May 6-12 Is Proclaimed As Texas Hospital Week

The week of May 6-12 will be a special time at E.L. Graham Memorial Hospital in Cisco. Nurses and Auxiliaries will be recognized for their service to hospital patients and the community. Their work reflects dedicated efforts to promote better health.

Kitty McCracken, president of the E.L. Graham Memorial Hospital Auxiliary, is providing inspired leadership for the volunteer group. Alice Rodgers, R.N., recently assumed her duties as Director of Nursing Service.

The fifth grade classes of Cisco Intermediate School are paying tribute to those involved in providing care in the hospital setting by participating in a poster contest. Helen Orr, hospital administrator, encourages everyone to express their appreciation to nurses and hospital volunteers during the coming week.

In recognition of the week, Cisco Mayor Eris Ritchie signed a proclamation for Texas Hospital Week.

The proclamation follows: TEXAS HOSPITAL WEEK By His Honor Eris Ritchie

A PROCLAMATION 1984

WHEREAS, The City of Cisco joins other communities throughout Texas and the nation in paying tribute to the dedicated hospital professionals who provide skilled, compassionate health care to our

citizens, NOW, THEREFORE, I Eris Ritchie, as Mayor of Cisco, do hereby proclaim May 6-12, 1984 as HOSPITAL WEEK in Cisco, and urge its members to take cognizance of this event and to participate fittingly in its observance.

Given at City Hall in Cisco this April 30 in the year one thousand nine hundred and eighty four.

'Martyrs Of The Underground' To Be Shown At Maranatha Baptist

"Martyrs of the Underground," will be shown at Maranatha Baptist Church Sunday, May 6, at 6:30 p.m.

The film provides a stirring insight into communism's losing battle against the Kingdom of God. It brings home the cost of discipleship in Marxist Countries and it challenges

every viewer to support these courageous brothers and sisters in Christ, according to Bro. Jones, pastor.

The film shows a group of Christians, gathered for a time of fellowship and Bible study. Suddenly, their peace is shattered by uniformed policemen storming into the

meeting place, seizing all Bibles, arresting the pastor, and telling the church members to disperse and desist from such "unlawful" activities.

The public is invited to attend Sunday night. The church is located on Hwy 80 West of Eastland.

letters to the editor ...

Dear Editor
The City has received numerous complaints over the last two months regarding dogs running loose, causing property damage, getting into garbage, and generally being a tremendous nuisance. The City has a "Leash Law" ordinance which requires all dogs to be either penned-up on the owners property or be on a leash.

Effective immediately the City will be strictly enforcing its leash law ordinance. Any dog running loose is subject to be picked up and impounded; and, if not properly claimed, will be disposed of. Owners of dogs who are habitual or flagrant violators of the ordinance will be issued a citation, which, upon conviction, could result in a fine of \$200 per violation per day.

A great portion of the City's problem with dogs running loose can be eliminated by the owners of the dogs acting responsibly and having a little consideration for their neighbors and their community.

The City's animal control efforts are supervised through the Police Department, with the Animal Control Officer's normal working hours being after 3:00 p.m. on workdays and on-call basis on Saturdays. If any citizen has a particular complaint regarding dogs running loose, please contact the Police Department at 442-1770. Everything possible will be done to address

the complaint.

Cisco Police Department Makes One Arrest May 1

The Cisco Police Department made one arrest, investigated three offenses and checked on five incidents during the past week, according to a report by Chief Billy Rains.

On Tuesday, May 1, at 6 p.m., Cisco Sergeant Thumsden and Patrolman Haskins arrested a white female, age 25, on Comanche County warrants. She was alleged to have committed a theft over \$20 and under \$200 in that county.

In the offenses, Chief Rains received a report from Bill Hester at the Colony Car Wash at 8:20 a.m., Monday, for criminal mischief. Someone had reportedly taken a large tool and defaced the dollar bill changing machine at the car wash. The cost of the damage was unknown.

Chief Rains also received a report on Monday at 11:45 a.m. from David Eaton of Cisco for wreckless damage. Mr. Eaton said that while his 1983 Chevrolet pickup was

parked at the Sonic Drive-In, another vehicle spun out throwing rocks against his pickup and chipping the paint. There was \$297 of damage reported.

At 9 a.m. Wednesday, Chief Rains received a report from Revis Gregg of Cisco that a garden tiller had been taken from his back yard. The amount of the theft was not available.

Incidents reported were a possible prowler in the 900 block of West 12th. Officers checked on the call and were unable to locate anyone. Disorderly conduct with a motor vehicle was reported on Wednesday, when a motorist swerved at two pedestrians. Also on Wednesday, a local business reported a man with a large knife came into their store at 10:30 p.m., looked around and then left. Officers were unable to locate the person.

A prowler was also reported in the 1400 block of Avenue H, but officers were unable to locate anyone. Chief Rains reported that he handled a disturbance call Friday morning in the 500 block of West 10th. He said the disturbance was between a man and his wife, but Chief Rains said they were able to get the matter settled.

Poem For Ruby Lassiter

"Ruby Lassiter" - These are the blessings and tokens of love in my passing years!!

