

THE RULES JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

MULESHOE ELEVATION, 3,789 FEET, 6 INCHES.

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, FEBRUARY 22, 1945

TWENTY-THIRD YEAR, NO. 8

Editor's Round-up

Being some bright, but perhaps ridiculous, thoughts of the editor.

I am disturbed as are many of the others hereabout by the recent failure of Bailey county quota to keep up their monthly quota of purchases of War Bonds.

We have been buying some right along, drive or no drive, but it is not quite enough to meet the assigned quota. This week the farm machinery dealers of Muleshoe are purchasing space in the paper to remind us all of the extreme importance of continued steady buying. Turn to the ad and read it now.

The stress has never been put on meeting the monthly quota, but the county committee is anxious to have us realize our obligation in the matter.

Incidentally, just by the way, I want to pause here to say that Muleshoe and surrounding territory have reason to be proud of their farm implement houses here in this city.

Only the farmer can fully realize what it means to have strong dealers here for the brand of machinery he uses.

What a convenience to him to be able to buy a needed repair part right here and not have to make a long trip for it; and to be able to have his farm machine overhauled, if needed, right here in the town where he usually does all his business.

Most of these firms have very complete facilities for repairing anything, surprising in their completeness to the newcomer.

Of course Muleshoe has fine facilities and competent business houses in every line, lumber, banking, clothing, variety, drugs, cafes, furniture and hardware—cleaning elevators, oil companies, etc.

I just got to talking about the

High School Band and Chorus Will Give Annual Spring Concert Mar. 1

Implement folks accidentally, and I guess he didn't hinder any.

Well, The Journal can make no complaint about the type of support it gets from the people here. Our business firms have a liberal and progressive attitude towards their use of the advertising columns, and are loyal in their support of the paper. The people as a whole have the same attitude—witness our recent notice to subscribers. Another clerk was needed at times to take care of subscription payments. Don't worry, that notice won't be printed again.

We hear that the Muleshoe high school band and the school chorus will stage their annual Spring Concert March 1. Now what will anyone be doing that day more interesting than hearing these high school youngsters perform? Better figure on going—admission will be free! Mary L. Pinson is the director of the program.

Joe Trujillo says that right now the Muleshoe Flying Service has about all the student flyers that can be taken care of properly. The people here are showing an enthusiasm for learning to fly. Some need to graduate into soloing before new students can be taken.

Well, if you folks would turn in more news items about yourselves or neighbors, you might not see your favorite paper filled with this trivia. We need more news—about clubs or organizations, or just about people. It may seem uninteresting to you; turn it in anyway, for I venture to say it will be of interest to someone.

—Buy A WAR BOND TODAY!

Sgt. Starkey Based At Casablanca

ATC Air Base, Casablanca—T. Sgt. Robert J. Starkey, son of Mr. and Mrs. John F. Starkey, Muleshoe, Texas, is assigned to Casablanca, Casablanca, in the North African Division of the Air Transport Command.

The North African Division, under the command of Brig. Gen. James S. Stowell, is the U. S. Army's second largest in a recent month totaled over 41,000 flying hours, the equivalent of five years in the air.

In his 25 months overseas, Sgt. Starkey has visited Dakar, equatorial city on the west coast of Africa, and the old walled city of Marrakech.

He was trained as an airplane mechanic at Sheppard Field, Texas, receiving further instruction at Tusahoma, Okla.

Having attended Texas Tech in Lubbock, Sgt. Starkey was employed by the Muleshoe Packing Co. before entering service in January, 1942.

His wife, Mrs. Cleo Starkey, and their son, Robert Don, live at 300 East Mississippi street, Floydada.

Russell M. Finley Enters Training

Russell M. Finley, son of Mr. and Mrs. M. E. Finley, of Muleshoe is now enrolled at the U. S. Maritime Service Training Station at St. Petersburg, Fla. He attended

Upon completion of his basic training, Finley hopes to enter the radio school. There he will receive special training to become a Marine Radio Operator.

Watson Girls Study Dairy Cleanliness

Clean and sterilize all milk utensils by using hot water and alkali washing powder, say the 4-H Club girls who met February 14 in the home of Mrs. E. J. Campbell.

The girls served chocolate milk made by using a tablespoon of chocolate syrup for each cup of milk used.

There were six members and three visitors present. Refreshments of cookies and Dr. Pepper were served by the hostess.

—Reporter.

Muleshoe Eastern Star Chapter Held Initiation Ceremonies for 5 Members

The Muleshoe Chapter No. 792, Order of the Eastern Star, held a special meeting last Thursday evening, February 15, in the Masonic Hall for the initiation of five candidates.

Mrs. Emma Dee Copley, Worthy Matron, and R. J. Klump, Worthy Patron, opened the Chapter in ritualistic form, after which the Worthy Matron presented Mrs. Hattie Griffiths, past matron and mother of one of the candidates, with the gavel, to preside during the initiating ceremony.

Other officers helping give the degrees were: Associate Matron, Jackie Tate; Associate Patron, Jim Burkhead; Secretary, Elizabeth Hardin, pro tem; Treasurer, Billie Mathis; Associated Secretary, Ruth McCarty; Chaplain, Lois Bray; Marshal, Bronza Cox;

Conductress, Elizabeth Gardner; Ladies, Margaret Collins; Ruth, Melvina Elliot; Esther, Mary Frances Holt; Martha, Betty Burkhead; Elsie, Alta Holdeman; Warden, Viola Layne; Sentinel, Nona Blake Douglas.

After Mesdames Ethel McGuire, Hattie Roy Jones, Georgia Tuttle, Anna Lucy Bray, and Miss Dorothy Ray Jones had received the degrees, Mrs. Copley, in behalf of the Chapter, presented the new members with Eastern Star candidate pins. Mrs. St. Clair read "Our New Stars" and Mrs. Truma Griffiths, Past Matron, dedicated her official solo, "Star of the East" to the new members.

