LOCAL MAN RECEIVES COMMENDATION MEDAL

Dallas, Texas, August 18—Two Texans were presented with commendation ribbons by their commanding officer, Commander M. H. Hubbard, USN, in a ceremony aboard ship for outstanding performance of their duties aboard the USS CLAXTON, a destroyer which has been dealing devastating blows to Jap ships and shore installations in the Southwest Pacific. The Texas men were: Creighton D. Sims Boat-swain's Mate, First Class, USN, 5405 Gregg Street, Dallas; and Wilburn L. Carter, Electrician's Mate Second Class, USN, Box 773, Brownfield.

On November 1-2, 1943, the squadron of which this destroyer was a member engaged a Japanese surface force off Cape Torokina, Bougainville Island. Again on November 25-26 off St. George's Channel, they inflicted further damage to the Japanese Fleet. The ship also participated in seven bombardments of Japanese held islands, including Buka and Bougainville.

FORMER BROWNFIELD STUDENT KILLED IN ACTION

The parents of Lt. Alton L. Owens, of Littlefield, have been notified that he was killed in action in France July 25. He was 31 years of age.

He was a graduate of Brownfield High School, and with a brother, Pete, were well known football players on the Cub team.

Lt. Owens enlisted in May 1942, and was in a chemical warfare battalion.

A HAPPY REUNION OVER IN ITALY

Mrs. P. F. Westbrook and small son, Phillip Joe, of Meadow, were in Brownfield, Wed., and called by the Herald office with an interesting report of her two sisters, Sec. Lt. Beatrice Fontella Carruth, a trained nurse in the army, and Pfc. Estelle Carruth, who is a WAC.

It seems the mother, Mrs. L. J. Carruth, of Meadow, had a letter from Lt. Beatrice in Corsica, stating that she had received an official assignment for a week's leave in Italy. She knew her sister was stationed there and hoped to be able to see her.

She walked to a mess hall when she first arrived, and there sat Estelle. They grabbed each other, and after they had laughed, cried and talked themselves hoarse, became conscious that the rest of the girls were laughing and crying with them.

They spent the entire week together. There are two Carruth boys in the service, also, and Pfc. Elwood, with the army in Alaska, and M Sgt. Christy, with the army in New Caledonia. Articles about them appeared in last week's Herald.

Pfc. and Mrs. H. L. Allmon, of Camp Beaupard, La., came in Tuesday morning to visit his parents, Mr. and Mrs. Buster Allmon.

Chapmans Have Three Sons In The Service

Mrs. N. B. Chapman was in recently to get the Herald started to her son, Ramie L., who is now overseas. Mrs. Chapman informed us that she has three sons in the service of Uncle Sam, help-

ing to put the damper on Dictators the world over.

This week we are showing two of these sons; would have shown all, but they had a very poor

picture of Pfc. H. P. Chapman. We are therefore showing only Sgt. Ramie L., who has been in the service 4 years, and Cpl. Ollie F., who has been in 2½ years. Pfc. H. P. is in France, somewhere.

Robert Lee Craig On Siapan

"I know what a fox hole is, but I don't know the name of the things that get in one with me," writes Robert Lee Craig, to his parents, Mr. and Mrs. M. J. Craig, of Craig Motor Co.

Robert Lee is Hospital Apprentice 1/C of the Marine Medical Corps and is based on Siapan. He told of a visit from Buel Price, Pharmacist Mate 2-C, also of the Marines, who upon inquiry about other Brownfield boys, was directed to his bunk, where the boys had a great time talking of home and the good times they use to have.

Young Craig, age 18, volunteered in the service last September. He is a graduate of Brownfield high school class of 1943. He has an older brother, M. J. Jr., who is finishing his training as gunner in the air corps at a base in Florida, this week.

Governor Stevenson Issues Paper Col. Proclamation

From information furnished me, it appears that waste paper is the No. 1 critical war material. It is so critical that the United States Army is salvaging what little it can in the North African and South Pacific zones.

Many mills in the United States are not running full time; some have been forced to shut down temporarily because of the shortage of waste paper.

