

# HALL OF REMARKS

BY HERREL HALLMARK

AN ENGAGEMENT printed in last Sunday's edition of The Press gave the wrong last name of the girl in the picture. Her name should have been Virginia Gall Slaughter, but it was listed as Ballard.

We are sorry for this error, but the name on the back of the picture turned in with the engagement listed her name as Ballard.

Miss Ballard is to marry Jerry Wayne Thompson July 9 in White Settlement.

She is the granddaughter of Mr. and Mrs. E.H. Winge and Mr. and Mrs. W.H. Cooper, all of Cisco.

IF YOU MISSED last Sunday night's showing of God's Prison Gang at the Redeemer Lutheran Church in Cisco, then make plans now to attend the same film this Sunday at the First Evangelical Methodist Church in Cisco. The film is set to begin at 7:00 p.m.

PLANS ARE PRETTY finalized for the upcoming Fourth of July celebration scheduled for Cisco City Park Monday. A complete schedule may be found elsewhere in this edition of The Press.

BURGLARIES and thefts seem to be on the upswing in Cisco and local citizens should begin taking extra precautions in locking their homes and automobiles at night or anytime they will not be around. If you see anyone or anything which looks suspicious around so-

meone's home, business or property, be sure and contact the local police department.

Practice the "Golden Rule": "Do unto others as you would have them do unto you." Help watch out for your neighbors property and maybe they will return the favor.

JULY THE 4TH is just around the corner, it is Monday in fact, and their will probably be a lot of holiday traffic on the highways. If you are planning on making a trip somewhere this weekend, please be extra careful and watch out for the other guy.

Stay away from alcoholic beverages if you plan to be driving. If you get tired while driving, pull over to rest before continuing on your way. Obey the speed limits and posted highway laws.

If you plan to shoot off any fireworks for the 4th, be extra careful with them, not only for your own protection but for the protection of those around you and their property. Above all else, have a very safe and happy 4th of July weekend.

**local news in brief**

**FIRE SIREN TESTED**  
The City of Cisco's fire and storm warning sirens were tested with a full cycle at noon Friday, firemen reported. The sirens did not signify a fire or a storm.

## Police Recover Stolen Mowers

A number of thefts and burglaries, including two cases involving new lawn mowers, were reported by city police during the past week.

Chief Billy Rains said there were 37 offenses involving crimes and 62 incidents with crime a probability reported during June. Police handled a total of 125 calls relayed to them by the County Dispatch during the past month.

Foster's Sales and Services, 1304 Hilton Avenue, had two Snapper Lawn Mowers valued at \$739.90 stolen on June 29, police reported. The two machines were recovered in Abilene where they had been sold. Police were investigating.

Western Auto Associate

Store reported the theft of a Wizard self-propelled lawn mower worth \$375. An investigation was underway.

Taylor Center, north Hilton Avenue, reported to police that a vehicle filled with gas worth \$27.45 and drove away without paying for it. The driver was not located.

Billy Joe Pointer, 612 West 11th Street, reported the theft of a Montgomery & Ward chain saw from the garage at his home. Pauline Deumon of 700 W. 10th Street told police that personal property worth between \$300 and \$500 was missing from her home.

Chief Rains asked everyone to watch for burglars and to report anything of a suspicious nature.

At Cisco City Park Monday:

## Splash Day, Fireworks & Carnival On 4th Program

A swimming pool splash day, assorted games and contests, a carnival and a big fireworks display - all without admission charges - will be among program activities for Cisco area residents as they celebrate Independence Day on July 4th.

Center of the program will be the City Park in West Cisco. The community will join the state and nation in observing Monday as an official holiday.

The day's program will officially begin with a flag raising ceremony at City Park at 9:45 a.m. Monday with Dickie Seider, Cisco Junior College band student, as the bugler. At 10 a.m., the park will be the scene of a number of Jaycee-sponsored events, including horse shoe and washer pitching, dominoes and swimming and diving.

The Cisco Lions Club's annual carnival will open at 11 a.m. There will be six booths, all manned by members of the club, and these will include a fishing barrel, add-up darts, a dime pitch, balloon darts, a Coke ring and a dunking tank.

The dunking tank always attracts attention as well know Ciscoans often sit on a

seat above a tank of water and let their friends throw baseballs at a trigger that could send them into the water if tripped. There will be prizes in all of the booths for every one who participates.

The Lions Club's food booth, which will be located in the new picnic pavillion that the club is building as a memorial, will open at 11 a.m. A committee of 12 Lions, headed by Roy Dennis, will serve barbecue sandwiches and sausage-on-a-stick along with other goodies and drinks throughout the day.

Lions hope to earn money from the carnival to replenish their treasury that has been depleted in financing the pavillion project.

There will be free swimming in the pool throughout the day.

Beginning at noon, a Country and Western Band will provide music in the park. The group will be relieved at 1 p.m. by the Senior Citizens Rhythm Band and at 2 p.m. by another musical group. There will be music again at 6, 7, and 8 p.m. by the three musical groups.

An afternoon feature will be a 4 p.m. baseball game, at the park diamond between

teams of Cisco Jaycees and a local semi-pro team.

The Chamber of Commerce, sponsors of the park program, will present its annual fireworks show sometime after dark as the day's climax. The show will

be fired by a committee headed by Bruce Smith in the area south of the park baseball field and stands.

The public has been invited to participate in the day's program.

### JULY THE FOURTH PROGRAM

- 9:45 a.m. - Flag Raising, Dickey (Dickie Seider, bugler).
- 10:00 a.m. - Horse Shoe tournament (Jaycees).
- 10:00 a.m. - Washer Pitching tournament (Jaycees).
- 10:00 a.m. - Domino tournament (Jaycees).
- 10:00 a.m. - Swimming and diving contest at pool.
- 11:00 a.m. - Lions Club Carnival opens.
- 12:00 noon - Lunch at Lions barbecue stand.
- 12:00 noon - Splash Day begins at pool.
- 12:00 noon - Country and Western Band.
- 1:00 p.m. - Senior Citizens Rhythm Band.
- 2:00 p.m. - Live music (to be announced).
- 2:00 p.m. - Games - Egg Toss, sack race, three legged race, nail drive, softball throw - games for all ages (Jaycees).
- 4:00 p.m. - Baseball game in park - Jaycees vs. team to be announced.
- 5:00 p.m. - Dinner at Lions Club booth.
- 6:00 p.m. - Country and western music.
- 7:00 p.m. - Senior Citizens Rhythm Band.
- 8:00 p.m. Music to be announced.
- Dark - Fireworks show.

## NEW CofC MEMBERS

WESTERN AUTO ASSOCIATE STORE, 600 Conrad Hilton Avenue, Cisco, was being welcomed as a member of the Cisco Chamber of Commerce Wednesday morning when the above photograph was made. Mr. and Mrs. Harold Reich recently purchased the store from Mrs. A.G. Sanders and they have been busy rearranging the store in preparation of their Grand Opening planned here July 7, 8 and 9. They have expanded their product lines and offer more in-store merchandise including home appliances and houseware. Mrs. Reich stressed that they welcome bridal selections for

showers, especially since they have expanded their houseware section. A store circular will be distributed in the July 7th edition of The Cisco Press for the Grand Opening. The prices in the circular will not become effective until Thursday, July 7th. There will also be some unadvertised in-store specials available during the opening. Those shown in the photo are (left to right): Randy Speegle, CofC manager; Robert Dudley, CofC president; Mr. and Mrs. Harold Reich, owners; Jeanine Reich, Linda Reich; Keith Reich; and Byron Jobe. (staff photo)

JENTEES, formerly Bobby's Burgers, 808 E. 8th, Cisco, was being welcomed as a new member of the Cisco Chamber of Commerce Wednesday morning as the above photograph was made. Jentees opened under new management here Thursday, June 30. It will be open six days a week from 11 a.m. to 8 p.m. and closed on Sundays. Hamburgers made of pure beef

with 1/4 pound patties will be served with weekly specials being offered. Senior citizens and college students with college ID's will receive a 10% discount off the regular price of any order. Randy Speegle, CofC manager, is shown at the left along with Jayanti Nathu, owner, and Robert Dudley, CofC president. (staff photo)

## Pro-Am To Begin 4th Golf Program

Area golfers have been invited to play in a pro-am that will begin a weekend golfing program at the Cisco Country Club Saturday afternoon, July 2. The program will include a partnership golf tournament Sunday and Monday.

Plans call for the pro-am,

### Rhythm Band Will Entertain Here Monday

Senior Citizen's Rhythm Band will entertain in the City Park July 4, at 1 p.m. and 7 p.m., everyone is invited.

### Employees Of City Will Get Holiday Monday

Monday, July 4th, will be an official holiday for the City of Cisco and City Hall will be closed. There will be no garbage pickup on Monday; however, the landfill will be open for business as usual.

### Public Library Will Be Closed Here Monday

The Cisco Public Library will be closed Monday, July 4 in observance of Independence Day.

Summer hours will be resumed Monday, Wednesday and Friday from 2:30 to 5:30 p.m.

### Dorothy's Fabrics Closes For Holiday

Dorothy's Sunshine Fabrics will be closed Saturday, July 2nd and Monday, July 4th for the Holiday Weekend. She will re-open on Tuesday, July 5th.

which has a \$4 entry fee, to be played by golfers any time during the afternoon. Players will be classed in accordance with their scores and there will be a drawing for team assignments after play ends.

Scoring for the pro-am will be on a point system - four points for a birdie, three points for a par, two for a bogie and one for a double bogie. The total scores of four players will be their team's contest score. Prizes will be golf balls.

Chairman Bobby Smith and Delbert Schaefer said the players were to play in their regular groups. They asked all entrants to complete their 18-hole rounds by 6:30 p.m.

The Sunday and Monday event will be a partnership low ball tournament - two men, man and woman or two women playing as a team. The entry fee will be \$10 per person and prizes will be cash in all flights.

Scoring will be on the same point system as the pro-am, and any golfer will be permitted to have as many partners as he desires, Mr. Schaefer reported.

Golfers may tee off any time they like Sunday but must play in foursomes and witness each other's scores. Flights will be organized from the Sunday scored and tee off times will be announced for the Sunday final rounds.

The weekend program was open to anyone interested.

Last year's July 4th partnership tourney was won by Smith and Schaefer.

### Target Shooting

Cisco Gun Club will host a small bore silhouette target shooting match Saturday, July 2, at 6:00 p.m. The monthly meeting will be held following the shoot in the range club house.

