Falsehood.

Falsehood, down right falsehood, has become the curse of the South. The democratic newspapers, with hardly a single exception, have made it a point to deny the current in these matters, and had decided events happening in their immediat Democrats oftener than Repubdiate neighborhood, if they appear licans, In respect to Southern difprejudicial to their party. Murder, assassination and mob violence, are treated with levity, and the blame thrown upon the innocent. We are encountered with such expressions as "down-trodden and oppressed people of the South; "thieving, murdering carpet-baggers, renegades and nigger loving Radicals." The murderacommitted by the innocent "white leaguers" are all attributed to the provocation given by the carpetbaggers and niggers.

It is too late in the day to make bring its punishment in the end as that the sun shines

The Southern Democracy have stuck their heads in the sand and exposed the rest of their body to the gaze of the world. The people of the United States now know what "white leaguers" mean. They can distinguish between a sudden and excited uprising of the people, and a deep laid plan to seize by force of arms a State Government; and they are not to be blinded by the whining, hypocritical statements that these "white leaguers' are very innocent, patriotic gentlemen, .who would not harm anybody, and are boiling over with love for the Federal Government. The lie will kill the Democracy of

Attorney General Williams on the Lousiana Situation.

the South, and of the land.

On the 16th inst., Attorney General Williams was interviewed by a representative of the New York Associated Press. He said the socalled Kellogg government had been established and in full opera tion for about two years. It had been repeatedly declared by all the courts of Lousiana to be the only legal government of the State. It had been repeatedly recognized by the President and impliedly by

Congress. The President, in a special message, called the attention of Congress to the subject, and stated that if they took no action he should feel bound to regard the Kelogg organization as the lawful government of the State. Congress declined to legistate about the matter. The question is not now whether Kellogg or McEnery ought to be Governor, or whether or not there were frauds or irregularities about the election; but the question is whether a State government that has been fully organized for nearly two years and recognized as such by all the departments of the government-State and National-can be properly overthrown by the armed populace of a city in which the seat of government is located, by means of violence and bloodshed. Admitting all the wrongs charged upon the Kellogg government, can these proceedings be permitted to stand as a precedent? Are the governments of the States of this Union to be determined by pronunciamentos and violent and bloody outbreaks, as they are in Mexico and South America? I do not see Medical College. Philadelphia, author of how this case differs in principle several valuable works, can be consulted how this case differs in pfinciple from the Arkansas case. Brooks claimed that he received a majority of the votes at the election, and I have always believed that he did. Baxter, however, was the duly installed Governor of the State of claim that he was elected, displaced Baxter by a coup d'etat, but the President refused to recognize his right to hold the office obtained in that way. That was a decision against

Democrats. Following this prece-

dent I do not see how the President

can recognize Penn; to do so would

be to hold that a political party

violence and anarchy for law and order. I believe it is the duty of the General Government to put down this lawlessness, whether committed by Republicans or Democrats. The President has not been governed by party considerations ficulties, whatever mey be said of men and things in Lousiana, the proceedings of the President in respect to that State have been from the beginning in conformity to law: his course, in my opinion, will not

be changed.

There is not a sensible man in the United States who does not know that the seizure of the State Government of Lousiana by Penn and his adherents is in utter violation and disregard of all law. Can any re sonable man expect the President to become a party to such a trans action? With respect to the election, it is impossible to determine who barefaced falsehood stick, and even was chosen. The returns have if it should pass uncontradicted at never been canvassed, and they the time, it will just as certainty were made up in perjury, forgery, and fraud. I have never believed that the McEnery ticket was elect-

> It is absurd to suppose that when Virginia and North Carolina. and nearly all the Southern States, including those that were generally Demooratic, went for the Grant ticket that Lousiana, the strongest Republican State in the South, went for the Greelev ticket, as is pretended, especially when the candidate for Governor on that ticket was an unreconstructed rebel colonel. But it is too late now to go back on that question. The issue is now between law and order on the one hand, and violence and disorder on the other; and upon that issue, the position of the President is not a doubtful one.

