# The Terry County Herald

Your Home Owned and Home Managed County Paper — Where Farming, Ranching and Oil Fields Bring Prosperity to Terry County People

VOLUME THIRTY-EIGHT

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, DECEMBER 11, 1942

NUMBER 19

## Can Wear Sailor Or Marine Uniform

DEAR FRIENDS:  
Thought I would drop you a line to let you know that I have been reading the Terry County Herald every week, and as many of the other boys have said, I really enjoy reading about our ole Home Town and how every one is working together on our home front.  
I have been working at the U. S. Naval Hospital here at San Diego and it is really interesting to listen to some of the wounded boys stories that we take care of here in the hospital. Some of them are really anxious to get well and get back in action again.  
There are many of them here who have seen action on the Guadalcanal and in the Solomons.  
I volunteered for service in the Marine Corps and I am now a sailor or as well as a Leatherneck. I have the privilege to wear either the Sailor or Marine uniform, and like all other boys in service, I am proud of both.  
I am sure all other boys enjoy reading Mr. Stricklin's letters to the boys in service as well as I do. "So keep up the good work, Jack."

I would like to hear from all my friends in good old Terry Co. My address is:  
C. R. Stevens, H. A. 2/c  
1st Corp. Medical Bn.  
Fleet Marine Force  
Camp Elliott, California

## Send Plenty P-38's Says Lt. Walker

Mrs. Lee Walker of Rt. 4, has received a letter from her son, Lt. Willie G. Walker (better known to his friends here as Dub or W. G.) The letter, dated Nov. 15 was from somewhere overseas. He stated that everything was going fairly well, and that he was proud to be there doing his part, and he did not worry but that he would come back and tell all about it.  
If we work hard, he stated, maybe we can finish this job before the other boys have to come over. I feel happy even if I should have to go down. I don't know of any better cause than that I am in. Give me a P-38, and I wont be hale. Don't worry, and I hope to see you soon. Tell everybody hello, and "LET'S KEEP 'EM FLYING."  
Lots and lots of love,  
Lt. W. G. Walker.

## Willard Blair Joins Merchant Marines

The Herald has been notified by the United States Maritime Service that Willard A. Blair, son of Mr. and Mrs. L. A. (Mike) Blair of this city had enlisted December 3, at offices in Dallas, Texas.  
He will be sent to the United States Maritime training station at Sheepshead Bay, New York for his training. He will go through a period of training for approximately 6 months. He will have the choice of studying for deck engineers department, cooks, bakers, or stewards, or a class in Naval gunnery.  
After his training period, he will serve aboard vessels of the United States Merchant Marines. He will serve with many other fine American youths carrying vital war supplies to the fighting men of the United States and our allies.

Mrs. V. R. Gressett left this week for Brownwood, to be near her husband, who is training at Camp Bowie. Mrs. Gressett is the daughter of Mr. and Mrs. W. M. Goldston. She has four brothers at the service, besides her husband.

Sgt. Curtis R. Patton, with the 90th division at Camp Barkley, is now getting the Herald complimentary of his sister.

## Lt. Ellis Wins Distinguished Flying Cross

According to dispatches from London Dec. 7, First Lieutenant Eugene B. Ellis, son of Mr. and Mrs. J. H. Ellis of this city, had been decorated with the Distinguished Flying Cross, by Major General Ira C. Eaker, of the U. S. Army Bomber Command. Lt. Ellis' address was erroneously given as Brownsville, Texas, instead of Brownfield.

The occasion of the bravery of Lt. Ellis was given as recently when two German Focke-Wulf 190's attacked a Flying Fortress. Ellis shot both the German planes down. Neither he nor his crew were hurt so far as we know.

Young Ellis was born in Oklahoma, but the family moved to Terry county in his early childhood. He finished high school in Brownfield about 1938, and entered Sul Ross college, where he lacked nine hour's work of graduating. When the war came on he volunteered and went to California where he received his basic training. Returning to Texas, he finished at the advanced bomber field at Brooks Field.

As a member of the Army Flying Force, he is located somewhere in England. The Herald thanks his mother and aunt for this information. By the way, the boy's mother looks no more than a twenty-year-old girl.

Both the Germans and Japs are going to feel the sting of many more Terry county boys, who learned to knock over jack rabbits 100 yards away while mere lads.

## Hulse Visits Son At Camp Claiborne

Hugh Hulse returned a week or so ago from Camp Claiborne, La., where he visited his son, Pvt. Marius E. Hulse, who is in training with the US Army unit there. Hugh stated that Marius had gained some 20 pounds since he entered the army and was robust and feeling fine.

However, Hugh, like most west Texans, wouldn't give a ham of hog for half of Louisiana. Pretty in a way, Hugh stated, but such mosquitoes, and such swarms of them. The youngster was sure enjoying the weekly visits of the Herald down there, Hugh stated.

## Cpl. Pickett Home On Furlough

Corporal Lloyd T. Pickett, son of R. I. Pickett, had a 12 day furlough recently, and spent the time here while not traveling to and from home. He is located at San Louis Obispo, Calif.

This soldier was in fine fettle, and reports that he is really enjoying army life but was tickled to be home.

While here, his father honored him Sunday with a big turkey dinner, at which many friends were invited. He left on the ten o'clock bus Tuesday night for camp.

## Local Boy Wins Commission In Army

FORT SILL, Okla. Dec. 7.—Thomas T. Kizer, Brownfield, Texas was graduated this week from the Officer Candidate School here, and has been commissioned Second Lieutenant in the Field Artillery of the Army of the United States.

Lieutenant Kizer, son of Tom T. Kizer, Brownfield, Texas has been assigned to Camp Shelby, Miss. Before starting active duty he was a Bookkeeper and Salesman.

Pvt. Troy Noel, Pvt. Burton Hackney, Pvt. Adolphus Smith, Corporal Walter Tier and Sergeant Daniel Davis visited folks over the week end.

The government is spending around 47 billion dollars for munitions and war construction the first ten months of 1942, and more than twice as many people are now employed as war workers.

## Jaycees Hear State President

A fair crowd, considering the weather, time of year, etc., was out to hear John Ben Shepperd, State President of the Junior Chamber of Commerce deliver an address on the subject "Why A Junior Chamber of Commerce in Wartime" at the Legion Hall Tuesday night. Shepperd was accompanied by Taylor Cole, Midland, Vice-President of Region 7 and Paul Dollarhide, Panhandle, Vice President of Region 6. Dollarhide made the presentation of the Founders Plaque to the local organization in recognition of its founding the Plainview Club.

Citing the fact that over fifty per cent of the membership of the Junior Chamber of Commerce is now in the armed service and that over 70 percent will be in by March if the present rate of induction of men in this age group continues, Shepperd asserted the efforts of the remaining Jaycees would have to be increased proportionately if the aims laid down by the national organization were to be brought to a successful conclusion. The Jaycee President gave many amusing illustrations of the zeal and determination that the Jaycee who remains at home must be possessed of in order to carry on the work in the absence of his fellow members.

Virgil Burnett, Secretary-Treasurer of the local organization, was awarded the Distinguished Service Medal, annually awarded for outstanding service to both the club and the community. Shepperd made the presentation. Recipient of the award is not only passed on a local committee, but his record must also meet with approval of a National Committee, and anyone receiving this award is certainly due the congratulations of the entire community. Congratulations, Virgil!

## The Boll Pullers Are Headed South

Last Saturday disclosed the fact that there was nothing like as many Mexicans in town as the Saturday before. Getting too cold here, they state. Many were seen leaving on the Monday buses following the big snow. But thank goodness most of the cotton is out.

We noted not a few in ancient jalopies, some with trailers parked Monday, around the square, with the household effects thereon, and the family in the car. Supposition was that they were getting their permits for sufficient gasoline to get home.

It was reported here that some boards in this section were refusing to do this. Such stands by arbitrary boards may have a bad effect on getting help next year.

## Howard Makes Rank Of Sergeant

ENID ARMY FLYING SCHOOL, Okla., Dec. — Cpl Joseph W. Howard of Brownfield, Texas, was recently promoted to the rank of sergeant. Sgt Howard is a member of the 94th service squadron at the new Army Flying School at Enid, Oklahoma. He is married and his wife, Mrs. Helen Clara Howard lives at 546 North Tenth, Enid, Oklahoma.

## Naval Officer Visits Home Folks

Chief Special James R. Burnett and wife of Norfolk, Virginia arrived Saturday morning to visit with parents, Mr. and Mrs. J. R. Burnett.

Chief Special Burnett completed the family re-union. They left Thursday for Palestine, Texas, to visit Mrs. Burnett's parents before returning to Norfolk.

Visiting in the J. W. Rhyne home the past weekend, were Mr. and Mrs. Harold Montgomery of Lamesa.

We welcome J. D. Pharr, route 5, as a regular reader at the insistence of his wife. Rah! for the ladies.

## 18 Warships Sunk Or Hit Dec. 7, 1941

Washington, Dec. 5 — The Navy, in the first full report of its losses at Pearl Harbor revealed Saturday that the surprise Japanese blow sank or damaged every American battleship—eight in all—in the Hawaiian area, 10 other ships and a large floating drydock. Yet the job of raising and repairing these ships has been rushed at such a furious and successful pace that over half have rejoined the fleet and only one the torpedoed, bombed and burned battleship Arizona, is accounted a total loss.

The Navy's Pearl Harbor anniversary summary divided the ships hit there into two classes:

Damaged but soon repaired and which rejoined the fleet "months ago."

### Damaged but Repaired

Battleships Pennsylvania, Maryland and Tennessee.

Cruisers Helena, Honolulu and Raleigh.

