## OUR WAR WITH SPAIN INSPIRED NEW SLOGAN

Our association with the Filipino people who, along with the American forces, have responded so nobly to the desperate onslaught of the Japanese while fighting in a common cause, came about through an incident which most of us have forgotten. It began with our war with Spain, and is an aftermath of several historic happenings, beginning on the night of February 15, 1898, when the battleship Maine lay at anchor in Havana Harbor. Aboard the vessel "Taps" had just been sounded by the U. S. Marine trumpeter.

**Many Lives Lost**  
Suddenly a terrific explosion all but tore the vessel apart, while death, agony, flames and smoke took command. More than 260 lives were snuffed out in the tragedy.

At the time of the explosion Private William Anthony of the U. S. Marines, was the orderly of Captain Charles D. Sigsbee who was in his cabin. Every light in the compartment went out. There was immediate and intense darkness.

**Private Anthony Reports**  
Fully aware that the ship was about to sink, Anthony rushed from the comparative safety of the open deck into the darkened passage of the doomed vessel to find his captain.

Every instinct of the man urged him to seek his own safety, and Captain Sigsbee, startled and confused by the explosion, was amazed when Anthony groped his way to him through the darkened passage to announce: "Sir, I have to report that the ship has been blown up and is sinking."

**Courageous Men Respond**  
Discipline was superb. Magazines were flooded, boats which remained were lowered and every able-bodied member of the crew did his part, even though threatening flames and minor explosions still harassed the vessel. Courageous men responded to the emergency even as they did when Japanese planes rained their missiles of death and destruction on Pearl Harbor. It was responsible for the slogan, "Remember the Maine," so recently transposed to "Remember Pearl Harbor."

## Special Ad Directed At Farm Families

You no doubt saw the ad in these columns last week from the Cicero Smith Lumber Co., directed to farm families exclusively. Mr. Fred Smith, the manager, stated that farm buildings of practically all kinds, such as dwellings, barns, graineries, chicken houses, frame gardens and tool houses, was being encouraged by the government.

In view of the fact that it is becoming harder and harder to get FHA loans for town houses, outside of towns that have defense plants and training camps, the next best thing for builder's material men was to appeal to the farmer class. Right now, they can improve their places most any way they wish, get long time loans at low rate of interest.

Just about all the town man can get now is material for repairs. So, if the farmer wishes to modernize his home, barns or other buildings, there is no better time. Mr. Smith was drawing up at least three plans last week.

## Bomber Practice Using Rich Lake For

Twos and threes at a time are now coming over Brownfield from the US Advance Bomber School ten miles west of Lubbock, and many of them may be seen here each day, when the weather is favorable.

We don't suppose it is any military secret to say they are dropping their "sacked sand bombs" on targets in Rich Lake, 7 miles northeast of Brownfield.

Watch for the announcement of the Company D Box Supper at the Legion Hall, March 27th.

## Joe and Mon Take in Washington, D. C.

Sheriff Joe Price, and his deputy, Mon Telford, made a trip to the nation's capital last week after a local man, who had volunteered for army services two years ago, but from some reason had gone berserk. They brought him home, and put him in the hospital for insane at Big Spring.

It is interesting to hear Mon tell of the trip. In 1918, Mon went overseas with the first AEF, and saw lots of things, but it seems that he missed the nation's capital city. They were delayed in Chicago for a few hours in order to catch a fast train to Philadelphia and Washington. During a meal at a Chicago cafe, they met a man and engaged him in conversation, and found that he was a cousin of Carlos Ferguson of this city, who is attending college at Chicago.

Mon says that one of the most astonishing sights on the trip was the city of Pittsburgh, Pa. He says that apparently there is enough smokestacks in that town to melt up all the iron and steel in existence in short order, and that they are going day and night, providing steel for making warships and merchantmen, tanks, planes, guns and munitions.

But a real eye opener to a man from wide open places, is Washington, says Mon. They were taken in charge by a detective who was very considerate, and showed them places they could not possibly see by themselves. Mon stated that some of those huge offices covering a block or more, had lobbies as large as our court square.

## Come On In—The Water Is Fine

We aggravated another batch of readers out of their dollars the past week, and this is to remind others that we are still crawling through their hunkers. So, don't pout around, but come in and pay off like good folks, even if you have to cuss us just a bit. We'll be looking for your with a sharp pencil.

On the Honor Roll since last week are, M. B. Childress, T. F. Chrestmen, T. A. Hulse, W. E. McBrayer, F. L. Willingham, Jacob Sandage, W. R. Lanier, Mrs. C. V. Brown, Wayland Parker, J. E. Thompson, J. L. Newsom, Mrs. G. T. Coker, West Texas Gas Co., city and routes. Mrs. Sam Tankersley for mother at Beaumont; Tom Hock Wellman; Harris Smith, Tokio; Mrs. L. T. Anderson, Tokio; Lee Bartlett, Meadow; R. E. Wertz, Amarillo; West Texas Gas Co., Lubbock; N. D. Rentfro, Arch N. M.

The new readers are: Dean Luker, W. R. Wilkins, city rural routes; Willie Hyman, El Centro Calif.; Pvt. Byron Sandage, Fort Knox, Ky.

## Snow Comes Down Fast And Furious

Just about every condition of weather on the calendar was registered here last Saturday. During the early morning hours, a hard wind from the north raised swirls of sand, but directly after daylight, it began sleeting first, turning to snow, but melting almost as fast as it fell. By 10 A. M., snow was really coming down, but did not last long. The afternoon was clear and sandy.

