VOLUME 8 NUMBER 47

QUITAQUE, BRISCOE COUNTY, TEXAS — THURSDAY, MAY 2, 1968

PRICE FIVE CENTS PER COPY

## First Primary Election Will Be Saturday, May 4

Saturday, May 4 is election day here in Texas, and voters will go to the polls to be faced with a king-sized ballot and many candidates from whom he must make a choice. For Quitaque voters, the only local race that is contested is that of the sheriff's race. Incumbent Vinson Smith is up for reelection and he is opposed by J. C. Fowler. District Attorney John Stapleton is up for reelection with no opponent, as is County Attorney J. W. Lyon, Jr. In the State Representative race, incumbent J. M. (Red) Simpson is opposed by Marion Bruce in that contest. The race for governor of the State of Texas is drawing more attention than any other and voters have a wide choice in that contest. Ten candidates are listed on the ballot in the race for governor, but probably four of these men will

get a lion's share of the total vote. Voters also will have three propositions on the ballots on which they may express their opinion—voters will not be voting these into law or voting them DOWN—but will only be expressing their own opinion as to whether they think these items should or should not be made laws. The first proposition concerns the sale of liquor by the drink in wet areas. Voters will indicate whether they are for or against the sale of liquor by the drink in wet areas. The second proposition concerns horse racing with pari-mutuel wagering on a local option basis. The third proposition concerns the passing of a law creating the Texas Dairy Commission with the power to regulate and fix the price of retail and wholesale price of milk. Voters will indicate whether or not they favor such a law.

## "GOOD NEWS" PRESENTED TO LARGE CROWD SUNDAY NIGHT

The Chapel Choir of the First Baptist Church presented a very impressive Christian folk musical "Good News" to a large crowd at First Baptist Church here Sunday night.

This musical drama was presented by a cast of 25 voices telling in song how to live for Christ and spread the "good news" to others that Christ came to earth, died for our sins, but lives again.

The reactor, played by Oliver Clark, is the skeptic who doesn't know Christ but wants to know how to find him. The music is brought to a climax as the story unfolds.

### BURSON LAKES REPORT

Dusty Taylor, out at Burson Lakes reports that scattered showers Saturday night and during the day Sunday kept many of the fishing reports from coming in.

However, Mr. Taylor said that several fishermen did come by to hurriedly report that they had fine luck fishing for BIG BRIM and most everyone took some bass and a few channel cat and crappie.

F. O. Burke from Lubbock took some of the largest trim on worms that can be found anywhere. Harva Pennington of Lockney took some very nice bass on lures and flies.

Crappie and channel cat are being taken in fair numbers. Bass are being taken on lures as well as minnows and for the weather conditions, fishing is good. Many large bass can be seen coming in all along the shore line.

Mr. Taylor believes that a few days of nice warm weather would bring fishing at its best.

They were dinner guests that day of Mr. and Mrs. Sid Bogan. Afternoon visitors were Mrs. Gladys Wise, Minnie Mae Roberson, and Mary Ollie Persons. ### To the People of Briscoe County:

Just a simple reminder that I will appreciate your vote for the office of Sheriff and Tax Assessor-Collector on Saturday, May 4th.

During the past weeks I have tried to contact each of you personally and solicit your vote, but there are some whom I failed to contact, and should you be one of those, I will appreciate it very much if you will consider this as a personal request for your vote and support.

Should it be my good fortune to be elected to serve as your Sheriff and Tax Assessor - Collector, I assure you that I will fulfill the duties of that office to the best of my ability.

Again let me assure each of you that I will appreciate your vote in the Democratic vote on Saturday.

Respectfully,

### FARMERS HOME ADMINISTRATION CAN HELP SENIOR CITIZENS

Sixty - two years of age. What thoughts does this seemingly magic age bring to the minds of most people? That of a snow haired, stately gentleman and his matronly wife sitting on the porch of a nice, neat home? A well-kept lawn and garden with which to while away the hours between various points of travel?

