

Why Sure, I'm Homesick, But—

Shore Lines (Seabees Magazine), Island X. Somewhere in the Pacific: Sure, I'm homesick, but I am a Seabee serving outside the continental limits of the United States and there's no doubt about it—I'm homesick. Moreover, I have plenty of company whose minds entertain the same trend of thought. If you doubt this statement, just ask the first soldier sailor or marine you meet and make a note of his answer. Keep walking and ask everyone that you pass and record the answers. If less than 100 per cent say they have a desire for a trip home, then the chances are that you've run across a liar somewhere along your route. All the men in service talk home, think home and have a burning desire to get home.

This information, if thought reliable, might cause Japanese and German intelligence to chuckle with satisfaction and delight. Just think what fine propaganda this would be for consumption in their homelands: "Every single, solitary soldier, sailor and marine in the armed forces of the United States of America admits that he is homesick. This shows that Americans do not possess the will to fight." (Signed) Tojo and A. Hitler.

Boy, what a let down these stooges would experience if they were ever let in on the truth—the "after" part of every real American serviceman's thoughts.

Yes, I am homesick and I do want to go home after we have licked the hell out of our enemies. For some inexplicable reason, I believe that I shall enjoy that greatest of pleasures before too very long. I have no desire to leave the party before the main dish is served.

I'm homesick all right, but, by God, I'm not that homesick. Hell, I'm an American.

The above was sent to Mrs. H. L. Sims, from her son Pfc. Billy J. Sims, located somewhere overseas, asking her to hand same to the Herald.

Sgt. Malcolm Home On Furlough

Sgt. Graydon Malcolm has been home for a few days. He is stationed at Camp Sibert, Alabama. Graydon was inducted into the services August 24, 1942, and was sent from Ft Sill to Camp White, Oregon, along with several other Brownfield boys. After staying at Camp White in the field artillery for three months, he was sent to communications school at Ft. Sill, Okla., for three months, graduating from field artillery school. He stayed on in Ft Sill for about six months as school troop.

Commends Her Dead Son's Bravery

Mrs. Della Huckleberry has received the following letter from a buddy of her gallant son, who fell on the battle fields of Europe, recently, making the second gold star in her window. It was written July 29:

Dear Mrs. Huckleberry:—Endeavoring an attempt, such as this, is extremely difficult. Little I could say would be any consolation to your grief. It goes without saying that your son was a fine lad and well liked by all. His absence is greatly felt by all who knew him and associated with him.

In war, men seem to accept similar thoughts and reactions to same. They act in unison and their cycles of meditation are likewise. Significantly, our foremost train of thoughts is one: The preservation of the generations to follow. At war, a man, as a true American, thinks mostly of others than of himself. He becomes a fatalistic martyr. Imprinted ideals are worth living for, fighting for, and unfortunately, dying for.

Willis was a warrior of war. He died gallantly in true support of his convictions. Should I suffer the same fate, I would want my mother to realize that my life aided in the salvation of peace for our beloved home, the United States.

You must be proud. We shall never forget him and always be grateful to have had him as one of us. He and his deeds shall live till eternity.

Sincerely,
F/O Eugene Gurkoff

Cpl. Slim Schellinger, from his camp at Fayetteville, N. C., is at home visiting his wife. Slim called at the Herald office, and we found very soon that army life has put no bitterness in him. Same old smile, same old glad handshake. In fact he fairly oozes optimism.

MEETS SON AND WIFE AT STEPHENVILLE

Mr. and Mrs. G. L. Sullivan received a telegram from Lt. and Mrs. G. L. Sullivan Jr., stating they would be in Stephenville, July 27. Mrs. Sullivan and son Eldon left at once to join them.

While they were there only a few hours, they got to see all the grand-parents, and about 40 uncles, aunts and cousins, many of whom the Lieutenant's wife had never met.

After a big feast enjoyed by all the crowd, the Sullivans left for Brownfield, where Lt. George could enjoy the rest of his short leave at home with his dad.

For the past few weeks, Lt. Sullivan has been in Alexandria, La., training his crew. He is first pilot of a B-17. He reported back at Kearney, Nebr., Aug. 2, for caging, and from there to some unknown destination.