Farmers and ranchmen were expectant of another top season on the one we received last week, but were disappointed, as a break in the clouds came before noon and the frolic was over. The gauge only registered 5-100 of an inch.

## Fire Endangers Trailer House Friday

The fire boys were called out last Friday to quell a grass fire that was crowding near a trailer house, which was near the ground, and had a lot of blowing paper lodged under it.

People with trailers or homes, that allow wast paper to accumulate around and under such property, run a big risk of having their property wiped out.

## City Mail Delivery Starts On April 1st

Of all things, Uncle Sam's postal organization up at Washington, decided to start our city mail delivery on All Fool's Day, April 1. Otherwise, it is all right and that isn't long off. All of the business district and most of the eight miles of paved resident streets will have delivery.

There will be one full time and a substitute carrier. James King will be the regular carrier, and Terry Redford the substitute carrier, who will get seven hours and forty-five minutes each day, and will be paid on hour basis. We feel sure that he will be made a full time regular carrier before long.

James H. Dallas, P. M., stated that ten street letter boxes would be placed at as many corners or strategic places where letters can be taken up by the carriers. Luther Malcolm will take the place of James King in the office. More information will be given as soon as Mr. Dallas and force have time to really work out the matter.

## Have You Met The New Telephone Manager?

The writer had the privilege a few weeks ago to meet the new manager of the Southwestern Associated Telephone Co., Mr. Mills Roberts, who came here from Oklahoma. We found Mr. Roberts of very pleasing personality, and we feel sure he will be a worthy successor of our good friend E. C. Throop, who went to the Houston area.

Being successor of Mr. Throop, the position carries with it manager of the local exchange, as well as district manager, with a territory that begins at Tahoka on the east and runs to Hobbs, Lovington and Carlsbad and other New Mexico towns on the west. And from Littlefield on the north to Seagraves on the south.

Mr. Roberts seemed to be glad we called, and we are sure he will be glad to see you.

## Flying Cadets Arriving At Lubbock Field

LUBBOCK, Mar. 2.—Fresh from basic training at Randolph Field, Lubbock's first flying cadets have just arrived here for the last lap of their Air Corps aviation course at the newly-completed Lubbock Army Flying School.

Gay and singing, but blown about a bit by a stiff West Texas breeze, they reported here early Tuesday morning, Feb. 24 and spent the day getting settled in their new quarters. To most of them the South Pains area was unfamiliar, and the one thing they wanted most to know was: "Does it blow this way all the time?"

The brand-new Lubbock field, one of the newest built under the Air Corp's speeded-up victory expansion program, is a twin-engine school. Its Commanding Officer is Col. Thomas L. Gilbert, a long-time Texan with 24 years of service as a flying officer and a record of more than 7000 hours in the air.

Here cadets will be put through the final phase of the training which is preparing them for the silver wings and gold bars of an Air Corps second lieutenant. Upon their graduation they will be commissioned and assigned to some unit for active duty.

## Many Moving To Farms In The Area

Quite a number of local citizens have lately moved to a farm in this section, as present conditions have thrown many out of regular employment. Among the new farmers are several new and used car salesmen, and at least one barber. A large majority of them, perhaps all were raised on the farm, and it will not be new to them.

This is hoping that they succeed as well in raising Food for Defense—yes, Food for Victory, as well as they did in their avocations of selling cars, or other trades. Their efforts will be watched closely by their many friends in town. When their fryers get ripe, perhaps we can make a Sunday call, if in walking distance.

John S. Powell is on the sick list this week.

## New Bus Line From Post To Roswell

Mr. L. H. Wheeler, of San Angelo, has opened a bus line from Post to Roswell. Mr. Wheeler will spend a great deal of his time in this section in the next few weeks to get the line inaugurated, and his drivers familiar with the route. Mr. Wheeler has an eleven passenger bus at the present and a smaller auxiliary bus. Others will be added, he stated, as needed.

The bus leaves Post at 7 A. M., arrives in Brownfield at 8:20 and in Roswell, N. M., at 11:05. Returning the bus leaves Roswell at 12:30, arrives in Brownfield at 4:50, and Post at 6 P. M. Stops at all intermediate towns, and Mr. Wheeler stated that his drivers would stop to pick up farmers and others coming into town, charging them at the rate of about 2c per mile.

The bus here will make connection with TNM & O buses for Lubbock, Hobbs and Carlsbad, El Paso, etc. Also at Post for Sweetwater, Abilene, Fort Worth and Dallas, and at Roswell with buses to Santa Fe, Albuquerque, Los Angeles and San Francisco.

By the way, Mr. Wheeler married a cousin of Kyle Graves. You can figure for yourself whether that will help the new bus line or not.

## Three Fire Alarms Here This Week

A very destructive fire got into the feed rick out at the K. W. Howell farm, Tuesday, that destroyed hundreds of dollars worth of feed. The fire boys made the run to the farm outside the city limits and connected with his water system, but there was insufficient water to do much good. We learn Mr. Howell carried some insurance.

There were two calls Thursday, one at the Ches Gore elevator in the north part of the city. Some shucks took fire, and it was spreading to the elevator when the fire boys arrived and put it out.

Another was oil and waste back of the B. W. Hahn Service Station. This fire was also stopped before much damage was done.

Supreme in Circulation.

## Alvin Smith Scared For Just A Minute

We had a letter Friday from Alvin Lee Smith, son of Mr. and Mrs. Lee Smith of this city, written Feb. 28. He is on the good USS Pellas, and was in Pearl Harbor on Dec. 7, when the fighting started. Alvin admits he was a bit scared when the shooting started, but says he soon recovered, and began operating his old machine gun for all he was worth. When he began to see his buddies drop around him, Alvin says he really got mad.

