

Calvary Revival Starts Wednesday

Revival services will begin at the Calvary Baptist Church Wednesday night, April 14, to continue through Sunday night, April 18.

Rev. R. M. Parsley, pastor of the Cross Roads Baptist Church, will preach in these series of services. Bro. Parsley has endeared himself to the folk of this community in the brief months he has been here. He is a forceful speaker, consecrated to the God-called task of preaching the Gospel of the Lord Jesus Christ, and a lover of the souls of men.

James Carter, music director of the church, will be in charge of the singing, with Mrs. Grover Carter at the piano.

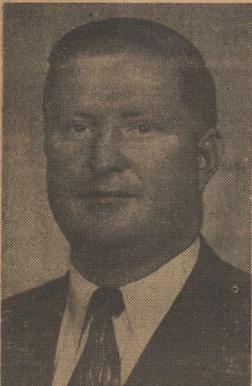

Prayer groups, for all ages, will meet at 7:15 each evening, preceding the preaching service, which begins at 7:30. With the exception of Sunday morning, there will be evening services only.

There are many lost folk in the Rotan area, and God is anxious to have them all come to know His only begotten Son, Jesus. The Holy Bible teaches us that "God willeth not the death of any, but that all should come to repentance." Surely this means All Christian people, won't you attend this revival and bring a lost loved one or friend with you?

Services for Sunday, April 11, are for you. Our Sunday school meets at 9:45, and there is a place for everyone. Morning worship service is at 11:00.

Training Union meets at 7:00, with the evening worship service at 8:00.

Neighbors and friends: The election is now over. The country is safe. And everybody winners and losers are on speaking terms and friendly basis. The people have spoken and their will must be respected. Our side, "the common people," put up a good fight, as St. Paul said: "I fought a good fight and kept the faith." Now we wish to offer our congratulations and very best wishes to the winners, and let's everyone forget what was said and done before election and walk as a team for better and cleaner Rotan, for better schools, churches and be real friendly neighbors, and let us pray for a good rain and health and a better city in which to live and a peaceful and good will among men, and God bless America.

Respectfully, Cecil Lotief, Mayor.

Guild To Meet

Mr. and Mrs. Coy Patton of Seminole, visited his mother, Mrs. J. W. Patton, Sunday.

Mr. and Mrs. Leonard Davis and Carilla of Sweetwater, visited Mr. and Mrs. D. A. Williamson Sunday.

In an all-time record vote for city elections in Rotan, C. E. Leon and O. B. Cave, incumbent city councilmen, were re-elected by a narrow margin Tuesday.

Final tabulations showed Cave led the ticket with 283 votes; Leon, 280; Clifton Thomas, 263; and M. F. Garland, 257.

The record vote was caused by a large number of persons over the poll tax age, 60 years, voting, and the 510 ballots were exhausted about 5:00 p.m. Voters kept coming and election-judge started typists making up make-shift ballots, and everyone getting inside the building before the 6:00 o'clock deadline was allowed to vote, even though the actual voting occurred after 6:00 p.m.

The heavy vote is a good indication of citizens being concerned in their government, and the same zeal should be carried in elections on all levels.

A joint meeting held Thursday night of the Fisher County Memorial Post 5072, VFW, and the Ladies Auxiliary featured installation of officers for the coming year. Past Commander Don Rollins opened the meeting with the salute to the colors and recognition of guests, then turned the meeting over to the Ladies Auxiliary. The following officers were installed by past-president Jessie Morrow.

The Commander of the Department of Texas, Juston Morrow, welcomed the new officers and stressed the importance of the VFW always contributing to the community. That community service was of first importance not only on the local level but also on the national VFW program.

Americanism, another facet of activities, is of value in both youth activities and patriotic service. The third point which the Department Commander asked for increased importance and Civil Defense. The example of the San Angelo Post was given when they played a leading part in restoring order after last year's tornado.

The state officers of the VFW are stressing Civil Defense organizations be sponsored by each Post throughout the state, so that, in case of need, the Post and community can function immediately. The Fisher County Civil Defense organization is headed by Judge Bruce McCain, who was present, and chairman W. F. Edwards, Jr. It is hoped that more detailed organization in Fisher County will be set up in the immediate future.

