## CWF Will Sponsor Traditional Event

The traditionally Christmas Bazaar annually offered by the First Christian Church Women's Fellowship will be held the first Friday and Saturday of November this year.

The special event was begun in 1969, an idea projected by the late R.L. Medford, deacon of the local congregation. The aim was to assist with a fund toward building a new house of worship for the church following the condemnation of the former building which was to be razed due to a shifting strata allowing the building to crack and become hazardous.

Before the idea of a bazaar congealed, the congregation had received substantial donations augmented by proceeds from various events such as rummage sales, enchilada suppers, etc.

Among the early supporters of the project were Norine Guiles, Ruby Huffman, Bess Henry, Ethel Mae Lord, Johnnie Cheshire, Flora Mae Lee, Virginia Hogue, Della McCarroll, Opal Moore and many others all now deceased, and Ruby Tullos, Ada Mobley, Reba Steffey and Nona Stevens continue their efforts along with many who have come into the congregation since. ## Make A Miracle Has Speakers Available Here

Make A Miracle OTTA (Organ Tissue Transplantation Awareness) was formed in March, 1990. Application into the coalition on Organ Tissue Transplantation Awareness of the Dallas and Fort Worth metroplex was submitted in May, and acceptance into the Coalition was granted in June.

The local organization was the first of its kind to be granted membership into the Coalition, another first for Cisco. Cisco's organization is referred to as the first Satellite.

Nelson and Mildred Geist of Scranton recently attended the Coalition Speakers' Bureau Training held at the Southwest Organ Bank in Dallas. It was a very informative program. Speakers are available for school and civic organization programs. For anyone interested in engaging a speaker, arrangements can be made by contacting Mildred Geist at 442-1528 or Penny Fields at 442-3535.

CWF and Hattie Weathers, bazaar chairman.

The tenure of Almon Martin, pastor, saw the fund dramatically enhanced and when the building debt had been absolved the funds were directed chiefly to missions.

E.A. Sherwood was pastor when the new building was started.

An outstanding contribution to the new structure was the sale of a home bequeathed to the church by long-time members Jim and Mozelle Flournoy, deceased.

Aside from an interesting collection of items and baked goods offered for sale, the bazaar will include breakfast and lunch both days. The menu for breakfast will include sausage, eggs, biscuits, jam and coffee; the lunch featuring stew and cornbread. Everyone is invited to attend.

This again, is another effort to do the same; move and affect Cisco for Jesus Christ. Larry Linam, pastor of East Cisco Baptist, says, "This has been the biggest part of my vision and reason for coming to Cisco, Tx.: Which is to win souls to Jesus Christ, the answer to life's perplexing times."

David Crain is a high-energy, dynamic musician and speaker who will inspire and challenge you to live for Christ. He has several albums on the market. His music is known for its variety of style. David has ministered to thousands in the past several years in conferences, concerts, revivals, youth rallies (like the youth Evangelism Conference in Dallas where more than 5,000 attended), and youth camps. David makes his home in Grand Saline, Texas with his wife

Betty and two sons, Josh and Caleb.

## Dr. C.M. Cleveland Honored By Church Of The Nazarene

Sunday, September 30, a Homecoming was held at the Cisco Church of the Nazarene to observe the 80th anniversary of the founding of the church in Cisco and to honor a long time member, Dr. C.M. Cleveland.

When Dr. Cleveland arrived at the services he was unaware that the members, former pastors and their families, and friends had come to show their appreciation for the many years of faithful service to the church.

Dr. Cleveland, a native son of Cisco, had grown up on a ranch ten miles north of Cisco. He graduated from Cisco High School and spent a short time after his graduation helping his parents, Grover and Ella Cleveland, "work the soil." A desire to see the world lead him to join an older brother at Southern Nazarene University in Oklahoma City.

After completing three years at the university in Oklahoma City he transferred to the Luscombe School of Aeronautics in Dallas. He was then employed as an Inspector Supervisor by Glenn L. Martin Aircraft, Baltimore, Maryland. While in Baltimore he married Josephine Cleveland, a native of Nebraska.

In 1944, Charles entered the U.S. Air Force as an aviation cadet and a year later received his wings and was commissioned as an officer. After the war, he entered the

Northern Illinois College of Optometry in Chicago. Four years later he graduated with scholastic honors. With his degree in hand he returned to Cisco with his wife and small son, Charles Bruce. His plans were to visit his parents and then find a location somewhere in Texas to practice his chosen profession.

While visiting in Cisco, the local Optometrist came to the ranch and asked him to take over his practice as he wished to relocate. After consideration he opened his practice in 1949 in The Reynolds Building. He practiced there until a new office was built at its present location.

