

Rules And Regulations To Govern Muleshoe Fair In September Listed

Mr. Muleshoe

Ossie and Glenn Rocky: We got up at 4:30, drove to Lubbock in about 1 hour and 15 minutes, went aboard a plane at 6:20 and at 8:30 we were in Dallas. A fellow can do that, spend the day on business or shopping, then board a plane at 7 and be in Muleshoe by 10:30. Well, thanks, boys for this travel data. I know one thing—the road to Big D is a long and winding one when a person travels by auto.

And speaking of travel, a friend of mine gave a pretty apt answer when he was asked how far it is from his home town to Denver. "I don't know how far it is," he said, "but it was just all the train could do to make it in a day."

And still on the subject of travel vacations, note that Old Tack, in The Amarillo News, has copied after this column in reporting his current visit to Yellowstone. It is fair reading, but those who read my long dissertation a while back will be disappointed. When Papa and Mama Rocky get back from Alaska, I'm going to print an even longer travel story. Some here are just waiting to ask them some questions before they tee off for the Yukon themselves. My next trip, I hope, will be to the East Coast. I want to see Washington and make a report on it—no, one it seems to me, has ever had the hardihood to make a report on his visit to this place which was described during war time as a "madhouse run by its own inmates." But if any of you will give me the dope on your trip we will be mighty pleased to publish the same, because people sure do love to read travel stories.

This column failed to appear in our last issue and as a result things kind of got unattended to. We will straighten them out as we go along. Several said they failed to see it in the paper—no one said he missed it, however. I wouldn't go so far as to say that. It ain't much of a column, I admit, but it's the best one we got so far, and if anyone will write a better one, at the same price I get paid for doing this one, why let him get busy.

More Seen & Heard:
Miss Wealtha Johnson, Amarillo, my home town, is making great strides in attempting to provide wholesome recreation for its youth, and Muleshoe ought to make a move in this direction, and the paper ought to encourage it. I just think a whole lot of Amarillo's Youth Center, where there is a swimming pool and facilities for various games. It's all supervised and it's just fine. Understand, I still think that parents are the main ones concerned with the proper upbringing of their children—it's a responsibility that can never be placed anywhere else. But surely this Youth Center provides time-killing activities for the young that will help carry on the training the child gets in the home and school room.

Lazbuddy News

Mr. and Mrs. Joel Landrum, of Clifton, Ariz., were here over the weekend, visiting relatives and friends.

Rhine Steinbock, Rex Steinbock, Demp Foster, D. D. Suttler, who were at Delhart combining wheat, have returned home.

Mrs. Coy Eddleman, sister of Edd Clark, will return to her home at Newcastle, Texas, Thursday.

Mrs. Esther Galyean of Long Beach, Calif., is here visiting her brother, E. L. Clark and family.

Mr. and Mrs. Judd Clark had visitors from Salem, Ore., this week, the former Dolly Clark and her family.

Bailey County Conservation Ass'n. Authorized To Resume Its Operations

Over Three Million Paid Policyholders

The Bailey County Agricultural Conservation Association has received official instruction to resume 1947 Agricultural Conservation Program Operations, under existing regulations and procedures. County Associations were requested to stop operations last May 26, due to failure of Congress to provide the necessary funds for the operation of the program.

Now that we have been authorized to resume operations, farmers must be in mind that they must secure PRIOR WRITTEN APPROVAL for any Conservation Practice that they intend to carry out under the program, BEFORE THE PRACTICE IS STARTED, in order to be eligible to receive payment for carrying out the practice, at the local County ACA Office, along with other requirements that must be met, and must be secured BEFORE the practice is started.

Some of the practices for which approval can still be granted, providing the practice has not already been started are as follows: Construction of terraces, leveling land for irrigation, reorganization of a permanent farm irrigation system, drilling of wells for livestock water on range land, contour seeding drilled crops, leaving stubble on the land, establishing a permanent pasture of adapted pasture grasses, plowing fireguards on non-crop open range or pasture land, harvesting legume and grass seed, and application of phosphate to permanent pasture or legumes.

It is hoped that all farmers will give their fullest cooperation toward getting the program back to full and normal operation.

More than \$108,800.00 has been paid to policyholders or their beneficiaries by the Southwestern Life Insurance Company since 1903, the year the company began business in Texas. The figures were released by C. F. O'Donnell of Dallas, president in information received here today by the company's local representative, Marion F. Harris.

During the first five months of 1947, the Southwestern Life paid out \$3,362,900.49. Mr. O'Donnell announced. Of this amount, \$1,649,322 represented death claims, while payments to living policyholders in the form of matured endowments, and disability payments totalled \$983,857.43.

The part being played by Southwestern Life insurance in the economic security of Texans is to be found in these figures, it was pointed out by Mr. Harris.

Fleahoppers Now On The Hop In Bailey County

By J. K. ADAMS
County Agent

The Cotton Fleahopper famous for his ability to cut cotton yields without giving the farmer visible notice of being present, is on the hop in Bailey County. Both adult and nymph stages are sucking sap from forms and squares and causing undue amounts of shedding in some fields. The adult fleahopper is about one eighth of an inch long, pale greenish or grayish, thickly dotted above with brownish spots and with two pairs of characteristic black marks near the tip of each wing. The nymphs are green and wingless.

