BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, FEBRUARY 19, 1943

NUMBER 29

## Visiting Sergeant Tells Of Some Thrillers

Sergeant Lonnie Wright, whose home is in North Platte, Neb., but who more recently has been practically all over the Pacific ocean, is here visiting his brother, Jim Wright and family. He is with the 19th Bombardment Group, which most American know by reading the papers and magazines, and the Japs by actual experience, has been a very busy organization the past several months.

While extremely modest and unassuming, the Sergeant was glad to give all information permissible, concerning himself and the Pacific war theatre. Since December 7, 1942, he has been in Hawaiian island, the Fiji island, Australia, where he joined the 19th, the Solomon area, and other places. As gunner in a flying Fortress crew, he has been on 32 bombing and reconnaissance missions.

On one mission, Sgt Wright's Fortress was engaged by 12 Zeros, seven of which were downed by the gunner crew. The fight lasted 45 minutes which is something of a record in aerial engagements. Among other places, he has seen action in the Coral Sea and Milne Bay battles.

Sgt. Wright has been awarded the Silver Star and Purple Heart medals, and has been cited for several others. His next assignment will be as instructor in aerial gunnery.

## R. L. Lewis Sales For Unknown Parts

R. L. Lewis called his parents, Mr. and Mrs. D. P. Lewis, last Sunday night from a west coast port that he was ready to sail for foreign duty, he couldn't say where but they would be notified in a few days where to write him. His brother Lee Orville happened to be at his parents and he also got to talk.

To the casual observer a phone conversation seems a trival item but to the parents it seems everything as it may be the last, for this very reason among others is why the government has asked you to cut your phone calls to the minimum and only the very necessary ones then as some boy may have only so many minutes to get a call through.

## Raymond Day Wounded In Action

On the second day of January, Pvt. Raymond H. Day son of Mr. and Mrs. John Day, of the Tokio section, was seriously wounded, somewhere in the southwest Pacific according to Mrs. Day, who called at the Herald office late last week.

She stated that the first telegram they had from the war department was that their son was seriously wounded. Later, Feb. 2, they received a letter from the war department stating that their son was convalescing.

The Days have not heard from their son since he was wounded, which leads them to hope maybe he is now able to travel, and is perhaps on his way home.

## Jim Graves Having Bad Luck In Navy

Relatives here of Jim Graves, who is at the naval training station at Great Lakes Ill., slipped on ice, Feb. 7th, and broke his right leg. He was in charge of a church detail at the time. He will be hospitalized about 6 weeks.

To those who may wish to send him a "get well" letter or card, his address will be, McIntire Hospital, Ward A South, USNTRNS, Great Lakes, Ill.

Mrs. Lee Fulton reports that 68 small pox vaccinations were given at the Jessie G. Randal school Wednesday morning.

## Defense Guard Prepared To Train More Men

The names of the men listed below, were turned in to Captain Edwards by their friends who are already in the Defense Guard. The guard has several vacancies to be filled and will likely have some more later on. Furthermore the guard can take care of as many as 150 supernumeraries.

Look at the list below and see if your name is on it. If it is not, don't feel badly about, as only a few men were contacted on the matter—and don't let this seeming oversight keep you away Tuesday night. Come on out and see what it is all about; we know you'll like it. Meeting place is at the Legion Hall at 8:30 P. M.

Names handed in Tuesday night were, Red Newton, M. V. Walker, Howard Blake, Luke Huckabee, Buck Andress, Bill Harrell, Lee Short, Mike Barrett, Ed Richardson, Lee Brownfield, Harold Jones, R. F. Hodges, Jimmie Applegate, R. L. Burke, Roy Green, Ross Black, D. L. Patton, Howard Davis, Will C. Brown, Earl Carey, Terry Redford, James King, Joe Stutts, C. E. Ross, L. E. McClish, Lee Orval Lewis, L. O. Turner.

The Texas Defense Guard is not an exclusive club, and it does not belong to any person or group of persons. It is YOUR Guard regardless of whether your name is listed on the rolls or not. Come on out and get your full benefit from it.

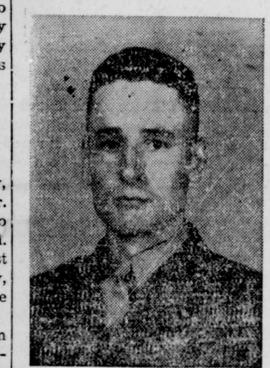

## Pvt. Derington Official Base Host

In recent issue of The Trailer, published at the Air Base at New Orleans, Pvt. O. L. Derington, Jr., son of O. L. and Mrs. Derington of this county, was shown in a picture with a six year old lad and a 16 year old youth of Louisiana, who were leaders in the scrap drive in that state.

He gave the boys a ride in a jeep, and then carried them to the shipyard to which a ship being launched.

Pvt. Derington was home on a furlough a few weeks ago, and would like to hear from those who may wish to write him.

## Fowler Commissioned 2nd Lieutenant

Atlanta—Archie Fowler, 26, of Brownfield, Texas, has been commissioned a second lieutenant in the U. S. Marine Corps and will undergo the final phases of the rugged officer's training course at Quantico, Va., before taking to the field to lead leathernecks in battle.

The Marine officer, a graduate of Texas Tech, is the son of Mr. and Mrs. Archie T. Fowler, of Brownfield.

## Steve Heartsill Reported Wounded

We understand that Steve Heartsill was recently badly wounded on one of the war fronts. First reports were that his leg was shot off, but these reports have been denied.

In view of the fact that Steve's father has been very ill of late, we are unable to get further details.

It's better to go broke than never to have loved at all.

## Wartime Crop Loan Program Is Announced

Mr. Pearce Warren, Chairman, Terry County USDA War Board announced that the Agricultural Department had established a \$200,000,000 wartime food production loan program under which the government will assume losses from crop failures on products needed for the war.

Farmers planting designated crops may borrow funds to cover planting, cultivating and harvesting. They will be obligated to repay only to the extent of the value of the crops produced.

In event of a complete failure the loan will be canceled.

Crops on which the loans are offered include those involving high production risks or which farmers would not otherwise grow. Loans will be made by the county agricultural war boards from funds provided by the regional Agricultural Credit Corporation.

The war crops affected in Terry County include: Soybeans for beans, peanuts for nuts, and dry beans.

## The Logans Want The Herald

Mrs. A. W. Logan, wife of Sgt. A. W. Logan, wrote us under date of the 8th to get the Herald started to her husband, who is located at Boca Raton Field, Florida. She stated that the next best thing they could think of other than being in Texas, was to get the Herald weekly, even though it will be a week getting to them.

Mrs. Logan will perhaps be better remembered by local people as Miss Iva Roe, who was Dr. Jacobson's nurse here for several years. She is holding down a similar position with a physician at Delray Beach, Fla. Here is a bit of her reaction to Florida.

We enjoy the warm winter in Florida but at times a real cold north wind would feel good to us. While I am doing similar work here that I did in Brownfield, we have a different class of people to deal with, and I'll take the Texas class any time in preference.

## Local Boys Finish Preflight Training

SAN ANTONIO, Texas, Feb. 17—Anxious to prove the words they sing—"Nothing can stop the Army Air Corps"—another large class of future army pilots, bombardiers and navigators was advanced this week from preflight training at the San Antonio Cadet Center to primary units.

The cadets have completed satisfactorily, at this largest cadet school, their initial studies leading to commissions and the wings of flying officers in the air corps.

Among those leaving for primary schools were 276 aviation cadets from Texas, including two from Brownfield. They are: Aviation Cadets Ollie W. Warren; Tom N. Moorhead.