He stated that he did not know whether or not he hit any of the Jap planes, as so many were shooting at them, and all he knows is that a number he shot at dropped. And, he adds, "I hope to see many more fall or burst in mid-air before it is over." He closes his letter with this paragraph: "There are many more like me who would gladly lay down their lives that all the folks at home many continue to live in freedom. So you see the morale is very high, and I say as well as thousands of others, to h—l with the Rising Sun. Good luck to every one at home."

He stated that he had never received a copy of the Herald that is being sent by his mother, but added that he didn't expect to get it overnight with present conditions.

## Marvin Hall Praises Civilian Defense Training

AUSTIN—Praising the civilian defense training program for various volunteer groups, Marvin Hall, State Fire Insurance Commissioner and Fire Defense Coordinator of the National Defense Committee for Texas, today declared the program will promote better citizenship.

"While designed to equip individuals to meet emergency conditions during war-time, the special training for civilian defense workers in air raid warden service, as well as auxiliary firemen and other volunteer defense services, is not the type of training that will be useless after the war is over," Hall asserted.

"Many lives have been lost," he continued, "because those who were first to reach an injured person didn't know what to do to save a life. After civilian defense training we will have thousands of citizens with a basic knowledge of first aid treatment. This is training that will be valuable at all times."

"In a like manner those training as volunteer firemen will know how to fight a fire before the fire department arrives on the scene. Also, thousands of our citizens training as volunteer firemen will become aroused to the need of greater fire prevention, resulting in more alertness to fire hazards in the home and on the job.

"Every patriotic, able-bodied citizen can find a place for volunteer service in civilian defense."

## Soldier Sandage Wants Home Paper

Pvt. Byron Sandage, whom we take to be the son of Mr. and Mrs. Jacob Sandage of south Terry, sent his \$1.50 in this week for the weekly visits of the Herald for 12 months.

Byron is located at Ft. Knox, Ky., at the present, and we hope he enjoys the Herald each week as much as we enjoy sending it to him.

## SAVE TIN—SHAVING CREAM AND TOOTH PASTE TUBES

When your tooth paste or shaving cream tube is empty, save the tube! There is a shortage of tin in the United States. These tubes are almost pure tin, and may be used for defense projects.

Druggists have been requested to assist the government in gathering these tubes.

A depository has been placed in the drug stores and citizens of Brownfield are urged to place empty tubes in these boxes. The tin will be used in various kinds of defense work.

## Grasshoppers May Get Rough This Year

Warnings have been given by Tech College and other agencies that are watching the matter, that we may expect a pretty bad grasshopper invasion this year. Fence row earth, on Tech property, was put in hot houses and it is said that the emergence per square yard was 400. This is considered a very high infestation. With a very mild winter, comparatively speaking, it is expected that many of the boogers will be hatched when warm weather comes.

There were no grasshoppers in this section to amount to anything until late last summer, when swarms of a small flying variety came in. This was, however, early enough for their eggs to be deposited in the earth. It is said that breaking the ground and exposing the eggs is a great help in their control. It remains to be seen whether poison will have to be used or not.

The movement of the hoppers last summer was from almost east by a bit north, to a bit south of west. And from all accounts, they were in vastly greater numbers a tier or two counties north than in Terry and Yoakum counties, but a lot of them stopped off here to make settlement. Where the insects came from, we never learned.

## Let's Stop Killing American Citizens

HARTFORD, CONN., Mar. 2.—Last year, when the need of human energy and natural resources proved more desperately urgent than ever before, the American people proceeded to liquidate more of their number and demolish more of their mechanical facilities than in any year since the introduction of the motor car, according to a new booklet entitled "The Wreckord" just issued by the Travelers Insurance Company.

This booklet is the twelfth in a series issued annually and represents a comprehensive analysis of the facts about accidents in which 40,000 persons were killed and almost a million and a half were injured in 1941. Both totals, it is pointed out, are the highest in the history of the automobile.

There were more than a million accidents during the year involving injury or death and several million others involving property damage only. Probably 1,000 automobiles a week were demolished beyond repair.

"The nation, if it is to succeed in its victory program, simply cannot afford a condition of this wast of life, of man-hours, of hospital space, of machinery and morale," the foreword states. "The record of death and injury is one that should leave every American with a sense of shame and should move every one of us to resolve that it shall never happen again."

## He Was Handing Out Union Cards

A candidate for a high judicial office was in our city this week, and although he is from one of the smaller cities of the Panhandle section, he was handing out union label cards printed in Amarillo. There are possibly three or four newspaper folk in nonunion shops of the Panhandle to one union employee, and just why the candidate thinks he has to have a union-printed card is a deep dark mystery. As a rule, the Typographical Union is a very fine bunch, not ready to strike at the drop of a hat, and most of them are loyal Americans. So, the Herald has nothing whatever against them. But for one union man in this district, there are fifty people that belong to no union, and have become quite fed up of late on unions in general. At least at this time, we believe a candidate would make just about as much progress with a nonunion as a union card.

Watch for the announcement of the Company D Box Supper at the Legion Hall, March 27th.

**FOR MAYOR**

Clyde C. Coleman  
Frank Jordan  
Jesse D. Cox.

During the first World War President Woodrow Wilson said: "It is not an army that we must train; it is a nation." The same may be aptly applied to the present situation.

