needed by men in camps and by refugees who have lost their homes in Europe's war.

Mr. and Mrs. Will Cunningham of Utopia visited Mrs. R. M. Kendrick Sunday.

Beware The Destructive Cockroach

The conscientious housewife doesn't broadcast the news when cockroaches invade her home. But according to Cameron Siddall, entomologist of the A and M College Extension service. It is not a social error if the evil insects appear in any well equipped kitchen. In parts of Texas they may develop out of doors and crawl or fly in. They have no social preferences and thrive equally well in the mansion or humble cottage, especially if the eating is good.

Siddall offers comfort to afflicted homes with the assurance that roaches easily may be eliminated when the source of infestation can be controlled. Crack fillers, such as putty, plastic wood, or as avenues to hiding places. Openings can be located by watching roaches run for concealment. All cracks around water and drainage pipes passing through floors, and those leading to spaces behind baseboards, door and window trims should be filled.

Sodium fluoride powder is recommender to control roaches, and gives best results when used with a small dust gun. An inexpensive fly spray is satisfactory. The powder should be dusted into all cracks, behind baseboards, moldings, sills and other places in which roaches hide. Sodium fluoride is poisonous to humans and should be used with great care. The sprayer should be perfectly dry and poison in a fine powdered form. If a sprayer is not available, fair results may be obtained by sprinkling the powder into the places mentioned and in the roach runs. A thin film of poison is more effective than when used in large quantities.

Pyrethrum is non-poisonous and gives excellent control when applied in all cracks. It stupefies the roaches, causing them to turn on their backs, but the material is not very effective unless used with a dust gun. Additional information may be obtained from county agricultural agents.

Worms, Weevils May Be On Way Out

Austin, Texas, Dec. 8.—The boll weevil and the pink boll worm—twin scourges of the U S Cotton farmer for generations—may be on the way out.