For low to medium infestations apply 12 to 18 pounds of sulphur per acre. The application of sulphur alone is only a third as costly as the use of DDT Sulphur mixtures, and is almost as effective against fleahoppers.

The use of DDT sulphur mixtures might be unnecessary on sulphur treated fields and would most certainly pay greater dividends used against the bollworm at a later date.

LAZBUDDY WSCS HAS ICE CREAM SUPPER

The Women's Society of Christian Service of Lazbuddy entertained their husbands with an ice cream supper Friday night at the home of Mrs. Charlie Gustin. All members and families were present, except one. All had a good time.

Texas Highway Dept. Reviews Its 30 Year History; More Roads In Prospect

Austin—Reviewing the activities of the Texas Highway Department now entering its 30th year as the state's roadbuilding agency, Commission Chairman John S. Redditt reported paved mileage on the state system had more than quadrupled since it was first accurately measured in 1929.

The endless struggle to build new roads as fast as traffic demand increased has shovelled the 1929 paved mileage of 6,061 up to 25,734 miles on July 1, with more being added every day.

"This still isn't enough," Redditt declared. "The blight of congestion and hazards to safety on many sections of these paved roads render them inadequate to handle traffic using them."

He expressed confidence that the Commission's recent expanded policy for building farm to market roads on a cooperative basis with counties, together with the current federal aid program, would result in substantial improvements to the state's farm transportation problem.

The total investment in the state road network stood at \$934,197,811.55 on July 1, Redditt announced. This includes all expenditures made under the supervision of the Texas Highway Department since it was created thirty years ago.

"It has been a good investment," he said. "I doubt if any similar expenditure of public funds has done so much good for so many people."

The Chairman paid tribute to the thousands of employees who had built the organization into one of the top road building agencies of the nation. "Of the 7,663 employees on the payroll today, 2,278 have been with us for ten years or more, while 100 have served the department 25 years or more. Only one has completed 30 years of service, but two others are approaching the 30 year mark."

The Scout Corner

The Scouts of Troop 20 went to Littlefield last Friday to practice for the District swimming meet at Lubbock, August 12. They were instructed by Homer Pierce, the Scoutmaster.

A Board of Review will be held Wednesday, July 30, for all Scouts who have completed a rank. This will be an examination for Court of Honor.

Again Friday the boys will go to Littlefield for practice. Much improvement has been made in starts and swimming style. The Boy Scouts would appreciate a big turnout at Lubbock for their try at first place on August 12. Let's all be there.

Watermelon Seed Removed From Lung Of Muleshoe Girl

Jeanette Jo Harrison, daughter of Mr. and Mrs. Walter Harrison of Route 2, Muleshoe, was rushed to the Northwest Texas Hospital from Springfield, Colo., to have a watermelon seed removed from the lower part of her right lung. She sucked the seed into her lung Tuesday evening while eating the melon.

Mr. Harrison returned Thursday to his combine in Springfield, while Mrs. Harrison, her daughter Jeanette and little son, Jerry, remained in Amarillo.

Shower Benefits Crops In Area

A heavy shower late Wednesday drenched a large part of the Muleshoe country, the precipitation in town being 1.27 inches.

The rain seemed to be lighter immediately west of town and heavier north, east and south of Muleshoe.

More than an inch fell at the R. C. Day place just north of Maple, Enochs and vicinity had a fine rain. Mr. Day said that the rain fell in about a uniform amount from Muleshoe to his place.

The rain dwindled down to a sprinkle just west of town but further north, in the neighborhood of the Burl Black farm it was said to be heavier. Owahoma Lane neighborhood had a nice rain it was said.

Many crops were benefitted by a shower which covered a large part of the Muleshoe territory last Thursday afternoon. The precipitation here was .60 in. R. J. Klump, weather recorder, said.

Fred Matney, west of town, and O. Q. Holley are reported to have had good rains. In some places in that community as much as 2 inches fell, it was said. The rain continued into New Mexico but was mostly lighter than that, running about like the fall here. Earth had around a half inch.

Feed and cotton crops mostly look good in the Muleshoe country. A good soaking rain falling now and generally over the territory would insure good crops this fall, unless the insects get them.

Muleshoe territory has just finished harvesting a fine wheat crop, and everyone is hoping for a repeat on the row crops.

NEEDMORE REBEKAHS HELD REGULAR MEETING

The Needmore Rebekahs met in the IOOF Hall, July 22 for their regular meeting.

Each officer present answered roll call with the duty of her office. Several of our new officers were not present. We missed you and we'll be looking for you next time. Remember next Tuesday night we're having a "Kid Party."

REV. BLAINE FOUND IT COOL IN CALIFORNIA

Rev. and Mrs. A. W. Blaine and children have returned from a two weeks visit in San Jose, Calif., with his mother and other relatives. Rev. Blaine, who is pastor of the First Baptist Church in Muleshoe, said that it was very cool during the time he was there, and that at one time he had to use his car heater.

