

Brownfield's Harvest Festival Goes Over In Big Way

Brownfield went "big town" Friday when it staged the biggest and most pretentious affair in its history. The event, sponsored by the Rotary Club, was in celebration of an abundant harvest which has followed two years of drought.

Festivities were commenced with a colorful parade, led by Tech's 96-piece band and followed by richly decorated floats sponsored by organizations, business firms and for each of the Queen candidates. Bands from Plainview, Plains and Sundown as well as Brownfield highlighted the parade. Another feature of the parade was a delegation of Panhandle and South Plains Shriners.

The program on the huge platform began with the invocation by Rev. Preston Murphy, pastor of the local Presbyterian church. Prior to the address of welcome by Mayor Frank Jordan, the Tech band rendered several numbers.

Acting as Master of Ceremonies, Virgil Crawford introduced Dr. W. M. Whyburn and Prof. T. C. Root of Texas Tech. The men made short addresses. County Judge H. R. Winston presented the main speaker of the day, Hon. William McGraw, veteran of both World Wars and former Attorney General of Texas. McGraw is now Chief Counsel for United Theatres. His talk was in keeping with the spirit of the occasion and was thoroughly enjoyed by his audience.

After several numbers by the Khiva Temple Chanters and Hillbilly Band, an hour was given to Plainview, who entertained with their National Contest-winning band. The Mayor of Plainview and the secretary of the Plainview Chamber of Commerce invited residents of this area to join them in celebration of their Santa Claus Jubilee, which is to be held in Plainview December 10 and their Annual Dairy show in April. The Everlite Program, heard daily over KFYO during the noon hour, was broadcast from the platform. Hop Halsey and his Drug Store Cowboys, heard over KSEL, made a later broadcast from the platform.

W. Graham Smith, Program Chairman, officiated through the afternoon, staging dances by colored folks. Another unique feature of the day, was a program presented by a group of Mexican radio entertainers from San Antonio. Happy Thomas, noted radio singer-piano player, filled in the idle moments.

R. C. Pasinger carried off top honors in the Old Fiddler's Contest, followed by J. R. Sullivan and Frank Proctor. Mrs. Sullivan furnished piano accompaniment for each contestant.

The Brownfield Cubs did their part in rounding out a perfect day by drubbing the visiting Plainview Bulldogs 19 to 12.

Climax of the occasion was the crowning of the Harvest Queen, chosen by votes cast during a spirited campaign lasting several weeks. After the six candidates had been introduced to the audience, Miss Glenna Faye Winston, daughter of Judge and Mrs. H. R. Winston, having received the highest number of votes, was declared Queen. Happily, the selection was made by voting, as it would have been a difficult task for a group of judges to have chosen from this group of popular and beautiful girls.

Final results of the contest were:

Winston	339,500
Lucas	250,500
Redford	245,800
Turner	150,800
Boyd	44,000
Stafford	35,000

The Queen and her escorts, Mrs. Winston and Mrs. Minnie Hazel Bowman of the G'ore Fashion Shop, a sponsor of Miss Winston, will leave Monday from the Lubbock airport for Hollywood.

The entire day and program went over without delay and without any incident to mar the jubilant spirit of the record crowd.

LOCAL LIONS CLUB LEADING FRIENDSHIP TRAIN

The Lions club this week carried several thousand pounds of food donated by the public to Lubbock to be loaded on the Friendship train passing through there Sunday.

These trains will converge on the Atlantic seaboard next week where the food will be shipped to starving Europeans.

Two Die In Armistice Day Plane Crash

Roy Barton, 30, a resident of East Hill Street and Billy Joe Wilson, 16-year-old negro boy of Naples, Texas were instantly killed about 4:30 Tuesday afternoon when the light plane, owned and piloted by Barton and in which the boy was a passenger, plunged down into a cotton farm near the Johnson Gin, 14 miles northwest of Brownfield.

Barton, who operated a heavy excavation machinery concern here, had landed near the gin to inspect some excavating he was doing there. The negro lad, an itinerant cotton picker, asked for a ride and Barton consented.

According to Sheriff Ocie Murry, who investigated the crash, the pair had only been in the air a few minutes when the plane nose dived into the ground. No fire resulted. Cause of the accident was not learned.

Both Barton and the boy were dead when an ambulance from the Brownfield Funeral Home arrived.

Funeral services for Barton were conducted at the First Baptist church Wednesday at 3 P. M., with Rev. A. A. Brian in charge. Interment was made in the Terry County Memorial cemetery. Body of the boy was being held by the Brownfield Funeral home pending word from his parents at Naples.

Barton is survived by his wife and a small son.

Harvest Queen To Leave For Los Angeles Monday

Brownfield's 1947 Harvest Queen, Glenna Faye Winston, chaperoned by her mother, Mrs. Homer Winston and accompanied by her sponsor, Minnie Hazel Bowman, will leave Lubbock airport at 9:36 A. M. on Monday for her well earned trip to Hollywood, her reward for being elected Queen of the Harvest.

The party will fly Continental Airlines to El Paso, where they will resume the trip by American Airlines to Los Angeles. The trip will be routed by way of Carlsbad, Tucson, San Diego and L. A. Upon their arrival at Los Angeles, the Queen and her party will reside at the beautiful Town House, ritziest hostelry in the movie capitol. They will remain in California for five days, during which time, visits will be made to the leading studios, and they will be entertained at many of the glossier night clubs and bistros thus enabling the Queens party to brush elbows with a few celebs.

The return trip will be by way of Phoenix, Winslow, Albuquerque and Amarillo, arriving at Lubbock 9:30, Saturday night.

Farm Bureau Elects New Officers

At their annual meeting held in the Veterans Hall last Wednesday night the Farm Bureau of Terry county reelected H. R. Winston president.

Other officers elected were L. M. Lang, first vice-president; Kenneth Purcell, second vice-president and Herbert King, secretary, succeeding Joe Johnson who is retiring.

Vic Herring, Robert Winn, and V. H. Wheatley were elected as directors.

The following were designated as delegates to the State Convention to be held in Amarillo next Monday: H. R. Winston, B. M. Tuttle and Frank Jordan. Alternates selected were J. A. McGraw, Mrs. B. M. Tuttle, Robert Winn and Ray Barrier.

LOCAL MEN ATTEND SOIL CONSERVATION MEET

Jack Cleveland, County Agent, Dennis Q. Lilly, R. N. McClain and Judge H. R. Winston were among those attending the lecture of Louis Bromfield conservationist with the Burlington conservation train in Lubbock last night.

This is a great meeting and means much for all sections of the state. The Herald hopes to have a full report of the meeting for the next issue.

H.S.T. No Friend Of The South!

Such writers as Peter Molyneux of Southern Weekly, as well as hosts of others throughout the Southland, have been trying to tell their readers for years that we no longer have a democratic party except in name. It is a New Deal Party, ramrodded by the CIO Political Action Committee, northern radicals and the Society for Protection of the Negro race, or whatever it is called.

President Truman is in full sympathy with this motley crowd and against the South that has held the fort of the Democratic party for ages against all onslaughts. Have you seen the report just turned in by his Committee on Civil Rights? If not, you had better read and weep. If such things as this C of CR recommends are enacted in congress, the white people of the south will be right back where

they were through the late 60's and early 70's.

And had there not been a change in the face of congress last session; had the northern democrats had full sway as in past years, the measures would already have been enacted into law. But the new Republican congress decided there were other more important measures to be enacted, and such measures as no segregation and fair employment act were side-tracked for the time being, but not stopped. Those babies are determined. They are professional do-gooders.

Even Drew Pearson, who is usually ready to criticize the South after naming the committee, stated that he was fearful that such recommendations as they made would do nothing except "increase Federal coercion of the white people of the south." The

committee is made up of a Catholic bishop, and Episcopal bishop, a Jewish rabbi, two college presidents, two presidents of corporations. The Catholic bishop was on one of Roosevelt's FEPC committee. A Russian born man represents the AFL; a CIO man pledged to anti-Southern legislation, and Channing Tobias, negro. All of course live in the north.

If you, Mr. Texan or Southerner will get a copy of the things they recommend, and then can warm up to President Harry S. Truman to succeed himself, you have left the fine traditions of the South. The South will fare much better with the opposition party.

No one in the south that we are aware of, wants to mistreat any minority race, or to forbid any religious group, no matter how weak, or how radical they may appear to us, the right to worship

as they like. But there are certain social conditions in the south that are peculiar to any other section of our country, and when these rules are broken by a law not in accord with southern thinking, you are going to cause more trouble, a lot more than with present arrangements.

If the real leading negroes of the south were pressing for such things as this committee stands for, they might have a foot to stand on. But the leading and more educated and reasonable negroes in the south are as much against so-called "social equality" as the white people. They like it as is, with their own leaders of their churches and schools.

So, why bring on trouble by trying to force on both whites and blacks of the south something they do NOT want?

First Eight Months Of 1947 Dry

As we have stated on more than one occasion in these columns this year that the old "Buttermilk Cow" of the skyways has been very sparing this year, following two of almost failures of 1945-46. And the only reason we have a bumper feed and cotton crop this year was the fact that more than five inches of rain fell the last days of August, 1946 and good rains through October and November, with quite heavy snows in December, our big crop would have been sold down the river.

This bottom season stored deep in the soil last fall stood us in good stead through this miserably hot, dry summer. True we had fair rains in March, April, May and June, but outside those four months—and they are all planting and growing months—our rainfall was trifling, and no crop could have been produced.

Below we give the month by month rainfall as registered in the USWB gauge at the Herald office, for the first eight months of 1947.

Herald Changing To Eight Columns

While in many ways like our old seven column size newspaper the best, in other ways an eight column size, like we are producing this week. For one thing, it will not be necessary to make up so many pages, as there are some 30 odd inches more in an 8-column page, and of course that makes the press run less.

Probably the lay man will not understand, but a printer will. Suppose you have two 12 inch by four column ads to run on the same page, and you try to get them on a 7-column page, you have a job. Lead type will simply refuse to be squeezed.

Now we are going to have some headaches to overcome this first week of the change, like getting both the press and folder regulated for the new size sheet. So if your paper comes to you a bit out of line or frayed at the edges, you can readily guess the trouble.

In a few weeks we hope to have all adjustments made, and we hope you like the new size, which are now carried by most larger town country weeklies.

Over One Million Votes Cast For Queen

According to tabulations released this week by the Merchants Jubilee committee, 1,069,600 votes were cast for the Queen of the Harvest at closing time last Friday. In other words, \$10,669,000 worth of tickets were cast. Just how many failed to make the ballot box before closing time is a conjecture.

All, whether for her or some of the other five beautiful young ladies, Glenna Faye is receiving the hearty congratulations of all. And along with that congratulations go out to the losers who made a great fight, along with their sponsors.

All could not win. Too, we imagine the Rotarians will use their net proceeds in a good cause. To President Kyle Graves of the local Rotary Club, and Hiram Parks, theatre man and Rotary and town booster, goes much toward the success of the affair.