Seaplane tender Curtiss.

Repair ship Vestal.

Sunk or damaged "so severely that they would serve no military purposes for some time."

Battleships Arizona, Oklahoma, Nevada and West Virginia.

Destroyers Shaw, Cassin and Downes.

Minelayer Oglala.

Target Ship Utah.

A large floating drydock.

### Some Not Yet Ready

A number of these vessels, the Navy said, "are now in full service but certain others, which required extensive machinery and intricate electrical overhauling as well as refloating and hull repairing, are not yet ready for battle action."

Which of these ships are back in service was not disclosed in the Navy summary. It had been announced earlier, however, that the Shaw, for one, was back with the fleet.

The Arizona, as announced in the first week after Pearl Harbor, was listed as "permanently and totally lost," and it was made known that the Oklahoma, which capsized, still lies on her side on the muddy harbor bottom.

"Preparations for righting the Oklahoma are now in process."

## Alfred Smith Sends An Alligator

Alfred Smith, seaman second class, of Jacksonville, Fla., sent the home folks an unusual Christmas present this week. He is the son of Mr. and Mrs. Lee Smith of this city. The gift was a live baby alligator and some 15 inches in length. The booklet enclosed with the alligator, says they are about four inches long when born and grow very slowly.

The little animal prefers to stay in a pan of water, and when he is taken from the water, will crawl right back into it. Since a gator is something unusual in this country, many people have called to see it.

## Sgt. Patton Visits Home Folks

Sgt. Curtis R. Patton, from Camp Barkley, Texas, was here visiting over the week end, with his mother, Mrs. W. F. Patton, and brother and families. His visit wound up with a big snow storm, and he really had a time getting back to camp. He enjoyed his visit anyway.

"Just as the human eye retains the image of what it sees for a fraction of a second, until the nerve system relays it to the brain, so this memory oscillograph holds the image long enough to be photographed," Dr. A. W. Hull, assistant director of General Electric's research laboratory who developed the device, explained.

The device will be used in the study of unpredictable flashes or surges on electrical equipment.

Sgt. and Mrs. D. M. Urwin spent the week-end visiting her parents, Mr. and Mrs. Chas. Leonard. Sgt. Urwin is stationed at the South Plains Army Flying School.

Kenneth Moore, who has been on the Naval Reserve for some time, left for Norfolk, Virginia, Tuesday, to join the Seabees. Mr. Moore is the son of Mr. and Mrs. C. D. Moore of Brownfield.

## Biggest Snow In Years Fell Saturday-Monday

When the people of this section went to bed Saturday night, perhaps few of them dreamed that there would be a big snow on the ground Sunday morning when they awoke. However, the late bed goers, including this scribe, had a brief peep at the elements between 11 and 12 o'clock Saturday night, when the skies were overcast, and a moaning wind from the northeast might mean anything.

At daylight which comes around eight here, war time, there was a gollywopper of a snow on the ground, and still snowing like nobody's business. This kept going a without letup until slightly afternoon. By near sundown, the sun came out briefly, but not in time to do any melting. A measurement on level ground away from any drifts, disclosed nine inches. There were no bad drifts, as there was little wind.

Monday dawned cloudy, and there was no sun till afternoon, and the snow did not get off as fast as one would wish. Many stalled or had a time getting places in cars Sunday and Monday. This is probably the biggest snow since December 1918.

But if we think we had a hard time, bus drivers are witnesses to much worse on the north Plains.

They state that some two inches of sleet fell prior to the snow, in the Amarillo section. The long hill beyond Canyon was the scene, they stated, of many stalled cars and trucks, not a few of them being in the ditch.

"On account of the new speed laws and other things, we have heard of few accidents on account of the snow."

## Labor Shortage Hinders Beet Harvest

LUBBOCK, Texas—Acute labor shortage is handicapping the harvesting of six acres of sugar beets being grown experimentally on the Texas Tech college farm. Even faculty members have been assisting along with whatever miscellaneous help could be secured.

Twelve tons have already been loaded on railroad cars for shipment to the American Crystal Sugar Company at Rocky Ford, Colo. and 60 tons remain on the ground to be hauled and shipped. The yield this year has been 12 tons per acre, according to Dr. A. W. Young, head of the plant industry department. Sugar content, he said, may be down because of leaf spot.

Mr. Lemly stated that our strong Democratic editorials suited him to a T, as he'd been one all his life. Says he, "Why I even voted for Al Smith in 1928, and I think I was the only man in Pennsylvania to do it." And we did too, but the way old Al has acted since, we're none too proud of the fact.

After a visit to California, Mr. Lemly thinks he'll return to the north via New Orleans with a trip up the Mississippi and the Ohio rivers. Mr. Lemly is a retired "country" school teacher as he puts it, and has messed around quite a bit of late years in the oil fields near his home. Now, says he, I think I'll rest and do some leisurely traveling.

## G. E. Develops Memory Machine

SCHENECTADY, Nev. — A memory device, which will retain the image of an electric flash for 1/25 of a second, long enough to open automatically the lens of a camera and make a picture of it, has been developed in General Electric's laboratory.

This electronic robot consists of a cathode raytube on which a small beam of electrons continuously paint on the thin coating of a fluorescent mineral a picture of what is happening. When there is a flash, the device picks up the picture, retains the image long enough for a thyatron tube automatically to trip the camera for a 1/50 second exposure.

"Just as the human eye retains the image of what it sees for a fraction of a second, until the nerve system relays it to the brain, so this memory oscillograph holds the image long enough to be photographed," Dr. A. W. Hull, assistant director of General Electric's research laboratory who developed the device, explained.

The device will be used in the study of unpredictable flashes or surges on electrical equipment.

Sgt. and Mrs. D. M. Urwin spent the week-end visiting her parents, Mr. and Mrs. Chas. Leonard. Sgt. Urwin is stationed at the South Plains Army Flying School.

## Warns Car Drivers To Have A Tire Inspection

The local board wishes to again warn drivers that anyone caught exceeding the 35 mile speed limit will lose permanently their gasoline book and when this happens the local board has no power to interfere. There are no appeals in cases of this kind.

The board members are anxious that all Terry County people receive sufficient gasoline to carry on essential operations as specified by the regulations laid down by the OPA and ODT.

In reviewing the applications submitted, the indications are that many people are not giving the applications proper thought and are asking for more miles than is justified, therefore, it is necessary that the board make adjustments on such applications, however, should the board cut your request below what is necessary for your operations which is allowed under the regulations they will make adjustments if you will present your case to the board.

Please remember your local board is donating their time and they are doing this because they are interested in the welfare of the people of Terry County.

All passenger car operators should keep in mind that their application book entitles them to 150 miles of occupational driving, therefore before criticizing your board please consider the miles which you already have added to what the board allows you and we believe you will find the board is making every effort possible to make their adjustments fair and equitable.

## A Visitor An Subscriber From Pennsylvania

J. M. Lemly, who has read the Herald for many years, was down this week, looking after his farm that L. L. Blackstock leases. Mr. Lemly slyly remarked that it was awfully hard for a guy that lived 'way off to get a "trusty" man to look after his property here. Evidently though, he is fairly well pleased with L. L., as he said he'd likely stay there awhile and eat his grub.

Mr. Lemly stated that our strong Democratic editorials suited him to a T, as he'd been one all his life. Says he, "Why I even voted for Al Smith in 1928, and I think I was the only man in Pennsylvania to do it." And we did too, but the way old Al has acted since, we're none too proud of the fact.

After a visit to California, Mr. Lemly thinks he'll return to the north via New Orleans with a trip up the Mississippi and the Ohio rivers. Mr. Lemly is a retired "country" school teacher as he puts it, and has messed around quite a bit of late years in the oil fields near his home. Now, says he, I think I'll rest and do some leisurely traveling.

## Piggly Wiggly Bunch Buys Bonds Monday

W. E. Henson was over at the Herald office by eleven o'clock Monday morning, and stated that a canvass of the Piggly Wiggly store on the anniversary of Pearl Harbor massacre yielded the sum of \$531.75 in war bonds and stamps. Even the young boys who carry packages to cars bought them right along, he stated.

Mr. Henson, assistant meat cutter, and of Saturdays, floor walker of this grocery and market, lost a son in the Pearl Harbor raid, and if you think he has any more use for a Jap than a rattlesnake, you should hear him talk some time.

Sgt. Daniel Davis of LAFS was home for the week end with friends. While here, he tried sprinting across the street in the deep snow, and thought he jumped far enough on reaching the sidewalk to hit the curb, but he missed. There was a deep puddle of melted snow where the seat of his pants hit.

Mr. and Mrs. E. W. Burnett and children of El Centro, Calif., and Mrs. Homer Newman of Fullerton, California, left for their home Thursday. They have visited their parents, Mr. and Mrs. J. R. Burnett, since Thanksgiving.

## Instructions For The 6th Reristration

The registration of all male citizens, who have attained their eighteenth anniversary shall be as follows:

Those who attained their 18 birthday in the months of July and August 1942, shall be registered during the week commencing December 11, 1942 and ending December 17, 1942.

Those who attained their 18 birthday in the months of September and October 1942 shall be registered during the week commencing December 18, 1942 and ending December 24, 1942.

Those who attained or shall attain their birthday during the months of November and December 1942 shall be registered during the week commencing December 26, 1942 and ending December 31, 1942.

With the beginning of 1943 each male citizen shall present himself to the Local Board for registration on their 18 anniversary during the present War, unless the same falls on Sunday or some other holiday when the same is true the party shall register the day following their 18 anniversary.