Along with his work, he began to assume more responsibilities. He and his wife's lives were enriched by the birth of a daughter, Carolyn Cleveland Knippers. He and his family also united with Cisco Nazarene Church. His mother, Ella, was a charter member of the church and her husband, Grover, joined the church after their marriage. It was here that he and his brothers and one sister were introduced to Christian principles.

Charles early training was to shape his life. He served well his church for 40 years. Five years were spent supervising the youth program. Later, Charles was elected Sunday School Superintendent and served in this capacity for 35 years. He resigned

this position in April, 1990. Concurrently he served on the Church Board of Directors. Along with others, he assisted in the planning and building of the present church at the corner of 10th and Avenue N.

Dr. Cleveland soon became known to many in the church and community as "Doc." He became a friend, helper and counselor to many. Members of the church often come to his home to share with him their concerns and to seek his counsel.

His interest in the young people lead him and his wife to establish a scholarship fund for young people at the church. This enabled them to begin their education. Some became ministers and are now serving faithfully in their pastorates.

In 1981, Dr. Cleveland received the Outstanding Laymen's Award from the West Texas District of the Church of the Nazarene.

During the Homecoming services, Dr. Cleveland was presented by the local church the Distinguished Service Award issued from the demonstrations headquarters, Kansas City, Ks.

Dr. Cleveland has not limited his time only to his local church but is currently a member of Gideon International. He is a Gideon speaker,

formerly a Chaplain of the local Gideon Camp and is presently serving as President of the Gideon Camp which comprises five towns in Eastland County.

Charles joined in with many others to assist in any way he could to make Cisco a better place to live. He is a member of the Cisco Lion's Club; a member and former Director of the Chamber of Commerce; served on the CJC Board of Regents; the board of the Cisco Independent School District; and for several years Chairman of the Cisco Community Chest drive; besides being a former member for several years of the Cisco Hospital Board.

He is also a member of the Texas Optometric Association. In 1984 the American Optometric Association recognized him for his contribution to the field of Optometry and presented him a life membership.

A rugged man, endowed with the ancestral family traits of honesty, and a desire to do right toward his fellowman has endured Dr. Cleveland to many. Mrs. Trude Pettigrew, local pastor's wife, stated before the presentation that the poem written by William Dromgoole in 1934 could well be the summary of Dr. Cleveland's life:

"On old man, going along a highway,

Came at the evening, cold and gray,  
to a chasm, vast and deep and wide

Through which was flowing a sullen tide.

The old man crossed in the twilight dim;  
The sullen stream had to fear for him.

But he turned when safe on the other side

And built a bridge to span the tide.

'Old man,' said a fellow pilgrim near,

'You are wasting strength with buildings here;

Your journey will end with the ending day;

You never again must pass this way;  
You have crossed the chasm, deep and wide;  
Why build you the bridge at the eventide?"

The builder lifted his old gray head.  
'Good friend, in the path I have come' he said,  
'There followeth a youth who must pass this way.  
The chasm that has been naught to me.

To the haired youth may a pitfall be.  
He, too, must pass in the twilight dim;  
Good friend, I'm building this bridge for him."

## You And Your Living Faith

Here is another article about you and your living faith. Today we will show you some words about the Word pertaining to the fact that God created us body and soul.

Some hold the mechanistic view that human beings are basically only physical. They would reduce us to creatures with only a body. But God created Adam and Eve with a body and soul.

As for the body that God gave our first parents and through them to all of us, we agree with the psalmist that we are "fearfully and wonderfully made." We have a brain by which we think, eyes that see, ears that hear, a heart that heats. These members of the body cannot be duplicated in laboratories.

Built into the body is a mind, and with it a soul, or spirit. These are closely united; they constitute one complete human being. In the Bible the word "soul" sometimes denotes the whole person. When the Virgin Mary began her Magnificat with "My soul magnifies the Lord," she was saying "I magnify the Lord." At the same time "soul" also stands for a spiritual, immortal component of the human being, as Jesus' words show: "Don't fear those who kill the body but cannot kill the soul; rather fear Him who can destroy both soul and body in hell" (Matt. 10:28).

The above soul-body distinction is a dichotomy, that is, a two fold division of human nature. The Bible also uses trichotomy, as does St. Paul: "May you spirit and soul and body be kept should and blameless at the coming of our Lord Jesus Christ" (Thess. 5:23).

Soul, Spirit, mind, and heart (seat of emotions) are closely related, Jesus tells us to love

God with all our heart, soul, and mind.

With death comes the parting of body and soul, to be reunited in the resurrection. Through the shedding of His blood and His rising again, Jesus Christ redeemed total persons, and it is total persons, with glorified bodies like His own body, that He wants to have with His in eternal life.

