Levelland Man Held On Serious Charges

A 35 year old Levelland man is being held in jail here, charged with criminal assault on a Levelland girl, alleged to have occurred last Saturday night in west Gaines county.

He was arrested by T. J. Cornett, chief of police, a few miles north on the Levelland highway about four o'clock Sunday morning, after a fight with the girl at a local tourist court. Charges of driving while drunk and of aggravated assault on the girl, were filed Monday by county officers.

Sheriff Ocie Murry, in further investigation, said the young lady, a waitress in a Levelland cafe, informed him the man was a new acquaintance, had taken her home once before from work and was apparently a nice man. Saturday night she accepted his invitation to come to a dance at Brownfield when here, persuaded her to go on to Hobbs and on return, after midnight turned off of the highway in west Gaines county, saying he had to go to an oil derrick to see a fellow, some miles away. When six miles off the highway, he attempted to attack her and she ran into a pasture, but he overtook her and drug her back to the car. The plucky girl accompanied Sheriff Murry to the scene where he found many tracks, corroborating the girls statements.

On returning to Brownfield the man stopped at a local tourist court, she ran to a nearby telephone, but the man jerked and beat her away from the phone. This commotion brought city police to the scene, giving rise to the aggravated assault charge. The man fled, and was later overtaken after a fast chase and returned to jail.

The girl suffered many bruises and scratches. Charges for the more serious offense were filed in Gaines county.

State Highway Map Now Available

AUSTIN.—A new edition of the official State Highway Map is just off the press to aid Texas travelers in finding their way over the state's rapidly expanding road system.

Color photographs of things to see and do in the Lone Star State are featured on the map to help lure tourists from other states and inspire Texans to "See Texas First."

State Highway Engineer D. C. Greer announced free copies of the new map are available to the traveling public upon request. They will be distributed through the Highway Department's main office at Austin, the twenty-five district offices, and at the Department's information bureaus located at port of entry into Texas.

Progress on the postwar building program is graphically indicated on the new map which carries more than 1,100 miles of new paved road which were not shown on the former edition.

Odd Fellows Giving Degrees To Eight

For the past several weeks the local Odd Fellows have been giving the degrees to a class of eight candidates. Next Tuesday night they will receive the third degrees, and we don't mean what police departments mean by "third degree."

Following the degree work, the order will have a social session at which all the members of the order of FLT are cordially invited. This program will be worth your time.

SWIMMING POOL TO OPEN JUNE 5th

Committeemen of the Lions Club, sponsoring the local swimming pool announced this week, they would open the pool for use, June 5th.

Harold Dalton, who is a swimming instructor, will be manager.

Four Offsets For South Terry Well Program

Things are happening and fast around the new producer brought in some three weeks ago in south Terry. To date, four offsets of the original well, all directions of the compass, are now drilling or spudding in. The company holding the leases are not letting any time waste be charged against them. We understand one of the wells is now approaching 4000 feet.

Production on the original No. 1 Adair was found just shy of 5000 feet. And those who live in the area maintain, contrary to press reports, that the Adair No. 1, is not a pumper, but is actually flowing at the rate of around 600 barrels per day, but of course is on proration.

With offsets south, north, east and west directions, the new pool will be watched with interest by those with leases or land owners outright, as well as all people in this area.

Tom Neely Resigns From School

Tom Neely, for several years an instructor of vocational agriculture of the Brownfield high school, resigned Monday night, effective at once. Tom goes with the Government Educational program, as supervisor of teachers in the veterans many vocational schools, being taught in this wide west Texas area. He will at present headquarter in Lubbock.

Lester F. Buford, now finishing his masters degree out of Tech will succeed him, beginning at once. Buford, with nearly four years in the Army educational corps, much of which teaching was in Austria, has a wife and one small son.

The trustees at their Monday night meeting also adopted the scale of pay for teachers, set up by the state recently. It will be \$2007.00 for those with degree, but no experience, up to \$2655.00 for those with 12 years experience.

Brownfield Wins In Soft Ball Games

In a double header game last Saturday and Sunday on the local field, a Brownfield team sponsored by Primm Drug, scored 7 to 5 and 9 to 8 over Odessa. Friday night of last week, won 5 to 3 over Hub Motor of Lubbock and Tuesday, won 11 to 3 over Plainview. All played here. Tonight the teams meet the Blue Bonnet Laundry, an undefeated team at Lubbock.

Ches. Moore And Son Fly To Oklahoma

Will wonders never cease? Here is Charley Moore, one of our old timer country boys who gets in such a hurry to transact some business in Oklahoma City, that he takes to the air, along with his son, Kenneth.

Now Kenneth may have learned to ride the air waves during the war while in the service, but his dad is a novice. But he 'loud as how he didn't get a bit sick, and was in Shawnee a bit over two hours after leaving Lubbock. Still he lacked a lot of making the Old He air conscious. The green earth is good enough for us.

NEW BUS LINE MAKES FIRST RUN

Brownfield's newest bus line, from Lamesa through here, to Levelland, Littlefield to Hereford made its first run on time, Tuesday. It is the usual size of the T. N. M. & O. lines. Judge R. L. Graves rode on ticket No. 1 to Littlefield, where he attended court.

Mr. and Mrs. Joe Shelton spent the first of the week in Dallas attending market for Shelton's.

Local Youth Charged With Statutory Offense

A 21-year-old man was arrested and jailed here late Wednesday charged with a statutory offense on a 16 year old high school girl. The complaint was filed by the mother of the girl, the latter soon to become a mother.

In statement to local officials, the girls claims to have met the boy here last September and after a few dates he proposed marriage, but has later refused. The boy has a police record of minor investigations.

Cottonoil Mills Now Making Oil From Dry Copra

For the past three or four years, the Brownfield Cottonoil Mill has had some vastly radical experience from what it was built to process in the way of oils. As all probably know, such mills were built primarily to process cottonseed. Pete Peterman and his personnel are getting some real experience since the war started.

For the past several years, and especially during the drouthy years here when little cottonseed was to be had, thousands of tons of soy beans were shipped in from the middle west to be processed, and they have become old hands at that job.

This year however they had to crack a new angle on oil processing when a lot of copra (dried coconut) was shipped in, and they are now busy extracting the oil from this copra, much of which perhaps comes from the Philippines, Hawaii and other tropical countries.

Business Buildings Going Up

Besides the four unit storage addition now nearing completion at the Goodpasture Elevator, W. W. and T. R. Lindsey, have begun construction of a brick and tile 25x70 foot building on East Main just west of the Church of Christ, and when completed we understand to be used by them as retail hardware store.

Plains Liquefied Gas Co., have taken out permit for 30x60 steel warehouse on South 8th, near the Seagraves junction. Thad Risinger, has city permit for a 46x96 tile building at 201 North 7th, just north of the Light Plant to be used by the Brownfield Steam Laundry, who are to install larger and more modern equipment with greater capacity than present site.