## Ed Bingham Reported Seriously Wounded

T. N. Bingham was in late last week and informed the Herald that his grandson, Ed, son of Mr. and Mrs. Tom Bingham of Quemado, Texas was seriously wounded Jan. 19th, somewhere in New Guinea. The folks lately had a letter from him stating that he was getting along fine, but didn't state how wounded.

Ed was born in Brownfield, and was partially reared in Terry county, but the family mover to Quemado a few years ago. He enlisted in 1941 and trained in California. He landed in Australia about a year ago.

After Sgt. William Joe McGowan called on us and chewed the rag for a half hour, we forgot to mention it last week, or that he had been promoted from corporal. Bill is now located at the army flying base at San Marcus.

## Brownfield Schools And Schools Of Texas Need Your Help

By E. E. Hancock, Supt.

From all reports at my disposal, I gather that since we entered the war high school students over the nation are studying harder and more eagerly than ever before. That is undoubtedly due to the encouraging fact that our young people have grasped the seriousness of this war and the share of their responsibility in it.

In modern warfare, as in modern peacetime, living, knowledge and training have become increasingly important. Knowledge and training will be even more important when the war ends.

We have known for a long time how important education is in a civilized society. This war has not fortified our convictions. When the war is over, we will need great numbers of young people equipped with the knowledge to reconstruct the world and improve it.

I have said all of that in order to say this: In Brownfield the same as through out the state we are running our schools short of teachers every day. Teachers are leaving us almost every week. Some of our students have had eight different teachers in one course this school year. The problem is becoming more serious every day.

One of the main causes for this is the low pay we offer the teachers. Our classroom teachers are paid \$93.00 to \$107.50 per month for nine months. You can very easily see why our teachers go to war industries and other better paying jobs.

Then you may ask the question as to why we don't pay more money for their services. Brownfield Consolidated Independent School District expects to receive some 8 or 9 thousand dollars transportation aid this year which will nothing like take care of the transportation expense within our district. When a school receives any form of aid in Texas, that school must come under the Rural Aid law\* that governs this money appropriated by the State Legislature. This law sets up a salary schedule in which the teachers are to be paid.

The law further provides that if the school fails to comply to the aid schedule set up, the school will not be eligible to draw any form of aid. In order to absorb the amount through transportation and then rise salaries, your taxes would have to be raised a great deal.

We want every person in our school district to write a letter to the governor of Texas and to any member of the Texas Legislature asking that provisions be made to pay better salaries for next year.

If something is not done before another year (and now is the time to do it) there will be a lot of schools fail to open their doors next fall. You want your children to attend school, then help us do something by at least writing one letter to the governor or a member of the Legislature.

Teachers are not going to continue under such salary when living conditions are so high. Those who board pay \$35.00 to \$45.00 for board and room. Figure to see how they are to come out under such a program. We want the schools to continue. If you do, help us do something about this matter while the legislature is in session and considering several bills.

## Stevens Transferred From Lubbock To Bryan

Mrs. Ed Stevens of the Union community, stated this week that their son, Pvt. David E. Stevens, was transferred last week from the LAFS at Lubbock to the Army Flying School at Bryan, Texas.

Pvt. Stevens entered the military service last October.

Being a good listener isn't saying much!

## Panhandle-Plains Dairy Show In April

A. B. Buchanan was in this week and handed us a Plainview Herald, which stated that the Panhandle-Plains Dairy Show would go on as usual this year. However it will be streamlined into three days, being April 13, 14 and 15th. The show will carry its 4-H department and judges as usual.

The show will be as well financed as usual, and is expected to attract considerable attention, as a number of stock shows, including the South Plains Fat Stock show at Lubbock, have been canceled. Mr. Buchanan is one of the directors of the Plainview show, and one of the leading breeders of Guernsey cattle in this section.

He always has a number of his cattle on exhibit at the show, as well as the South Plains Fair, when it was running, and always gets a string of ribbons. He is anxious that as many from Terry, Yoakum and Gaines counties as possible attend, as this section is just now becoming dairy conscious.

However, he stated that such counties as Hale and Swisher has had years the start or us, and that made it the more imperative that people from here attend and see what those counties are doing. His argument is, that if you are taking time to feed and milk a cow, spend it on those that are high producers, and sell or slaughter the strictly eaters.

Yes, we know there is such a thing as gasoline rationing, but most farmers are pretty well supplied with gasoline, and it might be easily said that shows that encourage better dairying are essential to the Food for Freedom effort. Besides, several farmers can if they wish, share the car.

## Several Grandsons In The Service

Mrs. J. T. Verner of near Meadow was in to see us last week to get her Herald and Morning Avalanche paid up another year. She stated that all her sons registered for other war, but none were called. In this one, she has several grandsons already in it.

Mrs. Verner still drives her model T, which skims about like a T should run, and still looks pretty good but odd. The car is now 17 years old, and they have had it 14 years. "I just couldn't drive any other kind of car," Mrs. Verner stated.

## Wants Address Of Her Boys Published

Mrs. W. M. Goldson, was in recently and requested us to print the address of her four sons in the service. Since none are out of the U. S. proper, we can comply, as follows:

Pfc. W. M. Goldston, Bty, B, 229th CA-SL, Bn AA, Camp Hulen, Texas.

Sgt. Carl Goldston, 38060025, Det. LM Corps, 1852 Serv. Unit, Sta. Com., Fort Bliss, Texas

Louis B. Goldston, S. 2/c, RS-PS-KY, Bremerton, Wash.

Sgt. John V. Goldston, QMC Det., Camp Carson, Colo.

## Sailor Derington Wants The Herald

Jack R. Derington, son of Mr. and Mrs. O. L. Derington, is a seaman second class, and is at present stationed at Oahu, T. H. Jack is rearing for the Herald and has asked the folks to send it to him.

Jack in a recent letter stated that he was OK, but was not exactly liking his location. While he may not have so stated, we understand that all the Hawaiian island are blacked out at night, and of course there is no amusement for sailors or soldiers when they can get off.

Will Moore was in this week to get the Herald started to his son, Arlie W., who is training at the Sioux Falls Air base, in South Dakota.

## Incentive Payments Are Announced

Maximum production of food and feed crops will mean thousands of additional dollars to Terry County farmers under the Incentive Payment program.

Designed to obtain greater production of crops vital to war, payments are offered to them in achieving goals despite increased production cost.

Commenting on the program, Mr. Pearce Warren chairman of the Terry County USDA War Board said that most of the money to be realized by Terry County farmers would come from increased production of peanuts, grain sorghum, and soybeans.

Payments on these crops are: Peanuts \$30.; Soybeans \$15.; and grain sorghum \$8 per acre, but are applicable only on the acreage over 90 per cent and up to 110 per cent of the farm goal.

The goals of Terry County are: Peanuts, 10,000 acres; Soybeans, 2,942 acres; and grain Sorghum 160,093 acres. It is the duty of the County and Community committees to assign goals to the individual farms, and it is anticipated that this work can be completed in the next week or ten days. At the last meeting of the County and Community Committees it was agreed that the goals to be planted to peanuts and soybeans would be assigned to those who requested same. A card has been sent out to each producer to secure this information.

It is anticipated that the grain sorghum goals will be assigned to each farm, on a prorata basis, thereby giving each farm the same amount of the goal in proportion to his tilled acreage after the cotton allotment and peanut or soybeans goals, if any, have been deducted.

One Price System on Peanuts  
On January 12, the State Office received from Mr. I. W. Duggan, Director, Southern Division, AAA the following telegram: "Department announced support price of 85 percent of parity for all peanuts. No distinction to be made between quota and excess peanuts."

