Yep! The Boys Are Getting Our Cigarettes

It has come to us as well as to others, that the cigarettes we have been donating for here, were not reaching the boys—any boys, we presume. The money some of us have been putting in those little square boxes are really reaching the men in the service. We have prima facie evidence of that just recently.

As we understand it here is how it works. Every 5c put in these boxes will buy a package of popular brand cigarettes, as there is no federal or state taxes on cigarettes intended for service men. And then to cap it all when we buy as many as \$500 worth of cigarettes, the company puts in 10 percent of the amount themselves, free of charge.

But here is the evidence from Eddie Ballard EM 1/C, who has just landed in England and the copy is from a letter written his girl friend here, and we understand his brother, Frank, had a similar letter. We quote:

"The Red Cross has passed out a few cartons of Raleigh cigarettes. I received a carton that has the label on them that states they were sent from the William Howard Post No. 269, 621 West Main Street, Brownfield, Texas. I have got to drop them a letter in the next few days and thank them for the good work."—Eddie Ballard, EM 1/C.

Pvt. O. W. (Slim) and Mrs. Schellinger from Fort Bragg, N. C., are visiting with Mrs. Schellinger's parents, Mr. and Mrs. Kyle Graves. He will return to North Carolina Thursday.

Major Kenneth Larce Turner has been transferred from Rapid City, South Dakota, to the Ogden, Utah air base.

Pfc. Bob Brewer, who is stationed in Florida, in the army air corps, visited a few days this week with Bub Smith.

Lt. Kenneth Mayer, who is stationed in California, arrived Monday night to visit with his aunt and uncle, Mr. and Mrs. Lawton Nicholson. Lt. Mayer made his home here before going into the service.

R. M. Hodges, R. M. 3/C, returned to Philadelphia, Pa., last Sunday after spending his furlough here with his parents, Mr. and Mrs. S. A. Hodges of Gomez community. R. M. has four stars, received for action in Sicily, Africa and Salerno.

S 1/C Jesse McClellan is home with a medical discharge. He had been across 10 months; during this time he suffered two attacks of malaria fever, and then developed asthma. He is the son of Mrs. M. V. McClellan.

S/Sgt. Robert Sweatt, who with his parents, Mr. and Mrs. M. C. Sweatt, resided in the Harmony community a few years ago, has been reported missing in action on a raid over Germany, January 7th. He was a gunner on a Liberator bomber. His parents now reside at Lovington, N. M.

Stephen Heartstill was a visitor at the Herald office Tuesday. He is thinking of taking a linotype and general newspaper work course at Texas Tech or Nashville, Tenn.

Dr. R. B. Parish, former resident dentist here, but now of Hobbs, N. M., was visiting here Sunday and Monday.

Four Terryites Promoted to LAAF

The Lubbock Army Air Field recently announced the promotion of four Terry County men. From Brownfield, James B. Armstrong, Happy P. Chapman and Alvin F. Herron were advanced to Private First Class, and from Meadow, Lee R. Nettles is a Private First Class.

LAAF is an advanced pilot training school, a part of the National Army Air Forces Flying Training Command. Located in the flat plains area of West Texas, it was early chosen as an ideal location for the intensive training necessary to equip cadets, who come here from basic training as pilots of the Army's giant Fortresses, Mitchells, Marauders, and the other multimotored ships now spreading destruction on enemy installations in all theaters. The Commanding Officer is Col. Ralph E. Holmes, a command pilot with 17 years experience in the Air Forces.

Shelton Enjoying(?) Two Brands Of Rheumatism

Had an interesting letter this week from J. E. (Ed) Shelton, who, after helping us dig the draw through town, and then half filling it with sand again, traipsed off down to Cisco, where he can hide behind blackjack bushes. Ed says he is not making it any too well as two brands of rheumatism, neuritis and sciatic got on him at one fell swoop.

This was all because he tried to do too much to the place last summer when the "heat was on." But, he consoles, "I am not as young as I used to be."

He also tells us that daughter Bettie is getting married (see the Society Page), and he wants the Herald to go to son, Lt. Jim, now somewhere on the fighting lines and am sorry we can't say where in this great religious paper. But Texas troops have made history since their landing awhile back. Now you can guess, can't you? A fellow by the name of Clark is mixed up in the fracas. Now guess again.

Well, anyway, Ed thinks Lt. Jim is stationary enough now to get at least a few copies of the old home town paper.