Seaman 2-C Oscar Carter, with the navy at San Diego, is at home on leave, visiting his parents, Mr. and Mrs. Gordon Carter.

Raymond Day Home From South Pacific

Pvt. Raymond H. Day, son of Mr. and Mrs. John Day, of the Tokio community, landed on the west coast late last week, and immediately took train home for the first time in more than two years. He was wounded last year, and remained behind the lines for quite some time.

Like most of our returned service men, Raymond has little to say about the scraps over there, usually turning away inquiries with a slight grin and a few evasive words. He did say however, heat in the south Pacific jungles rious. He also stated that the that his wounds were not too severe did not hurt him as bad as here.

Toward the last of the month he will go from here to Ft. Sam Houston, where he will be assigned, probably training other men the best methods of jungle fighting.

S. Sgt. Curtis Patton Killed in Action

The mother of Staff Sgt. Curtis Patton who was wounded in action on the second day of the invasion of France, has been notified that he died from wounds on June 19th, supposedly in a hospital, as the address of one was given them after he was reported wounded. His father was

S/SGT. CURTIS PATTON killed in a car wreck in 1936. He was married to Miss Olene Holleman of Rt. 3, city, July 17, 1943.

Curtis was born May 9, 1916, in Haskell county, but the family moved to Terry county in 1921. He and mother were farming in the Johnson community, when he enlisted before being drafted in March 1942. He was his mother's only support. He received his training at Camp Barkley, Abilene, being an infantryman of the 90th division.

He was a member of the Church of Christ since his early teens. During training at Abilene, he attended the Southside church there regularly, and the officials had written his mother about his worshipping with them.

He landed overseas in England the first of April, this year, and in France the second day of invasion. Survivors are his wife, and his mother, Mrs. W. T. Patton of west Hill St.; three brothers D. L., Grady and Alvis, and their families, all of this city; two sisters, Mrs. S. B. Johnson, East St. Louis, Ill., and Mrs. A. V. Beauchamp, Fort Worth.

Shows Scenes Where Yanks Smashed Japs

Alfred B. Smith, Arm 2-C, is home on a furlough, visiting his parents, Mr. and Mrs. Lee Smith, on South Sixth, city. This is the first long furlough he has had, although he has been in the navy air corps since Feb. 1942. He was here about a day or two a year ago.

Tuesday, Alfred called at the Herald office, bringing a lot of official pictures made during and after the taking of a number of islands in the Pacific. Some revealed the utter destruction of small villages as well as Jap fortified places, made by land aircrafts. Smith is a radio operator on one of these bombers.

It is quite interesting to hear Alfred talk about his exploits in the navy air corps, but like most all other service men, he tells nothing that might be of aid to the enemy.

JOHNSON CHURCH OF CHRIST MEETING STARTS

National Paper Drive Aug. 20—Sept. 20th

In view of the fact that waste paper for making containers to ship war supplies to the battle fronts is becoming more and more precious, and the local area drives not producing the results aimed at, it has been decided to put on a real big one for one month, August 20 to Sept. 20th.

The press of the nation has been reminded that they, with the help of their people, put over a whale of a job two years ago on the metal scrap drive, when the mills had less than two weeks supply of scrap.

An organization setup is suggested, using Boy Scouts, civic clubs, etc. Inasmuch as we already have a good working organization in the collection of waste paper, the Herald feels that it is useless to go into further organization, unless Mr. Hartzog, the county agent, desires to enlarge his organization. Mr. Neill has also been a big factor in paper collection and we feel sure his services will be retained.

If at any time the Herald can be of service in the way of publicity, the organization may feel free to call on us.

MACHINERY DEALERS MUST SELL ONLY IN HOME COUNTIES

Dealers selling rationed farm machinery under the 1944-45 quota became effective July 1, must sell them in their home county, according to Walter Y. Wells, secretary of the Lubbock county Agricultural Conservation Association.

In the past, Wells said, dealers were permitted to sell rationed machinery in any county in the State. Farmers, therefore, must make application for this machinery in their home county in order to be eligible.