Since the registration is to be carried on over a 3 weeks duration, it will be impossible to set up special registration booths for this purpose, hence all registration will be taken care of in the Office of the Local Board in the Court House at Brownfield, Texas. If there are any questions you do not understand in regard to the 6th registration you are cordially invited to phone or call by the office of the Local Board for full instruction.

## Farmers To Vote On Quotas Tomorrow

Farmers of Terry county, along with farmers all over the cotton belt, will vote tomorrow, Saturday, December 12 on whether or not they will favor keeping the production of cotton and its marketing under strict governmental control another year.

The Herald has received propaganda for and against the quota system, but we believe this is a question for farmers themselves to settle at the ballot box, without undue prompting from any source.

Generally speaking, famers this day and time are about as well read and smart as anyone, and while they may not spout off or stump the county about the matter, they know what they're about.

But whether the farmer is for or against the quota, vote. Leave no doubt about where you stand in the matter.

Day lightened in the east. No crow soared out in the morning chill to greet the new day. No bird sang. The cattle hushed their gentle lowings. The wind was a listless murmur across the emergency landing field and the wind sock sagged pointlessly. The sun rose, took one red and angry look across the world—then hid his face in peevish despair. It was December first. Gas rationing had dawned in Texas.—Jimmie Rankin in Ralls Banner.

By gum, Jimmie, we read your column pretty religiously and enjoy it, but when we started in on the above we'd a sworn that at the end of it we would see the article credited to Douglas Meador. That twinkle twinkle little star stuff was so foreign to your usual he-man tirades. But your description of the gasoline situation in Texas was superb. It was just like losing a battle at the front to lose our privilege of telling the filling station to "fill 'er up."

As Barney Googles colored

friend might say, "Mister Hitler, you are shore a smaht man," and he has been in many ways. For three long years he has kept the civilized world worried. But in some ways, Hitler's dream failed to come true. One of them was provision for the German railway system. He neglected to provide new engines and other rolling stock in his ambition to rule the world. His idea was to build super-highways and his giant railway machine shops were turned into truck and tank production. Now he finds that the smashing of his few and well-worn locomotive engines, he is really up against a proposition, especially since there is a second and possibly a third front soon and troops must be shifted rapidly from one front to another. Hitler's mistake in not providing for maintenance of Germany's railways, may lose the war for him sooner than most folks expect.

The ceiling price on organized labor seems to be frozen occasionally, but seems to have a habit of thawing out pretty easy. In

**Most Americans Buy Bonds And Stamps**

WASHINGTON, D. C. — A recent survey by the Gallup poll revealed that 78 per cent of Americans have bought War Bonds and Stamps.

Reporters for the poll asked a representative cross-section of the voting population this question: "Do you happen to have bought any War Bonds or stamps?"

The result was:  
Yes . . . . . 78 per cent  
No . . . . . 22 per cent

Dr. George H. Gallup, head of the Institute of Public Opinion, said the findings were splendid testimony to the effectiveness of the Treasury Department's War Savings Campaign.

Seeking the answer to the failure of one out of every five adult Americans to buy War Bonds or Stamps, Mr. Gallup made a further study and found that two large segments of the population—the lower income group and farmers—are responsible for this situation.

the meantime, prices on commodities, and the margin between cost and sale price while narrow, seem to stay in cold storage nicely.

Unsolicited but perhaps deserved, the US Treasury department has rolled out a motto for newspapers. It is, "Keep 'Em Buying." In connection with that motto, we might state that the secretary of the Treasury Henry Morgenthau paid a glowing tribute to the press in helping promote the sale of bonds and stamps, much of which publicity and display ads were at the expense of the papers. However, business men and bankers come in for much of the praise from the secretary for cracking down and buying. Coming right on the heels of the unstinted praise of Donald M. Nelson for the success of the National Newspaper Scrap Drive, it makes the papers feel quite cocky. Roll out the barrel.

OWI announced that the U. S. in the year of 1942 will have produced approximately 49,000 planes 32,000 tanks and self-propelled artillery, 17,000 anti-aircraft guns larger than 20-mm., 8,200,000 tons of merchant shipping, thousands of anti-aircraft machine guns, and thousands of scout cars and half-and full-track carriers. Munitions and war construction were "above the most optimistic estimate of our production possibilities a year ago," and food production—a large proportion of which was meat, milk, eggs, and soy beans—was 12 percent above the previous year.

A rushing business is usually headed by a man who does the same.

**Try This Quick Easy Way To Clean False Teeth**  
Get Rid of Stains—No Brushing  
Discard old fashioned methods. Try this modern, scientific way. Just put your false teeth or bridge in a glass of water with a little Kleenite. Blackest stains, tarnish, tobacco discolorations disappear like magic. You'll be amazed how quickly Kleenite acts. No messy brushing. No risk of breaking. Plates look clean—taste clean—are clean. Get Kleenite today. At all druggists. Money back if not delighted.  
At Nelson-Primm Drug Company and all good Drug Stores

**The Late Shopper Will Get Bad News**

You probably need no reminder, especially if you are a married man, with one or more children in the home, that Christmas is coming. But it is very probable that you did not have an idea how close Christmas is—one month from yesterday, to be explicit and exact.

This is going to be another war Christmas. We are already in the second year of war, or rather will be at Christmas time. Many of us were unable to grasp the full significance of the fact that we were at war last Christmas, so suddenly had it been thrust upon us, less than three weeks previous. Then the stores and shops were filled to overflowing. There were toys, and tinsels, and trees and luxuries and baubles. Everything, and anything was yours if you had the money and the Christmas spirit.

But this year it's different. There are far fewer Christmas articles in the stores. There probably will be no trees—few lights, few baubles, and certainly less gifts.

Probably you, too, have mentally decided to do less gift buying and less gift giving this year—but nevertheless practically everyone of us will do some Christmas shopping.

Remember then, that this is an abnormal year for shopping.

Remember too, that the last minute shopper, who used to put it off until the last minute, then rush out and do it all in a day, probably only one or two before the holiday, will simply be out of luck if he tries to do it that way this year.

Business as usual is out for the duration. But by and large, we won't have Christmas shopping as usual, either.

This is one year when the old admonition "Do Your Christmas Shopping Early" can be printed with emphasis.

And of course no one wants a worm for Christmas, but the late bird certainly won't get one.—Amherst Argus.

**Training School For Firemen Begins Sat.**

AUSTIN, Dec. 1.—Representatives of each fire department in Fire Service District Two are expected at the wartime training school for firemen in Lubbock beginning December 7.

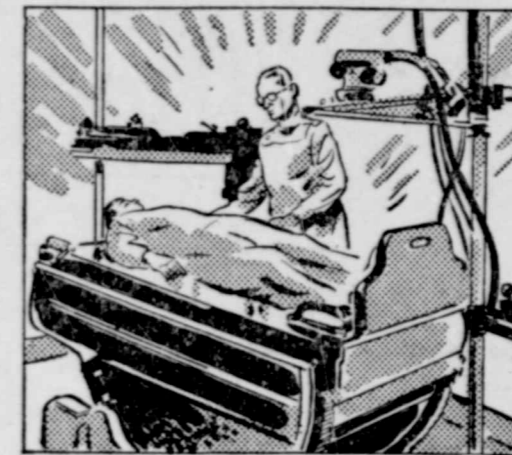

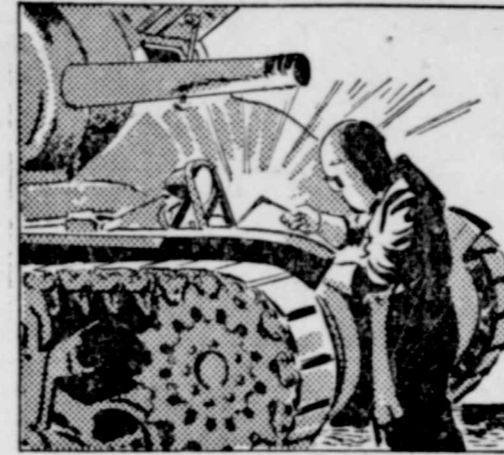

Marvin Hall, State Fire Insurance Commissioner and Fire Service Coordinator of the National Defense Committee for Texas, said many problems arising during wartime will be discussed at the five-day school.

The school has been arranged through cooperation of the Office of Civilian Defense, the State Board of Vocational Education and the National Defense Committee for Texas.

District Two includes the following counties: Bailey, Lamb, Hale, Floyd, Cochran, Hockley, Lubbock, Crosby, Yoakum, Terry, Lynn, and Garza.

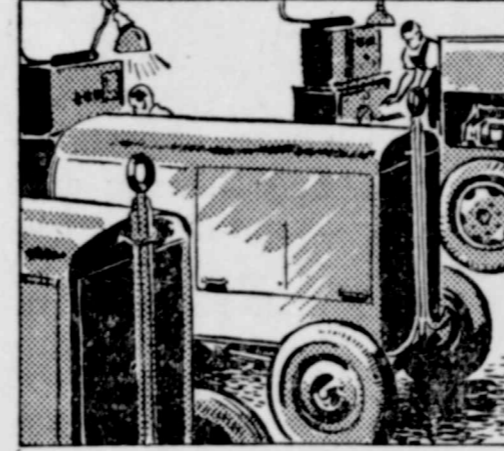

**On Every Front**

General Electric equipment is fighting with America's land army. From the rolling kitchen to the front line, electricity works for victory.

1. In the factory electricity stitches the seams of tank armor, and on the battlefield it controls the operation of these spearheads of modern combat.

2. In induction center and field hospital, the X ray helps safeguard the health of our fighting men, aiding in the diagnosis and treatment of disease.

3. Far from the usual power sources, mobile power plants supply electricity for 800,000,000 candlepower searchlights by which a newspaper can be read 12 miles away.

