

The Terry County Herald

Your Home Owned and Home Managed County Paper — Where Farming, Ranching and Oil Fields Bring Prosperity to Terry County People

VOLUME THIRTY-SEVEN

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY FRIDAY, MARCH 27, 1942

NUMBER 34

The Honor Roll Is Still Growing

Last week we failed to give those behind a front page tongue lashing, and as a consequence they almost let us down over the week end. This week, we are going to let you have the hot end of the poker to hold as we have held it for some time and see how YOU like it.

Now march right in here when you get this paper—no prompting please—and pay on the barrel head. Why, doggone it, don't treat an old friend in any such manner. "Let the dollars keep rolling!"

Honor Roll Past Two Weeks

Mrs. J. O. Brown, Grady Goin, C. I. Preston, Meadow; E. G. Alexander, Plainview; Mrs. J. E. Woodard, Fayetteville, Ark.; C. L. Brown, Calif., by daughter, Mrs. Wilson Collins; Mrs. Kochensparger, Columbus, Ohio; T. E. Vernon, Meadow; J. R. Thomas, Wellman; Miss Housman, Akron, Ohio; O. V. Hill, Tokio; Collins D. G. Lamesa, by store here; J. E. Parish, Houston, Minn. by son, Dr. R. B., here; P. G. Stanford, Plains; J. L. Simms, Welch; L. C. Hester, Meadow; Mrs. Mary Hyatt, Hamlin; Marner Price, Puerto Rico, by parents, Mr. and Mrs. W. W. Price; Chas. Baird, K. C. Mo.; R. T. Graves, Elkins, N. M.

The new ones are: Jack Simmons, airplane training, Texas; Harvey C. Davis, Rt. 1, Seagraves; D. B. Oliver, Rt. 2, city; H. E. Huddleston, city; A. L. Tittle, Rt. 4, city; James H. Moore, Jr., somewhere in Puerto Rico; J. P. Eblen, Big Spring; C. W. Phillips, Roswell, N. M.; Jesse E. Smith, San Diego, Calif., by dad, J. S.

This completes the list up to early Tuesday morning

Bring Your Sugar In Now

Texas rationing headquarters ask that the following information be stressed in newspapers:

"We are beginning a campaign to be termed 'Repurchasing program.' Those in possession of more sugar than can be allowed under the rules, which is 2 lbs. per person, should return the sugar to the stores where they purchased it, prior to registration time. This cannot be over-emphasized because the rationing booklets are not sugar rationing booklets, but are general rationing booklets and may in the future be used for any number of things, such as hosiery, radios, bicycles, etc. All citizens should register on registration day, because without booklets, they would not be able to secure articles that may be rationed, other than sugar."

At press time, no dates had been set for registration for rationing booklets. Following is information given by A. C. Koeninger, Hale county superintendent, to Abernathy Superintendent R. Lee Snider in a letter this week:

"In a very short time you will be called upon to supervise the first food registration. It will be necessary before that time for you to secure the services, without charge, of 25 people to assist you in the registration. You may use teachers, civilians or high school pupils as you see fit."

"I wish you would get this information out in your school district—all people who reside in Lubbock county must register at the nearest elementary school located in Lubbock county. I suppose that means the New Deal school. In other words, be sure that you do not give a booklet to anyone who resides in Lubbock county."

This information applies equally as well in Terry county.

In a filing cabinet, at Marine Corps Headquarters rests an unclaimed Medal of Honor awarded to Private Michael Owens. It was awarded for heroism at Korea in 1871.

Airplane Worker Comments On Rotary Article

San Diego, Calif., Mar. 17.—I just came in from work and picked up our daily paper to fresh upon some of our playboys across the pond, and the article concerning the 500 Terryites, who volunteered to fill a hunting season on labor leaders and such, amused me very much. Not that I would jest at their determination, but because I think they are quite right in this respect, but it just goes to show how the antics of a small place can spread a long way. And we need more and more of the same stuff. I know that the mid-west is more war minded than the coast.

The trend here is still along the "business as usual" line and the sooner it is broken up, the better. The people here, especially the big industrialists, who build the war machines, still feel secure because they have not had to dodge a bomb yet. You know it is really surprising how the war treasury is being drained of the taxpayers' money, but if you could just peep into the profit pages of defense industry, I think you would find the answer. One big shot just retired from the war machine industry before the thing got too hot with the small sum of ten million dollars, accumulated over the long, grueling period of six years. Where did the money come from? The US Treasury. Did he labor for it? Certainly not with his honest hands. No man can earn that much in such short time by working for it.

Understand, this is just one lowly laborer's opinion of the set-up. But when it is all over, my conscience will be clear, because I have put forth all my effort to win the war, and what did I gain? My freedom—freedom that no money can buy and a livelihood while doing so. I will be satisfied but will the Big Industrialist? No, he will be dissatisfied because he did not grab off twenty million from the poor taxpayer while the going was good. I believe if the matter is considered a little more seriously the people will find a small portion—about 75 percent, I would say—of the "Foes of Production" in our wonderful little political group and the front offices of the Industrial Manufacturer. I say, let's not open the season on any one side of the deal, but upon all sides combined, and do it now, because we will have to work together.

I hope this hasn't bored you too much, but I just kinder wanted to bare the facts as to how this part of labor feels about the situation. Mother sends me the Herald, and I really enjoy reading about the people back home. Am sending you a copy of our daily. Your friend,
Wilbur T. Hamm.

Rotary Letter Creating Much Comment

The Rotary Club letter, published last week in these columns, was released to the daily press several days before weekly papers were issued. The letter is bringing comments, all favorable, so far, from the wide stretches of Texas and adjoining states. Substance of the letter has been broadcast from several Texas stations.

Seven telegrams were received from Dallas alone, and they are from bankers, merchants, oil and professional men and farmers, and even waitresses in hotels and soldiers. Some expressed themselves as being ready to help wage in and kill of the drones.

N. E. Naylor, Ranger from the department of public safety, was here Tuesday night to demonstrate how to subdue incendiary bombs. Ranger Naylor stated that he would like to live in Brownfield among the truly 100 percent Americans.

This paper has supported FDR almost 100 per cent, but we note that he is still for the 40 hour week. Wonder if he is for the 40 hour week for Gen. Douglas McArthur and his fighting men?

Two S. P. Counties Lead In Cotton

Lubbock county with 85,104 bales and Lynn county with 65,901 bales, stood first and second in cotton production in the state. Most of the 19 counties usually represented as south Plains counties, although some are partially or entirely off the caprock, are way ahead of their last years' winnings.

There is however an exception of the west tier of counties, including Terry and north, the other four being Hockley, Lamb, Cochran and Bailey. These counties had some very heavy rains and hails in both May and June, and a lot of the cotton made practically nothing. Terry usually produces quite a bit more cotton than it gives.

Report By Counties

County	1941	1940
Bailey	17,626	25,644
Briscoe	6,658	5,188
Castro	1,967	2,570
Crosby	50,251	23,456
Cochran	11,545	18,341
Dawson	55,656	35,622
Dickens	33,939	13,053
Floyd	10,827	15,546
Gaines	7,559	3,994
Garza	15,760	5,140
Hale	32,721	23,267
Hockley	41,749	54,835
Lamb	49,181	58,091
Lubbock	85,104	48,690
Lynn	65,901	39,952
Motley	15,901	11,922
Parmer	1,955	5,600
Scurry	40,744	23,035
Terry	29,193	35,570
Total	574,267	449,496

Bill Allmon Now At Corner Drug

Several months ago, this paper informed you that Bill Allmon was away learning the art of repairing watches and jewelry, and that upon completion of that job, he would return to Brownfield and take over that department at the Corner Drug store.

Bill is here, and seems to be busy as a bee at his new place of business. We will make this statement: If Bill makes as good a jeweler as he was a barber, he will be hard to beat. His dad before him was a mechanic and carpenter of no mean ability, and Bill comes by such work naturally.

CONQUERED? Wait 'till you see this blazing story of hunted heroes who fight on! Stand by—"Paris Calling!" Coming to Rialto Friday and Saturday.

Telephone Pole Fire Wednesday Morning

The local fire department was called out about ten-thirty Wednesday morning to the rear of the Southwestern Associated Telephone Co., exchange building, when a pile of telephone poles became ignited.

As the fire had gained little headway, it was quickly put out. They evidently caught fire from burning waste in that vicinity. With a hard wind blowing like that of Wed., people should be very careful about having a fire out in the open.

WE'RE IN WAR UP TO OUR NECKS

(AN EDITORIAL)

The American people were told by supposed Admirals and Generals on the retired list that Japan had no natural resources, and that her war supplies would run out in a few months if confronted by first class powers. We have learned to our sorrow that these experts knew just about as much about the striking power of Japan as we land lubbers out here hundreds of miles from the sea.

In the meantime, some of our people are making a big cry for more social security payments, right when the people are burdened as never before trying to pay a higher and still growing income tax. Labor unions, both AFL and CIO in the meantime, have allowed strikes in our essential war industries, over trivial matters, while our half equipped soldiers and sailors in the Pacific are alert every hour of the week with no overtime payments and no holidays, and pay at approximately one dollar per day.