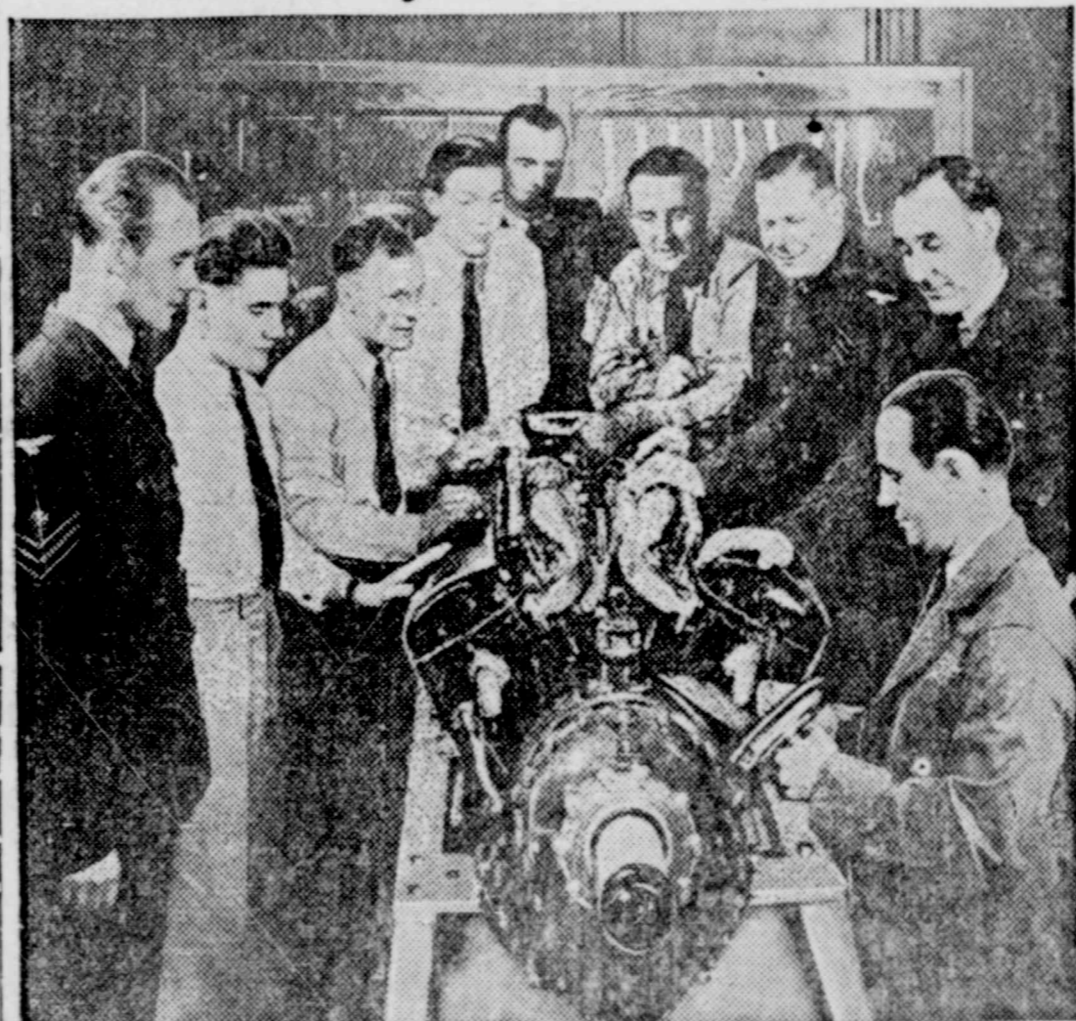

That's the news from University of Texas cotton research laboratories, where technicians are working on a way to control these pests, two of the most dangerous to the major U. S. Crop.

The new method—encouraging a small insect, microbacon, to parasitize the weevil and destroy it by boring into its lair—is efficient and cheap says, Dr. G. W. Goldsmith, botany professor and director of reseach says.

Recently returned from a Dallas meeting of the Texas cotton council, Dr. Goldsmith announced that arrangements were discussed to breed and distribute the insect through already-existing government channels.

John Carpenter, working with

U. S. Engine Used by British Studied by R.A.F. Flyers Here

SYMBOL of the American aid-to-Britain program under which Allison-powered warplanes are helping to fight the Axis on many fronts, a group of British R.A.F. fliers and mechanics is shown receiving instruction at the Allison Service Department in Indianapolis, Ind. Left to right: Flight Sergt. John H. Baley, Corp. C. A. Regan, Flight

WHY FREEZE through another winter when it's warm as June in a Conditioned Air Nash? This new kind of car in the lowest-price field goes 25 to 30 miles on a gallon, at highway speed . . . helps you cut your motoring costs one-third. The only car at the price with the comfort of four-wheel coil springs, Two-way Roller Steering, a "Sedan Sleeper" Bed. Drive a new Nash today. Outwit winter, and save money, too!

Dr. Goldsmith, is doing research on the problem of breeding the insects in the winter so that myriads can be turned loose in the spring to gobble the weevils. During the cold season, cotton's life preservers live and multiply on a diet of flour moths, Mr. Carpenter has found. Flour moths and the two cotton pests about round out microbacon's tastes, Dr. Goldsmith believes. There will be no danger of the insect's becoming a pest itself, as some other artificially-introduced insects have in the past he says.

Mahon Votes For Anti-Strike Bill

In a report from Washington Representative George Mahon states that he voted for the bill designed to prevent defense strikes which passed the House last week. Mahon for months had advocated action by the President and Congress against strikes and delays in defense production. He said that a handful of racketeers should not be permitted to wreck the program of the overwhelming majority of the American people; that the legislation was also designed to be helpful to the great mass of patriotic workers.

The American people are aroused, he asserted, and actions is necessary in order to make the defense program effective and in order to promote unity among our people.

The bill passed the House by a vote of 252 to 136 and was referred to the Senate. A majority of those opposing the bill were from the industrial areas.

Folklore Of The Chase In East Texas

An old East Texas boy went out hunting opening day. He had a pretty good rifle. He took his dog along, for he lived in a County where you can legally chase wounded deer with one dog. He was hunting in his home county, so he didn't have to have a license. But somehow he believed that he had to have a special license to kill a deer. He didn't have one, and his conscience was hurting him, whether he knew it or not.

Just as he got set, with his dog behind his knees and his rifle held at ready, a Game Warden walked up. He meant no harm. "Hello, there" the Warden said.

GO In Summer Comfort— 25 to 30 Miles on a Gallon!

IMMEDIATE DELIVERY KEE AUTO EXCHANGE So. of Edwards Food Store - Brownfield

"Had any luck?" The old East Texas boy was scared stiff.

"Nope," he said. I don't hunt, and anyway, I ain't got no deer license".