It is the opinion of the office that this will eliminate peanut allotments and peanut marketing quotas. Present parity price on peanuts is \$151.60 per ton-85 percent of parity is 128.86. Support prices can not be less than \$128.86, but may be more.

## Supt. Hancock Gives Registration Information

In order to help those in the Brownfield Consolidated School District to make their registration for point system rationing cards as easy as possible, Supt. E. E. Hancock gave the Herald this bit of information Wednesday afternoon:

Registration days are Thursday, Friday and Saturday, February 25, 26, 27th.

Those north of the Tahoka-Plains highway through the city, will register at the Jessie Randal school. Those south of that highway will register at the high school building.

Those more convenient to Gomez and Tokio, will register there on the same days and hours.

Hours 9 A. M. to 7 P. M. While we have no information about the Meadow, Wellman and Union districts, we imagine the days and hours will be practically the same.

## WAR BOND PIE SUPPER AT JOHNSON, FEB. 19,

A War Bond and Stamp drive in form of a pie supper will be held, Friday night February 19, at the Johnson School house.

All women and girls are asked to attend the affair and bring pies and the men are requested to come prepared to buy bonds and stamps.

The pier will be auctioned off to highest bidders for Bonds and stamps.

It's an ill wind that blows a saxophone next door.

## Burleson Farms Produce Million Pounds Of Grain

The Herald was let in on a bit of news Monday that is really worth publishing. Had a bit of business over at the courthouse, and met up with R. C. Burleson, who has some big farms in west Terry. "If you have time, Jack, I'll like to show you something."

He led us to what is usually termed the Brick Garage, corner Fourth and Main, and back behind the partition that separates the Fitzgerald Service Station from the garage section, there was stored more than 9000 sack of grain, estimated at nearly a million pounds.

The grain consisted of red and white maize and red kaffir. Mr. Burleson stated that he had been offered and probably would sell the grain for \$1.57 per 100 pounds. You can figure it, but it is a bit more than \$15,000.

Mr. Burleson stated that he was keeping perhaps a car of this grain on the farm and had not finished gathering his huge corn crop. And we know a lot of cotton certificates half knee high, at the bank, one day.

## Don't Cash A Strangers Check

It seems that Chief Roy Moreman, along with other chiefs and police forces in Texas, are getting plenty headaches here of late on account of so many business men will take a chance on cashing the check of a total stranger. With that idea in view, the Secret Service Division of Dallas are trying out "Crime Prevention Through Education."

One of the things they are stressing more than all others is that you "know your endorser." They state that thousands of government checks are stolen and forged each year. According to Roy, there are five things most important to remember:

1. Insist on absolute and positive identification when cashing check for strangers.
2. Require all person presenting checks to endorse them in the merchant's presence.
3. Require all checks to be initialed by the clerk accepting the m.
4. Ask yourself this question: "If this check should be returned can I find the person who presented it to me?"
5. Know Your Endorsers.

## Tom Verner Seriously Hurt

Just recently learned that Tom Verner was seriously hurt some two weeks ago, while getting his car out of the garage. The front bumper end caught his calf against the garage door jamb, and tore it way through his clothing and flesh of the fatty part of his calf.

It seems that Tom was giving his car a start out of the garage, and failed to note that the front wheels were cut somewhat. There is a steep slant at the door, and when the rear wheels reach that, the car gained considerable momentum.

His hailing for help got results, but the car could not be pushed forward on account of the incline. The motor was finally started and low gear taken to move the car forward enough to get the bumper out of his leg.

Tom stated that it did not bleed greatly, and that it was now healing nicely.

## Notice

The Terry County Farm Bureau, with office located in the AAA building, has had a deputy Collector from the Internal Revenue office, this week assisting Mrs. J. M. Telford in making Income-Tax returns. She is ready to give information and help Farm Bureau members in Making and completing their Income-Tax Returns.

Congressman Hatton W. Sumner, of the Dallas district, one of the rough and tumble fighters for what he conceives to be the right, recently addressed the Texas Newspaper Publishers Association. In his address, he informed the newspapermen and others that there were 2,500,000 federal employees, drawing a salary of five billion dollars annually at the present time, which alone, would be a big peace time burden on the taxpayer. This was many times more than ten years ago, he stated, and he took his share of the blame for the big increase, which was still growing, he said, by leaps and bounds. But he handed the newspapers the chestnut to pull out of the fire. In other words, Sumner willed the newspapers the task of putting on a drive to wean a lot of federal

employees from the public teat. It was a big assignment, but very likely the fraternity will take on the task with gusto.

Cash on the barrel head for gasoline and oil suits us. If we can't make the rifle, we'll walk and like it. It may appear hard on some of us gentry that have the habit of hailing up to a filling station with the command to "fill 'er up and charge it," to have to give up our last 72c for gasoline. But at the end of the month, our service men will not come in grinning with a big bill. Won't that be sumpin'.

During the campaign of Hubert Hoover for president, we heard much about two cars in every garage, and two chickens in every pot. You may also remember that

Putting The Blame Where It Belongs

Dear Editor:

May I comment on your remarks as to why many businesses are going out. It seems to me your remarks did not place the blame upon the real cause for this unhappy situation. I believe the blame would be placed more rightfully upon the governments of Japan, Italy and Germany rather than our own. There are a lot of other inconveniences, maladjustments, sacrifices, etc., that we should be blaming our enemies for instead of our leaders.

What could we expect? as a nation, are to be organized and united in a mighty effort to crush our foes? Surely we cannot expect the full power and strength of our nation to be mustered for the cause without regimentation. If soldiers have to give up home life, occupations, businesses, and be regimented to the highest degree, with death penalty hanging over their heads for certain failures of duty. Should any civilian, any business, and corporation expect to escape regimentation altogether? Are any one of these better than the soldiers fighting for them?

If business is becoming such a disagreeable and hazardous, enterprise due to government regulations promped by war necessity, that many business men quit for that reason alone, we must owe much gratitude to those business men who do not quit but courageously endure for the duration and continue to offer their services to our community. We should be thankful they do not all decide war regulations are too disagreeable and close up shops.

Seriously, I may have been a little sarcastic in the preceding paragraph, but only because I feel that blame had been mistakenly and unjustly misplaced. You mentioned that so many families had gone to defense centers. Is not that where too much of the small business man's business has gone too? Really, are these men going out principally because of regulation or principally because too much of local business has gone to defense centers, or elsewhere? I think it more likely to be the latter, if so, would you then say that it is wrong to have defense centers? No, because we can not fight without them. Then the whole matter seems to be an unhappy situation caused by our being in a fight. Let's put the blame where it belongs. On our enemies, and for every inconvenience, sacrifice, or dislocation we suffer, let us resolve to accept regimentation that much more cheerfully and add that much more united fury to our fight.

Respectfully yours, Hardy E. Williams

Mr. Williams states emphatically that all this trouble started with Germany, Italy and Japan, which is in a sense true, if one looks back only a decade. But the real trouble started back much further than that. In the fall of 1920, the pacificistic and isolationist group led by such men as Smoot, Reed, Clark and Lodge, had fully discredited and defeated the efforts of Woodrow Wilson for a League of Nations, and sent him to an early grave. When President Warren G. Harding took the reins of government in 1921, these groups held full sway. They, along with the leaders of England who had scrapped Lloyd George, got a so-called naval agreement with the warlike nations. Perhaps the U. S. and England were really the only nations that were sincere. We know positively that Japan never agree to the 5-5-3 ratio.

