An identification bracelet was found at the street dance during the Folklife Festival and has been turned into The Cisco Press office. Owner may identify and pick it up during regular office hours.

Assembly of Yahweh, located south of Cisco on U.S. Highway 183, has a wheel chair and a bath lift to loan to anyone who needs them. Call Voy Wilks at 442-3962 if you would like to borrow either of these items.

A copy of The El Paso Times, dated April 13, 1945, was loaned to us by Ed McGough. The headline on the front page was "U.S. Loses Roosevelt; Truman Takes Office," and there were large pictures of the two men. The entire front page was devoted to the death of Roosevelt and the taking the oath of office by Truman. The last words of the president were "I have a terrific headache." As you know, he died at Warm Springs Ga., of a cerebral hemorrhage.

The 16-page paper (which cost a nickel) contained stories about Roosevelt's death and news of World War II. One headline stated "Berlin Only 49 Miles Off; Ninth Army Crashes Ahead."

See in the March issue of The Electric Times, a monthly publication of West Texas Utilities, that Joe Walton of Cisco has been promoted to serviceman from serviceman apprentice.

Folklife Festival workers were honored with a dinner at The Kamon House Sunday night following the closing of the Festival. Someone attending the dinner left prescription shades. Call The Kamon House office at 42-2658 if the shades belong to you.

Wayne Brock Is Candidate For CJC Regents

To The Voters Of Cisco Junior College Taxing District,

I am Wayne Brock, candidate for place 5 on the Cisco Junior College Board of Regents, and would like to tell you about myself and qualifications.

My family consists of my wife, Marie, of 46 years, and three daughters, Carolyn a Dental X-ray technician, Pamela, assistant to an Endocrinologist, and Cindy, a school teacher. Also three granddaughters, five grandsons, and one great grandson.

After nearly four years in the United States Air Force in World War II, with an Honorable Discharge, I entered Cisco Junior College in 1946 to start my college education.

In June 1951 I received my Bachelor of Science Degree from Hardin Simmons University, with a major in Physical Education and minors in Biology and Chemistry.

After receiving my degree I started coaching and teaching. While teaching and coaching I received grants to study advanced Math, Biology, Chemistry, and Physics. I also was awarded a grant to study Nuclear Physics.

I have worked in the construction business also for several years.

I would like to say that I am conservative and I am opposed to taxes. I would like to do away with them, but I realize we have to have some to carry on the government, but not to the pains of wastefulness.

I believe I am qualified to serve on the board as I have had experience in all phases of the school system. I have worked in the classroom, football field, basketball court, track field, along with being in the Administrative Office, and worked in the maintenance department of the school system. This experience will allow me to discuss and render an experienced judgment for the betterment of the college.

I am not only against taxes. I am for keeping the tax-payer informed as to the decisions of the board. I personally believe the tax payer should be truthfully informed and have an input in the system; after all it belongs to them and we are board members representing them.

I also believe that the majority should rule, as was our country founded, and not ruled by one party or one person. If you believe as I, then I would appreciate your vote and influence.

Thank you for your time. Wayne Brock Candidate Place V Cisco Junior College Board of Regents.

Senior Class To Meet Monday

The Cisco Senior Class will meet on Monday night, April 30th, 7:00 p.m. in the First National Community Room.

Rain Drenches County

It seems that no more than once in ten years a rain large enough to cause serious flooding hits Eastland County, and the past week's rainfall seems to fit into that ten year group.