Those who have studied the matter say there is no excuse whatsoever in manufacturers upping the price of print paper. Canadian mills made a profit of 300 million dollars last year, and the United States mills 884 million dollars profit.

The shortage of tires may be a shot in the arm of the country store keeper. It may be that a lot of people will have to shop and deliver from the back of old Pete or Beck, or in the old buggy behind Dobbin. And that will eliminate shopping at great distances.

It appears from reading the papers coming out of Representative Gene Worley's district in the Panhandle, that he is going to have to do some appeasing. He made a promise during the campaign two years ago that if he ever voted for war, he would get in himself. He, of course did not foresee Pearl Harbor, but he kept his word, and is a Lieutenant Commander in the Navy. But the newspapers of his district say that he is more valuable in Congress than in the navy, and that he merely left his office force in charge, and at the same time is asking re-election. We'll see what we see.

Generalissimo Chiang Kai Shek, of China, is not only a leading figure of the war in the far east, but his wisdom and sagacity will be in demand when the time comes to make peace. He along with the representatives of other democratic nations will not only demand that every individual and nation be free to live their own lives unmolested, but that they have a right to trade with whom they please. General Chiang Kai Shek is very religious in every day life, being a devout Methodist.

Nine years ago the farmers began to organize and really put themselves and farming on a business basis. At that time, farm products were just worth practically nothing, but through the years, their financial statute has become better and better. Their national organization was addressed Monday night for five minutes, each, by three men high in governmental affairs, the present secretary of Agriculture, Claude Wickard, former Secretary and now vice-president, Henry A. Wallace, and by President Franklin D. Roosevelt. The farmers received a heartening message from each, as well as congratulations in creating an ever normal grainery, and the fact that the farmers had pledged themselves to produce more food than at any time in history, this year, to feed the US and the United Nations. The president took the time, also to say that he did not believe the Nation was complacent about this war especially the farmer, who is in dead earnest to win it. And he believes that at least 90 percent of the nation is patriotic, and not more than 10 percent chislers.

If you have been "touched" rather hard on income tax this year, just wait till next year, when our government says we will have to put up seven and a half billion dollars more than for the 1941 tax. There is some talk of a sales tax, but we understand that both congress and the administration look with disfavor on this means of raising money, as it would hit the lowest income bracket just as hard as the multimillionaire for necessities. There is also talk of an additional tax on such things as gasoline, liquor, tobacco, candy and other things considered luxuries. It is quite out of the question now to pay-as-we-go in this war. It has already gone out of the reach of the ability of the citizenship to pay on the barrel head and live. Just the same, those who are able to pay should do so with a willing heart, and at the same time buy all the defense stamps and bonds they can. That is a darn sight nicer than being shot at.

We know from the report of his speech in the Congressional record of February 23, during Washington's birthday discussions in the House, where our congressman, George Mahon stands on Pensions for Congress. He is against em now and heretofore and on out. So, the press of this district will have no occasion at any time to put breaks on what they have to say about the matter for fear of insulting their friend George Mahon. And it is of record that Tom Connally, senior senator from Texas, voted against the measure, but W. Lee O'Daniell, junior senator was reported absent. So it is not known how he stands. The guy over in Georgia who introduced the measure is taking his spite out on the press, saying if the press had kept silent, nothing much would have been said about the matter. As long, however as we have a free press it is the duty of it to stand up for the right, exposing those who would graft the nation, state, county or city.

**TEXAS CANNOT HOPE TO ESCAPE**

With this probability and menace clearly in view, Texas people cannot afford a feeling of

smug remoteness from the areas of warfare. It is the duty of everyone to do all possible to forward the plans of the army for continued alertness and wise preparations for all-out defense.—Clarendon News.

Monday 3,500 workers at the Bethlehem Shipbuilding Corporation yards walked out, claiming a protest against a ten hour day initiated Feb. 12. Those 3,500 workers are receiving a fair wage for their services and are free to go anywhere they want to. If they were put into Uncle Sam's army at \$30.00 per month with a twenty-four hour service if required, and no freedom allowed them, only brief furloughs, wonder what would be their complaint? That's what Uncle Sam's soldier boys are having to do and the wage earner is not any better than the soldier boys. Fact is, no matter if they are building ships for our defense, they are not doing as much as the soldier boys are doing, for in addition to serving the U. S. 24 hours a day on a meager pay, they are subjecting their lives to sickness from exposure, injury and even death from the guns handled by ruthless men, who have no regard for freedom, feeling for humanity, respect for a higher being, and whose ultimate aim is to put the entire world in slavery because of the selfish ambition of a few dictators. Free workmen should consider before the object to a little extra manual labor.—Rochester Reporter.

# I GIVE YOU TEXAS

by  
**BOYCE HOUSE**

A busier-than-usual-day: To the Fort Worth airport where your columnist boarded a plane at 9 a. m. and two hours and half later alighted in Amarillo, a mere 350 miles; greeted by plump, ruddy, genial Mason King of the Amarillo News-Globe and whisked by aut to the hotel where 150 Kiwanians and friends kindly guffawed at a Texan's tales of Hollywood; thence for a

view of Editor John McCarty's collection of 2,000 books on Panhandle history—(he has eight typewritten volumes on the vanished town of Tascosa alone, and will have seven more before completing his chronicle of the one-time "Cowboy Capital").