DON'T MISS FROM GOD'S PRISON A DRAMATIC ATTICA PRISON 'the public enemies' MOTION PICTURE DOCUMENTARY hosted by ART LINKLETTER from International Prison Ministry

FEATURING: George Meyer, Al Capone's get-away driver, Floyd Hamilton, last of Bonnie and Clyde's gang, Jerry Graham, Ted Jefferson and CHAPLAIN RAY

## 'God's Prison Gang' Will Be Shown Sunday Here

"God's Prison Gang," a newly released film featuring Al Capone's getaway driver, the last member of Bonnie and Clyde's gang and two other notorious criminals who have become Christians will be shown at First Evangelical Methodist Church, Highway 80 West, Cisco, on Sunday night, July 3rd. The showing is scheduled to begin at 7:00 p.m.

The film, shot behind the walls of New York's Attica prison, is hosted by Art Linkletter. It tells the story of how the work of International Prison Ministry is accomplishing what more guards, higher prison walls and greater financial expenditures have failed to do - keep released inmates from returning to lives of crime.

Telling their stories in the 44-minute film are George Meyer, Al Capone's favorite driver; Floyd Hamilton, (Public Enemy No. 1) the last of the Bonnie and Clyde Gang; Jerry Graham, the "robber king" of California; and Ted Jefferson, convicted of crimes from drugs and robbery to murder.

Ray," whose Dallas-based International Prison Ministry has changed the lives of thousands of inmates over the past 18 years.

The Reverend John Clinton, pastor of First Evangelical Methodist Church, said he hopes all citizens concerned about the problem of rising crime will attend the free screening of the film.

### Dr. Neely Will Speak Sunday

DR. H.K. Neely Jr., Chairman of the Division of Religion and recently named Dean of the Logsdon School of Theology at Hardin Simmons University, will be filling the pulpit for both services Sunday at the East Cisco Baptist Church.

# Fireworks Caused 23 Texans To Lose Eyesight

Fireworks and the Fourth are a patriotic combination. Yet too often the combination misfires and results in the tragic stories that can be found in the Independence Day files of the Texas Society to Prevent Blindness.

"These stories are of youngsters -- and their parents -- who learned too late 'Don't play with fireworks; they're not toys,'" says John L. Mann, M.D., an ophthalmologist who is chairman of the Society's State Medical Advisory Committee.

"Fireworks belong at licensed public displays,"

## Speeders

## Cause Most

## Accidents

AUSTIN--The Texas Department of Public Safety has estimated that as many as 49 persons could die in traffic accidents across the state during the Fourth of July holiday period.

Colonel Jim Adams, DPS director, said the estimate is based on the anticipated volume of traffic and the previous holiday deaths.

"Independence Day can bring more motorists to our streets and highways compared to a regular weekend. We are estimating fewer deaths than we had during the Fourth of July holiday last year because thus far this year we have experienced a decline in traffic fatalities," Adams said.

Last year, 55 fatalities were recorded during the 78-hour period, but subsequent deaths from serious injuries brought the final count to 64 for the three-day holiday.

Adams said if drivers would stay sober, slow down and use seat belts, their chances for survival would increase.

"Drivers who speed or are intoxicated pose the greatest threat to law abiding motorists," Adams said. "Some people will insist upon drinking excessively and attempting to drive during this period. We will do our best to remove these individuals from the roads," he said. "If a person drinks, this is his personal business, but if he drives drunk -- that's police business."

Adams encouraged motorists who observe drunken drivers to report them to the nearest police agency or Highway Patrol.

DPS commanders throughout the state will utilize additional troopers in areas they deem appropriate. DPS will also conduct "Operation Motorcade" to inform the public of the number of traffic deaths occurring during the 78-hour holiday period. Periodic reports will be communicated statewide relating the tabulation of the number of deaths that occur during the 78-hour holiday period.

said Dr. Mann. "There, their colorful patriotic skybursts can be enjoyed without endangering life or property. But when private individuals start playing with fireworks, trouble and tragedy are inevitable."

As proof Dr. Mann cited a survey Prevent Blindness conducted a year ago among Texas ophthalmologists that indicated that 23 Texans were blinded or lost most of their sight on July 4th because of fireworks. An additional 49 people suffered eye injuries ranging from second degree burns to corneal lacerations. He added that the Consumer Product Safety Commission also reported last year that, nationwide, over 11,000 were treated in hospital emergency rooms for fireworks-caused injuries; 1,600 of these were to the eyes.

"What these figures show is that there is no such thing as a safe fire-cracker," Dr. Mann emphasized. "Even seemingly harmless sparklers sizzle at 1500° F and can give a burn that will quickly take the sparkle out of the eyes of any youngster who has been playing with one."

"But the most dangerous projectiles are bottle rockets. Bottle rockets caused almost all the cases of blindness reported in the Texas survey and over half of the other injuries."

"The majority of injuries were to teen-aged males who

seem prone to 'horse play' when they get a hazardous projectile such as a bottle rocket in their hands," he said. As examples, he told of two boys who jokingly 'waged war' with lighted bottle rockets and of two others who competed with each other to create the biggest bottle rocket blast. In each instance this "Fourth of July fun" resulted in a boy blinded and cosmetically disfigured.

To prevent such tragedies, Dr. Mann said that the Society would like to see fireworks strictly controlled throughout the state and is disappointed that all of the bills introduced recently in Austin to strengthen existing laws have apparently died in legislative committees.

"Preventing fireworks injuries is better than trying to cure them. Even with all the miracles of modern medicine, it is not always possible to save the sight of a child who bends over a firecracker, only to have it explode in his face. That is why Prevent Blindness urges all parents to insist that family fireworks be limited to public displays, and no exceptions permitted."

The Texas Society to Prevent Blindness is an affiliate of the National Society to Prevent Blindness, now celebrating its 75th year of preventing blindness through programs, education and research.

"I believe THE PRODIGAL may be the most powerful evangelistic film ever made to reach people for Christ."

—Billy Graham

The 4th of July Festival is a celebration highlighted by the Eastland Jaycees. Activities planned for July 4th includes fireworks display, live entertainment, arts & crafts, children's carnival and don't forget the free swimming that will be available to all ages.

The festival will be held atop Eastland's park hill overlooking downtown Eastland. The festival will open to the public at 9:00 a.m. and remain open until 10:00 p.m., July 4th. A great effort is being put into this festival. Food booths will be open the entire festival. Exhibitors are encouraged to demonstrate their own skills.

Booth space will be assigned in order of receipt of reservation form and booth fee. Most booths are 10 x 10. Corner booths by special request will be \$10.00 extra. For refunds on booth space, we must be notified by cancellation no later than June 15, 1983. June 15, absolutely NO REFUNDS will be made. Participants in the exhibitor's booths will be expected to have their booths open the entire time of the Festival. A limited number of electric outlets are available at \$10.00 each. Security will be provided.

Exhibitors may plan to set up after 5:00 p.m. Sunday night. The doors open to the public at 9:00 a.m. Monday. Refreshments will be available at the Festival grounds.

If you have any questions, don't hesitate to write or call Ray Wright at 629-8971. We appreciate your interest in our Festival--our exhibitors add so much to the occasion, bringing in fresh ideas and friendly faces!

## Sheep, Goat Producers To Hear Updates At IRR

SAN ANGELO-- Concurrent sessions for sheep and goat producers during the International Ranchers Roundup (IRR) are mostly geared toward increased production, developing better foreign and domestic markets and herd health care.

The IRR will be August 1-5 in this West Texas ranching hub at the Convention Center. Program details and registration information are available by writing to IRR,

P.O. Drawer 1849, Uvalde, Texas 78801.

Major topics that will be discussed included Increasing Lamb and Kid Crops Panel, Lamb Feedlot Panel, Supplementing Sheep and Goats, Will Supplemental Feeding Pay?, Recommendations for Supplemental Feeding, Internal and External Parasite Control, Managing Sheep on Bitterweed Panel, and Use of Guard Dogs Panel.

Two internationally known

South African sheep and goat specialists will discuss industry changes in that country, a chief competitor with the U.S.

Dr. Danie Wentzel, of the Groot Fontein School of Agriculture, Middleburg, South Africa, will discuss Increasing Mohair Quality and Production and Reducing Abortion in South African Angora Goats. Derek Hobson, a prominent rancher will give a general overview of sheep and goat ranching

in South Africa, including their marketing and promotion activities. Wentzel and Hobson are both scheduled to appear in the special "discussion session" where they can carry on an in-depth discussion with ranchers in an informal setting.

Some 14 sheep and goat specialists will share their

expertise with participating ranchers. Included on the program are seven ranchers, three feedlot operators and two research scientists with the Texas Agricultural Experiment Station in San Angelo.

The IRR is recognized as the largest, most comprehensive, educational event ever organized to aid

southwestern ranchers.

Over 100 speakers will appear during the three days of concurrent sessions which also include programs in beef cattle, grazing management, marketing, wildlife, ranch family business management, and a computer workshop. Over 100 ranching experts will be on

hand to share their expertise.

Sheep and goat producers can participate in the August 5 ranch tour of innovative sheep and goat operations in West Texas. The much talked about Savory Grazing Method will be observed on the tour. Other tours available to IRR participants include one in beef

cattle, grazing management, and a two-day wildlife tour in the scenic Texas Hill Country with an overnight stop in Kerrville. July 1 is the ranch tour deadline.

Due to space limitations, participation will be held to the first 750 who register. If space is available, late registration can be done at the door.

### Texas Dept. Of Agriculture Reports

## Hightower Backs Bill Boosting Farm Wineries

AUSTIN--The Texas wine industry is "on the brink of bringing in a gusher," Texas Agriculture Commissioner Jim Hightower told a Capitol news conference Thursday.

"Basically, all we need to do is turn it loose and get out of the way."

To "turn it loose," Senators Lloyd Doggett (D-Austin), Bob Glasgow (D-Stephenville) and Bill Sims (D-San Angelo) and Rep. Bill Coody (D-Weatherford) are proposing a "Texas Farm Winery Act" to provide grape growers a greater ability to sell directly to consumers and to promote their products. Among other items, the bill would allow wineries to (1) sell directly to retail stores and restaurants, (2) to provide wine at no charge for wine tastings or judgments. The bill would also ease restrictions on the type of carriers authorized to transport grower-produced wines.

"I have no doubt that Texas--in the not-too-distant future--will be a major wine-producing state," Hightower said. "In 1975, there was only one commercial winery in Texas; today, there are 13, and it's predicted that we'll triple that number in just four years if we give the wineries half a chance. Dozens of excellent wine grape varieties are ideally suited to the soil and climates in various parts of our state, and at a time when our farmers can't make a profit growing the more traditional crops, grape growing and winemaking are increasingly attractive alternatives."

