

**Anson Judge To Head Officials**

BIG SPRING, Sept. 26—West Texas County Judges and Commissioners Association elected Judge Gilbert Smith of Anson as president in closing their Autumn meeting Saturday and left up to the officers the proposition of a Spring session and a site for it. Other officers elected are Judge James A. Ellis, Hockley County, vice president, and Judge Lee Thompson of Parmer County, secretary-treasurer. Judge Smith succeeds Judge Frank Day of Plainview as head of the regional association.

Speakers before the closing session included Harold Stafford, head of the WPA division of Employment.

The association endorsed re-dedication to individual responsibility in the war, pledging full cooperation in the Nation's all-out war effort and reduction of expenses of county government wherever possible, while maintaining morale on the home front. It also reaffirmed support of programs for disabled, widowed mothers, dependent children, aged and blind.

**L. E. GARY PASSES**

L. E. Gary, 32, passed away at an early hour Wednesday morning at the family residence in the south part of the city. Funeral was held Thursday at the Assembly of God church. Burial followed in the Memorial Cemetery, with the Brownfield Funeral Home in charge of arrangements.

Deceased is survived by his wife and three children, as well as other close relatives, whose names we were unable to get.

**FDR Demands A Curb On High Cost of Living**

President Roosevelt told the American people in his latest radio speech on living costs and the progress of the war that, "overall stabilization of prices, salaries, wages and profits is necessary to the continued increasing production of planes, tanks, ships and guns in order to win this war of all wars."

If Congress fails to act, the President said, he will invoke war powers which authorize him to take any measures necessary for the prevention of a national disaster. The president promised that whether or not Congress gives him additional authorizations, he will proceed on or about October 1 to stabilize wages and farm prices, salaries and profits.

The President said he realized that it may seem out of proportion to... be worrying about these economic problems at a time like this when we are all deeply concerned about the news from far distant fields of battle. "But I give you the solemn assurance," he continued, "that failure to solve this problem here at home—and to solve it now will make more difficult the winning of this war."

"If the vicious spiral of inflation ever gets under way, the whole economic system will stagger," Mr. Roosevelt declared. "Prices and wages will go up so rapidly that the entire production program will be endangered. The cost of the war, paid by taxpayers, will jump beyond all present calculations."

At the same time the farm prices are stabilized, he said, "I will stabilize wages. This is plain common sense."

The American people can be sure that I will use my powers with a full sense of responsibility to the Constitution and to my country, the President asserted. "When the war is won, the powers under which I act will automatically revert to the people—to whom they belong," he declared.

To the question "How are we playing our part 'back home' in winning this war?" the President emphatically declared. "The answer is that we are not doing enough."

"The nation must have more money to run the war," he continued. "People must stop spending for luxuries. Our country needs a far greater share of our incomes. This is a global war and it will cost this nation nearly one billion dollars in 1943."

Mr. Roosevelt said, in conclusion: "Several thousand Americans have met death in battle. Other thousands will lose their lives. But many millions stand ready to step into their places, to engage in a struggle to the very death. For they know that the enemy is determined to destroy us, our homes and our institutions, that in this war it is to kill or be killed."

"Battles are not won by soldiers and sailors who think first of their own personal safety. And wars are not won by people who are concerned with their own comfort, their own convenience, their own pocketbooks."

"We Americans of today bear the gravest of responsibilities. All of the United Nations share them. "All of us here at home are being tested—for our fortitude, for our selfless devotion to our country and our cause."

"This is the toughest war of all time. We need not leave to historians of the future to answer whether we are tough enough to meet this unprecedented challenge. We can give that answer now. The answer is 'Yes!'"

**FIRE SWEEPS MIDLAND ARMY SCHOOL BUILDING**

MIDLAND, Sept. 29 — Fire swept through the interior of a building in the department training area of the Midland Army Flying school today, causing an estimated \$25,000 damage.

**What You Buy With WAR BONDS**

The 155-millimeter gun is the modern version of the old "GPF" of World War I days. It has a range fifty percent greater than the old gun, heaving a 95-pound projectile approximately 15 miles. It is capable of high road speed and each one costs \$50,000.

Arsenals of America are working at terrific speed turning out this long range, effective weapon for our armed forces. You and your neighbor working hand-in-hand in unity can make possible the purchase of an adequate number of these guns by buying War Bonds. Put 10 percent of your income in War Bonds to help reach your county quota, every pay day.

