We had a form letter this week from the editor of the Gorman Progress that was addressed to various and sundry west Texas editors. The burden of the epistle was a united front to help "goober" farmers. To be outright and almost brutally frank with the Progress editor, The Herald does not intend in the least to try to get Terry or this area farmers to grow peanuts. We saw that tried a few years ago, and lots of them almost lost their land and shirts. Their land blew away, and their shirts were ragged, wornout and unpatchable. Seriously, a number of farmers did make a killing for about one year, but are just now getting their land back from some other direction. Farmers in this area have to plant something that will hold the land—not loosen it more.

We get a real kick out of looking at some people's signatures. There is a man near the Herald office that his "sig." looks like a bunch of horizontal and verticals that several cowboys were standing out and twirling their ropes around. We noted War Secretary Robt. P. Patterson's signature in an army ad recently. Passing up the Robt. and "P" which no one would have guessed if they had not known his initials, the "patt" part of his surname was pretty good; the "er" was fair to indifferent, but the "son" was just a long, straight horizontal line. We often wonder just how many hours of grade, high school and college time these boys take up making up an unreadable signature for themselves?

After reading a signed article in American Legion publication this week by one of the staff, we have reached the conclusion, and there is no other one to be reached, that the National Maritime Union has no more right to participate in the GI Bill of Rights than say, for instance an ordinance worker or one of the men or women employed in the dangerous making of the atomic bomb experiments at Oak Ridge, Tenn. In the first place, the NMU did not wear a uniform; they had the best of feed and beds; and along with a high salary and little disciplinary bosses, they drew big bonuses if in dangerous waters, a gallery worker sometimes carrying home as much as \$600 per month. They did just about as they pleased with Uncle Sam—but they had one big dictatorial boss—they had to join a union.

Well, the Old He is having to behave himself as the other two thirds has returned from a visit to Brownwood. But we sure had a fine time flirting with the ladies while it lasted.

Personally, we think that when the race track bill comes before the house and senate it will be killed off deadlier than a doornail. We are in agreement with Lorenzo Tribune, that the originators had more idea having some fun than getting the bill through. Although we also maintain that the funny stuff should be cut, as there is plenty serious stuff to be attended to by the legislature. The biggest fight on race track gambling outside of church people is from the city business men where the tracks are located. These merchants say many people of low

The Low Down From Hickory Grove

"More of versus and less of," is the subject today. And between the 2, I figure it is "more of" that ails us most. And to make my argument hold water, look at delinquency as a sample. The more social uplifters on the payroll, the more delinquents. Freedom, and "more of" same is another sample. The 4 freedoms caught us off guard, and is what we took down with first. Sounded great. But as she turns out, say you are pretty handy with a hammer and saw and think you will be a carpenter. Well, you won't—unless you sing up and pay-up over at the Labor Temple. More freedom, is not for carpenters.

And with all the "more of" freedoms—along comes March 15. And anybody who can say something good for March 15th, he has gotta be on Uncle Samuel's payroll, some place or other.

And up and down the line—if you were to get more electric light for less with the Govt. turning on the lights, you find out about that too, an March 15th. And if the power-house is in Texas or Tennessee and you live in Maine or Nevada, you dig up just the same.

All in all, we have been fooled long enough. "Less of" is what we been needing, and didn't know it.

Yours with the low down,
JO SERRA.

income brackets will be enticed to take a chance on some old plug that couldn't head a sand lizzard down a ditch bank, lose all their money and put off paying their bills, and in the end wind up leaving the section and all bills behind them. No, we do not need any licensed race tracks in Texas. We have too much gambling as is—a lot of it in private homes with the blinds all down.

Down at Austin they are talking of upping the taxes of the oil and sulphur companies on raw products. That is always popular with the "people" when new taxes are needed. But the sulphur and oil boys are the greatest old dodgers on earth. They step out of the way of the missile aimed at them, and let the "peepul" have it right between the eyes in the form of upped prices of gasoline, oil, sulphur, etc. But if that is the only way for the legislature to get all the money they wish to spend, despite the fact that they and Gov. Jester cried "no new taxes," let's have the tax on natural resources. The guy that uses the road most or dusts his cotton most will pay the taxes, and perhaps not know it.