Anyway, Uncle Sam and England actually scrapped a number of good warship, and stopped building others. Oh! says this bunch of demagogues, they'll never attach a free nation again. As late as 1937, Mr. Williams, there still remained enough isolationists in the congress to block further fortifying of the

Philippines, and some of them stated openly, "we cannot fortify Guam; that would be an insult to Japan." Much of this scragging took place when Hitler was unknown outside a certain mob that met in beer halls and wine cellars. But these self-contained statesmen (?) in the United States were quietly, selfishly and ignorantly laying the foundation for another world war, and definitely, the Herald lays the present trouble to our "leaders" of that time, and not the present leaders.

And regimentation, if you want to call it that, started ten years ago. A postmaster, county agent and in some counties, a HD agent were the only government employees in towns this size. But now look, they take the entire basement of the Postoffice, some in the courthouse and other places, some seemingly doing almost identical work. Yes, they are your friends and my friends, and as long as such offices exist, we want them in there. But will this regimentation stop there, or will it be increased? Will it tell you just what kind of an education and religious training your child can have, just what you can and cannot plant in your field, just what line of stock the merchant can handle in his store, just what the housewife may cook for dinner, and on and on? Personally this writer lived out here 34 years ago, when we really had open spaces, and a constant boss with a ten thousand dollar fine and a lot of years in jail standing over us is not pleasant. It may just so happen that if a fellow is a bit infused with communism, that sort of stuff might please him. Not us.

And the merchant behind his counter may have a broad grin on his face when you come into his place, but when you leave, he begins to think of ceiling prices, frozen articles, income tax and the social security of his employees. Lately, the victory tax has become another headache. The business man is made a tax-assessor-collector of the government without pay, and he'd better not make a mistake. On top of this and many other worries, the groceryman must now learn the point system, and the shoe man how to take stamps when he sells shoes, and to see that they get no more than three pair per year.

Meanwhile, the home front is taking a beating on all kinds of regulations and questionnaires, often changed radically in a months time, while the boys for \$50 per month at the battle front fight in foxholes and swamps and deserts. Yet we are greeted with the spectacle of high priced union labor striking over this, that and the other, none of which amounts to a hill of beans. As a result, cost of living mounts and remounts, but the farmer is told that his stuff must remain what it was last year.

While you and the band boys and girls donate your time once a month for a Victory Concert, we wish you could see a stack of stuff we get each day from dozen of governmental agencies and dozens of recruiting and other war departments, navy, army, marines, Waves, Waacs and Spars, seeking free publicity. For fear we might overlook something vital, or something concerning some local boy, we spend hours wading through this bulky mail. In a week time, this mail may be as high as your head. Sunday afternoons are often spent at our office wading through stuff instead of lolling around or visiting our wife's kin folks.

After freely giving all the free space we possibly can, we are greeted by the big magazines, metropolitan newspapers and the chain radio program with paid ads and announcements. This kinder burns us up too. Under regimentation, all are not treated on an equal basis. There were sixteen big war contractors who made millions of dollars last year. Who made much more than expenses in the small town?

Oh, yes we must have defense plants but must all them be located on the Pacific coast or the Detroit area? We have folks out on the Pacific coast who are unable to buy butter, and margerine perhaps occasionally; eggs rare as diamonds, and a good juicy steak is almost out of the question. If some of these plants were scattered through the agricultural belt, food would be easier for all to get.

But we Brownfield business men are taking our rationing in our stride. Personally we get all the sugar, coffee, etc., we need and can pay for, and we don't average one pair of shoes a year, much less three. We haven't meant

to be sarcastic, either, Mr. Williams, but a lot of times, we don't know what our neighbor is going through with. We heard that teachers are inclined to have a one tract mind. We doubt this, as we had one member of the family who taught 40 years. But he tried some farming, milking cows at a Memphis, Tenn. dairy as a youth, and he always seemed to have some compassion on other callings than his own.

NOTICE IS HEREBY GIVEN, that on the 6th day of February, A. D. 1943, and order was entered in the 72nd District Court of Lubbock County, Texas, in Cause No. 9598 on the Docket of said court, styled J. Lee Johnson, Jr., et al, vs. Miss Christine DeVitt, et al directing the undersigned to file his final report as Receiver for Mallet Land and Cattle Company, a Corporation, and ordering that the receivership granted in said cause be finally closed on March 15th, 1943.

HEREFORE, you and each of you are hereby notified to file with and present to the undersigned any and all claims which you may have against MALLETT LAND & CATTLE COMPANY, a Corporation, or Sam C. Arnett, as Receiver for said Corporation, at my office in the Citizens National Bank, at Lubbock, Texas, on or before the 1st day March, A. D. 1943, the date specified in said order by which all such claims must be filed.

SAM C. ARNETT, Receiver for Mallet Land and Cattle Company, A Corporation. 29c

CITATION BY PUBLICATION

THE STATE OF TEXAS TO: Zelma McElwee GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 22nd day of March, A. D., 1943, at or before 10 o'clock A. M., before Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said plaintiff's petition was filed on the 9th day of October, 1942.

The file number of said suit being No. 2804.

The names of the parties in said suit are: Felix McElwee as Plaintiff, and Zelma McElwee as Defendant.

The nature of said suit being substantially as follows to wit: Plaintiff sues defendant for divorce, alleging their marriage on November 1, 1932, and their living together as man and wife until on or about September 1, 1934 at which time defendant left him. Plaintiff alleges residence in the State of Texas for more than twelve months and in Terry County for six months next preceding the filing of his petition. As grounds plaintiff alleges that the defendant without provocation or cause, voluntarily left the bed and board of plaintiff with the intention of abandonment, and she has continued to live away from him up to the filing of this petition, though plaintiff has at all times been ready and willing for her to return to him as wife. Defendant's absence from plaintiff has been more than three years. No children were born to their marriage and no community property was accumulated. Plaintiff prays for divorce and such other relief as the court shall deem proper to grant.

THE HOG THAT WILL NEVER GO TO MARKET

You don't see it in this country. Landrace is the breed, a wonderful bacon hog developed in Denmark.

The Danes were just about the very best farmers in the world. They were a thrifty people. Through their farm cooperatives they produced and marketed livestock and farm products of the finest quality.

Successful and happy were these farmers—until one day the Germans came. They took the hog. They took all hogs. They took the butter and the cheese—and the cooperatives too. Like vultures, they picked Denmark to the bone.

Remember this story as you market your livestock, crops and other farm produce. Remember it and put every dollar into U. S. War Bonds—every dollar you can.

Every dollar in Bonds that you can for your country and for yourself. Your Government needs that money now and you yourself are making a sound investment. The Bonds never depreciate in value. You get a third more than the original cost of the Bonds in ten years. You can always cash the Bonds after sixty days if you need the money. Buy now—at your bank or post office.

A lady reader down at Swenson wants to know why she does not get her Herald until mid-week after publication. In the first place, the mail goes half around Texas, getting from here to Swenson. In the second place, all mails are not what they used to be. All of us have to be a bit patient.

In spite of the great size of Texas, and the spare population in large areas, which make highway improvement expensive, Texas has one of the outstanding highway systems of the country.

Between 1900 and 1910 when an appreciable number of Texas became car owners, the first good roads clubs were formed and voting bonds for road construction became frequent.

Issuing bonds locally for highway building in Texas was given its first impetus by an act of a special session of the Legislature permitting subdivision of counties for road improvement purposes.

**COTTON FIGHTS ON EVERY FRONT**

The Quartermaster Corps of the U. S. Army recently stated:

**"COTTON IS SECOND ONLY TO STEEL AS THE MOST VITAL WAR MATERIAL."**

No wonder that the Quartermaster Corps says that—when you consider the hundreds of uses of cotton in the war. In addition to cotton lint's importance, cottonseed supplies four basic products, all helping to supply essential needs of those who fight and work for freedom.

