## Our Thanks Go Out To Grady Warren

This week we received a notice from Aviation Cadet Grady D. Warren that he was moving his address from San Antonio to Brady, Texas. He gave us the old as well as the new address.

Too many just let Uncle Sam's postal clerks do that for them, and we have to pay 2c to get the card out of the postoffice, and there are several each week.

Another thing, the postal clerk is not as anxious as you to get the address right and lots of times the new address they give is so indefinite that we just have to stop the paper till we get a better address from the man in the service, and oft times civilians away from home.

So you see why we want to thank Grady. Malcolm Scales is another boy who attends to his own changes, and he never misses a paper.

## RICHARD TURNBOUGH HOME ON FURLOUGH

Lt. Richard Turnbough is home on a 10-day furlough, visiting his parents. He is the son of Mr. and Mrs. Madison Turnbough of Meadow. He received his wings March 11th at Fort Sumner, N. M.

H. L. Holleman was in this week to get the paper going to his son, Cpl. Ovie, changed to an overseas address in care of the postmaster at New York.

## CPL. JAMES MULLINS HERE ON FURLOUGH

His brother, Carl Mullins, who went into service the eighth of February, has been placed in the Signal Corps and is now located at Kohler, Calif.

## Child Drowned In Tank At Tokio

Bruce L. Faught, the 15-month old child of Mr. and Mrs. Preston L. Faught, was drowned in an earthen tank at their home, Tokio, last Friday. While the parents were busy about their work, the child evidently wandered into the nearby tank. He was rushed to the local hospital, here, but all efforts to revive him failed.

Funeral services were conducted Saturday at the home of the child's uncle, Luther Johnson, by Rev. Lee of the Assembly of God church. Interment followed in the Brownfield cemetery.

## Fire At The Gene Gunn Tire Store

What might have been a serious and costly fire, was stopped early this week by the prompt calling of the fire department. Some one was burning paper near the rear of the Gene Gunn Tire Store, when some of the paper blew into a pile of old discarded tires, near the back.

Fire Chief E. Jones stated that most of the damage was to the back wall, especially the plastering, windows, doors, etc. Luckily there was little damage to machinery and stock.

We are requested to announce that if you plan to be away when the city election is held, April 4th, that you can cast an absentee ballot after March 20th.

## Thinks Some Should Apologize To Terryites

Had two letters this week from Seabee John A. Dumas, and he thinks that some who have been crawling all over Terryites here of late for not meeting bond quotas, should now apologize. John also says that while Terry may have fallen down slightly on some of the War Loans, Terry farmers were raising bumper feed and animal crops which were just as essential to the war effort as money.

He also had some word for the blue and gold star mothers. He states that it is not now a question of too little too late, but that on all fronts where he has been, some under fire, they had all the war equipment they could use.

## Dipping Demonstration At Brock Farm

Beginning at 10 a. m., Wednesday, March 22, an extension service sponsored dipping demonstration, using improved methods of cattle louse control will be held at the L. L. Brock farm, eight miles southeast of Brownfield, just off the Lamesa highway, under the sponsorship of A. L. Hartzog, county agent, and through the courtesy of L. L. Brock.

Those planning to dip during the forenoon are L. L. Brock, 24 head; Alton Sprayberry, 15 head; A. H. Herring 50 head; Lee Shults, 35 head and Wm. Perkins, 20 head.

The neighboring farmers, located close in will dip in the forenoon, and anyone else in the county desiring to dip their cattle are invited to bring them anytime after 12 noon, thereby avoiding congestion in the pens. A very small dipping charge will be made to defray cost of materials. Interested visitors are also invited.

In the event Wednesday is an unfavorable day, the demonstration will be held as scheduled on the following day, according to A. L. Hartzog.

## Judge Neill Tosses Hat In The Ring

Judge Geo. W. Neill announced this week that he would be a candidate for the Democratic nomination as representative of the 119th district. The district embraces the counties of Cochran, Hockley, Lubbock, Crosby, Lynn, Terry, Yoakum, Gaines and Dawson. This is not only a large district in point of area, but perhaps has the largest population of any district in Texas.