May 1, 1984
Today I am '84'
Am I old, Am I helpless?
Do I look forward to living any more?
I'm not old, in many ways,
I'm not helpless in my love!!
I am thankful for my many days.
I am most blessed from the Father above.
I have seen the lengthen shadows, and the shortend day!!
I have moments of flash back, Some of my days, have been blue, even gray.
Others have been gorgeous, with beautiful mornings, no sunshine or love did I lack!!
In these passing things, way of life, there have been much happiness, and a flood of tears.
I have loved, I do love, I have been happy, I have been sad!!
I lost my husband, very young in life, I had three small children, two little girls and a little lad.
I have had winters, and winter storms of cold dew falling.
I have had moments of worry, I've heard my children and their calling!!
Depending on me, for all the things of life- for all their needs, their teaching, their luck, and their strife.
I put them to bed, placed

the cover to keep them warm, and watched them sleep!
I would do my work at home, and pray for another day.
I've been lonely - I would sometimes even weep!
Yet! I knew My God was watching over my children and me.
And caring for my little ones letting me provide, giving me food, letting me see!!
Someway I would rear them, some way I'd have the funds.
Now my children are grown, and proud!
They have children, they all show their love, they shout it Loud!
I am so thankful, as I sit here today.
Thank "God" for my life, my wealth. Yes I am rich, as I celebrate my '84' birthday, it's been love, as I pray!!
Yet, I'm so thankful, I'm in my home!!
I'm thankful for my health!
I've seen all things, all kinds of changes, in my '84' years - I've had happiness, I've been blessed,
I've had sorrow, I've had tears!
Yet, I am so thankful of all my Blessings!
I trust there will be more - but if not for me,
Then I will say, "Thank You My Lord" for my wonderful '84'!

Cisco College Women Meet For Final Luncheon April 29

The Cisco College Women met for their final luncheon and meeting of the college year Friday, April 29, at the Laguna Hotel.

Annita Ritchie, owner of the Lemon Tree Boutique, presented a style show for the ladies enjoyment. Styles for spring and summer were shown, with models showing both adult and children's clothes. Models in the style show were Kim Jones, April McCulloch, Eve Elton, Katie Keyes, Gabe Moore, Michael Ritchie, Meridith Davies, Holly Ritchie, Jami Roberts, Julie Dennis, Paula Potter, Tani Elton, Karen Fisher, Robin Ritchie, Anita Wheat, Myrtle Shaw, Jodi Crudginton, Burnice Gorr, Tricie Whitley, Elizabeth Webb and Sheila Hartsell.

Catherine Muller presented gifts to Carolyn Page and Helen Wallace from the club. Mrs. Pace is retiring from teaching at the college this year, and Mrs.

Wallace is moving. Mrs. Wallace was the founder of the Cisco College Women's Club ten years ago.

The club will not meet during the summer, but will continue their luncheons in the fall.

Older Couples Often Will Settle For One Car

COLLEGE STATION-- After many years of being a two-car family, older couples often settle for one car.

And who drives? Mile after mile, short trip or long, the husband does the driving. Seldom does the wife get behind the wheel except to run to the grocery store or to a club meeting, says Texas A&M University Agricultural Extension Agent Specialist Dr. Judith Warren.

Some wives simply stop driving and fail to renew

their driver's license. During those years driving skills and confidence are lost, along with competence to maneuver in freeway traffic.

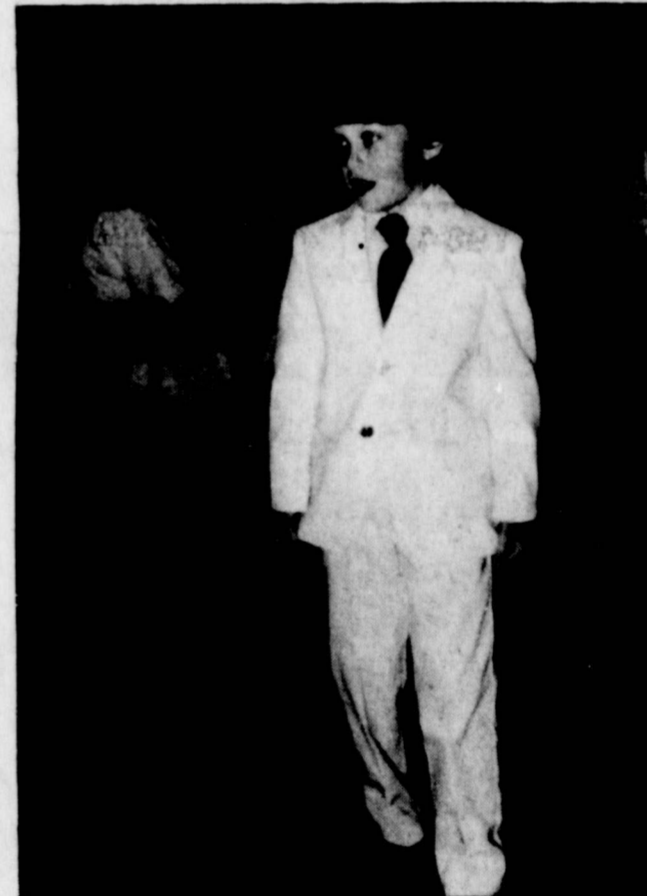

When their husbands become ill or they are widowed, these wives may become stranded and dependent, although they may remain in good health and have a car in the garage.