Midland Band To Be Here Wednesday

A large number of Lions and Jaycees from Midland are to be here next Wednesday and will be entertained jointly by the local Jaycees and Lions at luncheon in the Legion hall, where the Midlanders will put on a program.

After noon the Midland Band will give a free concert in the court yard band stand.

Young Man Gets 5 Year Sentence

Judge Louis B. Reed in a special session last Saturday gave a five year sentence suspended, to Otis E. Jones, on his plea of guilty, charged with theft of an automobile on the streets here late last December.

The car belonged to a business man at Post.

The defendant's residence is out of this county and is not related to any one here.

NOW THE PANEL JEEP STATION WAGON

The Wyllis-Overland Co., are announcing the new panel Jeep job on the station wagon order, which they claim is keen. Also a new model Jeep truck.

See the Price Implement company for further details if interested.

Railroads Admit Giant Job Handling Wheat

Western railroads are preparing as fast as possible to handle a record breaking billion bushel winter wheat crop, the largest in the nation's history, the bulk of which lies west of the Mississippi river. Harvesting is expected to start in the Wichita Falls section of Texas early in June, and end up in the Dakotas and Montana and Wyoming sections perhaps by Sept.

Spokesmen for the Santa Fe stated this week that last year which also was a bumper crop, they had no headway of empties. This year, the eastern lines are giving the western roads some needed cooperation, and a lot of extra cars are expected to be lined up, come the start of harvest.

But even with that, the railroads admit that they are up against their greatest peace time undertaking, despite the fact that at this time most elevators are empty and others are being rushed to completion.

Here in Brownfield, Goodpasture Grain & Mill have about completed four additional grain reservoirs of concrete, which will be ready by the time the harvest starts, and we feel sure this is about the trend all through the wheat country.

Crawford Becomes District Commander Of V F W

At the annual District Convention of the seventh district of the Veterans of Foreign Wars, held at Lubbock last Saturday and Sunday, Virgil Crawford was elected Senior Vice-Commander of the district, which is composed of 27 posts in the South Plains area.

Those attending from here were Cecil A. Hill, Commander of the Hand Brothers Post, C. L. Lincoln a trustee, Hughbert L. King, Manion L. Gregg of Meadow and Tommy Harrel, who is now with the Federal employment service at Lubbock.

Lincoln, King and Hill were nominated delegates to the State Convention to be held in Abilene June 21-25.

The local post of the V F W has been very active and has about 80 members, and are sponsoring a Carnival this week, on east side of the square.

Post Stamped Boosters Here Wednesday

Brownfield was invaded Wednesday by a lively bunch from Post, spearheaded by Paul Jones, manager of Piggly Wiggly in that city, and for many years a resident of this city.

They were advertising the Post Stamped, which will run for four full days this year, June 11-14, in their new \$15,000 plant. All the usual rodeo stunts, with \$3000 in cash prizes. Two big dances.

American Legion Auxiliary To Sell Poppies

Mrs. J. T. Bowman, president of the local American Legion Auxiliary is calling for volunteers to help sell Buddie Poppies, Saturday, May 31.

These poppies are made at the Veterans Hospital, Austin, Texas, by disabled veterans who have this means of making spending money, the sale of poppies to auxiliaries. After initial cost of poppies the entire proceeds of sale will be kept here for rehabilitation and other needs of the auxiliary.

Mrs. Bowman, stated no set price are on poppies, pay what you want, even from a few cents up to several dollars if you wish.

Booths will be set up at convenient places and those who can help are urged to contact Mrs. Bowman, Go're Fashion Shoppe or Mrs. Graham Smith, phone 283-J.

Farming Operations Underway in Terry

Took a spin after office hours Friday up the Levelland highway to Needmore school house, and intended to take the road there toward Meadow, but found the road graded and highway dump trucks spinning back and forth hauling caliche, as that is to be one of the Farm to Market Roads. So, went on a mile north to the Webber place, then east to the old Levelland road, and south to town.

We expected to find more wheat in that area than we did. Firstly, because it is a bit harder land; secondly, they always have raised some little wheat in that area. Then we remembered that some cotton was made in that area last year, and the crop was not off for fall sowing of wheat. But what there is, looks good, generally speaking.

This is one of the best and most highly developed sections of Terry county. More people own their own farms than perhaps any other part of the county. There are on an average better improvements, such as houses and barn; more rural electric lines, etc., than any section. In fact that community was about the first to get electricity. Most of the homes are nicely painted.

Fields, generally speaking are in prime condition, some being planted before the rain last week but we fear most of them will have to replant as they seem to have had more harder showers than here at town. This was evidenced by much standing water in low places.

There were some fields, however, with a bit of crops up, and planters going everywhere. If the good work keeps up, most of the fields will be planted or replanted by the last of this week, if there is not too much rain in the meantime.

It had been several years since we traversed the old Levelland road, and the Old He and wife sometimes got a bit balled up on what house was somebody's old place. Even the old Lee Walker place looked changed from what it was one time. We even got chased by a big bull dog here, but luckily he didn't pull a wheel off our car.

Yep, the north and northeast part of old Terry is grand and glorious just now, and they are stepping on it.

Crawford To Address Graduates at Welch

H. B. Crawford, local county attorney will address the graduates at Welch Friday night May 23 at 8:15 p. m. There are seven graduates in the class.

Green; Benediction, J. C. O'Brien; Recessional, Sue Turner.

Same Crops Damaged Last Monday

The wildcat strike, in the form of an unscheduled norther, early last Monday morning did some spotted damage to young crops, over the county. However, most of it was barely up enough to be damaged. Quite a few will have to re-plant, while many farmers report no damage.

The greatest damage is cost of seed, as there is time and season for planting.

SHERIFF GETS LOAD OF BEER

Sheriff's force, early this week took into custody a local man in possession of five cases of beer. Charges were filed against him, the beer confiscated.

stitution. Not that they thought the job too big for him, but figured he had left banking for good for the oil game.

Dick was for some 20 years connected with the First National here, first as cashier then as vice president. Aside from that, he was president of the Rotary Club, served as President of the school board and the Board of Development. He was also at one time president of the South Plains bankers, and a director of West Texas Chamber of Commerce.

The family moved to Lubbock about two years ago, but his son, Richard Jr., completed his Junior year in high school here, but finished at Lubbock this year. Their daughter, Miss Christine finished high school here, and is now employed by Citizens National bank of Lubbock.

Brownfield friends of the McDuffies rejoice that Dick has been elected to this fine position with one of Lubbock's largest banks. He has purchased stock in the institution.

