Event Will Raise Money For New Fire Truck

An Ice Cream and Cake Supper is scheduled for Sunday, June 25, at 7:30 p.m. in the City Park at Turkey, if weather permits, otherwise it will be held at the Bob Wills Center.

This event is sponsored by the Women's Auxillary, and proceeds will be used for the purchase of a new fire truck. Price for eating all the cake and ice cream will be \$1.00 for adults and 75c for children.

The new ambulance will be available for the crowd to inspect, for there are many who have never had a chance to look inside this community service vehicle.

Area Baseball Teams Still Progressing

The Quitaque Pee Wee Team started off the past week with a bang, winning a game against Silverton by a score of 14-9. The scoring was as follows: Kirk Martin, two; Lane Myers, one; Gary Brannon, one; Scott Saul, two; Brandon Mullin, two; John David Harmon, three; Armondo Ortiz, one, and James Taylor, two, with a grand slam home run.

The Pee Wee Team ran out of steam in the game with Turkey, losing by a score of 16-4. Nearly every boy on the team was tried as pitcher, but none could seem to find the spot long enough to do any good. The scores were made by Brandon Mullin, one; Lane Myers, one; Armondo Ortiz, one, and Gary Brannon, one.

The Pee Wee Team will play a home game here Thursday, June 22, (tonight) against Silverton.

The standings at present are Quitaque, three wins, one loss; Turkey, three wins, no losses; Silverton, no wins, three losses; White Sox, no wins, two losses.

The Quitaque Little League Team came out ahead in their games this past week. They played Silverton June 15 with a win, 36-10.

Those scoring runs were Neal Barrett, two; Bobby Ortiz, four; Kirk Saul, two; Blue Valdez, two; Matt Barrett, three; Chuck Martin, three; Steve Price, six; Roger Hughes, three; Shon Phelps, four; Larry Clay, two; Walter Rice, two; Craig Cox, two, and Jamie Cox, two.

The Little League will host Silverton Tuesday, June 20.

Current standings are Quitaque, four wins, one loss; Turkey, three wins, two losses; Silverton, one win and five losses.

JAMES EDWARD GOWIN IN STABLE CONDITION

The Tribune received a note from the Jay Gowin family this week, stating their son, James Edward Gowin, who was seriously injured in the same wreck in which his brother, Douglas, lost his life, is in a stable condition in a hospital in Fort Worth at the latest report.

Nancy Fields of Claude spent last week visiting with her grandparents in Turkey. Mrs. Jack Fields drove to Turkey Saturday and returned her daughter home with her.

Crystal Yates of Wellington has been visiting in Turkey with her grandparents, Mr. and Mrs. Gerald Carnes.

Visitors in the home of Mrs. W. A. Majors Sunday were Mr. and Mrs. Ernest Rogers of Vernon and their granddaughter, Kathy Nelson of New Orleans, O. F. and Jeff Majors of Lubbock and N. H. Majors of Lorenzo.

Cliff Minar, vice president of marketing for Southwestern Public Service Company, presented a certificate and plaque to Lex Herrington, outstanding student at SPS Company's Annual Farm Electrification Workshop in Amarillo.

Herrington Named Outstanding Student

Lex Herrington of Quitaque, a Valley High School vocational agriculture student, was named an outstanding student at Southwestern Public Service Company's 18th annual Farm Electrification Workshop held June 12-14 at the Episcopal Conference Center in

Amarillo. For his accomplishments, Herrington will receive an expense-paid trip to the National FFA Convention in Kansas City in November of this year. Thirteen hours of instruction were offered during the workshop in each of three subjects, farm motors, farm wiring and electric controls. Two students from the wiring and motor courses and one from the electric controls course were selected as outstanding and received trips to Kansas City. Herrington was the outstanding student in one of the farm motors classes. The award was presented by Cliff Minar, vice president of marketing for Southwestern Public Service Company.

Turkey Methodists To Hold Revival

The United Methodist Church of Turkey announces its Summer Revival July 5-9, 1978. Evening services will begin each night at 8:00 p.m. There will be a breakfast service Thursday, Friday and Saturday mornings at 7:00 o'clock. Friday night has been designated as youth night. Special services for the youth will begin at 7:00 p.m. Friday.

The evangelist for the revival will be the Rev. Stan Cosby, pastor of the United Methodist Church in White Deer. Rev. Cosby is a 1976 graduate of Asbury Theological Seminary in Wilmore, Kentucky, and is one of the top evangelists in this area. Song leader for the revival will be the Rev. George Price, jr., pastor of the United Methodist Church in Quitaque. Rev. Price is a 1978 graduate of Asbury Theological Seminary.

Pastor Elroy Wisian, jr. extends a cordial invitation to all residents of the area to attend the revival and hear Biblical preaching at its best.

ON DEAN'S HONOR ROLL AT TEXAS TECH UNIVERSITY

More than 4,000 students at Texas Tech University qualified for the deans' honor rolls in the six colleges during the spring semester.

Among them were two from Quitaque; Cheri N. Brown, health education, and Kimberly J. Ham, accounting.

To qualify for a dean's honor roll a student must have a grade point average of 3.0 or more on a 4.0 scale and must have taken as many as 12 semester hours of work.

Texas Tech University has an enrollment of more than 22,000 students in six colleges: Agricultural Sciences, Arts and Sciences, Business Administration, Education, Engineering and Home Economics. There also are a graduate School and a School of Law.

Services Held For Leonard Crowell

Leonard Watson Crowell, 54, a lifelong resident of the Flomot area, died early Sunday morning. Funeral services were conducted Tuesday at 3:00 p.m. at the First Baptist Church in Flomot, with the Rev. Luther Baker of Idalou, Rev. Charlie Lummis, pastor of the Flomot Church, and Rev. Harlan Womack of Lubbock, pastor of the Fairmont Baptist Church, officiating.

Burial was in the Flomot Memorial Park Cemetery, with arrangements under the direction of Seigler Funeral Home of Turkey. Mr. Crowell was the son of the late Mr. and Mrs. Leonard Crowell. He was married to Ruby Lois Pinckard on November 14, 1947, at Tullia, Texas. He was a veteran of World War II, having served in Germany. He was a member of the American Legion and of the Fairmont Baptist Church.

He was preceded in death by a daughter, Glynda, on November 7, 1966, and by a sister, Mrs. Lonnie Kell in 1975.