If the axis governments win this war, there will be no further use for social security for "their slaves" in this country. There will be no more unions. Hitler and his bunch will tell you where and how long you work, and there will be no mention of pay, overtime or holidays, and the initiation fee of the unions will go into the axis treasury. No wonder that the thinking American people are waking up to the fact that something other than talk must be done. Our war machines must run day and night every hour of the week, and the 40 hour week must be killed as dead as a dodo for the duration.

And along with all that, those guys that are making millions in profits at the expense of a tax burdened people must be stopped dead. They should be shot between their eyes at sunrise. This is no time to think of profits. They are slackers no less than the strikers.

James Cantwell Fatally Burned Last Week

James L. Cantwell, 16, of the Union community, and son of Mr. and Mrs. G. G. Cantwell, was so seriously burned Tuesday afternoon at the Caperton Garage, that he died Wednesday. He was working on a car, with his clothing saturated with gasoline. He struck a match to light a cigarette, when his clothing became ignited.

Young Cantwell tried to put out the fire himself. He was badly burned on the upper body and lower limbs. He was rushed to the local hospital by the ambulance, but little could be done for him, even ease his pain.

The Brownfield Funeral Home announced Wednesday afternoon that funeral arrangements had not been completed at that time.

Editor's note: The above was written last week. Copy misplaced.

Negro Killed At Seagraves Buried Here

Henry J. McElroy, 22, colored, was fatally shot by a negro deputy at Seagraves, Sunday night some time. McElroy died about five A. M., Monday. The body was brought here by the Brownfield Funeral Home. Burial for deceased was set for Thursday afternoon this week.

There are two stories about the matter, one that McElroy and wife were fussing when the deputy broke in and shot McElroy when he protested that he and wife could settle their differences.

The deputy stated, however, that McElroy got rough and threatened and scared the Seagraves negroes, and even threatened him (the deputy). He was shot through the heart.

We understand that McElroy, who at one time lived here, had moved to Levelland. His wife and mother live here.

Mrs. Fontella Corruith of Lubbock visited friends here Tuesday.

Texas Way Down The Line In Book Donations

Mrs. J. L. Randal and Mrs. H. R. Winston, who are collecting books to be sent to Soldier, Sailor and Marine centers for recreational purposes, stated to us Monday that Texas was way down the line in book collections. Local libraries all over the state are cooperating in this "Victory Book Campaign," but they are woefully behind. While as of February 28th, 27,500 books had been collected from 6,400,000 Texans, in comparison, Connecticut with one third our population had collected 65,000 books.

Is Connecticut more patriotic than Texas? Hardly. There is some other reason. Go through your books today; select a list you feel will be of interest to men in training, and call these ladies. They will have them collected by the Boy Scouts. Good Magazines, especially of the National Geographic variety, whose texts and pictures are as good five years from now as at present. Of course many of these books go to our own Texas camps, while thousands of others go to the far flung regions where our soldiers are billeted. Here is a typical comment:

"If the book campaign could supply the forces in Iceland with reading material, it would help many a homesick boy pass many miserable hours in a barren gloomy, cold, far away spot."

Don't forget to do this matter, but go through your books and magazines as soon as you read this and call either Mrs. Randal or Mrs. Winston. Mrs. Randal's phone is No. 3.

First Aid Classes To Be Started

Three new First Aid Classes will be organized at a meeting to be held March 30th in the District Court Room at Brownfield.

A class for women will be instructed by Mrs. V. N. Keyes; Elmer Brownlee will instruct a class for men, and Ed Stewart will instruct a mixed class for advanced first aiders, that is those who have previously completed the standard Red Cross First Aid Course. Only those persons who have reached the age of 17 or have completed the second year in high school are eligible for enrollment in these classes. The public is invited to attend this meeting and enroll for first aid instruction. The only cost to the individual will be the purchase of a First Aid Text Book at a cost of fifty cents.

Three other first aid classes are being started in Brownfield next week. E. W. Jones will have a class of firemen and Air Raid Wardens, and T. R. Black and E. G. Akers will instruct the members of the local Defense Guard.

After All, A Pretty Lively City Election

For awhile, it looked like we were to have a pretty tame city election, but as time runs on, three have offered for the office of Mayor, and six for Councilmen, when only two of the latter are to be elected—the two high men.

The following is a list of the candidates for Mayor as well as City Councilmen for your information:

SAMPLE BALLOT
(Vote For One Mayor)
Clyde C. Coleman
Jesse D. Cox
Frank Jordan
(Vote For Two Councilmen)
Tom Cobb
Kyle Graves
Ike Bailey
W. B. Tudor
R. L. Bowers
R. M. Moorhead

J. S. Smith was in from the farm northeast of the city, Monday, and informed us that Jesse Jr. was now in the Navy.

U. S. Marines of the Second Division helped capture 12,026 prisoners in World war I, one fifth of the total number captured by the entire A. E. F.

Defense Clean-Up Week Proclaimed By Gov. Stevenson

Civilian Defense Clean-up Week in Texas has been designated for March 29 to April 4, in a proclamation issued by Governor Coke Stevenson.

Calling for cooperation of city and county officials, fire departments, public schools—both urban and rural, civic and patriotic organizations, the Governor in his proclamation has emphasized the need of a clean-up campaign at this time in the interest of public health and fire prevention.

"The health of our citizens and the preservation of property from destruction by fire is of vital importance to our nation as an important part of its Victory program," the Governor declared.

Dr. Geo. W. Cox, State Health Officer, stated that the health of the nation in time of peace or war was of paramount importance. The men in our armed forces must be in perfect physical condition, and those engaged in supplying war material and other defense activities can not have their efforts dissipated by sickness or accidents. This week should kindle a desire on the part of all to make health a part of their war effort.

"Fire prevention has always paid liberal dividends where it has been practiced," Marvin Hall, State Fire Insurance Commissioner, said. "The value of fire prevention now is more important than at any time in the past twenty-five years. The growing list of every day articles being removed from market as more plants are converted to war production makes it vital that all resources be protected from fire losses. A thorough clean-up with the removal of fire hazards is of major importance in fire prevention."

It has been pointed out that scrap and waste collections for the war effort can be given added emphasis during Civilian Defense Clean-Up Week by organizations engaged in such activity. "In collecting waste paper," Commissioner Hall cautioned, "care should be exercised in storing it so as not to create a new fire hazard."

Company D To Have Box Supper Tonight At American Legion Hall

Do you remember those good old box suppers of days gone by? Why not come to another one Friday night, March 27th, 8:30 P. M. at the American Legion Hall? It's such a good way to get acquainted and we promise you will have a good time. You ladies fix up a good box, a pretty box, and some good looking man will certainly pay for the privilege of eating supper with you. And think what a good cause you and that goodlooking man will be contributing to. Company D, 34th Battalion Texas Defense Guard is sponsoring this event. Company D is made up of some mighty fine old boys from this town and county. They give two nights a week to learn how to make good soldiers and defend their homes and this county against anything that might come up. Why don't you good ladies and good men give of your food money and help us buy some ammunition in order that we may better defend our homes and this county. We not only want you ladies to bring a pretty box with lots of good things to eat in it, but we want you men to bring a pocket full of money. And that's not all—we promise you a big time. Company D will give you a fine exhibition drill. If you have not seen them drill lately it will be worth the money just to see this. Then we'll have a box supper. Private Bill Eason and Private Emmitt Smith have arranged a fine program that will go on during the supper. There will be good old string music, barber shop quartets, etc. From Captain Edwards to the lowest down buck private in the

City Delivery Explained To Public

1. If you are not sure that you are in the city delivery territory, please call by the office and we will gladly look it up for you.

2. If you are in the city delivery territory and want city delivery—be sure your house is numbered and your box up.

3. There will be two deliveries each day—one in the morning—one in the evening, and we will also deliver the parcel post once each day.

4. Remember though, that there will be no deliveries, on Sundays, holidays, or Saturday evenings.

5. This service is free, but drop letter now will be 2c instead of 1c.

6. We would like for you to have all your mail either delivered or put in the box, but if you want city delivery and want to keep your box for Sundays and holidays we will accommodate you.

7. Please have your mail addressed as you would like to have it delivered—have it addressed to your street and house number or to your post office box number, whichever the case might be.

8. City delivery is new to us too. There will be errors made, but we ask your co-operation and we will all work it out fine.

9. If you do not intend to keep your box please turn in your keys and draw down your 20c deposit. This will make boxes available to those who have been wanting one for so long.

10. Beginning the first Saturday in April the office will be open all day and will continue to be open from 8 A. M. to 6 P. M., six days a week.

11. The street letter boxes will be put up at conveniently located points on the routes. Use them. They are for your convenience. Pick-ups will be made twice a day as the carrier makes his rounds. As far as is known at the present there will be no pick-ups on Sundays or holidays except in the business district.

The Postmaster would like to take this means of expressing his thanks and appreciation to the newspapers of the city, the Chamber of Commerce, the Lions Club, the Mayor and City Council, and all those individuals who worked toward making City Delivery possible. City Delivery is a forward step in the growth of our little city. I am proud to have had my small part in making this possible but in no sense of the word claim the credit.
James H. Dallas, Postmaster.