FLAGS PRESENTED TO JESSIE G. RANDAL SCHOOL

Flags were presented to the Jessie G. Randal School by Mrs. J. I. Randal Tuesday evening, Jan. 25, in a most impressive ceremony. The Texas flag was carried by Ann Caroline Lingle and the United States flag by Spencer Lingle, great grandchildren of Mrs. Randal. Supt. E. E. Hancock accepted the flags on behalf of the Brownfield School System and in turn charged Mrs. Lee Fulton, principal of the Jessie G. Randal School with pupils, the responsibility of their care. The program was completed by singing "America" and "Star Spangled Banner" and giving Pledge of Allegiance.

Big Bomber Forced Landing Here

A four-motored army bomber from Hobbs, N. M., base was forced to land in a farm two miles north of the local airport last Monday afternoon, when three of the motors ceased working. The pilot said none of the five crew were injured "except their feelings." The monster plane was only slightly damaged, bending propellers, and scattering its tail feathers for about 100 yards, making what is called a belly landing.

The scene was witnessed by Mrs. Loyd Greathouse, whose home was only one-half mile away and several other neighbors. Many townspeople went out to view the bomber.

President's Ball Here Saturday Night

Spencer Kendrick informed us this week that everything was now in shipshape for the big President's Birthday ball here Saturday night. President Roosevelt's birthday really comes the 30th, but at that is Sunday, the balls throughout the land will be put on the 29th instead.

He reports that his committees have worked well, that all the advertising matter has been put out in Terry, Yoakum and Gaines counties, and he is expecting a record breaking crowd, and there has been some real good crowds out in the past performances.

Place: American Legion auditorium, starting at 9:30 p.m., Saturday night, January 29. Admission: \$2.00 for couples or stags, plus federal tax. Half of these funds go to national infantile paralysis organization, and 50 percent remains locally for treatment of local cases.

\$84,000 Raised In First Four Days Of Drive

Mr. L. Nicholson, chairman of the Terry county war loan drive, stated Saturday that a bit over \$84,000 had been raised toward our quota of \$445,000 during the campaign. This included from the beginning of the month up to Friday night, as all of January regular quota goes on the 4th War Loan Drive. Just how busy committeemen and solicitors were at work, we have no way of knowing.

Of this amount, the following amounts were credited to the four school districts:

Brownfield	\$78,645.75
Meadow	3,026.25
Wellman	412.50
Union	1,965.00

It's going to take a lot of hard work to get our quota, but it can be raised if all will work with a will and determination, ever remembering that our hundreds of boys now on the battle front are watching us on the home front, and they are expecting us to do our duty, just as they are doing their duty—and doing it well.

It's going to be rather hard for us stay-at-homes to do a lot of explaining when Terry county boys come marching home and ask us why we let them down, when we had oodles of money in the banks. And if they don't ask some pointed questions, it will be a surprise to us.

One good thing that can be said of people of the Amarillo-Lubbock districts, is that they have cashed less bonds than any other section, and have, as districts so far, gone over their quotas. They have cashed about one and one-half percent of their bonds, whereas the nation as a whole has cashed some six and one-half percent.

It has been suggested by Lal Copeland, leader of the drive in Brownfield, that inasmuch as study and music club ladies have consented to canvass the town, that all lady householders try to figure the amount of bonds they aim to buy and have the money or check ready when he solicitor calls, or at least the designated amount they wish to buy, where and when.

In doing this it will save the ladies from a second call and facilitate the drive.

Paper Packing Papa Is Badly Needed

Uncle Sam needs and is asking for old papers to pack and wrap ammunition, medicine, and a thousand war gadgets to ship to the fighting fronts, and for other uses. I can't help much otherwise, but can do this. Will you please save your old magazines, newspapers and wrapping papers, flatten them out in full size, or half folded size of newspaper, then every week or so tie them up in convenient bundles, with string, wire, or old stocking, and bring them to 4th street, midway between Main and Broadway, kick 'em off in my driveway, and I'll do the rest.

It is but a little, if any trouble to do this, than to carry them to your incinerator. Its a waste to waste. This is a salvage. Inexpensive service to the war effort. No one profits on it. It goes direct to the army. I get nothing out of it. Kindly tie up magazines separately. Some ladies will separate and send them to the boys. More easily handled. Because of so much inconvenience, only magazines, newspapers and wrapping paper flattened out, can be handled.

Save paper, and pass the ammunition.—Geo. W. Neill.