He is survived by his wife, Ruby Lois of Turkey; two sons, Joe Bob Crowell of Turkey and Lynn Crowell of Lubbock; one brother, Odus Crowell of Clute; two sisters, Mrs. W. L. Nall of Hereford and Mrs. Jewel Jones of Portales, New Mexico; and a granddaughter, Claudia LouJean Crowell.

Pallbearers were Leldon A. Bynum of Lubbock; Preston Mosley, Amarillo; Denver Anderson, Quitaque; Bud Barton, Dougherty, and Howard Rogers, Orville Lee, Ray Cruse and Glynn Dale Tiffin, all of Flomot.

REMINDER!

Next week is the last week before the price increase to pay your subscription to The Tribune. We don't want to lose any subscribers. Please check the red circle around your name and if it is due in June or July, it will be circled in red. Thank you. Your Editors

Mr. and Mrs. J. W. King of Quitaque drove to Amarillo to meet their granddaughter, Mechelle Penrod, who flew in from Santa Rosa, California. They drove to Aspermont for a visit with Mr. and Mrs. J. O. Penrod Sunday and Mechelle remained to spend this week with her grandparents there.

Mr. and Mrs. Terry Doc Williams and children of Abilene and Mrs. Inez Karr of Spur spent the weekend in the home of Mr. and Mrs. Doc Williams.

COMMUNITY SUPPER TO HONOR EMT's, FIREBOYS

Quitaque residents will have an opportunity to express appreciation to the EMT's and Fireboys when "We the Women" sponsor a Pot Luck Supper on Thursday, June 29, at 7:30 in the Quitaque Community Center.

The area is very fortunate to have so many dedicated people who have received Emergency Medical Training and who volunteer as Fireboys and are well prepared to meet emergencies.

The EMT's are David Brunson, Elgin Conner, Arnold Castillo, Jimmy Davidson, Rex Harmon, Jerry Maupin, Warren Lee Merrell, Dale Ramsey, Jarrell Rice, Mary Woods, Clara Ruth Davidson, Faye Reed, Lynette Barefield and Cleo Duncan. Duke Woods, Johnny Butler, Joe Edd Smith and Stan Price are drivers for the EMT's. All of this group of men also serve as Firemen, along with James Brunson, George Calvert, James Cathey, Reggie Cathey, Clyde Dudley, Weldon Griffin, Billy Merrell, Bruce Patrick, Scotty Stark, Jack Wellman and alternates Phil Barefield and Jimmy Don Davidson.

All Quitaque residents are urged to attend the Family Night Pot Luck Supper to honor this special group of people. Bring a large dish of food and enjoy an evening of games, visiting and fun for the whole family. A nursery will be provided for children ages four and under at the First and Cleo Duncan. Duke Woods, Baptist Church.

ADA FIGURES DOWN FROM YEAR AGO AT VALLEY

The final calculations for student enrollment and attendance for Valley School during the 1977-78 school year has been completed. The figures show that the average daily attendance is down from a year ago by about nine students. Last year the attendance averaged 392 students per day and this year's count is set at 383. The number of students in attendance is the basis upon which the school receives financing from the state and will mean the loss of financing for one half teacher salary. Percent of attendance was much better this year than last with 95% of the students in attendance

each day. The difference was that more students enrolled in school last year and stayed in the community and school for a longer period of time. The total number enrolled this year, including those who enrolled and moved away sometime during the year, was 473. Last year the count was 493. The number of migrant students in the school (those students of parents who move here for agricultural purposes) has decreased and now there are 89 enrolled. The six weeks reporting period with the lowest enrollment and attendance was the fourth six weeks. The average attendance for the lowest periods were 634 and 366 respectively while the highest was 932. The school is allowed by the state agency to drop the two lowest six weeks.

Available records show that boys outnumber girls by a margin of 227 to 191. Most of this difference is found in the top four grades where the boys outnumber girls 73 to 59. These figures take into consideration all students who have attended school here sometime during the year. This year's tenth grade class has 21 boys and 8 girls. The freshman class has the largest number enrolled, with 48, and the eighth grade is the smallest, with 25.

JON JERROD POWELSON

Grandson Of The I. J. Lacy's Drowns

Word was received recently of the services for Jon Jerrod Powelson, age 9, who drowned Saturday, May 27, in the south branch of the Potomac River near Springfield, West Virginia. The services were conducted at the George Funeral Home in Cumberland, Maryland and interment was in the IOOF Cemetery, Elk Gardens, West Virginia.

Jerrod was born in Amarillo, Texas, and was the son of Bobbie L. (Lacy) Powelson, Piedmont, West Virginia, and James A. Powelson, who is stationed with the Air Force in Phoenix, Arizona.

Jerrod is survived by his parents; a sister, Jada; maternal grandparents, Mr. and Mrs. I. J. Lacy, Route 1, Box 118, Rocky Ford, Colorado 81067, and paternal grandmother, Mrs. Letha Powelson, 19 Lyon Street, Ridgely, West Virginia.

Jerrod was a fourth grade student, a member of the Calvary United Methodist Church, a member of the church choir, a member of the church basketball team.

Farm Wiring, Safety Short Course Set

A Farm Electric Wiring and Safety Short Course for adult farmers will be held July 17-20 under the sponsorship of the Valley High School Vocational Agriculture Department, according to Mr. Wilburn Leeper, Superintendent, and Mr. Jay Eudy, teacher of vocational agriculture.

The short course is being sponsored by the Vocational Agriculture Department at Valley High School.

Mr. Cleve Walkup, Farm Electrification Specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Agricultural Engineering at Texas A&M University, will do the instructing in the course. He is headquartered at Texas A&M University.

Mr. Walkup holds a B.S. degree in Industrial Education and a M.Ed. degree in Agricultural Education.

The short course at Valley is scheduled to begin July 17 at 8:00 p.m. in the Vocational Agriculture Building. Other meetings in the series of four nights will be held July 18-19-20. During the dates the short course is in progress, Mr. Walkup will be available to assist farmers with individual problems and to provide on-the-farm instruction, according to Jay Eudy.

Farmers interested in attending the short course should call or write the superintendent of schools, Mr. Leeper, or the teacher of vocational agriculture, Mr. Eudy. An entry fee of \$8 will be charged. Farm Electric Wiring and Safety Short Course Certificates will be presented to each farmer who attends all the training sessions.

Mr. Walkup states that the short course can be adjusted to the wishes and interests of the farmers enrolled, but that he expects to cover such subjects as electrical safety, selecting wire size, splices and connections, wiring techniques, and how to calculate the cost of operating electrical equipment. Demonstrations will be given and class enrollees will have the opportunity to perform the skills demonstrated.