Lose Father

Martin Line, Employee of the Cicero Smith Lumber Co., lost his father, J. N. Line, 63, of O'Donnell, at 1:15 Tuesday morning, in the Lubbock General Hospital, after being admitted Monday.

Funeral services were held at 3 o'clock Thursday at O'Donnell. He is survived by his wife and six other sons and one daughter.

Editor's note: The above was written last week; copy misplaced.

A TIMELY JUNGLE FAIRY STORY

An unarmed American soldier crept in breathless silence through a smelly swamp jungle in New Guinea. Monkeys chattered and played all around on hanging vines and in tree tops. Suddenly, the horrified soldier froze in his defenseless tracks. Through a break in the dense, green jungle, the hot sun glined on a glistening gun muzzle aimed at his heart. It was so close, he could see the Jap's finger squeezing the trigger. The American prayed God for salvation—and a shrill whistle blew! The forty hour week was up. If you believe the Jap threw his gun down and went home to dinner, smack your lips and sing "God Bless America." And monkeys chattered and played all around.—Earl Lam in Timely Topics.

Supreme In Circulation

Company will appreciate your being there and participating in this good, old event.

CITY OFFICES

We are authorized to announce the following candidates for Brownfield city offices, at an election to be held the first Tuesday in April, 1942, which will be the 7th day of April, 1942.

FOR MAYOR

Clyde C. Coleman

Frank Jordan

Jesse D. Cox.

One division of the General Motors informs us that repairs and replacements on that particular car has jumped 80 per cent since we entered the war and cars and tires have been frozen. Yep, they all want to make the old bus endure for the duration.

The priorities board has reminded us that for the duration, there will be no washing machines made. So better take mighty good care of the old one, and most housewives know more how to do this than we. It is very important that the life of the rubber rolls of the wringers be given good care. If you are unable to make repairs at home, your dealer has mechanics trained to do the work.

There may have been a bit of misunderstanding between the letter printed elsewhere from a reader who once lived here, and is now engaged in airplane production on the Pacific coast, and the Rotary club and other petition signers of this place. So far as we are aware, there has not been any great hindrance of production at the assembling plants out where our reader lives, but rather in the steel mills and engine works in the east and middle north.

For the past several years we have heard much talk of Fifth Columnists. Now, we seem to be confronted with Sixth Columnists in the shape of tire and tube thieves and racketeers, and law enforcement bodies in most places are hearing down and making it plenty unhealthy for this gentry. As reported in press releases, here are some of the ruses to get by selling new tire and tubes for second hands. Take a lot of mud and dirt; get it into the treads and sidewalls. Put phoney patches on new tubes, and there you are—if the law don't get you.

Right now up Washington way, while a lot of the congress frowns on the idea, they say that a graduated sales tax probably has a fifty-fifty chance of passing, and if it were not election year, an even better break. The graduated tax would range from one per-

cent on staple groceries and the less costly garments that us common herd eat and wear, on up to five percent on the semi-luxuries, such for instance as caviar, t-bones, etc., we guess, that the uncommon herd uses. Say what you will, if everyone felt the press of war a bit more, maybe most of us would appreciate to the fullest just what "all-out" means. Many leaders are fearful that the income tax is just about as high as it will go without a break. And that means, if folks don't make it, they can't pay it and support their families at the same time, without borrowing money.

In a release to the press this week, Senator Tom Connally comes out squarely against strikes by laborers at this time, and just as hard against manufacturers profiteering during this time of our sore trial. Those who have watched the proceedings at Washington know that Tom Connally has stood for every bill looking toward the hastening of war production. We also know where Senator O'Daniel stands in regard to strikes and profiteering, as well as the fine bunch of Congressmen from Texas. Senator Connally says we have a gigantic task before us and concludes his statement with these ringing words: "For the life of me, I can't see how any group or class of our people in this dark hour of our Nation's trial, would want to segregate itself from the general public, from the great masses of our people, and claim or demand a special privilege or a special profit, when men are shedding their lifeblood."

AUTHORITY

A minister who quoted the Bible as an authority for his having to have new tires got a Bible quotation in return last week from State Rationing Official, Mark McGee.

The minister, refused tires by his local rationing board, wrote McGee of his troubles and cited the passage which says, "Go ye into all the world and preach the Gospel to every Creature."

"There is no Biblical quotation," McGee wrote back, "which directs that you use automobiles for this work . . . I am not trying to be facetious, but it occurs to me that you may be trying to bring just a little Biblical pressure on me. I do find in the Bible references to other modes of transportation.

McGee's quotations were in Samuel, where Mephiboseth told the King, "I will saddle me an ass, that I may ride thereon," and in Kings, where the Prophet said to his sons, "saddle me the ass and he rode thereon, and went after the men of God."

McGee added that these sainted Brethren . . . did quite as effective work and hoped that if the State Office is unable to grant the ministers appeal, "that need not cause you to discontinue your good work, for there will be available other means of travel by which the work may be carried on."—State Observer.

WON MANY DECORATIONS

U. S. Marines were awarded 1668 decorations at the close of World War I and hundreds more after the Armistice.

No matter how many publications you read each week, this paper gives you something you cannot get anywhere else in the world. And while you are enjoying its pages you are helping McLean to keep a newspaper, without which the community would cease to grow and prosper. A few people in each community appreciate the worth of the community newspaper, but when the paper is forced to suspend for lack of support, every person in the community feels the blow—right in the pocketbook where it hurts worse. We count our subscribers as partners in the outgoing of the community life—McLean News.

Subscribers are essential and all newspaper publishers appreciate every single one on his list, but subscribers alone will not begin to pay operating expenses. A liberal advertising patronage as well as job printing is necessary to keep any newspaper on a paying basis. There are a few towns that would not have any newspaper if they depended entirely on local support—Miami Chief.

Jane Brownfield, Evelyn Jones, Maxie Feltz, and Joan Lewis, students at Tech, spent the weekend here.

ESSAY PUBLISHED
Neil Marie Eckhart's essay "The Pit" was published in the March 1942 issue of the Galleon. The Galleon is a literary magazine published each semester by the students of McMurry College, Abilene, Texas. Jo Stewart, Aspermont, is editor and Gene McGee, Abilene, is artist.

Miss Eckert is the daughter of Mr. and Mrs. J. P. Eckert of Brownfield.

Jack Rogers, who has been employed by the Piggly Wiggly store here for some time, was transferred to the Denver City store this week.

BUSINESS MEETING

The Federated Missionary Society will have a short business meeting immediately following the special pre-Easter service, Monday, March 30 at the Methodist church.

Mrs. Berta Lee Brewer is in Arizona this week where she went to attend the funeral of a friend.

Mr. and Mrs. H. C. Shively of Wheeler, Texas, are the proud parents of a fine baby boy, born March 3. The grandmother, Mrs. Bruce Hancock, returned to her home Wednesday morning and stated that mother and child were doing nicely.

Mr. and Mrs. Lee O. Allen have returned from a two weeks visit to New Orleans.

How To Handle Incendiary Bombs

By Marvin Hall

AUSTIN—Described as essential information which every person should know, Marvin Hall, State Fire Insurance Commissioner and Fire Defense Coordinator of the National Defense Committee for Texas, today outlined the ways in which incendiary bombs may be most effectively controlled.

"As long as there is a possibility of attack on the United States," Hall stated, "it is imperative that each of us know what to do in the event of a bombing raid."

The Fire Insurance Commissioner said training classes in Civilian Defense are giving careful study of the control of fire bombs, but added that only a small percentage of citizens are enrolled in the classes, and that thousands of Texans in the rural areas had no opportunity to attend the wartime emergency training classes.

Discussing the effect of incendiary bombing raids, Hall said the chief threat is that they set a large number of simultaneous fires over a wide area. Because American fire departments have been organized and equipped to deal with one fire at a time, a series of wide-spread fires would present a very serious problem.

The incendiary bomb must be recognized as one among the enemy's most destructive weapons under limited raiding conditions. Fires spreading over wide areas, unless controlled, could destroy more production and resources with greater damage than a few high explosive bombs dropped from hit-and-run raiding planes.

Incendiary Bombs Different
The incendiary bomb is vastly different from the high explosive bomb. While the explosive bombs vary in weight from several hundred to a few thousand pounds, they are designed to demolish whatever they strike. The more commonly used incendiary bombs weigh approximately two pounds each and a large plane can carry hundreds of them, and in a few seconds they can be scattered over a wide area.

The aerial incendiary bomb most frequently used consists of a magnesium tube filled with a mixture of powdered aluminum and iron oxide known as "thermit." When this bomb strikes, the thermit is ignited and burns fiercely at high degrees of temperature, melting and setting fire to the magnesium casing.

When dropped from 5,000 ft. or more this small bomb will penetrate any ordinary roof of wood, tile, slate or metal and an underlying plaster ceiling, but probably not a wooden floor below.

Burning incendiaries cannot be extinguished, except by special methods not ordinarily available in the home, but they can be controlled by prompt action and the use of simple tools, with a minimum amount of damage resulting from the fires started.