FOR CONGRESS, Sixth Congressional District,

Jeremiah Galvan,

FROM CAMERON COUNTY.

MR. SCHLEICHER inform us that the railroads are all in harmony. This accounts for Morgan and Moses Taylor buying Coke's bonds.

THE OPINION of Attorney General Williams on the Louisiana rebellion, as published on our outside, will be read with interest by all our citizens who wish to reach a legal ananswerable.

THE question is, who comes nearest being a Knownothing, Schleicher or Galvan? From Saturday night's performance, Schleicher is ahead. He was the only "knownoth. ing" at Goliad. Every body else knew just how he came to be nominated. He has'nt got it through able question. Does he repudiate his head yet.

The Democracy of different States held enthusiastic meetings, lit bonfires, and fired hundreds of guns, when the wires flashed the news of the outrage of their partizans in Louisiana. They went wild with delight over the success of their party in a murderous and treasonable wrong. But now, that the law has been enforced, the wrong righted, and the Republican State government restored, the Republicans are guilty of no such folly, even though their party was successful in the right. Comment is needless.

THE EXPRESS, laboring in the interests of the peace and welfare of Western Texas, and striving to allay the fearful bitterness of party strife which has amost ruined Arkansas, Louisiana, and other States, recommended that all parties sup port Hon. John Hancock. . It defended him against the fierce as Commander of their willingness under the saults of the Bourbon Democratic President's proclamation, to surrender the press, whose nominee he was, because he was an original Whig and Union man. We are happy to know that the Washington Chronicle, Republican, copies our article, and approves its tone, while justly condemning "the old spirit" of secession and slavery which sought to command the city of New Orleans until ostracize him.

Morgan's Last Move.

Chas. Morgan has purchased the telegraph line between Brownsville and Brazos Santiago. This is significant and illustrative. He has had from the beginning of our State his tory the control of our whole Gulf coast, and of all the channels of our interior trade. His steamships have made, Gen. J. R. Brooke, accompanied by had the monopoly of all our sea- Lieutenants Wallace and Roe, went to the ports from the very beginning. Gov. Mcall his pledges, and to the great in | Enery and his followers then withdrew, jury of Western Texas. The move he made was to get hold of the Houston Ship Channel, so that he might control the new port of Hous ton, as well as the old one of Gal. The Kellegg Government Beinstated veston, and play one against the other. This also gave him a firm alliance with the Central Railroad, another powerful monopoly of the trade of the centre of the State. His next move was to take the bonds of the State which Coke could onds of the State which Coke could ot sell on the market. This gave in arms against the State government, and to afford you the necessary military support to break down the Interval al and great Northern Rail not sell on the market. This gave d to enable Morgan and

the Central to owif all the railroads in Texas, constituting a monopoly of every trade channel in this vast and rapidly growing State.

And now, last of all, as completing the vast control of the State, from New Orleans to Brazos Santiago, he buys the telegraph line from the latter place to Brownsville!

All this the people of Texas can see. But Mr. Morgan bas still far reaching designs which are not so apparent. He wants the same sort of control of the increasing trade with the ports of Mexico. He wants also a grand subsidy from Congress for a grand Mexican steamship sys-

Therefore, he wants a Congress man, and sends his employe, Mr. Schleicher, to us, and bids us elect

Mr. Schleicher.

Since Mr. Schleicher's speech on Saturday night last, we teel disposed to treat him tenderly. It was an appeal to his old acqaintances, not view of the case. Its reasoning is to judge him harshly because of the company he is compelled to keep. He expressed himself in the most conservative way, and tried to trample the "lost cause" under his feet and bury all the animosities of the past. He did not say one word about Coke and the present Demoeratic State administration, and we are to infer that it was a disagree-

NEW ORLEANS, Sept. 18 .- Lieutenant Governor Penn makes the following statement relative to the State government: The two governments have been organized since 1872. There was a meeting of the McEnery Legislature last session. In every respect, therefore. the status of the de facte and de jure governments were maintained. The troops engaged on the be a harmless affair. The McEnery government can assert its power, and it will be obeyed throughout the State: The Kellogg government can be reinstated by the United States forces, but can only maintain itself through that power. DR. W. BILLE,

FROM NEW-ORLEANS.