"Typically, these isolated widows do not venture out very much unless someone providing transportation insists," Warren observes.

"Neither do they see their physician, hairdresser or friends as often as they should, because they no longer drive."

KAREN FISHER

MICHAEL RITCHIE

"Maintaining driving skills may be essential to the wife's independence after a husband dies. Thoughtful husbands will help their wives keep up their driving skills and keep them informed on auto maintenance routines," she believes.

"Knowing how to check the oil level, tire pressure, battery fluid level, and mileage between routine servicing may not convert wives or widows to do-it-yourself minor maintenance. It will, however, help them know what has to be done and how often, says the specialist.

The thoughtful husband will insist that his wife drive at least half the time, even in freeway traffic, so that, if necessary, she can become a competent widow, Warren says.

"And who knows?" She may need those driving skills to rush him to the hospital in a medical emergency and thereby save his life," she notes.

Tri-Cities Baseball League Holds Meet

The area coaches of the Tri-Cities Baseball League, an affiliate of Texas Teen-Age Baseball, met Tuesday evening in Eastland. Ranger, Eastland, Cisco, Carbon, Gorman, and Rising Star had coaches at the meeting.

The first order business was a vote to admit Rising Star into the League. Discussions were held on new rule changes, play off procedures in event of a tie for league championship, a \$35.00 donation by each team to be used by the league champion going to district play-offs, the second half tournament, a two inning round robin to start the season, and the scheduling of League games. Cisco asked for a delay in scheduling to study the feasibility of adding a third Junior (Pony League) team. Scheduling was delayed until Saturday morning.

An emergency meeting was held Wednesday night with the coaches of the two Junior Teams and the Senior League team to decide if a third team was needed in the Junior age group. Between

40 and 50 players had already signed up. Several more had expressed interest, and a T.T. A.B. rule allowing only 15 players per team after June 25th caused a unanimous decision to create a third team.

It was decided to keep with the feline names, to name the new team the Lions. This was also the name used by the old Senior League Team before they became the Lobos.

The Cats and Panthers will protect all returning players from last years teams. The new team will be made from a select choice of this year's draft. A coach will be named by Friday.

Plans were made to use money raised by the sale of the advertising on the outfield fence to outfit the team with bats, helmets, balls, and catcher's equipment. The team will need a sponsor or sponsors to help in uniforming the team.

If you would like to help in uniforming a team or buying advertising space on the outfield fence, please contact Bob Greene, Bobby Rains,

Photo Contest Judged By Abilene's Larry Sanders

A sense of accomplishment and pride was felt by all as the ribbons were hung on winning entries in the 1984 ANNUAL MICRO PLEX PHOTO CONTEST. Judge Larry Sanders, employed by Keaton Kolor of Abilene, had high praise for the talent of this year's entrants. Mr. Sanders urged all photographers involved in the contest to compete in the up-coming West Texas Photography contest co-sponsored by KXAS-TV and Keaton Kolor of Abilene.

Prizes for first place in eight categories were battery chargers with built-in battery testers furnished to the Micro Plex Photo Club at cost by Mr. Gene White of Eastland Office Supply. All members of the club wish to extend a special thanks to

Mr. White for making it possible for the Micro Plex Photo Club to offer such nice prizes to our contest winners. Prizes for Best of Show and the slide competition were handy slide sorters. A trophy was awarded to the first place winner in the Novice category. All other places were awarded ribbons.

The Micro Plex Photo Club would also like to extend a special thanks to Nicki & Noni's Flowers, Hallmark Floral, both of Eastland, and Philpott the Florist of Cisco for envelopes and cards donated to the club for use in labeling photographs.

Pyrenees Guard Dogs Are Valuable In Many Ways

By Viola Payne

When the morning sun peeps over the hills on the Jerry Lambeth stockfarm, southwest of Cisco, Mrs. Lambeth (Mona) opens the gates of her pens so the sheep and goats can head for the pasture.

The pens lie south of the crest of a hill, and the attractive family home is situated along the west side of this incline.

The animals bleat with excitement and crowd around Mrs. Lambeth, the baby goats wobbling and lambs frisking in circles. But standing calmly in front of all this stir are two large Pyrenees Guard Dogs, their dark eyes inspecting the woods ahead of them.

The Great Pyrenees would attract attention anytime, for they are a rare breed in the United States. Each is over two feet high and about 115 lbs. in weight, with soft white coats marked by tan and gray around the ears.

There is a regal bearing about the dogs, a sort of controlled strength, yet their faces are kind and expressive. There are six pups with them, part of a litter produced by Thumper, one of the adults with championship blood.

These pups roll and tumble like bear cubs. Oddly enough they seem to interact with the lambs, sniffing and playing and communicating. Its an ageless pastoral scene - like something from the

Pyrenees mountains where this breed of dog comes from. There, they were developed to guard flocks of sheep on the border of Spain and France.

These are no ordinary pups, not by a long way. They are valued at \$350 up, a price which indicates what the adult dogs are worth. One of the pups is a special male which Mrs. Lambeth purchased and plans to keep for breeding. The others will be sold.