Although the incendiary bomb should be put under control as soon as possible, do not approach within 50 feet for approximately 2 minutes after it strikes. Some few bombs have a small explosive charge timed to go off about 2 minutes after impact. Furthermore, the violent phase of its burning action last for about 60 seconds after igniting.

If left alone the ordinary bomb will burn out in 15 to 20 minutes, but the heat generated will set fire to anything combustible within several feet.

Two Methods of Control
There are two methods of controlling the bombs, either of which may be effectively used in the home. One is using a fine spray of water and the other is the use of dry sand.

Do not expose yourself to the intense heat. Use a shield such as an overturned table, chair or partially opened door.

To control the bomb action by water USE ONLY A FINE SPRAY OR MIST from a garden hose or a hand pump with a spray nozzle.
In contact with the burning metal, the water spray is converted into steam, thereby producing a cooling effect. Water spray will reduce burning time 10 minutes or more. The floor and surrounding combustible materials are

cooled, thus preventing the spread of fire until the bomb has burned out.

Never apply a solid stream of water, and never dash a bucket of water on the bomb. **THIS WILL CAUSE AN EXPLOSION AND SCATTER BURNING METAL!**

If water is not available use the sand method. **Be sure the sand is dry.** Sand will smother the bomb until it can be carried outside the building.

Use a bucket or other metal container for the sand. Pour a part of it out near the bomb. Using a long-handled shovel place sand around and over the bomb, enough to smother it. Pick up bomb and sand with shovel and put it in the bucket. Catching the bucket handle with the shovel, take it outside immediately.

Do not use chemical extinguishers on bombs!

Don't allow the fire to get out of control. It may be necessary to neglect the bomb to prevent spread of fire to other parts of the building.

In event of an air raid alarm be sure you can reach the ordinarily inaccessible places in your home. Have your hose connected, but be sure it is long enough to reach any place in the house. Otherwise have sand and shovel

Mr. and Mrs. Jessie Woosley of Brady and Mrs. T. C. Boucher and son of Abilene spent Saturday with Mr. and Mrs. Spencer Kendrick.

THE JAPS AND GERMANS WILL WIN WHEN
(Stamford Leader)

Will the Jap and German win? Yes; when the sands of the desert grow cold; when the stars cease shining and the sun has burned out and the moon thereby lost its lustre; when a true man of the United States turns his back on his wife and own blood; when the katydid swaps his insidious small racket for the bel-lows of the bull and the bull whippers like a snake hisses; when a mother whips her baby from her bosom; when a father kicks his laughter from the door; when poison is drunk by humans instead of water; when the lily gives for the smell of a dead pole cat and pole cat aroma is worn in preference of roses in the corsages of the pure; when the earth has a billion of such fools as Lindberg, Hoover and Wheeler and their satellites; when the rivers start running uphill and the oceans pour into and squelch hell, then and not until then will the Japs and Germans win, and by that time nobody will give a dried apple dum if they do, for who would want such an earth? Who would be here to want it?

Buckle on the sword of righteousness and on to the war, with the sword to the hilt!

P. S. — All "cuss" words are written as reverently as any preacher could write them.

WILLING TO DEMONSTRATE
Attorney: "Where was the defendant milking the cow?"
Witness: It's hard to describe, Judge, but if you'll bring in a cow, I'll show you the exact place."

Mr. and Mrs. Spencer Kendrick and children visited relatives in Tahoka and Lubbock Sunday.

G. T. Coker showed us a late photo of his son, Sgt. S. F. Coker, who is taking air training at Shepherd Field, Texas. A fine lad, and we shall expect S. F. to give a good account of himself.

Neglect May Invite Pyorrhea

WE DELIVER PHONE 77

YOU HAVE A RIGHT TO KNOW
What to expect from any Candidate for office.
I believe in a time like this, strict economy should be practiced in City Government, as in ones personal affairs.
I believe only the amount of taxes should be assessed that are necessary to carry on the needs of the Government.
I believe the voice of the Citizens should rule, and be heeded by those in Authority
I believe the people should select the ones who they want to serve as City Secretary, Assessor and Collector, as well as City Marshall, and that all of these should be elected by a vote of the Citizens.
If I am elected Mayor of the City of Brownfield, I shall insist that these things be carried out in full. If you want to have a voice in what is being done in your City, if you believe you would like this kind of Government, then on the seventh day of April, come to the polls and vote for me as Bayor.

A Statement To The People By George Mahon

It has been evident that the American people; particularly the people of the South, want legislation to prevent strikes in defense industries and to prevent profiteering and racketeering.

More recently the people have become aroused, and rightly so, over the continuation of the forty-hour week in war industries while their sons are fighting and dying for their country on a twenty-four-hour-a-day basis at small pay and at a time when production is the key to victory and the most effective way to reduce human losses to a minimum.

The people do not like excessive profits by industries or anyone else in wartime, feeling that everyone should sacrifice for the good of all and that all we have in this Nation is now at stake.

I have a deep conviction that the people are right, and I have been outspoken in expressing my views in Washington, and I have voted accordingly. This has been true of most Southern Members of Congress in the House and Senate, but we have been blocked by the efforts of Members from the industrial areas who outnumber the Southern Members.

On December 3rd the House passed the Smith bill, feeling that it would prevent strikes, speed up production and give the great mass of labor a better opportunity to produce. Unfortunately, this

bill has been blocked in the Senate for many weeks. In the House we are now seeking action on effective elimination of the forty-hour week for the duration of the war. In my opinion this ought to be done, and all profits should be taken out of war for industry.

It must be borne in mind that under our form of Government Congress cannot buy equipment for the armed forces or enter into contracts for production. The President and Donald Nelson are in charge of spending the money which we appropriate and equipping our Army and Navy. They have opposed legislation to prevent strikes and speed up production, undoubtedly feeling that better results could be achieved otherwise, and they have recently appealed to Congress not to take action in regard to strikes and the forty-hour week.

These questions involving war production are vital to the nation. It should not be concluded that because mistakes have been made the program is a complete failure. Great strides are being made, but we cannot be satisfied with anything short of our best.

For my part I shall continue to work and vote for legislation to eliminate strikes, excess profits, and the forty hour week for the duration of the war.

National unity is essential to victory, and we cannot let our disappointment and disapproval of certain policies tear us apart. We must not be satisfied with inefficiency, but we must keep our balance. In unity there is strength. In disunity there is disaster.

May Use School Students On Farms

High school and college students may be provided with an opportunity this summer to "do their bit" in the war by helping in the Government's "Food for Victory" program, according to J. H. Bond, Director of the United States Employment Service for Texas.

Cooperating in the Government's program, Texas farmers during this year expect to produce the greatest food crops in history. Because many farm workers have gone into the armed services and war production factories, shortages of workers are expected in some localities during the growing and harvest season. Students may be called upon to make up for these shortages.

Students have always done a fine job in bringing in crops when their help was needed. In States suffering from labor shortages, students last year joined the Employment Service in the drive to find workers to save the crops. In fact, in many a rural area without student help there would have been a considerable loss of food.

Not since 1917 has there been such a demand for farm workers. The battle for food on the home front must be won. It is a battle that we must win if we are to win the war. The production of food is as important as the production of planes, tanks, guns, and ships.

So, in months to come, United States Employment Service offices may call for young men and women to fill jobs in agriculture. Those wishing to do their part to aid their country should apply at the Employment office nearest to their home.

The area office of the Employment Service is located at 1207-13th Street, Lubbock, Texas or a representative of the Employment Service may be contacted at Brownfield each Friday between 1 and 4 o'clock in the Court House.

Mr. and Mrs. Truett Flache will leave Sunday for Ft. Sill, Okla., where they will be stationed.

Mrs. L. Nicholson and son spent the weekend visiting relatives in Dallas.

Coming to the Rialto Sunday, "Hellzapppin," starring Olsen and Johnson, Martha Raye, Jane Frazer, and Mischa Auer. The laugh show of the year; at last it's on the screen! Greater than the stage show! You will also see 30 Congresses. The Stages' zaniest show becomes the slap-happiest film ever made!

G. E. GIVES RURAL PEOPLE ITS MESSAGE

For the first time in its history perhaps, the General Electric Co., is taking a series of messages to the rural people. Now rural people are classed as those living on farms and ranches, and in cities with less than 5000 people. In order to reach these people with an ad each month for the next twelve months, space is being bought in weekly papers.

As the reader probably knows, GE Co., is engaged in making some very technical stock for the general welfare of the country, and their ads will be well illustrated and of interest to the people.

Mrs. A. W. Turner and Wanda Ruth Turner spent the weekend in Dallas and Pittsburgh.

WHEN PERSHING HONORED MacARTHUR 23 YEARS AGO—This picture, made on a blustery March day in Remagen, Rhenish Prussia, shows the commander of the A. E. F. pinning the Distinguished Service Medal on General Douglas MacArthur then commanding the 84th Brigade, 42nd Division. The photo is from the World War files of the U. S. Signal Corps. This was General MacArthur's second decoration. He was awarded the Distinguished Service Cross for gallantry in action in March, 1918. He also wears the Silver Star Medal with six oak leaf clusters. A bill is pending in Congress to award him the Medal of Honor.