From there with Floyd Studer, famed paleontologist, and the architect, Guy Garlander, for my first trip to the Palo Duro Canyon; then an all-to-brief visit to the West Texas museum at Canyon; and back to Amarillo for a supper with the Will Rogers Range Riders, including Bob Dow, former attorney general of New Mexico, who looks like Will. Then to the Amarillo airport to get aboard a ship at 8 p. m. and two hours and five minutes later, stepping on the ground in Fort Worth.

A man, meeting a friend in a battered condition, asked, "Who beat you up?" The bandaged one explained, "I took my girl to a restaurant and she found a fly in her soup. She called the waiter and said, 'Take this insect out of here.' So he threw me down a flight of stairs."

Says the Weatherford Democrat editorially: "With a full-fledged war in progress, Texas, along with the entire United States, has plenty to do. Our state government can be of immense help not only to our own people but to the entire nation. It would seem to be the wise and sensible thing to do to keep Governor Stevenson in the position that he is filling so well. A vast majority of Texas folks are proud of his leadership and are glad to work with him insolving the difficult problems that confront us."

Speaking of graphic utterances: Ed Delehanty, the Babe Ruth of his day, was asked the secret of his success at bat and his answer was, "Hit 'em where they ain't."

And General Nathan Bedford Forrest, the Wizard of the Saddle, when asked the secret of winning a battle, replied, "Git thar fustest with the mostest men."

A collection of pipes, hundreds of 'em, is owned by Fred Jackson, Cameron cafe proprietor. He has been collecting for 16 years and values them at \$5,000. One, over 300 years old, belonged to Sir Walter Raleigh, who introduced the fragrant weed to Eu-

rope. Another, with a long surviving stem, has a porcelain bowl with the picture of the original owner. Some are Turkish pipes, with flexible stem and water bowl; others are corn-cobs.

When I met Jackson, he was smoking—a cigar!

With the high-brows: Some books are to be tasted, other sto be swallowed, and some few to be chewed and digested.

A foolish consistency is the hobgoblin of little minds.

The colored exhorter said, "Is thar anyone in de congregation dat likes sin? Ef so, stand up. Whut's dis, Sistah Jones—does you like sin?" She replied, "Excuse me, pahson, I thought you said gin."

"If wisdom's ways you wisely seek,

Five things observe with care; Of whom you speak, to whom you speak,

And how and when and where."

"Ah wants a ticket for Virginia, please suh", said the colored woman to the ticket agent. "For what part of Virginia?" he asked. "Fo' all ob Virginia", was the reply; "dat's Virginia settin' on dat suitcase."

## Vegetables Best Suited for This Region

LUBBOCK — Vegetable and herb varieties recommended for planting on the high plains by Texas Tech's plant industry department are listed below.

"These are all standard varieties, which may be purchased from any reliable seedsman," instructor George Elle, vegetable garden specialist, says. They have all been tried in Tech experimental garden plots and have proved to be superior in production."

Melon and vegetable varieties suited to the West Texas climate are as follows:

## South Plains Scouts Are Buying Bonds

Boy Scouts of the South Plains Council will have a part to play in buying Defense Bonds, it was announced today by Jack M. Randal, Council treasurer. \$4,000 in bonds will be purchased by the council this week in 19 counties, Randal said.

The money is derived from a special "Stabilization Fund" set aside in the First Federal Savings and Loan here for use in future emergency, Randal said. The Executive Board and Council voted in February to purchase the bonds.

Each of the 19 counties of the council (there are 20 counties but Borden does not have Scouting) will share in the purchase. Bonds will be purchased according to the manner in which they contribute through communities to the council's \$18,600 budget in 1942. Lubbock county gets \$1500 of the \$4000, which includes Slaton. Hale county will receive credit for a \$400 bond, Lamb \$300 and Terry and Dawson \$200 while others will receive credit for \$100 bonds. These are: Castro, Swisher, Cochran, Lynn, Garza, Hockley, Cochran, Yoakum, Gaines, Motley, Dickens, Crosby, Floyd, and Bailey.

## LUBBOCK BUSINESS MEN TO SPEAK AT CHRISTIAN CHURCH

Next Sunday morning at 10:00 a. m., three Lubbock businessmen will address the Christian Sunday School here. Mr. Terry, Mr. Watson, and Mr. McCarty come as a good will trio from the Lubbock Christian Church, bringing announcements of the Laymen's meeting to be held in Lubbock on Mar. 22nd.

At 11:00 the minister continues the portrayal of Christ's last week on earth, the sermon, "Christ of Gethsemane." You are missing something vital for your life if you pass up the wisdom and power of His.

Last Sunday evening seven young people from Brownfield, Plains and Tokio were baptized at the Christian Church in Lubbock. Those taking this positive step into a new spiritual life were Miss Sarah Jane Jones, Miss Grace Jones, and R. B. Jones, Jr., of Plains, Kenneth Johnson, Robert and Roach Perry of Tokio, and Miss Ida Bruton Gaston of Brownfield. Some of these young folks were won because of the example of one of the others. Are you influencing anyone to believe in Christ?

There are just four more weeks until Easter. That should be a big day, not only in our churches, but in our lives, with its message of Hope. Let us work and pray as we approach that great Day.

Labor-Saving devices were introduced into Texas agriculture at such a rate between 1930 and 1940 that thousands of farm laborers and tenants were forced to seek employment in villages, towns and cities.

**HOME IS NOT THE SAFEST PLACE**

AUSTIN, March—The general opinion prevails in America that home is about the safest place there is. However, the facts prove that, far from being the safest, it is often quite the opposite. A keener realization of this fact, plus amending the carelessness responsible for most of the home accidents, is a goal that cannot be over-emphasized at this time when health and physical efficiency mean so much to the nation at large.