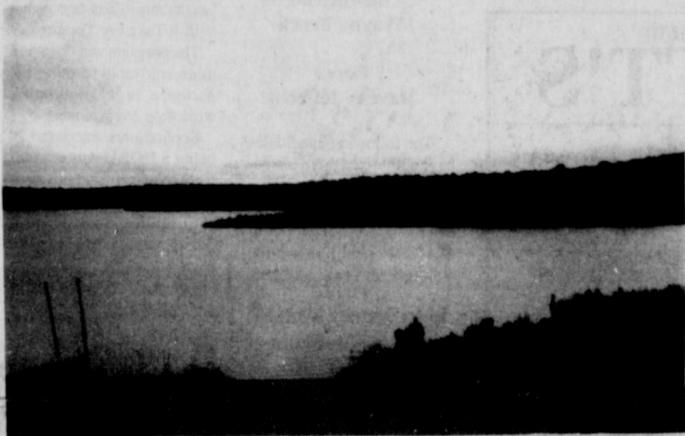

Heavy thunderstorms centered on a line running from the Brownwood area through DeLeon and the Strawn area caused heavy flooding in North Central Texas. Brownwood with nearly 12 inches of rain was flooded and two men reportedly drowned. DeLeon with over 14 inches of rain was described as a lake with six inches of water reported in the hospital and two inches in the Lawrence Bros. Grocery.

Desdemona was reported to have had nine inches of rain and Strawn, Mingus and Gordon were also flooded. Many roads were closed due to high water, and the National Guard was called out to remove and rescue residents of Parker County living near the Brazos River.

Rains in Eastland County ranged from more than three inches in Cisco and an official 2.83 inches in Eastland to about six inches in the Ranger and Rising Star areas, and extremely heavy rainfall in

the Gorman area near DeLeon.

Lake Cisco had reportedly risen to a level only 8 to 10 feet below the spillway, and water was flowing across some roads and flooding fields in the Eastland and Carbon areas. Carbon officially had 4.1 inches of rain and water was flowing over the highway to Rising Star.

Ranger was harder hit with two downtown buildings collapsing from the weight of water on the roofs, and some flooding. Boats were used to rescue truckers who had stopped at an I-20 rest stop near Tudor Road as flood waters rose to near the windows of the 18 wheeler truck tractors.

People were also being

rescued in the Lake Proctor and Comanche areas. And to make matters worse, a 14 inch petroleum line pulled into south of Gorman, sending a large amount of the fluid down the creek toward Proctor before the line was shut down. Telephone service was also out in the Strawn area.

While the worst seems to be over, thunderstorms may

return to saturated Eastland County, which had already received a record amount of rainfall this year.

Property Owners To Receive Letters From City Code Enforcement Officer

It is the responsibility of the City of Cisco to maintain as best as it can a safe, healthy and nuisance-free community in which to live and conduct business. To this end, the City has adopted and enforces appropriate ordinances that prohibit identified hazards and provide for the abatement of public nuisances. Last year, the City removed or had removed 134 junked vehicles from within the city limits. And, the City is again concentrating its code enforcement efforts toward identifying and removing the many junked, wrecked vehicles that proliferate throughout the community.

City Manager Michael Moore stated, "The vehicles we have identified definitely create a substantial health and safety hazard and constitute a public nuisance for the community, and a liability for the property owner."

Moore went on to say, "Property owners who have these junked and wrecked vehicles are strongly encouraged to eliminate these nuisances on their own by hauling off and disposing of

the vehicles. However, over the next few weeks, the City's Code Enforcement Officer, Lewis Burns, will be sending out letters to property owners where these junked vehicles are located."

These letters will instruct the property owner to rid their property of the violating vehicles within a specified time period; and according to Municipal Judge Doug Fry, non-compliance with these letters of instruction will result in offenders being cited to court, where conviction could result in a fine of up to \$1,000 per day of violation.

Junked vehicles, and the accumulation of trash and debris that usually accom-

pany them, are a hazard and nuisance of which the City of Cisco has no need. With the cooperation and support of the citizens of Cisco, especially the property owners with the offending vehicles, this is one problem that can be eliminated from Cisco. The results will be a healthier, safer, cleaner and more attractive community in which to live, raise children and conduct business.

The City Manager encouraged anyone, especially those who may be in violation of City ordinances, who have any questions about the City's junked vehicle abatement program to call Mr. Burns at City Hall.

Project Graduation Chairperson, Bettye McGinness, is asking all parents of high school students, freshmen through seniors, to make baked goods for this sale.

The funds will be used for an all night alcohol-drug free party for graduating seniors June 1 at the Cisco Junior College Student Union Building.