Fire Destroys Ferris Home

Fire originating in a closet destroyed the C. D. Ferris home in south Rotan at 10 o'clock Monday morning. The fire quickly swept through all the house and the contents were practically all a loss, as very little was saved, even though the local fire company responded promptly to the alarm. There was no insurance.

In addition to loss of household effects and clothing, the only money the family had was in a purse which the mother had placed in the kitchen, which was burned. The purse was recovered, charred so completely that only the serial number was decipherable on a \$20 bill, which it is believed can be redeemed.

Those of the family at home when the fire occurred were the mother, an 8-year-old boy and his twin sister, and an 18-year-old boy, and Mrs. Ferris' semi-invalid mother, Mrs. Mildred McAnally. Her crutch was burned in the fire.

There are several other children who were away from home, and the father and a son were in Ft. Worth, where they had gone seeking work.

Neighbors promptly began providing for the now destitute family. Rev. Carl Underhill, pastor of the Calvary Baptist Church, said his membership was starting a collection for the family, most of whom are members of that church. Mrs. Ferris is church custodian at a very small salary.

'As It Looks From Here'

Omar Burleson

In commenting upon the most recent explosion in the Pacific, President Eisenhower indicated that scientists produced much more than had expected. There was some indication that the experiment came very near getting out of hand.

In reading of this terrible weapon, and after seeing motion pictures of the bomb exploded several months ago in the same area, I thought of the momentous word, "If." There seems to be some doubt among the scientists about the limitations of the Hydrogen Bomb. One bomb can now destroy large cities. We know this from the results just experienced, but will it be developed to destroy with one explosion an entire continent? There are "ifs" in the minds of the scientists.

One of Rudyard Kipling's best known and often quoted poems might be called "— Then" The burden of its theme is: If you can practice this shining virtue and that, then you can do this and have this and be this. If you can — then the world is yours and all that's in it.

"If" is one of the shortest and biggest words in the Bible. It is written across every promise of spiritual guidance and enrichment. From Genesis to Revelations we are constantly assured that certain things will happen, sure as the rising sun, if — if — the conditions are fulfilled.

One of the greatest promises of the Holy Word starts with the word "if." Over-arching it is hope, glorious as a rainbow, but sounding in it is also a doleful solemnity, suggesting it was for whom the bells toll. "If My people which are called by My name shall seek My face, and pray, and turn from their wicked ways, then will I hear and forgive their sins and heal their land."

There are many "ifs" in the conditions in every-day life but perhaps there has never been one so great as that "if" connected with the fantastic developments of the H-Bomb which we have at the moment. The big question is how it will be used. We are always at the turning point and hanging in the balance in the kind of world we live in today.

If thermo-nuclear energy is dedicated to the benefits of mankind, it will revolutionize future life. If it is dedicated to war, all advanced civilizations could be destroyed in a short time.

Watching a great part of the Pacific Ocean rise up in a fascinating posture of fire, water and vaporized earth, as vari-colored as the imagination can conceive, I wondered at the fate of nations which might be the victim of this monstrous devastation. There was also a reminder of the smallness of man as compared to the things he has created but, even so, he is smaller compared to things eternal. Even a short time after the tremendous explosion, which ripped a hole in the bottom of the ocean big enough to hold fifteen buildings the size our Nation's capitol, the ocean rolled on, as it has always done, unperturbed by this thing of men tampering with its majesty for a little while and then going away—awed and scared as they should be.

The great hope is that the "ifs" may be resolved for peace and that we, as a nation of people, and peoples everywhere many continue to make a rational choice among the "ifs."

So, here is the one word which the world needs to heed in this crisis, more than any directive which can possibly come from legislative halls. Here is the signboard pointing the road to personal, national and international salvation, for it will lead the world to:

"Peace that came of purity,
And strength to simple justice due.
So runs our loyal dream of thee,
God of our fathers, make it true."

Betty Joe slipped silently away
 from us a few days ago, but her
 deeds, and the memories of her
 pure, and upright life will never die.

Her cherry smile, and understand-
 ing comradeship has always brought
 gladness to our hearts.

She scattered jewels of kindness,
 loyalty and unselfishness along our
 pathway.

And to you Carlton, Carla and
 Steve, I think she would say,
 You have always been

My counselor and friend,
 Always with patience

Your help you would lend,
 Always at hand,

When life's problems I met,
 Throughout all the world;

You are my best friends, yet,
 Always consistent, understanding

my mold.

Midst all of our sorrows, as true
 as pure gold.

