Had a V-Mail greeting card this week from Cpl. T. B. Moorhead somewhere in the near east. It was a typical scene of the flat-roofed and domed encrusted city of that section by star light. Merry Christmas and Happy New Year, T. B.

Pfc. Marcus B. Brazier writes in from Bryan Field that he has been missing the Herald, and misses the old home town paper very much, he states. Well, here she comes again, young fellow, and a big Merry Christmas and Happy New Year from the force.

Flu Epidemic Now Approaching

An epidemic of flu reported by the U. S. public health department is sweeping down upon us from the east. This condition is the greatest we have experienced since the great epidemic of 1918. While not of the same severity, the death rate has increased about nine per cent due to this condition.

At the first symptoms go to bed, keep warm, eat light foods, drink plenty of fluids, keep the bowels open. If you have fever, stay in bed until the temperature has been normal for one or two days. This is a contagious disease, so isolate yourself, not that it will help you but it might protect your associates, and we must keep the home front working.

Don't try to keep on working, you won't help your own condition. Your continued presence with your continual sneezing, snorting, and coughing is nothing less than criminal and may close down an entire business enterprise.

Paul G. Capps, M. D., director.

Poll Tax Dilemma

(GWN)

Last year, and again a few months ago, a bill was proposed in Congress to eliminate the poll tax as a prerequisite to voting in elections where federal officers, which are only the president, senators and representatives are elected. Several southern senators from the poll tax paying states hollered "Nigger", went into a tail-spin and threatened a filibuster, which if done in a war plant would be a strike. Then a bill was proposed to let all men in military service vote in next year's presidential election, which is seldom done, set up a commission of four men, two republicans and two democrats, and let the chief justice of the supreme court appoint the fifth, to supervise such election among service men. But the politicians, on both sides, (They are not all on one side) knowing each other so well, was afraid to trust it this way, and kept up the debate.

So a few weeks ago, some northern senators proposed to allow service men to vote, but let the election be run by each state, according to its own laws. This suited the state-righters, who joined in its passage. Now these same poll tax paying states are confronted with the problem of disfranchising a great many of their own boys, perhaps all those overseas, from voting because of non-payment of poll tax, they not being here to pay it, and not knowing till too late, they could vote, while their comrades from the northern states, who require no poll tax, will all get a free vote. The states where the large labor votes are, have no poll tax law, while the eight southern, all farming states, require poll tax payments. It now looks like the vote in next year's election, between the laborites, and farmers will be quite interesting. Bungling is not limited to one group.

Editor's note: We don't believe it quite as easy to vote in non-poll tax states as GWN thinks. They at least have to register, and overseas men won't be here to register, either.

Earl Sears Attends Area FFA Meet

CANYON — Earl Sears, of Brownfield, substituted for Billy Joe Snodgrass at a meeting of the officers of Area I of the Texas Future Farmers of America held at West Texas State College last week-end. Officers had business sessions when they made plans for the work of the area and for their spring meeting which they will hold in Canyon in April.

The twelve officials were guests of the college and of the boys of the two Canyon FFA Chapters. They were conducted through the Panhandle Plains Historical Society Museum by Boone McClure, assistant curator.

County Supt. Lee Fulton stated that he had no reports from Meadow at that time, Tuesday afternoon.

Attending Soil Conservation Meet

W. G. McDonald and Jay Barret were in Cisco Tuesday and Wednesday, attending the Annual Soil Conservation meeting. These men represent Terry county in the tri-county district, composed of Terry, Yoakum and Cochran counties. This meeting is usually held in Temple, but on account of hotel facilities, it was moved to Cisco.

Ray Christopher and Bob Bowers were in Amarillo on business Monday.

Col. Franke of LAAF Makes Tour of Ou Scrap Piles

Col. Franke of LAAF, Lubbock, was here Tuesday, on a tour of inspection of the various scrap piles located in the county.

