

## TERRY COUNTY BOARD OF DEVELOPMENT HOLDS ANNUAL BANQUET LAST WEEK

The membership of the Terry County Board of Development, with their ladies, held their annual banquet in the Fellowship hall of the Methodist church, Thursday night of last week, where they were served with an excellent meal by the Baraca club of the church.

The meeting was presided over by Ned Self, President, J. O. Gillham, outgoing president, was toastmaster. He presented Mr. M. C. Ulmer, president of the First National Bank of Midland, a past president of the West Texas Chamber of Commerce, and a pioneer builder of Midland. He made a stirring address pointing out that only a few years ago Midland wasn't as large as Brownfield, but they seized their opportunity and started it to building. It is now a little city of skyscrapers and another to be erected soon. He noted Brownfield's visible opportunity which was challenging us, and hoped we would rise to the occasion and make another city on the great South Plains.

An architects drawing of a beautiful office building, which the Board of Development is working on, was shown. It is understood that several thousand dollars has already been subscribed in stock. We have observed, that the existence of one institution or thing, causes others to come, which in turn may induce others of different lines to come, too, and ere long a good town is "built." When it grows by nature, it grows slowly, but fed by a little inside capital, to start it off, it grows bigger and better, sooner.

## Kendrick and Sawyer Visit in Mexico

Senors Marshall and Arthur with their Senoras, recently motored down in the land of Manana including a stay at Mexico City, one of the largest and most colorful in North America. While there they visited the Mayan pyramids, uncovered in recent years, of prehistoric vintage, doubtless many thousands of years old. Evidences seem to be of Asiatic founders.

They noticed particularly the primitiveness of the people, all along the way. Their habits and customs, further back than either can remember which makes it rather ancient, at that. Although the city itself has many ultra modern structures.

The Pan-American highway is passable but oil stations of products fit to use, are far between. They shared the joy of other Gringos there on meeting each other.

Marshall got locked up the first night there but you'll have to ask him for particulars.

On the way out, had to drive their car through a trench several inches deep in medical solution, and each had to walk over a side walk also sole deep, as caution against spread of the foot and mouth disease, which broke out fast and furious, when the embargo on shipment to this country was raised last fall. We suggested that took care of their feet, but how about their mouths, when they said, even Mexican authorities know that nothing can stop an Americans mouth.

Marshall thinks the only F&M disease is in Congress, and with Henry Wallace. But Bilbo was the first real casualty. He learned that our government was spending many millions on the project there, killing cattle and paying for them, which may have its effect in supply and demand on our U. S. cattle. Many people are doubtful over the real motive behind this move. But few cases, if any have ever been actually found in this country.

## Survivors Of Railroad Men Hunted

The Railroad Retirement Board, Room 412 U. S. Courthouse at Ft. Worth have released 31 names of persons, whose survivors may be entitled to benefits, under new railroad retirement act, according to Sundays Star-Telegram.

Among those is the name of James B. Christit of Brownfield. A family by that name lived near Union several years ago. Anyone knowing their whereabouts may do them a favor by contacting them.

## Man Loses A Bunch Of Shirts

Among several thefts reported to the Sheriff's office, early this week was one from a local business man's wife, who related that some one took ten shirts from her clothes line, shortly after dark Monday night.

A magneto was taken from a tractor out on a farm. The sheriff's office was advised from Big Spring, that six hogs had been stolen from the State hospital there and were thought to have been sold the next day in Lubbock.

## Shrine Hospitals Observe 25th Anniversary

Twenty-five years ago this year, the first Shriner's Hospital for Crippled children was completed at Shreveport, La. Within a few years, 14 others were established through out the United States, Canada and in Honolulu. To date, more than 100,000 children, all admitted without regard to race, creed or color and from homes which could not afford the high cost of orthopedic treatment, have been rehabilitated, sent forth upon active, useful lives.

One is a football coach, another a top-flight writer on a New York newspaper; scores entered the armed service, many as pilots. One entered priesthood, many are doctors themselves now, and nurses, while hundreds have happy, normal families of their own.

The founding of these hospitals for crippled children by a primarily fun-loving organization such as the Shrine of North America, which entirely supports them without appealing to the public for aid, was neither an accident nor a quirk of fate.

Upon becoming Imperial Potentate of the Shrine in 1919, W. Freeland Kendrick, former mayor of Philadelphia, took the floor of the Shrine convention that year at Indianapolis and said, "Our Order will never find its soul until it unites on some great humanitarian project and erects a living monument as evidence of the worthwhile existence of the Shrine.

The following year, Noble Kendrick's resolution for the founding of the hospitals was unanimously adopted at the Shrine Convention in Portland, Oregon. Seven years later, the 15 Shriner's hospitals for Crippled Children were staffed by the finest doctors and nurses and equipped beyond anything known in the field or orthopedics which, at that time, was but a little-known branch of medicine.

Today patients number as high as 30,000 a year and more than \$44,000,000 have been invested in the 15 hospitals, which cost approximately \$1,250,000 annually to operate.

The 500,000 Shrine Nobles in North America foot this bill themselves, although they do accept outright gifts and legacies from non-Shriners. But the hospitals are prohibited by Shrine law from accepting money from any organization which solicits funds from the general public.

Today, National Shriner's Crippled Children's Hospital Day, is essentially a commemorative occasion, with each of the 500,000 Nobles dedicating his efforts anew to the task begun a quarter of a century ago.

The Shriners are to be congratulated by the nation at large for the great humanitarian undertaking which they have so faithfully carried out for the past 25 years, and will continue to sponsor in the years to come.

## CITY SELLS BONDS AT LOW INTEREST RATE

At their regular meeting last Friday night, the City Council sold the four hundred thousand dollar bond issue, voted recently. They are to bear 2.5 per cent interest for first ten years, and two and a quarter per cent the next ten years, with option of redemption at end of ten years. Four bond companies jointly bought the bonds.

## Honor Roll Board Removed From Court Park

The huge Honor Roll billboard, with the names of our boys in service through War II, that has stood in northwest portion of court yard for past three years, was removed early this week. It had about 1400 names on it. J. D. Miller and Glen Akers promoted the project, soon joined by R. A. Simms, Chris Quante and H. M. Pyeatt. The County Commissioners paid for the material, the city paid for the labor. Its original cost was near \$500.00. The sale price was not learned, but proceeds were given to the Legion post here, who has also aided in getting the names.

After the bronze plaque was recently installed in the Court House corridor with the names of the dead service men, the war being over and the living all returned home, it was deemed to have served its purpose. This does not mean we are to forget those gallant boys, the risks and hardship they endured, nor their efficient service, but we should and most will, still honor them, though it seems to some, the star of greed outshines the memorable achievement of these boys.

## Winners In Calf-Pig Show Listed

**Sows Over 1 Year**  
Name, place and prize appear in that order.

Bond, Alfred, 4, \$2.50; Bond, Billy, 5, \$2.00; King, Douglas, 1, \$10.00; Tuttle, Kenneth, 3, \$3.00; Key, Jack, 6, \$2.00; Wenzel, Welburn, 2, \$4.00; King, Douglas showed grand champion gilt.

A.; Chambliss Lewis, \$1.00; Rose, Marcell, \$1.00

(Continued on Page 12)

## Much Building Going On In Brownfield

A little shashay around the burg early this week revealed that building is still going on as fast as material can be secured. It is rumored that the Gore-Tarpley addition of 44 houses is to start soon, and that it will be cleared of the slaughter house as soon as lights and gas are installed at the new site of the slaughter house down the Seagraves highway.

The final stages of the brick work on the Crawford Burrow garage and repair plant on Fourth street is going forward, and may be ready for occupancy in the next month or six weeks. He has the agency of the Hudson car.

Material is being placed on the ground and foundation dug for the Webber-Bailey building to house their implement business. This new building will be at the corner of Broadway and Eighth streets, and will be approximately 50x100 feet.

Elliott Harris is starting three new residences on east Main.

## Fly Control With DDT Urged

A nation-wide drive is underway to kill out millions of pests that have been hampering health since Adam and Eve. Flies are the pests and DDT is the weapon.

Launched by the U. S. Department of Agriculture, the drive is being taken up in the Lone Star State by the Texas A and M College Extension Service. Extension entomologists state that the people of Texas, both rural and urban, have never had the chance they have this spring to make war on flies. DDT has proved itself as a fly-killer.

Most recent research has shown that the worst of the disease-carrying flies can be killed by spraying with DDT around the places where the flies rest. The entomologists are not only asking farmers to use the DDT around sheds, barns, pig pens, and cow lots, but are also urging city officials to spray garbage cans, curb and gutters, stock yards and other places where flies swarm. In the home 2-2 to 5 per cent DDT is very effective against house-flies.

"The more people that get in the fight against flies early in the season, the less bother we'll have with flies this summer," the entomologist says.

## When It Rains, It Pours

Two young men from Lubbock, coasting along our highway near Meadow Thursday morning of last week, accidentally turned the car over. A Brownfield funeral home ambulance rushed one to the hospital here, with painful, though not serious injuries.

