

## Warren Brown Takes Advanced Amphibian

Warren B. Brown, 18, son of Mr. and Mrs. W. C. Brown of this city, was inducted into the services Jan. 22, of this year, and took boot training at San

**Sailor Warren B. Brown** Diego naval training station. From there he was sent to College Station, Texas, to take special radio training at the A. and M., then back to Oceanside, Calif. where he is now taking an advanced course with an amphibian landing craft.

He was born April 15, 1926 in Archer county, Texas, and came to Terry county in 1940, with his family, and attended high school in Brownfield.

## Veteran of 35 Combat Missions, Returns

James V. Shewmake, returning from 7 months overseas with the Army Air Forces in the European theatre of operations, has arrived at Fort Bliss, Texas, after visiting his home, 111 E. Main Street, Brownfield. An engineer with the 8th Air Force, he is a veteran of 35 combat missions, and of approximately 300 hours of operational combat flying.

## JOHN H. JENKINS GETS HIS SILVER GUNNER'S WINGS

John H. Jenkins, son of Mr. and Mrs. J. H. Jenkins, 318 N. 5th St., Brownfield, Texas, was given his silver gunner's wings and promoted to the grade of Corporal when he completed the flexible gunnery course for radio men at the Yuma Army Air Field this week. Prior to his training in flexible gunnery, Corporal Jenkins graduated from the Radio Mechanics school, Sioux Falls, South Dakota. He is a graduate of Brownfield High School.

Pfc. Slick Collins of Camp Roberts, Calif., is spending his fifteen day furlough here with his wife and baby son. They will also visit his parents in Lamesa.

## Cpl. Geo. M. Belknap Killed in Action

Cpl. George Monroe Belknap, son of Mr. and Mrs. G. W. Belknap, of Seagraves, was killed in action on Guam island, August 3, 1944. He was 24 years of age when he met death, and had been a resident of Gaines county since 1935.

He graduated from the Seagraves high school with the class of 1940, and was a student of West Texas State when he volunteered in the marine corps on January 8th, 1942. He had been over seas 18 months. He is survived by his parents, farmers, who reside four miles west of Seagraves, a sister, Geneva, a senior in high school, and a married sister, Mrs. Wanda Black, of Bryan, and a brother, Marion S., who has been confined in hospitals the past four years.

Cpl. Belknap was a member of the Baptist church at Seagraves, being converted under the ministry of Rev. Rankin, now an army chaplain.

## Wagner Helps to Keep 'Em Flying

This week we are showing a picture of Don L. Wagner, a Terry county boy, who keeps 'em rolling and flying over seas, and the war department tell us that he and his crew sometimes work

**DON L. WAGNER** almost day and night until exhausted, getting the planes in shape for another raid on the Reich. He is the son of Mr. and Mrs. L. L. Wagner.

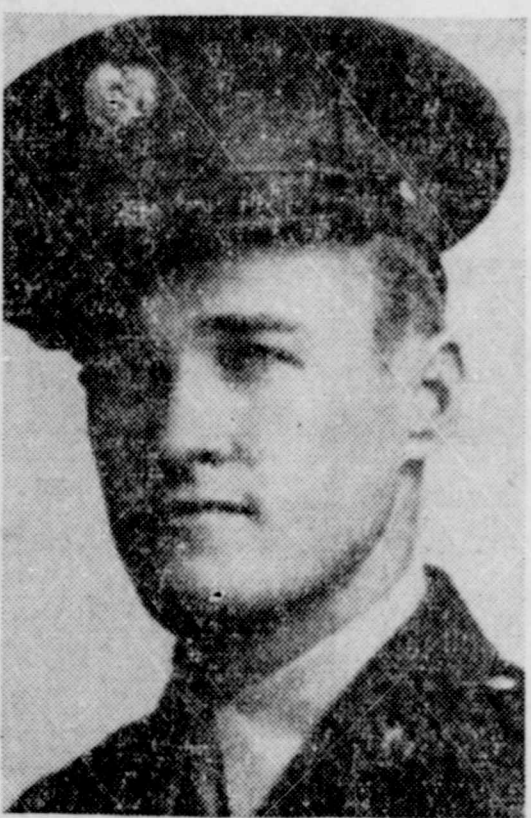

Veteran of 21 months of overseas service, Private Dan L. still keeps the trucks rolling. Employed as a truck driver before the war, he entered the army in December, 1942 and was assigned to motor pool work. He is now serving with a B-25 Mitchell medium bombardment group, cited by the President as a Distinguished Unit, in the Mediterranean theatre of operations.

Wagner took training at Shepherd Field, Texas, the Seymour Johnson Field, N. C., and has received the Battle of Honors in a bombardment group. Has outstanding performance of duty in action against the enemy, as well as in direct tactical support of the British Eighth army in the Tunisian campaign, and in support of our armies in taking Sicily.

## Former Terry Co. Boy Killed in Action

Cpl. James E. Brown, son of Mr. and Mrs. Ed Brown of Lubbock, but who lived several years in south part of Terry county, has been killed in action in Italy, according to a message from the war department received by his wife at Abernathy.

Brown had been over seas 17 months with the army signal corp. He was a brother of M. E., and R. A. Brown, prominent cafe operators of this city, who attended memorial services at an Abernathy church Sunday evening. He is survived by three other brothers and two sisters.

**T. SGT. JAMES M. BURLESON** James M. Burleson, missing in action over Germany since Aug. 26. Story carried in Herald on September 15th.

First Lieutenant Keller Greenfield is spending a 16 day furlough with his parents, Mr. and Mrs. L. O. Greenfield. Lt. Greenfield returned to the states on August 31st, after being in India. He returned to the Ashburn General Hospital in McKinney, Texas, due to having arthritis, but says he is feeling swell and glad to be back home. He was with a B-29 Squadron, while in India.

## Carroll Collier Commissioned 2nd Lt.

Carroll W. Collier, son of Mr. and Mrs. Roy B. Collier, 405 N. 5th, was commissioned a second lieutenant and received his silver pilot's wings of the Army Air Forces on Sept. 8th, at the Altus

**Carroll W. Collier** (Okla.) Army Air Field.

From this advanced 2-engine pilot training school of the AAF Central Flying Training Command, with headquarters at Randolph Field, Tex., he will go on to further advanced training at a multi-engine bomber or fighter school, or to the Central Instructor's School at Randolph Field.

After completing his advanced course he will be ready to carry the air attack over enemy territory, or return as an instructor to an advanced school.

Carroll Collier (Lt.) has been assigned to a B-26, and after spending a few days here will report to Bakersfield, La., Oct. 5.

## Waste Fat Brownies To Gather

Have your waste fats strained and ready for the Brownie Scout Troops who will call on you this Saturday morning, beginning at 8:30 and collecting until noon. Troops 4 and 5 are sponsoring this drive and as you know, fats are essentials for our explosives as well as some of the vital war medicines.