Danny Schaefer Is Candidate For School Board

Sometime back I was asked to run for the School Board. I said I didn't think so, but they went on to say I should, because "Danny, you care."

Well that's true, I do care. I care, I'm concerned, and I'm conservative. I promise to do the very best job I can for the students, faculty, administration and citizens of CISD.

Thank you, Danny Schaefer

Ranger Man Murdered Near Cisco

The man and woman who were arrested were occupying the house, and they directed Deputies to the cellar, where the body of Richard Louanne Williamson was found. The body was wrapped in a blanket with tape over the mouth and eyes, indicating foul play.

Cisco PTO And Wal-Mart Plant Trees At Elementary

The Cisco PTO, project for the year, in association with the Texas Dept. of Agriculture's "Trees for Texas" with help from Eastland Wal-Mart store and their employees set out 41 trees at the Cisco Elementary Monday.

"Trees for Texas" is a state wide effort to plant, over the next 10 years, one tree for every Texan. Monday Cisco Elementary made a good start.

The 41 trees donated by Wal-Mart included one Fruitless Mulberry which was planted in front of the

elementary. 40 Pink Snow Flake tree seedlings which are a relative to Crepe Myrtles were set out along the West and South Fence lines of the play ground. These should make excellent wind breakers.

TDA representative, Bill Eaves of Gorman, came to help with the tree planting. His grandson Randy Harris is a Kindergarten at Cisco.

A Thought For The Day....

The clown is a symbol of the urge of men to laugh at fellow human beings and of their need to laugh at themselves. Though he has often changed his dress, make-up and antics, his contribution has always been essentially the same; to show the folly of taking oneself too seriously. The ability of a person to laugh at himself means that he has accepted himself. He doesn't take himself too seriously. Of all the things we laugh at, other people's mistakes is the least healthy, and laughing at our own is the best therapy there is. What we laugh at is a window into the innermost recesses of the soul. Laughing at yourself means that you are able to view yourself objectively... When was the last time you had a good laugh at yourself?

Prison Sentences For Aggravated Robbery

Two Waco men received 10 year prison sentences Monday for the March 22, aggravated robbery of The Sleep House, an Eastland Motel.

Robert Wayne Johnson, 19, and Michael Edward Munns, 22, entered guilty pleas before 91st District Court Judge Jim Wright.

The pair attempted to rob a desk clerk at gun point, and fled when a guest unexpectedly entered the room. A High School girl, leaving her job

nearby, got the license number of a getaway car.

Law enforcement officers stopped the car on I-20 in Callahan County, and also stopped a second car with one of the wanted men. Both cars were stolen.

A four year old nephew of one of the men was in one car.

Farmers Home To Begin New Guaranteed Local Program

The Farmers Home Administration is extending its guaranteed loans to community program projects, thereby expanding its lending ability, FmHA State Director, Neal Sox Johnson, said today.

Until now, all of FmHA's loans for water and sewer systems, fire stations, health clinics and other community facilities, have been direct loans from the agency to the borrower.

"With the addition of guaranteed loans, we can now assist communities that are able to qualify for commercial loans with the support of an FmHA guarantee," Johnson said.

Under this program, FmHA guarantees a loan made by a bank, savings and loan, insurance company, Federal Land Bank or other qualified lender against a certain percentage of loss. Since the mid-1980's, guarantees have become the major component of FmHA's farm loan program, accounting for more than 50 percent of all farm loans.

The 1990 fiscal year appropriations bill authorizes \$74.5 million in guaranteed loans for water and waste disposal loans and \$23.9 million for other community facilities on a national basis.

Prospective borrowers and lenders interested in the program should contact the Farmers Home Administration State Office at 101 South Main, Suite 102, Temple, TX 76501 (817-774-1306).

Weeks Family Again Winning Fiddle Contests

The Weeks family fiddlers plans to compete in the Texas State Championship contest in Hallettsville this weekend. Robert Jr., age 12, won the Championship there last year in his Division.