No other crop supplies all these materials, either . . . Cotton linters, for example, come only from cotton and a single bale of linters makes enough powder to fire 100,000 bullets.

That's why it's so important to plant every acre of cotton we can in '43 . . . to fight weeds and insects as hard as we can . . . and finally, to grow every possible pound of cotton to use in helping win this war.

As an industry producing basic war materials, the farmers, ginner and oil millers of the Cotton Belt have a common task and a common goal in '43— **WE'RE GOING TO FIGHT HARDER BY PRODUCING MORE AND BETTER "VITAL WAR MATERIALS".**

**Claims First Scout Troop In Area**

Post, Texas is rightfully claiming the first Boy Scout Troop organized in the south Plains area, which happened back in 1913, at the behest of the late C. W. Post, of Battle Creek, Michigan, for whom the town was named. The troop failed to endure, as it was too far from national headquarters, or other troops.

Marshall Mason was their leader, and he is still active in scout work. Among his six scouts, was Felix Dennis, who later moved to Brownfield, and was an employee of the Herald a year or more. He was a sheep raiser in New Mexico, the last we heard of him.

But with this start at Post, and the interest raised later in scout work, resulted in the securing of 400 acres and ranch headquarters from the Post estate for the Scout Summer camp.

**Wages Up—Prices Down — How?**

The Metropolitan Cooperative Milk Producers' Bargaining Agency lays blame for "shortages and increased rationing" to "the price repression policy of the Federal government and the wage increase policy of the same government."

The Agency adopted resolutions setting forth facts of the nation's food problem, and operatives . . . have pointed out that when farmers are forced to slaughter good dairy animals for lack of adequate price returns, it requires three to four years to make replacements.

"Not only are hired hands leaving the farm, but many farmers are selling livestock and equipment because they cannot carry on under present compensation for their effort."

"Almost every strike is settled by a wage increase," farmers pay all increases, and cost of farm labor increases, when the buying power of the American people is at its allpower of 15 billion dollars."

**PLANS TO CELEBRATE THE CENTENARY OF STATEHOOD**

Coincident with the featuring of the fact that Texas entered a new centennial period in last week's magazine edition of Southern Banking and Industry, comes an announcement that plans are taking shape for observance of the centenary of the admission of Texas into the Union.

The announcement is made by A. Garland Adair, commissioner of the Texas Centennial of Statehood Commission.

The admission of Texas into the Union was completed when the resolution accepting the State's Constitution previously adopted by the Congress of the United States, was signed by President Polk. This was on December 29th, 1845.

But the first Texas Legislature did not meet until February, 1846, and the first Governor was inaugurated on February 16th, 1846. Meantime, the authority of the Government of the Republic of Texas was continued until the State officials assumed office, so the authority of the State Government did not begin until February, 1846.

In view of this a resolution was

**Real Information**

Miss Mazie Martin of El Paso received this letter from a soldier. She showed it to L. A. Wilke who in turn sent it to this column. The letter, which is entitled "An excellent sample of safeguarding military information," may not be new to some of our readers, but it will bring a smile to those who have not seen it before.

Date: Who Cares  
Place: Ditto

Greetings:

"After leaving where we were before we left for here, not knowing we were coming here from there, we could not tell if we would arrive here or not. Nevertheless we are now here and not there.

"The weather here is just as it is at this season but, of course, quite unlike the weather where we were before we came here. After leaving by what we came by, we had a good trip.

"The people here are just like they look, but do not look to be like they where we came from. From there to here is just as far as it is from here to there.

"The way we came here is just like everyone comes from there to here. Of course we had to bring everything we had with us, for we wear what we would wear here which is not like what we would wear there. The whole thing is quite a new experience here because it isn't like what it is like where we were before we left for here.

"It is now time, in all probability, to stop this somewhat too newsy letter before I give away too much information as the censor here is likely to be a spy.

"Love,  
"No-Hoo"

**Typographical Errors That Are Funny**

Typographical errors many times are so ridiculous that they are funny though no fun is intended. With news papers printing 500,000,000 words daily in the United States it is easily seen that mistakes are bound to be made.

An example of current errors was one the other day which said: "The conflict was deadful and the enemy was repulsed with great laughter."

Still another one in which a letter left out gave the wrong meaning was this one: "An employee in the service of the government was accused of having stolen a small ox from the mail. The stolen property was found in his vest pocket." The article stolen, of course, was a box.

A linotype operator touched the "t" instead of the "n" and the following resulted: "Following the business session, the club members were entertained by Mrs. Edgeworth's little sot, Richard, at the piano."

Considerable embarrassment resulted when the last letter of the word "sing" did not appear in an announcement reading: "Miss Blank is scheduled to sin, by the waters of Minnetonka. She will be dressed in Indian costume and special lighting will be used for the performance."

Lack of a space caused this writeup to appear this way: Miss Blank will present a program of Christmas music. Mrs. Bobbs will beat the piano."

A most amusing one was a headline when the "a" was left out of "Hungary" and read as follows: "Count Zog to Wed Hungry Countess."

So when we make an error don't judge us too harshly. You might do the same thing if you were in our place.

**Whopping Cough Dangerous to Children**

Austin, Texas, —Inasmuch as the incidence of whooping cough in Texas has shown a steady increase during the past two months, Dr. Geo. W. Cox, State Health Officer, said today, that strenuous efforts should be made to control the spread of this debilitating childhood disease.

"The only source from which whooping cough may be contracted is another case of whooping cough and isolation of cases must be universally practiced to prevent its spread," Dr. Cox stated.

"The infectious agent or germ of whooping cough is transmitted by droplets expelled in coughing, sneezing, or speaking," he declared. "The discharges from the nose and throat are dangerous; the need for early recognition and careful isolation of whooping-cough is obvious."

The first sign of this disease is usually a dry cough which persists night and day and tends to become increasingly severe. The disease is fully developed when vomiting of food and whooping accompany the paroxysm of cough. Dr. Cox stressed the fact that children who have whooping cough not attend school or come in contact with other children until three weeks after the appearance of typical signs of the disease.

"Prevention and control of whooping cough, especially among infants and small children, may be accomplished through use of approved vaccine and convalescent serum." Dr. Cox asserted, "and it is important that such measures be taken to protect them. Neglecting to do so may seriously impair the child's health."

COLLEGE STATION, Feb. — Sewing machines, some 35 to 50 years old, now are sewing for Victory as a result of 17 machine clinics held recently in Hill County by Helen Dulap, county home demonstration agent, through the cooperation of the County Agricultural Victory Council. The clinics were sponsored in communities where home demonstration clubs are not organized.

As a result of the community meetings, more than 100 machines were cleaned and many more have been put in repair as persons trained in the clinics help neighbors get their machines in working order.

**English Journalist Thanks Farm Women**

COLLEGE STATION, Feb. — Food preservation equipment which home demonstration club women of Texas and other states sent to the rural women of Great Britain during the air blitz of England helped keep the war effort of many families going at full speed, Mary Grigs, eminent British journalist said last week during a visit to Texas.

Miss Grigs, who is women's editor of a farm weekly published in London, expressed appreciation of her countrywomen to Mrs. W. G. Kennedy, Hamilton County, president of the Texas Home Demonstration Association. "They want you to know what good use was made of your canning machines and pressure cookers and how they helped us preserve the food we so badly needed," she said.

Rural women of the nation contributed \$3500 for the purchase of 300 canning units loaned from village to village by the English Women's Institutes. Texas led others states of the nation with a \$300 gift contributed by home demonstration club women in 184 Texas counties.

Miss Grigs assured the Texas Association that "your equipment will be used as long as there are women to work in the English countryside." She added that "we feel when the time comes to tackle the problems of peace, we shall—because of this direct and personal contact — be able to work with you and with a deeply satisfactory mutual understanding."