Two Veterans Schools Opening

Two new Veterans Vocational Agriculture classes will start in Bailey County July 28, Kenneth Grissom, county veterans coordinator, announced. They will be open to all veterans who are farming and classes are not yet full.

He advised all veterans who are interested in attending to see Connie Guplin, county service officer, in Muleshoe, or James Lackey, at Three Way.

All veterans interested in the Three Way class should be at the first meeting, to be held Monday night, July 28, at 8:30 o'clock. The meeting will be held in Maple.

The second class in Muleshoe will meet Tuesday night, July 29, at 8:30. The meeting will be held in the agriculture room in the high school building. Mr. Grissom urged the veterans to be there and bring a veteran with them.

"If you are planning to enroll in either of these classes be sure and bring a copy of your service discharge and, if married, your marriage certificate," Grissom said. "If you are interested in going to school be sure and attend the class you intend to enroll in."

Consolidation Vote Set For August 6

Progress and Muleshoe districts will vote for the third time on the question of consolidating the two school districts. The election has been set for Wednesday, August 6 and the people of both districts are urged to vote so a full expression of their desires may be recorded.

The local club now has 50 members, most of whom own horses and take part in the roping. Twenty-two calves are owned by the club, which also owns its equipment, chutes, pens, etc., and has leased a part of the T. M. Cox place, near the city water wells.

Other events are planned for the pleasure of the public here, come back here for emphysema matches with Muleshoe boys and there will be no admission for this event. The boys practice often, especially Sunday afternoon, and are pleased to have the public watch.

Progress Baptists To Hold Revival

There will be a revival held at Progress Baptist Church beginning Friday night, July 25, with Rev. H. N. Estee doing the preaching. It will continue through Sunday, August 3.

The choir will be led by George Hicks during the revival meeting.

Littlefield Looks For Big Crowd At Rodeo This Week

Littlefield—The largest crowds in Littlefield's history are expected to pack the Jaycee arena here for the colorful four-show rodeo opening Friday night and continuing through Sunday afternoon, July 25-27.

Stock from the famous Autry & Colburn ranch at Dublin is already arriving and a record number of cowboy competitors have sent in entrance fees. They will compete for prize money totaling \$2,000.

A mile-long parade Friday morning at 10 o'clock, featuring hundreds of mounted cowboys and cowgirls and scores of gaily-decorated floats, will open rodeo festivities.

Three big western dances are scheduled—Thursday, Friday and Saturday nights, staged on the rodeo grounds.

Another feature of the annual Jaycee show will be the cowgirl sponsor contest Saturday night. Contest entries have been received from a number of West Texas towns.

Some of the saltiest stock to be seen in a West Texas arena this summer will thrill rodeo fans at each of the four shows. The rodeo, each of the four shows. The rodeo approved by the Rodeo Cowboys association, will be personally directed by Howard Brown, for five years superintendent of the Gene Autry World's Championship association.

Mrs. L. S. Barron and son, Mike, have gone to Dallas to visit for several weeks.

4-H Club Girls Of Bailey County Held Dress Revue

4-H Club girls of Bailey County held a Dress Revue in the district court room Saturday, July 12, at 3 p.m. There were three divisions in the revue: Group I, cotton dresses suitable for school or sport with accessories; Group II, cotton, linen, rayon, silk and other dress materials suitable for school, sport, street, with accessories; Group III, Wool and part wool suits and dresses suitable for school, street, dress or sport, with accessories.

First and second place winners of each group respectively were:

Group I.
First—Jon Ann Thomson, Second—Mary Ellen Wingo.

Group II.
First—Ruby Jane Carney, Second—Marie Knowlton.

Group III.
First—Peggy June Cummins, Second—Waneen Bellar.

Judges were Mrs. Ernest Holland, Mrs. Tom Zimmer and Mrs. S. C. Caldwell.

BAILEYBORO BAPTISTS INVITE LOCAL PEOPLE

We want to invite everybody of each and every Sunday church services and Sunday School starting at 10 a.m. and 8:30 p.m. want to truly invite you to come and bring your children. If you can't come, send your kiddies for it takes the children to build a fine church. If you come you will always come back, after hearing the fine messages that are brought each and every Sunday. The Baileyboro church invites you.—Correspondent.

New Ford Tractor

DETROIT—Good news for the nation's farmers as the new Ford tractor rolls off the production lines of Ford's Highland Park plant at the rate of 400 daily. Features include an improved hydraulic system for implement control and four forward speeds. With the new line of Dearborn farm equipment, the Ford tractor is marketed nationally by Dearborn Motors Corporation. Michigan farmerette Gloria Carlson tries out the new tractor at Dearborn Motors' experimental farm, Clarkson, Michigan.

New Ford Tractor Introduced

O'Neil Rocky of the Rocky Tractor Co., local dealer for Ford tractors, has just returned from Dallas, where he attended the one-day sales conference of Ford tractor dealers of Texas, at which the new Ford tractor was introduced.

The new Ford tractor features an improved hydraulic system permitting operation of tractor and implement as a single unit with automatic hydraulic control of the equipment, Rocky said. Other major improvements include an automatic-type steering gear, a fourth forward speed to give a wider range of working speeds, a new drawbar height control mechanism, combination running boards and step-

plates, seat that can be tilted back, and a hinged radiator grill for easy cleaning of radiator core.