County Bread Show To Be Held Saturday

Women from all over Terry county are urged to exhibit in the County Bread Show tomorrow beginning at 10 a. m. Each woman entering the contest may use her favorite recipe and flour. In addition to the Women's contest, the 4-H Club girls will also have exhibits.

The products will be on display on the first floor of the court house and all blue, red and white ribbon winners will receive awards from Bewley Mills.

Judging will start at ten a. m. and the products will be sold.

Mr. and Mrs. Mon Telford plan to leave Monday for Temple to stay there a week and then go on to College Station to visit Mr. and Mrs. Telford, Jr., for the Thanksgiving holidays.

Brownfield Schools Staffed With 67 Teachers

We have before us a list of the teachers as of a few weeks ago, but as there is almost a constant change in the lineup, it is quite unnecessary to publish the names of each teacher. For instance, just recently we have had a resignation of the band director and numerous other changes have been made since the beginning of school.

S. P. Cowan is the head of the faculty of 22 teachers in all school, and with a faculty all told of 67 teachers and around 2,000 students. Mr. Cowan certainly has his hands full. Apparently the trend to change or resign has about settled down for the term, and this will be a relief not only for Supt. Cowan but the balance of the faculty as well. Mr. J. B. Fallon is principal of high school.

C. A. Wilhite, principal, heads the list of teachers in the West Ward school, the plant of which was remodeled and rejuvenated at a cost of around \$100,000 this summer. This was the first school building of a fireproof nature erected in Brownfield in the early 20's. Mr. Wilhite is assisted by 17 other faculty members. They are proud of their remodeled plant which has the appearance of a new building on the interior, and is well near fireproof.

The Jessie G. Randal school is the newest of the expansion from the site of the senior and junior high and West Ward grade building. Mr. Russell Craft is the principal, and has the cooperation of 17 other teachers.

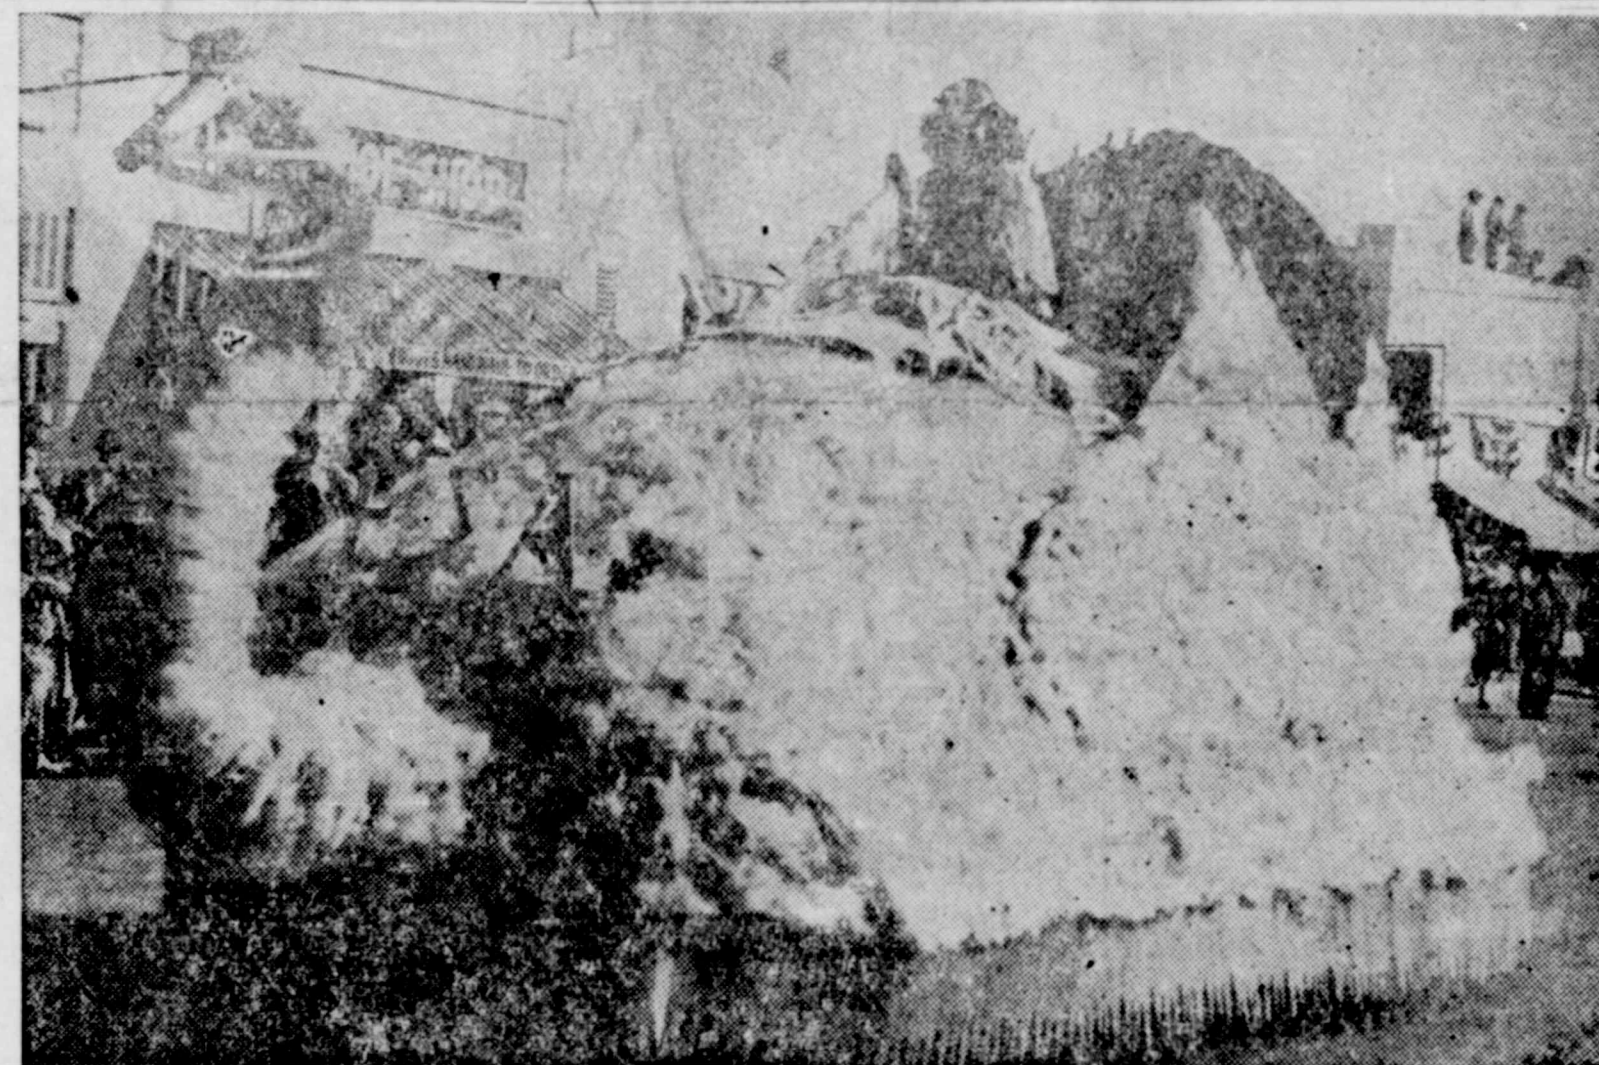

Mr. William Conlee heads the faculty of six members of the Gomez Ward, which is a well equipped and manned school plant five miles west of Brownfield, on the Plains highways.

The Phyllis Wheatley school for colored children is located in the north part of the city, with Mrs. L. M. Sparks, principal, assisted by Marion Sales and Miss Ella D. Scales. They are making rapid progress, and we learn may have their first graduating class this coming spring.

Catholic Church Establishes Mission

Sponsored by the St. Elizabeth Catholic church at Lubbock, a mission is being established in Brownfield. The first service was held last Sunday at the American Legion hall at 9 A. M. The minister is Rev. Leo Conlin, assistant pastor at Lubbock.

Services will be held here each Sunday at 9 A. M. and 11 A. M. at Seagraves. Quite a few people of this faith are locating in and near Brownfield.

WINNER IN HARVEST JUBILEE—Miss Glenna Faye Winston, pictured above, riding atop a huge pink swan float in the Harvest Holiday and Jubilee last Friday, was crowned queen of the festival last Friday night. A close up of the queen is shown in the bottom photo. The float entered by the Theta Beta chapter of Epsilon Sigma Alpha, was judged the best decorated float in the parade and won a \$75 prize. Miss Winston, a sophomore student at Texas Tech, is a daughter of County Judge and Mrs. Homer R. Winston of Brownfield. (Photo courtesy Lubbock Avalanche.)

TERRY COUNTY LIBERAL TO CRIPPLED CHILDREN FUND

The Ladies of the Shriners received over \$700, last Friday for the Crippled Childrens hospital in Dallas. While this institution is sponsored by the Masons, it is open to all.

The Shriners express their thanks to the donors.

Mr. and Mrs. E. J. Cooper, of Tahoka were here Friday to attend the Harvest Jubilee and visit their son and his wife, Mr. and Mrs. Andrew Cooper.

Mrs. Otto Townsend of Tahoka visited in the Mon Telford home Wednesday. Mrs. Annie Spivey returned home with her for a two weeks visit.

First Returned War Dead To Be Buried In Meadow Today

Jeff Farley stated this week that the body of Pvt. Estanislado Reyna, who fell on the battlefields of Belgium in 1944, and the first Terry county boy whose body is being returned, to be buried in this county.

Services will be held Friday 5 p. m., at Meadow high school auditorium, with Rev. Woon, pastor of St. Joseph's Catholic church in Lubbock, officiating. Burial will be followed in the Meadow cemetery.

Pvt. Reyna is survived by his mother, seven brothers and a sister.

Woman and Child Perish in Flames

Joe Vargas, infant son of Mr. and Mrs. Frank Vargas, Mexican farm workers, died almost instantly and Mrs. John Brun, 38, unrelated to the infant, but occupying the same tenant house died late Tuesday evening as the result of an explosion of an oil stove in the house on J. E. Young's farm 12 miles south of Brownfield.

The accident occurred about 8 o'clock Tuesday morning just after the child's mother and other members of the family had gone to work in the nearby fields.

The child was buried late Tuesday evening. The woman, after graveside services were held, was buried in the Brownfield cemetery by Brownfield Funeral Home.

Mrs. Grace Woods, music teacher in the Jessie G. Randal school visited in Amarillo over the week end. She attended the concert given by Margaret Truman Friday night.

Generator Arrives for Big Engine

In connection with the street paving, Utility Supt. E. D. Jones said that the generator for the new addition to the power plant had arrived, and the engine was expected in the next few days. He laughingly stated that really he was expecting to have to wait on the generator instead of the engine.

Which reminds us that you can't always follow the dope. For instance, Plainview beat Pampa footballers by a narrow squeeze, and Pampa took the Cubs to a bad drubbing. Therefore the dopsters had Plainview scheduled to beat the Cubs by at least two or three touchdowns. Fact: The Cubs took the game Friday from Plainview by a score of 19 to 12.