The game warden patiently explained that it wasn't necessary to have a "deer" license to kill a deer as many East Texas people believe. He told the hunter he could go and kill a deer if he could. The east Texan's face lighted up with a broad smile.

Then the game warden walked on, chuckling at the old boy's reply that "I don't hunt" while at the same time he was squatting down in good deer territory with a good deer dog near him, and a deer rifle in his hands.

SOUTHWEST CONFERENCE ATTENDANCE TO PASS 500,000 MARK

The knock-down drag-out Southwest conference football campaign with its multiple upsets and surprises may not have been good for the heralded teams that fell in the stretch, but it was tops as far as those who count the gate receipts are concerned.

Two more home games remain to be played and the total attendance for the year is bound to go over the 500,000 mark.

Last years attendance for thirty three home games was 462,503.

Dr. and Mrs. W. S. Brumage and Mr. and Mrs. Richard Kendrick were Plainview visitors Saturday evening.

Mrs. Wilson Collins and Mrs. Spencer Kendrick spent Thursday in Tahoka.

Mr. and Mrs. Orb Stice and daughters visited friends in Lovington, New Mexico over the week end.

Glen Akers and R. M. Kendrick are in Colorado on a business trip.

GOMEZ H D CLUB

The Gomez Home Demonstration club met with Mrs. Kellie Sears on Wednesday, November 26. After the business meeting the program "Home Food Supply Achievement Day" was turned over to Mrs. Sears.

We were shown her frame garden and there we saw parsley, parsnips, spinach, lettuce, onions, carrots and swiss chard growing. We then went through her cellar where we saw a bountiful supply of foods canned and dried. She has canned 1,062 containers of fruits, vegetables, jellies, preserves pickles and relishes. She has dried fruit, okra, beans and peas. She has onions, potatoes, squash and fresh tomatoes wrapped in paper.

With fresh meats at the locker plant and cured meats at home with her chickens and turkeys we don't think they will need to get very hungry for some time to come.

Some of the club ladies sent and brought cookies made of whole wheat flour which was pronounced good. These with whole milk and apples were served to the 12 members and 3 visitors present.

Our next meeting will be our Christmas party in the home of Mrs. W. G. Swain on December 17.

Howitzer Shells For Hitler

Passed by Censor.

THIS small corner of a munitions plant somewhere in Canada which is manufacturing howitzer shells gives an idea of the vast munitions program upon which the Dominion is engaged. In the manufacture of shells, chemicals and explosives, Canada has assumed a position of supreme importance in the war. Nine of the Dominion's twelve chemical and explosive plants (one of them the largest in the British Empire) are producing and the

balance will be in operation soon. This year alone, the total production of explosives in Canada should exceed the entire Canadian output during the whole of the 1914-18 World War. In the munitions plants, nine types of gun ammunition are being produced at a rate of millions of rounds per year. About forty per cent of the total national income of Canada this year will be spent by the Dominion for her own military needs and to give financial aid to Great Britain.

Defense Bond Quiz

Q. What are payroll allotments for the purchase of Defense Savings Bonds?  
A. They are portions of employee earnings set aside each pay day voluntarily in individual workers for buying Defense Savings Bonds, or Stamps to be exchanged eventually for Bonds, which become the personal property of the employee. Hundreds of companies have set up such arrangements to help their personell save con-

tinuously and regularly.  
Q. How can I give a Defense Savings Bond as a gift?  
A. Buy series E Bond at your post-

office or bank, and have it issued in the name of the intended recipient.

My Week by Eleanor Roosevelt

DINNER WITH PRESIDENT

We had a very pleasant dinner party one night, consisting of my husband and myself. He ate milk toast and I ate one poached egg, which was good for our figures and permitted much conversation, since neither of us had to pay attention to our food.

PRIORITY PROBLEM

One noon, I met a very charming young woman who, with her sister, has taken over her late husband's business, the making of wire screening. Priorities affect this industry, especially where they use copper. It is not a very large industry and the amount of materials needed in it are not very great, but Mrs. John Ralston is here not only in the interests of her own plant or the industry, but because of the danger she feels a shortage of screen wire will mean to the health of the nation.

HEALTH GROUP

Talking of health, a most interesting health co-operative came to my attention the other day. It is called the New York Volunteer Health co-operative. You have a certain freedom in the choice of doctors. You pay \$18 a year without hospitalization. You cannot belong if you earn more than \$2,000 a year while single, or \$3,000 a year when married. There are already over 1,000 members.