Interested more about your living faith and your living God? Then take time in your life and attend the Christian Church of your choice. Take time to praise and worship our God, Father, Son and Holy Spirit who created you—body and soul. (Read Psalms 139).

"We feel the church needs to reach out more to spread the word, and those that seek peace and happiness in their lives can truly find it in God's House," according to the pastor, Dick Summers. Rev. Summers is preaching from the Book of Acts at this time and it is exciting and revealing. "Just try it and give God a chance to work in your life!"

**Dental Emergency**  
Q. What is considered a true dental emergency?  
A. Basically there are three: when a patient experiences sudden severe pain, when a tooth has been knocked completely out, or when there is unusually heavy bleeding after dental surgery. In these situations you are entitled to immediate attention by your dentist, even if it happens to be the weekend. Of course, if you've had pain for several days and don't get around to calling your dentist until Sunday morning, you may not get much sympathy. But most dentists will work you into their weekend schedules, or, if it's a weekend, make arrangements to open their office for you. Sometimes a pain prescription can see you through until Monday when the office is open. If you have an emergency and can't reach your dentist, go to the nearest hospital emergency room. CERS 104

Classic Film At Majestic Sunday Thru Tuesday

Mushrooms at Last!

4-H Rough Riders

Priscilla Lane gives Cary Grant a good swift kick when she finds out there's insanity in his family in Frank Capra's, "Arsenic and Old Lace."

How about a Halloween movie - scary, yet sophisticated and funny?

All these things are included in the Warner Bros. Classic movie "Arsenic and Old Lace," showing at the Majestic Theatre in Eastland Sunday, Oct. 21 at 2 p.m., and Tuesday, Oct. 23 at 7:30 p.m.

Tickets will be \$4.00 at the box office, or you may still enroll for the 1990-91 classic season for \$30.00. This entitles you to 12 tickets to be used any way you wish.

"Arsenic and Old Lace" stars Cary Grant, Priscilla Lane, Raymond Massey, Josephine Hull and Jean Adair. There are also other character parts and "bit" players

who add a lot to the movie. The picture was directed by Frank Capra.

"This film is one of my favorite movies," says Ed Allcorn, Manager of the Majestic Theatre. "It was completed in 1942, but not released to movie theatres until 1944, due to the controversy surrounding the film's subject matter."

"At that time it was considered shocking...to think that two sweet little old maid aunts would lure men into their parlor and give them Elderberry wine laced with poison..."

The film opens with the words: "This is a Halloween tale of Brooklyn where any-

thing can happen - and it usually does!"

Cary Grant is a New York Drama Critic - a symbol of bachelorhood who has written a book titled "Marriage, A Fraud and a Failure."

Nevertheless, he is about to marry Priscilla Lane, a Vicar's daughter. He slyly obtains a marriage license and goes home to find his two dear old Aunts up to their favorite tricks. The help "lonely old men find peace" by feeding them poisoned wine, and then have their brother dig graves.

Things get pretty complicated before a great surprise ending. If you're a first-time viewer, you'll never guess the outcome!

An experiment in growing mushrooms on logs is coming to fruition for Dr. Charles and Anna Barnes. The mushrooms are in flower on logs implanted with the seed several months ago at the Cabo Ranch northwest of Rising Star.

Eight months after the seed (spahn) was implanted in Rising Star oak and pecan logs, the harvest of mushrooms has begun for Dr. Charles and Anna Barnes at their Cabo Ranch northwest of town.

This experiment began in February and it wasn't known precisely how long it would take for the mushrooms to grow to flowering maturity. Harvest should occur on these logs sporadically for the next four years.

These particular mushrooms are of Japanese origin and known as Shiitake, or Golden Brown variety. The Barnes' say they taste wonderful and the quality is excellent.

**YOU ALWAYS HIT THE MARK WITH THE CLASSIFIEDS**

Theoretically each log should produce about \$10 worth of mushrooms each year with minimum labor on the part of the farmer. Trees are cut during the winter and it takes about 10 minutes to implant the spahn in each log. Since many farms bulldoze our shinnery oak trees to clear fields, there should be an ample supply of logs in this area. Logs must be kept in the shade while maturing. Barnes also kept his wet with a sprinkler to keep the summer temperatures down.