LIONS CLUB GROWING

Who's Who And What's What

By George W. Neill

A private from a Hobbs, New Mexico, army base was picked up here recently for too loudly hawking the effects of that city's wet goods in a dry market, and placed in the county's pill box by our city police force. After a few hours respite he awoke, asking to be shown the way to go home. He looked to be about 19. His lingo was that of a Yank, very likely a long way from home. Was apologetic, not bitter toward army life, nor the officers, who had treated him tolerant and lenient on account of his uniform. Vowed it was the first time in his life he had ever been in jail—and would be the last. "Oh, if my mother knew I had spent a night in jail." What a pity for one wearing the uniform—but wait—he had to go into civilian life to get that way. It was a civilian that sold him the stuff, and took his money—doubtless a black market and at bootleg prices. It was civilian society complaining. Hardly out of his 'teens, a recent recruit. How strong and durable (?) is the moral training and influence of our civil society on the youth—that they fall so quickly!

Perhaps this is only one case in a million. Common and unexcitable. His cell-mate, unacquainted, a 16-year-old boy from Hockley county, yet in school age, civil society enjoying freedom, had stolen three cars in as many days was very recalcitrant. It was recently gossiped that there are bad girls in the WACS. One has to be 20 to join them. They have only been WACing two years. From whose society did these bad girls so recently come? What is society doing to herd youth along the straight and narrow lane of civil and moral virtue. We've had them through their childhood and school days, but the influence of society is greater than that of the parents. Society drafts them from parental control—what does it do with them? Has society no obligations to supply the army with good, morally sound material? Where is our recreation centers, libraries, clean social entertainments—road signs to higher life, or what have you better than they find in random straits? Is our society too class, exclusive, selfish? Are we too busy making money? Maybe we use our kicker too much, and our right hand too little.

What cost per year is our penitentiaries, prison farms, 300 jails and a thousand criminal courts. It is better to prevent, before, than prosecute afterwards. We have long since decided in better to tar ourselves and pave the roads, than be pulled out of mudholes. The government in war brings a manpower shortage, but society can prevent a moral shortage. Gold is not all that glitters, nor has it all the values. Somebody start something.

Amry Salvage Drive Announced For Feb.

The Army will conduct an intensive scrap metal drive in Terry County in February, according to Lt. Col. Fred W. Franke, Quartermaster for the Lubbock Army Air Field and South Plains Air Field. Col. Franke, in outlining plans for the drive, said that emphasis must be placed on securing every bit of scrap metal possible from the farms of every community in the county. He said that the County was being divided according to mail routes in the rural areas, and that each farm family would be notified by letter when to expect Army Mobile Salvage Unit trucks to make a trip around that respective mail route.

In discussing the scrap metal situation, Col. Franke suggested that we be brutally frank about the whole thing. The army needs all we can find. There is an extreme shortage of this precious metal in the steel mills and to overcome the slowing up of our assembly lines, the Army is appealing to each person to help produce an ample supply of vital metals. He says: "Let's put it this way. Mr. Citizen, you've simply got to help. Scrap metal is essential in guns, planes, ships; all the weapons of war. The Army relies upon you, each and every one of you, to do your part in winning this war. Your scrap will make the bullets and the bombs that will rain destruction upon those fiendish nations, Germany and Japan, who aspire to rule the world. Would you want some one to tell you what God you must worship, when you can get up, when you can go to bed? The only way you can prevent that danger from taking place in this country is for you to get behind the Army and the Navy and the Air Corps with your scrap metal, for with it, and enough of it, we can keep on producing more and more until the day must come when we will be the victors.

"Every day more men join the ranks, more men give their lives so that you will be protected. But if you don't give them what they need they can't help you. For Want of a bullet shall a man die? For want of a mask shall a man be gassed to death? In short do you want our men to be lacking in anything?"

Reminds Col. Franke: "We need your support and help. We will work with you to the best of our ability. But you must in turn give us your whole-hearted cooperation by looking for and finding that scrap so badly needed. The Army's on the march and you are asked to march with it. We are taking this means of coming into your homes to appeal to you to help our men lead the Army trucks with more scrap than even you thought you could give. Sort out your scrap and have it ready to donate to the army by placing it near your mail box when your county agent notifies you that the Army trucks are coming your way. Perhaps that old coal stove you can't use anymore may be turned into the very bullet which will save your son's life or the life of a friend. You cannot, you must not leave any stone unturned to make this drive a success. Former salvage laurels mean little if this series of salvage efforts permit our war plants to become idle. Won't you do your part and urge your neighbor to do his, thus we will achieve great things in the American Way. By all means, pile high the scrap for the Army Mobile Salvage Unit trucks that are going to pay you a friendly visit."