We'd hate to be a sport writer.

Elderly Resident Dies Thursday Morning

A. A. Freeman, 85, passed away at 12:15 A. M. Thursday at his home in South Brownfield, following declining health for some time.

He is survived by his wife and four sons, and five daughters. The sons were listed as C. C., R. L. and M. A., of Seagraves and S. L. of Clovis. The daughters were given as Mrs. Doris Coker, of California; Mae Shipman of Lubbock; Allie Groves, Denver City; Mabel Hobbs, Ropesville; Rachel Jeffcoat of Kermit. He was also survived by one sister, Mrs. L. A. McGee of Abilene, 59 grand children and 66 great, grand children.

Funeral services had not been definitely announced late Thursday, but would be held in Brownfield sometime today, according to the Brownfield Funeral home, which is in charge of arrangements.

Vet Organizations To Sponsor Play

"Cornzapoppin", a comedy sponsored by the American Legion and VFW and directed by Miss Cleo Krumholz, will be presented at the local high school auditorium Thursday and Friday nights, November 20-21.

The show, with an all-male cast, is complete with plot, choruses, music 'n everything.

In connection with the show, a baby contest will be run off. A parade, advertising the event, is scheduled for Saturday afternoon at 3:00.

Mrs. R. L. Walker returned last week from a weeks vacation trip to Corpus Christi.

Is it any wonder that grandpa didn't have too much education? Some one with a flare for statistics has come up with the fact that in grandpa's time, the great State of Texas spent just 62c per year on his schooling. On the other hand, junior gets \$45 per year from the state as well as other handouts, such as buses and other aids, not to mention a whole lot of money from his district taxes. No wonder grandpa knows a lot more about essential things as well as some not so essential, than granddad.

Remember to put your lights on dim when meeting other cars. Otherwise, you are not only liable to cause the other fellow to leave the road and hit a concrete culvert guard, but may blind the other driver so that he will run into another vehicle, or perhaps some pedestrian. This dimming business is now a state law MUST, and if a highway cop or other officers catch you showing off your bright lights, you may have to spend some time under dim ones on the jailhouse. If they catch you brother!

When the leaves of the trees begin to turn from green to yellow, brown and bright red, one does not have to examine the calendar to realize that autumn is here in all its glory. Or that Mr. J. Frost has made his annual trip to paint the forests in glowing colors.

At the recent meeting of the Commissioners and County Judges convention at Laredo, a north Texas county judge charged that commissioners courts in Texas are wasting 5 million dollars of the people's tax money annually. He made no specific instance or place, but his charge is likely true. However, we believe we of Terry county have an above average bunch of careful business men over at the courthouse, and we feel that we are getting 100 cents on the dollar for every one spent. Of course all know that the dollar will not buy as much as it did a few years ago. From frequent investigations, however, we get a hint that in some of the larger and richer counties, that there is sometimes a scent of something untrifling in the Netherlands.

So old Charley Guy has been invited along with some 13 other former editors, to see Europe in all its post war glory, at the behest of the army of occupation. Most all if not all of the guests who are invited to go are either editors or newspaper correspondents, and they are to be allowed to freely write their observations while abroad or after they return, without censor. We are glad that our section of Texas is to be represented. In fact the south will have a poor minority of the writers. And we hope the trip does not make Charley hateful after his return, or even uppity.

When Editor Alton Richards of the Aspermont Star is not having a newspaper spat with some of his local brethren, or even the law, or is not taking it out on the schools for football and carnival gambling, and even including some of the churches in the carnival affairs, or with Editor Morris of the Ropesville Plainsman, he is picking a quarrel with his correspondent at Peacock. Can it be that Editor Richards dislikes the name, "Peacock," and is trying to take some of the vanity out of the place?

All of us run-of-the-mine citizens and taxpayers hold a deep seated grudge against taxes, and especially at paying time. And let us be reminded that while they have been boosted considerably this year over last, more boosts are to come very soon, if the 1949 legislature is not a bit more economically minded than the present one. The 50th not only spent every farthing that the comptroller figured was in sight or expected, but along with it he \$52,600,000 Gov. Stevenson had saved for a rainy day. But maybe some of the unnecessary taxes can be pared, if not some of the aged

needy are in for real suffering. Even with the top figure they are supposed to draw monthly, around \$30, we can't figure to save us how some of them live, after we figure our own grocery bill, not to mention many other necessary bills.

A recent checkup by church workers out at San Diego, California revealed a great delinquency of even church members in Sunday School attendance. And it is reported that some of the churches refused to help ring door bells to find a reason for nonattendance. It was disclosed that a very small per cent of the people of that city gave even one day to the worship of God, or to study his message. And we do not believe that San Diego people are very much different from the average in the nation. Probably a greater per cent of rural than city people attend divine worship. We hope so, for the rural folks are the backbone of the nation.

Not all of the profiteering can be laid to the door of big business. Perhaps it has a share in it, but not all. A recent check with building constructors brought out the fact that bricklayers were now laying only 300 brick per day compared to 800 in prewar years. That plumbers have to spend a full week on a four room house job that could be finished in half the time, and so on through all the different trades that handle such a job. Some of the union heads have asked that profiteers be jailed. That game might be made to work both ways. The farmers are sharing in the general prosperity, but perhaps they are saying the least about other peoples' profits. In other words, the farmer is willing to share with others without blowing a fuse.

NOTED GEOLOGISTS TO LECTURE AT TECH
Discussing techniques of exploring for oil, Dr. Everette DeGolyer, internationally known consulting geologist, will lecture at Texas Technological College on the night of Nov. 14.

Dr. DeGolyer, senior member of DeGolyer and McNaughton, Dallas consulting geologists and petroleum engineers, is a pioneer in the introduction of geophysics into oil exploration. The speaker will place special emphasis on the outlook for prospecting in the United States and current exploration procedures.

AFTER LEAF SHEDDING TIME TO TRANSPLANT
Most favorable time for transplanting shade trees and flowering shrubs is as soon as the plants shed their leaves in late fall or early winter, according to Dr. W. W. Yocum, professor of horticulture at Texas Technological College.

Contrary to wide spread opinion, these plants make roots all during the fall and winter, and their chances of surviving transplanting is greatly increased if they are allowed to begin growing in a permanent location during this season, he stated. Evergreens should have been transplanted in September or October, he stated, but if this has not yet been done, November is a better time than during the spring.

A study in Texas shows that costs of producing cotton in the state range all the way from 19.4 cents to less than 4 cents per pound.

Behind the Scenes in American Business

By Reynolds Knight
It is still tough to run a business. The man who can successfully operate a grocery store, a bank, a feed and grain business or a music shop, even in these days of high consumer purchasing power, is a man of substantial ability. This is proved by the latest figures on business failures.

Business failures are rising. They rose from a monthly average of 94 in 1946 to 277 for the first eight months of 1947. So far, this is by no means an alarming figure. War periods always bring a lot of new businesses into being; after the war, the rate of failure begins to rise. It was so after the Civil War, after World War I, and it is true now.

The figures on commercial failures are much more important than the attention usually given them. For they reflect the risks that a man, or a group of men, assume when they start a new business and create jobs for others. Instead of smearing all business enterprise with harsh phrases, legislators would do well to realize that business creates wealth for others even while it may be losing money itself.

FARM SPENDING—Plenty of money is flowing into the pockets of farm families these days. Agricultural products and livestock this year are expected to bring some \$30 billion, nearly four times as much as they did before the war, a fact which means unprecedented farm prosperity. And the present record income is being used wisely. Part is going into savings accounts, or that final mortgage payment. Much is being spent on homes and better living facilities. "I've got a tiled shower bath at my house now," an Illinois farmer said recently. "In all my life the only other shower I ever had was when I got caught in the rain." About one in 10 farm families, surveys show, hope to build a completely new home in the next three to five years. Many of these house will incorporate such features as central heating, tiled bathrooms and modern kitchen facilities. Thanks to better income, a quiet revolution is taking place in rural life, and the day that farm homes will have all the comforts and conveniences is not far off.

ENOUGH TURKEY—There should be ample supplies of turkey and fixins for the Thanksgiving holiday meal, according to the chain stores. Basing their report on a U. S. Department of Agriculture survey which lists the total turkey population at more than 34,667,000 birds, the company said that this figure, although it represents a 16 per cent reduction from the previous year, would still mean an adequate supply for all, due to further reduced military demands.

In one year, a female moth and her descendants can destroy as much wool as 13 sheep can produce in the same period.

Farmers spent about \$800 million for new farm machinery in 1946, not counting tractors.

Advertisements For Sealed Bids

Sealed proposals will be received by the City of Brownfield, Texas at the office of the City Secretary until 10:00 o'clock A. M., November 20, 1947, for the construction of **STREET PAVING IMPROVEMENTS** and at that time and place the proposals will be publicly opened and read.

The proposals must be accompanied by a bidder's bond or a certified check in the amount of Nine Thousand Dollars (\$9,000) payable without recourse to the order of City of Brownfield, Texas as a guarantee that the bidder will enter into a contract and execute a Performance Bond in the forms provided within ten (10) days after notice of award of contract to him. The successful bidder will be required to furnish a Performance Bond for 100 per cent of his total bid, written by a responsible surety company satisfactory to the City Council. The City reserves the right to reject any or all bids and to waive formalities.

Bidders are expected to inspect the site of the work and to inform themselves regarding local conditions. Plans, specifications, and other proposed contract documents are on file at the office of Joe E. Ward, Consulting Engineer, 545 Nacoll Building, Wichita Falls, Texas, and at the office of the City Secretary at Brownfield, Texas. Copies may be secured upon the deposit of Twenty-five Dollars (\$25.00), which will be returned if the contractor submits a bona fide bid and or returns the plans and specifications before the bid opening.

The proposed work includes approximately the following: 94,600 square yards of grading for street paving, 94,600 square yards of triple asphalt surface treatment on crushed caliche base or 1 inch cut-back asphaltic concrete surface course on crushed caliche base, 43,840 feet of concrete curb and gutter, and 2140 feet of concrete headers. **FRANK JORDAN, Mayor, City of Brownfield.** Attest: **THOMAS D. ZORNS, City Secretary.** 16c

The timber cut from the national forests in the quarter ending September 30 totaled 1,127 million board feet, the largest cut from national forests ever registered in any one quarter.

CITATION BY PUBLICATION TO LAVENE SARGENT GREETING

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 8th day of December, A. D., 1947, at or before 10 o'clock A. M., before the Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said Plaintiff's petition was filed on the 7th day of October, 1947.

The file number of said suit being No. 3389.

The names of the parties in said suit are: H. L. Sargent, as Plaintiff, and Lavene Sargent as Defendant. The nature of said suit being substantially as follows, to-wit: Suit for divorce. Plaintiff alleging 12 months residence in the State of Texas and 6 months in Terry County. That Plaintiff and Defendant married January 8, 1947 and separated February 1, 1947. That the Defendant is addicted to excessive use of alcoholic liquors, and unable to attend to her household duties, staying out late at night; that her actions and conduct are degrading and unbecoming a married woman and her action and conduct are of such a nature as to cause the plaintiff to become sick in mind and body to such an extent that he cannot do his work properly, and that their further living together is unsupportable. Prayer for divorce.