While major improvements have been made in the tractor itself, farm implements now in use with Ford tractors will operate with the new model 8N Ford tractor, Mr. Rocky pointed out.

Merritt D. Hill, Dearborn, Mich. general sales manager, Dearborn Motors Corporation, the national marketing organization for Ford tractors, told the dealers that production of the new tractor was going forward at the Highland Park plant of the Ford Motor Company and that approximately 50,000 units would be marketed during the latter part of 1947.

Mr. and Mrs. Clarence Gols of Maudie Kelton, Mildred Elliott and Martha Roberts were visitors from Clovis Monday evening.

From where I sit... by Joe Marsh

Sam Helps with the Dishwashing

Dropped in at the Abernathy's just the other evening—and there was Sam, out in the kitchen with an apron on, helping his missus wash the supper dishes. (And then I learned later he'd helped cook the supper, too.)

Of course, Sam could have settled into his favorite chair, enjoyed his evening glass of beer, and left all the messy kitchenwork to Dixie. But he kind of likes her company—and she in turn certainly appreciates his help.

In fact, sharing the household

and the mealtime chores is sort of a bond between them... like sharing that friendly glass of beer together, when the work is done. It's one of those little all-important things in marriage.

From where I sit, the time that a man and wife can spend with each other in this busy world today is all too precious. And the more things they can do together, the better.

Joe Marsh

BLACKWATER VALLEY SOIL CONSERVATION DISTRICT NEWS

Stubble left on the land now is insurance for future crops. Don't risk the loss of this security thru fire.

Soil Conservation Service technicians rendered technical assistance in establishing improved methods of irrigation to the following: Lonnie Arnold, Raymond Houston, tenant of Mrs. J. W. Gregory, B. F. Smith, C. E. Roark, tenant of B. G. Young, F. Heathington, and J. E. Mills.

Observe National Farm Safety Week, July 20 - 26, 1947.

Dysentery May Be Spread By Flies

Austin—This is the season when dysentery, diarrhea, and "summer complaint" are most prevalent in Texas, and Dr. Geo. W. Cox, State Health Officer, has issued a warning to parents of young children regarding the prevention of these diseases.

The chief causes of these intestinal diseases are impure milk

water and food; allowing a child to become overheated; using too much sugar and cream in the diet;

Some amazing things come out of the magic bag, but nine-year-old Nancy Scott of Alford, and Sammy Owens, 10, Lamesa, both polio patients at the Scottish Rite Hospital for Crippled Children in Dallas, want Bob White to tell them "how." Mr. White, a Shriner and amateur magician, entertained the children at a lawn party sponsored by the Ladies Auxiliary of the Scottish Rite recently.

Rocky Mountain Fever Now Found Throughout Country

Rocky Mountain spotted fever, a tickborne disease, which is often severe and sometimes fatal, is geographically scattered over 47 states.

Writing in the Journal of the American Medical Association, Dr. Samuel F. Ravenel of Greensboro, N. C., suggests that treatment with para-aminobenzoic acid, one of the vitamin B complex group will eliminate practically all deaths from this fearful disease.

Treatment of five patients with this drug, in combination with standard methods, produced "rapid" and "brilliant" results, states the author.

The rickettsias, bacteria-like parasites, responsible for this disease do not respond to sulfonamide compounds. The author states that they are not only useless but probably harmful in treatment of this disease. Moreover, he adds, "although rickettsias are reported to be sensitive to penicillin, this agent has proved useless in treatment of Rocky Mountain spotted fever."

Reviewing the status of the disease today, the author states: "The name Rocky Mountain spotted fever is now obviously geographically incorrect, since this disease has been found in 47 of the 48 states. Ten years ago 70 per cent of the cases occurred in the Mountain and Pacific states, while 87 per cent were reported from the Central and Eastern states in 1945. Its incidence and importance to public health in the United States are shown by the occurrence of 400 to 500 cases with 90 to 137 deaths each year during the past decade."

"Gold doesn't mean anything to me, I'm looking for Phillips 66 Motor Oil"

PROVED BY 64 BILLION MILES OF SATISFACTORY SERVICE

Evans Oil Company DISTRIBUTORS Muleshoe Texas

and under or over-feeding." Dr. Cox said. "All foods should be fresh and clean, and leftovers should be properly refrigerated to prevent spoilage."

Dr. Cox said definitely that when a feeding formula for infants is used, it should be prescribed by a physician and then prepared with extreme care, especially in regard to cleanliness and refrigeration. Babies should be fed at regular intervals and on a definite schedule. Their stomach and bowels can become easily upset if they are fed haphazardly whenever they happen to be fretful or restless.

The State Health Officer declared that with dysentery, as with many other diseases, the fly is an agent of transmission and every home should be well screened and free of flies.

"If diarrhea or dysentery develops, consult a physician at once," Dr. Cox advised. "This so-called 'summer complaint' can become a serious menace to your baby's health, if not an actual threat to his life."

Mr. and Mrs. W. C. Cox of Monday and niece, Kay Spivey of Winnboro, were week end visitors in Muleshoe. Mrs. Spivey and Vic returned with them. They will all visit in Winnboro this week.