**AIR RAID INSTRUCTIONS FOR CIVILIANS**

1. Run like hell when bombs start dropping. It don't matter where, as long as you run. If the people ahead of you are slower and fall down, you can either pass them or jump over them with no trouble at all.
2. Don't, under any circumstances, stop to help someone else.
3. Take advantage of the opportunities afforded you when the air raid sirens sound the warning of attack or black-out.
  - a. If in a bakery, grab a pie.
  - b. If in a tavern, grab a beer.
  - c. If in a movie, grab a blonde.
4. If you find an unexploded bomb, pick it up and shake it; maybe the firing pin is stuck.
5. If an incendiary bomb is found burning in a building, throw gasoline on it. You can't put it out anyway, so you might as well have a little fun.
6. When the first bomb falls, holler bloody murder. It will add to the fun and confusion and scare hell out of the kids.
7. It is well to have onion or imbunger handy as a snack before entering a crowded air raid shelter. It may make you very unpopular but you'll have lots of room for yourself.
8. If an air raid warden starts to tell you what to do, knock him down and kick his teeth in.
9. If you find you are a victim of a direct hit, don't go to pieces, just lie still and the sanitation squad will take care of you.
10. Get friendly with some warden; they always have the best seats for themselves and their friends.

**LT. MURPHY MAY VISITS PARENTS**

LT. Murphy May on a flight to the east was grounded on account of bad weather at Big Spring, last Tuesday afternoon and came on up here to visit his parents, Mr. and Mrs. Tom May and family.

Murphy made the flight from Long Beach to Big Spring in five hours, flying a big transport.

Murphy is quite a favorite with Brownfield folks, and when he comes in his time is spent in greeting them and telling them of

experiences here in the U. S. A. and abroad. He was accompanied back to Big Spring Thursday by his parents, and Mr. and Mrs. Arthur Sawyer and Mrs. Rebecca Ballard.

Baptist Church News

All children and young people were advanced to the next higher grade last Sunday and next Sun. teachers and officers. Much care has been used in the lessons of the Bible to those in their classes. The department officers for the coming year will also take their places next Sunday, throughout the church.

Nathan Evans, general superintendent of the Bible School, Marvin Langham, director Trainin' Union, W. S. Patrick, president of the Brotherhood, all having been changed from other departments and Mrs. W. W. Price, was re-elected to the presidency of the W. M. U. for another year.

Next Sunday will be a good time for new people to start in the different church organizations, all of which are merely places for work and development of the membership of the church, every member of which should participate in these places of labor and service.

Every member of the church should desire to be useful and if they will give their hearty cooperation and become a part of the working channels of the church they will not fail in their wish but will be happy in the performing a service and help to build a great and useful church.

We wish for all the teachers and officers of departments a happy year of service and the full assistance to build their departments not in numbers only but in usefulness as well.

Only three months remain to us of 1942 in which we hope to increase our enrollment as well as our average attendance and if we are not very diligent we will fail in both as gas rationing will come during the time which will make it harder. We invite new people of the community to worship with us.

ANNOUNCEMENT

Due to the many wartime hardships under which my personal business is having to operate, I find it necessary to resign my position as manager of the farmers Co-Operative Society in Brownfield. I want all my friends to know that all my relations with the board of directors of the Co-Op Society, as well as with all the people of the territory have been cordial and pleasant in every respect. The Co-Op board was reluctant to accept my resignation, assuring me that my work here had been quite satisfactory. However, as stated in the beginning, I have business interests elsewhere which are suffering because of shortage of skilled man power, and I find it necessary, in the interest of preserving these interests, to take charge of them personally.

I want to assure the Co-Op customers and board of directors that it is with genuine regret that I am forced to sever such pleasant relations, and I want to express the sincere wish that my successor will find everything as pleasant as I have found it, and that the Co-Op will enjoy a successful season and many more successful seasons to come.

Sincerely, E. L. Roberts

We, the board of Directors of the Farmers Co-Op Society at Brownfield wish to publicly state that it is with a great deal of regret that we lose the valued services of Mr. E. L. Roberts. However, realizing the nature of his problem, we would not seek to hold him here when he is needed elsewhere.