One was lodged in the county jail, charged with driving while intoxicated, and the other was returned to Lubbock where he is charged with the theft of the automobile they were driving.

## Lions Delegates Off To Convention

A large delegation of Lions are to leave Saturday and Sunday for El Paso to attend the annual convention of the West Texas District to be held there Sunday and early next week.

Frank Jordan of this city, present District Governor, will preside. The district which includes all the Panhandle and El Paso area, on account of its size and growing membership has recently been divided. Terry County being in the south part of the North and Panhandle area.

## "Duel in the Sun" Begins Five-Day Run At Rio

Expressing himself as being completely satisfied with the opening crowds, Hiram Parks of the Brownfield Theatres stated that he was of the opinion the picture would continue to draw large crowds during the five day run at the Rio.

Mr. Parks declared, "reluctant to charge advanced admission prices, we have thoroughly investigated the quality and worth of this picture to the end that we are now willing to support the exhibition plan of the producers with confidence that it will in no instance violate any of our customers. Moreover it has been booked by neighboring communities for exhibition upon the road-show basis and we figured that if they can afford it, Terry County can too." Accordingly beginning on May 1 with matinees each day at 3:30 the Rio will present this most widely heralded picture in many seasons.

Admission prices for adults 80c including tax for matinees and \$1.30 including tax at nights.

Here is a bit of information the Herald can give you that should be some help toward fullest enjoyment of this program with a little saving on the side. Matinee prices are in effect until seven o'clock in the evening and since the feature doesn't begin for the second show until a little after seven you can see this from the beginning and also beat the night prices. Children's price is 50c for all performances and all except those in arms must have tickets for this engagement. This is strictly adult entertainment so we suggest you park the children at the Ritz or Rialto where the charge is only 15c and a program that they will like better. Since this picture is three hours long maybe you'd better give them 30c so they can see both the Ritz and Rialto.

## Soft Ball Season Opens

The softball game scheduled between Primms Brownfield team and Tahoka for last Tuesday night at Tahoka was called off because their field was not ready. Brownfield teams goes to Plainview tonight. The Blue Bonnet Laundry team of Lubbock plays Brownfield here next Tuesday night.

A schedule has been arranged for three games per week, until August 1st, in the South Plains league, while Plainview, Lubbock Tahoka and Brownfield are the only ones at present, it is expected several other teams will join soon.

## Dell Smith Moves To Glendale, Ariz.

Dell Smith recently sold his wholesale Texaco business and stock in Seagraves, and he and his family left for Glendale, Arizona, where he will be associated with his brothers, Mumford and Adolphus in the garage and car business, as well as a service station.

They are at present handling Hudson cars, and hope soon to have the agency for Oldsmobile. Dell, like his brothers, are all products of Brownfield, and all graduated from high school here. But Dell has not been feeling too well of late, and decided a change of climate might help him.

The Herald wishes these ex-Terryites the best of health and success, and we feel sure they will get their share of the business. Their parents, Mr. and Mrs. W. C. Smith, and a brother, Cecil and family still reside here.

## Ready For Wheat Harvest

A call to custom combine operators to be ready for the 1947 wheat harvest is being made by the Texas A and M College Extension Service.

J. B. Kidd, farm labor field assistant in charge of the Extension wheat harvest program, announces that more "outside combines will be needed this year than ever before." Texas wheat and small grain acreage is eight per cent larger than the record acreage of 1946.

"The wheat crop is in better condition at this time of year than in many seasons," says Kidd. "The subsoil moisture is good and Texas County Agricultural agents report 98 per cent of the wheat in good condition, the other two per cent in fair condition. Some green bug damage is reported but the present prospects are for a bumper Texas wheat crop."

Kidd also urges combine operators to plan to bring their trucks to the harvest. Independent truckers not attached to combine outfits, may be needed, he says, and harvest labor of all types will be in great demand if the crop develops as it looks now.

## West Offset Staked To Terry Discovery

Amerada Petroleum Corporation Monday had scheduled acid treatment at its No. 1 Sam Adair section 4, block C-37, psl survey, prospective San Andres discovery in southern Terry County, and staked a west offset to the wildcat.

The prospective discovery, drilled to 4,945 feet and with 5 1/2 inch casing cemented on bottom with 500 sacks, perforated casing from 4,850 to 4,925 feet, loaded with 107 barrels of oil, washed with 500 gallons of acid mud, and swabbed out load and acid water in 7 and one half hours.

Ninety-nine barrels of fluid, 95 per cent oil, 3 per cent acid water and 2 per cent basic sediment, were swabbed in the next 7 1-2 hours and in 24 hours the total recovery was 245 barrels of new oil, averaging 4 per cent basic sediment and drilling water. Operator was to acidize with 3,000 gallons before resuming tests.

The west offset is Amerada No. 1 C. H. Elkins, 660 feet from south and east lines of section 5, block C-37, psl survey.

## Zorns Elected District Legion Commander

At the Annual Convention of the 19th district Legionnaires held at Snyder last Sunday, Bruce Zorns, vice president of the Brownfield State Bank, and Commander of the Howard-Henson Post here, was chosen Commander of the district.

This district is comprised of 25 counties in this area, the same as the Congressional District, including Big Spring and Lubbock.

Bruce, reared in Terry county, has been active in Legion affairs. Geo. S. Berry of Lubbock was endorsed for State Department Commander.

Burton G. Hackney, local attorney, was selected as a delegate to the National Convention, to be held in New York early this summer.

Read and Heed the "Dead Wrong" Cartoons now appearing in The Herald.

The new city directory, recently compiled by the Lloyds' National Directory Co., states the City of Brownfield now has a population of 6852. Mr. Lloyd who has personally canvassed the city, states that he and an assistant counted noses. That it is actual count, and is not based on approximation or estimates. He noted, in reply to surprises from outward appearances, that two or more families resides in many dwellings.

The Federal census of 1940, gave Brownfield 4009, this means an increase in the past seven years of over 60 per cent, up to April 1st last.

This count exceeds the usual plan of measuring population by the scholastic census, but this school district, embraces a large rural area, and it is recalled that since the advent of tractors, many people have moved away from the farms, to the towns and cities. That rule, once accurate, like lots of other things has changed in recent years.

Brownfield backed up by a rich agricultural country, in a horse shoe of ever extending oil fields, nearby bids fair to retain it marvelous growth and with a little more heaving ho, by our local men of means and faith and forward looking citizenry, can soon greatly increase this.

Brownfield had a population of 1907 in 1930, the first census after incorporating as a city or town.

## Mon Telford Saved His Cotton, Maybe

Met Mon Telford in front of the Bargain Center one day last week, during one of the days in which most of us dismissed all thoughts of spring, and had delved into the closets for our winter wear again. Mon was in his shirt sleeves, but his flesh was almost pined. Says we, "Lost your coat?"

"Naw!" says Mon. "I told them daburned varmints up there that the reason I wasn't wearing a coat was to protect the cotton I planted earlier in the week when it was warm. Just the old idea of repeating "it's getting warmer and warmer in every way."—Coue. Thus I will save my cotton. I'll be dadblamed if I'm going to put on a coat if I nearly freeze."

But we found that a lot of others had been putting cotton seed in the good earth, but were quieter about it than Mon. Perhaps they were wearing coats here in town.

And this week, they really got under way with the planters and many, many cotton seed are going in the ground, along with sudan seed for early pastures.

Man, it will look good to see another cotton crop growing in old Terry. The swe test part of it is to get to see the ginnars have to go to work again, like the rest of us poor folks.

## Boyd To Be In City Twice Monthly

During the past thirty days West Texas veterans have reinstated more than one and a half million dollars of their G. I. insurance, Houston H. Boyd, Veterans Administration itinerant contact representative stated.

Mr. Boyd also stated that he will be available in the office of Mr. C. L. Lincoln, Terry county veterans service officer, 113 N. Fifth St., Brownfield every second and fourth Friday, from 1:30 to 3:45 p. m., for the purpose of interviewing any veterans or their dependents relative to any matter pending before the Veterans Administration. He will be glad to discuss any problem concerning rights and benefits of veterans.

PRESS ASSOCIATION

WHOLESALE PRESS ASSOCIATION

There is a section of the State Legislature which we presume belongs to the so-called "liberal" bunch, that are trying to take Governor Jester apart because he is trying to stay with his pledge of no new taxes. These liberals, and that means liberal with other people's property, are trying to maintain that the governor is for the big and powerful, and for that reason wants no more taxes on natural resources. Governor Jester is enough of a financial man to understand that should a heavy tax be laid on the natural resource people, such as for instance, sulphur, oil and gas, the tax would be charged right back in the shape of a price raise, and after all the people would have to pay it. But some boys-de' arc politicians are too moronic to see that. But that has been the habit from times past too ancient to try to be remembered.

Beginning about 1940, FDR and Prime Minister Churchill enunciated what was said to be the four freedoms from the deck of a battleship somewhere in the Atlantic ocean. For years these words were repeated, but two-thirds of the people could not tell you what those four freedoms were if they'd been shot for not knowing. The same thing is going the rounds now on Free Enterprise. While many thought that President Truman would be almost as new dealish as FDR himself, our mid-west president recently gave one of the best definitions of free competitive enterprise we have seen. HST said: "Under that system each man is free to go where he likes to follow the calling of his choice, and to be rewarded in proportion to the productivity of the efforts or the property he contributes." What could be plainer?