Your CHEVROLET Deserves the Best! Genuine Chevrolet Parts Are Factory-Engineered for Fit and Performance

Chevrolet owners do right by their cars and trucks when they insist on having none but genuine Chevrolet parts for repairs and replacements—because these parts are built to the same exact specifications and of the same high-quality materials as the original production parts. All the advantages of vast quantity production—high quality at lowered costs, constant testing and vigilant inspection—that make Chevrolet vehicles the leaders in their fields, are shared by individual parts sold for replacements.

VALVES—for example Chevrolet can afford to use costlier materials and processes—and does. For one example, consider the exhaust valves—produced by the extrusion process, of chrome-nickel-silicon steel, with seats and stems ground in accurate alignment. These extruded valves are distinguished for their toughness and superior heat-dissipating ability.

MR. AND MRS. EDD CLARK GIVEN WEDDING SHOWER

Mrs. Willie Steinbock's home was the scene for a wedding shower Wednesday afternoon honoring Mr. and Mrs. Edd Clark.

Several games were played after which the new bride was presented many lovely gifts.

Refreshments of chicken sandwiches, punch, cake and ice cream were served to the following:

Mrs. C. A. Adams, Earl Jeter, L. B. Wood, Guy Carpenter, Mrs. W. O. Burford, Judd Clark, Rhiney Steinbock, Ed Steinbock, Alma Steinbock, C. C. Matthews, E. L. Clark, Mrs. Coy Eddleman, Newcastle, Texas, and Mrs. Esther Galvan, Long Beach.

Mrs. Bessie Clark, Anita Clark, Levina Clark, Anita Steinbock, Sylvia Steinbock, Charlene Bass, Mrs. Jack Smith, Mrs. Jack Smith, Mrs. R. C. Smith, Mrs. L. Clark, Laverne Roberts, Rex and Max Steinbock, and the bride's mother, Mrs. Henry Bass.

Those sending gifts were Mrs. John Gammon, Mrs. Eulan Parham, Mrs. Nelse McCurdy, Mrs. Stubblefield, Mrs. Clayton Graef, Henry and Jimmy Ivy.

Enochs HD Club

The Enochs HD Club met Thursday evening, July 10, in the home of Mrs. A. C. Archer.

The house was called to order by Mrs. R. P. McCall, vice president.

Plans were discussed for an entertainment in August.

Thirty-five cents was collected from tardy members.

The sheeting which was purchased by the marketing committee, was distributed to members who placed their order two weeks before.

The grab box brought \$4.00. There will not be a grab box in August.

There were 13 members and three new members present.

News Briefs

Mr. and Mrs. A. L. Davis will go to Mineral Wells the latter part of this week for a stay of several days.

Mrs. J. W. Edwards and daughter Mary Lou of Fort Worth arrived Sunday for a visit in the home of her sister, Mrs. J. L. Alsop and family.

Mr. and Mrs. Pat Barnett of Balyleboro had as their guests Sunday Mr. and Mrs. A. E. Newton and daughters, Melba Lois and Leta Frances of Lubbock.

Misses Florence Mae and Ann Martin spent Sunday with the Barnett Brothers, Kalle Jo and Bill. All reported a very nice time, with a lovely dinner and enjoyable day.

Mrs. Nute Burris and children of Clovis, New Mexico, visited in the home of her father, O. N. Long of Needmore Sunday. Mr. Long is still showing some improvement. We all hope to see him up and getting about soon. The old saying is that you can't keep a good man down.

Mr. and Mrs. Wes Long and little daughter, La Rue of Bula, visited his father, O. M. Long Saturday and Sunday.

Mr. and Mrs. W. Bowen have returned from Mena, Ark., where they were called because of the illness of his brother, W. L. Bowen. They had scarcely returned when Mrs. Bowen had to go to Roscoe to be with a sister, Mrs. W. D. Isabelle, who underwent surgery.

Each week I used to get the face holding my breath waiting to see how our lovely washing present "washables" would in the wash. Too often for comfort there were faded colors, pop-seams, and sad little shrunk things. It wasn't that our friends weren't generous in their choice of presents. The whole problem lay in the not-too-funny-for-the-bride riddle: when is a washable material really washable?

Pardon this bride while she just says her halo. I found the answer.

Any material will come up smiling after a rub-down if it boasts the seal granted by the American Institute of Laundering, "Certified Washable."

Frankly, the credit for my big discovery goes to my laundry man. He's the one who told me all about the "laundry tested" seal. I'll admit I gave a lady-like snort at first, that was before I learned just what the seal means.

When the label is issued by the Institute to any merchandise, the material has gone through a series of exacting tests. There are rigid standards set up concerning quality, color fastness, shrinkage, construction strength and "laundryability." Test fabrics undergo actual washings at the non-profit Institute's research center.

Just as a single sample of the precise analysis, take the question of color fading. Colored material is exposed to the equivalent of 20 hours of direct sunlight at noon in June. If after that grueling test there is even a slight loss of color the material is rejected—no seal.

There are really three purposes of the label. First, to encourage the manufacture of really washable materials. Second, to guide you and me to wise, economical buying. And third, to give laundries a chance to provide satisfactory service.