4. Blitz war requires swift communications! On the soldier's back, in field and sky, radio co-ordinates the striking force of American army planes, guns, and tanks.

General Electric believes that its first duty as a good citizen is to be a good soldier.  
General Electric Company, Schenectady, N. Y.

**Dehydrated Foods In Place Of Cans**

AUSTIN—Dehydration furnishes the answer to the problem of preserving foodstuffs without using such strategic war materials as tin, steel, and rubber. Dr. O. B. Williams, professor of bacteriology at the University of Texas, he declares.

War has always brought progress in food preservation, he said, citing the invention of canning during the Napoleonic wars, and the successive advances in this field during the Civil and First World wars.

Since cans require small amounts of tin and larger amounts of steel, and since glass containers must be sealed with rubber gaskets, dehydration looms as the real solution to war problems of food preservation. Dehydrated foods are shipped easily and in little space, Dr. Williams points out.

Luis Bartlett University engineer, has built an improved dehydration machine for fruits and vegetables, and Dr. Jet Winters, professor of home economics, is analyzing the vitamin content of dehydrated foods under a U. S. Department of Agriculture grant.

**Texas Farm Income May Crowd Billion**

AUSTIN—Texas farm cash income continued its upward swing during October, the total for the month being 169 million dollars as compared with 109 million during the corresponding month of last year, the University of Texas Bureau of Business Research has computed.

For the first ten months of 1942, aggregate farm cash income was 714 million dollars compared with 450 million during the same period of 1941—an increase of more than 56 per cent—the Bureau has reported.

Should this margin of gain over 1941 continue during November and December, the computed farm cash income for the year would be well above 900 million dollars, Dr. F. A. Buechel, associate director of the Bureau has estimated. Government subsidies seem likely to add an additional 75 million to this figure Dr. Buechel said.

**Relief At Last For Your Cough**

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

**CREOMULSION**  
for Coughs, Chest Colds, Bronchitis

**RUSSIA**

The ingenuity of the Nazis to torture and inflict punishment has reached such a point of degradation that we dislike to horrify our readers by publishing such incidents, still it may assist in making our people more conscious of the fact that we are in a horrible war. For instance, it has been reported that in the Kuban Valley the Germans took the men, women and children from one village and forced them to march to an open field and line up. A unit of soldiers was stationed in their rear and, when ordered to fire, they shot into the air, but it appears that the villagers were standing over a land mine which was exploded and they were blown to pieces.

**BELGIUM**

Some people think that the smaller countries, which the Germans overrun so relentlessly and which are under the rule of the Gestapo, have not done anything towards helping the Allies, but this is not the case. Belgian officials were far sighted enough to realize that war was in the making and, consequently, they sent rather large deposits to banks in the United States and England; also some to France, never anticipating that France would give up as it did. Within the last two years, out of these monies the Belgians have made a gift to Great Britain of \$400,000 for Spitfire airplanes, and the Belgian Congo in Africa, which is one of the colonies of Belgium, has raised \$1,000,000, by donations of the people, for the same purpose. Also, there is a section of the British Navy composed of Belgians which is financed by the Belgians, and there are more Belgians in the Royal Air Force than there were in the Belgian Air Force at the beginning of the war.

**COUGHS**

Due To Colds or Bronchial Irritation  
Here's good news for the people of the U. S. A. Canada's greatest cough medicine is now being made and sold right here, and if you have any doubt about what to take this winter for the common cough or bronchial irritation get a bottle of Buckley's CANADOL Mixture. You won't be disappointed—it's different from anything else you ever used—one little sip and you get instant action. Only 45c—all druggists.

## WAR changes a famous slogan

**FOR THE DURATION**, a famous and friendly slogan goes into retirement.

With gasoline being rationed to lengthen the calendar life of your tires and thus conserve the Nation's wartime stock-pile of rubber, we no longer invite you to *Phillips up with Phillips*.

But you are still as welcome as ever at any Phillips 66 Service Station. The Phillips man is anxious to get and hold your business, even though your gasoline purchases are greatly reduced.

If anything, he is more anxious than ever to give you those pleasant, friendly services which make your car and your tires last longer and go farther. That is his way of showing his appreciation for your business. And more, he has pledged himself to "Keep 'em Rolling", as a patriotic duty.

In the meantime, hundreds of Phillips

research workers and many thousands of production employees are speeding up their good work for victory. With Phillips vast resources of raw materials, their efforts have made the company one of the largest suppliers of 100 octane aviation gasoline to the Army Air Corps, the Navy, and the United Nations' air forces; have made the company an important participant in the U. S. synthetic rubber program.

Remember these facts, and drive in where you see the Orange and Black 66 Shield. That's where you get Phillips 66 Poly Gas and Phillips 66 Motor Oil... two famous products which are everything you can expect in times like these, when the needs of Uncle Sam's fighting forces naturally come first.

**P.S.** In place of our slogan at the bottom of this advertisement, we have placed a slogan that is yours, ours, and every American's.

**FOR VICTORY... Buy U.S. War Savings Bonds and Stamps**

### DROP REPORTED IN STATE TRAVELING

AUSTIN, Dec. 2—Non-essential driving in Texas during weekends decreased over 1,000,000,000 (billion) miles during the first 10 months of 1942 compared with the same period last year, asserted Gov. Coke R. Stevenson.

Quoting from figures prepared by Harry S. Phillips, executive secretary of the state highway traffic advisory committee, Stevenson yesterday announced that the decrease in October amounted to 207,359,649 or 14.1 per cent from the same month of 1941.

Sunday driving decreased 23.5 per cent in October compared with a decrease of 18 per cent in September and Saturday driving dropped 19.6 per cent compared with 15 per cent, the governor said.

### WARNING!

You fellows who are holding Federal jobs not protected and made secure by civil service rules and regulations had better be looking out for a good place to light after the next Presidential election. For if the present trend of public sentiment keeps up the people are going to be in mood two years from now to kick the present Democratic administration out the window.

Following the close of World War I. President Woodrow Wilson's magnificent peace plan was rudely rejected and the Democrat Party was unceremoniously kicked out of power at the next election, for no good reason at all. Jealous and disgruntled Unit-

ed States senators like Lodge of Massachusetts and Reed of Missouri joined with the Isolationists of that day like Borah of Idaho and Johnson of California to abuse and discredit the President of the United States, defeat the League of Nations proposal, win a victory for the Republicans and the Isolationists at the next election, and lay open the way—though they were too blind to see it—for the staging of another World War before another quarter of a century should pass.

They succeeded; and at the next election they elected their President, Warren G. Harding, who gave to the United States the most corrupt and disgraceful administration in the entire history of our country.—Tahoka News.

**I GIVE YOU TEXAS**  
by BOYCE HOUSE

There was a man in our town  
And he was wondrous wise;  
He swore it was his policy—  
He would not advertise.  
But one day he did advertise,  
And thereby hangs a tale:  
The ad was set in quite small type  
And headed, "Sheriff's Sale."  
Just as winters winds began to blow,  
Austin cut the old age assistance checks \$1 each. That may sound like a very small reduction to many people but, if you had been trying to get by on \$18 a month—which is 60 cents a day—then a reduction of \$1 can mean a real suffering because of lack of funds for food, clothes, medicine and heat in the cold days ahead.

It is explained, of course, that the war has brought a reduction in State tax revenues and that the number of persons becoming eligible for old age assistance increases each month and so the cut of \$1 a month may be only the beginning.

Until a few years ago, high state officials were receiving as little as \$2,500 annually. The people authorized an increase through a constitutional amendment—the same method by which they authorized old age assistance. There was this difference, however; State officials saw to it that their own salaries were increased to the full limit permitted by the amendment but the old age pension checks have never averaged much more than one-half of the amount which the Constitution permits.

Why should the full burden of the State's financial difficulties, which are due to the war, fall on the shoulders of the weak and aged? Let's share the sacrifice. Why not put it on the statute books that every time pension checks are cut, the salaries of State officials in the higher brackets shall be cut proportionately?

For instance, this would mean that a State official whose salary now is \$10,000 a year would be reduced one-eighth, or \$46 a month, which reduction would work far less hardship on him than the loss of \$1 a month inflicted on the elderly because the official would still be getting \$787 a month and maybe he could struggle along and get by somehow.

Let's be democratic about this. If there is going to be a sacrifice, let the better-paid servants of the people carry a part of the load and not put it all on the backs of the aged.

Favorite sayings:  
I disagree with everything you say but will defend to the death your right to say it.  
Tomorrow is another day.

### Farmers Expected To Do Stuff in 1943

Citing a recent statement by economists that 1943 is expected to bring the greatest demand ever known for farm products, and stating that next year's production difficulties will be tremendous, Mr. Lilly, rural rehabilitation supervisor of the Farm Security Administration, this week urged farmers to begin planning their program of operations immediately.

"Shortage of manpower already is a critical problem in many farming areas," said Mr. Lilly, "and it will be much more critical next year. As the nation increases our army and steps up our industrial output, it is inevitable that greater problems will face those in agriculture."

"Farmers in Terry and Yoakum counties and throughout the United States," he continued, "will do well to forestall many hardships and disappointments by developing their basic farm and home plans during the winter months." He reminded farmers that FSA loans are available to eligible borrowers for practically all farming needs, including the purchase of capital goods such as cows, hogs, poultry and so forth, and for operations.

He said FSA assistance, however is limited to those operators who cannot get adequate credit from any other source.

Mr. Lilly whose office is in the Post Office building in Brownfield said he would be glad to discuss the program with farm-

## OPA TIRE INSPECTION REGULATIONS

The following regulations, announced by OPA, now have the full force of law and it therefore becomes obligatory for tire dealers to follow them exactly and completely.