Applicants for substitute carriers will be taken from this week to May 2th. Herald suggests that those interested contact the local post office for further instructions and for application blanks.

If seems that we have another whiskey rebellion on, but unlike the one in western Pennsylvania just after the Revolutionary war, this one is for an altogether different cause. The Pennsylvania rebellion was that the frontiersmen did not wish to pay a tax on their product, as we understand the matter, while at the present time the thirsty find the product of "aged in the wood" too high, and the sales since the war has dropped 20 per cent. All distilleries have had to curtail, and a few have stopped production for the time being. Of course the returned service men and their friends had to "throw" a big one when they got home, but that is now history, and everything is quiet along the Potomac. And with a big rise in the price of food in the past year, many families found that by doing without their manhattans and cocktails, they could set a much better table—and feel better the morning after.

Miss Jean Kinard, daughter of Mr. and Mrs. Virgil Kinard, of Rt. 1 is working in one of the Baptist mission churches in San Antonio assuming her duties in March. Miss Kinard is a 1946 graduate of the Brownfield high school and has been active in the local church.

## District News Soil Conservation

BY RILEY W. CARLTON

The good slow rains that fell from Saturday, April 12 through Thursday, April 17 made a total of .87 inches as recorded on the local Soil Conservation District rain gauge located in the rear of the Post Office Building. These April showers have fallen in a way to be completely absorbed by the soil, and with this moisture, native pastures have been improved, wheat and rye crops greatly helped and early planting moisture assured.

Myles Kelly, Associate Irrigation Engineer from Dimmitt, Texas, was in the CYT District April 8-11 assisting Engineer Krizek in setting up five irrigation wells in Terry County to make an evaluation study on the production of water and their natural recharge rate. Information gathered from these five wells will be of aid to farmers and soil technicians alike in the future. These studies will show the present rate of use to the natural recharge. Capacity of each well and data secured in Terry county and from such studies will be of much benefit. The five irrigation wells selected for this study are W. J. Carter, F. M. Corneise, Elmer R. Edwards, V. S. Reynolds and O. J. Rhodes. With these irrigation farmers assisting, much can be learned.

Soil Conservation Service technicians will assist the District in making a study on one farm this spring to determine the rate of water penetration on Class IV land. A small acreage will be used on one farm in the Foster community. The rate and different methods of applying water will be factors considered in the study. Compiling of more irrigation data in this District will be of much value as irrigation develops in Terry county.

An average of ten farmers each day the past week have made inquiry through the District office on how to reseed grass on old cultivated land, varieties to be used and how to prepare a crop cover before seeding.

Much improvement could be made on small and large native pastures in Terry county this year since moisture conditions are favorable.

So many farmers are wanting more desirable grass, and this being true, then it would be to their interest to use improved methods to make native pastures increase more grass. Weeds and brush are gangsters in the grass. They rob the big 150,000 watt stations down on the border of Mexico have been blaring out the good news of Alaska of late, trying to get suckers to that land of ice, snow and blizzards. At the same time people in the north part of the USA are getting tired of perpetual freezes in winter, and many of them coming south or southwest, and others going to California. One of the things the promoting stations always repeat is that truckers get \$20 per day—and we'll bet it's worth it. Also people should remember that when they are paying that much for a trucker, everything else is in proportion in cost. If you think most of Alaska isn't disagreeable to a man reared in this climate, just ask one of the service men who spent time in that region during the war.

.....

## Dead Wrong

NATIONAL SAFETY COUNCIL

### NOTICE TO BIDDERS

The Commissioner's Court of Terry County, Texas will receive competitive bids until 10 o'clock May 12, 1947 at the Court House in Brownfield, Texas for the purchase of the following described road machinery: One Diesel Powered, Tandem Drive, Power Control Motor Grader, with starter, enclosed cab, 13.00-24 tires, 12 foot moldboard and two 2 foot extensions; one used motor grader and one used grader to be taken in trade as part payment for above new motor grader, at which time and place the Court

will proceed to let a contract if any bid is accepted. Certified check in the amount of 5 per cent of bid required, and the Commissioners' Court reserves the right to reject any and all bids.

H. R. WINSTON  
County Judge, Terry County, Texas. 40c

### FARMERS DIDN'T WANT IT

It must be recorded to the credit of the farm people of America that they didn't want government by class and clique, by minority and pull and tug, and loud and vociferous demand, such as we have. They fought it for three or four generations and only when their plight became such that the farming man was about to become a serf did they finally come around to joining in the mess.

A few still hold back but for the most part the farmer has found out that the interest which does not seek for, even demand, special privilege, is not going to get even a fair break in this country of ours. Right or wrong, it has come to a matter of self-

preservation, which is one of nature's more compelling laws.—Floydada Hesperian.

### CITATION BY PUBLICATION

THE STATE OF TEXAS  
TO:  
R. E. Bennett, the Heirs and Unknown Heirs of R. E. Bennett, J. J. Nettles, the Heirs and Unknown Heirs of J. J. Nettles.

GREETING:  
You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 2nd day of June, A. D., 1947, at or before 10 o'clock A. M., before the Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said plaintiff's petition was filed on the 17th day of April, 1947.

The file number of said suit being No. 3334.

The names of the parties in said suit are:  
W. A. Whisenhunt as Plaintiff, and R. E. Bennett, the Heirs and Unknown Heirs of R. E. Bennett, and J. J. Nettles, the Heirs and Unknown Heirs of J. J. Nettles as Defendant.

The nature of said suit being substantially as follows, to-wit: Suit in Trespass to try Title to Lot Number 5, in Block Number 15, Original Town of Meadow, in Terry County, Texas. Plaintiff alleging he is the owner of said

property, and Pleads the Five and Ten years Statute of Limitation. Prayer for title and possession, general and special relief.

Issued this the 17th day of April, 1947.

Given under my hand and seal of said Court, at office in Brownfield, Texas, this the 17th day of April, A. D., 1947.

ELDORA A. WHITE, Clerk (seal)

District Court, Terry County, Texas. 42c

Mr. W. L. Bandy and son Charles Wayne and Dale Hill left Tuesday to spend the rest of the week at Possum Kingdom dam finishing construction on the Bandy's cabin and fishing.

### Dove Sentenced In Murder Case

Judge Louis B. Reed was here Tuesday morning and in brief formality passed sentence of fifty years on Harrold R. Dove, who was found guilty by a jury in his trial here last week, of the brutal slaying of W. H. Culver, Dec. 30, 1946, assessing that penalty. Dove was calm, making no objection. No motions for new trial was filed, nor any appeal taken, by his attorney R. L. Graves, appointed by the Court, who was present. Sheriff Murry and Deputy John George of Meadow left Wednesday with the prisoner for Huntsville.

### Veterans' News

More than 6,000,000 of the 14,447,000 World War II veterans have applied to the Veterans Administration for education and training benefits, VA reported this week.

Veterans seeking these benefits by states included: Texas, 228,805; Mississippi 76,728; and Louisiana 51,780.

Of the 2,604,000 on-the-job or in educational institutions on April 1, Texas accounted for 154,313, Mississippi for 33,098 and Louisiana for 36,076.

VA estimated that 2,560,000 World War II veterans have been granted certificates of eligibility but have not yet entered training or educational courses for reasons of their own.

Men and women who served in World War II are enrolled in 25,000 colleges and other educational facilities and are taking on the job training in 365,000 factories, farms and offices.

Educational facilities being utilized in VA's Dallas Branch Area included 1,513 in Texas; 1,469 in Mississippi and 887 in Louisiana.

Factories, farms and offices approved for veteran training in the same Southwestern area numbered 31,608 for Texas; 11,233 for Mississippi and 6,666 for Louisiana.

Veterans attending school under the Servicemen's Readjustment Act (GI Bill) who plan to continue their education this summer in a different school should apply immediately for a supplemental certificate of eligibility, VA warned this week.

VA said it is necessary that applications be filed with VA well

### Sulfur Omitted From Cattle Grub Powder

Pyrophyllite, Tripoli Earth or Frianite Used

Here's something new on an old farm subject—cattle grub control. For years the livestock specialists have been recommending a combination of sulfur and derris powder for dusting on the backs of grubby cattle. Some of them still are recommending this combination, which had its origin in the U. S. bureau of entomology.

What's new? Well, the bureau revised the formula during the war. Derris powder is still in the formula (it contains rotenone, the grub killing agent), but sulfur is out. Sulfur had no value as a grub killer—

Cattle grub will cause serious trouble if not properly controlled.

It served only as a diluent for derris, which contains the rotenone that does the job.

The bureau now recommends that the dust for grubs be made of one part derris (containing 5 per cent rotenone) and two parts of either tripoli earth, pyrophyllite or frianite.

The reason sulfur was taken out is that the sulfur particles become electrified when applied to the animal's back. As a result, they stick to the hair instead of settling down to the skin and into the grub holes. The new materials designated for mixing with derris do not have this drawback.