"A good-sized vineyard requires relatively little land and water," Hightower explained, "and we can produce wines to compete with the best that California has to offer. The market is there, and this bill will help open it up a little so our grape growers can get in there and compete on a more equal basis."

"The Texas Farm Winery Act will give our Texas producers a shot at keeping a bigger portion of the marketing dollar, make Texas wines available to consumers at a lower price, increase sales and give a boost to this burgeoning industry."

Doggett, senate co-sponsor of the bill, said development

of a viable Texas wine industry would bolster both agriculture and tourism in Texas.

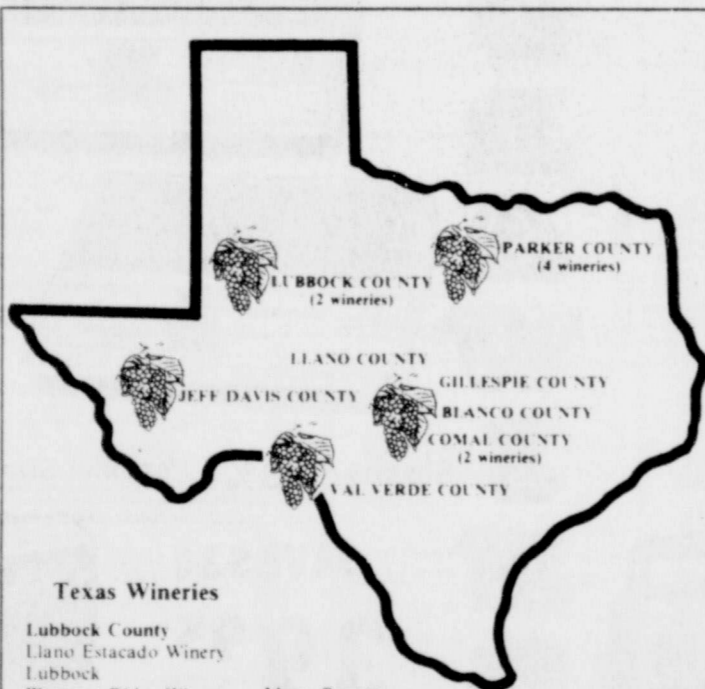

"We hear a great deal of talk about Texas being the 'Third Coast,' comparing say, our movie-making and entertainment industry to those in California and New York. We can be the Third Coast in the wine industry, as well, and compete significantly with other sections of the country. This new industry can be a great boon to Texas, particularly to our rural areas where our farmers and small towns have been suffering so badly from the depressed farm economy," Doggett said.

"And speaking of California, many people are familiar with going to Northern California on wine-tasting tours, from vineyard to vineyard, and we could have the same thing right here in Texas if we get this industry moving along. The advantage of that would be, again, not only to agriculture and to the farm areas, but it would add to a tourist industry that is increasingly important to the entire state."

Hightower singled out for special mention the provision in the bill allowing the wineries to provide free samples for wine tastings. They currently are allowed to dispense free samples on the winery premises, but the Alcoholic Beverage Code prohibits the wineries from providing free wine for off-premise sampling.

"That one item would go a long way toward helping to overcome the natural skepticism of many people who haven't yet tasted any of the surprisingly good Texas wines already being produced by our grape growers," Hightower said. "Right now, we can tell a wine fancier, 'Try it, you'll like it,' but the law says we can't give him a free sample, so a lot of people never get around to tasting our Texas wines. The Farm Winery bill would allow our producers to recruit new customers a little easier."

"In essence, the notion behind this bill is simply to loosen government restraints so that a new agricultural industry has a chance to rise to its full potential."

## Synthetic Pyrethroids Help Horse Owners Control Flies

COLLEGE STATION-- Horse owners have a relatively new weapon available to them in the constant battle against house flies.

Synthetic pyrethroids do a good job in controlling house flies in barns when used in conjunction with a total management system, Dr. Cliff Hoelscher told some 400 participants at a recent Horse Short Course at Texas A&M University.

"Synthetic pyrethroids offer considerable potential in pest control because they have a low level of toxicity and can be used in low volume and low concentration," Hoelscher, an entomologist with the Texas Agricultural Extension Service, pointed out. "The key thing is that they be used correctly so that insects won't develop resistance to them. This means following label directions for the insecticide and using management strategies to keep fly populations to a minimum."

Two chemicals used in synthetic pyrethroids for fly control are fenvalerate and permethrin. A number of commercial products are on the market that contain these insecticides, Hoelscher noted.

"Although pyrethroids are relatively expensive, they are effective and are used at low rates, so a little goes a long way," said the entomologist.

Hoelscher advocated an automatic spraying or fogging system for effective control of adult house flies in a horse barn. Such a system would cost about \$1,000 to install, depending on the size of the horse operation, and would cost about \$600 a year

to operate--cost of the pyrethroid insecticide.

"Such a system would effectively control all house flies and other flying pests in the barn," Hoelscher said. "Of course, house fly control must be a constant practice, so it's also important to use residual or space sprays to control incoming flies."

In addition to using residual or space sprays, the entomologist emphasized the importance of good sanitation in the barn area, use of physical barriers such as screens to keep flies out,

and bait stations where flies can be killed with various types of bait formulations.

Hoelscher also told short course participants that the future looks good for continued improvements in insecticides, including insect growth regulators which are just coming on the market.

The annual Horse Short Course was sponsored by the Texas Agricultural Extension Service, Texas Agricultural Experiment Station and Texas A&M's Department of Animal Science.

## Tour Texas

### July

July 4 -- An Old-Fashioned 4th of July, Houston. Foley's and the Harris County Heritage Society are putting on this celebration complete with early Texas crafts, entertainment, traditional holiday foods, political speeches, and a grand finale of spectacular fireworks. Special guest and featured speaker will be Charles De Leo, "keeper of the flame," at the Statue of Liberty. Held in Sam Houston Park from 4 to 9 p.m., more information from Patti May, Foley's, 11101 Main, Houston 77001 (713/651-6976).

street dances, horse show, gospel singing, fiddlers' contest, and historical displays at local museums. Schedule of events from Spring Ho Committee, Box 6271, Lampasas 76650 (512/556-5301).

July 4-8 -- Deep Sea Roundup, Port Aransas. For details of events contact Chamber of Commerce, Box 356T, Port Aransas 78373 (512/749-5919).

July 6-10 -- Lampasas Spring Ho. An annual celebration commemorating the importance of the Springs to the area during the 1880s, and a special 100th birthday party for the Lampasas County Courthouse. Activities to include arts, crafts,

End-of-model rebates up to \$4,600 and a finance waiver offer to March 1, 1984 on new 40- to 228-hp John Deere 40 Series Tractors

There's no need for you to assign your P&H certificates to buy a new farm tractor now. Not if you take advantage of our special end-of-model offers on John Deere 40 Series Tractors. Between June 1st and August 31st, 1983, you'll enjoy up to \$4,600 in cash rebates on 13,200 (see chart) and your trade-in you'll keep. It's that simple. Then if you're a bank-financed buyer and finance with John Deere, finance charges will be waived to March 1, 1984. Or you can take an additional cash rebate in lieu of waiver up to \$1,400. But you must act during June to take advantage of offers at this level. One caveat: assuming you're financing your new 40 Series tractor, you need now. But hold onto P&H certificates and get a new tractor for investment tax credit plus first-year depreciation to help shield income in 1983. Come on in soon, be ready and willing to deal on the new tractor of your choice.

Model	Cash Rebate on Purchase	June 83 Cash Rebate in Lieu of Waiver	Maximum Rebate
228hp 8840	13,200	11,000	14,600
175hp 8840	10,000	8,000	11,000
180hp 8840	2,700	1,000	3,700
155hp 4840	2,300	900	3,200
130hp 4440	1,700	700	2,400
110hp 4240	1,300	600	2,100
90hp 4040	800	550	1,150
80hp 2940	1,400	400	1,800
70hp 2640	900	350	1,250
60hp 2440	800	300	1,100
50hp 2240	100	250	350

## Sun Oil Company Builds "Unique" Bridge

### In Bad Condition

This is the old bridge as it appeared before Sun Oil started construction on the new bridge in the same location. The old bridge had a weight limit and was not passable for many of the heavy oilfield trucks and rigs.

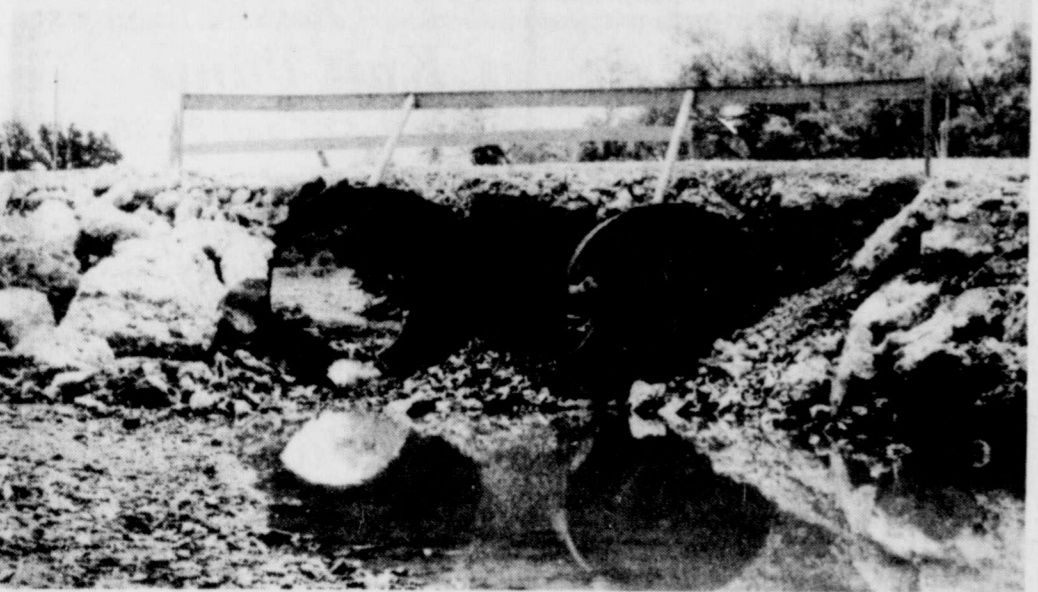

(Photo By Mike Merrill)

### Rock Rip-Rap

Many rocks were placed on the sides of the road and bridge to serve as a rock rip-rap protecting the new bridge, constructed by Sun Oil Company, against soil erosion and flooding.

(Staff Photo)

### Finished Product

These two railroad chemical cars have been buried with rock and dirt in the Colony creek between Morton Valley and Ranger and make a new bridge for the county and one that does not have a weight limit.