Average American Diet Insufficient

Only one quarter of the families in the United States have diets rated "good" by the United States Department of Agriculture. Large food expenditures don't guarantee adequate diets. Only 40 percent of the people who have a large income to provide adequate diets actually eat balanced meals. A balance meal is one which provides for all of the food essentials; carbohydrates, fats, proteins, minerals and vitamins, but through improper home storage and cooking they are destroyed. This is especially true of vitamins and minerals. The vitamins in food are unstable in one way or another. Some are destroyed by heat, others by drying and staleness. Nature is lavish with her gift of vitamins. The trouble is we waste them. They actually disappear. It is easy to destroy from 50 to 90 per cent of the vitamins contained in food through improper home storage and cooking. You cannot keep a meal balanced without taking into consideration the effectiveness of home storage and cooking. Probably millions of people eat the ingredients of a well balanced

diet, but the ystills have several of the same 40 common food deficiency symptoms.

SCOUTS TO COMPETE AT LUBBOCK GYM

LUBBOCK—Boy Scouts of the South Plains Council will compete here at the Senior High gym Friday night, March 27, for First Aid honors in the annual council meet. R. E. Stroup, chairman, said. Twenty-three towns will be represented from 37 Troops, including 58 patrol teams, the largest in history.

Troop 5, First Christian Church, Lubbock, will defend its title won in the past four consecutive years. Again Troop 23, Lions Club, Lamesa, will send a strong contender. This troop has always finished second to Troop 5 in the past two meets.

Towns sending troops are: Tulla, Dimmitt, Plainview, Olton, Petersburg, Littlefield, Muleshoe, Sudan, Morton, Levelland, Whiteface, Sundown, Brownfield, Sea-graves, Seminole, Denver City, Lamesa, Slaton, Floydada, Ralls, Lockney, Matador, Spur, and Lubbock.

HOT ROLLS with Coffee, 10c. Hancock's Cafe

Not A Candidate

This is to advise the voters of Brownfield that I AM NOT A CANDIDATE for the office of Councilman.

R. M. Moorhead

"Let's Defend Our Agricultural Front"

One of the surest safeguards to our Agricultural Front is the planting of fertile seeds. This year, more than ever before, it is necessary to make sure that the seeds used for planting are fertile. The exceptionally wet year of 1941 produced seeds with a germination capacity as low as 18 percent. Agricultural experts advise that seeds (cotton and others) suitable for planting, should have a germination capacity of 80 percent or better. Germination tests will be run free by the Agricultural Department of Texas Technological College, Lubbock, Texas. Mr. R. N. McClain, your County Agent, will take your samples to Lubbock for you free of charge if you leave them in his office. It takes about three weeks to have a germination test run. Now is the time to take the initial defense in the Agricultural Front. Be certain of the seeds that are planted.

CEN-TEX HARMONY CLUB DISCUSSES PUBLIC SCHOOL MUSIC

The Cen-Tex Harmony Club met in the High School Auditorium Tuesday afternoon with Misses M. Burleson, Viola Brown, and Maudie Jo Fields as hostesses. The theme of the program was "Folk Music in Our Schools" with Miss Brown as program director. Mrs. Money Price discussed "Music in the Rural Schools." A demonstration by students from Brownfield Public Schools and surrounding communities was given.

The next meeting will be April 14th at the home of Mrs. Roy Herod.

PUBLIC INVITED TO SOCK SUPPER

The Rebekah Lodge will hold a Sock Supper at the I. O. O. F. Hall Monday night, March 30th. Amusement of fun and frolic will be furnished for all, so don't miss this one. The public is invited.

Maxine Johns is spending the weekend in Wichita Falls

REBEKAH LODGE HOLDS REGULAR MEETING

The Rebekah Lodge 56, met Monday, March 23, with Noble Grand, Cornelia Moore, presiding. The by-laws were read by the secretary, Mary Ellen Brown. Brother J. R. Garrison reported on the trip to the I. O. O. F. and Rebekah Convention in San Antonio. Ida Bruton gave a report on the sock supper which is to be held March 30.

Refreshment of chicken sandwiches, cake and coffee were served by J. R. Garrison and Ella Garrison.

MRS. HORD HONORED AT BREAKFAST

Mrs. Roy Ballard honored Mrs. Walter Hord with a farewell breakfast at her home Tuesday morning. The hostess served doughnuts, creamed beef on toast and coffee to Mesdames Bruce Zorns, Tom May, Jack Bailey, Grady Goin, Jack Davis, Bill Hefflin, Bill McKinney, Roy Herod, Tommy Black and Jack Stricklin Jr.

The honoree received many lovely gifts from those attending.

MRS. WINGERD SPEAKS AT CONVENTION

Mrs. Roy Wingerd, local chairman of defense, spoke at the Federated Club Convention in Lubbock Friday on "Building Strength at Home for Victory Abroad." Other delegates present at the convention who represented the Maids and Matrons were Mrs. Lee Brownfield, Mrs. M. G. Tarpey, and Mrs. J. M. Teague.

ENTERTAIN RUTH CLASS

Mrs. Arlie Lowrimore and Mrs. Ted Hardy entertained the Ruth Sunday School Class with a covered dish luncheon in the home of Mrs. Lowrimore Wednesday noon. Sunshine gifts were exchanged. Those present were Mesdames H. B. Parks, G. Chapman, Earl McCutcheon, Jerry Dumas, Ray Swindle, Wayne Mullins, O. L. Chapman, Curtis Shores, Homer Newman, C. L. Green, Roger Nevels, Shorty Brown, Kyle Adams, D. A. Brown, B. K. Rhea, R. D. Shewmake, Jr., Glen Hamby, Nathan Evans, Ora Bell Arnett.

NEEDLECRAFT CLUB MEETS

Mrs. J. P. Whitley, Mrs. R. L. Wreite, and Mrs. Bob Wright were hostesses to the Needlecraft Club Tuesday afternoon. Sandwiches, cookies, stuffed eggs, olives, and tea were served to Mesdames Bill Johns, Art Mills, Jim Williams, T. J. Harris and Rupert Long.

NOTICE TO RED CROSS KNITTERS

If you are knitting a turtle neck sweater, please finish it or turn it in now as our boys on patrol duty in the North Atlantic are needing them now. Please save them blocked before turning them in.

Mrs. J. L. Cruce. Miss Olga Fitzgerald and Mrs. J. W. Fitzgerald were Lubbock visitors Friday.

FERN SAWYER WINS WINS HONORS, AGAIN

Miss Fern Sawyer, daughter of Mr. and Mrs. Uyless Sawyer of Cross Roads, N. M., where the Sawyer ranch is located, and grand-daughter of Mrs. M. B. Sawyer of this city, has struck pay dirt again. This time on her new \$1000 counting horse, Belen, that some of the cow country gentry said she couldn't ride.

Belen works with a low head, and once the cow that is to be cut from the herd is located, he goes after her in a hurry. And despite all the quick turns, Fern stayed with her mount. In the saddle of a cutting horse is nothing new to Fern. That's frequent work on their ranch.

Methodist Church

Last Sunday at the eleven o'clock hour we had a large attendance and an unusually good service; however, we wish that many more could have heard the splendid and helpful sermon on prayer by Rev. H. W. Hanks. Sunday evening everyone present was inspired by the message in songs given by the Young People under the direction of Miss Burleson and Mrs. House. We hope to make this special feature a regular part of our church program.

Sunday School next Sunday at 9:45; Young People meet at 7:30; regular preaching hours at 11:00 and 8:15 o'clock.

"Perfect through suffering." (Heb. 2:10).

Steel is iron plus fire. Soil is rock plus heat or glacier crushing. Linen is flax plus the bath that cleans, the comb that separates, and the flail that pounds and the shuttles that weave. Human character must have a plus attached to it. The world does not forget great characters. But great characters are not made of luxuries; many times they are made by suffering. Some day, God is going to reveal the fact to every Christian that the very principles they now rebel against, have been the instruments which He used in perfection, polished stones for his great building yonder.

I heard of a mother who brought into her home a crippled boy who was also a hunchback. She had warned her boy to be very careful in his relations to the cripple, and not to touch the sensitive part of his life but to go right on playing with him as if he were an ordinary boy. She listened to her son as they were playing; and after a few minutes he said to his companion: "Do you know what you have on your back?" The little hunchback was embarrassed, and he hesitated.

The son replied, "It is a box in which your wings are; and some day God is going to cut it open, and then you will fly away and be an angel."—Selected

THE DISTINGUISHED FLYING CROSS

The Distinguished Flying Cross is awarded to any person, who, while serving in any capacity with the Army Air Corps of the United States, including the National Guard and the Organized Reserves, subsequent to April 6, 1917, has distinguished himself or shall distinguish himself by heroism or extraordinary achievement, while participating in an aerial flight.

On a bronze patee a four-bladed propeller; in the re-entrant angles, rays forming a 1-inch square. On the reverse are engraved the grade, name, and organization of the recipient. The cross is suspended by a plain straight link from a silk moire ribbon composed of alternate red, white, and blue stripes, blue predominating.

TACKS, BEWARE! Tacks are dangerous in the hands of Joan Carroll and provide many outbursts of laughter in "Obliging Young Lady" RKO Radio's romantic comedy which features Joan Carroll, Edmond O'Brien and Ruth Warrick. Coming to Ritz Sunday and Monday.