### Molasses Fed Young Pigs for Fast Gain

Results of tests at Hawaii university show that a ration containing 20 per cent molasses proved economical for pigs from weaning to a weight of 70 pounds. Above 20 per cent, both the rate of gain and efficiency of feed utilization decreases markedly.

Work at Wisconsin showed that 10 per cent molasses was equal in value to corn on the basis of total digestible nutrient.

In advance of the end of the spring semester in order to insure receipt of the certificate by the veteran before he enrolls in a different school.

A veteran may obtain an application from the registrar, veterans' coordinator, or training officer at the school he is now attending or from any VA office. Applications should be sent to the VA Regional Office having jurisdiction over the school the veteran is now attending. Veterans cannot be admitted to a new school without the certificate.

Government, needed to pay on our debt, to the swelling coffers of industry and big business. But that is the Republican way of life, help industry and business first, then let the common man get the crumbs that fall from the table (if any).

It is plain to see who profits most by a tax cut, and who and why is behind the movement.

### Red Spider Control Given by A & M

A threat to flower gardeners and ornamental shrub growers is the red spider, a tiny reddish mite just larger than a chigger.

Entomologists of the Texas A and M College Extension Service say that the red spider puts pale yellowish or reddish brown spots on plant leaves, which result in an unhealthy condition.

The entomologists advise that the spider can be controlled by dusting the plants thoroughly with finely-ground dusting sulphur, applied when the mites are first noticed. Usually, two dustings, seven days apart, are sufficient.

### CUNNINGHAMS HONORED WITH SHOWER

Mr. and Mrs. J. C. Cunningham were honored Friday night, April 25, with a wedding shower, in the home of Mr. and Mrs. L. V. Wagner.

Progressive 42 was enjoyed throughout the evening.

### Postmaster Dallas Presents 2 Stamps

Postmaster James H. Dallas presented us two 3-cent stamps this week commemorating the 100 birth anniversary of Joseph Pulitzer, Pulitzer, a poor Jewish immigrant boy hit New York when a small lad, and by hard work, close application and a winning personality, won fame and fortune.

When he passed on many years ago, he owned the New York World and St. Louis Post Dispatch. Even now there is an annual award for the best editorial, left to competent editorial judges.

Refreshments of coffee and cookies were served to approximately sixty-five guests. Several who were not present sent gifts.

Mrs. Cunningham is the former Martha Harred.

The rotary printing press was invented by Hoe.

Miss Marie Peterman's Engagement To John Moore Announced

The engagement and approaching marriage of Miss Marie Peterman, daughter of Mr. and Mrs. C. L. Peterman, to Mr. John Moore, of San Angelo, was announced Sunday morning at a breakfast given by the bride-elect's mother. The wedding will take place early in June in San Angelo.

An arrangement of white carnations and snapdragons centered the breakfast table. Miniature letters were used as place cards and to reveal the engagement. Places were laid for Misses. Joe McGowan, Bill McGowan, R. L. Bowers, Tommy Hicks, L. M. Wingerd, Jack Shirley, Everett Latham, Spencer Kendrick, Lee O. Allen, J. L. O'Dell, Jack Stricklin, jr., Reagan Peeler, Looie Miller, R. T. Coffee, grandmother of the honoree and the following from Lubbock, Miss Lula Mae Cravens, Mrs. Chester Hubbard, Miss Ann Burkman, Miss Jane Hess and Burl Hubbard.

Miss Peterman and Mr. Moore are graduates of Texas Tech and are now reporters for the San Angelo Standard Times.

MRS. ROBERSON HOSTESS TO CLUB

Mrs. W. A. Roberson was hostess to her bridge club Friday afternoon. Mrs. Phil Gaasch scored high and Mrs. Tommy Hicks won in the game of bingo.

Pecan pie and coffee were served to Meses. Sam Teague, C. L. Truly, Logan Redford, Hicks, Gaasch, Harold Crites and Al Muldrow.

MRS. RICHARDSON ENTERTAINS

Mrs. Gordon Richardson entertained with two tables of bridge Thursday afternoon of last week. When scores were tallied Mrs. Phil Gaasch received high and Mrs. Mon Telford low.

Cake, ice cream and coffee were served to Meses. Mon Telford, George Germany, Tom Harris, C. L. Truly, Phil Gaasch, Jerry Kirschner, Kenneth Hill and Lee O. Allen.

Mrs. Bernard Lay and Mrs. A. J. Stricklin visited in the home of Mrs. Lay's parents, Mr. and Mrs. J. A. Roberts, Coahoma, Texas, Tuesday.

Baptist WMU Host To Seniors Friday

The Women's Missionary Union of the First Baptist Church entertained the '47 senior class with a party in the church recreation room Friday evening. Christian Education was stressed in the talk given by Rev. A. A. Brian and games directed by Rev. Sam Brian. Group singing was also enjoyed by the group.

Mrs. C. P. Henderson, WMU educational chairman, received the guests and Mrs. A. A. Brian gave the welcoming address. Mrs. Andrew Cooper registered the guests in a book decorated in the class colors of blue and white.

Punch and angel food squares were served from a refreshment table laid with lace cloth over blue and centered with an arrangement of white carnations and bridal wreath on a blue reflector. White candles flanked the centerpiece. Meses. R. M. Moorhead, C. E. Ross and Mary Green assisted by others presided at the table.

At the close of the evening the guest book was presented to Miss Hazel Vernon, class valedictorian and the table arrangement to Miss Joyce Meeks, class salutatorian. Mrs. Henderson made the presentations.

Sixty guests enjoyed the affair.

CARD OF THANKS

We wish to express our thanks for the kindness and sympathy extended to us during the illness and loss of our loved one. May God bless each and every one of you. Mrs. O. C. Moore and the Moore family.

MRS. FAY BARRIER HOST TO HD CLUB

The Pool Home Demonstration club met in the home of Mrs. Fay Barrier April 22. Mrs. Vida Walters gave a report from council.

Minutes were read and approved and cooks were tested. The club hopes this work was done as it should have been.

There were seven members and one visitor present. We welcome all visitors.

Our next meeting will be with Mrs. Charlene Eldredge on May 13. The program for that meeting will be baking at home. Be sure you are right and go ahead.

The hostess served cake and punch.

Spring Guest Day Held by Alpha Omega Club

One of the loveliest social affairs of the spring season was that given by the Alpha Omega Club Tuesday evening in the Jessie G. Randal auditorium, when they entertained members of the Maids and Matrons Club, Delphian Club, Cen-Tex Harmony Club, Epsilon Sigma Alpha sorority and guests of the Alpha Omega Club members. Meses. Jake Gore, W. T. McKinney, Jack Ellis, C. R. Lackey, P. R. Cates and Chad Tarpley were hostesses.

After the welcome given by Mrs. Cates the following program was presented: Tap Dance, Freddie Ruth Lowe; piano solo, Mrs. Fred Jones; and ballet dance, Mrs. Woody Walker. Meses. Sam Teague, Jerome Kirschner, V. L. Patterson, Grady Goodpasture, N. L. Mason, C. L. Truly and Jack Hamilton presented the one act play, "Every Husband."

Mrs. Jones and Mrs. Bill McGowan furnished music preceding the program and during the serving of refreshments.

The tea table was laid with a white cloth with a basket arrangement of maroon carnations and the club name in maroon letters as a centerpiece. Meses. McKinney and Tarpley presided at the punch bowl.

DELPHIAN CLUB ENTERTAINS HUSBANDS FRIDAY

The Delphian Study Club entertained their husbands with a buffet supper in the Crawford Burrows home Friday evening. Table games furnished diversion for the guests.

Those enjoying the affair were Messrs. and Mesdames L. D. Spradling, George Thomas, Geo. Germany, Herbert Chesshir, Joe Hardin, Tom Harris, Kenneth Hill, W. N. Lewis, Les Short, J. E. Smith, George Steele, Dr. and Mrs. W. A. Roberson and Mrs. K. D. Snedeker. Mr. and Mrs. Paul Bish were club guests.

MRS. KENDRICK HOSTESS TO LAS AMIGAS CLUB

Members and guests of Las Amigas Club were entertained Tuesday evening in the home of Mrs. Clovis Kendrick with bridge. Mrs. Troy Noel scored high and Mrs. Glen Akers second high. Mrs. Noel and Mrs. Lee O. Allen won in the games of B'ngo.

A salad plate with cokes was served to Meses. Noel, Akers, Allen, Gordon Richardson, Lal Copeland, Orb Stice, Wilson Collins, Burton Hackney, Prentice Walker, Al Muldrow, Jack Stricklin, jr., and Ike Bailey.

Mr. and Mrs. L. M. Lang spent several days at Possum Kingdom dam enjoying the fishing.

Mr. and Mrs. Robert Mancel of Houston, spent last week visiting his sister and family, Mr. and Mrs. W. J. Jowers. They had not seen each other in forty years. Mr. Mancel works for the Stanolind Pipe Line Co., at Houston.

