Chas. O'Conor on the Southern Question

Chas. O'Copor, of New York, who

some enthusiastic admirers thought a few months ago should be given the place of Mr. Chase upon the Supreme Bench of the United Stat?, has been giving his views to a representative of a journal of that city upon the condition of the South. The ideas to which he gives expression are simply revolting, and go to show how utterly wifit he is for the position for which he was so persistently urged. The paper in question places him in the following attitude, or rather he places himself: "He saw no remedy for the present condition of the South. but he could point to the obvious result at present, which was the extirpation of the race. There might be a possibility of treating them, like the Indians, on some plan of reservations, but extirpation or exile appeared to be an impending necessity." In other words, Mr. O'Conor holds precisely the same views that the late Chief Justice Taney heldthat a black man has no rights which a white man is bound to respect. Placing them on reservations, like Indians, is a new idea, but the great Democratic lawyer might have done better. Why didn't he suggest their restoration toslavery, and in that way win the approval of his whole party at the present time! When a Democrat so en-lightened as Mr. O'Couor openly and boldly sustains and advocates a doctrine so atrocious as that we have presented above, what can be expected from the more ignorant ard prejudiced rank and file of the BOHEMIAN GLASS WARE | partyf The avowed policy of the Calms

it shall be restored to power, is "the extirpation or exile of the black race. - Washington Republican.

The above is entirely "too thin' for anybody to believe who knows anything about the facts. The de-Lense of the battery at Sabine Pass was made entirely by the "Davy "Guards," a company of Irishmen bedenging to Cook's Regiment of Heavy Artillery, under command of our old friend, now dead, Dick Dowling, first Lieutenant. The Captain of the Company, Odlam, Com. Leon Smith, chief in command, and evebody else, left, with directions to Dick to bring the company out, and save it as he best could. . When all were gone, Dick drew his six-shoot er and swore he would kill the first man who offered to leave the works, -he intended to fight. One of the men cried out, "Be Jasus, that's all we want," and the guns were again opened upon the advancing ships, and the victory soon won. Nobody s in the fight but Dowling and Irishmen, the "Davy Guards," tect its citizens. and they had been left by all the higher officers, and every one else, and were fighting without orders,

He says be of the Federal army.

And it is just as much the duty of the Federal Government to protect its citizens in the Southern murders of disloyal political leagues, as against Indian incursions or foreign invasion. Hence the Repub tic, published at Washington, very legically and pertinently says that rection of the Attorney General, for the protection of loyal citizens in riddled with balls. the Southern States, meets with the unqualified approval of every fair. Ingram beld that the American flag carried protection to its citizens wherever it floated, and the nation rang with applause when Daniel Webster transformed the deed of Ingram into logic and sent it to Hulseman as a rule of conduct which would govern the Republic hereafter. If a tenth of the outrages committed on American citizens in the South should be committed by France or England, war would be declared in less than thirty days. From a sketch of Hon. G. Schlei. Law abiding citizens cannot object to governmental protection; they will accept it as the sign of peace and prosperity. The protest against it will come from those who have connived at the crimes committed, and who have encouraged the persecu tion of those who are loyal to the flag which these oppressors once endeavored to destroy. In the name of the millions of loyal hearts everywhere, we thank the President for his timely action. It will come as sunshine, bursting through a cloudy sky to thousands of humble homes in the South. It will banish terror and strengthen hope It will be hailed by the loyalists throughout the South as the bow of promise. te from to University of Co. penhagen, Denmark; Honorary M. D. from the University of Padova, Italy; for several years assistant Physician to to the cele-

brated Prof. Ricord, Paris. Having been for years a student at the large hospitals of Paris, London, Vienna and Copenhagen, and a thorough, large and varied practice during 15 years has gained the most thorough knowledge of the nature of all chronic diseases, and the treatment thereof, and he has in his extensive practice, had an unparalleled success, and very often effected a cure where every remedy had been tried and all hope of restoration of health had been despair-

Nabody who ever suffered of the tedions and life imbittering disease-DYSPEPSIA - has ever in vain callee on Dr. Bille. In every case has he by his new method of treatment restored the functions of the stomach, and with it the health and vigor of the patient, and many a person does to-day, with gratitude, recall the moment he placed himself under Dr. Bille's cure.

For his treatment of LADIES' DISEAS-ES, Dr. Bille is deservedly renowned, and no lady suffering from AMENOR RHEA, HYSTERIA, PROLAPSUS UTERI or any other disease peculiar to the female system should fail to call on Dr. Bille, as they will quickly be releived of their ruftering and ultimately restored to perfect health.

Diseases of a Private Nature Dr. Bille has made a speciality, and this scourge of humanity, unsuccessfully treated by most practitioners, is easy and quickly overcome by his new treatment. Being a pupil of the most tenowned Physician for syphilitic diseases in the world, Prof. Ricord, in Paris, Dr. Bille will always guarantee a cure in any case of syphilitic disease which may come under his treatment; and hundreds, in this city and vicinity can testify that in cases of syphilitic nature, where other physicians have failed, Dr. Bille bas always been

debilitated that he can not be completely reinvigorated and rejuvenated by the treatment of Dr. W. Bille.