Editor Buford Davenport of the Abernathy Review, until recently had a more or less secret ambition to get out one issue of the Review without an attendant string of errors in spelling names and places. It can't be done, so forget it. Not only that, but we make plenty grammatical errors. By having them, Buford, you find out whether or not people are really reading the Review. The ordinary subscriber to a weekly newspaper will pass and re-pass you with a poker face for years, and so far as you can guess, he never gives your doggoned old paper a glance. But just misspell his name or tell something on him he should order not have been doing, and you'll find he reads all the stuff down in the lower right hand corner of your weekly endeavor. Right here in Brownfield, people we have known and traded with 30 or 35 years still insist on spelling our name "Strickland" instead of Stricklin.

Field Seed Found Low In Germination

LUBBOCK, March 13—Seed germination tests to date indicate that seed from red top or sumac cane and from sudan grass harvested after frost last fall have a comparatively low germination rate, according to Dr. A. W. Young, head of the plant industry department at Texas Technological College.

Good seed will germinate more than 90 per cent, Dr. Young said, while much of last fall's late maturing crop has a rate of 60 per cent or less.

Farmers should have seed samples tested, either at the state agricultural department's seed testing laboratory in Austin or at a commercial plant, Dr. Young suggested. If the germination rate is low, producers will likely find it more profitable to sell their seed for feeding purposes than to plant extra seeds, he said.

We do not know what additional facts may have been revealed or what remedial action may have been taken when this paper reaches the reader, but certainly enough has been brought to light to convince the people of Texas that the board of pardons and paroles has been using very slipshod methods to say the least of it, in granting or recommending paroles and pardons in this state. By the admissions of the chairman of the board himself, a number of very "glaring mistakes" have been made. When any such board turns loose on the people a bunch of hardened criminals who have been sent to the pen to serve long terms after they have served only a short time, and especially where the convicts have been sent up four or five times, then something appears to be rotten in Denmark. We have seen no evidence to the

NEWSPAPER ADVERTISING LINAGE

Reports from 34 Texas newspapers to the University of Texas Bureau of Business Research show a 16 per cent slice in advertising linage between December and January.

The volume of newspaper linage jumped 20 per cent above the January 1946 level, however, and was slightly above the total for December 1945.

effect that any member of the board has acted corruptly but some of them have been indiscreet to the point or recklessness in handing out pardons and paroles. We feel that the chairman of the board should resign—that his resignation should be demanded if he is not liable to severer punishment.—Lynn County News

GI Question And Answer Department

Q. Am I eligible to receive a pension or compensation if I signed a statement at the time of my discharge saying that my disability existed prior to my enlistment?

A. Under the Servicemen's Readjustment Act (GI Bill) any statement of this nature you have made at the time of discharge is considered null and void.

Q. If I am eligible for three years of schooling under the G. I. Bill, does that mean three school years or three calendar years?

A. If you are entitled to three years of education or training under the Servicemen's Readjustment Act (GI Bill) you are eligible to three calendar years (36 months) of education or training. This may be used up in four ordinary school years of nine months each.

Q. Am I eligible for education or training if I was in the army less than 90 days during World War II and was discharged for a service-connected injury.

A. Yes.

Q. May a veteran of World War II who is receiving retirement pay pursue a course of training or education and receive subsistence allowance?

A. Yes; if he is otherwise eligible.

Q. Does Veterans Administration have to approve my course of education under the G. I. Bill?

A. No. Any eligible veteran may elect his course and choose any state-approved educational institution in which he is able to enroll.

Q. Does the name "United States Government Life (converted) Insurance" include "National Service Life Insurance"?

A. No. "United States Government Life Insurance" is insurance issued to World War I veterans or to persons who applied for same while in active service before October 8, 1940. "National Service Life Insurance" is insurance provided for World War II veterans. Each is sometimes referred to as "Government Insurance" and each is administered by Veterans administration under authority granted by Acts of Congress.

