

## ELECTION SET TUESDAY, MAY 2, BY COUNTY

### "Qualified Property Tax Paying Voters" to Determine Road Completion in County

Completion of Scurry County's highway system will be largely in the hands of "qualified property tax paying voters of Scurry County," when a bond election will be held throughout the county Tuesday, May 2.

Official notice of the election will be published in The Times this week and for two more successive weeks.

As stated by this official notice, the election will be held "to determine whether or not the bonds of said county shall be issued in the amount of \$35,000, bearing interest at a rate not to exceed four per cent per annum, . . . for the purpose of construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes or in aid thereof, being the purchase of necessary rights of ways for designated state highways.

"And whether or not a tax shall be levied upon the property of said county subject to taxation for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity."

As indicated by the Commissioners' Court, the \$35,000 will be used for purchase of right-of-way for all of Highway 15 through the county and for the remaining short link in Highway 101.

The petition that was presented to the court, asking that the election be called, was signed by "J. O. Stinson and 369 other persons."

## TIMES SHOTS

### Farm and Ranch, in its April issue, carries a story about J. Wright Moore, by Lewis T. Nordyke. "King of Buffalo Slay-ers," it is called. Mr. Moore, who is still active on his ranch northwest of town despite his advancing years, is pictured "as he looks today." Mr. Moore, questioned about the article, declared it was unauthorized and that it is not altogether factual.

Holland's Magazine, also published in Dallas, several years ago ran a series of articles, written by the late Dr. J. W. Hunt, on this first Scurry County settler.

Among 2,000 Four-H and FFA boys in Lubbock Wednesday for the second annual Four-H-FFA Boys' parade were several boys and their leaders from Scurry and Borden Counties. Watch next week's Times for those who attended from this area. The parade included a number of bands from the 36 West Texas counties to which invitations were extended. Prizes totaling \$50 went to the winning bands.

Freddie Wolcott, former Snyder star who has won national and international fame as "the blond bullet" in breaking track records, copped first place at Austin Saturday in the Texas relay 100-yard high hurdles by sliding over the finishers in 14.1 seconds. Wolcott failed in his effort at attacking his own 120-yard high hurdle mark of 13.9 seconds, but fought a cross wind to mark up 14.1 timing. Wolcott, running for Rice Institute, was close on the heels of Wilbur Greer, who scrambled to the tape in the 100-yard sprint in 9.5 second.

Mrs. J. G. Hicks arrived home this week after being at the bedside of her mother, Mrs. R. L. Bailey, in Frederick, Oklahoma, several days before her death last Tuesday night. Funeral services, held last Wednesday in Frederick, were attended by several local people. Mrs. Bailey had been ill several months before death came last week. Also attending the services last Wednesday were Dr. Hicks, Patti and Bobby Hicks, Mrs. R. J. Randalls, Mrs. G. B. Clark Jr. and Mrs. Melvin Blackard.

## THREE EASTER REVIVALS SET TO BE CLOSED

### Church of Christ, First Christian, First Methodist Meetings Are Attracting Crowds

Snyder's three pre-Easter revival services report good interest, in view of illness and other detracting factors. Two of the meetings continue through next Sunday, Easter.

### CHURCH OF CHRIST.

"A spiritual uplifting that will be felt for years by the congregation" was the way church leaders described the week's spring revival at the Church of Christ that closed Sunday night.

Brother Choice Bryant of Grandfield, Oklahoma, who did the preaching, stated "the wonderful response of local church people in attending each night's service is certainly appreciated. We are glad the Lord directed us to come this way." Songs services were led by O. D. Dial, local Church of Christ minister.

### FIRST CHRISTIAN

"That First Easter" will be the sermon subject at 11:00 o'clock Sunday morning, with Pastor E. B. Chancellor in the pulpit. Together at His Feet" is the Sunday evening subject, 7:45 o'clock. Special songs are announced for both services. Baptismal services will follow the invitation Sunday evening.

Special recognition will be given at the Sunday school closing period to the person enlisting the largest number of people during the month. The youngest person present, the oldest person present, and the largest family present.

### FIRST METHODIST.

A baptismal service at the beginning of the Sunday morning program will feature the First Methodist Church revival services, as they draw to a close Sunday night. Parents are requested to bring their children if they wish them to be baptized. Special Easter sermons and Easter music will be offered Sunday morning and evening.

The revival services, with Pastor I. A. Smith in the pulpit, continue each night this week, except Saturday. "It has been a successful meeting, and many of us have been spiritually uplifted," the pastor said yesterday.

Loree Thaxter judged the one-act play contest. District preliminaries will be held at Sweetwater on Friday and Saturday, April 14 and 15, with finals to be held at Sweetwater on Wednesday, April 19.

Delegates to the convention from this 19th Congressional District are Dr. J. B. McCorkle, Lubbock, and Dr. Lee O. Rogers, Big Spring.

But he managed to take enough time out to do some successful sea fishing from a boat near Corpus Christi. He was accompanied by the coast by Mrs. L. Y. Duke of Amarillo, his sister, who visited in Snyder until Tuesday.

## PAUL TEAS ON PUMP; C. & G. GETS A "SHOT"

### Probable Daily Production Rating Seen for Teas; C. & G. No. 2 Down to 1,660 Feet

The putting of the Paul Teas No. 1 W. P. Thompson well on the pump this week for establishment of a probable daily production rating was a feature of developments on the new Ira oil pool front.

Coffield & Guthrie's No. 1-A First National Bank rotary test continued cleaning out operations this morning (Thursday), after shooting Saturday with 300 quarts of nitro at 3,030 to 3,150 feet.

The 300-quart shot of nitro was given the Coffield & Guthrie No. 1-A First National after second stage acidization treatment of 3,000 gallons of a new acid was given the well.

Early reports this morning (Thursday) indicated the Coffield & Guthrie No. 2 First National Bank offset test was drilling ahead at 1,660 feet. Two pockets of "free air" were struck at 1,120 and 1,349 feet respectively in the No. 2 First National offset test late last week.

## DOG-TIRED BUT NOT DOG-BITTEN REPORTS CENSUS ENUMERATOR!

Dog-scarred several times, dog-tired frequently, but not dog-bitten once—that is the report made by J. S. Bradbury, census trustee for Snyder Independent School District. Enumeration of school scholars was completed last month.

The enumerator was astonished to find, after compiling all the figures, that the school district lost one scholastic over last year. The 1938 total of 1,005 was made up of 547 boys and 458 girls, while the 1939 total of 1,004 composes 538 boys and 466 girls.

As these figures reveal, boys lead the girls both years. Too, a breakdown of figures in the various age brackets reveals that there are more boys than girls of practically every age.

Actual speedometer registration kept by the enumerator and his wife (Mrs. Bradbury assisted during a portion of the census-taking) show 485 miles of travel. At least 100 miles were negotiated on foot, making a total of 585 miles covered in making the enumeration this year.

Only one door was slammed in the enumerator's face . . . evidently, he said, by an irate lady who apparently did not wish to be bothered! "Aside from this one slammed door, and our dog-scarred, dog-tired experiences," report Mr. and Mrs.

## 4-H Chicken Circle Is First Of Kind In State

### Dollars Ahead—If Freeze Misses

This snapshot in Nolan von Koeder's orchard, located in Borden County, 25 miles southwest of Snyder, caught the orchard of 1,100 bearing trees in full bloom. The blooms spell many dollars ahead—if an Easter cold spell doesn't spoil the fruit prospects as it did last year, April 9, 10 and 11. This orchard, as well as two new orchards on either side, was planted on

shinnery sand that is supposed to be worth only a few dollars an acre. More profit per acre is realized from the orchard than from any other acreage on his farm, Nolan says. Trees on C. N. von Koeder's and Ed Murphy's farms, adjoining Nolan's place, bring the total bearing trees on the three places to about 1,800. Only a hard freeze will kill the bulk of the crop.

## BUSINESS MEN TO HELP BOYS

Twenty Scurry County Four-H Club boys and girls were selected this week by the county agent and home demonstration agent to each receive 25 chickens of their own choice in what A. & M. College officials say is the first Four-H Club Chicken Circle started in Texas.