Women's Watches Give The Trouble

According to the men who should know, the nation's watch repairmen, the curse of an ailing watch is a woman's purse. The reason why women have at least twice as much trouble with their watches as men, according to a survey by the Jewelry Industry Council, is that men don't have purses in which to cache their watches. Of course, it isn't the purse itself, it's what's in the purse.

When a watch repairman opens a woman's watch he does it with mingled horror and fascination, wondering what the watch's innards will reveal this time. Usually a woman is surprised when he tells her that the delicate mechanism is covered with a green residue from the perfume in her purse. She doesn't see how it's possible; the case on her watch is drum-tight. However, tight as the watch case fits, the volatile oils of the perfume she carries in her purse often gets into the watch as vapors and congeal on the moving parts.

It's also difficult to try to explain how face powder, tobacco dust and divers other substances manage to get into her watch and clog the works. She usually remains unconvinced.

No, There's No Split In The Church

On two occasions in the past few months, at the behest of the officers of the church of Christ, meeting at Main and Third, we have announced two services Sunday mornings, one an hour before Sunday school and the other an hour after Sunday school. The first at nine, the next at eleven a. m.

Either we did not make our language clear, or someone heard crooked, for it has come around that some are saying that the congregation has split and some meet early—some two hours later. And we tried so hard to make it clear that all could not be seated at one morning service, thus two. It is hard enough to seat them all at one evening service. The same officers and the same minister we used at all services, so no split.

All will meet at the eleven o'clock hour when the new church is finished. Contractor Ed Harden stated this week that with good working weather, he hoped to have the new building at Crescent Heights so the congregation could begin meeting in it in 60 days.

Little Rock Minister To Hold Meeting

N. O. White of Little Rock, Ark., will begin a series of revival and evangelistic services tonight at the North Second street church of Christ to run over Sunday the 11th.

Night services through week days at 8 p. m., and Sunday mornings at 10:30. Everyone is cordially invited to hear this visiting minister.

Mr. and Mrs. Lindsey Bruce and wife of Lubbock visited here Sunday in the home of his parents, Mr. and Mrs. P. F. Bruce.

FIDELIS CLASS ENTERTAINED BY MRS. GREENFIELD IN TATUM

The Fidelis Matrons Class of the First Baptist church enjoyed a covered dish luncheon in the home of Mrs. L. A. Greenfield, of Tatum, N. M. Tuesday, April 29th. The class from the Baptist church in Tatum were also guests.

Those from Brownfield attending were Meses. E. G. Black, E. C. Davis, C. T. Aven, Dick Fallis, Ina Sexton, Willie Floyd, J. W. Nelson and T. C. Ellis. Thirty seven were present, including those from Brownfield.

GIRL SCOUT TROOP 3 PLANT FLOWERS IN PARK

Girl Scout Troop 3, known as the Blue Bonnet troop met Monday afternoon to hike to Coleman Park where they planted flowers in the bed given to them. After finishing their work the girls and their leaders, Mrs. John Butler and Mrs. C. L. White enjoyed a picnic supper.

Scouts present were Billy Eubank, Jacqueline Crump, Carolyn Griffith, Deenie Ballard, Geanine McAdams, Peggy Black, Doris Walls and Loryce McBea.

MRS. HILL ENTERTAINS LA FIESTA CLUB

Mrs. Kenneth Hill was hostess to La Fiesta Club members with two tables of bridge Thursday evening of last week. Mrs. C. W. Hafer scored high and Mrs. Cotton Neely second high. Mrs. George Germany binged.

Frosted cokes and open faced sandwiches were served to Meses. C. L. Truly, Terry Redford, Tom Harris, Hafer, Germany, Neely W. O. Schellinger and Ralph Ferguson.

Arthur Nunn is in Falfurrias visiting his mother, Mrs. W. D. Nunn, this week.

Interest In Sewing On Increase Among 4-H Girl Members

Interest in sewing is steadily increasing among rural girls. This is reflected in an announcement that 1,345 counties in 45 states named winners in the 1946 National 4-H Clothing Achievement awards program, of a gain of 144 counties over the preceding year.

The 1947 program comprises special training for 4-H Club girls in planning, selecting, constructing, repairing and caring for clothing. They learn to dress appropriately, becomingly and healthfully, in keeping with the family budget. The girls are also encouraged to make useful articles of wearing apparel and accessories by crocheting, knitting or other needlecraft arts.

Outstanding records of achievement in this activity are again being recognized by the Spool Cotton Education Bureau with merit awards. County winners receive gold-filled medals of honor. The state winner gets an all-expense trip to the National 4-H Club Congress in Chicago next December. Twelve state winners selected for national honors each receive a \$200.00 college scholarship.

Last year's state winner in Texas was Jeanette Metzger of Converse. County winners were named in Bastrop, Cameron, Comal, Eastland, Fisher, Gray, Grayson, Hidalgo, Jim Wells, Liberty, Lubbock, McLennan, Medina, Scurry and Travis counties.

In addition to 45 states, the 1947 4-H clothing contest is being conducted in Alaska, Hawaii, Puerto Rico under the direction of the Extension Service.

Notice To Friends Of Meadow Cemetery

In the spring of 1945 the Meadow Cemetery Association requested the families whose loved ones are buried in the Meadow Cemetery to assist in financing a campaign for the upkeep of the grounds. The response to this request was wholehearted and the cemetery has been kept in splendid condition and it becomes necessary to again ask for financial assistance, as it is time to begin work during the spring and summer months.

The cemetery committee asks your assistance now in caring for this worthy cause. Please hand your assessment to Mrs. C. W. Avery at your earliest convenience. Respectfully, The Meadow Cemetery Committee

FAREWELL DINNER FOR MCCOLLUM AND VERNON

Mrs. Winona Moorhead, the second year homemaking girls, Mrs. Ella Mae Brownlee and Miss Mattie Morgan prepared and served a chicken dinner to the faculty members, their husbands and wives Thursday evening of last week in the homemaking department.

After dinner Mr. McCollum and Mr. Vernon were given electric clocks which were presented by Mr. Neely in behalf of the high school faculty.

Following the presentation games of bridge and 42 were enjoyed.

Hugh Tucker Lilly, son of Mrs. Dennis Lilly, who has just recently been discharged from the service started Monday with the Southwestern Associated Telephone Co., in Lubbock.

**OLD JOHNSON COUNTY FRIENDS VISIT HERE**

Moons had past and moons had gone since the writer laid eyes on Lee English and wife, and Mrs. English's brother, Aldine Thompson, until this past week end, some 45 years of them. At that time we were all just young people, and Aldine and Mrs. English were teenagers. And way back in the early 90's, we had gone to school with Mrs. E. and Aldine in old Tennessee at old New Hope. All of us were just small fry at that time.

However, they didn't make this trip just to see the Old He; that was a secondary matter, but a pleasant one so far as we were concerned. They were out here from Altus, Okla., to visit the brother of Mrs. English and Aldine, Ed Thompson and family of the Harmony community. But the Old He and wife went out Sunday morning and all day we had a great time telling yarns and

All tires need carbon black, a natural-gas product by the synthetic kind requires from 30 to 50 per cent more than the natural rubber ones.

The name smorgasbord is a combination of the words for butter, cheese and bread.

reviewing times past and gone, when we were all in the prime of life.

Yes sir, we had a great day together. They were here from late Friday until Monday morning and gave us a last short call Monday as they were pulling out home, and just a few more old time stories past around. Mr. English, a former sheriff at Altus, seems to be about retired, while Aldine Thompson has a grocery in Altus.

We hope it isn't so long between visits in the future.

Mmes. Vern Ellis, L. O. Lewis and Roy Collier spent several days last week in Comanche visiting their mother, Mrs. Jess A. Harris, better known as Mrs. J. W. Welch. Enroute they stopped at Breckenridge to pick up their oldest sister, Mrs. N. L. Brandon.

Mr. and Mrs. O. L. Peterman recently attended a reunion of the Peterman family at the home of Mr. and Mrs. John T. Morrow in Gainsville.

Mrs. W. B. Toone, who has been with her son in the Panama Canal Zone for the past several months is here visiting in the home of Mr. and Mrs. W. A. Bell.

**Band Leader Horn Invited To Vacation School**

The Brownfield high school band received through its director, Clifford L. Horn, an invitation to send a group of musicians to the McMurry College Summer Vacation Band school scheduled to begin June 16.

The first half of the school will be spent on the McMurry campus, where an extensive school of instrumental music will be conducted; the final two weeks are to be spent in the Sacramento mountains of New Mexico, according to information received by the local band director.

Instruction in woodwind and percussion will be under the direction of James B. Nevins, while Gerthal Gilligan, another outstanding bandsman of this area, will teach classes in brass.

"The school will give students of high school and college levels an opportunity to improve their playing while enjoying two thrilling weeks high in the Sacramento Mountains where the whole school will be carried on at the Methodist Assembly Grounds," stated Raymond T. Bynum, director of the band and professor of instrumental music at McMurry.

Mrs. Eldora A. White spent several days in Levelland in the home of her sister, Mrs. George Warren.