In commenting on this urgent need for the protection of life and limb in the American home, Dr. Geo. W. Cox, State Health Officer today declared that accidents in the home are the cause

of more deaths than diphtheria, scarlet fever, whooping cough, and measles combined; of more than appendicitis, of nearly as many as diabetes; of over two-thirds as many as automobile accidents; and of over a third as many as deaths as tuberculosis.

"Slippery floor surfaces, lack of handrails on cellar steps, absence of protective gates at the top of stairs, un-anchored small rugs on polished floors, poisons in medicine cabinets accessible to children, and the careless storage of sharp tools and firearms are some of the more prominent hazards resulting in home accidents." Dr. Cox said.

"However," he added, "in the last analysis the problem boils down to one of reasonable caution. We cannot view complacently the more than 30,000 deaths annually due to home accidents. These deaths, chargeable to remediable carelessness, can and should be reduced."

Dr. Cox declared that such a needless and profitless loss of life should be deplored at any time, but to permit such a condition to persist in 1942, in view of our national crisis, is a neglect that cannot be condoned.

**WINS BOND AND TRIP EXPENSES**

LUBBOCK—A one hundred-dollar defense bond and an all-expense trip to Chicago for appearance on the Quiz Kids program will go to Charlie Bob Hutcheson of Sundown, first prize winner in national contest. Hutcheson, 15-year-old freshman in Texas Tech, wrote an essay of 50 words on "Why I Want to Be a Quiz Kid". Appearance in Chicago has been tentatively set for April 15 or April 29, although Hutcheson may choose a \$250 cash bonus in place of the trip.

ENTERPRISE shown by Edwin L. Hall, 16, of Anton, Lamb county, in using electricity in the home and on the farm won him a place in Texas' delegation to the recent 20th National 4-H Club Congress in Chicago. Competing in the sixth national 4-H rural electrification contest conducted by the Extension Service, the boy wired his home for electricity, spliced wires, repaired light sockets, and worked on an electric motor. With two other club members, the boy presented a radio program on "Rural Electrification's Part in National Defense." He was awarded the Chicago trip by the Westinghouse company, which also provides six \$200 scholarships as prizes for national winners.

**NEW YORKERS TO STUDY YUCCA POSSIBILITIES**

LUBBOCK—Twenty pounds of yucca plant have been shipped to a New York City firm from the Texas Technological College division of agriculture. Request for the plants came from a firm doing research to determine if the leaves could be utilized commercially to replace certain imports affected by war conditions.

Dean A. H. Leidheigh asserts that the plant, which grows well over a large territory, could be produced as an agricultural crop because of its reasonably simple culture and general soil adaptability, if a profitable use is found. The yucca root has been used commercially in the use of soap, candy and other articles, though not on an extensive scale.

Mr. and Mrs. Ed Aryain and the boys, of Seminole, were through Sunday on their way to Lubbock.

**TEXAS FAMILIES LIKE GOOD MATTRESSES**

College Station—One out of every seven mattresses made in the nation under the Department of Agriculture cooperative program was made in Texas, according to a report received here by Mildred Horton, of the A. and M. College Extension Service, and R. T. Price of the State AAA headquarters. Altogether, 3,874,025 cotton mattresses have been made and received by eligible families. Of that number, 526,951 have been delivered in Texas—the largest number for any single state. Texas also leads in the number of cotton comforts made and delivered under the program, reporting 189,764 of the total 989,361 in the nation.

Big-mouthed Representative Hamilton Fish, who has done much to encourage Hitler in the belief that the United States could be defeated from within, made a big play about how how he was going to stand by a clerk in his office who was convicted of forgery. When Fish was on the witness stand he couldn't remember whether or not he introduced this clerk to the German agent. Fish did much to have German propaganda broadcast in this nation—Big Spring News.

Mr. and Mrs. Dudley Repp of Lubbock and Mr. and Mrs. Lee O. Allen left Wednesday for New Orleans, La., where they will spend two weeks.

It's high style to be military these days, and this R. A. **What Should You Save To Help?**

WASHINGTON, D. C.—The following table issued by the Treasury Department is intended as a savings yardstick for the average income-earner. It suggests how everyone of the 48,000,000 employed persons in the United States may participate in the war effort through the systematic purchase of Defense Savings Bonds.

"The job ahead of us is far bigger than most of us realize," Secretary Morgenthau declared in making the table public. "I know that the American people are ready to do their part to win the war. One of the ways we can do much more is by intensifying our effort in the purchase of Defense Bonds."

While persons without dependents may be able to set aside more than the suggested figures, persons with several dependents, or with other heavy family obligations, may be unable to save at the suggested rate, the Treasury Department pointed out.

"TOKIO" IS TOWN IN WEST TEXAS

Tokio, in Terry County, was founded in 1907. Mrs. H. L. Ware, mother of the first postmaster, submitted the name "because I think it is a pretty word". The citizens of this little West Texas town have now taken as its slogan: "K O Tokyo", meaning that they want to see the score of youths who have joined the nation's armed forces from the surrounding farming country deal a knockout blow to Japan's capital.

THE OLD TIMER'S SAYINGS

After bucking the headwinds of another blasting winter, we can still hear the creakings of our joints. We also have a wobble in our legs. But we think we are now standing on the ragged edge of Spring, where we can take a new hitch in our life and pull the grade.

We note people are getting their flower gardens in trim to boost the good looks of their Home-Beautiful. Wild flowers grew up to the edge of our yard when we were a boy. Our home was surrounded by a rail fence. Gourd seed was planted in each panel of the fence. There is no more beautiful sight than a rail fence covered with gourd vines. Besides our dog could find a cool place under these vines to gnaw his bone.