When all those things can be had simply by watching for the Institute's seal, "Certified Washable," believe me, I'll be on the lookout from now on!

Please call in your news or send it in. Phone 54—The Journal.

MR. AND MRS. SPENCER BEAVERS

Mrs. Phyllis Border And Mr. Spencer Beavers United In Ceremony June 21

Mrs. Phyllis Border, daughter of Mr. and Mrs. C. E. Layne, and Mr. Spencer Beavers, son of Mr. and Mrs. Clay Beavers, were married June 21, in Yuma, Ariz.

The ceremony was performed in the well known "Yuma's Wedding Chapel on Cupid's Corner," where so many of Hollywood's celebrities have been married in the past.

The chapel consists of one spacious room furnished in western style, decorated with potted palms and cut flowers. This room is surrounded by several dressing and reception rooms.

Mr. and Mrs. Ralph Border of Lawndale, Calif., stood as best man and matron of honor, as vows were pledged before a huge fireplace banked with flowers.

The bride wore an aqua blue suit with white accessories. The bride had been visiting in Los Angeles with relatives and friends for several weeks when the groom arrived for the wedding.

The wedding trip included a tour of Southern California with a visit to the race track and Earl Carroll's Queen for a Day program.

They will make their home in Muleshoe.

Show Given For Newlywed Couple

A shower was given for Mr. and Mrs. Spencer Beavers Thursday evening, July 17, in the home of Mr. and Mrs. Walter Witte.

Mrs. W. B. McAdams presided at the bride's book while the guests registered. Mrs. W. E. Laseter of Amarillo, sister of Mr. Clay Beavers, was an out of town guest.

Glenn Rockey played "Always" as the bride and groom entered. Entering the room, a corsage of white carnations was pinned on the bride and a boutonniere on the groom, compliments of Mrs. Henie Long.

The couple was escorted to the traditional "Wishing Well," which was packed to overflowing with beautiful gifts. After the gifts were opened and viewed by the guests, the couple was asked to make their wishes. The bride wished that life would always bring as much happiness to the guests as their gifts had brought to her. The groom expressed the wish that the guests would assist him in carrying

Mr. and Mrs. R. A. Cross and son Davis Dyer of Post were visitors Sunday in the home of Mr. and Mrs. Howard Cox.

Mr. and Mrs. C. E. Connor, parents of A. E. Scarbrough, moved to Anton, Monday of this week to make their home.

Clifford Brandon of Sudan has been employed by the Johnson-Pool Service Station and will move his family here soon.

Mr. and Mrs. Houston Hart left Sunday for a vacation in Red River.

Mr. and Mrs. Glenn McClain and children of Wichita Falls were visitors Thursday in the home of his sister Mrs. H. D. King and family.

Mr. and Mrs. E. S. Evans and children, of Taft, Calif., came in Friday to visit with her brother, E. W. Evans and family.

Mr. and Mrs. V. A. Glass, Marlowe, Okla., were visitors here last Thursday with Mr. and Mrs. Joe Damron.

The Bill Collins family have as guests this week his mother, Mrs. M. F. Collins and his sisters, Bessie Collins and Mrs. Frank Ray, all of Marlowe, Okla.

Ice Box Holds Sutz With Fruit Punch Handy

You can be sure that the refrigerator and cookie jar will get raided often if you keep frosty fruit punch and crunchy cookies on tap, according to the Country Cooking editor of nationally-circulated *Capper's Farmer*.

Here is her recipe for a tangy, thirst-quenching fruit punch:

MINTED ADE
 1/2 c. light corn sirup
 1/2 c. water
 6 stalks fresh mint
 2 tbsp. lemon juice
 2 1/2 c. grapefruit juice
 2 c. ginger ale

Boil corn sirup and water together for three minutes. Remove tips from mint stalks and crush the stalks in the hot sirup. Add tips and let stand for 30 minutes; strain. Add lemon juice and grapefruit juice; chill thoroughly. Pour over ice in tall glasses. Add ginger ale just before serving. Garnish with mint. Serves six.

Storage Available
Or We Would Like to Buy Your Wheat

We are glad to announce that in the last few days we have completed another section of our elevator and storage plant in Muleshoe and can offer additional storage space to the wheat growers of this area.

We regret that we were unable to complete this plant by the time harvest started—but we are glad that a part was ready to help relieve the storage situation. At the same time we wish to thank our customers for their understanding of the situation. Of course the entire plant will be ready to help in handling the grain sorghum crops this fall.

Panhandle Wheat Farmers Are Using Army Centers For Storing Grain

College Station—Wheat storage troubles in the Texas Panhandle are being temporarily remedied as the War Assets Administration is making unused hangars, warehouses and ammunition igloos available to wheat farmers to be used as grain storage space.

Grain which would have gone on the ground as a result of the transportation tie-up is already being stored in warehouses and hangars at inactivated airfields near Pampa, Dalhart and Hereford. Ammunition igloos at the Panhandle Ordnance Plant, near Amarillo, are also receiving the surplus wheat.