Issued this the 22nd day of October, 1947. Given under my hand and seal of said Court, at office in Brownfield, Texas, this the 22nd day of October A. D., 1947. (seal)

ELDORA A. WHITE, Clerk, District Court, Terry County, Texas. 16c

LOST: \$5,000,000 DUE TO CATTLE GRUBS

A little time and trouble now, plus some rotenone, can put Texas cattle—and dairymen on the road to saving \$5 million.

How? By spraying for cattle grubs. Statistics show that forty-two per cent of all Texas cattle are grubby. Grubby cattle are discounted on the market at about one cent a pound. The total loss to Texans in the cattle and dairy business in terms of milk, meat and leather each year comes close to five million dollars.

Most farms and ranches cause their own trouble with grubs. Extension entomologists for Texas A. & M. College point out. Heel flies are the parents of grubs, and the flies seldom migrate over half a mile. So treatment for grubs in the fall and winter will control the heel fly on the farm and ranch in the spring.

Spray the backs of the animals with a mixture of 7 1-2 pounds of 5 per cent rotenone in 100 gallons of water at about 20-day intervals in the fall and winter, the entomologists say. Rotenone dust can be used on small herds.

Control now will help to save feed next year, too, as it takes from 10 to 15 per cent more feed to fatten a grubby steer than one free of grubs.

An hour of work on the farm now, as compared with 1920, results in about a third more milk, a half more corn and more than twice as much wheat.

Make maximum use of pasture is a good general rule to follow in feeding stock, whether beef or dairy cattle, hogs or lambs. It will save badly needed grain as well as reduce costs of operation.

According to an estimate by the Fish and Wildlife Service, rats are destroying grain at the rate of 200,000,000 bushels each year.

Forty-four boxes filled with toys clothing, foods and school supplies were sent to New York this week by the Texas Technological College Home Economics club. The boxes are to be distributed throughout Europe by the United Nations organization during the World Christmas Festival.

Improved Farms — Homes in City Ranch and Farm Loans — Royalties COTTON, FEED and WHEAT LANDS D. P. CARTER, Brownfield

COTTON PUSHERS

Cotton pedal-pushers printed in a gay musical motif are selected by Catherine McLeod, Republic star, for her 1948 cruise wardrobe. The two-piece cotton outfit is designed for comfort as well as fashion-right appearance.

Soil Conservation District News

Keep the date and place in mind for the Supervisor's election to be held at Johnson School, Dec. 5, 1947 at 7:30 p. m. Only land-owners may vote from Precincts 3 and 4 of Terry county. Your cooperation is needed for the continued development of the CYT district. Only one farmer to be elected. Tell others in each respective community from Gomez, Wellman, Tokio, Johnson and SW Brownfield.

Mrs. Gladys Moorhead who owns the North half of Section 55, Block T had the Engineering crew of CYT lay out approximately five miles of terrace guide lines. Mrs. Moorhead had her farm planned for a better moisture conservation program for farming in 1948. Other conservation practices will be used.

The big question before Terry county farmers is how to best manage cotton land for another crop to keep down wind erosion.

If you plan improved pasture acreage under irrigation for August 1948, grow a quick maturing crop so that it can be harvested ahead of time in order that the field may be properly prepared before early seeding in of grasses and legumes.

The district engineering crew, this past week, has been mapping the South half of Section 94, Block D-11. This 320 acres is to be used as a Sub-Experiment Station starting with January 10, 1948. Mr. Hugh G. Porterfield is in charge of the research work.

Mr. J. A. Cornett, in the Union community will start within a few days to drill an irrigation well on the West half of Section 24, Block C-37. If sufficient water is developed, he plans late in 1948 to develop a nice acreage to irrigate pasture.

The total rainfall recorded at the Brownfield Station from January 1 to October 31, 1947 has been a total of 9.66 inches. Farming land is very dry in most sec-

tions of the SCS district. We miss the good rains we had in August and October 1946, when we had then received a total of 9.99 inches. Those two months gave excellent moisture for fall and winter of 1946 and this carried over until the planting of crops late spring of 1947. The entire District as a whole has not had a general rain since June 20, 1947.

There are still a large number of farms in the D'stict that would be more profitable if farmed or the contour. The SCS Engineering Crew can readily assist in developing true contour lines. Contouring will aid in conserving moisture.

Tight land with considerable slope will yield better crops if terraces are constructed. Terraces prevent some wind erosion, also if terraces are properly laid out and constructed they will help hold water on the land for crop growth.

Supervisor's Election December 5th at the Johnson Schoolhouse. Any land owners in Precincts 3 or 4 may vote. Tell others about this date. Continue the further development of the district by selecting a capable farm community leader.

Considerable wind damage to crops and the farm land was evidenced Thursday, October 6 from the high westerly wind. Fields with little or no protective cover blew out very much. Several farmers are already speculating about what will happen between now and spring if the fall drought continues in the winter months.

What has become of the old fashioned smokehouse filled with cured hams, sides of bacon, and sacks of good flavored sausage along about Christmas time? Or yes, where are the cellars and storage rooms filled with canned fruits, vegetables, jams and preserves? This used to be the way our farm people kept down the HCL (high cost of living).

Plan improved pastures to help keep down the high cost of living. You can have a green pasture the year around where irrigation is to be had. This kind of pasture affords grazing for cows, hogs and

Tech Student Come From Many Places

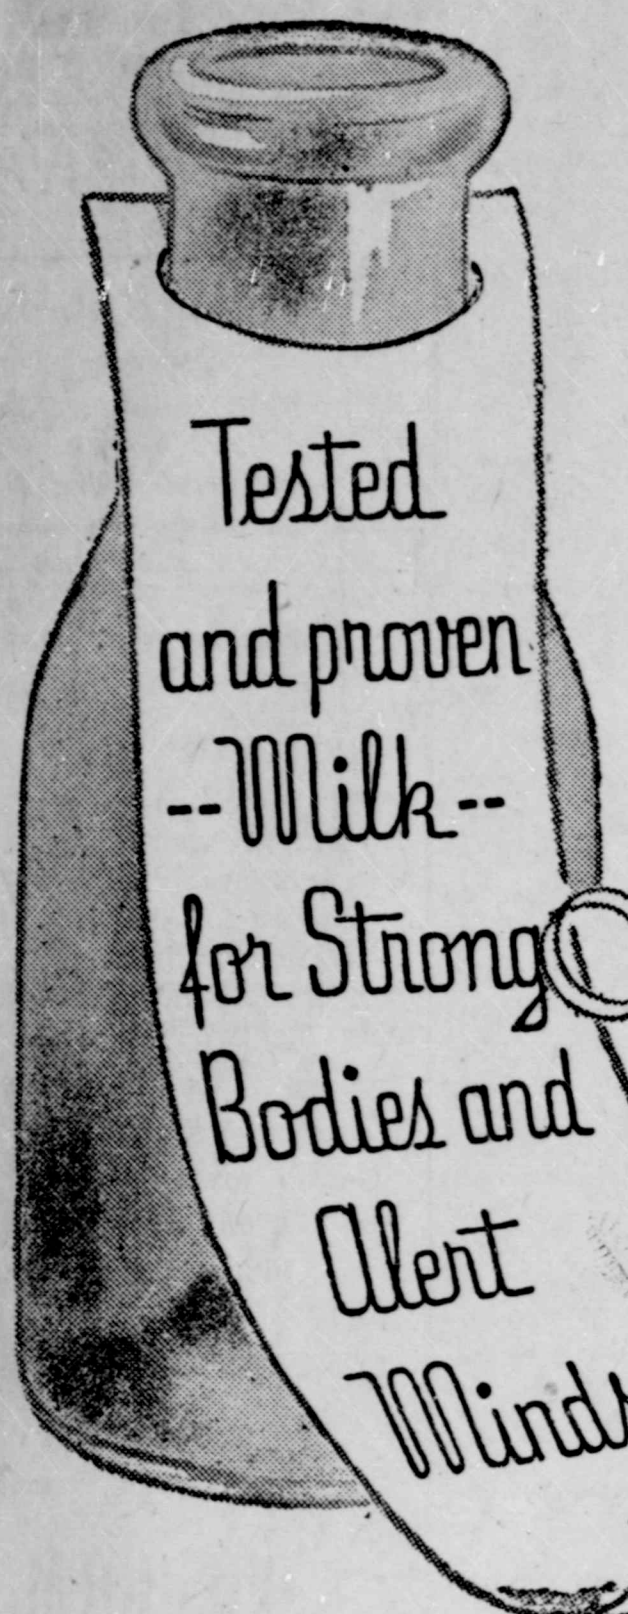

Students from 228 of Texas' 254 counties, 34 other states and several foreign countries are included in the 6228 enrolled this semester in Texas Technological College, according to Pres. W. M. Whyburn.

"Texas Tech enrollment increased by about 900 this fall over last spring, with the principal increase coming from non-veteran students," Dr. Whyburn stated. "Even when the rush of poultry.

Dairy cows must have 3 to 5 times as much water as they produce milk. Insufficient water reduces production, increases costs and wastes feed.

"Frost-proof" vegetables simply means that the seed has been planted in open field plant-beds and as the weather becomes colder, the plants become "frost-proof" or toughened to cold weather.

veterans seeking education is over, Texas Tech enrollment will probably never fall below 5000."

Harvesting cotton in a once-over operation is the short cut to bigger profits. Get this advantage by stripping and delivering cotton, two rows at a time, with a labor-saving John Deere No. 15 Cotton Harvester.

Designed to work with the John Deere "A" and "B" Tractors, the No. 15 is a simple, sturdy, long-lived machine that does a fast, efficient job of saving bolls after the cotton plants have been killed by frost. Many gin operators state that cotton stripped by the John Deere is cleaner than that pulled by the average hand puller.

This year, to make short work of your cotton harvest—use a John Deere Cotton Harvester. See us for complete information the next time you're in town.

Ida May May Weds
Ben Monnett Nov. 10

In a double ring ceremony read Monday night at 7:30 o'clock in the First Baptist church, Miss Ida May May, daughter of Mr. and Mrs. Tom May, and Ben Monnett, Jr., son of Mr. and Mrs. Ben Monnett, of Yale, Okla., were united in marriage. Rev. J. Preston Murphy, pastor of the Presbyterian church officiated.

Arches entwined with smilax against a background of woodwardia, white and yellow chrysanthemums, tapers in candelabra and small white gothic posts draped with white silk cord decorated the altar. Aisle markers were yellow mums tied with white satin bows.

"Through the Years" and "To Each His Own" was offered by Mrs. Roy Herod, organist, and "I Love You Truly" was sung by Mrs. P. C. McCord. As vows were repeated, "Souvenir" was played.