Her message to the farm women of Texas will be broadcast on the Texas Farm and Home Program on Feb. 18 at 6 a. m. Miss Grigs came to this country upon the invitation of the U. S. Department of Agriculture. Her Texas itinerary was arranged by Miss Mildred Horton of the A. and M. College Extension Service.

Kermit Howard came in Tuesday to visit his relatives Mr. and Mrs. Joe Brown. They left Tuesday night for Haskell to visit his mother.

**Citation To Movie Folks For "Dimes" Drive!**

Mrs Ethel Jones motion picture theatre Mgr-owner of this city yesterday was thrilled to receive a beautiful scroll citation in recognition of the fine work done by the theaters during the 1942 infantile paralysis drive and for their pledge to cooperate again in the "March of Dimes" campaign February 18-24. The citation is signed by Nicholas M. Schenck, national motion picture chairman for the movie industry's 1943 drive, in which some 15,000 theatres have enlisted, including Jones movie houses in this city.

The citation also carries a quotation and signature of President Roosevelt: ". . . the health of our boys and girls . . . is one of the front lines of our National Defense. . ."

In 1942, the movie industry turned in \$1,450,000 out of the total \$4,000,000 collected for the National Foundation for Infantile Paralysis. In 1943 it is hoped to exceed that record.

"The motion picture fans of America—a genuine cross-section of the nation—have proven their generosity in many drives," pointed out Ray Christopher, chairman of the March of Dimes drive in this city. "In the USO drive, the movies led all other industries; also the \$2,200,000 raised for Army and Navy Relief set a record; and again in the United Nations Week—and I expect them to make another grand showing in the coming Red Cross drive in April."

**Retail Dry Goods Men Invited To Lubbock**

LUBBOCK, TEX., Feb.—Retail merchants of West Texas and Eastern New Mexico will be able to see a wide variety of clothing, shoes, dress accessories, and other merchandise, at the Spring and Summer exhibit of the Western Wholesale Market in this city March, 6, 7, and 8, according to Newton S. Walton, President of the Market Association.

Already enough applications for exhibit space have been received to fill all available rooms at Hotel Lubbock, headquarters for the market. Many manufacturers and distributors who have never participated in the showing here, have asked for rooms, Walton says. Former exhibitors will be given refusal of rooms they have occupied during former markets—before any new lines are accepted, officials of the organization asserts.

The forthcoming market will be more direct benefit to retailers of this area than those of previous years have been, many merchants think. Many buyers who have heretofore made two to four trips a year to manufacturing and wholesaling centers to inspect various lines and make their purchases are not going to be able to do that this year on account of travel difficulties and other war changes.

Since the exhibitors at the Western Wholesale Market will represent a variety of items, and since practically all of the samples shown here will be goods which the house can guarantee delivery on, it will be a practical and efficient means for the retailers to secure their Spring and Summer stocks with a minimum of trouble, expense and travel.

## Red Cross Sewers Notice

If you have any pajamas or other heavy material items in your home will you please bring them in by Tuesday if possible as we want to make a shipment of the winter garments on that date. There are still some of the dresses made of red woolen material that have been out for several months, won't you please see these are brought in as we have to make a statement of all materials sent in.

We urgently request that on your days to be chairman to, if possible be there at 1:30, as the janitor has other jobs that he has to hold so as to make a living, if you see you can't be there phone someone that works at Red Cross work and ask them to go. This is a courtesy we owe Mr. Bagwell as he took the janitor work cheap and he not only does his work well but he does other jobs for us that no one else would do without extra pay. He has pieced several quilts besides other work not bargained for but unless the people co-operate by being there so he can leave at least at 2 o'clock, we will have to get someone else to do the work, so please help do your part.

## Girls Vacate Dorms For Army Trainees

The Girls Dormitories at Tech college are being vacated in order that army trainees may be housed in them. This makes it quite tough on the girls who are seeking an education. We happened to be up there Sunday, and numbers of them were looking for new locations with few takers. So, many of them will likely go home and finish college after the war.

The fact that there has been a great drop in the number of pupils at this term made it imperative that something be done in order to keep the college faculty busy. The term of 1939-40 showed a registration of some 4200 students. The present semester showed around 2000. About 2200 soldiers will be trained there, and we understand carry some classes while training.

## Baptist Church News

The new hour of meeting 10 o'clock sharp found fourteen less present last Sunday than the week previous.

If all Baptist will get up next Sunday morning and hear a great address at 7:30 A. M. over the Baptist Hour, they will then be able to get ready for the Bible School hour at ten and not be late, and we would like to know just how many will do it?

A large and appreciative audience was present last Sunday evening to hear Dr. W. R. White, the present president of the Texas Baptist Convention of Texas as well as Hardin Simmons University, and those present can well understand why Dr. White has come into such prominence without any solicitation of his own, as he is recognized first of all as a great preacher and also as a great religious statesman.

Among the many things that he said as touching the present world conditions was his statement that "the history of the world will be profoundly affected for the next five hundred years by the outcome of the present conflict, when our own country will not be able to return to their isolation policy, but must give a lift to civilization by lifting up Christ, who alone is the hope of the world, as he proclaimed, "that I, if I be lifted up, will draw all men unto me". We would welcome a more extended visit from Dr. White.

The Pastor and Laymans conference has been in session this week at Plainview with Wayland College having met annually there for more than fifteen years. These conferences bring together leading pastors and laymen who hear discussion, and are a great opportunity indeed for those who attend. We welcome you dear reader to attend the services of this church.

## Methodist News

Lost, strayed or stolen, some two hundred members of the Brownfield Methodist church. Most of them have not been seen inside the church a half dozen times during the past three years.

Some have been out only a few months. Anyone who can get these back into active service of the church will be greatly rewarded. No army can win a victory with half its men never training nor doing any combat duty. Each of you is needed. Come do your part. It will greatly encourage the others.

Next Sunday is laymans day-The Local laymen will have charge of the morning service. That should be a real good service. The young people meet at seven. Preaching at 7:45. Subject Things Better than Gold. Remembers our revival meeting beginning the 28th of July.

Remember our week of dedication Feb. 28th to March 7th. I am sure that each of you want to be more Christian. Come let each of us rededicate our all to God.

H. W. Hanks, Pastor.

Mrs. C. L. Horn of Harlingen and Mrs. H. H. Patterson of San Antonio, came in Saturday to visit their parents. They left Wednesday for home. Mrs. Horn is the former Jackie Holt and Mrs. Patterson the former Carolyn Jages.

Rev. Avery Rogers is engaged in a revival at Amherst, Texas, and has invited layman, Lyman Wren of Snyder, Texas to speak at the Baptist Church here Sunday in his absence.

The tell us that A. M. Brownfield is treading the air, and they almost have to weight him down to keep him on the earth. All because a grandson, Stephen Lynn, weight 7 pounds and 14 ounces was born to Mr. and Mrs. Lad Brownfield at the local hospital, Wednesday morning. This is his first grandson bearing the name, Brownfield.

## Remember tomorrow, Saturday Feb. 20th, is Victory Book Drive tag day.

**Careless Farmers Are Saboteurs**

SCHENECTADY, N. Y.—Farmers who are careless in 1943 will be sabotaging the food production program, J. E. Long, superintendent of safety for the Delaware and Hudson Railroad Company, Albany, N. Y., declared in a general Electric Farm Forum address here.