(Staff Photo)

By Gary Slade  
Staff Writer

Sun Exploration and Production Company of Eastland, with the approval of the Eastland County Commissioner's Court, took the time to replace an old county bridge over Colony Creek on County Road 454 between Morton Valley and Ranger and did it in quite an unusual way.

After ripping the old bridge out, Sun took two railroad chemical cars, laid them in the creek and filled in between and over the old cars with base material creating a new bridge that does not have a weight limit.

According to Sun Oil the new bridge is more valuable to them, for transporting purposes, then the old bridge which had a weight limit and was in need of many repairs.

The idea was first brought up to the commissioner's court on April 25 but final approval did not come until June 2.

Sun first contacted the North American Car Cor-

poration in Roscoe, Texas for the purchase of two railroad chemical cars.

The cars were sent to BC Construction of Eastland and Ranger to have each end of each car cut out and to have each car cleaned and stripped of the chemicals they once carried.

Sun Oil representative Houston Satterwhite said, "Sun's concern for the wildlife and the environment went into the cleaning of the cars. Sun Oil didn't want any chemicals from the cars washing into the creek."

Once the chemical cars were cleaned and cut open the county assisted Sun Oil in tearing out the old bridge and hauling off the junk and debris that had become entangled at the base of the bridge.

A bulldozer then went to

work shaping the base of the creek for the cars. The cars were then sent to the work site and set in place.

Trucks then dumped rocks in between the cars and on each side to build the road up to the top of the cars. Sun Oil then rip-rapped around the sides to control against erosion and flooding. The top of road was then filled with a medium size rock and finished off with a base material giving Eastland County and Sun Oil a new bridge and one that does not have a weight limit.

Some of the metal pipes and rails were kept from the old wooden bridge and used as orange painted guard rails on the new bridge.

The actual construction on the project started on Monday, June 13 and was finished on Wednesday, June 15, resulting in a three day project.

The cars used in the bridge measure eight feet in diameter and 30 feet long and have a three-quarter

inch thickness of steel.

Jim Brandon, who is the senior construction supervisor for Sun's Central Texas Division was in charge of the project and Jill Johnson was the production foreman.

Houston Satterwhite commenting on the finished bridge stated, "The building of the bridge was of best in-

terest to the citizens of the area that use the road and to Sun Oil as well."

This project by Sun Oil is just one example of how oil companies, environment, and man can work together to benefit the community and its companies which are important to its survival.

## Mori Oil Inc. Gains New Well

At a location eight miles southwest of Cisco, Mori Oil Inc. of Fort Worth has finished a new oil well in Eastland County's Mary Ann Clark Survey, A-51.

The well is designated as the No. 3 D.D. Jackson, pumping oil at the rate of 127 barrels per day on open choke. Tubing pressure was 50 PSI. The well also showed potential for 200,000 CF casinghead gas per day.

Location is in an 80-acre lease in the H&TCRR Co. Survey A-147. Bottomed at 1,450 feet, the well will produce from perforations 1,352 to 1,358 feet into the hole.

Ridge Oil Co. of Breckenridge has filed first production figures on a new oil well in the Ranger Black Lime West Field. The No. 1 Longmire showed potential to make 24 barrels of oil and 230,000 CF casinghead gas per day on open choke.

The operator has 200 acres leased, with drillsite in Eastland County's HT&BRR Co. Survey Sec. 127, five miles northwest of Ranger. The well will produce from an interval 3,412 to 3,450 feet into the wellbore. Total drilling depth was 3,650 feet.

The No. 1 H.O. Smith has been finished by Western Production Co. of Ft. Worth.

It is a developmental oil well in the Green Show Up-

per Caddo Field, three miles northeast of Romney. Drillsite is in a 40-acre lease in Eastland County's Mary Ann Clark Survey, A-51.

Daily potential of 10 barrels was posted with the Railroad Commission. The well went to a 2,996-ft. bottom. Production will be from perforations 2,646 to 2,673 feet into the wellbore.

Southeastern Resources Corp. of Rising Star has finished the No. 8 M.K. Courtney "A", a developmental gas well in the Lee Ray Duffer Lime Field. The well indicated ability to flow 513,000 CF gas per day on a half-inch choke. It was rated at 450,000 CFD on absolute open flow.

The operator has 480 acres leased, with drillsite in Eastland County's H&TCRR Co. Survey Sec. 41, Blk. 4, five miles northwest of Eastland.

The well will produce from an interval 3,832 to 3,836 feet into the wellbore. Total drilling depth was 4,123 feet.

A 4,200 ft. developmental well is planned by Richey & Co. Inc. of Ft. Worth at a drillsite eight miles northeast of Cisco, Eastland County. The location is in an 80-acre lease in the H&TCRR Co. Survey A-224. Well's designation is the No. A-1 B. Harrison. It is in the JMJ Marble Falls Field.

### Setting The Cars In Place

After the old bridge was torn out the railroad chemical cars were set in place and then dirt and rock was dumped in between the cars and on both sides to build up the new bridge.

Many Good And Sincere Individuals

...give little thought to the question of values when we should measure them in terms of personal worth in everything he buys, enjoys or does. For example, some folks will buy real estate without any kind of evidence of title disregarding the fact that the principal value of the purchase is in the title, not in the land itself or the improvements thereon. This kind of thinking costs property owners thousands of dollars annually which could be saved and a part of the savings wisely spent for an abstract of title or title insurance.

# City Council Rejects WTU Street Lighting Contract

A new street lighting contract offered by West Texas Utilities Company that would increase the cost of electricity by nearly 300 per cent was rejected by the City Council at the semi-monthly meeting Tuesday night at the Cisco High School auditorium.

The new contract, which boosts the monthly charge for some 850 street lights from \$675.95 to \$2,674.37, would replace one that expires at the end of June. Rates charged under the new contract will become effective on July 1, as they have been approved by the Texas Public Utilities Commission, City Manager Mike Moore reported.

Mr. Moore said that since street lighting is becoming an item of major expense, steps will be taken immediately to make a complete study of them. He added that a survey would be the first step in determining the need for each light and whether it could be moved to save lights but continue a service that the public desires.

Advertised as a "town hall type meeting," only 12 citizens were in the audience.

Mayor Eris Ritchie, who presided, told the group that they had been invited to help the Council decide whether to accept the contract and pay for it by cutting down on

the number of street lights (about two-thirds), raising taxes by five to six per cent, or by taking funds budgeted for other city services.

Harold L. Adling, 507 West 7th St., expressed opposition to increasing taxes and said he doesn't consider the street lights worth the price at \$2,674 per month. He added that he wasn't surprised when he hears of people moving outside the city

limits.

Mrs. Louise Allison, 1300 Primrose, said the increase amounts to about \$17,000 per year. Street lighting is a service that is needed, she said, and she felt that the expense should be absorbed without raising taxes. She noted that the city's annual budget of more than a million dollars was large enough to handle the added electric cost.

"Make the best use of money available," Mrs. Allison concluded.

Randy Speegle, manager of the Chamber of Commerce, suggested that a survey of city streets and lights might show where a good many could be removed without effect and that others might be replaced or moved to advantage.

Steve Thomas, 1204 West 15th St., suggested that increased efficiency of lighting be sought with the increasing costs.

Mayor Ritchie observed that "we tend to take things like street lights for granted, but they are needed." He added that a survey should determine how many, if any, lights can be eliminated.

Councilman Brad Kimbrough said that he made a motion at the June 14th meeting "to turn them off," which died for lack of a second, because he believes it is wrong to give a guaranteed profit to monopoly. "The motion was a protest of a principle," he

said. He added that the present street lighting is, in his opinion, inadequate.

Councilman Bobby In-

gram observed that the increase in price sounds big when you consider it on an annual basis.

Councilman Linton Batteas didn't believe many lights could be eliminated and he wasn't for turning them off.

The same view was expressed by Councilman Ivan Webb, who doubted if many could be cut off. He suggested upgrading some.

City Manager Moore noted that the expiring WTU contract has been in effect for 10 years and that the new contract, in effect, updates rates that have not changed in the decade. He added that WTU is applying for a increase of some 12 per cent in other electric rates and that the PUC will be considering it soon. "We have no voice in the matter," he said.

Manager Jack Kennedy of WTU's Cisco Office, answering a question, said his company has raised all but the street lighting rates substantially in the past five years. He said the street lighting contract was standard for all cities in WTU's territory and that many cities are already paying the new rates.

Councilman Ingram made a motion that the new contract be approved. The motion was seconded by Councilman Webb. They voted

"yes" and Councilmen Bobby Rains, Brad Kimbrough and Linton Batteas voted "no." Mayor Ritchie abstained, as he usually does, voting only when there is a tie.

Mr. Kimbrough said he voted "no" because he doesn't think the city can continue to absorb increases in utility rates. "The only way to get a 'fair shake' is for the Public Utility Commission to be elected by the

voters, not appointed by the governor, and then they would think before acting."

Mr. Kennedy said the company's new rate structure would become effective July 1 with or without a contract.

Officials indicated that the contract would be considered again at a future meeting. Without a contract, it was noted, rates could be changed more often than every five years.

## New Fellowship Hall Being Built

A new fellowship hall that will seat 200 persons is being built by the Church of Christ, Avenue N at I-20, just back of the church building, it was announced by Jim Hatcher, minister of the church.

Construction work was started during the past week by Roy Cozart, local contractor. The 40x60 metal building will be air-conditioned and will include a kitchen and facilities for dinner meetings.

Mr. Hatcher said the construction contract calls for the building to be finished in

two months. Financing for the project was arranged prior to construction, he added.

The building committee included Carroll Scott, chairman, George Simmons and John Smith.

Mr. Hatcher said the fellowship hall in the church building would be used for class rooms. He added that a third floor for the church building was being completed to provide four more class rooms. Plans call for the auditorium to be enlarged to add some 150 more seats, he said.

### Births

**JACOB RILEY JARVIS**  
Jo and Janella Jarvis are proud to announce the birth of their son, Jacob Riley. He was born June 22nd at 1:15 a.m. in the Eastland Memorial Hospital. He weighed 7 pounds and 11 ounces and was 22 inches long.

Maternal grandparents are Art and Jewell Gomez of Durango, Colo. Paternal grandparents are John and Danna Jarvis of Cisco.

Paternal great-grandparents are Mr. and Mrs. M.D. (Pappy) Denson of Colleen.

### KYLE REUBEN HOHMANN

Donovan and Clydean Hohmann are the proud parents of a baby boy, Kyle Reuben, born at 12:42 p.m., June 12, 1983. He weighed 7 pounds and 2 ounces. He is welcomed by one brother Heath, 5, and one sister Erika, 19 months.