Short courses in Farm Electric Wiring and Safety, as well as in other areas, are now available to farmers throughout the state under a cooperative program between the Texas Education Agency and Texas A&M University.

This cooperative program is designed to make the services of specialists available to conduct short courses under the supervision of public schools. Such a program will enable teachers of vocational agriculture to provide improved educational services to farm people.

Specialists are now available in fields of Beef Production, Farm Arc Welding, Farm Electric Wiring and Safety, Swine Production, Horticulture, Tractor Maintenance, Oxy-Acetylene Welding, and Pasture Improvement.

Mr. and Mrs. John Couchman and children visited in the home of her parents, Mr. and Mrs. Aubrey Turner, over the weekend. Monday Mrs. Couchman and her children accompanied her parents to Stanton for a visit of several days with Don Turner.

Nored Lane of Spur and Jason Judd of Amarillo have spent a week in Turkey visiting with their grandparents, Mr. and Mrs. Boyd Lane.

Mr. and Mrs. Lane returned Jason to his home in Amarillo and another grandson, Craig Proctor, returned to Turkey with them for a visit. On Sunday the Lanes met Mr. and Mrs. William Proctor at Greenbelt Lake for a picnic lunch, and Craig returned with his parents to Amarillo.

Valley Tribune To Be Closed All Next Week

The Valley Tribune offices at Quitaque and Turkey will be closed all next week, June 26-30, in order for all to have a bit of vacation. The Owens, if nothing comes up, will drive to Van Horn this weekend for a visit with Olen and Margaret Lane. From there they will probably go into New Mexico for a few days.

Mr. and Mrs. Bill Farley and Mr. and Mrs. Reddell Irby were visitors Sunday in Stamford with Mr. and Mrs. Waymon Farley.

Mr. and Mrs. Buster Chadwick and Stachia of Quitaque visited in Turkey in the home of her parents, Mr. and Mrs. Guy Smith, Sunday.

His basketball teammates were honorary pallbearers.

His mother was born and reared in Turkey. She now resides at 114 W. Fairview Street, Piedmont, West Virginia 26750.

Mrs. I. J. Lacy and Mrs. Jerry Lacy left immediately by plane to be with their daughter and sister-in-law.

SOIL CONSERVATION DISTRICT NEWS

STRAW MULCH HELPS ELIMINATE EROSION

Everybody has ideas about disposing of wheat straw. Farmers disk it, shred it, plow it, burn it, cuss it; other people have great ideas about making it into fuel. Dr. Paul Unger, USDA Soil Scientist says, "The best thing is leaving it on the soil surface in a no-tillage farming system." Straw mulch virtually eliminates wind erosion, controls water erosion, increases soil moisture storage, and, consequently, improves yields of subsequent crops. Dr. Unger arrived at this conclusion after 10 years of research at the USDA Southwestern Great Plains Research Center at Bushland.

Dr. Unger made up his mind after a recent 3-year study where no mulch was compared to 0.5, 1, 2, 4, or 6 tons per acre of wheat straw mulch during a 10-month fallow from wheat harvest to sorghum planting. The mulch cover increased dryland sorghum yields 1960 pounds per acre. "Straw on the soil surface is like having money in the bank, and the more the better!" Unger said.

Unger conducted his experiments on Pullman clay loam soil that had produced dryland wheat on the USDA Research Center at Bushland. The first step in the research was removing all straw with a forage chopper in early July. The field was not tilled but sprayed with atrazine at four pounds per acre to control weeds and volunteer wheat during a subsequent 10-month fallow period. The atrazine also controlled weeds in the subsequent sorghum crop. Untreated areas, with no mulch, were compared with the various levels of wheat straw mulch.

Wheat straw was placed on the soil and held in place with plastic netting. Soil moisture content was determined throughout the fallow and while the medium maturity grain sorghum hybrids were growing. Much of the mulch decomposed during the fallow, and planting was done with planters having double disk openers during two of the three years. Because it was very dry the third year and straw did not decompose, a small sweep was used to part the mulch ahead of the planter.

Soil without mulch always stored less of the rain than soil with

mulch during the 10-month fallow. The more mulch, the more moisture was stored in the soil. For example, out of the 12 inches of rain during the 1973-74 fallow, only 0.9 inch of moisture was stored on bare soil. At the same time, 1.9 inches were stored with 0.5 ton of mulch. Where six tons of wheat straw were on the soil surface, 5.2 inches of moisture were stored in the soil profile.

During the 3-year study, average rainfall was 12.5 inches and average moisture stored in the bare soil was 2.8 inches. The amount of soil moisture stored gradually increased with added mulch. With six tons of straw mulch on the soil surface, an average of 5.3 inches of moisture was stored in the soil.

Unger also kept a record of temperature four inches deep in the soil. High rates of mulch reduced soil temperature when air temperature was above freezing. On the other hand, when air temperature fell below freezing, the effect was reversed. Mulch kept the soil warmer in the winter and cooler in the summer. However, at sorghum planting in late May, soil temperature was near optimum for germination with all rates of mulch.

The Science and Education Administration scientist found that mulch not only increased moisture storage during fallow, but also increased the amount of rainfall used by the growing sorghum crop. After sorghum matured, remaining mulch helped store soil moisture for the next crop. Unger came to this conclusion because mulched areas had more soil moisture after harvest than unmulched.

The amount of mulch greatly increased dryland sorghum yields. Without mulch, average yield on bare soil for the 3-year period was 1600 pounds per acre. Yield increased to 2150 pounds per acre with 0.5 ton of mulch. Where two tons of wheat straw were on the soil surface, wheat yield was 2660 pounds per acre. With four tons of mulch, yield jumped to 3280 pounds per acre, and six tons increased yield to 3580 pounds per acre. The difference in yield from no mulch to six tons per acre was 1960 pounds per acre. This was an average increase of 326 pounds of sorghum grain for each ton of wheat straw. At \$3.40 per hundred for sorghum, the extra grain produced with six tons of mulch was worth over \$66 more than the grain produced on bare soil.

People have many ideas on utilizing crop residues. Unger is convinced that leaving them on the soil surface with a no-tillage sys-

KIKER'S KORNER

by Earnest Kiker
 Briscoe County
 Extension Agent

PROTECT HORSES AGAINST SLEEPING SICKNESS

All horse owners in Briscoe County are urged to vaccinate their animals against sleeping sickness.