Sponsored by the Scurry County Chamber of Commerce, in cooperation with X. B. Cox Jr., county agent, and Miss Estella Rabel, home demonstration agent, 20 Snyder firms and business men will give each Four-H boy and girl selected 25 chicks of their own selection to raise for exhibition at the 1939 Scurry County Products Show October 13 and 14.

After exhibition at the Products Show in October, each club boy and girl will refund to the sponsor the \$2.50 that each 25 chicks cost. It is necessary that a boy or girl receiving chicks buy 10 pounds of chick starter at some local feed or grocery store handling poultry feed.

If one type of chickens is already on the farm of a club boy or girl selected, it will be necessary for the boy or girl in question to select another breed. The county agent and home demonstration agent will visit the boys and girls selected to raise chickens each two weeks.

The 20 Four-H Club boys and girls selected, together with the sponsor's name and breed of chicks each prefers, follow:

First time to enter posters in competition, Snyder's two second places were won on posters made by Elda Jean Littlepage, fourth grade and Billy Pierce, sixth grade. Mrs. Dudley Anz, president-elect of the Snyder unit, was delegate from the local chapter. Hattie Herm and Mrs. J. Nelson Dunn accompanied Mrs. Anz to Crosbyton for Friday sessions.

Mrs. Wraymond Sims, local president and a district vice president, and Mrs. P. C. Chenault, district chairman of motion pictures, both were in Crosbyton Thursday evening for the dinner and board meeting, and throughout the two days of convalescence. Mrs. Chenault gave her report and also spoke before the delegation on the mental and moral effects of motion pictures.

In charge of the two-day conference was Mrs. W. R. Weaver of Spur, district president. Remarks made by the president during the sessions of special interest included:

An outstanding social feature of the two-day conference was the "Meal of Nations," a courtesy of the Crosbyton Parent-Teacher Association, which took the form of an outdoor picnic. It was held at the lovely Silver Falls, near Crosbyton.

Scurry County leaders in P-T-A work have announced the following five main objects of the association, which are of special interest to school patrons: To promote the welfare of children and youth in the home, school, church and community; to raise the standards of home life; to secure adequate laws for the care and protection of children and youth; to bring into closer relation the home and the school, that parents and teachers may cooperate intelligently in the training of the child; to develop between educators and the general public such united efforts as will secure for every child the highest advantages in physical, mental, social and spiritual education.

More people of the county are urged to associate with work being done by Parent-Teacher organizations. Greater interest is being shown each year, leaders say.

### Earl Tells 'Em How to Do It

Earl Force of Snyder is here telling the manager of the Ft. Worth Cats just how to run the ball club that almost failed to finish the Texas League season last year. This picture of Earl appeared in the Star-Telegram several days ago, along with a story from the South Texas training camp that described Earl as the prize rookie of the season. "Prize," in this case, means that Earl is the cockiest and countryest rookie in the Cat camp. Earl and his brother, Carl, made quite a hit with the Snyder ball club two seasons

ago. (Editors' Note: An issue of the Star-Telegram several days ago contains this information about Force: "Earl (Tex) Force's baseball future is gone. Linton told the rookie catcher from Snyder Sunday that he didn't have a chance to make the professional grade. Tex has been such a camp favorite, however, that Bob invited him to stay on for a while and help warm up pitchers and snag balls for fungo hitters. He accepted, at the same time admitting that he already decided he wasn't a ball player.")

### Parity Payments For Wheat to Be Available Soon

Charley Wellborn, Perry Echols, Frank Wilson, J. H. Jean, X. B. Cox Jr. and Edward S. Hyman composed the county group that attended a Triple A wheat crop insurance meeting in Abilene Tuesday.

Representatives from Scurry, Fisher, Nolan, Taylor, Jones and Callahan Counties gathered at Abilene in the Tuesday meeting to hear Robert I. Nelson and R. H. Kinzey, field AAA representatives, discuss wheat crop insurance for 1939-40, and explain applications for 1939 wheat price adjustment payments.

Wellborn, county wheat crop insurance supervisor, had Wilson, Jean and Echols accompany him as county committee members. The official party was completed by X. B. Cox Jr., county agent, and Edward S. Hyman, administrative assistant.

According to Nelson and Kinzey, 1939 wheat parity payments will be available in the near future to complying producers. Payment of the wheat parity payments for 1939 is expected to reach producers before the last of June.

### Demonstration Club Notes

Estella Rabel, Agent

#### Entertain Husbands.

Bluebonnet Home Demonstration Club members of Pylon entertained their husbands and several visitors at a progressive forty-two party at the gymnasium recently. Committee in charge of planning the party was composed of Mmes. M. H. Greenwood, J. D. Rowland and Cecil Campbell.

The Easter theme was carried out in table decorations, tallies, score pads and favors. High score prizes were presented Mrs. Martin Grindstaff and P. A. Ammons. Low score prize awards went to Mr. Grindstaff and Merle Glass.

Refreshments were served to 50 people by the hostesses, Mmes. W. P. Tatum, Moore, Floyd Light and Greenwood.

#### Agent in Service News.

The March issue of Texas Extension Service News contains the following article about Estella Rabel, home demonstration agent:

"Because of wind, sand, hail and lack of water, Scurry County often has not had gardens except for a short time during the growing season," states a report from Estella Rabel, county home demonstration agent.

Many of the men are "cotton minded" and have insisted that "gardens don't pay," but since so many home demonstration club women are building frame gardens and the men have observed their value they are aiding with the construction.

#### April 10-15 Schedule.

Miss Rabel's schedule for the week April 10-15 follows: Monday, April 10—Ennis Creek women. Tuesday, April 11—Round Top women. Wednesday, April 12—Tri-Community women. Thursday, April 13—Fluvanna girls. Friday, April 14—Bison women. Saturday, April 15—Saturday afternoon, 2:00 o'clock, sponsor's training meeting.

#### China Grove Club Meets.

Mrs. Joe Hairston was hostess Tuesday afternoon to members of the China Grove Home Demonstration Club. Mrs. N. O. Brown gave a council report that proved interesting to club members.

"One should always make dresser scarfs the correct size to fit the top of a dressing table," Miss Rabel told China Grove club women.

"Another pointer to bear in mind is that a dresser or table scarf should be made so either side of the scarf could be used for the front side."

Mrs. Hairston showed the attending members the progress being made in her frame garden. There are around 20 frame gardens in the China Grove community.

Those present were Mmes. N. O. Brown, H. M. Murphy, Martin Murphy, Jim Merket, J. M. Templeton, R. D. Hall, Carl Hairston, Joe Hairston, O. N. Laster Jr., Houston Quillette and Miss Rabel.

Mrs. Carl Hairston will be hostess at the next meeting Tuesday, April 18, at 2:30 o'clock.

#### Mrs. Boss Hostess.

"Dresser scarfs may be made of many different materials, but linen is usually preferred since it wears longer, launders better and has a more beautiful fabric," Miss Rabel told the Dermott-Martin Home Demonstration Club that met Wednesday afternoon with Mrs. Forest Boss.

Linen used can be crash, Italian or art linen, the home demonstration agent said. She gave a demonstration on the making of Bermuda fogging for scarfs and the use of wool threads on monk's cloth.

Mrs. Ruby Greenfield, club reporter, resigned due to the fact she is moving to Slaton. Mrs. Forest Boss was elected temporary reporter. Those present gave Mrs. Boss a cup towel.

Mrs. F. L. Kelley made a council report, and as bedroom demonstrator stated she had papered her bedroom and remodeled her wardrobe. Six frame gardens in the Dermott-Martin communities were reported.

Those present were Mmes. T. C. Davis, J. A. Caddell, A. P. Smith.

At a called meeting of the City Council Tuesday night, Tuesday's city election results were canvassed and certified to be correct.

### LETTERS FROM THE PEOPLE

Defend the Legislature.

I have read many articles in the Star-Telegram criticizing our Legislature for opposing Governor Lee O'Daniel's transaction tax; the repeal of the ad valorem tax; also the repeal of capital punishment. The transaction tax discriminates between the poor and rich. The manufacturers and chain stores are exempt from the transaction tax.