Through the courtesy of E. L. Sturges of the Arizona Chemical Plant, Col. Franke and A. L. Hartzog, local county agent, were taken on a tour of inspection of the plant, which has been restricted to visitors since the beginning of the war. The plant has been one of the biggest donors of scrap in the county, having given thousands of pounds of industrial metal, part of which has already been moved, and Col. Franke promised trucks from the base to move the balance at the plant as well as crews to salvage and move the balance of the county's industrial metals.

Cutting Crew and Bailer to Be Here

Mr. Hartzog stated a cutting crew with bailer will be here soon to bale old car bodies which were donated in the various drives, and which heretofore could not be moved because of their bulkiness. Anyone knowing of the whereabouts of old discarded implements, such as binders, etc., are urged to contact Mr. Hartzog or leave information at his office and the crew will pick it up.

According to Mr. Hartzog, Col. Franke was well pleased with the scrap salvage and the amount gathered in Terry county.

CONVICTION HAD IN FORGERY CASE

In the trial in district court here last Tuesday, the jury returned a verdict of guilty against Roy Dawson, charged with forgery of a deed to a tract of land in the southeast part of Terry county, and assessed a penalty of five years.

MUCH LAND BEING SOLD AT PRESENT

Reports from real estate men, and others, indicate many land deals are being made in real estate, both farms and city property, and at highest prices ever to be known here.

The housing shortage continues to be acute in Brownfield yet, which is causing many deals to be made. The excellent crops of last few years, and the good prices for the products, enhances the value of the farms, causing considerable activity.

C. L. Harris to Make Race For Congress

Under date of December 8th, C. L. Harris, a Lubbock attorney, announced that at the proper time he would make his bid for the office of Congressman from the 19th district, which includes Terry county, and the position now held by George Mahon of Colorado City and Lubbock.

He states that he believes "that it is high time for the people of West Texas to resume some of the fundamentals of Government, and do away with bureaucratic agencies which have sprung up all over the land to bedevil the people."

Mr. Harris made the race for this office in 1940, while a citizen of Spur, and polled more than 17,000 votes in a three man race.

OVER AN INCH OF RAIN LAST WEEK

One and five-hundredths of an inch of rain fell here last Thursday and Friday, with a bit of snow, Friday morning early. This with the 85-100ths of the week before gives us near two inches and a fair season in the past two weeks.

Up to that time we had a bit over 14 inches for the year, making a total for the year up to this time of just about sixteen inches, which is but about two inches shy of average.

Ray Christopher and Bob Bowers were in Amarillo on business Monday.

What Will Sevice Men Think of Our Bond Buying?

ARMY AIR BASE, Abilene, Texas, December 13—Dear Jack: I read with much interest and heart-warming, the item by George W. in your December 10 issue. Indeed the people of our county have received many blessings during the year. On a whole the crops were good and the banks now have more money on deposit than at any time during the history of the county.

With not so much heart-warming, I read a short item by L. Nicholson, revealing the fact that of a bond quota of \$42,800 in November, only \$12,074.25 was sold. This is much less than one-third of the quota and gives the county a big black eye. I also noticed that during the big drive in October, Terry county was one of the very few counties in Texas that did not meet the quota.

Your boys in the service are beginning to wonder why our own people will let their money lay in the bank without interest when they could put it to working for interest and at the same time be doing a whale of a job for the boys who are really making a financial, as well as a physical sacrifice. It reveals the fact that people who are really able to buy bonds in large figures, are either not buying at all or are buying very little.

We do not like to have the other boys in the service point the finger at us and tell us that our people at home are not backing us up. Most of the boys that I know in the service are buying far more than 10 per cent of their meager salary in bonds.

I only hope that the people of Terry county will get together and meet their big deficit and will keep up and ahead in the coming months. Then, and only then, can we point with pride to our home county.

