"Community Building? That sort of thing is more than community building: it is building civilization. And similar activities are going forward among more than half a million people in so-called "rural" towns all over Texas.

Much community building activity is noted. There is constant economic progress to be noted, and community co-operation to promote it. Nowhere is the fact so keenly appreclated as in such communities as these that cultural progress and economic progress go hand in hand. Such things as schools cost money and any progress which brings new wealth into the community makes it possible to get more money for better things. The Scurry County Times, of Snyder, for example, announces under a full-page streamer headline that Giles Garner, who tery brooder "in the brick building as follows: formerly occupied by the Snyder

2,000 chickens in September, the knowing (?) ones said: "Well, "In the driest parts of interior Garner will sure fall down on this Asia, it is a crop of vast importance, the project running better than a This dry area includes Thibet, each afternoon and night. thousand dollars profit monthly, the Turkestan, Mongolia, Manchuria, was further enhanced.'

Every person in Snyder has a by him during these years. right to feel proud of the progress of Snyder and her people. Just look ed and that are still to be paved, new sidewalks being built in all parts of the city, new and modern homes that have gone up, modern store fronts and awnings, better lighting system, good sewage system beautified with flowers, lawns, evergreens, vines, shrubs and trees. Next, we need a new hotel.

The clean-up campaign has startof rubbish and trash that are being plied up right now. All things make me feel proud to live in Snyder.

past progress and achievements, but try to accomplish more in the future than in the past. I suggest among other things to keep local men employed, something that we should do this spring and summer:

1.—Building more concrete sidewalks and have them ready for use next winter. 2.-Level lawns and fertilize

them so that we will have them thick and velvety when the hot

3.-Plant lots of annual flowers like periwinkle, zinnias, phlox, daisies, vines and our town flower, the red verbena. 4.—Plant a good vegetable

5-Fertilize trees, flowers and gardens.

6-Paint all buildings.

7-Build a new gymnasium for our High School on a Bond Issue and likewise another bond issue to maintain our chamber of commerce on a tax-supported basis, as other towns in West Texas are doing.

Let us all join in the good work to make Snyder - the cleanest-the most beautifuland the most desirable town in all West Texas. If you are a booster, you will get in the

One Hundred Members and 36,000 Capacity Will Be Output of Snyder's **Newest Industry** 

> As announcd exclusively in the Times-Signal two weeks ago. Giles Garners' newest project will get under way late this week. The four deck brooders are now being installed in the room formerly occupied by the Snyder Hardware & Implement Co, and when fully completed will have a capacity of

> The first chicks to be put in the battery brooder will be hatched next Monday

Mr. Garner is now mailing out an anouncement to the effect that the new 36,000 capacity Battery Brooder of the latest and most improved construction is providing for a select West Texas clientele, scientifically fed milk broilers.

These announcements are going to the larger hotels, restaurants. short business session was held is made for the best to be found on the market. Orders booked May 15, will be supplied around June1, at a governing price of 33 cents per pound to start. Daily newspapers who have al-

ready used the story of this new brooder innovation here have brought inquiries from many nearby and distant points who are anxious to secure a more central point where their needs may be fully satisfied. With Old Mexico using 40,-000,000 eggs alone a year, Mr. Garner has been advised that he never need to worry about an available market while El Paso and other western cities will fully handle his battery brooder output.

The Hershey grain being grown by Mr. Schultz does not resemble either the Golden or Red Turgi varieties that we are introducing here. I am going to try it out and compare it with the Hershey purchased from E. D. Heath, Otis, Colorado, and which is being widely distributed over West Texas.

Hershey is a grain and forage crop of great drouth resisting qualities. It is a very quick maturing crop. The usual time required for it to mature is 60 days from date of planting

When Hershey was first introduced into Colorado and the Dakotas from Russia, it was not a pronounced success, as farmers were unfamiliar with it, and for several years but little progress was made in getting farmers to grow it. In fact, many who tried it out and failed abandoned the crop entirely and even some of the earlier agricultural bulletins relative to the

in mind that Hershey should NOT be planted in HILLS as we plant Co-Op Center maize, but there should be a continuous stand in the row. It is, in fact, broadcast planting in rows.

I am a believer in, and advocate of, preparing a good seedbed under all circumstances, and for all crops but in view of the fact that you will have only a small amount of seed, especial efforts should be made to prepare a good seedbed for your crop of Hershey this spring, for if by failure to properly prepare the land you should fail to get a stand you will probably be unable to procure seed to replant, as the supply will very likely be exhausted long ing two or three different plantings. Have a plat separate and apart produce seed with which to plant to allow the grain that is to be used for planting to ripen more fully than is necessary where it is to be used for feed

Has Been Set Aside By Gov. Dan Moody

State-Wide Milk-For-Health Week

When the governor of the greatest state in the Union finds it imperative for the good of his people to issue a proclamation calling their attention to the all-important food-MILK-it is time for every housewife to study the conditions under which her milk is obtained.