New Grain Elevator Pointing in Sky

Weather permitting, the carpenters will have almost finished their job on the new addition to Goodpasture Grain and Feed Mill elevator this week. That structure is now pointing well into the skies as the work goes on.

This elevator is built right beside the Santa Fe track, making loading on cars an easy matter. A high conveyor from the other was troublesome; was finally blown down during a high wind this spring.

Grady was not in when we called late Monday, P. M., but Mr. Wartes informed us that the new elevator would have a capacity of some seventeen cars of grain. There is a big grain crop in sight, and Grady is getting ready to handle some of it.

Nearly 11 Million In Polio Fund

Spencer (Speck) Kendrick, assistant cashier of the First National Bank, and chairman of the annual Birthday Ball celebration, handed us a report of the last president's ball in the nation that contributed to the Polio fund. The total sum reached far out ahead of any so far, being exactly \$10,973,490.00.

According to the report of the National Chairman, Basil O'Connor, this huge sum will permit of a large expansion of help to the victims of this afflicting disease. Last year, the worst epidemics were in California, Texas and Oklahoma.

This year, the trend of the disease seems to have moved to the Atlantic coast section, with North Carolina seemingly the worst hit. No known medicine or serum has yet been discovered for the disease, but many are working to that end.

Cancer and polio, along with the common flu, seem to be the only diseases that have resisted response to medical science, unless one includes tuberculosis, and that disease is responding to the rest, sunshine and fresh air treatment.

There are, however, aids for the treatment of infantile paralysis, such as the iron lung in extreme chest paralysis, and the Sister Kenny method of steaming hot towels and blankets during the progress of the disease, to head off paralysis.

15 Inches Rainfall Here During Year

Up to and including the half inch shower Saturday afternoon, Terry county has received exact-15 inches of precipitation in the shape of rainfall, plus a 5 inch snowfall in January. The record as kept by the U. S. Weather Bureau local volunteer observer, is as follows:

January	-----	.84
February	-----	.38
March	-----	1.00
April	-----	.75
May	-----	1.13
June	-----	4.40
July	-----	5.52
August	-----	.48

It can be seen that less than 3½ inches of this rainfall, plus the snow, fell the first four months of the year. We usually get most of our rainfall in the growing months when it is most needed.

Terry county has 3191 school-astics, according to Mrs. Lee Fulton, who was holding down the County Superintendent's office, "while she had Lee at work," (end of quote.) Divided among the schools, we find the following:

Terry County Melons In Great Demand

While the earliest of the watermelons crop is beginning to come to town, many buyers are already in evidence. Moury Lewis had a call this week from Corpus Christi, for two car loads at once. He hopes to load them out by mid-week next. It is said that melons of south Texas were ruined by the recent hot sun spell. Terry County melons, being a month late, always hit a ready market after other sections exhausted, their flavor and size is well known over the State. It is estimated the county has over 500 acres in melons this year, ranging in small patches of 20 to 40 acres, up to several 100 acre ones.

Rodeo Last Week Well Attended

After staging a typical cowboy parade through the business section of town Saturday noon, lead to the County Park, the annual Rodeo, opened at 2 p. m. Many participants from several other counties and States were in attendance, where before a large crowd Saturday evening and Sunday, they exhibited the art and skill in calf roping, bareback horse riding, bronco busting, wild cow milking and horse racing, the later continuing several days.

Prize winners were: Calf roping, 1st, Toots Mansfield, of Big Spring World Champion, roped one calf in 12.8 seconds, and one in 14 secs. Don Taylor, of Doole, Texas, won second, by roping one in 12 seconds, another in 17.4 seconds. Troy Fort of Lovington, was 3rd, in 13.3, and 17.2 seconds.

Wild cow milking, Sonny Edwards, of Odessa took first, in 14 minutes and 14 seconds, each, on two cows. V. K. Orr of Vinson, Okla., was second in 16 and 12.4 seconds. Troy Fort was 3rd, in 14 and 15.2 seconds.

17 YEAR OLD NAVY QUOTA INCREASED

Enlistment quota for 17 year old Navy volunteers has been greatly increased for the month of August, according to Chief Specialist H. A. Lambert, USNR, newly appointed Recruiter-in-Charge, Navy Recruiting Station, Post Office Bldg., Lubbock, Ttx.