Judge Neill has not unannounced any platform to date, but that will be forthcoming. Will state that he has been a citizen of Terry county since its organization; served some twelve years as its second county judge, and later on several years as county attorney. He was registrar of the draft board in world war one.

He has reared a family here, and has age enough on him to make a well rounded legislator. He has always been conservative and economical in the handling of affairs in whatever office he has served.

## Postal Rates To Be Increased March 26

Pursuant to the Revenue Act of February 25, 1944, the Post Office Department announces certain increases in rates to take effect March 26, 1944, acting Postmaster L. A. Greenfield stated Tuesday.

Important to most patrons of the mail service is the increase on letters mailed for local delivery. Since the start of city delivery service in Brownfield, the rate for letters for local delivery has been 2c per ounce. Under the new law the rate will be 3c per ounce whether for city delivery, post office box delivery or rural route delivery.

Minor increases in the rates for all parcel post are provided in the new law, and the rates on money order, registered letters, insured parcels, and COD parcels are increased to a considerable extent.

The minimum fee for money orders had been 6c, while under the new rates the minimum fee is 10c.

The minimum fee for registering a letter has been 15c, while under the new rates the minimum fee will be 20c.

The minimum fee for insuring a parcel has been 5c while under the new law the minimum fee will be 10c.

Another very important increase brought about by the new law is the increase on air mail rates for letters addressed to cities in the United States and Alaska. The rate has been 6c per ounce, whereas beginning March 26th, the rate will be 8c per ounce.

The Air Mail rate for letters addressed to soldiers and sailors overseas is not increased, and remains at 6c per half ounce.

## RED CROSS DRIVE PROGRESSING

Chairman Lincoln and Treasurer Leo Holmes stated that up to Wednesday they had received about \$7,000.00 of the quota of \$9,200.00 for Terry county in the Red Cross drive, and felt sure the full quota would be reached soon. They were elated and very profuse in their thanks to their co-workers and all donors, for contributing to this worthy cause in aid of our sick and wounded on the battle fronts, stating that wherever our boys go, the Red Cross will go with them. It is hoped the quota will be over-subscribed.

## Makes Plea To Continue Diversified Farming

Dennis Q. Lilly made a statement this week that it was a dangerous thing for farmers on account of high prices to abandon the system of diversified farming. He is county supervisor of FSA.

He pointed out that diversified farming meant a well rounded program of small farm enterprises, and the only safe way for the farmer to follow. Raise many crops, not just one, he stated, adding the production of livestock and poultry.

## Trains Crowded But All Have Seats

Trains between Fort Worth and Memphis, going and coming from Tennessee were crowded, but all seemed to have seats that wanted them. There were just a few of the several hundred service men who seemed to have located some squirrel whiskey en route, and took their time in marching through the coaches, for exercise, we guess, and to keep others awake. If you get a berth any place now days, you have to put in two weeks in advance or be a big shof.

And the trains are as long as freights used to be. And they stop and start up with a jerk that will near land you in the aisles, especially on level or upgrade. On returning, we found that all trains back in to the union station at Memphis. That meant when we got off the Southern, we had to walk almost the length of that train, then turn down track No. 7 for a similar walk to where we could get on the Missouri Pacific. With our luggage (very scant) and overcoat, that was some walk for us. If we had not had that "fast walking Tennessee hickory cane," we don't think we would have made it. Ticked pink when we finally came up to a trainman who said that was the Dallas-Fort Worth coach. We were sweating and perspiring all the same time. Too much out of breath to cuss if we had wished.

But you take the inconveniences of present day travel and like it. Right here we are reminded of a right sensible article that old Charley Guy "writ" for his Plainsman Collyum lately, about people wanting to change everything that sounded German. Just outside and a bit east of Memphis is a little burg named Germantown, so named perhaps back before the Uncivil War, when the Southern or the Memphis & Charleston railroad was built. We remarked to an old friend on the train that it was a wonder that the name had not been changed. "It was," he said, "during the other world war, to Foche," we believe he stated. Here in west Texas we had at least two changed at that time. Hermleigh in Scurry county was renamed Liberty, we believe, and another town in Stone-wall county was dubbed Old Glory and so remains to this day. But somehow the people at Hermleigh got ashamed and renamed their town after the war. It was named for a grand old man by the name of Herm, who, as we understand, had three or four sons in the service.