One-fourth of all occupational accidental deaths happen on farms according to Mr. Long, who was president of the National Safety Council from 1933 to 1935. "Farm families everywhere must realize that its patriotic to prevent accidents — that they are really helping win the war every time they prevent an accident to a man or a machine," Mr. Long pointed out. "Accidents on the farm not only lead to broken homes and loss of production, they also take doctors and nurses away from other serious cases at a time when there is a shortage of doctors and nurses as well as war and farm workers."

"Thus it becomes immediately apparent why we cannot afford 16,500 accidental deaths among farmers and their families, which was the total for 1942." Mr. Long, at present a member of the national executive committee of the National Safety Council, also said that special care should be taken at railroad crossings, where nearly 2000 people were killed last year.

Miss Jane Brownfield has returned to her job with Consolidated Aircraft at Fort Worth. She spent the week end until Wednesday with her father, A. M. Brownfield and other relatives.

**Hybrid Corn Gives Increased Yield**

COLLEGE STATION, Feb. — Hybrid corn, one of the magic developments of plant breeders, is proving its value to Texas farmers. According to E. A. Miller, agronomist for the A. M. College Extension Service, the average increased yield of hybrid varieties developed by the Texas Agricultural Experiment Station is about 20 per cent on an actual weight basis. Miller points out that northern hybrid corn, so far, has not been as satisfactory in this state as the new Texas strains, and some of the former have been very unsatisfactory. But it is noteworthy, he adds, "that the increased yield of Texas hybrid on a percentage basis is just as high in this state as are the adapted varieties grown in the Corn Belt states."

Characteristics of hybrid corn, in addition to greater yield, are (1) stalks and types or ears are very uniform and there are few barren stalks; (2) stalks stand up straighter because the stronger root system prevents blowing over easily; and (3) ears all reach the roasting stage at about the same time.

The seed of Texas hybrid still is rather limited and it now appears that the supply this year will not meet the demand. Miller reminds buyers that hybrid seed will produce maximum yield the first year only. New seed should be obtained yearly.

In terms of bushels and profits, good hybrid will average four bushels more on land which produces 20 bushels of ordinary corn; on 30-bushels land six bushels more, and on 40-bushel land eight bushels more. "Even if the cost of hybrid seed is 75 cents to \$1 an acre more than for home-grown seed of standard varieties, the extra profit on the increased yields will amount to about 100, 200, and 300 per cent respectively on the investment," Miller says. No extra work is involved except harvesting the additional bushels.

**Last Will And Testament Of Adolph Hitler**

Maybe you will get a little amusement from this article. It is drawn in legal form and is entitled the "Last Will and Testament of Adolph Hitler" and here are a few of the items he has bequest:

"To Russia I leave the Russian Winter where my brave Aryan soldiers froze—just when we expected to land deep in the heart of Moscow.

"To France I leave all the beautiful mademoisels in occupied Paris. I was never the one for girls.

"To England I leave the original manuscript of Mein Kampf, which the RAF spoiled. I had written a different finish but their fliers got me in the end.

"To Italy and Japan, the land of the Rising Scum, and vice versa. It's a question of who will be getting the worst of it.

"To Count Ciano, the son-in-law of Mussolini, I leave the Victor Cross for bringing down in one day 41 bombers and 72 fighters—all Italian.

"To Franklin D. Roosevelt I leave my apology for interrupting his fishing, but he got even.

"To Winston Churchill I leave a box of matches. I never yet saw his cigars lit. Besides, who will need matches where I'm going?"

"And to the entire world I just leave, and they will give thanks!"

**Remember tomorrow, Saturday Feb. 20th, is Victory Book Drive tag day.**

Most old timers will remember J. M. Brown who lived in the Meadow section in the early days. This week we had a letter from his son, J. M. Brown, Jr., who lives at Amarillo, enclosing a POMO for \$1.50 for the Herald. He stated that he went to school to our brother at old Meadow, 3 miles east of the present town, in 1918.

Miss Louise Davis of Redlands, Calif., spent the week end here with her aunt, Mrs. A. J. Stricklin. She is entering nurses training school at the Lubbock General Hospital.

Bobby Jones of the Rialto and Ritz theatres, attended the annual Introduction dance of the Lass Cresas Club at the Hilton Hotel ballroom last Friday night. He was the escort of Miss Jo Ann Bailey, of Lubbock.

Miss Lucille Dye, sister of Mrs. Elaine Hughes left, Tuesday for Amarillo to start working there. She has been visiting Mrs. Hughes for the past 3 weeks.

Mrs. Richard Clem of Chicoat, Texas, is here the guest of her sister, Mrs. Leo Holmes,

Mrs. J. R. Watson left last week for Dallas where she will visit her sister, Mrs. Gordon Alexander.

**Duties Of AAA Committee Explained**

The Agricultural Adjustment Agency created by Congress in 1933 as the Agricultural Adjustment Administration and Amended in 1938 is a division of the United States Department of Agriculture. It is the aim of the Agricultural Adjustment Agency at this time to acquaint farmers with the war time food production goals, quotas of the war crops, and the importance of meeting these goals. This work is carried on by a large army of administrative and field officers and county and community committeemen.

The AAA Program in Terry county is administered by county and community farm committees, elected annually by farms and with an officer personnel in the city of Brownfield numbering 11 women in addition to the administrative office for the county. The office is located at 406 W. Main, first door east of the Rialto Theatre, Looe Miller in charge.

The county is divided into 10 communities composed of three community committeemen each and the county has three county committeemen who are as follows: Pearce Warren, Chairman, Meadow; J. L. Lyon, Vice-Chairman, Brownfield, Rt. 3; and G. M. Thomason, Member, Brownfield, Rt. 5. Alternate Committeeman, W. H. Key, Brownfield, Rt. 2.

The Community Committeemen are as follows: Pleasant Valley: Milton Addison, Cecil O'Neal, Loyd Chambliss, T. B. Wood, and C. V. Newsom, all of Brownfield, Rt. 1.

Lahey: W. H. Key, Brownfield, Rt. 2; W. B. White, Brownfield, Rt. 3; Elmer Edwards, Brownfield, Rt. 3 and D. V. Travis, Brownfield, Rt. 2.

Johnson: R. D. Jones, Brownfield, Rt. 2; Hardin Joyce, Brownfield, Rt. 2; C. A. Winn, Brownfield, Rt. 4 and Wood E. Johnson, Brownfield, Rt. 2.

Meadow: J. L. Millsap, Meadow, Rt. 1; A. L. McCoy, Meadow; C. J. Jordan, Ropesville; W. C. Millsap, Meadow, and E. L. Tilger, Meadow.

Challis: L. P. Price, O. K. Tongate, H. Scott Tucker, J. S. Smith, and Paul Gracey, all Brownfield, Texas, Rt. 1.

Wellman: L. R. Riney, Wellman; Sewell Dean, Wellman; George A. Wright, Rt. 1, Seagraves, and C. G. Shewmake, Box 729, Seagraves, Texas.

Union: Asa B. Conner, Hugh H. Harred, George C. Shults, W. A. Pollard, and D. Preston Lewis, all Brownfield, Rt. 5.

Scudday: K. C. Preston, Welch; L. A. Brock, Brownfield Rt. 3; E. S. Suggs, Brownfield, Rt. 5; S. N. Riley, Welch, and E. C. Harvey, Welch.

Needmore: J. W. Bingham, A. C. Stephenson, W. E. Patton, Reece Hester, and Jett M. Green, all Rt. 1, Meadow.

Tokio: W. E. Bond, Brownfield, Rt. 2; Reeves B. Smith, Brownfield, Rt. 2; C. L. Moore, Brownfield, Rt. 4; Audra R. Martin, Brownfield, Rt. 4, and Ray Jones, Tokio.

In Terry County there are 1563 farm being operated under the AAA recommendation as to acreage, war crop, marketing goals, etc.