With kindest personal regards, I am,

Very truly yours,
Burton G. Hackney,
2nd Lt. Air Corps

Interesting Terry County Farm Family

In a recent issue of Texas Agriculture, official publication of Texas Farm Bureau, appeared the picture of an interesting Terry county farm family, Mr. and Mrs. R. D. Jones, and their three boys of the Johnson community. A two column picture was shown of the family. Mr. Jones is Vice-President of the Terry County Farm Bureau.

The two older sons are in the service of their country, R. D. Jr., with the Pacific fleet, and Pvt. Aubrey with the army. Jerry is still at home with his parents, producing food and fibre for his brothers and other service men. Mrs. Jones is secretary to the Johnson Farm Bureau, as well as Secretary for the County Council of Home Demonstration Clubs.

Aside from their active support of community interests, the Jones family are fine workers for their church.

WTCC PLANS FOR ANOTHER YEAR

The West Texas Chamber of Commerce, largest and oldest of its type in the nation, is announcing ready for another year—its 26th. The 1944 war-time work program, as drawn up by the officers' committee headed by President M. C. Ulmer of Midland, is in the mails to all directors, executive board members and to chamber of commerce managers in the 132 counties served by the WTCC.

The president's letter of transmittal to directors noted the conciseness and brevity of the organizational setup as compared with previous years. Ulmer said, "The commission work will be carried on this year through the chairman, under the policies enunciated by our convention, together with any other personnel the chairman may choose for given projects. I believe we have a well-defined, progressive and in many ways an original program of work, and I am looking forward to having, with you, another good year for our organization."

The 1944 program stresses war and post-war planning. On that point the officers' committee said, "Another year has arrived bringing problems, incident to war, without parallel in our nation's history, and the end of war and return of peace will confront us with more and even greater problems. It is necessary that intelligent thought be devoted to the solution of these manifold problems and perplexities. Your West Texas Chamber of Commerce, therefore, becomes, as never before, an economic planning agency as well as a development agency."

Commissions

Ten commissions have been created with 31 major jobs to be performed. Three are directly tied into the war and post-war planning phase. These, with their chairmen, are on War and Preservation, C. M. Caldwell, of Abilene; Postwar Economy and Planning, C. W. Meadows, Sr., San Angelo; and War and Postwar Industries, H. G. Parr, Fort Worth. Among its objectives the commission headed by Caldwell will foster chamber of commerce leadership behind community war effort.

Miss Margaret Bell spent the week end in the home of her parents, Mr. and Mrs. W. A. Bell.

The Cotton Maid for 1944 will be named at Memphis, Tenn., Jan 7th, instead of the previously announced date of Jan. 24th, so that the winning young lady may participate in the ceremonies of the Fourth War Loan Drive at Washington, January 18-19th. Deadline for entries have been cut back to December 28th.

Major General Norman T. Kirk, army surgeon general, stated recently that by next June the nation would be in mass production of that life saving drug penicillin, that has meant so much to restoring our wounded fighting men to health. He also stated that by that time there would be plenty of penicillin for the fighting men as well as civilians.

Senator Byrd of Virginia recently stated that the federal government now owned one-fifth of the land in the United States, and that since this land is not taxable, was working a hardship on many states. In fact, all of them. The tendency of late years for government ownership of everything, is not for the best interest of the nation, which has been made great by individual initiative. Yet, many of our modern statesmen like to rear back on their "pasture jints" and quote from Thomas Jefferson, yet stab him in the back like Mussolini did France.

In the next few years, and after this war is over, veteran organizations of World War one and two, are going to pretty well rule this nation, and for one, the Herald has no fear of men who have day by day for months looked up to the Stars and Stripes on the flag pole, or who have fought over land, sea, air, desert, swamp and bleak mountain, to maintain what that flag stands for. The great majority of them want this country to remain just like it was when they were called to the colors, a nation of free enterprise and individual initiative. Some of these men will be middle aged; around 50; others will be around 25, and many of them will be father and son. But we like to think this nation will always be the same to us with such men in charge.