A graduate from the University of Copenhagen, Denmark; Honorary M. D. from the University of Padova, Italy; for several years assistant Physician to to the cele-brated Prof. Ricord, Paris.

Having been for years a student at the large hospitals of Paris, London, Vienna and Copenhagen, and a thorough, large and varied practice during 15 years' has gained the most thorough knowledge of the nature of all chronic diseases, and the treatment thereof, and he has in his extensive practice had an unparalieled success, and very often effected a cure where every remedy had been tried and all hope of restoration of health had been despair-

Nabody who ever suffered of the tedious and life imbittering disease-DYSPEPSIA — has ever in vain callee on Dr. Bille. In every case has he by his new method of treatment restored the functions of the stomach, and with it the health and vigor of the patient, and many a person does to-day, with gratitude, recall the moment placed himself under Dr. Bille's cure. For his treatment of LADIES' DISEAS. ES, Dr. Bille is deservedly renowned, and no lady suffering from AMENOR RHCEA, HYSTERIA, PROLAPSUS UTERI or any other disease peculiar to the female system should fail to call on Dr. Bille, as they will quickly be releived of their ruflering and ultimately restored to perfect health.

Diseases of a Private Nature Dr. Bille bas made a speciality, and this scourge of humanity, unsuccessfully treated by most practitioners, is easy and quickly overcome by his new treatment. Being a pupil of the most renowned Physician for syphilitic diseases in the world, Prof. Ricord, in Paris, Dr. Bille will always guarantee a cure in any case of syphilitic disease which may come under his treatment; and hundreds in this city and vicinity can testify that in cases of syphilitic nature, where other physicians

have failed, Dr. Bille has always been NERVOUS DEBILITY, WEAKNESS, IMPOTENCY, either cause by age or abuse, quickly and permanently relieved, and full power restored.

No man is too old and no young man too debilitated that he can not be completely

reinvigorated and rejuvenated by the treatment of Dr. W. Bille, Dr. Bille wishes to call particular attenion to his new discovery, by which he can, by the help of microscope and chemis-try, discover if there is any syphilitic poison in the blood, which is of the greatest importance, as persons having had venereal diseases often believe themselves cured, and the poison still remains in the blood to break out sooner or later. Dr.

Bille has resided in New Orleans for years, is endorsed by the best citizens there, and by his skill, knowledge and successful cures has obtained a great reputation as a specialist

ON,

Tur discourtesy shown Mr. Marshall at the Democratic meeting on last Saturday night by turning down the gas, was a ruly Democratic proceeding.

Ir it had not been for Senator Dwyer's stentovian voice on Saturday night, Maj. Brackenridge's "three cheers for Slaker" would have fizzled entirely. The Senator is still a useful member of the party.

not to be surpassed, always on hand at PANCOAST & SON. 14-3-3tg

Mr. Schleicher explained very satisfactorily to his andience on Saturday tions as surely begets their derangement night that he was not at present Morgan's as cause procedes effect. engineer, but the fact remains that he is Morgan's agent, or is mixed up with him in Caero lots.

is a government of the people, for the people and by the people," he must have looked out for the ghost of Abe Lincoln, who was the author of that motto.

RAIN fell gently this morning just before day, and then again during the forenoon. Afterwards the sun came out brightly, drying the streets rapidly. But still signs portend more rain, and everybody is longing for dry weather.