The bride, given in marriage by her father, wore a gown of ivory satin designed with a high neckline, a small pointed collar, long fitted sleeves tapering into points over the hands and a fitted basque bodice fastened in front with tiny self covered buttons. Her full skirt featuring unpressed pleats on either side and a bustle back was worn over a hoop and

and she carried a bouquet of white roses centered with a white orchid. For something old, the bride wore pearls, belonging to her grandmother, Mrs. M. B. Sawyer, and for something borrowed, carried a handkerchief belonging to her niece. In her shoe her father placed a gold four leaf clover inscribed with the names of the bride and bridegroom and their wedding date.

Mrs. W. A. Redford, a sister of the bride, was matron of honor and bridesmaids were Mrs. Roy Ballard, Mrs. Bruce Zorns, Mrs. Dyar Oakley, of Kermit, all sisters of the bride, and Mrs. Murphy May, of Seagraves, sister-in-law of the bride.

The attendants wore identically styled period gowns of yellow silk faille taffeta with hooped skirts. Their Mary Stuart caps and mitts were of yellow taffeta. The matron of honor carried a colonial bouquet of yellow roses and the swept into a long graceful train. A full length veil of imported bridal illusion fell from her Mary Stuart cap of satin and illusion bridesmaids carried yellow chrysanthemums.

Dr. C. G. Ewing, of Yale, Okla., was best man and Bruce Zorns, W. O. Linder, W. A. Redford,

Smith-Packard Vows Read Friday

Miss Elizabeth Smith, daughter of Fred Smith and Robert T. Packard exchanged vows Friday afternoon at 1:30 o'clock at the Presbyterian church. Rev. J. Preston Murphy, pastor of the church, read the double ring service.

Preceding the ceremony Mrs. Murphy played, "Because" and as the vows were repeated, Schubert's "Ave Maria."

The bride, given in marriage by her father, wore a blue wool suit with white blouse and black accessories. She carried a white Bible topped with an orchid. In carrying out the tradition of something old and new, borrowed and blue, she wore a strand of pearls belonging to Mrs. Wendell Smith.

Mr. and Mrs. Wendell Smith, of Plainview, brother and sister-in-law of the bride, attended the couple as matron of honor and best man.

Mrs. Packard is a graduate of Brownfield high school and Texas Technological college. Mr. Packard served with the Seabees during the war and is now employed as chief clerk for the Stanolind Oil and Gas Co.

After a wedding trip to Mexico the couple will be at home in Brownfield.

Murphy May, Dyar Oakley and Don Monnett, of Lake Charles, La., brother of the bridegroom, were ushers.

Following the ceremony a reception was held in the May home. The bride's table of yellow satin was covered with a filet cloth, made by Mrs. May and presented to her daughter. A white double ring cake decorated with yellow and white confection orchids centered the table. Yellow tapers and mums decorated the receiving rooms. The houseparty included the bride's attendants, and Mmes. Ray Brownfield, Mon Telford, L. M. Wingerd, W. A. Bell, Cye Tankersley, of Lubbock, Joe McGowan and Ben Monnett, of Yale, Okla.

For travelling the bride wore a brown and beige suit with brown accessories and an orchid corsage. After a wedding trip to New Orleans, Little Rock and Tulsa, the couple will be at home in Pampa, where Mr. Monnett is employed in the office of Magnolia Petroleum company.

Out-of-town wedding guests were from Seagraves, Lubbock, Littlefield, Plainview, Amarillo, Dallas, Yale and Lake Charles.

A rehearsal dinner was given for members of the wedding party at the Esquire Sunday evening.

MRS. MURRY ENTERTAINS HARMONY H D CLUB

The Harmony Home Demonstration Club met in the home of Mrs. Murry November 6 with 10 members present. The program was an achievement event with all members taking part. The motto for the program was, "Be Not a Leaver, but a Lifter in Your Community."

After the business hour a sunshine shower was given Mrs. Murry.

New officers for the year are Mrs. Bartley, president; Mrs. Wise, vice-president; Mrs. Brigrance, secretary; and Mrs. Floyd, reporter.

Next meeting will be with Mrs. Pete Ellis, Nov. 20, also there will be a social Friday night, Nov. 14 at the Ellis home.

MRS. WILLIAM THURMAN SHOWER HONOREE

Mrs. Mon Telford and Mrs. Andrew Cooper named Mrs. William Thurman honoree at a shower Tuesday afternoon in the Telford home. Paper and pencil games were played and pink and blue gifts were presented the honoree. Hot chocolate and cake were served to twenty guests.

Dr. and Mrs. R. B. Parrish and children of Hobbs came over for the harvest jubilee and week end.

Mr. and Mrs. Chas. Hamilton, of Lubbock spent the week end here with his mother, Mrs. C. F. Hamilton.

Rebekah Lodge Holds Open House

Members of the Rebekah Lodge held open house for visitors from Sundown, Levelland and Seagraves at the Veterans Hall Monday evening. Mr. Jeff Farley gave the welcome address which was followed by a basket supper served buffet style.

A program consisting of songs and dances conducted by Mrs. Crawford Burrow. Little Lee Nell Chesshir gave a hula dance and Carlton Dell Brady a tap number. Arnita Lucas sang accompanied by Lorene Hargrove who also gave an accordion solo. The Scales sister, Marjorie and Patsy, of Wellman sang a duet and Charlene Didway gave a piano solo. Mrs. Harrison entertained the crowd with piano selections during the supper hour.

One hundred and twenty-five registered.

44 CLUB HAS HOBBO PARTY THURSDAY

Members of the 44 Club enjoyed a covered dish supper and hobo party in the Crawford Burrow home Thursday night of last week. Mrs. Jack Benton and Mike Blair received prizes for the best costumes. The Bentons and Blairs also won high and second high in bridge.

Guests were Messrs. and Mesdames Lawrence Dean, Martin Line, Benton, Blair and Wayne Brown.

BRAZELTON-TYLER VOWS READ NOV. 1

Miss Billie Brazelton, daughter of Mr. Lee Brazelton and Dorcy Martin, son of Mr. and Mrs. Tyler Martin were married November 1 at 7 p. m. in the Baptist parsonage at Plains. Rev. Curtis Jackson, pastor of the Plains church, read the single ring service.

The bride wore a soft blue wool suit dress with black accessories. Mr. and Mrs. Robert Hall attended the couple.

The couple will live in Gomez for the present where Mr. Martin is mail carrier on Route 4.

POTTS-MACKAY MARRIAGE ANNOUNCED

Announcement is made of the marriage of Miss Sybil Potts, of Pauls Valley, Okla., to Jimmie Mackey, son of Mr. and Mrs. J. B. Mackey of Rt. 1, Meadow. The single ring ceremony was read Oct. 30 in the home of Mr. Charles Watkins, minister of the Church of Christ.

The bride wore a blue taffeta dress with white accessories. Her corsage was white carnations.

Following a wedding trip to Albuquerque the couple will be at home in Brownfield.

Mr. Mackey is assisting his father on his farm and is a member of the Night Riders Orchestra.

TWINS CELEBRATE WITH BIRTHDAY PARTY

Jerry and Jane Anderson, twins of Mr. and Mrs. J. F. Anderson celebrated their thirteenth birthdays with a party Wednesday evening of last week. Games and dancing furnished amusement.

A sandwich plate with cookies and cokes were served to Freda Anthony, Linda Figley, Leah Dale Portwood, Kay Szydzloski, Carl Dale Brady, Roxanne Miller, Donnie Boyd, Robert Ferguson, Herbie Kendrick, Bobby Latham, Max Black, Mackie Hord, Dickie Mann, Johnny Cloud and Roscoe Treadaway.

MRS. FLANNIGAN GIVEN SHOWER BY S S CLASS

Members of the Althean Sunday school class of the First Baptist church met in the home of Mrs. R. B. Walls Wednesday of last week for a covered dish luncheon. Mrs. T. R. Flannigan, a member of the class, was presented pink and blue gifts. Twenty-one guests were present.

Bill Heflin was a business visitor in Big Spring Monday.

Ruth Hogue Bride of Dick Heath In Church Ceremony November 8th at 6:30 P. M.

Miss Ruth Hogue, daughter of Mr. and Mrs. T. C. Hogue became the bride of Dick H. Heath, son of Mr. and Mrs. Hubert Heath Saturday November 8 at 6:30 o'clock in the First Baptist church. Rev. A. A. Brian, pastor of the church, officiated.

The double ring service was read before an altar decorated with baskets of gladioli, palms, and tapers in candelabra.

Candlelighters were Misses Dixie Redford and Norma Newman. They wore dresses of sky blue crepe and corsages of peach gladioli. Mrs. Wilson Copeland sang, "Always" accompanied by Mrs. Ruth Huckabee, organist, who played the wedding prelude and marches.

The bride, given in marriage by her father, wore a white crepe street length dress designed with fitted sleeves and high neckline with illusion inset. Her fingertip veil of bridal illusion fell from a halo of seeded pearls and she carried a white Bible topped with white rosebuds and streamers of white satin. Her gift from the bridegroom was a strand of pearls. For the traditional something old, she wore a lavalier belonging to her mother. Something borrowed was a handkerchief belonging to Mrs. Boyd Hogue, of Levelland and something blue was a garter. Her father placed a good luck penny in her shoe just before the ceremony.

Mrs. Ted Fox, sister of the bride, was matron of honor. She wore rose crepe and carried a colonial bouquet of pink carnations tied with blue net.

Rhea Heath, of Amarillo, brother of the groom, was best man. Ushers were T. C. and Carl Hogue, brothers of the bride, and Norwood Heath, brother of the groom.

A reception was held in the home of the bride's parents immediately following the ceremony. The bride's table was laid with a lace over pink satin and centered with pink and white mums. The three tiered wedding cake, decorated with pink roses and topped with wedding bells, was served by Mrs. Wayne Brown. Mrs. Boyd Hogue presided at the punch bowl and Mesdames Jack Benton, Howard Hogue, of Snyder, Ted Fox and Misses Barbara Jean Benton and Nadene Wagner assisted in the dining room. Miss Glady's Swain presided at the guest book. Others in the house party were Mmes. H. B. Fox, of Bowie and J. W. Hogue.

For travelling the bride chose a light brown gabardine suit with brown and green accessories. After a short wedding trip to San Angelo and points south the couple will be at home in Brownfield.

Mrs. Heath is a graduate of Brownfield high school and has been employed in the tax collectors office for the past year. Mr. Heath is a graduate of the Plains high school and served in the navy for two years. He is now employed as bookkeeper for Goodpasture Grain Co.

Out of town wedding guests were from Amarillo, Sunset, Bowie, Plains, Snyder and Levelland.

Mrs. W. A. Roberson and daughter, Lynn returned the latter part of the week from a visit with her parents in Dallas.

Mrs. Clifford Horn and daughter, Jackie Sue, of McAllen are here visiting her parents, Mr. and Mrs. Jack Holt.

Crawford Burrow was in Fort Worth Thursday and Friday for a showing of Hudson cars.

Schools Beset by Ills

IN SETTING out the school prospectus for the 1947-48 school year the National Education association points out that although the teacher shortage has been somewhat abated, there still are many ill's which beset our public school system.