We wish to further state that we have secured the services of Mr. H. S. Eubanks, of New Home, as new Manager of the Co-Op gins and locker plant here. Mr. Eubanks has 17 years of experience in the gin business, and we know him to be very capable and congenial. He has had considerable experience with Farmers Co-Operative gins and locker plants before, and we know that you will find his service entirely to your satisfaction.

Mr. Eubanks is anxious to make the acquaintance of every farmer in the Brownfield territory, and we want to invite every one of you to come around and get acquainted at your earliest convenience.

Sincerely, THE BOARD OF DIRECTORS

Mrs. Vance Glover and Children visited her parents in Roswell, over the week end.

## CHRISTIAN CHURCH TO OBSERVE WORLD WIDE COMMUNION SUNDAY

Sunday, Oct. 4th is World Wide Communion Sunday and Christians of every denomination and in every country in the world are urged to be at the communion table in their own or some other church that day. Christians must maintain unbroken fellowship across denominational lines and national boundaries, for in this lies the hope of tomorrows world.

At the First Christian Church this communion service will be held at 11:00 A. M., and will be open to all Christians. Mrs. Jack Hamilton will be in charge of the service and the business meeting that follows, and will bring a message to the congregation. You are welcome.

Mr. and Mrs. B. B. Broun were in shopping Wednesday.

Mr. and Mrs. Otis Pavillo of Gordon's Tire Shop, left this week for Los Angeles, where he has a position awaiting.

## MAIDS AND MATRONS CLUB

As a lovely gesture for her untiring work in the Maids and Matrons Club, Mrs. Ruth Moore was presented a handsome purse of black buffalo, at the regular meeting of the club Tuesday afternoon at five-fifteen in the home of Mrs. Looie Miller. Mrs. Moore, ex-president of the club, left Wednesday for Long Beach and San Diego, where she will make her home. Her quick smile and kindly words will be greatly missed by members who she had served so faithfully the past several years.

Lesson for the afternoon British Isles, was given by Mrs. Jot Akers, Mrs. Roy Herod and Mrs. L. Nicholson. Mrs. M. G. Tarpley presided in the absence of the president, Mrs. J. M. Teague. Eighteen members were present.

The Club will hold a rummage sale Oct. 17th, on the court house square and anyone having something to donate for this sale will please call one of the finance committee—Mesdames Turner, Tom Cobb, R. B. Parish, Jot Akers, L. Nicholson, who will gladly call or send for it.

Proceeds of the sale will go to buy new books for the Maids and Matrons library located in the court house. There has been several new books added lately. Anyone wanting to donate books, get in touch with Mrs. Jesse Randal, phone No. 3.

## ASHLEY-CHAMBLISS

The wedding of Miss Monterey Ashley, daughter of Mr. and Mrs. Fred L. Ashley of Melrose, New Mexico, and Lieut. Roy C. Chambliss, U. S. Army Air Corps, son of Mrs. L. D. Chambliss of Brownfield, Tex., and the late Mr. L. D. Chambliss, took place at 9:00 P. M., Sept. 21, in the Central Baptist church in Miami, Fla. The ceremony was performed by Dr. C. Roy Angell, formerly of Texas and a personal friend of the groom.

The church was decorated with palms and ferns on either side of the altar. Soft strains of music from the pipe organ were heard in the background throughout the ceremony.

The bride was gowned in a street length wool dress of powder blue, ornamented with gold studs. Her accessories were Navy blue and gold complimented by an orchid corsage.

They were accompanied by Lieut. Chester Wright of Shallowater, Tex., and a close friend of both the bride and groom.

Lieut. and Mrs. Chambliss were both graduates of Texas Technological College, Lubbock.

At present they will be at home in Miami Beach, Fla., where Lieut. Chambliss is stationed as an instructor in Officers Training School.

WHY THE ISOLATIONISTS WON

"Why is it that virtually all of the Republican isolationist Congressmen seeking reelection have been renominated?" asks a Missourian. The answer is simple. The Republican isolationists were renominated because a large majority of the members of their political faith are isolationists and see eye to eye with their Congressmen.

In spite of all of their patriotic and widely-heralded pronouncements to the contrary, the Republican Party as a unit is still more or less of an isolationist party. It is not and never has been in sym-

pathy with the foreign policies of the national administration and still feels that the war in which we are now engaged is one in which we have no business. Missouri Democratic State Committee.