## Twelve More Draftees Inducted

The following 'teen age youths of Terry county have recently passed their final examinations and have been accepted for military service at Ft. Bliss:

Robert Bruce Gandy, Billy Ray Kennedy, Otis Eugene Washmon, Luther Ralph Corley, Boyd Gilbert Miller, Clarence Turner Fair, David Charles Gray, James Roy Alsop, John Charles Chaffin, Troy Rufus Marshall, J. C. Seaton, Johnnie George Kite.

Eleven others who had passed the preliminary physics were rejected at induction center. It was thought by the local draft board that the army is becoming more strict on physical fitness.

Cpl. E. C. Buel of Pueblo, Col., left yesterday after visiting his sister Mrs. Loyd Moore. Also visiting in the Moore home, is their mother, Mrs. E. C. Buel, of Pilot Point and their sister, Irene Buel of Fort Worth. Cpl. Buel taught in the Brownfield High School in 1941-42. He is an armoured gunner on a B-24.

Chief Petty Officer Steve Warren, son of Mr. and Mrs. Pierce Warren of Meadow, is here on a 30-day furlough. He enlisted in the navy August 1940, and arrived at Pearl Harbor the day before the attack. He has been near there since. The Warrens have another son in the service.

Cpl. Robert Edgar Self, of Camp Roberts, Calif., came in Monday to spend a two weeks furlough with his parents, Mr. and Mrs. Ned Self.

Cpl. Tommy Moorhead, of Connecticut, had a three-day leave lately, but he didn't leave—he went out and helped gather apples instead. His dad made the comment: "Imagine that west Texas boll puller picking apples!"

## Seabee McCarver Meets Sonny Walls

Mrs. A. E. McCarver received a letter recently from her husband, Petty Officer Second Class A. E. McCarver of the Seabees, stating that he had seen her bro-

**A. E. McCARVER** ther, R. B. (Sonny) Walls, seaman first class. McCarver is stationed on the New Hebrides islands in the southwest Pacific, and

**SONNY WALLS, S 1/C** stated that Sonny's ship came in to port there.

They spent a day together talking about home and the places they had been since seeing each other last, which covered quite a bit of time and territory. Sonny has been in Tarawa, Marshall Islands, Guam, Tinian. McCarver on the Bona Bona, Gallapagos and New Hebrides.

Seabee McCarver received his training at Camp Perry, Va., Camp Indioctt, R. I., and Gulf Port, Miss., before going overseas last December. His wife, the former Miss Evelyn Walls, and their little son, are making their home with her parents, Mr. and Mrs. John Walls, for the duration.

S. 1/C L. T. Redding saw Loyd Pickett of the navy recently some where in the South Pacific and they had an enjoyable time talking of old times here in Brownfield when they trucked for the same firm.

## Babicora Expanding Feeding Project

Coy Maroney, for several years local manager of the Babicora Development company, a well-known cattle-feeding project here, announced this week his company are remodeling and enlarging their feed pens north of the city, and expect to feed out a large number of cattle this winter.

Maroney has accepted the position of district manager for the company, covering several southwestern states and will have supervision over a number of feeding projects. He leaves for El Paso this week to establish a central office. Babicora, is the name of a large ranch owned by Wm. R. Hearst, noted publisher, in old Mexico, from which thousands of head of cattle are produced and shipped to southwest United States to be fed and marketed.

It is thought the company is to furnish a well-known chain store system with meats direct. Coy, a well-known Terry county young man, is to be congratulated on this promotion.

## Workers Appointed For War Fund Drive

The following have been appointed by T. C. Lucus, Chairman of the War Fund Committee, to serve on the different committees. The Brownfield Gift Committee are: Virgil Burnett, J. O. Gillham and W. R. McDuffie. Regular workers are Herbert Chesshir, Chairman; Chris Quante, W. M. Thomson, Mrs. Lee O. Allen, Mrs. Frank Wier, Mrs. Walter Hord and E. G. Brownlee. Mr. Chesshir may ask for a few additional workers in this district.

East and northeast of Brownfield workers are: Mrs. M. E. Hinson, Mrs. Leo Willis, Mrs. D. L. Morrison.

Workers in the northwest part of the county are: Mrs. Ann Bates and Mrs. Pearl Beasley. These women may also appoint some extra workers.

## Emergency Clothing Being Collected For Europe

During the week beginning September 24 the emergency collection of clothing will be conducted by the Presbyterian Women's guild in co-operation with the United Nations Relief and Rehabilitation Administration. At least 15,000,000 pounds of usable garments, new and used, are urgently needed by men, women and children in liberated areas.

The approaching winter, according to latest estimates, will find more than 20,000,000 persons driven from their homes by the bombing and shelling. A vast proportion of these civilians have lost all their possessions, including clothes.

Bring your donations to the Presbyterian Sunday School room Friday, Saturday and Monday.

## NOTICE

All "T" coupon holders will have to call for their 4th quarter allotment of gas, between the 1st and 5th of October.

## GAINES COUNTY SINGING CONVENTION AT SEMINOLE

We are authorized to announce the Gaines County Singing Convention will meet at Seminole, Sunday, Oct. 1.

All Terry County singers cordially invited to attend.

## CHRISTMAS SEALS NOW READY FOR SALE

Our supply of Tuberculosis Christmas seals have arrived, and anyone wishing seals for mailing packages to the boys overseas, please call at the county health office, for them, and we will be glad to supply you. Help fight tuberculosis in this county.

Geraldine Pyeatt, Secretary, Terry County T.B. Association.

## HOCKLEY COUNTY JUDGE GETS PROMOTION

The many friends of Judge James A. Ellis of Levelland, are congratulating him on his being elevated to the position of assistant Attorney General of Texas. The appointment came from Attorney General, Grover Sellers.

Judge Ellis' term as county judge of Hockley county does not expire until Jan. 1, he not being a candidate this year. His successor is the county judge-elect, Mr. Lincoln. Ellis will leave for Austin to take up his duties at once.

Dr. and Mrs. E. C. Davis attended to business in Hereford a few days this week.

## Notes on Grain Sorghum Situation

By George Mahon

Washington, D. C.—For a period of three weeks I have heard of the critical grain sorghum situation in West Texas, getting my information from individual producers and county AAA offices. The price slump, and lack of storage and railroad cars for transportation have cost West Texans many thousands of dollars.

Throughout this period I have been in constant touch with the proper officials here urging and demanding prompt action to prevent the sacrificing of our grain sorghum crop.

The government loan rate on grain sorghum is \$1.69 per hundred, but to be eligible for the loan the grain must be stored in warehouses or on the farm, and adequate storage has not been available.

