Three Arrested For Suspicion Of Arson

Ciscoans Invited To Run With Olympic Torch

Men, women, boys and girls of Cisco have been officially invited to participate in relaying the Olympic Torch through Cisco when the famous torch visits here on Sunday afternoon, June 29, Hilton Board President Eris Ritchie has announced.

The torch, which was carried across America for the Olympic Games in Los Angeles in 1984, is being relayed across Texas for the U.S. Olympic Festival to be held in Houston July 25-August 3, and Cisco is one of towns chosen by the Olympic Festival to host the torch run, Mr. Ritchie stated.

The torch will stop for a few minutes in front of the Mobley Hotel for ceremonies hosted by Mayor Joe Wheatley. Wheatley is handling all arrangements for the Mobley stop, at which time the historical significance of the Mobley and Conrad Hilton will be emphasized as a part of the theme of the torch run, "A Run Through Texas History."

Cisco Junior College Athletic Director Harold "Ace" Prescott will be local chairman of the torch run itself. Prescott stated that a minimum of 30 to 35 runners would be needed June 29, and as many as 65 to 70 could be accepted. The Cisco run-

ners will begin relaying the torch on the far west side of the city, near the White Elephant Restaurant and Motel, and will relay it down West Eighth Street to Avenue E, from there north to Third Street, then east on Third, around behind the Mobley, stopping in front of the Mobley for Cisco's official ceremonies hosted by Mayor Wheatley. Following the ceremonies, the torch will be carried south on Conrad Hilton Avenue on Eighth Street, then east on U.S. 80 to the Kendrick Farm, where runners from Eastland will receive the torch to relay it to and through their city.

Each runner will carry the torch from 1/8 to 1/4 of a mile, Prescott said. "If we have about 30 to 35 runners, each leg will be about 1/4 mile; if we have 65 to 70 runners, each person will go about 1/8 mile," he pointed out. All runners will be given free U.S. Olympic Festival T-shirts, and will be required to wear the shirt during the run. Also, each participant will be asked to sign a release form then they sign up for the run, and any runner under 18 years of age will need a parent or guardian to sign their release, Mr. Prescott said. The releases are at Southwest Enterprises offices at 300 Conrad (Continued Back Page)

Firemen Answer Cisco Lumber And Supply

Three False

Alarms Thursday

Alarms Thursday

Cisco firemen answered three false alarms Thursday afternoon that caused concern as they occurred soon after three serious fires in the downtown area during the week.

An alarm at 11 a.m. was turned in on a reported fire on East 12th Street. Firemen found no blaze. At 1:45 p.m., firemen received a call that there was a fire on the north shore of Lake Cisco. Firemen could find no blaze there.

Around 2 p.m. Thursday, smoke from the roof of the Intermediate School building caused an alarm to be turned in. Firemen said the contractor there was pouring roofing material that caused the smoke.

Red Front Mini Mall

White Auto Store

Dixon Auto Supply

Three Cisco young men, all 18 years old or older, were in the Eastland County jail Thursday afternoon after their arrest on charges of arson as authorities investigated fires that occurred Monday, Tuesday and Wednesday nights.

Jim Bob Cozart, who was charged with arson in a 91st District Court case filed Thursday, was denied bond and was in the county jail. He was arrested by Sergeant Larry Jernigan and Detective Risa Livingston who saw him running from the scene of the Wednesday night fire that destroyed Dicon Auto Supply and White's Auto Store at 615 and 617 Hilton in downtown Cisco.

Officer R.D. Kirkland reported that Cozart confessed to police that the fire was set in the White building, which had not been open but which was full of merchandise. He implicated two other young men, Randy Dunahoe and Billy Escovedo, who were ar-

rested by Mr. Kirkland. They were placed in the county jail for investigation of arson, he said.

Mr. Kirkland reported that evidence of arson was found in the White Auto Store building and in the Red Front Mini Mall where fire broke out Tuesday night. Investigation of suspected arson in the Cisco Lumber and Supply warehouse that burned Monday night was still underway, Mr. Kirkland said.

Larry Lavery and Gill Harper of the Duncanville office of the Texas Fire Marshall's office arrived in town Wednesday to assist Billy Rains, Cisco fire marshal and police chief, and Fire Chief Richard Connell with the investigation of suspected arson.

The investigators had fingerprints and footprints from the burned building areas and also from business firms where break-ins occurred during the time of the blazes, Mr. Kirkland said. The prints were being pro-

cessed. During the Monday night fire, burglars broke into Dean Drug Store and were "scared off" by a burglar alarm that sounded.

Burglarized Tuesday night were Taylor's Grocery and Cisco Lumber and Supply Co. Mr. Kirkland said the Taylor building was entered through a window in the coin laundry and thieves took cigarettes, snuff and a small amount of money from a cash register. At Cisco Lumber, the building was entered through a broken skylight and missing was an electric saw and other items not immediately determined.

Mr. Kirkland said that police determined that the three young men arrested in the arson investigation had attended a "drinking party" Wednesday night at the point on the south shore of Lake Cisco. He added that some of them "had been drinking when arrested." Twenty or more young people attended the party, he said.

Thursday Morning Fire Destroys Two Businesses

Cisco volunteer firemen fought a raging blaze that destroyed Dixon Auto Supply and White's Auto Store early Thursday morning as the third night of serious fires in downtown Cisco. The Wednesday night fire loss was estimated to \$250,000 or more.

Tuesday night, the Red Front Mini Mall, a two story building at 508 Hilton, had extensive fire damage. Monday night, a warehouse and its contents were destroyed at Cisco Lumber and Supply Co.

The alarm for the early Thursday (Wednesday night) fire was sounded at 3:10 a.m. Firemen could see flames in the White Auto building, a two-story structure, and before they could bring it under control, the second story wall collapsed and crushed the roof of the Dixon building, adjoining to the north.

Dan Dixon, owner of the auto store, said he was summoned by telephone at about 3:30 a.m. As soon as he arrived at the store, he went in and picked up his accounts receivable ledger, an inventory record and other valuable papers. He was about to open a safe to take out more records when the ceiling caved in and firemen ordered him out.

Cam Webb of the White store said that his company had no insurance on their building and contents and that the loss would be considerable. He expresses the hope that a "fire proof" safe in the store really was fire proof as it contained property deeds, birth certificates and assorted papers of value. He said they would have some salvage from the ruins. The White fire is still smoking and smouldering late Thursday.

Mr. Dixon expected his

building and contents, a complete loss, would amount

to \$200,000 or more. He was uncertain Thursday about his future plans. He said his loss was partly covered by insurance.

The Chamber of Commerce, first door south of the White building, had extensive water damage. Water came down the walls and through holes in the ceiling caused by falling brick from the White second story collapse. Manager Don Shepard of the CoC spent most of Thursday cleaning the water and debris from the building. The front door was broken. The CoC has been making plans to move soon to the Mobley Hilton.

Eastland and Ranger firemen sent men and equipment to Cisco to help fight the blaze. There were no injuries to men or equipment, firemen reported.