His grandparents are Mr. and Mrs. Kelly Coat and Mrs. Winona Hohmann of Llano. His great-grandparents are Mr. and Mrs. Reuben Coats of Cisco.

### Receives HPU Scholarship

Cisco Junior College Student, Patti Gorr of Cisco has been awarded a Payne University Scholarship to attend Howard Payne University. This generous stipend, worth \$8,000.00 for a four-semester period, is awarded to outstanding academic scholars. The scholarship is very prestigious, and students from across the United States compete.

While attending CJC, Patti was a member of the Student Government Association, Phi Theta Kappa, Blue Jackets, and was Wrangler Belle Captain. Patti plans to major in Secondary and Elementary Education. Patti is the daughter of Mr. and Mrs. Donald Gorr of Cisco.

## CJC Will Offer Driving Course

As a service to the community, Cisco Junior College will offer a Defensive Driving Course July 18 and 20 from 6-9:30 p.m. in the Science Hall Lecture room. Fee for the course is \$20.

The Defensive Driving Course is an eight-hour classroom course designed to improve driver skills and attitudes, especially in emergency situations.

Enrollment fee must be paid by 3 p.m. on July 18. No late registration fees will be accepted.

Drivers who complete the training are eligible for a 10% discount on automobile insurance rates covering bodily injuries, property damage, medical payments and collision coverages. Good for three years, the discount may be renewed by retaking the Defensive Driving Course.

For more information or to register call or come by the President's office at Cisco Junior College.

# County Real Estate

SUNDAY, JULY 3, 1983

## Real Estate Consumer

David S. Jones

The Real Estate Consumer is brought to you as a public service by this newspaper and the Texas Real Estate Research Center. Address inquiries to: The Real Estate Consumer, Texas Real Estate Research Center, Texas A&M University, College Station, Texas 77843-2115.

As high interest rates continue, seller financing may be an attractive alternative to those who want to sell their homes.

If you are considering financing the sale of your home, here are some hints.

A short-term loan with a competitive interest rate should provide you with a marketable financial instrument. But make sure the interest rate charged complies with existing usury limits.

To provide adequate protection in the event of foreclosure, require at least a 20 percent down payment. This should reduce the risk the property cannot be sold for enough to cover your loan. Include and enforce a late charge in your loan documents.

Check your buyer's credit. A credit report usually is inexpensive and simple to obtain. Finally, make certain you consult an attorney prior to signing any loan agreement.

### REAPPRAISAL HAS EFFECTS ON TAXES

Many taxpayers do not realize the implications of a general reappraisal for tax purposes. In some cases, reappraisal may mean a higher property tax payment. In other cases, it can actually produce a lower tax

payment.

The amount of your property tax assessment depends upon the appraised value of your property and the tax rate. The appraised value multiplied by the tax rate determines the amount of the tax you owe. The higher the rate, the higher the tax for a given appraised value.

When a general reappraisal occurs, most taxing jurisdictions reduce the tax rate to help offset gains in value. It is possible that tax rate reductions can exceed an increase in appraised value, resulting in a lower tax assessment. But homeowners seldom experience such results.

### BALLOON PAYMENT MORTGAGES

Some of the real estate being sold these days is financed with what is called a

balloon payment mortgage.

A balloon payment mortgage incorporates a large final payment that retires the debt. Many purchasers feel they can resell the property before the balloon payment comes due or that they can arrange substitute financing at that time.

They have no assurance, however, of being able to do so, and if they cannot sell or refinance, they face losing the property through foreclosure.

Balloon payment loans were prevalent in the early 1900s but many property owners were financially ruined when their loans came due in the 1930s.

So, before you commit yourself to a purchase involving a balloon payment loan, be sure you can handle the final payment—even if the due date is five or 10 years away.

## Consider Seller Financing

### AG LAND RECEIVES SPECIAL TAX TREATMENT

The Tax Relief Amendment to the Texas Constitution provides for special taxation of agricultural land.

Such land is taxed in relation to its productive capacity. In many cases, this method of taxation results in a reduction in taxes. To qualify for this special taxation, the land must be devoted to agricultural use on a typical scale; must have been used this way for five of the preceding seven years; and must not be owned by a nonresident alien or by a legal entity controlled by a nonresident alien.

In general, land within the boundaries of a city or town cannot qualify. Land within such boundaries can qualify,

however, if the city or town does not provide services or if the land has a history of continuous agricultural use for the preceding five years.

### TEXAS BUSTIN' AT ITS SUN BELT

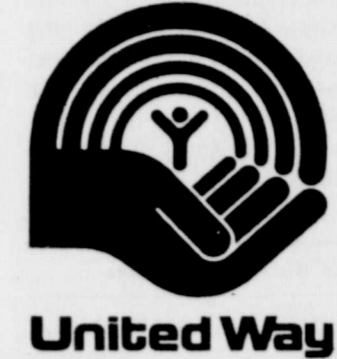

Figures from the nation's new census indicate why the housing market in Texas is stronger than in many parts of the country. Population in the Sun Belt is booming.

The western region added 8.3 million people and the southern region added 12.5 million. Thus, the Sun Belt states accounted for 90 percent of the nation's total population increase in the 1970s.

By comparison, the Northwest grew by only 75,000 between 1970 and 1980, while the north central region

gained 2.2 million. As a result of these wide disparities in population growth, the South and West now have more people than the North for the first time in the nation's history.

The need to provide shelter for all these people makes for a vigorous housing demand.

# Home Economist Reports Consumers Should Save Energy

COLLEGE STATION—As the summer heats up, utility bills start inching toward their peak. Now is the time for consumers to focus on energy thriftiness to save money on those bills, says Bonnie Piernot, a home economist with the Texas Agricultural Extension Service, Texas A&M University System.

Although the "energy crisis" is behind us, says Piernot, residential energy use will not be getting any cheaper.

The Data Resource Energy Forecasting Service Inc., estimates that residential electric rates will rise an average of seven percent in the next year.

Careful use and purchase of household appliances can help consumers cope with increases.

According to Piernot, a family resource management specialist, work habits of the cook have a major influence on the energy use for food preparation. Research shows that energy usage varies by as much as 50 percent among people doing identical meal preparation tasks with the same kitchen range.

With surface units on an electric range, for instance,

about 70 percent of the heat produced goes into the food if the utensil fits the unit properly. Ten percent of the energy goes to heat the element, and the remaining 20 percent is lost to room air.

But additional losses of energy will occur if the utensils are too small to cover the heated area of the element, notes the home economist.

Heat settings also affect energy consumption on an electric range. For example, you can bring a pot of potatoes to a quick boil on a 6 inch unit at the high setting. Once boiling has begun, the cooking temperature could be maintained at a low setting for about 20 minutes. But if medium-low heat is used instead, 100 percent more energy will be used than is actually needed.

Even the use of a utensil with a fitted cover when cooking with water is an energy-saver. The lid prevents the loss of heat from the pan by evaporation. Six times more energy is required to change water to steam than to bring it to a boil.

In addition, small amounts of cooking liquid in a covered pan will shorten cooking time, improve uniformity of

cooking and conserve nutrients and flavor, states the specialist.

Consumers can also avoid heavy usage of high wattage electric equipment such as dishwashers and washing machines at times of the day when the demand for power is highest, since utility companies may charge more for power during these peak times.

So use of appliances at night when air conditioning use is reduced can produce energy savings.

Many consumers believe that replacing their old appliances with more energy-efficient appliances will reduce utility bills. "Although their direct utility

costs may go down, the purchase itself may not be especially cost-effective," states Piernot.

There is little point in buying a new cooking appliance simply because it promises energy thriftiness, she says, since the purchase price might not be worked off for years. For example, it would take 13½ years to earn back the cost of a \$500 microwave oven that reduces your electric bill by a maximum of \$27 annually.

Unless consumers must replace old equipment that is in poor condition, they would be better off concentrating on the efficient use of what they presently own, suggests Piernot.

## Hunter Education Course Scheduled

A complete course in hunter education has been scheduled for 1:00 to 5:00 p.m. on July 17 and July 24 in Eastland, according to Bob Mueller and Ken Underhill, hunter safety instructors.

"The course is open to adults and youngsters and will include instructions in rifle, shotgun and bowhunting safety, outdoor ethics, conservation, survival, game identification and wilderness first aid," said Mueller.

Those students successfully completing the course will be issued a hunter safety card from the Texas Parks

and Wildlife Department. The course fee is \$1.00 per student to cover registration and materials.

More than 80,000 Texans have already been certified as safe hunters. Even though this course is not mandatory to hunt in Texas, it is mandatory in 29 states before a hunting license can be purchased.

For more information, contact Bob Mueller at 817-629-2403 or Ken Underhill at 817-629-1560 Eastland, Texas, now.

Deadline is July 7, 1983. Please call after 6 p.m.

## Spotlights & Sidelights

Julia Worthy

How the Declaration of Independence ever got written is one of the minor wonders of the modern world.

American affairs were a long time boiling down to the point of Ben Franklin's assertion that, "We'll all hang separately if we don't hang together."

The American considered typically representative of his 2,500,000 fellows in 1763 was the farmer. Extreme poverty was rare in a country where the rewards of thrift, hard work and diligence were visible in well-stocked farms and all the home comforts one could wish.

The lines of demarcation between even the farmers were early drawn along the Atlantic seaboard. Nationality and religion were of as much importance as economics and politics were to the minds behind the hands getting warmed up to tug the Liberty Bell.

Your idea of the American Revolution may coincide with the one I had for years, but I hope you were smarter than I. In case you weren't, I'll explain.

I read a lot of poetry in my youth, and the "embattled farmers" that "fired the shot heard 'round the world" is the image of the Revolution that stuck with me. As a matter of fact, it is uncertain whether one of the embattled farmers fired first or if it might have been a redeco.

The "midnight ride of Paul Revere" probably was more representative of the actual instigators of the revolt than was the farmer.

There was far less equality in the towns than in the rural sections. Unrest and revolutionary ideas generated from the towns where discontented urban workers welcomed democratic ideas, thought about them, wrote about them, and eventually did something about them.

The rural dwellers expended most of their energies in making a living and conquering the wilderness. They should have thought a little more about minding the store when the "store" concerned the laws by which they were governed.

The colonial assemblies did make steady progress in extending their own authority and reducing that of the Crown. However, the common man's suffrage was losing out to property qualifications.

Merchants and planters had the wealth and the representation in the assemblies. They advocated home rule in the name of popular liberty, but the idea was to transfer the powers of the Crown to themselves, not to make the people sovereign.

Popular leaders had to prevail against the British government and the Colonial oligarchy in colonies that seemed more enthusiastic about a fight among themselves than against the British.