Chief Lambert, on his regular Thursday visit here at the Post Office, stated that all 17 year old boys who wish to serve their country in the Navy rather than wait to be drafted into the Army upon reaching their 18th birthday, should make application now while there is a place for them. During the month of July many boys from this area made application but were turned down because of the small quota effective at that time. They should again contact the Navy Recruiter and re-submit their applications and complete their papers while they still have the right to choose the branch of the armed forces they wish to serve in.

DIG UP AND TURN IN RATION TOKENS

Hoarding of ration tokens has brought about a serious shortage of tokens in this District, the Ration Banking Section of the District Office of Price Administration has reported.

An appeal is made to all housewives to use all "loose change" in tokens before using other stamps from ration banks, thus keeping tokens in circulation. Hoarding of tokens makes it necessary to manufacture more and more tokens. In addition to this needless expense, it ties up equipment and machinery needed for manufacturing other items.

All ration stamps, both for processed foods and meats, are valid indefinitely — hoarding don't help anyone. Keep your ration tokens circulating.

The doctors intend to face the issue thus raised, is apparent from the following comment in the Journal of the American Medical Association: "The scope and the accuracy of this survey cannot be questioned. The results are a challenge to medical leadership. Only through enlightened medical leadership can medical science and medical science continue to evolve in the United States beyond the high point that they have now attained."

The problem facing leaders in the medical profession, the insurance industry, labor and business is primarily one in education—educating the people to take full advantage of existing means of easy payment of insurance against unusual or prolonged illness. As the National Physicians Committee for the extension of medical service points out: "This is the task of every individual—every group—every business and every industry interested in preserving for the United States the private enterprise system."

Some Pretty Crops In Northwest Terry

The Old He, wife and grandson, were noon meal guests of the Ed Thompson family Sunday, out in the Harmony community, where a real old fashioned farm dinner was spread soon after the noon hour, and despite the heat, the crowd did full justice to the repast.

After talking about all our neighbors that we could think of after lunch, and the old He had a nice little snooze on a bed between windows, where some air was stirring, we decided to look at the crops, tires and gas bedamed.

So, we did most of the north and west Harmony and Needmore sections, as well as a bit of the Pool neighborhood, stopping at the Pool store to refresh ourselves on Crown Cola, all the drinking whiskey they had in stock at that time.

After the howling rain and the corn and other feeds were straightening up, as it had taken a bow toward the south. Well, we while they had some very fine crops last year, we believe they are still better this year.

Cotton is far in advance of

what it was at this time last year, and fruiting nicely. The maize and other feed stuff is sure making fast, and while the earlier feed is very fine, we believe the late feed will even be better.

We even found lots of roasting ears, but there was always someone too doggone close to risk getting out after them. While most people in this section have so much corn, they don't care if a friend gets a mess out of the patch, there are a few exceptions, and one never knows who he am.

We also found some mellons—ripe ones at that. Thompson's being fairly close neighbors to the Brookes, and he a reader of the Herald, we got three mellons free of charge. We tried one on arrival back at the Thompson farm, and they were fine. Most of the people of the Harmony section will have plenty of mellons before long. Mr. Brookey planted his early and got them off to a good start of neighbors.

WANTS TEXAS STEAK

Boy! a good old Texas steak off a white faced steer would really do good," Capt. O. E. Blanton, now in China, wrote his friend, Mart Eberling, of Dallas, Hereford breeder.

"Chinese cows are cleaner than those of India," Blanton said, "and they don't let them live until they fall over and die. In fact, we had one in the mess that was killed two days before death would have overtaken him."—The Texas Hereford.

TO WHOM IT MAY CONCERN:

I am writing this short letter, And every word is true, Don't beak away draft dodger, For this is addressed to you.

Back in the old home town, You cooked up some good story, So the draft board turned you down.

You never think of real men, Who are living day by day, You just think of girl friends You'll get while we are away.

You sit home and read the papers, You jump and yell, "we'll win," Where do you get that 'we stuff'? This war will be won by men.

Just what do you think, draft dodger, That this free nation would do, If all of us were dodgers, And afraid to fight, like you?