Who blames our Legislature for fighting such radical, drastic, discriminating and revolutionary methods of taxation? The people have been burning out their hearts running after shadows, echoes, rainbow visions and wild dreams. The transaction tax is a futile, dreary, dismal wild dream. The corporations are not fighting it, but they have lobbyists at Austin, who are fighting for the corporation "baby."

To repeal the ad valorem tax is class legislation. It will encourage the irreligious ethics of kindling personal fires with class hatred.

To abolish capital punishment the habitual criminals from the underworld would pour into Texas and there would be an added wave of crime sweeping over Texas, which would be as disastrous as a desolating tornado or a withering blizzard of the desert. Capital punishment is the only palladium of civil liberty and the only safe guarantee of life, liberty, and property of our citizens.

The friends of Governor O'Daniel are trying to coerce the Legislature to confirm his plans and ideas by threatening to cut them down with the political sword. Our Legislature should hold the social, political, industrial lines of life, and show Texas that you should rather die as a martyr to civil liberty than to live a traitor of bartered liberty.

E. C. Ralston, Snyder, April 1, 1939.

Editors, The Times: During the last week of January, 1939, I clipped the following statement from an article written by Frank R. Kent of the Baltimore Sun. Mr. Kent is recognized as one of the leading if not the leading commentator and observer in Washington. Further, he is a Democrat writing for one of the leading Democratic papers.

"The Roosevelt farm policy today is a vacuum. Today confusion reigns in the Department of agriculture; the secretary and his once confident aides are disheartened, and no one in the New Deal has a coherent idea of what to do next. In years to come, when the record can be reviewed without heat or prejudice, the Roosevelt agricultural experiments will stand out as among the greatest governmental failures of any period. It is not only that two immensely ballyhooed plans have flopped in six years, but that here in the last stage all semblance of leadership has been lost. If there could be a worse muddle than this it would be interesting to have it pointed out."

"This morning there appears under a Warm Springs, Georgia, date line the following from President Roosevelt: 'I think we have done more in those six years (since 1933) than in the previous 60 years all through these Southern states to make them self-supporting, give them a balanced economy that will spell a higher wage scale, a greater purchasing power and a more abundant life than they had had in all their history.'"

Well, this is news. In other words, the South is better off today than at any time since the Civil War and it is true because Mr. Roosevelt says it is true. I will leave it to any fair-minded person to figure this one out. Snyder, March 31.

### Meetings Outline New Program of AAA for County

A series of special meetings for the purpose of explaining the details of the 1939 Triple A farm program was announced Monday by Edward S. Hyman, secretary of the Scurry County Agricultural Conservation Association.

Schedule of the meetings, which began last night (Wednesday) follows: Hermleigh — Wednesday night, April 5, 8:00 o'clock. Fluvanna—Thursday night, April 6, 8:00 o'clock. Ira—Friday night, April 7, 8:00 o'clock.

Snyder—District court room, Saturday afternoon, April 8, 3:00 o'clock. Dunn—Monday night, April 10, 8:00 o'clock. Union—Tuesday night, April 11, 8:00 o'clock. Ennis Creek—Wednesday night, April 12, 8:00 o'clock.

All farm operators are requested to bring their families and attend the community meeting nearest them.

Mr. and Mrs. E. L. Darby, Mrs. Madge Sims and children, Wanda Jean and Bobby, spent Sunday with Mr. and Mrs. Frankie Hall in Odessa. The Halls (she is the former Dorothy Darby) recently moved in a new oil company house, adding new furniture, and are still busy decorating it.

With the hundreds of thousands of farm owners and tenants on relief and millions of acres of farm lands lying idle over our Southern states a remark like this is an insult to the intelligence of the South.

The President is now proposing that shipment be made from the vast government store of cotton to foreign countries on a subsidized basis. A congressional group wants to sell it back to the farmer at a few cents a pound. The president's proposal would be merely making a present of several hundred million dollars to our foreign competitors who will manufacture this cotton and further undersell us in markets of the world. The congressional proposal would be merely turning back to the farmer something he doesn't want and further deny him the right to grow his crop.

Humanity cannot wear raw cotton. That's why Japan, Germany, Italy and other nations have bought cotton from us to manufacture and resell to the world, coming in direct competition with our American mills on a basis they cannot meet. German and Japanese governments subsidize their manufacturers to the point where they have almost completely absorbed the world's cotton goods market.

Why not put our American mills and American workers back on the job, spinning our own cotton goods and sell under a subsidy as good or better than Germany and Japan pay their manufacturers? If this "stimme" business is to continue, why not retain all of it possible in America rather than keep on doing like we are with gold and silver and for which there is no reason under the shining sun? To the average man there cannot be anything constructive or even sincere in an administration which attempts to keep its people full of the hope of never fulfilled promises.

E. J. Anderson, Snyder, March 31.

### Swap of Judges With Garza County Proves Successful

A group of 12 Scurry County judges were taken to Post Friday by Roy O. Irvin, county superintendent, to officiate at Garza County Interscholastic League track meet. Friday's group completed a "swap" of judges; with 12 Garza County people having judged the county league meet last week-end.

M. H. Greenwood and Miss Payne of Pylon, Mr. and Mrs. A. C. Bishop of Hermleigh, Misses Margaret Dell Prim and Marie Casey of Ira, E. O. Wedgeworth and Mrs. Gilbert Mize of Fluvanna, A. W. Yeats and E. H. Lilly, Chamber of Commerce secretary, Snyder, and Ben W. Newhouse, Dunn; and Roy O. Irvin composed the league judging group.

Irvin took Ben W. Newhouse of Dunn; King Sidens, local high school principal, and Lawrence Deavers to Post Saturday night to judge Garza County's choral singing contest.

The "swap" of interscholastic League judges with Garza County has been pursued by Scurry County for several years. "Swapping" of judges by Irvin and Dean Robinson, Garza County superintendent, has proved highly successful, Robinson reports.

"We want to express our appreciation to the county people who acted as judges for Garza's league meet," Irvin stated Monday. "We believe this is the best way to insure impartial judges in each county."

### Four to Huntsville After Sentences in District Court Here

John Lynch, sheriff, accompanied by Ray Hardin, constable, Dick Henderson and "Pop" Galyean, returned Sunday morning from Huntsville, where they left C. O. Colston, A. P. Tankersley, J. M. (Buddy) Bryant and Edwin Green, who were meted out prison sentences at last week's district court session.

Tankersley and Colston were given five year penitentiary sentences last year for the alleged burglarizing of the Bryant-Link Company store. Bryant was given a two year sentence on the same count. Green was given a two-year sentence for alleged automobile theft.

It seems Lynch was having foot trouble, and purchased a new pair of soft leather slippers before starting on the Huntsville jaunt. To avoid the feel of too much new leather, it is reported Dick Henderson obtained for Lynch a couple of paper sacks en route to rest his feet in.

Vivian Chenault, sophomore student in Trinity University, Waxahatchie, arrived home Sunday on the late afternoon train to spend this week with her mother, Mrs. P. C. Chenault.

The Price Hots of Post, former Snyderites, were visiting with relatives and friends in the county the past week-end. Holt has a produce business at Post.

### One of Youngest Old Gentlemen Is Leading Farmer

The February issue of Acco Press, published at Houston, carries an interesting story of "One of the Youngest Old Gentlemen I've Met." It concerns Herman Ohlendorf of near Lubbock, who has been a frequent visitor in Scurry and Borden counties. He is a brother of Mrs. H. von Roeder.

The article tells how the old-young farmer-landowner reflects his eternal youth in several ways. He built terraces 30 years ago with a home-made level. His fertile land is in prime condition today, in contrast with that of most of his neighbors. Sodded ditches, check dams, contoured planting rows and strip cropping have done the job.

"Does it pay?" the writer asks. "I think it must: The county cotton average is 155 pounds of lint to the acre; Mr. Ohlendorf's average is 218 pounds of lint on one farm, 244 on the other—he works two."

And Mr. Ohlendorf is a diversified farmer. "He keeps a big flock of chickens—about 800 laying hens, culled every year. He has 300 head of sheep and 23 head of cattle. Of a total of 426 acres, only 119 are in cotton, the balance in feedstuffs and pasture, with 20 acres a year planted in legumes. He has an underground silo—one of the first, incidentally, built in 1917—and he finds it, as he puts it, 'practical to fill it every year.'"