How such different peoples as the Scotch-Irish, French Huguenots, and Anglo-Saxons with all their different customs—oh, don't forget the Quakers—how they ever got a delegation to Philadelphia

## Declaration

to make a formal declaration of independence ranks close to a miracle, not to mention a wonder.

We might not be celebrating the "glorious Fourth" at all if Thomas Jefferson had not been able and willing to draft the formal Declaration of Independence.

The delegates were getting restless. It is reported that the horseflies were biting, and it was hot. The delegates had to get back to tending to their own businesses instead of the nation's. Nominally, there was a committee; ac-

tually, Jefferson burned the midnight oil.

Jefferson's reduction of ideas to paper melded and welded the doctors and lawyers, farmers and merchants, sailmakers and glassblowers, barbers and fiddlers, drovers and draymen into the force that has been moving these United States ever since.

Whether you pop a firecracker, wave a flag or go fishing this Fourth of July, give a thought to the freedom you have to choose what you'll do.

A real wonder of the world, isn't it?

## Breck Softball League To Sponsor Tournament

BRECKENRIDGE—The Breckenridge Softball Association will sponsor a mixed softball tournament July 8-10 at the Breckenridge Softball Complex.

Entry fee is \$85.00 and entry deadline is July 5.

First through fourth place team trophies will be awarded along with first and second place individual trophies.

Rules for the tournament

are a) five men and five women required on field at all times; b) men and women must alternate in batting order and field position; c) men must use a 28 inch bat; d) blue dot ball is required; and e) balls hit over the fence are automatic outs.

To enter your team call Vicky Farmer at (817) 559-2784 or Libby Robinett at (817) 559-8644.

## Bass Club Report

"Attention" sportsmen and women. July 7th the Eastland County Bass Club will hold its monthly meeting at the Cisco National Bank Bldg. All persons wishing to learn more about how our organization functions are urged to attend. Meeting time will be at 7:30 p.m. Thursday. For more information please contact Bobby Maynard at 629-1510. There will be a short program presented. Also we shall discuss items concerning our invitational to be held September 18th. Plus lots more.

With our temperatures beginning to soar we might all remember night fishing. The summer months are when night fishing can really add some weight to a stringer. Its actually more comfortable fishing too. Its cooler. And there is less boat traffic. Generally the fish

move into shallower water to feed. Some choice baits to chunk are spinner baits, top water baits, and the ever popular worm. As with daylight fishing persistence and dedication must be applied.

Recent catches from local lakes have been excellent for this time of year. Leon has produced numerous 4 lb. fish with some 2 and 3 lbs. following. Daniels is perhaps the big story having relinquished 2 fish in the 6 lb. range to Tommy Maynard of Eastland. Tommy's largest fish weighed in at 6 lbs. Eastland lake is still producing some fine stringers of bass and channel cat. Remember its the season for tornadoes and high winds. Keep aware of the weather at all times on those fishing trips. Good luck and keep plugging.

WINONA PAYNE  
New CCC Director

## Winona Payne Is Hired At Child Care Center

Mrs. Winona Payne, who moved here recently from California, has assumed duties as director of the Cisco Child Care Center, according to an announcement by LeRoy Witzsche, chairman of the board. She succeeded Mrs. Gertrude Bessalaar who passed away last spring.

Mrs. Payne, a native of San Francisco, lived in Cisco from 1946 to 1951. She finished high school in Mt. Shasta, Calif., and attended the College of the Siskiyous in Weed, Calif., where she lived for many years.

Her training has included studies in first aid and child care. She served for 11 years as a teacher's aide in Weed.

## CJC Plans Basketball Camp Here

The third annual Cisco Junior College Basketball camps for girls and boys will be held in July. Girls camp will be held July 11-15 and boys camp will be July 18-22.

Camp participants must be in at least the 6th grade next year and must not be older than junior varsity age. Campers will learn offensive and defensive skills plus gain valuable experience by playing against competition of their own age and skill levels.

Cost is \$70 for commuters and \$115 for dorm residents per week-long session. For information concerning the camps contact Mr. Carroll Scott at (817)442-2567.

## New CJC Coach Is Busy Recruiting

Dan Montgomery, recently hired as the boys basketball coach at Cisco Junior College, has spent most of the time since his employment in recruiting athletes, he told The Press Friday. He expects to have good prospects for a team when school opens in late August.

Mr. Montgomery, a native of Fairfield in East Texas, has been in coaching for 24 years and came to Cisco from St. Edwards University at Austin where he spent the past four years. He was available for the local post when St. Edward's decided to do away with their basketball program as an economy measure.

Mr. Montgomery holds BS and MED degrees from Sam Houston State University where he played college basketball. His high school coaching career included nine years at Silsbee, where his teams won six district crowns, and four years at Kerrville Tivy High School where he had three district winners.

At St. Edwards, Mr. Montgomery had a NAIA District 4 finalist one year and his team went to the national semi-finals this year.

Mr. Montgomery and his wife Joan have a seven-year old son who will be a second grader this fall. They are Methodists. He said they were looking forward to moving to Cisco and to becoming a part of the community.

DAN MONTGOMERY  
CJC BASKETBALL COACH

## Musical Set For Roof Garden Here

By Phillip Craik, Director

Some people may wonder why a small and intimate dinner theatre like the Roof Garden in Cisco would go to the trouble and expense (believe me—there is a lot of expense) to produce a major Broadway musical as part of their summer season. After all the theatre only measures 30' from stage right wall to stage left wall with a maximum seating capacity of 65 people. Considering the fact that there are 26 actors in the cast, one might think that the ratio of 2½ audience members to every performer is a little bit crazy, right? Maybe so, but it also makes for very compelling theatre. The action is so close that it is impossible for the audience to remain uninvolved. The music not only touches but envelops the audience. The Musical Comedy has been called America's greatest native art form, but it is rare that a small community can muster the many talents necessary to do one well. Under the direction of Clay Freman, who works during the year as a teacher and director at New Mexico State University, the Roof Garden Dinner Theatre will be presenting one of the greatest musicals ever written, Fiddler on the Roof July 7-10, 14-16, 21-23 in what is sure to be one of the most entertaining and talked about productions ever done here. Ticket sales are far ahead of last year's sold out productions of A Funny Thing Happened on the Way to the Forum at this time, so it is recommended that reservations be made right away. Call (817) 442-2567 weekdays 9 to 5 or (817) 442-2589 after hours and on weekends.

## Scranton Musical Planned Saturday

There will be a Country and Western Musical at Scranton Community Center Saturday, July 2nd, beginning at 7:00.

Everyone is invited, especially area musicians. There will be a concession stand.

## LL Braves To Play In Tourney

The Little League Braves, winners of the 1983 season, will go to Coleman on Wednesday, July 6, to represent Cisco in a regional tournament for junior baseball teams.

The Braves, sponsored by the Little League by the First National Bank, will meet Albany at 8 p.m. Wednesday in the tournament. The winner will play again Friday night, and the two Friday night winners will play in the finals Saturday night.

The Braves, coached by Joe Flores and Vivian Wilcoxon, have been working out regularly since the end of the league season.

Members of the squad are Raymond Benavides, Davin Hohertz, Anna Flores, Ronnie Wilcoxon, Paul Flores, Brian Callarman, Mike

Green, Lance Moore, Scot Stewart, Ross Escobedo, Dale Escobedo, Chad Flores, and Melissa Grumbles.

## Thackerson Reunion Held

The two living children of the late Mr. and Mrs. W.T. Thackerson, their families and some friends met June 25th and June 26th at 207 Armstrong for their 25th annual reunion.

Larry Vickers gave the invocation at noon Sunday.

Those present were Mr. and Mrs. Dick Thackerson, Stacey Lynn Thackerson, Ricky Thackerson, Mr. and Mrs. Art Beam, Jonna, Brenda and Lori Beam, Robert and Amy Routh, Irving; Mrs. Lottie Thackerson Lassiter and Garland Payne, Hamlin; Mrs. Luda Thackerson, Dewey Nichols, Mr. and Mrs. Harold Routh, Mr. and Mrs. Larry Vickers, Brandy Lewis, Mr. and Mrs. Winston Wharton, Mr. and Mrs. Larry Vicks, and An-

drea, Mr. and Mrs. Tom Stalik, Joe, Charles and Sarah, Odessa; Mr. and Mrs. Bill Jerguson and Zane, Mikey Bifkin, Princeton; Mr. and Mrs. James Thackerson and Tony, Carbon; Ann Cunningham, Max Satterwhite, Mrs. M.B. Payne, Mrs. Red Dalton, Cisco; Mr. and Mrs. Toliver Tucker, Brownwood; Roy D. Gann, Eastland; and Miss Terry Hemby, Grand Prairie.

## Truck Driver Injured In I-20 Accident

Special To The Press  
By Maybelle Trout

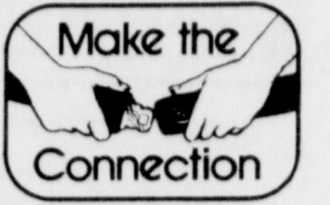

CISCO-William Douglas Ford, 35, of San Antonio, was admitted to the E.L. Graham Hospital in Cisco after his east bound truck struck a parked truck about 5:45 a.m. Wednesday. According to Kenneth

Rose D.P.S. Trooper, Ford, driving a Merchant's Truck and pulling two loaded trailers, struck a truck that had broken down and pulled off Int. 20 about a mile west of Cisco.

One of Ford's trailers broke open on the right side, spilling cosmetics along the roadway. Oil in the cosmetics coated the Interstate at the scene.

Both trucks were heavily damaged. The parked one was carrying military cargo. The trailer remained intact. Driver of this truck was Andrew Daniel Malloy, 43 of Orlando, Fla.

Cisco police were first at the scene and directed the traffic until the trooper arrived.

## Chamnesses Back From Convention

Archie Chamness, member of the Cisco Evening Lions Club, took office as governor of District 2-E1 in ceremonies at a banquet Tuesday evening, June 21, at the annual convention of Lions International in Honolulu, Hawaii.

All incoming district governors attended a 3-day mandatory training seminar

prior to the convention and they took over their posts on the first day of the convention. The seminar's purpose was to acquaint the new governors with their work and to provide them with special training. A total of 643 districts make up the Lions International organization. The convention ratified the

action by the Council of Governors of the State of Texas in electing Mr. Chamness to the office of state executive secretary in Texas.

Dr. Jim Fowler of Little Rock, Ark., was elected president of Lions International at the June 25th session. He succeeded Lion Ebb

Grindstaff of Ballinger who held the office during the past year.