Oh! for the good old days when men grew whiskers and were not worried about the rubber shortage.—R. E. Shugart.

Uncle Joe Hill, erstwhile Terryite but for the past 11 years a citizen of Big Spring, was in to see us Tuesday. Uncle Joe and wife are visiting their daughter, Mrs. J. F. Thomason and family of the Lahey section. He was accompanied by his son-in-law and by his son, Sgt. Jessie Hill and wife.

Uncle Joe had a stroke a few years ago, and has since been unable to work in the gin business. Otherwise he is looking well enough. Jessie is in the US Army Air Corps, located at Denver Colo., and has been notified since coming here on furlough that he has had another promotion. He married a Colorado girl since he has been in that state. Uncle Joe said he wanted to see us while here, so he called.

The Lynn County News—A lot of folks in this country are inclined to criticize Great Britain for her alleged mistakes and shortcomings in this war. But people who live in glass houses can not afford to throw stones. Remember what a mistake we made in not being on guard at Pearl Harbor? Have you noticed that so far we have been unable to stop the pesky little Japs. And our exasperation grows every day as we are unable to get reinforcements to General McArthur. It's not you Britain, it's us "a-standin' in need o' prayer"—and guns.

Six Million New Income Tax Payers

In a last message to the press before the deadline, which will be March 16th, on account of the 15th coming on Sunday, Mr. Henry Morgenthau, jr., Secretary of the Treasury, states that there will be six million new people who will have to make income tax returns, and that many more, who will make their first contribution by this route to the government treasury.

Mr. Morgenthau jr., wants to stress again and for the last time that it is imperative that people make out their returns promptly and send them in, and that if possible, they send all the money with their returns. Of course people can, if they wish, make four equal payments of the tax, but in view of the fact that our nation is spending billions of dollars for war purposes, the sooner the money is at hand, the better.

Farmers Getting Machines Ready For Job Ahead

College Station—The farmers of Texas, in general are getting their equipment in order for the production job ahead, but in most areas of the state farmers still need to order more repair parts.

This was indicated by a survey just completed by the Texas USDA War Board in which county boards were asked to determine the status of the farm machinery repair program throughout the state.

The survey indicates that farmers and dealers already have ordered great many more parts than by the same date last year. B. F. Vance, state board chairman, declared. County board estimates of the percentage increase in number of parts ran as high as 300 percent, although most counties reported increases ranging from 25 percent to 75 percent.

At the same time, the reports indicated that in only a few counties have farmers ordered all the repair parts needed. About half the state's counties reported difficulty in obtaining parts, while only thirty counties reported delays in the repair program because of a shortage of machines, welders, or blacksmiths.

'We must have all farm equipment in shape in ample time to avoid serious breakdowns at critical moments,' Vance pointed out. 'Production is what counts and any slowdown of production by breakdowns which could have been avoided is inexcusable. The thing to do is to order repair parts now so as to be ready for any emergency.'

Wild Bill Elliott Will Appear in Person At Ritz

The manager of the Jones theatre today announced that Bill (Wild Bill) Elliott, popular Columbia Pictures western star, will appear in person at his showhouse for one day, March 28.

Elliott, who is coming direct from Hollywood, will be accompanied by Dub (Cannonball) Taylor, comedian and pal of the western star in many of his screen productions and the Rodick twins, celebrated singing cowgirls.

He and his gang will make appearance on the stage of the Ritz at every performance and will meet the fans personally in the lobby of the theatre after each show.

Wild Bill, who annexed the 'Wild' because of his repeated delineation of Wild Bill Hickok in his screen plays, has had the most sensational rise to popularity of any Hollywood western star on the screen today.

Although he was born on a ranch in Missouri and raised among the cowhands of the famous Kansas City Stockyards, he was in Hollywood for several years as an actor before he got an opportunity to play in westerns.

His first 'horse opera' was a serial, 'Wild Bill Hickok,' released by Columbia. Since then, he has made more than thirty western features and is regarded by his fans as the fightingest, hard-ridingest cowpoke of them all.

Elliott's most recent pictures

are 'Wildcat of Tucson,' 'North From Lone Star,' 'Roaring Frontiers,' 'King of Dodge City,' 'Lone Star Vigilantes,' 'Bullets for Bandits' and 'The Devil's Trail.' The last named production was finished just before Bill left Hollywood.

Wild Bill and his troupe are taking time out for production to make an extended tour through the East and Southeast. They will return to Hollywood this month to resume making pictures.

GRIEVING FATHER SLAPS WOMAN WHO HOPES WAR WILL LAST A LONG TIME

Copied From Amarillo News-Globe

Strange and dramatic are some of the stories from both the battle fields and the home front in these troubled times. This one is related by passengers on an Amarillo City bus.

As the bus trundled along, a woman seated forward engaged the driver in conversation.

'Well,' said the woman, 'My husband has a better job than he has ever had and is making more money than he ever did so I hope the war lasts a long time.' Farther back in the bus sat a man whose jaws clamped so tightly that the muscles in his face quivered. He arose, strode forward, stopped squarely in front of the woman and planted a resounding smack on her face.

'That,' said the man grimly, 'is for my boy who was killed in Pearl Harbor.'

'And this,' added the man as he slapped her again, 'is for my boy in the Philippines.'

The man strode back to his seat and a silence that makes people sit tense surged through the bus.

The woman got off the bus at the next stop.