There are already new trophies and prize awards for the family this season. The first contest of the spring was the Texomaland competition at Loy Lake Park, north of Sherman, on April 7.

Among winners in the 0-10 age Division were Brandy Weeks, first, and Rebecca Weeks, third. In the 11-18 age division Robert Weeks Jr. won first. In the 60 and over age Division Robert D. Weeks Sr. won fourth.

The next contest was the annual Llano Fiddle Festival, in which Robert Jr. and Brandy were back competing in the same Division. Robert Jr. won second and Brandy

third. Robert Sr. won first place in the 46-69 age division at this contest.

On April 21 Robert Sr. and the boys went to the Glory Days Old Time Fiddler's Contest in Kilgore. Brandy won first in the 0-10 age Division, Robert Jr. second in the 11-18 Division, and Robert D. Sr. first in his age division.

As you can see, the Weeks are off and running for some big awards. Wonder what the summer will bring?

Notice Of Meeting

The Cisco Writers Club will meet Tuesday, May 1st, 7:00 p.m. in the Cisco First National Community Room.

Juanita Zachary, Abilene Writer, will speak to the group.

The public is invited to attend.

Notice:

Ruff Riders 4-H Horse Club will meet Monday, April 30, at 7 p.m. at Eastland National Bank. All members are urged to attend.

Eastland County 4-H Clubs observe Earth Day by planting trees in each community. The trees planted were Lace Bark Elm which were donated by Sid Miller Nursery and Tree Company in Stephenville.

The 4-Hers appreciated the donation of trees. During the month, each 4-Her in the county was given flower and vegetable seed which were from the Keep America Beautiful Foundation. The trees and seeds are a countywide effort to improve and beautify our surroundings and homes.

Shown in the picture with trees are (left to right): Joanna Wallace, Ranger 4-H Club; Jason Hunt, Cisco Country Kids 4-H; and Jeremy Keith, of Olden 4-H Club.

Eastland County 4-Hers cooperated with the American Cancer Society and sponsored a "GREAT AMERICAN FOOD FIGHT AGAINST CANCER" booth recently at Lawrence Bros. grocery store in Eastland.

Working in the booth to make people aware of which foods lower your risk for cancer were (left to right): Amy Logan, Cathy Thomas, and Christy Arther, all members of the Eastland Sr. 4-H Club.

Safe Driving Tips from Rhonda
Effects of drugs on driving: Alcohol is classified as a "Legal" Drug, but it is illegal to drink and drive. Even one or two drinks affect a person's ability to drive. Alcohol affects coordination. It is difficult to coordinate what your eyes are seeing with what your hands should be doing. Judgement is impaired. It is difficult to choose the proper alternatives that are so often presented while driving. (To be continued in next week's article)

The Olden Home Extension Club

The Olden Extension Club met April 10, 1990 at 2:00 p.m. in the home of Dois Hodges. There were twelve members and six guests present.

Dois Hodges called the meeting to order. Rena Kirk led the creed, prayer, and pledge of allegiance. Becky Powell called the roll and read the minutes of the last meeting. Vanita Arnold gave the treasurer's report.

The Olden 4-H Club brought the program. Jessica Keith showed her display of baseball cards. She enjoys this project very much. Jeremy Keith gave a demonstration on making jerky from goat meat. He raises the goats, butchers them, and makes jerky. Tommy Seay spoke on "Pick a Pig" which was a process of selecting a pig for breeding or for meat production.

Clay Carmack spoke on "How To Take Care Of Spark Plugs." Each of the 4-H members gave a good presentation; and the program was very interesting.

Seven ladies from Olden Extension club went to the District 8 Convention at the 4-H Club Center in Brownwood.

Dois Hodges and Rena Kirk were the hostesses. The table was decorated with an Easter theme, which was unique and attractive.

Salad vegetables, dips, chips, ham roll, cookies and punch were served.

The next meeting will be Tuesday May 8th at 12:00 noon and will be a salad luncheon. Every member should bring a salad. This meeting will be at the Olden Community Center. Interested ladies and visitors are always welcome.