Three Day State Of Emergency Declared

A three-day state of emergency was declared at a special meeting of the City Council Thursday afternoon after the third devastating fire in three days destroyed two buildings in downtown Cisco early Thursday morning.

Under the state of emergency, Cisco police were directed to enforce a curfew from 12 midnight until 6 a. m. daily through Monday. Mayor Joe Wheatley was empowered to extend the curfew for two additional three-day periods if deemed necessary.

City Manager Mike Moore reported that the loss of property and danger to life gives the Council authority to order a state of emergency by the city charter.

Citizens of Cisco volunteered to assist police with patrol work Thursday night and later, if needed, the city manager said. "Our people are angry and rightfully so, for arson is the worst kind of vandalism," he added.

The Council was informed that one young man has been charged with arson and two others have been arrested to be held for investigation of arson. All three were in the county jail with bond being denied by the 91st District Court Thursday.

Mr. Moore said the Council probably would meet again in special session on Monday to take another look at the situation.

The city manager said steps would be taken soon to employ another policeman to bring the department to full strength. He said citizens were planning to institute a neighborhood watch plan to assist police with security in the business district.

The sheriff's office and Eastland police department sent men to Cisco after the Dixon-White fire broke out to assist with patrol and security, Mr. Moore said. "And we sincerely appreciate their help."

District Attorney Emory Walton was in town early Thursday to help with the arson investigation.

Red Front Mini Mall Has Extensive Fire Damage

The Red Front Mini Mall, a restored building that was erected in downtown Cisco in the year 1883, had extensive damage by fire that was set by arsonist last Tuesday night. The blaze was reported to the Cisco Fire Department at 5:20 a.m. Wednesday.

Owned by the Moran National Bank, the building was occupied by Caloco Energy,

Inc., and by Ann Williams of the Pat Maynard Real Estate Agency. Other spaces in the building were unoccupied.

The Caloco Energy company's office equipment was virtually ruined by water, reported Mike Wallen of the firm. Their files were saved he added.

Mrs. Williams reported that furniture and plants

were moved from her offices with minor damage.

The Mini Mall was a restoration of the old Red Front Drug Store that has long been a Cisco landmark. The building had extensive water and smoke damage, firemen reported.

The blaze was brought under control in less than an hour.

Around Town

By Duke Dixon

Friday the 13th showed up Tuesday, Wednesday, and Thursday in Cisco. Four fires in three days is a bit much for anyone. But the people here responded to what had to be done. That spirit of cooperation that I spoke of earlier is still alive.

Thursday morning as I watched two businesses burn, I saw people pull together. Firemen that had worked all day the day before, and the night before at another fire still putting forth all effort to do their best.

In most cases a person has control of a situation. Maybe not the way they really want it to operate or go, but still somewhat control. When it comes to a fire or flood, there is no control. You must just sit and watch. It seems forever, there is no end, it is unreal, not happening, just a dream. The reality comes in later, slowly it sinks in that this is really happening.

The spirit of helpfulness, and cooperation from your neighbors and friends at a time of need is the most precious gift one can receive.

Thursday as I watched, not only during the day, but all night as neighbors became watchmen to see that another incident doesn't happen. I saw a feeling, a spirit, a love, that comes out of respect for ones fellowman.

About 4 a.m. Friday morning as several of us were standing in front of this office, a stranger walked up with blood on his face and arms. He asked directions to the police department, his

truck had blown a front tire and pulled into a bar ditch. The authorities were notified, and the man was taken by one of our citizens to the hospital for any treatment needed.

Who is my neighbor? In the bible Jesus answers this question with the parable of the Good Samaritan. I saw it answered this week with the good citizens of Cisco.

It's efforts like this that make living in small town the best place to live. It hasn't been too many years ago that one didn't have to lock his house to go to town, times have changed, but people haven't, and that's what counts.

Contract Awarded For Water Tank Construction News From Canterbury Villa

Bulldog Steel Products Co. of Clyde was awarded a contract to build a 500,000 gallon welded steel water reservoir for the City of Cisco at College Hill at a meeting of the City Council last Tuesday night. The firm's bid was \$78,000.

Construction work is to get underway in about a month. Four other contractors submitted bids for the project, and the highest bid amounted to \$86,389. The steel reservoir will replace a concrete storage reservoir that has been in use for many years.

In other action, the Council conducted a public hearing on a community development program in which the city is requesting a federal grant of some \$515,000 to cover most of the cost of improvements. Included in the application are water improvements, sewer line work, street improvements of 19 blocks, demolition of 12 vacant structures, rehabilitation of 15 housing units owned by city, and other costs.

The Council approved revising the city's personnel rules and procedures to eliminate paid health insurance for employees' dependents for new workers hired after June 1, 1986, and current employees who add dependents after June 1, 1986.

made application for a hanger site at the Cisco Municipal Airport, and the Council approved. Mr. Richey is an airline pilot and plans to keep a private plane at the local airport.

Douglas Fry, city judge for the past two years, was appointed to continue in that office for two more years. The Council voted to employ Joe Cooper, local CPA, to audit the books for 1985-86 fiscal year.

A grass lease at Lake Bernie will not be renewed after it expires the summer, the Council decided. Luke Harrison has had the lease for several years.

The Council discussed plans for employing an additional policeman and decided that such action would be taken when feasible. The idea of organizing a reserve police unit of volunteer citizens was discussed, and the Council decided the idea has merit and will be studied.

Mayor Joe Wheatley presided at the meeting. Present were Councilmen Allen Masters, Arlie K. Whitley, Roy Dennis and Bural Chambers, City Manager Mike Moore, City Secretary Ginger Johnson, City Attorney Bill Wright and Engineer Scott Gibbs of Jacob and Martin.

The residents enjoyed the pleasant, rainy weather during the month of May. May was a busy month.

CWC CONTEST
MARIE BONEY, whose Grandma **SALLY BISHOP** was with the REA around here in bygone days, called to ask for a copy of the **CISCO WRITERS' CLUB'S** contest rules. She had mislaid the paper in which they appeared.
 Marie will be by The Pizza House Saturday to pick up a copy of the guidelines, but how about another run in the paper? Pretty please, with sugar, saccharine or aspartame (your choice) on it? Someone else may want to enter the contest, and entries must be in by the first of August.

If you have a book in mind, it's too late for this year, but if you have one in print ('85 or '86), CWC has a book category, too.

H.V. and GAYNELL O'BRIEN'S book, tentatively titled "Painting for Freedom", is expected to be ready before the deadline. So should **LELA LATCH LLOYD'S** book about the beginning of Conrad Hilton's hotel empire.

We Tend To Forget

Just What Mother

Nature Can Do

Recent rains have shown us once again that you "Can't fool Mother Nature".

Ron Bailey, Soil Conservation Service, says, "It is dry in Eastland County most of the time and we all have a tendency to forget what floodwaters can do."

"When selecting a homestead we look for an area that has large beautiful trees. Some of the most beautiful trees are located in floodplains. In looking for a homestead in a dry July or August it is hard to imagine that these floodplains overflow every few years," Bailey said.