It's all right to get mad at our enemies, but let us remember that it has not been too long when our forefathers all came from some European country or the British or Irish Isles. Are we loyal to those countries we came from, or America? Some folks get the idea that no one except people with English or Irish sounding names are loyal. Bosh, and more bosh.

Just a bit about the folks back there before we sign off: Like Texas folks, there is hardly a family that does not have one or more boys in the service. The writer has several grand-nephews in, and more to follow, and a whole platoon of cousins. Yes, like us, they are war weary, but they are giving their money and sons to see it through. Old Hardeman county has not failed in any kind of drive that we have ever heard of, including Bonds, Red Cross or USO.

One funny thing we heard and then we're through. A cousin, just a bit our senior was asked how his son was getting along at a Memphis veterans hospital. "Oh! all right I guess, but they had him in the guard house Sunday," without changing his tone or batting an eye. It seems that his son and two or three others had a habit of slipping out of the hospital for a brezer down on the avenues after night. A nurse had threatened to turn them in, and for fear of her job, she just did it that night. So, the MP's rounded them up and juggled them.

Others have asked us to continue this tripe since last week. One guy said those old wood fires in the fireplace made him homesick. So we give you a bit more space filler this week.

## Terry County's March Bond Quota Is \$40,300

Nathan Adams of Dallas, as state war bond director, as well as C. S. Sithmos...6 (Metaoinshrdat C. M. Smith, the regional director from Plainview, have written Mr. L. Nicholson, chairman of the Fourth War Loan drive in Terry county, some very complimentary letters anent the putting over the bond drive. This includes committeemen and other workers.

Terry county's quota, as you know, was \$445,000, and the sales of all series amounted to \$525,315.25, which exceeded the quota by \$80,315.25. Mr. Nicholson is especially proud of the showing on the 'E' series.

## Let's Meet Our March Quota

While the big drive is over, Messrs. Adams, Smith, and Nicholson are urging Terry county people to keep up the good work. The March quota for the county is \$40,300, and will not be hard if every man, woman and child will crack down on as many bonds or stamps as possible. The quota is divided as follows:

Brownfield school district, 62 per cent, or \$24,986.

Meadow district, 19.25 per cent, \$7,757.75.

Wellman district, 9.5 per cent, or \$3,828.50.

Union district, 9.25 per cent, or \$3,727.75.

## Jordan Announces Candidacy For Mayor

"I take this method of announcing my candidacy for the office of Mayor of the City of Brownfield, subject to the will and action of the voters at the city election Tuesday, April 4.

"I promise, if elected, to co-operate with your City Council and other city officials, as well as those of the county and state. "Realizing that in trying times such as these there is a crying need for unity, I shall at all times guard your interests jealously. "I shall endeavor at all times to keep Brownfield in step and abreast of the times, a place our city deservingly merits. "I will ever be on the alert to guard the taxpayers' money, but I do not believe in economy to the extent of sacrificing efficiency and progress. "If you see fit to elect me, I shall persistently insist on our city ordinances being enforced or repealed. "I shall conduct the affairs of your city on a just, business-like basis, and believe with the experience I have had I am competent to do so. "I believe in fair and impartial treatment to all with favoritism to none, regardless of social or financial standing. "Owing to conditions beyond my control, it may be impossible for me to see and ask each of you for your vote and influence. But I do want your support and if you go to the polls and elect me to the office in April, I shall do my best to justify your confidence in my ability to serve you. Respectfully, Frank Jordan

Well, how do you like the new ration tokens? At least they make getting the precise number of points you want easier, but are likely just another headache to your grocer.

A wise decision of the bankers and politicians was to let the railroads run their own business during this war. Many of us older heads remember what a mess the government made running the railroads during the other war, and the depreciated condition they were in when handed back to their owners. Let the railroads enjoy a bit of prosperity while they may.