During the social hour the refreshment committee, Mesdames Grace Osborn, Bette Burkhead, Viola Layne, Elizabeth Gardner, and Virginia Weyer, served delicious refreshments of angel food cake topped with whipped cream, nuts, and cherries, and coffee to forty-eight members and visitors.

West Camp Club Studies Clothing

In selecting a dress you should select the type of dress that is most becoming to each individual, said Miss Grace Patterson, Bailey county home demonstration agent, to a group of West Camp H. D. Club members at their meeting February 14.

When buying a dress or pattern, she said, think of the lines. Select a neck line that is becoming to the face; the placement of trimmings, such as pockets, ruffles, and tucks, amount of fullness in dress, also design and color of material are to be considered.

A dress form is a very useful item of equipment in making correct fitting garments. A dress form was made at the club meeting.

Those present for the February 14 meeting were: Mrs. W. L. Roy, Mrs. Jess Cummings, Mrs. M. A. Snides, Mrs. C. O. Sheegee, Mrs. W. W. Couch, Mrs. Patterson and the hostess, Mrs. Johnnie Williams.

Mrs. W. L. Roy received the hostess' gift.

The next meeting will be in the home of Mrs. Couch February 28, at 3 o'clock.

Ghoshoma is a wheat but a grain sorghum. It originated in Oklahoma and is now grown in surrounding states such as Kansas and Texas.

Summon 50 Men on Special Venire For Jury In Murder Trial Monday

Boyd Lowry Now Staff Sergeant

An Eighth Air Force Liberator Station, England.—Boyd N. Lowry of Muleshoe, has been promoted from staff sergeant to sergeant, as announced by the commanding officer of the 433rd Bomber Group.

Since arriving overseas in November, 1944, it has been S. Sgt. Lowry's duty to fly as a top turret gunner on a B-24 Liberator.

His B-24 Liberator group has been cited for outstanding performance of duty in its first 100 combat missions, 42 of which were flown to targets in Germany. During a period of five months, this organization, a unit of Major General William E. Kepner's Second Air Division, dropped 4,000 tons of bombs on vital Nazi installations, thereby contributing greatly to the success of Eighth Air Force's mounting aerial offensive against the German war effort. To date, the group has participated in more than 200 missions, and its gunners have taken a toll of over 40 Luftwaffe fighters.

S. Sgt. Lowry is the son of Mr. and Mrs. H. L. Lowry, of Muleshoe. He attended Muleshoe high school from which he graduated in 1942.

He entered the Army in March, 1943, and received basic training at Camp Butler, N. C. Later he attended aerial gunnery school at Laredo.

Morris V. Garth Wins Air Medal

Staff Sgt. Morris V. Garth, formerly of Muleshoe, has been awarded the Air Medal for action as a Liberator gunner of the 15th Air Force in Italy.

He is the son of Mr. and Mrs. C. F. Garth, of Slinnett, Staff Sgt. Garth is a graduate of the Muleshoe high school.

DAMRON-BOMBARD

Miss Helen Damron, daughter of Mr. and Mrs. J. H. Damron, of Circleback, was married to Lt. Ray B. Bombard, son of Mrs. Ann Bombard of Plattsburg, N. Y., on February 1, at the Amarillo Air Field chapel. The double ring ceremony was used.

Lt. A. J. Pettirini acted as best man. Lt. George Weinel gave the bride in marriage. She wore a blue suit with black and white accessories and an orchid corsage.

The complete menu for Colorado Springs, Colo., for the wedding party. They will be at home at 2508 Taylor as the bridegroom is an instructor pilot at the field.

Prior to the wedding the bride was employed at Phillips Petroleum Company, in the Rule building, Amarillo. The bridegroom was graduated from Plattsburg high school and attended Bdfallo University, Buffalo, N. Y. He completed 50 missions overseas.

Ford Armored Car Does the Job

Dearborn, Mich.—Speed, combined with adequate fire-power, armor protection and excellent maneuverability over all kinds of terrain have earned for Ford's new M-8 armored cars an enviable reputation on the European battlefield.

M-8s are today the light armored cars used by the U. S. Army. They are manufactured in Ford Motor Company plants at Chicago and St. Paul.

To simplify and speed production, as many parts as possible were designed around existing production machinery. Most of the running gear, for instance, including the drive shafts and axle assemblies, are essentially the same as those used on Ford trucks.

The M-8 is a six wheel drive armored vehicle weighing more than 17,000 pounds. It carries a crew of four, including two men in the turret and a driver and assistant.

Armament consists of a 37 millimeter cannon with a coaxially mounted 30 caliber machine gun, four carbines, six hand mines and a full complement of hand grenades.

Since March, 1943, when the first armored car rolled off the assembly line at St. Paul, approximately 12,000 units have been built at the two plants.

We're getting just like our car. The older we become the more knocking we do.

Capt. Erod Now Marine Instructor

After 32 months overseas duty with the Marines, Capt. Roy E. Erod, 25, USMC, of San Diego, has been assigned to instruct in infantry tactics at the Naval Gunfire School, Amphibious Training Base, Coronado, Calif.

His service through many an amphibious invasion at Guadalcanal, Tarawa, and Saipan has won for Captain Erod the Silver Star Medal (Guadalcanal), the Purple Heart Medal (Saipan), and the Presidential Unit Citation Ribbon with two stars.

The son of Mrs. Nina Barfield, formerly of route 1, Muleshoe, he enlisted in the Marine Corps September 16, 1940, was promoted to sergeant and was commissioned in the field a second lieutenant on May 1, 1942. He received a regular commission Aug. 7, 1943.