"If you are looking for a new homestead and are not sure whether or not it is in a floodplain, please check with us at the Soil Conservation Service. We have a published Soil Survey that covers all of Eastland County. It shows the areas in the county susceptible to flooding. The Soil Surveys are free to the public. So stop by and talk with us when you are considering building a new home," Bailey says.

The Soil Conservation office is located in the Farm Bureau Building on Highway 80 East in Eastland, telephone 6 629-1480.

Poetic Verses.....

By Bob Harbin

SEARCHED FOR YOU
 As I closed my eyes in sweet slumber
 I dreamed of my Heavenly Home
 The streets of gold and joy untold

As we cast our crowns before the throne

Then I walked the streets of Heaven
 Calling out your name
 Have you seen my loved one I asked.
 But my search was in vain

As grief spread over me
 My eyes filled with tears
 I remembered all we had been through
 And wish you were here

As I woke from my slumber
 And breathe the early morning air
 I thanked the Lord for another day
 And to know that you were near

Bob Harbin

Remember all the publicity when students failed tests, the no pass-no play concern—the hornets stirred up by HB 72?

Inside last Sunday's paper, with the Obituaries, the Hospital Reports, and a gripping account of "Texas Water Commission Enters Lawsuit Debate," there are fourteen lines that are headed, "Eastland County Teachers Fare Well in Examinations."

(The lead sentence probably meant to use "complimented" instead of "complemented," but I understand I get "unduly upset" about "typos," so I will say no more about that.)

It does seem to me the fact that only one school in Eastland County did not have 100% passes on the teacher competency tests

would not be out of place on the front page. Student failures made headline; shouldn't teacher successes?

Isn't it possible that the low percentage of student failures just might be attributed to the competency of the teachers the youngsters had?

Might failures be considered the responsibility of the pupils and their parents every bit as much as the teachers? Teacher-caused failures are rare, or so I believe.

It is my theory, contention, position—perhaps "conviction" is a better word choice—that a teacher cannot instruct anyone who does not want to learn. I am equally convinced that it is impossible to prevent a person's learning as much as s/he's interested in learning.

But this is not to present my philosophy of education. It is to recognize that of the six schools in Eastland County, five of them had 100% passing scores in the teacher competency test. The sixth

school scored 96.8%. As I don't know the body count this represents, I don't know whether that 3.2% who blew it represents one person or two. I'd guess not more than two.

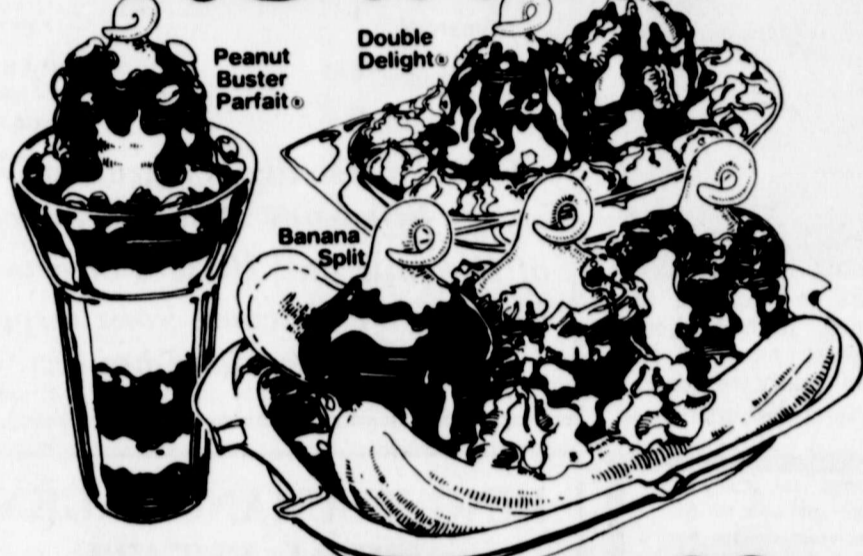

Also, keep in mind that this test was not geared to subject matter and the 100% scores assume greater significance.

A major point is that parents should keep a close check on grades, though this may not be a popular activity with Sonny or Sister. A youngster who can score a 95 should not be content with 75.

However, 75 may represent the top effort for some children.

Try to be realistic about ability. After all, hordes of youngsters are now kept in school by law instead of by choice. In our parents' day—even in my own—the pupils who did not do well in school were long gone before graduation day.

Local Event

Thirteen members were present for the American Legion Auxiliary meeting on Tuesday night, June 3. The president called the meeting to order and welcomed those present. Dollie Miller gave the invocation. The group repeated the "Pledge to the Flag" and "The Preamble to the Constitution", in unison.

The minutes of the previous meeting were approved as read.

The president, Lucille Forbess, gave the presidents report and told of the activities of the unit during the last month and expressed her appreciation for the cooperation of the members. The unit has reached its quota of members, having 39 members. The state Legion meeting will be held in Lubbock, July 24-27. She will be a page at the Convention. She stated that the insurance which the members received last year when they paid their dues was still good.

June 14, being "Flag Day", the president read two poems, "Freedom Foundation" and "I Am Your Flag". The Auxiliary members will cooperate with the Legionnaires in a July 4th celebration, to be held at the Legion Hall.

The following officers were elected: President, Mildred Smith; First Vice President, Ellie Green; Second Vice President, Lucille Forbess; Secretary-Treasurer, Dorothy Tolleson; Chaplain, Mae Delle Jones; Historian, Kay Jones; and Marie Finley as Sargent of Arms, assisted by Lucille Forbess.

The secretary gave the financial report.

PUTNAM NEWS

By Mrs. R.B. Taylor

Rain! Rain!

Rain! Rain! We have really had it for a week along with the rest of the Big Country. I failed to get in touch with our local weatherman, John D. Isenhower to get the exact amount, but I'm sure it has rained at least six inches here the past week. Yesterday all creeks were out of their banks and all stock tanks were overflowing and no storms or hail. We will really be going into summer in good shape.

Nothing unusual has happened this week except The Putnam News failed to make the local papers. Evidently a foul up in the mail service.

The local Church of Christ sponsored their annual Pot Luck get-together lunch at the Community Center last Sunday. This is a once a month affair and any and all are urged to come and enjoy good food and fellowship.

Laverne Rutherford, Effie Richardson and Elvie Payne of Baird were among those attending. Kazie Heslip of Abilene visited her sister the Bill Lewes' last Saturday. She also visited her brother Dub Fisher at Baird. Dub recently suffered a light stroke but is improving nicely at home.

Visiting Mrs. R.B. Taylor last Sunday were Bill and Dorothy Taylor of Weatherford and Homer Taylor of

all the pupils that went to school from the year 1925 through 1936 to attend and all teachers to attend. Those who started to school together and graduated together in 1936 were Winnie Mae Donawho, Homer Garlitz, Margaret Chambliss and Annita D. Harris. This will be the first class reunion in the 50 years since the class graduated.

The Hennagers are still working on the Sunderman house where they intend to move in the near future.

News is scarce this week-too much rain for visiting.