Q. What are the four stages of the personality identification process?

A. There are 4 pathways to identity:  
1. Identity Foreclosure occurs when the individual lives according to standards and goals set forth by the parents. Family ties and strong religious affiliation usually predominate. The parents have spent a great deal of quality time with the child and then in adolescence and early adulthood these expectations are carried out. Peer influence is not as strong as family and religious regulations. The type of person who has Identity Foreclosure does not experience identity crises as compared to the other pathways to identity.  
2. Identity Achievement is the process of testing options. Once they have been personally tested the individual commits to a way of living. These individuals may have had parents who were absent or unavailable for comments about the dilemma in the child's early years. It is possible also that the parents may have encouraged the child's own decision-making to find out for themselves what they liked.  
3. Moratorium is the active exploratory phase. Peer pressures cause much experimentation with morality, drugs or religions. There is a lack of commitment. There is often a lack of follow through. These individuals are usually easily persuaded to try new things.  
4. Identity Diffusion is neither crisis or commitment. Childhood resolutions are abandoned, but there is a drifting or avoidance of the identification task. SOURCE: Finding Himself by Ruthellen Josselson

## Pharmacy Topics

By Bob Mueller

It's flu-shot season. Almost 50 million Americans are at risk -- especially those over 65 and the chronically ill.

New drug to dissolve blood clots after a heart attack -- anistreplase --- is said to work faster than other clot-busters. The injectable drug is now being tested at the University of Utah Medical School.

Heavy alcohol consumption by fathers in the months before conception not only produces smaller babies (as a University of Michigan study found), but seems to result in slower-learning offspring. New research, on rats, comes from Washington University in St. Louis.

Short-pulse ultrasound seems to be effective in helping heal wrist and leg fractures, researchers found at Mount Sinai School of Medicine in New York. Therapy aims waves through a tiny hole in the cast.

Combination regimen -- short-term use of drug, etidronate, followed by long-term calcium use -- can strengthen the bones of elderly women and reduce the risk of spinal fractures, a Danish study reported.

When your doctor recommends calcium or other nutritional supplements, check out the wide selection available at Wal-Mart Pharmacy, Hwy. 80 East, Eastland, 629-3347.

## Pilgrims To Pioneers

Volume 1990-Forty Two:  
Sunday, 21 October 1990  
...MRS. W. H.  
CRAWFORD, P.O. Box 252,  
Palo Pinto, TX 76072 is anx-  
ious to hear from anyone who  
may have information concern-  
ing LEVI M. CRAWFORD, son of Davis  
Terry CRAWFORD and Mary  
(BARRON) CRAWFORD, both deceased  
1852 in Choctaw County, MS  
buried in unmarked graves in  
the CRAWFORD Family

graveyard, Winston County,  
MS. Two childrens graves on  
either side of what is believed  
to be D.T. and Mary's graves  
are felt almost certainly are  
those of Peter and Octavy  
CRAWFORD, also children  
of D.T. and Mary. (For un-  
known reasons, this grave-  
yard was changed to the  
BLACKWOOD CEME-  
TERY about the turn of the  
century)  
1850 Federal census, Choctaw  
County, MS shows D.T.  
CRAWFORD 22 born GA,  
wife Mary 21 born ALA and  
the following children: James  
12, Mary 8, Peter B. 6, Nancy  
4 and Octavy 2 all born MS.  
A Mississippi High Court

case lists children of deceased  
parents Mary and Davis T.  
CRAWFORD: James; Mary;  
Nancy; Levi M.  
CRAWFORD. Thus family  
conclusion is Levi M.  
CRAWFORD was not born  
when 1950 census taken but  
before 1852 as both parents  
died in that year. Who took  
this infant? Is it possible that  
Uncle Solomon BARRON  
(Mary's brother) took him to  
Texas?  
Also need information on  
D.T.'s brother, WILLIAM  
H. CRAWFORD who was last  
found on 1880 Oktibbeha  
County, MS census. Wife  
Jane buried CRAWFORD  
CEMETERY 1880. Where  
did William go? Sincerely

appreciate ANY HELP on this  
family.  
...Mrs. Glenda DURR,

Texas 79925 seeks informa-  
tion on George W. DAKAN  
county surveyor, Eastland  
County, TX 1890-1891.  
There were also DAKAN &  
SCOTT Real Estate Agents  
at this same time. Was George  
W. DAKAN also a real estate  
agent?  
My grandfather, Russell  
Bean WILLIAMS lived in  
Eastland County and married  
Lanie DAKAN 1906, Erath  
County, TX. Could George  
W. DAKAN be related to my  
grandmother? Would be

happy to hear from anyone  
having information about this  
family.

THIS TIP might help the Honorable Federal Budget-Writers, and heavens knows they need all the help they can get, as they wrestle with the age-old problem of trying to match the income to the outgo, and factoring in the much-in-arrears federal deficit.

THINK FIRST, we'd suggest, of the many who have laid down their lives for this country and the great number who stand ready today to do likewise.

CONSIDERING THESE, and patterning statesmanship action with the valor that has been and is being displayed by the brave who defend our country, just might make it easier to conduct the governing of this country correctly. When a service person is asked "To lay down a life for the country," that service person in a sense, first forsakes family, friends, career, to go where protectors are needed, and then bellies up to the fact that, if called upon, will make the supreme sacrifice.