Foolish Wise Men At Washington

The proposed gas rationing is going to hit a knot in Texas, if we are given the same size doses as they get in the east where there is a town every five miles; railroads and bus lines at frequent intervals in every direction. The big shots at Washington just can't get it into their noodles that the southwest in particular, like Texas, New Mexico and a few others are places of magnificent distances from one place to another, and that our products, cotton, wheat, cattle, oil, citrus and other stuff must be moved many times further than back east to get them to market. Rationing that would be quite all right for the thickly populated east would ruin this section of Texas.—Terry County Herald.

Jack, you said almost exactly what we were intending to say this week. You just beat us to the draw. Those Washington officials are doubtless very wise men but apparently none of them has ever been two hundred miles from the Atlantic seaboard and they don't seem to know as much about the south and west as a Hottentot knows about Kalamazoo. They want to measure everybody's wheat by their half bushel. A man could drive around a few blocks in Washington and contact more people and more business in a few minutes than he could contact on a whole day's drive from Amarillo to San Antonio, five hundred miles away. He could start out from Washington to the north and before going as far as it is from Brownfield to Lubbock he would be in the heart of Baltimore. He could proceed northward from Baltimore and before going as far as it is from Lubbock to Amarillo he would find himself in Philadelphia. He could start on northeastward from Philadelphia and long before he had covered the distance from Lubbock to Sweetwater he could stop and be whisked to the top of the Empire State Building in New York City. Proceeding northeastward from New York City and passing through innumerable cities and towns he would reach Boston by the time he had spanned the distance from Lubbock to Wichita Falls. The eight states of Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, and Delaware, combined, embrace only 126,000 square miles, less than half the area of Texas, and yet they contain a population of about 38,000,000, six times that of Texas.

Not much driving is necessary in that densely populated area. But down here in the Southwest long drives are often almost imperative. To require the individual business man or farmer in this section of the country to make out on the same amount of gasoline required by the average man residing in that section of the United States would be the rankest kind of injustice. And to restrict his use of tires to the use requir-

ed by a Washingtonian or a New Yorker would be just as grossly unjust.

And yet those wise gentlemen up there in Washington do not comprehend this fact.

It is all the more ridiculous and unjust when it is remembered that Texas produces about one-third of all the gasoline in the United States. To ration gasoline here as they do there would not only demoralize business and make it impossible for Texans to give the same financial support to our war effort that they have been giving, but it would also greatly upset our tax program in this state and adversely affect our schools and other necessary institutions.

He was a foolish fellow who killed the goose that laid the golden egg, and yet he seems to have a lot of brothers yet living in the vicinity of Washington. — Lynn County News, Tahoka.

Complaints of Breaking Into Homes

Lillian Williams, who lives in the colored section of the city, northwest of the compress, was in this week to report to the Herald that someone, had taken advantage of her absence in the cottonfield to ransack her home, for what, she was unable to fathom. There was nothing missing that she could find. She also stated that the home of the two colored teachers had also been broken into two or three times when they were away.

Lillian, who came to the Herald office with her work clothes on, a pair of overalls, stated that she had five small children that she had to provide for, and with the increasing cost of food, she gave up a job as maid for a white family to make money pulling bolls before cold weather hit, and more fuel had to be provided. To top it all, she was afraid that the intruder may have poisoned her food. Officers had instructed her to cook some of the food, and they would have it tested for poison.

In the meantime, such doings tests the nerves of any one, and it was not hard to see that this colored woman that is trying to make an honest living was agitated. She also said that she had heard that prowlers had broken into the homes of at least two white families. Evidently she had reported the affair to officers, but she wanted others warned that there was a no-good in town.

Lillian stated that a lot of the trashy colored folks that blew in to pick cotton really didn't work. They would, she stated, pick some cotton, lay down on their sacks or gamble, and that they robbed and cheated the honest negroes out of what they made.

This is of course a case for the officers. However, we believe that the leaches should all be rounded up and told to work or get. And the Army might use some of them to good advantage. So the draft boards might take a hand in handling the cases.

The Herald would advise honest people to keep their homes under lock and key, and to report all suspicious characters who do not seem to have any visible means of support, to the city or county officers at once, giving a good description of them.