Collection in the United States for 1944 have averaged 70,000 tons monthly short of quotas.

Consumption of waste paper is increasing every month and inventories are diminishing. It is inventories in order that production of blood plasma containers, life preservers, cartons, protective bands for bombs, field ration containers and hundreds of other vital military needs may be increased.

Therefore, I, Coke Stevenson, Governor of the State of Texas, hereby designate the period of August 20 to September 20, 1944, as Paper Salvage Month in Texas, and call on the citizens of Texas to join hands with the American Legion, the Boy Scouts, the salvage committees, and the newspapers of Texas to put forth their full efforts in order that 20 pounds of waste paper for every person in Texas may be collected during this period.

We have two vacancies to be filled in West Ward.

NEILL TO SUPPORT JACK DOUGLAS FOR STATE REPRESENTATIVE

After investigating the qualifications of my two recent opponents and being assured on good authority that Jack Douglas is the candidate who has a sound legislative platform which will be beneficial to the entire district, namely that Douglas will support the Refund Under The Road Bond Assumption Law and other measures for the interest of West Texas, since he is not controlled by a political machine, I am definitely interested and will support and vote for Jack Douglas for State Representative in the Run-Off, August 26th, and urge his support.

LT. GRAHAM SENDS FAMILY FRENCH CURRENCY

Miss Twilla Graham, daughter of Mr. and Mrs. E. A. Graham, showed us a number of bills of currency, which her brother, Lt. Sawyer Graham sent them from France, recently. Interesting, but I would have taken us some time to dig up their value.

To say the least, the French government seems to be rather stingy with paper, and the printing was poor compared to American currency.

CANNING SCHOOL SUCCESSFUL

The government canning school being held in the basement of the red school building, is reported a huge success so far, but more ladies are urged to attend. It is open each day, both morning and afternoons.

Water gas and the cookers are furnished; each lady must bring her own jars, lids and the food to be canned. It is better, though not required, to have the food washed and prepared ready to can.

Mrs. Estelle Brown is in charge of the cookers. If she is not at the canning kitchen when you arrive, call by her home, at 111 east Tate street, directly across from the building facing south.

We Found Where Beefsteaks Grow

Mr. and Mrs. Money Price "looked sorry" with us at the noon meal last Sunday, and soon after the "going through the motion" was over, they invited the Old He and wife to go to their ranch, 14 miles north of Plains to see how the cattle were progressing. We never miss a chance of seeing where our beefsteaks are coming from.

While Money has a rather mixed bunch of cattle, including pure Herefords, mixed Brahmas, mixed and pure Jerseys, mixed and pure Black Poles, they are sure on the money, many now in prime order for the butcher. He has several sections under easse, extending over in Cochran county. He did not tell us how many hundred head of cattle he had, but he did remark that he thought he had too many for the amount of grass. His stock horses are also doing well.

Rains Came Late in Yoakum

The western part of Yoakum county appeared, earlier in the year, to be in for a real drought, but late June and July saw some fine rains, in some places as much as six inches at one time. So, the grass is luxurious, green and some of the gramma and needle mesquite seeding out. Where not too heavily grazed, the grass is knee high.

Another Terryite, Dave Beasley, prominent Needmore farmer, is gradually acquiring quite a lot of grass land out there, and is stocking with a good grade of cattle. The Bedford and McGinty ranches are also in that section, all well stocked. In fact, the west half of Yoakum county is strictly ranch and oil, with some farming for feed only for their stock.

After returning to Plains, we took highway 380 out northwest ten miles to the Bayne Price ranch. Bayne is a brother of Money, but a bit his elder. The Bayne Prices have been ranching in old Yoakum for the past ten years, and have built up a herd that is hard to beat. There are many larger ranches but few with better grass, water and well bred animals. And they are real proud of their stuff. Mrs. Price is the daughter of the late Mr. and Mrs. Joe E. Bryant, old settlers of Terry county.