This is a nice mental picture to have. But, just look around you. What type of housing do the majority have? It is not the nice, neat home with the well-kept lawn and garden. Too often it is a dilapidated old shack that should have been torn down directly after World War II.

What can be done about this situation? Plenty! Farmers Home Administration has two types of housing loans tailored to fit the needs of these people. With one of these loans we can construct a modest new home that will reflect the dignity of our Senior citizens. The note can be amortized over a long period of time at 5 percent interest.

The other type of loan can be made to low income persons who do not necessarily have to be sixty-two or older who have a deed to their property. With these funds anything that may be hazardous to the health of the occupants can be corrected. This would perhaps entail putting on a new roof, new screens or digging a cesspool.

This loan has an interest rate of 4 percent and can be amortized over a period of up to fifteen years. Much can be done through these two housing programs to alleviate the inadequate housing that many of our Senior Citizens and low income people must live in.

Anyone interested in either of these two types of loans can contact Don Cruce, County Supervisor or Larry Trebybig, Assistant County Supervisor at the Farmers Home Administration, 219 Northwest Second, Tulla. Tuesday of each week, contact can be made at the Farmers Home Administration office at the Courthouse in Silverton.

### Junior Class To Present Play

The Junior Class of QHS will present a three-act comedy-drama on Tuesday, May 7th at 8:30 p. m., entitled "Night of January 16," by Ayn Rand. The play has been presented by several Little Theatre groups throughout the United States and the play has been received with warm appreciation and enjoyment by large audiences in several towns and cities. The defense pleaded suicide and the State's attorney is demanding a verdict of "Guilty of Murder." **Lazy Day Breakfast**

by Betty Crocker

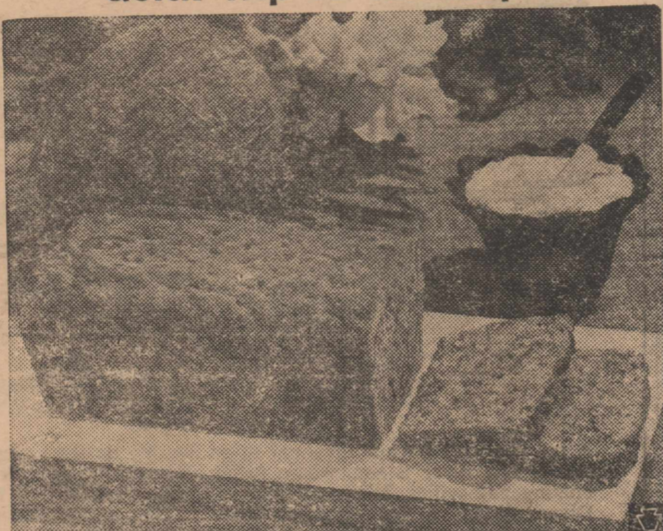

Take one leisurely Sunday morning, one hungry family and one extra smart mom who plans ahead — and what's cooking at that household? A pancake pajama party, that's what. Just for the family. Guests come as they are, in their bathrobes, and sip Sparkling Orange Juice while they read the Sunday comics. (Two parts orange juice to one part chilled lemon carbonated beverage, with a slice of orange afloat.) Everybody takes his turn at the griddle — flips his own pancakes, rolls them up with lots of brown sugar or jam — helps himself to the pork sausages staying warm in the oven. No alarm clocks, no rules, nobody's counting. It's a family holiday.

**BELGIUM PANCAKES**  
 1 package active dry yeast  
 2 tablespoons warm water (105 to 115°)  
 3 eggs, separated  
 3 cups New Bisquick  
 2 1/2 cups lukewarm milk  
 3 tablespoons brown sugar  
 1/4 cup butter, softened  
 Brown sugar  
 Jam or applesauce

For each pancake, pour 1/4 cup batter into hot skillet; tilt to coat bottom of skillet. Cook until bubbles appear and edge is dry. Loosen edge with spatula; turn pancake gently and finish baking. Keep warm in low oven while baking other pancakes. Spread each baked pancake with brown sugar or jam; roll up like jelly roll. Serve warm. Makes about fourteen 8-inch pancakes.