The Terry County USDA War Board is composed of the heads of the different Agricultural Agencies of the county and are as follows:

Pearce Warren of the AAA county committee, chairman; A. L. Hartzog of the Extension Service as the Terry County Agent; Dennis Q. Lilly, Farm Security Administration; C. E. Hicks, Production Credit Association; Jas. F. Daniel, Rural Electrification Administration; W. S. Patrick, Soil Conservation Service; and Thomas O. Harrell United States Employment service.

Under the direction of the War Board the AAA Committeemen will be working with the farmers in signing up the 1943 Farm Plan Sheet and the 1943 War Production Goal Plan Sheet.

The Farm Transportation Com. selected by the County USDA War Board for the purpose of assisting the farmers in Terry County is securing their Certificates of War Necessity are as follows: Pearce Warren, Meadow, Chairman; K. W. Howell, Brownfield; J. R. Garrison, Rt. 1, Seagraves; Howard Swan, Brownfield; and John Chisholm, Brownfield.

The Farm Machinery Rationing Committee members are as follows: Pearce Warren, Meadow, Chairman; K. W. Howell, Brown-

**Shoe Rationing To Hit Women, Children**

While most men will make out fine on three pair of shoes per year, it will not be so easy on the women and children, especially the later, and there are too many sandburs and grassburs and other stickers here to go "bareflippid." As for the Old He, he does not average one pair, much less three a year. Our greatest wear is the seat of our pants.

But, women's shoes are not so good. In fact they are usually thin soled, and while the uppers may look glamorous, they are not much more lousy than a bathide. Then there is the question of the poorly built shoes for the rough and tumble children. Some of them are not worth carrying home. Whether you are buying for men, women or children, it is best to buy the very best you can get, and be sure to get them from a dealer you can rely upon.

Recently we saw a pair of kid's boots, the soles of which were nothing more or less than pasteboard. Let us add, however, that they were not purchased in Brownfield. About the only way we can see out of this tough spot, is for men to share with the rest of the family on shoes. Heretofore, many men threw their shoes away when they needed half-soling. This will be all out now. In fact this writer wears them as long as possible; the older the better they feel to us. We have them half-soled not once, but sometimes many times, and if kept polished look fairly well.

It may become necessary for the ladies to stand for re-soling, too, and let their shoe repair man put on a bit thicker soles, in order to get maximum wear. In this war time, it is no disgrace to be seen with repaired shoes.

**Hatton Buys Lewis Interest In Firm**

It was reported to us this week that Jas. W. Hatton had bought in interest of his co-partner, Maury Lewis in the Neill Realty Co. Mr. Hatton had been a partner in this firm since his return here from California one and one-half years ago. He will remain in the same location, upstairs in from of Odd Fellow hall, on the north side of the square.

Maury Lewis, who has been a partner with Mr. Hatton since they bought out Judge Neill about a year ago, is going into farming and stock raising quite extensively, having bought and leased some 2000 acres on the east side of the old Green and Lumsden ranch.

He will farm about 1000 acres or more, about 500 of which will be in peanuts, to help Uncle Sam in his protein requirements.

J. R. Garrison, Rt. 1, Seagraves; Tobe Howze, Brownfield; J. S. Smith, Brownfield.

From the Secretary of Agriculture in Washington, Claude Wickard, the AAA steps down to regional divisions, each with several states, thence to state divisions, with B. F. Vance of College Station as Texas Administrative Officer. In the state organization are 13 district committeemen, with 12 districts, the state director of the Extension Service acting as an ex officio member of the committee. Terry County is in District 2, containing 19 West Texas Counties, and V. L. Cade of Lubbock county is the state committeeman from this district.

In the Terry County territory, working also for the AAA are C. T. Wasson District Field man; Noble V. Thomas, Performance supervisor, whose chief duty is of acreage of AAA farms and in connection with the surveying field crop acreage and Gilbert J. Glasgow, Auditor.

# Brother... quit being so human!

★ Remember 1933 — when times were tough?

Maybe you didn't have a job. Maybe you and your wife and kids didn't eat too well — dress too well — have too much fun. Maybe you swore then that if things were ever different, you'd make up for it.

Chances are, today, things *are* different. You've got a job. You're getting good money. And you'd naturally like to have a little fun with it. You'd like to buy some of the "extras" that you and your family never had during the hard times.

It's only human to feel that way. But right now — we've got to *quit* being so human!

Right now, over in England, a bunch of fellows are getting ready to tackle one of the bloodiest jobs ever given an Army. In the Pacific, another bunch is playing hide-and-seek with an enemy that thinks the right treatment for a wounded prisoner is a bayonet through the guts. Others are sweating in Africa — still others are on cold, dreary, fog-bound islands near the Bering Sea.

That's their job.

But it's our job to give them the tools they need to win — by buying War Bonds! And so far, *we aren't doing our full job!*

Right now, there are still people who ought to be buying War Bonds through the Payroll Savings Plan — but aren't.

While plenty of people in the Plan are investing *more* than the 10% Uncle Sam needs, a lot are putting aside *less* than they can.

The fellows who aren't yet in the Plan — or, being in, haven't yet hit their 10% — aren't unpatriotic, or 5th Columnists, or anything like that. They're just *human*. They just haven't realized their Country's bitter, crying need — *now!* They haven't realized that Americans have been licked in battle for lack of planes, ships, tanks and bullets — tools that the money we'd like to spend for fun has got to buy!

So, if you aren't setting aside your 10%, go on in and tell 'em you want to raise your sights. Not to 6%, or 7% or 8% — but at least 10%. If you can put in more than 10% — do it. If you aren't yet in on the Payroll Savings Plan — sign up tomorrow!

### Texas Must Increase Oil Production

Austin, Texas, Feb. — Increased oil production is almost certain during 1943, and Texas, as both a producer and refiner of petroleum, will be called upon for a share of the increase, Elmer H. Johnson, industrial geographer with the University of Texas Bureau of Business Research, predicts.

is a little under four million barrels a day, Johnson pointed out, but a recent report to the Petroleum Industry War Council forecasts for the last part of this year an increase of more than a half-million barrels.

Oil refinery operations already constitute Texas' largest manufacturing industry, Johnson explained, and war demands upon the industry have been steadily growing heavier. In addition to the tremendous expansion in production of high octane gasoline, oil refineries have been asked

to produce such synthetics as toluol for high explosives, butadiene and styrene of synthetic rubber.

"Natural gas is coming to be recognized as a vital product also," Johnson asserted. "Considerable quantities of Texas gas are piped outside the state, even into Mexico. Natural gas as an industrial fuel is bringing plants for the manufacture of heavy chemicals, pulp and paper, and magnesium to Texas."

Railroad payroll last year aggregated almost 2 billion dollars, and was more than twice as great as in 1933, and approximately a billion dollars more than any year between 1932 and 1940. The average railroad employee in service last year received approximately \$400 more in compensation than in 1939 the year in which the present war began in Europe.

### A Good Chance For Day Nursery

Being interested in the article in these columns last week about the need of a day nursery for children of working mothers, Mrs. Ben Lee called Monday, and went over the proposition with us. We suggested that she talk to Judge Lincoln about the matter, not that the county is expected to help finance such a proposition, but to get their help and suggestions. Judge Lincoln stated to the Herald Wed. that he had talked with Mrs. Lee, and he believed with a bit of publicity, such a nursery could be gotten under way, as he has had mothers who wished to work, approach him to know if anyone kept children for working mothers.

Mrs. Lee seems to be a refined lady and has had experience in raising children of her own. She may be contacted by following the highway loop toward Seagraves, the first turn to your right after passing the F. E. Walters residence.