The adult dogs settled down to their long day of guarding. They will be out with the flock all day in the hills and timber, watching for coyotes, bobcats, or anything else which might bother the flock. At night they will come back to the pens.

Along with the Pyrenees is a mixed breed "Indian dog" the Lambeths obtained from a Mexican shepherd near Ft. Stockton. The smaller dog dashes about, also eager for a day in the pasture. Mona Lambeth takes time to pet all the dogs before they leave.

"There are two different methods of training Great Pyrenees," she explains. "Some people don't handle them or show affection - they just keep them as working Guard Dogs."

"But I can't do that. These dogs are so loving - so easily attached to a person - that I have to pet them and tell them how well they have done."

"That pays off, too, when I have to take one of them to the Vet, and they need handling. There are a lot of snakes around here, and one of the dogs will have a bad bite."

"I keep my own antivenom serum, and give them a shot as soon as I notice the

bite. But it can be pretty tough at times. Once I lost a beautiful pup - a snake bit him on the head."

When asked when she first became interested in the Great Pyrenees breed, Mona says that she became really serious about 2 1/2 years ago.

As a young person she grew up on a sheep ranch near McCamey, where she first learned about the handling of animals. Six years ago, she and her husband, Jerry, moved to Eastland County, bringing along daughters Leah and Alicia. After looking over land for sale they decided on the property they now occupy.

Jerry Lambeth works for Sun Oil in the Ranger area. The Lambeths older son and daughter are married and live outside of the county.

As soon as they settled S.W. of Cisco, Mona decided to raise some sheep and goats, but found it pretty discouraging. Part of their property was along creeks and hills leading to the south fork of the Leon River, and the coyotes were far too plentiful. They caught so many of the animals that Mona sold out of the business.

Then she bought four "Indian Dogs" from Ft. Stockton, and three were promptly run over on the Cross Plains highway below the house.

"I guess they had been so far out they didn't realize the danger from a paved road," Mona says, shaking her head. "The mottled one we still have - she's a good little dog. But all the way around, the Pyrenees are the best I've seen."

After she learned about the guarding ability of the Pyrenees she decided to give them a try - in spite of the in-

itial expense. "These dogs are not cheap," she says. "But sheep and goats are not cheap either. We can still hear coyotes howling all over the place, and I know there are plenty of bobcats. But we're not losing any more animals."

Mrs. Lambeth notes that Great Pyrenees are being tried out more than ever in the west and southwest. The Wichita Falls Times had an article in 1982 about the use of these dogs on a large sheep ranch in Archer County. They have worked exceptionally well.

The Pyrenees should never be confused with the "sheep dog" such as the Border Collie. The sheep dogs are used to move and handle the animals; the guard dogs are used to protect them.

This guarding instinct, which is bred into the dog, holds just as true if the Pyrenees is trained to stay around a person or home rather than go out with animals. The dogs seem to "bond" with whatever he is taught to protect. The breed is noted for being particularly good with children.

The dog is not inclined to pick a fight. He simply defends what he is attached to. First he gives an alarm and warning to approach by a loud deep bark, then blocks any intruder. It has been said that some people own dogs, but Great Pyrenees own people.

This is a different kind of dog," Mona Lambeth says. "When you find a dog that is highly intelligent, really loves you, and would die for you even your sheep and goats if he had to, then you know you have something very special."

Q. I have a dull, dull bedroom, off-white walls, off-white woodwork and gold carpet. There is only one window in the room. It is one of the ranch windows that is about 6 ft. wide, but only 2 feet tall, which is really awkward to work with. I have soft watercolor paintings that I would like to work into the room somehow. My furniture is rather dull, too. I am thinking of buying a headboard, and maybe doing something to an upholstered chair I have, although it is kind of flat and angular. Can it be reworked to look more soft and romantic? The carpet is old, so I can replace it, where do I start?

A. Start with the colors in

your favorite painting. If it is watercolor, quite often there is a soft cool medium gray that would be very restful applied to all the walls. Leave the woodwork white - even the baseboards, to give a fresh, clean look to the room. Move the bed under the window, and make that the focal point in the room by making, or having made, an upholstered headboard; in your case, a square one that comes up under the window sill and has a four inch wide shirred border around it would work best. Make it out of a white, slubbed raw silk type material. The drapes should be from the same material, and be shirred on a fat two inch rod and separated by a shirred sleeve that covers the rod in the middle. The drapes should be tied back at window sill height. A channel quilted fitted comforter in the same gray as the walls, with a dust ruffle in a soft floral pattern that picks up the colors and style of your painting would look good. Then top it off with five large occasional pillows that pick up three of the colors in your dust ruffle. The same print would look terrific as a balloon shade under the white drapes, and would do well to transform your angular chair as well. A good upholstery shop can add shirring details and a skirt to your chair, and create the soft, romantic look you enjoy. As far as the carpet goes, ask yourself: does this particular shade of gold enhance the paintings that I am working with in this room? If not, I would suggest that you make a switch based on aesthetics as well as liveability.