Letter to the Editor

After spending almost a year away, Lesa and I have decided to return to Eastland to make our home. It's true—"you don't know what you've got 'till it's gone." What we thought we would gain by moving to Waco was far outweighed by what we left

behind - the strong sense of belonging to a close-knit community.

At any rate, after much thought and prayer, we've come home. I'll be joining Drs. Hazelp and DeLuca in their clinic. Because of the limited space available, we will be re-arranging office hours so at any given time there will be two physicians in the clinic. This schedule will provide more hours available for patients to be seen.

We look forward to seeing you soon!

Sincerely,
Bill and Lesa Oswalt

This week is "Organ and Tissue Donor Awareness Week." A year ago about this time, there was such a week designated, but like many folks, I did not pay it too much attention, nor give it much thought. All members of my family were in good health. Anyway, the need for organ transplants, to my knowledge, had not occurred in or near our town.

Let me tell the people of our area that the importance of organ donation became very real to me and mine a few months back. An urgent need for a liver transplant became evident in our country, our town, - in or house. When this happens to you, interest in the need for more people to sign donor cards picks up.

Statistics show that presently only 16% of people needing liver transplants ever live to receive one. Please seriously consider signing a donor card now. Discuss this matter with family members—let them know of your wishes regarding this, and get to know theirs.

To learn more about becoming an organ and tissue donor write: Transplant Services, P. O. Box 58689, Dallas, TX 75258.

Sincerely,

Ima Ruth Taylor

Texas A&M Hosts County Treasures' Seminar

Ruth Pugliese Hart - Eastland County Treasurer took part in the 18th Annual County Treasures' Seminar at Texas A & M University, April 16-19.

The training focused on the theme, "Each Treasurer is an Architect of the Future - It's Up To Me."

More than 30 speakers addressed the seminar. Subjects ranged from alternative funding for county health plans to how to handle a claim under worker's compensation, time management and media relations.

Concurrent round table discussions also were a part of the program, with county

groupings planned by population size.

John Gilmartin, coordinator for the V.G. Young Institute of County Government, a part of Texas Agricultural Extension Service, said this training was the third to be offered by the Institute this year for elected county officials.

The county judges and commissioners received training in January, and the county and district clerks in March.

People attending the seminar for county treasures participated in a brisk-paced three days of training, as well as a banquet where entertainment was provided by the Singing Cadets of Texas A&M University.

Joe M. Rothe, seminar program chairman and an Extension Service specialist with the institute, said each treasurer who attended all sessions was awarded 20 hours of educational credit by Texas A&M office of Continuing Education.

The treasurers are required to complete 20 hours every two years according to state law, he explained.

The County Treasurer's Association of Texas cooperated in planning and implementing the training.

Ruth Pugliese Hart is grateful for the opportunity to keep up to date on the latest laws and regulations regarding her office.

Nutrition Program

We had a recipe given us that is sort of a change of pace and we want to pass it along to you. Your grandchildren will love the "pacer" and it is good for you also. This is an easy to fix 250 calorie breakfast snack: In a bowl blend together 1/4 cup of creamy peanut butter and 1/4 cup of unsweetened apple sauce. Add 2 tablespoons of raisins.

Cut 2 apples in half and core out up - like holes in which to spoon the mixture. Top each serving with 2 tablespoons of granola cereal. Let me know if you like this delicious breakfast.

Here is a "Food for Thought". Do you have trouble in finding the perfect gift? Remember: Love is the most perfect gift, and a material object isn't necessarily the best way to express it. A good relationship doesn't need the reassurance of a "Perfect" present. Just a little love!

Please come by the Senior Center at your place. Call for luncheon reservations, Cisco 442-1557, Eastland 629-1382 and Rising Star 643-5141.