Q. How many offices does the Veterans Administration have and where are they located?

A. The Veterans Administration has a central office in Washington, D. C., and 13 branch offices located in strategic centers of population. In addition it has one or more regional office field stations or sub-regional offices in each state. Some of these are larger and have wider activities than others but all are charged with the duty of assisting veterans and their dependents.

Q. What identification data should I give in writing about my claim for benefits administered by the Veterans Administration?

A. If you are making application you should give your full name, grade, organization, serial number, date of entrance into service, date of discharge and date and place of birth. After the claim is filed it will be assigned a claim number which should be mentioned in all subsequent communications.

Fifty five farmers' cooperative marketing associations were organized in Texas last year.

Veterans News

A total of 28,543 war veterans were admitted to Veterans Administration hospitals in Texas, Louisiana and Mississippi during the calendar year 1946, VA reported this week.

Although comparable statistics for the preceding year are not available for the Southwest, the area's increase in veteran hospitalization probably parallels the national figure of 61.3 per cent.

During the same period, beds available for treatment of veterans in VA hospitals in the tri-state area increased 44 per cent to 7,745 beds at the end of 1946.

The number of VA hospitals increased 38 per cent from eight to eleven. Dallas Branch Area hospitals are at Dallas, McKinney, Temple, Amarillo, Legion and Waco, Texas; New Orleans and Alexandria, Louisiana; and Jackson, Gulfport and Biloxi, Mississippi.

The greatest number of veteran patients—about 82 per cent—were general medical and surgical cases. Next were neuropsychiatric patients, amounting to 12 per cent. The smallest group was tuberculosis patients, comprising 6 per cent of the total.

At the end of the year, 2797 neuropsychiatric cases in these VA hospitals were classified as psychotics. Another 411 were veterans with neuropsychiatric disorders other than psychosis, such as psychoneurotics, character and behavior disorders and organic conditions of the nervous system.

The disparity between the comparatively small number of neuropsychiatric patients admitted to VA hospitals and the large number under treatment at the end of the year results from the long periods these patients must spend in hospitals under treatment.

The number of loans guaranteed for veterans in the Southwest increased nearly 13 per cent during February over the preceding month, the Veterans Administration reported this week.

A total of 48,908 loans representing a value of approximately \$250,000,000 has been guaranteed by the Veterans Administration in Texas, Louisiana and Mississippi.

Loans guaranteed to date for Texas veterans number 38,337. Louisiana veterans have received 7,128 guaranteed loans and Mississippi veterans 3,443.

It's A Hot Potato And It's Not Ours.

At the recent Juvenile Delinquency Conference, the President is quoted as having said that the roots of juvenile delinquency lie in the homes, in the schools, the neighborhoods and the churches.

Mr. H. I. Phillips, well known newspaper man of Chicago, dis-sents:

"Name me a school in America that glorifies gun play. Point out a church that leers at marriage vows. What home glamorizes murders, alcoholism, stickups, lust and loose living?"

"Children don't get their ideas of quick, detachable marriage vows and the haystack love motif from going to church."

"What church ever boosted the idea of sleazy wayside taverns, the street corner liquor store? What school ever put over the cocktail lounge, the dime a dance hall, the double entendre radio joke?"

"The schools, the homes and the churches are doing what they can against a terrific battle and against every handicap."

Bayne Price wrote in this week that he was not getting his Herald out in good old Yoakum, although he had paid it up to 1951. Why in heck did you wait that long to bristle up, Bayne. Here she comes again.

A Fire In USA Every 53 Seconds

Every 53 seconds a fire breaks out in the United States. Every two minutes an American dwelling catches fire. Every fifty minutes someone dies in a fire or from burns.

These grim truths were recently aired over the radio, by State Fire Marshal McCormack of Tennessee, who spoke on one of the weekly nationwide broadcasts sponsored by the National Board of Fire Underwriters.