"The great need now," says the association's brochure, "is to encourage some of our ablest young people to enter the teaching profes-

sion. For if education is a vital concern of a free nation, it must be in the hands of thoroughly able, well prepared, well paid, emotionally balanced teachers."

Salaries in most states have been raised during the past two years to a minimum of \$2,400 for qualified teachers, but there still is a distinct shortage of elementary teachers in rural areas and a "grave shortage of quality teachers."

Another vital question is that of rehabilitation of the school plant, long neglected during the war years. It likely will take from six to eight billion dollars in the next decade to bring repairs and replacements up-to-date. People will have to decide whether to build roads or schools. NEA points out that roads can wait but children's minds can't wait.

A Detroit writer put the blame for the sorry condition of the school system directly upon the parents. This writer said:

"Don't sit around with other parents discussing the disgraceful educational results that we're getting from our schools unless you have done something about it. Have you ever met any of your kid's teachers? When parents give a whoop, education will come into its own." And there's more truth than fiction in that.

Ballyhoo in Bulk

The voluntary plan to save food likely will be the most publicized public appeal ever made by the government in peacetime. From radio, newspapers, magazines, billboards, posters and all other publicity media will go forth appeals from the citizens food committee to conserve food.

While this peacetime appeal may lack the patriotic appeal of war time, even when tied in with whipping public resistance against high prices, seriousness of the foreign situation is such that even though only a little, comparatively, is saved, officials believe the results will be worth the ballyhoo.

Russia has said "no" to an assistant secretary of state and several senators who wanted to visit the United States embassy in Moscow. Last July several congressmen were denied admission to Russia when they were refused visas to study education and labor there. Senator Knowland of California, in retaliation would limit the number of USSR visitors to the exact number of American citizens allowed to enter Russia. Rep. Edith Nourse Rogers (Rep., Mass.) urges deportation of all Russian agents in the U. S. and confinement of Soviet embassy and U. S. officials to "areas of official business."

Pepper in Reverse

Although Sen. Claude Pepper of Florida maintains that he has not done an about-face in his belated support of the Marshall plan, there is considerable talk here that criticism of him by Florida newspapers may have been one reason why the senator changed his mind.

It will be remembered that last August Senator Pepper condemned the entire range of President Truman's foreign policy, particularly the Marshall plan, as loaded with "insupportable conditions" aligning western Europe alongside the U. S. in opposition to Russia. Now he says he will go along, adding that the plan has no evidence of political strings he had feared would be attached.

Labor Law Changes

Sen. George D. Aiken (Rep., Vt.), a farmer who specializes in fruits and flowers, says he intends to offer an amendment to the Taft-Hartley Labor law to eliminate the provisions requiring communistic registration and the section affecting political comment of union news papers. Senator Aiken, liberal on domestic issues, and a former isolationist, is unpredictable, but a force in the senate. He spent nothing in one campaign, 30 cents in another.

Mr. and Mrs. Jimmy Applewhite were here Friday for the harvest holiday festivities and football game.

Dr. and Mrs. Frank P. Miller were Lubbock visitors Saturday.

Veterans' News

Nearly 2,000 World War II veterans in the Southwest are being paid compensation for deafness due to military service and require special rehabilitation measures, the Dallas Branch office of the Veterans Administration has found.

VA made the survey of its eight regional offices in Texas, Louisiana and Mississippi on the occasion of National Hearing Week, November 9-15, sponsored by the American Hearing Society and endorsed by President Truman.

The Southwestern veterans are among 42,000 World War II service men throughout the country receiving compensation for hearing disabilities. Another 17,000 World War I veterans are also drawing pensions for this reason.

The number of deafened veterans being rehabilitated by VA's Southwestern Offices includes 688

The Low Down From Hickory Grove

Been on a little trip—new car. It was worth waiting for—the car. Cost 1600 bucks, but that is only 60 per cent more than our old 1936 baby we been driving. And it is a better and slicker rig. Runs like a scared rabbit—and smooth. My Susie is learning to drive it.

With so much being said in sorta high and supposed to be responsible places about business—especially big business—and how same is liable to gouge you, if you don't look out, and if you don't elect the gent who claims he is sweating in your behalf, day and night, I choose to raise my voice and say a whacking good word for business. I would not be getting any smooth-running, grand vehicle for ah 1600 bucks if there was not a big factory to build it. It would need be content with—

by Dallas, 88 by Houston, 230 by Lubbock, 465 by San Antonio, 205 by Waco, 72 by New Orleans, 93 by Shreveport and 117 by Jackson, Mississippi.

G I Question And Answer Department

Q. My son, who was blinded in service during World War II, and I would like to know he is entitled to receive a guide dog at Government expense?

A. Yes. A service-connected blind veteran is entitled to receive a guide dog and various devices out a vehicle—or dig up around 15 thousand for some hand-made job like a Rolls-Royce.

And on the trip, we never got more than 5 or ten miles from a service station—always one handy. And the gas was pingless—better than ever—and the price about prewar, except the tax. The tax is upped to 6 cents a gallon.

Big Business keeps prices down—Big Govt. keeps 'em up. And Sisters and Brothers, I am not talking through my chapeau. Now, says Henry, you are getting over on the front burner. Thanks, I says.

Yours with the low down,
JO SERRA.

necessary to assist him overcome his handicap.

Q. Does a veteran have to have a 10 per cent or more service-connected disability to be eligible for out-patient treatment?

A. Any veteran with an established service-connected disability is entitled to out-patient treatment for the service-connected disability, regardless of the degree of disability.

Q. If I go to a private physician to determine whether I need hospital treatment or domiciliary care, will the government pay the cost of the examination?

A. The Government will pay the cost of examinations by a private physician only if Veterans Administration has given the physician authority for such examination.

Q. Please tell me what veterans are eligible to have prescriptions filled at Government expense?

A. If the veteran's physician has been authorized by Veterans Administration to treat the veteran, VA will pay cost of the prescription if it is used in treatment of the veteran's service-connected disability.

NEW STORM PROOF COTTON SCARCE UNTIL 1949

Seed from improved stormproof cotton recently developed by the agricultural experiment station at Lubbock will probably be very scarce and hard to find until the 1949 planting season, according to Dr. A. W. Young, head of the Texas Technological College plant industry department.

Dr. Young, who recently described superior features of the new variety as shown on the college farm, has received numerous inquiries from farmers who wish to obtain seed.

Small lots of seeds were distributed for planting in seed blocks this year, he explained, and most of the receivers will probably wish to keep this year's seed yield for next year. However, seed should be more plentiful during the following season.

When Will Clayton was selected for a place in the government, many Texans raised their eyebrows. Clayton, the millionaire and the largest cotton merchant in the world was taking a government job—to feather his own nest thought a lot of people. But

Here's a message to drivers from the Texas Safety Association: Don't let traffic lights, officers and patrol boys around schools act as a sedative and lull you into thinking there is no need to exercise extra caution. These things help to make our schools safe, but the most essential protective measure is the driver's alertness and caution. Children's safety should never be taken for granted, because their actions are unpredictable. The smartest of them may walk absent-mindedly into danger. The quietest of them may dart suddenly into the street. The best of them may do some reckless scuffling on the curb. So watch out for the youngsters—ALWAYS.—Floydada Hesperian.

Clayton turned out to be a real democrat leader, working with the view of doing something worthwhile for the nation. He had wealth sufficiently large to be above temptation to run the department of government in which he labored for his own benefit. As we have said many, many times, all rich men are not crooks; and most certainly all poor men are not angelic.—Canyon News.

YOUNG REDS FORBIDDEN TO GO TO CHURCH

The central committee of the Young Communist Organization of the Soviet Union handed down a ruling last Saturday forbidding its members to go to church "or have anything to do with religion."

The Communist youth newspaper Komsomolskaya Pravda published the edict, citing the personal views of Premier Stalin on religion.

Stalin was quoted as saying: "The party can not be neutral with regard to religion. "It carries out an anti-religious propaganda against all and sundry religious prejudices because it stands for science. "Some party members have hindered real development of anti-religious propaganda. If such party members are excluded, it is good, because such 'Communists' have no place in the ranks of the party."

Komsomolskaya Pravda said: "It is considered impossible and unpermissible for a Young Communist member to believe in God and observe religious rites."

The paper said the Young Communists' job was to help elim-

Deenie Ballard, student at Hocka days in Dallas, was here for the week end and wedding of Miss May and Ben Monnett. She returned by plane Tuesday.

inate "religious superstitions in youth." It added: "To stress religion is contrary to science and the materialistic outlook."

CREOMULSION for Coughs, Chest Colds, Bronchitis

Info About The New Sewer System

Last week the Herald gave the readers a bit about the new sewer lines and big disposal plant, contract for which was let to the Panhandle Construction Co., of Lubbock. As it was late last week, and much dope about the Merchant's Jubilee had to be worked up, we cut the sewer news a bit short.

In the first place, a bit of the sewer extensions had to be left out in order to get it within the budget line. This was mostly in the extreme northeast part of the city, beyond Cub field, and the new proposed addition, formerly part of the King Nursery, in the extreme eastern part of town. Very few residences are now on either portion cut from the original blue prints.

All of us are proud that the west and northwest part of the city beyond the Santa Fe tracks are to be given sewerage, as they have waited long and patiently. Also the north part of the Santa Fe addition can be tied in. Tommy Zorns, city secretary, stated that where the line will cross the lake in the north part of the city, it would be two feet above ground and rest on concrete pillars. The newer addition out in the southeast part of town will also get sewerage.

In the King addition, it was stated to us that the area began sloping east instead of west, and when a sewer line is put into the area, a booster pump will have to be used as the disposal material

CARD OF THANKS

We take this method of thanking our friends for the many kindnesses shown us during the loss of our sister, Mrs. Henry Seigmund, who passed away in Stayton, Oregon, Oct. 19th and our nephew, Dewey Bradford, who passed away in Levelland, Oct. 31. The lovely flowers, consoling words and many thoughtful deeds were of great comfort to us in our hour of need. Mr. and Mrs. R. E. Townzen and family.

Mr. and Mrs. Walter Hord and sons were in Slaton Sunday visiting his mother, Mrs. Eva Hord. A special dinner was served in honor of Mr. Hord's birthday.

Mr. and Mrs. Troy Noel and children and Mr. and Mrs. Walter Haynes, of Plainview were guests of the Jack Baileys Sunday.

will have to move up hill. This was one reason for leaving off that section for the time being; the extreme cost of the booster pump station.

Zorns also informed us that the huge disposal plant almost a mile south east of the present one, will care for a city of 12,000 population. The old one, which will be discontinued except in emergencies when the new one is built, was built to care for some 1200 population. No wonder it gave off foul odors occasionally. It was not built for 7,000 people.

The Panhandle Construction Co., has announced that they have much of the material on hand, and expect to start construction in the very near future.