**Wellman 4-H Club Girls Hold Program**

The Wellman 4-H club girls and many of the citizens of the Wellman community were greatly disappointed Sunday when the children from the Milam Orphan's Home of Lubbock were unable to attend the picnic sponsored by the 4-H club girls at Wellman. The driver of the bus which was sent after the children Sunday morning reported that many of the children were sick with measles and chicken pox.

The program proceeded as planned. The first number on the program was a song by the 4-H and glee club girls, Mr. J. O. Phillips. Miss Helen Dunlap, who was introduced by Linnie Dee Hawkins, president of the WAC club, made a speech about the meaning and aims of the national 4-H club. She explained what the four H's stand for and expressed her opinion that the 4-H clubs of Wellman are doing a very good job of developing these four things.

The 4-H and Glee Club girls then sang "Dreaming," the 4-H club girls' national song.

The third and last speaker on the program was Superintendent J. T. Jones, introduced by his daughter, Peggy Jones.

The program was concluded with another song by the 4-H and Glee Club girls.

Mr. J. O. Phillips gave the benediction.

A very enjoyable time was reported by all.

Lips lead them in singing "The Old Rugged Cross."

The first speaker was introduced by Zona Lea Chessher, president of the WWC club, was Judge Homer Winston. Judge Winston made a very interesting speech on soil conservation and encouraged the farmers to ask for better prices.

This was followed by a song by the Scales sisters and a piano solo, by Margaret Phillips.

**Jack Blankenship Doing About**

Uncle Jack Blankenship seems to be really doing about "in his old age," as we used to say back in the old states. He sold out his Rainbow Inn tourist court some moons ago, but he didn't just wait to die and let the ants drag him off. Uncle Jack is too progressive for that.

Instead, he just went across Lubbock Ave, and slightly south, and erected two nice business houses, we judge to be 25x60 or 70 feet, and had renters for them before the foundations were laid. They are of concrete block construction and semirefrigerated. One of them is occupied by Fowler Second Hand Store and in connecting therewith, they are making old furniture that otherwise may be ready for the junk yard look like new.

New upholstery is put on, and a new repair and varnish job is done, and it would take an expert to tell it from new stuff. The other store is occupied by the Clover Leaf Cafe, which is as neat, spic and span as new fallen snow. Mrs. T. T. Tate from Haskell, assisted by her son-in-law and wife, Mr. and Mrs. W. L. Ward, are in charge.

Some of these days we aim to go up there and eat, and then we can tell you more about the food they put out. They opened Saturday.

Uncle Jack has built a home and several small but neat little homes for renters on the back of the half block. Yep! that old boy do get around.

**Letters of Texas Desperado Loaned U of T**

Letters written from prison by a Texas desperado to his family have been loaned to the University of Texas library by his grandson-in-law, E. D. Spellman of Smiley, Texas.

John Wesley Hardin, a bold Texan who by his own admission killed 44 persons, served a prison term from 1877 to 1893, and the letters he wrote to his wife, two daughters and son have been preserved by Mr. Spellman.

Hardin's own story of his life, and books about him are in the Texas Collection of the library.

**Tech Engineering Show Well Attended**

Some 7500 persons were recorded visiting the Engineer's show at Texas Technological College last weekend, and 5100 visitors registered at the Home Economics Open House.

The events were scheduled to coincide with the Region One Interscholastic League meet conducted at the college.

The students elected the following as cheer leaders for the next school term in assembly Wednesday morning: Jack Tankersley leader, Norma Newman, Norma Boyd, Wanda Stafford, Barbara Baggett, Donald Wayne Andres and Jerry Ellis.

Miss Ruth Griffin, high school librarian, attended a librarian's convention in Waco Friday and Saturday.

**Thomason Nominated As Judge by Truman**

WASHINGTON, April 24—Rep. Robert Ewing Thomason (D-Tex) was nominated today by President Truman to be U. S. district judge for Western Texas.

If confirmed by the senate, he will succeed Judge Charles A. Boynton of El Paso who is retiring May 1.

Reports had circulated earlier

among Thomason's colleagues that Mr. Truman would nominate him as his own personal choice and not on the recommendation of either Senators Connally or O'Daniel, Texas Democrats.

Judge Homer R. Winston is at Austin this week attending hearings on important school tax allocations, which vitally affect Terry county's school fund.

**LET'S BUILD IT OURSELVES AND OWN IT OURSELVES, PLEADS DALLAS BANKER**

BY WILLIAM R. HOGE  
Vice President, National City Bank of Dallas

Texas needs more industry, and it ought to be industry owned by Texans themselves.

The State's need for additional industries—and especially diversified light industries—is basic. It is a need that must be met if Texas is to obtain the kind of balanced economy necessary for sound and longtime prosperity.

True enough, Texas is prosperous today. But it may as well be recognized that our present prosperity is due largely to two factors: (1) war profits and (2) oil and natural gas production. Neither of these is to be regarded lightly, to be sure; but they cannot be depended on for the long haul.

Texas used to be first in agricultural income. Now it stands in third place among the forty-eight states. In the ten-year period from 1930 to 1940, a total of 193,000 farmers left their farms in Texas. During the war years this shift of population into the cities was intensified. Texas cotton acreage dropped from 17,749,000 acres in 1926 to 7,200,000 acres in 1944.

These are facts that have to be faced. Another fact to be faced is that our wealth from oil and natural gas, important as it is, will not always remain at the same level. Oil and gas are exhaustible resources. We are using up our oil and gas. Furthermore it is a noteworthy fact that such prosperity as comes from development of natural resources is not fully shared by the people generally. Witness the fact that in per capita income Texas ranks thirty-eighth among the forty-eight states.

The logical answer to the problem posed by these facts is to build a balanced economy through industrialization. It must be the right kind of industrialization. It must entail the manufacture of finished products. It must be scattered over the state. It must take full advantage of the natural industrial facilities of Texas.

Texas does, without question, possess certain natural advantages for the building of a diversified industry. High among these is our mild climate, which not only lowers the cost of living as compared with States of the North and East but also permits easy year-around operation of industrial plants. Our vast supplies of the cheap efficient fuel of natural gas constitute a tremendous advantage. We offer an adequate supply of labor, composed of native born Americans trained by heredity and every day living to respect American traditions of free enterprise.

Possessing these advantages, Texas might well have been pretty completely industrialized long before now. Why has it not been? The answer is simple: industrialization simply has not been necessary in Texas. But that happy time of the simple life is definitely on its way out. Texas is going to have to change, and it is up to the economic leaders of Texas to make sure that the change is for the better.

One phase of Texas industrialization, and one from which we are continuing to reap profit, is composed of the states' war plants. Since the middle of 1940, the Federal government has invested \$1-400,000,000 in industry in Texas. More than half a billion dollars of this sum went for synthetic rubber plants and aviation gas refineries. Most of the remainder was spent to construct airplane and munitions plants.

Some of these plants can be, and are being converted to peacetime production. All the synthetic rubber plants, including the steel plant at Houston, have been leased to their wartime operators. The wartime shot-in-the-arm undoubtedly will have long-lasting effects on the industrial economy of the Lone Star State.

But still—all this is not enough. Texas industry must become more diversified. Big plants in large cities are fine; but they are not enough in themselves. We must have small, local, diversified industries—homemade industries if you please—scattered throughout the length and breadth of Texas.

What kind of industries? My answer to that is we need industries to make virtually every kind of consumer goods that Texans use in substantial quantities. We need light industries making goods that our people buy everyday. We need fabricators, process-

sors and manufacturers who will utilize our chemical resources and our raw products in the manufacture of finished commodities.

It would be foolish to say this cannot be done. It is being done already. A good start has been made toward industrial diversification. In Dallas, for example, 197 new manufacturing enterprises began operation last year. Of these, 150 were small plants. Eighty-five per cent of the total number were of local origin and local capital.

The same picture may be seen on a smaller scale in other Texas cities and towns. Bonham in Fannin county has a gasoline pump manufacturing establishment, cotton mills, a foundry, Sherman, in Grayson county, has an important cotton oil refining company, garment industries and other factories. Paris, in Lamar county has small, important industries geared to the section in which they are located. The Rio Grande Valley has numerous food processing plants.

Let's find out the FACTS about what Texas can do industrially. Let's find out what opportunities exist in our towns, big and little, for industry that we can build ourselves and what we will own ourselves. Texas' industrial economy in the future will be just what we make it in the present. Under the same system of free and private enterprise that has made this nation great, we Texans can use our capital and manpower and ability to build here a sound and permanent industrial economy.

Let's build it ourselves and own it ourselves—In every Texas community Texas bankers can point the way. — Reprinted from current issue of Bankers Digest.

Mr. and Mrs. Jim Casey and daughter of Whiteface visited Mr. and Mrs. Joe Shelton Sunday.

J. F. (Jim) McCullough of the Stamford Rotary Club has been placed as a candidate for District Governor of the 127th District of Rotary International which will hold its District Conference at Fort Worth, Texas, May 4, 5 and 6.

A million carmiles of repair free operation are expected of the heavy-duty shock absorbers used on streamliner trains.