Mr. McCormack observed that nearly 1,000 fires occur in homes alone each day—and a total of more than 650,000 fires happen in this country annually. Ninety per cent of all these fires are the result of some careless act. "Careless use of matches and smoking" he said, "account for 30 per cent of all fires. . . . Defective wiring and appliances, faulty cooking and heating stoves, and carelessness with gasoline and other inflammable liquids account for 46 per cent more."

At the end, Mr. McCormack urged his listeners to organize their own fire prevention programs to correct the common hazards of fires in homes. This is the very essence of fire control. National and community campaigns, vital as they are, cannot do the whole job. The problem of fire prevention comes down to every home and every resident within it. And that is simply a way of saying that the problem of fire prevention comes down to you!

Sheet Steel Holds Up Buick Production

Harlow H. Curtice, Buick general manager and vice president of General Motors, said today that the shortage of materials, especially sheet steel, still is "the major limiting factor" to an accelerated rate of automobile production.

Curtice forecast a total industry production of 3,500,000 automobiles during 1947 against an output of 2,200,000 units last year "if materials are available and workers in the automobile industry and supplying plants show a willingness to stay on the job."

Buick produced 37,000 1947 model cars during the first seven weeks of operations this year, Curtice reported, and is striving

to achieve a "substantial increase" over 1946 model year output of 158,728 units.

Commissioner Earl McNeil informed us this week that a REA electric line was being run in south Terry, and many of them hope to be lit up like one of Judge Bynum's Pullocc churches, soon.

GOT THE LICENSE

During Yazzie's test for a driver's license the officer quizzed: "Do you know what it means when a driver sticks out his hand?"

Well, if it is a woman," says Yazzie, "it means that she's going to turn right or left, shake the ashes off her cigarette, stop or turn around, or that she's pointing to a hat in a show window, or admiring her new diamond ring, or - - -"

"Yeah" said the officer, "and if it's a man?"

"And if it's man," says Yazzie, "well in that case the chances are that he is waving a signal at the woman for a date that night!"—Clarendon Leader.

CEN-TEX HARMONY CLUB MEETS AT CHURCH

Approaching Marriage Of Jean Knight And Bobby Jones Revealed Wednesday At Tea

The approaching marriage of Miss Jean Knight, daughter of Mr. and Mrs. J. B. Knight to Bobby Jones, son of Mrs. Tobe Howze and the late Mr. Earl Jones, was announced at a formal tea given by the bride-elect's mother, Wednesday afternoon from 4 to 6 o'clock. The announcement was made on small cards tied with pink net and ribbon bearing the inscription, "Jean and Bobbie, April 4th," which were handed the guests by Mrs. B. W. Hahn.

Mrs. Joe McGowan, Mrs. Knight Jean, Mrs. Tobe Howze, Mrs. Ned Self, Mrs. M. G. Tarpley and Mrs. Bill Collins, of Lubbock were in the receiving line. Mrs. W. H. Collins registered the guests in a handmade bride's book of white shirred chiffon trimmed in pink forget me nots and white lace. A basket arrangement of white stock, snapdragons and gardenias decorated the table.

The tea table was laid with a white maderia cutwork cloth and centered with an arrangement of white stock on a mirror reflector, flanked with white tapers in silver candelabra. Misses Wanda Hahn, Joyce Dungan, Betty Holmes and Mrs. M. J. Craig, Jr., presided at the silver tea services during alternate hours. They were assisted in serving by Mesdames Leo Holmes and Clyde Coleman.

Assisting with hospitalities were Mesdames Mon Telford, sr., A. W. Turner, J. O. Gillham, C. R. Lackey and J. E. Smith.

The buffet was decorated with an arrangement of white tapers twined with English ivy, and white china pheasants holding streamers of white satin ribbon that were held to the top of the buffet mirror by a cluster of white satin wedding bells. English ivy and white gladioli were used on the living room mantel.