Just Nosit'
Around
By Hauser

Simon Legree pulled a fast one on me this week. He changed our newspaper "the weekly rag" from seven columns to eight. Just been sittin' here thinkin' it over—that a word about one eighth more more business and he didn't say a word about one eighth more pay.

I should get more pay anyway, covering football games and stuff on a holiday. Last Friday I covered the game—trouble is no one covered me, but her's how she went.

Well, to begin with, if Simon Legree's son hadn't had a son on the Monday prior to the game, Brownfield would never have won, but Monday before the game

Simon Legree's son's wife, Edith, had a baby. It must have had a faint resemblance to Papa, because he, Simon Legree's son, bought cigars . . . great big black ones (two boxes) and passed 'em out around town. Out of courtesy to the hired help, he passed 'em around and asked me to have one—so I took a handful—and that's how Brownfield won the football game . . . or am I ahead of the story.

Anyway, I got the cigars. And Friday A. M. was hanging around the office twiddling my thumbs and waiting for the ice man to come. He was late, so finally went to the Grill and ordered a BIG glass of tomato juice with Worcestershire sauce in it . . . felt better and went out to hear the speeches. Was very impressed with the words of a certain McGraw, who stated that America was safe as long as there was a Brownfield . . . that made it even . . . America has long worried about being safe from Brownfield.

NUMBER 16

SECTION

II

NIGHTY-NIGHT

AN dressed up for a good night's rest is this young lady in her printed cotton nightgown with matching sleeping shoes of the same material. A creation of the St. Louis fashion market, this ensemble is high on the season's popularity list, the National Cotton Council reports.

By the time I had heard the speeches and listened to the Old Fiddlers fiddle their old fiddles it was almost three o'clock. Rushed over to the Palace Drug and told the Old Maestro, Nunn I mean, that I was without ticket to the game. He ran to the phone . . . called a cab . . . sold me a dollar ticket for three and told me to go out and save the day.

On the way out I was nervous, knowing that we might lose if I didn't get there, so reached in my pocket and pulled out one of Jack jr., fathers day cigars. With-

out thinking I lit 'em—jumped out of the cab and ran onto the field. Trailing a cloud of smoke, I got back of the goal posts and sat down with some fellows who promptly moved when they got a whiff of the cigar.

I could tell Brownfield was all worn out . . . just about through when they turned around to see what was burning. The boys couldn't see me very well as long as I was behind that cigar, but the word got around that I was a scout from the Chicago Bears.

From then on you should have

seen 'em go. I left just before the game was over . . . I had to go back to the office for contracts. Hope to get 'em signed right after the Borger game . . . And—that is how Brownfield won . . . all on account of Jack's baby.

This is to spike a rumor—first, the Esquire Restaurant does not use pistols in relieving you of your money—second, coffee is only five cents—third, pie is not fifty cents and it's the best D—pie you ever ate—fourth, if you haven't eaten out there, you

should have your head examined. Bob had plenty of headaches to start with—mostly help problems, but there is no finer food on the Plains—and boss I aint kiddin'.

Heard a rumor that I hope is only a rumor. There is a character around town known as "the Fox" and he told another character known as "The Champ" that he, "the Fox" was going to cut a certain Yankee throat—sure do hope that there is more than one Northerner in town.

Anyone know of a nice apartment or house available within two days drive of Brownfield? My room-mate over at the shack has a swell little family up in Missouri and he'd like to bring them down here, the worst way. His name is Bill Glick and he's workin' over at Cobbs. Says it's getting pretty cold up Missouri.

Hope Harry Truman is out fishin' when his copy of the Herald arrives at the White House. Boy—he'll blow his top when he reads this issue. He may take a tip from Stalin and purge Brownfield of an editor—or go Roosevelt and hire him.

Notes on the Harvest Holiday: the Queens all looked like Queens and behaved as such afterward—stupidity, greed or just plain dumbness caused a couple of cases of belly-ache over the gifts, should think they'd have been glad to get 'em . . . congratulations to Hiram Parks for an outstanding job . . . cheers for those who attended for safe driving . . . Bravo! Rotarians, let's make it an annual affair.

Citizens around here are pretty honest . . . Lions left their hot dog stand and a lot of other paraphernalia kickin' around the square all week and it all seems to

be there. Good thing there isn't a junk yard in town.

Smitty, the No 1 Chef at the Esquire says he might as well be a newspaper man he's been putting in so many hours.

This is just like the old wild west. Someone shot, knifed, kicked or clawed to death every day—those that survive are run over by some crazy driver. I think the County Fathers should declare closed season on the citizens until after Christmas.

I've been asked what my church affiliations are so often that I'm here and now saving myself further answer. Was born without religion . . . raised a Methodist . . . married an Episcopalian . . . have my son in a Congregational school . . . played a lot of poker with a Catholic priest . . . interviewed Rabbi Wise several times and occasionally drop into any church that's handy.

I shouldn't try to make announcements through this column, but just in case you missed the rest of the paper, Hiram Parks showed me a wire yesterday, stating that the news reels of the Harvest Festival are being developed and will be ready for showing at the Rialto on Sunday . . . might possibly get in time for one of the Saturday shows, so watch the marquee at the Rialto.

Names of cities and places sometimes have a peculiar origin. California has a Lake Elsinore. It was discovered and named by a thirsty Spaniard who, traveling with a Yankee, saw it and rushed to drink. Asked by the Yank how the water tasted, the Spaniard replied, "Lak 'Eli Senor" (it's a lake of mineral water).

Jeff Farley has been taking cash, I mean watching the register down at the Coffee Shop lately as a favor to Mr. Fulfer, who was away for a spell. Farley says that Fulfer threatened to have him weighed in and out if he worked there any more. Didn't know Jeff was a big eater.

It's said that a politician thinks of the next election, while a statesman thinks of the next generation, and a newspaperman—heck, let's get a short beer and talk it over.

Rev. and Mrs. J. Preston Murphy and Ralph Ferguson were in Lubbock on business Wednesday.

Rev. Clem Sorely, of Lamesa visited Rev. and Mrs. J. P. Murphy Monday evening.

Meat Unnecessary For
Appetizing Meal

Meat is not always necessary for appetizing and nutritious meals, according to staff members of the Texas Technological College Home Economics division, who are compiling menus for meatless days as an aid to home makers.

Dinner is recognized as the most important and difficult meal to prepare without meats, but cheese, fish and egg dishes make simple meat substitutes, they point out.

For a family with a moderate income, a suggested dinner menu includes black eyed peas, stewed tomatoes, okra, tossed vegetable salad, corn bread, peach halves and cookies. For lunch, vegetable soup, crackers, prune salad, potato chips, peanut butter sandwiches and brownies. And breakfast is hearty with corn flakes, bananas, French toast and syrup. Milk and fortified oleomargarine are recommended for all three meals.

A meatless day for low-income family might include dinner of spaghetti and cheese, spinach, beets, cornbread, and cookies; lunch of baked lima beans, creamed potatoes, cole slaw and whole wheat biscuits; and breakfast of orange juice, hot cakes and syrup. Milk and fortified oleomargarine are again included in all three meals.

Mrs. C. F. Lyles, of Odessa visited several days this week with her sister, Mrs. Mike Blair.

Wellman Whisperings

School in the morning and cotton pulling in the afternoon is the order of the day. The time for school being turned out one-half days has been extended two more weeks, here at Wellman.

Services were well attended at both churches this Sunday. Rev. Gerald Pinkston from the Wayland School in Plainview did the preaching at the Baptist Church. His sermon was enjoyed by all.

The church and surrounding community really hated to give up Brother Edwards and family. He, Betty and two of their children ate their farewell dinner in the Roberts and Dean Home. Everyone wishes them success in their new location.

The group of young people who do their visiting together each Sunday were in the Tipton Home this Sunday.

Mrs. Ira V. Williams of Fort Worth is visiting relatives and friends in Brownfield and Wellman. She called at the home of her father Saturday. She was accompanied by Mrs. Marie Roberts and children of Brownfield, all being very sorry to find Mrs. "Annie" in bed suffering from an injured leg which was caused from a fall 4 weeks ago. We hope for her a speedy recovery.

Mrs. Dugan Thomas, Mrs. Alvie Christopher and other members of the Rebekah Lodge are making preparations for the open house, Monday night, Nov. 10th.

Mrs. Lula Smith, and Mr. E. P. Smith formally of this vicinity and Mr. and Mrs. Henry Griffin, now of Wellman, have our deepest sympathy.—The bodies of their boys having to be brought back here in caskets instead of coming back as they left.—May God bless and comfort them in this great sorrow.

Mr. Wilson and Roy Roberts had the misfortune of getting their fingers badly cut while working at the Farmer's Gin. We hope they will soon be O. K.

Mrs. Nannie Smotherman and Margaret Hartman were callers in Wellman Sunday.

Billy Bob Auburg, son of Mrs. F. D. Auburg, spent last week in Albuquerque with his brother and family, Mr. and Mrs. D. R. Auburg.

FFA Boys Take Inventory of Crops

The local FFA chapter decided in their Tuesday evening meeting to take inventory of all crops and livestock projects within the chapter supervised farming program.

This will enable each member to determine possibilities of building a more diversified farming program.

A minimum of three projects per boy is another chapter goal. To aid this phase of the program, members recently purchased six registered gilts and eight barrows for pig and pork production.

The members voted to begin the FFA Sweetheart election on November 17 with three nominees in the contest.

At the close of the meeting refreshments were served by the H. E. girls and films were shown to both groups in the high school auditorium.

TOWNZENS LOSE SISTER AND NEPHEW

Mrs. R. E. Townzen was in this week and stated that she had lost a sister, Mrs. Henry Seigmund, of Slayton, Oregon, on October 19. On top of that, they lost a nephew, Dewey Bradford at Levelland, Oct. 31.

Sympathy goes out to the Townzen family in their double loss in two weeks time. All of us have our troubles, trials and tribulations on this old earth, therefore we should all be prepared for eternity.

Mr. and Mrs. R. R. Barnes returned to their home in Fort Worth Wednesday after a visit here with Mrs. Barnes sister, Mrs. B. L. Thompson.

Mrs. Will Fitzgerald attended a regional meeting of the Delta Kappa Gamma, honorary sorority for teachers, in Lubbock Saturday.

Military Funerals Not Required For Remains Of War Dead

San Antonio — While various organizations have signified their willingness to conduct military funerals for the remains of the war dead, there is no obligation upon the next of kin to have such services, Lt. Col. S. H. Partridge, chief of the American Graves Registration Division, emphasized.

"In the early planning for the war dead repatriation program it was anticipated that many families would wish to have their dead buried with military rites," Col. Partridge said. "The armed forces do not have the men available and invited veterans organizations to assume this responsibility."

"These organizations, from national headquarters down through local posts, promptly and gladly offered their service. Families desiring military funerals should contact some veteran's organization in their own communities. If they are unable to make such a contact, they should contact the Memorial Section, Fourth Army, Fort Sam Houston.

However, a large number of persons have indicated that they do not care for military funeral; that they want their dead buried with the simplest possible ceremony. Such wishes should be respected. The fundamental policy of those responsible for the war dead repatriation program is that there must be no infringement upon the private rights nor intrusion on the grief and bereavement of the families who have already given the nation so much."