Mrs. Archie Chamness and their daughter, Frances, who accompanied the new district governor, attended a tea given by Mrs. Grindstaff and Mrs. Fowler, and took part in numerous other events on the program.

A "twining" luncheon was held for the governors one day. At this event, governors from different districts were paired, and Mr. Chamness was with Gov. Raquel Jose Ramirez of District B-15, Chiapas, Mexico. Through an interpreter, Mr. Chamness learned that his partner was an attorney. They exchanged gifts, and Mr. Chamness was invited to attend a convention in Mexico this year.

On July 22nd, a four-hour parade was held with clubs and districts from around the world, some wearing colorful costumes. Mr. Chamness marched with the Texas ladies' group, and they carried the 157 flags of countries represented by Lionism. Mrs. Chamness carried the Pakistan flag. The parade was 1.3 miles long, and the Texas 100-member band participated.

While in Honolulu, the Chamness as well as all other governors and their wives were housed in the Hilton Hawaiian Village on Waikiki Beach. Other Texas delegates stayed at the Sheraton nearby.

Texans joined Lions from other states and countries in a favorite hobby - trading club pins. Mr. Chamness traded for quite a number.

The 15 Texas governor couples spent a lot of time together and they had occasion to celebrate a number of anniversaries and birthdays, including Mrs. Chamness' birthday. The group attended a luau on Paradise Cove, took a Love Boat dinner cruise, and the ladies enjoyed a four hour city bus tour.

The ladies enjoyed visiting Hilo Hattie's muu muu factory and show room where products included dresses, shirts, swim wear and the like. They visited the Dole Pineapple Cannery, and a fashion show featured beautiful models to show clothing native to the country.

A special trip to see Pearl Harbor was enjoyed, and this included a visit to the USS Arizona Memorial and a program that told the story of the bombing of Pearl Harbor.

The annual international show was an outstanding event of entertainment. This included a group of elementary school age boys with well trained voices, a group from China performing a Dance of the Lions in full regalia, and music by a big band era - with the sound of Glen Miller featuring Helen Forrest as soloist.

Art Linkletter, nationally known entertainer, was present to receive a special award for his work in the drug abuse program. He has been active in this field for several years, and this was a major Lions project during the past year.

The Chamnesses left DFW airport on June 18th and returned June 27th. They described their trip as interesting and rewarding and recommended a Hawaii vacation to everyone.

DISTRICT GOVERNOR Archie Chamness of Cisco and District 2-E1 is shown at left above with his "twin" governor, Raquel Jose Ramirez, of Chiapas, Mexico, at a dinner during the convention.

THE 15 NEW District Governors of Texas Lions Clubs were photographed above. Archie Chamness of Cisco, third from left, was installed at the International Convention in Honolulu June 22-25.

# County News Briefs

## EASTLAND

Notice: The Driver's License Office of the Department of Public Safety will be closed Monday, July 4 for the holiday.

"The Prodigal", a World Wide Pictures Release, will show at the Majestic Theatre July 8 through 10. There will be a Sunday matinee at 2:00 p.m. Tickets will be \$3.00, with children under 12 admitted for \$1.50. Discounts are available for church groups.

The Jaycees are sponsoring a special Fourth of July celebration at City Park Hill. Booths featuring arts, crafts and exhibits will be open at 9:00 a.m. Activities, including free swimming, musical groups and programs, will continue throughout the day. Among the food booths will be Oscar's Barbeque and the Pizza House. A large fireworks display will be presented at dusk.

Construction workers are making good progress with the Eastland Wal-Mart store, which will be located on the site formerly occupied by Gibsons. Beams and a roof are being installed to a new section of the existing building. The store is expected to open later this year.

## CISCO

The annual community Fourth of July observance will begin at 9:45 a.m. with a flag raising. Activities will continue all day, climaxed with a big fireworks display around 10:00 p.m. There will be a carnival and a big assortment of games and events for all ages. A Food Booth will be open to serve barbeque sandwiches and other food and drinks. There will be special music by local bands.

Work will begin Monday, July 11 on the Front Street paving project. The Zack Burkett Company of Graham was low bidder for the project, which will cost \$80,000. Plans call for the project to be finished by mid-September, City Manager Mike Moore stated.

## RANGER

Rev. James Van Rite became pastor of the First United Methodist Church in Ranger July 19. A native of Shreveport, Louisiana, Van Rite has been pastoring for seven years. He comes to Ranger from Oakdale United Methodist Church in Stephenville. He and his wife Mary Lou have two sons.

## RISING STAR

A number of civic-minded Rising Star citizens have recently contributed to the City of Rising Star for street repair and road work. Mayor Doris R. Griffin expresses appreciation for this assistance.

Various ways of establishing wells in the City for a gas supply are being explored by the City Council. One oil man pointed out that within the approx. 1.7 square miles in the City of Rising Star there should be an outstanding potential for gas/oil being found.

## Episcopal Diocese

# Official Seal Is Now Complete

The Rev. John A. Holmes, Vicar of the Holy Trinity Episcopal Church in Eastland, reports that the official seal of the Ft. Worth Diocese is now complete.

The territory of this historic Diocese reaches from Tarrant County on the east through Eastland County on the west; from the Oklahoma line on the north

## DPS Office

### Estimates 49

### Traffic Deaths

Captain G. J. Matthews, Highway Patrol Commander of the Abilene District of the Texas Department of Public Safety said, "Excessive speed and Driving While intoxicated will prove to be high way killers during this July 4th holiday weekend." "Those two violations of the traffic law will in all probability, account for more than one half of the estimated 49 traffic deaths during this holiday weekend," Captain Matthews said.

Last year, during the July 4th weekend, 64 traffic deaths were tabulated by the Texas Department of Public Safety.

The DPS will again be conducting "Operation Motorcade" during this weekend. "Operation Motorcade" is a time when all fatal traffic accidents are reported to the DPS headquarters in Austin so they can be tabulated and information can be released to the new media. This is done to try to focus public attention on the dangers of driving during peak holiday periods, hoping to hold death toll as low as possible, Matthews added. He stated, "We have to have voluntary compliance of the traffic laws, by the majority of the motoring public in order to be successful in reducing accidents."

through Brownwood, Dublin and Stephenville. The Holy Trinity Church serves the Eastland County area.

In keeping with the highly developed discipline of heraldry, one of the designers of the seal, Eugene Maxey, is an expert in the science and heraldry and holds membership in heraldry societies in America, England, Scotland and Canada.

Each Diocese of the Anglican Communion has an official seal which reflects something of the nature of the life of the Diocese.

"In this new seal our heritage and commitment to our Lord's mission are artistically set forth," states the Rt. Rev'd. A. Donald Davies, Bishop of Ft. Worth. He explains the meaning of each symbol.

"FT. WORTH the See City, is indicated by the fortress battlements which divide the Shield through the center horizontally.

"THE LONGHORN STEER, a symbol of a major industry within the Diocese, is also a reminder of the frontier spirit and the venturesome nature of the people of God in this part of the country.

"TWO RIVERS, a symbol of God's nourishment of the created order, flow beneath the steer. The Trinity and Brazos rivers are our links with other Dioceses and peoples in Texas.

"THE STAR has a two fold meaning. In Christendom the five pointed Star symbolizes Christ and it also stands for the Lone Star State of Texas.

"THE GRIFFIN, symbol of guardianship of the Faithful, is in the upper left corner. The Griffin, half lion and half eagle, is an ancient symbol used by the Celtic people of Great Britain.

"It is utilized in the seal of the Diocese of Dallas to indicate our heritage with the Church of England. We chose the Griffin because of our Welsh heritage and our linkage with the Diocese of

Dallas. The Apostolic succession of the American Episcopate flowed through David, Patron Saint and Bishop of Wales.

"THE KEYS OF ST. PETER depict the authority of the Apostolic ministry bestowed upon the Church by our Lord.

"THE BISHOP'S STAFF, in black and silver, resembles the crozier used by the Bishop.

"THE BANNER carries a motto: LOS BRAZOS DE DIOS, or 'The Arms Of God'. Written in Spanish to reflect the Hispanic culture in Texas, the motto is a reminder of our Servanthood. While Christians are upheld and supported by 'the arms of God', Christians are cognizant that by His Grace we are to be 'the arms of God' in the Lord's work and mission in today's world."

## church services ...

**REDEEMER LUTHERAN CHURCH**  
Sunday school and Bible classes begin at 9:30 a.m. Pastor Crockett's message is entitled "God's Fearless Champions!" based on I Kings 19:14-21. "Flashy new cars rust and even rot; machines become out-of-

date. But Jesus Christ is the eternal Rock which disappointment cannot damage," says the Rev. Wallace Schulz, associate speaker on the Lutheran Hour. Hear his message "A Certain Future" on radio station KERC in Eastland Sunday at 12:30 p.m. There will be a Quarterly Voter's Meeting in the Parish Hall at 2:30 p.m. Sunday.

### BIRTHDAYS

We salute the following Ciscoans who will observe birthdays during the week:  
July 4—Ben Krauskopf, Katherine Foreman Smith, O.W. Kean, Mrs. Jim Baird, Theron Darr, Arron Darr, Fred Brashier, Barbara Boyd, Beth Guthrie, Larry Jacobs, Mary Torres, Jack Stephenson, Lenora Yrene Soto.

July 5—Emma Lee Donovan, Lana Gaines, L.E. Sublett Jr., Mrs. C.W. Henry, Mrs. E.V. Hays.

July 6—Ollie Hughes, Mrs. L.A. Warren, Eula Smallwood, Peggy Kinney, Betha Brashears, Sue Gillean, Carole Richardson, Lonnie Payne.

July 7—Mrs. C.P. Everett, Rex Taylor, Della Carlile, Tim Norvell, Janice Ziehr, James R. Callarman, Leonard Garces.

July 8—Mrs. Ollie Shirley, Sarah Ann Cortez, C.R. Preston, Donald Miller, Robert F. Blackstock, Francis Oakley, James Roy Agnew, Stanley Livingston, Randy Parks.

July 9—Judy Rendall Hall, Mrs. Roy Hathaway, Jacqueline Hendricks, Mrs. Mary Huffman, Mrs. W.T. Dowda, Mrs. R.L. Slaughter, Ricky Miller, Paula Coats Hutt, Mrs. Joe Hazard.

July 10—James Weathers, Sammy Smith, Mrs. Clinton Pierce, Jimmy Jackson.  
Couples celebrating anniversaries during the week include: Mr. and Mrs. L.A. Warren, Mr. and Mrs. Novel Barnhill, Mr. and Mrs. Billy Joe Taylor, July 4; Mr. and Mrs. H.C. Adling, July 7; Mr. and Mrs. Delbert Schaefer, July 8; Mr. and Mrs. Harold Reich, July 9; Mr. and Mrs. Jack Anderson, July 10.