The State regulations go a long way toward safeguarding the public from milk from diseased animals, but-BE SURE THE DAIRY FROM WHICH YOUR MILK COMES MEETS THE NECESSARY RULES AND REGULATIONS THAT A DAIRY HAS TO OPERATE UNDER IN ORDER THAT THEIR MILK MAY BE PURE, CLEAN AND SAFE.

Both Snyder Dairies use no "half measures" in methods to further the cleanliness of milk. They do MORE than comply with State requrements. Ever on the alert for new, improved methods of handling the UNIVER-SAL FOOD-MILK-the Dairies can really say that immaculate cleanliness prevails throughout.

# Put the First Food --First

MILK-our first food-contains ALL the elements of a perfect food, provided it is CLEAN. Milk is also a perfect culture medium for the minute rganisms of disease we know as germs. Milk is easily contaminated. To avoid this danger, order from the Dairies that is sanitary and right. Give this protection to your family by calling either Dairy for their rich, creamy, delicious

#### THE COW

The dairy cow's a thing of charm; she lifts the mortgage from the farm, and makes the farmer's life more sweet, and sets him down on easy street. Where'er the dairy cow is queen, a country prosperous is seen, and dairymen, in joyful ranks, are packing bullion in the banks. Why plug along the old sad way, producing cotton, corn and hay, and putting up a bankrupt wail if one year's crop should chance to fail? There is a better method now-the method of the dairy cow; this critter always earns her keep, and piles up riches while you sleep and pays the taxes and the rent; and here in Dixie, gents, we have the climate and the feed, and all conditions dairies need. So let us boost the Holstein cow, which beats the old breechloading plow; the Guernsey and the Jersey, too, as smooth as any cow in view. Let's talk up dairies, milk and cream, the safest money-making scheme.-Apologies to Walt Mason.

ONE EDITOR-"Says Yes" --- ANOTHER EDITOR-"Says No"-+++++++++++++

The Times-Signal had a funny circumstance happen last week. When it came time to print Tigers' Tale, publication for Snyder High School, the young folks who edit the sheet brought us a nice story on Principal "Bill" Corry and told us to slip it in the columns some Term, 1930, for Scurry County Displace. We tried it, but Principal trict Court has completed its la-"Bill" smelled a mouse. Just before bors, and investigated other matplacing the paper to press, Mr. ters and has done all they feel they Corry stated: "Now here, if any- can do for this term of court. thing appears in the Tiger's Tale about me, please let it out, since vestigation that there are numer-I have been helping the boys and ous slot-machines and other devices girls to get it out, some one will of similar nature operating over the think that I'm trying to blow my county at various locations. They own horn." We smilingly, but sadly, are informed and believe that operacquiesced in the matter. Bill could ating these devices is a violation of tell us what to do on the Tiger's the laws of Texas; they believe Tale, but by Gcly, he cannot do that these devices are demoralizing that on the old home town weekly, especially to the youth of our Counthe Times-Signal. We can rule try; the Grand Jury takes this what goes in this sheet like Nero method of condemning these unplayed his flute all over Rome. Here lawful practices and respectfully is exactly what the pupils of Snyder calls upon the Sheriff and all Of-High School had written about Mr. ficers to see that these devices are

POPULAR HIGH SCHOOL PRINCIPAL The work of W. N. Corry, the principal of the High School, has been one of the important factors in the success of this school year. The Invitational Track Meet which was such a success was due to his idea, and his work was untiring on the

plans and their execution. In addition to that he has eo-operated with all of the clubs in their work, and has been a booster of every town and school activity.

Mr. Corry is, we think, a man of high ideals and noble character, and along with his intelligence, he has a wonderful sense of humor.

The Staff wishes to thank Mr. Corry for his untiring work on the "Tiger's Tale." We feel that our paper would never have been a success had we not had his advice and help.

The Times-Signal would also like of the new feed. cludea line or two, that Bill has been unfailing and unswervnig in loyalty and efficiency to every school activity. Parents are behind him, students with him, for they Emil Schattel of south of Hermadmire a chap who has the sincere leigh, and responsible with his courage of his convictions. HOW ABOUT THE STORES N SNYDER?

(Editor's Note. This is the second of a special group of Town Doctor articles in which is set forth those things that an industry, manufacturer or individual interested in a community, desires to know before important to take the chance of doing that. Just address your letter to taking definite action; information desired other than, and in addition the Town Doctor, 332 So. Michigan Ave., Chicago, Illinois. to, the regular technical data required.)