CARE OF A GAS FURNACE

As with an oil furnace, a gas furnace should be given an annual maintenance cleaning and adjustment by a professional, who can adjust the gas-air mixture and can see that the pilot light is clean and properly adjusted. See your local heating contractor, who most likely offers the service on an annual basis at a standard price. The furnace man will also check out the blower unit at the same time.
 Gas furnaces are generally trouble-free. The most frequently encountered problems involve the pilot light. It may go out for one of two reasons: (1) dirt has accumulated around the pilot light orifice or (2) the thermocouple which controls the gas supply in the event that the pilot light goes off malfunctions.

IF THE PILOT LIGHT FAILS TO STAY LIT

1. Open the access panel on the front of the furnace and examine the gas burner. Locate the pilot and the tube-like thermocouple sticking up right in front of it.
2. There will be a metal shield in front of the pilot light. Remove this shield by loosening the screw which holds it.
3. Use a very fine copper wire (a single strand of a standard lamp wire would do) to carefully clean the pilot light orifice.
4. Replace the pilot light shield.
5. The pilot still fails to remain lit, the thermocouple must be replaced. Call your service man, who will have the replacement part and can do the job in a few minutes.

CHECKS YOU CAN MAKE DURING THE YEAR

1. The gas burner needs no mid-year maintenance.
2. Check the air filters in the furnace, cleaning them at least once during the year.
3. Oil the blower motor at least once during the year between regular maintenance check.
4. Check the drive belt from the blower motor to the blower, and adjust to the proper tension when necessary.

RAW Energy also has completed the No. 1 Ritchie in Bridges Field, Palo Pinto County. 10 miles northwest of Graford.

It indicated ability to yield 232,000 CF gas daily on a half-inch choke and was rated at 310,000 CFD on absolute open flow.

Located in a 1-acre lease in the Columbus-T&PRR Survey, the well probed to a total depth of 4,900 feet and will produce from a set of perforations in the Strawn Formation, 1,367 to 1,392 feet into the wellbore.

A 2,520-ft. wildcat for gas production is scheduled for spudding in Palo Pinto County eight miles south of Mineral Wells.

The well will be known as the No. 1-C Wells. It is in a 120-acre lease in the T&PRR Survey.

At a location six miles south of the Brad community, Austex Energy Co. of Ft. Worth is preparing to spud the No. 2 Curtis Slemmons. It is a projected 4,300-ft. developmental well in Palo Pinto County's Willie Mae Field.

The well's target is natural gas pay in a Conglomerate producing zone. It will be spudded in a 160-acre drilling unit in the T&PRR Survey.

A wildcat producer has been brought on line in Stephens County, with Expanding Energy Corp. of Midland as the operator.

Located 15 miles southeast of Breckenridge, the well is in a 160-acre lease in the T&PRR Survey. It is designated as the No. 1 Braxda.

Stephens County's Ball Field gained a new producer when Ball Producing Co. of Eastland completed the No. 1 Atchison, 11 miles north of Breckenridge.

The well indicated ability to pump at the rate of 44 barrels of oil and 105,000 CF gas per day. It was taken to a 4,606-ft. bottom and will produce from a set of perforations in the Conglomerate Formation, 4,242 to 4,252 feet into the wellbore.

Putnam News

by Anita Buchanan

Putnam got it's share of dust this week. It kept most people indoors Sunday. Gusting winds broke tree limbs and blew tin from sheds.

Judy Maxwell returned home Thursday after having knee surgery at Hendricks in Abilene. It hasn't kept her down. She's up and about with her crutches.

Arnold Pruitt was honored with a surprise birthday party Friday morning at the Hitch-N-Post. Friends of Arnolds from Baird, Cisco, Moran and Putnam had cake, especially made for Arnold, coffee and lots of laughs.

Annie Mae and Milton Donaway are Grandma and Grandpa again. Warren and Cindy Donaway of Brownwood have a little boy, born April 25. He has been named Charles Warren Donaway. I understand his big sister Leslie insisted on the name Charlie. Good thing he is a boy.

Leslie came home with Annie Mae to spend a couple of days.

Marie and Bill Lewis are having a home built on the location where Mrs. Fishers house was. Marie and Bill are staying at Mrs. Taylors until their house is finished.

Mr. and Mrs. Weeks are making great improvements on their house. They should be moving in before long.

Vina Leah Burns and her family have moved into the house that was formally the Rhynes house. It's across the street from her mother, Mrs. Edith Ivie.

Cisco Blood Drive Will Be Held May 16

Dedication ceremonies were held Saturday, April 28, 1984, at Cisco Junior College to rename the administration building to Rudolph Schaefer Hall. Rudolph Schaefer is a long-time resident of Cisco and has been a supporter of CJC for many years.

Dr. Wallace introduced visitors and guests of the 2 p.m. event. Arlin Bint gave the dedication remarks. Wyley Peebles performed a solo of "The Ninety-First Psalm" by MacDermid. He was accompanied by Steven Zell.

A reception followed the event in the Maner Memorial Library. There were approximately 200 persons in attendance.

Friend To Friend

by Jim Hatcher

I think everyone would agree that fan violence has become a major problem. Not only have we witnessed violence among players on the field and court that somewhat resembles gladiator games of the Roman Empire, but now the fans are involved. There is no question, violence connected with sports has increased to an alarming proportion. The causes are now being talked about and analyzed by a number of interested people.