Combat Wounded Vets May Still Enlist Disability

The War Department has recently announced that partially wounded Combat Veterans of World War Two may still enlist in the Regular Army with the grade they held at time of discharge, if enlistment is accomplished before June 30, 1947. The previous deadline on enlistments for combat wounded veterans was March 31, 1947. Men whose last service was in the status of commissioned, warrant or flight officer, who were combat wounded and who enlist before June 30, 1947 will be enlisted in the grade of Master Sergeant. Full particulars may be obtained at the local U. S. Army Recruiting office, 115 N. 5th St., Brownfield.

West Ward Building To Be Repaired

The Board of Trustees, Monday night, employed Ed H. Harden, local builder to repair and overhaul the West War School building, for which bonds were recently voted. Only a few contract bids were submitted, but because of uncertainty as to cost and difficulty in making specific plans to work on it, it was deemed more economical to employ someone to supervise the work. All bids were rejected.

It was not determined just what would be done, except to generally repair and modernize the interior, which will give two more class rooms, since the machine shop is being moved to a new building.

Last weeks papers on our exchange list from below the cap were really revealing. They rejoiced at the fine rains from another essential reason other than fine planting season. It filled their lakes so they can have some drinking water this summer...

Well, one of our farmer friends took us to task last week on the streets, just as we expected, about some of our monkeyshines with the Weathermans business. We have been rather boastful of the power of our sandstorms to wreck the ambitions of any cyclone that dared have the audacity to try to invade the sacred precincts of the grand old south Plains in particular and west Texas in general.

There is little the retailer can do on controlling prices. It goes much higher than our local dealers, on up to the jobber and wholesaler. And then it starts in another direction. The jobber must compute his cost with prices of labor and raw material.

While storms and floods are a great menace to life and property, statistics show that fires still lead the parade of disaster by a long shot. It almost always aids and abets storm, flood and explosion, as was the case at Higgins, Texas and Texas City.

Maybe some of our readers thinks we are nuts about not placing additional taxes on our natural resources—squeeze every penny we can from them and look for other squeezing places. But, as we have stated time after time

COTTON SEED D&PL NO. 14 (DELTAPINE) Grown in Mississippi by Certified Cotton Growers. ALSO SELL HI-BRED AND OTHER VARIETIES KEMGAS DELINTED and CERESAN TREATED HERMANS GIN BROWNFIELD, TEXAS

in these columns, the firms who are developing our natural resources, such as oil, gas, sulphur, etc., just wont stay squeezed—they just pass it on to the consumer—you and we. We, the people pay all the taxes in the long run, and most of the companies who are developing our resources are made up of a number of small and some big monied men, perhaps right in our community who have it to invest. Too, we have to take into consideration that the higher prices go, the more wage will be demanded, and no one wins in the long run, except that inflation gets a big shot in the arm.

The last issue of Southern Weekly, Dallas announced that it would suspend until the first week in September. No reason was given for the suspension by the editor, Peter Molyneux, other than to state as part compensation, each reader would receive a copy of his book, "The South's Political Plight," now being published. Editor Molyneux is regarded as one of the best authorities concerning the South, and one of the nation's most quoted writers.

Comrade Hanree A. came, he saw, he conquered a few thousand pinkish looking students, as well as a sprinkling of vermilion adults down at Austin, as well as a general mixture of radical assortment of gimme folks. The true, tried and self sustaining Texan was not on hand. The Texas folks who work and sweat for what they have stayed at home. In other words, the kind of folks who have made Texas great were conspicuous by their absence. He almost touched on race social

equality, but decided he was too far from the Mason-Dixon line and dropped it. A lot of colored people heard him, but who like the white people of Texas who believe in moving in their own sphere socially, and as a whole as Texans, didnt seem to be greatly impressed with Wallace. A kind of an Old Grey Mare band met Henry, but it played "Volga Boatman," and not "The Eyes of Texas are Upon You." Between us and the gate post, folks, we think our great institution of higher learning is getting so much of the Russian brand of instruction that we shall not be surprised that there will be plenty of color students there in the next few years.

The highway department has skilled help down there at Austin to study all phases of driving as well as drivers, and these experts have unearthed two distinct kinds or schools of drivers, which the physiognomy, or as we dirt farmers would say, reaction experts, who divide into classes many we never thought of. First, there is the Milquetoast sort of fellow, who is bossed at home, and most men who know him regard as a sissy. Let this fellow get behind the wheel of a fugo, fast car, with his foot on the accelerator and he becomes a giant sized toughie, and he demands and will have the right-of-way, right or wrong. Then, there is one just as dangerous, known to the highway patrol as day-dreamers. They hustle along the road, and suddenly their minds convey them hundreds of miles from his car or his driving. In the meantime he pushes down the gas feed; he suddenly comes to himself, sees what his car speed registers; he comes apart and there is a wreck, with his mind can't get back to reality quick enough. Of course all of us have been familiar with various and sundry bad drivers, such as the honkers and road hogs for years. But the timid soul who suddenly turns from Dr. Jekyll to Mr. Hyde when he drives, or the day dreamers are late additions that have been found by the State Safety department.

Spinning tests have shown Texas cotton, variety for variety, to be as high in quality as fiber from any state in the cotton belt.

ELDERLY MOTHER OF LOCAL WOMAN PASSES

Mrs. Fannie B. Lofton, age 84, died last Sunday night, at the home of her daughter, Mrs. Nellie Frahs, at the Youngblood apartments. Funeral services conducted by Rev. R. N. Huckabee at the Methodist church, Tuesday at 10 a. m. Burial set for 2 p. m. Wed., Perry, Oklahoma. Farley Funeral home transported the body to Lubbock for shipment.

Mrs. Lofton had resided here about 15 months. Mr. Frahs is with the Magnolia Production Company. A son, Frank Lofton, resides at Pease Valley, Mo. Survived also by five grandchildren and several great grand children.

SENATE JOINT RESOLUTION NO. 4

Proposing an amendment to Article VII of the Constitution of the State of Texas by the addition of two new sections to be known

as Sections 17 and 18 providing a special fund for the payment of Confederate pensions and providing a method of payment for the construction and equipment of buildings and other permanent improvements at state institutions of higher learning; providing for a five-cent reduction in the maximum allowable state tax on property; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article 7 of the Constitution of the State of Texas be amended by adding thereto Sections 17 and 18 which shall read as follows:

"Section 17. In lieu of the state ad valorem tax on property of Seven (7c) Cents on the One Hundred (\$100.00) Dollars valuation heretofore permitted to be levied by Section 51 of Article 3, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two (2c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the payment of pensions for services in the Confederate army and navy, frontier organizations, and the militia of the State of Texas, and for the widows of such soldiers serving in said armies, navies, or organizations; and the governing board of each of such institutions of higher learning is fully authorized to pledge all or any part of said funds allotted to such institutions as hereinafter provided: to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or other permanent improvements at said respective institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed three (3%) per cent per annum and shall mature serially or otherwise not to exceed ten (10) years from the first (1st) day of January each year in which such funds are allocated or re-allocated to said respective institutions; provided, the power to issue bonds or notes hereunder is expressly limited to the date of the adoption of this amendment; and provided further, that the Five (5c) Cent tax hereby levied shall expire finally upon payment of all bonds hereby authorized; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestable; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