In addition to asking the attitude taken toward the community by the people who live there, manufacturers and others interested in the of the interested in the community usually, ir not always, ask:

"What kind of stores are in this town?" What they really mean by the question is this: "Is the answer merely a statement made by the merchants, or is it the opinion of the people?" In other words, is the answer a biased one, or s it wholly true?

It is natural that the business organizations, made up in most part merchants, would claim that the stores are "good", and they might

boy's mother if her son is a bright boy or a stupid one. There are two ways of finding out what kind of a store a community has. One is to get the frank and honest opinion of the people; the other to ascertain how much retail trade goes out of town or is spent with mail order houses.

be absolutley right; but asking merchants this question is like asking a

I have repeatedly said that the money you earn is your money and you have a perfect right to spend it where you please, with whom luncheon was prepared by the nine work and attend to the needs of you please and for what you please. BUT if the people of a community make a practice of buying too large a percentage of merchandise out of town, or if they have a reputation for doing that, it shows one of two things: either the stores are below standard; or the people who make up the community are not royal, community-minded people. And one is as bad as the other, so far as industry and other interested parties are

Anybody, any organization or any business, interested in Snyder will sooner or later ask about your stores; and they want the answer to The luncheon was served in the be fact, not a fancy. They want to know what YOU think about them, trim little dining room adjoining for YOU and the other people who live and work in the community are the kitchen. The school colors were the ones who really are in a position to know. If the question cannot be answered or is not answered; and if some other town does answer; that other town has the advantage, and that advantage may be just enough to keep Snyder from being selected for a new factory, new home owners, or any of a dozen things for which people consider towns.

Through the Times-Signal, the answering of this important question is made possible. All YOU have to do is to send your answers to the following questions to me and I will see that inquiring "customers" of Snyder are given the information. I will do that if YOU will do YOUR part. Here are the questions:

Are the stores in Snyder excellent, good, fair, or poor? 2. What would you suggest to make them what you would like to

3. Do you buy things out of town? If so, why?

Answer these three questions honestly, frankly—just as you really FEEL about it, and you will not only be doing Snyder a good turn but actually doing something for yourself and for the good of your own pock-

This is another chance for you to show whether you are really in-(Continued at top of page.)

## Mothers of Snyder and Scurry County: Is There a Question in Your Mind?

If there is a question on your mind about how your laundry is being handled here, we want to tell you earnestly and heartily to come and see us. Our doors are open the year 'round to you and we are only too glad to explain every process and every scientific method used in giving this service your patronage indicates you already appreciate.

We have nothing to sell but sanitation. That product is all we have. We do produce it economically, and we produce it through methods that will stand your most exacting scrutiny. Come and see us at any time. You are always welcome.

TURNER SCHOOL GIRLS ENTERTAIN SCHOOL

TRUSTEES AND FACULTY -

Co. Supt. A. A. Bullock

It was my pleasure and privilege girls of the class under the supervision of Miss Mell Thompson, their prepared by the class in the Home Economics laboratory or the school kitchen. Not a thing was prepared outside the school and brought in. carried out in the decorations, their colors being pink and white.

The menu consisted of the following: Baked chicken and dressing, clover leaf bread, prepared and baked in the kitchen by the girls, potatoes a la rosetta, parsnips a la Timble, patty shell beans, perfection salad, stuffed olives and chocolate tea. All this was followed by a delicious dessert of golden cake with peaches and cream.

The girls of the class are: Ora Williamson, Eunice Taylor, Hazel Berry, Ruby Berry, Chloe Smith, Tempie Bates, Nila Irion, Beulah Hughes and Iva Spivy.

Those partaking of this wonderful luncheon were: Miss Mell Thompson, instructor and Principal of the school, Victor Drinkard, V. A. teacher and instructor in the Sam Larue had two samples, grammar grades, Miss Tiny Poteet, towels that had been washed for primary teacher, Eb Clarkson and Charlie Eastman, trustees, and A. A. Bullock, Co. Supt.

There is no school in Scurry county or in West Texas that is doing Lewis, of the Retail Credit Merch- hattan towels were as spick and more for the boys and girls of their community, according to the size of the school, than is the Turner school. All this is due to the un-

tioned above and Mr. G. T. Crawford, who was unable to attend, and three of the best teachers in the country backed by a ctizenship second to none. The entire community is behind the school it seems 100 per cent and when a community is behind the school like they are out there something is bound to be a guest of the Turner Home to happen. The weather never gets Economics class at a luncheon on too bad or times too busy for Char-Thursday, March 27th at noon. WE MEET ALL COMPETI-TION IN PRICE AND BETTER QUALITY CHICKS

#### IMPORTANT

Poultry Houses advanced their prices this week to 21 cents. WE MET IT. If they go up further, we will protect our customers. If they go down we will remain at 18c as now. We will protect our cusomers and friends.