The Marine officer related how he landed on Guadalcanal May 4, 1942.

After the grueling work of unloading supplies from amphibious craft we were too tired to dig anything but shallow foxholes for the night. He asserted, "When Jap bombers came over and dropped a string of bombs nearby, I resolved at the first opportunity to move to a new fox-hole. I was the last to land on the foxhole which he and another man were occupying. The shell hit his buddy, who remarked 'Something hit me—here it is.'

and he handed a hot metal object to Captain Erod.

Upon touching it, Captain Erod realized that it was, and he heaved it as far as he could, not reasoning that it must have been a dud.

On his birthday, last June 23, at Saipan his First Sergeant rode up on a Jap bicycle, presented him with a silk Jap kimono and a 'singing telegram' in which his entire company joined with 'Happy Birthday to You.'

Captain Erod is a graduate of Muleshoe high school and a former student at Texas A & M College. His wife, Mrs. Maileta C. Erod resides at 4278 A Street, San Diego. Prior to entering the service he was employed by a construction and contracting company in Muleshoe.

MRS. FRANK PRATHER UNDERWENT OPERATION

Mrs. Frank Prather, Muleshoe, underwent an operation Monday at Young Hospital, Roscoe, Texas. Mr. Prather and her sons, Elmer, Charles and Mrs. C. A. Hershey are at her bedside.

Word was received late Monday that Mrs. Prather was resting favorably well.

Now, more than ever... you need the RED CROSS is at his side

AMERICAN RED CROSS

As wounded American boys come back from the battle fronts they find American Red Cross workers in all military and naval hospitals ready to help them. This year there will be more need than ever before for Red Cross service in domestic hospitals.

Red Cross War Fund Head Enlists Full Public Support

WASHINGTON, D. C.—Urging each American citizen to consider the Red Cross as his personal emissary in his particular serviceman, Colby M. Chester, chairman of the 1945 American Red Cross War Fund campaign, today asked all Americans to give to their fullest ability in support of the 1945 national goal of \$200,000,000.

"Those of us who must stay at home and fight our daily tasks as efficiently as possible," he said, "like to feel that though we are not beside John or Jim or Bob on the battle field, we do have a personal ambassador in each of the ten thousand Red Cross workers now serving with the troops overseas."

Opening March 1 and continuing throughout the entire month, the third Red Cross War Fund will not only intensify needs on advanced war fronts, but will advance needed services to those who have returned from action, their families, their buddies awaiting transportation overseas, and their friends and

neighbors at home in time of natural or war-caused emergency.

More than 3,000,000 volunteer servicemen are now in uniform, and we need collections in every American community. Each will devote his time and effort toward reaching the goal, Mrs. M. C. Cobb, they will do so that men and women in military service will know the Red Cross is staying right with them, right up to and beyond the day of peace and victory.

Mr. Chester explained, "Without personal gain or reward, the 3,000,000 men and women volunteer canvassers will represent 3,756 Red Cross chapters throughout the nation. Seeking recognition to door those contributions which will be made through factory office, school or theatre, each Streakeeper Joe Wicker will carry an official identification card for the protection of the house holder. For the most part, however, such identification will be unnecessary because the collector will be a neighbor or friend. To each contributor, he will give a red, white and blue window sticker bearing the well-known Red Cross emblem.

Mr. and Mrs. Sam Johnson were in Amarillo Monday. They were accompanied by Mr. and Mrs. J. A. Lorance.

Mr. and Mrs. Morris Douglas were in Amarillo Tuesday on business.

Mr. and Mrs. F. H. Davis have recently each will devote his time and effort toward reaching the goal, Mrs. M. C. Cobb, they will do so that men and women in military service will know the Red Cross is staying right with them, right up to and beyond the day of peace and victory.

Mr. Chester explained, "Without personal gain or reward, the 3,000,000 men and women volunteer canvassers will represent 3,756 Red Cross chapters throughout the nation. Seeking recognition to door those contributions which will be made through factory office, school or theatre, each Streakeeper Joe Wicker will carry an official identification card for the protection of the house holder. For the most part, however, such identification will be unnecessary because the collector will be a neighbor or friend. To each contributor, he will give a red, white and blue window sticker bearing the well-known Red Cross emblem.

Mrs. Grace (Churchill) Loy, of Laurel, Md., sent in a renewal to the paper this week and wrote: "I look forward in getting my copy of the paper this week, and I have done so." Mrs. Davis' parents, in staying right with them, right up to and beyond the day of peace and victory.

Mr. Chester explained, "Without personal gain or reward, the 3,000,000 men and women volunteer canvassers will represent 3,756 Red Cross chapters throughout the nation. Seeking recognition to door those contributions which will be made through factory office, school or theatre, each Streakeeper Joe Wicker will carry an official identification card for the protection of the house holder. For the most part, however, such identification will be unnecessary because the collector will be a neighbor or friend. To each contributor, he will give a red, white and blue window sticker bearing the well-known Red Cross emblem.

**MARKETS NEEDED AFTER
WAR FOR OUR BIG CROPS**
Food is foremost in thinking of
Extension work. Charles A. Shef-
field of Washington, representa-
tive of the Federal Extension Ser-
vice for the Southern States, told
the headquarters staff of the A.

and M College Extension Service
at a conference recently. A large
production will be needed in 1945
he added, but a more selective
production so that we can attain
a better balance.

The primary reason for high
production is to remove any
chance of not having enough
food supplies for the armed forces,
civilians and allies. National
production in 1945 is likely to be
five to seven per cent less than
the 1944 peak, or about 128 per
cent of the 1935-39 average, he
explained. The total demand for
farm products this year will be
about as high as in 1944, and the
supplies of most products should
be taken at prices averaging only
slightly below those received last
year.