TIRE inspection is now compulsory for every registered vehicle in the country. Between Dec. 1, 1942 and Jan. 31, 1943, every passenger-car and motorcycle owner in the United States must have his tires inspected by an authorized OPA Inspector at an Official Inspection Station, to approve the continued operation of his vehicle. You must keep your Tire Inspection Record in your car at all times. The Inspector must sign your tire Record at every subsequent inspection (depending on what Gasoline Ration Card you hold) to approve the continued operation of your car; to permit you another gasoline ration book when your present one expires; to make it possible for you to be considered eligible for other tires or recaps at some future time.

An authorized OPA Inspector is at this Official Inspection Station to approve the continued operation of your car—on the basis of regular and compulsory Tire Inspection, between December 1, 1942 and January 31, 1943, and thereafter. You need not wait until that date however—to have your tires examined and the 5 best of those you own determined — so that you can sell your additional Idle Tires to your government. For explanation as to how to go about getting your Idle Tires into government hands, drive up or phone—we'll be glad to tell you.

### Try and 'A' Card For Awhile Anyway

There has been much said pro and con about the gasoline rationing (and we still pronounce it rashioning) yet many of us are still left in doubt as to whether or not it is necessary in the big oil states. To many, it appears that just because the east, the have not area, wants the southwest and all sections for that matter to share their misery.

Some criticism has been showered on Coke Stevenson, our fine governor, because he still maintains rationing nonessential, especially for Texas. Governor Stevenson was reared in one of our thinly settled counties where sheep, goat and cattle ranches abound. He is well aware that it takes gasoline and lots of it to move stuff from one ranch to another, or from ranch to market. He also knows that Texas is being called on for more and more meats. It is not that Governor Stevenson wants more gasoline to drive his car around Austin and vicinity.

The same thing goes here. Many

of our farms are 30 and 40 miles from town. Cream, eggs, poultry, swine and beef must be marketed frequently, and with distances such as these, four gallons a week is just no gas. That is the reason that many farmers and ranchmen filled just about everything on the farm that would hold gas, and many of them stored from 100 to 200 gallons and more. They are prepared to move the rest of this crop at least. In other words, they were taking no chances with a rationing board that might be about as hard boiled as Mr. Jeffers himself, and get gas to move the rest of their cotton, the feed crop and practically all the corn crop.

Now let's take a peek into the needs of the people who live in town, for instance. Many never use their cars except for what may be termed pleasure driving. It would not be a bad idea for these at least to try the four gallons a week for a month and see just how they come out on that before making application for another card.

As for the Herald, we just have to use our car a lot for other than just driving. We have to use it in soliciting ads in the out skirts of the city, and many times we are told to call later for the ad. Then, many times, we are told to pick up job work and deliver it, and we have to carry our papers to the postoffice each week.

But we are, with a full tank put in November 30th, going to try this month to see if we really need to have more than four gallons a week before making application for it. Added to this, we use from one to two gallons a week here at the office for cleaning ink off type. Even with this, our real needs cannot greatly exceed the A limit, and we'll apply for more gas only when we find it essential to our business needs.

C. J. Bonham, one of Terry's best farmers, of the Willow Wells area, was up recently to renew. Hardly ever see C. J., as he lives much nearer Seagraves, and probably trades there, mostly.

Our old friend, W. H. Kelly, who sojourned down at Quemado, Texas, for a few years, has returned to Terry, and is a reader once again of his old favorite sheet.

Sam Branch recently "divvied" up with another bat skin—that is his wife did for him.

- 1 trailer, good tires ..... \$40.00
- Will have good 1936 International pickup with good 600 X16 tires; A1 shape ..... \$300.00
- Also have 1937 AC tractor at a bargain.

I have for sale or trade 160 A. land 10 miles from Hobbs, N. M. at a real bargain.

**W. O. MILLS**  
Brownfield Mattress Factory  
317 W Main Brownfield

Dignity and dullness are double first cousins.

Temper is the one thing that can't be worked to death.

The term Greenhorn has all kinds of applications; to a cowboy it is someone who has never been on a ranch.

Approximately 100,000 miles of telegraph wire are in use in Texas.

Texas' first telegraph lines were built through the pine forests of East Texas by attaching the wires to the trees.

What has become of the idea that everybody should be temperate in everything.

Scientists are not sure where civilization began, but everybody knows how it may end.

Chicago bandits robbed a poker game and the winners lost heavily.

• A Complete Job Work Dept.

### WOMEN AT WAR

**Betsy**  
The little girl tugged gently at her mother's sleeve.

"Now, Mother?" she asked. "Now can't we write my letter?" "Why of course, Betsy," Mrs. Carson grinned. "Are you going to write it or am I?"

"Well," Betsy said. "Maybe you'd better kind of say it to me. Only I'd love to write it." "All right, then, Miss Carson, take a letter," her mother said, walking slowly up and down the room. "Ready? Dear Mr. Morgenstau: The way I save money for War Stamp buying is to steer all the small household jobs to

ward my daughter, who is eight years old. She is so keen about buying War Stamps that I know all the money I might have paid to someone else for doing the jobs will go toward Victory when paid to her."

"Now make a list, Betsy. Windows washed, 60 cents. Apples picked from under the tree, 25 cents. Emptied trash cans, 4 cents. Sold string beans from the garden, 15 cents. Sold strips of spoiled film to children for sun-gazing, at one cent a yard, 20 cents. Total, \$1.24. Yours helpfully, I hope,—and then I'll sign it at the bottom."

Betsy was puffing like a grampus from her labors. The tall, painstaking letters tottered bravely across the sheet of paper. Gravelly Mrs. Carson took the pen to sign.

"Mother, would it be the proper etiquette if I signed it too?" "Perfectly proper, I think," Mrs. Carson said without a smile, and handed the pen back to Betsy.

(Letter from an actual communication in the files of the Treasury Department.)

Every member of the family should invest in America's future. Make certain at least 10 percent of the family's total income is pledged to victory no later than New Year's Day.

**TAX NOTICE**  
You are hereby notified that your Brownfield City taxes for the year 1942 are now due.

If not paid before January 31, 1942 a penalty of 10 per cent and 6 per cent interest will be added.

City Secretary.

Compliments are like perfume— to be inhaled but not swallowed.

### Share Meat At Butchering Time

**COLLEGE STATION, Dec.**—Butchering time has arrived and farmers are asking how to comply with the Share-the-Meat program when they have excess quantities of fresh meat.

Roy W. Snyder, animal industries specialist for the A. M. College Extension Service, suggests an answer to this question. First, he says, stagger butchering of hogs. Instead of butchering two or three at one time, butcher one, then wait a few weeks to butcher another.

Second, share fresh meat with neighbors at butchering time. Families can "take turn about" in butchering, trading meat between them.

Third, cure hams, shoulders, bacon, and loins. Can the sausage. This leaves the spareribs, head and feet the only meat to be consumed at the time of butchering.

The other parts of the animal such as the heart, liver, and tongue are not included in the weekly sharing allowance. Mr. Snyder says similar management should be followed when a family butchers beef, veal, and mutton.

Finally, the specialist says: "If these suggestions cannot be followed, farmers may find it necessary to consume larger quantities of meat in any one week, but the average of two and one-half pounds per adult should be maintained throughout the year. The important thing is: Don't waste meat and don't eat more than your share."

Free publications on killing, cutting, and storing are available from county Extension Service agents or from Extension headquarters at College Station.

### WHOOPIING COUGH DANGEROUS, CONTAGIOUS

**AUSTIN**—Commenting today on the control of communicable diseases, Dr. Geo. W. Cox, State Health Officer, said that whooping cough is one of the hardest of the so-called children's diseases to control. This is because it is a highly contagious disease which begins as an ordinary cough and is often not recognized until the child has exposed other neighbor-

hood children. Whooping cough is contagious during the week or ten days preceding the easily recognizable symptom known as the "whoop." Even when the disease has been recognized, often a physician is not called and children are allowed to play with others when they are known to be sick.

In children under the age of three years whooping cough can be very dangerous and is often fatal. Frequent spells of coughing and vomiting weaken the child to such an extent that he easily becomes a victim of some complicating disease such as pneumonia.

Whooping cough complicated with pneumonia is so dangerous to young children that it is advisable to call a doctor as soon as the child becomes sick.

"Do everything you can to protect children from whooping cough," Dr. Cox said. "Keep them away from playmates who have colds, especially when whooping cough is prevalent in the community. Teach children not to put into their mouths objects which have been handled by others and be sure that they wash their hands before eating. If, in spite of your precaution, your child appears to be catching whooping cough, call your doctor at once."

**JUNIOR MAIDS AND MATRONS MEET WITH MRS. GORE**

Mrs. Jake Gore was hostess to the Junior Maids and Matrons Club Tuesday afternoon at the home of Mrs. Burton Hackney. The theme of the program was "PERSONALITIES DEVELOPED BY WAR". Mrs. James Applewhite was program chairman and gave very interesting Short Sketches of Churchill and Stalin. Mrs. Carter gave Short Sketches of American Leaders; Gen. McArthur, Lt. Gen. Eisenhower, and Nimitz. Miss Mildred Adams discussed Madame Chiang - Kia Chek.

Refreshments were served to Mesdames James Applewhite, Lee Brownfield, Finis Carter, R. J. Furtell, Grady Goodpasture, Burton ackney, V. L. Patterson, Mike Barrett, P. R. Cates, Misses Mildred Adams, Lola Beth Green, Irene Adams, Vondée Lewis and the hostess.