Knox Parr, district agent of the Texas A & M College Extension Service, who, with other Extension workers, cooperated in making initial contacts with the War Assets Administration and in investigating and appraising the storage facilities, estimates that there is approximately a two million bushel storage capacity in surplus military equipment in the Panhandle that might be made available to wheat farmers.

The igloos, says Parr, make ideal grain storage for the individual farmer. Each building will hold from five to twelve thousand bushels of wheat, and are suitable for permanent storage of wheat. The hangars and warehouses, taking care of from 100 to 250 thousand bushels of grain, make good temporary storage while the farmers wait for the box car tie-up to break loose.

War Assets has agreed to deal with any responsible group—such as farmers cooperatives or grain elevators, in leasing the space. Farmers are paying one cent per square foot per month to store grain, and are getting the space through cooperatives who deal directly with War Assets. The only disadvantage to the plan, the district agent explains, is the extra cost of handling grain, to and from the army centers. That cost is offset to a great extent, however, by the small storage charge. The big advantage: safe storage, on a semi-permanent basis.

The St. Francis Farmers' Union Cooperative Association was first to start the ball rolling when they made arrangements with War Assets to lease ten or more of the igloos at Pantex.

Parr says that a big share of the credit for starting the storage movement must go to various Panhandle city chambers of commerce. He also explains that the valuable feature of the program is that War Assets, the Extension Service and the other cooperating agencies joined in to act quickly and obtain places to house grain that otherwise might ruin on the ground. Still, there are million of bushels of wheat not in storage.

SOCIAL SECURITY MAN TO BE IN MULESHOE 31st

Elliott W. Adams, manager of the Lubbock office of the Social Security Administration, will be in Muleshoe at the U. S. Post Office

at 9:00 a.m., Thursday, July 31, to give persons of this area an opportunity to file benefit claims, obtain new and duplicate social security cards, and make inquiries concerning the old-age and survivors insurance program.

Federal family insurance, which covers employees in industry and commerce, provides for the payment of monthly retirement and survivors' benefits to qualified

workers and their families. Retirement benefits are payable to the employee and eligible members of his family when the worker reaches 65 and retires. Survivors' benefits are payable to eligible members of the insured person's family on his death at any age. Applications must be filed with the Social Security Administration for all benefits paid under the program.

Mr. and Mrs. Cecil Spence and small daughter, Karon, of Inyokern, Calif., are here for a visit with their parents, Mr. and Mrs. R. G. Spence and Mr. and Mrs. M. E. Finley. Mr. Spence is with the Naval Ordnance Test Station.

Mrs. Buck Ragsdale and Jessell Twilligear visited in Floydada with Mrs. Ragsdale's parents, Mr. and Mrs. R. C. Ross, Tuesday and Wednesday.

Please watch out for engineers' stakes along farm to market roads.

KITCHEN MEMO BY JEAN CLARKE

Broiled cake topping is easy to make if you start with a cooled baked cake all ready in its pan. Mix together 5 tbs. brown sugar, 2 tbs. cream, 5 tbs. melted butter, 1/2 cup chopped nuts and a 1/2 cup shredded coconut and spread over the top of the cake. Then set the cake pan on top of the broiler grid about 3" from the tip of the broiler flame. Broil slowly until the cake topping is toasty brown. Remove from the broiler, cool and cut cake in pan, removing slices with a spatula.

Bacon curls for a canape dish—with a toothpick stuck through the folds, or as main dish trimming, are easily curled if the bacon slices are put on the broiler grid about 4" from the gas flame and broiled slowly until almost crisp. While the bacon is still pliable whirl slices around the tines of a fork and broil until quite crisp. Drain grease on absorbent paper.

To make neat-edged butter slices for the table, wrap the slicing edge of the cutting knife in wax paper.

Summer heat calls for cool salads and lots of variety in them. New idea for dressing is mayonnaise with raisins and crushed peanuts added to pour over a fruit salad—especially delicious over bananas.

Here Is An Economical Way

To avoid expensive engine repairs, and give your Plymouth, Dodge or Dodge Truck new, more powerful performance. Have a brand new engine installed. Each new engine is engineered and built by the Chrysler Corporation. They're brand new, not rebuilt. Each one is assembled and block tested at the factory. And each has new precision-made parts that are factory engineered and inspected. Why not visit us and find out about the low installed price of a brand new engine in your Plymouth, Dodge or Dodge Truck.

Farm Notes

SEVEN ACRES, PLUS WATER, EQUALS 560 ACRES
 College Station—Fred Kveton has come up with a pasture-producing formula that turned seven acres of grazing land into 560 acres.
 Here it is: seven acres, plus mixed grasses, plus irrigation, equals 560 acres.
 Kveton, who farms near Abernathy, believes that following his formula is a good way to stay in the cattle business, in spite of dry years, reports D. W. Sherrill, Lubbock County agricultural agent.
 Kveton began working on the plan last September when he planted seven acres of pasture grasses, in cooperation with the Soil Conservation Service, PMA, and the Texas A. and M. College Extension Service. The mixture he planted was made up of 10 pounds of bromegrass, five pounds of crested wheat, five pounds of orchard grass and two pounds of alfalfa. He irrigated the seven acres every 15 days.
 Since last April, reports County Agent Sherrill, 28 head of cattle have grazed the seven acres, with no feed on the side. Recently Kveton took the cows off and cut 3 tons of hay off the small field.
 How does Kveton get the 560 acres? It's just that he believes it would take 560 acres of native, dry-land grass in his section of the county to support those 28 head of cattle.