At the end of the war, American
farmers will have the most effi-
cient farm production plant in the
world. Apart from fiber crops
and tobacco they raised production
in 1944 to 136 per cent of the 4
year average with an increase of
only 2 1-2 per cent in crop land.

This means that at the end of
the war, Mr. Sheffield said, farmers
will have a plant geared for a
production about 30 per cent above
the prewar level. Moreover,
when more labor and machinery
become available their capacity to
produce farm products for market
will be further increased since it
seems likely that farmers will buy
many tractors and other farm
machinery.

Markets must be found for these
products, and they can be found
if we have a high level of employ-
ment and active international
trade. In this connection, Mr.
Sheffield sees an optimistic trend

India Curry Sauce Peps Up Cauliflower

Crown a plump head of cauliflower
with teasing India curry sauce
containing onion and apple and
you'll add unsuspected newness an
pleasure to a cold-weather meal.

That's a tip to home-makers given
by Marjorie Griffin, Home Editor
of nationally-circulated *Copper's*
Farmer. Parsley or watercress garnish
will give color, she says, while
curry powder and tabasco sauce will
pep up the blandest cauliflower.

India Curry Sauce
2 tbsp. butter 1 lb. cauliflower
1/2 cup minced onion 1/2 cup diced apple
4 tbsp. diced apple 1/2 cup cauliflower water
1/2 cup salt Parsley

Melt butter and add onion and
apple; cook slowly until tender. Add
salt, curry powder and flour, stir-
ring until well blended. Slowly add
cauliflower cooking water, stirring
constantly. Cook over low heat
about 7 minutes. Pour sauce over
a head of cooked cauliflower, gar-
nish with parsley, and serve at once.
Serves 6.

"You'll be amply repaid for the
time and ingenuity used in planning
appetite-whetting dishes such as
this," Miss Griffin writes.

BULA SOLDIER KILLED DEC. 1

Pvt. Henry G. Pollard, Jr., 21,
of Bula, was killed in action Decem-
ber 1, on Leyte in the Philip-
pines, according to a message
received by his wife from the War
Department.

Relatives had not heard from
him in three months and they
wrote to the War Department.

They were informed of his death
last week. He was a member of the
27th Division. The substantial increase in con-
sumption of agricultural products
in this country. Coupled with this
our population has increased by
about ten million since the 1935-
39 period.

7th Division had been overseas
since July of 1944 and in service
since December of 1943.

Pvt. Pollard was the son of Mr.
and Mrs. Henry G. Pollard, Sr., of
Bula, was graduated from Bula
high school in 1940. Previous to
entering the service he farmed at
Bula with his father. Mrs. Pol-
lard is the former Ruby Fields.

STAFF Sgt. Justice Based at Casablanca

ATO Air Base, Casablanca.—
Staff Sgt. Ernest D. Justice, son of
Mr. and Mrs. West Camp, is
assigned to the operations section
at Cazes Air Base, Casablanca,
in the North African Division
of the Air Transport Command.

The North African Division
is commanded by Brig. Gen. James
Farmer. Parsley or watercress gar-
nish will give color, she says, while
curry powder and tabasco sauce will
pep up the blandest cauliflower.

In his 27 months overseas, Sgt.
Justice has been to the principal
cities of North Africa, from Dar-
dar, air terminus just below the
equator in the west, to Cairo, me-
tropolis of the East, which he pre-
fers most.

"Cairo's the city most like home
—you can still get a steak in
Cairo," he reported.

If you are between the ages of 17
or 18 and 35, in good health, and
a graduate with good scholastic
standing from an accredited high
school.

Recruiting headquarters are lo-
cated at: 1001 E. Nevada St., El
Paso, Texas.

Clearing Scheldt River

A GERMAN SEA MINE EXPLODES near the shore after being swept
up by the British minesweepers which cleared the river Scheldt almost before
the Germans had been driven from its banks. Soon after, the first convoy of
American and British supply ships was able to steam up the river to the
port of Antwerp.

Postwar Kitchen Remodeling Will Save Home-Maker Steps

Ideas adaptable to many postwar homes are shown in above Story County, Iowa, farm kitchen. Mrs. Joh-
n Holst pops a pan of bread into electric range oven, while daughter, Mrs. Alvin Bowker, works comfortably at
sink. The Holsts remodeled their kitchen just before the war.

IN REMODELING a farm kitchen for efficiency and step-saving, there are three work centers to be placed—
storage, preparation and cleaning, cooking and serving, according to Marjorie Griffin, Home Editor of *Cop-
per's Farmer*.

"Sometimes a fourth—planning—is included," she writes in the Rural Home department of the nationally
circulated farm magazine. "The ideal working order is left to right.

"The refrigerator, with adjacent cabinet, is the pivot of the storage center. This is advisedly placed near
the back door in order that perishable foods can be brought in, without crossing the room several
times. The sink should be about middle way between the refrigerator and range. It is used while
preparing food as well as when washing dishes. The range has advantages located near the eating nook or
dining room."

No kitchen plan can meet the needs of all farm families, Miss Griffin points out. The type of farming,
size of family, extra help, climate, personal habits, likes and dislikes make it necessary to vary the ar-
rangements. In remodeling, size of rooms, structure of house, thickness of walls, number of openings and light-
ing will also cause variations. Basic kitchen arrangements for farm homes are in three patterns: U-shaped,
L-shaped and corridor type. The U-shaped type often is seen in a medium or small room; the L-shaped plan is
practical in a large kitchen; corridor arrangement fits into narrow, larger space, she says.

Chance for Nurse Training Offered

As the demand for nurses grows
because of the increasing
needs of the armed forces, there are
many opportunities for girls in Tex-
as to join the Cadet Nurse Corps
of the U. S. Public Health Service
according to Mrs. Ella M. Tipton,
State Recruiting Officer.