Sleeping sickness, or encephalitis, is a virus disease transmitted by mosquitoes. Both Eastern and Western types of the disease can occur in Texas, and immunization and mosquito control are the only effective weapons to prevent the disease. No effective treatments are available once the animal is affected, so prevention is the best weapon to protect your horse.

Since vaccines afford protection for one year only, annual revaccination is recommended. Veterinarians can provide information on the proper vaccine and procedure for this vaccination. At the time of vaccination, a tetanus toxoid shot can be given in a combined vaccine to protect the horse or colt against tetanus as well.

Since mosquitoes are mainly responsible for spreading sleeping sickness, it's important to vaccinate horses before the mosquito season begins.

Properly immunized horses not only prevent the spread of the disease to other horses, but also can help prevent cases of the disease in humans. The cost of the vaccination is small compared with the loss of a valuable horse or foal.

EXTENSION CONFERENCE TO DEAL WITH "PEOPLE, PROGRAMS, PROGRESS"

The entire professional staff of the Texas Agricultural Extension Service, more than 1,000 strong, will gather at Texas A&M University June 19-23, to key in on issues dealing with "People, Programs, Progress."

The biennial conference is designed to enhance the professional

competence of all staff members so that they can be more effective in conducting educational programs in agriculture, community resource development, family living, and 4-H and youth work. Along with keynote speakers at three general sessions, the conference will be highlighted by 41 individual minicourses ranging from "4-H Basics" and "Energy Use and Conservation" to "Executive Management" and "Home Food Production." Each staff member will be attending one of the 10-hour minicourses to develop further expertise in a particular area.

A number of national figures will headline the general sessions. Gil A. Stricklin of Dallas, with the Baptist Convention of Texas, will discuss "Resources for the Future — People" at the opening session on Tuesday, June 20. Joining Stricklin on the program will be Dr. Jack K. Williams, chancellor of the Texas A&M University System; Dr. Perry L. Adkisson, A&M vice president for agriculture and renewable resources and Dr. Daniel C. Pfannstiel, Extension director.

The second general session on Thursday morning will feature Dr. George Hyatt, Jr., Extension director in North Carolina, who will talk on "Coordination of Extension Agriculture, Home Economics, 4-H

tem is the most profitable. An average dryland wheat crop yielding 10 bushels per acre in the Panhandle of Texas will produce 0.5 to one ton of straw per acre. After a fallow period, this mulch increased sorghum yields up to 500 pounds per acre. Irrigated wheat will have about five tons of stubble per acre. This mulch increased dryland sorghum yield about 1600 pounds per acre. Any procedure that can double sorghum yields at no expense to the producer is good utilization of resources. Destroying wheat stubble or hauling it off costs money. Controlling weeds with atrazine in a no-tillage system does not cost as much as tillage. Unger says farmers have a tremendous resource that they are presently not using. Using atrazine to control weeds and leaving wheat straw on the soil during the 10-month fallow prior to sorghum is a simple technique. "Considering that mulch can increase the value of sorghum by \$50 per acre, it is surprising someone has not recognized the value of mulch before," Unger said.

Community Resource Development and 1890 Programs." Other keynote speakers will include Dr. Lorne Parker, director of instructional communications at the University of Wisconsin, who will discuss an "Educational Telephone Network," and Dorothee Polson, food editor of The Arizona Republic, Phoenix, who will talk on "Communicating Nutrition Information to the Public."

Leading off the Thursday session will be Dr. Jarvis E. Miller, Texas A&M University president, who will discuss "Integrating Teaching, Research and Extension Programs of the Texas A&M University System."

The closing session on Friday will be headlined by Dr. Neill Schaller, acting deputy director for Extension, USDA Science and Education Administration, who will talk on "Extension Programming in the Year 2000." "A Futuristic View of Research" will be discussed by Dr. Neville P. Clarke, director of the Texas Agricultural Experiment Station. The session will also feature the presentation of the Knapp-Porter Award to two distinguished Texans. This award is the highest given by the Extension Service to recognize outstanding contributions to agriculture and family living in the state.

Director Pfannstiel's "Message to the Staff" will conclude the biennial conference.

Water Panel Rejects Weather Change Bid

The Texas Water Commission has rejected an application by Plains Weather Improvement Association, Inc., for a four-year permit to perform weather modification work over five Panhandle counties.

Commissioners cited the November 8 election in Hale County that resulted in a 1,517 to 1,402 defeat of the weather modification issue as the reason for their unanimous decision.

A new state law requires approval by the majority of voters in weather modification target areas before the commission can grant a permit.

The weather modification organization sought, on October 5, 1977, a four-year permit for "hail suppression and rainfall enhancement" in Castro, Lamb, Swisher, Floyd and Hale counties.

Although elections were held in the other four counties, the commission's final order noted that "the election held in Hale County was the only election held in any

county wholly or partly within the target or operational area proposed by Plains Weather Improvement Association, Inc., in the permit application of October 5, 1977, within 51 days of the first newspaper publication of the notice of intention in each county."

The commission held its first hearing on the matter on January 31.

Jamie Meacham, daughter of Mr. and Mrs. Jim Meacham of Turkey, left Sunday morning to attend the Cystic Fibrosis Camp at Bandera. She will return sometime this Saturday.

Mr. and Mrs. Johnny Bingham and Chris of Big Spring spent the weekend with their parents, Mr. and Mrs. James Barefield in Quitaque and Mr. and Mrs. Bruce Gibson in Turkey.

Winners Announced From First Briscoe County 4-H Horse Show

There were approximately 65 spectators at the Wood Memorial Arena Friday night for the first Briscoe County 4-H Horse Show. The winners included:

Registered Mares (any breed) 5 years and over: 1. Joe Ted Edwards; 2. Walter Perkins; 3. Twila Wood

Grand Champion Mare: Joe Ted Edwards

Reserve Champion Mare: Walter Perkins

Registered Geldings (any breed) 5 years and over: 1. Shelly Harris; 2. Darrel Johnson; 3. Kirk Saul; 4. Zane Reagan; 5. Cynthia Edwards; 6. Susan Payne; 7. DeVona

Smith; 8. Lee Ann McMurtry

Registered Geldings, under 5 years: 1. Robert Johnson; 2. Randy Clay; 3. Bill Settle

Grade Geldings (any breed) all ages: 1. Todd Reagan; 2. Jim Forbes; 3. Travis Kimbell