Animals are more prevalent in winter than summer. And while we are on the subject, no dog in the world is so valuable, that if suspected of being bitten by a mad dog, should be killed or safely confined. We may be charged with being a danged heathen for this statement, but we just can't figure that Rome is any more a sacred city than London, Washington or Moscow. In fact the new testaments we have read makes no mention of Jerusalem being a sacred city. That's all man talk. So, if the Pope wants his city spared, let him persuade Hitler to really make it an open city. But he is making all his appeals to the allies.

We have not in the past been a very hearty supporter of State Supt. L. A. If the paternalistic government at Washington succeeds in getting a firmer grip on the states business than they have right now, all of us will be told just when, where and how we can eat, drink and sleep.

Hitler's and Tojo's orders to fight to the last man only causes us to spend a little more ammunition, and just slightly delays their finish.

We have not in the past been a very hearty supporter of State Supt. L. A. Woods, but since his statement that he is opposed to the Federal Government taking over our state school system, we are for him, teeth and toenail. If the paternalistic government at Washington succeeds in getting a firmer grip on the states business than they have right now, all of us will be told just when, where and how we can eat, drink and sleep.

THE OLD JUDGE SAYS...

"Sorry Judge, my shipment of suspenders still hasn't come in. Some articles are mighty scarce these days. I don't get anywhere near as much as I could sell."  
 "With the war going on, Frank, we've got to expect those things. It's true of luxuries just as it is of necessities. Take whiskey, for example. There's a real shortage in that. It's to be expected when you realize there hasn't been a drop of it distilled in this country since way back in October, 1942.

"The only thing distillers have been making during that time is war-alcohol for the Government. So, I wasn't surprised a bit to read how bootlegging and black markets have sprung up around the country as a result of the dwindling supply. Our 13 years of prohibition proved that if folks can't get legal whiskey, they'll get illicit whiskey. Sure hope the shortage doesn't last too long. I'd hate to see this country turned over to the bootleggers again."

Application Made For Free Cotton Classification

"The War Food Administration announced that applications by organized cotton improvement groups for free classification and market news service during 1944 cotton crop year may be filed any time after members have planted their cotton but not later than August 15, 1944. Applications must be filed with Office of Price Distribution, WFA, 1701 Avenue H, Lubbock, Texas.

"Instructions and application blanks may be obtained from county agricultural agents or from the Office of Distribution, WFA, 1701, Avenue H, Lubbock, Texas.

Cotton classed for improvement groups under Smith-Doxey Act in the 1943-44 season is expected to total about 3,400,000 bales or about 30 percent of total ginnings in the United States. Percentage of crop classed this season is larger than for last season but due to smaller crop, the volume is slightly less. Cotton classed for improvement groups under this Act during the 1943-44 season in the Lubbock office is expected to total about 550,000 bales compared to 627,000 bales classed last season."

JOHNSON HD CLUB MET WITH MRS. PATTON

The Johnson HD Club met March 7 with Mrs. T. G. Patton, with the president, Mrs. R. D. Jones, presiding. We had the roll call. Then the secretary's report was read and approved. There were eight members and three visitors present. We didn't have any business, so we turned the program over to Miss Reast, who gave a demonstration on making home made purses, bound button holes and blind stitching. We had a ten minute recreation period and played "gossip" and "This is My Nose." We had lots of fun. We appointed Mrs. Gore as council delegate. Some of the ladies pieced some quilt blocks for our quilt that we are going to sell chances on. After the club meeting we gave Mrs. Marvin West a pink and blue shower. The hostess served delicious cake and cocoa. Meeting adjourned to meet with Mrs. L. V. Alexander on the 3rd Tuesday and there will also be a quilting at Mrs. R. D. Jones Mar. 23rd to quilt the club quilt. Everybody come.—Club Reporter

Cold And Roup Treatment

Colds or roup in the flock often clips the poultryman's profits through a rapid decline in egg production and A. L. Hartzog Co. Agent calls attention of farmer poultry raisers to the fact that the disease has two origins. One is a specific organism and the other is the nutritional upset... But both may be found in a flock at the same time. Birds which have recovered from an attack may be carriers of the organism and can transmit it to other birds, and the Co. Agent says that specialists believe faulty ventilation, absence of green feed and vitamin deficiency in other feeds along with overcrowding, tend to spread colds more rapidly.