There is much I should like to find out about this organization. For instance, just what are the services rendered if hospitalization is not included? I suppose if there is only a limited choice of doctors, there will be the same complaint about the doctor-patient relationship. People in this salary range do need more access to good and inexpensive medical care.

FULL SCHEDULE

It's Your Life

When your back wheels slide crazily and your heart sinks—you are driving too fast for safety. But how can you tell when you are likely to skid? One way to find out is to try out your brakes on a slippery road while traveling at about 10 miles an hour. If your car tends to slide at this speed (be extremely careful at higher speeds. Exactly what you do when your car is skidding depends on your driving experience. Here are some suggestions, however, that are well worth following: 1. Don't put your foot on the brake.

Here was my schedule on one busy day: Beginning with a meeting in the morning at nine o'clock at the office of civilian defense, I had no free minutes until I was back at the White House at 12:15 to meet and be photographed with Miss Margaret Hamma, the world's champion typist. Then I went to the Women's National Press club luncheon.

In spite of my membership in this club, I rarely manage to get there for lunch. Tuesdays come and go and there always seems to be something desperately necessary to be done at home.

At 2:30 I went to the sale for United China relief, received a group of 10 people at the White House a little after three, and made a four o'clock plane for New York city.

This was followed by a speech that night at Hunter college.

WAR NEWS

I find it increasingly difficult to feel either elated or depressed by the news which comes to us from the actual theaters of war. When I read one dispatch, the Nazis claim continuing victories. When I read another, the other side has moved forward without any setbacks. I now just pray that I can believe the things which I want to believe, and try to forget the rest.

MUSIC AND DEFENSE

One morning there came to my office in Civilian Defense headquarters, three women representing the National Federation of Music Clubs. They told me of the work they are doing for defense, and what they have accomplished is really astounding. Through their state and national organizations, they have already given phonographs to every camp. They provide records and their members volunteer to teach choral singing, to play for entertainments and to give concerts in various camps and nearby places where the boys congregate on leave.

Here is an organization which really has something to offer in the way of entertainment and has quietly gone about its work and already accomplished a great deal.

'UNEMPLOYABLES'

I received an interesting little folder the other day sent out by the Community Service society in New York city. It describes their employment service, which is largely devoted to placing people who, for one reason or another, have lost confidence in their own ability to hold a job. This is a difficult service because it is hard to find the right conditions and the right people to work together, so that the person to be rehabilitated will finally feel capable of standing alone.

Supreme In Circulation

2. Don't throw out your clutch. Stopping on slippery or icy streets is often difficult. The first rule for safe stopping under these conditions is to begin slowing your car some distance from the stop where you wish to stop. At first, press your brake lightly and release almost at once. Then press it again, release quickly and repeat. By using this method, instead of applying your brakes continuously, you can usually stop without skidding. It is better to stall your engine than allow your car to waltz all over the road. 3. Take your foot off the gas.

4. To pull out of a skid, turn the steering wheel in the same direction that the rear of the car is sliding. You must be quick about this or the skid will be over and any damage likely to occur will be done. Swerving suddenly or jamming on your brakes at high speed may cause skidding even on dry roads. A slight swerve or a sharp turn even at reasonable speed on wet, oily, or icy pavements, or roads covered with soggy leaves may result in a disastrous skid. Smooth worn tires and unequal brake or air pressure are also frequently the cause of serious skids.

W. W. Patterson of Austin has been appointed director of the University of Texas Legal Aid Clinic. The clinic offers legal counsel to Texas' indigent, its work being supervised by a faculty director who oversees practice of high-ranking senior students in the University's Law School.

Three University of Texas art professors are painting post office murals for the Federal Government. Postoffices at Alvin and Hamilton, Texas, and Benton Arkansas, will be home for the murals.

### Baptist Church News

Attendance somewhat smaller last Sunday at all services. The offering to reduce the debt on our building was started by those present and it is much desired that every member of the church have a part in this worthy undertaking which must be closed by Jan. 1st.

Bombs began to drop on territory of the U. S. A. last Sunday and right now is the time for our church to begin putting our finances in better order which can only be done by cooperation and liberality.

A Sunday School conference held Thursday of this week by experts sent to us by the Sunday School board should profit our organization which aspires to become first class. It is a worthy goal and those teaching the Bible certainly should not be less efficient than teachers in our public school.