Briefly, the following steps have been taken to assist the producers:

(1) To afford a greater market demand for grain sorghums, the War Production Board and the War Food Administration have agreed to permit the unrestricted use of grain sorghum in the manufacture of industrial alcohol for the war effort.

There has not been any restriction on the use of grain sorghum by the brewers, but October 1 is the first date that the use of grain sorghum will be permitted for industrial alcohol. It is estimated that alcohol producers will consume about 6 million bushels per month. The brewers and mixed feed manufacturers will probably take 10 million bushels per month.

(2) In order to make better use of present storage facilities, the maturity date of the sorghum loan has been changed from June 30, 1945, to April 30, to enable warehousemen to clear their storage for wheat by next spring, thereby permitting the warehousemen to accept more sorghum.

(3) In an effort to provide additional storage space, some lumber and prefabricated grainaries are being provided, but this is not very effective as demand is so great in relation to supply.

(4) Director Johnson of the Office of Defense Transportation has agreed to provide additional railroad cars to move the grain but declares that it is not possible to fully meet this important need on account of other demands of the war effort for cars.

These matters are of the greatest concern because West Texas is producing millions of bushels of grain sorghums. The production costs have been great and a price less than the loan rate of \$1.69 per hundred is intolerable. National grain sorghum production last year amounted to 103,000,000 bushels Texas, principally West Texas, producing 74,000,000 bushels of that amount. I shall continue to urge adequate price support for grain sorghum and every possible assistance toward more adequate storage and transportation facilities.

## Cubs Tie First Game At Lamesa

In their first game of the season the Brownfield Cubs tied in a game with the Lamesa Tornados 6-6, at Lamesa, before an enthusiastic crowd of 2,000 fans, last Friday night. Hill of the Cubs made a sensational dash of 62 yards for the first touch-down early in the first quarter. In the second quarter, Lamesa tied the score on a pass.

Both sides later got into scoring positions, but failed to get over. The Cubs attempted only three passes.

## PRESBYTERIANS HAVE A NEW PASTOR

Rev. and Mrs. Joe Murphy of Fort Worth will move here about Oct. 6. Reverend Murphy has accepted the call to the First Presbyterian church of Brownfield. The city and church will welcome this young couple.

## Brownfield Cubs Play Seminole Tonight

The Brownfield Cubs, high school football team, are to play the Seminole team here tonight, starting at 8 o'clock. The probable first string will be same as those who played the Lamesa Tornados a tie game at Lamesa last Friday night.

Coaches Nooncaster and Bost say their boys are in good condition, and expects a winning, though tight game. A large crowd is expected to attend, as it is the first 1944 home game.

## WFA Removes Rationing On Some Farm Machinery

The following telegram was received by Looe Miller:

"War Food Administration advises that effective September 28, all rationing restrictions on schedule one and schedule two farm machinery, have been removed except corn pickers. Please advise county farm rationing committee and all dealers in your county immediately."

## Lions Club Fete County-City Officials

The local Lions club served a banquet, including West Texas' famous dish, the sun-uv-a-gun, to the commissioners and city councilmen Wednesday evening at the Legion hall. Speeches were made by Judge Lincoln and Mayor Cox.

## District Court Convenes Next Week

The district court will hold another session here beginning Monday, Oct. 2nd. The petit jury has been summoned to attend.

There are several civil cases docketed for trial, and possibly the Roy Baker case, growing out of the three-car wreck in which three persons were killed north of town a month ago, will also be called.

## 1944 Dahlia Show at Lubbock Sept. 30th

The South Plains Dahlia Society announce the opening of their annual dahlia show at the show-rooms of the Kuykendall Chevrolet company, Saturday, Sept. 30, from 2 to 6 p.m. Flower lovers from all over the South Plains are invited.

A long list of prizes in the several different classifications are being offered.

## Houston Woman To Direct Gop Campaign

DALLAS, Sept. 28—Mrs. Carl C. Stearns of Houston will direct the women's division of the Dewey-Bricker campaign in Texas. She has joined the staff at state headquarters in the Southland hotel, Dallas. The first Women's Dewey-Bricker club to be organized in the state was in Waco.

The organization of the Women's Dewey-Bricker club in Waco marked the advent of the first women's political association ever organized in Waco or in McLennan county.

## Former Resident Dies Suddenly Here Wed.

Mrs. O. C. Ochenrider, 52, died suddenly Wednesday morning at the farm home of Jesse Smith, where she was visiting at the time. Her husband, O. C. Ochenrider, was at their home in Loco Hills, N. M., but came over immediately, and had the body carried by the Brownfield Funeral Home hearse to Oklahoma City for interment. Other funeral arrangements were not disclosed.

They resided here sometime until about a year ago, when the husband operated the Sinclair service station at First and Hill streets. Only a daughter, Mrs. H. L. Van Dolysen, wife of Lt. Van Dolysen, in Washington, survive, besides the husband. Mrs. Ochenrider had visited several other friends here earlier in the week.

Dr. and Mrs. E. C. Davis were business visitors to Throckmorton, early this week.

That old ooze the German populace gave our boys in 1918-19 is already appearing on the west front, and it fooled a lot of the boys so badly back then, that they came home thinking more of the Germans than English and French. Our boys didn't realize (to you) in each town entered in that the burgomasters (mayors) instructed the people to be nice, very, very nice to occupation troops, in order to make the peace terms easier, and so they could prepare for another war as soon as possible. The present crop of Ananias and Saphiras are already telling our troops that they despise the Nazis. Bullogna!

Editor Eee Eye Hill of the Lynn County News, Tahoka, takes time out occasionally to "kuss" the present pencil erasers, which muss up his mistakes. Of course, Editor Hill dishes out the deeply religious version of cussing, such as "oh, sugar!" etc., and not the roughneck variety that is said

to be so powerful that it moved a stalled yoke of oxen back in Tennessee. We still have one of these cartridge pencils and pre-war eraser that was given us by Red Tudor, local Ford dealer, and before we would see Eee Eye actually stoop to real profanity, known better as staple and fancy cussing, we'd loan him our pencil.

The United States District Court at Lubbock has filed complaints against a number of south Plains people, two of which are Terry county people. The complaint is for transferring tires without ration certificates. Better watch, Uncle Sam's courts have no mercy on any one. They don't even pretend to know that you are a prominent guy.

This editor was very sorry that we were unable for reason of tire and gasoline restrictions, to attend the inauguration of the new president of Texas

Technological College, Dr. Wyburn, at Lubbock, this week. We people of this section are all very proud of this great college right in our front yard, as it were; also that a man of the ability of Dr. Wyburn has been selected to head the college. We are hoping for the new president and the college, the best of its many fine administrations.