Sizzle the sausages in the oven. Bake in 400° oven for 20 to 30 minutes, turning once. . . . Serve cocoa for the kiddies with multicolored mini marshmallows. Another lazy day, try another menu: cantaloupe balls in orange juice . . . scrambled eggs and bacon . . . hot gingerbread with scads of butter. Pull up the chairs and have a family brunch in front of the fireplace.

**Quick Trip To The Tropics**

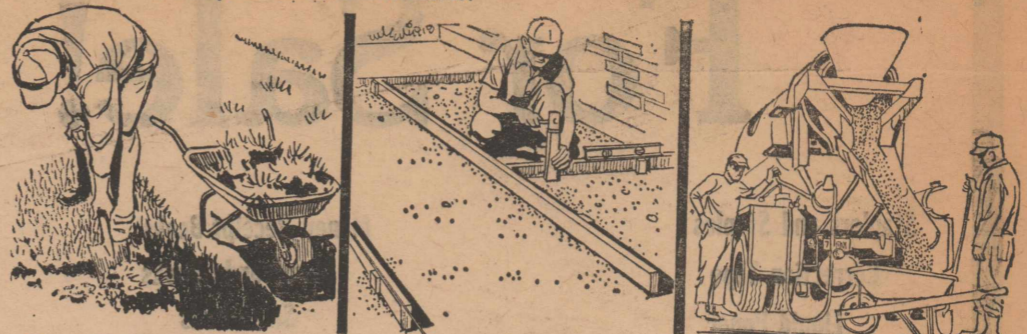

If you can't jet off to an exotic island, bake wonderful Coconut Quick Bread. The full flavor of coconut and fragrant cinnamon will carry you south to warm sun and pretty palms. — And you'll be there in no time, for the recipe takes a jet-age kitchen shortcut with convenient pancake mix.

**COCONUT QUICK BREAD**  
 Coconut Bread:  
 2 cups pancake mix  
 1 cup flaked or shredded coconut, toasted  
 1/4 cup sugar  
 3/4 cup chopped pecans  
 1 teaspoon cinnamon  
 2 eggs, beaten  
 1/4 cups milk  
 3 tablespoons melted butter or margarine  
 Whipped Butter:  
 1/2 cup butter or margarine, soft  
 1/2 cup maple-blended syrup

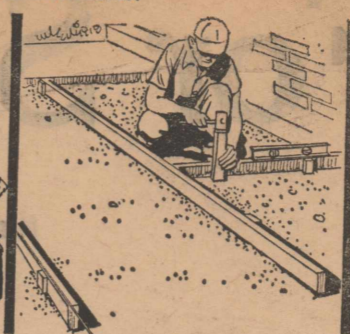

Heat oven to moderate (350°F.). For bread, grease an 8-1/2x4-1/2x2-1/2-inch loaf pan. Line bottom with waxed paper; grease again. Combine pancake mix, coconut, sugar, pecans and cinnamon. Add eggs, milk and butter; stir until dry ingredients are thoroughly moistened. Pour batter into prepared pan. Bake in preheated oven (350°F.) 55 to 60 minutes. Remove from pan. For ease in slicing, wrap cooled bread and store one day before slicing. For whipped butter, beat butter until light and fluffy. Gradually beat in syrup. Serve with bread.

**Six-Step Easy-To-Build Patio**

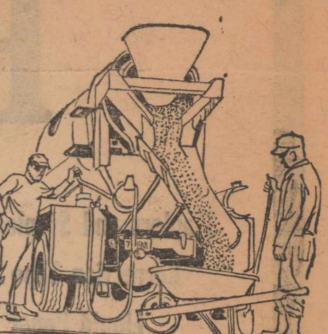

As the outdoor living season is at hand, here are six easy steps to help make your summer more enjoyable with a new concrete patio. If you're experienced, you can handle the job yourself. Otherwise relax and call your concrete contractor.