C. C. Primm Chosen Outstanding Man

At the quarterly meeting and banquet, held by the Brownfield Junior Chamber of Commerce, Wednesday night, C. C. Primm, local druggist, was chosen by a secret vote of business men of Brownfield, not connected with the Jaycees heretofore taken, as being the most outstanding young man because of his activity and leadership in civic enterprises for the betterment of the home town and citizenship. The award, an emblem similar to the D. S. C., known as the Distinguished Service Award, of the U. S. Junior Chamber of Commerce, was presented with eloquent remarks by Taylor Cole, of Midland, a National Director of the Jaycees. These awards are presented annually to such persons, between the ages of 21 and 36, and need not be members of the Jaycees.

Roy Chapelle, Agriculture teacher from Tech, delivered principal address, mostly on livestock. Frank Baker, past president of Lubbock Jaycees, also attended and spoke.

Jeff Farley, with his wisecracks and jokes, entertained the banqueters, as well as serving as toastmaster.

Main feature of this body is to procure for the year, ending in July, the best speakers obtainable in this state.

RUINS EYE ACCIDENTALLY WITH PAIR OF SCISSORS

One day last week the little six-year old son of Mr. and Mrs. J. F. Dobbs, while playing with a pair of scissors on his teachers desk, stuck the point in his eye, accidentally. He was rushed to Lubbock to Dr. J. T. Hutchinson, eye specialist, who advised it best to remove the eye, and performed the operation.

The little fellow seems to be getting along just fine, as he and mother and grandmother, Mrs. W. F. Banks of near Gomez, visited the Herald office recently.

Mr. and Mrs. Herbert Neill and children of Levelland were weekend guests in the home of his parents, Mr. and Mrs. Geo. W. Neill.

George Snodgrass, former resident, and family are back here now from a year's stay in Oklahoma, where George did contract work on army bases. He will likely resume similar work at Artesia, N. M., but because of extreme housing shortage which he says seems to be everywhere, may leave his family in their own home here. Mrs. Snodgrass is the daughter of the F. E. Walters.

There used to be an old tune, "Moving Day In Dixie," on the phonograph records. Well, for January, there has almost been a record movement on the farms of Terry county. While many have moved to other counties, a lot of people have had us change their papers from one route to another here in Terry county, and not a few from some of the postoffices like Wellman, Tokio, Meadow and Welch, and vice versa. But when we get through changing, it will be over for at least one year—we hope.

WHAT WOULD a wounded soldier think of you if he could hear you say: "I can't afford to buy an extra War Bond?"
He might remind you that he couldn't "afford" to go to war! But he went, and now he's making more sacrifices . . . for you. No wonder he expects you to do something that will help him!

Especially when all you're asked to do is to buy an extra \$100 War Bond this month. So check over your budget . . . see if you can't swing at least an extra \$100 . . . or \$200 . . . or \$300 . . . or even \$500 for extra War Bonds. You'll find that you can . . . and it's no sacrifice, either, for War Bonds are the best investment in the world today!

Canada Fights COUGHS
or Bronchial Irritations Due to Colds
This New Amazing Way

By far the largest selling cough medicine in all Canada is Buckley's CANADIOL Mixture now being made in U.S.A. Compounded from rare Canadian Pine Balsam (by a secret process). Buckley's is entirely different from anything else you ever tried. It's extra fast for Dad—yet gentle and mild for Mother and the little ones. Get a bottle today—take a sip or two then swallow slowly, instantly you feel its powerful effective action spread thru throat, head and bronchial tubes. Coughing, spasm eases. Right away it loosens up thick choking phlegm—opens up clogged bronchial tubes—makes breathing easier. You can get Buckley's at all good drug stores.

FARMERS CO-OP SOCIETY NO. 1

BROWNFIELD, TEXAS

THIS is what we've been working for all along. This is the year to hit and hurt the enemy. This is the time when everything you do counts double. If we all get together and do all we can, we'll be over this hurdle and well on our way to complete and crushing victory.

No question about the men in uniform—they'll go "all out." But can we count on you to back them all the way? Your quota is where you work—you've got to buy your War Bonds and then buy more, until every last loose cent

you have is fighting. Tough? Of course, it's tough—unless it is a sacrifice you're simply not doing your share!

Make the sacrifice now—buy more than the extra \$100 Bond your country counts on you for—winning the war is worth any sacrifice you make. Besides, you aren't giving, you're lending to America! You'll get back every dollar you invest in War Bonds, with interest.

An extra \$100 War Bond now is the minimum for everybody—can't we count on you for more?

This sticker in your window means you have bought 4th War Loan securities.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

HELP SAVE FUEL FOR THE WAR EFFORT

Uncle Sam asks you to check this list to satisfy yourself that you are doing all you can to save vital fuels.

HERE IS HOW YOU CAN HELP

HOUSE HEATING

Shut off rooms not in use. Keep temperature as low as possible. Reduce temperature at night and when away from home. Do not use range oven for heating. Install insulation, weatherstripping, caulking and storm windows if possible. Eliminate garage heating.