SHOULD A governing official do less?

President Bush, Senators Bentsen and Gramm and Cong. Stenholm:

"You are our spokesmen in Washington, and it's not right for us to criticize without offering solutions but it does seem that a lot of time has been wasted trying to develop an operating budget for our country, and that's part of your job. It's really a bit sad. We don't hold you four personally responsible, only in that you are our direct link, and the ones to whom we must look first.

WHEN WILL special interests be forgotten? Racing for adjournment, will the party labels continue to block visions? Just once, couldn't we all in one accord, say, This we believe is best and move forward together so that the American people could believe in you and something and get with the program. Will the

booze tax be increased? Probably not. Tobacco? Doubtful. Gasoline? Probably; it gets just about everyone and doesn't have as strong a lobby.

Cut Medicare? That could play havoc with the 98% re-election of incumbents, couldn't it, and November 6th isn't far away.

THIS IS surely a dumb question, but has anyone in their wildest imagination and flights of fancy, ever once considered the possibility that one way to reduce the federal expense could be to cut out some federal dead wood? What to cut? Sacred Cows? Untouchables? Tough question, huh? Granted, but let's not lose sight of the fact that you are elected and paid handsome salaries to make those kinds of decisions.

REMEMBER, HARRY'S admonition: "If you can't stand the heat, get out of the kitchen." Some have even suggested that maybe we should just let Gramm-Rudman kick in, and see how many bureaucrats we could in fact do without.

DEAR ELECTED official, wouldn't it be nice to think that maybe once again, you're running the government and not the hired hands.

This week's Newsweek has a cover cartoon of the President and the two party leaders in tattered baseball uniforms, with this caption: "BUSH LEAGUE: The President Stumbles, Congress Bumbles. Boooo!" Not a bad depiction, but the thing that grabbed us was the fact that the three are shown in matching uniforms, which seems to us a misnomer. Sometimes you wonder if they're even playing on the same team.

An inside article points out that things could be a'changing come '92, a presidential election year, the reapportionment based on the '90 census and a record number of retirements. This could result in some 70 or 80 open seats, the news magazine suggests.

And concludes that citizens could also be blaming themselves because special interests could be drowned out by greater voter participation in all elections.

The writer concludes that we all must be willing to pay the bills for the roaring '80s that helped

put us in the mess we're in today.

SO WE'RE waiting for leaders to lead, and then we all, like so many others, must be willing to lay down a little personal sacrifice to make it happen for the good of the country.

AMERICA DESERVES patriots today.

**Desdemona News**

By Vonnie Guthrey

Make plans to attend a meeting on Monday, October 22, 7:00 p.m. at the Desdemona Community Center to plan the annual Thanksgiving Supper. This has been an annual affair since the end of World War II, 1946 when a big Thanksgiving Supper was given for the returning soldiers.

Our "get well" wishes goes out to Eloise Lewis who is a patient in the Stephenville Hospital at this time.

Chris Johnson of Andrews recently visited a few days with his grandparents, Bob and Merlene Wisdom. Merlene taken Chris back to Andrews over the weekend

and visited her daughter, Marsha Johnson and Billy.

Carolyn McKillip Rogers has opened a Craft Shop in De Leon called "Carolyns Creations." Located in the R. D. Bell corner building. Hours are 8:30-5:30 Monday thru Saturday. She would appreciate all her friends and neighbors dropping by for a visit.

Carson and Oma Lee Holdridge of Cisco, Bernard and Ann Keith spent the weekend in Stephenville attending Blue Grass Festival at the Melody Mountain Ranch. Other friends attending with them were Kirby and Sue Fears of Stephenville, Dennis and Alene Cotten of Springtown.

**Call Crimestoppers For Fast Fifty**

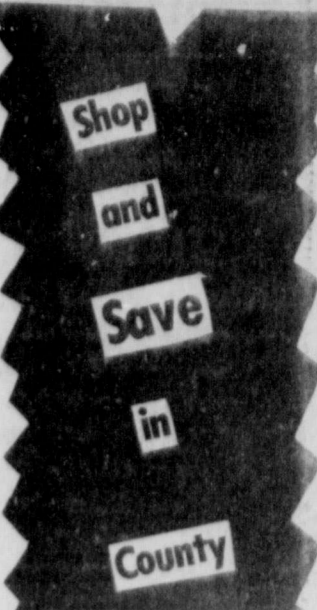

the reward cannot be paid.

Crimestoppers has had a float in the Old Rip Parade and the Cisco Homecoming Parade lately. And the float won its division and received a nice trophy at Cisco.