"Funds raised from said Five (5c) Cents tax levy for the ten (10) year period beginning January 1, 1948, are hereby allocated to the following institutions of higher learning, and in the following proportions, to wit: Institution & Per Cent of Total John Tarleton Agricultural College 3.72107 North Texas Agricultural College 6.17028 Texas State College for Women 11.52992 Texas College of Arts and Industries 4.75551 College of Mines and Metallurgy 4.71936 Texas Technological College 16.54877 East Texas State Teachers College 8.10657 North Texas State Teachers College 12.64522 Sam Houston State Teachers College 5.55068 Southwest State Teachers College 6.78474 Stephen F. Austin State Teachers College 4.55414 Sul Ross State Teachers College 2.15315 West Texas State Teachers College 5.4943 Pledge View Agricultural and Mechanical College of Texas 5.34416

"Not later than June 1st of the beginning year of each succeeding ten (10) year period, the Comptroller of Public Accounts of the State of Texas, based on the average long session full-time student enrollment for the preceding five (5) year period of time, shall re-allocate, to the above designated institutions of higher learning then in existence, all funds to be derived from said Five (5c) Cent ad valorem tax for said ten (10) year period; and all such designated institutions of higher learning which participate in the allocation of re-allocation of such funds shall not thereafter receive any other state funds for the acquiring or constructing of buildings or other permanent improvements for which said Five (5c) Cents ad valorem tax is hereinafter provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the loss so incurred may be

made by the Legislature out of other state funds. This amendment shall be self-enacting. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasury in order to carry out the purpose of this amendment; and the State Treasurer shall pay warrants so issued out of the special fund hereby created for said purpose."

"Section 18. For the purpose of constructing, equipping or acquiring buildings or other permanent improvements, the Board of Directors of the Agricultural and Mechanical College of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of Five Million (\$5,000,000.00) Dollars, and the Board of Regents of The University of Texas is hereby authorized to issue negotiable bonds not to exceed a total of Ten Million (\$10,000,000.00) Dollars. A ny bonds or notes issued hereunder shall be payable solely out of the income from the Permanent University Fund. Bonds or notes so issued shall mature serially or otherwise not more than twenty (20) years from their respective dates, and in no event not later than twenty-five (25) years after the date of the adoption of this amendment. This amendment shall be self-enacting.

"Said Board are severally authorized to pledge the whole or any part of the respective interests of the Agricultural and Mechanical College of Texas and the University of Texas in the Permanent University Fund, as such interests are now apportioned by Chapter 42 of the Acts of the Regular Session of the 42nd Legislature of the State of Texas, for the purpose of securing the payment of the principal and interest of such bonds or notes. The Permanent University Fund may be invested in such bonds or notes.

"All bonds or notes issued pursuant hereto shall be approved by the Attorney General of Texas and when so approved shall be incontestable." Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at a special election to be held throughout the state on the fourth Saturday in August, A. D. 1947, at which election all ballots shall have printed thereon:

"For the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) on the One Hundred (100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas."

"Against the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five (5c) Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas."

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the constitution and laws of this state. Sec. 4. The sum of Ten Thousand (\$10,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of the state, not otherwise appropriated, to pay the expenses of such publication and election.

From The Band Box

Dear Emmy—

London's 16 N. Aduley Street seems right here in Brownfield since we unpacked our Herb Farm Products.

All the charm of an English garden seems concentrated in the Pomander Balls which so delightfully perfume linen chests and clothes closets. They are everlasting too, for one may purchase small vials of the oil to renew the mas often as desired.

The girl graduate would love a Quintessence set — Cologne in five scents— Night Scented Stock, Lilac, Green Moss, White Phlox, and Royal Purple, a talc set in three scents of a Pot Pourri for her lingerie chest. All are attractively packaged in French blue.

Dad loves to "show off" in the kitchen or at the barbecue pit. How about a Chef's Delight for Father's Day so that he may experiment with garlic and tarragon vinegars, Basil, and Marjoram? Mother would love the English and Mint teas in their cool green packages.

Our new Kay Finch owls, ducks and penguins are adorable bridge prizes and you should see a Ceramic lady's slipper filled with pansies or violets.

More next week, Mary.

Mr. and Mrs. Marvin Chandler, of Lubbock were week end guests of Mr. and Mrs. Ray Hailey.

Terry Lou Moorhead, who has been teaching in the Perryton schools, visited with her parents Mr. and Mrs. R. M. Moorhead several days this week. She has accepted a position as assistant recreational director for the City Park in Perryton.

Mr. Kenneth Dellenbaugh, of Little Rock, Ark., is here visiting in the home of his sister, Mrs. R. J. Purlet. He has recently finished a concert season as a cellist with the Arkansas State Symphony Orchestra.

Joe Shelton, assistant post master, is in Cisco, on vacation visiting his parents, Mr. and Mrs. J. E. Shelton.

Best Method Of Irrigating Gardens

LUBBOCK, May 23.—Wasting irrigation water in an effort to save it is one of the biggest mistakes many city and suburban gardeners make, according to George Elle, assistant professor of plant industry at Texas Technological College.

Water is wasted by shallow irrigation, by sprinkling, particularly in the daytime, by permitting weeds to grow, and curiously, by too much cultivation.

Gardens may be irrigated more efficiently by thorough soaking to a depth of 18 or more inches each five to 10 days or longer, than by daily sprinkling, he declared. Evaporation in West Texas disposes of surface moisture to a depth of two and sometimes three inches within 24 hours. Roots of even small vegetables extend at least 18 inches into the earth, with some plants penetrating as much as four feet. Therefore, when water soaks only a few inches, it reaches only the shallow roots, missing the large masses of feeder roots below the surface.

Daytime sprinkling is inefficient because 25 to 50 per cent of the water evaporates before it soaks in. Skimming the surface with a hoe is the best way to dispose of weeds, because cultivation to a depth of even two inches will damage shallow vegetable roots and stirring up the soil excessively causes undue evaporation. Hot days are best for hoeing weeds, as they will die rapidly.

Ellis suggested that irrigation take place at night with a board under the hose nozzle or a gunny sack around it to break the force of water and prevent erosion. Plant leaves should not be wet when it can be avoided, as such dampness encourages the spread of certain plant diseases.

W. A. (Judge) Bynum was in one day last week to renew for his daughter, Mrs. J. R. Bunts of El Paso. As both his daughters live near each other in that city, he stated that one Herald should suffice, as it can be passed along.

Governor Endorses Long Range School

AUSTIN, May 23—Governor Beauford H. Jester has given full endorsement to the college building constitutional amendment which will be submitted to the voters in a special election August 23, now running in the Herald.