That's all I'm saying, Slackers, Let's hope your face is red, Our land is no place for your kind, I mean just what I said.

That's all I have, draft dodger, Remember what I say, Stay away from my girl, bum, I'm coming home some day. —sent in by E. P. Smith Jr., who is stationed somewhere in England.

WEST TEXAS PRODUCING WHEAT AND SORGHUMS

the Santa Fe railroad. With a production this year that will probably run over 70 million bushels of wheat, Texas, is setting a record of that grain. More than two-thirds of that amount will be credited to west Texas, particularly the south Plains and the Panhandle.

And what promises to be the largest grain sorghum acreage as well as yield, is in prospect. In fact, this section of the south Plains is promising one or the largest yields of this vital grain on record, according to a report by the agricultural department of the Santa Fe railroad.

A BIG TAX HIKE IN TEXAS SINCE 1924

Mid-Continent Oil and Gas Co., has been delving into the State tax rolls of late, just to see what has taken place in the last several years of tax money spending. That year, taxes were \$10.80 per capita, and reached their peak of \$32.07, more than 300 percent increase by 1942.

There has, however, been a slight drop since 1942, the past administration being a bit more economical with the people's money, and they dropped to \$28.31 in 1943. In dollars, \$50,919,819 in 1924, and \$205,741,882 in 1942.

THE OLD JUDGE SAYS...

"Good morning, Doc. Your good wife tells me you're working night and day now that so many of the younger doctors are in the army." "That's right, Judge, and I'm glad I'm still able to do it. Had a long letter from Harry... that bright young fellow I was breakin' in to take over my practice. He said the boys in the service are getting the best medical care of any armed force in our history. They really should with all those brilliant doctors and plenty of supplies to work with." "Speaking of supplies, Doc, not many

people realize that a large part of the alcohol you're required to make the medical supplies that are being used right this minute to alleviate pain, combat infection and save human lives, is produced by the beverage distilling industry. For nearly two years this entire industry has been working night and day producing nothing but alcohol for the government's program." "Nobody knows better than I, Judge, what an important contribution to our war effort that has been."

HOME TOWN—

(By EDIE)

ed this week because of the death of Curtis Patton. We had heard his mother received word he had been seriously wounded in action, when we drove by the two Phillips 66 stations, Monday morning and noticed a wreath hanging on the closed doors, we knew the dreaded news had arrived. D. L. Patton, who operates the stations is a brother of Curtis.

Our local Lions Club members have hearts of gold, and proved it when they opened up the 'Ol' Swimmin' pool to the youngsters again and provided a new bath house. By the way—not only the youngsters but some of we older ones are enjoying it and more should.

"Pipe the new blinds on Noel Tailors windows". Arent they nice. We understand a cool-air system has been provided also. Troy and Bessie deserve the best, They've both workd hard for it!

We know our readers will miss the friendly voice and pleasant smile of Coleen Hord, our society editor, for so many months, but she wants to rest a bit and regain her shattered nerves. Orchids to her for having stood up so well, so long—knowing since the fall of Bataan, her beloved brother, was being held a prisoner by the Japs.

Our Roping Club put on a swell show last Saturday afternoon and I understand it was equally as good Saturday night and Sunday afternoon. The true "Old West" spirit is still pretty strong here in Terry county, and with a little encouragement from each and everyone of us, it might grow in to something strong and beautiful and nation-wide. There's plenty of wealth in here in Terry and plenty of folks with good neighborly ideas—why can't we make this the "fun center" of the Plains.

Mr. Parker left last week for Tacoma, Wash., for a visit with his son, Marvin. He will visit another son, Norman, in Los Angeles, before returning home.

Our apologies go out to little Miss Terry Sue Redford. We spelled her name Terry—after all a gal wants her name to be rightly spelled, especially in the first edition she has ever known. At any rate, she is a very beautiful baby, and we know just how proud Imogene and Terry—her parents, are of her.