Grand Champion Gelding: Shelly Harris

Reserve Champion Gelding: Derrel Johnson

Showmanship: 1. Susan Payne; 2. Shelly Harris; 3. Cynthia Edwards; 4. Derrel Johnson; 5. Jim Forbes; 6. Robert Johnson; 7. Bill Settle; 8. Joe Ted Edwards; 9. Kirk Saul; 10. Zane Reagan

Western Pleasure: 1. Lee Ann McMurtry; 2. Zane Reagan; 3. Shelly Harris; 4. Robert Johnson; 5. Cynthia Edwards; 6. Shane Smith; 7. Bill Settle; 8. Twila Wood; 9. Susan Payne; 10. Joe Ted Edwards

Western Horesmanship: 1. Derrel Johnson; 2. Bill Settle; 3. Shelly Harris; 4. Cynthia Edwards; 5. Susan Payne; 6. Jim Forbes; 7. Randy Clay; 8. Devona Smith; 9. Twila Wood; 10. Zane Reagan

Reining: 1. Cynthia Edwards; 2. Jim Forbes; 3. Shelly Harris; 4. Joe Ted Edwards; 5. Susan Payne

Pole Bending: 1. Lee Ann McMurtry; 2. Susan Payne; 3. Joe Ted Edwards; 4. Jim Forbes; 5. Cynthia Edwards; 6. Randy Clay; 7. Shelly Harris; 8. Walter Perkins; 9. Devona Smith

Barrel Racing: 1. Lee Ann McMurtry; 2. Cynthia Edwards; 3. Joe Ted Edwards; 4. Susan Payne; 5. Jim Forbes; 6. Shelly Harris; 7. Randy Clay; 8. Shane Smith; 9. Twila Wood; 10. Walter Perkins.

Judge for this horse show was Huber Howell of Friona. The Briscoe County 4-H Horse Club would like to thank all the adult leaders who helped in any way to make the horse show possible.

The second Briscoe County 4-H Horse Show is scheduled for Saturday at 7:30 p.m. in the Wood Memorial Arena in Silverton. Ed Crawford, Extension Agent from Lubbock County, will be judging this show. All interested 4-H'ers are urged to participate.

Mr. and Mrs. Bob Morris of San Bernardino, California visited his uncle and aunt, Mr. and Mrs. Buddy Morris, Sunday. They were enroute home after a cross-country trip to Maine and back. They were to visit their youngest daughter and family in Tucson, Arizona after leaving here.

Mr. and Mrs. Delmar Davis of Dallas and their daughter and grandson, Mrs. Thomas Glenn and Jeff of Bedford visited the R. J. Harmons this week. Mrs. Harmon and visitors drove to Roaring Springs Wednesday and visited relatives and friends.

Mrs. Flossie Burnett of near Hermleigh is in the hospital at Snyder suffering with a heart condition. She is the sister of Mrs. Pete Rice.

Mr. and Mrs. Barry Shaffer of Lubbock stopped by to visit her grandparents, Mr. and Mrs. Tom Barbee, in Quitaque Sunday afternoon. They were enroute home from spending Father's Day with her parents, the Earnest Wayne Barbee, in Clarendon.

Forever has a different meaning for different people, but all of us accept forever as "a long time." This is especially true in terms of wasted energy -- once it's gone, it's gone forever. West Texas Utilities Company urges everyone to use all forms of energy as wisely and efficiently as possible. Make sure your home is properly insulated and weatherized; turn off unnecessary lights and appliances; and keep a careful check on the thermostat setting.

Just remember, wasted energy is lost forever -- and forever is a long time.

All this glory from one tiny seed! The sunflower towers taller than a man, its huge golden head filled with thousands of seeds . . . and every seed contains the mystery of life and growth that science cannot explain.

We are surrounded by miracles that man did not create. Who created them? Who created us? By the reasoning powers of our own marvelous minds we can be guided to see that God the Creator has made all things according to His plan, and that we can only achieve our highest development by living in harmony with it.

How can we know God's will for us? We need only a small seed of faith, for He will lead us in His way if we ask Him . . . and that seed will grow and flourish under His loving care.

THE CHURCH FOR ALL - ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

High Point Girl, Boy Named After Second County 4-H Horse Show

Cynthia Edwards was high point girl and her brother, Joe Ted Edwards, was high point boy of the Briscoe County 4-H Horse Show held in Wood Memorial Arena Saturday night, June 17. Points from the two horse shows were averaged to tabulate the final score.

Winners, from the Second Briscoe County 4-H Horse Show in-

cluded:
Registered Geldings, under 5 years: 1. Robert Johnson; 2. Randy Clay; 3. Bill Settle

Grade Geldings, all ages: 1. Iva June Johnson; 2. Todd Reagan; 3. Travis Kimbell

Grand Champion Gelding: Shelly Harris

Reserve Champion Gelding: Zane Reagan

Showmanship: 1. Shelly Harris; 2. Cynthia Edwards; 3. Susan Payne; 4. Zane Reagan; 5. Twila Wood; 6. Lee Ann McMurtry; 7. Bill Settle; 8. Joe Ted Edwards; 9. Randy Clay; 10. Derrel Johnson

Western Pleasure: 1. Zane Reagan; 2. Cynthia Edwards; 3. Bill Settle; 4. Devona Smith; 5. Derrel Johnson; 6. Joe Ted Edwards; 7. Shane Smith; 8. Susan Payne; 9. Twila Wood; 10. Randy Clay

Western Horsemanship: 1. Bill Settle; 2. Randy Clay; 3. Shane Smith; 4. Twila Wood; 5. Zane Reagan; 6. Robert Johnson; 7. Shelly Harris; 8. Cynthia Edwards; 9. Devona Smith; 10. Susan Payne

Reining: 1. Cynthia Edwards; 2. Shelly Harris; 3. Shane Smith; 4. Twila Wood; 5. Joe Ted Edwards; 6. Susan Payne; 7. Derrel Johnson; 8. Robert Johnson; 9. Kim Fitzgerald; 10. Randy Clay

Pole Bending: 1. Cynthia Edwards; 2. Lee Ann McMurtry; 3. Kim Fitzgerald; 4. Shelly Harris; 5. Randy Clay; 6. Joe Ted Edwards; 7. Susan Payne; 8. Walter Perkins; 9. Devona Smith

RANDI GAYE TAYLOR

WESLEY ROBERT PROCTOR

To Marry Soon

Mr. and Mrs. Hoyal Taylor announce the wedding plans of their daughter, Randi Gaye, and Wesley Robert Proctor. The wedding vows will be solemnized the evening of June 29 in a ceremony at 6:30 o'clock at the First Baptist Church in Childress. Friends and relatives of the families are invited to attend.