In signing the legislative joint resolution which submits the amendment to a vote of the people the Governor said:

"I want to commend to every citizen of Texas the fullest measure of support of the constitutional amendment which this resolution submits to a vote of the people on August 23 of this year.

"The proposed constitutional amendment will provide badly needed funds for the construction of buildings at our 16 higher educational institutions. It will accomplish this without requiring the levy of an additional tax.

"The provisions of the proposed amendment call for an allocation or earmarking of existing taxation, the 35-cent ad valorem tax being reduced to 30 cents to balance the 5 cents of the constitutional 7-cent Confederate veterans pension tax which has been assigned to this purpose.

"In my judgment this is perhaps the greatest forward step that has yet been taken by our state in furthering its higher educational system and is one which should meet the approval of every forward looking Texan."

"Foreign" Readers Who Like The Herald

First there was Chas. Leonard, erstwhile mail carrier, here who writes in from Watsonville, Calif., apologizing for his delay in remitting. He stated that Mr. and Mrs. J. H. Carpenter had just visited them, and wished more Terryites would do just that. Where is Watsonville, Charley—and watch for our smoke.

We spoke last week of Mrs. Anne Kochensparger, Columbus, being one of the several Ohio readers who have been on our list for 35 or 40 years. Another remitted this week who is a second generation subscriber, Dr. H. F. Hansberger, Dentist, of Columbus. Like Mrs. Kochensparger, the Hansbergers own land in Terry.

Dr. Hansberger's dad took the Herald as long as he lived, passing to his reward a few years back, and the doctor took his place. With his remittance, the doctor says, "keep it coming, as we look forward to the Herald's weekly visits." He also stated that in view of too much cold and rain, farming was way behind in his section.

Then there was another Californian, Mrs. Lucile Clayton of Coachella, who stated she subscribed for a year last November, and got it up to a few weeks ago, then it stopped. We have examined all list made back to January and cannot find her name anywhere.

"Going to the wheat harvest," is another phrase common in Terry county for many years, that may be dropped. It now looks like the harvest is coming to Terry.

There is no parking shortage in Brownfield this week. In fact since the recent million dollar rain there seems to be more room in town than the country. The farmers are taking advantage of the excellent season and planting hay while the sun shines.

SIDELIGHTS From Washington

West Texans will be interested in the annual appropriations bill for the Department of Agriculture which will be reported to the House of Representatives on Monday, May 19th. There will be a storm of protest over the provisions of the bill, and I shall join with others who are interested in agriculture in seeking to prevent unwarranted reductions in certain programs for agriculture.

Funds for agriculture research have been slashed. This seems to me to be false economy at its worst. Research and development in weapons and airplanes played a major part in our military victory. Agricultural research should play a major part in promoting peace-time agricultural prosperity.

Funds for soil conservation and cooperation with soil conservation districts have also been greatly reduced. This does not make sense to me. I think we need greater emphasis on soil conservation, and I shall support an amendment for the expansion of this activity.

The bill drastically reduces the funds for the AAA payment program. The President requested three hundred million dollars for this purpose in 1947 and producers have proceeded with the 1947 crop on that basis. As I see it, Congress in fairness is bound to follow through on this program for the 1947 crop, and any changes proposed for the 1947 crop could not be made to apply before the 1948 crop year. However, the bill as now written slashes funds for the 1947 AAA program.

The bill provides for drastic, and to my way of thinking, unjustifiable cuts in the Farmers Home Administration program. I hope these funds can be restored. Certain economies of administration are contained throughout the bill, and these savings, of course, should be made.

People interested in rural electrification will be pleased to know that at this writing the bill contains the full amount requested by the President for the expansion of the REA program.

The bill which is to be reported next Monday was written by a subcommittee of 5 Republicans and 3 Democrats.

Debate on the measure and amendments thereto will require several days but a final vote should be taken by Friday of next week.

A letter from the J. D. Staffords this week enclosing two bucks stated that it was the joint agreement of both J. D. and the Mrs. that the family could not do without the Herald. That makes it unanimous. We don't see how we'd get along without them on our list.

Last Rites Held For J. W. Lloyd

J. W. Lloyd, 71, a retired farmer, died Monday morning at the home of his son, Wesley Lloyd near here. Though he had been ailing for several weeks, heart failure attributed as cause of death.

Funeral service held at the Main Street Church of Christ at 3 o'clock p. m. Wednesday conducted by F. I. Stanley, minister, followed by burial in the Terry County Memorial cemetery, directed by the Brownfield Funeral home.

Survivors include two sons, Wesley and J. D. both of Brownfield, three daughters, Mrs. R. E. Lee of Clovis, N. M.; Mrs. G. H. Atkinson in California and Mrs. W. B. Rucker of Romney, Texas, and five sisters residing in Eastland county.

The Lloyds are well known residents living one mile south of town for several years.

We are sorry to report that another old timer, Mrs. W. J. French of south Terry, has been returned to the hospital. She recently had one leg amputated. Members of the family stated that she doesn't seem to be making much progress. The French place used to be one of the favorite stopping places for wagon freighters between here and Big Spring.

COTTON QUIZ

WHERE DID THE WORD "COTTON" ORIGINATE?

ANS. "COTTON" IS FROM THE ARABIC WORD "KUTN" USED BY ANCIENT ARABS TO DESIGNATE A PLANT FOUND IN CONQUERED LANDS!

Our old friend, J. M. Noble—and he is all his name implies—dropped in one day last week to renew for his Herald. The old Noble ranch on the line of Terry and Lynn counties used to be a favorite stopping place for wagon freighters, before the railroad came to Brownfield.

Our solicitor, Mrs. Les McPherson brought in a nice list of renewals this week, including Will C. Brown, now up to May 1949, the rest to May 1948, as follows: Ernest Burnett, Tracey Carey, W.

W. Copeland, Bill Fitzgerald, Alvin Forbis and Clarence Zachary all of city.

Babson Discusses Efficient Education

KANSAS CITY, Mo. May 16—Many young job hunters today are not being received too cordially by employment managers. There are two reasons for this: (1) during the past decade our young people have acquired the very curious job attitude of "anything that goes is good enough," and (2) too many are too poorly prepared in the basic tools of learning,—fundamentals of good speech, writing, spelling, self expression, and simple arithmetic—to be good risks for the employer.

"Get All You Can For As Little As You Can"

Personnel men tell me that post-war lawlessness, lack of respect for authority and disregard for the rights of others are too common with job hunters today. The attitude to "get all you can for as little as you can" is the chief cause of the increasing cost of living. Young people who have this attitude are reported by businessmen to be indifferent toward their work and poor in attendance. They also fail to recognize the importance of good health and living habits. These young people make the mistake of expecting raises and promotions simply on the basis of time served. These would-be workers have yet to recognize that every little assignment well done is the best way to earn promotions and salary increases.