Next Monday evening is the regular meeting of our Brotherhood and the men seem to be the problem children of the church as it is difficult to secure their cooperation in attendance and preparation of their study and as this is the last meeting of the present year it should be well attended and well prepared by those on the program.

We greatly deplore the war now raging of which our own beloved country is a part and already a good number of young men of this church are under colors, but war is to be preferred before slavery and freedom to worship God as we prefer, and we should be greatly humbled as we face the ordeal.

Visitors are welcome at every service.

### ANOTHER PIONEER PASSES

John J. Kendrick, 68, a resident of this section for the past 40 years, passed away Monday at noon in the family residence at Seminole. Mr. Kendrick had not been in the best of health for several years. He went to Yoakum county in 1904, and helped to organize and set that county to housekeeping. He was mostly engaged in real estate business. He moved to Seagraves about 1920, and became first mayor of that city when it organized.

Around 1930, he was elected county judge of Gaines county and served three or four terms, after which he moved to Lubbock to put his children in college, but stayed there only a short time and removed to Seminole. Mr. Kendrick was a highly respected citizen, always had a word of cheer for his fellowman, was an excellent husband and father.

He is survived by his wife and three children, Mrs. Basil Reynolds, of Munday; John J. Kendrick jr., of this city; and Miss Ruth Kendrick of Lubbock; one grandson, son of Mr. and Mrs. Reynolds. All attended the funeral. He is also survived by two brothers and two sisters, R. M. Kendrick of this city; Billye Kendrick of Colorado City; Mrs. Ger-

### Soldiers Choose "Correspondence Queen"

Dorothy Mae Condon, 19, Janesville, Wis., voted by thousands of men at Camp Lee, Va., as the "prettiest girl writing to a soldier," took her laurels graciously last week as she visited the scene of her conquest to be feted and entertained by the doughboys stationed at the Camp. Miss Condon is an employee of the Chevrolet plant at Janesville, and her employer made it possible for her to fly to her soldier sweetheart, Corporal Robert Carr, whose submission of her photograph in the Camp contest resulted in her selection as the prettiest correspondent.

trude Jenkins, also of Colorado City, and Mrs. Mattie Young of Lubbock.

Funeral services were held at Seminole Tuesday afternoon at 1:30 at the Methodist church. He was later buried in the Seagraves cemetery with Masonic honors.

Each girl will take her supper and bedding and we need a sponsor for every ten girls. All WMS presidents are invited. Each pastor and wife and each Young People's leader. Each WMS is asked for a dollar to help pay Mrs. Culpepper's expense.

Let us pray that the Master's Will be done.

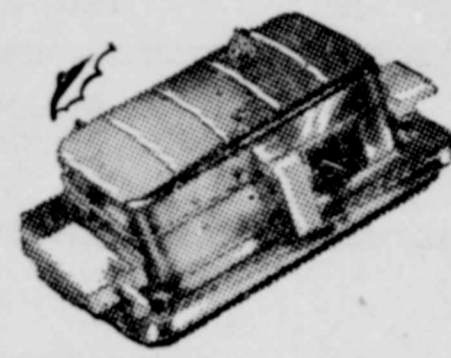

A definite move is on in Texas to curb campaign expenses of the state candidates. Bill has been prepared for legislature which will seek to curb expenses. However, the direct primary is a very expensive sort of campaign, and so far there are too many ways of evading the law. For instance the people of Texas thrice largely paid the campaign expenses of W. Lee O'Daniel by dropping money into the flour barrels. This money did not count toward the campaign expenses of O'Daniel. Any candidate may benefit by having his friends spend huge funds in his campaigns. Curbing such expenditures is more easily said than done. — Canyon News.

A. J. Stricklin, sr., and wife attended the formal opening of the Carpenter Paper Company new wholesale plant at Lubbock, Monday night.

### WHAT WILL THEY THINK UP NEXT ?

A New York production concern announces that after four years of experiments, a new fibre named aralac and made from casein, is being produced commercially for the textile industry. In case you don't know it, casein is a white amorphous phosphoprotein occurring in milk of various animals.

The new fibre, which will compete with wool and synthetic yarn, is created by treating casein with chemicals and heating it into viscous honey-like form. In that state it is forced through spinnerets under hydrostatic pressure and the emulsion emerges as thousands of strands of fibre called "wet tow". After other treatments the fibre becomes "soft and

luxurious". Milk from the pail to the bale!