One thing that is crystal clear is the fact that one of the major contributing factors to fan violence on the American sports scene is the on premises consumption of alcohol! That really comes as no surprise to thinking people. Alcohol has contributed to many other grave American problems. It has been a factor in many automobile accidents, break up of homes, orphaning of children, industrial losses and a myriad of other problems.

One man interviewed about this problem put it succinctly when he said, "they won't stop selling alcohol because the teams make too much money off of it." There comes the rub—we know the problem, but lack the courage to do anything about

it! The idol of money raises its ugly head to stand in the way of doing what is right! The same story is repeated hundreds of times in our country. We see a problem, we watch it develop into a major catastrophe but fail to take necessary corrective steps. Oh, we'll often talk the problem to death, but if it has developed into a "sacred cow" for some segment of society, all we do is talk about it! One of these days we need to read again the Decline and Fall of the Roman Empire by Gibbons. If you have read it, you remember he said that one of the contributing factors for the fall of the Empire was the fact sports became more brutal each era. Striking thought, isn't it?

The times we live in demand the best from all of us. We must stand up and be counted. It isn't easy to go against the majority, but if the majority is wrong, it is wrong. We cannot accept the statement that "might makes right". We hold to the belief that "right makes might". What we need is the thought expressed in that old song, translated into action in 1978. "Give me some men who are stout hearted men, and I will soon give you ten thousand more." As the Lord said, "Deal courageously

and the Lord shall be with the good." II Chronicles 19:11

Senior Citizens Nutrition Menu

Good news for people who believe that everything causes cancer. According to Dr. Lee Wattenberg of the University of Minnesota, "Although Americans think they are drowning in a sea of carcinogens, they are really floating on a raft of carcinogen fighters."

Dr. Wattenberg is researching substance in many fruits, vegetables and even coffee beans that he believes are natural carcinogen inhibitors. Although Dr. Wattenberg feels that it is still too early to make dietary recommendations to people, the Cancer Institute, after an unrelated study, promotes a diet with large amounts of vegetables containing beta-carotene, such as carrots, cabbage, broccoli, and many other green leaf items.

The Senior Center has been believing that a balanced diet is most important to everyone of us, therefore, the menus are well-balanced and vegetables are one of the staple foods.

Be sure and call the Senior Center 442-1557 and make a reservation for this coming Monday, Wednesday or Friday.

The programs for the past week included: Wanda Toler, Joy Deadman and Rev. Cecil Deadman presented an inspirational program; Juarice White and Leon White conducted a musical. Those having birthdays and anniversaries during the month of April were honored. Vida Killion and Anna Dytzel presented the dinner music. Blood pressure screenings were conducted. The Senior

Short Course Will Teach Financial Accounting

Farm financial accounting will be taught in a short course during May reports County Extension Agent DeMarquis Gordon. The short course will be on four Thursday nights in May beginning on May 10. Dr. Ashley Lovell, Extension Service Economist, will teach the record keeping. Each session will be from 8:00 p.m. to 10:00 p.m. in the Eastland County Farm Bureau Conference Room, located on Highway 80 East in Eastland.

Gordon invites everyone who is interested in learning more about farm financial

records to attend one or all sessions. There is no fee for attending the short course.

Good financial records are necessary in today's farming and ranching. The purpose of the short course is to help agricultural producers establish a good system of record keeping, says the county agent.

3 Arrested, Burglary Charged

Three brothers arrested early Sunday morning in Cisco on Oklahoma burglary charges were charged Tuesday with offenses committed in Texas.

Kenneth Ray Keeton, 22, was arrested about midnight Saturday, but his two brothers, Timothy Dwight Keeton, 21, and Jefferson Davis Keeton, 18, escaped from police.

The two who initially eluded police were apprehended about 7:30 a.m. Sunday after several officers had searched the area for several hours. The three are in Eastland County Jail. Bond for Kenneth is set at \$10,000, and the other two brothers' bond is \$17,500 each, after additional charges.

Timothy and Jefferson were charged Tuesday in connection with burglary of the Cisco Steak House and Inn, located on the north service road of Interstate 20.

Cisco Police Captain Lonnie Knight said the pair are

believed to have crossed the Interstate where officers were searching for them and entered the business by shoving a side door open.

About \$20 was reported to have been stolen, but Knight said the two used most of the money to buy soft drinks and snacks out of vending machines at the restaurant.

The two also called the police dispatch in Eastland from a pay telephone at the business, Knight said. They pretended to be their father calling from Oklahoma and inquired as to the whereabouts of their brother, Kenneth, whom police had arrested.

Kenneth Keeton also was charged Tuesday in connection with a theft of a pickup truck reported stolen from Fort Worth. The brothers apparently drove the truck to Cisco, according to police reports.

But the Keetons briefly visited Ranger Saturday night before stopping in

Cisco, said Eastland District Attorney Emory Walton. He said the brothers have admitted to taking a radio, several tools and some gasoline from a parked car at Elmo's Elbow, a Ranger nightclub. However, no one has filed a complaint, Walton said.

Barbecue Held In Olden Center

A barbecue was held Saturday, April 28th in the recently remodeled Olden Community Center. Approximately 120 people attended. The renovated facility will be used for meetings of the Olden Volunteer Fire Department, Ladies Auxiliary and for other local affairs. It will also be available for reunions, showers, club meetings, and garage sales for a small fee. Anyone interested in renting the building may call 653-2437 or 653-2397 for information.