The University of Texas has 159 ex-service-women enrolled for the 1947-48 session, the Registrar's office reports.

MORE DRUNK DRIVING

In our fellow Panhandle city of Canyon last week a man was found guilty of murder without malice in connection with a car accident in which Paul Foster of Hereford was killed.

In the course of the testimony, a chemist swore that he had tested the defendant's blood and urine shortly after the accident and found sufficient quantities of alcohol to cause drunkenness. Another man testified he was with the defendant when they drank alcoholic beverages together. Further testimony indicated the defendant's car was seen swerving badly back and forth across the road.

The jury found the man guilty. The judge suspended the five-year sentence.

The Record repeats that it considers driving while intoxicated one of the most serious crimes in our nation. The necessity for justice in our laws prevents such a person from being charged with first degree murder. But Paul Foster is as dead as though someone had walked up to him with deliberate intent and shot him.

So long as our courts see fit to assess light penalties and then turn men free from positive convictions of such heinous crimes, we shall have the crimes repeat-

GOOD NEIGHBOR CLUB MEETS OCT. 30

The Good Neighbor Club met October 30 in the home of Mrs. J. C. Cunningham.

A quilt was quilted for the hostess.

Refreshments of punch, sandwiches, olives, potato chips and cookies were served to:

Mrs. W. H. Wagner, Mrs. Milton Wagner, Mrs. L. V. Wagner, Mrs. Henry Jeffries, Mrs. Henry McMillian, Mrs. Dalton Warren, Mary Belle Warren, Mrs. James Thurman, Mrs. J. E. Thurman, Mrs. Weldon Fenter, and a visitor Mrs. Hugh Harred, the hostess and six children.

The next meeting will be Nov. 13, with Mrs. Doyle Anderson.

Some dark restaurants now use illuminated menus.

The defense that a man "was too drunk to know what he was doing" does not hold moral water. He knows what he is doing when he puts the glass or bottle to his lips.

The Record recommends stiff penalties be assessed for this severe crime.

Let's drive drunken drivers from our roads!—The Canadian Record.

Ernest Broughton In Local Hospital

Mrs. Ernest Broughton, daughter of the late Mr. and Mrs. R. S. Heartsill brought her husband to the Treadaway-Daniell hospital recently after taking seriously ill in Monterey, Mexico. Mrs. Broughton stated Tuesday that her husband was doing fairly well, and was expected to ultimately recover.

Broughton took ill when a side trip was made to Monterey, following the County Commissioners and County Judges Association convention in Laredo, last week. The trip was sponsored by the Phillips Petroleum Co.

Ernest, son of Terry county pioneers, Mr. and Mrs. Ben Broughton, who settled in the Gomez community in the early years, has been a resident of Odessa for many years now, going there as an employee of an oil company. He is now serving as one of the County Commissioners of Ector county.

Being reared in Terry county county co-temporary with Drs. Lester Treadaway and Alfred Daniell, after taking seriously ill, he could think of no hospital with a staff he had more confidence in, than the boys he was reared up with. And so he was brought here for treatment.

The University of Texas has 816 members on the teaching staff, and 695 full-time teaching positions.

Mr. and Mrs. J. L. Cruce are spending a few days at their camp at Possum Kingdom.

Mr. and Mrs. Clifford Golightly, of Lubbock were guests of Mr. and Mrs. Oliver Wheat Sunday.

"No foolin' they're wonderful"

Texas Rescue 46 Native of S. A.

This time next fall farmers and ranchmen will be going to their seed stores and calling for Texas Rescue 46.

Rescue grass is a native of South America and has been growing in Texas for almost a hundred years. It is a winter annual which produces green feed when most other grasses are dead or dormant. Early ranchmen named it "rescue" because it came to their rescue when most needed.

Native rescue grass seed is harvested and sold commercially, as is seed imported from Australia and other countries.

Since 1941 George C. Warner and R. L. Hensel of the Agricultural Experiment Station at Texas A and M College have been making selections from both native rescue grass and from several strains of seed obtained from the USDA Bureau of Plant Industry, Soils and Agricultural Engineering.

They found that rescue differed greatly in height, leafiness, seed production and resistance to disease. Out of these tests they came up with a selection they named Texas Rescue 46.

In field tests with other native and imported strains it has ranked high in forage and seed yield and in protein and phosphoric acid content. Foundation seed was placed with Texas registered seed growers in September, 1946, and the seed will be available for general planting next fall.

Things Texas farmers—and their livestock—will like about Texas Rescue 46 are its upright growth, leafiness, resistance to disease and its habit of producing lots of grass early in the spring. Once established, its high seed yield will cause it to reseed itself year after year.

History Still Repeats Itself

The following editorial is reprinted from the Wichita Beacon:

"Lack of understanding on the part of men who are running our government appears to be as much to blame for the chaotic condition of prices and supply as any other one factor.

"Remember back in the days of the depression when the government was recommending plowing under crops because they were in too abundant supply? Those same experts today are trying to 'plow under' markets because the demand is too great.

"It doesn't take a student of economics to tell our government that prices are governed almost entirely by supply and demand—regardless of the controls placed on either as an artificial stimulus for increased or decreased prices.

"The plain truth is that our supply is high, but our demand is greater because of the export policies which this country has followed and is following. Suddenly there has been a drastic cut in export allocations of grain and flour in an effort to retard the upward trend of prices.

Looking back over the years, it isn't difficult to see that history repeats itself. Wheat after the Civil war sold for \$2.85; after the Russo-Turkish war it soared to \$2.45; it went to \$31.85 after the Spanish-American war and to \$3.50 after the first World war—

"Regardless of who is running America, the first truth which

STOP DOSING YOUR STOMACH

WHEN constipation hangs on and you have that listless, "half alive" feeling chances are it's not your stomach but your intestinal tract that's at fault. Sluggish intestinal muscles permit waste to accumulate . . . gas is formed and often you feel miserable, nervous and out of sorts.

For real relief . . . take sure, safe ADLERIKA with its new improved taste. It moves waste quickly but gently to relieve constipation and gas. You'll enjoy a new feeling of pep and vitality when your digestive system is in perfect order. Try ADLERIKA today and you'll learn why over 20,000,000 bottles have been sold. Caution: take only as directed.

You'll always be your "better self" with ADLERIKA on the shelf.

ADLERIKA

We Must Keep Western Europe Free

United States foreign policy in Europe is directed toward stimulating war-ravished nations to maintain their own stable governments embracing the ideas of freedom of religion, speech, press and elections. Cong. George Mahon told the Texas Technological College students and faculty in special convocation.

Particularly in Western Europe and Greece the United States must have strong friendly governments to serve as a bulwark between Western democracy and Russian communism, he declared. Mahon recently returned from a six-week inspection of Europe with the 19-man Congressional Herter committee.

"When America spends billions of dollars on European rehabilitation, she is not prompted solely by humanitarian impulses," he emphasized. "It is essential that

must be realized is the old fundamental economic law of supply and demand. It has never failed. It never will, regardless of subsidies, grants, doles, price-pegging or other artificial stimuli. When the supply is good, prices tend to be lower. When supply is short, prices are high (provided there is no price control, in which case the short supply usually finds better customers in the black market—at higher prices) . . .

"We are experiencing high wheat prices because 40 per cent of the crop is going out of the country. We are experiencing high meat prices for the same reason. However, we are witnessing high corn prices because the crop this year was 800,000,000 bushels short because of weather factors. In any instance, the available home supply is not sufficient to meet the demand."

Buick's No Shift Clutchless Drive

FLINT MICH., Nov. 14—Buick announced today that it will introduce a "completely new and different" type of automatic transmission in its 1948 line of cars scheduled for introduction in January.

Harlow H. Curtice, Buick general manager and vice president of General Motors, described the new Buick transmission as "Buick's answer to no-shift, clutchless driving."

"It eliminates not only the clutch but all gear shifting, even automatic," Curtice said. "It represents an entirely new advance in driving simplicity."

The new Buick transmission, to be introduced initially on Roadmaster, we prevent Western Europe's vast industrial areas from falling into Russian hands. We help Greece, not entirely because she is poor, but also because that country holds the key to the Mediterranean entrance to oil-rich Iran, Iraq and Arabia where the United States has developed many fields.

Mahon termed "shocking" the theory held by some people that if a nation wishes communism that we should encourage it in that course. He pointed out that once communism is established, it may not be "voted out at the next election," since it destroys free elections along with freedom of religion, speech and the press.

The speaker voiced hope that the United States will maintain full military preparedness and a bi-partisan foreign policy.

"We must decide whether we want isolation and cowardice or whether we want to be the mightiest nation in the world, leading free people to a better life," he stated. "What we do in the next few months will hold the key to the future of the world."

Armistice Day Here Almost A Flop

Come Armistice Day last Tuesday, and from outside appearances there seemed to be no old War I vets left. At least they seemed to make themselves very scarce. LaJune Lincoln stated that very few of the first world war were at the Legion hall for the annual breakfast. And he named a few of the erstwhile leaders, such as Mon Telford, Jim Miller and his dad.

Perhaps one of the reasons was that many of them had left town to join other posts who had on a more elaborate celebration. Perhaps some of them went to Denver City where Seagraves and Denver City were to jointly put on a big parade, following the usual sunrise breakfast at both places. Likely some went to Lubbock and other posts where programs were to be put on together with parades.

"Too, we also have a notion that many here were not about up on celebration affairs for some time to come. What with the Terry County Fair three weeks ago, a three day event, followed last Friday by the stunning Merchants Jubilee, maybe the vets of both wars were about up with celebrations for the time being. Needless to say, however, we bet none of the older boys forgot the day entirely.

The banks and all stores except some of the drug stores were closed, and a few put their flags out on the sidewalks. No sir, none of us oldsters will ever forget the day the Germans lay down their arms on the 11th day of November, 1918, not even us 1917-18

master models, is a development of the principle employed in the transmission used on the fast, hard-hitting "Hell Cat" tank destroyers built by Buick during the war.

Contents of Home Destroyed by Fire

All of the household and kitchen furniture of A. L. Strickland

and family, were destroyed by fire last Saturday evening when the interior of their dwelling at 106 North Ballard street, in east part of town burned out.

The family was at home, but escaped personal injury. The fire was thought to have started by the explosion of a hot water heater. Mr. Strickland is an oil field worker and was in the Plainview area.

Several Mayors Attend Harvest Festival

...HERE'S THE ANSWER
TO ALL FOUR—

GET A
4-WHEEL-DRIVE
UNIVERSAL
Jeep

THE UNIVERSAL 'JEEP' is built to handle almost any kind of job. It has 4-wheel drive, with speeds as low as 2½ mph, for tractor work, for heavy towing, for getting through mud and snow that stops ordinary vehicles. It has 2-wheel drive for hauling and towing at highway speeds. It has optional power take-off, with spline-shaft or pulley drive, to operate auxiliary equipment. Let us demonstrate this versatile vehicle and show you how it meets your needs.