**District News Soil Conservation**

BY RILEY W. CARLTON  
The District Board of Supervisors met in regular monthly session Tuesday afternoon April 22, in the work unit office. They transacted several items of business and also heard a report of the progress and plans for further development of the Soil Conservation Service Sub-Experiment Sta-

**CITATION BY PUBLICATION THE STATE OF TEXAS**

TO: M. G. Gordon, the heirs and unknown heirs of M. G. Gordon, and Frank E. Givan, Guardian of M. G. Gordon, a non compos mentis.

GREETING: You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 16th day of June, A. D., 1947, at or before 10 o'clock A. M., before the Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said plaintiff's petition was filed on the 1st day of May, 1947. The file number of said suit being No. 3337.

The names of the parties in said suit are:

R. H. Tudor as Plaintiff, and M. G. Gordon, the Heirs and Unknown Heirs of M. G. Gordon, and Frank E. Givan, Guardian of M. G. Gordon a non compos mentis as Defendant.

The nature of said suit being substantially as follows, to-wit:

Suit in Trespass to try title to the following described property, to-wit: 4 acres out of the extreme southwest corner of Section No. 46, in Block 4X, E L & R R Ry Co Survey, in Terry County, Texas. Also plead the five and ten year statute of Limitation. Plaintiff alleging he is the owner of said land and entitled to possession. Prayer for title and possession and general and special relief.

Issued this the 1st day of May, 1947.

Given under my hand and seal of said Court, at office in Brownfield, Texas, this the 1st day of May, A. D., 1947.

(seal) Eldora A. White, Clerk, District Court, Terry County, Texas  
By Rex Headstream, deputy 43c

tion to be located in Terry County.

B. Y. Howze, on the Starnes, farm started installation this week in a very elaborate sprinkler system, which will be used in the irrigation of a large tract of land. Upon completion, this will be the first sprinkler system in use in the South Plains area. The District technicians assisted Thursday, April 23 in checking ditch line elevations and the dam height on an earthen tank which will be used for storage of water.

Hugh G. Porterfield, SCS Project supervisor, assisted Hardin Joyce with the seeding of about 10 acres to grass mixtures Monday, April 21. The seeding of this acreage to grass on Mr. Joyce's farm is the beginning of a long range plan to develop more permanent pasture for his livestock. Mr. Joyce prepared the land cover for grass seeding in 1946.

Several farmers over Terry county have started improving native pasture land by removing mesquite and sage brush. It was noted that two farmers had run stalk cutters over shinnery to allow native grass to grow better.

**Mahon Votes For House Labor Bill**

Representative George Mahon reports that the long awaited Labor bill designed to protect the public and prevent abuses by labor bosses and management passed the House of Representatives in Washington last week by the overwhelming vote of 308 to 107. The bill now goes to the Senate for consideration where some revisions are anticipated. Mahon expressed hope that when the bill is put in final shape it will be reasonably fair to all concerned, meaning fair to labor and industry, and not least of all, the public.

The Texas Members were divided in the final vote on the bill. Mahon, along with 13 other Texans, voted for the measure, and 5 voted against it.

**Brownfield Girl To Sing in HS Opera**

Miss Ellouise Dodson, daughter of Mr. George W. Dodson of route 2, Brownfield, will sing a soprano role in the opera "Martha" when it is presented by the Hardin-Simmons University school of music next Thursday and Friday, May 1 and 2.

Miss Dodson has had a great deal of music experience before coming to Hardin-Simmons to obtain a degree of music. She sang in the Lubbock senior high school chorus while attending that school. She has also sang in the local girls quartet of the Baptist church of Brownfield. She plans to enter the Seminary after her graduation from Hardin-Simmons.

**Prevent Cannibalism By Good Management**

**Keeping Chicks Active Real Secret of Success**

By W. J. DRYDEN

Chicks will seldom be cannibalistic if provided with proper brooder and range space, correct temperature and air control and a balanced ration, properly fed. They must be kept alert and active. Only the mistreated, sluggish chick will turn to cannibalism.

While the chicks must be comfortable, the temperature should be reduced gradually. Use a good starting mash. There is no substitute for the best for start-

Baby chicks must be managed right to prevent cannibalism.

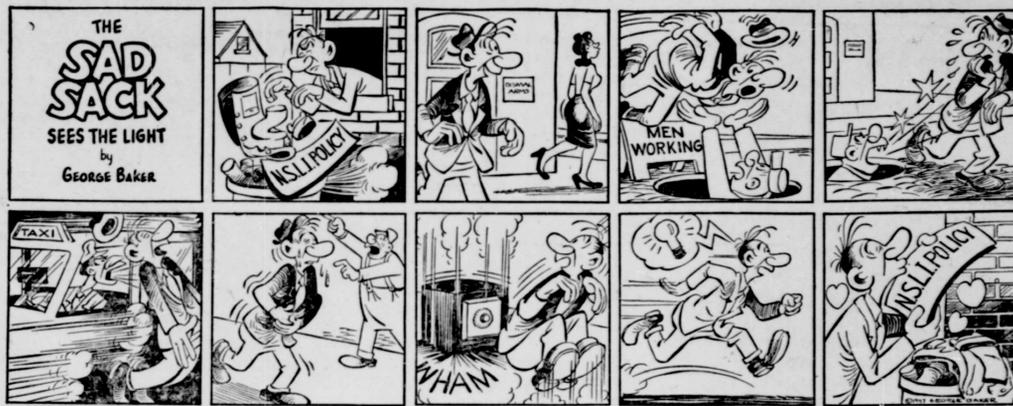

ing baby chicks. Give them all they will eat at all times and provide plenty of eating troughs. When the chicks are four to five weeks old they may be given grain, and made to scratch for it.

A good range and shelter should be provided. Pasture such as bluegrass, alfalfa or lespedeza will lower the feed cost and make the chickens take on economical gain. Swiss chard, kale, Chinese cabbage or rape may be planted and the leaves pulled and fed to the chicks. Alfalfa, clover or other grasses may be chopped and fed fresh, or alfalfa leaf meal utilized to aid in proper health and growth.

**Thick Stand Helps in Boosting Corn Yield**

Farmers who would boost their yields of corn should plant thicker stands than they ordinarily do, advises University of Kentucky. Improved soil and the use of hybrid corn seed makes it possible for most farmers to have thicker stands. About 10,000 stalks can be grown on better-than-average land, and 12,000 to 14,000 stalks on very fertile land with good moisture-holding capacity.

The 1944-45 world cotton production is estimated at 21,650,000 males or 12 per cent less than the preceding year.

Reinstate YOUR GI Insurance NOW—at your nearest Veterans Administration office.

**House Cleaning And Good Health**

AUSTIN, May 2 — A good old fashioned spring house cleaning in every city and community in Texas would do a great deal toward furthering good health in this state, according to Dr. Geo. W. Cox, State Health Officer, who said in Austin today, "From a practical standpoint the old adage that 'cleanliness is next to Godliness' is well worth emphasizing."

A general clean-up program of state-wide proportions with the objective of bettering health conditions for our citizenship should include the surface cleaning of streets and alleys, proper drainage or fill-in of low areas, cleaning all parks and playgrounds and the clearing of weeds and rubbish off of vacant lots.

"The destruction of mosquito breeding places and rat harborage, the proper disposal of garbage and trash and the general cleaning up of all premises will

**SUB DEBS HAVE HAYRIDE**

The Sub Deb Club entertained their dates and members of the Phi Beta Craesus club and their dates with a hayride Friday evening. Taking the long way out, the group went to the County Park where they roasted weiners. Approximately fifty enjoyed the affair.

**Court ruling makes daylight saving time illegal in Kentucky.**

Dr. Cox stressed the fact that many dangerous diseases are filth borne, and the only possible way to control them is to eliminate the insanitary conditions responsible for their spread.

**CRYING INSIDE**

The French artist Degas struggled along for many years, receiving only a pittance for his paintings. At one time, when in desperate straits, he sold several of his canvases to an art dealer for a few francs apiece. Two weeks later, the dealer met him.

"I have the most wonderful news for you," he exclaimed, "I sold your paintings for 20,000 francs each!"

Degas accepted the information without enthusiasm.

"What's the matter?" asked the dealer. "Doesn't this make you feel happy?"

"I feel," replied Degas, "like a racehorse who has won a race for the bookmakers."

**TOMMY HARRIS OBSERVES BIRTHDAY THURSDAY**

Little Tommy Harris, son of Mr. and Mrs. Tom Harris, celebrated his second birthday with a party given by his mother Thursday morning of last week. The guests enjoyed games and playing with balloons which were party favors. Refreshments of

**Local Jaycees Win Prize At State Meet**

The Junior Chamber of Commerce club of Brownfield won its second, first prize over the state, for class C, cities under 10,000 the State Convention at Ft. Worth last Saturday.

The prize was for agricultural promotion, growing out of the recent Boys Clubs fat stock show which the Jaycees sponsor annually. Lubbock won first over the State in cities, under 50,000, for outstanding activities, featuring their health program last year.

Our local club have been a live bunch and doing much good in civic progress of the community.

sandwiches, ice cream and cake were served.

The guest list included Wade Hill, La Trice Teague, Barbara Germany, Barbara Kirschner, Jan Neely, Tommy Dee Hardy, Biff Walker, Doretta and Jimmy Lou Lance, Joan Tarpley and Terre Sue Redford. Patricia Truly was a tea guest.