One of the veteran farmer's remarks is significant: "It would pay a lot of folks who buy new cars every year to put the money into fresh paint."

HE'S JUDGE NO. 1. Fred Boren, who won first place in district poultry judging for Alpine High School, where he is a student, spent the week-end in Snyder with his parents, the Clyde M. Borens. He was in Lubbock late last week with other members of the judging team from the high school for an invitation meet with 50 other high school teams. Mr. and Mrs. Boren took their son back to Lubbock Sunday, where he joined the team to return to Alpine. Another son, Clyde Boren Jr., freshman in Sul Ross College, arrived home Wednesday for the Easter holidays.

Mrs. Mary Fesmire left Saturday for Harlingen, where she will be the guest of her son, Leftoy, for several days. Fesmire is connected with the sporting goods department of the Harlingen Montgomery Ward Store.

### Lloyd Mountain, Hermleigh, Snyder Determined as League Topnotchers

Lloyd Mountain School, with a total of 124 1-2 points, was announced this week all-round rural championship winner of the county Interscholastic League meet held here recently.

Hermleigh copped first place honors in the league meet with 165 literary points amassed. Snyder captured first place in the ward division, and second in all literary events.

An announcement of the all-round rural championship winner was not made last week, due to differences in interpretation of league rules.

According to a letter received Wednesday by Roy O. Irvin, county superintendent, from Interscholastic League headquarters, Lloyd Mountain was a winner of the rural championship with 114 1-2 points amassed in literary events and 10 points won in athletic events. Several errors pertaining to the league event winners appeared in last week's Times, due to the haste of summing up league results. The heading of one news item incorrectly stated Canyon girls were rural playground ball winners, when the Bison girls copped rural playground ball honors, first place, for the second consecutive year.

Other corrections follow: Music memory, ward division—

1939-40 SWEETHEART. Verna Lou Maule, daughter of Mr. and Mrs. M. M. Maule, was elected sweetheart of the Tiger Band in a contest held in the local school last week, ending Tuesday of this week. Miss Maule, the freshman class candidate, will be a special guest on the trip to Abilene this week, but will not take part in maneuvers of the local high school music group.

MOTHER IMPROVES. H. L. and Leon Wren, accompanied by Byron Wren of Colorado and Bob Wren of Big Spring, left last Wednesday for Bisbee, Arizona, to visit their mother, 81-year-old Mrs. W. R. Wren, who was seriously ill. The quartet returned Saturday, reporting a great deal of improvement in Mrs. Wren's condition.

This is a continuation of the upward trend notable since new model introduction, making the month's sales to date 36.3 per cent higher than they were a year ago. The nation-wide upward trend is reflected in the sales of the local Scurry County Motor Company, according to H. H. Eiland, owner.

### Where Do You Trade?

For several years The Times has been bearing down on the fact that the old "Buy it at Home" philosophy has many angles.

Merchants who expect their customers to buy from them instead of going to Colorado, Sweetwater, Abilene, Ft. Worth or Dallas, should first make sure that their own "buying lines" is clean. How can they expect the farmer, the rancher, the housewife to buy from them when the merchants and their wives buy merchandise other than their own from other towns?

It all falls back to one premise. As The Times sees it: The burden of proof is on the man who sells, not on the man who buys. For example, Snyder merchants and others who patronize The Times are not obligated to do so simply because The Times is a Snyder and Scurry County institution, because it works tooth and toenail for the interests of its community. But... The Times is obligated, if it expects to prosper and be of the ultimate in service, to present its products and its services in such a way that the buyer will WANT them in preference to out-of-town competitors' products and services.

Merchants are learning this lesson more and more. They are learning that they can not sit idly by and watch their customers be bombarded with circulars, daily newspaper ads, radio announcements, high-powered salesmen. They must advertise; they must have attractive windows and inside displays; they must have clerks that give quick, courteous service; they must have the merchandise the customer wants; they must know their merchandise; they must have reasonable prices.

The Scurry County merchants who are keeping step with modern merchandising are the successful merchants. The easiest way to cut out-of-town buying is to increase in-town merchandising.

This week's style section of The Times is a case in point. Snyder merchants are offering buyers of this area a good selection of Spring merchandise at reasonable prices. Why not read their advertisements, read the style news adjoining their ads... then do your Spring shopping early?

And this means the baker, the butcher, the groceryman, the drug store man, the newspaperman, the hardware man, the barber, the cafe man—as well as the farmer and the rancher, the day laborer and the man who is on the government payroll.

### Just Glancing Around

Just glancing around the county, without making any effort to discover all the public improvements that have been made in recent years, The Times was greeted with plenty of eye-fuls.

We have passed through an era of progress, and not all of it has been provided by Uncle Sam's help. We have been whipping Old Man Depression, the Demon Drouth, and a half dozen other bugaboos. Here are some of the "hows":

Snyder, Ira, Dunn, Hermleigh have built modern gymnasiums.

Fluvanna, China Grove and Plainview have built or are building modern school buildings.

The City of Snyder offers many blocks of paving, a just-completed city hall.

Everyone joined hands to provide a new building and pens for a products show and similar occasions.

Snyder General Hospital was built and paid for.

Highway 7 was completed, Highway 101 is well on the way toward completion, and Highway 15 is beginning to look like more than a mere dream.

Many lateral roads have caliche surfaces—a job that has been achieved while the general cost of maintaining county roads has been reduced.

Four new bridges have been built across Deep Creek and Dry Creek in Snyder.

The court-house grounds are rapidly approaching their most beautiful appearance in history.

Many Snyder business houses have modernized, renovated and put on new faces.

Homes in all parts of the county have been rebuilt, repainted or replaced by new structures.

Oil activity is at the highest pitch Scurry County has ever known.

Farmers and ranchers are saving more feed, saving more water, saving more soil than at any other time in the county's history.

Most important of all, cooperation is the keynote of every activity. Old jealousies, old hatreds, old sore spots are gradually being eliminated, and, well... ain't it grand to live in such a county, among such folks?

### Sheppard's Proposal

Now comes Senator Sheppard with a proposal that Congress exempt from taxation every homestead valued at \$5,000 or less, and every other homestead up to \$5,000 of its value. Texas has her homestead exemption law on property up to \$3,000, and a number of other states have similar laws. "A home-owning citizenship is the best guarantee of the institution of freedom," declares the Texas senator. His proposal has another point of recommendation, too: It is one of the few suggestions that has been made in recent years, in a Legislature or in Congress, to cut down rather than increase taxes.

### How's Your Flu Today?

If you haven't been down with the flu this season, you may become a victim at any time. Common sense is the best medicine, as time has proven since the first influenza epidemic struck in the United States. Some of the most useful—and the most unobserved—batches of common sense are these: So far as possible, avoid contact with members of families with colds or flu; keep the feet dry, the hands clean, and the alimentary system lubricated; avoid unnecessary fatigue; avoid crowds whenever possible.

### A Negro Success Story

Death of "80 John" Wallace, veteran colored landowner of Mitchell County, ends the career of one of the most remarkable citizens in West Texas. The success story written by the life of this unusual man would have been thrilling and readable had it been written by a white man. It has even more flavor because it was written by a colored man who was once nothing more than a flunkie for cowhands.

Wallace possessed the characteristics that build property and friendship estates for men of any race or creed. He possessed, further, the ability to, as many white men put it, "remain in his place." In doing so he was held in high respect by all with whom he associated. He was admired by dozens of old-time cowmen, and he was their friend. It is said that he spent thousands of dollars and much of his time in helping others.

This negro success story is recalled here not only to pay tribute to a man with a dark skin and a white heart. It intends, also, to renew in the minds of white and colored alike the fact that race or "previous condition of servitude" holds little importance in the light of character, ability and a sincere willingness to be of unselfish and unassuming service.