Well, the great Dallas News comes to us in a very bob tailed form now days, with six to eight pages and no advertising. The Star Telegram has been condensing for some time, but with some general advertising. Of course it is lack of paper, and not so much manpower with the News and Star-Telegram, and us busy people get the news without turning so many pages. The News reminds us of the old Semi-Weekly Farm News, and its not anything disparaging to say that. The Farm News was a fine old paper, and we liked to

read it even when we were taking the daily. In fact, we thought so much of the messages that the farm folks wrote, as well as other matter in the old Semi-Weekly, that we are preserving the last copy of it that was published in our vault, along with the first edition of a number of magazines, among them, Life magazine. The Dallas Morning News in normal times printed from 24 to 28 pages week days, and many more Sundays.

Sometimes we really get burned up. Only this week the West Texas Chamber of Commerce sent us, among other printable stuff, the copy of an editorial, which they stated was from a West Texas daily, advocating re-districting the state in Senatorial, Representative and Judicial districts, so that West Texas, and particularly this section of west Texas, get its just representation, in accordance with the taxes we pay. They also suggested that we originate something ourselves. Well, we'll be dingbusted. If one will come and go through our files for the last 35 years, they'll see that we have been hammering at equal representation for west Texas for that length of time, for they were slow about redistricting after 1910 and 1920. Yes, sir, we were advocating redistricting and equal taxation when lots of the present editorial writers were wearing three-cornered pants. In fact, we sometimes advocated a State named West Texas, with our own capitol, and we staged a debate on the subject between high school students here as early as 1910 in division of the state, in the old district court room one night, and the judges gave the decision to the affirmative. H. R. Winston, well known here, was one of the debaters on the affirmative. But of course this is

just a little, small town weekly, and the WTCC, like a lot of other big organizations don't think much of their influence. In the past year, we have written a number of editorials calling attention to the fact that our 119th representative district had 130,000 inhabitants as of 1940—many more now—whereas others, no further away than Parker county, have 30,000 or less. Well, WTCC, we are still agitating, and perhaps will keep it up as long as we can mash down a typewriter key. And we don't need copy from some daily.

B. M. Bailey of Fayetteville, Ark., writes that they can't do without the old home town paper, and encloses two bucks. Bruce's wife is the daughter of Mr. and Mrs. P. F. Bruce of this city.

Mr. and Mrs. L. C. Green were in shopping, Tuesday.

**A Time for Planting . . .**

THE broad lands of Europe and Asia, freed of the oppressor, can now be planted again. The farmers in Russia and Poland and other ravaged countries can raise food to banish the specter of starvation . . . if they get the seed.

You can help them make their fertile acres fruitful once more. You can bring them new hope, new faith, and a chance to grow their daily bread. You can help—with your gift to your local War Fund this year.

Through this fund, not only is seed provided for fellow farmers, but a host of other kindly things are done for our own and our allies all over the world.

This once-a-year war drive provides such vital necessities as books and sports equipment for prisoners of war; entertainment for millions of Ameri-

can boys through the U. S. O.; medicines and surgical equipment for our fighting allies; aid for struggling China; help to men of the merchant marine who often lose all their possessions to the hungry oceans.

The money you give will yield many-fold. Give once—and you give to many organizations engaged in sowing good will. The need this year is very great. Won't you try to increase the amount you gave last year?

THE OLD JUDGE SAYS...

"That's really a great editorial you just read to us, Judge. Where did you say it appeared?"  
"In 'The Stars and Stripes'... the newspaper of the U.S. Armed Forces in Europe. Kind of gives us folks back home something to think about, doesn't it, Bill?"  
"It certainly does, Judge. Particularly the last paragraph. Would you mind reading that again?"  
"Glad to, Bill. It says, 'We can remember

the days of prohibition, when moonshine whiskey made quick fortunes for bootleggers, crooked politicians and dishonest police officials. As a result, we claim we know what we want in the way of liquor legislation and feel those at home should wait until we return before initiating further legislation on liquor control."  
"Out of fairness to our boys over there fighting, Judge, how could we disobey such a wish?"

**Mahon Bothered About Grain Prices**

In another section of the Herald will be found a form letter from George Mahon about the grain situation. In a personal letter, his statements were just as concerned, and he has rolled up his sleeves for a battle for better prices for our millions of bushels of grain sorghums.

As soon as the election recess comes, after a few days of unfinished business with government agencies, he stated that he would come home, and render whatever assistance he can toward bettering grain prices.

In the meantime, we should remember that local grain dealers have nothing to do with price control. They would like for grain prices to have remained high. In fact we guess that some of them paid more for grain than they can sell it for now.

**PERSONALITY**

It's a wonderful thing—this thing we call personality—which includes your appearance, your manners, your voice, your conversation, everything about you that impresses you on those with whom you come in contact as an individual, different from every other person in the world. You do not have to be beautiful to have a charming personality. You do not even need to be wonderfully clever, but you do have to be careful, courteous, always be at your best.

Ed Thompson, wife and daughter, Mrs. Forrest Ernest, were in this week. Ed had his wife bribed not to tell us she came in to wash while he loafed.

Mr. and Mrs. Ray Darwin and two sons, Jimmy and Tommy, of Portales, New Mexico, visited in the Walter Hord home, Sunday.

**THE ART OF GETTING ALONG**

Sooner, or later, a man, if he is wise, discovers that business life is a mixture of good days and bad, victory and defeat, give and take.

He learns that it does not pay to be a sensitive soul—that he should let some things go over his head like water off a duck's back.

He learns he who loses his temper usually loses.

He learns that all men have burnt toast for breakfast now and then and that he shouldn't take the other fellows grouch too seriously.

He learns that carrying a chip on his shoulder is the easiest way to get in to a fight.

He learns that the quickest way to become unpopular is to carry tales and gossip about others.

He learns that it does not matter so much who gets the credit so long as the business shows a profit.

He learns that buck passing always turns out to be a boomerang, and that it never pays.

Lee Slater, manager of the Annie Armstrong ranch in Yoakum county, was in the past week. We are going out as soon as gasoline and tire conditions get better to see their fine herd.

Rain is usually such welcomed life saver to West Texans, that they seldom complain, even at a deluge. We are not kicking now, but many farmers are of the opinion the 3-10 inch rain of Tuesday and Wednesday was rather unnecessary.

### Cpl. J. H. Jenkins Weds Miss Helen Watson

Miss Helen Watson, daughter of Mr. and Mrs. J. R. Watson of Brownfield and Cpl. John H. Jenkins, also of Brownfield, were united in marriage Saturday evening, September 23rd, at 8 o'clock, in the home of the brides parents, 101 E. Broadway, Rev. A. A. Brian, minister of the First Baptist Church, performing the ceremony.

The altar was decorated with baskets of dahlias in gold and bronze. Bronze tones were used as decorations throughout the house.