The next meeting will be with Misses Mildred and Irene Adams December 17, with a formal Christmas Dinner.

**SAMMY KENDRICK CELEBRATES BIRTHDAY**

Mrs. Spencer Kendrick honored her son, Sammy K. with a birthday party Monday afternoon from 3:30 to 5:30 at their home. Sammy was five years old.

Refreshments of punch, cake, sandwiches and potatoe chips were served to John Virgil and Carolyn June Burnett, James Dell Duke, Jonelds Benson, Dian Tiernan, Tony Akers, Patsy Teague, Barbara Ann and Patsy Stice, Kenneth and Hurby Kendrick and the honoree.

Mrs. D. Elliott of Ft Worth, who has been visiting her daughter, Mrs. Pete Tiernan, has returned home.

**RECITAL MONDAY DEC. 14th**

Gertrude Rasco will present piano pupils in Recital Monday evening, December 14th at the Jesse G. Randal school at 7:30 o'clock. The following pupils will play.

Deenie Ballard, Sandra Bailey, Peggy Black, Patsy Black, Aurelia Anne Cobb, Jacqueline Crump, Ronnie Daniell, Scharlyn Daniell, Mildred Eubanks, Gwennette Glover, Mary Nell Hanks, Leon Lewis, Frances Lewis, Janelle Lewis, Freddie R. Lowe, Cheezy McSpadden, Parilee Nelson, Graves Nelson, Lynn Sturges, Gloria Swan, Don Tankersley, Cynthia Tankersley, Juanda R. Turner, Bennie R. Wartes, Nancy Wier, Ted White, Marion Wingerd.

**RECITAL AT MEADOW**

Gertrude Rasco presented piano pupils at Meadow Methodist Church last night. The pupils were assisted by a choral group who sang Christmas Carols under the direction of Miss Marcille Burleson.

The following pupils gave solos:

Frances Bell, Mattie Sue Bell, Joe Burleson, Vida Jo Copeland, Mary Hester, Mary Virginia Stills, Patsy Sue Stearns, Betty Schwartz, Ouida Schwartz, Jerry Tilger, Janie Tilger, David Turnbough, Eva Ruth Turnbough.

Mrs. J. L. Tinsely of Crosbyton, and Mrs. C. O. Paschall of Artesia, N. M., visited in the home of Mr. and Mrs. Chas. Leonard this past week. Mrs. Paschall and Mrs. Leonard took their mother, Mrs. Tinsely to Crosbyton where they visited with her in her home for two days.

Most married men think they would have been rich if they had remained single.

**MRS. JAMES E. THOMAS HONORED WITH SHOWER**

Misses Margaret Travis and Dorothy Blant entertained Wednesday night of last week with a Tea and Shower in honor of the former Leona Settles, Mrs. James E. Thomas, at the Travis home. The Christmas motif was carried out with blue lights, silver and pine all through the house.

The receiving was headed by Miss Travis who greeted the guests and presented the honoree and Mrs. Bill Settle the bride's mother.

Miss Dorothy Blanton and Miss Inez Chandler at the table which was laid with a lace cloth and a center piece of potted poinsettia and lighted candles.

Miss Shirley Bond presided at the guest book.

Mr. Thomas came down from Lubbock before the party was over to join his wife. Thursday morning they moved to their home in Lubbock.

**I-DEAL CLUB MEETS WITH MRS. SAWYER**

Mrs. A. A. Sawyer was hostess to the I-Deal Club Wednesday night of last week. Mrs. Roy Herod played high and Mrs. Peeler second high. The prizes were roses vases. Mrs. Wingerd won the Bingo prize, which was a sterling ash tray.

A salad course was served to Mesdames W. R. McDuffie, R. L. Powers, Bruce Zorns, Joe J. McGowan, Meyers, R. G. Peeler, Roy Ballard, Roy Wingerd, Wilson Collins, Roy Herod, Tommy Black Vance Sibley and the hostess.

Miss Ernestine Thompson of Waco arrived Friday to visit with friends and relatives. Miss Thompson is doing sheet metal work in an airplane factory in Waco.

**JESSE G. RANDAL PTA MET THURSDAY**

Thursday, December 3, the Jesse G. Randal PTA met in regular session. Mrs. Walker was program leader. Bro. Hanks gave a most interesting talk on "Home, Church and School in Relation to Character Building." Miss Dorothy Blanton, Home Demonstration Agent, discussed meat rationing and asked the PTA to cooperate in putting volunteer meat rationing over in Brownfield. Miss E. C. Davis was appointed chairman.

Mrs. Joe Shelton, president, presided over a short business meeting.

**MRS. E. C. DAVIS HOSTESS KOLONIAL KARD KLUB**

The Kolonial Kard Klub met with Mrs. E. C. Davis Friday afternoon. There were three tables of bridge. Prizes of cologne were won by Mesdames Wingerd, Telford and Bingo Mrs. Heath.

A Salad plate, with the Christmas motif was served to Mesdames Roy Wingerd, Mon Telford, Money Price, Herman Heath, C. T. Edwards, T. R. Black, A. A. Sawyer, Mike Barrett, R. A. Crosby, Jimmie Applewhite, J. E. Mathews, Proctor and the hostess.

**CHRISTMAS CAROL SERVICE**

On Sunday evening, December 20th, 8:00 P. M., at the First Baptist Church, Brownfield, there will be a special Christmas Music program, consisting of special numbers and congregational singing of all the familiar Christmas Carols.

This program is being sponsored by the Civic clubs of Brownfield and we urge everyone, old and young, to come and help make this an outstanding Christmas program.

We want to invite every person who likes to sing to come to this special song service and help the Choir with these songs. Please help us to fill the entire Baptist church and make this a happier Christmas by joining in the singing of these well known and beautiful songs.

We feel that having a service of this kind will give everyone the true Christmas Spirit.

One special rehearsal will be held at the First Baptist Church on Friday evening, December 18 at 8:00 P. M. Everyone who is willing to help sing in the Choir please come to this rehearsal.

Watch for complete program in next week's paper.

Mr. and Mrs. Evert Latham and Bobby took Mr. and Mrs. Marvin Langham and children to Lubbock Sunday to catch a train for Amarillo. From Amarillo the Langhams went to Oklahoma City. Mrs. Langham has been very ill and has gone back to the specialists. On account of Mrs. Langham's health, she does not expect to return to Brownfield, and after January 1, they will make their home in Oklahoma City.

Mrs. J. H. Travis is visiting her daughter, Mrs. Charles Roberts, in Slanto. Mr. and Mrs. Roberts are proud parents of a baby girl, born December 6.

Mesdames, P. Harris and Annie Crow of Lamesa attended the shower given for Mrs. James E. Thomas.

Mayor Jessie D. Cox returned Thursday from Waco where he attended Grand Lodge. Mrs. Cox visited with her son in Lake Charles.

M. and Mrs. W. O. Mills and family returned home Thursday of last week from a trip to Littlefield where they were to attend a double wedding. Then the Mills family went to Alamosa, Colorado to visit Mrs. Mills' parents, Mr. and Mrs. L. E. Wells, and a brother, Mr. and Mrs. Harold Wells. On the return trip they visited Mr. Mills sister, Mrs. Oliver Oldham Hundo, New Mexico.

Mr. Sam Houchins' mother left Sunday for her home in Amarillo.

Mrs. J. F. T. Cox returned from a visit with her grand daughter in Killeen.

Mr. Bill Bryan and friend, Mr. Bill Lane, students of Texas Tech visited home folks over the week end.

Mrs. Ame Flache recently remitted for their Herald, and for their daughter's paper, Mrs. Benie White, of Vincent, Texas. Thanks a lot.

**WOMAN'S SOCIETY OF CHRISTIAN SERVICE HAVE CHRISTMAS PARTY**

The Woman's Society Service, of the Methodist Church will have their Christmas social next Monday at the Church, in the form of a covered dish luncheon. Mesdames Leo Holmes, Bruce Knight, J. O. Gillham will act as hostesses. Each person is to bring a gift for the tree.

**THE LOCAL RED CROSS IS IN NEED OF PEOPLE TO MAKE BANDAGES**

The Red Cross rooms are open Tuesday through Fridays and at night Mondays, Tuesdays and Wednesdays.

John A. Rose, 1/c, Co. D, 711 M. P. Bn., Fort Lawton, Wash., had a 14 day leave, spending most of that time here with his parents, Mr. and Mrs. Riley Rose.

Mrs. Leo Allen of Tokio, is spending the week with Mrs. Noel.

Mrs. A. J. Stricklin returned home Monday.

The Senior Maids and Matrons observed "Women At War Week" and sold between \$900 and \$1000 worth of war bonds.

Mr. Ralph Jones got his finger mashed off at the Farmer's Co-Op Gin Tuesday.

Mrs. M. E. Brewer, supervisor at the hospital, was admitted to the hospital for medical treatment Sunday.

The parting of the ways came in the Jim Burnett family this week. No, they were not mad at each other. But James, a Petty Officer in Uncle Sam's Navy left for Norfolk, Va. Elvin and family and his sister, Mrs. Homer Newman, all left for California, Thursday morning. Thus, from coast to coast.

L. F. Lock, of Tokio is welcomed as a new reader.

A. Y. Edwards of Tokio, planked down two buck lately to put his Herald up to June 1944.

The Santa Fe system moved 34,360 cars last week compared to 32,080 the same week in 1941.

G. C. Perry of route 4 is on good speaking terms with the Herald for another year.

D. Ruark of Rt. 3, and E. E. McClintock of route 2, are new readers.

Mrs. Grady Goodpasture is sending the Herald to her brother, Lt. Eugene B. Ellis, who is somewhere across the ocean.