**Step 1. PREPARE THE BASE**  
 — Select your patio area carefully to be sure it's exactly where you want it. Stake out the area to help you visualize it. . . . Remove the turf and at least four inches of top soil. Compact loose soil with a tamper or heavy roller. Place a smooth, level one-inch layer of sand to provide firm, even support for your patio.

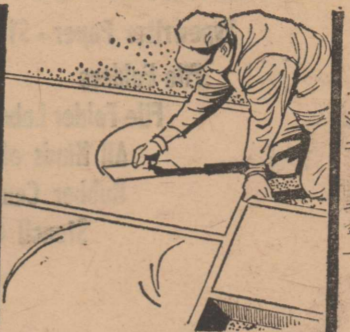

**Step 2. SET THE FORMS**  
 — Your concrete patio can be laid out in almost any shape: square, circle, diamond, or free form. For a 4-inch thick slab, use 2x4 boards on edge, nailed to 1x2-inch stakes driven firmly into the ground. The top edge of the forms will be the surface grade of your patio. Be sure that water will drain properly.

**Step 3. ORDER CONCRETE**  
 — After the base is prepared and forms set, call your local ready-mixed concrete dealer. Tell him the size patio you are building and that you want to use concrete with 6 percent air-entrainment. He will deliver enough concrete to do the job. Be sure to have enough help ready to place the concrete when it arrives. Wait until you are ready to place the concrete before calling the ready-mix company.

**Step 4. PLACE THE CONCRETE**  
 — Place the concrete as near as possible in its final position. Don't spread it from one central pile. Spade the concrete thoroughly to help consolidate it. After the concrete is placed, strike it off with a 2x4 resting on the forms as shown here. This insures a flat, level patio surface. Keep enough concrete ahead of the 2x4 to fill in all low spots.

**Step 5. FINISH THE SURFACE**  
 — After the surface water evaporates and the concrete starts to stiffen, "float" the patio surface with a light metal or wood float. This produces a textured, slip-resistant finish. If a very smooth surface is desired, finish with a steel trowel. But remember that the smoother the surface the more slippery it will be when wet.

**Step 6. CURE THE CONCRETE**  
 — Cure the concrete properly to produce a strong durable surface. For best results keep it wet for at least six days after placing or cover it with a plastic film as shown here. Wet burlap or straw are equally good for curing. Your concrete patio should provide many seasons of enjoyment.

Vote for Preston Smith for Governor of Texas.

Pd. Pol. Adv.—Harold Dudley, Campaign Mgr.

From the Desk of

**ALTON B. CHAPMAN**

To the Residents of the  
Seventh Supreme Judicial District:

Thank you for the privilege of serving you for eleven years and four months on the Court of Civil Appeals.

For the sake of the Court which I am retiring and for the good of the State of Texas, I earnestly solicit your votes for JACK HAZLEWOOD because:

1. In my opinion, the judges on every appellate court, from the United States Supreme Court on down, should be first and foremost good lawyers. JACK HAZLEWOOD is an outstanding lawyer.

2. Of six major scholastic honors possible for a student to win in the Texas University Law School, JACK HAZLEWOOD won them all. Such scholastic record is possible only by one with an outstanding legal mind and the willingness to work, two attributes needed on an appellate court.

3. Jack Hazlewood has had more than four times as much experience in the Court of Civil Appeals as both his opponents combined.

4. The most practical and effective training for an appellate court justice is trial and appellate practice as a lawyer, against other strong lawyers. This is exactly the training Jack Hazlewood had had for more than fifteen years, and in it he has many times demonstrated his competence.

5. This is the exact same training five justices of the Supreme Court of Texas had before becoming members of that Court. None had judicial experience on the trial level. They are Justices Griffin, Walker, Greenhill, Steakly and Chief Justice Calvert.

6. In the official bar poll conducted by the State Bar of Texas among the lawyers and judges of the 46 counties of this district Jack Hazlewood received more votes than both his opponents combined. This poll indicates that the members of the legal profession also rank him number one.