No specific treatment has been developed in the nutritional form where Vitamin A as feed... such as green feed, alfalfa, or codliver oil... will give results. Bactirins and vaccines have not proved very beneficial. A good antiseptic such as chlorine products or potassium permanganate in drinking water will help eliminate spread of germs through water.

The following management practices are recommended as helpful where colds prevail in flocks: Remove the worst cases; clean up the poultry house and its surrounding; prevent damp floors; flush the birds with Epsom salts for half a day, using three-quarters of a pound per hundred birds in drinking water; spray birds if desired; check the house for drafts and overcrowding; furnish the flock with green feed, preferably alfalfa, three to five pounds per hundred birds daily, soaking the feed overnight in water. Two table-spoonsful of codliver oil to each gallon of grain daily may be used as an alternative; feed mash once or twice daily.

Finally, keep the flock comfortable and eating regularly.

STOCKING GAME BIRDS

College Station — Restocking game areas with wild turkeys and bobwhite quail involves more planning than merely turning the seed stock loose on suitable land. Turkeys, for example, need even larger areas than deer, says R. E. Callender, game management specialist for the A. and M. College Extension Service. And good management of birds native to an area often gives better results in replenishment than importing quail breeding stock.

Wild turkeys require an area of 20,000 acres or more, because to do well they must not be disturbed, and also because turkeys travel long distances daily. To establish areas of sufficient size, Callender says it often is necessary for owners to block or pool their land and operate the combined holding as a unit.

During the past five years, the Texas, Game, Fish and Oyster Commission through its game restoration program has released more than 2,000 wild turkeys in different parts of the state. But on account of the poor breeding season in 1943, the commission in recent months has greatly reduced the trapping and transporting of birds to new areas.

With quail, poor habitats, and lack of food and cover is more often the limiting factor in repro-

duction than shortage of seed stock, Callender explains. The best seed stock for most areas is the birds already at home on the land. Generally, all they need is improvement of the food and cover conditions, and the best possible protection. On the other hand quail trapped and transported long distances reach their new abode weakened by the trip and sometimes become lost for a time after being released.

Bobwhite quail is widely distributed in Texas. County agricultural agents' reports for 1943 indicate that the species was found in 209 counties, ranging from a scattered few to large numbers.

DELAY, MORE DELAY IN LOAN SHARK CASE

The lawsuit which high-rate lenders brought, seeking to tie up the new Texas injunction law against loan sharks, is "getting nowhere fast," as was pointed out by the Fort Worth Press in a recent editorial, citing district court records:

**BROWN-STALLINGS NUPTIALS**

At the attractive home of her sister, Mrs. Rex Miller and Mr. Miller in Denver City, Texas, on Friday evening at 6:30, March 10th occurred the wedding of Miss Viola Brown and Mr. William H. Stallings of Brownfield, Texas.

The double ring ceremony was read by the Rev. A. L. Taft of the First Baptist Church of Denver City, before a bank of delicate pink carnations and green fern. The bride was attended by Miss Bernice Weldon of Brownfield, as Maid of Honor and Mr. Marvin McNutt, also of Brownfield, served the groom as best man.

The bride, a charming brunette, was lovely in a powder blue suit, with black accessories. For "something old," she wore a lovely old strand of pearls belonging to Mrs. W. H. Dallas, a friend of long standing and "for something borrowed," she wore a dainty gold chain bracelet belonging to Miss Weldon, her Maid of Honor.

Following the ceremony, a wedding supper was served to a few relatives and intimate friends of the couple. On the table, which was beautifully covered with a fine white linen cloth, were gleaming crystal decorations. In the center, resting on a crystal plate, was a large white wedding cake, topped with a miniature bride and groom. At either end of the table were green lighted tapers in crystal holders. The room was profuse with pink carnations and green fern. The place cards were dainty hand painted creations done by Miss Phagley, a friend of the family, and carried out the pink and white scheme prevailing throughout the house.

The bride, well and favorably known in Brownfield, is a teacher in the Brownfield schools. The groom is a highly respected citizen of that city and both have esteem and respect of a wide circle of friends and acquaintances in Brownfield and Denver City, and have their good wishes for a long, happy and successful married life.