### Current Comment

By LEON GUINN

During 1938 there were 80 new cooperative cotton gin associations set up in Texas, bringing the total number of farmer owned gins to 340. A report Tuesday from C. E. Bowles, cooperative marketing specialist, indicates the cooperative gins saved an average of more than \$2 per bale for members during the 1938 crop year, besides paying dividends where a stockholder's interest in a cooperative gin was "paid out."

Although a number of good points might be cited in favor of the cooperative cotton gin, 1938 cotton allotments and other factors reveal the fact these farmer owned cooperatives have about reached the saturation point under present conditions. If the 1939 cotton crop were equally divided among Texas gins each one would turn out less than 850 bales. Decreasing exports and increasing cotton substitutes are two strong straws in the wind pointing toward further cotton acreage reduction.

A long range view of cooperative cotton gin associations, going hand in hand with one-variety cotton communities, leads one to the conclusion both movements should have been started 30 years ago, so far as farmer benefits are concerned. Which reminds us that the U. S. Department of Agriculture, since the days when Congressmen distributed free garden seed, has consistently hammered away in official bulletins for diversification by the tillers of the soil. The present period of transition offers proof positive that the farmer groups staying with cooperative gins and one-variety cottons will be on the top rung of the economic ladder when brighter skies foreshadow a new era of usefulness for King Cotton.

One of the prize Washington boners of the week was the sudden discovery the administration had completely forgotten to get Elmer Andrews confirmed as wage-hour administrator. When Chairman Thomas of the Senate Labor Committee discovered the mistake, he immediately phoned the White House. Further checking revealed the fact Secretary Perkins' office had done the confirmation forgetting. Thereupon the White House rushed the nomination of Andrews to Capitol Hill in order that the wage-hour administrator would become the official appointee to the job he has held for months.

A new vanishing cream to protect the hands and face from the often harmful effects of gasoline and certain oils and lacquers is reported to prevent that severe skin ailment known as dermatitis among painters, mechanics, dry cleaners and other professional workers. Industrial dermatitis has long been recognized by the medical profession as a difficult thing to curb among painters, dry cleaners and other users of paints and chemicals once the disease got underway. The ounce of prevention promised by the new vanishing cream will doubtless be worth several pounds of cure, even though it may make sissies out of some men folks.

Thirteen American colleges and universities are cautiously getting underway with the government's plan to train 20,000 civilians annually as reserve pilots. While each college is exceptionally anxious to get in on the training of reserve student pilots, the scarcity of safe training planes, plus the high fatality rate of the ships themselves when in the hands of unskilled students, makes it necessary to proceed sanely along the line of bolstering our undermanned air defense front in America.

### School Workers Feature Month's "Welcome" List

Workers on the Snyder school building featured the March list of those who were greeted by the "Welcome to Snyder" Association, of which Mrs. Roy Stokes is the official greeter. Several of the workers are here with their families; others are leaving their families in their home towns while they work on the local building for about a half year.

Mrs. Stokes points out that several newcomers have not been greeted promptly because she was not advised of their coming. She urges that any citizen who knows of a newcomer should notify either her or the Chamber of Commerce office. About 40 merchants and others who take part in the association send a large box of merchandise, coupons and other material to each newcomer, through Mrs. Stokes.

March newcomers, aside from those working on the school building, are as follows: Messrs. and Mrs. R. B. Smith, 2405 Avenue S, Potee's blacksmith shop; Charles Taylor Jr., 2411 Avenue L, Rainbow Market Place; C. A. Seale, 2311 30th Street, Serval Electroflux salesman (Stinson No. 1); Aris Jones, 3101 Avenue W, Bryant-Link Company; M. F. Kennedy, 2801 Avenue M, oil. Charlotte Patton, 1008 26th Street, with Polly Ann Beauty Shop and Mrs. R. L. Carden, 1505 27th Street, are other newcomers. Mrs. Carden has joined her husband, who is an architect.

R. T. Wilcox, 1404 25th Street, with Bryant-Link Company, and Howard Harrison, 2801 Avenue M, oil, are among the single newcomers. John Nichols, architect on the Snyder school, is staying at the Manhattan Hotel.

Connected with the school building are the following men who are here alone: D. E. Kelly, A. Williams, W. H. Shepherd. On the building work are these men who are here with their wives: M. J. Grubbs, Sam Nelson, J. A. Wilkes, C. A. Blackford, H. J. Coughran (contractor), Herman Foreman, G. R. Gibson, Fritz Eisenheith.

### WTCCA WILL MEET

Annual meeting of the members of the West Texas Cotton Growers Association will be held Tuesday at 1:00 p. m., county court room of the courthouse in Abilene. J. L. Carrell was recently renamed as director of the association for this district.

### THE TIMES TABLE

The Birds are back from their Winter vacation Helping make Spring the annual sensation!

—The Times Table—

WITH THAT dabble of swiped Spring poetry, The Times Table lunges into the Easter season. It has already risked its neck by prophesying that there will be no freeze severe enough to kill the fruit. Now, if this column could just guarantee that not a Scurry County woman will break her neck Sunday at church while craning to see another good sister's Easter bonnet, the batting average might run as high as 500.

—The Times Table—

W. L. RHOADES of the Ira community, who has seen Scurry County sunsets and sandstorms for more than 41 years, is seeing things through oil-colored glasses. He believes the Ira area will give birth to a real oil field. Mrs. Rhoades is one of the Chapman heirs, on whose property one of the Ira field wells was drilled a few years ago. This man with a full vocabulary and a typical Irish disposition lives right on the Colorado River. He takes The Times, of course. "I've always tried to take the county paper," he said. He remembers Dick Lively, that well-remembered Irishman who published The Coming West.

—The Times Table—

MRS. J. T. ROPER is the type of kindly soul about whom a book should be written. She has a helpful, sincere philosophy of life that simply can not be put down on paper; but it would be worth trying for someone who can really write. During her 68 years she has helped so many people in so many ways that it is small wonder that practically everyone speaks to her, on the streets, with a cheerful, "Howdy, Mrs. Roper."

Mr. and Mrs. Cloyce B. Brinkard of Anton were week-end visitors with local relatives and friends.

### Report Gains for Car Tags Issued Before Deadline

The tax assessor-collector's office issued 1,827 1939 passenger car license plates up until 10:00 o'clock Saturday night, attaches reported Monday. This was a gain of 25 over the number of car tags issued up to April 1, 1938.

Gains over April 1, 1938, were shown in the 224 farm vehicle tags issued for 1939 up until Saturday night, as well as in the 196 commercial truck and pick-up plates granted.

Registration of farm vehicle plates was 40 above April 1, 1938, with truck and pick-up plate sales 20 above last year's April 1 figures.

Starting Monday, a penalty of 20 per cent was added to all 1939 license plates, where vehicles have been used on a public road since April 1.

"Cars trucks or pick-ups that have not been used since April 1 are not subject to this 20 per cent penalty," Herman Darby, assessor-collector, stated Monday.

The April 1 deadline for obtaining new drivers' licenses has been extended indefinitely, the assessor-collector's office reports.

### INITIAL RABBIT DRIVE IN AREA

The season's first rabbit drive at Snyder several days ago was followed by one at Big Sulphur Tuesday. Approximately 400 rabbits were mowed down by the 50 hunters that attended the all-day hunt.

A feature of the Big Sulphur drive was dinner on the ground at noon-time, followed by a supper at the end of the day's rabbit killing campaign.

The third rabbit drive of the season will be held at Pleasant Hill today (Thursday), with plenty of both jack and cottontail rabbits promised followers of the "big game" trails. Dinner will be served at Joe Merritt's home.

# Snyder Merchants Offer New Things for Springtime

## GIVE HINTS FOR CLOTHES, HAIR

That grand dress-up season of Easter beckons us again in a most tempting manner, for who can resist the gay romantic new fashions that are to hold the spotlight in the Easter parade, who could keep from thrilling to the radiant new colors that brazenly take all honors?

We can't, and neither can you once you have seen them. Snyder merchants have planned many, many weeks for this Easter season, and they, too, have enjoyed it more than ever before. They are happy to announce that they are gloriously ready to make you your loveliest self on Easter morning.

Selections are complete down to every little accessory detail. They suggest that you complete your Easter shopping, and before you know it you'll be joining the Easter parade. Stepping jauntily along looking your charming best.