The float became a booth at the Old Rip Fest and more than \$400.00 was raised for Crimestoppers, a non-profit organization which uses the money to pay rewards for information which leads to the solving of crimes. With the booth visiting Rising Star, Gorman, Ranger and Eastland, nearly \$1200 has been raised for Crimestoppers.

Members of the Legends of the West have been volunteering as Crimestopper

Marshalls and they have put on some skits, wearing costumes and guns from the Old West.

According to the American Cancer Society, one out of ten women will develop breast cancer sometime in her lifetime. It is currently estimated

that over 37,000 women die each year as a result of breast cancer.

Ninety percent of breast cancers are diagnosed by women or their physicians finding a lump in the breast. Women who are diagnosed with a lump large enough to feel have a 50 percent five year survival rate. A woman who is diagnosed as having breast cancer by mammography, before a lump can be felt, has a 97% five year survival rate and a 90% 10 year survival rate. The cost is only \$60.00 + \$4.50 S&H. A mammogram can detect a cancer this small, even before it can be felt.

## Fishing Outdoors

### Big Scam At Big Sam?

When does \$500,000.00 turn into \$200,000.00 for fishing? When only 2,921 entrants showed up for the Lake Sam Rayburn Big Bass Super Derby. The Dallas-based Eventerprises which promoted this event and the \$500,000.00 or \$250,000.00 prize depending on the bracket entered estimate a loss of \$1 million dollars. The lone investor in Eventerprises has filed for bankruptcy.

This can only give an uphill road for future big bass events promising vast riches.

And a special black eye to the angler who was to receive \$500,000.00 for his winning fish DeWayne Morrison of Deer Park. Mr. Morrison has stated that he did receive \$200,000.00 plus two post dated checks for \$150,000.00 each for Dec. 7, 1990 and Feb. 7, 1991. According to legal sources we contacted, legally the post dated checks can only be as good as wallpaper.

The total number of contestants who is checks were bad was not available.

I wonder if the portion of

each entry fee that was to be earmarked for the Lone Star Hatchery will be turned over? I will continue to pass along any information concerning this event.

Cruising is the most popular form of pleasure boating, but it also is responsible for more accidents than any other boating activity.

In 1989 there were 126 cruising accidents reported in Texas, 277 boating accidents in 1990 of which 42 were water hazards while cruising.

Boating accidents can be divided into two categories: vessel casualty and personal casualty. Vessel casualty includes collisions with other vessels, fixed or floating objects, capsizing, sinking, grounding and flooding. Per-

sonal casualties involve death by drowning and disappearance. Personal injuries are represented by falls overboard, falls in a boat, burns and hit-by-prop.

More than 90 percent of deaths in boating accidents are drowning incidences while 80 percent of drowning victims were not wearing a personal flotation device.

Factors that will help reduce the risk of water hazards include having a nautical chart and knowing how to navigate with one. Charts are your road maps. Most areas have government or locally prepared charts available that give water depth, show navigated aids, major landmarks and underwater danger areas, as well as shorelines, waterways and harbor areas.

Another preparatory factor is knowing navigational aids on your right while heading upstream, or from seaward, is a fundamental example of proper navigation. The phrase, 'red right returning' helps boaters remember this rule.

Other equipment that will help you navigate the hazards

are a compass, piloting skills, tide and time tables, range markers, lighthouses and knowledge about currents. Also, weather conditions, excessive speed, no proper lookout, overloading, improper loading, restricted vision, alcohol use, faulty hull, machinery and equipment are other causes of boating accidents and death.

The operation of a vessel must submit an accident report form to TPWD, 4200 Smith School Road, Austin, TX 78744, for any accident in which a person dies; a person is injured; or property damage is more than \$500.00. This report must be submitted within 30 days of the accident.

A vessel operator involved in an accident must render all practical and necessary assistance possible to the victims without seriously endangering his own vessel or persons aboard. The operator shall give his name, address and vessel identification to any person injured or to the owner of any property damage in the accident.

Till next week remember

the examples we set will be the molds for tomorrows outdoorsmen.