These young people are not wholly to blame. Our 16-27 year olds have yet to live in a normal economic era. They were born into "the world owes us a living" political age and matured in an unnatural wartime economy. The fact remains, however, that too often both schools and parents have failed in their attempts to build health attitudes toward life and work. Character and personality traits can be developed by our schools with proper educational experience and wise counseling. This task is paramount today in the training of our youth and should cease to be considered outside the realm of teaching. What good is a trained intellect

tual qualities which make for competence?

Teach Them The 3 R's

Just before Everett W. Stephens, Personnel Director of Babson Institute, recently came to us from Boston University he completed a three year study of some 100 secondary schools throughout New England. He and his staff administered "achievement and aptitude" tests to more than 30,000 pupils in grades 9 through 12. The appalling revelation is that the average New England schoolboy cannot read well; furthermore the further he goes in school the slower his progress becomes!

Because these New England youngsters can't read and understand what they read, many high school graduates today cannot solve a simple arithmetic problem. They can add and subtract, but they cannot make their addition and subtraction do anything for them. Employers out here in the Central West assure me that this applies only to children from the large cities, not to those from the small rural communities.

Qualities Business Is Looking For

Business and industry are clamoring for young people who show some creative ability, who can comprehend what they read, and who can make simple mathematical calculations. They are also searching for emotionally stable young people filled with vim, who are also sincere, loyal, dependable, resourceful, but still willing to learn. Business needs young people who have not only willingness but the ability to assume responsibility and to cooperate with and inspire others. Business also sorely needs young people who can think and pray. The ability to make correct decisions cannot be learned by merely memorizing facts. It cannot be "mass produced" in large classes with busy work and without those personal and spiritual soundies. We need smaller classes, taught by more seasoned teachers who themselves know how to recognize problems and determine issues, seek pertinent facts, develop alternatives and reach reasoned decisions.

LAST QUART MILKED HAS MOST BUTTERFAT

Milk is not only good to the last drop, but it gets better!

Butterfat content of milk increases with each quart milked, it has been shown in experiments by Lester I. Legrid, of the dairy division, Wisconsin State Department of Agriculture. When one quart was milked at a time the butter fat content varied from 1.4 per cent for the first quart to 7.6 per cent for the strippings.

These tests indicate that to get the highest possible butterfat test from a herd of cows it is important that all the milk possible be obtained from each cow at every milking. This can be achieved by "rapid milking."

Mr. and Mrs. Bill Stell and daughter, Sue, of Andrews and Mrs. Jane Johnson and daughter, Marilyn, of Seminole visited Mr. and Mrs. W. C. Walding Sunday.

Mrs. John Butler and children plan to leave over the week end for a two weeks visit with her parents and other relatives in Chickasha, Okla.

Mr. and Mrs. Walter Breedlove and children, Jane and Dean, left Thursday for a two weeks visit in Greenville, South Carolina with his parents and other relatives.

Mr. and Mrs. Martin Kirschner and sons, Dick and Hank, of Stamford spent the week end here visiting.

Major and Mrs. Leslie Smith, of Lubbock were guests of Mr. and Mrs. Woody Walker last week.

I am sometimes criticized for writing about Education and Religion in these columns instead of writing about Business. To such criticisms I can but reply that good business must be preceded by good education and good religion. Higher standards of living do not come from wishful thinking. They come from blood, sweat, and tears. The gaps between education, religion and business must be bridged.

GI Question And Answer Department

Q. At what rate of interest can I borrow on my National Service Life Insurance policy?

A. After your converted NSLI policy has been in force by payment of premiums for one year or longer, you can borrow an amount up to 94 per cent of the cash value. The interest charged you on your loan will be 4 per cent.

Q. My claim for disability compensation based on an ailment incurred while I was a prisoner of war was disallowed. Now it is getting worse and I would like to know what I can do to get compensation.

A. Veterans Administration will give special consideration to disability claims filed by veterans interned in enemy prison camps. You should get in touch with your nearest VA office and have your case reopened.

Q. I am going to college under the G. I. Bill but am dissatisfied with the school and would like to know if I can transfer to another college?

A. Yes. Under the regulations of Veterans Administration you may change your school, but you must have the approval of VA in advance.

Q. Can I make National Service Life Insurance premium payments on my policy at any Veterans Administration Office?

A. All VA offices except con-

Can Industry Reduce Prices?

LUBBOCK, May 23— Industry will be able to reduce prices more easily even in the face of rising costs if the government will refrain from commodity transactions while market prices are above parity, and if labor will increase its productivity, according to T. C. Root, acting dean of Business Administration at Texas Technological College.

Root is one of a selected group of authorities throughout the nation quoted in the current issue of United States News giving opinions on the question: "Will industry generally be able to absorb wage increases now being made without raising prices?"

"Executives of each industrial unit owe a duty to owners to operate as profitably as possible," he pointed out. "Each unit has no long run incentive to keep prices below the market. Highest prices are in foods."

Mrs. Harvey Gage was in Dallas the first of the week attending market for Collins.

Veterans News

Texas and Louisiana are among the 42 states with which the Veterans Administration now has contracts providing for state approval and supervision of establishments that provide on-the-job training for veterans.

The responsibility for approving and supervising job-training in industrial and other establishments rests with state approval agencies under the Servicemen's Readjustment Act (GI Bill).

Recently, Congress authorized VA to reimburse states for their services and VA thus far has obligated approximately \$5,500,000 for the current fiscal year ending next June 30 for this purpose.

Under the contracts, the states approve applications of establishments for on-the-job training after determining that the establishment meets certain basic

Union News

A heavy rain and hail fell late Thursday afternoon. Some of the roads in the Southern part of the community were impassable for a few hours. The farmers in this vicinity reported their wheat was damaged by hail. Some fields were completely demolished, while some were only slightly damaged. Some farmers had hail insurance.

Because of the bad roads the school buses were unable to run Friday. Those children who have not received their report cards are asked to get in touch with Supt. Hancock.

Rev. E. K. Shepherd, of Wilson delivered the address to the seniors Thursday night.

The eighth grade graduation exercises were well attended Friday night.

Rev. Sam Brian delivered the address in the absence of Rev. Sparkman who was called out of town by the illness of his aged father.

At the close of the eighth grade program Supt. Hancock presented perfect attendance awards, scholarships, letter U awards honor awards and Interscholastic League ribbons to approximately 40 students. Honorable mention was given those who are due the sweater awards as the sweaters for this season have not yet been received.

Fifty-nine were in attendance at Sunday School Sunday morning. Next Sunday is church day and all are given a cordial invitation to attend Sunday School and church services. The Juniors are planning to give a program in general assembly at BTU next Sunday night. Let's back our Jrs. and their sponsor, Miss Stewart.

Mrs. T. B. Inman, of Portales, N. M. is visiting her daughter, Mrs. Floyd Shepherd. Others who visited the Shepherd family over the week end were Mr. and Mrs. Lavon Hallman and Duane Patterson, also of Portales. Duane, who is Mrs. Shepherd's nephew, plans an extended visit here.