### Here's What's New.

"What's new in Spring fashions?" There'll be: Jackets abounding for morning, night and noon, high necklines softened with bibs, scarfs, bows and jabots . . . topcoats that flare from full peasant-skirted coats to straight, unfitted types . . . fewer gadgets and extreme trimmings . . . blouses ranging from strictly tailored linen shirtmaker types to frilly, frothy varieties in lace-trimmed chiffons and sheer organdies . . . prints done in light-hearted theme . . . suggestions of bustles in daytime frocks and bustles an actuality on evening gowns . . . sissified bathing suits a la romper . . . gayer play clothes.

In skirts, some like them short, some like them long, and they are the big news of the hour. Difference in opinion comes between 15 and 18 inches from the floor. The fuller the skirt the shorter of course, but length depends on the shape of lady's legs. Some measure by the knee, two inches below the knee for full skirts, three inches for straight skirts.

### An Era of Romance.

Tweedy in the morning, school girlish in the afternoon, and feminine frilly and fanciful in the evening, or you may go siren when dusk comes to don a column frock. But, above all, you must be pretty as a picture in locket, and let all of us be clever. For this gay and vivid season is an era of romance.

Harbinger of an increasing trend to the feminine is the swish of a petticoat in a day which is not a petticoat day. Ribbons and ruffles will frame your face, and your life will be bound up in shirrings and pleats, since spring comes this year on a wave of pleating. Silhouettes are in motion, fabrics sing and swing, hats are in flight.

Flowers that bloom in the spring tra-la will bloom all over your Easter bonnet—round and about the crowns and brims by day and in small clusters flat down on your hair by night. As to how Mary's garden grows, it sprouts up in color names of all your favorite beauties. Color names are not limited to flowers, but they are taken from everything that swims, walks, flies, blooms or just is.

### It's Back to Youth.

Kind of cute the way women are nipping in their waists as they get in step with spring. A back to youth movement has set in.

With their mixing bowls in their hands, stylists of our town are stirring up great batches of reds, whites, blues, purples, yellows, pinks and greens into the most daring, most interesting tones ever. We've answered the call to color. You may no longer step in style wearing just two colors. The minimum this year is three. Color matching is a new game, and it is fun to play one color against another and work up a color code all your own.

In 1930, 14.2 per cent of female workers, as compared with 4.4 per cent of male workers in the United States, were engaged in professional service, according to the United States Census Bureau.

## Homemaking Trip to Be Made This Week By Girls of Hobbs

Hobbs homemaking girls, faculty members and others interested are planning a field trip to Lubbock Saturday, April 1. All high schools of West Texas have been invited by Texas Technological College to attend open house from 10:00 in the morning to 4:00 o'clock in the afternoon.

The girls expect to visit the homemaking, textile, art, music and engineering buildings of the college, but their chief interest will be in the homemaking division, where they expect to gain valuable information for their local work.

Miss Taublee Rice, teacher of homemaking at Hobbs, will be the official chaperone for the trip. Bert Milam, grade school principal, will drive the bus.

### SPRING BRINGS.

Spring brings the welcome sparkle of patent, newer than ever and smarter. There are the lovely little patent shoes, pleated or perfected with open toes, open backs, sandals, and the bags are just as pretty. Too, Easter brings a flurry of bright colored bags and gay gloves in all the newest tones—cranberry, japonica, pink, navy, yellow, light blue, natural, sunstraw, dusty pink, Victorian pink, chartreuse, fushia, sienna rust.

### VACATION-TIME FOR FEET.

Relax! From now on it's a vacation for your feet . . . a vacation from foot-straining so that you may walk in easy grace. Wear your high heels to parties and to church, but leave them home when you do your walking, foot specialists advise. Low heeled walking shoes are necessary parts of spring fashions. Now you can be smart in walking shoes.

### BLOUSES IMPORTANT.

Collect blouses this spring, for never before have they been so important. There are exquisitely detailed ones of fine French organdy ornamented with embroidery, hand tucking and real lace, the brisk little taffeta ones in plaids and stripes, others made entirely of row after row of narrow lace sewed on a foundation of net and still others of bright colored chiffons with big peasant sleeves and necklines with adjustable draw strings.

## A Breath-Taking Glimpse of Spring At Bryant-Link's

We caught a breath-taking glimpse of Spring as our new season's merchandise was unpacked. One look and we could almost see the robins hopping by and the spring flowers in bloom. Fresh as the season, gay as your own spirits, 1939 offers Easter shoppers the cleverest lines and most flattering color-effects for your opening bow to Spring.

So says Mrs. Joe Caton, head of Bryant-Link's ready-to-wear department. The new nipped-in waist and "little girl" fashions make the foundation garment just about the most important garment in your whole wardrobe. "Gossard has just the garment for you," she reminds.

A glorious array of new Nelly Don frocks defies the Easter shopper to "Just Try One On" . . . those breath-takingly lovely LaVine models in the new shadow and substance materials, alpaca sheers, crepe romaines, laces and chiffons . . . popular line-spun and flax materials that have supplanted linens, a sacking weave that is cool and non-crushable in sport things. Nelly Don "play tonics" offer playing suits with snap-on shirts and tailored slack suits. They're all at Bryant-Link's.

Fashion turns the tables this year as women are wearing the "little girl" silhouette, copying daughter's styles. And Cinderella picks up this delightful story there, taking it through the old-world charm of the Balkan peasantry of Europe to colonial days in lace patterns and paisley prints, velvet bows, flower appliques and dainty lingerie touches with their charm and prettiness. Bryant-Link has these Cinderella frocks in Shirley Temple models for the young miss and Deanna Durbin teen-styles.

Add a frilly new blouse to last year's suit for knock-about wear until warm weather sets in, Mrs. Caton suggests, or a bright new scarf or handkerchief and gloves. Bryant-Link offers chiffon blouses in spring hues of chartreuse, dusty rose and open blue, trimmed with self-colored lace and pin tucks, white batiste blouses of years and years ago bringing a storm of approval with dainty handwork, linen blouses and shirts.

Hats were never more desirable.

## Joint Session for Buddies, Auxiliary

Buddies and Auxiliary members of the local Will Layne Post are urged to attend a joint Legion and Auxiliary meeting at the Legion Hut tonight (Thursday). The joint meet begins at 8:00 o'clock.

According to Sam O. Nations, post commander, business matters at the joint session tonight (Thursday) will call for the presence of all legion or auxiliary members interested in carrying forward local chapter work.

More than 256,000,000 pounds of dynamite were manufactured in the United States in 1937, according to preliminary reports of the U. S. Census Bureau.

more wearable or more colorful than this spring. They capture the spring feeling completely as features of the new Bryant-Link Patricia and Gage models run riot in style. They're flattering, different and feminine with their loads of flowers and yards of yelling on every style from tiny flower-covered crowns to huge cart-wheel sailors.

New shoes, hose, bags and other necessities are moderately priced and will be helpful for thrifty buyers in the Easter parade. Bryant-Link's McCall patterns and wide selection of silk, rayon and cotton materials are inducements in a make-your-own campaign.

In men's wear the store offers a good spring line, including Hart Shaffner & Marx and Rose Brothers suits, Laudenberg hats and the ever-popular Arrow shirts, all in the large spring showing of fashions for the well-dressed man.

## VAN-AIRE NEW! SAYS VANETTE

Headlining van-aire, a warm beige tone for spring and summer wear, the new Vanette hosiery color chart is out. The new shades, lovelier than ever, are examples of "what's new" in hosiery, says Manager Nathan Rosenberg, of Ben Franklin Store, exclusive dealer for Vanettes in Snyder.

Interesting to note is that the names of Vanette hosiery are combined with the first syllable of Vanette, which makes the colors distinctively Vanette — van-aire, van-tan, van-glow, van-dawn, van-deb, van-haze, van-sun, van-charm.

The van-aire shade is for wear with a wide range of costume colors, such as greenish blues, peacock and light blues, rosy or reddish rusts, greens, spicy or golden browns, navy and lively medium blues.