WATER HEATING

Repair leaky hot water faucets. Do not leave hot water running while washing or shaving. Do not fill tubs for baths. Set water heater thermostat at minimum (120-140 degrees). Insulate tanks and pipes.

COOKING

Cook whole meals in oven. Cook more one-dish meals. Use low blue flame. Use small amount of water to cook vegetables. Oven peeking wastes gas. Turn gas down when liquids start boiling.

GENERAL

CAYTON SEEKS OFFICE OF DISTRICT ATTORNEY

The Herald had a visit Wednesday from Atty. Karl Cayton, a citizen of Lamesa, who is seeking election as District Attorney of this, the 106th Judicial District, an office now held by Atty. Rollin McCord of Tahoka, until next January.

Mr. Cayton is a pleasant young man with a good personality, and with plenty of experience before the bar to well qualify him for the office he seeks. He was born in Mart, Texas, and came from that place to Lamesa in 1937. He is now holding his third term as county attorney of Dawson county.

He graduated from Baylor University school of Law, at Waco, Texas. He is married and has a family. It is his desire to see as many voters of the district as possible and under the circumstances before the primary.

Above all, he would be glad that you would make a thorough investigation of his private as well as his official life to determine his qualification and fitness for the office he seeks.

MAYOR COX ASKS FOR RE-ELECTION

In announcing as candidate for re-election to the office of Mayor of the City of Brownfield, I wish to say that I have endeavored to live up to every statement that I made when you elected me to this office two years ago.

I told you then that I believed in practicing economy in public affairs as in one's own business. Here are the results: When I took over the office as Mayor of your City there were outstanding in bonds and warrants of indebtedness, \$196,500.00, some of which were bearing interest as high as 6 per cent. There was deposited in the bank \$32,780.18.

During the first 21 months and up to the First of January of this year we have reduced our indebtedness \$73,979.18, have invested \$20,000.00 in war bonds that can be turned into cash at any time, and have on deposit in the bank \$40,451.52. This has been accomplished without raising your light and water rates and your tax rate is only fifty cents per hundred.

If elected, I shall try to continue to save every dollar that I can so that when this war is over and our boys come home and need jobs, we can have ready cash to do some of the improvement that is so badly needed without having to vote a heavy bond on our children.

I still believe that the will of the majority of the citizens should rule and that you should know just how the affairs of your city are carried on. Our books are always subject to your inspection and we are glad for you to look them over at any time.

If you are in favor of your business being handled this way, I will appreciate your vote in the City Election in April.

Jesse D. Cox.

PLEASANT VALLEY HD CLUB MET

The Pleasant Valley Home Demonstration club met in the home of Mrs. W. R. Ganby Friday, January 21.

After reading the minutes of the last meeting, a report of the council was given by Mrs. Riley.

The lesson was on beauty care, so Mrs. Leonard Willis gave Mrs. E. V. Riley an egg facial and Mrs. Lloyd Dawson made Mrs. Riley's face as a demonstration. This is a very economical, effective facial, so if the hen continues to lay, the wrinkles will all disappear from the club women's faces.

The club was glad to have Mrs. Lester George, formerly of Happy community to join.

The club plans to make face cream and hand lotion in February.

There has been four foundation patterns cut for this club, and anyone who wishes one may have it cut.

A lovely refreshment plate was served to seven members and one visitor.

The next meeting will be with Mrs. Greathouse February 4.

Miss Marie Herron of Houston who is attending Canyon Normal in Canyon, spent the weekend with Mr. and Mrs. J. W. Hogue and family.

Dr. and Mrs. R. B. Parrish and children of Hobbs, New Mexico, spent a few days this week with Mrs. Parrish's mother, Mrs. Ame Flache.

It's important that sheep get a thorough worming now.

No ordinary remedy is adequate for this fall worming job. Use PTZ, the phenothiazine remedy of Dr. Hess & Clark that removes six species of worms, including stomach worms and nodular worms.

For this fall treatment, you want to use a worm-expelling dose of Pellets or the new PTZ Powder in a drench. Get PTZ at this store soon!

Puts curl in the tail

Remember these three things about Dr. Hess Hog Special:

1. It supplies vitamin D in a very stable form, and hogs need vitamin D, especially in fall and winter when there is less and less sun.
 2. It supplies minerals. Minerals that are essential for bone and tissue development. For good growth, plenty of framework, and good gains.
 3. It supplies tonics that aid digestion and assimilation of feed. Especially important today when there is a scarcity of protein supplement.