Mr. and Mrs. Stallings will make their home at 415 East Cardwell in Brownfield until the end of the school semester, at which time Mr. Stallings will take his bride to his country home, where they will make their permanent home.

**PRESBYTERIAN CHURCH NEWS**

Our Church year ends with the month of March and plans are being made for our annual congregational meeting. This will be held on March 29th and will be in the form of a Church supper, followed by the business session. Reports will be given at this time from all departments.

Much interest is being shown in the work of the Wartime Service Commission of the Presbyterian Church, which this year is raising and spending almost a million and a half dollars to render religious service and help to men and women in the armed forces and to supply similar help to communities that have had rapid growth because of war industries. Our local church has gone over the top by giving 20 per cent more than our quota.

As Easter approaches we should all be much in prayer, not only because Easter is an important time in the work of the Church but because of the crisis which our country is facing. Every member of every Church in Terry County could make no better resolution than that of being in his place on Sunday.

### LOOKING AHEAD

BY GEORGE S. BENSON  
 President, Harding College

**Just Taxes**  
 There was one policeman in the town where my father's family went shopping in my boyhood days. I can still see his silver badge of authority, his white oak club and leather holstered gun. How distinctly I remember my disappointment in this important personage at seeing him one Saturday morning take a generous handful of raw peanuts from a wire basket at the grocer's store-front.  
 He didn't ask the grocer's leave. He didn't even look to see if the grocer was near enough to be thanked. He just took the treat and walked away. To my youthful eyes, it looked very wrong. The strong arm of the law had taken something that did not belong to him! If the grocer protested, he would surely lose the officer's friendship which was worth more than peanuts.  
 A Little Thing  
 What was it, theft, robbery, extortion, bribe-taking? I was not able to classify the offense, neither could I justify it because it was plainly immoral in principle however trivial in nature. Since that time I have acquired more worldly experience but I am still convinced that this is America's national sin: In our prosperity, we Americans have a bad habit of ignoring offenses that are trivial in nature although they may be very wrong in principle.  
 Precisely this is what's wrong with our system of taxation in the United States, especially right now. It is wrong in principle. In the past, nobody cared because tax was "peanuts." Outwardly there seems to be great variety among tax laws in America but in one respect they are much too nearly uniform: Most tax bills are born wearing false faces. Each one seems to have been drawn up to achieve some popular aim but actually its real purpose was something else. The tax laws of this free and prosperous country are full of deception.  
 Look Behind Them  
 Everybody who can multiply understands (or can figure out) that our government can't run without taxing poor people. There are not enough rich ones to pay the cost, even if we taxed away their every penny. Before the present war America's poorest families were paying \$1 of hidden taxes out of \$5 earned; only they didn't know it.  
 Import duty is paid by consumers at home, not by foreign manufacturers. Even the ancient land tax once was pointed at a few, but finally had to be borne by many. Gasoline taxes were popular in 1922 when automobiles were scarce, not in 1942 when everybody had a car. Now look what the income tax, aimed at war profits back in 1920, is bringing home to us all this year—a financial burden and a mathematical headache.  
 A Growing Menace  
 In years gone by, revenue bills did not arouse much popular protest because rates were low. The average easy-going American's annual taxes amounted to so little that he looked upon them as trivial items, but this situation has changed. Taxes are high now. Taxing methods that are wrong in principle (which formerly "made no difference" because they didn't hurt) are beginning to cause pain at unexpected places. Actual motives behind taxes are coming to light. A change is in process; we may as well look facts in the face.  
 With taxes high, and likely to stay high, they must of necessity be fair or cause trouble. As long as "the law" is content with peanuts, nobody squawks if he makes off with six from a small merchant and two from a large one. But when government's fingers reach the cash drawer and begin rumbling with the folding money, "takes" ought to be in proportion to something; something simple that makes sense to everybody. College graduates are having trouble with this year's income tax rules.  
 One Suggestion  
 It is my sincere and studied conviction that most of today's complicated tax mechanism ought to be junked and replaced with an honest sales tax, for one main reason: The fairness of a sales tax is so obvious. Paying a sales tax, everybody knows, is in proportion to the taxpayer's spending. He can lower his taxes by saving money, raise them by foolish spending. Sales taxes have many advantages and here are five of them:  
 1.—Sales taxes are not hidden taxes. They are not drawn up to fool anybody. We can all see how big they are and who pays them. In short, they are out in the open; no false face.  
 2.—Being out in the open, in plain view of every voter, certain features can be abolished when no longer needed. Sales taxes are easiest of all revenue measures to repeal.  
 3.—Sales taxes resist inflation. Inflation is not mysterious. It is nothing but spending power that people have, over and above the available supply of things to buy.  
 4.—Sales taxes indirectly build cash reserves. Whereas an income tax is a draft on savings, a sales tax throws a brake on spending. After this war America will need savings; so will her citizens.  
 5.—A sales tax is the only perfect pay-as-you-go tax ever devised.