Age limit is from 17 and 18 to
35 years.

The Cadet Nurse Corps offers
1. expense scholarships, monthly
personal allowances for its mem-
bers, and official outdoor uni-
forms. In turn, Cadet Nurses
pledge, health permitting, that
they will remain in essential nur-
sing for the duration of the War.

College Station.—More pigs will
be needed this spring for the meat
supply of civilians and the armed
forces than most farmers planned
for. But saving the highest per-
centage possible of each litter that
is born will contribute substan-
tially to this. An electric brooder,
says E. M. Regenbrecht, swine
specialist of the A. and M. College
Extension Service, is one of the
most successful aids in safeguard-
ing pigs farrowed in the later win-
ter months.

An estimated average of three
out of 10 pigs are lost between far-
rowing and weaning, due mostly
to chilling or being crushed the
first few days after birth.

That's the time when an elec-
tric brooder comes to the rescue,
Regenbrecht says. A pig brooder
simply is a homemade hover heat-
ed with a 100 watt light bulb. But
it provides a warm, safe place for

little pigs to stay—a comfortable,
dry spot where they won't suffer
from exposure or be injured when
the sow starts milling around in

Army Answers Your War Problems

Q. I am a widow with three sons in the service. I receive a family allowance for myself from one of them. Can I also receive a family allowance for the support of two minor sons at home?

A. If the boys at home are dependent on their brothers in the service for support, the latter may apply for an additional family allowance which will be sent to you for the care of the minor children.

Q. Is there any provision for giving rotation furloughs to soldiers who are overseas, but not in actual combat?

A. Yes. Non-combat personnel overseas receive rotation furloughs provided they can be spared from their organizations and provided replacements can be secured to carry on their work.

Q. Can the mother of a deceased soldier have the insurance she now receives transferred at her death to the soldier's stepfather instead of to the soldier's aunt?

A. A person receiving National Service Life Insurance benefits may not designate who is to receive the balance remaining unpaid at his or her death. Such recipient is chosen by the soldier himself with the approval of the Veterans Administration. If none was named by the soldier and ap-

BOOST G. I. MORALE WITH GOOD LETTERS, GIRLS ARE URGED

WRITE the kind of letters that will make your G. I. Joe, servant brother, sister, cousin, friend, or "That sounds just like Jennie!"

The advice Holly Miller gives 'teen kick and pass. Practice, practice, age girl readers of her column in Capper's Farmer.

"You'll be lifting morale and at the same time having yourself a good time," she declares in the nationally-circulated farm magazine. "The trick is to write as if you were talking to the person. If he or she were there, you'd probably carry on in the Church. Be detail how you thought you'd die trying to be on God's team."

Remember your sister, too. She is very pretty and very sweet. Take good care of her. You're growing up, and soon she'll be proud to have you escort her places, and your job is to be ever willing to do that and to always take up for her. She's a priceless possession; you find out about a lot of things you never knew before when suddenly you are taken away from them, you realize a lot of mistakes you've made.

About Mom and Dad, the Bible tells you how to treat them. You'd be surprised how much you can help.

Forever your devoted brother,
Horace Byerly, Jr.

1945 has recently been mailed to this office and is appreciated.

SAFE

An old darkey got up one night at a revival meeting and said: "Brudders an' sisters, you all knows an' Ah know dat Ah ain't been what Ah shoulda been. Ah robbed hen roosts. Ah's stole hawgs. Ah's stole lies. Ah's got drunk. Ah's beat mah wife. Ah's slashed folks with mah ramah. Ah's cussed and Ah's blasphemed. But, hallelujah, thank de Lord, dere's one thing Ah ain't nebbber done—Ah ain't nebbber lost my religion."

NOTHING EQUALS GAS FOR COOKING

BUY WAR BONDS TODAY FOR THE CP GAS RANGE YOU'LL WANT TOMORROW

Draw the plans for your new post-war kitchen around a glamorous new CP Gas Range. For CP Gas Ranges are built by America's leading manufacturers to meet the highest uniform standards of scientific exact Cooking Perfection. They are the standards by which all other cooking appliances are judged. Take the first step to your new post-war kitchen now by buying War Bonds for the CP Gas Range you'll want tomorrow.

WEST TEXAS GAS COMPANY

ing not to laugh backstage when the willin's beard dropped off just as he raised his gun in the second act of the Junior Class play. And how he covered it by saying "That was the quickest shave I ever had."

"Put in a little spice. Give your correspondent the low-down on the latest gossip, if you will, but keep a light unmalicious touch. For a good will bonus, tuck in snapshots, clippings, cartoons.

"As to the actual letter, remember it's the only tangible evidence the receiver has of you. You'll want it to look neat and legible. Use nice paper. V-mail if it's to go overseas. Your special G. I. Joe will probably like the faint scent obtained by sprinkling bath powder or sachet in the bottom of your stationery box."

proved, the Veterans Administration then pays the most eligible nearest of kin. Neither the aunt nor the stepfather may receive the remaining payments unless their relationship to the insured when he entered the service was "in the place of" his natural parent.

Q. Can an ex-serviceman's pension be taxed or attached?

A. No.

Letters From Service Men

The letter printed below was written by Horace Byerly, Jr., of Levelland, to his younger brother, Edward, 12. The boys are grandsons of Mrs. Maude Jones, of Muleshoe. Young Byerly is especially well known to the younger folks here, as he spent much time here, and has played in many games here in past years.

The letter contains thoughtful advice, surprising in one so young.