Cisco Junior Class To Sponsor Teenage Dance

The Junior Class of Cisco High School, in coordination with Junior Class parents, is sponsoring their 3rd Eastland County - and Area High School Dance.

Summertime dances are scheduled for the third Saturday of every month: June 21, July 19, and August 16.

The first dance of the summer will be held Saturday night, June 21 from 8 pm - 11:30 pm at the Corral Room, in the old Laguna Hotel, at 400 Conrad Hilton ave., next door to the First National Bank in downtown Cisco.

The dance is for high school students only. The invitation is also extended to incoming freshmen students, and to graduated '86 seniors. Cisco has an active group of parents, Parents For Teens, who have sponsored monthly parties for Cisco High School students for the last two years. Junior Class parents who work with Parents For Teens will

serve as chaperones, in addition to other interested Junior parents, or parents from other classes. Parents from all surrounding towns are invited to also help chaperone.

Definite rules have been established for high school students as follows:

1. Only high school students will be allowed to attend the dance.
2. Students may leave the dance at any time, however, once a student leaves they may not return.
3. No drugs or alcohol will be allowed.

High School parents should be assured that the dance will be well chaperoned and our definite rules will be followed. Please feel secure in allowing your teenager to attend our dance, and feel free to join us if you can.

For further information, please contact Joe or Jan Cooper, at 442-3994 or Gus Smothers, at 442-1291.

Letter To The Editor

Dear Editor:
We wish to convey to the citizens of Eastland our deep appreciation for the honor of sharing the climax of your Discovery Fest Week with us.

We were very impressed with all the talent you have in Eastland. We truly enjoyed all the singing, the band music and especially the original music written for the occasion. The pageant was very moving. It made us proud to be Texas and to be members of a family whose ancestors had such a noble part in the freedom of our great state. We are sure that Captain Eastland would be very proud of the town which bears his name. It's citizens are "doers", just as he was.

Again, thank you for all your hard work, time and effort that made this past week so memorable for us.

Your friends,
Jamie and Mary Hemphill (great, great nephew of Cap. Eastland)

Thanks to everyone for everything. Ruth Pugliese, Democratic nominee for Eastland County treasurer.

Come see us in our new location Hwy. 80 East in Eastland...

Transmission fluid should be reddish. If it's turned brown, replace it - and the filter.

The "eye" on many auto batteries is a hydrometer, which alerts owners to a change in the charge. If this "window" becomes dark in color, the battery needs recharging or replacement.

To keep your car's finish in good shape, wash it frequently, letting plenty of water play over the surface to rinse off any abrasive dirt. Wash only with gentle car-wash detergent, rinsing constantly.

Pothole up ahead? Slow down BEFORE you get there, then let off the brake as you reach the danger spot.

Old car, new car, jackrabbit start waste gas and damage the car, too.

Eastland County 4-H'er Wins

\$8,000 Livestock Show

COLLEGE STATION -- Amy Keith McDonald, an exceptional Eastland County 4-H member, today received a four-year, \$8,000 scholarship from the Houston Livestock Show and Rodeo.

Amy, daughter of Mr. and Mrs. Keith E. McDonald (Route 3, Box 133, Ranger), recently graduated second in her class from Ranger High School. She was an active 4-H member for 10 years, serving as teen counselor at the county camp, junior leader for several projects, coach for horse judging and Share the Fun teams and club president. She also received the Gold Star, Danforth "I Dare You" and State Fair of Texas Honor awards.

While in high school, Amy was an officer in the

National Honor Society, rodeo club, student council and Future Farmers of America. She was captain of the basketball team and advisor of the yearbook staff.

Amy, who plans to major in agribusiness at Tarleton State University, was one of 50 scholarship recipients at the 4-H convention.

The Houston Livestock Show will also present 50 four-year, \$8,000 scholarships at the State Future Farmers of America convention in July.

These scholarships are just part of the Show's annual commitment to youth and education in Texas. As a charitable organization with the purpose of benefiting agricultural education and research, the Houston Livestock Show and Rodeo

will have almost 900 scholarship students in school this fall.

In presenting the scholarships, Show President Joseph T. Ainsworth, M.D. commended the students on their achievements.

"At the Houston Livestock Show and Rodeo, the youth of Texas is our first priority. In making these scholarship presentations, our greatest reward is seeing the enthusiasm and drive behind these students today. They're leaders in every send of the word," said Ainsworth.

World War I Veterans

Group Disbands Recently

Recently George Pate of Ranger, a World War I Veteran, came to County Judge Scott Bailey's office carrying a large framed Charter for Ranger Barracks No. 1871, Veterans of World War I of the United States.

He presented this historic document to Judge Bailey, who is also Chairman of the Eastland County Historical Commission. As he did so, the esteemed old soldier stated that Ranger Barracks 1871 was disbanding - there were not enough survivors left to carry on.

There were only three left besides him, Pate said, and these were not in good health. He wanted the

Charter placed where it would be taken care of.

Judge Bailey accepted the Charter, assuring Mr. Pate that it would be preserved.

George Pate appeared to be in good health that day, and Judge Bailey little realized that he would never see him alive again.

For the news came on Thursday, June 12, even as this story was being prepared, that George Pate died at his home in Ranger.

Mr. Pate was not a Charter Member of Ranger Barracks No. 1871, but he was certainly a long and valued member.

The Barracks was involved in Veterans affairs and patriotic and community events for many years. There were other such organizations in the county at Cisco, Eastland, Gorman and Rising Star, but they all disbanded before the Ranger group.

The Charter for the Ranger Barracks was granted on April 30, 1959, and was signed by National Commander Fred J. Hollenbeck. It was also signed by the National Adjutant, Charles Kindley.

Charter members in Ranger were: H.G. Adams, A.P. Ainsworth, Edgar R. Anderson, W.H. Bollinger, Clyde Bond, Frank Bourland, Felton P. Brasher, William M. Brown, Lloyd Bruce, Erley E. Burnett, J.C. Carter, W.H. Clarke, Thornton Cooper, T.J. Fonville, O.R. Goffner, James K. Goodrum, Fred Tibbles, Vestle M. Reynolds, John A. Ussery, Rolla W. Gordon, Edward J. Greer, Benjamin Edward Harris, William C. Hill, Granville W. Jones, Benjamin H.

Mayfield, Fred J. Parrish, Ben E. Patterson, Bruner H. Peacock, Nath Pirkle, C.B. Pruet, O.S. Roscher, William Sadler, T.E. Smith, and H.S. Taylor.

Most, if not all of these, are now deceased. Some still have descendants in Eastland County and the Ranger area. All these soldiers served their country and their community well.

So TAPS for Ranger Barracks No. 1871. But may what stood for it live forever.

Captain Eastland's Descendents Attend "Discovery-Fest" June 7

(ED. NOTE: A number of descendents of Nicholas Washington Eastland were in Eastland Saturday for the Discovery-Fest '86 which honored William Mosby Eastland, the man for whom Eastland County and Eastland City are named. Nicholas Washington was a brother to William Mosby and this is a family chronicle which deserves to be preserved here).