Q. What are some other ways to help a learning disabled child at home?
A. Besides providing a stable homelife, speaking the truth in love when correcting, and guiding development of social skills, there are some very practical ways of helping the child to become more organized.
Have a designated area for study at home with a desk, proper light and supplies. Setting a time for study each evening is also a good idea. You the parent need to sit down BY the child and give help with homework when it is needed. Otherwise, just your being there will help the child to stay on task.
Have the child to keep an assignment notebook to bring home from school to help him remember the assignments. Be sure to check with the child each evening to see what needs to be done.
Designate a place by the door to place completed homework so that it will be remembered on the way to school the next day.
Be sure to compliment the child on the things he does well and encourage creativity in hand crafts. Also, membership in organizations such as boy scouts or girl scouts may be helpful in socialization skills as well as development of desired character traits.
As a parent you should be aware of your child's diet. Whole grains, fruits, and vegetables should be a big part of the diet. Sweets should be limited and watch for food additives. All of this can affect your child's learning and general well-being.

Natural, Riverfront Setting Attracts Thousands To Schlitterbahn Water Park

Nestled along the banks of the crystal clear Comal River in New Braunfels, Schlitterbahn Water Park has grown over the past decade from a small family business with four slides to one of the nation's largest and most popular water recreation spots.

The park's skyrocketing popularity came "naturally," according to Jana Wilkinson, Schlitterbahn's director of marketing. "Schlitterbahn is the only water park in the country designed around a spring-fed river," Wilkinson said. "It's a unique and natural setting that really sets up apart from most water parks."

Wilkinson explained that Schlitterbahn's attractions have been designed to fit the natural contours of the riverfront site. Slides and tube chutes are built into the slopes, starting at the highest point on the bank and angling down toward the Comal River. Pools and picnic grounds dot the lower land next to the river. Some of Schlitterbahn's rides are even cooled by the natural spring water. This year, guests can experience more of the Comal River on the new "Comal Express" tube chute that takes riders right into the river. The park also has the fleet of river paddleboats for visitors who want to explore farther upstream.

This combination of natural beauty and man-made fun has made Schlitterbahn a favorite family vacation spot. Last year alone, more than 400,000 people came to the 40-acre recreation and resort complex near San Antonio. That makes Schlitterbahn one of the five most popular water parks in the nation. But to Wilkinson and her family who founded the park in 1979,

Schlitterbahn's success is not measured in numbers. The entire family is involved in the park's operation and takes personal pride in its growth.

The idea of a New Braunfels water park began to take shape after Robert and Billye Henry took their three children on a trip to Disneyworld. They fell in love with the water rides and decided to try a few water slides on their property next to Landa Restort (now Schlitterbahn Resort). The Henry's wanted their new water rides to reflect the German heritage of New Braunfels, so they created a German theme and invented the name Schlitterbahn from German words meaning "slippery road."

The Henrys even traveled to Braunfels, Germany, home of the original New Braunfels settlers, and brought back some of its charm for Schlitterbahn. They built their first four water slides around a 60-foot tall castle which is a replica of Bergfried Tower, the guard tower of the Solms Castle in Braunfels. That castle was the home of Prince Carl Solms who led the first German settlers to south Texas and founded New Braunfels in 1845.

Little by little, the Henrys added more attractions. A 50,000 square-foot lagoon with a swim-up refreshment stand and water volleyball was one of the first additions. Later came kiddie parks and an 18-hole miniature golf course filled with whimsical fantasy creations. Today the park and adjacent resort cover 40 acres filled with 17 water slides, 7 inner tube chutes, a family wave pool, swimming pools, hot tubs, restaurant and video arcade.

In the process of building Schlitterbahn, the Henry

family has earned a national reputation as experts in water park design. Demand for their custom-designed foam creations led the family to open the New Braunfels General Store in 1984. The company now manufactures everything from padded kiddie slides to giant foam alligators and serpents for water parks around the world.

However, Schlitterbahn's most unique design feature has never been duplicated anywhere else. The Henry's system of circulating cool spring water from the Comal River through park rides is one of a kind. "Originally this system fed all the park's rides, but now we have alternate water sources so we are not dependent on the river flow," Wilkinson said. She explained how some of the park

rides still operate on a recirculating reservoir system. "Water from the old channel of the Comal River is pumped through some of the park's slides and tube chutes and then is returned to the Comal lake system. It's a very efficient system which recycle and purifies the water, rather than wastes it," Wilkinson added. "The river is a priceless natural asset for our entire community. We can't afford to waste it."