We made a round of the windmills, where most of his herd was congregated. They now have a good grade of mother cattle, and constantly adding some of the best males to be had. We were invited to see some time to eat chicken, also some beef steaks. They have good improvements, with plenty poultry, horses and other livestock, such as Jerseys for milk cows, and big Percheon horses to work, as well as strictly cow ponies.

Returning toward Plains, we stopped at the Murphy Luna ranch, which begins at the outskirts of the city of Plains, and extending westward several miles. Some four years ago, Mr. Luna began the construction of one of the most modern and beautiful ranch homes in this area, set back some 300 feet from the highway. Old ranch headquarters were a bit southwest of Plains, on rather sandy soil, while this one is on tight land, and northwest of the city.

Much of Interest to Be Seen

The first rattle out of the box we saw something we had never seen before—young peafowl. Don't know what you call them, chicks or poult or what not. Anyway, they look very much like young turkeys. There are some old peafowl, too, but they skeedaddled out of sight, especially the old he'un. While trying to pen the old hen and 5 youngsters, the dadblamed collie snunk up behind us and dabbed his cold nose on our necked ankle, and we like to have lost our pants and shirt. We did not tell Murphy to get a "hoss" laugh.

Out in the pasture, we found a number of bunches of cattle, but off to themselves, we saw three as fine specimen of the Hereford family as we ever saw at a show—mother, daughter and grand-daughter. And we don't mean the

other are not good stuff. Grandma, four this spring, tips the beam at over 1600, not weighed since last year. We'd guess that daughter would go 1000, and the grand-daughter perhaps 600. Such beefsteaks!

Saw The Wreck Of Old 97

Late in the afternoon, Money decided he wanted to look at one of Murphy's cow ponies with prospect of purchase, so we took the pickup for the south pasture, where most of the horses are kept. We found them, like the cattle in two separate herds. During the rounds we came upon the sight where the big army bomber hit the ground at perhaps 200 miles per hour early last spring, during a heavy fog.

It will be remembered that during early spring, a US bomber from some base in this section ran into the fog. The crew could not see ground anywhere, and they had lost contact when their radio failed, with the base. After mousing around for quite some time, the boys bailed out and turned the bomber into a huge robot. When it hit the ground the sound was easily heard in Plains, three miles distance, which the people thought was thunder.

Well, Sir, where that gentleman hit the ground there is a nice cellar for someone, ready dug. And there are several lesser ones several feet apart for quite some distance, and it was said that some of the gears rolled for a quarter mile, and the motors drifted far ahead of the main wreck. After the army salvaged what they wanted, you can still pick up pieces of the aluminum body on a few square acres yet, from the size of a spoon to larger than your hand, glass, rubber bands, faucets, and what have you.

Soon thereafter, we turned the Ford convertible for home, and to finish what was left from dinner. Also have an invitation to visit and eat with Mr. and Mrs. Luna, any old time.

And also, didn't we kill a mess of space.

Meadow Schools Begin New Term On August 28th

THE OLD JUDGE SAYS...

"The more I read about it, Judge, the more I realize the tactics and requirements of this war are as different from the one I fought in 25 years ago as night is from day."

"Yes, and I can give you an example of how true that is, Fred. In World War I the chief uses of alcohol produced for war purposes were found in smokeless powder, medical supplies and chemical warfare materials. In this war the need for this product is far more vital because it is also used as a fuel to propel torpedoes, to make shatterproof glass

for airplane windshields and instrument covers, to make lacquers used in camouflaging equipment and as a base for synthetic rubber needed for tires, gas masks, paratroop equipment and dozens of other things.

"Every time I think of it, Fred, I realize how fortunate we were in having a beverage distilling industry in existence when war broke out... ready and eager to convert 100% to the production of this critically needed war product. I'm mighty sure bootleggers wouldn't have been of much help."

LETTER FROM TEDDY JOE HARDY

The following was written, or rather printed, by Teddy Joe Hardy, age 7, and sent to his schoolmate, Jack Taylor Stricklin.

Dear Jack Taylor I saw in the paper where your Dad was somewhere in the Pacific. Wish you could be out here with us. My Dad is still here training. I hope he does not have to go across. We live close to the ocean. It is cold here. Sometime when the sun shines we go down to the beach and play in the sand. When warm enough I go swimming; its fun to ride the waves.