CARD OF THANKS

We wish to express our thanks to friends for the many cards and flowers, kind deeds and words offered us during our recent sorrows. May God's richest blessings be on each of you.

Rev. C. A. Duncan and wife, and daughter, Mrs. Louise Riley of Acme Mills, Texas.

Prepare For Food Shortages

We may expect shortages in the supply of aluminum pressure cookers, metal lids and rubber rings for screw type glass jars, and tin cans. Dealers still have a considerable stock of cookers on hand, and manufacturers have designed equipment made of substitute metals which we hope will be satisfactory. There is already enough equipment in the hands of Texas farm families to process a tremendous volume of food. Shortages of chemicals used in the manufacture of glass are anticipated; people who intend to preserve food will do well to start collecting glass containers. There are enough tin cans for normal needs, but lend-lease commitments call for more processing than America has ever done before. Commercial packers will get first call on cans. At the same time we may expect a big increase in home canning, both in the number of families canning and in total volume of food processed.

The Extension Service will recommend increased storage of fruits, vegetables and meats in cured and dried form as one step in relieving any possible shortage of tin and glass containers.

Pressure cooker gauges should be checked before each canning season and after any hard jar. This check is especially important now that many people will wipe the dust of years off of their canning equipment and start processing food again. Petcocks and safety valves should be cleaned each time food has been cooked or open containers exhausted in the cooker. To clean, unscrew, take apart and wash in boiling water. Exercise care to see that the parts are not scarred. Use a toothpick or needle to check the openings in the bottom of the cover. Dry carefully and put back together again before storing.

To remove stains and odors from pressure cookers, wash with soap and water and rinse well. Cut up a lemon, put it in the cooker, add two cups of water and hold the pressure at five pounds for five minutes. This will aid in cleaning as well as deodorizing. A double handful of potato peelings may be substituted for lemon to remove odors. Leave the cooker open when not in use.

We do not usually recommend the use of re-flanged tin containers but this may be necessary in war time. Any cans showing rust or discoloration on the inside should be discarded. To re-flange a can, slip the side seam of the opened can into the slot on the main frame of the sealer; start the new flange by turning the double seam of the can out, turn the flange on the sealer.

Commercial cans may be re-flanged and used for home canning.

ing, but should be filled with food they originally contained; use plain tin cans and enamel cans for the same purpose you would new ones.

Oil or beer cans and other types of cans not intended for food should not be used; the USDA Bureau of Home Economics has not found these suitable for preserving food.

Test rubber rings by folding and pressing tightly between the thumbs and forefingers. Unfold and stretch. If there is a crease at the folds, the ring has lost its elasticity and is no longer safe for canning.

Dorothy Faye Blanton, Home Demonstration Agent.

Porter Tomato Sure Yields For Area

College Station, March—The Porter Tomato does what other varieties do, but outyields them and fruits while others fail.

This endorsement comes from J. F. Rosborough, horticulturist of the Texas A. and M. Extension Service, who urges that the variety be included in Food For Victory gardens.

The Porter, according to the Texas Agricultural Experiment Station, is widely adopted, while L. F. Locke of the U. S. Southern Great Plains Field Station at Woodward, Oklahoma, has reported that the variety led all others in yield for five of the six years that it was tested by 400 former cooperators in competition with 70 other varieties grown in the Plains region.

The principal objection to the Porter, according to Rosborough, is that it is small in size. It is,

however, excellent for juice, preserves, salads, canning whole, and high in quality for eating out of hand or for table use.

"It may not be popular with people who want tomatoes that produce two and a half to four in. slices," the horticulturist pointed out, "but if they plant the Porter they can have tomatoes when all other varieties have failed." The variety not only succeeds in season when no other tomatoes fruit, but also yields over a much longer period, he said.

Rosborough recommended that the usual varieties of tomatoes be planted but that in every case the Porter be included.

QUOTABLE QUOTE

"One of the things I would like to let the people of Panama know is how the Red Cross came to the aid of the refugees on board our ship. Some of them had little children who did not have warm clothing, and who had been sick the whole trip. The dock was freezing with the coldest spell that New Orleans had had in years. "The Red Cross just took them over, minded the babies while mothers were going through the customs, and found places for them to stay while their trains left. Fed them and clothed them—and all this with the sweetest smiles I have ever seen. That was my first contact with the Red Cross at work, and I am glad that I have done my share of contributing." — Correspondent of Panama-American, who accompanied refugees on ship which docked at New Orleans.

I GIVE YOU TEXAS

by BOYCE HOUSE

A cow—according to the Sulphur Springs News-Telegram—is an angular feminine bovine, with four legs, an alto voice, a well established milk route and a face that inspires confidence.

A cow's husband is a bull. A cow's brat is a calf. Calves are generally used in the manufacture of chicken salad. When part of a

calf gets breaded, it is called cutlet.

A cow provides vitamins for double chocolate malted milks until she is old enough to enter a can of corn-beef hash.

Her tail is fastened to the rear of her back. It has a universal joint at one end and a fly swatter at the other.

An old cow has a tough time of it. In the end, she gets skinned by those she has benefitted—even as you and I.

A slice of cow's hindquarters is valuable to a cow but it is worth only a nickel to a farmer 16c to a meat packer, 46c to a retail butcher, and \$1.25 in a restaurant, not counting the tip.

Governor Coke Stevenson's appointments have been of a uniformly high level and none has met with more widespread approval than his recent naming of Harry Benge Crozier to the State Unemployment Compensation Commission. Crozier, a native Texan, hailing from the beautiful Heart of the Hills Country, was ace reporter for years on the Dallas News; is a keen observer of men and measure; a lover of literature and history; a pungent conversationalist; loyal to his friends (one of whom for years has been the present Governor) and is an all-round fine fellow.

Remember the joke about the Irishman who had made a fortune after 10 years' effort in America, so he decided to eat in the

finest Broadway restaurant? He said, "Bring me everything on the bill 'o fare." He consumed things he'd never seen before—soup, lobster and lettuce garnished with parsley. But when the waiter put a platter of fried eels in front of him, Pat roared: "I've drunk yer dish-water; I've et yer insects; I've swallered yer grass but I'll be domned if I'll eat yer worms!"

My chief aversion of the moment consists of these great "foreign correspondents" who knew for years (to hear them tell it now) what Hitler was going to do and what the Japs were up to—but didn't say anything about it. If they're telling the truth about having know all of this, then their failure to warn us makes them mighty close to being traitors. If they don't know (and I don't think they did), then they are liars.

One foreign correspondent kept a diary. Some great thinker—I think it was Thomas Carlyle—said that no man with a first class mind ever kept a systematic diary. But waiving that: I read the first three installments and was that boy good! Why, he never missed a shot; he called every turn. Only some sinister monster would insinuate that this great man kept a diary all right but that he went back over it and doctored it up.

A cynic might declare that when witnesses in the trial of a case are trying to tell the truth, they will not agree exactly in their stories because, under excitement, men will see things differently; but it is when witnesses agree perfectly that you are entitled to think that maybe so they were "coached" by a criminal lawyer.

But the dear old American public, putting down such remarks so spite, has gone for the diary book in a great, big way and so have even the self-confessed smart book reviewers.

And that, little boys and girls, is how "best sellers" are made.

Just before the rationing of tires went into effect, the latest thing in the way of a home: Garage for three cars with a built-in living room.

Do You Know Texas?

A reader of this newspaper can get the answer to any question of fact about Texas by writing A. Garland Adair, Curator of Patriotic Exhibits, Texas Memorial Museum, Austin, Texas.

TIMELY—It is better to use your own feet than a borrowed car.—Joachim Besen, Boerne, Texas.

Q. Who was the first candidate to announce for state office for the 1942 primaries?—A. L.

A. Bascom Giles, Commissioner of the General Land Office, was the first state candidate to announce. He seeks re-election to the office he now holds.

Q. When and where was the first congress of the Republic of Texas held?—I. S.

A. In 1836, the first congress met under Congress Oak at West Columbia.

FILM CO-ORDINATOR—Lowell Mellett, one of the White House lieutenants, was recently appointed by President Roosevelt to the post of Co-ordinator of Government films during the war emergency. Thus, the motion picture industry takes its pace along with the Fourth Estate and radio in the front rank of America's war efforts.

Q. Who was the first citizen of Texas to own and drive an automobile?—A. M.

A. The late Col. E. H. R. Green, only son of Hetty Green, while residing in Terrell.

Q. Who is known as the father of Texas Sunday schools?—I. B. I.

A. Thomas J. Pilgrim, member of the Baptist church. He was born in Middlesex, Conn., Dec. 19, 1805, and died at Gonzales, October 29, 1877. He came to Texas in 1827.

STATE'S TOTAL REVENUES SHOWN BY COMPTROLLER REPORT

Total revenues and receipts of the state government for the fiscal year 1941 were \$202,132,389, and expenditures for the same period amounted to \$166,073,022, Comptroller George Sheppard showed last week in his annual report to the governor.

Figures for revenues and receipts for the fiscal year 1937 to the year 1941 showed a steady increase, according to the report. The total increase from 1937 revenues was shown to be \$48,012,358, while the increase in expenditures over the same period was \$21,302,848.