Sermon.....11:00 A. M.  
Communion.....11:45 A. M.  
Sermon.....8:00 P. M.

Monday Services:  
Men's Bible Class.....8:30 P. M.  
Tuesday Services:  
Ladies Bible Class.....2:30 P. M.  
Wednesday Services:  
Mid-week Bible Study.....8:00 P. M.

There were good services at all of the services of the past week. One was added to the congregation at the morning services last Sunday. One of the most interesting services is the Men's Bible Class. We are studying the Book of Acts and much interest is being shown. We invite all the men to attend this class. The time is set at 8:30 so it will be after work hours for all of the business men. Also we do not "dress-up" but come in our work clothes. You are welcome to attend all of the services at the Church of Christ. A friendly welcome awaits you.

Evangelist and Mrs. W. S. Boyett are spending Thursday and Friday of this week in Los Cruces, N. M. Where Bro. Boyett is to deliver a lecture on the Lecture Program there.

## Baptist Church News

In the absence of the pastor the preacher last Sunday was the District Missionary, J. Lowell Ponder of Plainview. The congregations have been smaller somewhat since the war time has been observed but with the longer days the matter of the time should not interfere with any desiring to attend the school or preaching service. The pastor has been conducting a stewardship study with the church at South Plains in Floyd county which has closed and he has returned. He has been requested to write a book on the teachings of the Bible as related

to the doctrine of stewardship and has consented to do so.

It is not generally known that many Mexican families are coming to this part of the country to live and not all of them are Catholic, 21 having united with this church last Sunday evening pending the organization of a Mexican Baptist church here. They are already raising funds for that purpose and this church voted to furnish \$100 for that purpose as soon as they are able to build. Most of these Mexicans came from Bastrop, Texas where the Texas Baptist Convention has supported a work for them for a good many years and much progress has been made there in the work, and we are glad to have this kind of Mexicans settle in our country.

The work of caulking our church building has been done at intervals for several weeks and is nearing completion and this work should make it impossible for water to get through the walls anywhere as we feel the importance of taking care of this fine building and hope it will be in fine condition when it is finally paid for in full and these improvements are being paid for by those loyally supporting the financial budget of the church.

Every family within reach of this church who do not attend another church for Bible study are invited and urged to bring their children with them at 9:45 each Sunday morning where there is a teacher and class of their own

age group.

Lyman Wren of Snyder, Texas will be with the First Baptist church in a Layman's Revival beginning March 22. Mr. Wren is a great layman speaker. This meeting is for the men of the church and community and will go on for just one week. If you miss hearing this great layman you will miss a real blessing. Make your plans now to attend every service.

## Methodist Church

Subject for the morning hour: "The Land of Tomorrow." The young people will meet at their regular hour. Subject for the evening service: "The Old Rugged Cross." May each of us continue our contributions toward our church debt.

"If any man will come after me, let him deny himself..." We talk a great deal about self-denial these days, but do we practice very much denial for the Kingdom of God? A great many of us do not even give of our time to the Lord; we worry about our earthly possessions and are too busy with other things. "I do not count the sufferings of our present life worthy of mention when compared with the glory that is to be revealed and bestowed upon us." (Rom. 8:18, 20th Century Trans.)

A remarkable incident occurred recently at a wedding in England. A young man of large wealth and high social position, who had been blinded by an accident when he was ten years old and who had attained university honors in spite of his blindness, had won a beautiful bride, though he had never looked upon her face. A little while before his marriage he submitted to a course of treatment by experts, and the climax came on the day of his wedding.

The day came and the presents and the guests. Those present included cabinet ministers and generals and bishops and learned men and women. The bridegroom, dressed for the wedding, his eyes still shrouded in linen, drove to the church with his father and the famous oculist met them in the vestry.

The bride entered the church on the arm of her white-haired father. So moved was she that she could hardly speak. Was her lover at last to see the face that others had admired? As she neared the altar, while the soft strains of the wedding march floated through the church, her eyes fell on a strange group. The father stood with his son. Before the latter was the great oculist in the act of cutting away the last bandage. The bridegroom took a step forward, with the spasmodic uncertainty of one who cannot believe that he is awake. A beam of rose-colored light from a pane in the chancel window fell across his face, but he did not seem to see it.

"Did he see anything? Yes! Recovering in an instant his steadiness of mien, and with a dignity and joy never before seen in his face, he went forward to meet his bride. One would have thought that his eyes would never wander from her face.

"At last!" she said. "At last!" he echoed solemnly, bowing his head. That was a scene of great dramatic power and of great joy; yet, it is but a mere suggestion of what will actually take place in Heaven when the Christian who has been walking through this world of trial and sorrow, shall see Him face to face.

## PRESBYTERIAN CHURCH NEWS

Sunday School, 10 o'clock; Morning Worship, 11 o'clock; King's Messengers, 5 o'clock; Women's Guild, Monday at 3 o'clock.

Our campaign is going forward to raise funds to remodel our Church building. Committees are working this month and all Presbyterians are urged to help by voluntarily making a donation and not waiting for the committee to visit. This will save much time for the committee members, all of whom are busy people. All money and pledges should be left with Marshall Loyd, building fund treasurer, at his place of business on the east side of the square.

The subject of the sermon Sunday morning will be, "Thought for Others". Special prayer for our country will be offered at this service.

The women's Guild met last Monday with nine members present. A playlet on stewardship was given with Mesdames German, Wier, and Ferguson having parts. Monday the Guild will meet at the Church with Mrs. J. H. German leading a mission program.