Army, Navy Leaders, Others Endorse Red Cross War Fund

WASHINGTON, D. C.—In answer to President Roosevelt's appeal to the nation on behalf of the American Red Cross to fulfill the \$200,000,000 Red Cross War Fund goal for 1945, America's foremost military and naval leaders, the press

and educational, religious, fraternal, industrial and labor groups pledged unstinting support.

Secretary of War Stimson expressed his gratitude to the Red Cross for discharging its responsibility to the Army "with efficiency and humanity" throughout the war.

Chief of Staff General George C. Marshall added: "The Red Cross has kept pace with the growth of the Army by enlarging its services to meet soldier needs both in this country and overseas."

Secretary of the Navy James V. Forrestal, chief Red Cross war contributions of blood plasma, prisoner of war food packages and civilian war aid, said: "In the blackness of war, the Red Cross stands as a beacon of mercy of which we are all proud. Never has money been put to better use."

Admiral Ernest J. King, commander-in-chief of the United States fleet, pointed out that "every time the Red Cross assists a man in the armed forces in any way. There can be no doubt that the humanitarian activities of the American Red Cross have a direct bearing on the outcome of the war."

Both the American Newspaper Publishers Association and the National Editorial Association's president promised complete cooperation from the American press.

Among groups endorsing the War Fund are:

AMERICAN LEGION: "The Red Cross has exemplified the fine, traditional spirit of American helpfulness. The approach of the post-war reconstruction period will not lessen the calls for Red Cross services."

AMERICAN FEDERATION OF LABOR: "We are determined that the war shall be won. Let us be equally determined that the Red Cross shall be enabled and permitted to measure up to the needs of the situation and the high standard which we have set for it."

CONGRESS OF INDUSTRIAL ORGANIZATION: "Each one of our members knows that the Red Cross is constantly at that loved one's friend's side in his time of need."

AMERICAN FARM BUREAU FEDERATION: "Such vital Red Cross programs as home nursing, nutrition, disaster relief and other helpful activities during recent years have combined closely to identify this national organization with rural life in America. The American Farm Bureau Federation urges every member to give it wholehearted support through the organization's local chapters."

FEDERAL COUNCIL OF CHURCHES: "It is obvious that the world situation at the present time will make greater demands upon the Red Cross than ever before. We commend to the churches of the various communions in the United States the appeal for the American Red Cross War Fund in 1945."

NATIONAL ASSOCIATION OF MANUFACTURERS: "American businessmen stand ready to assist in every way possible the American Red Cross in its fund raising efforts."

NATIONAL CATHOLIC WELFARE CONFERENCE: "The great worth of the American Red Cross has become more obvious as the war develops and as our fighting men enlist. Gladly, therefore, we recommend every generosity on the part of the American people in the 1945 campaign."

CENTRAL CONFERENCE OF AMERICAN RABBS: "The Red Cross is the most appealing humanitarian cause before the American people today. May the outstanding success of the 1945 Red Cross War Fund campaign demonstrate the spiritual calibre of the American people."

Apple-Ginger Shortcake Is Winter Treat

LIKE falling snow and sleigh riding, apples and warm gingerbread are two things that go with cold winter evenings. Marjorie Griffin, Home Editor of Capper's Farmer, points out.

"Combining the two foods gives a color-contrasting, sugar-saving Apple-Ginger Shortcake," she tells home-makers in the Country Cooking department of the magazine read by 1,250,000 farm families.

Apple-Ginger Shortcake

1 cup shortening 1 tsp. baking powder
 1 cup butter 1 tsp. soda
 1 cup brown sugar 1 tsp. ginger
 1 cup molasses 1/2 tsp. cinnamon
 1/2 cup flour 1/2 c. boiling water
 1/2 cup apples

Beat the shortening and sugar thoroughly. Add eggs and beat well. Add molasses, then the sifted dry ingredients. Pour in water and beat all smooth. Bake in 2 greased inch round pans at 350° F. for 30 minutes. Peel, core and cut apples in eighths. Drop them in sirup made with equal parts of sugar and water. Cook gently until each piece is

transparent. Remove and drain on a plate. Put apple slices between layers and on top.

Another appetite-tempting winter eve dessert that's easy on the sugar rations is Cracker Pudding.

Cracker Pudding

1 qt. milk 4 tbsp. graham cracker crumbs
 4 eggs, 1 beaten 1/2 c. sugar
 1/2 c. butter

Scale the milk and add finely rolled cracker crumbs. Let cool and add eggs and salt. Pour into custard cups or baking dish. Set in pan of hot water and bake in a moderate oven (325°) for 30 minutes. Serve with Lemon Cream Sauce.

Lemon Cream Sauce

2 eggs 1/2 c. lemon juice
 1/2 cup sugar 1/2 c. cream
 1/2 tsp. cornstarch 1/2 c. lemon rind
 1/2 cup water

Beat egg yolks. Add to these the sifted sugar, cornstarch and salt. Stir in lemon juice and water and cook over hot water until thickened. Chill, add cream and stiffly beaten egg whites. Sprinkle with grated rind and nutmeg. Serves 6.

before the pigs arrive, the light in the brooder should be turned on in order to warm it and give the sow a chance to get used to it.

Chance for Nurse Training Offered

As the demand for nurses grows each day because of the increasing needs of the armed forces, there are still opportunities for girls in Texas to join the Cadet Nurse Corps of the U. S. Public Health Service according to Mrs. Ella M. Tipton, State Recruiting Officer.

Age limit is from 17 and 18 to 35 years.

The Cadet Nurse Corps offers all expense scholarships, monthly personal allowances for its members, and official, outdoor uniforms. In turn, Cadet Nurses pledge, health permitting, that they will remain in essential nursing for the duration of the War.