Senator O'Daniell, along with the Texas Railroad Commission, has been working hard to get a better price on crude oil, the only thing that would possibly inspire more wild-cating and the finding of new fields, as the cost of labor and materials has handicapped new production. Few prospectors are willing to take the risk of finding new fields and pools. Senator O'Daniell states that while Texas produces more than 50 per cent of the nation's crude, the government is sharing the freight rate increases with "have not" states, but is doing nothing to help Texas develop new fields. However, Monday, it appeared that congressmen from the oil states are finally getting together for a raise in the price of crude. It will now be interesting to see what the Senate does with the bill.

Johnnie Brown, manager of Ben E. Keith Co., of Dallas, in a recent circular letter to the press explains some of the reason why Texas is not getting its share of apples. In the first place, says Brown, the cost of washing and grading, as well as boxes and boxing has risen, and this along with the fact that there is a crop shortage of 20 percent, and OPA holding down prices, has worked to the hardship of Texas in getting its share of the apples. this the government has allowed a subsidy on apples from Washington and Oregon going to other apple states like Arkansas, New York, Virginia, Illinois and Michigan, and allows none to Texas, a state that produces few apples. This subsidy business is a poor route to follow if it doesn't work alike to all, and if it doesn't, it should be abolished.

With two bat skins attached, we had a brief note from our old-time subscriber, D. W. Weaver of Hanover, Ohio, who states he still wants "the old rag."

Also from the Olton route out of Plainview, comes a letter from the L. B. Duncans with two dollars for the Old Home Town Paper another year.

W. J. Stokes of route four was in to renew this week, and in conversation we find that he has just about the same idea about the German as we. That there is no fine spun difference between Germans as a whole and Nazis—they are either Nazis, or they are military Junkers, which are just as bad.

Terry County HD Council Meets

The Terry County Council met in the district court room December 11, 1943, with the chairman presiding. We had the roll call then the secretary's report was read and approved.

Then we had a report from the year book committee. Mrs. Karl Griffith, also a reporter's report from Mrs. Jewell Bell. Then we discussed getting paper for foundation patterns for club members. It was voted for Mrs. Karl Griffith to get the paper.

Mrs. L. M. Lang put in her resignation as secretary of the council.

Mrs. R. D. Jones was elected by acclamation. Mrs. W. B. Martin resigned as chairman, and Mrs. Karl Griffith was elected by acclamation also. Then we recognized our visitors, Harmony, 10; Johnson, two; Meadow, four; Pleasant Valley, four; Pool, one; Scud-day, eight, Wellman, seven. Scud-day had the biggest per cent of their membership, so they won the prize of a nice secretary book. We talked about entertaining soldier boys from the Lubbock base for Christmas Day. Then the meeting was turned over to Miss Phillips, food specialist from A. ad M. She talked about well-fed people. Most of the boys that were rejected in the first draft were underfed. In order to have a well-fed people we must have a good production program. We shouldn't waste anything. She talked about fresh pork. She named several ways in which ribs may be fixed with pepper relish, also with dressing such as you fix with a hen. The next thing was canned foods. We should vary the way canned foods are prepared. We should learn to use more raw foods. We are getting acquainted with peanuts and dried soy beans. More all the time combine soy beans with ketchup or tomato juice when you bake them. Some substitution for different foods are cereals of all kinds take the place of nuts, even good toasted bread crumbs often serves the purpose.

If you don't want to candy cranberries, you may cut them up raw, which gives the dish a nice color. She demonstrated making salad dressings. First was a peanut butter salad dressing, the following recipe: 4 tbslp. lemon juice or vinegar, add equal amount of peanut butter, 3 tbslp. sugar, 1/2 tsp. salt, cream from 1/3 to 1 cup. 2nd. A tomato juice dressing: 1/2 cup tomato juice, 1/2 cup vinegar, 1 tsp salt, 2 tsp. sugar, onions and melted fat 'f preferred. In combination salads always cut everything in large enough pieces so they won't lose their identity. She made a combination salad of lettuce, carrots, sweet pepper, tomato, and salted peanuts. She added tomato juice dressing which she let us sample and was very delicious. We should make our dishes attractive. Make them taste good and prepare in such a way as to keep all the food value as possible.