Always one great trouble in carrying on a war is that it leaves the dregs of male humanity, and carries out the best to do the fighting. These male drones often think this licenses them to pillage or to talk to ladies any way they wish. In fact they think they are left as the stud duck of the mill pond. A good thirty-thirty might change their minds if used just right.

**Economy In Use Of School Buses Recommended**

In an article published in the newspapers of the state over the signature of State Superintendent L. A. Woods, the statement was made that the school buses of Texas are making their routes with no extra driving. Deputy State Superintendent E. H. Boulter made a similar statement recently in a letter to a Superintendent of Schools in Terry county.

The County School Board of Terry County met in a called session Saturday, September 26th and among other business transacted, passed a resolution recommending to the various school boards of

the county that they be as conservative with their buses as possible. It is the opinion of the board that back tracking should be avoided, and parents should see to it that their children meet the bus on the main traveled road if they live within one mile of the road.

It is not the intention of the board to cause any unnecessary walking for any child, but with the tire and bus repair situation as it is, they are attempting to help make the buses last longer. It seems that it would be better to walk a little and ride two years, than to ride from the front door to school for one year.

Signed,  
Lee Fulton,  
County Supt and Sec.  
Terry Co. School Board.

**Figures Don't Lie—Or Do They?**

(Editor's Note: The following squib was furnished the Times by L. B. (Bill) Minyard, former Snyder resident who is now engaged in defense work at San Diego, California.)

Hitler was born in 1889, Came to power in 1933, Spent 9 years in power, Attained the age of 53 this year. Add these figures and the total is 3884

Mussolini was born in 1883, Came to power in 1922, Spent 20 years in power, And this year is 59 years old. Again these figures total 3884

Stalin was born in 1879, Came to power in 1924, Has ruled for 18 years, And is 63 years old. Which works out to 3884.

Churchill was born in 1873, Came to power in 1940, Has remained in power 2 years, And is 69 years old. Which adds up to 3884

Roosevelt was born in 1882, Came to power in 1933, Has been there for 9 years, And is now 60. Which totals 3884.

To wage war, There must be 2 opposing factions, So divide 3884 by 2, And the result is 1942, Which is the year the war will end, According to those who know—Snyder Times.

**Issues Warning On Social Security**

Dallas, September 28—Employers were today reminded by W. A. Thomas, Collector, Second Texas District, Bureau of Internal Revenue, Dallas, that tax returns under the Social Security Act for each calendar quarter are due to be filed during the month following the end of the quarter. At the same time Thomas warned employers to exercise the utmost care in reporting all Social Security account numbers.

"Most employers in the Second Texas District are complying with Internal Revenue regulations by correct names and account numbers on their returns," Thomas stated. "On the other hand, a small number of employers are not complying with the regulations which means that they must be contacted in order that missing numbers may be obtained." Thomas emphasized that this negligence on the part of a very few employers adds greatly to the normal work load and consumes the time of his limited personnel when their services are required on work more closely connected with the war effort.

**CARD OF THANKS**

Words fail to express our thanks and deep appreciation to our many friends and neighbors for their kindly assistance given us since the loss of our home by fire on Sept. 13th.

We love you all and wish you the best things in life.

God help us to be always on the giving side as you have given to us.

Mr. and Mrs. S. S. Bandy.

There are thousands of hidden taxes these days, but, alas, no place where the taxpayer can hide.

**Hoarding Gasoline Will Void Insurance; Endanger Lives**

AUSTIN—Civic leaders in the promotion of fire prevention are facing a heavy handicap of increased hazards to overcome during Fire Prevention Week, October 4 to 10, declares Marvin Hall, State Fire Insurance Commissioner.

Innumerable fire hazards were created in a number of Texas cities last week when unfounded rumors, spreading at an almost unbelievable rate, told of proposals to impose gasoline rationing without notice. Citizens rushed to filling stations to buy gasoline and take it home in any type of container available.

The buying raid on gasoline dealers took place several days before official announcements said nationwide rationing of motor fuel would probably be made effective in November.

"Every person in Texas who is hoarding gasoline has automatically voided fire insurance fire insurance on his property," Commissioner Hall announced. "Persons foolishly trying to hoard a few gallons of gasoline have done three things:

"First, they have jeopardized their insurance. When gasoline comes into your home, your fire insurance policy goes out. Unless you have a special permit from your company, the policy simply says that gasoline is a more powerful explosive than dynamite and that, 'I will not stand guard over a house where gasoline is stored—even a small amount.' Your policy literally says this in different words, but that is what it means.