No Enthusiasm. — The utter lack of genuine enthusiasm at the Democratic meeting on Saturday night is accounted for by a good Democrat who says "it was because Schleicher is not a Frenchman, Irishman, or any other kind of a man but a German." Ah ha! Is that the opinion of American Democrats ! They cannot be enthusiastic over a German Democrat.

GENTLEMEN'S furn'shing goods of the PANCOAST & SON. 14-3-dtf

Col. Upson called Schleicher a "giant" on Saturday night, and then looked around to see him, and forthwith began to puff himself up like the frog in Eosop's fable who tried to rival the ox in size, but he failed to make the desired impression up on the audience He had forgotten that in representing Schleicher's great size as a virtue, he was reflecting upon himself and and all other men of less size.

An enthusiastic Democrat who had not read the last dispatches from New Orleans, became wild with excitement during Mr. Upson's speech, and exclaimed, "it is the first time since the war that I have felt like a free man. Now we shall have a chance to fight for our rights again !" and this highly respectable citizen was in real earnest.

"WHEN Mr. Schleicher gets to Congress," in the language of Col. Upson, "he will be an ornament to the nation. Ben Butler and all the Republican pigmies will look around and see him, and sink away into their boots. They will see a giant, and it won't be long before the whole county Paints. will be set on fire by his genius." If this isn't speaking ironically, what is it ?

Wanted—A house of medium size, at reasonable rent. One partially furnished preferred. Apply at this office. dtf

had any adherents in the Goliad Convention, or that there was any combination in his nomination; but Col. Upson got right up-and told the story differently. He said Ireland had at least thirty delegates in the Convention, and it turns out that it was an Ireland man who put Schleicher in pomination.

THE SAN ANTONIO DEMOCRACY, although they held a meeting on Saturday night last, which was their opening of a Congression of campaign, had the wisdom and the conservatism not to offer foolish resolutions, nor to make ridiculous speeches of sympathy with their treasonable brethren of Lousiana. We give them praise for their sensible conduct, and we congratulate our city that all parties here are moderate, and fast becoming imbued with the spirit of wisdom and charity. This is no small recommendation to the immigrants Chicago. who are looking for homesin Western Tex-

Fon all the styles of spring and summer hate go to PANCOAST & SON. 14-3-dtf

That part of Mr. Schleicher's speech is which he revamped the old know-nothing boogaboo to scare his German friends and frighten them into the Democratic camp, was decidedly innocent. He related how only since his recent visit to this city he accidentally found a newspaper containing the speech of some state-rights Democrat in the U. S. Senate in 1854 or 1855, with which he immediately rushed into a beer saloon where some of his countrymen were regaling themselves with lager, and holding up his newspaper cried out "Enreka! Here is the first word said against know. nothingism, and it was a State-rights Democrat who said it." The old knownothings who were managing Mr Schleicher's meeting for him didn't feel at all easy during this part of their "giant's" speech,

"Not Very Well."

A feeling of vague bodily discomfort, which does not amount to positive illness, and yet is incompatible with health, is often aptly described by the phrase, "Not very well." This feeling usually arises from a deficiency of the nervous power which is required to keep the vital ma-READY made clothing in style and make chinery in vigorous and healthful operation. Nervous weakness has too frequently turned out to be the prelude of some serious malady to admit of any doubt in the matter. Inactivity of the bodily func-

It is therefore absolutely essential for the preservation of health, perhaps of life itself, that this warning should be promptly heeded. The case does not admit of delay. Revitalize the system at once and WHEN Mr. Upson proclaimed in his effectually with Hostetter's Bitters—that oudest style on Saturday night that "this peerless invigorant which, by infusing new health and strength into the system protect it against disease more surely than ever knight of old was protected by armor of proof against the foe

certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic poison of Faver and Acus from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in bilious districts, where FEVER AND AGUE prevails, everybody should have it, and use it freely, both for cure and protection. It is hoped this price will place is within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever find Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgi? Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colie, Paralysis, and derangement of the Stomach, all of which, when originating in this cause, put on the invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection thi