**Special Engineering Courses For Women**

Lubbock, Dec. — Courses aimed at assisting women to become qualified for junior engineering positions in the ESMWT program are being started at Texas Technological College under direction of Prof. J. H. Murdough, head of the department of civil engineering.

Women completing the course will be eligible for appointment to posts in the Bureau of Ordnance, Bureau of Ships, or Hydrographic Office of the Navy Department; U. S. Engineers Office of the Office of the Chief of Ordnance, War Department; U. S. Maritime Commission; U. S. Geological Survey; National Advisory Committee for Aeronautics Administration; U. S. Coast and Geodetic Survey; or other federal agencies.

Graduates of four-years colleges or universities may enroll, following personal interviews and passing of aptitude tests. The course will cover 27 weeks and 220 hours. Subjects to be taught are engineering computation and problems, engineering drawing, elementary mechanics of materials, surveying and shop processes and methods.

The first long distance telephone line in Texas was established between Galveston and Houston in 1883.

O. G. Lewis of route 3, decided recently it was time to hand in the spondulix for the Herald, and get something that isn't rationed yet.

If we'd give as much attention to our daily schedule as we do to preparing for a vacation, we might eliminate a lot of waste and worry.

The daughter of Hugh H. Harless, of route five, took advantage of our magazine and Herald bargain rate, recently.

O. F. Krueger of north Terry dropped in recently to get his Herald and Star-Telegram a year in advance.

Mrs. Adolphus Smith left last week for Phoenix, Ariz., to visit relatives.

Miss Cypert of south of town, came in Monday from Lubbock, where she visited a sister.

Grandmother Mary Lewis has been confined to her bed the past three weeks.

Humility is an element of greatness because it is a sign of knowledge of greater things yet to be attained.

Let us make Pictures for your Christmas. Saturday 12 is absolutely the last day we'll be able to take them if to be delivered by the 24th.

QUACK DOCTORS . . .

Or, "Physicians Of No Value" will be the subject used by Evangelist Henry at the Church of Christ this Sunday night at 8 P. M. The subject for the morning service will be "The Sabbath As The Day Of Worship." This will be the first of a series of sermons dealing with Christian Worship. Next Sunday morning the subject will be "The Lords Day As The Day Of Worship." Which day do you observe, if any? Which day does the Lord want you to observe? You are welcome to attend any of these services and study with us this subject of Christ-

UNION NEWS

By Jacob Sandage

No deaths, no births, no marriages—in fact, no trouble of any kind to report this week. We promised to say nothing

ian Worship, or the sermon Sunday night "Quack Doctors."

Newspapers own wholly or in part 28 of the 56 radio stations in Texas.

The first electric power plant in Texas was erected in Galveston in the early eighties.

about it, but Lock Benton was seen with a supply of fresh meat the past week.

There was some excitement in the Union community during the past few days. Some of our citizens found an unusually large track of some kind in the snow. Some thought it might be the track of an enemy alien who had dropped from the sky. Others thought it was the track of a full grown elephant. G. W. Luker said that he had seen the very same track around his smoke house several times during the past ten years. Some of our farmers said they had seen the same track around their chicken roost at several different times during the past few months. On thing that puzzled the men was that the members of the fair sex seemed to be fascinated at the sight of this track, and they would look at each other and smile like they knew more than they chose to tell. Mayor Evans said that he had seen the same track in the back alleys of our town and that he surmised that it might be the Old He of the Terry County Herald, but whatever it was, the or said he could take his hounds and overtake it. So the race was on, and after a two hour's chase, the finally overtook John Holmes, who was carrying a sack of flour, a shoulder of meat, 100 lbs. of coffee, 20 gallons of gas and 6 dozen Rhode Island Reds. This ended the race, anyway we are glad it was not the old He.

The farmers in this part have made wonderful progress in harvesting their crops, even tho there has been a labor shortage. Our farmers did not attempt to have their bolls pulled for less than \$1.00 per 100. There are two things that the writer would like to know. We would like to know just who it was that told us at different times during the summer and fall that there would be no labor shortage in the boll patch in Terry county, as early as August we farmers were told that we should place a ceiling price on the amount that we would pay for boll pulling and that Washington City wanted to know what the price would be. Now it is indeed gratifying to know that we farmers in Terry are so important that some one in Washington — we do not know who—wanted to know what the ceiling price on boll pulling in Terry county was. If there is any one in Washington who thinks there is any way to tell as early

as August what the price of boll pulling will be on the South Plains, then we are not surprised that Washington is considered an insane asylum. We farmers heard so much about the ample supply of boll pullers that would be here that we wondered why any one in Congress would try to convince the administration that there is a farm labor shortage and if the farmers could place a price on the amount that we would pay for hired help, and make the plan work. Then why should Congress say that the high cost of farm help should be considered when considering the farm parity price? Well, after being assured that there would be plenty of boll pullers here looking for work, the ceiling price for boll pulling was placed at 85c, but the plan did not work.

When we say there is not a farm labor shortage we are only fooling ourselves, and when we farm-ers place a ceiling price on the price that we are going to pay for labor, we are not even fooling ourselves, because we know the plan will not work. No one should doubt that the farmers of America are patriotic enough to strive to the very limit to produce what the Secretary of Agriculture is asking of us and it may be said that while the highly paid factory worker was attending a movie after his day's work, the farm family was "toiling upward in the night." Another thing we would like to know is who was it that told us during the summer months that there ain't gonno be no gasoline rationing in Texas? Who ever said it should be told that we Texans have the patriotism to "take it" while the politicians have the guts to bellyache about rationing. One thing we might be optimistic about in regard to the farm labor shortage, the war and rationing is that the worst is yet to come. Such statements might not be good politics, or is politics ever good? A dorky, on being asked the meaning of politics, replied: "If a man tell you de truf, dat ain't politics; but if a man tell you a lie and make you believe it, den dat am politics." This does not apply to Texas politics where we always elect men to office who tell the truth.

The way all the girls are helping in the war effort, maybe we ought to call them defense blonds.

Unselfish Leadership

—Need of the Hour

By DR. GEORGE S. BENSON  
President, Harding College  
Searcy, Arkansas

(Editor's Note: Dr. George S. Benson is president of Harding College of Searcy, Arkansas, a co-educational institution noted for having no unemployed graduates. Dr. Benson found himself catapulted into the headlines in 1941 when he appeared before the House Ways and Means Committee, and Senate Finance Committee, and offered a concrete plan for cutting non-defense expenditures by two billion dollars. Self-reliant Harding College students recently hit the headlines when they asked the National Youth Administration to accept the return of funds allotted to them, requesting that the sum be invested in "tools for Mac-Arthur's men.")

Should the United Nations, America and her allies, fail to fight off their enemies in the fiercest and most merciless of all wars; should the armies of conquest achieve their aim and enslave the world, it will not be because Axis soldiers are braver or more skillful (for they are not) nor yet because they are more numerous. Only one thing can cause such a dire calamity—selfishness.

Two Defeats  
Unselfish patriotism could win this war with surprising promptness. It is also able to preserve the United States, completely whole and good as ever, after the war is over. But opportunism still has two chances to scuttle the Ship of State. (a) Too many people selfishly seeking their own private advantage can hamper America's war effort enough to bring defeat. (b) The same thing can snuff out democracy after the war, even after victory in battle.

It is my sincere belief that the most crying need of this crucial hour is unselfish leadership; for government, for industry, for labor, and for agriculture. Be it observed that I said "leadership" for it is also my sincere opinion that an overwhelming majority of office holders, farmers, laborers and industrialists are basically unselfish, willing and anxious to make sacrifices for victory, and on behalf of the governmental system under which they have enjoyed the finest living conditions ever made possible to any segment of mankind. Yes, the great masses of our people are Americans first.

Since wealth is measured by the amount of useful goods it produces, every important nation of the world is currently getting poorer. The war is taking wealth in the form of automobile factories which formerly produced useful things and converting that wealth to the production of airplanes and tanks which are not useful to individual citizens in peacetime. While national wealth thus shrinks before our eyes, no man should expect his personal wealth to grow in value.

War Destroys Top Soil  
A cotton farmer's land is wealth because it grows a useful crop which can be sold at a good price. If the top soil were removed from the farmer's land so that it would raise only weeds, his wealth would be destroyed. Just so, war is bringing destruction to wealth normally used in creative activities; is making every one of us poorer. This is inevitable in war. The sooner we realize this fact, decide to bear our burdens cheerfully, and to give our maximum service, the sooner this tidal wave can be turned back and the sooner victory may appear on the horizon.

Should American citizens be selfish enough to say, by word or deed, "Hitler isn't so bad. We do not care to help him, but we won't help very energetically to defeat him either, unless we get more than we ever got before,"—then victory will not be achieved.

Should government officials play politics; should organizations with war contracts insist upon huge salary bonuses; should well paid workers in war factories refuse the President's wage freezing plan; should farmers who toil from dawn to dusk fail to do their best, regardless of parity, then morale will be shattered and rancorous factionalism increased.

What Won in 1776?  
Was the American Revolutionary War won by politicians who thought only of remaining in office? Was it won by those who fought hardest for big profits?

No. Big profits, high wages, high farm prices did not win the American Revolutionary War. Neither will they win this war. It was the Valley Forge spirit of sacrifice which made that victory possible and laid the foundation for today's freedom and prosperity.

Unselfishness and wholehearted cooperation for the cause of freedom and democracy will win this war and stop the destruction of our wealth.

Since Jesus trudged the primitive highways of Asia Minor, doing good, the world has heard of no completely unselfish life. But there have been many memorable examples of devotion to human progress and freedom. If this war against the Axis powers is to be won and democracy saved we must immediately have unselfish leadership at the helm in every department of civilian life.