A TIP FROM THE MILITARY

It now unfolds that Allied military strategy is based not on tricks or surprises or fanaticism, but on the exertion of continued pressure, backed by adequate force. We're turning back the Germans and the sons of Nips by doing the obvious thing but doing it well and with strength. Compare this with the sneak attack on Pearl Harbor and the use of robot bombs against a countryside.

Business men of this country could well afford to remember this when the time comes again to build their business on sales to civilian customers. There'll be a period of new and slick ideas, and makeshift successes, ridicule of old timers and a lot of talk about the new tempo. But the man or firm who sets his plant in good working order, builds a strong sales force, backs up his product with sound advertising and merchandising plans and supports it with adequate financing will move right ahead. Along the line he'll pass the wrecks and discards of those who put their faith in the tricky expedient.

CAPS and lower case. The position of the type page fastest on the eyes is at right angles to the line of sight.

Pig Brooders Save Many Pigs

College Station.—More pigs will be needed this spring for the meat supply of civilians and the armed forces than most farmers planned for. But saving the highest percentage possible of each litter that is born will contribute substantially to this. An electric brooder, says E. M. Reegenbrecht, swine specialist of the A. and M. College Extension Service, is one of the most successful aids in safeguarding pigs farrowed in the winter months.

An estimated average of three out of 10 pigs are lost between farrowing and weaning, due mostly to chilling or being crushed the first few days after birth.

That's the time when an electric brooder comes to the rescue, Reegenbrecht says. A pig brooder simply is a homemade hover heated with a 100 watt light bulb. But it provides a warm, safe place for little pigs to stay—a comfortable, dry spot where they won't suffer from exposure or be injured when the sow starts milling around in the pen.

The specialist says that the brooder should be placed in the pen with the sow at least a day or two before farrowing. Several hours

So You're Going to Repair The Barn?

THAT'S JUST WHAT WAR BONDS ARE FOR!

EVERYBODY'S PLANNING.

Recent farm surveys show that a majority of the people who own their own farms are ready, the minute war ends, to build and repair barns and buildings and make many other improvements. Tenants, too, are on the lookout for farms of their own to build on in the post-war period. This is going to take many millions of dollars. Wise farmers have been saving the money for these purposes. Many of them have saved it in War Bonds—and many more are on their way.

for stepping up your purchase of War Bonds. You're backing him up in his fight to preserve our country, and at the same time preparing for the kind of home he wants to come back to.

YOU NEVER GET LESS THAN YOU LEND! And you can get 1/2 more than you invest. When held 10 years, Series E War Bonds yield 2.9% interest compounded semi-annually. You get back \$4 for every \$3.

Of course, no one should cash a Bond unless he has to; but if an emergency comes along, Uncle Sam will redeem them in cash at full purchase price—any time after you've held them 60 days. BUY WAR BONDS!

FACTS ABOUT WAR BONDS (Series E)

You LEND \$100 to:	Upon Maturity you get back:

Twin Action*

For Swift, Sure Winter Lubrication

USE THIS NEW FIGHTING AVIATION OIL

Champlin HI-V-I is an utterly different kind of motor oil. It will lubricate your car unlike any conventional oil ever can.

In the first place, Champlin HI-V-I is refined by an entirely new solvent process . . . from 100% Paraffin Base Mid-Continent Crude . . . the finest obtainable.

N-HEXANE, a new and different de-waxing solvent, develops a remarkable cold pour test rating . . . produces a free flowing oil that lubricates instantly on the first turn of a zero cold motor. This helps reduce winter wear . . . protects the fitting, hard-to-replace moving parts.

Then, Champlin HI-V-I has an unusually high viscosity index, and the stamina to stand up and lubricate after your motor gets hot . . . even boiling or above.

In winter, this TWIN-ACTION of Champlin HI-V-I assures your car on the ground the swift, sure lubrication essential in the sky. So drive into your friendly Champlin Service Station today, and try Champlin HI-V-I . . . the new fighting aviation oil.

LEIFESTE EXPLAINS NEW RULE ON SOCIAL SECURITY BENEFITS

Sam Leifeste, manager of the Lubbock office of the Social Security Board, while in Muleshoe Thursday explained the effect of the Board's announcement that upon request it will recalculate the amount of old-age and survivors' insurance benefits available to unemployed workers to include credit for wages received since the benefits were first claimed.

"This action," Mr. Leifeste said, "is intended to take into account the fact that many workers past the age of 65 who have retired and drawn benefits have gone back to work since the country started its preparation for war. Originally these workers by filing a claim set their benefits so that they could be moved up or down. But they returned to work unexpectedly, and generally have received higher wages than before. The Board has therefore announced that, in order to meet the intent of the law, their benefits may be recomputed in order to credit towards monthly retirement benefits the wages they received after they had once filed a claim."

He emphasized the following cautions:

1. Increased benefits will be available only to workers 65 or older, who have claimed benefits and who subsequently have worked in jobs covered by the Social Security Act, and generally at higher pay than their former wage. The benefit amounts of widows, orphans or aged parents whose benefits were based on wages up to the time an insured worker's death occurred cannot be changed.
2. Benefits will be re-calculated upon request of the beneficiary.
3. The law still provides that benefits must be suspended for any month in which the beneficiary makes more than \$14.99 on a covered job.

There is no need for anybody who has been working in covered employment after he filed claim to ask for a re-computation of his benefits as long as his average monthly pay stays as high as his average monthly wage between January 1, 1937, and the date he filed his claim. On the other hand, if his average monthly wage starts going down the worker who is 65 should consult the Social Security Board office at once.

The Lubbock office of the Social Security Board is located at 1311 Texas Avenue, Lubbock.

WE CAN DO ANYTHING

Get three people together anywhere in America, and you will usually hear somebody start to wall about the mess things are in. "The human race has made a botch of it all; we are a futile and hopeless lot, and there is no longer any virtue in us."