Miss Knight wore a fitted gown of rose crepe with dolman sleeves

McMillan-Gurtler Vows Read At Methodist Church

Miss Catherine McMillan, daughter of Mrs. Marie McMillan became the bride of Frank E. Gurtler, of Odessa in a double ring ceremony, Friday, March 7 at 4:00 p. m. at the Methodist church. Mr. Gurtler is the son of Mr. and Mrs. Frank E. Gurtler, Sr., of Lawrence, Kansas.

The ceremony was performed by Rev. R. N. Huckabee before an altar banked with palms, epergnes of lilies and candles in floor candelabra.

Mrs. Huckabee played the wedding music and Joe Don Noble lighted the candles.

Mildred Eubanks was maid of honor and wore a grey dress with brown accessories and flowers were pink carnations.

Mr. Cox, of Levelland acted as best man.

The bride, given in marriage by Robert Noble, chose a spring suit of light green wool with white blouse and brown accessories. She carried a white Bible topped with an orchid and white sweet peas. She carried out the tradition of something old and new, borrowed and blue, wearing a pin belonging to the groom's mother for something old and borrowed.

Immediately following the ceremony a reception was held in the Fellowship Hall of the church. The table was centered with a three tiered wedding cake surrounded with pink sweet peas. Mrs. Billy Scott, of Monahans, served the cake and Mrs. Bill Richmond presided at the coffee service.

After a wedding trip to San Antonio the couple will make their home in Odessa where Mr. Gurtler is employed with the Maloney-Crawford Tank Co.

and wide belt that tied in a side drape. Her corsage was a spray orchid.

Leach And Wisdom Marriage Read Saturday

The marriage of Miss Oleta Leach daughter of Mrs. H. D. Leach of 306 North 5th st, and Mr. Woodrow W. Wisdom, son of Mrs. Addie Wisdom were solemnized at 8 o'clock Saturday evening, March 8 at the home of the bride's mother.

Rev. A. A. Bryan read the double ring ceremony before an altar of palms and calla lilies, illuminated by white tapers.

Mrs. J. E. Smith, pianist, played "Always" as the candles were lighted. Preceding the ceremony she offered "Because" and during the ceremony "I Love Thee."

The bride wore a white crepe street length dress with a fingertip veil caught with a halo of white sweet peas. She wore white lace mits. She carried a shower bouquet of gardenias and sweet peas entwined with ivy. For something old and blue she wore a ring set with a turquoise, belonging to her mother. Her good luck piece was a tiny silver horse-shoe concealed in her bouquet.

Mrs. Gene Harred, sister of the bride, was her matron of honor. She wore a pink linen dress with white gloves and carried an arm bouquet of white gladioli.

Mr. Freddie Foell served as best man.

Misses Wanda Hendricks and Mary Helen Lewis lighted the candles and wore street length dresses of black and lime green and pink sweet pea corsages. Mrs. H. D. Leach, mother of the bride, wore a black dress with a corsage of pink camelia. Mrs. Wisdom mother of the groom, also wore a black dress and a corsage of pink camelias.

Immediately following the ceremony a reception was held. A three tiered wedding cake, topped with a miniature bride and groom and surrounded with fern and sweet peas was served. Mrs. Dale Brown ladeled punch.

Mrs. Wisdom is a graduate of Brownfield high school and is employed by the Brownfield State Bank. Mr. Wisdom is a graduate of Winters high school and at-

Green-Cooke Vows Read At Roswell

Mr. and Mrs. J. S. Corning announce the marriage of their daughter, Mrs. Maurine Green to R. H. Cooke, of Lubbock.

The couple were married Friday, March 7 in Roswell at the Baptist parsonage, Rev. L. A. Dulaney reading the double ring ceremony.

Mrs. Cooke is employed by the First National Bank as secretary and for the present the couple will make their home here as Mr. Cooke has taken the contract for the construction of the new Church of Christ building.

Mr. and Mrs. F. L. Morgan spent the week end in San Angelo visiting Mrs. Morgan's sister.

Relatives and close friends attended.