### MIRROR GAZING.

In this day of intricate makeup, emphasis on carriage, stocking seam consciousness and complicated hair do's, mirrors are indispensable to good grooming and a trim appearance. The girl singled out in any group for that carefully-put-together appearance is usually the one whose bedroom is equipped with a full mirror wardrobe. The 20th century sister of the Victorian girl, for whom cultivating use of a mirror was apt to gain her a reputation for conceit, spends much time in front of a mirror. Those who don't more than likely win a reputation for dowdiness and careless grooming.

### FOUNDATION GARMENTS.

Carry yourself in slender smartness. Go places in style with the proper foundation garments, stylists tell the modern woman. These new foundation garments are sheer and cool, and the modern woman can find no good excuse for not smoothing out the lines of her figure before donning youthful spring clothing.

### LESS T. B. FATALITIES.

Deaths from all forms of tuberculosis in the United States have decreased 73 per cent since 1900, according to U. S. Census Bureau reports.

Deaths from typhoid and paratyphoid fever in the United States have declined 93 per cent.

### VITAL NEED FOR THE SKIN.

Keep moisture in your skin and beauty will never leave it, say beauticians everywhere, repeating the age-old idea and emphasizing it for the modern generation. Cleanse and condition your skin every day, and watch the dust and impurities float away. Your favorite creams recharge your skin with the oils that West Texas winds and sun dry out.

## CHANGES SEEN BY HOLLYWOOD

"Change is in the air, change of many things, but even greater change in fashions," says Mrs. John Keller of the Hollywood Shop, who, as always, is so style-conscious. "There is something new and smart for every woman."

Accessories to compliment these lovely Easter frocks at the Hollywood Shop are attractive as arranged in display windows and cases include spring needs from the skin out, beginning with Vanity Fair underthings and Rollins hosiery. Then through the selection of lovely dresses and suits, adding an exciting new bag and bright gloves topped off with a spring hat of your own choice. Your Easter problem is solved.

Two men—both the very reverse of "Pussyfoot"—called to see a friend who was very ill. The man's wife told them that the doctor was with the patient, and that, although visitors were forbidden, one of them might creep upstairs and peer through a crack in the door. One did so, and returned looking very concerned.

"Bill's very bad," he said. "The doctor said to him, 'Do you see red elephants with green eyes in the room, and monkeys on the wardrobe?' and Bill said 'No.' The doctor said again, 'Do you see white cockroaches with little black dogs on their backs on the ceiling?' and Bill said 'No.' Then the doctor said, 'Do you see purple lobsters with yellow cats on the walls?' and Bill said, 'No' again."

"What of it?" repeated the other, bursting into tears. "Bill's real bad—the room was full of them."

## Two Distinctive Items Stand Out In Airmaid Line

Romantic Southwest stands out in fashion's 1939 picture in this section like a cowboy silhouetted in Western moonlight, and Stinson Drug Company Number 2 offers two distinctive items for Snyder's fashion parade. They are handwoven Tewa ties for men, and the new Western toned skyclean ringless Airmaid hosiery for women.

Three of these Western tones of Airmails have been selected by the local store as outstanding—cactus, a vivacious suntone in Airmails, is a sparkling complement to sport clothes; saddle, too, following the Western name theme, is an animated suntan for wear with pastels and vibrant hues so popular in choosing spring clothes; and stirrup, a distinctive light beige, is accepted for general wear with beiges, browns, red, muted purples, greens, grays and black.

Tewa ties, handwoven by the American Indians at Isleta, New Mexico, are shown at Stinson No. 2 in a wide range of colors. These crease-resisting ties are chosen by Snyder's smartest dressed men.

### MATCH THEM.

Accessories make the suit this season. A simple little navy or black tailored suit can be given a number of intriguing guises if you will invest in three or four pairs of suede gloves in the new bright shades, then match them with boutonnières. Go a step further and buy some veiling in matching hues to tie around the crown of your saucy new sailor.

Full of new old fashioned charm, their snug bodies slim your waist, their full skirts make your hips look inches smaller, declares Mrs. Gus McClinton of J. C. Penney's ready-to-wear department.

These new Easter dresses with their clean cut freshness so well suited to the modern-American woman are exemplified in our Glen Row models, Mrs. McClinton continues. ## Thousands of Boys Enjoy Magazine

Hundreds of thousands of boys and young men read The American Boy Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," writes one high school senior. "The American Boy seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in The American Boy."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in The American Boy Magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys clubs also recommend The American Boy enthusiastically. They have found that as a general rule regular readers of The American Boy advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce in The American Boy, the sort of reading matter boys like best.

The American Boy sells on most newsstands at 15c a copy. Subscription prices are \$1.50 for one year or \$3.00 for three years. Foreign rates 50c a year extra. To subscribe simply send your name, address and remittance direct to The American Boy, 7430 Second Blvd., Detroit, Michigan.

suits, underwear, ties, socks and shoes are in the new shipments of spring merchandise received by the local firm.

### FOURTH YEAR.

Mr. and Mrs. J. W. Leftwich have been reelected to teach at the Crowder School next year, their fourth at the school. Under their leadership good showing was made in the Interscholastic League this year. The school has entered the Abilene Reporter-News scrapbook contest this spring.

More than 55,000,000 barrels of beer and ale were brewed in the United States in 1937, according to preliminary reports of the U. S. Census Bureau.

Using sugar in cooking peas, turnips, cabbage and carrots is a flavor-improving that many housewives overlook. The best proportion is a teaspoonful of sugar to each three cups of water.

## 'HUSBAND' HAT STYLES GIVEN

A fashion designer in Hollywood has suggested a remedy for women who dress to please their husbands as well as their public. "Most of the trouble between husbands, hats and wives could be avoided if women bought hats to wear with their husbands and others to wear with them," she said.

"Husbands want definite things in their wives' hats. First—and most important—they like brims, because they make a flattering frame for the face. Next they want balance — design which makes a hat conform to the shape of the head and look as though it would stay there.

"Husbands are startled by unexpected angles around the wifely face—and they hate hats that look as though they might dive into the soup plate any moment. And last, husbands have pet colors—blue (it's beautiful), red (it has smile) and black (it's conservative). Mix all those qualities and you have a 'husband hat!'"

## COLOR CALL IS ISSUED TO MEN

New blues, greens, grays and tans that are so popular in men's suits this spring furnish local men the opportunity to come out in colors in the Easter parade as never before, according to officials at Graham & Martin Tailor Shop. We're featuring Hollywood drapes in their new styles that men and women like so well, they say.

Samples are handy to show the thrifty buyer for our new made-to-measure suits, and fine interest has already been shown in them. Good materials, expert needlework and outstanding values are the fundamentals on which Graham & Martin's suit business is built.

Famous Dri-Sheen method of dry cleaning used by the shop is sure to please the most fastidious customer on their finest clothing. If the new suit doesn't get here for the Easter parade, the local tailoring firm suggests that you men, and women, too, dress up in last year's after a trip through the Graham & Martin cleaning plant.

When the wire basket in which you rinse dishes becomes rusted, don't throw it away. A few coats of white enamel will not only make it serviceable again, but also actually add to its appearance.

One of the handiest new canned foods—believe it or not—potatoes. They come already boiled and ready to serve, put up in a light brine and selected for small size. When you're in a hurry, you can have them instantly available for use in potato salad, or can brown them in butter or heat and serve with your favorite sauce.

### IMPORTANT TO SOUTH.

The sweet potato is the most important vegetable crop to the South, according to R. E. Wright of the sweet potato investigation laboratory, operated by Uncle Sam at Gilmer. In Texas alone it has a farm value of three and one-half million dollars annually. "In relation to its importance," says Wright, "this crop has been badly neglected."

### MORE MILK PER COW.

The Texas Experiment Station dairy herd at College Station produced more than twice as much milk per cow in 1938 as it did in 1928. Three factors are responsible for the gain, according to O. C. ## LOOK LOVELY! URGES "BESS"

"We'll help you join the Easter parade looking your lovely best," reminds Mrs. Bess Fish, owner of Snyder's newest beauty shop, the Marinello, located in the old post office building. Mrs. Fish, Marie Pate and Ida Mae Baze give guaranteed, pleasing service, and they all endorse the shop's Marinello line of beauty preparations.