NICHOLAS WASHINGTON EASTLAND

This is an occasion to re-examine, reaffirm, appreciate, and rededicate ourselves to the preservation of a portion of our Texas heritage. Especially is this true in regard to the members of a family group such as you, who assemble here today as descendents of an early Texian patriot - Nicholas Washington Eastland.

At a time when want, woe and misery are stalking through the earth, when it appears that peace and personal liberty have abdicated from the affairs of man, and hope seems to have bidden the earth farewell, it is appealingly proper that we pause and consider the necessity for a faithful record of the deeds of this man under the peculiar and trying circumstances which have made him a man who should be remembered as having played a part in early Texian history by helping to mold its affairs into a pattern now known as the Texan way of life.

What is there we could say that has not been said concerning Nicholas W. Eastland? It seems that no biographical sketch has been written of this early Fayette-Bastrop County pioneer. In the past, information regarding him has been fragmentary and disjointed. He was born on a plantation in Kentucky known as "Woodland" the son of Thomas Butler Eastland, a brother of that well-known and gallant Captain William Mosby Eastland. Thomas B. Eastland was a lieutenant in the U.S. Army, and in 1800 was quartermaster General of Kentucky. He served in the War of 1812 under General William Henry Harrison, and following the war he moved to White County, Tennessee. In 1801 he was married to Nancy Mosby, a relative to Major J.S. Mosby, famous scout and cavalry officer in the Confederate Army. Their children were, in addition to Nicholas W., William Mosby, Thomas, James, Robert, and a daughter. A few years after the death of his wife, Thomas B. Eastland married a Miss Swan. Their children were Edward, George, Cumberling, and another daughter.

The Eastland family, along with the Dawsons, with whom they were related by marriage (Mrs. Dawson was a sister to Mrs. Eastland), remained in their native state of Kentucky until after the War of 1812, in which the fathers of Nicholas W. Eastland and Nicholas M. Dawson participated. The fact is evident that "Old Hickory" Jackson made grants of land to these two veterans of the War of 1812 for services rendered at the Battle of New Orleans. Their lands were located near the town of Sparta, White County, Tennessee. Land records still show that Thomas B. Eastland was granted land in December 1824, again in

October 1828 and in December 1838, a third grant was made to him.

From the above facts we know that the Eastland and Dawson families were in White County, Tennessee, and had emigrated from Kentucky prior to December 1824, and here they remained until Nicholas W. and his brother William M. decided to go west. The first member of the family to reach Texas was William M., who came in 1833 with his family, but was soon followed by Nicholas W. in 1834 along with his family. Both settled at LaGrange, Texas.

A sketch of Nicholas W. Eastland's life would not be complete without telling the part he played during the struggle of early Texas colonists with the Indians. In July 1835, Captain Robert M. Coleman was almost defeated by the Indians in a hotly contested fight in present Limestone County. He was forced to fall back on Fort Parker and from there sent messengers to the settlements asking for reinforcements. He was soon joined by four companies of volunteers, one of which was from the vicinity of LaGrange under the command of Colonel John H. Moore who was elected to command the combined force. Among the volunteers were Nicholas W. Eastland, William M. Eastland, and their cousin, Nicholas M. Dawson.

They pursued the Indians as far as the forks of the Trinity River, then across the upper Brazos, but failed to contact them. They did encounter several roving bands whom they killed or dispersed, and prevented their raiding the settlements. A few were captured and taken to the settlements and sold as slaves. This is said to be the only recorded instance of attempted Indian enslavement in Texas. The experiment proved a failure.

The Indians having been defeated or dispersed, and the area about LaGrange having been made safe for settlers to come in and establish themselves, it was a natural thing for the people to form their own county government and assume their place in the Texas scheme of government. This was done by an Act of the Congress of the Republic of Texas in December 1837. Among the first county officials was Nicholas W. Eastland who was appointed an Associate Member of the first Board of Land Commissioners of Fayette County. In 1840, at the first election held for county officials, he was elected the Chief Justice (County Judge) - the first chief Justice having been Andrew Rabb who was also the first as such of Bastrop County.

Strange to say, few at the present time know that Nicholas W. Eastland through fate missed being in the Goliad Massacre. While the major portion of Fan-

nin's command was made up of volunteers from the United States, still we have been able to identify at least one man from Fayette County who was there - Nicholas W. Eastland. He was in the cavalry company of Captain Albert Clinton Horton, who upon seeing Fannin surrounded by the Mexican forces, realized that his small force could not extricate his comrades from their perilous position. There was no other alternative but to make their escape to prevent their own capture - if they remained in the vicinity.

Nicholas W. Eastland did not participate in the battle of San Jacinto although his brother William and his cousin, Nicholas M. Dawson, were veterans of this battle. The tradition in the Eastland family, however, is that he was a member of the Harrisburg Camp Guard.

Thus, I have given you a brief review of the life of a Texian patriot and pioneer, and I believe it is now proper to tell you something about the peculiar Texan way of life, our very own heritage, which was shaped by men such as Nicholas W. Eastland. Especially is this true in view of the fact that this is the month that has a special significance to all Texans. It marks the anniversary month of the Battle of San Jacinto - April 21, 1836. This date for the people for our Texas Republic created a new nation by the force of arms - a new nation in the all comprehensive meaning of that term. It was a new nation in that it would bring a renewal to the human spirit, a renewal of faith and courage, a renewal that would go forth on expanding waves and touch all the lands extending from the Gulf of Mexico to the extreme north in the Panhandle. In the minds of those who laid the foundation for a Texas Republic there was the thought of building a shrine, not simply a place

where free men could govern themselves according to the laws of a democracy, but a society of people believing in all that is sacred, in all that is basic to human life at its noblest.

And the image they have created of Texas has been one of the most powerful influences in the shaping of American men and women. We sometime speak of it as the Texan dream - the Texan way of life - the Texan promise, for deeply embodied in the very cornerstone of that Texas Republic was the great aspiration of its people to make a society in which shall be incorporated high values and noble deeds. One perfect example is the property protection given to the widow and orphans in the Homestead Law. This image of a good and free society of people must never be lost by the present and future generations of Texans. This image of Texas must be carried on knowing that Texas is more than a great and rich segment of the United States. This image of Texas as something more than a land of power and wealth should be cherished by every Texan.

One of the problems we face is that too many Texans no longer see this image of themselves and of their state with vividness and consecrated loyalty. Another pathetic fact is that the image of Texas is misunderstood; that wherever you go throughout American the picture which impresses itself upon the minds of others when the TEXAS is mentioned, and it is mentioned and talked about everywhere, is an image false to the truth; that distorts, perverts, and FORGETS the spiritual and solid human values established as our birthright by our Texas pioneers.

There are people in many places who regard Texas as something primitive - for we are so very young. There are many states in the Union who trace back their history much farther than we, and so we appear as a kind of brash and unpredictable adolescent, - as a people who have a surface cleverness, a superficial ingenuity that

hasn't struck deep roots in experience, that hasn't matured, that hasn't developed a culture that is redolent with the ripe wisdom of ages. We are somewhat primitive, powerful, vigorous, curious, enterprising, yet - but also youthful in our ideas. Read some of the estimates of Texas culture and you will find that they do not treat us as if we were an adult and mature people.