Liquidate Debt

Victory is assured in the determination of this church to finish paying out their building as an offering was taken last Sunday for that purpose and a little more than five thousand dollars cash was raised from representatives of about fifty families of the church and there are about two hundred and fifty families represented in the resident membership of something over eight hundred members.

The full amount to be paid Jan. 1st, is \$6,150.00 and undoubtedly those who gave nothing last Sunday will pay the remaining balance needed to free the church from debt which was made for a ten year term but has run about four years.

This building program in full has now cost fifty thousand dollars and we are all grateful that it is almost over as a similar building now could not be built for the same money and besides we have it for present use.

Next Sunday, Rev. T. D. Summerrall, pastor of the Central Baptist church of Pampa, will be present to preach morning and evening by invitation from the pulpit committee and it is hoped that he will at least have a good representation present from the membership of the church and of course all people have a standing invitation to worship with us at any time.

Certainly it should not be necessary for the deacons to see personally those who have not given to pay this debt as they should be glad to help pay the remaining indebtedness without solicitation.

It may be said that a book has been carefully kept of those who have paid money on this church since the campaign to build was started and this record of the names and the amounts paid will be kept that generations to follow may know who were willing to put money into such a worthy cause.

Visitors are always welcome.—D. P. Carter, Reporter.

FLU IS RAGING OVER THE ENTIRE EARTH NOW

A mighty flu epidemic is now raging! Hospitals in many cities throughout the land are crammed to capacity with flu sufferers who neglected a cold—the hospital patients are paying the price with pneumonia. Twenty-five to 40% of the employees of eastern industrial organizations are home sick with the flu. Doctors are working night and day!

Word comes from England that as many as 100 people are dying every week from influenza. Indications are that we are headed into another world-wide flu epidemic. Millions of people, by their failure to eat the right kind of "protective" foods, worry over the war and loved ones and flu weather, all contribute to a picture that is serious. Reliable health sources are now warning of an epidemic similar to 1918, when influenza alone throughout the world took EIGHTEEN MILLION LIVES!

Precautions To Take

Health sources warn that since the flu germ has never been detected, and since the disease is very serious, the best thing to do is to try and prevent catching the disease by taking these precautions:

1. Eat plenty of citrus fruits such as lemons, oranges and grapefruit. Remember too, that Watkins Sparkling Salts will do the very thing for the system that the citrus juices and fruits will do—that is, alkalize the system. It is well known that cold and flu germs do their worst damage in a system on the acid side.
2. Avoid starches and sweets. Try to get a balanced diet, and avoid as much as possible eating starches like potatoes, and sweets like candy. Protect the system with Vitamins! Watkins Vitamin B Complex Tablets are helpful to build resistance, but the ABVG Vitamin Tablets are superior for this purpose. This is because Vitamins A and D are the Vitamins which are particularly recommended by doctors to build resistance against colds.
3. Get plenty of rest. This means you can still put in your full week of work, but get your rest at night and on Sunday.
4. Once you feel cold symptoms striking . . . a general achy feeling where every bone and muscle in the body seems to creak . . . when you feel feverish and your nose begins to drip like a leaky faucet . . . when there is a taste in your mouth, like the morning after Pearl Harbor, then you had better take to bed!

WATKINS PRODUCTS WHICH WILL HELP IN THAT CONDITION ARE:

- Laxative Cold Tablets**
To keep the system open; to reduce fever, and to work on the cold symptoms with the quinine included in the Laxative Cold Tablets. Incidentally, quinine is one of the most difficult things in the world today to buy.
- Nose and Throat Drops; Inhalant**
To help clear up that badly congested nose and to enjoy the blessed relief of free breathing once more. The Nose and Throat Drops are also particularly soothing to the irritated throat.
- Compound Mustard Ointment**
Here is one of the finest medicines in the entire Watkins line. It gives all the benefits of a Mustard Plaster, but does not blister the skin. Draws that soreness and congestion out of the chest.
- Cough Balsam**
Coughing is nature's own mechanism of breaking up the phlegm. It is highly dangerous to stop a cough. Watkins Cough Balsam soothes the inflamed membranes and at the same time loosens up the phlegm—breaks it up. You have to loosen up that cold mucus on your lungs before you recover from the flu.
- Acotin Tablets**
This is the same as a doctor's prescription. It will assist the Cold Tablets in breaking down the fever present with the flu, and you need something like that because the flu going around now is running temperatures as high as 104 and 105 degrees.
- Watkins Red Liniment**
If you will, at the very first sign of that "chilly feeling" which indicates a cold may be coming on, take a dose of Watkins Liniment in warm water in the morning, and repeat that at night, you will be amazed at the way the "ole reliable" liniment works to hold down that cold. Watkins Liniment is a powerful internal antiseptic all by itself.
- Menthol Camphor Ointment**
For that chapped, dry condition around the nose, mouth and face. Generally, you will find considerable relief with Watkins Menthol Camphor Ointment.
- Milk of Magnesia Tablets**
If for any reason you object to the Sparkling Salts, to alkaline your system, then take Watkins Milk of Magnesia Tablets instead.
- Watkins Liquid Antiseptic**
Here's a most efficient gargle, comparable to the best obtainable. Try it on your sore throat, feel its soothing effect.

DRUNK DRIVING INCREASING MENACE

Sheriff department report they apprehended seven persons over last week end, for drunkenness, two of which were charged with driving a car while drunk. They also reported many other cases heretofore.

There is no defense to drunken driving. It is annoying and even dangerous to others, and does not register the driver very high up on the meter of intelligence. Speeding by the sober is not to be bragged on. The president, and high officials, automobile and tire dealers, have repeatedly warned, and requested, us to slow down, save our tires as the shortage is a reality, not a whim, save our cars, save gas, save lives, we already have man-power shortage.

Traffic on the home front has been taking almost as many as the war fronts, and yet there are many, too many, with no regard for the lives and safety of others, hell-bent on a selfish mission, will uselessly burn up needed gas, tires and car, speeding over paved roads at ease, in merriment, while our other boys are walking, crawling, and dragging themselves through the infernos of war, to save this country and bring it real honor and glory. It isn't fair.

What respect are we showing them, and what will they think of us? The crucial test may soon come, in fact likely, when the question will be, "shall our army walk and the civilians ride?" or vice versa.

USE THE DOCTOR'S TIME SPARINGLY

Austin, Texas, December 15—With the tremendous drain on the medical profession in response to the needs of the armed forces, there is a greater necessity now than ever before for maintaining good health and avoiding any risks which might result in needless calls on the services of doctors.

The shortage in medical attention which is now available to the public will be even greater before the end of the coming year, since more and more doctors are being taken into the service and many of those remaining are not in active practice due to advanced age, teaching, or public health activities, or full-time employment in industry. This situation develops a problem for the practicing physicians who will remain at home, the solution of which to some extent will be in the hands of the general public, according to Dr. Geo. W. Cox, state health officer.

"There is no desire to imply that the family physician, now or later, not be summoned except in dire need," Dr. Cox said. "In fact, there is a greater reason than ever before to seek his advice on living habits, to have him give a thorough periodic check-up and to have him treat conditions promptly, which, if disregarded, are apt to cause more serious trouble later on. The only point being emphasized is that one should not attempt thoughtlessly to consume the doctor's valuable time and energy by insisting that he make a home call when an office visit or suggestions over the telephone might suffice.

"While in cities, lack of medical service has not as yet reached an acute state, there are already rural sections feeling the pinch. It follows that everyone, both for his own and his country's sake, should live sensibly to the end that maximum health may be attained, and avoidable home medical service be eliminated.