## LETTERS TO EDITOR

Dear Editor:

The front page article in the Oct. 14th issue on the Hospital tax rate was sure the best magic show and sleight of hand act I've seen. First the tax on a \$18,347 house at .50 per \$100 is \$91.74, not \$19.74. (Editor's Note: This newspaper made a typographical error in the amount of tax. The correct amount was on the original copy submitted by the Hospital Board. We ran a correction in the next issue of the newspaper.) Second, \$18,347 is only an average; what about the folks who live out of town and own several hundred acres? They may be a retired couple still living on a family farm worth over \$100,000. Their simple arithmetic is for simple minds; to tell us that the difference between what was tried to put on us first and what they are trying to put on us now is only \$22.83. The difference between what? Do they mean the difference between the .28 per \$100 they tried to get and the .50 per \$100 they want now? Well, we are not stupid, we know the difference is really between the .14135 per \$100 and the .50 per \$100 which is .35865 per \$100. Next that statement that there are voters who can vote but don't have to pay any taxes; is that suppose to get them to vote for the tax increase, to get something for nothing? Well, let them beware, if they don't own a house, then they have to rent. If taxes go up on their landlord's house and on the rent house, where do they think the landlord is going to be able to get the money to pay the extra taxes with? He is going to raise your rent, that's where, and he isn't going to get no tax breaks either on that rent house. The facts are this, with the hospital closed we are not stranded 40 miles from a hospital or a doctor.

Eastland is only 10 miles away and there is at least 5 or 6 doctors in Eastland. If Dr. Cermin decides he can not remain in Cisco and treat patients at the hospital in Eastland, that would be a loss, but not the life threatening, gloom and doom we are led to believe. The hospital is not profitable, the hospital is not used by hardly any of the total population of the district, only higher and higher taxes would keep it open. Using our tax money to guarantee one or two doctors they will make \$90,000 to \$100,000 a year is nothing more than socialized medicine. Even the leader of the Soviet Union realizes that socialism doesn't work, it just destroys every thing it touches. There are people who are afraid to speak out for fear of their jobs or some kind of economic retaliation, but they can speak out at the ballot box; that is where they have nothing to fear.

Thank you,  
Clifton W. Lacy

Editor,

If you will, please reprint this. It is from a micro-film at CJC. We thought it would be of much interest to all. It was printed in The Cisco Press in 1967.

Thanks,  
Louise Nelms

(Editor's Note: The following is an article that appeared in this newspaper January 26, 1967, entitled "Hospital Authority Is Created To Study Building Feasibility.")

"A Cisco Hospital Authority was set up Tuesday night by the City Commission for the purpose of investigating the feasibility of creating a hospital with the aid of a federal grant.

"Seven members chosen to make up the Authority were Dr. E.E. Addy, Dr. Merrill Wallach, Banker Bob Ham-

mett, Chamber of Commerce Manager Jim Smothers, Pharmacist Lloyd McGrew, Restaurant Owner J.D. Yardley and Car Dealer Charles Graham.

"The Authority elected Mr. McGrew president. Appointed to the committee to select a site for a hospital were Dr. Wallach, Mr. Graham and Mr. Smothers. The committee that will contact out-of-town foundations for contributions is composed of Dr. Addy, Mr. Hammett and Mr. Yardley.

"Working with the Hospital Authority is the Parker-Croston architect firm of Fort Worth. This company will make a survey of the Cisco area to determine the size and type facility needed.

"Parker-Croston, once the survey and Authority's study is finished, will file an application with the Texas State Department of Health for a Hill-Burton federal grant for half the amount of the determined cost.

"To be considered for a grant under the Hill-Burton Act of 1954, an area must be in the 1-A priority category of hospital financing, explained Mr. Smothers. Cisco is in this classification, and is, therefore eligible for the grant. Application for the grant must be made by May 31, 1967, to be considered in the coming year's appropriations under the H-B Act.

"To help cover the other half of the cost, A.C. Edwards & Sons, bondmen and member of the New York Stock Exchange, was contracted by the Authority to issue small interest revenue bonds to out-of-town companies. These bonds would be retired by profits from the "non-profit" hospital. It will be non-profit in the sense that the money made will be used for maintenance, payroll, etc. Extra income will be used to retire the bonded debt and eventually for expanding.

"Mr. Smothers and the Parker-Croston representatives emphasized that should the hospital plan be carried out, no taxes will be required from the citizenry, and the city will have no cost obligation whatsoever. Though most of half of the cost of

building a hospital will be sought through revenue bond, individual and organizational contributions will be asked to cover one-third of that amount.

"The architect and bond men told the Commission that they recommend that the Authority purchase the present Graham Hospital and include it in the program if possible.

"In reply to questions, it was brought out that the city will be under absolutely no tax burden as a result of the revenue bonds. The only local obligation would be to raise one-third of one-half of the cost through contributions.

"A Tuesday night's meeting, three commissioners voted "yea" for the establishment of the Authority, while Water Commissioner C.F. Coats opposed the move, saying that he was not against it, but ..... over before coming to a decision. Voting for the establishment were Commissioners Al Fannin, who made the motion, C.H. Housh and L.E. Booth. Mayor Pro Tem Don Rupe presided in the absence of Mayor W.W. Sawyer."

Shortly before 5 p.m. Wednesday, a 91st District Court jury found Thomas Howard Hennington guilty of murdering Leslie Renee Roberts of Ranger.