We are looked upon (and sometimes we look upon ourselves) as being bereft of maturity, of that assurance that comes from having lived long and on intimate terms with time and destiny. Consequently in parts of our nation our proposals, our books and literature, our thoughts and ideas, our procedures, are not given attention and respect because we are so youthful. We came into being as an entirety only the other day!

To overcome this image, it seems to me we Texans must begin to live more intensely and become more conscious of our glorious Texas heritage (not participate in a continual Texas brag), in terms of the true image of Texas. And what is that image? First, Texas began as a revolt - that most important single struggle or event in our early history, the event which preceded our organizing ourselves into a Republic among the nations of the earth. We began with a revolution. We began by rebelling against tyranny. We began by opposing the inherited and entrenched privileges of a system of government by the high and powerful - a fight against oppression, and the whole world must know that the Revolution of 1836 has not yet ended in 1958. There is still in the Texas spirit a rebelliousness against all tyranny; a revolt against any monarch, dictator,

or court who abridges the inalienable rights of the people, who curtails their personal liberties, who deprives men under the cloak of the supreme law of the land through court decisions their freedoms and liberties which were meant for every human being who draws the breath of life.

And lastly, Texas is promise. We here in Texas are engaged in an unfinished enterprise. Ours is an experiment unique among the states of the Union. Beyond the present is another horizon. Beyond our attainment of today there is a beckoning tomorrow and beyond the twilight and darkness there is a dawn. If we could live in terms of this image, there would be built in many other places an equal image emulating ours and there would be eradicated from the minds of misguided people their misconception about Texas. And they would see us as we see ourselves. In the fulfillment of an ancient Hebrew saying "and they shall build into Me a sanctuary and I will surely abide in their midst", then shall we have built into God a sanctuary for His people and He will surely abide in our midst. Surely you who are gathered here today as members of the Eastland family as descendents of Nicholas W. Eastland will ever remember that he built upon an image such as this.

And so it is proper that you should dedicate the stone marking the grave of your ancestor, Nicholas Washington Eastland, erected by the State of Texas, loved and honored by his contemporaries and whose name is dear to Texas, especially the Texans of Fayette and Bastrop Counties, for whose freedom and liberty he did so much and labored so faithfully. This grave marker but out-

wardly typifies the gratitude that memory has painted in the mind and conscience of all patriotic sons and daughters of the Eastland family. In giving it a place in this little pioneer cemetery, you but honor yourselves for the honor of Nicholas W. Eastland is forever lodged in the repository of faithful memory mind and heart of Texans. You make public recognition of your appreciation of the cardinal virtues of gallantry in the field, wisdom and fidelity in the council chamber, and patriotism in all the acts of his active and useful life.

The independence, prosperity, unity and glory of Texas furnished the goals of the ambitions of Nicholas W. Eastland and his compatriots, and to their ac-

complishment he gave all his effort. The monuments of the past are crumbling into decay as this one will some day in the future, but the feet of thousands are treading paths blazed through a wilderness by this hardy pioneer of a century ago. Here and there the present generation is gathering from fading memory something of the historic beauty and truth to tell how valiantly their pioneer forefather lived, how like a Titan he did his part to wrought a new nation from the wilderness - the Republic of Texas, which is now one of the brilliant stars in the galaxy of American states.

Look upon this grave, O ye Eastland, for here sleeps in honored glory Nicholas Washington Eastland, a true Texian, a true patriot.

CISCO
This week has been a disturbing one for the City of Cisco. Three fires of undetermined origin destroyed four business buildings in town. The first fire, on Tuesday morning, destroyed a building materials warehouse of Cisco Building and Supply Co. Early Wednesday morning the top floor of the downtown Mini Mall was engulfed in flames. Then early Thursday morning Dixon's Auto Supply and a storage building belonging to White's Auto burned. All these buildings were on Conrad Hilton Ave. Arson is suspected in all cases, and citizens are concerned about their homes and businesses in the town.

Dale Stewart, local sculptor, has been commissioned to do a bronze bust of the late Conrad Hilton by the Board of Directors of the Hilton Park and Community Center. The bust will be permanently displayed in the lobby of the Mobley Hilton, which is in the final stages of restoration. Eris Ritchie, President of the Board, noted that "Our Board of trustees is very pleased to have Mr. Stewart's services for this important project, and we have every confidence in him as an exceptionally fine artist and craftsman."

Recommendations of a committee to make changes in Cisco Junior College activities as a means of reducing expenditures were approved by the Board of Regents at their monthly meeting this week. Serving on the Board Committee

Pippen of Cisco, and grew up here. She has a number of relatives in the area. She graduated from Howard Payne University with a Degree in Art, and has done a lot of painting and teaching. The public is invited to come by and see her beautiful paintings.

Some Advice On How To Pick The Right Watermelon

Picking a ripe watermelon is not the easiest thing to learn, but there are certain indicators to look for, says a horticulturist with the Texas Agricultural Extension Service, Texas A&M University System.

"Watermelons mature rapidly during hot weather. Most are ripe about 32 days after blooming," points out Tom Longbrake.

Deciding when to harvest a melon is most difficult early in the season when vines are green and healthy, says the horticulturist.

Some indicators of watermelon maturity are: tendrils or pigtails on vines change from green to brown, and the ground spot on the belly of the melon turns from white to yellow, and the thumping sound changes from a metallic rining when immature to a soft, hollow sound when mature.

"Even experienced field cutters must cut an occasional melon to check flesh quality with their judgement of rind appearance," says Longbrake.

Watermelons should be handled carefully to avoid rolling, bumping or dropping and thus prevent internal bruising of the flesh.

Longbrake suggests storing watermelons at temperatures ranging from 60 to 70 degrees F. Temperatures below 50 degrees or above 90 degrees for extended periods will increase flesh deterioration. Once a melon is cut, it can be refrigerated in wedge form or in small chunks in plastic-covered containers.

"Good quality melons are usually firm, symmetrical in shape, fresh, attractive in appearance and of good color," the horticulturist points out. "The external rind color may vary from deep solid green to gray, depending on the variety."

The Charleston Gray and the Jubilee are the two most popular varieties grown in the South and Southwest, Longbrake points out. Charleston Gray is an elongated melon with a light

green mottled color and deep red flesh. The Jubilee is also elongated in shape but has dark green stripes over a light green base. It is also deep red fleshed. Both varieties range in fruit size from 18 to 40 pounds, with an average of 20-25 pounds.

Watermelon is one of the cheapest fruits per pound that you can buy, adds Longbrake. An average wedge of watermelon has only 120 calories. Watermelon contains about 90 to 92 percent water and is 8 to 10 percent natural sugar.

In Memoriam

MRS. THOMAS K. FARRIS JR.