The prospective bridegroom is the son of Mr. and Mrs. Robert Proctor, jr., of Childress, and is the grandson of Mr. and Mrs. Robert Proctor, sr., of Turkey.

The prospective bridegroom is living at the Robert Proctor, sr. farm home. Mr. and Mrs. Robert Proctor, sr. are residing on Estel-line Avenue in Turkey.

Judge for this horse show was Ed Crawford, Extension Agent from Lubbock County. The Briscoe County 4-H Horse Club would like to thank all the adult leaders who helped in any way to make both the horse shows possible.

All 4-H activities and programs are open to all youth between the ages of 9-19 regardless of socio-economic level, race, color, sex, religion, or national origin.

CATTLE GRUB CONTROL IS DUE

Now is the time cattlemen can obtain the best results in combating a pest that costs the Texas livestock industry several million dollars each year, the cattle grub.

Losses from the grub occur at all levels in the cattle production and marketing chain.

The cow-calf producer is concerned about reduced milk production and resulting reduced weaning weights of calves. The feeder suffers losses as a result of reduced gains and lower prices for "grubby" animals. The packer who buys and slaughters "grubby" animals realizes hide loss, carcass trim and lowered carcass value.

The cattle grub begins to annoy cattle in late winter and early spring as a heel fly. The heel fly lays its eggs on the cattle, causing a "gadding" response in the animal.

The eggs deposited on the cattle hatch in from two to six days and the small larvae penetrate the skin. They then begin to migrate through the body of the animal, first to the esophageal tissues and, eventually, to the back.

After reaching the back, the larvae cut breathing holes in the skin and continue their development to mature larvae, or grubs, resulting in warbles in the backs of the infested animals. Upon reaching maturity, the grubs emerge

from the animal's back, fall to the soil to pupate, and emerge a few weeks later as adults.

The cycle takes approximately a year. Cattle grubs can be effectively controlled through the use of systemic insecticides. Best results are obtained when animals are treated as soon as possible after termination of heel fly activity and when grubs are small.

This time occurs in late May and June in most areas of Texas.

The systemic insecticides can be administered as dips, sprays, pour-ons, spot-ons, mineral mixes, and feed mixes. The types and names under which they are marketed include: Dips—Co-Ral or Ruelene; sprays—Co-Ral, Ruelene, Prolate, or Neguvon; pour-ons—Co-Ral, Ruelene, Warbex, Tiguvon, Prolate or Neguvon; spot-ons—Spoton; mineral mixes—Rid-Ezy; and feed mixes—Trolene or Famphur Feed Premix.

Before purchasing and using these insecticides, cattlemen should read the label and heed precautions and restrictions. None of these can be used in lactating dairy animals, some are not recommended for certain breeds, some are not used on animals under a certain age, use of some is not recommended if animals are sick or under stress, and frequency of application and number of applications are indicated on the label.

TO MARRY SOON

CLINTON JEAN PIGG

JOAN LEE TURNER

The wedding date set for the marriage of Miss Joan Lee Turner and Clinton Jean Pigg is Saturday, August 5. The vows will be exchanged at 7:30 p.m. in the United Methodist Church in Turkey.

Parents of the couple are Mr. and Mrs. Jan Turner of Turkey and Mr. and Mrs. Jack Pigg of Quitaque.

All friends and relatives of the couple are invited to attend.

Mrs. McWilliams Completes Study Course

Mrs. Kyle McWilliams, the former Betty Higginbotham, completed requirements for the General Development Diploma at the Adult Learning Center in Plainview Saturday, June 10, and June 13.

R. J. Palser, Director of Special Education and the GED Center, American Council on Education in Plainview, conducted the five-part, eight-hour examination. Mrs. McWilliams' test grades were above average and completion time was approximately five hours.

Mrs. McWilliams was a member of the 1978 class, having graduated from Matador Grade School and attended Motley County High School.

She is the daughter-in-law of Mr. and Mrs. Bob McWilliams of Quitaque, and is the daughter of Mr. and Mrs. Vernon G. Higginbotham of Whiteflat.

Mr. and Mrs. Bob Dvorak visited in Albuquerque and Gallup, New Mexico Wednesday through Friday.

Bobby Phills of Alamogordo, New Mexico is visiting in Turkey with his grandmother, Mrs. Theresa Farley.

Junior Gibson of Plano spent Saturday night of last week in Quitaque visiting his parents, the Gus Gibsons. They returned home with him to spend a few weeks.

DEAR EDITOR:

During May, Mental Health Month, Bellringer marchers raised a total of \$410.50 in Quitaque.

Our community can be truly proud of our support of a worthy charity, the Mental Health Association. This is a citizen activist organization that needs our contributions to survive.

I would especially like to extend my gratitude to the Bellringer marchers: Gladys Stroup, Elizabeth McDonald, Wanda Payne, Henrietta Scoggins and Faye Pointer.

Sincerely,
Mrs. Bud Bailey
Bellringer Chairperson

Mrs. Wallace Johnston of Quitaque returned to her home Saturday after spending three weeks in the Lockney General Hospital.

Mrs. Aline Zumwalt and son, Danny, of Kermit and Mrs. Terry Woods and son, Ashley, of Amarillo spent the weekend with the Shorty Woods in Quitaque.

Indian Burial Saved From Lake

Neil Taylor Employed As Manager Of Lake Mackenzie

A 100-year-old Indian burial has been saved from the rising waters of Lake Mackenzie by a West Texas State University archaeologist.

"We wanted to preserve these important remains for posterity," said Jack Hughes, a WTSU professor of archaeology.

The site was first noticed by Tulia resident Rueben Mireles and his companion who were fishing from a boat in Cope Creek when they saw a human skeleton on the shoreline.

They reported their discovery to assistant lake manager Gary Martin, who, with Game Wardens Julius Stevens and Ronnie Vandiver examined the location and returned to contact Hughes, warning him that the water was rising rapidly.

Hughes arrived several hours later from Canyon to begin a rapid excavation of the remains which were already three-fourths underwater.

Assisted by onlooking swimmers Jeff Jones and Bruce Tiffin, Hughes spent the next hours feeling for artifacts in mud covered at one point by four feet of water.

He recovered a slightly perforated skull and most of the bones of the upper torso of a male possibly in his late 20's.