## Tid Bits

By HVO

YOU COULD come from any direction and start anywhere on the Shinnery Tour, a really serendipity visit to Eastland County's historic sites and cordial hospitality, wherein many exciting things will pop up for fun and entertainment.

Most are marked but others abound just to be found and enjoyed by locals and visitors from far and near.

FALL FOILAGE in all its glory is much in evidence all over the county and visitors are finding that driving the town streets, country roads and even the main highways is a visual delight. Come the holidays season, there's likely to be a unified seasonal tour with welcoming symbols of wreaths, candy canes and other trappings of the season.

WHY SHINNERY Tour? Why not? It's unique, and it fairly rings of the exciting possibilities just waiting around every corner. Metroplex visitors could speak highly of "Going to the Shinnery for the weekend." They'd love it. And our area is the jumping off place to the prairie heading west, and the beginning of the woodlands going east. And Shinnery sorta has a mysterious ring too, don't you think?

ONCE LAUNCHED seriously, and joined into enthusiastically, it could attract money-spending visitors all year long, with themes organized and attractions planned that would just delight those hard-pressed souls who are dying to get out of the rat races, kick back and enjoy real folks again. We're selfish not to share, and there's more to be gained by going it together than trying to hack it alone down those long, lonesome rows. Each of the exciting towns in our county could be busy putting together its best tour of attractions, commonly marked, identified, unified and even amplified, all keyed to the central theme so that visitors wouldn't get lost or confused as they make a day, a weekend, or even weeks of visiting, touring and spending money here. It's an industry that WE CAN MAKE NOW.

COMMON SYMBOL: What about a grapevine-type wreath (of any and all sizes) that could be made out of our common material: scrub oak, briars, mistletoe, sea-cane, and/or even grapevine. These then, could be decorated as the season dictates: spring and summer blossoms, fall foilage, Thanksgiving corn shucks, Christmas holly berry, etc., etc., subject only to the artists and the individual's fancy. Our artist friends could be busy designing logos and copyrightable items that would be ours alone, to help sell us to visitors. Many other places, some with less to offer than we, are proving that visitors will come, if they're invited and made easy for them to visit. Either of our attractions won't do alone; but together we could be a magnet.

COMING FROM the South, visitors on State 36 could hit the Early Settler Park at Rising Star; from State 6, Shinoak Springs Park at Gorman; hit Fort Blair in that area; north to Ellison Springs for some real Indian and settler action; on north to Ranger and the Roaring Museum, the extra-special center that truly tells the boom-time story, and go on out to the McCleskey Well where the wildcat started it all.

WITH INT.20 running through Ranger, Eastland and Cisco, visitors from the east would hit Ranger first, make headquarters or do and go to other sites. From the West, folks would hit Cisco to find Conrad Hilton's original hotel, site for the infamous Santa Claus Bank Robbery and that story.

FROM CISCO, or Eastland, next stop could be Kendrick's Amphitheater where regular pageants are held and a religious diorama is open year-round, with camping facilities available and other attractions in the building stage.

IN EASTLAND, visitors will find Old Rip, the long-sleeping horned toad, the Doc Scurlock Grave and The Archives, a history-treasure trove.

VISITORS TRULY would need a detailed map to find all the goodies, not to mention food, fuel and lodgings, and they'd shop our stores and utilize our services. Let's get it going!

## Cisco Lions Club Report

The Lions of Cisco would like to thank all the citizens in and around Cisco for the support of this past weekend's Big Annual Fish Fry held at Cisco's Elementary School Cafeteria. The fish was excellent, and companionship was supreme, the price cheap and there was no extra charge for what some may call singing provided by Lion Larry Linam.

Many hours of hard work by many local Lions, were given to the event with special thanks to the main organizer Lion Ivan Webb and to the Head Chefs Lion Eddie McMillan and Lion Brad Kimbrough for the proper preparation of the selected fish. Of course they had their helpers who did the dirty work better known as pulling KP (Kitchen Police). One point of confusion was that four Lions all named John were to serve between 6 and 7:15 p.m. and only Lion John McGuire was present. Needless to say Lion McGuire had little time to enjoy the festivities. All the participating Lions had a great time and the time given was well worth the effort due to the profits going to assist the less fortunate in and around the Cisco area. The Lions hope you enjoyed the Fish Fry and again want to thank you for your continued support.

At the weekly meeting on Oct. 17 the Lions received an extremely interesting and informative presentation from Fred Foy of Texas Monuments out of Abilene. He provided slides and discussion of what to look for in purchasing a quality tombstone, the proper care of a marker, as well as the process in making a beautiful headstone from granite from many parts of the world.

The Lions have delayed the