Connie Delle Cogdell and Thomas Kinder Farris Jr. were united in marriage Saturday, June 7th at 8:00 p.m. at Saint Paul's On The Plains Episcopal Church in Lubbock. The Reverend Mark David Meyer officiated at the double ring ceremony. Nuptial music was presented by Dr. Roy Wilson, organist.

The bride is the daughter of Mr. and Mrs. David Martin Cogdell, Jr. of Floydada and the groom is the son of Mr. and Mrs. Thomas Kinder Farris of Floydada and granddaughter of Mrs. Clinton Monroe McCain of Eastland.

Miss Cogdell, who was given in marriage by her father, wore a gown of white satin and reembroidered French lace beaded with seed pearls. Complimenting the gown was a cathedral length mantilla framed in Alecon lace and seed pearls that matched the dress.

Matron of honor was Mrs. John Patrick Courtney of Houston, sister of the bride. Bridesmaids were Miss Anne Elizabeth Farris of Dallas, sister of the bridegroom, and Mrs. Patrick Thomas Perot of Dallas. They wore identical, long dresses of satin in sapphire blue with flowers in their hair to complement the dresses.

Best man was Mr. John Charles Farris of New Orleans, Louisiana, brother of the bridegroom. Groomsmen were Mr. George Russell Farris of

Houston, brother of the bridegroom, and Mr. Fred Zimmerman III of Floydada. Ushers were Mr. John Patrick Courtney of Houston and Mr. Cecil Junior Payne of Floydada.

Following the ceremony a reception was held at the Lubbock Country Club. Music for the reception was provided by the Old Masters of Swing. Mrs. Charles Hutchinson of Abilene presided at the guest register. Baskets of rose petals and potpourri were passed by Miss Tamala Jo Farris of Gunnison, Colorado and Mr. John Vincent Farris of Floydada.

The rehearsal dinner given in the couple's honor was hosted by the bridegroom's parents on Friday evening June 6 at the University City Club in Lubbock.

The bride attended Texas Christian University and was graduated from Texas Tech University. She received a paralegal degree from Southwest Texas State University. She was employed by the First National Bank in Lubbock.

The groom attended Texas Christian University and was graduated from Texas Tech University. He is president of the First National Bank of Floydada.

After a wedding trip to Hawaii the couple will live in Floydada.

Nutrition Program

During the past week we have had many inquiries as to the definition of a skilled long term nursing home care, and if medicare will pay the expense.

A skilled nursing home usually means that most of the care the patient receives consists of professional, usually a physician, registered nurse or a licensed practical nurse.

Medicare will consider payment if you have been in a hospital greater than 3 days and the doctor feels continued professional care is needed.

Ciscoans To Have Surprise Program

by Lela Latch Lloyd

"Ciscoans will be in for a real treat at the AARP meetings for June and July. I can't announce the name of the speaker nor his subject for next Thursday because he's not here now to confirm but he promised a few weeks ago to bring us his findings. I have seen his work and it's super. Come and hear him," invited Louise Allison, program chairman.

"I can tell you now that our speaker for July will be Dale Stewart who has just been commissioned to do a bust of Conrad Hilton for the almost-completed CONRAD

HILTON MEMORIAL PARK AND COMMUNITY CENTER."

Stewart is a young sculptor who works with bronze. He is married to a native Ciscoan and member of the Cisco faculty, the former Ruth Schaefer, daughter of Mr. and Mrs. Herman Schaefer.

President Gilbert Copeland reminds everyone to remember to bring a covered dish and join the festivities and the good program at the Corral Room at 6:00 p.m., June 19.

"Texas Independence Express" Cancelled

Eris Ritchie, president of the Board of Trustees of the Hilton Park and Community Center, has received word that plans for the passenger steam train, "The Texas Independence Express" to make a run through Texas as a part of the Sesquicentennial Celebration has been cancelled.

A group of organizers and promoters of the project visited Mr. Ritchie and several other Ciscoans in April of 1985, and at that time the local people were told that the train would definitely be running, and

would make a stop in Cisco in February of 1986. Information received later indicated that the Fort Worth-Paso run, stopping at Cisco, would be in May or June. Mr. Ritchie recently called the project's president and was told that there were too many obstacles that could not be overcome, and that the project was indeed dead.

Mr. Ritchie stated, "We understand that some people in our area had purchased 'stock certificates' or had contributed to the project in some way, with an understanding that discounted and guaranteed tickets for riding the train would be available to them. I asked the president just what would be the outcome of these contributions, but I did not get a straight or satisfactory answer other than that if people absolutely insist that they could receive a refund. However, I am personally somewhat skeptical about the matter, as it would seem that chances are good that funds collected could have been used in trying to get the project off the ground. I would suggest to anyone who has contributed funds to the project that they write to the address that they have with any printed material in their possession. We of course regret very much that the train's running will not be a reality, as we were really looking forward to having it here in Cisco."

It will be held June 23 through 27, 1986, from 8:30 a.m. to 11:00 a.m. at Redeemer Lutheran Church 1711 Conrad Hilton Ave., Cisco Texas. The theme this year is "Its about Jesus."

Ester Sunday

School Class Has Salad Supper

Mrs. Lucy Collier entertained the members of the Esther Sunday School class of the First Baptist Church in her home on the evening of May 29, 1986, with a salad supper. The occasion was to honor Rosa Lee Broyles who is moving to Abilene in a few days. Rosa Lee has been a very active member of this class for many years, and her leaving is going to be a great loss to the class as well as the entire church body.

Mrs. Collier served the salad supper from a beautifully laid table. She then directed a fund time and fellowship with Bible quizzes and other guessing games. She concluded the program by reading a poem, written by Mrs. Cloris Webb, telling of the many fine qualities of Rosa Lee. It was most impressive.

Besides Mrs. Collier, who is class president, others present were the honoree, Rosa Lee Broyles, Gladys Gill, Louise Karkalits, Bessie Fields, Mrs. Lee Bailey, Cora Reimund, Velma Coe, Johnnie Jeffcoat, Muri Guyer, Bernice Carter, and one guest, Mrs. Harry Garvin.

Mrs. E.L. Jackson, teacher of the Esther class, was unable to attend because of a previous commitment.

THE CISCO Volunteer Fire Department of some 30 members has won the applause of an appreciative community for their work this past week. Firemen who report for duty when summoned by the fire sirens are paid the sum of \$2 per hour by the city. This is a pretty insignificant sum when you consider the type of work involved and the conditions under which they work.

Three firemen have had injuries while fighting three major fires during the week. Jerry Daugett, minister of music at East Cisco Baptist Church, sustained a broken leg when brick and stone wall fell on him. He has burns on his face and sprained hips. Fireman Royce Darr suffered an arm burn when he went to Daugett's assistance. Fire Chief Richard Connell also had arm burns.

You'll want to join us in a hats off salute to our firemen.

FRIDAY WAS the end of a 17-year stay for Sherry Wheatley at First National Indemnity Company. She cleaned out her desk, turned in her keys and went home to pack her bags and get ready to move.

Sherry planned to have everything ready by Saturday, June 21, when she will become the wife of Steve Terry, her old high school boy friend, who works for General Dynamics in Fort Worth. They'll live there and Sherry's daughter, Kelli, planned to accompany her mother.