### 1.3 Inches Rain Recorded In June

Some two tenths of an inch of rain with light hail fell in Cisco last Wednesday night during a thunderstorm to bring the total for the month of June to 1.30 inches, according to records at the fire station.  
The Cisco area has received 8.6 inches for the year through June, records showed.

On Tuesday at 9:30 a.m. the LWML will meet in the Parish Hall for Topic and Business.

The Cisco Nursing Center Worship Service will be on Wednesday at 10:00 a.m. Choir practice will be Wednesday night at 7:30 p.m.

The 55th Synod Conference will be held at St. Louis, Mo. from July 8th to the 15th.

### Mrs. Owens On Lions Program, Webb Honored

Mrs. George Owens played the piano and sang popular music as the program feature last Wednesday noon at the weekly luncheon of the Cisco Lions Club at the Colony Restaurant.

Ralph Glenn, program chairman, introduced Mrs. Owens and noted that she was leaving her position as director of the Wrangler Belles at Cisco Junior College at the end of June. "She has done an outstanding job," he said.

President Ivan Webb, who presided at the luncheon for the last time as the incoming president, C.B. Dill, takes over July 1, was given a standing ovation for a job well done.

Mr. Webb reported that volunteer workers are still on the job most late afternoons in an effort to complete the City Park picnic pavilion that the club is building as a memorial to deceased members. The roof has been finished and other parts of the structure are well underway. Plans call for the concrete floor to be poured after July 4th.

Work on the building will be continuing each late afternoon and on Saturday, Mr. Webb added.

Lion W.E. (Dizzy) Dean presented the club a screen for use in occasional motion picture and picture slides programs at luncheons.

Secretary Jasper Cook announced that the club's directors will hold a monthly meeting Tuesday at 7 a.m. at the Colony.

Guests at the luncheon were Donald L. Johnson, Marcus Ray, Jr., Owen King, Monte Lewis and Elizabeth Webb. Mr. King was introduced as a new member of the club. He moved to Cisco recently from Arlington.

### Senior Citizens Nutrition Menu

The Senior Center will be closed Monday, July 4, so the members and staff will be able to celebrate Fourth of July with friends and families. If you are traveling, be sure and drive with caution. We want every member of the Center to return safely.

The programs for the past week included: An Independence Day program by Jack and Faye Stephenson singing and Carolyn Sipe accompanied on the piano. Nutrition program by Janet Thomas, June birthdays and anniversaries were recognized, S/C Band and Choir entertaining and dinner music by Marguerite King, Billie Wood and Ima Thompson.

The menus for the coming week are:

Monday--July 4. The Senior Center will be closed. Wednesday--oven fried steak/cream gravy, whipped potatoes, green beans, carrot-cabbage slaw, vanilla pudding, bread, butter and drink.

Friday--baked chicken/bar-b-q sauce, pinto beans, sliced onion, potato salad, orange jello/pineapple, bread, butter and drink.

### community calendar ...

# People n Things

THE CISCO Lions Club will be pleased if you'll have July the 4th lunch (or supper or both) with them at City Park. They'll have a food booth open from 11 a.m. until closing time and will be serving all kinds of goodies, including barbecued brisket sandwiches, sausage on a stick (with a piece of bread), and the like.

The price will be right and Lions need the money to replenish their treasury after paying for the picnic pavilion at City Park. Their food booth will be operating in the pavilion, by the way. You can eat there or take food home with you.

The chefs, headed by Roy Dennis, will include Brad Kimbrough, O.L. Stamey, Wyley Peebles, E.L. Jackson, Olin Odom, Ronnie Ledbetter, Winston Heidenheimer, Jay Richardson, Rev. Cliff Reneau, Dr. C.M. Cleveland and W.E. (Dizzy) Dean.

THE LIONS Club heard Mrs. George (Pat) Owens sing at their noon luncheon last Wednesday. She said that when she sang there last year she decided that she wouldn't again but, then, she heard George Burns on television say that he didn't start to sing until he was 80.

"How old are you?" a Lion asked Mrs. GO. He didn't get an answer but she sang beautifully, as usual.

The audience included Mrs. Ivan (Elizabeth) Webb, who observed after the program "I'm one of Pat Owens' girls and proud of it." Mrs. IW was a Wrangler Belle captain one year while Mrs. GO was directing the Belles.

As you know, Mrs. GO resigned recently after 15 years as the major domo of the Belles. Dr. Norman Wallace, CJC prexy, tells us that they're close to naming a replacement for Mrs. GO. Dr. Wallace also reports they're finished the fountain in front of the CJC Library after two years and you're invited to go out and see it.

IF YOU HEAR the Roy Dennises and their children, Julie, Brady and Crystal and Julie's friend Shannon Anderson humming C&W tunes, don't be surprised. They're back from Silver Dollar City, Mo., which is a miniature Nashville, and they attended a number of shows and heard a lot of good music during a vacation over that way.

The Dennises run Quickway Grocery, you know, and they've recently added some tables inside and out for the benefit of folks who might want to eat there.

THE CHURCH of Christ, Avenue N at I-20, has just completed sponsoring two summer camping events for young people at the Lake Cisco camp, reports Minister Jim Hatcher. They had 116 campers for the first session and 93 for the second, which ended last week.

Other Church of Christ congregations of this region are holding camps for young people out there during the summer months. In fact, the camp is booked solid through the summer.

GLAD TO HEAR that Dr. C.M. Cleveland, who suffered painful and serious burns in a mishap at his ranch a few months ago, is now able to be in his office on a limited basis. The Dr. E.E. Addy Clinic will shut-down July 11th for their annual vacation, and a highlight for the Addys will be taking their Houston grandson to Six Flags. The Truman Kirks had thawed out when we ran into him the other day. They had spent a week at Aspen, Colorado, where snow still is present in good quantity and the weather is crisp and cool. And they ran into 104-degree temperatures en route home.

"HOW DO YOU get one of those caps?" asked a man, admiring a baseball cap with a CJC insignia on it that we were wearing.

"You go out to the book store in the Student Union Building, throw down \$3.50 and say 'gemme one of those caps,'" we told him. They have blue ones and white ones. And both are nice.

A REAL LIVE skunk strolled down the alley back

of Cisco Funeral Home last Wednesday poked around a bit back of the Town House Catering business, came on down the alley and looked in at Patty Rodriguez briefly. Said skunk then crossed Avenue E and looked in at Commercial Printing Co., saw nothing he liked and then took off down the alley toward the old First National Bank building.

Somebody had alerted city police and they were hot on the skunk's trail when we stopped watching.

THE ERIS Ritchie headquarters in Abilene was closing this weekend, and the family was moving back to Cisco after about a month there while the Cisco mayor directed a summer camping program for cheerleaders, drum majors and twirlers at H-SU.

Mr. ER will be in Houston as another camping program opens there for a month or so, and then he'll go to San Antonio where the annual summer project ends in August.

Mrs. ER, who is doing nicely following surgery recently, and their children will remain in Cisco except for occasional visits in Houston and San Antonio with Eris. Their son Matt is taking summer school course at ACU right now.

MET UP WITH Mrs. Kenneth Leach, the former Christina Stroebel, in town the other day. She and two children are here visiting in the home of her parents, the Carl Stroebels, for a week or so.

Mr. Leach, who also grew up here, is assistant superintendent of the school system at Katy, near Houston, and is busy helping direct a \$15,000,000 construction program this summer.

IF YOU'RE planning a bit of firecracker shooting this July the 4th you'll want to remember that the city has an ordinance against same. Mrs. Jim Sitton and three children of El Paso spent Wednesday and Thursday in Cisco enroute home from Gilmer where they visited her parents. And new golfer Ed Bradshaw scored his first birdie - a two on No. 2 - the other day.

## CARD OF THANKS

CARD OF THANKS  
With grateful hearts, we thank all those who did so much to help us in our time of grief. The kindness and thoughtfulness shown us was indeed helpful.

The family of Edward Morris  
Wilma Morris  
Norma Morris  
Don Morris

CARD OF THANKS  
The family of C.C. Cooper would like to thank friends, relatives, and neighbors who tried to make our time of sorrow a little easier. Thank you for your love, prayers, and concern. A special thanks to Brad Kimbrough, Mr. Dudley, Rev. David Atkins, Wesley United Methodist Church and First Evangelical Methodist Church. Your help and understanding was greatly appreciated.

Also a special thank-you to John Clinton for the service that we all thought special and expressed what we all felt about "Pampaw" Cooper.  
Thanks again.  
The family of C.C. Cooper

## CARD OF THANKS

A special thanks to everyone for their prayers, financial help, visits, calls, flowers and cards. Please keep praying for Wayne. May God Bless each of you in the wishes of the Pryor family.

# 'Fiddler On The Roof' Set For Dinner Theatre

FIDDLER ON THE ROOF, by Joseph Stein, Jerry Bock, and Sheldon Harnick. Based on the Sholem Aleichem stories placed in Tsarist Russia, the play centers around Tevye, a simple peasant dairyman, who along

## Fireworks In City Illegal

The use of fireworks within the city limits is prohibited by city ordinances and violations are punishable by fines, city officials pointed out this week.

Anyone shooting fireworks inside the city after 10 p.m. at night can be charged with disturbing the peace as well as with violating a city ordinance, it was pointed out.

Cisco Volunteer Firemen will have a truck and a standby crew on duty in the City Park area during the public fireworks show Monday night, July 4, firemen reported.

## Wayne Pryor In Serious Condition

Wayne Pryor injured in an auto accident May 25th, is in serious but stable condition in Hendrick Memorial Center, Abilene. He is in room 4715 C.

A special account fund for Wayne Pryor is set by friends as of this date is \$745.00. Contributions may be left at the First National Bank, Cisco or at the The Man's Store.

Wayne suffered a serious head injury, had brain surgery on June 16, three vertebra in neck are broken resulting in spinal injury, being paralyzed from waist down.

with his wife and daughters, comprise one of the hard-working families of the small town of Anatevka. Their lives are filled with simple joys of living guided

by their ability to take adversity with gentle humor and an abiding faith in God. Well-known songs from the score include "Matchmaker, Matchmaker," "If I Were A

Rich Man," and "Sunrise, Sunset."

Tickets for dinner and show are \$12.50 with dinner served at 7 p.m. Reservations can be made by calling (817) 442-2567 weekdays 9 to 5 or 442-2589 after hours and

on weekends. Last summer's musical production of A FUNNY THING HAPPENED ON THE WAY TO THE FORUM was a complete sell-out so it is recommended that reservations be made well in advance of the performance.