Plenty of Money in Quality Chickens

Your First Opportunity To Trade Your Old Hens For Quality Baby Chicks

LIGHT BREEDS, \$10.00 per 100

HEAVY BREEDS, \$12.00 per 100

Here is our proposition: We will pay you 18 cents per pound for your hens, light or heavy, and 7 cents for Roosters. This offer is open from Saturday, March 29, to Saturday, April 5, 1930. This price is offered as an easy exchange to get GOOD QUALITY BABY CHICKS, only.

The Star Feed & Hatchery located in Snyder because of the generous invitation that was extended us from farmers and business men alike and we are here to boost one of the greatest agricultural diversification movements of all West Texas, that of poultry. We are ready and willing to take any customer to our source of supply and show them the fine flocks from which our hatching eggs are secured. We believe in selling only Quality Baby Chicks and are basing our reputation on the products that we are putting out to customers and are here every day in the week to prove that statement. We will prove to you that we have the BEST at ANY PRICE and are basing our sales on Quality Chicks and not on Price alone.

Our Petersime Incubators are hatching our Quality Baby Chicks only, the ones that we guarantee to be Quality Baby Chicks and we do not hatch on the halves, for by so doing, we are throwing our incubators open to baby chicks of unknown quantity and quality and we insist on maintaining our slogan of "Quality Baby Chicks Only." By offering to pay for your present poultry stock on an equitable exchange basis, we are giving customers the best proposition they have ever had presented to them.

TODAY A TODDLING CHICK... in 90 days a proud pullet about to lay. There's some-thing to think about! Tiny bones and little muscles have grown several times in size... a delicate fuzz has sprouted into hundreds of feathers . . . a chick weighing grams has grown into a pullet weighing pounds . . . all in 90 short days!

A wonderful change ... and only one thing can do it ... good feed! This year consider Purina Startena Chow (mash) and Purina Chick Chow (scratch) or All-Mash Startena Chow for the first six weeks ... and then Purina Growena and Purina Intermediate Hen Chow until your pullets are laying at 16 weeks.

Put these Chows before your chicks. You will see pullets that are built right...pullets that will lay eggs aplenty in fall and winter when eggs are always worth good money.

### RANSMISSION LINES BRING THE ADVANTAGES OF DEPENDABLE AND ECONOMICAL electric SERVICE .....

THE power transmission lines of the Texas Electric Service Company bring the comforts and conveniences of electric service to Texas homes in cities, towns and villages.

There is scarcely a household task which can not be done better and more quickly by electricity. From the time work begins in the home in the morning until it is finished at night electricity is the constant servant of the modern homemaker.

Transmission line electric service meets increasing needs of the modern home and business in a manner impossible to an isolated power plant.

Transmission line service is flexible and dependable, making possible more than one source of power supply to a community. It is economical, partaking of the economies of group management, together with the greater efficiency and skill possible in an organization with a diversified scope of activity.

## INDUSTRY IS SCANNING HORIZON FOR FAVORABLE LOCATIONS

and Fortunate is the Community that has the Basic Advantage of NATURAL GAS!

No LONGER do personal opinion, chance, and guesswork play major roles in the fast-moving industrial drama of America! Every phase of industry must be studied scientifically-and the location of an industrial plant comes in for a big share of consideration. Location cannot be lefe to whim or chance. Industry seeks out advantageous locations that meet its particular needs, And Industry is looking South-in our direc-

Many things are contributing to the rapid industrial growth of this section-and one of the greatest is Natural Gas. The Southwest leads all other sections in Natural Gas productionand Natural Gas attracts Industry because it is the ideal industrial fuel-cheap, flexible, requir-

More than 22,000 different factory and in-

ing no storage casy to handle.

dustrial operations now are employing gas, and the number is gaining rapidly. The industrial consumption of Natural Gas is more than twice the domestic or home consumption-not including the large amount consumed in oil and gas field operations!

Fortunate indeed is the community that has an adequate and dependable supply of natural gas-when industry scans the horizon for favorable locations! Regardless of the extent of other advantages, natural gas is always one of the most

It is the privilege of Lone Star Gas Company to supply your community with natural gas at favorable industrial rates. And it will also be the pleasure of our Industrial Department to cooperate with far-seeing local men in helping the community utilize this industrial asset to the

## the man who thinks about price when he buys a tire

Every tire has two prices-the one you see and the one you discover.

The true price of a tire is never determined until its last mile has been run. Only then can you tell whether it has been economical or expensive. Firestone Gum-Dipped Tires have proven their

low price in test after test and case after case, until they now hold all world records for safety, economy and mileage. They will save money for you. Come in — let us explain why Firestone Tires will give you "Most miles per dollar." Get a set for your car using your old tires as part paymentand remember, first cost no higher - last cost a great saving in money and satisfaction.