Dr. Bille wishes to call particular attention to his new discovery, by which he can, by the help of microscope and cher discover if there is any syphilific son in the blood, which is of the great est importance, as persons having had venereal diseases often believe thems cured, and the poison still remains in the blood to break out sooner or later. Dr. Bille has resided in New Orleans for years, is endorsed by the best eitizens there, and by his skill, knowledge and succession cures has obtained a great reputation as

LOCAL AFFAIRS.

THE FOURT SHOWER to-day! Where will this thing end ? Is the bottom going and yet is incompatible with health, is to drop out of everything, as it has out of de Goliad Convention, Schleicher, and all connected with them? It looks so.

FISHING, since the rains have swollen all the streams and ditches, is not very attractive sport for all the boys, and for a great many men. Cat, troot, perch and eels are much more plentiful than usual. Now, also, is a fine time for crawfish, said to be much larger here than in the more eastern parts of the State.

READY made clothing for Fall & Winter handsome stock just received by PAN-COAST & SON.

LARGE TRAINS are continually arriving rom uling, bringing in vast quantities of goods of all sorts. They generally make trip in about three days, which, we think, is doing very well, considering the heavy rains and the bad condition of the roads. The time will be much shorter, and the transportation much more reliable when the weather clears up.

JOHN WOLFRAM had one of the finest ish lunches this morning we have ever seen in this city. Where he got the fish we are not permitted to say; but he had them, and that is enough for us. We ate more fine, fat, delicious cat-fish at Wol. fram's this morning than we have eaten in many a day before. We have felt better and more prosperous ever since. But we shall be on hand for the next lunch, if

THE THIRD SHOWER .- At 2:30 o'clock this afternoon ends the third shower of rain to-day. And it has been no gentle shower, but a soaking rain. Well, there is no use speculating what Western Texas can do in the way of either dry weather or wet weather. She can present the best article of the kind in either line over any ether country on the globe, At present she proposes to deal in heavy, wet groceries alone: She will deal in dry goods after awhile, as she did last summer. At present, the clerk of the weather says REPEATING ARMS there is no sale for anything in the dry goods line.

ANOTHER SHOWER!-Here it comes! In the absence of mails, newspapers, and correspondence, we have concluded to sit in our office all day, and count and record the showers as they fall at intervals; listen to the pattering of the drops on the tin roofs; watch the sloshing of passengers and horses and wagons through the mud; meditate upon the depreciation of trade and real estate in San Automo; imagine the immense revival of these things when the railroad gets here; analyze the mise-rably selfish policy of Coke, Morgan, and Ireland; and strengthen our determina-Kon to beat Schleicher at the coming election. We have nothing else to do, and the work is a good one.

A HEAVY RAIN yesterday morning just before day, and another one this morning To the Merchants and other Busiat the same hour, secompanied by rolling thunder. In the language of the Pealmist, "the sky sent out a sound, and the clouds ! nred out water." And the clouds this morning, (Friday 25th,) appear as though they would take greater delight than ever in wetting everything that is not already wet-if such a thing can be found within the corporation or valley of San Antonio. It appears as if nothing would save us from the slough of mud, and the general tendency of everything to rot, but a gene ral overflow. And there is really danger of such a thing. The streams and sluices are out of banks everywhere, and footbridges are washed away. Dry weather mas much prayed for now as rain was daring the hot, dry summer.

PANCOAST & SON are constantly receiving a good assortment of cloths, cassimeres and chevoits for custom trade. The New Braunfels cassimere for sale.

Two Stages from Austin were due here last night -the one of yesterday, and the one of the day before. And yet as we new write, at ten o'clock Friday morning, we have no news of them. As we said two days ago, upon the reception of a delayed but much desired mail, that it was hard to tell when we should receive the next one, so it has turned out. San Antonio now has neither railroads nor daily mail stages, and is at this moment absolutely dependent for communication with the rest of the world upon the ox and male teams that hanl freight-and they are probably water bound by this time. This is a beautiful style of things. And who is to thank for it? Coke, Morgan, and Ireland. And will our people vote for their man, Mr. Schleicher ! In the slang of the time, "not much." The man who will do so forgets his duty to San Antonio and the West.

"Not Very Well."

A feeling of vague bodily discomfort, which does not amount to positive illness, often aptly described by the phrase, "Not very well." This feeling usually arises from a deficiency of the nervous power which is required to keep the vital ma-chinery in vigorous and healthful opera-tion. Nervous weakness has too frequently turned out to be the prelude of some serious malady to admit of any doubt in the matter. Inactivity of the bodily functions as surely begets their derangement as cause procedes effect.

It is therefore absolutely essential for the preservation of health, perhaps of life itself, that this warning should be promptly heeded. The case does not admit of delay. Revitalize the system at once and effectually with Hostetter's Bitters—that peerless invigorant which, by infusing new health and strength into the system, protect it against disease more surely than ever knight of old was protected by armor of proof against the foe

Naturate a Piece of Bread or Ment with gastric juice, and it will dissolve. This is digestion. Add to such a mixture a lit-tle alcohol, and it will not dissolve. This is indigestion. Beware, then, of tinetures, or tonics, or decections containing spirituous liquors. Shun all rum "tonics," and rely solely on Dr. WALKER'S VINEGAR BITTERS, the finest digestive invigorant known, and free from the fiery curse of Alcohol. 6-2-4w