The bride was attired in a two piece white jersey dress trimmed in gold sequins, with brown accessories. She carried a white leather Bible topped with a white chrysanthemum, tied with streamers of white satin ribbon.

Miss LaVerne Watson, sister of the bride, was bridesmaid. She wore a blue tailored suit with beige accessories and her corsage was a gold dahlia.

Monroe Rowden served as best man.

A reception followed the ceremony. The table was laid with a lace cloth, centered with gold dahlias flanked by gold tapers in crystal holders.

The three tiered wedding cake was cut by the bride and groom. Mrs. Roy D. Harris, sister of the bride, presided at the punch bowl.

Mrs. Jenkins chose a brown wool suit with aqua accessories, to wear on the short wedding trip.

The bride is a graduate of Brownfield high school, class of '43. For the past year she has been employed at the County Clerks office for the past year.

Cpl. Jenkins, son of Mr. and Mrs. J. H. Jenkins, city, is a graduate of Brownfield High School, in the class of '42. He has been in service since Oct., 1942. He graduated from radio school in July from Sioux Falls, S. D., and recently received his wings from gunnery school at Yuma, Ariz. He will return to California after a short furlough.

Guests at the wedding were the immediate families of the couple. Out of town guests were Mr. and Mrs. C. P. Griggs and John Ervin, of Monahans and First Lieutenant Keller Greenfield, who has recently returned to the states from overseas.

### Are We Mice or Men?

The determination of the Department of Justice to fasten the claws of federal regulation on fire insurance by having it declared "interstate commerce," jurisdiction instead of leaving it thereby dragging it under federal control of the various states as it long has been, is just to make states' rights secondary part and parcel of the program to a super-centralized government. If insurance is interstate commerce, so is most anything the bureaucrats wish to so designate. Certainly a new paper would be if one subscription crosses a state line. If that is the case, federal control and domination of the press is but a matter of time and desire on the part of those in power.

The insurance industry and the various state insurance commissioners, in seeking to preserve state regulation of insurance from domination by federal officeholders, are fighting a menace which, if carried out, will ultimately engulf the independence of every state, industry and individual in the nation. They are opposing the hated totalitarian form of government which sought to rule the world, and which tens of thousands of our boys are dying on battlefields to prevent.

It wasn't so long ago that we scoffed at the idea that we faced such a menace from abroad. Are we going to scoff at the idea that we now face the same danger, or menace, at home? It is high time we opened our eyes and began to fight every move that seeks to subjugate the state and the individual, by making them subservient to a federal bureaucracy.—Industrial News Review.

Mrs. Reba Zorns and Donnie returned Tuesday after visiting last week end with her mother in Perryton.

Ike Bailey and Everett Latham spent the first of the week in Dallas on business.

Mrs. John L. Cruce left last week for Baltimore, M. D., to visit her husband, Pvt. John L. Cruce.

Miss Evelyn Jones left Wednesday to go to Dallas where she has accepted a position with an air line. Mrs. Mark Olson and the Misses Gertrude and Sue Jones accompanied her to Dallas.

Earl Diagnosis Means  
Much in TB Fight

Austin, Texas, Sept. 28.—Urging the importance of early diagnosis as the surest avenue of recovering from tuberculosis, Dr. Geo. W. Cox, State Health Officer, asserts that the danger of this disease lies not so much in its virulence as in its insidious attack.

"If a tuberculosis patient realized his plight in the earliest stages of the disease, immediate treatment could very likely save his life," Dr. Cox said.

The victim usually has sufficient warning of the onset in the but all too frequently ignores them.

"The warning signs are usually noticeable enough to attract attention," Dr. Cox said. A cough that persists, loss of weight, easy tiring—if any of these symptoms are present, delay in seeking proper medical attention only lessens the chance of arresting the disease.

"It is the better part of valor, in the presence of such symptoms to seek the advice of the family physician without delay." Early diagnosis and early treatment are the real foes of tuberculosis. To deprive oneself of this immeasurable advantage results at best in a long period of treatment, and all too frequently in premature death.

Dr. Cox emphasized the fact that babies and young children can pick up the germs of tuberculosis just as readily as any other disease. He stated that on no account should they be kept in rooms with infected persons, use the same dishes, sleep in the same beds, or come in any other intimate contact with tuberculosis patients.

Mr. and Mrs. J. J. McGowan and daughter-in-law, Mrs. Billie Joe McGowan, left early last week for San Francisco, to see Lt. Billie Joe, who phoned his parents he did not know how long he would be there, but wanted them to come if possible.

Mrs. Oceanrider, a former resident of Brownfield but now of New Mexico, is here this week visiting Mrs. Etta Gillham.

Instead of summer and winter, the tropics have wet and dry seasons, while in the polar regions the year is marked by light seasons and dark seasons.

MAKE GERMANS REBUILD  
THE NATIONS THEY  
RUINED

Suggestions as to do with the Germans after the Allies reach Berlin are as thick as the trees in the forest. But here is a suggestion from a writer in PM that strikes us as being the best one made yet.

First, execute all officers of the German military forces, land, sea and air; all members of the Gestapo and all political office holders from Hitler down.

Second, restore the different parts of Germany to their original status held before the war of 1870.

Third, send German soldiers into countries devastated by the war to repair the damage done. German women are accustomed to working in the fields and conducting business in Germany, and they can get along.

Sounds pretty ruthless, doesn't it? But a nation that goes in for wholesale looting and murder of its neighbors, which destroy billion of dollars worth of property built up by the patient labor of others, which deliberately adopts a policy of slaughter and extermination of millions of helpless civilians—well, such a gang cut throats has little reason to expect leniency for its crimes against humanity.

The greatest mistake the Allies could make toward Germany would be to adopt a policy of "let bygones be bygones." In any any civilized country looting must pay the penalty.

In the absence of a world government the allies should inflict such retribution on the saboteurs of the Reich that Germany will hereafter be convinced that crime doesn't pay.—The Union Gazette, San Jose, Calif.

Moral Courage

Only three dangers seem big enough to threaten America's direct course to post-war prosperity. They are (1) scarcity of capital, (2) loss of foreign markets and (3) government bungling in matters of business. Two previous chapters of "Looking Ahead" discussed the first two obstacles. Either of them could wreck America's hope of world leadership; both can be avoided.

The courage of our people to brave the first two hazards depends on knowing what government means to do about the third. By investing the cost of six months of war, industry can create the 7 to 10 million new jobs needed. Competent American workers can make these jobs pay good wages and returns on the investment. Industry and labor can succeed together with favorable government regulations.

Stalling and delaying at the war's end may, in three ways, stop all progress of labor and industry back toward prosperity. Indeed one obstruction can keep recovery from even starting, might wreck Private Enterprise before it starts. Taxation is the deadly tool. No new laws are necessary. Many a small industrial plant will never turn a wheel after the emergency until present tax laws are changed.