"Second, they endanger the present low insurance rates of Texas—the lowest of all time. Losses affect all insurance rates, and if excessive dwelling fires are caused by careless hoarding of gasoline, then the recent 25 per cent reduction on residence rates could easily be wiped out.

"Third, they also jeopardize their lives and the lives of all members of their families when gasoline is stored on their premises. Gasoline fires are already responsible for the loss of too many lives in this state. During August gasoline caused seven of the 16 fire deaths in Texas.

"Too few people realize that just pouring gasoline from one container to another very frequently generates static electricity that will cause an explosion of gasoline vapor. Gasoline has more explosive power by volume than dynamite. None of us would think of keeping 100 pounds of dynamite in the home—that would be too dangerous. Yet, a gallon of gasoline has about the same explosive power as is contained in 100 pounds of dynamite.

"We need at this time to use a lot of common sense and reasoning. History has never recorded a time when fire prevention was of greater importance than it is to day. Fire prevention is needed, not for just a few days or a week, but every day in the year. It is foolish to throw safety and protection aside by taking undue risks with gasoline."

Texas standard fire policies, the Commissioner points out, clearly state that insurance is void if gasoline is stored on the premises unless a permit is obtained from the insurance company. The company doesn't have to serve the policy holder with any kind of notice.

"Should a fire result from stored gasoline," Hall said, "the property owner could not collect any insurance if the company had not granted permission for gasoline storage, regardless of the quantity on hand."

**Where Are The Dead?**

Mr. Henry, minister of the Church of Christ, corner East Third and Main Streets, announces that this coming Sunday night he has chosen for his subject, "Where Are The Dead?" Such questions as "Where are my loved ones that have passed on?" "Are they asleep, alive, or in the grave?" "What about all the sailors who have drowned in the sea?" will all be discussed.

Mr. Henry states he believes Bible has an answer to these questions, and urges the people of Brownfield to attend this service at 8:30 Sunday night. You will want to be better men and women by having studied this all important question which confronts us all sometime in life.

**Two More Locals Enlist In LAFS**

Lubbock Army Flying School—Two more men from Brownfield with technical or mechanical ability and experience have been enlisted directly into the Air Forces by the Lubbock Army Flying School to become aviation mechanics and technicians.

Men recently enlisted are Burton G. Hackney and Troy F. Noel of Brownfield.

These men have been sent to Fort Sill, Okla., for processing, but soon will be ready for assignment to duty on the flying line repairing and maintaining the bomber training planes used in training the future flying officers of the Air Forces.

Men with mechanical or technical training interested in enlisting directly into the air forces should see Capt. W. B. Marschner, post technical procurement officer for the Lubbock Army Flying School. Non-commissioned rank usually is attained by capable men within a reasonable length of time.

**L. C. DIXON PASSES**

L. C. Dixon, 64, died unexpectedly of heart attack at the home of his daughter, Mrs. Elmer Joiner at Hamlin. Three other children survive, T. E. Dixon of Carlsbad, N. M., Mrs. Fidella Stewart of Brownfield and Mrs. W. W. Goodwin of Anson. He leaves eight sisters and two brothers.

Mr. Dixon lived in the Brownfield vicinity for four years back in the early twenties. He was a member of the Baptist church. The body was laid to rest in the Fairview cemetery beside the body of his wife.

Mr. Dixon was a son of the late Rev. B. F. Dixon, of Lubbock, who many years ago pas-

tored the Baptist churches of Brownfield and Plains.

Mr. and Mrs. Irvin Rambo have been visiting their son, Charles, who is in an army training base at Enid, Okla. He was formerly located in Alaska.

Mr. and Mrs. Joe Stutts visited his mother near Plainview, last Sunday.

Miss Lillie Schillenger of Jefferson, Texas, is here the guest of her brother, Slim and Mrs. Schillenger.

There are ways and ways to get even with the head of the house, but sharpening pencils with his razor blades is still the best one.

There is a narrow margin between keeping your chin up and sticking your neck out.

People are a lot like sonflakes; those who arrive with the greatest fanfare usually leave earliest.