Those admitted to Treadaway-Daniell Hospital for treatment the past week were: Buster Brown, Plains; Mrs. Norman Steen, City; Mrs. S. G. Hart, City; Mrs. L. A. Shelton, Oklahoma City; Mrs. Jim Graves, City; Mrs. Carter Fines, City; Bill Davidson, City; Mrs. A. L. Tittle, City, and R. W. Horton of Meadow.

### FLU, MEASLES HARBINGERS OF PNEUMONIA

Austin, Texas Dec. 8—With a high incidence of influenza and measles over the state, the public should be awake to the danger of pneumonia as a complication of these diseases, according to Doctor Geo. W. Cox, state health officer.

Pneumonia is recognized as a dangerous and often fatal disease, Doctor Cox pointed out, and competent medical care with skilled nursing in measles and influenza will materially lessen the danger of pneumonia, he stated.

The public has been slow to recognize pneumonia as being definitely a contagious disease, he asserted, and this in part has accounted for the huge toll of lives claimed by this disease yearly.

In your every day routine of living, get plenty of sleep, rest, exercise, and fresh air. Include sufficient liquids in the diet, and, above all stay away from direct contact with sources of infection, Doctor Cox urged.

Sensible, healthful living and dressing in accordance with the weather can do much to prevent

the occurrence of pneumonia, declared Doctor Cox, and it is much easier and certainly much safer to avoid pneumonia than to attempt to overcome it when it strikes he said.

Foul weather hit again Wednesday with misty and light showers. A bit of ice formed on the trees at night. "Way down in Texas" where they like to predict weather for us, they had it very cold up here. They have missed it so much this year they ought to get some results or shut up.

In telling who all renewed we forgot Cong. George Mahon of Washington, D. C.

Mr. and Mrs. T. R. Black and Mr. and Mrs. Homer Newman were Big Spring visitors Sunday.

Ships ----- 98c

TRICYCLES  
up to \$9.95

BUILDING TOYS  
49c, up

### Some Things The P. O. Would Like For To Know And Observe

1. Mail your Christmas packages and cards now.
2. Put a good legible, address and return on one side only.
3. Do not seal your Christmas parcels. If you do be sure you have a parcel post sticker on your package.
4. Do not put Christmas letters in your packages. To do so will subject the entire parcel to the first class rate of postage.
5. Do not seal packages with Christmas seals on the address side of the package.
6. Insure and register all valuable mail. Particularly insure and register all mail going to the boys in the service.
7. Select Christmas cards of decent size-not too large or too small.
8. Christmas cards mailed to per-

sons in town may go for 1c but these should be sealed just like an ordinary drop letter.  
9. Christmas cards may be mailed anywhere in the United States for 1-2c if unsealed, but bear this in mind that they go as third class mail and they can neither be returned to or forwarded on to another office.  
10. Remember this—The office open at 8:00 A. M. and closes at 6:00 P. M.  
11. First class mail during the Christmas rush will never be up before 11:30 A. M. and many times not then. The mail will be invariably late.  
12. All classes of mail you desire to leave in the morning must be in the office by 11:30 A. M.  
13. Parcel Post leaves only once a day. It must be in the the office

by 11:30 A. M. if you desire it to leave that day.  
14. Our evening mail due here at 5:00 P. M. will never be up until after 6:00 P. M.  
15. Be sure to get your evening mail to the office by 6:30 if at all possible.  
16. Remember air mail in the United States is still going strong although it is somewhat slowed up in the Pacific.  
17. Bring your keys for your lock boxes. Please don't ask us to hand you your mail out of your boxes. We will have just about all we can do anyway.  
18. Rural delivery patrons please notice, for the next two weeks the carriers leaving time will be changed to leave the office at 12 o'clock. They will do their best to maintain a fairly decent schedule during this holiday rush period so you will not have to wait so long at your boxes.  
19. We ask all patrons big and

small to stay out of the work room of the Post Office. This is official orders.  
We believe if you read and observe the above listed items that it will be most helpful to you and to us. We ask your cooperation during this rush period and hope that we can give you the very best of service in return. We wish all our patrons a very Merry Christmas.  
James H. Dallas  
Postmaster.  
Postmaster James H. Dallas reports that the war has started a very noticeable increase in Defense Bond Buying.  
The local Odd Fellows enjoyed an oyster supper at their hall Tuesday night.  
Mr. and Mrs. Mutt Scudday of Denver City spent Wednesday here.