Betty was a precious jewel which
 God loaned to us, until it was time
 to call her home, and her shining
 light will continue to guide us thru
 the years.

We feel the world is a better
 place, and we can live better lives,
 because she passed our way.
 Sunset and Evening Stars.

And one clear call for me,
 And may there be no moaning at

the bar.
 When I put out to sea.

A Friend.

What Farm Bureau Is Really For

Some confusion has arisen over the national farm program advocated by the Farm Bureau. This is to set the record straight.

Farm Bureau's proposed farm program does not mean that support prices will slide downward from 90 percent of parity. It does mean that farmers will continue to receive support prices at 90 percent of parity if production is kept in line with demand.

The Farm Bureau's proposed program is not intended as a stop-gap measure, but it is intended to solve the recurring problems of farm surpluses and unstable prices. It does not pretend to be perfect, and will undoubtedly be altered and improved in the future. What it does represent now is the majority opinion of more than 1 1-2 million Farm Bureau members in 48 states and Puerto Rico.

Farm Bureau is for full parity for farmers and ranchers.

Farm Bureau is for price supports for agriculture. (Farm Bureau led the fight for price supports in the first place.) Farm Bureau believes that 90 percent of parity prices (supported or free market) are inadequate for a standard of living on the farm equal to that enjoyed by other groups. Farm Bureau also is not in favor of price support system that would guarantee lower and lower support prices. Farm Bureau is for a price support system that will allow farmers to have 90 percent price supports (or higher) if production is kept in line with demand. Farm Bureau is not in favor of keeping production in line with demand through a permanent acreage control program administered by the govern-

ment. Farm Bureau is for a long-range, over-all program of action on a number of fronts — expanding foreign markets, liberal farm credit, price supports, more research — every thing fair and honest and feasible that will help secure a higher and higher standard of living on every farm and ranch in America.

**IMPORTANT CHANGES IN THE WRITING OF
WINDSTORM & EXTENDED COVERAGE
ON DWELLINGS AND STRUCTURES
HAVE BEEN AUTHORIZED BY THE
TEXAS INSURANCE DEPT.,
EFFECTIVE MARCH 25, 1954**

On September 1st., 1946 all insurance coverage on city dwellings and structures for windstorm and hail damage was subject to a mandatory application of the ONE HUNDRED DOLLAR DEDUCTIBLE CLAUSE. Several years later, a rate was offered for FULL COVERAGE for windstorm and hail losses, but the very high premium charge for the full coverage form was virtually prohibitive for the average buyer.

For several years the insurance agents of West Texas have worked for modification of the \$100.00 DEDUCTIBLE, and these agents are happy to announce the new ruling affecting windstorm and hail insurance coverage.

Effective March 25th., 1954, Windstorm and Hail Insurance on structures and dwellings can be written on a \$50.00 Deductible Form.

Coverage can still be written on the \$100.00 Deductible, and Full Coverage Forms, but after a careful consideration and study of the rates, and advantages of the various coverages, the undersigned agents all concur in recommending to their clients, the \$50.00 Deductible Form. Coverage on Farm & Ranch Property is not affected by this ruling as those classes now have the \$50.00 Deductible Form.

You are urged to contact your local agent for a complete discussion of the new coverage. Your inquiry will be welcomed on the discussion of this important change in property insurance, and on any of your property insurance problems

Six Inches of Top Soil

It has been said that "Civilization rests on six inches of top soil." This is not just a dramatic statement. It is a fact of nature. These six inches are all that stands between us and famine. Many conservationists believe that before this country was settled by whites the layer of top soil was nine inches thick. Three inches—one third of the original deposit—has been lost forever, through floods, winds, erosions and destructive forest and agricultural parasites.

er's and no one else's. A comparatively few years ago agriculture lacked the tools for effective soil conservation and improvement. Now it has those tools and they are marvelously swift, economical and efficient. The tractor and all the other machines that come from the farm equipment industry make relatively easy what would have been impossible in the past. We can, and must, save that six inches of topsoil on which civilization rests.

Here is why soil conservation is as important a need as this nation knows. The federal and local governments have naturally played an important role in the conservation movement. But the success or failure of the movement is determined at the level of the individual farm. Each acreage of farm or forest presents different problems. Each requires different treatment. The experts in and out of government can provide invaluable advice and other assistance—but they can't do the job that is the individual farm-own-
