Victory Gardens More Important Than Ever As U. S. Feeds Europe

Recent developments in the war situation emphasize the fact that food will be increasingly important factor in the life of this nation. Its fighting forces and its allies throughout the year 1945. It places on all farm people and all who have a garden plot available the obligation to grow a Victory Garden to produce as many vegetables as possible.

Even if weather conditions do not allow actual planting, every Victory gardener can profit by doing a few simple things in preparation, says Grace L. Patterson, county home demonstration agent. These include (1) getting sufficient amounts of seed well adapted to Bailey County conditions, (2) starting some plant beds, if haven't already and (3) laying aside fertilizers, insecticides, insecticides and vegetable seeds and insecticides for the legumes, peas and beans.

Cool weather vegetables, such as lettuce, spinach, beets carrots and English peas will germinate readily in cold soil and grow normally while the weather is still chilly. Leaf type lettuce should be planted now but care should be taken not to plant too thick. Grand Rapids or Black Seeded Simpson are the best varieties.

Tendergreens are very good here since sand is bad here and it has a smooth leaf.

Spinach and carrots will come up quicker if soaked in warm water the night before they are to be planted.

Two especially recommended varieties of spinach are Danver's Half Long and Danver's Half Long. At Texas Sur Cropper English peas are especially adapted to our county and Detroit Dark and Crosby's Egyptian are good varieties of beets.

Pfc. Alwyn Chitwood, with the Army Air Forces and based at Enid, Okla., visited here last week with his parents, Mr. and Mrs. E. O. Chitwood, a sister, Mrs. H. V. Snyder and other relatives and old friends. He has recently received his wings as an aircraft engineer.

Carl Macon, superintendent of Bula school, is president of the Bailey County association.

More Red Cross Help Needed

Material has arrived for 150 kit bags and we need workers at the sewing rooms. This is a rush order as so many of our boys have lost all their equipment on the fighting front.

Help get these bags to them quickly. You can take the work home with you if you like.

Rooms opened Wednesday at terminals.

Mrs. C. C. Mardis, Production Chairman.

LIARINES NEED 40 MEN

I am sure you read in the papers the other day about the de-activation of Camp Barkosey, Abilene, and of the swift changes that came to this city that has certainly felt the war boom.

Abilene will do all right without the added stimulus of the war establishment's proximity, but for now some strenuous readjustments became necessary. For rent signs sprang out over night, and many businesses just folded, as their proprietors intended to do all along, once the boom ended.

Do you suffer from MONTHLY NERVOUS TENSION

with its weak, tired feelings? If functional periodic disturbances make you feel nervous, tired, restless—as much time—try this great medicine—Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Taken regularly—it helps build up resistance against such distress. Also a grand stomachic tonic. Follow label directions. *Lydia E. Pinkham's* VEGETABLE COMPOUND

It will do no harm for the city or the individual to cast a glance ahead and try to picture what things will be like when victory and peace actually come. That day is coming, and if we have given some thought to it, our own readjustment ought to be easier. Most of us are earning more than we ever have, and it seems only sensible to reserve some of it for the slower days we always expect.

Letters From Service Men

This column has a letter this week that was written from the far away Philippines by Pvt. Randal M. Wilson to his parents, Mr. and Mrs. J. M. Wilson, of Muleshoe. Pvt. Wilson told of seeing a brother, Newel, recently. Randal is a member of an AAA outfit. His letter follows:

Philippines, March 6, 1945.

Dearest Mother, Dad, and Gang: A few lines to say "I Love You," and to unload couple of surprises. First, I'm busted, as of last night. —My transfer is on its way, back to the Eighth Cavalry—the second and best: I spent the day with Newel, at his outfit, and my Battery Commander says I may spend as much time as possible, while awaiting transfer.

He is in wonderful health and as happy as could be expected. He has grown, and matured, the jungle will do that to you, I guess. We are going to take some pictures together, a couple of rolls, and will send them home.

You'll never know how wonderful it was to see him—feel his hand and to know he was O. K. We are both out of food and cigarettes, though, we don't even have roll your own. I wish I had some ham, even—in the last ten days we've been issued 22 cigarettes, Newel fifty, pretty poor war, and the food is lousy plus.

Mother, he was proud to say, "This is my brother," and we had lots of joking about my getting all the milk. I bought four Filipino chickens, so he and I will have chicken dinner the ninth, then we don't expect to see each other for a long time. I don't want to raise your hopes too much, but, as you know, our Rotation Plan has been boosted to 30 months overseas. Newel has 322, so he may get to come home one day soon. I hope and pray that he makes it, for this is Hell over here.

Well, Sweet, I hope Dad is well by now, and all the kids. Must say good night, with all my love.

Your Son,
Randal.

The first chirp of Robin Red breast proclaims the arrival of spring, but to thoughtful farm families it also announces the time to clean up and refurbish the home and farm buildings. Stressing the importance of efficiency, safety, fire prevention and salvage, the annual Spring Clean Up Campaign, sponsored by the U. S. Department of Agriculture and the National Fire Protection Association is now underway. Its aim is to call attention to farmers the profitable returns gained by taking advantage of the early break in winter weather to re-condition buildings; repaint and freshen up the home; clean out debris and rubbish; check roof weakness and re-roof where necessary with a sturdy fire-resistant material; eliminate common fire hazards; and salvage waste paper and old rags, both urgently needed in the war efforts.

You're so smart... you tell me!

A lot of troubled car owners would probably like to echo Junior's words. They're the patriotic motorists who want to take the best possible care of their cars... who want to be sure to get a fine quality motor oil. They say, "We know we should use a quality oil. But how can we tell which oil is fine quality?"

If you also wonder how to pick a quality lubricant... Phillips comes to the rescue. Gives you one easy way to make certain of getting quality motor oil.

Just read this simple, frank statement:

Phillips offers many oils because preferences and pocketbooks vary. But if you want our best oil, we tell you that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the lubricants Phillips offers to car-owners like yourself.

Warmer weather is on the way. So when you change from winter-worn oil... get quality by asking for Phillips 66 Motor Oil.