Speaking of linotypeist, we're fresh out, this week. If the Senior Mr. and Mrs. hadn't picked up the technique awhile back, the Mrs. having even done so since her son, the Junior Editor, has been in the navy, we'd probably have had to print the dear old sheet by typewriter this week. When you take into consideration it takes three years of good training to master the machine with its five thousand working parts, its no small wonder that we do not have more errors than we do, but, after all, there never was but one miracle man, and "to err is human, to forgive, is divine". Mr. Bates, our one operator, is vacationing in Colorado, but will be back next week.

I'd like to get another name straight. In a recent edition announcing the marriage of one of our local girls, Jane Brownfield. Our linotypist couldn't tell my Palmer N's from R's. Her name came out "Shinley" instead of "Shirley" as it rightly is.

James Warren sent his in-laws, the J. R. Ricketts, a fair likeness of himself and they had it proudly displayed in their Cafe, last Sunday. We don't blame them a bit—he's a fine man, and we are all proud we know him.

VISITING SERVICE MEN HONORED AT LEGION HALL

Four of our boys were honored Wed. evening, when a rather large social was staged for them at the American Legion hall, with Mesdames Kyle Graves, Clovis Kendrick and Everet Latham as co-hostesses.

Friends, relatives and acquaintances of the boys attended, and in this way they got to see, and be with many more than they would have otherwise.

Those honored, were: Marine Sgt. Jerry Swanson, who has been in the So. Pacific for 23 months, and is here visiting the Roy Wingerds; Sgt. Bill Gore, Army Air Corps, Garden City, Kans.; Alfred Smith, radio man in naval air force on a west Pacific area, and Sgt. Slim Schellinger, Artillery, Ft. Bragg, N. C.

Service Men's Gift Mailing Dates Set Sept. 15-Oct. 15th

WASHINGTON, Aug. 7 (AP). Two Post Office Department hot weather suggestions:

1. Christmas shop now for service personnel overseas.
2. Wap securely, address plainly, and mail between Sept 15 and Oct. 15.

Emphasizing the importance of mailing dates, Postmaster General Frank C. Walker cautioned that no gifts for military personnel overseas may be mailed before Sept. 15 or after Oct. 15 unless written request from intended receiver is presented.

Walker asked that this year greater pains be taken in packaging and addressing. Although a shoe box is the proper size it is not a reliable container, he pointed out.

If you want to be sure your gift arrives in good condition use a box made of metal, wood, solid fiber board or strong double-faced corrugated fiber board and reinforce it with strong gummed paper or tie it with strong twine. Better yet, use both gummed paper and twine.

Walker advised also writing the address on both the box and the outside wrapper. He added these reminders: Parcels must not exceed five pounds, must be not more than fifteen inches long or thirty-six inches in length and girth combined, and should be plainly marked Christmas Parcel to receive special attention.

Be sure contents are tightly packed. Such things as candy and cake should be enclosed in separate containers. Perishable goods, intoxicants, inflammable materials, poisons and anything that may damage other mail are prohibited.

Christmas packages to the Navy personnel should not be mailed earlier than packages to the Army, but as to a date limit, there is not any.

ATTENTION ALL HOME CANNERS!

Before you begin your 1944 canning, Good Housekeeping Magazine advises you: use the boiling-water bath method for tomatoes and fruits, only. Can all vegetables except tomatoes by the correct use of a pressure cooker to be sure of killing botulinus germs. In the last few years, cases of botulinus food poisoning have cropped up in widely different parts of the country. Buy, borrow, share a pressure cooker—but don't can low-acid vegetables any other way. If you want further information, write Good Housekeeping Magazine, 959 Eighth Avenue, New York 19, N. Y.

LEGISLATION AFFECTING WELFARE OF TEACHERS

Austin, Texas, August 4.—State legislation affecting the welfare of Texas school teachers is one of the topics up for discussion here this week when school teachers—college and public alike—convene for the Fifth Annual Professional Relations Conference.

Dr. Alfred Laurence Hall-Quest of New York University, Prof. George B. Wilcox of Texas A and M, and Rep. R. L. Proffer of Denton, are here as speakers and participants in the panel discussions.

The teachers will also discuss the problems of improving the relations of educational personnel and other problems of the profession.

This program is jointly sponsored by the Texas State Department of Education, the National Education Association, the Texas State Teachers Association, the Texas Congress of Parents and Teachers, and the University.