Williamson Named Coordinator For St. Jude Bike-A-Thon

St. Jude Children's Research Hospital announced today that Gevena Williamson will coordinate the St.

Jude Children's Research Hospital "Wheels For Life" Bike-A-Thon in Eastland on May 19, 1990.

Founded by Danny Thomas in 1962, St. Jude Children's Research Hospital is the largest childhood cancer research-treatment-education center in America. St. Jude Hospital is non-sectarian, interracial and provides medical care for over 3,200 active patients. Currently, over \$183,000 is needed each day to keep the doors open. These funds come primarily from public contributions.

The Bike-A-Thon program this year is dedicated to Ellen Marie Haynes. Five-year-old Ellen Marie, from Rossville, Georgia, developed a malignant tumor in her abdomen in June 1986. After treatment at St. Jude's Children's Research Hospital, which consisted of surgery, radiation, and chemotherapy, Ellen Marie was taken off all therapy in January, 1987. Although she isn't cured of her

cancer yet, her prognosis is good.

We are grateful for the concern that Ms. Williamson has for our work and we hope the citizens of Eastland will support the Bike-A-Thon to help provide the funds that are needed to preserve the world's greatest asset... "Our Children."

Northview Supports Eastland Area United Fund

Jackie Kincheloe, administrator of Northview Development Center presented Randall Logan, chairperson of the Eastland Area United Fund with a \$250 contribution. A \$200 check was given on behalf of ARA Services, parent company to Northview. The additional \$50 was raised from activities sponsored by Northview in honor of National Mental Retardation Month. Mrs.

Kincheloe stated, "Eastland County has been and is so supportive of our clients that we wanted to give back to the community a small portion of the love that has been shown to us."

VOTE FOR NEWT HAGAN - CARROLL STANSEL - EMMETT RICH FOR HOSPITAL BOARD

Information concerning the E.L. Graham Memorial Hospital. One million two hundred thousand tax dollars have been collected from 1977 through 1989. This amount \$706,374.00 was collected during the five (5) year period the hospital was leased to Hendricks Memorial Hospital. The records indicate that \$135,000.00 was paid to a Memphis, Tennessee corporation for a seven (7) month management fee, in 1988 when only \$150,000.00 had been paid on the bonds from 1977 through 1987. While Hendricks lost \$500,000.00, the Hospital Board spent about the same amount as was generated by the hospital tax. Some of the money was placed on interest bearing CD's. At the time Hendricks ceased to operate the hospital, E.L. Graham Memorial Hospital had \$270,000.00 on deposit with a debt of \$450,000.00. The best information available indicates that this \$270,000.00 is gone, and the rumor is, the hospital owes approximately \$800,000.00.

In August of 1989, a group of concerned citizens met with the hospital and requested to inspect the records (according to the hospital charter, the records are open for public inspection). This request was refused at first, but after a few days the group was allowed to see a small amount of the bank statements. Requests to view the bank statements for 1988 and seven (7) months of 1989 were refused and only two (2) months of bank statements were furnished.

The present Hospital Board on September 30, 1989, adopted a budget for the current physical year which has a deficit of \$254,200.00.

IS THERE A SOLUTION TO THIS TYPE OF CONDUCT? YES!

Vote for NEWT HAGAN - CARROLL STANSELL - EMMETT RICH as a team to lead the E.L. Graham Memorial Hospital Board in a new positive direction.

All three (3) men were born and reared in Eastland County. All three (3) have farming and ranching experience and are running on the platform of honesty, accessibility, and accountability to the residence of the hospital district with their main goal to put a stop to any further waste of the taxpayer's money.

All three (3) men have pledged to run as a team and if elected will carry out the wishes of the voters.

Please vote on May 5, 1990 for NEWT HAGAN - CARROLL STANSELL and EMMETT RICH so your best interest can be represented on the hospital board.