Mr. and Mrs. Ross Bird of Lubbock spent the weekend with Mr. and Mrs. Slim Schellinger.

Preventing ordinary accidental fires is important as their results can be just as serious as fires from bombing raids.

More than 300 Texas towns and cities will benefit with a maximum credit of 25 per cent on 1942 insurance premiums because of good fire records for last year.

Almost 3 million dollars will be saved in fire insurance in Texas this year because of credits granted in 508 towns and cities for good fire records.

Fire kills skilled workers, endangers morale, halts production, consumes irreplaceable goods.

POOL

Rev. R. C. Dyess filled his regular appointment Sunday.

Mr. and Mrs. J. P. Rowe visited Mr. and Mrs. W T Ball and family Saturday.

Those spending the weekend in the home of Mrs. A. G. Britton and family were Mr. and Mrs. J. A. Britton and family of Ralls and Mr. and Mrs. O. J. McCrary and family of Monroe.

Mr. and Mrs. H. H. Harben spent Sunday with relatives in Plains.

Mr. and Mrs. J. J. Gunter had the misfortune of getting their house on fire Friday morning. The fire was caused from the cook stove. The kitchen was badly damaged.

Wilmet Duncan fell and broke her arm last week.

Nettie Jean and Dorothy New-som spent the weekend visiting

relatives in Brownfield.

Mr. and Mrs. Trussell and family, Mr. and Mrs. Jack Brown and family spent Saturday with relatives in Lubbock.

Mrs. L. D. Chambliss of Brownfield spent Monday night with her daughter, Mrs. J. J. Gunter and family.

Sent in by Floris Gunter.

BIRTH ANNOUNCEMENT

A son, Daniel Crist, was born March 14, to Mr. and Mrs. Charles L. Weddle, Jr., of Doylestown, Pennsylvania. Before her marriage, Mrs. Weddle was Miss Dorothy Gore, a former Home Management Supervisor with the Re-settlement (Farm Security) Administration who was at one time stationed in Brownfield for work in Terry and Yoakum counties.

Mr. Weddle is employed as flor-icultural geneticist by the Bur-son Seed Company.

Baptist Church News

Last Sunday was a good day in this church with 374 registering in the Bible study period. The people are becoming accustomed to the new time and attendance is climbing again.

A prominent visitor was present in the service being in this community in the interest of Howard Payne College of Brownwood, who was none other than Dr. Moore who is the teacher of Bible in that institution where he reports more than one thousand enrolled and 140 of them preachers and rents having soared in that city due to the Army camp, to such a height that these preachers are unable to pay and attend college and he is raising money to build them a modern camp at a reasonable rental and reported some money raised here for that purpose.

Mr. Lyman Wren the hardware merchant from Snyder, Texas and also a great Christian layman and deacon came Sunday and brought two addresses and is speaking each morning to mixed audiences at ten o'clock and each evening at 8:30 this week to men only.

CHURCH OF CHRIST

Sunday Services: Bible Study 10:00 A. M. Sermon 11:00 A. M. Communion 11:45 A. M. Sermon 8:15 P. M.

Monday Services: Men's Bible Class 8:30 P. M. Tuesday Services: Ladies Bible Class 2:30 P. M.

Wednesday Services: Mid-Week Bible Study 8:15 P. M.

The services were well attended the past week. Two placed membership with us at the Sunday morning service. The house was filled to capacity at that service. Our Men's Bible Class is showing a marked increase in attendance and interest. Seventeen were present last Monday night. This is an invitation to the men of the town to attend this service. "Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth." Paul "Come let us reason together."

More than sixty men heard him Monday evening and no doubt the attendance will grow as he brings a unique message that is all his own based on the Bible and his long experience as a business man and a Christian worker in his own church and teacher of a large class of men.

He honors the preacher and pastor but recognizes that fact that the church will never take her rightful place in any community without the leadership of her manpower who can accomplish much more with many men than the pastor of the church. Mr. Wren will be with us through next Sunday and all are invited to hear him, as he admonishes the men to take care of their influence and grow to become great Christians.

Mrs. Roy Jenkins is spending the weekend with relatives in Pampa.

Mr. and Mrs. Kyle Graves and Mr. and Mrs. Slim Schellinger visited Mr. and Mrs. Clarence Hudgens and Mr. and Mrs. Don Hudgens in Lamesa Sunday.

Mr. and Mrs. Richard Kendrick and Mrs. Lala Shaw were Lubbock visitors Wednesday.

Mr. and Mrs. Cecil Casey of Lubbock spent the weekend with Mr. and Mrs. C. G. Gore.

Pre-Easter Services Program Given

A week of pre-Easter services will be held at the Methodist church from March 30 through April 3. The meetings are being sponsored by the women's groups of the Christian, Baptist, Methodist and Presbyterian churches. There will be special music each day at 9:50 A. M. There will be a nurse conducted in connection with the services. The public is invited. The following is a brief outline of the program for the week:

Theme: "Choosing Christ's Way"

Monday, March 30: Special music, "The Palms (Faure)"; "Mrs. W. H. Dallas; Vocal Duet, "My Prayer," Norma Cary, Jean Craig; Vocal Solo, "Lord, Let Me Live Today" (Moore) Modene Pierce; Devotional, "What is Christ's way," Mrs. N. T. House; Sentence Prayers, Mrs. W. W. Price, leader; Talk, "Sunday a Day of Triumph; Monday, a Day of Authority," Mrs. Ralph Ferguson.

Tuesday, March 31: Special Music, Miss Gertrude Rasco; Devotional, "How Shall We Find Christ's Way Through Prayer," Mrs. A. Sawyer; Talk, "Tuesday, a Day of Conflict," Mrs. J. A. Dennis; Benediction, Mrs. W. Walters.

Wednesday, April 1: Special Music, Mrs. B. Long-brake; Vocal Solo, Mrs. T. Power; Devotional, "How do We Find His Way Through the Study of His Life and Teachings in the Bible," Mrs. Marvin Langham; Prayer, Mrs. C. Williams; Talk, "Wednesday, the Day of Retirement," Mrs. Fred Walker.

Thursday, April 2: Special Music, Mrs. M. E. Jacobson; Vocal Solo, Miss Dorothy Jean Power; Devotional, "Where Does Christ's Way Lead Us," Mrs. D. L. Patton; Sentence Prayers, Mrs. C. L. Green leader; Talk "Thursday, the Last Day With His Disciples," Mrs. W. S. Patrick; Closing Solo, Mrs. Bob Brown.

Friday, April 3: Special Music, Mrs. Roy Herod; Vocal Solo, "He Died of a Broken Heart," Mrs. C. M. Chapman; Devotional, "The Costs and Rewards of Choosing Christ's Way," Mrs. Grant Winston; Sentence Prayers, Mrs. J. J. Johnson, Mrs. Foote, Mrs. H. W. Hanks; Talk, "Friday, a Day of Suffering," Mrs. Toke Power; "Saturday, The Day in the Tomb," Mrs. J. H. Carpenter.

Hospital Notes

Those admitted to Treadaway-Daniell Hospital the past week were: Mrs. Grace Treta, Seagraves; Mrs. Wiley Day, Rt. 1, Seagraves; Mrs. J. V. Hart, Ropes; Marcia Jo Garner, Rt. 5; Mrs. J. O. Wheatley, City; and Mrs. Jim Pharr, City.

Mr. and Mrs. E. L. Chesshir are the proud parents of a baby girl; Mr and Mrs. E. M. McCombs of Tokio also have a baby girl. Mr. and Mrs. Rush Dudgeon of Tahoka are the proud parents of a baby boy

Mrs. Charles Roberts of Lubbock spent the weekend with Mr. and Mrs. J. H. Travis and Margaret Travis.

POOL HOME DEMONSTRATION CLUB

The Pool Home Demonstration club met in the club room March 18th at 2:30 P. M., with the president in charge.

The president gave a report of the council meeting. Miss Blanton urged the club members to give books and magazines for the soldiers.

An interesting demonstration on furniture arrangement was given by Miss Blanton.

There were nine members present.

The next meeting will be held in the club room April 1st at 2:30 P. M., with Mrs. Aline Mc-Leroy as hostess.

Flois Gunter, Club Reporter.

Steel-Piercing Eye

Steel used in vital parts for war machines—ships, tanks, guns—must be flawless, because America's fighting men must have weapons that are both accurate and tough.

1. The new million volt X ray built by General Electric saves precious hours in finding flaws. It is so powerful that its rays can pierce thick steel castings.