"In this connection, the following rules, among others, may be suggested: Eat nutritious foods. Obtain sufficient rest at night. Shun debilitating and exhausting habits. Keep the use of stimulents of all kinds within sensible bounds. Exercise daily. Detour worry as much as possible."

Ed Thompson and W. J. Washmon were in Monday on business (?) trying to pick a quarrel with this writer. Get thee behind me satan!

Ted White of Texas Tech spent the week end here with his mother Mrs. Eldora A. White.

Dr. and Mrs. R. B. Parish and children of Hobbs, N. M., visited in the home of Mrs. Parish' mother, Mrs. Ame Flache, over the week end.

Shorty Brown of Lubbock visited his wife and two children in the B. L. McPherson home, last week-end.

Guard Against Holiday Fires

College Station—Fatal fires are almost a daily occurrence in Texas, and the Christmas holidays offer no exception.

For that reason, families should take every precaution against accidents which might turn a happy season into one of sorrow, advises Mrs. Bernice Claytor, specialist in home improvement for the A. and M. College Extension Service. She offers these safety rules to keep in mind:

Never decorate your Christmas tree with lighted candles. You may use strings of electric lights, but select only those sets approved by fire underwriters.

Do not allow cotton, paper, or other inflammable objects on your Christmas tree.

If you put candles in your windows, be sure the curtains are tied well away from the flames.

If you give the children electric toys for Christmas, inspect them to see that the cords and connections are kept in good condition.

Finally, says Mrs. Claytor, mix common sense precautions with your Christmas cheer, and keep the holidays safe.

A check-sheet for locating and eliminating fire hazards around the home in any season is available in leaflet form from county Extension agents or the headquarters office here.

A HEARTENING LETTER FROM GEORGE MAHON

Under the date of December 7th, Hon. George Mahon writes us, enclosing the usual check for the Herald for another year. By getting the newspaper of the district, he states that he more nearly keeps up with what is going on in various parts of his huge district, as well as the joys and sorrows of the people during these tragic days.

He pays a glowing tribute to the press, stating that it was through them that all the drives for the war help were announced, and that the old home county had gone over the top. But he regretted that conditions were such that many of the newspapers of his district had to suspend for the duration.

He did not state at that time whether he would be a candidate for re-election or not, but presumably he will, and will make his announcement at the proper time.

J. C. Meeks of Tokio, who has his Herald paid to Jan. 1946, was accidentally cut off for no reason in the world recently and came in this week to straighten things out. Mr. Meeks is a smooth tempered guy and wasn't a bit ruffled about the matter, stating that we all make 'em—and we do. If all would drop in and investigate before tearing their shirts off, this would be a better place to live.

Mr. W. R. Christopher of Amarillo visited his son, Ray Christopher Sunday.

DR. MOORHEAD HURT FROM A FALL

While trying to turn on a light at his home Wednesday, Dr. J. D. Moorhead, aged physician of Meadow, either slipped or had a stroke and fell on a cedar chest, and was badly injured.

He was brought to the local hospital as soon as possible, but the X-ray revealed no broken bones.

Mr. and Mrs. Roy Herod are going to San Angelo today to visit with Mr. and Mrs. Carl Herod.

Traffic Notice

Inasmuch as the streets of Brownfield, Texas, become congested with the parking of automobiles in the center of the streets and double parking, the City Council has instructed its officers to enforce the ordinance of said City of Brownfield which prohibits the parking of any motor or other vehicle on any part of the streets in said city of Brownfield, except next to the curb, and you are therefore hereby notified that such ordinance will be strictly enforced from this date on.

We trust that it will not be necessary to remind the public of this notice, because our streets have become so congested that it is very dangerous to longer permit the parking of vehicles except next to the curb.

OF course, the ordinance does not prohibit your parking in front of any place of business for five minutes, provided there is not any space next to the curb near said business where you can park, but you must be certain you do not park for longer than 5 minutes to transact your business.

Some of these places are not higher in price than last year, but they are worth the money asked for them. If you pay more elsewhere you lose money and I lose the business.