One Sunday my cousin, Neill Burnett came over from Mercedes where he is an Air Cadet, and Dad took us out in a glass bottom boat. We saw all kinds of fish and crabs, also some sea weeds. We live in an auto court where there are a lot of kids. All their dads are in the service. Tall pines in our yard and the squirrels are tame and they play in our yard and on our house. We see the big ships come in and the amphibians and the landing barges in the bay. We will be home in September on Dads furlough. We drove out on a 17 mile scenic drive and saw some sea lions. I have poison ivy. Write to me.

Teddy Joe Hardy Teddy Joe as well as Jack Taylor were for two years kindergarten pupils of Ms. Jack Crump, and has had one year in public school, and will be in 3rd grade when school starts.

ISN'T IT A SHAME!

That a man has to establish his nationality and religious status to be a candidate for public office, when that man, born in America of Christian parents, having chosen Lubbock as his home fifteen years ago, marrying a West Texas girl in the First Christian Church, and being a member of the same church, having two daughters born in Lubbock County both students in Lubbock Schools, when our boys on the fighting front are in combat to uphold democratic principles? Yet, through a whispering campaign, Jack Douglas has been unjustly discussed regarding his nationality and religion.

Ability and Responsibility

When a particularly tough and important job comes along, it usually lands in the lap of someone who is already doing a lot of other jobs well.

People like this—who are used to getting results—are not too plentiful. They need to have both ability and a sense of responsibility. One alone won't do—for ability can sometimes be misdirected, and a sense of responsibility without ability can lead to troublesome meddling.

It's men with this combination of talents who have been carrying a heavy load on the home front these past few years. On the farm and in industry they've been meeting—and solving—the difficult wartime problems of production.

After the war is won, somebody must shoulder the equally big job of getting this nation back into peacetime production, of laying the groundwork for the better and more prosperous America we all want. This is a challenge, and an opportunity, for the producers of America—for the men and women who have a sense of responsibility and have shown their ability to get things done. IS YOUR CHILD READY?
Much stress is made to parents with children going to school for the first year, of the importance of a check-up by the family physician.

Dr. Geo. W. Cox of the State Health Dept. at Austin, and National Congress of Parent Teachers Association are calling attention to the need of getting them physically fit and at their best for school work.

Diet deficiency, postural defects, defective vision, infected tonsils and dental defects all have their far-reaching effects of tearing down the health and at least some of them could be corrected. Use this precaution and protect your child's health and give him a better chance for more and happier days in school this year.

HOME TOWN—
(By EDIE)

Your correspondent had an interesting visit to the health clinic Wed. afternoon. This being Mexican week the Ayala family from the W. W. Price place, consisting of papa and mama Ayala and their seven small but very pretty children, all daughters. The youngest, 5 months and the eldest nearly twelve.

Dr. Thena Robinson, the kindly lady doctor, and Mrs. Griffith, county health nurse, give immunization for smallpox, diptheria and whooping cough to all ages of children preferably before the child reaches its first year. Any small sore, irritation or minor ailment is treated, also, and a thorough checkup on ears, nose and throat, lungs and heart, rendered. If the child is found to be ill, it is sent to other sources for treatment.

All work and medicines used at the Clinic are furnished by the State, free of charge to the family. This will continue as long as interest is shown, otherwise, the Clinic will close.

Each month has a White check up and a Mexican week. Bring your children in to be checked over, and keep the Clinic going.

If you have workers on your farm, inform them of this good work. It must go on. It is of great benefit to all.

In my estimation, Mrs. Jack Browder deserves honorable mention as a distinguished "War Mother." She's the very attractive little brunette lady behind the counter at the Palace Drug. Her two sons, Sgt. Jack Browder and T/Sgt. Norwood are both German prisoners. The two boys were serving in the Army Air Force when they were shot down.

Jack was 19 years of age the 8th of March; he was taken prisoner the 12th of May. Norwood was taken prisoner the 11th of July. He was 22 last Sunday.