RECENT BRIDE NAMED HONOREE AT BREAKFAST

Mrs. Norwood Browder, who before her recent marriage was Miss Betty Coleman, of Hobbs, was named honoree at a breakfast and personal shower Sunday morning by Misses La Rue Ross and Margaret Goza and Mrs. Rudolph Gracey in the home of the latter.

A color scheme of yellow and white was carried out in the table decorations. Small fairy trees with written wishes for the bride and groom tied to the limbs centered the tables.

Pineapple juice, rolls and coffee were served to Mrs. O. G. Browder, Phola Jean Browder, Mrs. C. H. Vest, Martha Ann Crawford, Frances Rambo the honoree and hostess.

Several sent gifts who were unable to attend.

Babson Discusses Spending

BY ROGER W. BABSON

Too many people have a child-like unconcern as to what is done with their hard-earned cash after it passes into Government hands. Too many have a childlike trust of all institutions, from banks and insurance companies to government bureaus. All should study and investigate the concerns or groups which either receive or handle their funds.

We all should know where our tax dollars are going and how wisely they are being spent. Although savings are as low as they have been in many years, do you realize how extravagant is the new Truman Budget?

It calls for two to thirteen times as much money to be spent by each government department in the coming fiscal year as was spent in any pre-war year. We enter the third year of peace with a proposed budget of around \$37,500,000,000 now in process of being whittled down by Congress. Nine billion was our peak in "huge" pre-war budgets.

Typical Budget Items

Why should it cost taxpayers almost \$700,000,000 more in 1947 than in 1946 to operate regular government bureaus and departments? Why does operation and cost of upkeep of the executive mansion have to be more than three times the amount spent be-

fore the war? Do we need over a million more civilian personnel in war agencies today than we did before Pearl Harbor? All our departments of Governments are slated to get what we used to call "war-time appropriations."

The Department of Commerce, for example, is to have more than thirteen times the \$20,000,000 at its disposal before the war. It is difficult to understand why in times of good employment almost as much money is delegated to "relief" as in depression periods. The veterans, the farmers, the old people among us are adding to the unreasonably high budget by asking the Government to solve all problems. Individual self-reliance and economical planning are being discarded as everyone turns to Washington.

Subsidies

The cost of subsidies this year will be over \$13,000,000,000. Today many individuals who desire something for themselves or for a particular group first endeavor to obtain it through Washington rather than through their own resources and initiative. Formerly only as a last resort, did our people take their problems to the Federal government. Subsidies given to any individual or group cause a shift of some control to men and bureaus in the Federal Government. This control is unhealthy for our country.

The Brantleys Will Be Home In Six Months

Had a letter this week from G. A. Brantley out at Ivanhoe, Calif., inclosing a check on one of the Brownfield banks for the mazooka to keep the Herald headed their way for another six months, and the letter informs us that they will be home in Old Terry by that time.

Mr. Brantley states that they have had some pretty cool weather in his part of that state, once some thin ice, and a big frost another. But mostly its warm, and when he gets too hot, he says he stops and glances off some 20 miles to a snow capped mountain and cools off.

By the way, the latch key will be on the outside, Mr. Brantley, and we'll have the dogs chained. Welcome home.

Eighty-seven per cent of all the Angora goats in the nation are in Texas.

Angora goats in Texas produce about 16,000,000 pounds of mohair each year.

Handing over much of the country's cash to support certain groups is not democratic and is financially dangerous. The United States spent \$80,000,000 in price supports to the farmers on potatoes alone in 1946. More and more farm products are asking for price supports. Farmers will probably be paid well over \$320,000,000 for cutting down production this year. The program for export subsidies means the Government sells farm products overseas at a loss, after buying them here at high prices with the taxpayer's money. On-job training for veterans is to result in a billion dollar subsidy to businessmen.

Financial Suicide?

By recent estimates each worker labors almost a full day every week just for the Government. If over-grown and wasteful Government continues how much of the worker's pay will be "take home?" Let us realize that every time we ask our Government for money we are really digging into our own pockets and those of our children for perhaps generations to come.