Frank Decker and Mr. Decker's niece, Mrs. Bob Forrester, were supper guests in the R. H. Decker home Sunday.

Mr. and Mrs. J. W. Lanious, of Pleasant Valley were guests in the Lanious home Sunday.

Mr. and Mrs. J. D. Stewart and daughter, Miss Geneva attended church at Brownfield Sunday. Later they attended the silver wedding anniversary celebration of Mr. and Mrs. J. F. Thomason of Lahey. They reported that more than thirty persons attended the affair.

Mr. and Mrs. H. M. Stewart and children of Big Spring visited his parents in this community Saturday and Saturday night.

The Juniors and Seniors returned Monday night from their trip to Abilene Lake. The twelve high school students with three teachers reported a nice time. They displayed severe sunburns which was evidence enough that they enjoyed swimming and basking in the sunshine. Mr. Hancock said they didn't try to fish as the fish weren't biting. The group enjoyed a skating party Saturday night.

The H-D club met Thursday afternoon in the home of Mrs. Ethel Rhodes. A delicious refreshment plate was served to members. The next meeting will be the first Thursday in June, which will be the fifth. At this time the club meets with Mrs. Reg Martin, a new member who lives on the Roe place. The agent is to be present and the topic to be studied is, "Walls and Woodwork." All members are urged to be present. New members and visitors are always welcome.

training requirements. These include: (1) The training must be adequate to qualify the veteran for the job he is training for; (2) there must be reasonable certainty that the job for which the veteran is training will be available to him at the end of the training period; (3) progression in the job must be based upon skills learned rather than factors such as length of service and normal turnover; (4) adequate records of progress by the veteran must be kept.

World War II veterans with 90 days of active service and a discharge other than dishonorable are eligible to apply for education and training under the GI Bill. Those with less than 90 days of service are eligible if they were discharged for a service-connected disability.

Electronics Now Helps You Keep "On Time"

ELECTRONICS ENTERS A NEW FIELD... and reveals, in just a few seconds, exactly how a watch will run over a 24-hour period. By means of the WatchMaster, shown above, the jeweler can tell not only the rate of gain or loss down to a fraction of a second, but also what is wrong if the watch is "sick". The instrument records on a chart, which is attached to a revolving drum, each "tick-tock" of the watch; the slope of the resulting row of dots tells how the watch is keeping time, while unusual or varying slopes tell the jeweler its condition. Top photo shows jeweler pointing to smooth row of dots made by a new watch in perfect condition; inset picture shows how watch is placed in special "microphone" of the WatchMaster, with a smooth row of dots on the chart (near center of machine) revealing excellent condition of watch.

Scout Activities

Troop 1 of the Girl Scouts met Friday afternoon at the Presbyterian church to teach Mrs. Forbus' troop how to make a bed roll. Plans were also made for Troop 1 to have a weiner roast in Coleman Park, May 21st.

Members of troop 1 present were Glenda Blevins, Norma Ruth Rogers, Dortha Abney, Betty McCoughan, Patsy Gorman, Glyn-dola Stockton, Eleene Ball, Bernice Gross, La Nell Morgan, Jo Ann Hutson, Jackie Little and Mrs. Lewis Simmonds and Mrs. Ed Garnett, leaders.

The Blushonnet troop 111 met Thursday evening at 8 o'clock in the Christian Church for an investiture ceremony. The service was opened with the singing, "America, the Beautiful," accompanied by Deene Ballard who also played for the Scouts to march in. Carlon Brady led the Scout Promise.

The ten laws were given by

Carolyn Griffith, Loryce McBee, Iva Mae Blair, Peggy Black, Doris Walls, Jackie Roberts, Mary Ann Jones, Billie Eubank, Jaqueline Crump and Roxanne Miller. Mrs. John Butler, leader, assisted by Mrs. E. C. Gertsenberger, presented the following with pins: Carolyn, Loryce, Jackie, Doris, Peggy, Mary Ann and Iva Mae.

The ceremony closed with the group forming a circle and singing taps. Parents and friends of the girls were guests.

Monday morning 55 Girl Scouts and eight adults are leaving for a five day camp at Buffalo Gap. Mrs. Rene Griffith, district health nurse will be the camp nurse and the director of physical education at Hardin Simmons will be the camp waterfront director.

Mmes. Jack Griggs and Gene Gunn were Lubbock visitors Wednesday.

Two Old Timers Tangle At Herald Office

Two very early settlers in this area, before the official birth of Terry county, met up at this office last week, and put out a lot of interesting stuff long since history, but would be interesting to the present youth. They were Harv Harris of the Bronco area of New Mexico, and Noah Bell of North Terry.

During their set-to here, many things were discussed, some relating to holding the door of the county clerk's office at Stanton in order to file on school land when coming on the market in Terry county. This got so rough that rangers had to be called in, and finally the state abandoned the law and let folks bid on the land.

Also some of the former outlaws who had sorter settled down, but still trailed by rangers was brought up. Also lease of land at 3c per acre per year was discussed. You will have to acknowledge that 3c per acre per year is cheap grazing in any man's country.

Harv has written some 25 pages of the early history of this, Yoakum, Gaines county, Texas and Lea county, New Mexico, which some day he may have put in book form. It is rather long for a newspaper unless divided in several chapters.

Most of the incidents they discussed were five or more years prior to our coming to Terry, but some of them were new, and were being discussed even after we arrived on the scene.

Mrs. Emily Betty, owner of the Bandbox Gift Shop was in Jal K. M., Wed. evening to attend the graduation exercises of her son, Hal.

TEXAS COWBOY STAR TO STAGE RODEO

LUBBOCK May 23— Gene Autry who will appear with the World's Championship Rodeo at Tech Stadium in Lubbock, June 11-14, probably holds more "firsts" to his credit than any one person in the entertainment world. Autry will appear with his horse, Champion, Jr. and is being brought to the Plains by the American Business Club. Proceeds from the rodeo will go to benefit the capital fund of the Lubbock Boys Club.

Autry is the nation's No. 1 cowboy box office attraction, the first cowboy to make phonograph records, the first singing cowboy on the air, and first cowboy to make singing westerns, the first motion picture cowboy to head the Madison Square Garden Rodeo, and the first motion picture star ever to have a town named for him.

That town, Gene Autry, Okla., is one of the winter quarters sites for the World's Championship Rodeo Corp., which is owned in part by Autry. Dublin, Texas, and Florence, Ariz., are the other towns where the rodeo winters. Autry was born in Tioga, Tex-

**Soil Conservation
 District News**

Recent good rains have assured most farmers early planting also the planning ahead to get some sort of cover on the land to prevent wind erosion late this fall and spring of 1948. Most farmers are determined to control wind erosion if at all possible next spring.