"BIRTHDAYS OF THE MONTH CELEBRATION"
A unique way of celebrating birthdays for a large family is practiced by the Sawyer family and their off-springs. All whose birthdays fall in the same month are given one large party together.

This month those honored were Thomas Bruce Zorns, Mrs. Mary Hanley Graham, Aut Graham and Miss Pete May.

A watermelon feast, given by Mrs. Cy Tankersly, was held on the Tom May lawn Wed. evening at eight. Bingo was the main diversion and gifts were presented the honorees.

Those present were the Aut Grahams and their families, the Clyde and Clarence Lewises and their families, the Arthur Sawyers and family, and the John Givins and families.

Mr. and Mrs. Ross Black and children, Martha Crawford, and Mrs. Ruth Lowe and daughters, left Thursday for a few days in Ruidosa.

Supreme Circulation

L. C. Heath, our D. A. says his son, Cpl. Robt. L. had finally got a letter through to them, the first, since he'd been given his APO. He's a radio-gunner in the Army Air Force in England.

SUNDAY EVENING BARBECUE

Mr. and Mrs. Leo O. Allen were hosts Sunday evening at a barbecue given for Sgt. Jerry Swanson. The guests were the honoree and Miss Mary Ballard, Miss Marion Wingerd, and Morgan Copeland, and Mr. and Mrs. Roy Wingerd.

Steaks were barbecued and served with potato salad, red beans, iced tea, followed with watermelon for dessert.

The right equipment makes home canning safe and easy. You'll get the best possible results if you buy your canning implements from us for we carry only the finest type of jars, rings and air tight caps. We also have

metal cans in plain and lacquered finish. Most people prefer these to glass jars for home-canning of meats and poultry.

Everyone is busy these days, but housewives should not neglect their families health. Be sure your family gets all the vitamins needed for sound teeth, strong bones and well developed bodies.

Do not depend on commercially canned foods, they may be more scarce than ever this winter. Can what you grow in your gardens or buy it from the stores to can.

Mr. and Mrs. J. M. Briggs spent four days last week in Coleman, Texas, visiting his parents.

GIRLS NEARLY DOUBLE BOYS IN JULY

While on the prowl over at the Temple of Justice last week, we had occasion to visit the office of Judge W. H. Dallas, J. P. When he was a banker, we called him Col. Bill Dallas, but as JP, we have eliminated the Colonel and added the Judge.

You know the Judge has charge of vital statistics, and sometimes it is interesting to check on how goes. We found that in July the young ladies nearly doubled the gentlemen, being 14 of the former to 8 of the later. Lowest amount for any month recently, the Judge stated.

And there was only three deaths, another low, he stated, and one of them was a weak, perhaps premature Mexican infant.

The earth is about three million miles nearer the sun in the winter than in the summer.

UNION TO HAVE TWO NEW SCHOOL BUSES

V. D. Armstrong and Howard Hill, of Union, left for Richmond, Ind., this week to bring back two new school buses for the Union community.

A letter from R. L. Lewis Plm 2-C, to his parents, was post-marked Guam. He has been over seas 19 months, and has not been able to give exact location 'till this letter. They hope he is heading for home since Guam has been mopped up on. R. L. sent his mother a box of shells, bits of coral, etc. lately, which he dived for himself.

This is notice, that said partnership has been dissolved, and that no one has the authority to contract any debts or liabilities of any kind under said partnership agreement.

BROWNFIELD SCHOOL TO INCREASE TAXES

Notices are being mailed this week, to all property owners in the Brownfield school district, to board on Sept. 12, about raising appraisals of their property from 20 to 50 percent. This is being done to raise some \$40,000 to meet the increased expenses of the school term. It is estimated that about \$2 per acre increase on farm lands and 25 percent on urban property, will suffice.

Chester Walters, of Houston, is here this week visiting his parents, Mr. and Mrs. F. E. Walters.

Mrs. Louise Bonham has been visiting her husband, Pvt. Kilton Bonham, who is in the Infantry Radio Division, at Camp Wolters, Mineral Wells.