A factory in Texas works 150 men. I know the owner. His taxes ran \$1,000 a day last year, about the same as his pay-roll. He manages today because the government takes his complete output; no risks to run, no selling to do. After the war it will be different: Uncertain demands, sure selling costs, competition to meet. Without tax relief he does not see how he can afford to take such risks.

Time Has Value

The case is typical. Most manufacturers believe tax revisions will come, but they fear delay. If work starts on a new tax bill after V-Day, it will be a year in the making and a serious business depression can get under way in that time. If employers might know today how peace-time taxes will be figured, they could estimate prices and shift into post-war production and employment without a shut-down.

Something else business men can't wait for too long: News about government competition. The U. S. owns outright 25 per cent of the nation's manufacturing plants and equipment. Will these be sold into private ownership, or what? If supported by taxes, such plants could make anything from foot-valves to lighting rods and leave the employees of bankrupt competitors weeping in the streets.

Sedition is Unlawful

Sabotage is government's third fear to remove. Alien agitators unmuzzled in this country can be expected to start promoting revolution as soon as hostilities have ceased. Many new-made Americans still hold slave-land notions and believe anything that injures their employer helps them. Arson, violence and vandalism should be restrained in years when life and liberty depend on efficiency.

The world's only free people must stay free. Independence must be retained by the world's only nation not reduced to beggary. No sane baseball player would go to bat with two strikes on him, and, by the same token, America's rational business men deserve an open statement of government policy on three things: (1) taxation, (2) sedition and (3) government competition. If government will clear the track, industry will come through.

Only thing that has got me worried about the Russians are those 220-gun salutes they fire in Moscow and Leningrad celebrating each big, new victory at the front. I'm afraid they'll fire so many of those salutes that they'll run out of ammunition.

When a fellow says, "Not changing the subject," you can be sure that is exactly what he is going to do.

In Houston recently, a blind man selling papers across the street from the Rice Hotel was singing, "Oh, what a beautiful morning! Everything's coming my way."

A lesson in happiness.

If we get a few more war correspondents overseas, we'll have a newspaperman for every soldier.

Before the invasion, it was announced that 85 American newswriters and 25 English journalist were poised for the attack. The writer of this "column" is a newspaperman and can be counted on to uphold the rights of the press—but this war is not a sports spectacle, a heavyweight championship prize fight or a World's Series baseball game; it's a mighty struggle to save the world from slavery and thousands have given their lives thus far.

The space in planes and ships taken up by great swarms of news-chasers that have swooped down on England, Europe and the South Sea Islands could have been occupied by food and medical supplies for fighting men.

Of course, there should be some correspondents over there

but not so many that they get in each other's way and do such things as sending out the fictitious report that General Patton landed in France, waving a thousand-dollar bill, offering to bet he would beat any other general in Paris. (General Patton says he has never seen a thousand-dollar bill.) Nor were those correspondents who ignored military regulations and sent out unauthorized broadcasts from Paris helping the standing of the press with the public.

On the recent flight of a plane across the Atlantic, by the way, there were on board nine members of the armed forces and eight newsmen.

And the worst of it is that so many of the scribes remain there five or six weeks and then come back and are "experts"—and just must write a book!

Fight Farm Fires

For-H Club boys and girls are encouraged to take part in Fire Prevention Week, Oct. 8-14, to help reduce the annual loss of 3,500 lives and \$100,000,000 worth of property in fires on American farms. More than 85 percent of these fires were preventable, according to authorities.

Many of the rural youth in this state are enrolled in the Mennen 4-H Farm Safety Activity, one objective of which is to have participants check and remove fire hazards on their own and neighboring farms. During Fire Prevention Week, the 4-H'ers may make an end of the year survey to help eliminate every possible hazard as a protection to farm families and properties. Meritorious work in this activity will be recognized on county, state, sectional and national levels with medals, War Bonds, National 4-H Club Congress trips, and \$200 college scholarships, respectively. A plaque also will be presented to the county reporting the most outstanding 4-H safety program in 1944.

Fire prevention experts reports that usual causes of farm fires are defective heating and electrical equipment, chimney or brush sparks falling on inflammable roofs, spontaneous combustion of hay, carelessness in smoking and in use of matches, and improper storage of gasoline and kerosene.

### I GIVE YOU TEXAS

Just about the biggest bargain a man can buy, when you consider the trivial sum involved, is a dime package of smoking tobacco. You can cram a little into your pipe and your thoughts are wafted away on the puffs of fragrant smoke. At least the smoke is fragrant to you, because you are doing the puffing.

If you're smoking in a group of friends, the deliberate draws cause you to mature your thoughts before uttering them and maybe the result will be something ripe in wisdom and rich in homey philosophy. At any rate, a pipe requires enough effort to use and it occupies a man's mouth to an extent it will keep a fellow from saying so many foolish things.

All of us can utter philosophic wisdom as long as the trouble is not our own. Kipling coined a great simile when he wrote, "As cheerful as a man watching another's house burn down."

Which reminds me of the story of the individual who called on a friend in jail and trying to cheer him up, said: "Remember what the poet declared, 'Stone walls do not a prison make nor iron bars a cage.' The man behind the bars said, 'Well, they make a pretty good substitute.'"

It's Major Tom King now. The former State Auditor was recently advanced from the rank of Captain. He is in the Air Corps.

Major King is a Texan who came from Tennessee. Some of the finest Texans came from the old Volunteer State—Sam Houston and David Crockett, for example.

There comes to mind an experience that King had a good many years ago when he was auditing the financial affairs of a town in West Texas that was in pretty bad shape. The Auditor questioned the man who had handled the sale of the municipality's bond issues. It seems that when the town couldn't pay the interest on the outstanding bonds, it issued another set of bonds to pay the interest on the first—and, when it couldn't meet the inter-

### Texas Prison Rodeo October 8-15-22-29

The Texas prison wants us to tell folks about their revived annual Rodeo on each Sunday of October, beginning the 8th. The rodeo was a war casualty as of 1942. But being as how Huntsville is 500 or 600 miles from Brownfield, and pre-Pearl Harbor tires are what they are, and gasoline rationing is what it is, we don't think many will attend from here.

However, should Monroe Telford, our sheriff, have a yap to carry down there to take up lodging for an indefinite time, maybe he might get a lookin on the rodeo. We have some of their windshield stickers for your car, if anyone wants to risk being taken up as an "escapee."

You know, talking about things being indispensable—this and that, etc.—I put on my specs and got to checking up. Research I guess I should call it. Research would sound more intellectual, but I don't try to fool anybody—so I will stick to "check-up."

But any way I went a way back—been digging deep. Every clue peters out. Have not found a solitary indispensable thing—man, beast or otherwise. Back as far as early Egypt—they finally found out that they could limp along without the mighty Pharaohs. And all the way from them until now it has been the same.