E. A. Baldwin, Route 3, Brownfield, requested the District to assist him in planning an irrigation well site for a well which is to be used later for pasture improvement. The survey crew made a topographic map of his farm Wednesday, May 14, which will be used in locating a ditch system. The SCS field men, through the District Program, do offer valuable assistance to landowners in planning irrigation systems, terraces and contour guide lines. This service is free for the asking.

J. Wesley Lloyd had contour guide lines run on his farm this past week.

Crede Gore is making preparation to seed about 5 acres to Argentine Dry Land Alfalfa for pasture.

C. A. Bearden of the Union Community requested assistance of the District on stabilizing a sand dune area on his farm in order to drill grass mixtures later

**MODERN LIVING
 CLAIMS VICTIMS**

SOFT, refined foods and lack of exercise are responsible for increasing thousands of constipation victims. Intestinal muscles become sluggish, waste matter accumulates and gas is formed. Often there is a tired, restless, listless feeling. It's cases like this that the new improved ADLERKA is designed to help. This scientifically compounded Tone-Up laxative is quickly absorbed by the gastro-intestinal system. Gas pressure is relieved and waste matter is moved gently through the digestive canal. When you eat well and digest your food well, you'll find a new joy in living. Order a bottle of ADLERKA today.

Caution: use only as directed.

**U S POPULATION GAIN
 IS 10 MILLION IN 7 YEARS**

Approximately 1,900,000 more men and women, boys and girls are living in the United States today than a year ago.

The natural increase of our population, the excess of birth over deaths, reached an all-time high in 1946. The rate of population increase for last year was close to 1.4 per cent, or practically double the annual average of 0.7 per cent for the prewar decade. This brings the population of the country to about 142,250,000.

More than 3,350,000 babies were born in the United States in 1946. This exceeds by more than 200,000 the previous peak record for 1943, statisticians of the Metropolitan Life Insurance Company point out.

Estimates show that about 24 babies were born last year for each 1,000 men and women in this country.

after ample ground cover has been established.

Now is the time to make detailed plans for a terrace system for the fall of 1947. See your District Soil Conservation personnel early this spring in order to be ready after the fall crop harvest. Make application now.

Prepare ground cover this spring for seeding of grasses later. Ground cover conserves moisture, prevents excessive wind erosion and protects tender young grass seedlings.

Grass density on native pasture can be greatly increased this season if limited or deferred grazing is practiced.

Mowing of shinnery oak pastures helps to increase growth of native grasses. If you can't mow shinnery oak, how about chopping shinnery down with a four row stalk cutter?

J. Fred Bucy, who farms north of Brownfield on the Levelland highway, late last October planted five acres of Winter Austrian Peas for protection against wind erosion and for a green manure crop. This crop is about ready to turn under. Austrian Winter Peas put nitrogen into the soil and also affords an excellent crop for green manure. The lack of organic matter is a very definite one most of our soils in Terry County today. There is a crop that promises much better as a cover soil builder, or early spring grazing.

Livestock, pastures and cover crops are the quickest, best and most profitable way to replenish plant foods in soil.

The handwriting on the land in Terry County today is fence row drifts, depleted pastures, loss of fertility, lower crop yields, and abandoned fields. What can we do about it?

J. I. Wells, of Houston, former citizen, got his renewal in under the wire this week.

**Reasons Underlying
 Meat Tastiness**

Most people never stop to think just what gives a particular food the quality known as "appetite appeal."

Take the case of meat, for instance. According to Reba Staggs, home economist, meat is a food which is generally liked because of its palatability. And that palatability, she says, is due to meat's flavor, texture and aroma.

There are certain substances in meat called extractives, which give the meat its characteristic flavor. A certain amount of fat with the lean also adds to the palatability. And the aroma of meat after it is cooked helps to whet the appetite and aid digestion.

The object in cooking meat, is to develop the flavor and make the meat more attractive in appearance. According to Miss Staggs, innumerable tests have proved that meats cooked at low temperature are more palatable than meats cooked at high temperature. Cooking meat by low heat gives the best results in appearance, flavor and juiciness.

Had a letter this week from the W. D. Oakleys down at Kermit, burning us up for not getting their Herald to them. Well, we'll try it again and better luck this time. This little family, Dyar Ethelda, Jonelda and Becky seem mighty happy and have given the Old He and wife a pressing invitation to visit them sometime.

Mrs. Ralph Ferguson and children Betty and Bobby, Jimmy King and Barbara Benton spent Saturday in Odessa. They were guests at a barbecue given by the J. J. Willis Sales Co.

4,985 Labor Strikes

Department of Labor figures reveal that work stoppages and lost time due to labor disputes set a new nation-wide record in 1946.

Stoppages last year totaled 4,985 compared to the former peak of 4,956 in 1944. The number of workers involved in these stoppages was 4,000,000 also the largest for any year on record.

The figures, prepared by the department's bureau of labor statistics, showed that idleness in establishments directly affected by stoppages totaled 116,000,000 man days.

Mr. and Mrs. Tom May left Monday for Florida, to visit Mrs. May's sister, and will bring her mother, Mrs. M. B. Sawyer who has been visiting her daughter, Mrs. Stitt, there.

Mrs. Loretto Ditto, of Clovis, N. M. visited Mrs. A. J. Stricklin and Mrs. Walter Gracey the first of the week. She left Wednesday to visit her daughter in Abilene.

CARD OF THANKS

With heartfelt gratitude we want to thank each and every one for their words of sympathy, the beautiful floral offering, and for the trays of food that were brought at the death of our son and brother, Fred D. Blair. May the love of our Heavenly Father be with you is our prayer.

WOMEN'S SERVICE HOLDS TEA FOR NEW MEMBERS

The Women's Service Guild of the Presbyterian Church entertained the new church members with a tea Thursday afternoon in the home of Mrs. Al Muldrow. Greeting the guests were Mmes. Muldrow, J. M. Teague, Glen Akers, Ken Sadlier and Phil Gaasch. Mrs. J. Preston Murphy was in charge of the guest book.

Roses decorated the reception room and an arrangement of pantries flanked with yellow candles was used on the buffet. The tea table was laid with an embroidered cloth of Irish linen and centered in a crystal bowl. Mrs. J. B. King presided at the punch bowl. Thirty-five guests called during the hours from three to five.

J. E. Michie, prominent grocery merchant at McAlester, Okla., was here this week, accompanied by his daughter, Mrs. Phillip J. Fultz. They had visited his sister at Cisco, and being that near Brownfield, came on up here to visit old friends for two or three days, leaving for home Thursday, so J. E. could get a drink of branch water.

Mr. and Mrs. C. G. Cross and sons, C. G. and Carlos of Wellman, accompanied by their daughter, Mrs. Margaret Weaver of Seagraves spent from Friday until Tuesday visiting relatives in Blanket, Zephyr and Brownwood. The porpoise and panda are the most playful animals.