Shortage of metals affects clothes, hence so you can go right on tearing 'em out on the back.

# The PRESENT with a FUTURE

## UNITED STATES WAR BONDS

... the Bonds you buy today ... for Christmas giving ... will pay returns in happier living ... long after Freedom's won ...

Give a little lad a Christmas War Bond, and you help finance his college education ten years from now! That young Victory bride may use the Bond she gets toward buying a new home a decade from today ... and no matter whom you give a War Bond this Christmas, will get more than you pay for it, when it matures!

The Present with a future — a United States War Bond. And in the immediate future, it has its most important job to do: that — to buy the bombs and planes and ships, and equip our fighting forces to win the Victory that will mean freedom for all ... for all time!

### Christmas Tree Decorations in Star Spangled Banner Colors!

Hang War Stamps protected by cellophane — or mounted in albums — on the boughs of your Christmas tree! And when everyone starts looking for his and her very special gift—let them find those "growing" on the tree too — give them all War Bonds and Stamps!

## BROWNFIELD STATE BANK FIRST NATIONAL BANK

A long time ago when the Scots began to leave south Texas and start for the west, a Scot got into an argument with the Conductor near San Angelo. The argument waxed hot and heavy over what the Scot said amounted to an overcharge of five cents by the Conductor. Just at that time the train was crossing the Concho river bridge. The conductor threw the Scot's suitcase out the window where it hit the water with a splash. "Mon!" screamed the Scot. "Ain't it enough to swindle me out of five cents, and now you try to drown my little boy!"—Clarendon Leader.

### Baptist Church News

This column admonished Baptist families especially to attend the Bible study period of the church and last Sunday morning only 106 registered present and we are made to wonder if our admonition was worth while but a snow storm struck at the same time and we will wait for next Sunday morning before we definitely decide to desist.

Word has come to us that the Lamesa church have a goal of fifteen thousand dollars on their building obligation during December and we congratulate them

on a worthy aim and hope they reach it.

Our church has voted to pay five thousand of our fifteen thousand dollar debt and if this can be done we will all feel better and there is no question about the ability of the people to raise this much money if they determine to do so but to underestimate the task means failure and it cannot be accomplished easily.

This all-out war in which our country is engaged is calling for the best and utmost of all the people but we must not forget to keep the home fires burning that when the men come back from the army and navy as well as defence work they will find the church they left carrying on for Christ and may find their places and take up the most important work of pointing a lost world to Christ.

Last year Southern Baptist churches put four hundred fifty thousand dollars in their Foreign Mission work through their Lottie Moon offering in December and they are doing it again this year because they believe the words of the Master when he said, "Go into all the world and preach the gospel to every creature" and they are seeking to do just that.

We invite all Baptist coming this way to become members of our church and share with us the responsibilities and joys of service.

Visitors welcome in all our services.

### FIDELIS MATRONS MEET IN COVERED-DISH LUNCHEON

The Fidelis Matrons, of the First Baptist Church, met Thursday of last week with Mrs. E. C. Davis for a covered dish luncheon. Those attending were Mesdames T. G. Sexton, teacher, E. G. Black, Nowlin, Neal, Garey, and the hostess.

### Letter To Santa

Note to Parents: In order to conserve paper, have your children write very briefly. We are asked by the WPB to do on just as little print paper as possible. Also, we ask that you copy letters written by small children, as in doing so, we may make mistakes. You are more familiar with their wants. We will try to handle a limited number of letters. Some papers have eliminated Santa Claus letters for the duration.

Dear Santa Claus:

We are four little cousins, Bertie Lee May, Joice May and Eve have been very good. I, Leroy King want a little football, a story book, a popgun and an Indian suit. I, Ruby Pearl King, want a iron and standing iron board; some doll clothes, coat and cap and cooking utensils. I, Bettie Sue Jowers, want some little dishes, stove and cooking pans. I, Patsy Jowers, want a sleeping doll, dining room table and lots of little chairs. Don't forget our cousins, Billy and Bobby Jowers who moved to Carlsbad, N. M.

Dear Santa Claus:

We are four little cousins, Bertie Lee May, Joice May and Evelyn and Shirley Jowers. I, Bertie Lee want a doll buggy, a Jumping rope and a little washing machine, and little dishes. I Eugene, want a real, live puppy with curly hair, a ball and a cowboy suit. I, Shirley, want a doll and some doll clothes, a doll bed and a little rocking chair.

Dear Santa:

I want a tool chest and tires for my bicycle. My little sister, Nancy Sue wants a doll buggy. We would like some candy and fruits and nuts.

Jerry and Nancy Sue King. Brownfield, Texas.

DEAR SANTA:

I know its gonna be hard for you to get here this Christmas on account of the war. But if you can come I want to tell you what I want 'cause I have tried to be a good little girl. I just want two things. I want a baby doll and I

### NAME BOY STATE'S 4-H ELECTRICAL CHAMPION

OUTSTANDING aptitude in utilizing electricity for practical purposes wins for Donald Watkins, 20, of Farwell, Parmer County, Texas, state championship in the seventh national 4-H rural electrification contest. His reward is an all-expense trip to the 21st National 4-H Club Congress in Chicago, Nov. 29-Dec. 2, provided by Westinghouse, which also appropriates \$1,200 in college scholarships for six national winners. Delegates to the Congress will discuss further 4-H contributions to the war effort. The youth helped with wiring jobs on his parents' 1280-acre farm. When the war is over he's coming back to live on a farm having all modern electrical equipment, he says. The contest is conducted in cooperation with the Extension Service.

want by Daddy to come home. His name is Sgt. Curley Edwards and he is in Egypt and you could go by and get him and bring him with my doll. Be good to all the nice girls everywhere. And Santa be careful and don't let the Japs shoot you on the way.

Love  
Jonelda Edwards  
202 E. Cardwell.

### JESSE G. RANDAL SCHOOL CHILDREN GET DIPHTHERIA IMMUNIZATION

Miss Ruth Skemp, health nurse, of Levelland visited the Jesse G. Randal School last week. She gave the diphtheria serum to one hundred and twenty three children. Some of the children were of pre-school age.

### Mail Earl—And Help Postal Help

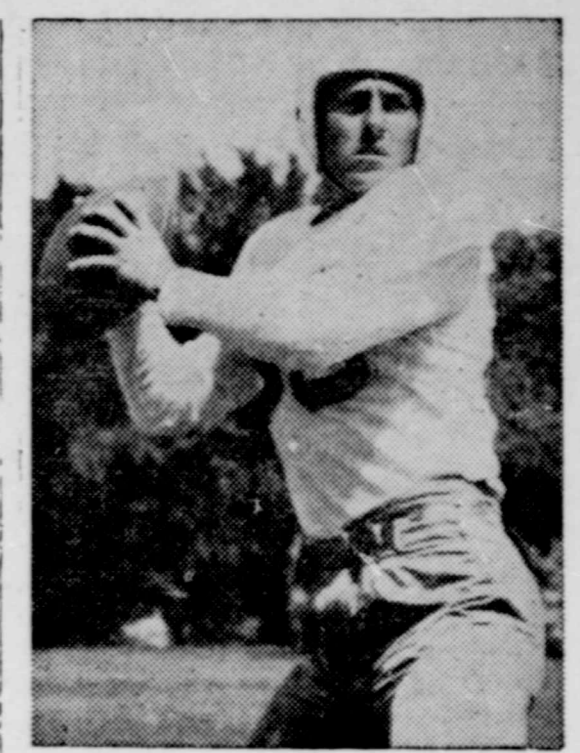

The Post Office Department now is starting the most gigantic task in its history — the movement of a deluge of Christmas parcels cards and letters while maintaining the regular flow of millions of pieces of mail daily to and from our armed forces all over the world.

Indications are that the volume of Christmas mail will be the largest on record. Already in September, latest month for which figures are available, retail sales had reached a level second only to the record month of December, 1941, according to the Department of Commerce. And sales are rising. Such heavy purchases always presage heavy mailings.

If thousands of our soldiers, sailors, marines and civilian friends are not to be disappointed at Christmas time, the public must cooperate by mailing earlier than ever before and by addressing letters and parcels properly. The best efforts of the Post Office Department alone cannot be enough, in view of wartime difficulties faced by the postal system. The public must assist.

About 25,000 experienced postal workers already have been taken by the war services. Arrangements are under way to add thousands of temporary personnel to postal staffs, but this manpower is hard to find and is inexperienced. Facilities of railroad and air lines are heavily taxed by movements of huge quantities of war materials and personnel. Extra trucks are almost impossible to obtain. Winter weather, hampering transportation, is beginning.

The free-mailing privilege granted to members of the armed forces has raised their mailings

Roy McKay, University of Texas fullback, who has received numerous All-American honors, wound up the regular season with being the champion "balltoter" of the Southwest Conference. On 132 tries, the Texas lad gained a total of 711 yards. He hopes to add to this yardage when the Texas team ties up with Georgia Tech in the Cotton Bowl Classic in Dallas on New Year's Day.

some 30 per cent, it is estimated. Expansion of those forces also is adding rapidly to the postal burden.

The deadline already past for mailing gifts to Army and Navy personnel overseas with assurance that the parcels will arrive by Christmas. The New Year post office reports that in late October, 350,000 such parcels were handled daily in that office alone.

The Post Office Department is making strenuous efforts to avoid such a traffic jam as it faced in 1918 under similar conditions, during the First World War. It can succeed in these efforts—and avoid many heartaches for its patrons — if the public will cooperate by mailing early.