Letters To The Editor

During this campaign there has been much time and effort spent on PAST instead of present and future. When we decided to run for this office it was to be on personal qualifications, not anyone's past.

This campaign has taken on an undesirable air of which I don't think any of the candidates wanted to happen. In the past few days there was a mailing went

out, that was not sent by me nor was it sent with my knowledge.

These type tactics are not the way we wanted to run the campaign nor the office if we are elected. I would like to take this time to apologize for the mailing even though it was none of my doings. I think it was probably done in good faith and proper motive, but his is not the way we plan to run.

Gordon Spot

County Extension Agent

DeMarquis Gordon

Most hay supplies were depleted by the past winter's severe weather, so Eastland County producers will need to plan for a good crop this year.

In general, nitrogen and rainfall control production from grasses such as bermudagrass. Adequate phosphorus and potassium and other conditions favorable for high yields are also necessary.

If weeds are present, they must be controlled, since they use available water and nitrogen needed to produce high grass yields.

Research and demonstration data show that nitrogen fertilization is more efficient in the spring, probably due to better moisture and general growing conditions. For example, average results of nitrogen rate studies at four locations show that a ton of hay can be produced for each 30 to 40 lbs. of nitrogen in the spring, while 50 to 60 lbs. are needed late in the season. This means that higher rates of nitrogen can be used in the spring. It may be desirable to apply 100 lbs. of nitrogen per acre in the spring and drop to 60 lbs. in late summer unless available moisture is unusually good.

Under grazing management, apply nitrogen fertilizer at rates and at the

best time to obtain quality forage in amounts to adequately support livestock requirements. For example, consider fertilizing part of the pasture in the spring, part in the summer and part in the early fall. Or, under intensive grazing management, fertilize the same acreage three times.

Use a soil test to determine phosphorus and potassium needed to support the desired level of production. Nitrogen fertilization should take into account the amount of production needed based on an evaluation of expected moisture.

Horse owners in Eastland County are invited to attend the 1984 Horse Short Course at Texas A&M University, May 17-18.

This year's short course at Texas A&M's Animal Science Pavilion will feature a number of key discussion topics, a tour of horse farms, a horse training clinic and horse sale.

Sponsors include the Extension Service, Texas A&M's Department of Animal Science and the Brazos County Extension Horse Committee.

Discussions at the first session starting at 8:20 a.m. will deal with controlling internal parasites, feeding high performance horses, infectious and noninfectious problems in foals, and an overview of Texas A&M's horse research program.

A tour of two Brazos County horse farms will be conducted that afternoon. These include Win-Walker Farms, which breeds, raises, conditions and trains race horses, and Granada Equine Services, a high technology, labor efficient operation providing many services to the horse industry.

John Hoty, a professional horse trainer from Lone Oak, will conduct a horse training clinic that evening.

Eastland AARP

Will Host Bean Dinner May 5

AARP Eastland Chapter 2428, will host a Bean Dinner May 5th at the First Christian Church from 11 a.m. - 2 p.m.

The menu will include beans and cornbread, cole slaw, drink and dessert for \$2.50.

Be sure to vote then come and eat with us.

The clinic will include live demonstrations and depth discussions on riding and training the performance horse.

The second day of the short course will be devoted to tours on the A&M campus—the Large Animal Clinic (horse section) of the College of Veterinary Medicine

and the Department of Animal Science (horse section)—and to a Central Texas Select Quarter Horse Sale.

Advance registration for the short course is \$25 and should be sent by May 10, to Dr. Householder, Department of Animal Science, Texas A&M University, College Station, Texas 77843.

Homemaking Hints

County Extension Agent Janet Thomas

More and more Texas families have only one or two members. Meal planning, food buying and meal preparation pose unique problems for singles and couples. These problems prompt many small families to settle for convenience food and snacks, leading to monotonous meals and poor nutrition.

Lack of variety and leftovers are real problems for many people who fix food for a few. Here are some suggestions to help you have variety with a minimum of leftovers.

*First of all, you might like to mix up your favorite meat loaf recipe, pack it into foil-lined cups of a muffin tin. Leave enough foil to fold over the tops of each individual meat loaf. Freeze. After freezing, remove individual meat loaves from the muffin tin and stack in the freezer.

*Make up a pound of hamburger into individual patties. Wrap separately and freeze.

*Save and freeze small bits of meat until you have enough to make a meat pie. Save and freeze leftover vegetables for stews, soups, or casseroles.

*Always bake twice as many potatoes as you need. Leftover baked potatoes make delicious creamed or au gratin potatoes the next day. Think of the time and fuel you save!

*You can save space and equipment by freezing a casserole in a foil-lined dish. After freezing, lift the food from the dish and wrap for

freezing. This leaves your casserole dish free for other uses.

*A small double boiler will allow you to heat one food in the top section, while another is cooking in the bottom section.

*Purchase a bag sealer for easy storage of leftovers in the freezer. Boil-in-the-bag of foods are easy to reheat in a pan of boiling water or microwave.

*Prepare your own "T.V. dinners" by cooking enough food for four to six and freezing extra portions to use on days when you are in a hurry or do not feel like cooking.