Respectfully submitted,  
Alton B. Chapman, Associate Justice

SKIN DIVER'S FLAG

A red flag with a white diagonal stripe floating on the water indicates that a skin diver is somewhere below the surface, say the Mercury boating authorities. It warns boaters to stay at least 100 feet away. Divers display a flag whenever there is boat traffic and often tow it with them as they change underwater locations.

WAIT A MINUTE  
Let's look at the facts!

Six years ago when the Hon. (his description) J. M. Simpson went to the Texas Legislature, a number of other West Texas "freshmen" were also elected.

All of them—EXCEPT THE HON. J. M. SIMPSON—have served or are serving as chairmen or Vice-Chairmen of House Committees.

All of them—EXCEPT THE HON. J. M. SIMPSON—are serving on powerful House Committees, such as appropriations, Taxation and Revenue and the like.

"You must be  
kidding, Mac."

You say you want this "right" so you won't buy a bottle just to get one drink? But you'll drink *more* (the Annual Review of the Distilled Spirits Industry says 67% more)! At by-the-drink rates that will cost Texans \$781½ million, or \$65.12 per capita.

Whatever your business, you feel it when a half to \$2 billion is siphoned off to buy liquor. Business paid \$2,125,000 for work days lost due to alcohol last year. So you didn't miss a day, but part of that is on your check!

The taxes on this drink don't begin to pay the skyrocketing costs of law enforcement. So you're not a drunk. But if consumption jumps 67%, up go our 1,400,000 arrests for public drunkenness.

Iowa highway deaths rose 30% in two years after liquor-by-the-drink. Liquor is already involved in 38% of our fatal accidents. A 30% rise here would mean a human life tag of \$34,340,000! Our half billion in auto accidents will soar, too. Somebody's going to pay for it. Your insurance company will see to it they don't!

You don't plan to wind up on welfare, but plenty will! And 78% of our children on welfare are there because of alcohol.

More outlets get more people started and make enforcement more expensive. But you wouldn't care about that—unless maybe you've got a teenager!

What I'm saying is—before you order that drink, be sure you're ready to pay the check!

**Chicken 'n Dumplings**

by Betty Crocker

Let's take a cue from Gramma and take the chill out of wintry nights with a hearty and homestyle dinner. Chicken and dumplings bubbly with color and nutrition. Pineapple-Bing cherry salads at the side. Old-fashioned chocolate chip cookies with ice cream for dessert.

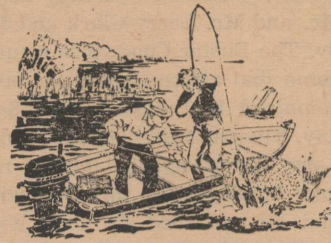

To add nostalgic charm, serve the chicken and dumplings in an ironstone bowl. Fill a china teapot with artificial flowers. Or use a red and white tablecloth with fringed white napkins. Now scan the recipes. They show you how to go home in a hurry.

- Chicken 'n Dumplings**
- 3-to 3½-pound stewing chicken, cut up
  - 1 celery stalk tops
  - 1 medium carrot, cut into ½-inch slices
  - 1 small onion, sliced
  - 2 sprigs parsley
  - 2 teaspoons salt
  - ½ teaspoon pepper
  - 5 cups water
  - ½ cup Bisquick
  - ⅔ cup milk
  - 2 cups Bisquick

In large saucepan or Dutch oven, place all ingredients except Bisquick and milk. Cover pan and heat to boiling. Cook over low heat about 2 hours or until chicken is tender. Remove chicken and vegetables from pan. Skim ½ cup fat from broth. Remove broth from saucepan, reserving 4 cups.