Using the Arna steamer, the shop offers the famed Parker Herber

scalp treatments with the special manipulations that induce complete relaxation. The Du-Art permanent wave insures lustrous, lasting curls and waves.

"With Marinello preparations we offer special facials for every type of skin, with 13 different treatments," said Mrs. Fish, "as well as hair cutting and styling and manicures. Easter hats require special hairdress or retouches on your old one. Let us help you."

After laundering washable gloves, stuff them with tissue paper while they are drying. This will preserve their shape and keep the color from running.

## Everything With Easter Newness Offered at Sears

Choose your flattering Easter costume from our parade of 1939 style hits for every size wearer in an exciting collection of dresses, hats and accessories selected for those who know the art of dressing, say salespeople at J. H. Sears & Company.

Sears' new shipment of Spring hats includes every type, gay with ribbons, flowers and veils or as plain as you might wish. Rough straws, felts and fabrics made into the most charming head adornments are there. Bags, gloves, pins, clips, belts, scarfs, corsages and lovely hand-made Rochester linen handkerchiefs will just match or properly contrast with the frock.

Larkwood hosiery at Sears includes the so popular mesh hose in the lasting linen weave and silk mesh, too, in addition to the regular clear spring tones in ringless sheer Larkwoods. Lorraine underthings are tailored to form perfect foundations for the Easter costume.

Correct and freshen your skin so that it will enhance the new wardrobe, suggests Mrs. Madge Sims, head of the Charles of the Ritz department. Charles of the Ritz beauty preparations glorify the natural skin. Powder is blended for the individual skin and new shades of make-up that so perfectly go with the difficult new colors are delightfully new.

While you are dressing up your family this spring, think of your house and give the windows fresh, new draperies, Sears suggests. We have crisp scrim for the cottage curtains and heavier materials for the more formal styles. A complete stock of ball fringe and other trimmings will make them lovely to look at and you delightful to know!

## NEW SUIT LINE IS A STANDOUT

"What Sonja Henie is on the ice rink, what Davey O'Brien is to football, what Freddie Wolcott is to hurdling, what Joe Di Maggio is to baseball—that's what our new line of suits is in its field, a standout in a class by itself," says Abe Rogers of Moffett & Rogers discussing styles or men.

A brilliant panorama of color, a pageant of bright new shades, and color is the keynote of the new 1939 Spring wardrobes for men. London drapes are our outstanding style note, he continues. If it's new, you'll find it here!

Feature fabrics are: Sport covers, fancy gabardines, new chalk stripes, stylish herringbones and colorful tropics. In colors it's among the following, the color you want for your new Spring suit: Robin's egg blues, burnt orange, rust browns, Niagara greens, briargate greens, cocoa browns, aurora blues, pastel shades, Arcadian greens and bluestone grays.

Up-to-date dry cleaning plant at Moffett & Rogers will take care of those old clothes of yours that need cleaning and re-conditioning, too, the allor men say.

## YOUTH LEADS, AGE FOLLOWS

With slip and swing, the young things of the town are making the style footsteps in which grown-ups are following in this fashion-upsetting Spring of 1939.

Adults to the left of them, adults to the right of them, and adults down the middle, all turning time backward in its flight to once again become young, the little girls themselves have done away from their sophistication to don baby bibs, frou frou blouses, giumpie frocks with soft white fronts, Peter Pan collars, lace-ruffled and flowers-wreathed little bonnets that set far back to show their curls.

Marching side by side in gay colors, mother and daughter may bear a charming similarity in the Easter parade of fashions Sunday morning of next week.

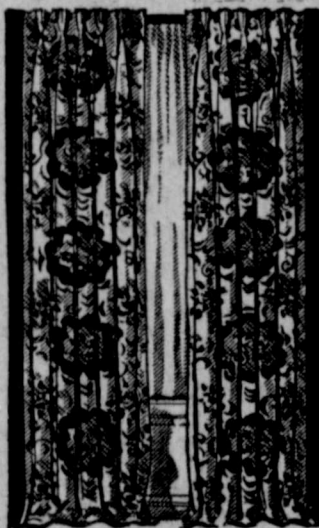

New swirly skirts, wide swinging pleated skirts, tight little waistlines and bright peeping petticoats, all, give definite figure lines to the smart little miss, are in favor at local Spring showings.

#### Enjoyable Party.

Women of Pyron Home Demonstration Club entertained their husbands and prospective members on Saturday night with an enjoyable party given in the school gymnasium. Mmes. Floyd Light and Boyd Moore were hostesses.

Tallies, score pads, table covers and prizes introduced an Easter motif as games of forty-two and Chinese checkers were played. P. A. Ammons won the high score for men, and Mrs. Grindstaf played high among the women.

The hostesses were assisted by Mmes. M. H. Greenwood and W. P. Tatum in passing delicious refreshments—sandwiches, potato chips, cookies and coffee—to 47 members and guests.

### STYLISTS SAY: BE GRACEFUL!

Stylists tell women of the world that grace is required for genuine beauty. And grace, they add, is that something which changes mere cold beauty into living loveliness.

The immortal Emerson has said, "Beauty without grace is like a hook without bait." We have well learned that the beauty of new clothes depends on the moulding of the body. We, too, are reminded that the body moulded by activity is as much superior to the one formed by diet as the bloom of health is preferable to the pale anemic.

Clothes models have the most graceful movements of any class of women, and their grace, although partly natural, is to a great extent acquired through practice. These girls urge women to acquire grace in walking, in standing, in sitting and in hand movements. Become grace conscious, they say, and the women of America will be classed as the most beautiful on earth.

#### Mrs. Simpson Hostess.

"Dresser scarf finished should not only be suitable for article and material, but should launder easily," Miss Rabel, home demonstration agent, told club members at a meeting of the Lloyd Mountain Home Demonstration Club Monday in the home of Mrs. Jack Simpson.

"Types of decorative stitches," Miss Rabel said, "are: Very narrow double hemstitching, Italian hemstitching, Bermuda fogotting, cross and simple embroidered designs, and a plain whipped hem as well as simple Swedish weaving."

The home demonstration agent gave a demonstration of Bermuda fogotting, after which Mrs. Simpson displayed recently made pieces of handwork material.

The Lamesa Dairy Day show Friday, April 14, was discussed at the meeting. Miss Rabel gave the ladies new "Starring Wholesome Milk on Texas Farms" pamphlets.

Mrs. Garrett Harrell and Mrs. Flint Simmons were club guests.

#### Kills Insects.

"Kill insects on all vegetables, before the insects injure the vegetables," said Mrs. Jim Sorrells in a garden demonstration of the Club. Meeting was held at the home of Mrs. B. Branson.

Helpful suggestions on how to rid vegetables of these insects were given by Mrs. Sorrells. One new member, Mrs. Huey, and 14 old members were present for the meeting. Next hostess will be Mrs. Riss Bishop, the meeting coming April 14.

Deaths from scarlet fever in the United States have decreased 81 per cent since 1900, according to U. S. Census reports.

Trouble with most of us is that we can't tell the difference between a great critic and a common scold.

Either be silent or speak words that are better than silence.—Pythagoras.

### Operator Thinks Short's the Word For This Easter

"Short is the word for Easter, speaking of the hair," says Mrs. Woodie Scarborough of Every Woman's Beauty Shop. "Outstanding stylists recommend short hair for spring, as a whim of the hat designers this season makes short hair imperative."

"And it goes without saying," Mrs. Scarborough continues, "that regular hair shaping services are also essential for short coiffures. The hair quickly loses its charm when unkept ends appear. Another factor contributing to the newness and chic of these Easter hairstyles is the predominance of waves this season. Waves aid in the creation of flattering contours and assure a trim line."

Gay Easter frocks and bonnets require the compliment of lovely skin, soft hands and new coiffures. Let us help you retain or gain the season's smartness, say Mrs. Scarborough and her two operators, Marie Duckett and Pauline Johnston.

#### Cottage Cheese.

Cottage cheese, milk and butter are among the dairy products Scurry County club women plan to exhibit at the Lamesa Dairy Day show at Lamesa Friday, April 14, according to reports this week from home demonstration clubs in the county.