And in material things versus persons, folk's use to say they couldn't get along without feather beds. Also they said that lightning rods were indispensable, and you flirted with disaster without same. And today, look at mama and her silk stockings.

Yesterday was Act I.

Same beachhead scene. Same—except today there are no screaming bombs, no burning tanks, no convulsive shells tearing big holes in the ground. Same scene, but today the guys up there on the beach put on the show.

They're ready for Act II. They've pushed the enemy back a few miles. Here comes Act II. Here comes the U.S.O. Camp Show!

Our boys NEED this show. They need it desperately, like starving men need food. For an hour or two they'll go back to America... back to Broadway, Hollywood, Main Street... back a thousand miles from this beachhead. They need to laugh, to forget.

They NEED it, understand?

Thanks to the folks back home, U.S.O. Camp Show units have played in every combat zone, often immediately behind the front lines. More than 90 units are playing the "Foxhole"; more than 80 units appear regularly at camps and hospitals in the western hemisphere.

It costs money to operate the world's biggest theatrical circuit. Even though most stage and screen stars donate their services without charge, it still costs a lot of money to send hundreds of

### First Aid for the Meat Bill

By KATHARINE FISHER and DOROTHY B. MARSH  
Authors of The Good Housekeeping Cook Book

WITH such heavy demands being made on our supply of meat for war needs, it becomes the patriotic duty of every homemaker to know the meat cuts available in her markets, and to make her meat purchases count for just as much as possible in her family meals.

These tips will help you to buy meats economically:

- For ground or chopped meat, buy such less demanded, less expensive cuts as flank, chuck, plate, breast, shoulder, etc. Grinding makes them tender and delicious.
- Always ask for the meat bones and trimmings. The bones simmered with soup greens, make a delicious vegetable soup. The fat trimmings can be tried out and used in sautéing, etc.
- Frequently use beef, pork or lamb liver instead of calves' liver. The food value is the same and the cost is far less.
- Flank steak, broiled 5 min. on each side, and then sliced diagonally across the grain is a less expensive, delicious steak.
- Simmer shanks or hocks of beef, veal, lamb or pork with vegetables. The cooking water makes good soup stock for a second meal.
- Don't throw out bacon, sausage or ham drippings. They're just the thing for frying codfish cakes and sautéing fried potatoes, mashed potato cakes, fish fillets, eggs, slices of tomatoes, half bananas, etc. Here are some tasty ways of cooking less expensive meats:

#### Margaret's Meat Balls

(Page 219)

- |                    |                    |
|--------------------|--------------------|
| 1 lb. chuck beef,  | 1 egg, beaten      |
| ground             | 4 sprigs parsley,  |
| 1 minced medium    | minced             |
| onion              | 2 slices dry white |
| 1 peeled garlic    | bread              |
| bud, minced        | Salt               |
| 1 tsp. lemon juice | Pepper             |

Combine the beef, onion, garlic, lemon juice, egg, minced parsley, and bread, which has been sprinkled with a little water and broken into crumbs. Blend well, then form into small patties or balls. Sauté in a little butter, fat, or salad oil until golden brown on both sides. Sprinkle with salt and pepper while cooking. Makes 6 patties. Serve with tomato or Spanish sauce if desired.

Serve with macaroni and cheese, parsley-buttered carrots, red cabbage slaw, enriched bread, baked apples and coffee for dinner.

#### Beef Liver Patties

(Page 271)

- |                  |                  |
|------------------|------------------|
| 1 lb. beef liver | Speck pepper     |
| 1 medium onion,  | 4 tbsp. bacon or |
| peeled           | other fat        |
| 1 tsp. salt      |                  |

Put liver and onion through food chopper, using medium blade. Combine with salt and pepper. Heat bacon fat in a skillet; then drop liver mixture into it in the form of patties about 3" in diameter. Sauté over medium heat until patties are brown on both sides and cooked through. Makes 11 patties and serves 4-5. Lamb or calves' liver may be substituted for beef liver.

Serve with potatoes in jackets, creamed cabbage, lettuce salad, and lemon meringue pie for dinner.

### The South Plains Has The Best Crops

The South Plains is nearly always ahead, and are again this year. The past weekend the Old He and lady took a little jaunt down to Brownwood to see the kids, Herman, Sallie and Buddie Trigg. Buddie is just a dog, but if we failed to mention him, or take on over him when we arrived, he would feel highly insulted. Picked up a niece, Miss Letha Nell Roberts, at Coahoma, where we stopped for a rather early supper, as she has a classmate living in Brownwood.

Crops are fine to Lamesa, but from there to Big Spring, they show the effects of a long, dry, hot summer. Feed in some places was badly burned, and cotton seemed to have shed some during the hot days of August, but they will make plenty feed for home use, and fair to good cotton in places. The crops from Coahoma to Brownwood, through Abilene are very spotted, the best ones being in Mitchell county. But the worms are sure working over their cotton, and grasshoppers are real bad in the Brownwood area.

Found the folks fine, and enjoyed the melons we carried them, along with one big one complimentary of C. Sears, and a sack of ripe tomatoes for the kids, and a big melon for G. M. (Mack) Thomason and wife. Carried their melon out to Camp Bowie, where they live, Friday, but Mack was off at work. Feature him working? But he came by the camp out at the lake Sunday morning with Mrs. Thomason and her parents, Mr. and Mrs. Hester, headed for an all day singing with their lunch. He and wife came in for a short visit.

Had all the fish we wanted. Friday was a good fishing day but the lake was rough Saturday. They had the ice boxes full when we arrived Thursday and caught a nice lot Friday. Spent most of the time out at the lake, but

again they failed to get us out in a motor boat. All the rest of the folks did, leaving us to read and sleep. We doggone near caught up on sleep while down there. Also eating and reading.

**Tragedy Stalks the Neighborhood**  
And while we were enjoying much of the pleasures of this world there was death nearby. The morning of the night we arrived, a next door neighbor to Mrs. Graves' house at the lake, took his life with a shot gun. Then Saturday, an army plane from the Abilene field, trying to fly too low over Brownwood lake, hit a high line, and wreck-

ed, sinking on its back. The Lieutenant managed to extract himself from the wreck and was rescued by a motor boat. Camp Bowie Army engineers were raising the wreck to get the body of the other man out when we left Sunday. This happened within a mile of the boat docks. But despite these things, we had a grand trip, perhaps the last one for sometime, as fall is on, and we are still short handed.

Mr. and Mrs. Lee O. Allen have returned. Mr. Allen attended business in Dallas and Mrs. Allen visited Mr. and Mrs. Dewy Sullivan, in Vera, Texas.

### Spring Garden Report

This spring the average Victory gardener in Texas raised 882 pounds of vegetables worth \$135.57.