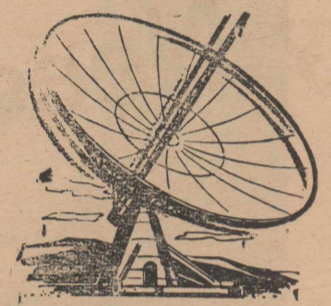

Heat fat in saucepan; blend in ½ cup Bisquick. Cook over low heat, stirring until mixture is smooth and bubbly. Remove from heat; stir in reserved broth. Heat to boiling, stirring constantly. Boil and stir 1 minute. Mix milk and 2 cups Bisquick well with fork. Drop dough onto hot gravy. Cook over low heat 10 minutes uncovered and 10 minutes covered. Place chicken and dumplings in serving dish; pour gravy over top. 4 to 6 servings. **Pineapple-Bing Cherry Salad:** Chill 1 can (14 ounces) pineapple chunks and 1 can (14 ounces) Bing cherries. Drain. Add ¼ cup chopped pecans, ¼ cup whipping cream, whipped, and 1 tablespoon mayonnaise. Serve on lettuce. 6 servings. **And if you're really an old-fashioned girl, try egg coffee:** ½ tablespoon beaten egg to ½ cup coffee before adding water.

**Boating Tips...**

**LANDING A FISH**

Boating a fish is almost as difficult as catching one. Potential record breakers have become fiction rather than fact for many hapless anglers, so the fishing experts at Mercury outboards offer these tips to save a disappointing outing: first, select a long-handled net of sufficient size; never lurch or wave your arms unnecessarily when the fish gets close to the net; always put the fish in the water before the fish is brought into landing position; then pull him head first over it and lift; lift smoothly, and in one motion, bring the netted fish into the boat.

**CANCER'S WARNING SIGNALS**

- 1 Unusual bleeding or discharge
- 2 A lump or thickening in the breast or elsewhere
- 3 A sore that does not heal
- 4 Change in bowel or bladder habits
- 5 Hoarseness or cough
- 6 Indigestion or difficulty in swallowing
- 7 Change in a wart or mole

These signals do not usually mean cancer, but they are warnings; if one lasts more than two weeks, it is important to go to your doctor.

**From The County Agents' Desk**

With screwworm cases on the upswing, livestock producers are now in a critical period.

This year the first case in Texas was confirmed on March 26, and more cases are being reported. One of the major causes for this early infestation was the movement of cattle from the interior of Mexico into the northern barrier zone for better pastures. Warm weather, humidity, and a large number of wild flowers, weeds and grasses are also adding to the possibility of more screwworms moving into Texas. This year the potential for screw-

worm cases is greater than it has been in a number of years.

All livestock owners are urged to check their animals on a day-to-day basis. They should examine and treat all wounds on their livestock. Injuries can be kept to a minimum by checking fences, pens, and chutes for protruding nails, wires or splinters. Navel wounds of newborn animals should be

treated and rechecked frequently. It is also important to control external parasites by spraying or dipping the animals with a recommended insecticide. For further information, producers can pick up a copy of "Texas Guide for Controlling External Parasites on Livestock and Poultry", (Leaflet 256).

Worms taken from wounds should be sent to the Mission Screwworm Laboratory for identification. Livestock owners who need vials for the larval samples should contact the county agent's office.

**NEW! For clean Sorghum... spray weeds when you see them! with BANVEL<sup>®</sup>**

Velsicol announces Banvel herbicide for control of all hard-to-kill weeds of major importance in grain sorghum. This includes carelessnessweed (pigweed), sunflower, lambs-quarter, purslane, morning glory and other annual broadleaf weeds. Banvel herbicide is applied post-emergence, so there are no wasted sprays in years when rain is scarce and weeds are not a problem. With Banvel you see your weed problem and then spray—all in plenty of time to give young sorghum plants plenty of opportunity to grow.

Banvel is not dependent on soil moisture for its effectiveness, so its results are dependable. And it's a liquid that won't clog your sprayers; nor does Banvel need constant agitation.

Banvel increases yields. It's excellent for use on grain sorghum, wheat, barley, oats and field corn. Order Banvel herbicide to get full potential from your valuable, high-yielding sorghum seed. See your dealer today. You'll be glad you did!