TEXAS BANK DEPOSITS SHOW HUGE INCREASE

AUSTIN, Aug. 3.—Deposits in Texas banks were \$149,897,694.33 greater on June 30 this year than

they were on the same date a year ago, State Banking Commissioner H. A. Jameson, reported today.

In his comparative statement on the condition on all State banking institutions, rendered to the call of June 30, he also showed:

An \$80,000,000-plus increase on securities owned for the same comparative dates;

An increase of \$35,000,000-plus in loans and discounts.

Mr. and Mrs. E. B. Bradbury spent last Friday night in the J. O. Gillham home. Mr. Bradbury is President of the Stock Yards National Bank, Kansas City, Mo.

The Low Down From Hickory Grove

Every day you read about another convention, in your town or elsewhere, and in the same paper you see where you should stay home on account of crowded trains. And unless you have important business, it is okay and proper to stay home, so that the railroads can move the guns, and 1,000 other things the soldiers and sailors and leathernecks have gotta have—if we are to keep Tojo and Adolph at arm's length.

A convention of beauticians being held in Chicago, or elsewhere, where the beautifiers must travel a thousand or 2 thousand miles, is a 100 per cent loss—except to the "lady intriguers." "Lady intriguers" is our name here around Hickory for the beauty shoppe folks that make mama and the girls imagine they are getting something for their money that will give 'em appeal, but which instead of doing so, is working vice versa. You take a fresh and and glistening permanent on mama who is hurrying home via a side street and carrying her hat, and you see what I mean by vice-versa.

Give the old 'Iron Horse' half a chance, and he will do a skookum job. There is gonna be plenty of time for a convention, with new clothes and a spree—later on.

Yours with the low down,
JO SERRA

SATISFIED

An Eastern go-getter spied a lazy Indian chief lolling indolently at the door of his tepee somewhere out West.

"Chief," remonstrated the go-getter, "Why don't you get yourself a job?"

"Why?" grunted the chief.

"Well, you could earn a lot of money. Maybe thirty or forty dollars a week."

"Why?" insisted the chief.

"Oh, if you worked hard and saved your money, you'd soon have a bank account. Wouldn't you like that?"

"Why?" again asked the chief.

"For gosh sakes," shouted the exasperated go-getter, "With a big bank account you could retire, and then you won't have to work any more—"

"Not working now," pointed out the Indian.—

According to reports we get, the so-called anti-Roosevelt delegation from Texas was not much anti-FDR as anti-Wallace. A local delegate informed us that he talked with delegates from almost every state in the union, and that while they were for Roosevelt, they are getting fed up on bureaucrats. Another thing he stated that most northern people he talked with are not any more for social equality than we of the south, but politicians are using it to get negro votes in pivotal states.

NOW, Let ME Tell You Something

A TRACTOR "Talks Back"

"Mister, I've been working my heart out for you for a long time now. I haven't grumbled or kicked because I come from a good family where our motto is HARD WORK AND LONG SERVICE. "That doesn't mean we have the miracle of everlasting life. I'm just a combination of honest material and honest workmanship but even that has its limits. I've gone along on all the tough jobs and never quit... but now I'm asking you to give me a break, for your own sake as well as mine. "Before we go into the next tough job take me down to the John Deere Service Shop for a going over. There are a few sore spots, some loose joints that hamper me, and I think my mind would be better if my valves and ignition had a check-up. Those service men down there are old friends of mine, they know me and what I need. How about it? Or do I have to quit against my will?"

Local Postoffice Shows Big Gains

For the fiscal year ending June 30, 1944, gross receipts of \$37,786.53, is reported by the Brownfield postoffice. This is compared with receipts of \$30,407.73 for the fiscal year ending June 30, 1943, an increase of 24.7 percent. This increase is believed to be accounted for by heavy increase in air mail, increased oil field activity, and movement of people caused by war time conditions.

Gross receipts for July 1944 are reported to be \$3,342.91. These figures compare with receipts of \$2,786.61 for July 1943.

A total of 1970 Motor Vehicle stamps have been sold for the fiscal year, beginning July 1st, L. A. Greenfield, Acting Postmaster, stated.