#### Arch Fowler Announces For Sheriff

To the People of Terry County:

I have decided to make the race for Sheriff of Terry county, subject to the action of the Democratic primary in July. I respectfully solicit your vote and influence.

I have been a citizen of Terry County for 34 years, and as most of you know me, I am no stranger to you. I believe I know the wishes of the people in regards to the impartial enforcement of the law, and shall abide by their wishes always.

Yours very truly,  
Arch Fowler.

#### Sam Gossett Enters Race For Sheriff

S. H. (Sam) Gossett this week authorizes the Herald to announce his candidacy for the office of County Sheriff, subject to the action of the voters in the July Primary.

Mr. Gossett's statement to the voters follows:

"To the citizens of Terry County: I take this means of announcing my candidacy for the office of Sheriff of Terry County.

"I have been a resident of the county for 14 years and while I have a wide acquaintance throughout the county, this is my first time to ask for public office.

"If elected, I promise to cooperate to the fullest extent with all law enforcement officers and other county and state officials. I promise to devote my entire time, if elected, to serving you to the best of my ability and promise to merit any confidence you may show in me.

"While restrictions on travel make it practically impossible to see every one before the date of the election, I will see as many as I can. In the meantime, I solicit your vote and influence for the office of Sheriff."

Respectfully,  
S. H. (Sam) Gossett.

#### Spareburg School Praises Wellman People

A recent letter addressed to the president of the Wellman School Board, was very complimentary of the way the Wellman folks entertained them during the recent basketball tournament at Wellman. Also for their fine sportsmanship.

This letter, which was signed by all players on both the girls and boys teams, as well as the superintendent and boys coach, the principal and girls coach and president of the school board, stated that it would be a difficult task to find a finer group of players and people in general.

#### ELECTRICIANS NEEDED TO WIRE REA HOMES

Lee Fulton, county superintendent, was in Meadow early this week, and in conversation with one of the leaders of the Lyntegar cooperatives, they informed him that there seemed to be a dearth of electricians to wire the homes following the stringing of the high lines.

As stated in these columns some time ago, wire for several hundred miles has been received, and is now being strung on the poles that were put in place two or three years ago, before the wire was frozen. If you can wire houses, get in touch with some of the REA officials.

## They call me Offensive Ike

MAYBE you can't help it if you smell, brother, but somebody can. All they need to do is use Sosenate on you and you'll be as sweet as they come.

Sosenate is the new, all-round farm disinfectant of Dr. Hess & Clark. It is ideal for all dairy equipment. Does not taint milk. Stable in solution, so that the same solution may be used for days.

Sosenate is approved for official disinfection following the clean-up job where a herd of cattle has had Bang's disease or bovine tuberculosis.

Use Sosenate for sanitizing poultry equipment. For sanitizing hog houses and sheep sheds. It is definitely an all-round disinfectant. You can get it from us, war or no war.

## Another case of absenteeism!

It's just as bad for a cow to be off the milk line as for a war worker to be off the assembly line.

To help guard against tired appetites and clogged systems, add Dr. Hess Stock Tonic to the ration. Its tonics stimulate appetite and aid digestion. It supplies minerals that are essential in heavy milk production. It contains vitamin D in a very stable form, which is extra important when cows don't get sunshine.

Research Farm cows on Stock Tonic produce as much as one pound more milk for every 4 pounds of grain consumed. Get Stock Tonic now!