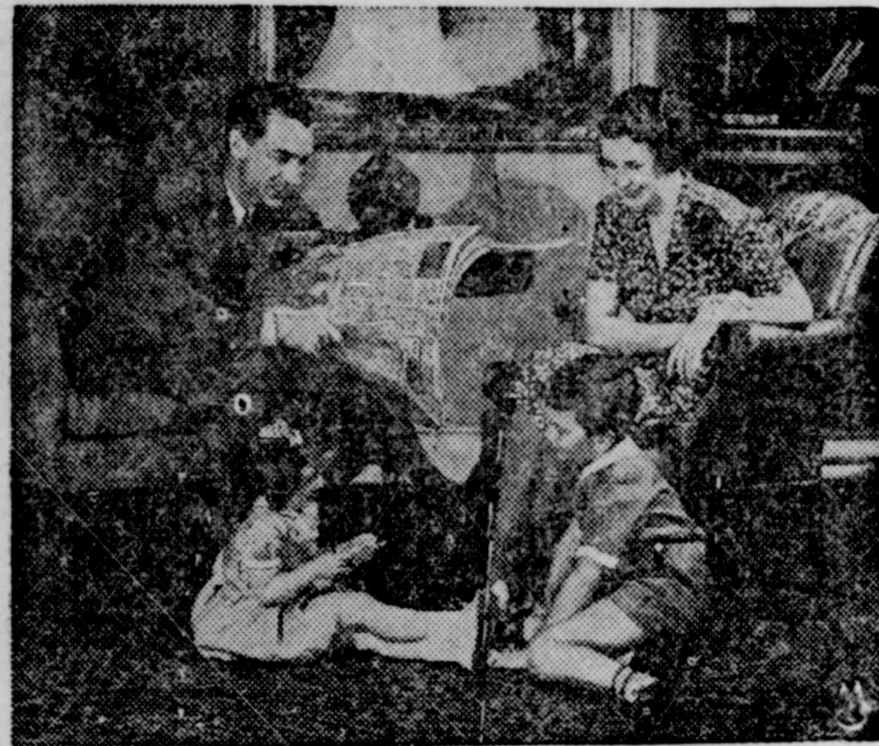

3. A regular check-up on pieces of X-ray film worn on workers' wrists helps guard against prolonged exposure to the rays given off by the X-ray tube.

4. X-ray exposure needed for 5-inch-thick steel is now 2 minutes instead of previous 3 1/2 hours! Whole days are saved in examination of even thicker castings.

General Electric believes that its first duty as a good citizen is to be a good soldier. General Electric Company, Schenectady, N. Y.

V FOR VICTORY BOOK CAMPAIGN

Our boys in the service want BOOKS to read--

LET'S SEE THAT THEY GET 'EM!

These Soldier Boys and Sailor Boys in the Service are OUR Boys. They're just typical American boys from typical American families. Help them get over their homesickness in some barren, gloomy, far-away spot by furnishing good books for them to read. Let their young hearts keep saying "Thumbs Up!"

Listed among the kind of books wanted are: Applied Psychology, Current Affairs, Military Publications, Crime and F. B. I., Police Systems and Fingerprinting, English Grammar, Arithmetic, Algebra, Geometry, Trigonometry, Calculus, Tables of Logarithms, Up-To-Date Technical Books, Accounting, Shorthand, Business and Salesmanship, Lettering, Mechanical Drawing, Photography, Cartoons, Books about Music, Sports, Novel and Playwriting, Geography, Travel, Biography, History, Fiction, especially Adventure, Aviation Stories, Historical Novels, Humor, Mysteries, Sports, Western and Pocket Book Series.

Uncle Sam's boys need your best books. Make a Sacrifice by giving them your best. All the grocery stores and the Post Office have boxes in which to put your books. Be sure and bring them with you when you come to town.

Traffic Deaths Down First Two Months

AUSTIN, March—Traffic fatalities in Texas decreased 19 per cent during the first two months of 1942 as compared with the same period of last year, State Police Director Homer Garrison reported today.

As of March 18 for the respective years, 298 persons were reported killed in January and February of 1941 and 239 were reported killed in January and February of 1942, a reduction of 55 fatalities.

Although State Highway Planning Survey found a 6.4 per cent decrease in highway traffic at 28 points in the state in January and February, the Comptroller's office reported at 10.6 increase in gasoline consumption. This divergence, Garrison explained, probably is due to the enormous amount of defense traffic not on principal highways where traffic counters are kept.

Speeds have been reduced notably, drivers are exercising more care, and local and Highway Patrol officers are bearing down a little harder on violators as a result of the recent emergency traffic control conference in Dallas, where representatives of five Southwestern states met to formulate plans for more vigorous traffic law enforcement, Colonel Garrison said.

WE NEED TO GET TOUGH

We had a good editorial for this week on the war situation but found in the Dallas News the following article from the pen of Dr. Robert Quillen, which is no doubt more readable than what we had written. We endorse the Quillen article. The only criticism we would make is that his language is not strong enough.

The people of America are neither foolish nor asleep.

They know that defeat would leave Hitler and Japan in control of the world, while our nation, disarmed and helpless, would live at the mercy of its conquerors.

They know that any compromise peace would leave Hitler in control of Europe and Japan in control of Asia, both immeasurably stronger than they are now, and thus would force us to impoverish ourselves for generations to maintain a vast Army and Navy against the constant threat of attack.

They know our only hope is to win. They are determined to win, cost what it may.

If they seem apathetic, it is because they know nothing to do except wait for some leader to organize and use them.

They wait in ever-increasing anxiety; and if they could speak with one voice, they would say to their leaders: "In God's name and in humanity's name, make

yourself hard. This war is a foul, bloody, horrible business, and soft men cannot win it. Quit thinking in terms of defense and think only of offense. We cannot win if we have soft leaders who are afraid to hurt feelings or offend friends. If you cannot be tough, in mercy's name quit and make way for leaders who are fit to make war."

We must judge all policies and activities by one hard rule. If the homes of the rich are need for war work, commander them without delay.

If the Japs in Hawaii and on the coast can injure us, intern the last one immediately, no matter what businesses are disrupted.

If any act considered by Congress would hinder our war effort in the slightest, kill it.

If anything proposed by labor or employers would interfere with war work, prevent it with force if necessary.

If the preserving of Somebody's "civil rights" would expose us to danger, ignore such "rights" until the war is over.

Do everything that is necessary to win the war, and stop everything that could interfere with winning, no matter who is hurt or what the cost.

These things are absolutely vital, for they mean life or death. We can win only by making ourselves as hard and daring and as efficient as the Russians, the Japs and the Germans. We must out-tough the toughest or go down.

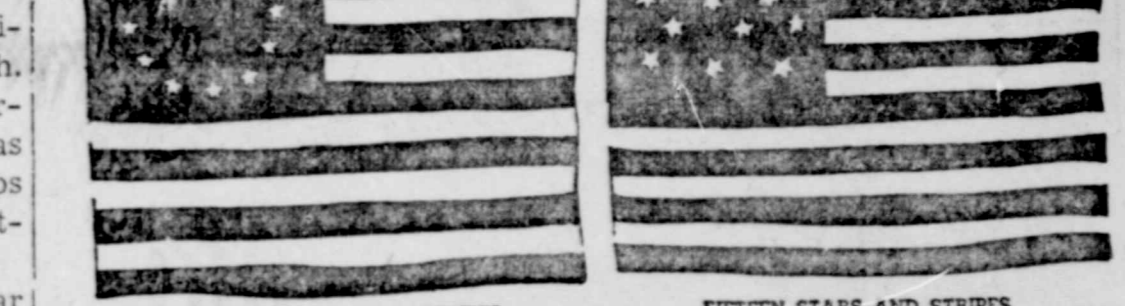

And we cannot make tough war unless our leaders are tough. The soft-headed, timid, rut-thinking, sweetly stupid and considerate face-savers must be replaced by steel-hard men who will make us the toughest and most merciless war machine in history and do it with lightning speed.

"When the Jap stab-in-the-back occurred in the Pacific, the Red

Picture Story of U. S. Flag

PRE-INDEPENDENCE FLAGS—Depicted above are banners carried by American patriots when they first took up arms in 1775. At the left is the blue flag with its white crescent which was nailed to the staff at Fort Moultrie by Sergeant Jasper. In the center is the Rattlesnake Flag of the Virginia minute men at Culpeper. At the right is one of the New England pine tree flags.

THE FIRST STARS AND STRIPES

This is the first Stars and Stripes. The Continental Congress on June 14, 1777, resolved: "That the thirteen United States be thirteen stripes, red and white; that the Union be thirteen stars, white in a blue field, representing a new constellation." According to legend the five-pointed stars were designed by Mrs. Betsy Ross.

FIFTEEN STARS AND STRIPES

With the admission of Vermont and Kentucky to the Union two stars and two stripes were added to the flag following an Act of Congress in 1794. It was a flag of 15 stars and 15 stripes over Ft. McHenry that inspired Francis Scott Key to write "The Star-Spangled Banner." Congress in 1818 restored the original number of stripes.

DISTINGUISHED SERVICE MEDAL

The Distinguished-Service Medal is awarded to persons who, while serving in any capacity with the Army of the United States, distinguish themselves by exceptionally meritorious services to the Government in duty of great responsibility, and to all enlisted men of the Army to whom the certificate of merit had been granted under the conditions of previously existing law. It was instituted in 1918.

On the medal the coat of arms of the United States in bronze is surrounded by a circle of dark blue enamel bearing the inscription "For Distinguished Service." On the reverse is a scroll for the name of the recipient. It is suspended by a bar from a watered-silk ribbon, composed of a band of scarlet, a stripe of dark blue, a band of white, a stripe of dark blue, and a band of scarlet.