Sherry's place at First National Indemnity has been taken by Diana Galle, who moved back to Cisco from the Dallas area. Diana is the daughter of the Robert L. Galle of Lake Cisco, and formerly worked at the CoC here. Mrs. Joe (Linda) Walton of the First National Bank staff is Diana's big sister. Diana moved a mobile home in next door to the Waltons at 508 West 17th St. and is living there.

Diana and Sue Endebrock of the FNI staff gave a reception for Sherry in the old bank community room last Wednesday, and a group of Sherry's old friends hosted a luncheon for her at noon Thursday.

TWO CISCO teachers are signed up for an interesting course of study this summer. Prof Wesley Valek of CJC and Prof Manning Davis of CHS will be members of a special travel class that North Texas State University is sponsoring for two weeks. Class members will visit places of historical significance in Texas and there will be lectures and study at each place.

Both men teach courses in history. Understand they'll get six hours graduate college credit for taking the special course.

OUR SCOUTS report that the CJC Band and Belles have been invited to attend a special event in Mexico next year -- the week before Easter. And they'll have their expenses paid. Understand there will be opportunities for Cisco folks to make the fly trip at special rates. Mrs. Kitty Mc-

Cracken recently enjoyed a visit in Romney, West Virginia, with relatives. The Dan Montgomerys are planning a summer vacation trip to Hawaii. After flying there, understand they'll go aboard ship that will tour the islands with several stops. Hear the Dr. Monte Lewises plan to move soon to the Jack Hailey house on Park Drive.

THE JERRY McBeths got home Tuesday night after spending several days visiting his parents at Springtown. Mike Stanford of Channel 8 TV in Big D and wife and two children visited his grandmother, Mrs. Lois Whitaker, in Cisco last weekend. Mrs. Ted (Penny) Fields will also go to Lubbock for the June 15th week cheer leader school when CHS's CL's will attend classes in the art of leading effective cheers. Benji Lipsey of Houston, who was one of the best football players ever turned out by CHS, spent most of last week in Cisco as the guest of the George Owensens.

WHAT'S NEW out at the Jack Tollett home? There is a pet raccoon in residence at the Lone Star Gas Company manager place these days. And daughter Kelly took finger and toe nail polish and painted the coon's front nails so folks wouldn't have to ask "is it a boy or girl?"

The Tolletts enjoyed seeing the sesquicentennial wagon trail during a visit at Fort Griffin last Sunday. The covered wagons came into camp for the night while they were there. Very interesting, Mr. JT reported. The pet coon went along and park visitors requested permission to make their pictures with the animal.

MRS. ALLEN McGinness has started to work in her job as president of the Ladies Auxiliary of the Texas Dental Association. She spent last Saturday at Stage Coach Inn at Salado presiding at a meeting. And the food was super, she reports.

Mrs. McGinness is scheduled this weekend at McKinney for another meeting of Auxiliary folks.

THE TYPESETTERS have the copy and work has commenced on the book that Mrs. Lela L. Lloyd has written about the Mobley Hilton Hotel, and publication is expected in time for the book to go on sale at the formal opening in October.

Mrs. Lloyd used Chapter 1 of the Hilton book as an entry in a writer's contest that the Abilene Writers Guild announced recently. And Mrs. Lloyd has been invited to speak at the Guild's meeting on June 26th.

Other winners in the Guild contest included Betty Townsend of Albany.

CHIEF BILLY Rains, Detective Risa Livingston and Sergeant Larry Jernigan of the Cisco Police Department had enrolled in a special school for law enforcement officers at Abilene this past week. But

Hilton Avenue, and participants may go there to sign up between 8:00 a.m. and 5:00 p.m. Monday through Friday. All who are interested in participating are asked to sign up by Friday, June 20. Runners should be 12 years of age or older, Prescott said, due to the factor of the weight of the torch.

More information regarding running or signing up may be obtained from Coach Prescott at CJC (442-2567) or his residence (442-3883).

The torch run is being sponsored by the Shell Companies, who have donated \$100,000 to the project. There will be no fee for participating, and each runner will receive a T-shirt to keep.

The U.S. Olympic Festival is the nation's largest annual amateur sports event, and is sometimes called "America's Olympics." It is being held in Houston as a part of the Texas Sesquicentennial celebration, and will feature all of the events of the Summer Olympics as well as some of the events of the Winter Olympics.

Mayor Wheatley, Coach Prescott, and former mayor Ritchie have urged widespread participation from Cisco. They said, "We hope that people from all walks of life in our community will participate in this very interesting event. You absolutely do not have to be an experienced runner to take part. We will even shorten the distance for you if you desire, and will assist you in whatever way we can. We're pleased that Cisco has been chosen to host the famous Olympic Torch, and we know we'll have a good turnout of runners as well as spectators along the route and at the official ceremonies at the Mobley.

Loss At Cisco Lumber And Supply Re-Evaluated

The loss of Cisco Lumber and Supply in last Monday night's warehouse fire probably won't exceed \$150,000.00, owner Joe Wheatley reported Thursday. The building did not contain as much merchandise as had been reported, he said.

Mr. Wheatley said the "we will definitely rebuild ... we need a warehouse ... Cisco is a good town and we're here to stay." He was recently elected Mayor of Cisco.

Cause of the fire was still under investigation Thursday and authorities said they expected that they would find another case of arson, probably related to other fires in town the two succeeding nights.

Mr. Wheatley said his loss was "pretty well covered by insurance." He spent most of Wednesday and Thursday with insurance adjusters, studying inventories and equipment losses. Two forklift machines were destroyed in the warehouse fire.

The series of fires this past week has been an unfortunate occurrence for our small town," Mr. Wheatley said. "I am confident that we will be able to recover from this economic blow."

Mr. Wheatley credited a strong south wind with saving the main store from damage. Cisco Lumber is located in Sandler Square, which included the warehouse on the north side and Burgess Manufacturing Company on the south.

Twelve New Wheelchair Ramps Installed

A total of 12 new wheelchair ramps on Conrad Hilton Avenue have been completed, according to a report from City Manager Mike Moore.

Funding for the project came from the Cisco Civic League, which paid for \$1,700 of the \$2,200 contract.

Two Cisco Men Charged With Assault

Two Cisco men have been charged with aggravated assault with a deadly weapon.

Daniel Glen Parker, Jr., 17, and Cameron Dewey Light, 19, are in the Eastland County Jail. Parker's bonds total \$6,000 and Light's \$3,500, both set by Eastland Justice of the Peace R.G.

The City of Cisco paid the \$500 balance, Mr. Moore said.

The ramps are located at intersections and at alleys. Most businesses located on Conrad Hilton Avenue are now accessible by a ramp.

Contractors for the project were Bill Rucker and Ollie Moran.

Lyerla. Cisco Police Detective Risa Livingston said the two men apparently feuded with a 28-year old man for several hours before they shot at him at his eastside Cisco residence.

No one was injured, Livingston said. A .22 caliber rifle was taken into evidence.
