Any erroneous reflection upon the character, standing or reputation of any individual, firm or corporation that may appear in these columns, will be gladly corrected if brought to the attention of the publishers.

The Herald had a form letter the past week from one Ralph G. Bray, way down at Texas City. And is he sore at the Democrats and the New Deal in particular. Gosh, he seems to be mad at nearly everybody, and fool Texans with brass collars, he almost consigns to perdition. We are afraid Ralph is going to let his blood pressure get too high during these war times.

**PLAY SQUARE... DO YOUR SHARE**

**HE DID!**  
Display your colors now!  
DO YOU remember that soldier you saw on the bus with his arm in a cast? Do you recall that sailor you saw hobbling down the street on a cane? Have you noticed the list of casualties printed from time to time in this newspaper?  
What you are asked to do, compared to the boys who are really in it, is easy. But your job is mighty important, too. Once again you are asked to BUY AT LEAST ONE EXTRA HUNDRED DOLLAR WAR BOND. A Series E War Savings Bond will cost you only \$75 and you get back at maturity in ten years, \$4 for every \$3 invested; this is the least you can do. Invest more if you possibly can—\$200, \$300, \$400. Remember, it all comes back with interest.  
So play square—do your share. HE DID!

WHAT WOULD a wounded soldier think of you if he could hear you say: "I can't afford to buy an extra War Bond?"  
He might remind you that he couldn't "afford" to go to war! But he went, and now he's making more sacrifices... for you. No wonder he expects you to do something that will help him!  
Especially when all you're asked to do is to buy an extra \$100 War Bond this month. So check over your budget... see if you can't swing at least an extra \$100... or \$200... or \$300... or even \$500 for extra War Bonds. You'll find that you can... and it's no sacrifice, either, for War Bonds are the best investment in the world today!

# Women of America IT'S UP TO YOU!

OUR ENEMIES have boasted that American women are pampered, luxury-loving morons who would be of no help to our fighting men at war. But — they were wrong. American women everywhere are doing a bang-up job—in the service, in industry, in business, on the farm and in the home.

But—bigger incomes are tempting some women to buy luxuries they've wanted, perhaps for years, but which they don't really need now.

Every true American woman prays that the war will end—soon. But you've got to do more to hasten

victory, for 1944 is the year of decision. You've got to do your full duty by our boys at the front by keeping up your regular purchases of War Bonds by buying at least one extra \$100 Bond during this Drive and by saving every cent you can in the world's best investment—War Bonds of the Fourth War Loan.

When the war is over, you'll have a lot more money to buy what you want. Meanwhile, you can exult in the knowledge that you are fighting for your country in the most effective way possible. Women of America—it's up to you!

This sticker in your window means you have bought 4th War Loan securities.

YOUR gallant fighting men are giving all they've got to put over the knockout blow. But you must do your share to back them up.

Your share in this all-out drive means investing in War Bonds until it hurts. The very least you can do

is invest in at least one extra hundred dollar Bond (costs \$75.) . . . and as many more as possible.

THEY COULD AFFORD A LITTLE EXTRA ... CAN'T YOU?

The Fourth War Loan starts today.

Your Government wants you to support this loan by buying at least one extra \$100 Bond.

You may not find it easy to spare an extra \$100. But—

If the men in our armed forces can afford to give their limbs and lives—then certainly you can afford to lend at least \$100 ... or \$200 ... or \$300 ... or even \$500.

Be a good American—buy extra Bonds RIGHT NOW!