An Amarillo pathologist tentatively identified the cause of death as vascular tumors which created the lesions in the skull, a congenital defect which often causes death in the late 20's, according to Hughes.

Hughes found his lower right arm encircled with ten broken copper wire bracelets.

There is evidence of copper stains on both the upper right and left arms, but no other bracelets were found at the site, according to Hughes.

The body also appears to have been wrapped in a red flannel trade blanket, evidences of which are lodged in mud packed into the pelvic region.

Accompanying the burial were two bridle bits, several bridle buckles and a metal stirrup. One bit is of Spanish design which was used for stallions and the other possibly a military Whitman curb bit of the Indian war period.

"The stirrup matches those on military saddles of the 1860's," Hughes said.

"A good many Indian burials have been found in the Panhandle," Hughes added. "This one is fairly typical."

In the 1860's, the period in which the artifacts seem to indicate the burial occurred, the Texas Panhandle was dominated by the Comanche Indians, who shared it with a few Kiowas, according to Hughes.

"The odds would say that this was a Comanche burial," he said.

"Many Great Plains Indians practiced scaffold or tree burials," Hughes said. "The Comanches and Kiowas apparently practiced burial under overhanging rocks."

"From all indications the Indians had placed this person and all his possessions under an overhanging ledge of sandstone," he said.

In time the ledge apparently broke away and slid down the slope a few yards, jumbling and scattering the remains.

A gully had also formed beside the site, exposing some of the bones to bleaching by the sun. And then the lake began rising.

"Everything that can happen to a site, happened to this one," Hughes commented.

Neil Taylor of Lubbock has been employed as manager of the Mackenzie Municipal Water Authority, effective June 12.

Mr. Taylor retired as principal of Cooper High School after serving in that capacity for 20 years. Mrs. Taylor is remaining in Lubbock at the present time, but will join her husband here when she has had time to train someone to take her job as tax assessor-collector. She has served in that position for 25 years.

The Taylors have three sons, none of whom are still living at home.

At the meeting of the board of directors of the Mackenzie Municipal Water Authority Tuesday night, Mr. Taylor was officially welcomed as the new manager.

It was announced that a \$6,000 emergency appropriation is being made by the Texas Parks and Wildlife Department for repairing and enlarging the existing boat ramp. This amount will be matched by \$6,000 from the Mackenzie Authority, and the ramp will be extended to approximately 33 feet wide and 100 to 120 feet long. Work is expected to begin after the Fourth of July holiday. The boat launching facility will be closed five to seven days while the work is underway, this to be about June 5-10.

Uncle Johnny McKay was taken to St. Anthony's Hospital in Amarillo Monday. According to reports, he was suffering with a heart condition.

Hal Cain of Lubbock visited his aunt, Mrs. W. W. Cain, in Quitaque Saturday. He is the son of a nephew of the late W. W. Cain.

WTSU Archaeologist Assistant Roberta Speer surveys the human skeletal remains and horse gear of an Indian burial that was rescued from the rising waters of Lake Mackenzie.

Mrs. Lemy Pike of Silverton visited Mrs. W. W. Cain Monday.

Rev. and Mrs. Pascal Barrett, Mrs. Joe Phillips and grandson, all of Austin, visited relatives in Quitaque over the weekend. All of them are former residents of Quitaque. Mr. Barrett is a brother of A. C. Barrett. They attended services at the Assembly of God Church and Mrs. Barrett preached Sunday evening.

Mr. and Mrs. Randy Stark of Plainview spent from Friday through Sunday visiting his parents, Mr. and Mrs. O. R. Stark, jr.

Mr. and Mrs. Roy Smith spent Friday night with their daughter and family, Mr. and Mrs. Willie Bradshaw and children at Floydada.

Mr. and Mrs. Roy Smith visited their son and family, Mr. and Mrs. Dwayne Smith and children in Irving a few days recently.

Mrs. Denver Anderson spent from Friday until Sunday at Dawn, Texas visiting her daughter and family, Mr. and Mrs. Gerald Foster.

Mr. and Mrs. Mike Spier and Darren of Clarendon spent Father's Day visiting the Murry Morrisons. Others visiting were the Murry Wayne Morrisons. Darren Spier remained for a longer visit with his grandparents.

Mr. and Mrs. Bert Lane and Patti Beth of Plainview attended church in Quitaque Sunday with Mrs. W. E. Morrison. Mrs. Morrison returned to Plainview with them to spend a few days.

Dawn and Derek, small children of Mr. and Mrs. David Butler of Conroe, have been visiting in Turkey with their grandparents, Mr. and Mrs. R. E. Butler, for three weeks. Mr. and Mrs. Butler returned their grandchildren to their home in Conroe the first of this week.

What... heats, broils, roasts; simmers, sizzles, broasts; grills, bakes, stews; panfries, and even barbecues?

GAS COOKING OUTDOORS

Gas cooking outdoors sure makes sense in the summertime. It keeps the heat out, so your house stays cool. You save on air conditioning. Plus there's no charcoal or lighter fluid to buy, and no wait. Gas reaches cooking temperature fast and cooks full family dinners, everything your inside range and oven can cook, with that great outdoor flavor.

Take the heat out of the kitchen. Install a gas grill on the patio. It sure makes sense in the summertime, or anytime!

Charmglow 2000

With 351 square inches of cooking surface and deep hood design, this popular grill has the capacity to cook a big turkey or whole ham. Heat sets with the turn of a knob, and the special H-shaped burner and permanent briquettes heat the entire cooking area evenly.

Only \$7.11 budget-priced on your monthly statement.

What do you think of... when you see a Church?

To almost everyone, the sight of a slender steeple raised to the sky evokes certain emotions—awe, perhaps, nostalgia, maybe—the sense that by not going to church lately, you've been missing something!

Next time you see a church, take a good look... and let yourself really feel what you see. If that makes you decide not only to look at the outside but also to go inside, that will be all to the good. For no matter how lovely a home you may live in, it can't compare with God's House. If you open the door, you'll find that, no matter how long you've been away, the welcome is warmer and more wonderful than you'll find anywhere else.

New Facilities To Serve Briscoe Countians

Central Plains Comprehensive Mental Health and Mental Retardation Center announces the opening of two new facilities to serve clients living in Parmer, Castro, Swisher, Briscoe, Bailey, Lamb, Hale, Floyd and Motley counties.

These homes and the programs with which they will interface are designed to prepare each client resident for independent community living over a period of several weeks to months. Many of the residents will be returning from state hospitals, where practically all individual needs are taken care of by the institution. Other residents will be persons who would probably need to go to state hospitals if these facilities were not available closer to their homes.