You will hear a lot of that kind of talk. War is so obviously evil, that we sometimes forget how the world looks in the long view. But the look of the long view is worth remembering!

We can do anything! The seeds of a great and good tomorrow are already planted in the American earth. Planted by men who have done the impossible, again and again.

The land is the beginning. We glow it and plant it — dig it and shove it around. A country is no better than its soil, no stronger than its people!

Not very big, this thing we call Man! Tiny guy, a midgelet beside his own works. But put a nation of him together and Man can do anything! Everything done here has been done by Man!

The humanity of Man is amazing. Man watches over his young; engineers for them a better chance; sees that even in the grimy slums of great cities his children enjoy God's boundless blessings of blue skies, clean air, soft breezes across the water.

After the devastation of today, man is not going to sit back on his haunches and catch his breath. We have never done that, here in America. When we have been forced to fight with one hand we have never stopped building with the other.

The future can be bright and prosperous. Whether it will be . . . depends on all of us. But if you consider what we have done in our brief past, you dare not doubt the days to come. This is a young nation . . . We can do anything.—Taken from This Week, published by Kerr Paper Co.

Tobacco: Found in many southern states and in some cigarettes.

Christmas Mail 'Snows' Marines in Pacific

The sad man (left) surrounded by Christmas packages is Mailing Pfc. Samuel L. Crump of Olympe, Ky., postoffice clerk with the Fourth Marine Division, somewhere in the Pacific. November brought the unit 6,000 sacks of parcel post, each sack averaging 15 packages. Some of the parcels failed to stand the rigors of travel, posing a problem for the postoffice staff. Below: Crump (left foreground) and Pfc. Robert J. Malone (right, in black sweater) of Chicago, Ill., together with a staff of fellow-leather-necks, tackle the job of sorting the mail. (U. S. Marine Corps Photos)

WARNING! The traffic toll in winter regularly climbs to a peak fifty per cent higher than the summer accident rate.

And this winter, because tires and cars are older, both cars and lives will be wrecked at a rate far faster than ever, unless YOU do something about it!

So take every possible precaution . . . Drive slowly and alertly, because it requires from four to eleven times the usual braking distance to stop a car, without chains, on wet snow or ice . . . Don't close in on the car ahead . . . Slow down well before reaching crossings . . . And watch out for pedestrians picking their way in hazy twilight or darkness.

At any other time in our nation's history, there would have been something sacrilegious in discussing the saving of cars in the same breath with the saving of human life. To-

day, however, the country's war effort and well-being depend on an ever-windling supply of essential transportation. Lives are important, and so are irreplaceable automobiles.

Do your humane and patriotic part to save lives. Let your Phillips 66 Service Man do his patriotic part to help you save your car.

He has many engineered Tires-Springs and Car-Saving services. Some are free; some carry a small charge for materials and labor. All are a real aid in making your car and your tires last longer and go further.

Drive in at the Orange and Black 66 Shield, the sign of famous Phillips 66 Gasoline and Phillips 66 Motor Oil. But for safety's sake, drive *slowly!*

The War Is Not Over!

Recent news from the battlefronts should be convincing to those of us on the home front who had begun to relax - feeling that the war was "about over."

The need still exists for everyone of us to do every day the thing that will help to win this war against a foe who is resolutely determined to fight on to victory.

Buying War Bonds is one thing we can all do. Let us all buy more Bonds — and keep them!

BONDS AND STAMPS MAY BE BOUGHT AT THIS BANK OR THE POST OFFICE.

The Veteran G. I. Bill Protects

College Station—Contrary to what many people believe, the G. I. Bill of Rights does not make Uncle Sam a Santa Claus to the discharged service man; instead it protects the veteran, and gives him an opportunity for self-help and development of initiative.

In an effort to correct some mistaken impressions about this legislation, the Extension Service offers this explanation:

The bill provides for no outright gift, but guarantees veterans' loans up to \$2,000. There is no limit on the amount of loans, only on the guarantee. Incidentally, the G. I. Bill itself makes no provision for mustering out pay.

No government money is involved in the farm loan features of the bill. Veterans may obtain loans for buying farms and homes from private as well as government lending agencies.

Loans to veterans are sound, and to protect the man the Bill of Rights provides that appraisals of farmsteads based on normal agricultural values must be made by experienced Farm Credit administration appraisers. Where prices are abnormally inflated, no farm loans can be approved.

The bill is not designed to put amateurs in business, but it does offer veterans an opportunity to help themselves rather than become wards of the government.

Those who framed the bill considered land settlement policies and aid to veterans of previous wars and attempted to help this generation profit from past experience.

Discharged veterans need not worry that loans to buy farms may be hard to get at present due to high land prices, for the two year time limit begins only after the war has ended officially. And since the loan guarantee can be used only once, veterans should exercise that privilege for an enterprise of great importance.

Short Course on Growing Chicks

College Station—A radio short course on growing baby chicks will be a feature of the Texas Farm and Home program February 26 through March 2 under the sponsorship of the A. and M. College Extension Service. Stations broad-

casting the 6 a. m. program include WBAP, Fort Worth; WOAI, San Antonio; KPRC, Houston; and WTAW, College Station.

Enrollment will continue thru February 24, and blanks may be obtained from the county agents or from Extension headquarters at the college.

POSTAL NOTES NOT CASHABLE OVERSEAS

Persons writing to service men and women overseas are urged not to send Postal Notes — simplified money order forms — to their sons, husbands, and sweethearts in the service.

Although the postal notes go on sale by the Post Office Department on February 1, 1945, Navy post offices abroad and at overseas bases are not authorized to cash these notes.

They may be cashed within the United States and are good for only two calendar months from the date of issue.