A report from county extension agents and war food assistants shows that families reached by the A and M College Extension Service gardening program in Texas numbered 699,313 and these produced more than 6 hundred million pounds of food, valued at nearly \$95,000,000. The three state extension workers who compiled the report Jennie Camp, F. J. Roseborough and C. R. Heaton, believe that fall gardens and those not reported by county Extension agents, will bring the state total about Texas' goal of one million for 1944.

Naturally the fall gardens produced the most, food, averaging 1,414 pounds and valued at \$222.17. The 34,812 4-H Club gardens showed a higher average value of \$281.69.

A total of 327,370 city gardens about 366 pounds each and were valued at \$36.17 per garden. In studying the garden practices followed by the reporting found the largest numbers—about two-thirds—had controlled insects. About a half had saved vegetable seed for later planting, and one out of six had disinfected seed before planting. In sections where gardens are often damaged by wind, nearly 15,000 families reported providing protection of windbreaks. Along with their regular gardens, 16,220 families reported having frame gardens, and 4,751 reported the use of tile for sub-irrigation. Nearly nine thousand families had tub gardens.

Mrs. Cousineau has returned to her home here after she and sister, Mrs. J. S. Brock, of Duncan, Okla., spent a month visiting friends and relatives in Big Spring Lubbock, Seminole and New Mexico.

Mr. and Mrs. Arlan Hartzog and children are visiting her parents in Groom, Texas.

Mrs. M. E. Brown from the farm in west Lynn county, was in shopping, Wednesday.

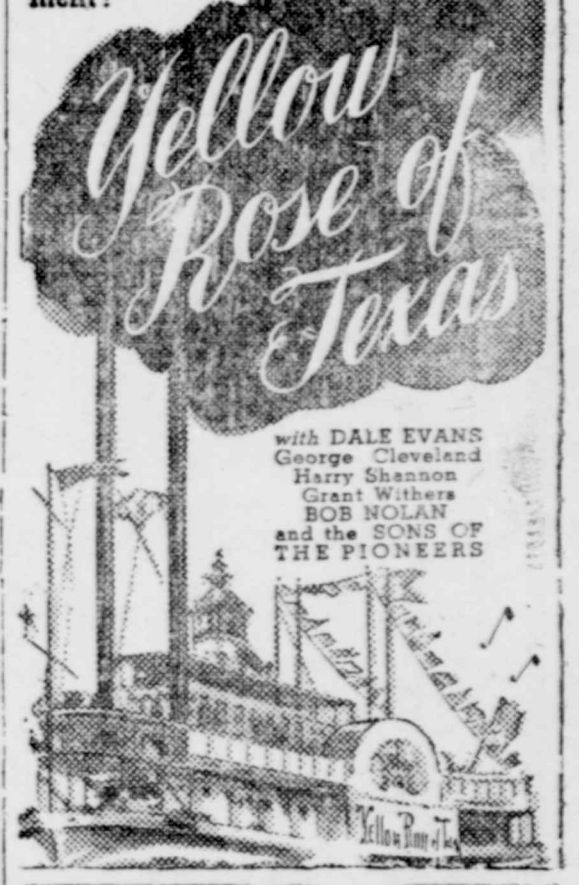

Rev. and Mrs. Ed Tharp of Seminole, were business visitors, here Monday.

# PINCH HITTER - with a Steady Job

Almost overnight, tires made of synthetic rubber were called upon to do a vital job of pinch hitting. The new U.S. Royal DeLuxe Synthetic scored an instant hit. Today, that pinch hitter has a steady job! Reports from every section are piling in telling of performance records close to pre-war natural rubber tires.

## Pfc. Billy Sims Enjoys the Herald

From the Island of Oahu of the Hawaiian group, we have the following letter, dated September 16th.

"Dear Jack: Remember me? I am the little GI that is in the beautiful Hawaiian islands. Well, that is what everybody told me anyway. Just thought I'd tell you I enjoy your paper. I get it regular now, and I know how much the boys enjoy getting it that are much nearer Japan. It is a word from home to them. One thing I like so much about the Herald is that there is little war news in it. I get tired hearing about the war, and the Herald is somewhat a relief from that.

"I miss nearly everything that I have been used to in my life, over here. No place for an enlisted man to go. I am not writing this as a gripe, for I know what has to be done. Say 'Hello' to all my friends, my dad and mother, and there is a girl in the grocery business—tell her 'hello', also. Here is a bit of verse that will express my feeling about this place:

It's swell here on this tropic isle, Where scented breezes blow at night, I left my home back months and miles— You think I mind it? You're dam right! Hawaii's sports are lots of fun, With surfboard, spear and big canoe, The best resort beneath the sun— Do I wanta go home? You bet I do. Of the Hawaiian territory; I'd gladly give up all my part, Back home is where I left my heart, If she were here, that'd be another story.

Captain and Mrs. E. H. McKinny and Lt. and Mrs. H. N. May of Roswell Army Air Base, spent the weekend in the home of Mrs. McKinny's parents, Mr. and Mrs. Clyde Lewis.

Pvt. E. C. Paysinger has returned to his camp at Elks, Ill., after visiting his wife and children here and his parents at Hobbs, New Mexico.

### DON'T TALK OUT OF BOTH SIDES OF MOUTH

From down Midland way this week, we had a letter from an old friend, and an old timer, J. A. Forrester. He expounded as follows:

Dear Jack: "Another thing I always liked about you is that 'you couldn't talk out of both sides of the mouth.' And you will not this time. They talk a lot about Sid Hillman and CIO, but wouldn't you hate to swallow John Lewis? There is something wonderful about the way Mr. Roosevelt gets things done, pulling us out of that 'mess' of a depression, and leading us to successfully in this war; picking our greatest generals and cooperating with our allies.

"But a great many people here have prospered so MUCH in the last few years that they are about ready to join the Republicans, and that goes for the whole country.

"Glad that your health has improved, and hope the war will soon end and Jack Jr. can get back to help you run the Herald."

Mrs. R. M. Kendrick and Mrs. Spencer Kendrick left yesterday from Amarillo by plane for Sioux City, Iowa, to visit Lt. and Mrs. Richard Kendrick.

### WAC JONES HAILS FROM "HALF CIVILIZED TEXAS"

Another hot one comes from Paris, France, almost equal to the Patton thousand dollar bill. It is a story about a US army WAC named Mary Jones. The story goes that Mary Jones hails from a town of only 200 souls in a half civilized village of Texas.

All we have to say in reply to this Paris newspaper(?) is that these half civilized Texans have helped to pull the Frogs out of a very tight hole twice in the past quarter century.

News comes from Washington that OPA is allowing an additional quota of small sized farm trucks to care for the movement of cotton and grain in west Texas from farm to market.