### GI Question And Answer Department

Q. Does my right to obtain a guaranteed loan continue indefinitely?

A. No, but you have until 10 years after the official termination of World War II.

Q. Are there any charges for guaranteeing or insuring a GI loan?

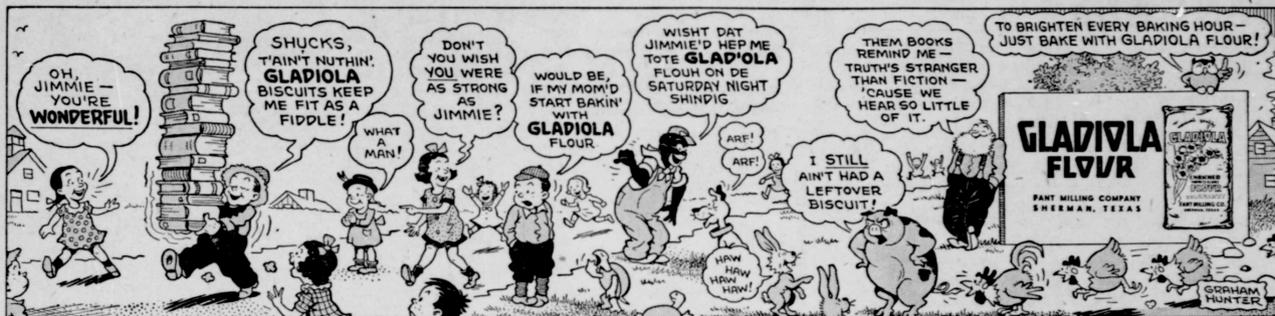

A. No commission, brokerage and similar charges may not be legally made against the veteran for securing a guaranteed or insured

loan. Of course, customary out-of-pocket fees usually borne by the borrower, such as appraisal, title examination fees and other costs and expenses incident thereto, may be charged against the veteran by the lender, the same as against all borrowers.

Q. What will happen if I do not make my loan payments?

A. That depends upon the terms of your loan, the attitude of the lender and the laws of the State where the veteran and security are located. If payments are not made when due, the loan is default and the lender may take such action as is provided in the

PLUMBING RUGS STOVES  
1937 Ave. H Dial 6127  
LUBBOCK, TEXAS

loan agreement and is permitted by the state law and by the regulations for guaranty and insurance of loans.

Q. Does the Veterans Administration make loans or find a lender for me?

A. Veterans Administration does not make loans, nor does it find a lender for the veteran. VA is not permitted to make loans. Within the limitations established by law, it guarantees or insures the repayment of a part of the loans made by lenders to veterans. In addition, Veterans Administration pays the lender as a credit on the loan 4 per cent of the guaranteed portion of the loan.

## STOP DOSING YOUR STOMACH FOR CONSTIPATION . . .

WHEN constipation hangs on and you have that listless, "half alive" feeling chances are it's not your stomach but your intestinal tract that's at fault. Sluggish intestinal muscles permit waste to accumulate. . . gas is formed and often you feel miserable, nervous and out of sorts.

For real relief. . . take the new, improved, ADLERIKA the Tone-Up Laxative. It moves waste quickly but gently to relieve constipation and gas. You'll enjoy a new feeling of pep and vitality when your digestive system is in perfect order. Try ADLERIKA today and you'll learn why over 20,000,000 Lozenges have been sold. *Caution:* take only as directed.

The veteran is not required to repay this amount.

Q. I am an honorably discharged World War II veteran, and would like to know what benefit is a guaranteed loan if I purchase a home under the G. I. Bill?

A. The guaranty provides or increases the security you have to offer for a loan by the amount of the guaranty; it tends to induce the lender to lend more nearly the full purchase price of the property and to give you a better rate of interest, and finally 4 per cent of the amount guaranteed is paid to the lender by VA and is an outright gift to you.

Q. My wife and I plan to purchase a \$9,000 home. We are both World War II veterans. Can we acquire the property jointly and so increase the amount which may be guaranteed?

A. Yes, you may acquire the property jointly, but the maximum guaranty may not exceed 50 per cent of the loan.

Q. I have a G. I. loan on my home and would like to know if I can have the loan extended?

A. Yes, you can have the loan extended if the lender is willing to give you more time, but the extension must provide for complete payment of the loan within the 25-year maximum period provided by law.

Q. What is the largest amount

### SCOTTISH RITE, MASONIC REUNION IN EL PASO

The following men from Brownfield are attending the Scottish Rite Masonic annual reunion being held in El Paso this week: Messrs. V. L. Patterson, Bill Heflin, Claude Gore, John O'dell, Bill McGowan, J. B. Knight, Clovis Kendrick, J. T. Jones of Wellman, F. M. Ellington, Wayland Parker, P. R. Cates. Mr. and Mrs. Tom May left Tuesday by plane to attend. Mr. and Mrs. Bruce Zorns and son, Thomas Bruce and Miss Ida May May left Wednesday to join the others.

### LOTS OF PARKING SPACE—LOTS OF CARS

A shortage of automobile parking space has been noted at Texas Technological College, despite the fact that the campus covers well over two square miles and is said to be the largest in the world. More than 3000 cars were counted on an average morning recently, and it has been estimated that as many as 4000 vehicles crowd the grounds at times.

W. M. Goldston, well known farmer of west side for many years, but now residing at Denver City, was here on business Monday. "Goldy" had five sons in the recent war, all returned safely. The eldest, however, has re-enlisted recently.

I can borrow under the G I Bill and still have the loan guaranteed?

A. There is no limit on the amount which can be borrowed under the G. I. Bill. The limitation by law is on the size of the government guaranty and not on the size of the loan.

### TRY A HERALD WANT AD

### Typhoid Vaccination Every Two Years

AUSTIN, April 25— If you have not been vaccinated against typhoid fever within the last two or three years, Dr. Geo. W. Cox, State Health Officer, advises you to go to your doctor or to the nearest health officer and have him give you the three "shots" that will protect you against the disease.

"The three shots that will protect you against typhoid are given at intervals of one week apart," Dr. Cox stated. "As it takes some time for the protective treatment to be established throughout the system, it is wise not to delay in having it done. My advice is, have it done now so that immunization may be complete before summer arrives and vacation trips are taken."

This advice was addressed particularly to Boy Scouts, Girl Scouts and other youngsters who are looking forward to spring and summer hikes and trips. It is, however, meant also for others, young and old whose business or pleasure during the summer will take them to places where there may be doubt as to the purity or safety of the water supply, or as to the care with which food is handled.

The old adage that "an ounce of prevention is worth a pound of cure" is particularly applicable to this disease, which is so dangerous and debilitating when it does occur, and which can be prevented, so easily through immunization.

Mr. Lewis Simmonds spent the latter part of last week in Colorado Springs Colo., attending the funeral of his grandfather, Mr. Frank Cotton.

### From Hickory Grove The Low Down

Today I am going into a huddle with the young mamas and papas—on how to bring up their offshoots, so when same get to be 21, they will know a sheep from a goat if they hear one bleat.

We been goin' through the USA's greatest sucker era. When somebody has popped up and said fellow citizens let me fix it so you will have more but sweat less, we say, OH-BOY. The bottom foundation under our country—the right to work and to prosper if you dispensed the best hamburger, or made the best moving picture, or gave the best hair cut—was dynamited. Folks got to believing the glib artists. And now, as we rub our eyes, everything is scarce—except discontent.

I been harpin' on getting Aesop on the curriculum in our school houses—but no luck. And the graduates keep coming out, not knowing a wolf if he is in sheep's raiment. So now am appealing to the young mamas and papas to take their offspring on their knees and read to him each night, before he is popped into bed, a story by Mr. Aesop. And as he grows a little older tell him things like how refusing to cross a picket line is feathering the other guy's nest—not his.

And now for the bad news for the new mamas and papas—baby-sittin' is your job henceforth.

Yours with the low down,  
JO SERRA

Mr. and Mrs. Crawford Burrows and sons and Mrs. Fannie Lee visited relatives in Lubbock Sunday afternoon.

# PONTIAC

A fine car made finer

## People "in the know" buy Pontiac

Our records reveal that an amazing number of engineers and technicians choose Pontiac for their personal cars.

One of America's foremost experimental engineers recently explained this, as he took delivery of a new Pontiac. "I really believe," he said, "that Pontiac is the soundest car built today. It is in a class by itself for well-balanced excellence."

Year after year, this is true of Pontiac. While its engineering is always progressive, no feature is ever included in Pontiac design until it has been

thoroughly and completely proved. You can take delivery of a new Pontiac any year with the certain knowledge that it will serve you long and dependably.

So regardless of when you expect to get your next car—make it a Pontiac. An extraordinary number of people "in the know" will support your choice.

THE SOONER YOU PLACE YOUR ORDER for a new Pontiac, the earlier you will get it. So place your order now for future delivery. And remember—you'll get more for your present car when you trade if you take good care of it now.

Always Drive Carefully

### PONTIAC Owners Enjoy More Worthwhile Features