They will be attempting to teach the residents such basic "daily living" skills as how to plan and prepare simple meals, how to do laundry, how to open and maintain a bank account, how to complete applications and interview for jobs, how to get along better with other people, ways to use leisure time, and many other specifics that add up to increasing each client's personal responsibility and independence.

One facility will house up to twelve adult residents, the other will house up to twelve adolescent residents. Each house will have a full-time live-in manager and a relief manager for weekends. Other service units of the MH/MR Center will be involved with residents as planned on an individual basis to provide such other services as individual or group therapy, medication, job placement assistance, music therapy, occupational therapy, and recreational therapy.

This is the first program of its type for this area and required over three years to plan and complete. Funding for the majority of the construction was provided by a federal mental health grant.

The public is invited to attend open house ceremonies to be held from 2:30 until 4:30 p.m. Sunday, June 25, 1978, at the 405 Ennis Street Home in Plainview. The other home is located at 404 Floydada Street. Speaker of the Texas House of Representatives, Bill Clayton, will cut the ribbon. State Representative Pete Laney will also be present. The program will begin promptly at 2:30 to be followed by tours and snacks.

Mrs. Grady Tyler visited Friday night in Sweetwater with their daughter and family, Mr. and Mrs. Stan Simmons and Amanda.

Mr. and Mrs. Eddie Owens of Plainview spent from Saturday afternoon until Sunday evening visiting his parents, the Gaston Owens. Sunday morning, all the Owens drove to Amarillo and had lunch, then drove out to visit the Gaston Owens' new great-great-nephew, Todd Shoemake. Mrs.

Owens' sister, Mrs. Ollie McMinn of Silverton, was there to visit her great-grandchild and they all had a nice visit. Mrs. Gail Shoemake is the niece (the same age as Eddie Owens) who had open heart surgery a few years ago. Both she and the baby (and daddy Ben) are doing fine. The drive across Palo Duro Canyon was beautiful.

Mr. and Mrs. Loyd Fulkerson of Matador spent Saturday with her sister and husband, Mr. and Mrs. Buddy Morris.

WTU Urges Commission Not To Adopt Rate Structure Management Controls

West Texas Utilities Company has urged the Public Utility Commission of Texas not to adopt innovative utility rate structures or new electric use management controls until it is proven conclusively that benefits outweigh costs and that the customer will readily accept the change.

In a statement prepared for hearings which began Monday in Austin, G. Holman King, a WTU vice president, advised against rate concepts "which might be politically attractive in the short run but which would have disastrous effects on the public in the long run."

Specifically, King said WTU opposes widespread application of time-of-day pricing, mechanical load management techniques, and lifeline rates.

Time-of-day pricing would charge more for electricity consumed during the hours when demands on an electric system's generating capacity is at its peak. By trimming the peak, a utility company could delay capital outlays for new power plants and benefit all customers.

Load management deals with non-pricing methods for changing the level or pattern of demand for electricity. It could involve devices which curtail operation of appliances such as water heaters and air-conditioners at certain times.

The so-called lifeline rates are designed theoretically to help the poor by providing at low cost the minimum amount of electricity necessary to maintain a modest quality of life.

King said WTU's position is that electric rates should be based on the cost of service to all customers.

Mr. and Mrs. Bert Lane and their daughter, Patti, of Plainview attended services in Turkey at the Church of Christ Sunday and were dinner guests of his parents, Mr. and Mrs. Leon Lane.

For Sale: 1970 Mustang 351, 4 brl., good condition. Call Ted Gidden, 455-1150. 2-2tp

LEGAL NOTICE

BEGINNING SALARY: \$3.30 per hour.
CONTACT: Mr. Gwan H. Wilkinson, in person, on or before June 28, 1978, at Briscoe County Maintenance Warehouse in Silvertown, Texas.

TIME: Between 3:30 and 4:30 p.m. weekdays.
SDHPT is EQUAL OPPORTUNITY EMPLOYER. 2-1tc

"We believe this approach to be far more cost effective and efficient than lifeline or other socially oriented utility rate forms. WTU endorses the idea that the poor need relief from rising utility bills, as well as other inflated living costs, but believes the better solution lies in the use of social agencies qualified to determine an individual's need and to act accordingly."

The hearings have been scheduled for nine days, and were requested by the Texas Legislature. A Commission spokesman said the purpose is to "find rate structures which meet present-day conditions."

After considering the findings, the Commission will issue recommendations to the Legislature late this year.

King said WTU sees the main issue of the hearing as an effort to "determine how the rising cost of electric service will be assigned to each of the customer classes being served by each utility."

The primary question to be answered, he said, is "Will it be public policy in Texas to allocate the cost burden as equitably as possible among our customers or will one class be given preferential treatment over the others?"

Time-of-day pricing has been found practical for some of WTU's large electric customers which have flexibility to change their time of use, King said, but is not considered feasible for most residential and commercial customers.

A major objection, he noted, would be the initial cost of special time-of-day meters. Cost of installation throughout WTU's large, sparsely populated territory would be almost \$25 million, which is equal to the cost of the company's newest power generating plant.

Another obstacle would be customer resistance. Shifting a desired amount of electric load away from the peak demand period would require customers to turn off their air-conditioners during the hottest hours of the summer.

Load curves of WTU's 1977 system peak demand show that to accomplish a significant reduction of electric usage, the period defined as "on-peak" and subject to higher rates would have to be extended from early afternoon to almost midnight.

"This would defeat the purpose of air-conditioning and be completely unacceptable to our customers," King said.

He added that WTU's experience with time-controlled water heaters indicates that customers will not accept time clocks or other devices which drastically interfere with their living patterns.

Concerning lifeline rates, the WTU statement recognizes "the severe economic squeeze being felt by the poor and by those on fixed incomes," but rejects lifeline rates as a method of relieving these problems.

"Our study in the City of Abilene in 1976, using U. S. Census Bureau data, block canvassing, real estate evaluation, and other information showed no consistent correlations between financial income and kilowatt hour usage."

King said the Crisis Intervention Program administered by the Texas Department of Community Affairs worked reasonably well this past winter in identifying and assisting those with real needs.

After considering the findings, the Commission will issue recommendations to the Legislature late this year.

King said WTU sees the main issue of the hearing as an effort to "determine how the rising cost of electric service will be assigned to each of the customer classes being served by each utility."