SNOODLES

By Cy Hungerford

THANKS FROM PHILIPPINES

College Station—Texas farm women have received word of thanks from Luzon for canned goods which they donated through the U. S. Philippine War Relief.
 Gratitude for 12 cases of assorted canned foods was expressed in a letter from Leandro V. Uyguanco, medical officer in charge of the Central Luzon Leprosarium, where the food was received and used by the leper patients in that institution.
 Maurine Hearn, vice director for women and state home demonstration agent of the Texas A. and M. College Extension Service, who received the letter, said that much food has been contributed by Texas rural women through War Relief.
 "In the name of the lepers of this institution, I wish to express our most sincere gratitude and thanks,"

Uyguanco stated in the letter. That gratitude and thanks, said Miss Hearn, goes directly to the farm women who contributed war relief food.

CAUTIONS ON 2-4-D USE

Lubbock—Farmers who are riding pastures of weeds by spraying with 2-4-D compounds should exercise care in preventing the poison from drifting onto fields of the broad leaved crops such as cotton, alfalfa and clover, according to Dr. A. W. Young, head of the plant industry department at Texas Tech-

nological College.
 Work at the college shows that 2-4-D drift from a power sprayer operated near the ground during a 15 mile per hour breeze had a noticeable effect on cotton as far away as 800 feet. Farmers should watch the direction and velocity of wind while spraying and not spray if there is any question of the compound's injuring crops.

DAUGHTERS OF RUTH CLASS HELD PICNIC

Rain or no rain, the Daughters of Ruth Class of the First Baptist

Church of Muleshoe went on a picnic last Thursday evening at the Roadside park because the rain had prevented their playing in the sand at the sandhills as they had planned. A wonderful time is reported.

Those present were: Anne Elliott, Barbara Bowers, Patsy Lane, Shirley Evans, Mona Wilhite, Joyce Collins, Mrs. Wilhite and five visitors, Helen Lambert, Dot Hayes, Mrs. Hogan, Myra Haun, and Mrs. Miller, mother of Mrs. Wilhite. cmfwy

O. E. LUMSDEN IS ON NORTH TEXAS HONOR ROLL

Denton.—O. E. Lumsden, senior student from Muleshoe, is among 441 upperclassmen named this week to the dean's honor list for the summer semester at North Texas State College.

Inclusion on the honor roll indicates the student made an average grade of B, and no grade lower than C.

Chicken Feed

"Folding Money" NOW

Poultry raising in our area has come a long way since Mother kept a few chickens for egg money and Sunday dinners.

Today there's a lot of good "folding money" in scientific poultry raising. It's not "chicken feed" any more, for more folks than ever before are making big money in the poultry business in the Panhandle-Plains-Pecos Valley Area.

We have so much confidence in the poultry industry—and all other industries we serve, that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to industry and farms and better living—electrically—to everyone.

New Cotton Poisons Are Believed Effective In Controlling Insects

They're still in the experimental stage, not on the market in commercial lots, and much research remains to be done—but USDA scientists believe they may have something in two new insecticides for the control of cotton insects. The are benzene hexachloride and chlorinated camphene. Results to date indicate that these organic chemicals may be much more effective than any of

the standard dusts now in use. A mixture of benzene hexachloride which contains 5 per cent of what is known as

THE Family Group HOSPITALIZATION

THIS PLAN WILL SAVE YOU MONEY whenever you or some member of your family gets sick and has to go to the hospital. The Great American Reserve will pay your hospital, doctor, nurse and other illness bills for you through their Hospitalization and Medical Care Plan—the Plan which has been approved by physicians, hospitals and leading businessmen. You and your entire family are protected against the worry of expensive bills for sickness and accidents. Talk it over with

By Berry
 Howdy Folks: Did you hear about the man who stayed up all night trying to figure out where the sun went when it went down? Finally it dawned on him.

In spite of all claims to the contrary, old Sol is still the oldest settler in the west.

As Confucius say, he who rises early with the sun shouldn't stay up late with the daughter.

We heard about a little boy on the other side of town who got a sun tan in school. He got so mischevious, the teacher had to tan his hide.

But the sad case was the wife who couldn't get a sun tan at the seashore last summer because her husband had her shadowed.

Summer time or winter, you'll find that our O'Keefe & Merritt Gas & Butane Ranges are a mighty good buy.

"gamma isomer" has proved deadly to the boll weevil and cotton aphid, but not the bollworm. This is just the opposite of DDT, which takes care of the bollworm but not the aphid or weevil.

The camphene compound apparently controls all of the common cotton insects.

The USDA Bureau of Entomology

and Plant Quarantine, the Texas A. & M. College Agricultural Experiment Station and other state experiment stations have been testing the products under field conditions.

One mixture which made a good showing in tests last year near Waco and College Station consisted of 3 per cent LLT, 3 per cent of the gamma isomer of benzene hexachlo-