*Prepare only part of the package of a dry mix. To divide a mix, stir the mix and measure it, then divide into equal portions. When you prepare only a portion a recipe - be sure you mark the package to show how many servings are left.

RECIPE FOR THE WEEK:

Frozen fruit salad is excellent. A convenience hint is to put cupcake liners in your muffin tins. Fill with salad mixture and freeze. After individual salads are frozen, you can remove them from the muffin tins and store in air-tight freezer container.

FROZEN FRUIT SALAD

- 1 cup buttermilk
- 1/2 cup sugar
- 1 can crushed pineapple, drained
- 1 can fruit cocktail, drained optional: banana, nuts, maraschino cherries
- Combine buttermilk and sugar and mix well. Add cans of drained fruit and any other fruits or nuts you prefer. Freeze.

Lights From The Christian World
 by Josephine Cleveland

A minister said to a group of young people, "You must play the game of life honestly and bravely."
 A boy quickly replied, "But we do not know where the goal posts are."
 Multitudes of people are confused about the meaning of human existence. Two major wars and the threat of a third during this century have brought to our minds the age-long questions, Who am I? Where do I come from? Is this life only a blind chance? Are there any enduring moral standards to follow? If so, where is the infallible guide? Is there life after death?
 We cannot have our longings fulfilled without answers to life's questions. There are many scriptures in the Bible which give us the answers. We are told to search the scriptures for in them we will find the meaning of life. Who am I? Genesis 1:27 tells us, "God created man in his own image, in the image of God created he him; male and female created he them."
 Where have I come from? "And the Lord God formed man of the dust of the ground, and breathed into his nostrils the breath of life, and man became a living soul. Genesis 2:7 Since we are created in the image of God we have a spirit even as God is a spirit.
 Is there a choice creator behind all this world or is life a blind chance? Genesis 1:1 tells us, "In the beginning God created the heaven and the earth." Believing Christians know that God is the beginning and the end. Their life is not a blind chance. God is in control. It is only

disbelief that can defeat you. It has been said, seeing is believing. Faith is believing and then seeing.
 We hear much today about humanistic teaching. The core of this teaching is there is no God and man is the one who charts his destiny. There is no life after death. Paul, the great and learned apostle wrote, "If in this life only we have hope in Christ we are of all men most miserable." I Cor. 15:19
 God, yearning over Israel even as He now yearns over us, spoke these words, "O that there were such a heart in thee, that they would fear me; and keep all my commandments always: that it might be well with them and with their children forever." Deuteronomy 5:27. The

Word gives us specific commandments. The world prefers to make their own. They do what is right in their own eyes. Christ deals with this. He says, "Be not deceived." Luke 21:8.
 Is this guide, the Bible, to be followed as written? Many teach that the Word need not be followed as written. Jesus makes it clear, "Till heaven and earth pass one jot or one tittle shall in no wise pass from the law, till all be fulfilled." Matthew 5:18.
 Where is the infallible guide? David found the answer and wrote in Psalms 119:105. "The Word is a lamp unto my feet and a light unto my path."
 The final question is, "Is there life after death?" Luke 16:19-24 gives us the negative aspect in this parable. "A certain rich man lifted up his eyes, being in torment, and seeth Abraham afar off, and Lazarus in his bosom. And he cried and said, Father Abraham, have mercy on me, and send Lazarus, that

he may dip the tip of his finger in water, and cool my tongue; for I am tormented in this flame." The positive is found in John's writings 14:1-3, "Let not your heart be troubled; ye believe in God, believe also in me. In my Father's house are many mansions; if it were not so, I would have told you. I go to prepare a place for you. If it were not so, I would have told you."

Christ, the Word, sets forth life's goal posts. Knowing Christ personally, trusting in His unmerited favor, His mercy, and His compassion is the Christian's Hope of Glory.

4-H Jr. Leaders Organize

4-H Jr. Leaders Association officially began April 29th, 1984. The association has 8 members who are outstanding 4-H'ers from the age of 13-19 years old. Leadership has always been an important part of the 4-H program. Now with this new organization emphasizing leadership skills and practices, Eastland 4-H'ers have a more important future as "Adolescents of Today and Leaders of Tomorrow."

The organization helps older 4-H'ers learn the rationale that every person needs during his lifetime - to have control of his/her own personal life, provide leadership as parents and in families and provide leadership in groups. Also learn to be a good follower and group member. The development of these skills will enhance a young person's ability to function in all groups in which he or she is a member all through life.

Our president is Jerry Long 14 year old, Vice-President Stephanie Long 13 yr. old and Secretary/Treasurer is Jami Long a 17 yr. old 4-H'er. Congratulations to all these 4-H'ers for achieving

THANK YOU

I would like to take this opportunity to thank everyone that has helped in my campaign in any way. I have enjoyed renewing old acquaintances and meeting those of you that I did not already know. It was not possible to visit every home and if I missed you I will look forward to meeting you in the future. To those of you who worked strongly in support of my campaign for office, thank you again. I am very happy that citizens like you, of strong moral and religious beliefs, have been working for me and not against me. You are a great team to work with and I am proud to call you my friends.

Thank you,
DON UNDERWOOD