It will be a pity if we as farmers, businessmen, job-holders, and veterans hand down to future generations a heritage or debt and greed. Both can kill at the roots future opportunities for the high standard of living which we have been so proud. We are at last learning to "turn over the box and look at the price" when buying merchandise; let us follow the same principle when paying our taxes. Surely, let us see what is in the box!

Another Brownfield Lad Writes From N. J.

We like to tell about our lads who are now dwelling in other states or countries, and as we have an abstract from one from the Pacific coast this week, we are going to give you a bit from another young fellow who is serving his bit with your Uncle Sam as a Pfc., way up at Camp Dix, New Jersey, on the Atlantic coast. But we are forbidden to use his name.

Any way his letter like the other is addressed to the Old He and wife. This wine lad whom we all admire, was reared right here and his mother lives here now; his dad is dead. What the lad wrote most about was his oft re-fought battles of the Civil War with the lads from yankeeland. But he adds: "We uphold the honor of Texas and the South against all corners." He states that he uses some of our editorials frequently in these bull sessions and has recently gone to the expense of purchasing Lee's Lieutenants to help in arguments.

He was especially pleased with the article we recently wrote about our old pioneer physician Dr. T. L. Treadaway and added: "You are right; they did a vital job well." In conclusion let us state that the lad's paternal grandparents were both physicians and pioneer ones at that. At one time his grandmother was the only lady physician between Ft. Worth and El Paso. This lad, however, was not around these parts in 1917-18 during the great flu epidemic, but he's a good listener.

Yes, lad, we can all admire those pioneers that went before us and made west Texas what it

is today—a great and glorious region of the finest men and women on earth. And you, lad, had just the home training that all boys and girls should have to make them wonderful citizens of a wonderful country.

He also mentioned that he had recently had a very nice visit with our congressman, George Mahon, at Washington.

Hafner reports that the Childress County farmers are sold on planting the delinted seed because it comes up so quickly. And only five to six pounds per acre are required for planting in comparison with 16 to 30 pounds of fuzzy seed, the county agent says.

Another point in favor of the delinted seed for west Texas cotton growers is that it requires less moisture for germination, says Hafner. It can also be spaced more evenly in drill rows, seed hoppers will hold more seed and don't have to be filled so often.

It's a picture in a lot of ways, this big-'n'-beautiful Buick —

The picture of things-to-come in automobile styling — long, follow-through fenders, sleek lines, broad and solid look.

The picture of dynamic action, with its bonnet jam-packed with Fireball power, equally ready, equally willing for creep-speed jaunt or quick-paced emergency call.

The picture of perfect poise — with plenty of roadweight for solidity — cushioned all around on soft coil springs for jarless ease.

The picture of precise and exacting manufacture, with engine tolerances often closer than in airplane practice — bodies floated on new

Silent Zone mountings for tautness and quiet — everything from rear-axle strut rods to water pump seal all tidily buttoned up to give you the best to be had today.

You don't have to be told how eyes follow you when you're behind this wheel. You can sample for yourself the great ease of this gallant traveler, the comfort, the room, the thrill-of-a-lifetime lift that answers every nudge of your foot on the treadle.

You've probably even

told yourself, "Well, someday..."

Why wait for someday — when that someday may have to be followed by more waiting between order and delivery?

Why not call your shots now — and make sure your future will be bright and happy?

We'll take your order any time — what's wrong with right now?

Drunk Gives Tech An Idea

A drunk once provided Prof. K. M. Renner, head of the department of dairy manufactures at Texas Technological College, with an unusual idea on making speeches.

It seems that Renner was presenting a report on cream research at a dairy institute meeting, when the intoxicated fellow wandered over to the speakers' platform and said, "Say, I'm in no condition to listen to your talk. Why don't you send me a copy of it?"

That was in 1933. The jovial professor considered it such an excellent idea that he has handed out copies of his reports at each annual meeting since instead of making talks.

Born to Mr. and Mrs. Buel Price at Lubbock hospital, Thursday morning, a girl baby. You ought to see Grandpa Money Price strut his stuff.
